

New Student Orientation - The Pima Advantage

New Student Orientation is an essential learning experience to start your first year off right. In orientation you will learn what classes to take, how to register, and the resources available to help you succeed. Additionally, you'll receive personalized advising at orientation.

First-time college students are required to participate in orientation to help ensure their academic success. Transfer and returning students are highly encouraged to participate in orientation to learn about Pima processes, services and resources.
