

ASSET VERIFICATION FORM
2009-2010

Student Name _____ Pima ID# _____

Address _____

Phone _____ Pima E-mail _____

Please answer the following questions about yourself. If you are married, include your spouse's information. If you are a dependant student, you must provide parents information. You are being asked to report the net worth of any investment, asset, business, cash/savings or checking account(s) that you and your spouse or your parents had at the time you completed your FAFSA.

If you and your spouse or your parents do not have assets to report, or the assets were underreported on your FAFSA, please use the spaces below to provide the correct figures. If you have no assets to report, place zeroes in the spaces below. We will not process your award until this form is properly completed and submitted to the financial aid office.

The net worth of an asset is calculated by first determining the current value and then subtracting any outstanding debt. Note: if you, your spouse or your parents are not sole owners of the asset, you only report the net worth of the share that is owned by you, your spouse or your parent.

Table with 3 columns: Asset Verification Items, Net Worth for Student/Spouse, Net Worth for Parent. Rows include Real Estate, Investments, Business/Farms, and Cash, Savings and/or Checking Account Balance.

By signing this worksheet, I (we) certify that all the information reported is complete and correct.

STUDENT SIGNATURE _____ DATE _____

PARENT SIGNATURE _____ DATE _____
