Project Summary

1. Request for Proposal Summary
Pima County Community College District ("College") is seeking proposals from qualified firms for
Pest Control Services in accordance with the Scope of Work specified in this RFP.

2. Entity Submitting RFP. The terms “vendor,” “offeror,” “firm,” “consultant,” “company,” or “contractor”
used in this RFP or any subsequent documents or communications related to this RFP are
interchangeable and mean the entity submitting a proposal and seeking to enter into a contract for
the goods and/or services requested in this RFP.
Program Objective

In the past the District’s pest control programs’ primary methods of treatment included using a liquid residual insecticide for baseboard treatments on interiors, with outside spot treatments as needed. Other methods have included treating cabinets and sink areas with a liquid residual insecticide and “fogging” infested areas. Once, these “broad target spectrum” and “saturate pest crawlway” methods were considered state of the art, but over time, have proven ineffective. A routine monthly application of chemical, whether or not it is needed, also creates an unnecessary chemical exposure. This is particularly undesirable in situations where food preparation and students may be involved.

This specification is part of a comprehensive Integrated Pest Management Program (IPM) program for campuses within the District. IPM is a process for achieving long term, environmentally sound pest suppression/eradication through the use of a wide variety of technological and management practices. Control strategies in an IPM program extend beyond the application of pesticides to include structural and procedural modifications that reduce the food, water, harborage, and access used by pests.

The District desires to implement an IPM program encompassing campuses within the District’s jurisdiction. Vendors will submit proposals to perform an IPM program that provide supervision, labor, materials, and equipment necessary to accomplish the surveillance, trapping, pesticide application, and pest removal components of an IPM program. Vendors’ program will also provide detailed, site-specific recommendations for structural and procedural modifications to aid in pest prevention. Proposals for programs will utilize the following criteria:

1. **Exterior Treatments.** Complaints of infestations other than German roaches generally arise from pests that are invading buildings from the exterior landscape. The exterior treatment will consist of inspecting building exteriors and areas adjacent to the structures. During this inspection, insect resource and reservoir sites will be identified and serviced in an appropriate manner. Servicing may include residual spot treatment, baiting, or granulation, or other applications as required. Additionally, but not be limited to, conditions conducive to insect/rodent habitation will be identified and reported to District Staff.

2. **Interior Treatments.** Interior treatment will involve a visual inspection of buildings on each campus in the District. Special attention will be given to food handling, physical plant, lounge, multi-purpose room, gym, and restroom facilities. Monitors will be placed in discreet areas where infestations are most likely to occur. When activity is observed, treatment will be rendered using nonchemical methods when possible and chemical methods when required. Additionally, but not be limited to, conditions conducive to insect/rodent habitation will be documented and reported to District Staff.

These methods are to ensure that chemicals (if needed) are applied to areas where insects breed/harbor, and virtually eliminate odors and chemical exposures normally associated with Pesticide applications.
3. **Logbook tracking System.** Control measures prescribed above will be supplemented with a Logbook Tracking System. This is to insure the establishment of a detailed program, ensure continuity of service, and provide a communication instrument between District Staff and the pest control contractor. At each campus and administrative site, the contractor will maintain separate logbook tracking systems for the kitchen/cafeteria and Facilities Management Office. Copies of each inspection report will be forwarded to Campus Plant Manager and District Grounds Supervisor. Sample tracking system must be provided with proposal response.

4. **Quality Assurance.** A Quality Assurance Manager, Technical Director, or Entomologist will make quality assurance inspections of all sites included in bid. Inspections will be performed on a semiannual basis and each inspection will be followed by a written report. The manager will be available to District supervisory staff should questions arise regarding service. Additionally, annual summaries of service history shall be made in writing to District Grounds Supervisor. The purpose of this system is to detect and correct deficiencies in the quality of services before the level of performance becomes unacceptable and/or the District identifies the deficiencies.

5. **Orientation.** The pest control contractor’s Technical Director or Entomologist will conduct in service training seminars for appropriate District employees in order to ease implementation of an IPM program. This seminar will also instruct District staff on pest recognition and sanitation enhancement.

6. **Service Schedule.** Service will be performed monthly on a regularly scheduled basis, the same day each month (i.e. first Monday, second Wednesday, etc.). If the regularly scheduled day falls on a holiday, prior arrangements for rescheduling service will be made. A copy of the service schedule will be forwarded to the Contract Manager*.

7. **Service Personnel.** Service shall be performed by a trained Arizona State Certified Technician, who will report to District Site Manager * at the beginning and end of each service call. A verbal and written report of findings and service will be provided at that time. At a minimum, two service representatives and one supervisor shall be familiar with Pima County Community College District service specifications and available for service requests at each campus.

8. **Housekeeping.** If sanitation or other in-house factors become a problem to the extent that the pest control contractor cannot maintain an effective pest control program, The District will ensure that these factors are corrected.

9. **Pests Included:**
   a. Indoor populations of Cockroaches (all species), Bed Bugs, Crickets, Ants, Spiders, Rats, Mice, and any other Arthropod pests not specifically excluded from the contract.
   b. Populations of the above pests that are located outside of the specified buildings, but within the property boundaries of the buildings.
   c. Individuals of all excluded pest populations that are incidental invaders inside buildings.
10. Pests Excluded: (Provide quotes for additional services including warranties, as follows)

- Birds, bats, snakes, and all other vertebrates
- Termites and other wood destroying organisms
- Mosquitoes, moths, flies, bees, wasps
- Pests that primarily feed on outdoor vegetation

11. Emergency Service. Emergency service for covered areas and pests shall be addressed within 8 working hours of receipt of request at no additional charge. (Normal working hours are defined as 8 A.M. to 5 P.M. (MST) Monday through Friday, holidays excepted)

12. Pesticide Use. Contractor shall adhere to the following rules for pesticide use:

- Approved Products. Contractor shall not apply any pesticide product that has not been submitted with their proposal, or approved in writing by the Contract Manager and/or Pima Community College’s Environmental Health and Safety department.
- Pesticide Storage. Contractor shall not store any pesticide product on District Premises.
- Application by Need. Pesticide application shall be according to need and not by schedule. As a general rule, application of pesticides in any inside or outside area shall not occur unless visual inspections or monitoring devices indicate the presence of pests in that specific area. Preventative pesticide treatments of areas where surveillance indicates a potential insect or rodent infestation are acceptable on a case-by-case basis. Written approval must be granted by the District prior to any preventative pesticide application.
- When pesticide use is necessary, the Contractor shall employ the least hazardous material, most precise application technique, and minimum quantity of pesticide necessary to achieve control.

13. Insect Control. The Contractor will use non-pesticide methods of control whenever possible. For example:

- Portable vacuums rather than pesticide sprays shall be used for initial cleanouts of insect infestations.
- Spiders in webs will be physically removed using brooms, etc., rather than pesticide sprays

When it is determined that a pesticide application is necessary, the following rules will apply:

- Crack and Crevice Applications. As a general rule, the Contractor shall apply insecticides as “crack and crevice” treatments only. Crack and Crevice is defined in this contract as treatments in which the formulated insecticide is not visible to a bystander before, during, or after the application process.
- Insecticide Bait Formulations. Bait formulations shall be the primary means for indoor insect control.
- Monitoring. Sticky traps shall be used to guide and evaluate indoor insect control efforts whenever necessary.
Application of Insecticides to Exposed Surfaces or as Space Sprays. Application of insecticides to exposed surfaces or as space sprays (including fogs, mists, and ultra-low volume applications) shall be restricted to unique situations where alternative measures are not practical. Contractor shall obtain approval of the District prior to any application of insecticide to an exposed surface or any space spray treatment. No surface application or space spray shall be made while tenant occupants are present. Contractor shall take necessary precautions to ensure student and staff safety, and necessary steps to ensure containment of the pesticide to site of application.

- Indoor Trapping. Rodent control inside occupied buildings will be accomplished using trapping devices only. Traps will be concealed out of the general view and in protected areas so as not to be affected by routine cleaning and other operations. Traps will be checked on a schedule approved by the District. Contractor will be responsible for disposing of trapped rodents and rodent carcasses in an appropriate manner.
- Use of Rodenticides. Rodenticides, regardless of packaging, shall be placed in locations not accessible to children, students, the general public, pets, wildlife, and domestic animals, or in EPA approved tamper resistant bait boxes.
- Use of Bait Boxes. Frequency of bait box servicing will depend upon the level of rodent infestation. Bait boxes shall be maintained in accordance with EPA regulations, with an emphasis on the safety of non-target organisms. The Contractor will adhere to the following six points:
  A. Bait Boxes will be placed out of the general view, in locations where they will not be disturbed by routine operations.
  B. Lids of all bait boxes shall be securely locked or fastened shut.
  C. Bait boxes shall be securely attached or anchored to the floor, ground, wall, or other immovable surface, so the box cannot be picked up or moved.
  D. Bait shall be secured (with wire or other appropriate means) within the bait box within the baffle protected feeding chamber of the box, and never in the runway of the box.
  E. Bait boxes will be labeled with the Contractor’s business name and address, and dated by the Contractor’s technician at the time of installation and servicing.
  F. In order to measure effectiveness of rodenticide baiting programs on each service visit Contractor will record bait consumption for each bait station services. Bait consumption reports will be forwarded to College representative.

15. Licenses. Successful contractor must hold all applicable AZDA (Arizona Department of Agriculture) Pest Management Division certifications and licenses. Copy of license will be submitted with proposal.

16. Warranty. Regular services for covered pests will be warrantied for 30 days after treatment.
17. **Evaluation Criteria.** Evaluation criteria will include bidder’s past conformance with Integrated Pest Management specifications. At a minimum, contractors bidding on this project will submit with their proposal:

- A detailed ongoing preventative maintenance program tailored to meet the needs of a variety of campus environments.
- Minimum of three years’ experience with implementation and continuation of IPM programs. Client list for at least five major IPM accounts (multiple building, multiple scattered sites).
- On staff Entomologist: minimum requirement of Bachelors of Science in related fields. List of academic credentials of Staff Entomologist must be submitted.
- Copy of Safety Program and Hazard Communications Program.
- Copy of Pest Control License showing all classifications.
- Sample of Log Book Reporting System (representative of system Proposer is using in current IPM accounts). Include sample bait consumption forms.
- List of chemicals that can be used during service by brand name and type of formulation (example: Tempo – Liquid Residual) must also be submitted with the proposal.

   All proposals must include the complete Proposal Form signed by a person or an official authorized to commit the firm to a contract with College.

   By signing the Proposal Form the offeror certifies that the submission of the proposal did not involve collusion or other anti-competitive practices; that the offeror has not given, offered to give, nor
intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted proposal. The Offeror also certifies whether it is a small business under the federal regulations, and if so, the category of eligible small business.

3. Cost Proposal

The Cost Proposal shall conform to the following guidelines:

6. Scope of Relationship. Contractor is an independent contractor. Neither Contractor nor any of Contractor’s employees, agents, or subcontractors, or their employees or subcontractors (collectively, with Contractor, “Contractor Parties”), shall be deemed employees, agents, partners, or joint ventured of College, and nothing in this Agreement will be construed to authorize either party to act as agent for the other.

   7.1. College’s Intellectual Property All intellectual property that Contractor may make, conceive, discover, develop, or create, either solely or jointly with any other person or persons including College, pursuant to or in connection with the Services, including all intermediate and partial versions (“Contract IP”), will be owned by College, and where applicable, all copyrightable Contract IP will be considered “Work Made for Hire” under the U.S. Copyright Act, 17 U.S.C. §101 et seq. The College Data also includes all data and information provided directly to Contractor by College students and employees, and includes personal data, metadata, and user content. The College Data will be College’s Intellectual Property and Contractor shall treat it as College’s confidential and proprietary information. Contractor will not use, access, disclose, or license or provide to third parties any College Data, or any materials derived therefrom, except: (i) to the extent necessary to fulfill Contractor’s obligations to College under this Agreement; or (ii) as authorized in writing by College. Upon request, Contractor shall provide College with copies of those policies and plans.

11.3. Contractor shall maintain and enforce personnel policies that appropriately check the backgrounds of its employees who will be providing services to College. Upon request, Contractor shall provide College with copies of those policies.

In the event Contractor has reason to believe that an actual or suspected security incident or any other circumstance has occurred in which College may be required to perform a risk assessment and/or provide a notification under applicable law, Contractor shall immediately, and in no event later than twenty four (24) hours, notify the College's Chief Privacy Officer and the Office of General Counsel. Any such notice shall provide a description about the Confidential Information that was accessed as Contractor has available at the time of the notice. Contractor shall keep the Office of General Counsel updated promptly as additional details about the nature of the Confidential Information become available.

11.5. In the event of a breach, Contractor shall mitigate, to extent practicable, any harmful effect that is known to Contractor of a use or disclosure of Confidential Information in violation of this Agreement by Contractor or its subcontractor. Furthermore, in an event of a breach involving College's Confidential Information, Contractor shall obtain a mutually agreed upon vendor to provide at no cost to College forensic services, including, but not limited to, the collection of information in connection with a forensic and risk analysis.

Such indemnification shall specifically include (i) infringement claims made against any and all intellectual property supplied by Contractor and third party infringement under the Agreement; and (ii) claims related to the disclosure of College’s Confidential Information.

13. Use of Names; Trademarks. Neither party shall use the other party's trade name, trademark, service mark, logo, domain name, or any other distinctive brand feature ("Marks"), or the names of the party's employees in any publicity or advertising material without prior written approval by the other party. Contractor's use of any College's Marks, if and when authorized, shall comply with the College's design and drawing specifications.

14. Use of College Property. While on College property, Contractor shall comply, and shall ensure that its employees, agents, and subcontractors comply, with College policies and procedures governing security and privacy, the Drug-Free Environment, Smoking, Weapons, and Anti-Harassment (including Sexual Harassment), all of which can be found here. Contractor’s personnel, agents, and subcontractors shall comply with all reasonable requests of College communicated to Contractor regarding personal and professional conduct, and shall otherwise conduct themselves in a businesslike manner.

15. Compliance Generally. The parties shall comply with the requirements of all applicable state and federal rules, regulations, and executive orders, including the Americans with Disabilities Act (ADA), 42 U.S.C. § 12132, Immigration and Nationality Act (INA), 8 U.S.C. § 1324a, and A.R.S. § 41-4401.

16. Equal Opportunity; Non-Discrimination. The parties shall comply with the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a), prohibiting discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, or national origin.
17. Misuse of Public Funds. Contractor warrants that, with respect to any Federal, State, or local government funds: (i) Contractor has not been terminated under section 432 of the Higher Education Act for a reason involving the acquisition, use, or expenditure of such funds; (ii) has not been administratively or judicially determined to have committed fraud or any other material violation of law involving such funds; and (iii) Contractor or its officers or employees have not been convicted of, or pled nolo contendere or guilty to, a crime involving the acquisition, use, or expenditure of such funds, or administratively or judicially determined to have committed fraud or any other material violation of law involving such funds. A breach of the foregoing warranty shall be deemed a material breach of this Agreement. In addition to the legal rights and remedies available to College under the Agreement and law, in the event of such a breach, College shall have the right to terminate this Agreement.

18. Federally-Funded Agreement. If this Agreement is funded through federal contract or grant, directly or indirectly, Contractor shall comply with all applicable provisions of Attachment E.

19. Non-Assignment. This Agreement is personal to Contractor. Contractor shall not assign any of the Contractor’s rights or delegate any of the Contractor’s obligations under this Agreement to any other person or entity without the written permission of College. Any attempted assignment or delegation by Contractor shall be void and ineffective.

20. Referencing of Orders. For each order issued against this Agreement, College intends in good faith to reference the RFP used in procuring the Contractor’s services for pricing, terms and conditions, delivery location, and other particulars. However, in the event College fails to do so, College’s right to such terms, conditions, and particulars shall not be affected, and no liability of any kind or amount shall accrue to College.

21. Price Adjustment for Multi-Year Contracts. Price changes will normally only be considered at the end of one Agreement Term and the beginning of another. Price change requests shall be in writing, submitted at least sixty (60) days prior to the end of the current Term, and shall be supported by written evidence of increased costs to Contractor. College will not approve unsupported price increases that will merely increase the gross profitability of Contractor at the expense of College. Price change requests shall be a factor in the Agreement extension review process. College shall, in its sole opinion, determine whether the requested price increase or an alternate option is in the best interest of College.

22. Right to Offset. College shall have the right to offset against any sums due to Contractor, any expenses or costs incurred by College, or damages assessed by College concerning the Contractor’s non-conforming performance or failure to perform the Services under this Agreement, or any other debt owing College.

23. Stop Work Order. College may at any time, by written order to Contractor, require Contractor to stop all or any part of the work called for by the Agreement (“Stop Work Order”) for a period of up to ninety (90) days after the order is delivered to Contractor, and for any further period to which the parties may agree. Upon receipt of the Stop Work Order, Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incidence of costs allocable to the work covered by the order during the period of work stoppage. If a Stop Work Order issued under this provision is canceled or the period of the order or any extension expires, Contractor shall resume work. College shall make an equitable adjustment in the delivery schedules, pricing, or both, and the Agreement shall be amended in writing accordingly.

24. Gratuities. College may, by written notice to Contractor, cancel this Agreement if it is discovered by College that gratuities, in the form of entertainment, gifts or other were offered or given by Contractor or any agent or representative of Contractor, to any officer or employee of College with a view toward securing an agreement or securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing of such Agreement. In the event the Agreement is canceled by College pursuant to this provision, College shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by Contractor in providing such gratuities.
25. Insolvency. College shall have the right to terminate the Agreement at any time in the event Contractor files a petition in bankruptcy; or is adjudicated bankrupt; or if a petition in bankruptcy is filed against Contractor and not discharged within thirty (30) days; or if Contractor becomes insolvent or makes an assignment for the benefit of its creditors or an arrangement pursuant to any bankruptcy law; or if a receiver is appointed for Contractor or its business.

26. Cancellation for Conflict of Interest. Pursuant to the provisions of A.R.S. § 38-511, College may, within three (3) years after its execution, cancel this Agreement without penalty or further obligation if any person significantly involved in negotiating, drafting, securing or obtaining this Agreement for or on behalf of College becomes an employee or agent in any capacity of any other party or a Contractor to any other party with reference to the subject matter of the Agreement while the Agreement or any extension thereof is in effect.

27. Non-Appropriation. Contractor acknowledges that College is a public institution and that the continuation of this Agreement from each fiscal year to the next during the Term shall be contingent upon the obligation of sufficient funding by the governing body for College. College shall notify Contractor party in writing as soon as reasonably possible after the unavailability of funding comes to its attention, but no later than sixty (60) days prior to the end of then fiscal year. This provision shall not be construed so as to permit College to terminate the Agreement in order to acquire similar goods or services from another party.

28. Force Majeure. Neither party shall be held responsible for any losses resulting if the fulfillment of any terms or provisions of this Agreement are delayed or prevented by any cause not within the control of the party whose performance is interfered with, and which by the exercise of reasonable diligence, that party is unable to prevent.

29. No Waiver of Right by College. No waiver by College of any breach of the provisions of this Agreement by Contractor shall in any way be construed to be a waiver of any future breach or bar the College's right to insist on strict performance of the provisions of this Agreement.

30. Dispute Resolution; Arbitration. In the event of a dispute arising under this Agreement, the parties shall exhaust all applicable administrative remedies provided for under the College Administrative Provisions. Additionally, this Agreement is subject to arbitration to the extent required by A.R.S. §§ 12-133 and 12-1518, and Rule 3.9 of Pima County Superior Court Local Rules.

31. Severability. If any provision of this Agreement is held to be unenforceable, then that provision will be modified to the minimum extent necessary to make it enforceable, unless that modification is not permitted by law, in which case that provision will be disregarded. If an unenforceable provision is modified or disregarded, then the rest of the Agreement will remain in effect as written.

32. Governing Law; Venue. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Arizona, without regard to its conflicts of law principles. Jurisdiction and venue for any dispute arising out of this Agreement shall exclusively rest in the Pima County, Arizona.
