Pima Community College is an equal opportunity, affirmative action employer and educational institution committed to excellence through diversity. See page 627 for more information.

Reasonable accommodations, including materials in an alternative format, will be made for individuals with disabilities, including students with intellectual disabilities, as soon as can be reasonably expected upon receiving proper notification. For the public, please contact the PCC information line at (520) 206-4500 (TTY 206-4530); for PCC students, contact the appropriate campus Access and Disability Resources office. Additional information on services and facilities that support individuals with disabilities is available in the Student Services and Student Life section of this document.

The PCC Department of Public Safety provides an Annual Crime Statistics and Clery Crime Act Report of information and statistics for the previous three years concerning reported crimes that occurred on campus and in certain off-campus buildings or property owned or controlled by the Pima County Community College District; and on property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security, such as policies concerning sexual assault, and other matters. You can obtain a copy of this report by contacting (520) 206-2671. The report can be found online at www.pima.edu/dps/reports.

The Pima Community College Catalog and the semester Schedule of Classes are available as electronic documents published on the College website at www.pima.edu. All information—including statements on admission, tuition, fees, course offerings and graduation requirements—is subject to change without notice, obligation or liability.

Message from the Chancellor

Welcome to Pima Community College. PCC is dedicated to giving our constituents the best opportunity to achieve their personal goals through the promise inherent in education. We are committed to imparting knowledge that furthers academic achievement, economic development and cultural connection.

Our 2015-2016 Catalog contains a wealth of information on the wide variety of learning opportunities offered at PCC. Our credit programs award certificates and associate degrees in dozens of fields. PCC also provides workforce development, career training, continuing education and adult education.

Whether you choose to attend PCC to transfer to a bachelor’s-degree granting college or university, to improve your job skills, or pursue an entirely new career, we can help you achieve your objective.

Pima Community College will be here as a lifelong partner to help you grow academically and professionally.

Lee D. Lambert

### Academic Calendar

#### Fall Semester 2015

- Fall early registration payment deadline: Aug. 14
- Faculty advising begins: Jan. 12
- All College In-Service Day (College closed): Aug. 19
- **Fall classes begin** (for 16-week classes): Aug. 26
  ‡ First 8-week session begins: Aug. 26
  - Registration deadline (for 16-week classes): Aug. 25
  - Labor Day holiday (College closed): Sept. 7
  - Drop/Refund/Audit deadline (for 16-week classes): Sept. 8
  - Graduation Application deadline: Oct. 16
  - First 8-week session ends: Oct. 20
  ‡ Second 8-week session begins: Oct. 21
  - Veterans Day holiday (College closed): Nov. 11
  - Student Withdrawal deadline (for 16-week classes): Nov. 12
  - Thanksgiving holiday (College closed): Nov. 26-29
  - Final exam week: Dec. 14-20
- **Fall classes end** (for 16-week classes): Dec. 20
- Second 8-week session ends: Dec. 20
- Holiday break (College offices closed): Dec. 24–Jan. 1
  (College closed at noon on Dec. 24)

#### Spring Semester 2016

- College offices open: Jan. 4
- Spring early registration payment deadline: Jan. 8
- Faculty advising begins: Jan. 12
- All Faculty Day: Jan. 15
- Martin Luther King Jr. holiday (College closed): Jan. 18
- Registration deadline for 16-week classes: Jan. 18
- **Spring classes begin** (for 16-week classes): Jan. 19
  ‡ First 8-week session begins: Jan. 19
  - Drop/Refund/Audit deadline (for 16-week classes): Feb. 1
  - Graduation Application deadline: Feb. 24
  ‡ Second 8-week session begins: March 13
  - Spring break (no classes): March 14–20
  ‡ Second 8-week session begins: March 21
  - Student Withdrawal deadline (for 16-week classes): April 7
  - Final exam week: May 11-17
  - Second 8-week session ends: May 15
- **Spring classes end** (for 16-week classes): May 17
- Graduation: May 19

#### Summer Sessions 2016

- Winter online classes end: Jan. 8
- Drop/Refund/Audit deadline: Jan. 22
- Spring classes begin: Jan. 25
- Spring classes end: Aug. 9

### Session A

- Registration deadline: May 30
- Classes begin: May 31
- Drop/Refund/Audit deadline: June 3
- Student Withdrawal deadline: June 23
- Classes end: July 5

### Session B

- Registration deadline: July 5
- Classes begin: July 6
- Drop/Refund/Audit deadline: July 11
- Student Withdrawal deadline: July 28
- Classes end: Aug. 15

### Session C

- Registration deadline: May 30
- Classes begin: May 31
- Drop/Refund/Audit deadline: June 6
- Student Withdrawal deadline:
  - 8-week session: July 6
  - 10-week session: July 18
- Classes end:
  - 8-week session: July 25
  - 10-week session: Aug. 10

‡ Sessions may begin earlier at Davis-Monthan Air Force Base.

** The College will be open for classes/activities on the Saturday and Sunday following the 2016 Rodeo Holiday.
The College
How This Catalog Can Help Students To Succeed

The Pima Community College Catalog is a valuable tool in answering your questions and helping you while you are at Pima Community College. This catalog is organized to guide you through each step of your college career at this institution:

- Admission/Registration
- Tuition and Fees
- Financial Aid
- Certificate and Degree Requirements
- Course Descriptions
- Campus Services
- Faculty Information
- Selected Policies

If you have any questions about the material in this catalog or need help in planning your educational goals, please see a PCC advisor or counselor at any of the campuses or centers.

This catalog is one of three publications essential to a student’s success at Pima Community College.

The other two publications are:

- Schedule of Classes—a semester publication of classes offered. The schedule is available online (www.pima.edu) and at all campuses.
- Student Handbook—an annual publication of regulations and resources at PCC. The handbook is distributed to students attending orientation and available at any campus Student Services Center.

Accreditation

Pima Community College (4905 E. Broadway Boulevard, Tucson, AZ 85709, 520-206-4500) is accredited by the Higher Learning Commission of the North Central Association of Colleges. The College is on Notice. Notice means that the College is now in compliance with the HLC’s Criteria for Accreditation, but remains at risk of being out of compliance with the Criteria for Accreditation and the Core Components. The Commission can be reached through its website (www.higherlearningcommission.org), by telephone (800-621-7440), or by mail at 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504. The following programs also have been accredited or certified by specialized agencies recognized by the Arizona Department of Education and/or the U.S. Department of Education: Automotive Technology, Building and Construction Technology, Dental Assisting, Dental Hygiene, Dental Laboratory Technology, Early Childhood Education, Emergency Medical Technology, Health Information Technology, Machine Tool Technology, Medical Laboratory Technology, Nursing, Paralegal, Pharmacy Technology, Radiologic Technology, Respiratory Therapy, Surgical Technology, Teacher Education, Therapeutic Massage, and Veterinary Technology. In addition, Pima’s Aviation Technology Program is approved by the Federal Aviation Administration.

College Vision

Pima Community College will provide access to learning without the limits of time, place or distance.

College Values

We value:

- Accountability
- Diversity
- Innovation
- Integrity
- People
- Quality

Mission Statement

The mission of Pima Community College is to develop our community through learning.

College Goals

1. To improve access to higher education.
2. To provide excellent teaching and responsive student services.
3. To prepare a highly skilled workforce.
4. To create student-centered partnerships with colleges and universities.
5. To create partnerships with business and industry, local schools, government, and other sectors that enhance the community.
6. To provide effective developmental and adult basic education.
7. To foster responsible civic engagement.

Institutional Effectiveness Policy

The College is committed to ensuring institutional effectiveness through continuous assessment and quality improvement. Accordingly, the College will establish responsive and integrated planning, evaluation, development and project-support systems to help the College fulfill its mission in the most effective and efficient manner.

The College annually measures its overall mission performance by reporting to the community through the College planning process.
College Profile

In 1966 the citizens of Pima County, Arizona, voted by a large margin to form a junior college district. The county superintendent of schools appointed a five-member governing board that laid the groundwork for Pima College. With help from committees composed of citizens, the board developed educational goals, created a financial plan, selected a president, and chose a campus site.

The next year the citizens of Pima County elected a board to replace the appointed officials and approved a $5.9 million bond issue for the College. In 1969, construction on the first campus began on a 267-acre site in the foothills of the Tucson Mountains west of the city.

The College’s first classes met in the fall of 1969 at Tucson Medical Center, Villa Maria, and Marana. In the fall of 1970 Pima College officially opened its doors to 3,543 students. Classes were held in unlikely quarters, a hangar at Tucson International Airport. By January of 1971, students in all programs attended classes in the 11 buildings on Anklem Road — today’s West Campus, which has expanded to include a center for the arts to serve about 17,000 students annually.

Expansion and evolution soon began. In 1972 the board renamed the institution Pima Community College to better reflect its mission of service to the community. It began to offer greater access through additional campuses.

In 1974 the College opened the Downtown Campus at Stone Avenue and Speedway Boulevard. The first classes were held in a remodeled post office building. With the purchase of neighboring structures and the construction of the campus center and classroom technology building, the campus grew to 10 buildings. The campus currently serves about 15,000 students annually.

In 1975 the College established the Community Campus to supplement traditional on-campus education. Currently, this campus offers classes throughout southern Arizona, and is the hub for distance learning. Pima Community College Adult Education, a part of Pima County since 1969, joined the College in 2000 and is headquartered at Community Campus. The Business and Workforce Development Office and Continuing Education at the Community Campus both offer customized training for the business community, noncredit courses, and study tours. After occupying several sites, the permanent Community Campus facility opened in 1997 near St. Mary’s Road and Interstate 10 and serves about 20,000 students annually.

The College established the East Education Center in 1976, which became the East Campus in 1980. Located on a desert site east of Davis-Monthan Air Force Base, the campus doubled in size in the fall of 1989 with the construction of the student union and library. It has since expanded to accommodate more than 11,000 students annually. In 2004, the College and Tucson Parks and Recreation built a 21-acre park on the northwest edge of the campus, with soccer and softball fields, and a fitness facility for students.

The South Education Center opened in 1986, and by 1993 had grown into the Desert Vista Campus, located near Interstate 19 and Valencia Road. Annually, the campus serves 8,000 students, including many who use the training and student services of the Center for Training and Development. The campus also houses a charter high school serving American Indian students.

A 1995 Pima County bond election enabled the College to use taxpayer-supported bonds to finance much-needed expansion and important facility and technology improvements throughout the Pima County Community College District.

The Northwest Community Learning Center opened in 1998 and in fall 2003 was replaced by Northwest Campus on North Shannon Road. The Northwest Campus offers a full spectrum of educational, recreational and cultural programs and services to more than 9,000 students annually. Major areas of study include the arts and sciences, health careers and hotel and restaurant management.

For many of its 44 years, Pima Community College has ranked among the largest multi-campus community colleges in the nation, and currently serves more than 52,000 students annually.

Community Campus

As Tucson, Pima County, and the entire Southern Arizona region continue to grow and change, Community Campus responds with degrees, certificates, training and comprehensive student services to meet the needs of our dynamic student population. Community Campus offers flexible degree and certificate programs and services to meet every need, including fully online and hybrid options and online advising and tutoring.

Community Campus services include development and delivery of classes and programs in a variety of modes and locations in support of college-wide programs and initiatives. The Community Campus has been serving students since 1975, offering credit and noncredit classes at its campus location (401 N. Bonita Avenue) and at more than 100 facilities throughout southern Arizona.

Adult Education is housed at Community Campus and provides adult learners who are 16 and older with opportunities to increase basic skills, prepare to earn a High School Equivalency (HSE) Diploma, take the GED® test, learn English, increase their civic involvement and develop the skills to transition to further education, jobs and vocational training. Adult Education classes are free to students and are located throughout Pima County. Classes and services are located at Community Campus, various community sites and three large urban learning centers: El Pueblo Liberty Learning Center, El Rio Learning Center and the 29th Street Coalition Center. Community Campus also coordinates High School Equivalency Testing as well as other occupational certification exams. Additional programs and services include: Citizenship preparation classes, Bridge and IBEST classes, Family Literacy, and a large Refugee Education Program. Classes are taught by certified, paid adult educators in classrooms, in lab settings, and with hybrid and distance modes. In addition, students receive student services, tutoring, and basic literacy services.

Community Campus is also the lead campus for the College’s developing distance education program – PimaOnline. PimaOnline supports all distance education for the district, including online registration, advising, tutoring and technical support. Additionally, PimaOnline houses fully online programs such as the AGEC A & B, the Human Resource Management certificate as well as many fully online courses to serve students locally, nationally and worldwide.

The Center for Learning Technology (CLT) is home to the College’s PCCTV cable television station and broadcast-quality video production facilities and distance education course development and delivery center.

Through its Workforce and Business Development (WBD) division, the College provides comprehensive, cost-effective training options for individual workers, as well as for businesses, organizations and governmental agencies. The WBD Contract Training department offers traditional or customized credit, noncredit or continuing education unit (CEU) courses to meet the needs of regional employers. These courses may be offered in person or online, at a location and at times convenient for the client. The Associate of Applied Science Business and Industry Technology (AAS-BIT) degree may include industry certifications ranging from A+ and Net+ to Cisco, leadership or supervision, as well as customized courses and certificates are developed in industry-specific disciplines on a contractual basis.

The Public Safety and Emergency Services Institute (PSESI) offers open enrollment courses, and also partners with public and private agencies, to provide associate degrees and certificates in law enforcement, fire science, corrections, juvenile corrections, crime scene management and emergency medical technology.

The Arizona Prison Program contracts with appropriate federal and state agencies to provide occupational training programs for inmates.

The Truck Driver Training Program offers students the opportunity to receive Class A or Class B Commercial Driver’s licenses, and a Passenger endorsement to Class A, allowing direct employment in the nation’s trucking and busing industry. Students begin the program with pre-hire letters from trucking companies.

Finally, the WBD division works closely with Pima County to assist students in receiving Workforce Investment Act funding for classes. The College has a strong partnership with the Pima County One Stop with employees on site at the One Stops to assist displaced workers, veterans, youth and unemployed persons with their training and educational needs.

Continuing Education programs and services include noncredit general interest classes, programs for active adults, Pima for Kids classes for K-8 students, workshops and seminars.

Community Campus facilities also house Northern Arizona University (NAU) offices, an interactive classroom and labs, and distribution control for NAU distance learning operations throughout southern Arizona.

- NAU Administrative Offices
Desert Vista Campus

In 1986, Pima Community College opened Education Center South near the airport in response to requests from residents of the south and southwest areas of Tucson. In June 1993, the College established a new and comprehensive Desert Vista Campus near Interstate 19 and Drexel Road by relocating the Education Center South and Center for Training and Development (formerly Tucson Skill Center established in 1963).

Desert Vista Campus serves about 8,000 students a year, offering a wide range of courses and programs, including university transfer, developmental, occupational, workforce and general education. A variety of courses are offered in mathematics, the sciences (biology, chemistry, astronomy and physics), languages (Spanish and English as a Second Language), and a rich cultural arts curriculum. Among the signature programs provided by the campus is the Aviation Technology Program, based at the Aviation Technology Center on the grounds of Tucson International Airport. This program provides training in aviation maintenance, structural repair and avionics, and is one of only a few programs of its kind nationwide. In 2008, a new avionics building was added to the Aviation Technology Center, and students can pursue a certificate in avionics using state-of-the-art equipment. Other signature programs are Culinary Arts, Child Development and Early Childhood Education. The Center for Training and Development (CTD) offers many noncredit and credit workforce development programs, including phlebotomy, behavioral health, surgical technology, business education, medical assisting and food service. CTD partners with community-based organizations, agencies, and employers to provide individualized year-round, open-entry/open-exit job training certificate programs for employment.

Services that support student success include a comprehensive Learning Center that integrates tutoring, Adult Education, group and individual study areas, and a variety of workshops designed to help students reach their educational goals. The campus also has a vibrant Student Life program and a Cyber Café in a central location where students can easily access websites and check email in a relaxed environment. In addition, the 5,000-square-foot library and computer commons serves students, faculty, college employees and the community with a welcoming atmosphere and versatile student space. Desert Vista is home to a Campus Garden, providing a learning environment for the culinary, science, and the Agri-SURF programs. The campus also provides bilingual services and a full range of student support services for both credit and noncredit students through the Student Services Center.

Vision High School, a charter school that mainstreams dually enrolled high school students into the community college environment, is housed at the campus. The campus administers several federally funded programs including the Title V CIMA, Educational Talent Search, Student Support Services and Upward Bound programs. Talent Search works with high school students to encourage and support their successful transition into post-secondary education. Upward Bound works with high school students to provide higher education opportunities and tracks the students during their first two years of college. Other programs provide structures and support to increase student success. Additionally, the campus is part of a Pathways to Healthcare network funded by a federal Health Profession Opportunity Grant (HPOG) to provide health care training. The campus also houses the Tohono O’odham Scholarship Office, which provides on-site counseling and advising to tribal students pursuing higher education.

The campus houses a recreation and fitness complex. Built in partnership with the City of Tucson Parks and Recreation Department, the complex contains a fitness facility that provides space for activity classes, such as kick-boxing, aerobics and yoga, as well as strength training. The center also has state-of-the-art equipment, and instructors and staff certified as personal trainers. The complex also has soccer and softball fields available for college and community use as part of the partnership.

Downtown Campus

Since its inception in 1974, the Downtown Campus has offered a variety of opportunities for students to enhance their personal, academic and professional lives. Just minutes from the University of Arizona, the Ronstadt Transit Center and the heart of downtown Tucson, the campus serves about 15,000 students annually.

Students find knowledgeable faculty and staff offering exciting learning opportunities through convenient class scheduling at an affordable cost. A balance of developmental education, academic instruction and occupational course offerings create student success pathways that provide the foundation for either university transfer or the occupational skills needed for direct entry into the workforce.

In addition to excellent instruction, and in order to achieve our campus mission “to provide a quality learning experience leading to student success,” Downtown Campus offers comprehensive student support systems, including counseling, academic advising, financial assistance, tutoring services, abundant library resources, directed learning with open labs, accommodations for students with disabilities, a state-of-the-art Veterans Center and a safe learning environment.

The Downtown Campus’ strengths include its diverse student population, committed faculty and staff, varied educational and occupational offerings and proximity to the university, public transportation and the city’s center. The campus leverages these strengths to assist students in achieving their education and career goals.

East Campus

In 1976, the College established the East Education Center, which became East Campus in 1980. Four subsequent expansions now have given the residents of Tucson’s East Side a comprehensive and convenient full-service campus that offers general education, university transfer, developmental coursework and selected occupational programming.

The campus enrolls more than 11,000 students annually. The campus houses a Health Clinic used by the public as well as students. A dynamic Student Life office provides East Campus students with a wide variety of opportunities to enhance their personal success. Student Government is highly active, and student clubs are diverse and engaged in campus and community activities.

In addition to a full array of academic and transfer programming, the campus provides vocational training in the areas of Emergency Medical Technology, Pharmacy Technology, Logistics and Supply Chain Management, Veterinary Technology, and Administration of Justice Studies. For the convenience of students, the campus offers classes at Davis-Monthan Air Force Base. The College also has a partnership with University of Arizona South to offer classes.

Sitting on almost 58 acres near Pantano and Irvington roads, the campus is adjacent to the Fred Enke Golf Course, Lincoln Regional Park, the Atterbury/Lyman Bird and Animal Sanctuary, and the City of Tucson’s Clements Recreational Center. Surrounded by natural Sonoran Desert vegetation, the East Campus maintains a relaxed, comfortable atmosphere, with buildings clustered around several small patios and shaded courtyards.

Northwest Campus

The Northwest Campus brings a full spectrum of educational, recreational and cultural programs and services to families in northwest Tucson.

Courses are offered at the campus and online in accounting; information technology; business; psychology; social sciences; languages and communication; arts and humanities; and sciences and mathematics.

The heart of the campus includes student support services such as a comprehensive Student Services Center, a multifunctional redesigned Student Life Center, Library, Tutoring and Campus Resource Center. Campus facilities also include classrooms; labs for biology, chemistry, astronomy, physics, geology and geography, an art gallery, and state-of-the-art technology classrooms. A beautiful promenade and outdoor amphitheater provide opportunities for students, faculty, staff and community visitors to gather in relaxed settings.

The Northwest Campus is the only location that offers occupational programs in Therapeutic Massage, Clinical Research Coordinator, and Hotel and Restaurant Management. The Therapeutic Massage program offers both a certificate and an AAS that prepare students for state or national licensure. The Clinical Research Coordinator Program certificate or AAS prepares students to coordinate human subject clinical trials.

Through a unique partnership between the College and Northern Arizona University, students may earn a bachelor’s degree in Hotel and Restaurant Management from NAU at the Northwest Campus. The first two years of the program, the associate degree, are offered by the College and all of its credits transfer into the NAU program. The last two years of the degree are taught by NAU faculty on the Northwest Campus. A certificate for direct employment for those seeking an immediate, entry-level job in the hotel, resort and restaurant industry also is available.

In addition, the Northwest Campus continues to develop new programs, certificates and courses to meet current educational needs of students. The campus partners with the K-12 community, including offering a wide variety of dual enrollment options.

Through partnerships with the Northwest YMCA and Pima County Parks and Recreation, PCC allows students to take a full range of fitness, wellness and dance classes.

A new 49,000-square-foot building houses state-of-the-art classrooms and labs, general use classrooms, additional faculty space and a mock hotel front desk and guest suite, providing hands-on training for students in the Hotel and Restaurant Management Program.

West Campus

The West Campus provides a full range of Nursing and Health-Related Professions programs that include an associate degree in Nursing, Dental Studies, Radiologic Technology, Respiratory Therapy and Medical Lab Technician. The Nursing and Respiratory Therapy programs have state-of-the art classrooms and simulation labs. In fall 2011, the West Campus received a five-year U.S. Department of Education Title III HSI STEM (science, technology, engineering, mathematics) grant totaling $4.3 million. The grant will strengthen STEM curriculum, modernize science laboratories, and increase the number of transfer students who pursue bachelor’s degrees in STEM programs.

The West Campus also provides outstanding programs in Fashion Design, Journalism and the Visual and Performing Arts. The campus is known for its state-of-the art Digital Arts program that offers cutting edge curriculum in computer animation, game design, digital design, illustration, film video, multi-media, photography and desktop publishing. Digital Arts program students have won numerous national Addy Awards through the American Advertising Federation national student advertising competition. In addition, the campus offers programs in business, computers, archaeology, sign language, interpreter training, social and behavioral sciences, as well as fitness and sport sciences. The campus also hosts the nationally known Creative Writing Weekend Workshops in spring and fall.

The West Campus enrolls approximately 17,000 students annually. The campus has 148 faculty members, 300 adjunct faculty and 101 staff. The campus is organized around four instructional divisions that offer a wide variety of associate degrees and certificate programs. West Campus is home to an Archaeology Center, Center for the Arts, and two art galleries, the Louis Carlos Bernal Gallery and the Student Gallery. The campus also provides a home to the College’s International Student Services, Aztec Press student newspaper and the NJCAA-affiliated athletics department.

West Campus students have multiple opportunities to participate in co-curricular activities, including approximately 20 student clubs, student government and intercollegiate athletics.

Designed to blend with the surrounding desert, the campus features inner courtyards and several hiking trails on 267 acres. It comprises 13 buildings and 529,000 square feet of space that includes 154 classrooms and laboratories, a library, Academic Computing Commons and Learning Center.

Admissions, Registration and Records
Admission to the College

Pima Community College (PCC) encourages all individuals to further their educational interests. No person shall be denied admission to or registration for courses at the College on the basis of gender, race, ethnicity, national origin, age, disability, sexual orientation, gender identity or expression.

Please note that some programs at the College have special admissions requirements. Admission to some specific degree or certificate programs cannot be guaranteed. Additionally, there are other programs for which students need to apply separately. For information on some of these programs, please contact the program directly:

Workforce and Business Development
Community Campus 206-6569
Center for Training and Development (CTD)
Desert Vista Campus 206-5100
Adult Basic Education (PCCAE)
Community Campus 206-6500
Truck Driver Training
6680 S. Country Club Road 206-2744

Eligibility for Admission

All individuals who complete the Application for Admission are admitted to the College and are issued a student identification number and assigned an admission classification based on their intent. Admission to the College does not guarantee admission to a specific degree program or to all courses offered by the College.

I. Admission Classification for Credit Students

The College designates three classifications for credit admission in order to comply with federal regulations and state statutes, and to facilitate College reporting; the three classifications are Regular/Degree-Seeking, Non-Degree Seeking and International. Students in any credit classification are eligible to take any credit course for which they meet the prerequisite(s).

A. Classification as Regular/Degree-Seeking

Students who are degree- or certificate-seeking and who fall within one of the following categories pursuant to ARS 15-1805.01 and 15-1821 are classified as Regular/Degree-Seeking:

1. Is a graduate of a high school that is accredited by a regional accrediting association as defined by the United States office of education or approved by a state board of education or other appropriate state educational agency;
2. Has a high school certificate of equivalency;
3. Is a transfer student in good standing from another college or university;
4. Is a homeschooled student at least 18 years of age;
5. Demonstrates evidence of potential success at Pima Community College as outlined in the College’s placement evaluation process (SPG-3509/AA);
6. Is under the age of 18 and who achieves one of the following:
   a. A composite score of 93 or more on the Preliminary Scholastic Aptitude Test:
   b. A composite score of 930 or more on the Scholastic Aptitude Test:
   c. A composite score of twenty-two or more on the American College Test:
   d. A passing score on the relevant portions of the Arizona Instrument to Measure Standards test:
   e. The completion of a college placement test designated by the community college district that indicates the student is at the appropriate college level for the course:
   f. Is a graduate of a private or public high school or has a high school certificate of equivalency:
   g. Is a homeschooled student.

B. Classification as Non-Degree Seeking

Students who intend to take credit classes for personal interest, skill development, upgrading job skills, or for transfer toward a degree at another institution, and who do not intend to pursue a degree or certificate at Pima Community College are classified as Non-Degree Seeking.

C. Classification as International

Students from other countries attending Pima Community College on a visa are classified as International.

II. Admission Classification for Non-Credit Students

A. Clock-Hour Students

Students who are certificate seeking in the College’s clock-hour training programs, and who meet the criteria listed in Section I.A. are classified as Regular/Degree-Seeking.

B. Adult Education Students

Students pursuing adult education are classified as Adult Education.

C. Non-Credit Continuing Education Students

Students pursuing continuing education courses are classified as Continuing Education.

D. Non-Credit Community Education

Students pursuing non-credit, community education courses are classified as Non-Credit.

Admission of Under Age 18 Students

Guidelines:

No student under the age of 18 will be denied admission to the College because of age, lack of high school diploma or high school certificate of equivalency, grade in school, lack of permission of school officials, or lack of concurrent enrollment in a public or private school, provided that the general parameters have been met to assess student preparedness. Admission to the College does not guarantee admission to a specific degree program or to all courses offered by the College.

Details of requirements for students under the age of 18 are identified in the previous section. For students under the age of 16, additional requirements in order to register for classes are specified below.

Registration of Students Under Age 16

Primary responsibility for the education of underage students lies with the secondary school system, the equivalent private school system, or a homeschool program until the student reaches the age
of 16. The College may supplement the primary educational program provided to the student under age 16 by the secondary school system or alternate provider, charter or home school in accordance with ARS 15-1805.01. When the College agrees to provide supplemental education for students under the age of 16, the student and his/her parents will provide signatures granting the parent(s)' or legal guardian(s)' permission for the student to register, as well as a written educational plan stating the educational outcomes the parent(s)/legal guardian(s) intends the student to meet.

Prior to the student registering each semester:

1. The Vice President of Student Development or designee at the campus of the student’s intended registration must meet with the student and the parent(s) or legal guardian(s) for a registration intake interview. The interview includes an evaluation of student preparedness, the completion and submission of all required forms and records and a general review of relevant College policies and procedures.

2. The parent(s) or legal guardian(s) will be asked to sign the Under Age Student Form. The student must sign the agreement and comply with its terms.

3. The parent(s) or legal guardian(s) are responsible for providing the following:
   a. The applicant’s birth certificate or government issued ID, or public school ID.
   b. A written statement that describes the means of transportation provided for the student to attend PCC by the parent(s)/legal guardian(s).
   c. A copy of the student’s scores on the Scholastic Aptitude Test (SAT), the American College Test (ACT), the Preliminary Scholastic Aptitude Test (PSAT), or the relevant portions of the Arizona Instrument to Measure Standards Test (AIMS), or the Pima Community College placement measure as per the College’s placement evaluation process policy.

4. The completed forms and documentation will be reviewed by a Vice President of Student Development or designee. The Vice President of Student Development will make the determination for initial registration of underage students into courses, and may deny registration if deemed appropriate.

5. The records of material required for registration will be kept by the Vice President of Student Development who approved the applicant’s initial registration.

Continued enrollment of those underage students granted permission to register by the Vice President of Student Development or designee is dependent on an evaluation conducted with the student and parent(s) or legal guardian(s) on satisfactory academic progress, appropriate course selection, and compliance with the Pima Community College Student Code of Conduct for each semester of registration until the student reaches 16 years of age.

Admission of International Students

Admission for all international students is through the International Student Services office located at the West Campus. For further information, call (520) 206-6732 or visit www.pima.edu.

1. International students intending to pursue full-time study must submit the following documents to the International Student Services Office to satisfy admission requirements. Necessary forms are available online.

2. F-1 International students applying from another school within the United States must submit the following documents in addition to those listed above:
   a. An official transcript from the school currently being attended. If post-secondary transcripts are sent, they must be properly translated and evaluated by a member company of the National Association of Credential Evaluation Services (NACES).
   b. A copy of the I-94 card from the student’s passport.
   c. A copy of the visa page from the student’s passport.
   d. A copy of the student’s current I-20 form.

3. International students must submit the following to satisfy admissions requirements (student who is applying for
part-time admission and is in the United States on an active non-immigrant visa status that is not F-1):

a. A completed International Student Application Form, processed at the International Student Services Office.

b. A $65.00 non-refundable, out-of-country application fee in the form of an international postal money order or certified check made out to Pima Community College.

c. A copy of current I-94 card, visa page and passport.

International student applicants under the age of 18 should be informed of the College’s recommendation that they have a “guardian” in the United States to represent them in emergency situations since the College is not permitted to act in the place of the parent or guardian.

Once accepted, all international students must comply with the appropriate immigration standards and regulations.

Persons on other non-immigrant visas may be allowed to enroll in part-time course work in accordance with immigration policy.

Border Commuter Students

In compliance with U.S. Citizenship and Immigration Services regulations, border commuters pursuing a formal course of study at Pima Community College must apply as International Students, be accepted to the College and obtain an F-1 visa. Students may study full or part-time.

Student Residency Requirements

For tuition purposes, students must indicate their residency status when applying for admission. Legal residency will be determined by the College before registration and payment of fees for any semester or session. Students will be notified of their residency status via their admission letter and their MyPima student portal. Review this information carefully before registering. If you believe it is incorrect, visit any campus Student Services Center for assistance. It is the student’s responsibility to register under the correct residency status.

The process of determining residency is called domicile determination. Domicile is determined as of the first day of the session in which a student is enrolling. The guidelines to determine residency status are taken from the Arizona Revised Statutes Sections 15-1801 through 15-1807. For questions about these guidelines, or for help determining residency status, please contact any campus Student Services Center.

In-State Student Status (Section 15-1802)

1. Except as otherwise provided in this article no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes.

2. A person is not entitled to classification as an in-state student until the person is domiciled in this state for one year, unless the person meets one of the following requirements:

a. The person’s parent’s domicile is in this state and the parent is entitled to claim the person as an exemption for state and federal tax purposes.

b. The person is an employee of an employer which transferred the person to this state for employment purposes or the person is the spouse of such employee.

c. The person is an employee of a school district in this state and is under contract to teach on a full-time basis, or is employed as a full-time uncertified classroom aide at a school within that school district. For purposes of this paragraph, the person is eligible for classification as an in-state student only for courses necessary to complete the requirements for certification by the state board of education to teach in a school district in this state. No member of the person’s family is eligible for classification as an in-state student if the person is eligible for classification as an in-state student pursuant to this paragraph.

d. The person’s spouse has established domicile in this state for at least one year, has demonstrated intent and financial independence, and is entitled to claim the student as an exemption for state and federal tax purposes or the person’s spouse was temporarily out-of-state for educational purposes, but maintained a domicile in this state. If the person is a non-citizen, the person must be in an eligible visa status pursuant to federal law to classify as an in-state student for tuition purposes.

3. The domicile of an unemancipated person is that of such person’s parent.

4. Any unemancipated person who remains in this state when such person’s parent, who had been domiciled in this state, removes from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, as long as such person maintains continuous attendance.

5. A person who is a member of the armed forces of the United States and who is stationed in this state pursuant to military orders, or who is the spouse or a dependent child as defined in section 43-1001 of a person who is a member of the armed forces of the United States and who is stationed in this state pursuant to military orders is entitled to classification as an in-state student. A spouse or a dependent child does not lose in-state student classification under this subsection if the spouse or dependent child qualifies for in-state student classification at the time the spouse or dependent child is accepted for admission to a community college under the jurisdiction of a community college district governing board or a university under the jurisdiction of the Arizona board of regents. The student, while in continuous attendance toward the degree for which currently enrolled, does not lose in-state student classification.

6. A person who is a member of the armed forces of the United States or the spouse or a dependent as defined in section 43-1001 of a member of the armed forces of the United States is entitled to classification as an in-state student if the member of the armed forces has claimed this state as the person’s state of legal residence for at least twelve consecutive months before the member of the armed forces, spouse or dependent enrolls in a university under the jurisdiction of the Arizona board of regents or a community college under the jurisdiction of a community college district governing board. For purposes of this subsection, the requirement that a person be domiciled in this state for one year before enrollment to qualify for in-state student classification does not apply.

7. A person who is honorably discharged from the armed forces of the United States shall be granted immediate classification as an in-state student on honorable discharge from the armed forces and, while in continuous attendance
toward the degree for which currently enrolled, does not lose in-state student classification if the person has met the following requirements:

1. Registered to vote in this state. And,
2. Demonstrated objective evidence of intent to be a resident of Arizona which, for the purposes of this section, includes at least one of the following:
   a. An Arizona driver license.
   b. Arizona motor vehicle registration.
   c. Employment history in Arizona.
   d. Transfer of major banking services to Arizona.
   e. Change of permanent address on all pertinent records.
   f. Other materials of whatever kind or source relevant to domicile or residency status.

A person who is a member of an Indian tribe recognized by the United States department of the interior whose reservation land lies in this state and extends into another state and who is a resident of the reservation is entitled to classification as an in-state student.

3. Financial independence/dependence
   A person applying for classification as a resident must prove financial independence from out-of-state parents, or dependence on in-state parents, for the entire domicile year. A person may be financial independent if:
   a. They were not claimed as a tax dependent by out-of-state parents for any portion of the domicile year;
   b. They did not receive more than one-half of the financial support from out-of-state parents during the domicile year;
   c. They were self-supporting for the entire domicile year; and/or
   d. Receiving financial aid, filed as an independent student, as defined per Federal financial aid guidelines.

A person may be financially dependent if:
   a. They were claimed as a tax dependent by an in-state resident parent for any portion of the domicile year;
   b. They received more than one-half of their financial support from in-state resident parents during the domicile year;
   c. They were not self-supporting for the entire domicile year; and/or
   d. They received financial aid as a dependent student, with in-state resident parents.

To petition for a change in your residency classification you must respond to all questions and statements on the residency affidavit and provide documentation supporting your request for residency change. You must:

a. Complete a Domicile/Residency Affidavit
b. Provide proof that you resided in Arizona for at least one year prior to the start date of the semester for which you are applying, and
   c. Provide proof that you have taken steps to establish permanent residency in Arizona.

Failure to do so by the start date of the term in which you applied will by interpreted as evidence of not establishing residency in Arizona. As indicated by the Arizona residency regulations, the burden of proof that all requirements for residency classification have been met rests with the student. Clear and convincing evidence must be submitted by you to support all responses given on your petition.

All statements, information, and evidence provided on your petition must be consistent with other College/official documents. Inconsistencies may jeopardize your petition for residency and may make you subject to disciplinary action, dismissal from the College, repayment of tuition, and repayment of financial aid.

Change in residency is not automatic. You must complete this affidavit and turn it in to a campus Student Services Center or the Office of Admissions.

Verification of Lawful Presence
Since March 12, 2007, PCC students seeking in-state tuition have been required to complete a one-time Tuition Assessment Form/Verification of Lawful Presence Form. This enables Pima to comply with state law.

All new and continuing students seeking in-state tuition and registering for credit classes who have not previously had their lawful presence verified by the College, must complete the form and provide documentation. Once completed, you won’t need to file again while at PCC.

You will have 10 days from the date of admission to complete and submit the form. If you do not complete and submit the form within this time period a hold will be placed on your record. You
will not be able to view your grades or receive a transcript until the form is processed. You must provide documentation to support your application. Acceptable documents are listed on second page of the Tuition Assessment/Verification of Lawful Presence Form.

This form must be submitted in person if you are a resident of Pima County. Bring the form and required documentation to any campus Student Services Center or the Office of Admissions. Pima Community College requires the original signed form. Fax or scanned copies are not acceptable. The form is available at http://www.pima.edu/new-students/apply/tuition-assessment.html.

If you do not live in Pima County, call (520) 206-4640 and a staff member will assist you.

Assignment of Student Identification Number and Use of Social Security Number

Pima Community College assigns all new students a student identification number. PCC does not use Social Security numbers for student identification numbers.

Pima Community College requests the Social Security numbers of all students who are U.S. citizens, Resident Aliens, or noncitizens (who have been issued a Social Security number) on the Application for Admission to match current and future records, ensuring that students receive full credit for all academic work. All local, state and federal student financial aid applications, and forms for College employment require student Social Security numbers.

Note: You must provide your Social Security number in the event the College is required by the Internal Revenue Service (IRS) to file a form 1098-T Tuition Statement.

Before the First Semester

Student Requirements for Assessment, Advising, and Orientation

Assessments

Before you can register for courses, you must take the free basic skills assessments in reading, writing and/or mathematics.

Visit any campus Student Services Center to take the assessments. You do not need an appointment but do plan ahead and prepare to spend two to three hours taking the assessments. Bring a photo ID with you. It’s important to do your best on the assessments, we recommend reviewing the assessment preparation tools available at www.pima.edu/assessment.

Special Accommodations

Special accommodations, such as extended time, large print, writing assistants and interpreters, are available for qualified disabled students through the Disabled Student Resources office. For more information, please refer to the Disabled Student Resources section.

Other Testing Services

For students without a high school diploma, PCC offers the GED (General Education Development) test. This test is available at Pima Community College Adult Education Centers (PCCAE). Additionally, the institutional TOEFL (Test of English as a Second Language) is available at the West Campus Assessment Center.

Advising

Students are strongly encouraged to meet with an advisor or counselor on a regular basis, but not less than once per semester, to discuss short and long term academic goals, financial aid options, major and semester course planning, career planning, academic workload and life balancing.

Advising Resources for Students

All students are urged to make use of MyDegreePlan, the College Catalog, the Schedule of Classes, and the Student Handbook when selecting courses or developing an educational plan. These resources are available at all Student Services Centers or at www.pima.edu. MyDegreePlan is available for all active students through their MyPima student account.

Orientation

Orientation is designed to help students succeed in college, and is highly recommended. Orientation covers necessary information about programs, services, university transfer, study skills and registration. Each campus provides an orientation schedule for the upcoming semester. Orientations are offered at a variety of times, dates, and in many formats. All degree- or certificate-seeking students new to higher education are required to complete an orientation prior to registering for their first semester of credit courses. A student may, with the permission of an advisor or counselor, enroll in a designated Student Success course in place of attending an orientation. Visit www.pima.edu/orientation or contact any Student Services Center for more information.

Declaring a Program of Study

Advising staff and counselors are available at all campuses to help you choose the right program of study, which may affect your financial aid or veterans benefits eligibility. Students may change or update their program of study through the online Student Intent process once per semester or at any campus Student Services Center. Declaring a program of study will help you clarify your academic goals and will increase your success.

Transfer of Credits into PCC

Students who have taken classes at another college or university may transfer the credits to Pima Community College. The College may accept class credit (with a grade of C, its equal, or better) from colleges and schools accredited by any of the following regional accreditation commissions:

- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges, Inc.
- North Central Association of Colleges and Schools
- Northwest Commission on Schools, Colleges and Universities
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

To transfer credits to Pima Community College, the student must:

- Be admitted to Pima Community College
Pima Community College realizes that when students enter the College, they may already have gained the knowledge and/or mastered the content of certain courses. Therefore, students have the opportunity to earn college credit by assessment of prior learning through examinations.

National Standardized Tests
Successfully pass these national exams to earn equivalent College credit.
- Advanced Placement (AP)
- International Baccalaureate (IB)
- College-Level Examination Program (CLEP)

Credits earned through this process:
- may meet general education requirements - the display will indicate general education categories that the exam may fulfill
- may or may not transfer to other colleges or universities - exams are re-evaluated upon transfer to another institution so students planning to transfer should check with the transfer institution to determine if and how credits are awarded
- do not fulfill the requirement of completing 15 credits at PCC
- cannot be used in qualifying a student for veterans benefits
- are not eligible for financial assistance
- are awarded a grade of “TP” and will not be stated in terms of a specific course grade. No record is made of failing scores.

Special Examination for Credit – Proficiency Exam
A proficiency exam allows the student to take an examination for credit in a course where a student believes he/she has gained the same knowledge through some other experience (e.g., native language speaker or job experience). Proficiency exams are offered under limited circumstances at the instructor’s discretion. Contact the instructor for permission to take a proficiency exam before registering for the course. A student must register and pay for the course before completing the exam. The instructor usually will require the successful completion of the course’s final exam, which may have a written and/or oral component.

Bypass Courses
Other exams allow you to bypass lower-level courses to accelerate your progress toward earning your degree or certificate. For these tests you do not need to register or pay for the course, nor will you earn college credit if you pass the exam.

These examinations are offered in Biology (to bypass BIO 156), Biotechnology (to bypass BIO 110), Chemistry (to bypass CHM 080) and French, German and Spanish language classes. Learn more about each of these tests on the College Assessment Center website.

Advanced Placement (AP) and International Baccalaureate (IB) Programs
Pima Community College accepts Advanced Placement (AP) and International Baccalaureate Diploma (IB) credits. Taking Advanced Placement or International Baccalaureate courses in high school can accelerate a student’s college career. At PCC, students can earn up to 30 credits toward a degree simply by taking examinations at the end of AP or IB classes. Credits earned based on exam performance may be counted toward a certificate or degree, including General Education requirements. See the following AP and IB credit tables. Contact a Pima Community College advisor to confirm course credit toward specific programs.

Advanced Placement classes are offered in select high schools. Exams are administered through the College Board each May. Some students take AP exams after taking honors or accelerated courses in their schools. For more information about the AP program, visit the College Board website (www.collegeboard.com).

The International Baccalaureate Diploma Program also is offered in select high schools. This rigorous two-year course of pre-university studies leads to exams that can be used to qualify for college credit. Pima Community College accepts certain higher-level IB exams for credit, see the following IB table. For more information about the IB Program visit the main website for IB Diploma Programme (www.ibo.org/ibo).

An effort has been made to match Pima Community College’s AP and IB scores with the three state universities’ AP and IB scores. Please refer to the following table for the required scores for General Education application or Course Credit awarded. These scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

* ZTR ELEC awards credit as an elective applicable toward transfer degree
**College-Level Examination Program (CLEP)**

The College-Level Examination Program is a means by which students can obtain college credits without having to enroll formally in the courses. Pima Community College accepts CLEP for college credit, providing satisfactory scores are attained. Students must pay a registration service fee and an examination fee for each test. CLEP examinations are offered at PCC’s Northwest Campus (520-206-2200) and the Davis-Monthan Air Force Base Education Center (520-206-4866), as well as the University of Arizona Testing Office (520-621-7589). Contact these offices to obtain information on the specific examinations offered.

<th>PCC Course Equivalency</th>
<th>PCC Credit</th>
</tr>
</thead>
</table>
| In most cases an effort has been made to match Pima Community College’s CLEP scores with the University of Arizona’s CLEP scores. CLEP credit may fulfill Arizona General Education (AGEC) credit and/or Occupational General Education credit if the CLEP score results in credit given in a course in the General Education list. For example, a score of 50 on the Western Civilization II: 1648 to Present test results in HIS 102 credit that will fulfill AGEC and Occupational General Education requirements. Passing scores for subjects credited through the CLEP are recorded with a “P” grade and will not be stated in a specific course grade. No record is made of failing scores. Please refer to the following table for the required scores for General Education application or Course Credit awarded. These scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

DANTES CLEP and DSST

DANTES (Defense Activity for Non-Traditional Education Support) offers two forms of standardized assessment: DANTES CLEP and DANTES DSST (DANTES Subject Standardized Tests). DANTES CLEP is the same as CLEP and, utilizing the CLEP scores and equivalencies identified in the CLEP section of this catalog, may be applied to any certificate or degree. DANTES DSSTs are subject-matter examinations in college and technical subjects. At this time, the College does not accept DANTES DSST examinations as equivalent to College courses.

Enrolling in Classes

Each semester the College publishes a Schedule of Classes that has a list of classes offered, with the dates, times and locations of each course section. The schedule also provides instructions on when and how to register, information on financial aid, advising, student resources, and important dates and deadlines for the upcoming semester or sessions. The Schedule of Classes is available online and the Student Services Centers have limited printed copies.

There are two ways to register for classes:
- MyPima online registration
- Walk-in registration at all campus Student Services Centers

Students can audit most credit classes with the instructor’s permission. Auditing a class means that you enroll, pay for, attend and do work for the class but do not receive credit or a grade. Audit registration must be conducted in person at any campus or district admissions office between the first day of class and the drop/refund date of the class. Once you begin a course for credit, you cannot change to audit status.

Student enrollment is not official for any academic term until all tuition and fees are paid.

For more information:
- See the Schedule of Classes
- Contact any campus Student Services Center or the general information line (206-4500)

Maximum Credit Hours Per Semester

To promote student success and retention, a limit will be placed on the number of credits in which a student can enroll each term. Students can enroll in a maximum of 18 credit hours in the fall and spring semesters and 12 credit hours in the summer session. Enrollment beyond these limits requires approval from a Vice President of Student Development or designee. Students are encouraged to meet with an advisor to discuss the appropriate maximum number of credits for their individual circumstances. Credits or coursework taken concurrently outside of Pima Community College should be taken into consideration. For more information, please contact any campus Student Services Center.

Course Prerequisites

Students must meet course prerequisites as stated in this catalog and the Schedule of Classes, or demonstrate to the instructor their ability to take the class. If the student does not have the proper prerequisite(s) for the class the student will not be allowed to register for the class or, if the prerequisite was not successfully completed, the student may be dropped from the class.

Important Student Information

Student Rights and Responsibilities

All PCC students are considered to be responsible individuals – and are accountable for their own behavior. The College expects all students to obey local, state and federal laws, and to follow the College’s Student Code of Conduct. Those standards, as well as the student complaint process, are explained online under Student Rights and Responsibilities at www.pima.edu/studentserv/studentcode.

Course Prerequisites

Students must meet course prerequisites as stated in this catalog and the Schedule of Classes, or demonstrate to the instructor their ability to take the class. If the student does not have the proper prerequisite(s) for the class the student will not be allowed to register for the class or, if the prerequisite was not successfully completed, the student may be dropped from the class.

Important Student Information

Student Rights and Responsibilities

All PCC students are considered to be responsible individuals – and are accountable for their own behavior. The College expects all students to obey local, state and federal laws, and to follow the College’s Student Code of Conduct. Those standards, as well as the student complaint process, are explained online under Student Rights and Responsibilities at www.pima.edu/studentserv/studentcode.
If You Have a Problem...
Students with general complaints should see either the campus Vice President of Instruction or Vice President of Student Development for guidance in resolving problems. Student Rights and Responsibilities regarding procedures for appealing grades or code of conduct penalties can be found online at www.pima.edu.

Religious Observances
Pima Community College accommodates the religious observances and practices of students unless it will result in undue hardship to College programs. Arrangements should be made with the instructor at least two weeks in advance.

Family Educational Rights and Privacy Act (FERPA)
Students are informed each year of the Family Educational Rights and Privacy Act of 1974. The act was designed to protect the privacy of educational records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data. Students have the right to file complaints with the Family Educational Rights and Privacy Act Office about alleged failures by the College to follow the rules of the act.

For more information about the Family Educational Rights and Privacy Act, please contact any campus Student Services Center.

Information Covered under the Act
Student information is divided into two categories, public and student directory (unpublished), which can be disclosed by the College for any purpose at its discretion.

Public and student directory information may include the student’s name, address, telephone number, date of birth, program of study, course status (freshman, sophomore, full-time, part-time), participation in college activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors, awards received, and previous schools attended by the student.

Currently enrolled students can instruct the College not to disclose public or directory information for any purpose under the Family Educational Rights and Privacy Act of 1974. A form to request withholding is published in the fall, spring, and summer editions of the Schedule of Classes. Pima Community College assumes that any student who does not request the withholding of public or directory information gives consent for disclosure.

Third Party Transactions
Students who wish to have a parent, spouse or friend or other third party complete any transactions, such as registration, which affect their educational record must provide the third party with: a) the student’s photo ID, and b) a statement describing the transaction and granting the third party permission from the student. The student must sign and date the statement. A general power of attorney is not acceptable permission for third party permission to conduct transactions.

Third party transaction permission and general power of attorney do not allow the third party access to any of the student’s academic or financial information. A FERPA release must be completed, or an Educational Power of Attorney must be provided, if a student wishes information to be released to a third party.

Academic Reporting
Throughout the United States, colleges and universities monitor the progress students make in achieving their academic goals. PCC is pleased to provide information regarding our institution’s graduation/completion and transfer rates, in compliance with the Higher Education Act of 1965, as amended. Student success information, including information about student-athletes, is available online at www.pima.edu, or call 206-4500 and ask to receive a copy of the Student Right to Know brochure.

Academic Policies:
Grades, Academic Progress and Student Classification
Grading Policies
Grades at Pima Community College are recorded at the end of each session according to the following system:

- A – Superior = 4 grade points per credit hour
- B – Above Average = 3 grade points per credit hour
- C – Average = 2 grade points per credit hour
- D – Below Average = 1 grade point per credit hour
- F – Failure = 0 grade point per credit hour
- P – Pass = C or better without grade differentiation ordinarily indicated by the College grading system. A “D” grade may be given at the student’s request and the instructor’s option.
- I – Incomplete: A record of Incomplete as a grade will be made when a student fails to complete the course by the ‘I’ deadline set by the instructor, the instructor submits a Change of Grade form to the campus Student Services Center. If no Change of Grade form is submitted within a year, the ‘I’ will be automatically changed to ‘F.’
- IP – Work in progress in open entry/open exit course. A record of IP (in progress) as a grade will be made when a student is making satisfactory progress in a course that crosses sections in start and end dates. At the specified end date of the course, the student will be assigned a grade of ‘A;’ ‘B;’ ‘C;’ ‘D;’ ‘F;’ ‘I;’ ‘P;’ or ‘W.’
- W – Withdrawal: This grade may be requested by the student only during the first two-thirds of any session. This grade may also be given at the discretion of the instructor on or before the final grading date for the class.
- X – An X placed next to the grade indicates the grade was earned through the successful completion of a proficiency test.

Pima Community College Catalog 2015/2016
Students will be required

ADMISSIONS, REGISTRATION AND RECORDS

Students who have not completed 20 semester credits and have a prior attempt are considered attempted but not completed credit. Repeated courses with a grade that is the same, or lower than, a complete grades and repeated courses are considered attempted courses. For classes of two or less days, the instructor must approve the W grade on or before the first two-thirds of a class for students who have stopped attending the class before that deadline.

Grade Point Average (GPA) Calculation
The GPA is figured by multiplying the number of credit hours for each class by the number of points for the grade given and dividing the sum of the points by the total number of credit hours of “A,” “B,” “C,” “D” and “F” grades. The GPA is based only on work completed at Pima Community College. A complete record of all credit courses attempted at the College is kept for each student.

Grade Reports
Grades are viewable on the student’s MyPima Academics tab. Grade reports or mailers are not mailed.

Appeal of Grades
If you would like to challenge your grade, you must do so through a formal process. Please refer to www.pima.edu/current-students/complaint-processes/grade-related-complaints.html.

Course Repeat Grades
The higher of two grades earned for the same class will be used to figure the GPA. Both courses will appear on the student’s transcript.

Standards of Academic Progress
This policy is under review and may change after the catalog is submitted. Please see the online information regarding Standards of Academic Progress at www.pima.edu/new-students/register-for-classes/academic-progress.html for the most current policy.

Good Academic Standing
PCC students who have completed 20 semester credit hours with a cumulative grade point average of at least 2.0 will be considered in Good Academic Standing. Students who have attempted 36 semester credit hours must have a completion rate of 67 percent or better, as well as a 2.0 or better cumulative GPA, to be considered in Good Academic Standing. Completion is determined by dividing the number of credits completed by the number of credits attempted. For example: If a student attempted 36 credit hours, they must have completed at least 24 with a passing grade to meet 67 percent completion (24 divided by 36 = 67 percent). Withdrawals, incomplete grades and repeated courses are considered attempted courses. Repeated courses with a grade that is the same, or lower than, a prior attempt are considered attempted but not completed credit. Students who have not completed 20 semester credits and have a cumulative grade point average of less than 2.0 or have a completion percentage less than 67 percent at any time are strongly encouraged to seek assistance from College advisors. Academic standards calculations are based on the last five years of attendance.

Academic Probation
If a student fails to meet the standards established for Good Academic Standing, they will be placed on Academic Probation. Academic Probation status indicates that the institution is seriously concerned about the student’s academic progress. A student on academic probation will:

- Be notified via College email that they are being placed on Academic Probation.
- Be required to complete an Academic Success Workshop at a campus. Until completion of the Workshop, registration will be blocked. After successful completion of the workshop, a student will be allowed to register for future semesters but will continue to receive the workshop hold until such time that they have made progress toward Good Academic Standing. Making progress is defined as completing 67 percent or more of the credits attempted with a 2.0 or better GPA in a term.
- Have their academic progress monitored each semester, until Good Academic Standing is regained.

Academic Restriction
Students who have completed 40 semester hours with a cumulative GPA of less than 2.0 or have 56 attempted semester hours with a completion rate of less than 67 percent, will be placed on Academic Restriction. A student on Academic Restriction will be:

- Notified via College email that they are being placed on Academic Restriction status.
- Blocked from future registration. Students will be required to meet with a counselor to complete additional requirements prior to future registration.
- Restricted to enrolling in no more than 12 hours in the next semester (without prior approval).
- Have their academic progress monitored each semester, until Good Academic Standing is regained.

Academic Disqualification
Students on Academic Restriction, who obtain a GPA of at least 2.0 and complete more than 67 percent of their courses for the next semester will be allowed to continue. Students on Academic Restriction who do not complete more than 67 percent of their courses and receive a GPA of at least 2.0 in the next term(s) will be Academically Disqualified.

Students who are Academically Disqualified will not be permitted to enroll in the next traditional semester. After the next traditional semester, students will be placed on Academic Restriction status until they regain Good Academic Standing.

Academic Renewal
Past academic performance may not, for a variety of reasons, be reflective of a student’s subsequent demonstrated ability. Currently enrolled students who meet the criteria may have up to three consecutive terms of coursework ignored in computing their academic standing, grade-point average, and eligibility for degree or certificate completion. Academic Renewal may be given only once and will apply to the entire term, not just one class. The student must have earned a minimum of 12 credits with a minimum 2.5 GPA after the grades to be alleviated, and three years must have elapsed since the substandard grades were earned. Eligibility for renewal applies only
to students who have not already completed requirements for a certificate or degree. Since the student’s complete record (before and after Academic Renewal) remains on the transcript, other institutions may consider all classes when a student transfers or applies to a professional or graduate-level program.

For more information, please see any campus Student Services Center.

**College Rights in Maintaining Academic Standards**

The College reserves the right to designate students as being on Academic Probation, Restriction, or Disqualification status based on additional criteria.

**Financial Aid and Veterans Education Benefits Recipients**

**Academic Standing**

Students receiving financial aid and/or Veterans Education Benefits should be aware that there are additional and separate policies and requirements regarding their Academic Standing. Information is available at any campus Student Services and in this catalog on page 42.

**Student Classification and Standing**

Pima Community College students will be classified using the following criteria:

**Full-Time Student**

Students enrolled for 12 or more credit hours for the fall or spring semester, six or more credit hours for a 10-week summer session, or four or more credit hours for a five-week summer session will be classified as full-time students.

**Note:** For financial aid purposes, summer session students must enroll for a total of 12 hours in one or any combination of the established summer sessions to be considered full-time students.

**Part-Time Student**

Students enrolled for one to 11 credit hours during the fall or spring semester, five or fewer credit hours for a 10-week summer session, or three or fewer credit hours for a five-week summer session will be classified as part-time students.

**Freshman**

Students who have earned fewer than 28 semester hours of credit will be considered freshmen.

**Sophomore**

Students who have earned 28 or more semester hours of credit will be considered sophomores.
Costs and Payments
**Tuition and Fees**

The following information reflects the College’s tuition, fees and refund policies for the Fall 2015, Spring 2016 and Summer 2016 (all sessions) terms. The tuition you pay is determined by whether or not you are an in-state resident or a nonresident and whether the courses you take are subject to differential tuition. For further residency information, please review the residency requirements or see an advisor.

Tuition, fees, and refunds are subject to change without notice. See www.pima.edu/tuition for the most up to date information.

**Financial Holds**

If you owe an outstanding debt to the College, a financial hold will be placed on your account. You will not be allowed to register or receive any other services until your debt is paid in full. You can pay your debt at any campus cashier’s office during regular business hours, online or by mail. If your debt has been placed with a debt collection agency you must deal directly with the agency to pay your debt. If you have any questions about your debt, please contact Student Accounts at studentaccountsonline@pima.edu or (520) 206-4574. For an immediate release of your financial hold you must pay your debt in person, with cash, money order or credit card. You cannot pay over the phone.

Your debt may include the following (rates subject to change):

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Tuition and Fees Payment Methods**

Tuition and fees must be paid in full by the published payment deadlines. Failure to pay by the deadlines may result in the loss of registration or late fees. The payment deadlines for each academic term can be found in the Schedule of Classes, on our website at www.pima.edu, and at any campus cashier’s, admissions or financial aid office. Please Note: If you are unable to pay the required tuition, options such as a Payment Plan may be available to you.

Important Notice: If registering for classes you are accepting financial responsibility for all related tuition and fees. You must drop any unwanted classes by the official drop/refund/audit deadline, or you will be responsible for payment of all related tuition and fees associated with those classes. Note: Pima Community College reserves the right to drop unpaid registrations at any time.

**Tuition and Fees may be paid via:**

- Credit Card - Visa, MasterCard, American Express and Discover
- Check - personal, traveler’s or cashier’s
- Money order
- Cash (please do not mail). Please refer to www.pima.edu/payments for more information.
- Pima Community College Gift Certificate

**Paying Online**

To pay online, login to your MyPima Account, select the Academics tab and view the My Account section. Your current balance is displayed in this section. You can then select the MyAccount Manager link in this section to make an online payment. Online payments can be made using a credit card or by electronic transfer from your personal checking or savings account. Please note the electronic transfer option requires a three-day verification period.

**Paying in Person**

Payments can be made in person at any campus cashier’s office. Please call the College information line, (520) 206-4500, for hours of operation. A picture ID is required for check payments.

**Paying by Mail**

Mail your payment directly to the Pima Community College Student Accounts Office. The College accepts personal checks, money orders, cashier’s checks and traveler’s checks by mail. Do not mail cash. To mail a payment, please follow these simple steps:

1. Make your check or money order payable to Pima Community College.
2. Include your student identification number and the term for which you are paying (e.g., Fall 2015) on the check/ money order. This will ensure timely processing of your payment.
3. Be sure to mail your payment early enough for it to be received by the payment deadline.

4. Mail your payment to the following address:
Pima Community College
Student Accounts Office
4905D E. Broadway Blvd.
Tucson, AZ 85709-1225

**Additional Notes on Payments**
- The College will not accept checks printed without a name or address, second-party, out-of-country or postdated checks.
- College employees will write student identification numbers on checks when students fail to add them.
- Returned check payments are subject to a $25.00 fee.
- Returned checks may be forwarded to a debt collection agency and/or the Pima County Attorney’s Office for collection.

**Attention:** It is the policy of Pima Community College to electronically convert and process paper checks received via mail using the Automated Clearing House (ACH) Network, under the rules governed by the National Automated Clearing House Association (NACHA) and the Federal Reserve Bank.

**Payment with Financial Aid**
Your tuition and fees will be authorized for payment through financial aid if you meet both of the following requirements:
1. You have received confirmation of a financial aid award.
2. The award is large enough to cover your entire tuition and fees.

If you have any questions regarding the status of your financial aid award, you may contact any campus Student Services Center or call the Financial Aid Hotline at 206-4950.

**Student Refund Policy for Credit Courses**

**Regular Refund Policy**
Students who officially drop one or more classes by the regular refund schedule may be eligible for a refund. The drop must result in a decrease to the total tuition assessment as determined by the number of credit hours for which the student is registered. Refer to the “Tuition and Fees” section of the Schedule of Classes to determine if the drop will decrease the tuition assessment.

Students who drop all classes within the official refund period are eligible for a 100 percent refund of paid tuition and fees. Outstanding charges owed to the College may be deducted from the refund amount.

If a class (or classes) must be canceled by the College, students will receive a 100 percent refund of paid tuition and fees for the class(es) being canceled. Tuition paid by financial assistance may be returned to the awarding fund.

Refunds are processed by the Student Accounts Office beginning the week following drop/refund/audit deadline. See the Schedule of Classes for exact dates. Early refunds must be requested through the Student Accounts Office at (520) 206-4574.

**Note:** Withdrawing from a class after the drop/refund/audit will not create a refund or reduce your amount owed.

**Regular Refund Schedule**

**Course Length**

(Enrollment Period).............Refund Deadline

Regular 16 weeks .................within 13 calendar days from the first class meeting or the start of the term

Seven or more weeks ..............within seven calendar days from the first class meeting or the start date of the term. See instructor for information.

Four or more weeks ..............within four calendar days from the first class meeting or the start of the term

Two or less than four weeks ....by the day of the first class meeting

less than two weeks ...............prior to the day of first class meeting

**Noncredit/Study Tours** Special conditions, see Student Refund Policy for Noncredit Activities and Study Tours

Audit classes............................no refunds

**Note:** Refer to the Schedule of Classes for the program starting dates. Refunds will not be issued for audit classes or classes withdrawn after the official refund deadlines.

**Special Notes on Refunds**
- Refunds for payments made by cash or check are generally processed via check or electronic refund. The electronic refund option allows any refund due you to be delivered to your checking or savings account electronically.
- If you paid by credit card, your refund will be credited back to the most recent payment method used.
- Payment made by a sponsoring agency will be returned to that agency.
- The first official refund checks will be mailed after the drop/refund/audit deadline.
- Any outstanding debts owed to the College may be deducted from your refund.
- If the College cancels a class, you will be refunded all applicable tuition and fees.
- If you receive federal financial assistance, your refund will be paid directly back to the sponsoring program as required under federal guidelines. Please see “Return of Federal Financial Aid Funds” for more details.

**Special Refunds Policy**
Students who totally withdraw from the College due to an unforeseen circumstance may request a special provision refund at the admissions office on the campus where they are taking classes. The request must be made in writing and must be made during the semester that the withdrawal occurred. Only tuition will be refunded and the amount of the refund will be pro-rated based on the schedule. The campus president (or designee) may
approve a refund for extenuating circumstances not specifically included in the following provisions.

1. Serious illness or injury. A written doctor’s statement verifying that an illness or injury prevented the student from completing classes must be provided.

2. Death of a close family member. The College defines close family members as your spouse, child, parents, grandparents, siblings, grandchildren, or in-laws. Official documentation (such as a death certificate) must be provided in order to receive a refund.

3. Military Temporary Duty (TDY) Assignments. The assignment must be involuntary and unforeseen as of the official deadline for dropping the classes in question. A copy of the official orders requiring the TDY must be provided with the request.

Note: The College reserves the right to refuse any special provision request.

You must make your special provisions refund request before the end of the academic term from which you withdrew. Requests for refunds made after the academic term has concluded will not be granted.

Special Provisions Refund Schedule (pro-rated)

Refer to the Schedule of Classes for specific dates.

Return of Federal Financial Aid Funds (Title IV Funds)*

Federal regulations stipulate that a student who receives Federal Student Aid (FSA) funds and completely withdraws from the College is required to return a percentage of those funds.

Students “earn” FSA funds in direct proportion to the length of time the student remains enrolled in the term.

The College is required to perform the following steps in the return of funds process:

1. Determine the percentage of the period that the student completed (Days attended divided by the Days in period = Percentage completed).

2. Apply this same percentage to the total awarded FSA funds for which the student established eligibility before withdrawing (Total aid disbursed X Percentage completed = Earned aid).

3. Subtract earned aid from disbursed aid. This is the unearned aid. (Earned aid minus Disbursed aid = Unearned aid).

4. Distribute responsibility for returning unearned aid by the College and the student. The College’s share is determined first by taking the lesser of:
   - The total amount of earned aid; or
   - An amount equal to the student’s tuition and fee charges multiplied by the percentage of aid unearned.

This comparison ensures that the College will not return more aid than it could have kept to cover tuition and fee charges and that the student will not be required to return aid he or she could have received as a cash disbursement.

The student’s share of the amount to be returned is the difference between the total that has to be returned and the College’s share.

5. Allocate unearned aid back to the FSA programs, including Unsubsidized Stafford Loan, Subsidized Stafford Loan, Federal Perkins Loan, PLUS Loan, Federal Pell Grant, FSEOG, LEAP (SSIG).

The College’s share is fully allocated before any of the student’s share.

- The College returns unearned aid in the order shown, up to the full amount disbursed from one program before moving on to the next.
- Once the College’s share has been distributed back to the FSA programs, then the student’s share is allocated in its entirety.

6. If the amount of cash disbursement received by the student exceeds the student’s share, that amount must be repaid to the College directly.

Withdrawals

The withdrawal date that is used depends on whether the student officially withdraws or drops all courses without notifying the College. Please refer to the withdrawal process outlined in the current Schedule of Classes.

- If a student officially notified the College of his or her intent to withdraw, the withdrawal date used is the date on which the student began the official withdrawal process.
- If a student does not notify the College, the College produces a report of the last date of academic activity. For example, the last log in for course(s) taken on the Internet or the date reported by faculty during grade submission which may include last submission of coursework, test taken or attendance in the class.
- If a student is enrolled in a program where attendance is required, the withdrawal date used is the student’s last day of academic attendance.
- If a student withdraws before classes begin for the term, the student’s FSA funds are completely cancelled and the student must repay all FSA funds disbursed.

*Note: This refund policy is based on U.S. Department of Education regulations and it is subject to change if Federal regulations change.

Noncredit Refund Policy

Community Campus handles the refund requests for special interest, noncredit activities and study tours. Refund requests must be received seven (7) calendar days prior to the start of the activity. See “Cancellation Policies for Study Tours” for penalties and refunds when ending (termination of) your registration in study tours and other trips. If the College cancels an activity, students will receive full refunds.
Every effort is made to contact students who have enrolled before the start date if an activity is canceled. For more information, contact the Community Campus at (520) 206-6579.

Cancellation Policies for Study Tours

One-Day Trips: Requests to end registrations must be received seven (7) days prior to the tour date.

Multi-Day Trips: 100 percent of the fee will be refunded when your cancellation request is received 60 calendar days or more prior to the tour start date.

• 75 percent of the fee will be refunded when your cancellation request is received 46-59 days prior to the tour start date.
• 50 percent of the fee will be refunded when your cancellation request is received 31-45 days prior to the tour start date.
• No refunds will be issued when your cancellation request is received within 30 calendar days of the tour start date.

Note: When “Special cancellation policy applies” is cited in a tour description, cancellation requests will be assessed on an individual tour basis. These cancellation penalties may exceed those previously stated.

For more information, please call (520) 206-6579.
Financial Assistance
Financial Aid/Scholarships

General Information
To provide all members of the community access to Pima Community College and to help them pay for the cost of their education, PCC Financial Aid offers a full range of financial aid information and options. The money for the financial assistance comes from federal, state, and institutional programs, as well as private donors. The first step to applying for financial aid is to complete the Free Application for Federal Student Aid (FAFSA).

The Free Application for Federal Student Aid (FAFSA) is available online at www.fafsa.gov.

All PCC students are encouraged to complete the FAFSA. Even if you don’t think you have financial needs, scholarships may be available. If you need help completing your FAFSA, attend a visit to any campus Student Services Center, where a Financial Aid staff member will be happy to help you!

The Fall 2015 Early Bird FAFSA Date is April 1. Students who have their FAFSA sent to PCC by this date will be considered for federal and state funds that have limited availability. Students who meet the Fall 2015 Green Check Date of July 1, 2015 by submitting their FAFSA and all requested documentation to PCC Financial Aid will receive a determination of their aid eligibility by the College’s Fall payment deadline.

Additional information about PCC Financial Aid is available at www.pima.edu/financial aid and via your MyPima Financial Aid tab.

Pima also offers financial aid workshops. They range from financial literacy programs to how to complete your FAFSA to the Financial Aid Orientation that all financial aid recipients are required to attend. See the schedule at www.pima.edu/calendars.

Federal Financial Aid Programs

Federal Pell Grants
The Federal Pell Grant program provides financial assistance for students who meet Pell eligibility guidelines. Determination of eligibility begins with completion of the FAFSA. Pell funds are considered “gift aid” and are awarded based on financial need and enrollment level. Gift aid does not have to be repaid, unless the student fails to complete the enrollment for which they received aid.

Federal Direct Stafford Loans
The Federal Direct Stafford Loan Program offers “subsidized” and “unsubsidized” loans. A Federal Direct Subsidized Stafford Loan is awarded on the basis of financial need. If a student qualifies for a Subsidized Stafford loan, the federal government pays the interest on the loan as long as the student remains enrolled in at least six and has not exceeded the published length of time needed to complete the program of study for which they received the loan. The student is responsible to begin repaying the interest upon dropping below six credits or leaving school.

Unsubsidized Stafford loan is not awarded on the basis of need. If a student qualifies for an Unsubsidized Stafford loan, the student pays the interest from the date the loan is given until the loan is repaid in full. For both Subsidized and Unsubsidized loans, the interest rate and origination fee are determined each year by July 1, and the borrower enters repayment of the loan(s) beginning six months after they graduate, leave school, or drop below six credits in a term.

Federal Direct Plus Loan Program
The Federal Direct Plus Loan program is for parents who have dependent students. This loan program enables parents to borrow funds to pay for the education expenses of their child who is an undergraduate student enrolled at least half-time. Parents cannot borrow more than the cost of education minus the amount of other financial aid received. The interest rate is variable, but it will never exceed 9 percent. The interest rate for Plus Loans is adjusted each year on July 1.

Payment of principal and interest begins within 60 days after the last issuance of loan money to the parents. In addition, interest begins to accrue from the date the first loan payment is made to the student and/or parent.

Campus-Based Programs
Pima Community College participates in two campus-based programs: the Federal Supplemental Educational Opportunity Grant (FSEOG) and Federal Work Study (FWS). Every year, the Federal government awards the College a certain amount of funds to award. FSEOG funds will be awarded to the neediest students first. FWS funds are awarded based on need and acceptance of a qualifying campus job. Since the funds given to the College are limited, students are encouraged to complete their FAFSA as early as possible to meet the College’s Early Bird FAFSA date of April 4.

Federal Supplemental Educational Opportunity Grants (FSEOG)
A Federal Supplemental Educational Opportunity Grant (FSEOG) is for undergraduate students with exceptional financial need. In awarding FSEOG, the College gives priority to students who receive the Federal Pell Grant and met the College’s Early Bird FAFSA Date. FSEOG is gift-aid and does not have to be paid back if a student completes the enrollment for which they received the award.

Federal Work Study
The Federal Work Study Program provides jobs for students with financial need who are enrolled in at least six credits. Students may work part-time in a job that is either on-campus or off-campus. The program encourages community service work and work related to students’ program Funds are limited and priority consideration will be given to students who meet the College’s Early Bird FAFSA Date. For more information on securing an FWS position, visit www.pima.edu/financialaid.

State Financial Aid Programs

Arizona Leveraging Educational Assistance Partnership (LEAP)
The Arizona Leveraging Educational Assistance Partnership (LEAP) grant program makes grants available to students with financial need. The College determines the amount of each award based on individual need and Funds are limited, so the College gives priority to students who meet the College’s Early Bird FAFSA Date.

For More Information
For more information on managing your financial aid, Academic Progress guidelines and Title IV refunds go to www.pima.edu/financialaid or your MyPima Financial Aid Tab.
PCC Foundation Scholarships
Every year, the Pima Community College Foundation awards hundreds of scholarships that have been donated by generous private donors to support Pima students. Scholarships may be awarded on the basis of merit, financial need or a combination of both, as well as other criteria.

Many scholarships are general in nature, while others target specific program areas such as healthcare or occupational programs.

The PCC Foundation Scholarship application is available at www.pima.edu/foundation/scholarships.

Students are not required to complete the Free Application for Federal Student Aid (FAFSA) to be eligible for Foundation scholarships. However, students must be enrolled at Pima before their scholarships will be awarded.

Applications are reviewed by the PCC Foundation Scholarship Committee composed of representatives from Pima, the Office of Financial Aid and the community.

PCC Scholarships and Grants
Pima Community College helps student achieve their dreams through scholarships and grants. For scholarship opportunities, visit www.pima.edu/scholarships.

All-Arizona Academic Team Scholarship
All-Arizona Academic Team Scholarships are available to qualified students from each PCC campus. Applications are generally accepted October through November.

Chancellor’s Service Scholarship
The Chancellor’s Service Scholarship is awarded to new and returning PCC students who have shown competency both academically and civicly. Applicants are required to have a minimum 2.5 GPA and documented completion of community service/volunteer work.

Pima Book Scholarships
Pima Book Scholarships, funded by Follett Bookstores, are available to help qualified PCC students purchase textbooks at the campus bookstores. Applicants are required to have a minimum 2.5 GPA and demonstrate financial need.

Pima Merit Scholars
The Pima Merit Scholar Awards are offered to graduating Pima County high school seniors who have demonstrated academic excellence.

Pima Opportunity Grant
The Pima Opportunity Grant is awarded to students who display financial need and have a minimum 2.5 GPA. This scholarship can provide full or partial tuition and fees for PCC classes.

Payment Plan
If you can’t pay your tuition all at once, you can enroll in a Payment Plan. Payment Plans are available beginning the first day of registration for the fall and spring semesters. They do not incur interest charges. Payment Plans are not available to International Students.

For more information on the payment plan, please visit the Pima Community College website, www.pima.edu/costs/paymentplan.

Department of Veterans Affairs (DVA) Educational Assistance
Pima Community College is an approved institution for Department of Veterans Affairs (DVA) educational benefits. Veterans, survivors, and dependents, eligible for DVA benefits under Title 38 of the U.S. Code (Chapters 30, 31, 32, 33, and 35), and reservists Arizona National Guard and certain Federal Reservists under Title 10, Chapter 1606 and 1607, must be certified through the PCC Veterans Services Office. Initial application to start veteran benefits (22-1990 or VONAPP) may take up to 60 days for DVA to complete. Students are encouraged to complete the required DVA procedures as early as possible through any campus Student Services Center. Students must be admitted to PCC as a degree-seeking student, submit all requested paperwork, and comply with Academic Progress Requirements for DVA Veteran Education Benefits Recipients to maintain certification status.

A student who is a veteran, a survivor or dependent of a veteran, may be eligible for veterans educational benefits. For more information on eligibility and on how to apply, contact any campus Student Services Center or the Veterans Services Office.

Enrollment Certification and Limitations
Upon submission of a VA Certification worksheet and necessary documentation, eligible persons will be certified each semester for courses that fall within their DVA approved program. Please allow at least 30 days for electronic DVA processing. All certifications will require official transcripts from both the military and all prior educational institutions attended.

For fastest certification of your enrollment by PCC, submit your certification worksheet via your MyPima Veterans tab as soon as you register for your courses each term. If you make changes to your program or courses after submitting a certification request or change your program, you must notify the Veterans Services Office at veterans@pima.edu. Failure to do so will result in a delay in your certification, a delay in the receipt of your benefits, and/or an incorrect certification, resulting in an overpayment. If an overpayment occurs, you will be liable to pay funds back to the DVA.

Benefits
Eligible persons receive Veterans educational assistance based on their enrollment status for a certified period in a given term. In a 16-week semester, this measure is determined by the following:

- Full-time: 12 or more semester credits
- Three-quarter-time: Nine to 11 semester credits
- Half-time: Six to eight semester credits

If you enroll less than half-time in a term, you will be eligible for reimbursement of tuition and college fees, only.

Veteran Education Benefit Recipients (VBRs) at half-time status or higher will receive a monthly benefit payment. The rate of that payment will vary by student status and chapter of eligibility. Current pay charts are available online at www.gibill.va.gov. As of Aug. 1, 2011, DVA will pay only in-state tuition and fees for Post 9/11 GI Bill (Chapter 33) students.

Enrollment in accelerated terms or any course that is less than 16 weeks in length, will affect the monthly rate received. Status for those enrolled in courses less than 16 weeks long will be deter-
determined by the number of credits taken in each certified period. A certified period will be determined by the number of weeks for each course a student is enrolled in for the given term. Enrolling in a combination of traditional and accelerated courses may cause a variance in your status; therefore, there may be a difference in the rate of payments received for each term enrolled. DVA will not allow for the certification of open entry/open exit courses unless a final grade is received and posted to the students’ record. Combining open entry/open exit courses with traditional or accelerated courses directly affects your monthly entitlement and rates.

Pima Community College offers any person who is eligible for and has applied for benefits for education under the Montgomery GI bill (Chapters 30, 31, 33, 35, 1606, and 1607) deferment of payment of tuition, fees and required books and materials. Pima Community College shall defer payment on receipt of a signed and acknowledged promissory note for the amount of the tuition, fees and required books and materials, with no interest charge, that is due and payable at the end of the deferral period. This deferment is available during any registration in which a VBR is awaiting benefits. Pima Community College VBR deferment and book loans are available at all campuses.

Degree Plans

Students applying for DVA educational benefits can only be certified for courses that apply to their program of study (or major). Eligible students should select a program of study prior to registration for classes. Not all programs of study are approved for DVA benefits. If you have questions about your program’s eligibility, email veterans@pima.edu

All degree programs have a set number of credits needed to complete them. Students will not be certified for a program of study, or paid by the DVA, for courses that exceed the program’s approved length. The VBR will pay only for required courses in approved programs. This same rule applies to certificate and vocational certificate programs that may be measured in clock hours rather than semester credits.

A program change may occur when a VBR changes institutions (place of training) and there is a material loss of 12 credits or more that are not transferrable to the new institution. The DVA approves and monitors the number of program changes over the period of eligibility to ensure progress in reported goals. VBRs must meet with their Assigned Advisor to complete a MyDegree Plan Planner at least once a year. The Assigned Advisor will ensure that the courses the VBR is registered for align with the stated Program of Study, and the 22-1995/54-1995 that is on file with the DVA.

Transfer of Previously Earned Credit

DVA requires that all students receiving educational benefits have their “prior military and/or college experience” evaluated for credit toward their program of study at Pima Community College. Students must have all official college and military transcripts sent to PCC for evaluation. Upon receipt of the transcripts the College will evaluate them to determine what credit can be accepted at Pima. A VBR will not be certified until all transcripts have been received and evaluated.

Satisfactory Academic Progress for Veteran Benefit Recipients

Schools are required by the Department of Veterans Affairs (DVA) to have and enforce standards of academic progress for Veteran Education Benefit Recipients (VBRs) in order for their programs to be approved for VA Educational Benefit Certification. The law requires that educational assistance benefits be discontinued when a student ceases to make satisfactory progress toward completion of their training objectives.

Pima Community College (PCC) VBRs will have their academic standing monitored under the following guidelines when their coursework is certified as eligible for Veteran Educational Benefits. VBR’s must understand that these requirements are in addition to, and are more restrictive than, the College’s Standards of Academic Progress (SAP), much like the separate requirements for financial aid recipients. If a student has uncontrollable, unpredictable, extenuating circumstances that prevented successful course completion, he/she should discuss their situation with a PCC Veterans Services staff member.

1. All VBR’s must maintain a grade point average of 2.0 or greater and a 67 percent completion rate each semester. Note: this is not a cumulative measure. Satisfactory academic progress will be reviewed at the end of every semester. Completion rate is determined by dividing the number of credits completed by the number of credits attempted. Withdraws, incomplete grades and repeated classes are considered attempted classes. Repeated courses with a grade that is the same or lower than a prior attempt are considered repeated but not completed credit.

2. A VBR will be placed on VBR Warning when their grade point average falls below 2.0 and/or fails to meet a 67 percent completion rate for that semester. A VBR placed on warning will have one semester of enrollment to bring their grade point average up to 2.0 or above and maintain a 67 percent or better completion rate. A student on VBR warning will be:
   a. Notified via PCC email that they are being placed on VBR warning
   b. Required to meet with the Veteran’s Center Coordinator to discuss course load and successful completion. Registration will be restricted to 12 or fewer credits.

3. If the VBR fails to maintain a 2.0 GPA and/or 67 percent completion rate within one semester of enrollment, he/she will be placed on VBR Probation. A student on VBR probation will be:
   a. Notified via PCC email that they are being placed on VBR probation and registration will be blocked
   b. Required to meet with the Veteran's Center Coordinator to discuss course load and successful completion. Registration will be unblocked by the Coordinator after the meeting
   c. Registration will be restricted to 12 or fewer credits the following term as determined by the Veteran's Center Coordinator

4. A VBR placed on VBR probation will have one semester of enrollment to bring their grade point average up to 2.0 or above and a 67 percent or better completion rate each semester or they will be placed on VBR Disqualification. A student on VBR disqualification will be:
   a. Notified via PCC email that they are being placed on VBR Disqualification
b. No longer eligible to be certified for Veteran Educational Benefits at PCC
5. A VBR has the right to appeal his/her VBR disqualification.

**Steps for submitting a VBR disqualification appeal:**

**Step 1:** Submit a typed and signed personal statement
- Explain the circumstances contributing to your inability to maintain Satisfactory Academic Progress. You must address all unsuccessful courses and how your circumstances have changed. In addition if you have completed more courses than those required for your program, you must also explain the reasons why you have failed to graduate in a reasonable timeframe
- Describe what has changed and your plan for making satisfactory progress

**Step 2:** Provide Documentation
- It is extremely important that you include documentation to support your statement. Examples:
  - Letters from health providers
  - Copies of medical bills showing health provider visits
  - If the circumstances that contributed to your inability to maintain Satisfactory Academic Progress were medical in nature, you may also wish to work with your physician to complete the Evaluation Questionnaire for Physician / Health Care Provider Form and submit this with your completed appeal packet
  - Any other statements or documentation to support your extenuating circumstance that prevented you from making satisfactory progress

Your appeal will be denied by the committee if documentation is not provided.

**Step 3:** Make an appointment with an Academic Advisor/Counselor to review and/or update your Planner in MyDegreePlan. Contact your nearest Student Services Center to schedule an appointment

For your appointment you must bring the following:
1. Typed and signed personal statement of what prevented you from being successful during the previous semester
2. Supporting documentation
3. A print-out of the degree requirements for your Program of Study (POS)

**Step 4:** Submit appeal packet to the Veterans Center Coordinator at the Downtown Campus, Room RV 150

**Step 5:** Await Decision

Appeals are reviewed by a committee. You will be informed of the committee’s decision through your PCC email account. The committee’s decision is final.

**Additional Benefits**

Students who are eligible for DVA educational benefits and have completed the enrollment certification process may apply for Tutorial and/or DVA Work-Study. These programs are available in addition to educational benefits. For more information concerning eligibility for these programs and the process to obtain this assistance, contact the PCC Veterans Center at the Downtown Campus.

---

**Pima Community College Foundation**

The Pima Community College Foundation was incorporated as a not-for-profit organization in 1977 by Pima County business leaders to assist Pima Community College in its efforts to expand educational opportunities and services in the community. Today, the PCC Foundation provides a means for citizens to actively support the future growth and development of their community college.

The mission of the PCC Foundation is to support PCC with the resources necessary to provide opportunities for success for our students and community. Areas of support include student scholarships, equipment and supplies, program development and special needs of the College.

The PCC Foundation also oversees the Pima Community College Alumni Association, dedicated to maintaining relationships with former students. The Association provides a continuation of the services and resources that are available to students, as well as opportunities for social events and fundraising projects. To learn more, visit the website at www.pima.edu/alumni or email alumni@pima.edu.

Gifts to the Foundation are tax deductible, and the Foundation will assist prospective donors in making donations, bequests, and in the planning of trust and will arrangements for the College. For more information or assistance, please contact the Pima Community College Foundation office at (520) 206-4646, visit the Web page, www.pima.edu/foundation or email foundation@pima.edu.

Student Services and Student Life
Student Services
All student services are available at the Student Services Centers on all six campuses.

Admissions/Registration
Pima Community College welcomes all who are interested in pursuing their education. Students must be admitted to the College before taking assessments, participating in an orientation or registering for classes. Admissions and registration services are available year-round online at www.pima.edu and at all campus Student Services Centers. For information on admission, registration, residency, transferring and graduation, see the Admissions, Registration, and Records section of this catalog, or visit our website at www.pima.edu.

Advising/Counseling
Advising staff and counselors are available year-round to help students choose courses and make decisions that best meet their educational needs. Both walk-in service and appointments are available. All students should meet with an advisor, counselor, or faculty member at least once each semester to discuss proper course selection. All new students should read the “Before The First Semester” section of this catalog (under Admissions) to review steps that are crucial to student success.

Counseling services can help students in a variety of ways. Counselors help students decide on college majors and careers that match their interests, abilities, and personalities. Counselors help students develop strategies for college success. They also offer support with stress management and personal issues and help students identify appropriate community agencies for assistance.

Assessments
Students are required to take reading, writing, and mathematics or ESL assessments for appropriate placement in courses.

To take the Assessments, visit any campus Student Services Center. You do not need an appointment – assessments are given on a walk-in basis. Assessments are key to appropriate course selection and higher scores can mean fewer classes needed to complete a degree. A little preparation and planning to assess will make a large difference in your scores. Bring a photo ID and allow two to three hours to complete the assessments.

Sample assessment questions are available at www.pima.edu/assessment or can be purchased from the campus bookstore for a modest fee.

(For assessment requirements, please refer to “New Student Requirements for Assessment, Advising, and Orientation” in the Admissions section of this catalog.) Some locations offer other testing services, including those for the High School Equivalency (HSE) diploma, English as a Second Language (ESL), and placement tests for specific disciplines. Computer-based HSE testing is offered at Community Campus.

Arrangements for disabled students (such as extended time, large print, writing assistants, and interpreters) are available through Access and Disability Resources. For more information, refer to the Access and Disability Resources information in this section.

Bookstores
Similar classes held on different campuses may have different textbook requirements. Students should be sure they are purchasing the correct books for the location of their classes. The bookstore staff is available to assist students in selecting appropriate textbooks based on instructor and course reference number. For textbook information and ordering, visit the bookstore website at www.pima.bkstr.com.

Cafés
Fresh food and beverage options are available at the Downtown, Northwest, West, Desert Vista and East campuses. All college locations offer snack and beverage vending.

Department of Public Safety (College Police)
The PCC Department of Public Safety provides law enforcement, security and public service throughout the College District 24-hours a day, seven-days a week. The DPS mission is to provide a safe and secure environment for PCC students, staff, faculty and visitors. Each main campus has a police office that maintains lost and found and basic First Aid services. Escorts to and from a vehicle are available upon request.

DPS provides an annual crime statistics and Clery Crime Act Report that includes statistics for the previous three years concerning reported crimes that occurred on campus and in certain off-campus buildings owned or controlled by the Pima County Community College District, and on property within, or immediately adjacent to and accessible from the campus.

The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, registered sex offenders, and other matters. You can obtain a copy of this report by contacting (520) 206-2671. The report can also be found online at www.pima.edu/dps/reports. Updates and important safety and security issues may be published in the following: the student newspaper, Aztec Press, the weekly online employee newsletter @PimaNews, and through the College’s internet home page, www.pima.edu.

The College’s Parking and Traffic Regulations also are available online at www.pima.edu/administrative-services/college-police/parking-traffic-regulations.html.

For emergencies and to report crimes or suspicious activity call 911 or 206-2700. For non-emergencies or escort requests call 206-2700.

Career Services
Career counseling is available at each campus. Counselors can assist students in deciding on a college major and on a career that matches their interests, skills, and personality. For a counseling appointment, call any campus Student Services Centers. MyCareerLink, online tools, individual assistance and College courses are offered in a variety of career planning and development areas. These resources and services cover career planning, resume writing, career counseling and job search strategies and are available at any campus. MyCareerLink services include resume assistance and job searches. For more information, visit www.pima.edu/careers.
Cashier
Students can pay their tuition online or at any campus cashier’s office. Accepted forms of payments include cash, check, money order, and credit cards. Tuition and fees must be paid in full by the published payment deadlines. Failure to pay by the deadlines may result in the loss of registration or late fees.

Please Note: If you are unable to pay your tuition, there may be financial options, such as a Payment Plan, available to you. For more information on payment options, visit the Costs and Payments section of this catalog.

Access and Disability Resources
Pima County Community College District complies with the Americans with Disabilities Act Amendments Act (ADAA) and Section 504 of the Rehabilitation Act of 1973 as amended, as well as other applicable federal and state laws and regulations that prohibit discrimination on the basis of disability. No qualified person will, solely by reason of disability, be denied access to, participation in, or the benefits of any program, activity, or service offered by the College. The College endeavors to make all of its facilities and programming accessible to all students. This supports the success of students with disabilities, including intellectual disabilities. Campus buildings and facilities comply with ADA standards. In additional, access technologies are available on computers at campus Computer Commons, libraries and other facilities. Contact any Access and Disability Resources office for additional details.

Access and Disability Resources assists students through the development of academic adjustment service plans that authorize specific adjustments. Access and Disability Resources also refers students with disabilities, including those with intellectual disabilities, to other College departments and community agencies that can enhance and support their educational experience. When appropriate, services provided by Access and Disability Resources may include academic and career advising, notetaking, reading and writing assistance, sign language interpreters, real-time transcribers, video-captioning, alternative formats for textbooks and other references, assistive technology, alternative testing services and community agency referrals.

Student requests for accommodation due to disability are processed through Access and Disability Resources offices. Access and Disability Resources specialists will provide intake assistance, determine eligibility based on appropriate documentation, and monitor and adjust student accommodations with the cooperation of students. Students with disabilities may contact any Access and Disability Resources office listed in this section to begin a request for accommodation or to continue a service plan each semester.

The College offers special assistive technologies available in labs, libraries, and classrooms that assist students in succeeding in courses and completing degrees. These technologies may increase the speed of learning, or provide a basis for accommodation in future employment after completion of academic programs. Contact an Access and Disability Resources specialist at any campus for more information about the facilities and accommodations available for students with disabilities including intellectual disabilities.

The actual provision of academic adjustments is a College-wide responsibility, and may require the assistance of instructors or other employees. Access and Disability Resources serves as a resource to College personnel, and welcomes inquiries and requests for technical assistance.
Also provide study and lounge areas. The libraries lend laptop computers, calculators and other electronic devices. Ask library staff at each campus for device availability and lending policies. The libraries offer specific activities for certain populations. Contact any campus Learning Center for additional information.

Free tutoring is available in a variety of subjects for students who need help in their studies. Contact any campus Learning Center for additional information.

Library Services
Pima Community College provides library services at all campuses except Community Campus. Library resources include books, journals, DVDs, audio books, online research databases, and the Internet. All libraries have staff available to answer reference questions and assist students in using library and research resources. Instructors may request library instruction for their courses. Resources are listed online at www.pima.edu/current-students/library/. Research databases can be accessed on or off campus. Ask a librarian for information about accessing library databases from off-campus. Library materials may be transferred between campuses. Campus libraries also lend laptop computers, calculators and other electronic devices. Ask library staff at each campus for device availability and lending policies. The libraries also provide study and lounge areas.

Orientation
All new students attending college for the first time must complete a New Student Orientation. Before doing so, students must be admitted and take the reading, writing, and math assessments. Visit www.pima.edu/orientation or contact any Student Services Center for more information.

Parking and Bus Service
Free parking is provided at all Pima Community College campuses. However, students are responsible for reading and understanding the College’s parking and traffic regulations. For complete information on parking and traffic regulations, see the Pima County Community College District Parking & Traffic Regulations for Motor Vehicles, Bicycles and Non-Pedestrian Devices, available at all campus libraries and online at www.pima.edu. For information regarding how to obtain disabled parking permits, contact a Access and Disability Resources specialist on any campus.

To organize a car pool, call RideShare (884-7433) or visit www.sunrideshare.org for more information. For students interested in riding the public bus, SunTran provides bus service to all campuses. Please visit www.suntran.com for schedule information and trip planning tools. Current bus schedules also are available in the Student Life area of each campus or by calling SunTran at 792-9222.

In accordance with A.R.S. 15-1444C, all vehicles allowed to park in any Pima Community College parking lot must comply with the emissions standard as stated in A.R.S. 49-542.

Specialized Programs
Pima Community College has designed special programs to assist individuals who are reentering the workforce, international students, veterans and students with disabilities. These programs may help qualified students get financial aid or benefits, career information, counseling, advising, and tutoring. Some campuses offer specific activities for certain populations. Contact any campus Student Services Center for more information.

Student Identification Cards
A student identification card provides access to PCC libraries, bookstores, assessment/testing centers, athletics facilities, and computer labs. Students may add value to their ID card to pay for printing in College libraries and labs. Students may use their PCC ID to receive discounts on many events in Tucson. ID Cards can be obtained at any campus cashier’s office.

Transcripts
Unofficial transcripts may be obtained through MyPima and at any campus Student Services Center. Official Transcripts may be requested through MyPima, at any campus, center, or on our website at www.pima.edu/transcripts.

Tutoring
Free tutoring is available in a variety of subjects for students who need help in their studies. Contact any campus Learning Center for additional information.
Student Life

Pima Community College offers a rewarding environment for its students. There are opportunities to get together to share common interests, celebrate diverse cultures, enjoy various cultural events, and much more. In addition, there are avenues available to develop and demonstrate leadership qualities and to be a voice within the College. Specific information on student government, student clubs and organizations, and cultural events can be obtained by consulting the offices of Student Life on any campus.

Clubs and Organizations

For those students with similar interests, the College has a variety of clubs and organizations. For information on all clubs, contact the campus Student Life office.

Student Advisory Boards (SABs)

Students have a voice in College functions through recognized campus Student Advisory Boards (SABs). SABs are open to all students and include student governance representatives, activities and programming committees, and clubs and organizations.

Students are urged to volunteer for College task forces and committees. For information on these activities, consult any campus office of Student Life.

Performing Arts

PCC provides experience in the performing arts at its comprehensive Center for the Arts, headquartered at the West Campus. It houses the 420-seat Proscenium Theater, a studio theater, a recital hall, stage shops, classroom space, an art gallery, and an outdoor amphitheater. In addition, PCC’s Theater Department is known for its contemporary, multicultural focus. The department presents student performances and Live Arts events at the Center for the Arts throughout the year. Discounted rates to performances are available to students with a valid PCC Student ID. For more information, call the Center for the Arts at 206-6988; for information on performance tickets, call the CFA box office at 206-6986.

Phi Theta Kappa

The College offers membership in Phi Theta Kappa (PTK), an international honors society. The members of this society have prestige of membership, leadership opportunities, availability of honor society scholarships, involvement in community projects, and acquaintance with other honor society members.

For additional information, contact any campus Student Life office.

Publications

Students interested in writing, editing, and reporting, can work on one of Pima’s two student publications. Aztec Press, located at the West Campus, is a bi-monthly newspaper that provides students an opportunity to learn about journalism. For more information about serving on the newspaper staff in any position, please contact either the Arts and Communications Division office or Aztec Press at (520) 206-6800. Pima also has a literary magazine. Students interested in this form of publishing may enroll in WRT 162-Literary Magazine Workshop. The workshop annually publishes SandScript. The SandScript contains literary pieces, including those from students, faculty, and staff. The magazine also sponsors an annual art contest for its cover and center pages.

Sports – Intercollegiate Athletics

Pima Community College is a member of the Arizona Community College Athletic Association, National Junior College Athletic Association, and the NJCAA Region #1. The sports organization governing the College’s participation sets the rules of who can participate (eligibility requirements). The basic requirements are that the athletes be full-time enrolled students, be making progress in their studies (satisfactory academic progress), and that each person has received a medical clearance to participate. Pima competes in a variety of sports, including baseball (men), basketball (men and women), cross-country (men and women), football (men), golf (men and women), soccer (men and women), softball (women), tennis (men and women), track (men and women), and volleyball (women).

Student Housing

Pima Community College does not own or operate student housing, either on campus or in the community. However, students can receive information about community agencies and organizations that provide housing by contacting any Student Life office.

Drug Free Schools and Communities Act Information

Standards of Conduct

The unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees is prohibited. The following misconduct is subject to disciplinary action, including exclusion, suspension, or expulsion:

1. Violating or failing to comply with published rules and regulations of conduct of the College that prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on College property or as part of any of its activities; OR

2. Being under the influence of, using, selling, possessing, or distributing any illicit drugs or alcohol on College property or as part of any of its activities. This prohibition includes, but is not necessarily limited to, marijuana, any narcotic drug, hallucinogen, stimulant, depressant, amphetamine, barbiturate, abusable glue, aerosol paint, or other chemical substances. Over-the-counter drugs are excluded from consideration unless improperly used.

Legal Sanctions

Local, state, and federal laws prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol. Conviction for violating these laws can lead to imprisonment, fine, probation, and/or assigned community service. Students convicted of a drug and/or alcohol-related offense may be ineligible to receive federally funded or subsidized grants, loans, scholarships, or employment. Pima County Community College District will fully subscribe to and cooperate with the local, state, and federal authorities in the
enforcement of all laws regarding the unlawful possession, use, or distribution of illicit drugs and alcohol.

Health Risks
There are definite health risks associated with the use of alcohol and illegal substances. Students who experiment with drugs, alcohol, and illegal substances, or use them recreationally, may develop a pattern of use that leads to abuse and addiction. Use of alcohol and illegal substances is a major factor in accidents and injuries, and among persons between the ages of 18 and 24, it is responsible for more deaths than all other causes combined.

Support Resources
College officials assist students with appropriate referrals and information concerning drug and alcohol education, counseling, treatment, or rehabilitation or re-entry programs that may be available in the community. Contact the Student Services Center on any campus for information.
Educational Options
Introduction
To meet the diverse needs of students, Pima Community College offers a variety of ways for students to reach their educational goals. Students can choose from traditional, alternative-style, or accelerated classes. These classes cover many subject areas and fulfill degree and certificate requirements. Students can take classes to transfer to a four-year institution, prepare for job training, or continue their education in an area of special interest.

These classes are provided days, evenings, and weekends. Evening classes begin at 4:30 p.m. or later and are highlighted in the Schedule of Classes. Classes are offered at all PCC campuses and learning centers, as well as more than 100 off-campus sites, including Davis-Monthan Air Force Base, public schools, and neighborhood centers in Pima County.

Traditional-Style Classes
PCC offers traditional-style classes in which students are required to attend lecture and/or lab on specified days and times. Regular classes run for 16 weeks during fall and spring semesters.

Alternative-Style Classes
PCC also offers alternative-style classes that provide students with different teaching methods or within different time frames. These classes are designed to fit students’ learning styles and scheduling needs and include:

- Express Format – Students attend class one night a week for five or six weeks; completing appropriate Express classes year-round for two years can lead to an associate degree.
- Honors Content – This course may be taken for Honors credit, with additional work expected of the student beyond regular course requirements.
- Internet/Web – Classes taught via the Internet.
- OpenEntry/Open Exit – Students enroll at any time during the semester and complete required work at their own pace within the semester or by arrangement with the instructor.
- Self-Paced – Students work off-campus at their own pace, with study materials prepared by College faculty. Students must meet with faculty for the initial class at the time and room defined in the Schedule of Classes.
- Self-Paced on Campus – Students work on-campus each week at their own pace, in the room defined in the Schedule of Classes, with faculty guidance. Students must meet with faculty in the room defined during the first week of classes.
- Web and Classroom – Students receive instruction in the classroom and via the Internet with reduced time in the classroom.
- Web Self-Paced – Students work via the Internet at their own pace with materials provided by College faculty via the Internet.

See the Schedule of Classes for more information about these options.

Honors Program
The Honors Program provides students enriched learning opportunities and programming activities to foster academic and social development. It features an enhanced curriculum where students can expand their intellectual capabilities, develop creativity, and practice leadership skills. The primary goals of the Honors Program are to encourage leadership and community service opportunities and to facilitate entry into Honors Programs at four-year colleges. The Honors Program features small class sizes, assistance for students seeking scholarships and awards, and a strong support network among students, faculty, and staff.

To graduate from Pima Community College with an Honors designation, students must complete a minimum of 15 credit hours of honors courses and maintain a cumulative GPA of 3.5. The Honors 101 Colloquium (3 credits) is a required course in this 15-credit minimum.

Admission Criteria
Details about the criteria to join the Honors Program, as well as program requirements and Honors contacts, are at www.pima.edu/honors. For information about other honors societies, see Phi Theta Kappa.
Earning a Degree or Certificate
Degree, Certificate, and Graduation Requirements

Pima Community College offers certificates and degrees in a variety of areas. Each certificate and degree has specified program requirements for graduation. See certificate and degree displays for specific program requirements. The certificates and degrees are displayed alphabetically beginning with Accounting.

Each program display lists the required coursework and credits. A degree may be awarded with fewer than the number of credits shown in the program display as long as the student has completed the required coursework and a minimum of 60 credit hours numbered 100 or higher.

Earning a Degree or Certificate

Earning a certificate or degree requires fulfilling all requirements defined below.

Students are responsible for determining the presence or absence of any barriers to professional licensure or certification outside of College awarded completion documents. If students have concerns about any non-educational barriers to professional licensure or certification, they are advised to seek academic advising to explore that possibility before beginning their course of study.

Program Prerequisites

Prerequisites may be required before beginning some programs. Prerequisites are in place to make sure students have the skills and knowledge needed to be successful in the program. These courses may add a semester or more to the time needed to complete the certificate or degree. If a program has prerequisites they will be found in the program display, and the total credits required for each program include those prerequisites.

Program Requirements

General Education Courses

General Education courses enhance the student’s education and are required for graduation for all degrees and for certificates of 30 or more credits.

Core/Major Courses

Core/major courses provide in-depth knowledge and/or skills in the student’s chosen field of study. Core/major courses are required and are listed by program in the certificates and degrees section of the catalog.

Support/Elective Courses

Support/elective courses expand the knowledge and skills beyond the core/major requirements and are usually in subject areas different than the core/major courses.

Graduation Requirements

In order to graduate from Pima Community College, a student must:

1. Apply for graduation within one year of completion of degree requirements. Students failing to do so must apply for an exception through the Office of the Registrar at the District Office and must complete a graduation application by the dates specified in this Catalog’s academic calendar. Failure to complete the application by that date will result in a delay in processing until the following semester.

2. Complete the General Education requirements appropriate to the certificate or degree.

3. Complete the program core, support, and prerequisite requirements for the appropriate certificate or degree.
   a. Complete a minimum of 60 credit hours of course work at the 100 level or higher for an associate degree. At least 15 credit hours of the program requirements must be earned at PCC.
   b. Complete the college credit hours as defined in the certificate display within this catalog to earn a certificate. For certificates of more than 6 credit hours, including the AGEC-A, AGEC-B and AGEC-5, at least 6 credit hours of the program requirements must be earned at PCC. For certificates of 6 credits or less, all credits must be earned from PCC.

4. Have a minimum overall 2.0 grade point average (GPA) on a 4.0 grade point scale.

5. Complete courses given the following rules regarding grades:
   a. A “C” grade or higher is required for general education and core courses, and for all courses in the Associate of General Studies degrees, transfer degrees (Associate of Arts, Associate of Business Administration, Associate of Fine Arts, and Associate of Science) and all AGECs.
   b. “D” or “F” grades do not fulfill graduation requirements for any transfer degree (Associate of Arts, Associate of Business Administration, Associate of Fine Arts, and Associate of Science ) or AGEC.
   c. A grade of “P” cannot be used for Arizona General Education Curriculum (AGEC) or any transfer degree (Associate of Arts, Associate of Business Administration, Associate of Fine Arts, and Associate of Science) The exception to this rule is for transfer courses for which a “P” grade is the only option available for students.
   d. A “D” grade may fulfill support course requirements only in certificates, the Associate of Applied Arts, and the Associate of Applied Science degrees, and only if those courses do not also meet general education requirements, or the program does not require a higher grade. See your program display.

Graduation with Honors

Students who are graduating with a degree and who have completed 30 credit hours at Pima Community College may be granted honors designation if they meet certain grade point averages:

- 3.500 to 3.749 grade point average = Graduation with Honors
- 3.750 to 3.899 grade point average = Graduation with High Honors
- 3.900 to 4.000 grade point average = Graduation with Highest Honors

These designations will be shown on diplomas and listed on the student’s official transcripts.
Student’s Catalog of Record
(Catalog Under Which a Student Graduates)

Students maintaining continuous enrollment at any public Arizona community college or university may graduate according to the requirements of the catalog in effect at the time of initial enrollment or according to the requirements of any catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment whether attending a public community college and/or public university in the State of Arizona.

The rules for maintaining continuous enrollment are:

1. A semester in which a student earns course credit will be counted toward continuous enrollment.
2. Noncredit courses, audited courses, failed courses, or courses from which the student withdraws do not count toward continuous enrollment.
3. Failure to enroll in three consecutive regular (fall or spring) semesters breaks continuous enrollment for a student. Enrollment in the intervening summer terms may be used to maintain continuous enrollment status.

If continuous enrollment is not maintained, the student must meet the requirements for graduation of the catalog in effect at the time they re-enroll or any subsequent catalog of continuous enrollment. Students enrolling or re-enrolled during a summer term must follow the following annual catalog or any subsequent catalog of continuous enrollment.

Time Limit for Coursework

In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant. Coursework that is more than eight years old is applicable to completion of certificate and degree requirements at the discretion of the student’s major department. Departments may accept such coursework, reject it, or request that the student revalidate its substance. The eight-year limit on coursework applies except when program accreditation agencies limit the life of coursework to less than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs, when completing earlier requirements is no longer possible or educationally sound. There is no time limit for General Education Courses.

General Education Information

The Value of General Education

General Education helps students to gain an understanding and appreciation of themselves; their history and culture; the history and culture of humanity; the principles and impact of mathematics, science and technology; and the principles of effective communication.

The process of general education is designed to develop the following thinking skills: comparing, interpreting, summarizing, suggesting and testing hypotheses, imagining and creating, criticizing and evaluating, designing projects and investigations, gathering and organizing data, reasoning, problem solving, and decision making.

Preparation for General Education

To succeed in general education courses, students should have attained college-level preparedness in reading, writing and mathematics.

General Education Requirements by Certificate or Degree

The following list shows the minimum General Education credits needed for each type of degree program or certificate offered at Pima Community College. When considering which type of program is best for you, please note that if you intend to transfer to a university to complete a Bachelor of Arts (BA), Bachelor of Fine Arts (BFA), or Bachelor of Science (BS), the Associate of Arts (AA), Associate of Business Administration (ABUS), Associate of Fine Arts (AFA), and the Associate of Science (AS) are the degrees designed for that purpose. The Associate of General Studies (AGS), Associate of Applied Arts (AAA), and the Associate of Applied Science (AAS) degrees require different General Education courses.

A student who provides transcripts documenting an earned bachelor’s degree from a regionally accredited institution will, upon request, have the general education requirements waived for a certificate or for an associate’s degree as long as the student has a minimum of 60 credits applicable toward the degree, and has met all other graduation requirements. Any degree requirements which would apply toward both the prerequisite, major or support course requirements as well as general education requirements would still need to be met. If the student is pursuing a transfer degree, the degree would be awarded and the general education requirements would be waived, but the Arizona General Education Requirement (AGEC) certification would not be awarded.

Communication Requirement (3 credits)

Choose 3 credit hours from the following list:
- GTW 101
- JRN 101
- OAP 151
- SPE 102
- SPE 120
- WRT 101 (or WRT 107)†
- WRT 154

† Suggested for students who may transfer.

Analysis and Critical Thinking Requirement (3 credits)

Complete 3 credit hours from the categories listed below:

Mathematics Competency Requirement (0-3 credits)

The mathematics competency requirement can be met by:
1. Scoring 32 or above on the Compass Algebra test or the Asset Elementary Algebra test
2. Completing MAT 092 with a "C" or better**
3. Completing Module 26 in MAT 089**
4. Completing 1-3 credits with a "C" or better from the Mathematics Category listed below

Note: Students who meet the Mathematics Competency Requirement by assessment, by completing MAT 092 or Module 26 in MAT 089, or by completing Mathematics Category course work with fewer than 3 credits are still required to complete a total of at least 3 credits from the Analysis and Critical Thinking Requirement.

Mathematics Category
- BUS 151 (if taken after Spring 2008)
- GTM 105
- TEC 113
- Any mathematics (MAT) course at the 100 level or higher

Science Category
- MAC 275
- PHY 101*

Any course from the AGEC Biological/Physical Science List†

Critical Thinking Category
- PHI 120
- REA 112
- STU 200
- TEC 101

† Suggested for students who may transfer.
* No longer offered, but will fulfill requirement.
** Neither MAT 092 nor MAT 089 apply toward the 3 credits required in this category, but do they meet the math competency.

General Education Requirements for AAA, AAS and AGS Degrees:

Courses may not be used to complete more than one category. Some programs require specific courses for general education. See program displays.

Special Requirement

One of the courses must meet either Cultural Diversity or Global Awareness criteria (C or G designation from the Arizona General Education Curriculum (AGEC) lists or a course from the Leadership and Ethics Category). The AGEC lists are found in the General Education Requirements for Transfer Programs following this section.

Communication Requirement (6 credits)

Choose one of the following pairs:
- GTW 101 and SPE 120
- JRN 101 and SPE 120
- OAP 151 and OAP 251
- SPE 102 and WRT 154
- SPE 120 and WRT 154
- WRT 101 (or 107) and SPE 120
- WRT 101 and 102 or WRT 107 and 108

* Suggested for students who may transfer.

Analysis and Critical Thinking Requirement (6 credits)

Complete 6 credit hours from the categories listed below.

At least one course must be completed from the Science or Critical Thinking Categories.

Note: The Mathematics Competency Requirement must be met.

Mathematics Competency Requirement (0-3 credits)

The mathematics competency requirement can be met by:
1. Scoring 32 or above on the Compass Algebra test or the Asset Elementary Algebra test
   OR
2. Completing MAT 092 with a "C" or better**
   OR
3. Completing Module 26 in MAT 089**
   OR
4. Completing 1-3 credits with a "C" or better from the Mathematics Category listed below

Note: Students who meet the Mathematics Competency Requirement by assessment, by completing MAT 092 or Module 26 in MAT 089, or by completing Mathematics Category course work with fewer than 3 credits are still required to complete a total of at least 6 credits from the Analysis and Critical Thinking Requirement.

Mathematics Category
BUS 151 (if taken after Spring 2008)
GTM 105
TEC 113
Any mathematics (MAT) course at the 100 level or higher

Science Category
MAC 275
PHY 101*
Any course from the AGEC Biological/Physical Science List†

Critical Thinking Category
PHI 120
REA 112
STU 200
TEC 101

Humanities; Social Science; Leadership and Ethics Requirement (6 credits)
Courses must be completed from two of the following categories.
Courses may not be used to complete more than one of the categories listed below.

Humanities and Fine Arts Category
Any course from the AGEC Art list†
Any course from the AGEC Humanities list† or LIT 174*
Any course from the AGEC Other Requirements Options: (c) Second Language list†
One of the following conversational language courses: FRE 106*, 107*; SPA 106, 107, 121*, 122*, 206;
THO 106*, 107*.

Social and Behavioral Science Category
Any course from the AGEC Social and Behavioral Sciences list†
Any course from the AGEC Other Requirement Options: (d) International and Multicultural Studies list†

Leadership and Ethics Category
Any course in this category meets the Cultural Diversity or Global Awareness requirement: ANT 253, BIO 250; BUS 148;
STU 230

Computer and Information Literacy Requirement (1-3 credits)
Completion of certain degree programs automatically fulfills this requirement. See your program display. Otherwise choose a course from the list below:

- AJS 165*; CAD 101; CIS 100*, 104; CSA 100, 101* or 104; FSC 189

† Suggested for students who may transfer.
** No longer offered but will fulfill requirement.
** Neither MAT 092 nor MAT 089 apply toward the 6 credits required in this category, but do they meet the math competency.

General Education Requirements for Transfer Programs
This section covers the General Education requirements for the following degrees:
- Associate of Arts Degree (AA)
- Associate of Fine Arts (AFA)
- Associate of Business Administration Degree (ABUS)
- Associate of Science Degree (AS)

Arizona General Education Curriculum (AGEC)
The AGEC is a block of 35 or more credits and 11 courses that, when completed, can be transferred to meet all lower-division General Education requirements for bachelor’s degrees at Arizona’s public universities (Arizona State University, Northern Arizona University, and the University of Arizona). The AGEC may also meet other universities’ General Education program requirements. At least six credits of AGEC coursework must be completed at Pima Community College to earn an AGEC at Pima. See an advisor or counselor for more information.

There are three AGECs available: the AGEC-A for Associate or Bachelor of Arts or Fine Arts degrees, the AGEC-B for the Associate or Bachelor of Business Administration degrees, and the AGEC-S for the Associate or Bachelor of Science degrees.

AGEC-A:
The AGEC-A may be applied to universities’ Bachelor of Arts or Fine Arts degree programs. See the Liberal Arts Associate of Arts Degree for Transfer in this catalog for more information on choice of major and see an advisor or counselor to establish a degree plan using a university transfer guide.

AGEC-B:
The AGEC-B may be applied to universities’ business administration degree programs. See the Associate Degree in Business Administration (ABUS) for more information on this major and see an advisor or counselor to establish a degree plan and to be sure of the AGEC pathway. Also, an AGEC-B fulfills the requirements for an AGEC-A.

AGEC-S:
The AGEC-S may be applied to universities’ Bachelor of science degree programs. See the Associate of Science Degree for Transfer in this catalog and see an advisor to establish a degree plan and to be sure of the AGEC pathway. Also, an AGEC-S fulfills the requirements for an AGEC-A.
General Education Requirements for Transfer Programs

If the AGEC is not completed before a student transfers to another community college or university:

- The student cannot complete an AA, AFA, ABUS, or AS degree.
- The student may be required to take additional general education courses at the college or university.
- The credits will be evaluated individually by the college or university using the Course Equivalency Guide and accepted depending on the degree requirements.

AGEC Categorical Requirements

The same course may not be used to complete more than one category, but it may meet both a category requirement and a Special Requirement. Request an AGEC checksheet from an advisor for more detailed information. Per Arizona statewide policies, no course substitutions are allowed in the AGEC.

**Total AGEC S General Education Credits Required:** 37-39
AGEC Special Requirements

Students are required to take courses that meet each of the following:

- Intensive writing and critical inquiry (I)
- Cultural diversity highlighting ethnic, race, and/or gender awareness (C)
- Global awareness (G)

AGEC special requirements can be completed in one, two or three courses. Look for the AGEC special requirement code (I, C, and G) in the course lists below. To avoid exceeding the 35 - 39 credits required for the AGEC; the student should choose some courses that satisfy both the AGEC special requirements and the category requirements. For example, HUM 253 fulfills a category requirement of Humanities and Fine Arts and the three AGEC special requirements: Intensive Writing and Critical Inquiry (I), Cultural Diversity (C), and Global Awareness (G). See an advisor or counselor for help in selecting courses.

AGEC Special Requirement Legend

I Satisfies Intensive Writing Special Requirement
C Satisfies Cultural Diversity Special Requirement
G Satisfies Global Awareness Special Requirement

AGEC Categorical Requirement: English Composition (6 credits)

Complete two courses, either the combination of WRT 101 and 102 or WRT 107 and 108.

* No longer offered, but will fulfill requirement.
†† This course is cross-listed with (the same as) another course – only one will apply to meet AGEC, degree or certificate requirements. The course description will indicate the cross-listed course.
Educational Programs,
Degrees and Certificates
Degrees and Certificates

The current educational programs are listed below with the name of the degree or certificate, the award type, the program code, the major code, and any concentration codes associated with the program. These codes identify the student’s program of study in their student record and in MyDegreePlan. If a student is uncertain about which codes to use or for information on programs without program codes, please see an advisor or counselor.

There is an additional column entitled Lead Campus in the Occupational Program list. The lead campus is the only campus to offer all courses required for the certificate or degree. Other campuses may offer introductory course(s) for the certificate or degree. Check the Schedule of Classes for the courses offered on each campus or see an advisor or counselor.

Although the Transfer Programs do not have a lead campus, transfer program’s core/major courses and some general education courses may not be offered on every campus. Check the Schedule of Classes or see an advisor or counselor.

The definitions of the abbreviations in the Award column are:

AA  Associate of Arts
An Associate of Arts is a credit degree of 60-64 credits for transfer to a college or university into majors related to arts, humanities, social and behavioral science, and education. The AA includes an Arizona General Education Curriculum (AGEC)-A. See General Education Requirements for Transfer Program section for more information on AGEC.

ABUS  Associate of Business Administration
An Associate of Business Administration is a credit degree of 60-64 credits for transfer to a college or university into a business or business-related major. The ABUS includes an Arizona General Education Curriculum (AGEC)-B. See the General Education Requirements for Transfer Programs section for more information on AGEC.

AS  Associate of Science
An Associate of Science is a credit degree of 60-64 credits for transfer to a college or university into a science or science-related major. The AS includes an Arizona General Education Curriculum (AGEC)-S. See the General Education Requirements for Transfer Programs section for more information on AGEC.

AAA  Associate of Applied Arts
An Associate of Applied Arts is a credit degree of at least 60 credits for direct employment into jobs requiring some art-related skills and competencies.

AAS  Associate of Applied Science
An Associate of Applied Science is a credit degree of at least 60 credits for direct employment into jobs requiring skills and competencies in the technologies, business, government and public service, and health-related professions.

AFA  Associate of Fine Arts
An Associate of Fine Arts is a credit degree of 60-64 credits for transfer to a college or university into majors related to fine arts. The AFA includes an Arizona General Education Curriculum (AGEC)-A. See General Education Requirements for Transfer Program section for more information on AGEC.

AGS  Associate of General Studies
An Associate of General Studies is a credit degree of 60 credits designed by the student. If planning to seek employment or to transfer, the student should develop a plan of study with an advisor or counselor.

CERT  Certificate
A Certificate is a credit certificate in a specific field of study of less than 60 credits for direct employment into a job or for transfer to a college or university.

CERA  Post-Degree Certificate
A Post-Degree Certificate is a credit certificate in a specific field of study of less than 60 credits for direct employment into a job. An Associate’s Degree or a Bachelor’s Degree (depending on the program) is required before beginning a Post-Degree Certificate. See program display for specific requirements.

CTD  Certificate of Completion
A Certificate of Completion is a non-credit certificate in a specific field of study for direct employment into a job. The program is a clock-hour program rather than a credit program, only offered at the Center for Training and Development located at the Desert Vista Campus.

Credit Degrees and Certificates

There are three lists of credit certificates and degrees:

- Occupational Programs (WFD, CTD, CERT, CERA, AAA, and AAS)
- General Studies Programs (AGS)
- Transfer Programs (CERT, AA, ABUS, AFA and AS)

Campus legend:

CC = Community Campus
DV = Desert Vista Campus
DC = Downtown Campus
EC = East Campus
NW = Northwest Campus
WC = West Campus

#### Digital Arts (continued)
- **Digital and Film Arts**
  - AAS  AASDIGIFILM  MEF  WC
- **Digital and Film Arts – Animation**
  - AAS  AASANIMATION  ANM  WC
- **Digital Game & Simulation**
  - AAS  AASDAG  DAG  WC
  - **Concentrations:**
    - Digital Animation and Production  DAGA  WC
    - Digital Programming  DAGP  WC

#### Direct Care Professional
- **Basic Direct Care Professional**
  - CERT  CRTDCP  DCP  NW

#### Education
**Early Childhood Education and Child Development Associate**
- **Basic Early Childhood Studies**
  - CERT  CRTECB  ECB  DV
  - **Concentrations:**
    - Child Development Associate Credential Preparation  ECBC  DV
    - Early Childhood Foundations  ECBF  DV
- **Advanced Early Childhood Studies**
  - CERT  CRTECA  ECA  DV
- **Early Childhood Studies**
  - AAS  AAEC  ECS  DV

#### Teacher Education
- **Elementary Certification**
  - CERA  Special**  CC
- **Secondary Certification**
  - CERA  Special**  CC
- **Special Education Mild-Moderate Disability Certification**
  - CERA  Special**  CC
  - for Certified Teachers  CERA  Special**  CC
- **English as a Second Language**
  - CERA  CRDE  EDE  CC
- **Middle School**
  - CERA  CRDE  EDM  CC
- **Structured English Immersion**
  - CERA  CRDE  ESE  CC

#### Educational Technology
- **Basic Educational Technology**
  - CERT  CRTINTEDUTEC  ETB  CC

#### Emergency Medical Technology
- **Emergency Medical Technology**
  - CERT  CRMEDTEC-B  EMS  EC
- **EMT Paramedic**
  - AAS  AAEMED  EMD  EC

#### Fashion Design
- **Fashion Design**
  - CERT  CRTFDC  FDC  WC
  - Also See Applied Arts, Art Electives list

#### Fire Science
- **Fire Science Academy Track**
  - CERT  CRTFIRESCIEN  FSI  CC
- **Fire & Emergency Services Higher Education (FESHE)**
  - AAS  AASFIRESCIEN  FSC  CC
  - **Concentrations:**
    - Fire and Emergency Service Higher Education (FESHE)  FSCF  CC
    - Vocational Academy  FSCV  CC

#### Fitness and Sport Sciences
- **Coaching**
  - CERT  CRTCOACHING  FSG  WC
- **Fitness Professional**
  - CERT  CRTFITNESS  FSP  WC

* The lead campus is the only campus to offer all courses required for the certificate or degree. Other campuses may offer only introductory course(s) for the certificate or degree. Check the Schedule of Classes for the courses offered on each campus.

** Special Admissions Requirements—See an advisor
Accounting

Learn the skills and knowledge needed for bookkeeping and accounting careers. Students interested in becoming a certified public accountant should refer to the Business Administration transfer program.

Accounting — Certificate for Direct Employment

Understand business practices and learn specific accounting skills.

What can I do with this certificate?

Career Options: Entry-level bookkeeping and accounting positions

Academic Options: Continue your studies by taking classes toward an Accounting Associate of Applied Science degree, the Fraud Examination certificate, or explore business transfer options.

More Information: Review program costs, student debt, on-time graduation and more

Administration of Justice

Administration of Justice Studies — Associate of Applied Science Degree for Direct Employment

This two-year degree covers a broad range of knowledge and professional skills in criminal law, corrections, and the American justice system. Students planning to transfer to ASU should complete the Administration of Justice - Associate of Arts degree instead.

What can I do with this degree?

**Career Options**: Find entry-level employment or promotion in corrections or criminal justice.

**Academic Options**: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima's Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Location**: East Campus

**Department/Contact Information**:
Dean: 206-7694
Lead Faculty: 206-7477
Program/Major Codes: AASADMINJUST/AJS

Archaeology

Field Archaeology Certificate for Direct Employment

Dig into the past by studying archaeological fieldwork. Courses are designed for those seeking professional skills, those working toward an Anthropology degree with an archaeology emphasis, as well as for those with a general interest in archaeology. This program emphasizes the preservation and conservation of resources and applied skills in archaeology, particularly related to the pre-history of southern Arizona.

What can I do with this certificate?

Career Options: Seek employment in entry-level archaeology positions.
Academic Options: Students planning to transfer to a four-year archaeology degree program should pursue an Anthropology AA degree simultaneously with this certificate.
More Information: Review program costs, student debt, on-time graduation and more

* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Arizona General Education Curriculum (AGEC) — Certificate for Transfer

Complete lower-division general education requirements for transfer to ASU, NAU or UA.

It is strongly recommended that students complete the Associate of Arts, Associate of Business Administration, or Associate of Science degrees in addition to the AGEC before transferring. The AGEC without a degree is not eligible for financial aid.

What can I do with this certificate?

Academic Options: Continue your studies by taking additional transfer coursework to complete an Associate or Arts, Associate of Business Administration, or Associate of Science degree, then transfer to a college or university.

Locations: All campuses

Contact Information: Contact any campus Student Services office (www.pima.edu/current-students/advising/contact-us.html)

Required Courses

At least 35 credits and 11 courses are required for this certificate.

Complete an AGEC-A for Associate of Arts, Associate of Fine Arts, and Bachelor of Arts degrees; complete an AGEC-B for Associate of Business and Bachelor of Science in Business degrees; complete an AGEC-S for Associate of Science and most Bachelor of Science degrees.

Arizona General Education Curriculum (AGEC) Requirements - A grade of C or better is required in all courses for graduation.

Total credits: 35

The I, C, and G requirements should be fulfilled by completing appropriate courses in the above categories.
Arts

Gain knowledge and experience working in a variety of media.

**Associate Degrees:**

- Applied Arts
- Associate of Arts: Visual Arts Concentration
- Associate of Arts: Dance Concentration
- Associate of Arts: Music Concentration
- Associate of Arts: Theater Concentration

---

**Applied Arts**

**Applied Arts — Associate of Applied Arts Degree for Direct Employment**

Gain experience working in a variety of art media or focus on a single area of interest. Learn art history or principles of effective art education. Students interested in digital and film arts should pursue a degree or certificate in that subject area.

Students interested in transferring to a university should complete an Associate of Fine Arts degree, concentrating in visual arts, dance, music or theater.

---

**What can I do with this degree?**

**Career Options:** Work as an artist, artist assistant or entry-level art instructor.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html).

† Core or support course(s) fulfill this requirement.

Ⅲ General Education requires 19-21 credits. This subtotal shows the Gen Ed credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Fine Arts

Gain knowledge and experience working in a variety of media.
• Associate of Arts: Visual Arts Concentration
• Associate of Arts: Music Concentration
• Associate of Arts: Theater Concentration
• Associate of Arts: Dance Concentration

Visual and Performing Arts — Associate of Fine Arts for Transfer — Visual Arts Concentration

Study a variety of art forms or learn art history while preparing to transfer to a 4-year university.

What can I do with this degree?

Career Options: Work as an artist, art educator or in art or performance production.

Academic Options: Transfer to a university to complete a bachelor's degree.

Location: West Campus

Department/Contact Information:
Dean: 206-6690
Lead Faculty: 206-6882
Program/Major/Concentration Codes: AFAFINEARTS/AFA/AFAV

Arizona General Education Curriculum Requirements (AGEC-A) - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

English Composition ...................................................................................................................................................................................................................................................... 6
Humanities and Fine Arts ............................................................................................................................................................................................................................................ 6
   ART 100 and 130 fulfill this requirement.
Biological and Physical Sciences ................................................................................................................................................................................................................................ 8
Mathematics .......................................................................................................................................................................................................................................................... 3
Social and Behavioral Sciences .............................................................................................................................................................................................................................. 6
Other Requirements ................................................................................................................................................................................................................................. 1
   ART 110 and 131 fulfill requirement.
Special Requirements
   ART 130 fulfills the I and G requirements. The C requirement should be fulfilled by a course in the Social and Behavioral Sciences category.

Subtotal ......................................................................................................................................................................................................................................................... 23¥

*** Additional credits may be needed to have a minimum of 60 credits if these courses also satisfy General Education Requirements.
Associate of Arts

Associate of Arts Degree for Transfer in Liberal Arts
Prepare to transfer by completing your general education requirements for a wide variety of university majors. Engage in creative pursuits such as writing, art, history or languages.

Concentrations are available for Psychology, History, and emphases in Creative Writing and Communication. Specialized AA degrees are available in: Administration of Justice, American Indian Studies, Anthropology, Elementary Education, Hotel and Restaurant Management, Political Science, Social Services and Sociology.

Students, especially those transferring to the University of Arizona, are encouraged to enroll in STU 210, Transfer Strategies, to plan for the transfer process and success at the university.

Students who wish to transfer to an Arizona university and pursue a major in any of the following areas, should complete the Pima Associate of Arts in Liberal Arts degree for transfer (refer to university transfer guides for core or elective courses and language requirements).

- Biology (for ASU and NAU; for the UA complete the Associate of Science)
- Communication
- Creative Writing
- Digital Film Arts
- Education: Secondary or Special Education/Rehabilitation
- English
- Environmental Science
- Family Studies
- Gender and Womens Studies
- History
- Journalism
- Languages
- Literature
- Mathematics
- Media Arts
- Mexican American Studies
- Physical Education, Exercise and Wellness, Athletic Trainer
- Pre-Agriculture
- Pre-Pharmacy
- Pre-Law
- Psychology
- Social Services: Substance Use Disorder Specialty or Youth Services Specialty
- Spanish

What can I do with this degree?

**Academic Options:** Transfer to a university and major in subjects other than science, business or technology. Additional information on transferring to a university is available online (http://www.pima.edu/transfer/transferringfrompima.shtml) or from any advisor or counselor.

**Locations:** All campuses

**Contact Information:** Contact any campus Student Services office (www.pima.edu/mhtml/email/advising).

## Associate of Science

### Associate of Science Degree for Transfer

Complete lower-division general education requirements for transferring to a university to pursue a major in the life sciences, physical sciences, or computer science. Students interested in preparing for professional degrees in dentistry, medicine or veterinary science should complete this degree.

Pre-Pharmacy students should complete the Associate of Arts degree.

Students who wish to transfer to an Arizona university and pursue a major in any of the following areas, should complete the Pima Associate of Science degree for transfer (refer to university transfer guides for core or elective courses and language requirements).

- Astronomy
- Biochemistry
- Biology (for UA; for ASU and NAU you can complete the Associate of Arts)
- Chemistry
- Computer Science
- Exercise Science
- Geology
- Microbiology
- Molecular/Cellular Biology
- Physics
- Pre-Agriculture
- Pre-Dentistry
- Pre-Medicine
- Pre-Veterinary Science
- Zoology

MAT 220* Calculus I (F-Sp-Su) SUN# MAT 2220

Major/Electives

Complete additional science and math courses as needed to meet major requirements for a bachelor's degree. The second language requirement is dependent upon your major. It is not a requirement of this degree, but some university degrees require a language proficiency. (Bilingual or international students should consult an advisor or counselor concerning exceptions to this requirement.)

Subtotal

Total credits as displayed

† Core or support course(s) fulfill this requirement.
¥ AGEC requires 35 credits. This subtotal shows the AGEC credits not fulfilled by core, support, or second language courses.
* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Astronomy

Learn more about our vast universe and its fascinating contents – planets, stars, comets, galaxies, black holes and more – by taking astronomy courses. Classes include lecture, activities labs, and outside observation projects.

Astronomy courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with an astronomy faculty member or advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in astronomy?

- **Career options**: After completing a bachelor’s degree, seek employment as a science teacher, museum/planetarium staff member, or science writer.
- **Academic options**: Continue studies toward a Bachelor of Science in astronomy, planetary sciences, or education.
- **Locations**: All campuses
- **Contact Information**: Contact any campus Student Services office (www.pima.edu/mhtml/email/advising).
Automotive Technology

Begin a career as an auto mechanic, or expand your skills and attain higher-level positions. Classes are hands-on and self-paced. The program is accredited by the National Automotive Technician Education Foundation (NATEF).

Automotive Mechanics — Certificate for Direct Employment

From engine diagnosis and repair to electrical fundamentals, steering and alignment, and brakes, cover the basics of auto mechanics.

What can I do with this certificate?

Career Options: Entry-level auto mechanic or technician.

Academic Options: Continue your studies by taking additional courses toward the Automotive Technology AAS degree.

More Information: Review program costs, student debt, on-time graduation and more

Aviation Technology

Gain skills and knowledge of Airframe and Powerplant, Structural Repair, or Avionics Technology.

Aviation Technology — Associate of Applied Science for Direct Employment

Gain skills and knowledge of Airframe and Powerplant, Structural Repair, or Avionics.

The Airframe and Powerplant courses are taught per Federal Aviation Regulations Part 147 for FAA Aviation Maintenance Technician training to allow a student to be qualified for Airframe and Powerplant certification. Aviation Structural Repair has been offered as specialty training and does not fall under FAA Part 147 guidelines. Instead it is an industry directed curriculum preparing students to perform heavy structural repairs that exceed the requirements of Part 147 Airframe and Powerplant training.

What can I do with this degree?

Career Options: Work in the aircraft industry as an Aviation Maintenance Technician.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: Desert Vista Campus

Department/Contact Information:
Dean: 206-5250
Lead Faculty: 206-5910

Program/Major/Concentration Codes: AASAVIATION/AVM**** (see concentration codes below)

Program Prerequisites

Students must have completed the following prerequisites (with grades posted) before they may begin the application process.

REA 091 with a grade of C or better or Reading assessment at REA 112 or higher ................................................................. 0-4
MAT 086 with a grade of C or better or Math assessment at MAT 092 or higher ................................................................. 0-3

Subtotal ................................................................................................................................................................................................................... 0-7

Students pursuing the Airframe and Powerplant concentration must complete the General Mechanics advanced certificate courses before enrolling in the Airframe Mechanics or Powerplant courses.

Students enrolled in an Avionics or Structural Repair program (degree concentration or certificate) who also wish to be eligible for Airframe and Powerplant certification must be concurrently enrolled in or have completed the General Mechanics advanced certificate courses before enrolling In Airframe Mechanics or Powerplant courses.

General Education Requirements - A grade of C or better is required for graduation.

Advanced Aviation Technology — Certificate for Direct Employment

Gain basic skills in General Mechanics, Airframe Mechanics, Powerplant, or Structural Repair.

What can I do with this certificate?
Career Options: Entry-level positions in aircraft building, maintenance and repair.
Academic Options: Take additional courses toward the Aviation Technology AAS degree.
More Information: Review program costs, student debt, on-time graduation and more
http://www.pima.edu/programs-courses/gainful-employment/2015-gedt-58.html

Location: Desert Vista Campus

Department/Contact Information:
Dean: 206-5250
Lead Faculty: 206-5910
Program/Major/Concentration Codes: CRTAVIATION/AVA/**** (see concentration codes below)

Program Prerequisites

Students must have completed the following prerequisites (with grades posted) before they may begin the application process.

- REA 091 with a grade of C or better or Reading assessment at REA 112 or higher .............................................................. 0-4
- MAT 086 with a grade of C or better or Math assessment at MAT 092 or higher .............................................................. 0-3

Subtotal .................................................................................................................................................................................. 0-7

Students must complete the General Mechanics courses before enrolling in the Airframe Mechanics or Powerplant courses.

Students enrolled in an Avionics or Structural Repair program (degree concentration or certificate) who also wish to be eligible for Airframe and Powerplant certification must be concurrently enrolled in or have completed the General Mechanics courses before enrolling in Airframe Mechanics or Powerplant courses.

Behavioral Health Services

Learn to work in a clinical behavioral health care setting and deliver basic behavioral health services. This program includes training within laboratory and clinical settings.

Before enrolling in this program, students must take the Compass assessment and must achieve the following scores:

- Reading: 60
- Math/Algebra: 30
- Writing: 45

Behavioral Health Services — Certificate for Direct Employment

What can I do with this certificate?

Career Options: Seek an entry-level position or career advancement as a behavioral health specialist, human services technician, family advocate, or paraprofessional analyst in hospitals, behavioral health clinics, nursing care facilities, or nonprofit agencies.

Academic Options: Complete the additional courses needed to pursue a Social Services certificate or a Social Services degree.

Biology

Study the science of living systems by taking biology courses that focus on microbiology, plant science, human anatomy and physiology, marine biology, biotechnology and more. Students learn through lecture and hands-on lab experiences.

Biology courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU, or UA should meet with biology faculty or an advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in biology?

- **Career options:** Work as a technician in laboratories, manufacturing firms, or government.
- **Academic options:** Continue studies toward a Bachelor of Science in biology, microbiology, agriculture, plant or animal science and more.
- **Locations:** All campuses
- **Contact Information:** Contact any campus Student Services office (www.pima.edu/mhtml/email/advising).
## Biotechnology

Prepare for a high-tech career in biotechnology by completing this certificate and working in local industry, or using it to complement an associate or bachelor’s degree in the life sciences.

### Biotechnology — Certificate for Direct Employment

**What can I do with this certificate?**

**Career Options:** Entry-level positions in biotechnology laboratories or career advancement when used to supplement existing degrees or work experience.

**Academic Options:** Complete additional courses to earn an Associate of Science degree.

**More Information:** Review program costs, student debt, on-time graduation and more [http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-62.html](http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-62.html)

**Location:** West Campus

**Department/Contact Information:**
Dean: 206-6763
Lead Faculty: 206-6810

** This course may be fulfilled with a satisfactory score on the BIO 110 assessment exam.
Building and Construction Technologies

Learn how to construct and maintain buildings with courses in the specialized fields of the building and construction industry including facilities maintenance, electrical, plumbing, carpentry, HVAC-R, and construction management. Classes are hands-on and self-paced.

Basic Building and Construction Technologies — Certificate for Direct Employment

Get started in facilities maintenance. Courses cover tools, safety, rigging, and reading blueprints, as well as technical electives based on student interests.

What can I do with this certificate?

Career Options: Apply for entry-level positions in facilities maintenance.

Academic Options: Continue your studies through the Advanced Certificate program.

### Home Maintenance and Repair: Limited Remodeling and Repair — Certificate for Direct Employment

Master the skills needed for home remodeling and repair while preparing for the Arizona Contractor Business Management (C–61 Limited Remodeling and Repair) examination.

**What can I do with this certificate?**

**Career Options:** After acquiring the C-61 Limited Remodeling and Repair license, contract with home owners to perform home improvement projects up to $25,000 including scope of work allowed under the C-7 carpentry classification.
Academic Options: Continue your studies by taking classes toward the Building and Construction Trades advanced certificate or associates degree with a possible concentration in Facilities Maintenance or Carpentry.

More Information: Review program costs, student debt, on-tme graduation and more http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-17.html

Location: Downtown Campus

Home Maintenance and Repair: General Residential Contractor — Certificate for Direct Employment

Learn advanced home construction skills while preparing for the Arizona Contractor Business Management (B – General Residential Contractor) examination.

What can I do with this certificate?

Career Options: After acquiring the B – General Residential Contractor license, perform home construction as a General Building Contractor capable of working on any part of a residence with the exception of some specialized areas such as electrical and plumbing.

Academic Options: Continue your studies by taking classes toward the Building and Construction Trades advanced certificate or associates degree with a possible concentration in Construction Management, Carpentry or Facilities Maintenance.

Solar Installer — Certificate for Direct Employment

Learn the skills necessary to become a successful Solar Installer. Designed for individuals with building trades experience, this certificate provides Photovoltaic Installer preparation training for the North American Board of Certified Energy Practitioners (NABCEP) Photovoltaic Installer Certification exam and the Photovoltaic Installer Advanced Certification exam. Before enrolling in this program, you must test higher than REA 091 on the PCC assessment, or complete REA 091 with a grade of C or better.

What can I do with this certificate?

**Career Options:** Obtain employment in the solar installation field.

**Academic Options:** Continue your studies by completing the Building and Construction Technologies AAS degree.

**More Information:** Review program costs, student debt, on-time graduation and more http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-24.html

Building and Construction Technologies — Associate of Applied Science Degree for Direct Employment

Learn advanced construction skills, or prepare to transfer to NAU’s Construction Management degree. Choose from one of the concentrations listed below. Complete the Building Management and the Cabinetmaking concentrations by taking classes exclusively in the evenings or in a combination of weekdays and evenings. All other concentrations can be completed by taking classes in a combination of weekdays and evenings. Before enrolling in this program, you must complete REA 081, WRT 100, and MAT 082. Students should have successfully completed course work or assessments within the first year of the program.

What can I do with this degree?

**Career Options:** Apply technical level positions in the building and construction trades.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Location:** Downtown Campus

**Department/Contact Information:**
Dean: 206-7134
Lead Faculty: 206-7137

**Program/Major/Concentration Codes:** AASBLDGCONST/BCT/****  (see concentration codes below)

Business — Associate of Applied Science Degree for Direct Employment

Learn basic business principles and specialize in marketing, management or tourism. Students planning to transfer to a four-year university should pursue the Associate of Business Administration.

What can I do with this degree?

Career Options: Carry out basic business functions, especially in marketing, management or tourism, for an employer or to open a small business.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html).

Locations: Management concentration at the East and West Campuses; Marketing concentration at the West Campus; Tourism concentration at the East Campus

Department/Contact Information:
Dean: 206-7694
Lead Faculty: 206-7691
Program/Major/Concentration Codes: AASBUSINESS/BUS/**** (see concentration codes below)

General Education Requirements - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

Communication Requirement...........................................................................................................................................................3
WRT 101 or 154 fulfills 3 credits of this requirement. Complete an appropriate course from the pairs listed in the Communication category.

Analysis and Critical Thinking Requirement....................................................................................................................................3-6
BUS 151 (only if taken after Spring 2008) fulfills 3 credits in the Mathematics category. Complete a course from the Science or Critical Thinking category.

Humans and Social Science Requirement ........................................................................................................................................3
ECN 201 or 202 fulfills 3 credits of the Social Science category. Complete a course from the Humanities/Fine Arts or Leadership/Ethics category.

Computer and Information Literacy Requirement ...............................................................................................................................†
CIS/CSA 104 fulfills this requirement.

Special Requirements
The C or G requirement should be fulfilled by completing an appropriate course in the above categories.

Subtotal ........................................................................................................................................................................................................... 9-12

Business Administration — Associate of Business Administration (ABUS) Degree for Transfer

Jump start your business career by completing this degree and then transferring to a university business administration degree or related program.

What can I do with this degree?

Career Options: This degree is designed for transfer rather than direct employment. After completing a 4-year degree, students are qualified for a variety of business careers including accounting, finance, management and marketing.

Academic Options: Transfer to a 4-year university to complete your bachelor’s degree.

Locations: All campuses

Contact Information: Contact any campus Student Services office (www.pima.edu/mhtml/email/advising).

Program/Major Codes: AOBUSADMIN/BUD

Arizona General Education Curriculum Requirement (AGEC-B) - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

English Composition .................................................................................................................................................. 6
Humanities and Fine Arts ........................................................................................................................................ 6
Biological and Physical Sciences ............................................................................................................................ 8
Mathematics

MAT 212 or 220 fulfills this requirement.

Social and Behavioral Sciences ............................................................................................................................. 3

ECN 201 fulfills 3 credits of this requirement. Complete a non-ECN course from this category.

Other Requirements

CIS 120 and ECN 202 fulfill this requirement.

Special Requirements

The I, C, and G requirements should be fulfilled by selecting appropriate courses in the above categories.

Subtotal ........................................................................................................................................................................ 23¥

(MAT 151 may be substituted by another transferable course if the student has tested above MAT 151 or completed a College MAT course numbered higher than 151 with a grade C or better.)

Business Math Requirement:................................................................................................................................... 6-7

Please note: The UA accepts the combination of MAT 212 and BUS 277. ASU accepts the combination of MAT 220 and 231, or MAT 212 and an additional Math course at ASU. The NAU BSBA program in Flagstaff only requires MAT 172, while their BBA program through the Extended Campus requires MAT 212 and either MAT 151 or 172. Regardless of which university a student plans to transfer, any student who wants to earn a Pima ABUS degree still needs one of the three combinations listed below.
MAT 212 Topics in Calculus (F-Sp-Su)
and BUS 277 Analytical Methods in Business (Sp-Su)

or
MAT 172* Finite Mathematics (F-Sp-Su)
and 212* Topics in Calculus (F-Sp-Su)

or
MAT 220* Calculus I (F-Sp-Su)
and 231* Calculus II (Sp-Su)

Business Administration Electives:

See an advisor to complete the appropriate number of transferable electives so the program total is 60–64 credits. Transfer courses (check the Course Equivalency Guide online) from the following business prefixes are recommended: ACC, BUS, CIS, FIN, MGT, MKT or language courses.

Subtotal: 37-41
Total credits as displayed: 60-64

† Core or support course(s) fulfill this requirement.
¥ AGEC requires 35 credits. This subtotal shows the AGEC credits not fulfilled by core, support, or second language courses.
* This course has a prerequisite, co-requisite, or recommendation. See course description section.

Customer Service Management

Customer Service Management — Certificate for Direct Employment

Gain the knowledge and skills to excel as a customer service representative or manager.

What can I do with this certificate?

Career Options: Advance in a career as a customer service representative in the business industry.

Academic Options: Continue your studies by working toward additional degrees and certificates in business.

Advanced Logistics and Supply Chain Management — Certificate for Direct Employment

Learn fundamental principles of and skills of logistics and transportation, inventory control, and warehouse management.

What can I do with this certificate?

Career Options: Entry-level positions in warehouse and transportation.
Academic Options: Continue your studies through the Logistics and Supply Chain Management AAS degree program.
More Information: Review program costs, student debt, on-time graduation and more
http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-16.html
Location: East Campus
Department/Contact Information:
Dean: 206-7694
Program/Major Codes: CRTLGV/LGV
## Logistics and Supply Chain Management — Associate of Applied Science Degree for Direct Employment

Learn fundamental principles of logistics and transportation, as well as skills in inventory control, warehouse management, business, and supervision.

### What can I do with this degree?

**Career Options:** Entry-level to supervisory-level positions in inventory control, transportation, and warehouse management.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima's Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Location:** East Campus

**Department/Contact Information:**
- Dean: 206-7694
- Program/Major Codes: AASLGM/LGM

### Course Requirements

**Subtotal** .................................................................................................................................................................................. 2

**Total credits as displayed** .......................................................................................................................................................... 60

- Core or support course(s) fulfill this requirement.
- General Education requires 19-21 credits. This subtotal shows the Gen Ed credits not fulfilled by core, support, or second language courses.
- This course has a prerequisite, co-requisite, or recommendation. See course description section.
Chemistry

Study the composition, properties and interactions of substances by taking chemistry courses that focus on general, consumer, forensic or organic chemistry. Students learn through lecture and hands-on lab experiences.

Chemistry courses are offered as part of the requirements of the **Associate of Science degree**, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with chemistry faculty or an advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in chemistry?

- **Career options:** Work as a technician in laboratories, chemical manufacturing, government, and technical service firms
- **Academic options:** Continue studies towards a Bachelor of Science in chemistry, chemical engineering, engineering, education, pharmacy or other health-care fields
- **Contact Information:** Contact any campus Student Services office (www.pima.edu/mhtml/email/advising).
Clinical Research Coordinator — Certificate for Direct Employment

Learn to manage clinical research trials involving human subjects in classes taught by physicians and other clinical research professionals.

What can I do with this certificate?

Career Options: Seek an entry-level position or career advancement in hospitals, medical centers, universities, or private research group.

Academic Options: Continue your studies and earn the Clinical Research Coordinator AAS degree.

More Information: Review program costs, student debt, on-time graduation and more

§ Credits counted below.
Computer Aided Drafting/Design

Prepare for careers in a variety of manufacturing and construction settings. Master basic to advanced computer-aided drafting/design skills for high-demand careers.

Basic Computer Aided Drafting/Design — Certificate for Direct Employment

Learn basic drafting and design fundamentals using computer aided drafting (CAD) tools.

What can I do with this certificate?

Career Options: Work as an entry-level drafter/designer in manufacturing and construction industries.

Academic Options: Continue your studies by completing the advanced computer aided drafting/design certificate.

More Information: Review program costs, student debt, on-time graduation and more http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-73.html

Location: Downtown Campus

Integrated Circuit Layout Design – Certificate for Direct Employment

Graduates of the Integrated Circuit Layout Design program are employed by firms who design and manufacture the subminiature electronic circuits that are at the nucleus of all electronic and computerized equipment. Integrated circuit designers use computer-aided design systems to design the templates or masks that are used to manufacture microelectronic circuits. Graduates of this program may also be employed as electronic circuit board designers and layout specialists.

Learn basic drafting and design fundamentals using computer aided drafting (CAD) tools.

What can I do with this certificate?

Career Options: Work as an entry-level integrated circuit layout designer in manufacturing industries.

Academic Options: Continue your studies by completing Computer Aided Drafting AAS degree.

Computer Information Systems

Prepare for a career as a programmer, network administrator, systems administrator or database administrator, or upgrade existing skills and improve job performance.

Computer Programmer Specialist — Certificate for Direct Employment

Take the fast track to becoming a computer programmer with this accelerated program, or enhance existing skills. Choose from concentrations in C programming, Visual Basic programming or web programming.

What can I do with this certificate?

Career Options: Become a C or Visual Basic programmer, or a web site designer, developer or administrator.

Academic Options: Continue your studies by taking courses toward a Computer Programmer/Analyst or Associate of Science degree.

More Information: Review program costs, student debt, on-time graduation and more

Computer Programmer/Analyst — Associate of Applied Science Degree for Direct Employment

Learn to design and develop software programs and applications. Courses focus on problem solving and structured programming concepts.

**What can I do with this degree?**

**Career Options:** Become a programmer or programmer/analyst.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Locations:** East Campus, West Campus

**Department/Contact Information:**

- **Dean:**
  - 206-7694 (East Campus);
  - 206-6996 (West Campus)

**Program/Major Codes:** AASCMPPRGANL/CSP

---

**General Education Requirements - A grade of C or better is required for graduation.**

*Course lists for each General Education category listed below can be found starting on page 55.*

**Communication Requirement**

WRT 101 and WRT 102 fulfill this requirement.

**Analysis and Critical Thinking Requirement**

MAT 172 and a lab science course fulfill this requirement.

**Humanities and Social Science Requirement**

ECN 201 fulfills 3 credits of the Social Science category. Complete a course from the Leadership/Ethics or Humanities/Fine Arts category that also meets the cultural diversity (C) or the global awareness (G) requirement.

**Computer and Information Literacy Requirement**

Core courses fulfill this requirement.

**Special Requirement**

The C or G requirement should be fulfilled by completing an appropriate course in the above categories.

**Subtotal** ....................................................................................................................................... **34**

Dental Studies

Complete programs to work in direct patient care as a dental hygienist or assistant, or prepare for a career in a dental laboratory.

- Dental Assisting Education
- Dental Hygiene
- Dental Laboratory Technologies

Dental Assisting Education

Dental Assisting Education — Certificate for Direct Employment

Learn to assist dentists and other dental professionals in patient care. Complete at least 336 hours of clinical work in dental clinics or offices. This program is accredited by the American Dental Association Commission on Dental Accreditation.

Before enrolling in this program, you must meet certain requirements:

This degree requires a special program application. Students may request a program application available at: www.pima.edu/programs-courses/credit-programs-degrees/health-professions/dental/dental-hygiene/index.html when all prerequisites are complete.

Because of the clinical component of this program, students must:

- Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will need to stand for several hours at a time and perform bending activities. The clinical experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to submitting an application.
- Present proof of immunization and/or immunity for MMR/Varicella/Hepatitis-B/TDaP.
- Show proof of negative TB skin test or negative chest x-ray for TaB.
- Maintain health insurance and a current CPR card at the Health Care Provider Level throughout the program.

What can I do with this certificate?

Career Options: Take the exams to gain National Dental Assisting Certification, Arizona Oral Radiology Certification and Coronal Polishing Certification. Work as a dental assistant in hospitals, clinics and dental offices.

Academic Options: Continue your studies by taking courses toward the Dental Hygienist AAS degree.

More Information: Review program costs, student debt, on-time graduation and more http://www.pima.edu/programs-courses/gainful-employment/2015/gedt-76.html

Location: West Campus

Department/Contact Information:

Dean: 206-6661
Lead Faculty: 206-6916

Program Prerequisites

Students must have completed the following requirements before they begin the application process:

Compass reading assessment score of 95 or completion of REA 112 .......................................................................................................................................................... 0-4
High school or college biology course ......................................................................................................................................................................................... 0-4
High school diploma or G.E.D. ........................................................................................................................................................................................................ 0-8

Subtotal ........................................................................................................................................................................................................................................ 0-8

Course Number Course Title Credit Hours

Required Core Courses - A grade of C or better is required for graduation.

DAE 159* Introduction to Health Care for Dental Assisting (F) ............................................................................................................................................... 2
DAE 160* Orientation to Dental Care (F) ............................................................................................................................................................................. 1

Pre-Dental Hygiene

Pre-Dental Hygiene — Associate of Applied Science Degree for Direct Employment

Learn dental hygiene and dental health education. This program is accredited by the American Dental Association Commission on Dental Accreditation.

Before enrolling in the Dental Hygiene - Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites in the Pre-Dental Hygiene program.

This degree requires a special program application. Once all Pre-Dental Hygiene prerequisites are complete students can access the program application on the MyPima Academics tab in the Degrees and Programs section and continue taking general education courses and required support courses in the Pre-Dental Hygiene program. Additional application information is available at http://www.pima.edu/programs-courses/credit-programs-degrees/health-professions/dental/dental-hygiene/index.html.

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The dental experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to submitting an application and be advised that they may be exposed to blood borne pathogens and infectious diseases during delivery of care.
5. Show proof of negative TB skin test or negative chest x-ray for TB.
6. Maintain health insurance.

Health related professions students are advised that state/national license exams or certification applications may include a personal history section in which prospective applicants must report and may have to provide a detailed explanation of legal situations. Examples of situations which may prohibit licensure or certification include, but are not limited to: felony or misdemeanor convictions, substance abuse, conviction of an offense involving immoral behavior, or being guilty of acts which deceive, defraud or cause harm to the public in any way.

Fingerprinting may be part of many state and federal licensing and certification processes. If there is any question about eligibility for licensure or certification, it is the responsibility of the applicant to contact the state and/or federal agency responsible for licensure or certification.

Students who opt to leave the dental hygiene program may re-enter one time without need to repeat mandatory course work, if they re-enter within one (1) year, based on space availability.

What can I do with this degree?

Career Options: Take national and regional exams in preparation for state licensure, then work in general or specialty dental offices, hospitals, schools, public health and government agencies.
What can I do with the Dental Hygiene Associate of Applied Science Degree for Direct Employment?

**Career Options:** Take national and regional exams in preparation for state licensure, then work in general or specialty dental offices, hospitals, schools, public health and government agencies.

**Academic Options:** Continue your studies at Northern Arizona University for a Bachelor of Science in Dental Hygiene or other online baccalaureate opportunities.

Dental Laboratory Technologies

Dental Laboratory Technology — Associate of Applied Science Degree for Direct Employment

Learn the skills to construct and repair dentures, partial dentures, crowns, bridges and other dental appliances. Get 1,492 clock hours of laboratory practice. This program is accredited by the American Dental Association Commission on Dental Accreditation.

Before enrolling in this program, please complete a program application (available at: www.pima.edu/programs-courses/credit-programs-degrees/health-professions/dental/dental-laboratory-admission.html)

What can I do with this degree?

Career Options: Work in a dental lab.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html).

Location: West Campus

Department/Contact Information:
Dean: 206-6661
Lead Faculty: 206-3100

- DAR 252* Interactive Design I (F-Sp-Su) .................................................................................. 4

Subtotal ............................................................................................................................................... 20

**Web Design** (Concentration Code: DARW)

Complete 8 credit hours from the following list:

- DAR 115 Digital Video Editing (F-Sp) ......................................................................................... 4
- DAR 228* Advanced Desktop Graphics: Adobe Illustrator (F) ............................................... 4
- and complete all of the following courses:
  - DAR 252* Interactive Design I (F-Sp) .................................................................................. 4
  - DAR 254* Interactive Design II (F) ....................................................................................... 4
  - DAR 257* Web Design II (F) ................................................................................................. 4

Subtotal ............................................................................................................................................... 20

Total credits as displayed with program prerequisites ........................................................................... 79

† Core or support course(s) fulfill this requirement.

‡ General Education requires 19-21 credits. This subtotal shows the Gen Ed credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Digital Arts — Post Degree Certificate for Direct Employment

Learn advanced skills required for higher level digital arts positions such as graphic design, desktop publishing, web design or assistant art director.

Before enrolling in this program, you must fulfill certain requirements: Students planning to enroll in this program must have earned:

- an associate degree in digital arts
- an associate or bachelor's degree in a related field with a portfolio review

What can I do with this certificate?

Career Options: Obtain positions requiring advanced skills in graphic design, desktop publishing or web design.

More Information: Review program costs, student debt, on-time graduation and more

* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Early Childhood Studies — Associate of Applied Science Degree for Direct Employment

Learn to excel at caring for and educating young children through this flexible, high-quality program. Students planning to transfer to a four-year university should pursue the Early Childhood Education or Elementary Education AA degree.

What can I do with this degree?

Career Options: Become a teacher’s aide, lead teacher or director of a pre-school center, or open your own home childcare center.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: Desert Vista Campus

Department/Contact Information:
Center for Early Childhood Studies: 206-5245
Dean: 206-5098
Lead Faculty: 206-5107
Program/Major Codes: AASECS/ECS

General Education Requirements - A grade of C or better is required for graduation.

ECE Endorsement for Teachers Birth - Age 8 — Post-Degree Certificate for Direct Employment
This program is under review and may be inactivated
K-12 Education

Prepare to become an elementary or secondary school teacher.

Students who plan to teach in elementary school should pursue the Elementary Education Associate of Arts degree; those who wish to teach secondary school should pursue an Associate of Arts. All students will need to complete an education degree at a 4-year college or university before becoming a teacher.

Students who have already earned a bachelor’s degree in any discipline can immediately start working toward teacher certification and advanced endorsements.

Elementary Education — Associate of Arts for Transfer

Complete the first two years of an elementary education degree with a concentration in Early Childhood or Elementary Education and transfer to a four-year degree program.

What can I do with this degree?

Career Options: Elementary school instructional aide.

Academic Options: Transfer to a four-year elementary education degree program. Students interested in secondary education, rehabilitation or special education should pursue the general Associate of Arts degree.

Locations: Classes can be taken at multiple campuses.

Program/Major/Concentration Codes: AOAEDUCATION/EDU/**** (see concentration codes below)

General Education Requirements - A grade of C or better is required for graduation.

Elementary Certification — Post-Degree Certificate for Direct Employment

Prepare for Arizona General Education Elementary (grades 1-8) teacher certification with this post-degree program. Courses emphasize professional teaching standards, technology, diversity and current teaching theory, and include supervised and directed field experiences. A program GPA of 3.0 or higher is required for graduation.

Program Prerequisites: Before you can enroll, you must earn a bachelor’s degree and meet additional admission requirements.

What can I do with this certificate?

Career Options: Elementary school teacher.

Academic Options: Continue your education with post-degree work in education or pursue additional specialized endorsements offered by Pima.

Location: Community Campus

Department/Contact Information:
Advanced Program Manager: 520-206-6566
Department Chair: 520-206-6566

Program/Major Codes: Special admissions requirements – see a program advisor.

This program is under review. Please see the online program display for updated requirements.

Secondary Certification — Post-Degree Certificate for Direct Employment

Prepare for Arizona General Education Secondary (grades 7-12) teacher certification with this post-degree program. Courses emphasize professional teaching standards, technology, diversity and current teaching theory, and include supervised and directed field experiences. A program GPA of 3.0 or higher is required for graduation.

Program Prerequisites: Before you can enroll, you must earn a bachelor’s degree and meet additional admission requirements.

What can I do with this certificate?

Career Options: Secondary school teacher.

Academic Options: Continue your education with post-degree work in education or pursue additional specialized endorsements offered by Pima.

Emergency Medical Technology

Emergency Medical Technology — Certificate for Direct Employment

Learn pre-hospital emergency medical care, including physical assessment, medical techniques and ambulance operations. This program is approved by the Arizona Department of Health Services, Bureau of Emergency Medical Services towards certification as an EMT in the State of Arizona. Complete this program by taking classes exclusively on weekdays or exclusively on evenings.

Before enrolling in this program you must meet certain admission requirements:

- Be 18 years old when class starts.
- Provide proof of a negative drug screening; obtain a drug screen form and instructions from the EMT Service Center at East Campus.
- Provide a fingerprint clearance card or be fingerprinted the first day of class.
- Have cardio-pulmonary resuscitation (CPR) certification at the Healthcare Provider level with at least 6 months left in the certification period. This card must remain current throughout the EMT program and the certification process.
- Have the ability to lift 125 pounds alone and 250 pounds with a partner.
- Must provide proof of personal medical insurance. This coverage must remain current throughout the course.
- Score at least 84 on the College Reading Assessment test.
- Meet with EMT Service Center staff prior to enrolling in the course.
- Provide immunization records for: Measles, Mumps, Rubella (MMR), Varicella (VZV, Varivax)
- Tetanus/Diphtheria (adult type e.g., Td or Tdap) within the last ten years.
- Tuberculosis (TB) screening indicating negative activity (given no more than six months prior to the beginning of the course)
- Hepatitis B vaccination series (HBV is encouraged but is not required)
- Flu vaccine is highly encouraged

EMT Program information is available online at http://www.pima.edu/programs-courses/credit-programs-degrees/public-safety/emt/basic-emt.html

Certification testing requires an additional fee to the National Registry of Emergency Medical Technicians (NREMT). Students with felony and some misdemeanor convictions may not be eligible for certification—contact the Arizona Department of Health Services for additional information about eligibility.

What can I do with this certificate?

Career Options: Take required Arizona and National Registry of Emergency Medical Technicians exams that qualify you to work as an emergency medical technician.

Academic Options: Once you receive EMT certification and work as an emergency medical technician, continue your studies by pursuing the Paramedic Associate of Applied Science Degree.

Emergency Medical Technology — Paramedic — Associate of Applied Science Degree for Direct Employment

The Associate of Applied Science program increases the knowledge and skill of the I-EMT and the EMT-B in advanced life support including endotracheal intubation, cardiac arrhythmia recognition and intervention. The program also includes drug therapy, invasive procedures, advanced airway management, and I.V. therapy.

Before enrolling in this program, you must meet certain admission requirements:

A. American Heart Association Basic Life Support for the Healthcare Provider certification card. This card must remain current throughout the paramedic program and the certification process.

B. Current EMT or EMT-Intermediate certification. This certification MUST remain current throughout the paramedic program and certificate process (a lapse in certification will result in immediate expulsion from the program) and be either:
   - National Registry certification;
   - State of Arizona certification

C. Documentation of being 18 years old.

D. Reading assessment at the 9th grade level.

E. For Paramedic courses, successful completion of a minimum of 24 contact hours of hazardous materials training that meets the requirements of the National Fire Protection Association’s NFPA 472: Standard for Professional Competence of Responders to Hazardous Materials Incidents, 1997 Edition; Competencies for First Responders at the Operations Level, is required.

F. Current health insurance coverage. This coverage must remain current throughout the course of training and the certification process.

G. Negative results of a 5 panel drug screening within 6 months of the course start date. Screening must include:
   a. Marijuana
   b. Cocaine
   c. Barbiturates
   d. Sedatives
   e. Amphetamines

H. Provide proof of immunity or immunization for the following:
   a. Proof of negative TB test or chest X-ray within 6 months prior to application as defined in R9-25-308 (D) and proof of annual TB testing while enrolled in the program.
   b. Measles (Rubeola)/Mumps/Rubella.
   c. Tetanus/Diphtheria within the last 10 years.
   d. Results of serological testing showing Hepatitis B (HBV) immunization, begin HBV vaccination series, or sign the release of liability claims/declination form.

I. Successfully Screen for the following areas:
   a. ALS written exam
   b. Oral Board screening
   c. Practicals screening

What can I do with this degree?

**Career Options:** Paramedic

**Academic Options:** See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Locations:** Community Campus

**Department/Contact Information:**
Dean: 206-6569

Program/Major Codes: AASEMD/EMD
# Required Core Courses - A grade of C or better is required for graduation.

All of the core courses require acceptance into the Paramedic Program.

Engineering

Engineering—Associate of General Studies Degree for Transfer

Prepare to transfer to a university to complete a bachelor's degree in engineering.

What can I do with this degree?

Career Options: Some entry-level technical positions or advance in your current position

Academic Options: Transfer to a college or university to complete a bachelor's degree in Engineering.

Location: West Campus

Department/Contact Information:
Dean: 206-6763
Lead Faculty: 206-6679

Program/Major Codes: AGSAGE/AGE/**** (see concentration codes below)

General Education Requirements - A grade of C or better is required for graduation.

Communication Requirement
WRT 101 and WRT 102 satisfy this requirement

Analysis and Critical Thinking Requirement
CHM 151IN and MAT 220 fulfill this requirement

Humanities and Social Science Requirement

Humanities and Social Science Electives fulfill this requirement

Computer and Information Literacy Requirement
Core courses fulfill this requirement.

Special Requirement
The Social Science elective fulfills this requirement.

Pima Community College Catalog 2015/2016
Humanities Elective
Complete one course from the following. Fulfills the AGEC Intensive Writing and Critical Inquiry (I) and the Global Awareness (G) requirements.

ANT 112; ART 130, 131; HIS 101, 102, 122, 160*, 161*, HUM 251, 252, 253; LIT 261*, 267*

Subtotal ...................................................................................................................................................................................................................... 3

Social and Behavioral Science Elective
Complete one course from the following. Fulfills the AGEC Cultural Diversity (C) requirement.

ANT 112, 127, 202, 205, 206; ARC 205; HIS 105, 122, 124, 127, 141, 142, 147, 148, 150, 160*, 161*, 180, 254; HUM 260; POS 201, 204, 231; PSY 215*, 216*; REL 200; SOC 101, 120, 201, 204, 215*

Subtotal ...................................................................................................................................................................................................................... 3

Core Concentrations - A grade of C or better is required for graduation.
Complete courses in one of the following concentration options ....................................................................................................................... 14-18

Department faculty approval is strongly recommended when selecting a major or transferable electives.

Aerospace Engineering Concentration (Concentration Code: AGEA)
Complete 14-18 credits from the following list:

ENG 175IN* Computer Programming for Engineering Applications I (F-Sp) .............................................................................................................. 3
ENG 210* Engineering Mechanics: Statics (F-Sp) ...................................................................................................................................................... 3
ENG 220* Engineering Mechanics: Dynamics (F-Sp) ...................................................................................................................................................... 4
ENG 232* Thermodynamics (F-Sp) ............................................................................................................................................................................. 4
ENG 260* Electrical Engineering (F-Sp) ................................................................................................................................................................. 3

Biomedical Engineering Concentration (Concentration Code: AGED)
Complete 14-18 credits from the following list:

BIO 181IN* General Biology I (F-Sp-Su) SUN# BIO 1181 .............................................................................................................................................. 4
BIO 201IN* Human Anatomy and Physiology (F-Sp-Su) SUN# BIO 2201 .............................................................................................................................................. 4
BIO 202IN* Anatomy and Physiology II (F-Sp-Su) SUN# BIO 2202.............................................................................................................................................. 4
or BIO 182IN General Biology II (Majors) (F-Sp) SUN# 1182 .............................................................................................................................................. 3
 CHM 152/152LB* (Sp) or CHM 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 .............................................................................................................................................. 5
ENG 210* Engineering Mechanics: Statics (F-Sp) ...................................................................................................................................................... 3
ENG 232* Thermodynamics (F-Sp) ............................................................................................................................................................................. 4
ENG 260* Electrical Engineering (F-Sp) ................................................................................................................................................................. 3

Biosystems Engineering Concentration (Concentration Code: AGEB)
Complete 14-18 credits from the following list:

BIO 181IN* General Biology I (F-Sp-Su) SUN# BIO 1181 .............................................................................................................................................. 4
BIO 182IN* General Biology II (F-Sp) SUN# BIO 1182 .............................................................................................................................................. 4
or BIO 201IN* Anatomy and Physiology I (F-Sp-Su) SUN# BIO 2201 .............................................................................................................................................. 4
or BIO 205IN* Microbiology (F-Sp-Su) SUN# BIO 2205 .............................................................................................................................................. 3
 CHM 152/152LB* (Sp) or CHM 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 .............................................................................................................................................. 5
ENG 122IN* Engineering Graphics and Design With Solid Modeling (F-Sp) .............................................................................................................................................. 3
ENG 210* Engineering Mechanics: Statics (F-Sp) ...................................................................................................................................................... 3
ENG 218* Fluid Mechanics (F-Sp) ............................................................................................................................................................................. 4

Chemical Engineering Concentration (Concentration Code: AGEH)
Complete 14-18 credits from the following list:

CHM 152/152LB* (Sp) or CHM 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 .............................................................................................................................................. 5
CHM 235/235LB* General Organic Chemistry I (n/o) .............................................................................................................................................. 5
or CHM 235IN* General Organic Chemistry I (F-Sp-Su) SUN# CHM 2235 .............................................................................................................................................. 5
CHM 236/236LB* General Organic Chemistry II (n/o) .............................................................................................................................................. 5
or CHM 236IN* General Organic Chemistry II (F-Sp-Su) SUN# CHM 2236
Civil Engineering Concentration (Concentration Code: AGEV)
Complete 14-18 credits from the following list:

- CHM 152/152LB* (Sp)
- or CHM 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 ................................................................. 5
- or PHY 216IN* Introductory Electricity and Magnetism (F-Sp) SUN# PHY 1131
- BIO 181IN* General Biology I (F-Sp-Su) SUN# BIO 1181 ................................................................. 4
- or GLG 101IN* Physical Geology (F-Sp-Su) SUN# GLG 1101
- ENG 120IN* Civil Engineering Graphics and Design (F-Sp) ................................................................. 3
- ENG 130IN* Elementary Surveying (Sp) ............................................................................................................ 3
- ENG 210* Engineering Mechanics: Statics (F-Sp) ................................................................................. 3
- ENG 218* Fluid Mechanics (F-Sp) ............................................................................................................... 4
- ENG 230* Mechanics of Materials (F-Sp) ................................................................................................. 4

Computer and Electrical Engineering Concentration (Concentration Code: AGER)
Complete 14-18 credits from the following list:

- ENG 175IN* Computer Programming for Engineering Applications I (F-Sp) ................................................. 3
- ENG 274IN* Digital Logic (F-Sp) ................................................................................................................ 4
- ENG 276IN* Computer Programming for Engineering Applications II (F-Sp) ..................................................... 3
- ENG 282IN* Basic Electric Circuits (F-Sp) ................................................................................................. 5
- MAT 227** Discrete Mathematics (F) SUN# MAT 2227 ........................................................................... 5
- PHY 221/221LB* Introduction to Waves and Heat (n/o) .............................................................................. 4

Engineering Management Concentration (Concentration Code: AGEE)
Complete 14-18 credits from the following list:

- CHM 152/152LB* (Sp)
- or CHM 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 ................................................................. 4
- or ENG 110IN* Solid State Chemistry (F-Sp)
- ENG 175IN* Computer Programming for Engineering Applications I (F-Sp) ................................................. 3
- or CIS 131* Programming and Problem Solving II (F-Sp)
- ENG 210* Engineering Mechanics: Statics (F-Sp) ..................................................................................... 3
- ENG 232* Thermodynamics (F-Sp) .......................................................................................................... 4
- ENG 260* Electrical Engineering (F-Sp) .................................................................................................... 3

General Engineering Concentration (Concentration Code: AGEG)
Complete 14-18 credits, in consultation with Department faculty, from the courses required in the other Engineering concentrations. ................................................................. 14-18

Industrial Engineering Concentration (Concentration Code: AGEI)
Complete 14-18 credits from the following list:

- CHM 152/152LB* (Sp)
- or 152IN* General Chemistry II (F-Sp-Su) SUN# CHM 1152 ................................................................. 4
- or ENG 110IN* Solid State Chemistry (F-Sp)
- or BIO 181IN* General Biology I (F-Sp-Su) SUN# BIO 1181
- ENG 175IN* Computer Programming for Engineering Applications I (F-Sp) ................................................. 3
- or ENG 232* Thermodynamics (F-Sp)
- or ENG 260* Electrical Engineering (F-Sp)
- ENG 250* Numerical Analysis for Engineers (n/o) ..................................................................................... 3
- Electives** Transferrable Electives ........................................................................................................... 1-3**

Materials Science and Engineering Concentration (Concentration Code: AGET)
Complete 14-18 credits from the following list:

- ENG 110IN* Solid State Chemistry (F-Sp) .................................................................................................. 4
- ENG 260* Electrical Engineering (F-Sp) .................................................................................................... 3
- Electives** Transferrable Electives ........................................................................................................... 7-11**

Mechanical Engineering Concentration (Concentration Code: AGEM)
Complete 14-18 credits from the following list:

- ENG 122IN* Engineering Graphics and Design With Solid Modeling (F-Sp) ......................................................... 3
- ENG 175IN* Computer Programming for Engineering Applications (F-Sp) .................................................. 3
- ENG 210* Engineering Mechanics: Statics (F-Sp) ..................................................................................... 3
- ENG 220* Engineering Mechanics: Dynamics (F-Sp) ............................................................................... 4

**Total credits as displayed** ................................................................. 60-64

* General Education requires 19-21 credits. This subtotal shows the Gen Ed credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

** For these concentrations, it is necessary to complete additional transferrable electives in order to complete the minimum of 60 credits for this degree. You may choose to complete the AGEC-3 by completing an Art course and another Social and Behavioral Science course from the AGEC list as part of these electives. Or, you may choose to transfer to the university without the electives, then transfer credits back to Pima to earn the associate's degree. See a Department faculty member for the selection of these courses.

Fashion Design

Prepare for an exciting career in Fashion Design. Complete this program by taking classes in the Fashion Design and Clothing Department at Pima's West Campus.

Fashion Design — Certificate for Direct Employment

Prepare for entry-level careers in fashion design for the apparel industry by studying fashion drawing, imaginative design, historical costumes, sewing applications, textiles, and pattern drafting.

What can I do with this certificate?

**Career Options:** Seek entry level positions with apparel manufacturers, clothing retailers, tailoring or alteration businesses, specialty clothing shops, or start your own business.

**Academic Options:** Continue your studies by taking courses toward the AAA in Applied Arts.

**Location:** West Campus

**Department/Contact Information:**
Dean: 206-6690
Lead Faculty: 206-3028
Program/Major Codes: CRTFDC/FDC

Fire Science Academy Track — Certificate for Direct Employment

Gain firefighting, hazardous materials and wildland firefighting skills. This program meets Arizona certification requirements for Firefighter I and II, and will enable students to achieve International Fire Service Accreditation Congress (IFSAC) certification as a Hazmat First Responder. In addition, students will be awarded a certificate of completion for wildland firefighting training from the National Wildfire Coordinating Group. Complete this program by taking classes in a combination of evenings and weekends.

What can I do with this certificate?

Career Options: Students will be eligible to take the State of Arizona Certification Test to become a certified firefighter and/or work as a wildland firefighter.

Academic Options: Continue your studies by taking classes toward an Associate of Applied Science in Fire Science.

More Information: Review program costs, student debt, on-time graduation and more
http://www.pima.edu/programs-courses/gainful-employment/2015/getd-5.html

Location: Community Campus

Program/Contact Information:
Dean/Lead Faculty: 206-6350

Program/Major Codes: CRTFIRESCIEN/FSI

Program Prerequisites
Before enrolling in this program you must fulfill the following requirement:
Students must provide documented certification from the State of Arizona or National Registry of Emergency Medical Technicians stating that they have obtained a minimum of EMT certification.

Required Core Courses - A grade of C or better is required for graduation.

Fire and Emergency Services Higher Education (FESHE) — Associate of Applied Science Degree for Direct Employment

Learn firefighting skills, prepare for the day-to-day demands of the profession and learn to cope with challenges in the field. This degree prepares students to move toward managerial and command positions. Complete this program by taking classes in a combination of weekdays, evenings and weekends.

What can I do with this degree?

**Career Options:** Seek employment or increase promotional opportunities in the fire service.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Location:** Community Campus

**Department/Contact Information:**
Dean/Lead Faculty: 206-6350
Program/Major Codes: AASFIRESCIEN/FSC/See Concentration Codes below.

Program Prerequisites

Before enrolling in this program, you must fulfill the following requirements.

Students must provide documented certification from the State of Arizona or National Registry of Emergency Medical Technicians stating that they have obtained their EMT credential.

General Education Requirements - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

Communication Requirement ...........................................................................................................................................................................†
WRT 101 and 102 fulfill this requirement.

Analysis and Critical Thinking Requirement ..........................................................................................................................................................6

Humanities and Social Science Requirement .........................................................................................................................................................3
STU/MGT 230 fulfills 3 credits in the Leadership/Ethics category. Complete a course from the Humanities/Fine Arts or Social Science category.

Computer and Information Literacy Requirement ..................................................................................................................................................†
CSA 100 fulfills this requirement.

Special Requirement
STU 230 fulfills this requirement.

Subtotal ......................................................................................................................................................................................................................... 9¥

Required Core Courses - A grade of C or better is required for graduation.

Fitness and Sport Sciences

Learn to coach athletes, teach physical education or train individuals in personal fitness.

Fitness and Sport Sciences — Coaching Certificate for Direct Employment

Learn effective coaching techniques applicable to all sports.

What can I do with this certificate?

Career Options: Seek certification from the Arizona Department of Education, the National Federation of Interscholastic Coaches Association or the American Sport Education Program. Coach a high school-level sports team.

Academic Options: Pursue a Fitness Professional Certificate. A student planning to transfer to obtain a bachelor’s degree in Exercise Science should follow the Associate of Science Degree for Transfer.

More Information: Review program costs, student debt, on-time graduation and more http://www.pima.edu/program-courses/gainful-employment/2015/gedt-69.html

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

Information: To become certified by the Arizona State Department of Education to be a Head Coach in an Arizona high school without a teaching certificate you will have to apply to the state and submit your transcripts after you complete the Coaching Certificate. There are additional requirements such as having current CPR certification, documented coaching experiences and finger printing. For more information, please see www.azed.gov/educator-certification.

Fitness Professional Certificate for Direct Employment

Learn exercise and fitness theories and the skills to teach people how to safely exercise. The program may include work-related experiences at the Fitness and Conditioning Center and in local fitness clubs and agencies.

What can I do with this degree?

Career Options: Work as a personal trainer and/or group fitness instructor in your own business or within a fitness club or agency. Take exams for certification through the American College of Sports Medicine (ASCM), the American Council of Exercise (ACE), or the National Strength and Conditioning Association (NSCA).

Academic Options: Pursue a Coaching Certificate. A student planning to transfer to obtain a bachelor’s degree in Exercise Science should follow the Associate of Science Degree for Transfer.

Physical Education, Exercise and Wellness, Athletic Trainer

A student planning to transfer to obtain a bachelor's degree in Physical Education, Exercise and Wellness, or Athletic Trainer should follow the Associate of Arts Degree for Transfer in Liberal Arts. A student planning to transfer to obtain a bachelor's degree in Exercise Science should follow the Associate of Science Degree for Transfer. A student should meet with Fitness and Sport Science faculty or an advisor to plan courses. Students who plan to transfer should contact an advisor from their chosen school and/or use a transfer guide for verification of transfer courses.
Fraud Examination — Certificate for Direct Employment

Get an introduction to fraud examination principles while preparing for the Certified Fraud Examiner (CFE) examination.

What can I do with this certificate?

**Career Options:** Enhance your opportunity for advancement in several career fields including accounting, business, law enforcement, and loss prevention.

**Academic Options:** Continue your studies by taking classes toward an Associate of Applied Science or Associate of Business Administration degree.

**Location:** Downtown Campus

General Studies

General Studies — Associate of General Studies Degree
This degree allows students to uniquely design an associate’s degree in collaboration with a faculty member, advisor or counselor. Courses may be chosen from a variety of subject areas. Students should meet with an advisor or counselor before beginning this degree. Engineering students who plan to transfer to a university should follow courses outlined in the engineering concentration.

What can I do with this degree?
Career Options: Select courses to fit careers of your choice.
Academic Options: Continue taking classes toward a transfer degree.
Locations: All campuses
Program/Major Codes: AGSGENRSTUDY/AGS

General Education Requirements - A grade of C or better is required for graduation.

Geology

Study the earth – its processes, materials, history and effect on humans and life – by taking courses in geology that focus on physical geology, historical geology, geological processes, oceanography and more. Students learn through a combination of lecture, hands-on lab experiences, and field trips.

Geology courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU, or UA should meet with geology faculty or an advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in geology?

**Career options:** Work as a technician in laboratories, with geophysical surveying firms, in the petroleum industry, government, and technical service firms.

**Academic options:** Continue studies towards a bachelor of science in geology, geosciences, geological engineering, engineering, or education.
# Health Information Management

## Health Information Technology — Associate of Applied Science for Direct Employment

Prepare for a career as a medical billing and coding specialist or other HIT professional.

### What can I do with this degree?

**Career Options:** Find entry-level employment as a medical coder, medical billing and insurance claims specialist, or physician or hospital coder.

**Academic Options:** While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

**Location:** Downtown Campus

**Department/Contact Information:**
- Dean: 206-7134
- Lead Faculty: 206-7186

**Program/Major Codes:** AASOAH/OAH

### General Education Requirements - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

**Communication Requirement**
- WRT 101 and 102 fulfill this requirement.

**Analysis and Critical Thinking Requirement**
- BIO 160IN fulfills 4 credits of this requirement. Complete another course from the Math, Science, or Critical Thinking category. The math competency must be met.

**Humanities and Social Science Requirement**
- CIS/CSA 104 fulfills this requirement.

**Computer and Information Literacy Requirement**
- HIT 200 fulfills this requirement.

**Special Requirement**
- The C or G requirement should be fulfilled by completing an appropriate course in the above categories.

**Subtotal**

### Required Core Courses - A grade of C or better is required for graduation.

History Concentration - Transfer

Study the origins and development of society by taking courses that focus on the history of regions, countries and peoples from prehistoric times to the present.

History courses are offered as part of the requirements of the Associate of Arts in Liberal Arts degree, or may be taken as required or elective courses to complete other degrees. Students planning to transfer to a university to major in history should complete this history concentration as part of completing the Associate of Arts in Liberal Arts degree, including the AGEC-A. Students should meet with a history faculty member, an advisor, or a counselor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in history?

Career options: After completing a bachelor’s degree, seek employment in a variety of fields including teaching, research, journalism, law, government, or business. For additional information see: http://www.historians.org/jobs-and-professional-development/career-resources/careers-for-history-majors.

Academic options: Continue studies toward a bachelor of arts in history, education, or the other social sciences. All courses in Pima’s concentration are not required at all transfer universities, but provide a good lower division preparation for history majors.

Locations: All Campuses

Program/Major/Concentration Codes: AOALIBRALART/ALA/ALAH

### Course Number | Course Title | Credit Hours
---|---|---
HIS 101 | Introduction to Western Civilization I (F-SpSu) | 3
HIS 102 | Introduction to Western Civilization II (F-Sp-Su) | 3
HIS 141 | United States History I (F-Sp-Su) | 3
HIS 142 | United States History II (F-Sp-Su) | 3
HIS 160 | Latin America Before Independence (F) | 3

Total Credits as displayed: 15*

* To be awarded this concentration you must complete the course requirements above and the Associate of Arts in Liberal Arts with an AGEC-A.
Honors Program — Certificate

The Honors Program offers academically excellent students a variety of enrichment opportunities to assist them in attaining their full academic potential.

Before enrolling in this program, students must meet certain requirements:

1. a. Incoming freshmen, with less than 12 college credits, must have maintained a GPA of at least 3.5 at an accredited high school, and scored 90 or higher on both the reading and writing portions of the College assessment tests.
   OR
1. b. Continuing students must have completed at least 12 college credits in courses numbered 100 or higher, with a GPA of 3.5 or better.
2. Complete HON 101: Honors Colloquium with a grade of B or better.

Program/Major Codes: CRTHON/HON

Required Courses:

To earn this certificate, students must complete a minimum of 15 credits of Honors coursework with an overall 3.5 GPA.

Interpreter Training

Interpreter Training Program — Associate of Applied Arts Degree for Direct Employment

Learn to interpret for the deaf. This program includes lecture, laboratory skills and field experience courses. It teaches the skills needed to take the National Certification Exams.

What can I do with this degree?

Career Options: Become an interpreter for the deaf in a variety of community, educational, and webcam/phone relay settings. This degree is also helpful for those pursuing related career fields in assisting the deaf.

Academic Options: While this program was not originally designed for transfer to Arizona 4-year universities, most of the courses in the program are transferable, and recent changes have been made to align this program with the requirements for the 90/30 programs at NAU. See your ITP Faculty Advisor for specific electives accepted by the 90/30 programs.

Location: West Campus

Department/Contact Information:
Dean: 206-6996
Lead Faculty: 206-6094
Video Relay Service/Video Phone: (520) 445-8338

Program/Major Codes: AAAINTPTRAIN/ITP

Program Prerequisites

Before enrolling in this program, you must fulfill the following requirements.

WRT 101* Writing I (F-Sp-Su) ..........................§
SLG 101 American Sign Language I (F-Sp-Su) .................4
SLG 102* American Sign Language II (F-Sp-Su) ..............4
SLG 201* American Sign Language III (F-Sp-Su) .............4

Complete or be concurrently enrolled in

WRT 102* Writing II (F-Sp-Su) .................................§
SLG 202* American Sign Language IV (F-Sp) ................4

Demonstrate reading competency at REA 112 level or higher .........................................................0-4

Subtotal ..........................................................................................................................16-20

General Education Requirements - A grade of C or better is required for graduation.

Law Enforcement

Law Enforcement Academy — Certificate for Direct Employment

Learn the skills needed to begin a career in law enforcement while preparing for the licensure examination. Completion of the program exceeds the minimum P.O.S.T. requirements for entry-level employment as an Arizona peace officer.

Before enrolling in this program you must meet certain requirements:

- High school diploma or GED
- At least 21 years of age upon completion of the academy
- No felony convictions
- U.S. Citizen
- Must possess a valid driver's license
- Physical requirement test
- Written evaluation
- Psychological evaluation
- Oral Board review
- Background investigation
- Medical evaluation
- Polygraph exam
- Other requirements that are specific to Arizona Peace Officer Standards and Training Board (Az P.O.S.T.) http://www.azpost.state.az.us/

What can I do with this certificate?

Career Options: After passing the licensure examination, seek entry-level employment as an Arizona police officer.

Academic Options: Continue your studies by working toward an associate's degree in Law Enforcement.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.
Mathematics

Associate of Arts Degree for Transfer in Liberal Arts

A student planning to obtain a mathematics degree should follow the **Associate of Arts Degree for Transfer in Liberal Arts**. A student seeking a degree must take the math, writing, and reading assessment exams. The student should then meet with a mathematics faculty or an advisor to plan courses. The student who plans to transfer to an upper division school to complete his/her bachelor's degree should also contact an advisor or counselor from their chosen school for verification of transfer courses.

**Information:** All students enrolling in their first mathematics course with the College and all new, full-time students are required to take the mathematics assessment tests. Completion of prerequisite courses within the last 3 years with a grade of C or better or a satisfactory score on the assessment test is required for all math courses.

Program Identification Code: **AOALIBRALART**
Medical Assistant — Certificate for Direct Employment

Learn advanced skills in patient care and prepare to take exams for licensure. Concentrations can be in either the front or back office, or for the full medical assistant who has training in both environments.

Before enrolling in this program, students must take the Compass assessment and must meet the following scores:

- Reading: 65
- Math: 30
- Writing: 50

Students must also present evidence they have earned first aid/CPR certification from a recognized training provider.

What can I do with this certificate?

Career Options: Upon completion of this certificate, students are eligible to take the American Medical Technologist Exam (AMT) for Medical Assistants or the Registered Medical Assistant Exam (RMA). Work as a Medical Assistant in physicians’ offices, medical centers, urgent care facilities, and clinics.

Academic Options: Take courses to qualify as a medical coding and billing specialist or practical nurse.

More Information: Review program costs, student debt, on-time graduation and more http://www.pima.edu/program-courses/gainful-employment/2015/gedt-10.html

Medical Laboratory Technician

Medical Laboratory Technician — Associate of Applied Science Degree for Direct Employment

Prepare for a career in medical laboratory technology through classroom study and supervised clinical experience. Learn about blood, analysis of body fluids, bacteriology, parasitology, clinical chemistry and other aspects of medical laboratory technology.

This program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

Before enrolling in this program you must meet certain requirements.

Before enrolling in this program you must meet certain requirements.

This degree program requires a special program application. Students may request a program application when all prerequisites are complete. In addition, students must have completed the program prerequisites (with grades posted) before they may begin the application process.

To participate in the clinical portion of the program, students must:

- Obtain an Arizona Department of Public Safety Fingerprint Clearance Card.
- Pass a urine toxicology screening exam from a certified laboratory.
- Provide proof of immunity status to Measles, Mumps, Rubella and Hepatitis B Virus.
- Provide proof of immunization to Tetanus, Diphtheria, Pertussis, and Influenza.
- Provide proof of a negative TB skin test or a negative chest x-ray within the last two years.
- Provide proof of health insurance coverage.
- Provide a declaration of health from a licensed care provider.

Essential Functions

To successfully participate in the PCC MLT program and become employable in a medical facility, the student should be able to perform essential functions expected of the working professional. Some examples of these essential functions are:

Vision: Should possess visual acuity, color, shade and depth perception to accurately perform and interpret laboratory tests. Must be able to read computer screens, specimen/reagent labels, and warning signs.

Communication: Should possess the ability to clearly and accurately communicate with patients and healthcare professionals, and to accurately follow verbal and written instructions.

Physical Activity: Should be able to stand and/or sit for prolonged periods and move freely and safely through the laboratory. Should be able to grasp, sit, squat, stoop, bend, reach, push, pull, and lift and carry up to 50 pounds.

Manual Dexterity: Should possess sufficient hand-eye coordination to efficiently, accurately and safely operate laboratory equipment, such as pipettes, inoculating loops, precision instrumentation, and perform phlebotomy procedures.

NOTE: Students in the Medical Laboratory Technician program may be exposed to potentially infectious blood, tissues, and body fluids.

What can I do with this degree?

Career Options: Work in the clinical laboratory of a hospital, clinic, reference laboratory, blood bank, coroner’s office or in biomedical research.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: West Campus

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

§ Credits counted below.
Pre-Nursing

Pre-Associate Degree Nursing - Associate of Applied Science Degree for Direct Employment

Get comprehensive education and practical experience in nursing, and prepare to become licensed as a registered nurse. Students who choose to leave the program before completing the degree may qualify for other certificates.

This program has approval from the Arizona State Board of Nursing, and is accredited by the Accreditation Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326 www.acenursing.org

Before enrolling in the Nursing - Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites in the Pre-Nursing program.

The Nursing - Associate of Applied Science Degree for Direct Employment degree program requires a special program application. Once all Pre-Nursing prerequisites are complete, students can access the program application on the MyPima Academics tab in the Degrees and Programs section and continue taking general education courses in the Pre-Nursing program.

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of a variety of immunization including, but not limited to MMR/Varicella/Hep-B/TDap.
5. Show proof of negative TB skin test or negative chest x-ray for TB.
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program.

Licensed Practical Nurses with work experience, including graduates from Pima’s Center for Training and Development, are eligible to apply for entry into the second year of the Associate Degree Nursing (ADN) Program by completing the prerequisites listed above. If accepted, the student must successfully complete a five credit transition course (NRS 188/188LS) and meet all acceptance requirements for admission into the third semester of the Associate Degree Nursing (ADN) Program.

Program Transfer and Re-entry

Students currently enrolled in another accredited ADN Nursing Program wishing to transfer to Pima, or students wishing to re-enter the program, should contact the Nursing Department Office at 206-6661.

If a student initiates a withdraw, or withdraws while failing, a core nursing class during a semester, they will be withdrawn from all nursing core classes within that semester and will have to repeat all the core courses within the semester (core nursing courses, HCA 102, or HCA 155). This action may have an effect on the student’s status in the program, financial aid, and community sponsored support.

Pima Community College and Northern Arizona University have partnered to offer qualified students the opportunity to earn a Bachelor of Science in Nursing while pursuing their Associate’s Degree in Nursing. For more information go to http://www.pima.edu/programs-courses/credit-programs-degrees/health-professions/nursing/nursing-concurrent.html

What can I do with the Nursing Associate of Applied Science Degree for Direct Employment?

Career Options: Take the National Council Licensure Examination (NCLEX-RN) to be eligible to work as a registered nurse.

Academic Options: Pursue a bachelor’s degree in nursing at a university.

Location: West Campus

Department/Contact Information:

Department Chair: 206-6661
Dean: 206-6663
Program Prerequisites

Students must have completed the following prerequisites (with a grade of B or better within the last four years) before they may begin the application process.

- Compass reading assessment score of 95 or higher ................................................................................................................................. 0
- MAT 122* or Math assessment score into MAT 151* or higher within the last four years ................................................................................................................................. 0-3
- BIO 201IN* or BIO 201IH*, and BIO 202IN*
  Note: Complete the BIO 056IN prerequisite as needed. ................................................................................................................................. 8-9
- PSY 101 Introduction to Psychology (F-Sp-Su) ................................................................................................................................................. 4

Subtotal ................................. 12-16

General Education Requirements - A grade of C or better is required for graduation.

Practical Nursing — Certificate for Direct Employment

Students who are accepted into, and complete the first three semesters of the Associate Degree Nursing program, including the courses listed below, are eligible for the Practical Nursing Certificate and to take the licensure exam to become a Licensed Practical Nurse. All the program admission and clinical requirements are the same for the Associate Degree in Nursing and the Practical Nursing Certificate.

This certificate is offered at the West Campus and earns college credit. A Practical Nursing certificate is also offered at the Center for Training and Development, located at the Desert Vista Campus, but will not earn college credit.

What can I do with this certificate?

Career Options: Take the National Council Licensure Examination (NCLEX-PN) to be eligible to work as a licensed practical nurse.

Academic Options: Take courses to qualify as a registered nurse.

Paralegal

Prepare for entry-level paralegal or legal assistant positions with these programs approved by the American Bar Association. Students interested in become a legal secretary should pursue an Office and Administrative Professions associate's degree.

Paralegal — Associate of Applied Science Degree for Direct Employment

Learn to investigate legal cases, draft legal documents and perform legal research under the supervision of an attorney. Program includes a paralegal internship.

Before enrolling in this program, you must earn a high school diploma or pass an equivalency exam.

What can I do with this degree?

Career Options: Become a paralegal or legal assistant, title examiner, trust officer, contract clerk, legal investigator or law firm administrator.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Pre-Pharmacy Technology

Pre-Pharmacy/Technology - Associate of Applied Science Degree for Direct Employment

Learn to work in a pharmacy, including medication dispensing, business administration and supervisory skills. This program includes training within laboratory and clinical settings.

Before enrolling in the Pharmacy Technology- Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites in the Pre-Pharmacy Technology program.

In addition to the program prerequisites listed below, this certificate program requires a Pharmacy Technology application which is available online in two formats. Students may submit a program application when all prerequisites are complete and continue taking general education courses in the Pre-Pharmacy Technology program.

Prospective students with a criminal background see www.pima.edu/programs-courses/credit-programs-degrees/health-professions/pharmacy-tech/pharmacy-tech-aas-admission.html for licensure and clinical practice eligibility.

What can I do with the Pharmacy Technology-Associate of Applied Science Degree for Direct Employment?

Career Options: Work in hospitals, nursing care facilities and drug stores, and with pharmaceutical manufacturers, wholesale pharmaceutical companies and health maintenance organizations.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: East Campus

Phlebotomy — Certificate for Direct Employment

Learn skills to prepare for employment in the area of phlebotomy and prepare to take exams for national certification. This certificate is offered at the Center for Training and Development, Desert Vista Campus and earns college credit.

Before enrolling in this program, students must take the Compass assessment and must achieve the following scores:

- Reading: 60
- Math: 20
- Writing: 40

What can I do with this certificate?

Career Options: Once eligible, students are encouraged to take one of the national certification exams in phlebotomy. Work as a phlebotomist in physician’s offices, medical centers, clinics, and medical laboratories.

Academic Options: Take courses in medical laboratory technology, medical assisting, registered nursing or practical nursing.

Physics

Explore the science of energy and motion by taking physics courses that focus on mechanics, electricity and magnetism, waves and heat, relativity to the basics of quantum physics. Students learn through lecture and hands-on lab experiences.

Physics courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with physics faculty or an advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in physics?

Career options: Work as a technician in laboratories, with research and development firms, in the laser or optics industry, or in manufacturing.

Academic Options: Continue studies towards a bachelor of science in physics, astrophysics, optical sciences, engineering, or education.

Location: All Campuses
## Political Science

### Associate of Arts Degree for Transfer

The political science program is designed to prepare students for transfer to a political science program at a four-year institution. Following a four-year degree, students may also pursue graduate degrees in law, international business communications, political science, public administration, and management. Although it is not intended for direct employment, the political science Associate of Arts Degree for Transfer may be recognized by some employers for entry level positions.

### What can I do with this degree?

**Academic Options:** Transfer to a 4-year university to complete a political science degree.

**Locations:** All campuses

**Program/Major Codes:** AOAPOLITLSCI/POS

Public Safety and Emergency Services Institute

The purpose of the Public Safety and Emergency Services Institute is to provide training and educational opportunities and resources to several career areas including Administration of Justice, Law Enforcement, Emergency Medical Technician, Fire Science and Public Safety Communications. We offer convenient, flexible and immediately useful programs to professionals who seek advancement in their careers as well as courses for the general public. In addition, the Law Enforcement Associate of Applied Science Degree is designed to transfer to NAU’s Bachelor of Applied Science Degree in Justice Systems and Policy Planning, and the Fire Science Associate of Applied Science Degree to ASU’s Bachelor of Applied Science Degree in Fire Service Management. Both of these programs are offered in Tucson.

Educational opportunities at the Institute reflect contemporary issues, current techniques and technology used in public safety and emergency services. Our programs and services focus on the safety and well being of Southern Arizona and the greater community.

The training and education we offer can give your employees new and improved skills, insight, understanding, and opportunities to learn how to meet a changing agency’s environment. We also provide all the academic support services they need: academic advising, computer labs, and information resources.

When your commissioned and non-commissioned employees enroll in courses which are a part of the Institute, your agency gains professionals who have a greater range of skills, and who have the education to meet the expanding role of your agency. The Institute provides a source for management education and leadership development plus targeted opportunities for professional development.

Our partnerships with public safety agencies are based on mutual respect, trust and benefit. We work together to make effective use of the talent, facilities and resources possessed by each partner.

See the following programs in this main program section of the catalog: Administration of Justice and Fire Science. See the following programs in the Workforce Response Programs in the Other Programs section of the catalog: Corrections, Emergency Medical Technology, and Law Enforcement. Also see courses in Community Development (CDE).

Pre-Radiologic Technology

Pre-Radiologic Technology Associate of Applied Science Degree for Direct Employment

Learn diagnostic medical imaging, equipment operation, radiographic procedures, patient care, and radiation safety and protection. This program is accredited by the Joint Review Committee of Education for Radiologic Technology.

Before enrolling in the Radiologic Technology- Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites in the Pre-Radiologic Technology program.

The degree Radiologic Technology- Associate of Applied Science Degree for Direct Employment degree program requires a special program application. Once all prerequisites are complete students can access the program application on the MyPima Academics tab, in the Degrees and Program section and continue taking general education courses in the Pre-Radiologic program.

Prospective students with misdemeanor or felony convictions see www.pima.edu/programs-courses/credit-programs-degrees/health-professions/radiologic-technology/admissions.html for important information on licensure.

To participate in the program, the students must:

1. Provide and maintain an Arizona DPS Fingerprint Clearance Card.
2. Pass an annual urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical Radiologic Technology program also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Provide own transportation to various clinical facilities throughout the Tucson regional area.
5. Present proof of immunization or immunity for MMR/Varicella/TDaP.
6. Obtain an annual flu shot.
7. Show proof of negative TB skin test or negative chest x-ray for TB.
8. Clinical rotations are at various clinical facilities throughout the Tucson regional area.
9. Maintain health insurance and a current CPR card at the Health Care Provider Level throughout the program.

What can I do with the Radiologic Technology Associate of Applied Science Degree for Direct Employment?

Career Options: Eligibility to apply for the medical radiography exam by the American Registry of Radiologic Technologists and qualify to work in hospitals, clinics and doctors’ offices.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Radiologic Technology

Become a technologist in the field of diagnostic medical imaging.

Radiologic Technology — Associate of Applied Science Degree for Direct Employment

Learn diagnostic medical imaging, equipment operation, radiographic procedures, patient care, and radiation safety and protection.

This program is accredited by the Joint Review Committee of Education for Radiologic Technology.

Before enrolling in this program, you must complete certain requirements:

This degree program requires a special program application. Once all prerequisites are complete students can access the program application on the MyPima Academics tab, in the Degrees and Program section.

Prospective students with misdemeanor or felony convictions see www.pima.edu/programs-courses/credit-programs-degrees/health-professions/radiologic-technology/admissions.html for important information on licensure.

To participate in the program, the students must:

1. Provide and maintain an Arizona DPS Fingerprint Clearance Card.
2. Pass an annual urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical Radiologic Technology program also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Provide own transportation to various clinical facilities throughout the Tucson regional area.
5. Present proof of immunization or immunity for MMR/Varicella/TDaP.
6. Obtain an annual flu shot.
7. Show proof of negative TB skin test or negative chest x-ray for TB.
8. Clinical rotations are at various clinical facilities throughout the Tucson regional area.
9. Maintain health insurance and a current CPR card at the Health Care Provider Level throughout the program.

What can I do with this degree?

Career Options: Eligibility to apply for the medical radiography exam by the American Registry of Radiologic Technologists and qualify to work in hospitals, clinics and doctors' offices.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Pre-Respiratory Care

Pre-Respiratory Care - Associate of Applied Science Degree for Direct Employment

Develop skills through classroom and clinical experience to become a respiratory therapist. Pima Community College’s Respiratory Care program is accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com).

Commission on Accreditation for Respiratory Care
1248 Harwood Road, Bedford, Texas 76021-4244
(817) 283-2835 (telephone), (817) 354-8519 (fax)

Before enrolling in the Respiratory Care - Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites in the Pre-Respiratory Care program. Once all Pre-Respiratory Care program prerequisites are complete, students can access the Respiratory Care program application on the MyPima Academics tab in the Degrees and Programs section a special Respiratory Care – AAS program application and continue taking general education courses in the Pre-Respiratory Care program.

To participate in the clinical portion of the program, the students must:

1. Provide and maintain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients without the use of a mechanical device, stand and walk for several hours at a time, perform bending activities, move medical equipment, and perform chest compressions. The clinical Respiratory Care Program also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients’ lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Be able to assess and gather information regarding the patient, i.e., color changes in the skin, hearing heart and lung sounds through a stethoscope, feeling pulses, communicate effectively with the patient and health care team, and the ability to synthesize the data obtained to critically think and make emergency decisions.
5. Present proof of immunization or immunity for MMR/Varicella/Hep-B/TDaP.
6. Show proof of negative TB skin test or negative chest x-ray for TB.
7. Maintain health insurance and a CPR card at the Health Care Provider Level throughout enrollment in the program.

Note: The Commission on Accreditation for Respiratory Care requires students to successfully complete an Advanced Cardiac Life Support course prior to graduation. The Respiratory Care program requires successful completion of the Advanced Cardiac Life Support course prior to the third semester of the program.

Important Information on Licensure

Students should be aware that federal and state law requires documentation that the applicant for Respiratory Care Practitioner licensure is a U.S. citizen, national, or a person described in specific categories, to be eligible for licensure in Arizona.

All applicants applying or renewing a license must also demonstrate U.S. citizenship or lawful presence in the U.S. A statement of Citizenship form with the documents identified in the Evidence of Citizenship attachment must accompany all license applications and renewals.

What can I do with the Respiratory Care-Associate of Applied Science Degree for Direct Employment?

Career Options: Apply to take the exam given by the National Board of Respiratory Care to become a certified respiratory therapist. This degree also qualifies graduates to take the registered respiratory therapist exam. Become licensed in Arizona. Work in hospitals, special-care facilities and other settings taking care of cardiopulmonary patients.

Academic Options: Pursue a bachelor’s degree in nursing at a university.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

## Social Services

Gain knowledge and skills for employment in social service organizations that provide community services including service delivery, community outreach and intervention.

### Social Services — Associate of Applied Science Degree for Direct Employment

Learn core principles and skills in social work, community services and casework management.

---

#### What can I do with this degree?

**Career Options:** Entry-level employment in social service positions.

**Academic Options:** Students intending to transfer to a four-year university should pursue the Social Services Associate of Arts degree.

**Location:** West Campus

**Department/Contact Information:**
Dean: 206-6996
Lead Faculty: 206-6746
Program/Major Codes: AASSOCIALSV/SSE

### General Education Requirements - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 55.

- Communication Requirement: 6 credits
- Analysis and Critical Thinking Requirement: 6 credits
- Humanities and Social Science Requirement: 3 credits
- SSE 110 fulfills 3 credits of the Social Science category. Complete a course from the Humanities & Fine Arts or Leadership & Ethics category.
- Computer and Information Literacy Requirement: 1-3 credits
- Special Requirement: The C or G requirement should be fulfilled by completing an appropriate course in the above categories.

**Subtotal:** 16-18 credits

Technology — Associate of Applied Science Degree for Direct Employment

Gain a broad understanding of electronics, optics or computer hardware and networking principles. Each of the concentrations listed below has an electronics/optics based core to prepare students for working in industry.

What can I do with this degree?

Career Options: Entry-level employment in a broad range of electronics fields.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: West Campus

Therapeutic Massage — Certificate for Direct Employment

Learn techniques to alleviate chronic pain, reduce stress, strengthen the immune system, and promote healing through therapeutic massage. Program includes clinical practice in a professional atmosphere and prepares students for the national therapeutic massage and bodywork exam and state licensure.

Before enrolling in this program, you must meet certain requirements.

- Program prerequisites must be completed as described in the AAS or Certificate Program Requirements with grades and/or assessment scores posted on PCC transcripts before applying to the program.
- Be at least eighteen years old.
- Must have a high school diploma or GED.
- Attend a Therapeutic Massage Program orientation session.
- Complete advising session with Therapeutic Massage faculty.
- Submit application form by due date.
- Complete health declaration, immunizations, drug screening and fingerprinting.
- Complete prerequisite coursework with a grade of C or better prior to entry into the Massage Therapy Practice classes.

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students must be able to lift, carry, set up and take down massage tables and chairs. The clinical experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting clients’ wellness. Students must be able to demonstrate rational and appropriate behavior in day-to-day situations and under stressful conditions. Students will be required to receive massage which results in increased local and systemic circulation, increased venous return, relaxed muscles and overall relaxation. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB.
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program.

What can I do with this certificate?

Career Options: Work as a massage therapist in a variety of wellness, medical and corporate facilities, on cruise ships or as a private practitioner.

Academic Options: Continue your studies and earn an associate’s degree in therapeutic massage.

## Translation and Interpretation

### Translation and Interpretation Studies — Certificate for Direct Employment

Improve your skills in Spanish-English and English-Spanish written translation in the health care, legal, literary and business fields. Courses include both hands-on and theoretical classes, as well as internship opportunities.

### What can I do with this certificate?

- **Career Options**: Translate written documents between English and Spanish.
- **Academic Options**: Continue your studies by completing the Associate of Applied Science degree.

### Program/Contact Information:

- **Location**: Downtown Campus
- **Department/Contact Information**:
  - Dean: 206-7045
  - Lead Faculty: 206-7274
- **Program/Major Codes**: CRTTRANSLATE/TRS

### Program Prerequisites

Before enrolling in this program (TRS 102 or higher) you must fulfill the following requirements.

#### WRT 101* Writing I (F-Sp-Su) ................................................................. 3
or WRT 107* Writing I for Non-Native Speakers of English (F-Sp)

#### WRT 102* Writing II (F-Sp-Su) .............................................................. 3
or WRT 108* Writing II for Non-Native Speakers of English (F-Sp)

Pass a proficiency test or completion of the following:

#### SPA 103* Beginning Spanish for Heritage and Bilingual Learners (F-Sp) .................................................................................. 0-4
#### SPA 203* Writing and Oral Skills for Heritage and Bilingual Learners (F-Sp) ................................................................. 0-4
#### SPA 253* Intermediate Spanish for Heritage and Bilingual Learners (F) ................................................................. 0-4
#### SPA 254* Intermediate Grammar and Writing for Heritage and Bilingual Learners (Sp) ......................................................... 0-3

Demonstrate 50 percent competency translating a document without aid.

Subtotal .............................................................................................................. 6-21

### Required Core Courses - A grade of C or better is required for graduation.

#### TRS 101 Introduction to Translation and Interpretation (F-Sp) ................................................................................................. 3
#### TRS 102* English and Spanish for Translation (F-Sp) ................................................................. 4
#### TRS 120IN* Technology for Translation and Interpretation (F-Sp) ........................................................................... 2

Translation and Interpretation Studies—Associate of Applied Science Degree for Direct Employment

This program is designed to prepare students for entry level employment in translation or interpretation. The Associate of Applied Science degree has course work to develop skills specific to the translation of written documents and the interpretation of oral passages from a source language into a target language. Through a combination of theory and practice, students will gain experience in translating or interpreting in specialty areas such as health care, legal, literary, and business.

What can I do with this certificate?

Career Options: Translate written documents and/or interpret oral passages from a source language into a target language between English and Spanish

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Location: Downtown Campus

Department/Contact Information:
Dean: 206-7045
Lead Faculty: 206-7274

Pre-Veterinary Technology

Pre-Veterinary Technician - Associate of Applied Science Degree for Direct Employment

Learn to provide veterinary care to animals, including nutrition, nursing, anesthesiology, radiography and clinical laboratory procedures. Gain practical experience in clinic settings. This program is accredited by the American Veterinary Medical Association.

Before enrolling in the Veterinary Technician- Associate of Applied Science Degree for Direct Employment program, you must complete all prerequisites and continue taking general education and required support courses in the Pre-Veterinary Technology program.

To participate in the clinical portion of the program, the students must:

- Meet the requirements for admission as a credit student at Pima Community College.
- Have prerequisite coursework completed with the grade of C or higher.
- Have proof of personal medical insurance. Student health insurance is available through Pima. If you are not able to obtain insurance under your parents’ or an employer’s policy, student insurance coverage may be available to you from various carriers.
- Have proof of immunizations: pre-exposure rabies vaccination series and tetanus toxoid. Proof of tetanus toxoid in the last 8 years. Proof of an MMR vaccination series. Rabies immunizations will also be needed to be completed while in the program.
- Complete program admissions procedures. Submit a Program Admission Form (deadline is noon on May 1, 2014)
- Be able to meet physical requirements of lifting at least forty pound animals; restraining dogs, cats, exotic animals, horses, cows, birds, etc.; standing for long periods of time; bending and lifting; having manual dexterity to assist in surgery and having ability to communicate with veterinarians and clients. This is a physically demanding occupational field.

What can I do with the Veterinary Technician-Associate of Applied Science Degree for Direct Employment?

Career Options: Work as a certified veterinary technician for veterinarians, biological research workers, scientists and business or organizations that provide care for animals. After completion of the program, students apply to take state and national board exams for certification.

Academic Options: While this program was not designed to transfer to a 4-year university, it may apply toward Bachelor of Applied Science (BAS) or other programs. See Pima’s Transfer Partnerships (www.pima.edu/current-students/transferring-from-pima/transfer-partnerships.html) page to determine which universities offer BAS programs, and research how the universities may accept this program in transfer.

Writing

Learn to communicate effectively through the written word by taking courses that focus on grammar, poetry and short story writing, business writing, research skills, creative nonfiction, critical analysis of literature and more. Writing courses are also offered for those who are not native speakers of English.

Writing courses are offered as part of the requirements of the AGEC and the Associate of Arts degree, may be taken as an AA Creative Writing Emphasis, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with the writing faculty or an advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in writing?

Academic Options: Continue studies towards a bachelor of arts in English, journalism, education or other humanities disciplines.

Location: All campuses
Educational Courses
Course Numbering System and Prerequisites

Courses numbered from 001-099 are those unique to the community college, are considered developmental in nature, are not anticipated to be transferable, and do not satisfy degree requirements.

Courses numbered 100-199 are considered to be on the freshman level. Courses numbered 200-299 are considered to be on the sophomore level.

NOTE: SUN System: SUN# (Shared Unique Number) is a prefix and number assigned to certain courses that represents course equivalency at all Arizona community colleges and the three public universities, no matter what prefix or number is used at the individual institutions. Learn more at http://www.azsunsystem.com/

Sample course listing:

<table>

<td>title</td>
<td>semester hours of credit</td>
<td>hours of lecture and/or lab per week</td>
</tr>
</tbody>
</table>

A student registering for a course must meet the prerequisites or otherwise satisfy the instructor of his or her preparation to take the course. After notification, an instructor may withdraw a student who does not have the proper prerequisites for the class as stated in the catalog. Prerequisites may be waived by the instructor.

Consult the semester Schedule of Classes for specific offerings each semester.

Topics Courses

Courses designated with the numbers 098, 198, 298 are courses created by a Pima Community College faculty member to offer a specific subject not found in the regular courses of the college catalog.

Students should be aware that these courses are NOT designed for transfer to a university, nor does Pima Community College articulate them with any university to seek transfer status.

Accounting

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**ACC 100 Practical Accounting Procedures**
3 cr. hrs. 3 periods (3 lec.)
Introduction to accounting systems for small businesses. Includes an introduction to accounting, accounting equation, procedures for controlling cash, payroll accounting, special journals, computer accounting, and ethical issues in the business process.
Offered: Fall, Spring, Summer.

**ACC 150 Payroll Accounting**
3 cr. hrs. 3 periods (3 lec.)
Current practices in payroll accounting and tax reporting. Includes payroll and personnel records, computing and paying wages and salaries, analyzing and journalizing payroll transactions, and computerized payroll systems and payroll projects.
*Prerequisite(s):* ACC 100 or 211.
Offered: Fall, Spring.

**ACC 190 Internship in Accounting**
3 cr. hrs. 9 periods (9 lab)
Supervised internship in an accounting workplace. Includes experiences supervised by a professional in the field.
*Information: Consent of instructor is required before enrolling in this course.*
Offered: May not be offered this year, check class schedule.

**ACC 200 Computerized Accounting I**
4 cr. hrs. 4 periods (4 lec.)
Fundamental accounting applications using commercial applications software. Includes the computer operating system, commercial accounting program modules, accounting projects, electronic spreadsheet as the accounting tool, and accounting information on the Internet.
*Prerequisite(s):* ACC 100 or 211.
Offered: Fall, Spring, Summer

**ACC 204 Individual Tax Accounting**
4 cr. hrs. 4 periods (4 lec.)
Principles of accounting for taxes on individuals. Includes federal tax laws for individuals, gross income, deductions and losses, special tax computations, property transactions, and income tax preparation and related forms.
*Prerequisite(s):* ACC 100 or 211.
Offered: Fall, Spring.

**ACC 210 Computerized Accounting II**
3 cr. hrs. 3 periods (3 lec.)
Continuation of ACC 200 using advanced accounting applications and commercial applications software. Includes working with an accounting practice set, advanced accounting spreadsheets, and accounting software research on the Internet.
*Prerequisite(s):* ACC 200.
Offered: Fall.

**ACC 211 Financial Accounting**
3 cr. hrs. 3 periods (3 lec.)
Introduction to accounting as a service activity, analytical discipline, and information system. Includes financial statements and the accounting profession, recording accounting and transactional data, merchandising operations, internal control and ethical issues, asset reporting, reporting and analyzing liabilities and stockholder’s equity, statements of cash flow, and performance measurement.
*Prerequisite(s):* MAT 092.
*Information: Students planning to transfer to the Eller Business College should take ACC 211 the semester prior to their application semester.*
Offered: Fall, Spring, Summer.
**ACC 212 Managerial Accounting**  
3 cr. hrs. 3 periods (3 lec.)  
Accounting information for managers. Includes managerial accounting environment, systems design, cost behavior analysis and use, profit planning, standard costs, and decision making.  
Prerequisite(s): ACC 211 and MAT 122 or higher.  
Offered: Fall, Spring, Summer.

**ACC 215 QuickBooks Computer Accounting**  
3 cr. hrs. 3 periods (3 lec.)  
Use of current QuickBooks software to set up and maintain accounting records for a small business. Includes modular accounting involving accounts receivable, accounts payable, inventory, and payroll features.  
Prerequisite(s): ACC 100 or 211.  
Offered: Fall, Spring.

**ACC 221 Intermediate Accounting I**  
3 cr. hrs. 3 periods (3 lec.)  
Comprehensive coverage of financial accounting topics. Includes environment of accounting, accounting information system, present value applications to accounting problems, cash control, receivables and investments, inventory valuation methods, tangible fixed assets, current and long-term liabilities, and intangible assets.  
Prerequisite(s): ACC 212.  
Offered: Fall, Spring.

**ACC 222 Intermediate Accounting II**  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of ACC 221. Includes stockholder’s equity, long and short term liabilities, income taxes, pension plans, leases, and accounting changes, statement of cash flow, and full disclosure in financial reporting. Also includes continual integration of theory and practice in the accounting treatment of investments.  
Prerequisite(s): ACC 221.  
Offered: Fall, Spring.

**ACC 233 Cost Accounting**  
3 cr. hrs. 3 periods (3 lec.)  
Analysis of cost data for management planning, coordination, and control. Includes cost accounting fundamentals, costing systems, tools for planning and control, and cost information for decision making.  
Prerequisite(s): ACC 212.  
Offered: May not be offered this year, check class schedule.

**ACC 250 Certified Bookkeeper Review**  
3 cr. hrs. 3 periods (3 lec.)  
Preparation for the American Institute of Professional Bookkeepers (AIPB) Certified Bookkeeper examination and review of accounting theory and practical bookkeeping skills. Includes the certified bookkeeper program; accruals, deferrals, and the adjusted trial balance; correction of accounting errors and the bank reconciliation; payroll; depreciation; inventory; and internal controls and fraud prevention.  
Prerequisite(s): ACC 100 or 211.  
Offered: May not be offered this year, check class schedule.

**ACC 260 Principles of Fraud Examination**  
3 cr. hrs. 3 periods (3 lec.)  
Overview of the field of fraud examination and examination methodology and detailed examination of the most prevalent fraud schemes. Includes categories of occupational fraud and abuse, asset misappropriation, corruption schemes, accounting principles and fraud examination strategies, fraudulent financial statement schemes, and interviewing witnesses.  
Prerequisite(s): ACC 211.  
Offered: Spring.

**ACC 267 Computer Fraud Detection**  
1 cr. hrs. 1 periods (1 lec.)  
Overview of the fundamentals of computer fraud examination. Includes the examination methodology used within the field, Internet and e-commerce fraud, evidence gathering, prevention, and security.  
Prerequisite(s): ACC 260.  
Offered: Spring.
**ACC 273 Governmental Accounting**  
3 cr. hrs. 3 periods (3 lec.)  
Accounting practices and procedures used in governmental units. Topics include basic characteristics of fund accounting, functions of governmental accounting, budgetary process, basic fund accounting system, financial reporting objectives, and government-wide financials.  
Prerequisite(s): ACC 211.  
Offered: Spring.

**ACC 296 Independent Study in Accounting**  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Independent study projects or special interest areas in accounting under the supervision of a faculty member.  
Prerequisite(s): ACC 211, 212.  
Information: May be taken two times for a maximum of six credit hours.  
Offered: May not be offered this year, check class schedule.

---

**Administration of Justice**  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**AJS 101 Introduction to Administration of Justice Systems**  
3 cr. hrs. 3 periods (3 lec.)  
History and philosophy of administration of justice in America. Includes identifying the various subsystems, role expectations, and their interrelationships, theories of crime, punishment and rehabilitation, ethics, education and training for professionalism in the system, and career opportunities related to local criminal justice agencies.  
Offered: Fall, Spring, Summer.

**AJS 109 Criminal Law**  
3 cr. hrs. 3 periods (3 lec.)  
Historical development and philosophy of law and constitutional provisions. Includes definitions, classifications of crime and their application to the system of administration of justice, legal research, study of case law, methodology, and concepts of law as a social force.  
Offered: Fall, Spring.

**AJS 115 Criminal Procedures**  
3 cr. hrs. 3 periods (3 lec.)  
Overview of the system used in the United States to administer criminal cases. Includes implications for civil rights, the police process, the prosecuting attorney, the defense attorney, courts, grand jury, trial jury, coroner-medical examiner, judicial process, and the trial, and its aftermath.  
Offered: Fall, Spring, Summer.

**AJS 123 Corrections as a Process**  
3 cr. hrs. 3 periods (3 lec.)  
Overview of corrections as a process and its appropriate place in the criminal justice system. Includes the study of inmate characteristics, prison culture, correctional history and philosophies. Also includes community corrections, supervision and career opportunities in corrections.  
Offered: Fall, Spring.

**AJS 124 Ethics and the Administration of Justice**  
3 cr. hrs. 3 periods (3 lec.)  
Exploration of ethical issues and the justice system. Includes elements of moral and ethical behavior, principles of justice, and theories of moral development. Also includes ethics of the police, courts, corrections, and modern issues in the administration of justice.  
Offered: Fall, Spring.
AJS 170 Forensic Pathology and Death Investigation  
3 cr. hrs. 3 periods (3 lec.)  
Basic principles of forensic pathology, demonstrating the use of autopsy findings and death scene investigation to determine the cause and manner of death for deaths that fall under the jurisdiction of the medical examiner in the state of Arizona. Includes postmortem changes; sudden and unexpected, suspicious and violent deaths; and postmortem identification.  
Offered: Spring.

AJS 201 Rules of Evidence  
3 cr. hrs. 3 periods (3 lec.)  
The origin, development, philosophy and constitutional basis of evidence. Includes constitutional and procedural considerations affecting arrest and search and seizure. Also includes degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights, and case studies.  
Offered: Fall, Spring, Summer.

AJS 204 Criminal Investigations  
3 cr. hrs. 3 periods (3 lec.)  
Fundamentals of modern criminal investigation. Includes procedures and skills in search and investigation, conduct at the crime scene, collection and preservation of evidence, developing sources of information, preparation of cases for court prosecution, and report-writing requirements for administration and court use.  
Offered: Fall, Spring.

AJS 210 Police Community and Human Relations  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the police officer's role in attaining and maintaining public support. Includes recognition and understanding of community problems, community action programs, methods of coping with crisis situations, ethnic and minority cultures, various environments, crime prevention, and police operations in relation to these cultures and environments.  
Offered: Fall, Spring.

AJS 212 Juvenile Justice Procedures  
3 cr. hrs. 3 periods (3 lec.)  
The course will examine the causes, responses and prevailing legal and social practices concerning delinquency in America. Includes issues pertaining to the family, schools, gang membership, drug use and youth victimization. Also includes the juvenile justice system including the history and philosophy of the juvenile court, court decision-making, sentencing practices, diversion, institutionalization, community supervision and how it interfaces with the administration of justice.  
Offered: Fall, Spring.

AJS 225 Criminology  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the nature, extent and control of crime and delinquency. Includes comparison of theoretical and practical approaches to causation, prevention, punishment and treatment, and current problems.  
Offered: Fall, Spring.

AJS 246 Race and Ethnicity Issues in the Administration of Justice  
3 cr. hrs. 3 periods (3 lec.)  
The course examines the impact of cultural diversity on law enforcement to include a discussion of cultural awareness, bias, prejudice, training, recruitment and cross cultural communication. Police challenges in engaging with specific racial/ethnic groups are examined, to include Asian/Pacific Americans, African-Americans, Latino/Hispanic Americans, Arab Americans, Native Americans and others. Homeland security concerns, racial profiling and hate crimes are also addressed.  
Offered: Fall, Spring.

AJS 260 Criminal Justice Management  
3 cr. hrs. 3 periods (3 lec.)  
A practical examination of the challenges of criminal justice management. Includes unique requirements for these agencies and departments, as differentiated from non-governmental organizations; management theories as applied to criminal justice agencies; effective communication, leadership styles, budgets, decision making, and model management practices. Also includes special problems such as managing difficult or unethical employees; use of force issues; sexual and gender harassment; and work force issues including recruitment, retention, diversity, and training.  
Information: Consent of instructor required before enrolling in this course.  
Offered: Fall, Spring.
**AJS 280 Terrorism in the 21st Century**  
3 cr. hrs. 3 periods (3 lec.)  
Exploration into the definition, history, cause, and goals of terrorism. Includes identification of terrorists and their motivations and examination of tactics used by terrorists in pursuit of their goals. Also includes methods used to combat terrorism including intelligence collection, security measures, diplomacy, legal and political responses.  
Offered: Fall, Spring.

## Agriculture

For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

**AGR 100 Introduction to Agribusiness**  
3 cr. hrs. 3 periods (3 lec.)  
Overview of agricultural business industries and careers. Includes history of agribusinesses, business planning and management, and financial and economic principles of agriculture.  
Offered: May not be offered this year, check class schedule.

**AGR 101 Introduction to Agriculture Science**  
3 cr. hrs. 3 periods (3 lec.)  
Overview of topics, careers and practices in agriculture science. Includes food safety, biotechnology, and environmental and natural resources sciences. Also includes ethics, nutrition and disease as they relate to the agricultural sciences.  
Offered: May not be offered this year, check class schedule.

**AGR 102 Introduction to Plants, Soils and Crops**  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Overview of plant systems. Includes taxonomy, anatomy and physiology, and reproduction. Also includes the history of agriculture, and principles of crop and pest management.  
Offered: May not be offered this year, check class schedule.

**AGR 185 Careers in Crop Production**  
1 cr. hrs. 1 periods (1 lec.)  
Exploration of career opportunities in crop production. Includes exposure to a broad array of relevant careers working with field crops, permanent tree crop production, turf science, and a variety of horticultural crops grown throughout the western United States and other regions of the world. Also includes career management; and preparation of a resume, cover letter, and internship proposal.  
Offered: Summer.

**AGR 200IN Introduction to Soil Science**  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Basic principles of soil as a component of terrestrial ecosystems. Includes the composition of soil and its operation within the overall biosphere. Also includes soil as a medium for plant growth in croplands, rangelands, and forest lands. Also includes the role of soils in environmental quality, health, water resources, erosion, recreation, and wildlife.  
**Prerequisite(s): CHM151IN**  
**Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.**  
Offered: Summer.

## American Indian Studies

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**AIS 101 Introduction to American Indian Studies I**  
3 cr. hrs. 3 periods (3 lec.)  
Examination of the diversity of American Indian tribes. Includes origins and traditions, Native American cultures and geographic subsistence, women's roles and responsibilities, spirituality and world views, and values and value systems. Also includes early education, socialization, and importance of extended family, history of tribal sovereignty and governance, health and curing, and encounters and reactions with early Europeans.  
Offered: Fall, Spring.
AIS 122 Tohono O'odham History and Culture
3 cr. hrs. 3 periods (3 lec.)
Survey of Tohono O'odham culture, historical development, and modern issues. Includes development of culture and world view, sources of Tohono O'odham history, role in economic and social development of Northwestern Mexico and Southwestern United States, and contemporary Tohono O'odham issues.
Information: Same as HIS 122.
Offered: Spring.

AIS 124 History and Culture of the Yaqui People
3 cr. hrs. 3 periods (3 lec.)
Survey of the cultural heritage of the Yaqui people and the history of their struggles to protect Yaqui land and customs. Includes Yaqui origins, pre-Columbian Yaqui society, oral traditions and world view, early Spanish contacts, Catholic influences, economic development; rebellions, resistance and leadership; and policies regarding Native Americans. Also includes the deportation and enslavement of the Yaqui from the 17th to the 20th centuries by the Spanish and American governments and the deportation of the Yaqui by the United States in the 1880's. Also examines acts of genocide and subjugation against the Yaqui in revolutionary Mexico, 20th century relocation and adaptation strategies of the Yaqui in the United States and the Yaqui culture of the 21st century.
Information: Same as HIS 124.
Offered: May not be offered this year, check class schedule.

AIS 128 History of the Diné (Navajo)
3 cr. hrs. 3 periods (3 lec.)
Examination of the Diné (Navajo) culture, historical development, and modern issues. Includes introduction, origin and oral traditions, Dinehtah before European contact, Mexican and United States periods, Navajo federal Indian relations, and chapter government and the Navajo tribal council.
Information: Same as HIS 128.
Offered: May not be offered this year, check class schedule.

AIS 148 History of Indians of North America
3 cr. hrs. 3 periods (3 lec.)
History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Native American origins, early economic and social development, Europeans, eras in Native American history, modern leadership, and research studies.
Information: Same as ANT/HIS 148.
Offered: Fall, Spring.

AIS 205 Introduction to Southwestern Prehistory
3 cr. hrs. 3 periods (3 lec.)
Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes anthropology and its subfields, basics of archaeology, the Southwest, Paleoindians, archaic peoples; Hohokam, Mogollon, Anasazi, and other Southwestern cultures; and late prehistoric and historic cultural change.
Information: Same as ANT/ARC 205.
Offered: Fall, Spring.

AIS 206 Contemporary Native Americans of the Southwest
3 cr. hrs. 3 periods (3 lec.)
Survey of Native American cultures with emphasis on peoples of the Southwestern United States and northern Mexico. Includes overview of Native groups in the Southwestern United States and northern Mexico, environmental zones and modes of production, cultural and linguistic diversity, cultural configurations, Pan- Native American issues, and frameworks for understanding Native American culture and experience.
Information: Same as ANT 206.
Offered: May not be offered this year, check class schedule.
Animal Science

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ANS 102 Introduction to Animal Industry
3 cr. hrs. 5 periods (2 lec., 3 lab)
Overview of livestock and poultry industries and practices. Includes production, marketing and distribution. Also includes application of scientific principles to health, behavior, nutrition, reproduction and performance.
Offered: May not be offered this year, check class schedule.

ANS 196 Independent Study in Animal Science
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Introductory study of a particular Animal Science subject or subjects to hone skills while working in an independent format.
Information: Three credit hours of Animal Science and consent of instructor are required before enrolling in this course. Content of study and its manner of execution must be developed through mutual agreement between the student and the instructor prior to enrollment in the course.
Offered: May not be offered this year, check class schedule.

Anthropology

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ANT 101 Human Origins and Prehistory
3 cr. hrs. 3 periods (3 lec.)
Survey of physical anthropology and archaeology. Includes anthropology and its subfields, the development of evolutionary theory, modern human variation, primates, paleoanthropology and archaeology, and the emergence of the human species from its origins.
Information: Same as ARC 101.
Offered: Fall, Spring.

ANT 102 Introduction to Cultural Anthropology and Linguistics
3 cr. hrs. 3 periods (3 lec.)
Survey of human societal structure. Includes sub-fields of anthropology, sub-disciplines and topics, historical origins, influences, key figures, theory and methods. Also includes an introduction to the comparative study of cultures.
Offered: Fall, Spring.

ANT 105 Humanity and the Environment
3 cr. hrs. 3 periods (3 lec.)
Technical, sociocultural, and political information on environmental science and technology for non-environmental majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the greenhouse effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.
Corequisite(s): ANT 105LB
Information: Same as ENV 105.
Offered: Fall, Spring.

ANT 105LB Humanity and the Environment Discovery Laboratory
1 cr. hrs. 3 periods (3 lab)
Laboratory exercise and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy- carrying capacity models, and waste by-product and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in relationships to the environment.
Corequisite(s): ANT 105
Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ANT 105.
Same as ENV 105LB.
Offered: Fall, Spring.
ANT 109 Introduction to Global Studies  
3 cr. hrs. 3 periods (3 lec.)  
Survey of modern globalization. Includes the study of dimensions of globalization, global organizations, global politics, cultural globalization, the global economy, global environmental independence, and global social movements and counter movements. Also includes global interactions and their current effects on the restructuring of cultural, political, and economic institutions worldwide.  
*Information: Same as GLS 109 and SOC 109.*  
Offered: May not be offered this year, check class schedule.

ANT 110 Buried Cities and Lost Tribes  
3 cr. hrs. 3 periods (3 lec.)  
Exploration of the human past. Includes anthropology and its subfields, basics of archaeology, modern humans, origins of domestication, development of social complexity, ranked societies, and states around the world, and archaeology in the modern world.  
*Information: Same as ARC 110.*  
Offered: Fall, Spring.

ANT 112 Exploring Non-Western Cultures  
3 cr. hrs. 3 periods (3 lec.)  
Anthropological survey of non-Western cultures. Includes history and development of cultural anthropology, research methods, and relevant theories of the field. Also includes major cultural characteristics of pre-colonial, non-Western, subsistence cultures; making cross-cultural comparisons and contrasts with the post-colonial era; and considering a global context. Also includes a writing emphasis.  
Offered: Fall, Spring, Summer.

ANT 127 History and Culture of the Mexican-American in the Southwest  
3 cr. hrs. 3 periods (3 lec.)  
Historical survey of Mexicano(a)/Chicano(a) people from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States. Includes historical writings, movements north under Spain and Mexico, repression and resistance. Also covers the political, economic, religious and social movements of the 19th, 20th and early 21st centuries.  
*Information: Same as HIS 127.*  
Offered: Fall, Spring.

ANT 136 Body and Art  
3 cr. hrs. 3 periods (3 lec.)  
A visual cultural exploration of how humans utilize the body as a vehicle for communicating and displaying personal and group identities. Includes anthropological and art historical study of types of permanent and temporary body decorations, masks, and performance and the ethical issues surrounding the study and use of imagery within and between cultures. Also includes the conceptual examination of global examples and an overview of practical projects to demonstrate the continued vitality of each mode of expression.  
*Information: Same as ART 136.*  
Offered: Fall.

ANT 148 History of Indians of North America  
3 cr. hrs. 3 periods (3 lec.)  
History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Native American origins, early economic and social development, Europeans, eras in Native American history, modern leadership, and research studies.  
*Information: Same as AIS/HIS 148.*  
Offered: Fall, Spring.

ANT 180 Artifact Identification: Tucson Basin  
1 cr. hrs. 2 periods (.5 lec., 1.5 lab)  
Introduction to the recognition, identification, and classification of the various types of artifacts recovered from local archaeological sites. Includes an overview of prehistoric ceramics in the Tucson Basin, flaked stone technology, ground stone tool identification, animal bone, marine shell artifacts and historical artifacts.  
*Information: Same as ARC 180.*  
Offered: Spring.
ANT 181 Global Positioning Systems Basics
1 cr. hrs. 1 periods (1 lec.)
Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS vocabulary, operation, field data collection and data transfer. Also includes using equipment, resources and facilities of the Archaeology Centre.
Information: Same as ARC/GIS 181.
Offered: Fall, Spring.

ANT 202 Sexuality, Gender and Culture
3 cr. hrs. 3 periods (3 lec.)
Anthropological examination of gender identity, roles, relations, and variation. Includes theories and methods of the anthropology of sex and gender, historical origins and development of the sub-discipline, and sex, gender and sexuality in cross-cultural, ethnographic perspective. Also includes selected case studies and cross-cultural frameworks for analysis.
Offered: Fall, Spring.

ANT 204IN Human Evolution: Ape Men, Cave Women and Missing Links
4 cr. hrs. 5 periods (3 lec., 2 lab)
Study of human evolution and variation. Includes fossil evidence, environmental and cultural change, primate anatomy and behavior, human genetics, human biology and biocultural interactions. Also includes the use of museum collections, equipment, resources, and facilities of the Archaeology Centre.
Information: Same as ARC 204IN.
Offered: Spring.

ANT 205 Introduction to Southwestern Prehistory
3 cr. hrs. 3 periods (3 lec.)
Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes anthropology and its subfields, basics of archaeology, the Southwest, Paleoindians, archaic peoples; Hohokam, Mogollon, Anasazi, and other Southwestern cultures; and late prehistoric and historic cultural change.
Information: Same as AIS/ARC 205.
Offered: Fall, Spring.

ANT 206 Contemporary Native Americans of the Southwest
3 cr. hrs. 3 periods (3 lec.)
Survey of Native American cultures with emphasis on peoples of the Southwestern United States and Northern Mexico. Includes overview of Native groups in the Southwestern United States and northern Mexico, environmental zones and modes of production, cultural and linguistic diversity, cultural configurations, Pan- Native American issues, and frameworks for understanding Native American culture and experience.
Information: Same as AIS 206.
Offered: Fall.

ANT 208 United States-Mexico Borderlands
3 cr. hrs. 3 periods (3 lec.)
Study of the U.S-Mexico borderlands. Includes a historical overview from the borders origins in the U.S.-Mexico War and the Treaty of Guadalupe Hidalgo and a comprehensive review of the most significant events and issues of the mid-20th Century to the present. Also includes geography, sociodemographics, political economy, migration and transmigrants, media representations, U.S. border policies, enforcement and security/insecurity, violence and peace, gender and sexuality, U.S-Mexico relations, and popular culture.
Information: Same as MAS 208.
Offered: Fall.

ANT 210 Cultural Anthropology
3 cr. hrs. 3 periods (3 lec.)
Exploration of the study of culture. Includes scientific and humanistic legacies of cultural anthropology, effects of paradigms on research focus and findings, survey of models for analysis, ethnographic studies, and evaluation of models and styles in anthropology.
Prerequisite(s): ANT 102.
Offered: Fall, Spring.
ANT 215 The Nature of Language
3 cr. hrs. 3 periods (3 lec.)
Introduction to anthropological linguistics. Includes the history of linguistics, descriptive linguistics, sociolinguistics, language and culture, and language and biology. Also includes language acquisition, language and education, and the history of language and writing.
Offered: Fall.

ANT 225 Principles of Archaeology
3 cr. hrs. 4 periods (2.5 lec., 1.5 lab)
Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology; overview of theory in archaeological method and techniques of archaeological excavation; remote sensing, surveying, and mapping; dating methods; archaeological analysis and classification; interpretation of archaeological data; and the role of archaeology in cultural heritage protection and management. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101 or 110 or 205.
Information: Prerequisite(s) may be waived with consent of instructor.
Same as ARC 225.
Offered: Fall.

ANT 250 Archaeology Laboratory
4 cr. hrs. 6 periods (3 lec., 3 lab)
Laboratory experience in the curating, processing and analysis of artifacts recovered from archaeological sites. Includes human osteology, zooarchaeology, lithic analysis, prehistoric ceramics, shells, historic artifacts, and usage of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101, 180.
Information: Same as ARC 250.
Prerequisite(s) may be waived with consent of instructor.
Same as ARC 250.
Offered: May not be offered this year, check class schedule.

ANT 253 Death and Dying Across Cultures
3 cr. hrs. 3 periods (3 lec.)
Introduction to death and dying in various cultures. Includes developmental aspects of death and grieving, world view, near-death experience, cultural views of the dying process, ethical issues in death across cultures, socio-political implications in the treatment of dead bodies, disposition of the corpse, and grieving and bereavement.
Offered: Fall, Spring.

ANT 261 Biological Anthropology
3 cr. hrs. 5 periods (2 lec., 3 lab)
Interaction of human biology and culture. Includes biological anthropology as natural and social sciences, human genetics, microevolution, macroevolution, human variability, the human phenotype, health, disease, and epidemiology, demography of human populations, and population biology and genetics. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101.
Information: Prerequisite(s) may be waived with consent of instructor.
Same as ARC 261.
Offered: May not be offered this year, check class schedule.

ANT 265 Mapping Concepts
1 cr. hrs. 1 periods (1 lec.)
Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.
Information: Same as ARC/GEO/GIS 265.
Offered: Fall.
ANT 267 Introduction to Geographic Information Systems
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the technology of geographic information systems (GIS). Includes the evolution of the technology, applications, benefits and costs, characteristics of geographic data, data types, database concepts, and operations and functionality. Also includes hardware, software, implementation, legal issues, and the future of geographic information systems.
Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment.
Information: Prerequisite may be waived with consent of instructor.
Basic computer skills are required before enrolling in this course.
Same as ARC/GEO/GIS 267.
Offered: Fall.

ANT 275 Archaeological Excavation I
4 cr. hrs. 8 periods (2 lec., 6 lab)
Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Information: Same as ARC 275.
Offered: Fall.

ANT 276 Archaeological Surveying I
4 cr. hrs. 8 periods (2 lec., 6 lab)
Techniques and methods for recognizing, locating and recording archaeological sites. Includes exploration methods, issues of cultural resource management, instrument skills, map use, and remote sensing applications. Also includes natural resources associated with archaeological sites, application of field techniques, and documentation.
Prerequisite(s): ANT/ARC 180 or concurrent enrollment.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Information: Same as ARC 276.
Offered: Spring.

ANT 277 Archaeological Excavation II
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of ANT/ARC 275. Includes advanced excavation techniques, field crew supervision, and selected field projects. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 275, and GLG 101.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Information: Same as ARC 277.
Offered: Fall.

ANT 278 Archaeological Surveying II
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of ANT/ARC 276. Includes goals and objectives of archaeological exploration, archival investigation, planning field projects, and computer resources.
Prerequisite(s): ANT/ARC 205, 265 (or concurrent enrollment), 276 and GLG 101.
Information: Same as ARC 278. Consult instructor for alternative prerequisite(s).
Offered: May not be offered this year, check class schedule.

ANT 281 Global Positioning Systems
1 cr. hrs. 3 periods (3 lab)
Introduction to the technical use of Global Positioning Systems (GPS) receivers in a field setting. Includes review of GPS vocabulary and concepts, comprehensive initialization of handheld GPS receivers, data collection with handheld GPS, the use of mapping software with data from handheld GPS, concepts of differential GPS, operation of and field data collection with static and RTK precision GPS, use of software packages for differential correction and map production. Also includes using equipment, resources and facilities of the Archaeology Center.
Prerequisite(s): ANT/ARC/GIS 181.
Information: Prerequisite may be waived with equivalent experience or consent of instructor.
Same as ARC/GIS 281.
Offered: Spring.
ANT 284 Computer Cartography and CAD
3 cr. hrs. 5 periods (2 lec., 3 lab)
Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.
Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment and CSA 101.
Information: Same as ARC/GEO/GIS 284.
Offered: May not be offered this year, check class schedule.

ANT 286 Electronic and Digital Field Mapping
4 cr. hrs. 8 periods (2 lec., 6 lab)
Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.
Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.
Recommendation: Consult instructor for alternative prerequisite(s).
Information: Same as ARC/GIS 286.
Offered: May not be offered this year, check class schedule.

ANT 295 Field Projects
.5-4 cr. hrs. 1.5-12 periods (1.5-12 lab)
Participation in a field project in one of the subfields of anthropology.
Information: Same as ARC 295.
Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

ANT 296 Independent Studies in ANT/ARC
.5-4 cr. hrs. 1.5-12 periods (1.5-12 lab)
Students independently continue their studies in anthropology under the supervision of a faculty member.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Same as ARC 296.
Offered: Fall, Spring.

Arabic
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ARB 101 Elementary Modern Standard Arabic I
5 cr. hrs. 5 periods (5 lec.)
Introduction to modern standard Arabic language. Includes modern standard Arabic alphabet, grammatical structures, interpersonal transactions, and cultural contexts. Also includes speaking, listening, reading, and writing of Arabic.
Offered: Spring.

ARB 102 Elementary Modern Standard Arabic II
5 cr. hrs. 5 periods (5 lec.)
Continuation of ARB 101. Includes additional uses of Modern Standard Arabic alphabet, grammatical structures interpersonal transactions and protocols, and cultural contexts. Also includes additional speaking, listening, reading, and writing of Arabic.
Prerequisite(s): ARB 101.
Offered: Spring.

ARB 106 Arabic: Beginning Conversation
4 cr. hrs. 4 periods (4 lec.)
Introduction to conversation Arabic. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and cultural perspectives. Also includes speaking and listening skills with primary emphasis on oral communication.
Offered: May not be offered this year, check class schedule.
Archaeology

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ARC 060 Artifacts and Sites of Tucson
.5 cr. hrs. .5 periods (.5 lec.)
Overview of the artifacts and archaeological sites of the Tucson Basin. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Information: Field trip is part of the course.
Offered: Spring.

ARC 062 Stone Tool Making
.5 cr. hrs. .5 periods (.5 lec.)
Introduction to the production of chipped stone tools. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Offered: Spring.

ARC 093 Archaeology Workshop
.5-3 cr. hrs. .5-3 periods (.5-3 lec.)
Workshop with an emphasis on field and lab techniques. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Offered: Fall, Spring.

ARC 101 Human Origins and Prehistory
3 cr. hrs. 3 periods (3 lec.)
Survey of physical anthropology and archaeology. Includes anthropology and its subfields, the development of evolutionary theory, modern human variation, primates, paleoanthropology and archaeology, and the emergence of the human species from its origins.
Information: Same as ANT 101.
Offered: Spring.

ARC 110 Buried Cities and Lost Tribes
3 cr. hrs. 3 periods (3 lec.)
Exploration of the human past. Includes anthropology and its subfields, basics of archaeology, modern humans, origins of domestication, development of social complexity, ranked societies, and states around the world, and archaeology in the modern world.
Information: Same as ANT 110.
Offered: Spring.

ARC 180 Artifact Identification: Tucson
1 cr. hrs. 2 periods (.5 lec., 1.5 lab)
Artifact Identification: Tucson Basin Introduction to the recognition, identification, and classification of the various types of artifacts recovered from local archaeological sites. Includes an overview of prehistoric ceramics in the Tucson Basin, flaked stone technology, ground stone tool identification, animal bone, marine shell artifacts and historical artifacts.
Information: Same as ANT 180.
Offered: Spring.

ARC 181 Global Positioning Systems Basics
1 cr. hrs. 1 periods (1 lec.)
Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS vocabulary, operation, field data collection and data transfer. Also includes using equipment, resources and facilities of the Archaeology Centre.
Information: Same as ANT/GIS 181.
Offered: Fall, Spring.

ARC 204IN Human Evolution: Ape Men, Cave Women and Missing Links
4 cr. hrs. 5 periods (3 lec., 2 lab)
Study of human evolution and variation. Includes fossil evidence, environmental and cultural change, primate anatomy and behavior, human genetics, human biology and biocultural interactions. Also includes the use of museum collections, equipment, resources, and facilities of the Archaeology Centre.
Information: Same as ANT 204IN.
Offered: Spring.
ARC 205 Introduction to Southwestern Prehistory
3 cr. hrs. 3 periods (3 lec.)
Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes anthropology and its subfields, basics of archaeology, the Southwest, Paleoindians, archaic peoples; Hohokam, Mogollon, Anasazi, and other Southwestern cultures; and late prehistoric and historic cultural change.
Information: Same as AIS/ANT 205.
Offered: Spring.

ARC 225 Principles of Archaeology
3 cr. hrs. 4 periods (2.5 lec., 1.5 lab)
Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology; overview of theory in archaeological method and techniques of archaeological excavation; remote sensing, surveying, and mapping; dating methods; archaeological analysis and classification; interpretation of archaeological data; and the role of archaeology in cultural heritage protection and management. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101 or 110 or 205.
Information: Prerequisite(s) may be waived with consent of instructor.
Same as ANT 225.
Offered: Fall.

ARC 250 Archaeology Laboratory
4 cr. hrs. 6 periods (3 lec., 3 lab)
Laboratory experience in the curating, processing and analysis of artifacts recovered from archaeological sites. Includes human osteology, zooarchaeology, lithic analysis, prehistoric ceramics, shells, historic artifacts, and usage of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101 and 180.
Information: Prerequisites may be waived with consent of instructor.
Same as ANT 250.
Offered: May not be offered this year, check class schedule.

ARC 261 Biological Anthropology
3 cr. hrs. 5 periods (2 lec., 3 lab)
Interaction of human biology and culture. Includes biological anthropology as natural and social sciences; human genetics; microevolution; macroevolution; human variability; the human phenotype; health, disease, and epidemiology; demography of human populations, and population biology and genetics. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.
Prerequisite(s): ANT/ARC 101.
Information: Prerequisite(s) may be waived with consent of instructor.
Same as ANT 261.
Offered: May not be offered this year, check class schedule.

ARC 265 Mapping Concepts
1 cr. hrs. 1 periods (1 lec.)
Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.
Information: Same as ANT/GEO/GIS 265.
Offered: Fall.

ARC 267 Introduction to Geographic Information Systems
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the technology of geographic information systems (GIS). Includes the evolution of the technology, applications, benefits and costs, characteristics of geographic data, data types, database concepts, and operations and functionality. Also includes hardware, software, implementation, legal issues, and the future of geographic information systems.
Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment.
Information: Prerequisite may be waived with consent of instructor.
Basic computer skills are required before enrolling in this course.
Same as ANT/GEO/GIS 267.
Offered: Fall.
ARC 275 Archaeological Excavation I
4 cr. hrs. 8 periods (2 lec., 6 lab)
Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona. Also includes using museum collections, equipment, resources and facilities of the Archaeological Centre.

Information: Same as ANT 275.

Offered: Fall.

ARC 276 Archaeological Surveying I
4 cr. hrs. 8 periods (2 lec., 6 lab)
Techniques and methods for recognizing, locating and recording archaeological sites. Includes exploration methods, issues of cultural resource management, instrument skills, map use, and remote sensing application. Also includes natural resources associated with archaeological sites, application of field techniques, and documentation.

Prerequisite(s): ANT/ARC 180 or concurrent enrollment.

Recommendation: Consult instructor for alternative prerequisites.

Information: Same as ANT 276.

Offered: Spring.

ARC 277 Archaeological Excavation II
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of ARC/ANT 275. Includes advanced excavation techniques, field crew supervision, and selected field projects. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 275 and GLG 101.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ANT 277.

Offered: Fall.

ARC 278 Archaeological Surveying II
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of ARC/ANT 276. Includes goals and objectives of archaeological exploration, archival investigation, planning field projects, and computer resources.

Prerequisite(s): ANT/ARC 205, 265 (or concurrent enrollment), 276 and GLG 101.

Information: Same as ANT 278.

Consult instructor for alternative prerequisite(s).

Offered: Spring.

ARC 281 Global Positioning Systems
1 cr. hrs. 3 periods (3 lab)
Introduction to the technical use of Global Positioning Systems (GPS) receivers in a field setting. Includes review of GPS vocabulary and concepts, comprehensive initialization of handheld GPS receivers, data collection with handheld GPS, the use of mapping software with data from handheld GPS, concepts of differential GPS, operation of and field data collection with static and RTK precision GPS, use of software packages for differential correction and map production. Also includes using equipment, resources and facilities of the Archaeology Center.

Prerequisite(s): ANT/ARC/GIS 181.

Information: Prerequisite(s) may be waived with equivalent experience or consent of instructor.

Same as ANT/GIS 281.

Offered: Spring.

ARC 284 Computer Cartography and CAD
3 cr. hrs. 5 periods (2 lec., 3 lab)
Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.

Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment, and CSA 101.

Information: Same as ANT/GEO/GIS 284.

Offered: Spring.
ARC 286 Electronic and Digital Field Mapping
4 cr. hrs. 8 periods (2 lec., 6 lab)
Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.
Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.
Recommendation: Consult instructor for alternative prerequisite(s).
Information: Same as ANT/GIS 286.
Offered: May not be offered this year, check class schedule.

ARC 295 Field Projects
.5-4 cr. hrs. 1.5-12 periods (1.5-12 lab)
Participation in a field project in one of the subfields of anthropology.
Information: Same as ANT 295.
Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

ARC 296 Independent Studies in ANT/ARC
.5-4 cr. hrs. 1.5-12 periods (1.5-12 lab)
Students independently continue their studies in anthropology under the supervision of a faculty member.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Same as ANT 296.
Offered: May not be offered this year, check class schedule.

Art
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ART 100 Basic Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the elements and principles of visual design. Includes identifying and interpreting creative problems; emphasizing art and design skills; writing reviews of gallery visits/museum visits/artist lectures; articulating and demonstrating progressive skills in their own work; participating in individual and group critiques; and relating their work on a conceptual, interpersonal and global level.
Offered: Fall, Spring, Summer.

ART 105 Exploring Art and Visual Culture
3 cr. hrs. 3 periods (3 lec.)
Exploration of historical and contemporary art and the visual image within the context of culture. Includes selective perception; formal analysis; materials and techniques; art in a historical framework; visual culture; meaning and value in art and visual culture; and high and low culture art. Also includes contemporary issues; traditional and contemporary themes in art; museums, galleries, and public spaces; and process, form, and content in making art.
Offered: Fall, Spring, Summer.

ART 106 Survey of Painting Materials and Techniques
3 cr. hrs. 5 periods (2 lec., 3 lab)
Technical and theoretical investigation of the most prominent painting methods from Ancient Greece to the present. Includes materials used in painting, the fresco and encaustic techniques, the glair technique, the egg tempera technique, the indirect and direct oil techniques, and the watercolor technique.
Offered: Fall.
ART 109 Watercolor Painting
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introductory course in watercolor painting that explores basic materials, techniques, and development of students' personal style. Includes compositional elements, materials and tools, mixing colors and properties of watercolor pigments, application methods, developing subject matter and genres and critique and artistic development.
Offered: Fall, Spring.

ART 110 Drawing I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to drawing. Includes drawing and design problems, varied use of materials and techniques, perceptual skills, critique processes with critical thinking for personal growth, analysis of professional art events or galleries, and portfolio creation.
Information: Prerequisites may be waived with consent of instructor.
Offered: Fall, Spring.

ART 115 Color and Composition
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to recognizing color principles and relationships and analyzing duplicating colors. Includes value scale, color wheel, intensity, color relationships, transparency, dimension, luminosity, and creative projects.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall.

ART 120 Sculptural Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to sculpture and three-dimensional design. Includes concepts and approaches, content development, visual literacy, critical analysis, art elements, exploration of a range of media and techniques, and basic sculptural design lab procedures.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall, Spring.

ART 121 Figure Sculpture
3 cr. hrs. 5 periods (2 lec., 3 lab)
Beginning modeling techniques using clay and other media working partly from anatomical references and partly from the model. Includes visual literacy and critical analysis, range of media, approaches to figurative sculpture, technical understanding in working with human anatomy, content, and safety.
Recommendation: Completion of ART 120 and 213 before enrolling in this course.
Information: There may be additional supply costs in addition to course fees.
Offered: May no be offered this year, check class schedule.

ART 123 Lost Wax Sculpture Casting
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to metal casting of sculpture with emphasis on the ceramic shell method of moldmaking, historical and contemporary issues in cast sculpture, and individual artistic expression. Includes major techniques, health and safety issues, verbalization of visual perceptions, project variations, and content.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall, Spring.
ART 128 Digital Photography I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to digital photography emphasizing the technical and aesthetic issues and how these qualities form image content. Includes Adobe Photoshop basics, history of still photography, applications of digital cameras, aspects of the digital medium, camera and computer equipment requirements, digital still camera, memory and file formats, digital still camera lenses, and proper exposure. Also includes light, color, and temperature; depth of field, shutter speed effects, proper use of digital photography, lighting for digital stills, elements of composition, photographic rendering and reality, outputting and publishing, portfolio preparation, and career options in digital photography.
Recommendation: Completion of DAR 051 and Adobe Photoshop experience before enrolling in this course.
Information: Same as DAR 128.
It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras, are available for check out on a rotating basis. Professional quality computers, software, printers, lighting equipment, and studio will be provided for specific assignments.
There will be additional supply costs beyond course fees.
Offered: Fall, Spring, Summer.

ART 130 Art and Culture: Prehistoric through Gothic
3 cr. hrs. 3 periods (3 lec.)
A survey of the development of art and architecture in Western Civilization from prehistoric through Gothic art with the inclusion of a global perspective. Includes identification and interpretation of cultural and stylistic characteristics, contextual functions and purposes of works of art, influences of cultural values on the production of art, art historical terminology, exemplars of non-Western culture, and critical methodologies.
Offered: Fall, Spring.

ART 131 Art and Culture: Late Gothic through Modern Periods
3 cr. hrs. 3 periods (3 lec.)
Continuation of ART 130. Includes western civilization's major contribution to the development of sculpture, painting, and architecture from the Renaissance into the twentieth century.
Offered: Fall, Spring, Summer.

ART 133 Art in America
3 cr. hrs. 3 periods (3 lec.)
Introductory survey of American art from the colonial period to the present as well as European and global influences. Includes characteristics of American art, cultural conditions surrounding historical periods, influences on art production, surrounding cultural production, unique contributions of diverse cultural groups, and critical methodologies.
Offered: May not be offered this year, check class schedule.

ART 135 Pre-Columbian Art
3 cr. hrs. 3 periods (3 lec.)
Anthropological and art historical survey of the indigenous cultures of the Americas from the earliest times to the period of the Spanish conquest. Includes non-Western art and Western gaze, humanity in the Americas, art and architecture of the Pre-Columbian Andes, art and architecture of Pre-Columbian Mesoamerica, and North American indigenous art and architecture.
Offered: May not be offered this year, check class schedule.

ART 136 Body and Art
3 cr. hrs. 3 periods (3 lec.)
A visual cultural exploration of how humans utilize the body as a vehicle for communicating and displaying personal and group identities. Includes anthropological and art historical study of types of permanent and temporary body decorations, masks, and performance; and the ethical issues surrounding the study and use of imagery within and between cultures. Also includes the conceptual examination of global examples and an overview of practical projects to demonstrate the continued vitality of each mode of expression.
Information: Same as ANT 136.
Offered: Fall, Spring.

ART 140 Photography I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to black and white photography as an art form with an emphasis on fundamental technique of the camera and wet darkroom. Includes manual camera competencies, manual film development, basic darkroom procedures, portfolio building, visual literacy and critical analysis, and the role of photography.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall, Spring.
ART 141 Photography II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Principles and processes of intermediate black and white photography. Includes use of various types of camera formats, development of film, creating a series, individual darkroom space, advanced darkroom techniques, portfolio production, exhibition presentation, copy slide production, and verbalization of visual perceptions.
Prerequisite(s): ART 140.
Information: Student is required to submit a portfolio for review.
Offered: Fall, Spring.

ART 146 Lighting for Photography I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to creative professional lighting concepts and techniques for commercial and fine art photography. Includes lighting and studio equipment, light qualities, lighting for form, lighting for surface qualities, still-life photography, portrait photography, image composition, critical analysis, and portfolio.
Prerequisite(s): ART/DAR 128.
Information: Students are strongly recommended to own or have access to a digital camera with manual exposure control and a computer with image processing software. Professional quality cameras, computers and software, printers, lighting equipment and studio will be provided for specific assignments.
There may be additional supply costs in addition to course fees.
Same as DAR 146.
Offered: Fall, Spring.

ART 147 Alternative Processes in Photography
3 cr. hrs. 5 periods (2 lec., 3 lab)
Designed for the advanced image maker interested in expanding knowledge of alternative photographic processes. Includes enlarging negatives for contact printing, nineteenth century processes, twentieth century processes, darkroom materials, and artwork presentation.
Prerequisite(s): ART 128 or 140.
Offered: Fall, Spring.

ART 160 Ceramics I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to ceramics. Includes beginning handbuilding techniques and methods of fabrication, wheel throwing and trimming, projects involving formal elements, beginning ceramic techniques, reduction firing, raku firing, ceramic artist research, discussion, and exploration topics.
Recommendation: Completion of ART 100 before enrolling in this course or concurrent enrollment.
Offered: Fall, Spring, Summer.

ART 170 Metalwork I: Jewelry
3 cr. hrs. 5 periods (2 lec., 3 lab)
Exploration of the basic techniques and design approaches used in the fabrication of jewelry and other metalwork. Includes information and background on historical and contemporary metalwork and jewelry, and techniques and processes of jewelry and metalwork.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall, Spring.

ART 175 Ferrous Metalwork: Blacksmithing, Tool Making/Knife Making
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the materials, design, techniques, safety habits, and methods used in ferrous metalwork. Includes basic tools, processes, and techniques of blacksmithing; layout and design of projects; metals lab procedures; metallurgical theory; metalworking skills and concepts for tool making; tool design; steps in blade making; knife handle forming; and forging methods.
Recommendation: Completion of ART 100 is recommended before enrolling in this course.
Offered: Fall, Spring.

ART 180 Weaving I: Four-Harness Loom
3 cr. hrs. 5 periods (2 lec., 3 lab)
Weaving on a four-harness loom. Includes projects involving color, texture, patterns, and the use of tabby, twill, tubular, textural, and tapestry weaves in the creation of fiber art and creative and functional objects.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall.
ART 181 Mixed Media Fibers  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to fiber as an art medium. Includes fiber processes such as basketry, crochet, macrame, plaiting, surface design, and mixed media, which are used to create artistic compositions.  
Recommendation: Completion of ART 100 before enrolling in this course.  
Offered: Spring.

ART 210 Drawing II  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Continuation of ART 110. Includes strengthening of drawing and critical thinking skills. Also includes intermediate drawing and design problems; intermediate use of materials and techniques; perceptual skill and personal development; critique process; engagement and analysis of professional art events or galleries; and portfolio creation.  
Prerequisite(s): ART 110.  
Information: Prerequisite(s) may be waived with consent of instructor.  
Offered: Fall, Spring.

ART 212 Printmaking I  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to basic aesthetics and techniques of printmaking. Includes intaglio etching, relief printing, and monotypes.  
Information: Prerequisites may be waived with consent of instructor.  
Offered: Fall, Spring.

ART 213 Life Drawing I  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Drawing of human figures using the two-dimension concept as a graphic vehicle of expression. Includes gesture and contour drawing, varied time length poses, drawing problems, variety of materials, and individual and group critiques of work.  
Prerequisite(s): ART 100  
Recommendation: Completion of ART 110 before enrolling in this course.  
Offered: Fall, Spring.

ART 214 Printmaking II  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Continuation of ART 212. Includes advanced problems in aesthetics and techniques of intaglio etching, relief printing, monotype techniques, and alternative and non-traditional approaches to printmaking.  
Offered: Fall, Spring.

ART 215 Painting I  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to the fundamentals of oil painting. Includes basic painting techniques and processes, manipulation of compositional elements and formal and contemporary pictorial organization in various genres, surface preparation, personal direction and artistic expression, and health and safety in the painting studio.  
Recommendation: Completion of ART 115 before enrolling in this course.  
Information: Prerequisite(s) may be waived with consent of instructor.  
Offered: Fall, Spring.

ART 216 Screenprinting I  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to screenprinting using water base and inks. Includes screen construction, direct stencil techniques, photographic techniques, one-color printing, multicolor printing and registration, overview of the types of printing papers, and final presentation.  
Information: Prerequisite(s) may be waived with consent of instructor.  
Offered: Fall, Spring.
ART 217 Painting II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 215. Includes intermediate development and reinforcement of basic oil painting techniques and processes, development of compositional elements and formal pictorial organization, manipulation of pictorial elements, artistic expression, and health and safety in the painting studio.
Prerequisite(s): ART 215.
Recommendation: Completion of ART 115 before enrolling in this course.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall, Spring.

ART 218 Screenprinting II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 216. Includes equipment orientation, advanced stencil-making techniques, printing, and types of printing papers.
Prerequisite(s): ART 216.
Information: Students may select areas of interest for concentration and refinement of skills.
Offered: Fall, Spring.

ART 219 Printmaking III
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 214. Includes experimentation with intaglio, multi-color possibilities with non-traditional compositions, relief and intaglio multi-processes, monoprint with multiple plates, and critical analysis.
Prerequisite(s): ART 214.
Offered: Spring.

ART 220 Sculpture
3 cr. hrs. 6 periods (3 lec., 3 lab)
Exploration of methods, materials, and content used in sculpture. Includes art elements, art principles, media and technique, sculpture lab procedures, content issues, projects, and visual literacy and critical analysis.
Information: ART 120 or consent of instructor is required before enrolling in this course.
Offered: Fall, Spring.

ART 223 Life Drawing II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced drawing of human figures using the two-dimension concept as a graphic vehicle of expression. Includes proportional sitting strategies, varied time-length poses, drawing problems and materials, figure as expression, and individual and group critiques of work.
Prerequisite(s): ART 213.
Recommendation: Completion of ART 110 and/or 210 before enrolling in this course.
Offered: Spring.

ART 230 History of Photography
3 cr. hrs. 3 periods (3 lec.)
Introduction to the history of photography from 1839 to contemporary schools. Includes development of the technical aspects of photography, styles, movements and its relationship to artistic and cultural heritage.
Offered: May not be offered this year, check class schedule.
ART 232 Digital Photography II  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of ART/DAR 128. Includes intermediate digital cameras with manual functions, intermediate digital darkroom and digital output, quality of light, intermediate image composition, multiple images, intermediate portfolio development, and critical analysis. Also includes the intermediate use of state-of-the-art professional quality computers and image processing software, professional digital cameras, printers, and a lighting studio with professional lighting equipment.  
Prerequisite(s): ART/DAR 128.  
Recommendation: Completion of DAR 221 before enrolling in this course.  
Information: Same as DAR 232.  
The prerequisite may be waived with consent of the instructor.  
It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras, are available for check out on a rotating basis. Professional quality computers, software, printers, lighting equipment, and studio will be provided for specific assignments.  
There will be additional supply costs beyond course fees.  
Offered: Fall, Spring.  

ART 233 Digital Photography III  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of ART/DAR 232. Includes digital capture and image acquisition, advanced digital darkroom and digital output, advanced image composition, advanced multiple images integration, advanced portfolio development, and advanced critical analysis. Also includes the advanced use of state-of-the-art professional quality computers and image processing software, professional digital cameras, scanners, printers and projectors.  
Prerequisite(s): ART/DAR 232 and DAR 221.  
Recommendation: Completion of DAR 222 before enrolling in this course.  
Information: Same as DAR 233.  
The prerequisite may be waived with consent of the instructor.  
It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras are available for check out on a rotating basis. Professional quality computers, software, printers, lighting equipment and studio will be provided for specific assignments.  
There will be additional supply costs beyond course fees.  
Offered: May not be offered this year, check class schedule.  

ART 246 Lighting for Photography II  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of ART/DAR 146. Includes lighting and equipment for studio and location, advanced lighting qualities and techniques, photographing with mixed light sources, lighting for mood and environment, set design and construction, photographing individuals and groups of people, photographing on location, photographing for montage images, advanced image composition, critical analysis, business practices, and portfolios.  
Prerequisite(s): ART/DAR 146.  
Information: Students are strongly recommended to own or have access to a digital camera with manual exposure control and a computer with image processing software. Professional quality cameras, computers and software, printers, lighting equipment and studio will be provided for specific assignments.  
There may be additional supply costs in addition to course fees.  
Same as DAR 246.  
Offered: Fall, Spring.  

ART 248 Individual Projects in Photography  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Individual projects in photography at the advanced level. Includes defining a body of work, applying visual presentation formats, editioning a print, and equipment and technical photographic skills.  
Information: Consent of instructor is required before enrolling in this course.  
May be taken four times for a maximum of twelve credit hours.  
Offered: Fall.
ART 249 Artists’ Books
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the basics of the various styles of bookmaking. Includes historical and contemporary practices, bookbinding techniques, book styles, materials, text and image, unique and multiple edition book runs, and critique of artists’ books.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: May not be offered this year, check class schedule.

ART 250 Gallery and Museum Practices
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to practices and procedures of galleries and museums. Includes management of student gallery spaces on campus. Also includes community involvement with local business.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Fall, Spring.

ART 260 Ceramics II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 160. Includes intermediate handbuilding techniques and methods of fabrication, wheel throwing and trimming, projects involving formal elements, intermediate ceramic techniques, reduction firing, raku firing, plaster press mold, ceramic artist research, and discussion and exploration topics.
Prerequisite(s): ART 160.
Offered: Fall, Spring, Summer.

ART 261 Ceramics III
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 260. Includes intermediate and advanced handbuilding techniques and methods of fabrication, wheel throwing and trimming, projects involving formal elements, intermediate and advanced ceramic techniques, reduction firing, raku firing, plaster press mold, ceramic artist research, and discussion and exploration topics.
Prerequisite(s): ART 260.
Offered: Fall, Spring, Summer

ART 262 Ceramics IV
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 261. Includes advanced handbuilding techniques and methods of fabrication, wheel throwing and trimming, projects involving formal elements, advanced ceramic techniques, reduction firing, raku firing, plaster press mold, ceramic artist research, and discussion and exploration topics.
Prerequisite(s): ART 261.
Offered: Spring.

ART 265 Furnace Glassblowing I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the elements, tools, and basic principles of furnace glassblowing. Includes the glassblowing studio and cold working shop orientation, paperweights and solid glass forms, the blowpipe, cold working glass, a final project, and visual literacy and critical analysis.
Recommendation: Completion of ART 100 before enrolling in this course.
Information: Consent of instructor is required before enrolling in this course.
This course requires a substantial special fee through Sonoran Glass Art Academy. Please contact the Arts, Communications and Humanities Division at the West Campus (206-6974) for further information.
Offered: Fall, Spring.

ART 266 Furnace Glassblowing II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 265. Includes a review of the glassblowing studio and cold working shop orientation, advanced techniques with hollow and solid glass forms, continued development of blowpipe skills, refinement of cold working glass methods, final project, and visual literacy and critical analysis.
Prerequisite(s): ART 265.
Information: Consent of instructor is required before enrolling in this course.
This course requires a substantial special fee through Sonoran Glass Art Academy. Please contact the Arts, Communications and Humanities Division at the West Campus (206-6974) for further information.
Offered: Fall, Spring.
ART 270 Metalwork II: Jewelry
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 170. Includes design approaches to jewelry making, review of various intermediate techniques, functional considerations involved in jewelry design, and safety and health issues.
Prerequisite(s): ART 170.
Offered: Fall, Spring.

ART 271 Metalwork II: Smithing and Casting
3 cr. hrs. 5 periods (2 lec., 3 lab)
Design and production of jewelry and metal objects. Includes design approaches to metalwork, review of various intermediate techniques, functional considerations involved in smithing and casting, and safety and health issues.
Prerequisite(s): ART 170.
Offered: May not be offered this year, check class schedule.

ART 280 Weaving II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of ART 180. Includes study and exercises using four-eight harness pattern weaves and advanced creative projects. Students may select areas of interest for in-depth exploration.
Prerequisite(s): ART 180.
Recommendation: Completion of ART 100 is recommended before enrolling in this course.
Information: May be taken four times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

ART 288 Portfolio Preparation
3 cr. hrs. 5 periods (2 lec., 3 lab)
Overview of the development and marketing of a professional portfolio. Includes definition and evaluation of coherent bodies of work, documentation of work, preparation of portfolio production, production of a portfolio, parts of a portfolio, and marketing.
Recommendation: For advanced students who have completed coursework in their specific areas.
Information: Portfolio concentrations will be determined in a conference between student and instructor.
Same as FDC 288.
Offered: Fall, Spring.

ART 296I1 Independent Study in ART: Art History
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in art history. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

ART 296I2 Independent Study in ART: Ceramics
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in ceramics. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

ART 296I3 Independent Study in ART: Metals
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in metals. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.
ART 296I4 Independent Study in ART: Painting, Drawing, and Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in painting, drawing, and design. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

ART 296I5 Independent Study in ART: Photography
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in photography. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

ART 296I6 Independent Study in ART: Printmaking
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in printmaking. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

ART 296I7 Independent Study in ART: Sculpture
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in sculpture. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

ART 296I8 Independent Study in ART: Fibers
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in fibers. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

ART 296I9 Independent Study in ART: Glass
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced projects in glass. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken four times for a maximum of twelve credit hours.
This course requires a substantial special fee through Sonoran Glass Art Academy. Please contact the Arts, Communications and Humanities Division at the West Campus (206-6974) for further information.
Offered: May not be offered this year, check class schedule.

Art For Personal Development
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

APD 050 Photography
2 cr. hrs. 4 periods (1 lec., 3 lab)
Introduction to film and digital photography for the hobbyist/enthusiast. Includes history of still photography, introduction to the camera: digital or film, principles of exposure, manipulating light, and darkroom orientation.
Information: Students will supply their own camera and necessary materials. There are no additional course fees.
Offered: May not be offered this year, check class schedule.
APD 062 Acrylic and Oil Painting
2 cr. hrs. 4 periods (1 lec., 3 lab)
Introduction to oil and acrylic painting. Includes painting preparation, composing and building paintings, and developing a personal vision.
Offered: May not be offered this year, check class schedule.

APD 065 Watercolor
2 cr. hrs. 4 periods (1 lec., 3 lab)
Introduction to watercolor painting for personal use. Includes watercolor materials, properties of watercolor pigments, and watercolor application methods.
Offered: May not be offered this year, check class schedule.

APD 069 Abstract Painting
2 cr. hrs. 4 periods (1 lec., 3 lab)
Introduction to abstract painting. Includes painting preparation, composing and building paintings, and developing a personal vision. A series of painting projects will lead students through the process of loosening the hold on realism and discovering new ways to evoke feeling through art.
Offered: Spring.

Astronomy
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

AST 101 Solar System
3 cr. hrs. 3 periods (3 lec.)
Introduction to the science of the nature and origin of the solar system: the sun and its family of planets, along with comets and asteroids. Includes the history of astronomy and special topics regarding the space program. Also includes scientific thinking as an application of critical and quantitative thinking, and science in contrast to pseudoscience.
Corequisite(s): AST 101LB
Offered: Fall, Spring.

AST 101IN Solar System
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the science of the nature and origin of the solar system: the sun and its family of planets, along with comets and asteroids. Includes the history of astronomy and special topics regarding the space program. Also includes scientific thinking as an application of critical and quantitative thinking, and science in contrast to pseudoscience. Also includes in-class measuremental and mathematical exercises, outside observation projects, independent studies, and self-initiated trips to local astronomy facilities.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

AST 101LB Solar System Laboratory
1 cr. hrs. 3 periods (3 lab)
Laboratory for AST 101. Includes in-class measuremental and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities. Emphasizes hands-on group and individual experiences, and mathematical reasoning to enrich understanding of AST101 lecture material.
Corequisite(s): AST 101
Offered: Fall.

AST 102 Stars, Galaxies, Universe
3 cr. hrs. 3 periods (3 lec.)
Introduction to the universe beyond the solar system. Includes the nature of light, how astronomers and telescopes work, and the possibilities of alien life in the universe. Also includes the lifetime of stars, exotic objects such as quasars, pulsars and black holes; and the origin, nature, and future of the universe. Also includes scientific thinking as an application of critical and quantitative thinking, and science in contrast to pseudoscience.
Corequisite(s): AST 102LB
Offered: Fall.
AST 102IN Stars, Galaxies, Universe
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the universe beyond the solar system. Includes the nature of light, how astronomers and telescopes work, and the possibilities of alien life in the universe. Also includes the lifetime of stars, exotic objects such as quasars, pulsars and black holes; and the origin, nature, and future of the universe. Also includes scientific thinking as an application of critical and quantitative thinking and science in contrast to pseudoscience. Also includes in-class measuremental and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: IN

AST 102LB Stars, Galaxies, Universe Laboratory
1 cr. hrs. 3 periods (3 lab)
Laboratory for AST 102. Includes in-class measuremental and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities. Emphasizes hands-on group and individual experiences and mathematical reasoning to enrich understanding of AST 102 lecture material.
Corequisite(s): AST 102
Offered: In.

AST 105IN Life in the Universe
4 cr. hrs. 6 periods (3 lec., 3 lab)
The science of astronomy focusing on the formation of the universe, the solar system, and life. Includes Earth's location in space and time, nature of life, light and the spectrum, origin of the universe, galaxies and stars, origin of the solar system, planetary atmospheres, origin of life on Earth, life on other solar system planets, and life around other stars. Also includes observations, experiments, image analysis, scientific and photogeology laboratory exercise, group telescopic observation projects, and personal observation projects.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: IN

AST 296LB Independent Study in Astronomy
1-4 cr. hrs. 3-12 periods (3-12 lab)
Experience in astronomical research, projects, or topical studies. Specific content to be determined by student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

Automotive Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

AUT 100 Small Engine Troublesht&Repair
3 cr. hrs. 5 periods (1 lec., 4 lab)
Small Engine Troubleshooting and Repair Principles and procedures for overhauling, troubleshooting and repairing small engines. Includes safety and hazardous materials handling, engine types and identification, engine operation and maintenance, disassembly and inspection, engine reconditioning and assembly, fuel and ignition system assembly, mechanical operation and testing, multicylinder engines, and overhead valve (OHV) engines.
Offered: Fall, Spring, Summer.

AUT 101 Automotive Maintenance
3 cr. hrs. 7 periods (1 lec., 6 lab)
Automotive Maintenance Techniques of routine vehicle maintenance. Includes customer vehicle identification and handling, new vehicle pre-delivery inspection and preparation, safety inspection, lubrication tasks, light line tasks, and fluid flushing.
Offered: Fall, Spring, Summer.

AUT 105 Light Line Maintenance
3 cr. hrs. 5 periods (1 lec., 4 lab)
Principles and procedures for light line service. Includes safety, transmission and driveline systems, air conditioning/heating systems, electrical systems, suspension/steering systems, engine performance, and tools and equipment.
Offered: Fall, Spring, Summer.
AUT 120 Engine Diagnosis and Repair
3 cr. hrs. 7 periods (1 lec., 6 lab)
Techniques for light line engine service. Includes personal and environmental safety, general engine diagnosis, lubrication system diagnosis and repair, cooling system diagnosis and repair, cylinder head diagnosis and repair, and engine block diagnosis and repair.
Offered: Fall, Spring, Summer.

AUT 122 Engine Remove and Install
3 cr. hrs. 7 periods (1 lec., 6 lab)
Techniques for heavy-line engine exchange. Includes personal and environmental safety, front wheel drive engine removal and installation, and rear wheel drive engine removal and installation.
Offered: Fall, Spring.

AUT 124 Automotive Diesel Engine Tune-Up
3 cr. hrs. 7 periods (1 lec., 6 lab)
Diagnosis, repair, and maintenance of mechanical and electronic diesel engine systems. Includes personal and environmental safety, general engine controls, computerized engine controls, electronic diesel injection, air and fuel induction systems, emissions control systems and electronic communication systems.
Offered: Fall, Spring, Summer.

AUT 126 Engine Performance and Driveability Troubleshooting
3 cr. hrs. 7 periods (1 lec., 6 lab)
Diagnosis and repair of On-board Diagnostics Generation One (OBDI) and Two (OBDII) systems. Includes personal and environmental safety, general engine, computerized engine controls, ignition system, fuel, air induction, and exhaust systems, emissions control systems, and engine related service.
Offered: Fall, Spring, Summer.

AUT 128 Automotive Electrical Fundamentals and Applications
3 cr. hrs. 7 periods (1 lec., 6 lab)
Principles and procedures of electrical diagnosis and repair. Includes electrical fundamentals and test equipment, electrical system, battery, starting system, charging system, lighting systems, instrumentation, horn and wiper/ washer, integrated circuits, and computerized control systems.
Offered: Fall, Spring, Summer.

AUT 129 Automotive Electrical Accessories
3 cr. hrs. 7 periods (1 lec., 6 lab)
Electrical circuit diagnosis, repair, and replacement. Includes electrical fundamentals and test equipment, accessory diagnosis and repair, tilt steering column repair, and electrical connectors and terminal replacement.
Offered: Fall, Spring, Summer.

AUT 132 Automotive Drivetrain Removal and Replacement
3 cr. hrs. 7 periods (1 lec., 6 lab)
Principles and procedures for automotive driveline component exchange. Includes personal and environmental safety, general drivetrain diagnosis, and diagnosis and repair of the clutch, automatic and manual transmissions and transaxle, drive axle and differential, and four-wheel drive components.
Offered: Fall, Spring.

AUT 133 Automatic Transmission/Transaxle Service and Rebuilding
3 cr. hrs. 7 periods (1 lec., 6 lab)
Principles and procedures for front- and rear-wheel drive automatic transmission overhaul. Includes personal and environmental safety, automatic transmission diagnosis and service, and transmission in-vehicle and off-vehicle repair.
Offered: Fall, Spring.

AUT 136 Automotive Manual Transmission and Driveline Service
3 cr. hrs. 7 periods (1 lec., 6 lab)
Principles and procedures for automotive driveline component overhaul. Includes personal and environmental safety, general drivetrain diagnosis, and diagnosis and repair of manual transmission and transaxle, drive shaft and half-shaft, universal and constant-velocity (CV) joint, drive axle and differential, limited slip differential, and four-wheel drive.
Offered: Fall, Spring, Summer.
AUT 138 Automotive Suspension Systems  
3 cr. hrs. 7 periods (1 lec., 6 lab)  
Principles and procedures for automotive suspension system service. Includes safety, adjustment and repair of front and rear suspension systems, and related suspension component service.  
Offered: Fall, Spring, Summer.

AUT 139 Automotive Steering and Alignment Systems  
3 cr. hrs. 7 periods (1 lec., 6 lab)  
Principles and procedures for automotive steering and alignment systems service. Includes safety, manual and power steering systems, wheel alignment diagnosis, adjustment, and repair. Also includes wheel and tire diagnosis and repair.  
Offered: Fall, Spring, Summer.

AUT 140 Automotive Brakes Diagnosis and Repair  
3 cr. hrs. 7 periods (1 lec., 6 lab)  
Diagnosis and repair of automotive hydraulic brake systems. Includes personal and environmental safety, hydraulic system diagnosis and repair, drum and disc brake diagnosis and repair, power assist units diagnosis and repair, wheel bearings, park brake, and brake electrical diagnosis and repair, and anti-lock brake systems (ABS) components and operation.  
Offered: Fall, Spring, Summer.

AUT 142 Automotive Heating, Ventilation, and Air Conditioning  
3 cr. hrs. 7 periods (1 lec., 6 lab)  
Diagnosis and repair of automotive heating, ventilation, and air conditioning (HVAC) systems. Includes personal and environmental safety, HVAC systems components, air conditioning (AC) diagnosis and repair, refrigeration system component diagnosis and repair, heating and engine cooling systems diagnosis and repair, operating systems and controls diagnosis and repair, and refrigerant recovery, recycling, and handling.  
Offered: Fall, Spring, Summer.

AUT 185 Automotive Shop Skills Application  
.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)  
Light line diagnosis and repair of daily use vehicles. Includes preparing repair orders, complaint procedures, researching service data, vehicle service and repair tasks, and shop maintenance. Also includes the industry standard of complaint, cause, and correction.  
Information: Completion of an AUT prefix course in the same specialty area and approval of automotive department chair or instructor is required before enrolling in this course.  
Offered: Fall, Spring.

Aviation Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

AVM 101 Structural Repair I  
4 cr. hrs. 8 periods (2 lec., 6 lab)  
Structural repair of fuselage, wings and empennage groups. Includes safety, hand and machine cutting, and measuring tools. Also includes layout methods and structural repair processes.  
Recommendation: Completion of mathematics assessment above MAT 082 before enrolling in this course.  
Information: Consent of instructor is required before enrolling in this course.  
Offered: **.

AVM 102 Structural Repair II  
4 cr. hrs. 8 periods (2 lec., 6 lab)  
Continuation of AVM 101. Includes safety, bend allowance, layout, fasteners, machine usage, patching techniques and structural repair techniques.  
Prerequisite(s): AVM 101.  
Offered: **

** Contact department, 206-5910, for course offerings.
AVM 105 Aircraft Sheetmetal Repair
5 cr. hrs. 8 periods (2 lec., 6 lab)
Principles and procedures for fuselage, wing, and empennage sheetmetal repair. Includes safety, hand tools, layout methods, materials, fasteners, repair techniques, parts fabrication, and corrosion prevention and control.
Offered: **

AVM 109 English for Aviation Technology
3 cr. hrs. 3 periods (3 lab)
Aviation Technology related English for native and non-native speakers of English with high-intermediate language skills. Includes language skills needed for participation in Aviation Technology coursework, class activities, licensing exams, and workplace situations. Develops active use of field-related terms and concepts through contextualized practice. Also includes successful job-search skills, communication with supervisors and co-workers, employee rights and responsibilities, problem-solving strategies, and understanding the culture of the American Aviation Technology workplace.
Prerequisite(s): Placement into REA 091 or higher.
Recommendation: Concurrent enrollment in ESL 088 or REA 091.
Offered: **

AVM 110 Aircraft Blueprint Reading
3 cr. hrs. 3 periods (3 lec.)
Theory and application of aircraft blueprint reading. Includes types of aircraft drawings, measuring tools, drawing and layout equipment, types of views, projections, reference lines, drawing format, title block, manufacturing codes, symbology for fasteners, hardware, and materials. Also includes production of aircraft drawing, sketches, usage of aircraft schematics, graphs, charts, detail, assembly and exploded diagrams.
Offered: **

AVM 114 Regulatory Requirements
3 cr. hrs. 3 periods (3 lec.)
Federal Aviation Administration (FAA) regulatory requirements. Includes certification of aircraft and components, FAA regulations for aircraft maintenance, FAA publications, manufacturing standards, inspection requirements, maintenance, mechanic certification, maintenance publications and forms, and aircraft logs.
Offered: **

AVM 130 Aircraft Composite Repair
5 cr. hrs. 8 periods (2 lec., 6 lab)
Construction and repair processes using advanced composite materials. Includes reinforcing fibers, matrix and core materials, manufacturing of components, composite safety, curing wet layup and prepreg repairs, tools and equipment, and inspection and damage assessment.
Information: Consent of instructor is required before enrolling in this course.
Offered: **

AVM 150 Structural Repair III
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of AVM 102. Includes repair publications, materials handling, cable fabrication, machining processes, protective coatings, hand forming and structural repair processes.
Prerequisite(s): AVM 102.
Offered: **

AVM 151 Structural Repair IV
4 cr. hrs. 8 periods (2 lec., 6 lab)
Continuation of AVM 150. Includes tube and hose fabrication, locking fasteners, damage classifications and structural repair processes.
Prerequisite(s): AVM 150.
Offered: **

AVM 165 Aircraft Hardware and Fasteners
3 cr. hrs. 3 periods (3 lec.)
Aircraft structural repair hardware and fasteners. Includes specifications and standards, types, control linkages, tubing, hose and packings.
Offered: **

** Contact department, 206-5910, for course offerings.
AVM 202 Aviation Safety  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Introduction to aviation safety procedures. Includes personal safety issues, human factors, accident avoidance, facility fire protection, hazardous materials safety and handling procedures, ramp procedures for movement, and securing and servicing of aircraft and ramp support equipment. Also includes forklift and scissors lift training.  
Offered: **

AVM 203 Structural Repair V  
4 cr. hrs. 8 periods (2 lec., 6 lab)  
Continuation AVM 151. Includes jigging, shoring and alignment, corrosion and heat treatment and structural repair processes.  
Prerequisite(s): AVM 151.  
Offered: **

AVM 204 Structural Repair VI  
4 cr. hrs. 8 periods (2 lec., 6 lab)  
Continuation of AVM 203. Includes sealants and sealant applications, heat treatment, plastics and plastic repairs and structural repair processes.  
Prerequisite(s): AVM 203.  
Offered: **

AVM 205 Motion Dynamics  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Principles of hydraulic power. Includes basic physics, basic mechanics, heat and fluid dynamics, fabrication and installation of fluid lines and fittings, laws of motion, basic aerodynamics, and aircraft nomenclature.  
Offered: **

AVM 206 Materials and Processes  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Introduction to non-metallic and metallic structural materials for comparison of their structural properties. Includes structural materials, metal processing, heat treatment, heat treatment of alloys or limited use metals, non-destructive testing/inspection, corrosion, corrosion types and factors, corrosion-prone areas, corrosion control: steel, aluminum, and limited use metals, processes and materials for corrosion control, aircraft cleaning, and aircraft cleaning agents.  
Offered: **

AVM 207 Weight and Balance  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Preparing aircraft for weight and balance. Includes referencing service and maintenance manuals, type certificate data sheets, terms, standard weight and balance practices, weighing an aircraft, principles of calculating center of gravity, correction of out of balance conditions, addition and subtraction of equipment, equipment list, flight manual updates, control surface balancing, identification and selection of standards hardware, installation and assembly of specialty hardware, and precision measuring equipment.  
Prerequisite(s): GTM 105.  
Offered: **

AVM 208 Basic Electricity  
5 cr. hrs. 8 periods (2 lec., 6 lab)  
Introduction to basic aircraft electricity. Includes study of the structure of matter, electron theory, current/ electron flow, direct current, alternating current, Ohm’s Law, Kirchhoff’s laws, circuit elements, electrical calculation and measurements, interpreting schematics and other wiring diagrams, battery theory and maintenance, aircraft electrical systems, and introduction to communication and navigation radio systems.  
Prerequisite(s): GTM 105.  
Offered: **

** Contact department, 206-5910, for course offerings.
AVM 209 Intermediate Electricity
5 cr. hrs. 8 periods (2 lec., 6 lab)
A continuation of aircraft electricity at the intermediate level. Includes the study of aircraft airframe electrical components, as well as airframe and powerplant electrical systems. Also includes electric motors, generators and generator controls, alternators, inverters and related controls, power distribution systems, design and maintenance of aircraft electrical systems, digital electronics, analog electronics, communication and navigation systems, communications, weather warning systems, and electric instruments and autoflight systems.
Prerequisite:  AVM 208.
Information: Students will be allowed to waive AVM209 if they complete ATT102, ATT103, and ATT200 with a grade of C or better.
Offered: **

AVM 210 Advanced Composite Aircraft Repair I
4 cr. hrs. 4 periods (4 lec.)
Theory and application of composite materials utilized in aircraft construction. Includes material types, handling and storage, manufacturing techniques, design criteria, safety, tool and equipment usage, damage and repair assessment, repair techniques, fastening systems, and documentation. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core structures.
Corequisite(s): AVM 210LB
Offered: **

AVM 210LB Advanced Composite Aircraft Repair I Lab
1 cr. hrs. 3 periods (3 lab)
Laboratory for AVM 210. Includes theory and application of composite materials utilized in aircraft construction. Also includes material types, handling and storage, manufacturing techniques, design criteria, safety, tool and equipment usage, damage and repair assessment, repair techniques, fastening systems, and documentation. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core structures.
Corequisite(s): AVM 210
Offered: **

AVM 211 Alternate Structures
5 cr. hrs. 8 periods (2 lec., 6 lab)
Aircraft structural fabrication using wood, tube steel and fabric processes and techniques. Includes structural types, wood and welded tube steel fabrication methods, welding of typical metals used in aircraft construction, fabric covering processes, inspection and maintenance typical repair procedures, and aircraft finishings.
Offered: **

AVM 218 Airframe Rigging and Landing Gear Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Identification, assembly, alignment, balancing and rigging of aircraft rigging and landing gear systems. Includes aircraft nomenclature, characteristics of flight, flight control system, airframe assembly, rigging, structural alignments, control surface balancing, landing gear, shock struts, landing gear retraction, wheel alignment and steering, brake system servicing, brake assemblies, wheels, tires, warning systems, and anti-skid system.
Offered: **

AVM 219 Airframe Inspections
3 cr. hrs. 5 periods (1 lec., 4 lab)
Conformity Inspections of airframes. Includes inspections of incoming spare parts and stock items, airframe and equipment conformity inspections, airframe and systems airworthiness and conformity inspections, conformity inspections of installed equipment, annual and 100-hour inspections of small aircraft, including research of all pertinent inspection documents, service or maintenance manuals, type certificate data sheets, airworthiness directives, service bulletins and additional instructions for continued airworthiness, inspection procedures for large aircraft work orders, non-routine job cards used by local aviation maintenance companies.
Prerequisite(s): AVM 114.
Offered: **

AVM 223 Hydraulic and Pneumatic Power
3 cr. hrs. 5 periods (1 lec., 4 lab)
Hydraulic and pneumatic system components. Includes system operating principles, fluids, pressures, hydraulic powered flight controls, landing gear, braking and accessory power systems, pneumatically powered or assisted accessories, and system and component inspection servicing and repairs.
Offered: **

** Contact department, 206-5910, for course offerings.
AVM 224 Atmospheric Controls
3 cr. hrs. 5 periods (1 lec., 4 lab)
Atmospheric controls and its elements that are of concern to flight. Includes ice and rain detection and control systems, types of operations and maintenance, physiological requirements for flight crews and passengers and the human support systems, oxygen systems, cabin pressurization system and their operations, and safety and maintenance requirements.
Offered: **

AVM 225 Fire, Ice, Rain, and Fuel Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Theory and application of fire, ice, rain and fuel systems. Includes fire detection terms, extinguishing and protection systems, smoke detection, fire warning, fire extinguishing system components used, how systems function, inspection testing and maintenance, ice and rain protection terms, formation and conditions for icing of aircraft, ice and rain detection, protection systems components, functions, inspection and maintenance, fuel system terms, safety system requirements, fuel tank types and construction, indicating, fueling, and defueling inspection and maintenance.
Offered: **

AVM 226 Engine Electrical
5 cr. hrs. 8 periods (2 lec., 6 lab)
Inspection, repair, and modification of engine electrical systems. Includes magneto(s) (components, tooling, wiring, and drives), ignition switches, ignition harness, ignition booster system, spark plugs, engine ignition analyzers, turbine engine (ignition transformers and igniter plugs), engine electrical controls (switches, fuses and circuit breaker, circuits, wiring, installation, and engine bulkhead), and technical data manuals and catalogs.
Prerequisite(s): AVM 208.
Offered: **

AVM 227 Engine Air Flow Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Fundamentals of engine air flow systems. Includes reciprocating engine induction systems, alternate induction air systems, induction systems maintenance, superchargers, turbochargers, turbo compound systems, reciprocating engine exhaust systems, exhaust subsystems, exhaust system maintenance, reciprocating engine cooling, turbine engine induction systems, turbine engine cooling, turbine engine exhaust systems, turbine engine exhaust systems maintenance, and turbine engine airflow subsystems.
Offered: **

AVM 228 Aircraft Propellers
3 cr. hrs. 5 periods (1 lec., 4 lab)
Basics of aircraft propellers. Includes propeller nomenclature, types, construction, theory, installations, and maintenance, constant speed systems, feathering systems, reversing systems, icing systems, synchronizing systems, and unducted fans.
Prerequisite(s): AVM 231.
Offered: **

AVM 229 Engine Support Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Theory and application of support systems for gas turbine engines. Includes fire protection, fire detection systems, fire extinguishing agents, fire protection systems, fire detection system maintenance, turbine engine pneumatic systems, pneumatic starting systems, thrust reversers, auxiliary power units, turbine engine removal, turbine engine installation, and engine storage and transport.
Prerequisite(s): AVM 226, 231, and 234.
Offered: **

AVM 231 Engine Principles, Monitoring and Inspection
5 cr. hrs. 8 periods (2 lec., 6 lab)
Principles, monitoring, and inspection of engines. Includes theory and construction of powerplants, requirements, types of engines, reciprocating engine design and construction, radial engine design and construction, reciprocating engine operating principles, engine power and efficiencies, turbine engine construction, turbine engine sub-assemblies, turbo prop engines, turbine engine operation principles, engine instrumentation, instrument principles of operation, maintenance of instruments and systems, and engine inspection requirements.
Offered: **

** Contact department, 206-5910, for course offerings.
AVM 232 Reciprocating Engine Overhaul  
5 cr. hrs. 8 periods (2 lec., 6 lab)  
Basic aircraft reciprocating engine overhaul. Includes engine components, wrist pins, connection rods, crankshafts, case, camshafts, lifters, valves, push rods and tubes, rocker assemblies, accessories, lubrication, overhaul options, overhaul credentials, overhaul procedures, reassembly after overhaul, engine installations, engine break-in, and test cell procedures.  
Offered: **

AVM 233 Turbine Engines  
5 cr. hrs. 8 periods (2 lec., 6 lab)  
Basic gas turbine engine and turbo propeller component makeup and repair. Includes inspection, servicing, and repairs performed on engine components: compressor, diffuser, combustion, accessory drive, and lubricating system. Also includes a reassembly overhaul.  
Offered: **

AVM 234 Engine Fuel Metering and Operation  
5 cr. hrs. 8 periods (2 lec., 6 lab)  
Fundamentals of aircraft fuel systems. Includes fuel metering theory and requirements, aviation fuels, float type carburetion, float carburetor maintenance and installation; pressure carburetor maintenance and installation; fuel injection systems, Bendix fuel injection and maintenance, TCM fuel injection and maintenance, fuel metering system components and maintenance, turbine engine fuel systems maintenance, components, and jet fuel controls; and reciprocating, turbine, and turbo propeller engine operations.  
Prerequisite(s): AVM 226, 228, and 231.  
Offered: **

AVM 260 Advanced Composite Aircraft Repair II  
1 cr. hrs. 1 period (1 lec.)  
Theory and application of composite and bonded metal structures utilized in aircraft construction. Includes repair methods selection, source documents, repair methods and design criteria, bonded metal repairs, tank and non-tank processing, priming, and environmental considerations. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core, and bonded metal structures.  
Prerequisite(s): AVM 210/210LB.  
Corequisite(s): AVM 260LB  
Offered: **

AVM 260IN Advanced Composite Aircraft Repair II  
4 cr. hrs. 10 periods (1 lec., 9 lab)  
Theory and application of composite and bonded metal structures utilized in aircraft construction. Includes repair methods selection, source documents, repair methods and design criteria, bonded metal repairs, tank and non-tank processing, priming, and environmental considerations. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core, and bonded metal structures.  
Prerequisite(s): AVM 210/210LB.  
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.  
Offered: **

AVM 260LB Advanced Composite Aircraft Repair II Lab  
3 cr. hrs. 9 periods (9 lab)  
This is the Lab portion of AVM 260.  
Prerequisite(s): AVM 210/210LB.  
Corequisite(s): AVM 260  
Offered: **

** Contact department, 206-5910, for course offerings.
Avionics Technician Training

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ATT 101 Avionics Familiarization
3 cr. hrs. 3 periods (3 lec.)
Overview of the evolution of modern avionics. Includes the role and responsibilities of the avionics technician; the classification and requirements of airports, airspace, and atmospheric environments; and types of avionics equipment used today. Also includes instrument layouts, crew cabin layouts, and advisory circulars and regulations pertaining to operation and management.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

ATT 102 Aircraft Electrical Systems
3 cr. hrs. 3 periods (3 lec.)
Overview of aircraft electrical systems, including AC and DC power generation and distribution for small general aviation (GA), corporate, and commercial airline transport aircraft. Includes electrical schematics, manuals, and diagrams. Also includes aircraft system power requirements for avionics; fuel and flight management; cabin atmospheric control; landing gear and flight controls; load; warning systems; cabin lighting; and entertainment systems.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Students will be allowed to waive AVM209 if they complete ATT102, ATT103, and ATT200 with a grade of C or better.
Offered: **

ATT 103 Basics of Avionics Installation
3 cr. hrs. 4 periods (2 lec., 2 lab)
Concepts, techniques, and skills used to install electronic and avionics equipment. Includes avionics support structure installation and fabrication; instrument mounting; terminal installation; cutting, sizing, marking, bundling, and anchoring techniques and practices; handling precautions for sensitive devices; and selecting proper equipment and tools. Also includes a review of electrical equipment bays, wiring diagrams, installation drawings, circuit protection devices, lighting processes, and regulatory requirements.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Students will be allowed to waive AVM209 if they complete ATT102, ATT103, and ATT200 with a grade of C or better.
Offered: **

ATT 104 Operating Systems I, Communication and Navigation
3 cr. hrs. 4 periods (2 lec., 2 lab)
Topical discussion on typical communication and navigation systems, schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features. Includes standard wiring practices of single and multiple flight instrumentation sources, location reporting equipment, as well as essential standard avionic basic flight devices.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: **

ATT 105 NCATT-AET Exam Preparation
3 cr. hrs. 3 periods (3 lec.)
Preparation for the National Center for Aircraft Technician Training-Aircraft Electronics Technician (NCATT-AET) examination. Includes general electrical theories and principals. Also includes safety, terminology, standard operating systems, standard practices, electrical theories, and common hand tooling selection.

Offered: **

** Contact department, 206-5910, for course offerings.
ATT 200 Communication and Navigation Installation
5 cr. hrs. 7 periods (3 lec., 4 lab)
Installation of typical communication and navigation systems. Includes schematics; special tooling and equipment; switching; circuit protection; and instrument panel modification and installation features. Also includes standard wiring and installation practices for single and multiple flight instrumentation sources, location reporting equipment, and essential standard avionic flight devices.
Prerequisites: ATT 103 and 104.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Students will be allowed to waive AVM209 if they complete ATT102, ATT103, and ATT200 with a grade of C or better.
Offered: **

ATT 201 Operating Systems II, GPS Navigation and Auto Pilot
3 cr. hrs. 3 periods (3 lec.)
Principles of operation and usage by flight crews demonstrated with flight simulators. Includes installation planning for electrical system requirements, typical mounting, methods, connectors and antenna installation. Also includes pre- and post-installation verification of system integration, functional testing; troubleshooting on Global Positioning Systems (GPS) and Auto Pilot System
Prerequisite(s): ATT 104 and 200.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

ATT 202 GPS Navigation and Auto Pilot Installation
5 cr. hrs. 7 periods (3 lec., 4 lab)
Principles of operation and usage by flight crews (flight simulator). Includes installation planning for electrical system requirements, typical mounting, wiring methods, connectors and antenna installation. Includes pre- and post-installation verification of system integration, functional testing, troubleshooting on Global Positioning Systems (GPS) and Auto Pilot Systems. Also includes an introduction to the installation of engine indicating instruments and their relationship to the instrument console.
Prerequisite(s): ATT 104 and 201.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

ATT 203 Avionics Test Equipment
3 cr. hrs. 4 periods (2 lec., 2 lab)
Overview of the evolution of the modern avionics systems, test equipment, operation of and training for test equipment. Includes functional testing of pitot static, transponder and altitude reporting units, Very High Frequency Omni-directional Range (VOR), Global Positioning System (GPS), and compass navigation devices installed in aircraft or functioning mockups. Also includes special tooling and test apparatuses, the handling of aircraft, safety to personnel and equipment undergoing testing.
Prerequisite(s): ATT 104 and 200.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

ATT 204 Glass Cockpit Installer
5 cr. hrs. 7 periods (3 lec., 4 lab)
Installation of glass cockpit systems. Includes panel installation, functional checks, troubleshooting, installation and handling practices for Multifunction Display Units (MFD), Primary Flight Displays (PFD), and Engine Indicating and Crew Alerting Systems (EICAS). Also includes glass cockpit upgrade training, to include the removal of older “steam” gauges and various other indication instruments and replace them with modern glass cockpit indicating systems.
Prerequisite(s): ATT 103 and 200.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

** Contact department, 206-5910, for course offerings.
ATT 205 Operating Systems III, Infrared and Weather Radar
3 cr. hrs. 3 periods (3 lec.)
Principles of operation and usage by flight crews (demonstrated through a flight simulator). Includes installation planning, electrical system requirements, typical mounting, wiring methods, connectors and antenna installation. Includes system integration, functional testing of Enhanced Vision Systems (EVS), Weather (Wx) Radar, and radio altimeter systems. Also includes the coverage of the operation, installation, troubleshooting and safety training of EVS systems.
Prerequisite(s): ATT 101 and 102.
Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **

ATT 206 Infrared and Weather Radar Installation
5 cr. hrs. 7 periods (3 lec., 4 lab) 
Installation of typical Weather Radar, Radio Altimeter Systems and Enhanced Vision Systems. Includes schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features for modification for installation. Includes standard wiring and installation practices of stand alone and integrated avionic devices and multifunctional display equipment. Also includes a mandatory requirement that all installed equipment be functional tested after installation of equipment.
Prerequisite(s): ATT 103 and 205.
Information: Includes an emphasis on one-on-one system operation, testing, and troubleshooting techniques, from technicians that are trained on the aircraft systems.
Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.
Offered: **
** Contact department, 206-5910, for course offerings.

Behavioral Health Services
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

BHS 132 Communication Skills in Behavioral Health Services
3 cr. hrs. 3 periods (3 lec.)
Development of communication skills important in establishing and maintaining effective helping relationships. Includes an emphasis on building rapport, improving effective listening skills, establishing trust, and delivering and receiving appropriate feedback. Also includes an overview of the helping process and the professional and physical environments in which counseling occurs.
Offered: Fall, Spring, Summer

BHS 154 Behavioral Health Lab and Safety Protocol
3 cr. hrs. 4 periods (2.5 lec., 1.5 lab) 
Introduction to the basic clinical procedures and safety precautions performed by a behavioral health specialist on site in a behavioral health setting. Includes facility, environmental, and patient safety; clinical and observational procedures such as taking vital signs and blood glucose monitoring (point of care testing); and observation and documentation of patients’ behavior and physical condition. Also includes personal patient comfort and care, as well as basic medical terminology used in a behavioral healthcare clinical setting.
Prerequisite(s): SSE 128.
Offered: Fall, Spring, Summer.

BHS 172 Clinical Behaviors
3 cr. hrs. 3 periods (3 lec.)
Clinical Behaviors Overview of primary clinical behaviors encountered by behavioral health professionals, including substance use, violence and abuse, and grief and bereavement. Includes the spectrum of substance use issues, such as classification of drugs, theories of addiction, cultural perspectives, and treatment interventions. Also includes historical and contemporary causes of domestic violence, community resources, treatment centers and support groups, cultural awareness, and special populations at risk. Also includes techniques, strategies and treatment modalities for working with the bereaved and those affected by traumatic loss.
Offered: Fall, Spring, Summer.
**BHS 189LC Behavioral Health Clinical - Basic**
1 cr. hrs. 2 periods (.75 lec., 1.25 lab)
Provides students with hands on experience at a behavioral health organization. Includes an orientation to working in the behavioral health field; observation of professionals working directly with individuals receiving behavioral health care; professionalism in the behavioral health field; and application of the principles of care giving through hands on experience. Also includes direction in case management; patient relations; case documentation; and safety, clinical, and regulatory protocol.
Prerequisite(s): SSE 128.
Offered: Spring, Summer.

**BHS 250 Case Documentation**
2 cr. hrs. 2 periods (2 lec.)
Observation and documentation techniques necessary to maintain clinical records in a variety of community behavioral health settings. Includes appropriate terminology, technical forms, and the application of legal issues in case reports. Also includes an introduction to the types of clinical cases that behavioral health professionals encounter during the continuum of care, such as substance use and mental health issues.
Prerequisite(s): CSA 100, SSE 128, BHS 132 and 154.
Offered: Fall, Spring, Summer.

### Biology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**BIO 056IN Introductory Biology for Pima Nursing**
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to biology for nursing students. Includes specific strategies for biology success, scientific method, scientific measurement, light microscopy, categories of biomolecules, cell membranes and organelles, cellular metabolism, cellular reproduction, basic genetics, and human tissues.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
This course is designed for students who need to improve strategies to increase their success in college science courses and for students who require extensive development in the vocabulary and basic principles of science and biology.
This course is only for students pursuing a Pima Nursing degree (please check with nursing advisor).
Offered: Fall.

**BIO 100HC Biology Concepts: Honors**
4 cr. hrs. 6 periods (3 lec., 3 lab)
Basic principles and concepts of biology. Includes methods of scientific inquiry, cell structure, chemistry, metabolism, reproduction, genetics, molecular biology, evolution, ecology, and current issues in biology. Also includes additional Honors content.
Information: IN designates an integrated lecture/lab combination.
Must qualify for Honors program and obtain instructor or advisor/counselor approval to register for this course.
Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; a publishable quality, peer reviewed paper or project in a format appropriate for the discipline; presentation of research, in class or to a wider audience.
Offered: May not be offered this year, check class schedule.

**BIO 100IN Biology Concepts**
4 cr. hrs. 6 periods (3 lec., 3 lab)
Basic principles and concepts of biology. Includes methods of scientific inquiry, cell structure and chemistry, metabolism, reproduction, genetics, molecular biology evolution, and ecology and current issues in biology.
Information: IN designates an integrated lecture/lab combination.
Offered: Spring, Summer.
BIO 104IN Animal Sexual Behavior
4 cr. hrs. 6 periods (3 lec., 3 lab)
Exploration of animal mating patterns via behavioral research. Includes animal behavior, evolutionary concepts, genetics of behavior, maximizing reproduction, and student research projects.
*Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

BIO 105HC Environmental Biology: Honors
4 cr. hrs. 6 periods (3 lec., 3 lab)
Fundamentals of ecology and their relevance to human impact on natural ecosystems. Includes ecosystem structure and function, population dynamics, and human impacts on air, water, land, and biodiversity. Also includes additional Honors content.
*Information: IN designates an integrated lecture/lab combination.
Must qualify for Honors program and obtain instructor or advisor/counselor approval to register for this course.
Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; a publishable quality, peer reviewed paper or project in a format appropriate for the discipline: presentation of research, in class or to a wider audience.
Offered: Fall.

BIO 105IN Environmental Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Fundamentals of ecology and their relevance to human impact on natural ecosystems. Includes ecosystem structure and function, population dynamics, and human impacts on air, water, land, and biodiversity.
*Information: IN designates an integrated lecture/lab combination.
Offered: Fall, Spring, Summer.

BIO 108IN Plants, People and Society
4 cr. hrs. 6 periods (3 lec., 3 lab)
Past, present and future roles of plants in our lives. Includes basic principles of botany, modern, historical and regional perspectives on human use of plants, and present and future practices in plant cultivation.
*Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

BIO 109IN Natural History of the Southwest
4 cr. hrs. 6 periods (3 lec., 3 lab)
Study of the common plants and animals of the Southwest. Includes their identification, adaptation, behavior and ecology. Also includes physical geography and geological principles of the region.
*Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

BIO 110 Techniques and Mathematics for the Laboratory
2 cr. hrs. 2 periods (2 lec.)
Introduction to the use of proper techniques and mathematical calculations in a laboratory setting. Includes safety, laboratory mathematics, and ancillary equipment and instruments.
Prerequisite(s): MAT 092 (or required score on assessment test), and CHM 080 or 130 (or placement into CHM 151).
*Information: Prerequisite(s) may be waived with consent of instructor.
Same as MLT 110.
Offered: May not be offered this year, check class schedule.

BIO 115IN Wildlife of North America
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the mammals, birds, fish, reptiles, amphibians, and selected invertebrates of North America. Includes habitats, wildlife interrelationships, population dynamics, and discussion of national, state, and private wildlife agencies. Also includes a laboratory emphasis on native Arizona species.
*Information: IN is the integrated version of the course with lecture and lab taught simultaneously.
Offered: Fall, Spring.
BIO 121IN Current Issues in Human Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Fundamental principles of human biology emphasizing the evolutionary processes that create human morphological and behavioral diversity. Includes an in-depth study of biological differences existing within and between human populations, focusing on genetic mechanisms and adaptive strategies. Topics of instructor and student interest will be examined through the lens of human evolutionary biology.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

BIO 127IN Human Nutrition and Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis, including genetic and epigenetic effects. Also covers analysis of scientific studies relating to nutrition.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Same as FSN 127IN.
Offered: Fall, Spring, Summer.

BIO 135IN Genetics, Biotechnology and Human Affairs
4 cr. hrs. 6 periods (3 lec., 3 lab)
An introduction to human genetics and biotechnology including career exploration, history and applications of recombinant DNA technology, the human genome project, and laboratory safe practices. Includes introduction to biotechnology, fundamentals of cell biology and genetics, applications of biotechnology, bioethics, careers in biotechnology, and laboratory techniques.
Recommendation: Completion of high school chemistry and high school biology before enrolling in this course.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.

BIO 156IN Intro Biology Allied Health
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introductory Biology for Allied Health Introduction to biology for the health professions. Includes principles of science, scientific measurement and laboratory techniques, chemistry of life, cell anatomy and physiology, cellular reproduction, patterns of inheritances and human tissues.
Recommendation: Completion of CHM 130 before enrolling in this course.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

BIO 157 Basic Histology for Anatomy and Physiology
1 cr. hrs. 1 periods (1 lec.)
Structure and function of tissues found in the human body. Includes epithelial, connective, muscle, and nerve tissues.
Recommendation: Prior completion of or concurrent enrollment in BIO 181IN is recommended.
Information: Completion of this course and BIO 181IN with grades of C or better will enable a student to enroll in BIO 201IN.
Offered: Fall, Spring, Summer.

BIO 160IN Introduction to Human Anatomy and Physiology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Structure and dynamics of the human body. Includes foundations such as chemical, cellular and tissue levels of organization. Also includes major structures and functions of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.
BIO 181IN General Biology I: (Majors)
4 cr. hrs. 6 periods (3 lec., 3 lab)
Principles of structure and function of living things at the molecular and cellular levels of organization. Includes introduction to the scientific process, scientific measurements and laboratory techniques, chemistry of cells, organization of cells, metabolism, cell communication, patterns of cell division, patterns of inheritance, nucleic acids, gene expression, and biotechnology.
Prerequisite(s): With a grade of C or better: CHM 151, REA 112 (or assessment above this level) and WRT 100 or 106 (or assessment into WRT 101).
Recommendation: BIO 100IN or BIO 156IN is recommended for students who did not complete one year of general high school biology with a grade of B or better.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

BIO 182IN General Biology II: (Majors)
4 cr. hrs. 6 periods (3 lec., 3 lab)
Principles of living things at the levels of organism, population, community, and ecosystem. Includes evolution of life, classification of organisms, survival strategies, interactions between organisms and with their environment, ecosystem structure, and human impacts upon the biosphere.
Recommendation: Completion of BIO 181IN before enrolling in this course.
Information: IN designates an integrated lecture/lab combination.
Offered: Fall, Spring, Summer.

BIO 183IN Marine Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Survey of marine environments and their biotic communities. Includes scientific measurements and laboratory techniques, principles of marine science, life in the marine environment, structure and function of marine ecosystems, and humans and the sea. Also includes an emphasis on the natural history of marine organisms.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

BIO 184IN Plant Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Study of principles and processes in plant biology with emphasis on vascular plants. Includes plant structure, plant physiology and development, genetics, and evolution, and ecology.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

BIO 201IH Human Anatomy, Physiology and Histology
5 cr. hrs. 7 periods (4 lec., 3 lab)
Structure and function of the body. Includes introduction to the scientific process, scientific measurements, laboratory techniques such as microscope use, levels of organization, chemistry as applied to physiology, cell biology, gene regulation, homeostasis, anatomical terms, integumentary system, skeletal system and articulations, muscular and nervous systems, and special senses, as well as histology of these systems.
Prerequisite(s): REA 091 with a C or better or placement into REA 112 or higher or consent of instructor.
Information: The IH suffix designates an integrated version of the course with the lecture and lab taught simultaneously.
This course combines elements from BIO 156IN and meets the prerequisite for BIO 202IN.
Offered: May not be offered this year, check class schedule.

BIO 201IN Human Anatomy and Physiology I
4 cr. hrs. 6 periods (3 lec., 3 lab)
Structure and function of the body. Includes levels of organization, homeostasis and disease, anatomical terms, integumentary system, skeletal system and articulations, muscular and nervous systems, autonomic nervous system, and special senses.
Prerequisite(s): BIO 156IN or 056IN with a C or better; or BIO 157 and BIO 181IN each with a grade of C or better; or completion of a 200 level (or higher) Human Anatomy and Physiology course with a grade of C or better; or a passing grade on the Biology Assessment Exam.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.
BIO 202IN Human Anatomy and Physiology II  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Continuation of BIO 201IN/IH. Includes the structure and function of the endocrine cardiovascular, lymphatic/immune, 
respiratory, digestive, urinary, and reproductive systems.  
Prerequisite(s): BIO 201IN or 201IH with a C or better.  
Information: IN designates an integrated lecture/lab combination.  
Offered: Fall, Spring, Summer.

BIO 203 Anatomy and Physiology Review for Health Related Professions  
1.25 cr. hrs. 1.25 periods (1.25 lec.)  
Review of human body systems which includes clinical application of human anatomy and physiology. Includes the 
integumentary, skeletal, muscular, nervous, endocrine, circulatory, immune, respiratory, digestive, urinary/renal, and 
reproductive systems.  
Prerequisite(s): BIO 201IN and 202IN with a C or better.  
Recommendation: For students who are preparing to take board exams in the health related professions, or those who wish to 
review anatomy and physiology.  
Information: May be taken 3 times for a maximum of 3.75 credit hours.  
Offered: Fall, Spring.

BIO 205IN Microbiology  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Overview of the microbial world (bacteria, protozoa, fungi, and viruses). Includes microbial cell structure and function; 
diversity of microorganisms; growth; metabolism; microbial genetics; the identification of microorganisms; and the role of 
microorganisms in disease and immunity. Also includes principles of microbial control; antibiotic resistance; epidemiology; 
and pathogenesis, as well as laboratory exercises to provide firsthand experience with the organisms and processes 
discussed in lecture.  
Prerequisite(s): BIO 156IN or 181IN or 201IH or required score on the Biology assessment test.  
Recommendation: Completion of CHM 130 or equivalent.  
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.  
Offered: Fall, Spring, Summer.

BIO 206 Biotechnology Instrumentation I  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Principles and methodologies of recombinant DNA technology. Includes preparation of solutions and growth media in a 
laboratory setting, and genetic analyses.  
Offered: Fall.

BIO 207 Biotechnology Instrumentation II  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Principles and methodologies of protein expression, isolation, identification and purification. Includes immunological and 
cell culture techniques.  
Information: Consent of instructor required before enrolling in this course.  
Offered: Spring.

BIO 218 Human Pathophysiology  
4 cr. hrs. 4 periods (4 lec.)  
Pathophysiologic processes in humans and the development of clinical reasoning skills that distinguish between normal 
physiology and the physiology of disease or injury. Includes the etiology, clinical presentation, and appropriate treatment of 
selected disease processes. Also includes the pathophysiology of the hematological, cardiovascular, pulmonary, renal, 
endocrine, gastrointestinal, pancreatic, neurologic, musculoskeletal and reproductive systems.  
Prerequisite(s): BIO 201IN, 202IN, and 205IN with a grade of C or better.  
Information: This course is a prerequisite for the concurrent Associate Degree/Baccalaureate Degree Nursing program through 
Pima Community College and Northern Arizona University.  
Offered: Fall, Spring.

BIO 250 Biomedical Ethics  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to the nature and scope of decision making in public health, medicine and health care, as it relates to bioethical 
issues. Includes overview of dilemmas in bioethics, legal, social and ethical issues in human genetics, the beginning of life, 
and the end of life. Also includes life and death decisions, human organ transplantation, and regulations of human research.  
Offered: Fall, Spring.
BIO 295LB Independent Research in Biology
1-4 cr. hrs. 3-12 periods (3-12 lab)
Experience in scientific laboratory or field research. Specific content to be determined by student and instructor.
Information: One semester of biology and consent of instructor are required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: Spring, Summer.

BIO 296 Special Projects in Biology
1-4 cr. hrs. 3-12 periods (3-12 lab)
Exploration of special interest areas. Content to be determined by student and facilitator/instructor.
Information: One year of biology is required before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: Fall, Spring.

BIO 299 Co-op: Biotechnology
1 cr. hrs. 1 periods (1 lec.)
Principles of job success. Includes biotechnology workplace skills; communication; time and energy management; stress and its management; careers; placing yourself on the job market; principles, techniques, and practices in the career field; and problems in the work situation.
Prerequisite(s): BIO 206 and 207 with a grade of B or better.
Corequisite(s): BIO 299WK
Recommendation: Completion of CHM 236 before enrolling in this course.
Information: Consent of instructor is required before enrolling in this course.
May be taken two times for a maximum of two credit hours.
Offered: Fall, Spring, Summer.

BIO 299WK Co-op Work: Biotechnology
3 cr. hrs. 15 periods (15 lab)
A supervised cooperative work program for students in the biotechnology industry or academic research. Includes teacher-coordinators working with students and their supervisors in industry or research. Also includes developing competency and improved self-confidence in the biotechnology workplace.
Prerequisite(s): BIO 206 and 207 with a grade of B or better.
Corequisite(s): BIO 299
Recommendation: Completion of CHM 236 before enrolling in this course.
Information: Consent of instructor is required before enrolling in this course.
This may be paid or unpaid experience.
May be taken two times for a maximum of six credit hours.
Offered: Fall, Spring, Summer.

Building and Construction Technologies
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

BCT 100 Professionalism in Service for BCT
1 cr. hrs. 1 periods (1 lec.)
Procedures in business and customer service. Includes an introduction to professionalism, self-evaluation, service routine, addressing dissatisfied customers, and problem situations.
Offered: Spring, Summer.

BCT 101 Principles of Construction
3 cr. hrs. 3 periods (3 lec.)
Introduction to the principles of construction. Includes the building delivery process, government constraints, green building and sustainable design, calculating loads and resistance factors, and composition, closing process, codes, and Green Building Certification and Award.
Offered: Spring.
BCT 102 Building Materials
3 cr. hrs. 3 periods (3 lec.)
Construction standards and specific types of building materials used in commercial, industrial, residential and private construction projects. Includes beginning construction standards, site work, concrete, masonry, metals, wood and wood products, thermal and moisture protection, doors and windows, finishes, specialties, equipment, furnishings, special construction, conveying systems, mechanical systems, and electrical systems.
Offered: Fall, Spring.

BCT 104 Introduction to Equipment Maintenance
4 cr. hrs. 6 periods (2 lec., 4 lab)
Procedures and concepts for maintaining buildings in a commercial/industrial setting. Includes preventative maintenance requirements, maintenance terminology, industrial tool use, electrical equipment maintenance, electrical feed, bearing applications, sheaves applications, flexible drives and V-belts, centrifugal pump maintenance, vacuum pump maintenance, fire suppressant system maintenance and repair, metal fabrication, steel pipe plumbing, as-built print reading, lubricants, and interior wall frame/ construction.
Prerequisite(s): BCT 132.
Offered: Fall, Spring, Summer.

BCT 106 Soldering and Brazing for BCT
4 cr. hrs. 6 periods (2 lec., 4 lab)
Principles and technologies of joining different types of alloys by braze welding and soldering. Includes safety and health, procedures and design, pre-cleaning and surface preparation, filler metals, fluxes and atmospheres, torch brazing, pipe and tube, copper, and cast iron.
Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.
Offered: Fall, Spring, Summer.

BCT 111 Basic Safety for the Building Trades
1 cr. hrs. 1 periods (1 lec.)
Introduction to federal safety training standards. Includes employer responsibility-employee right to know, personal protective equipment, material handling, hand and power tools, electrical hazards, hazards communication standards, fire safety, scaffolds, fall protection, cranes, and stairways and ladders.
Information: Successful completion of this course qualifies the student for the 10 hour safety training card.
Offered: Fall, Spring, Summer.

BCT 112 Construction Mathematics, Communication and Employability
1 cr. hrs. 1 periods (1 lec.)
Introduction to basic mathematics concepts and employability in the construction industry. Includes whole numbers, measurements, fractions, decimals, conversion process, metric system, construction geometry, reading, writing, listening, and speaking skills, employability in the construction business, critical thinking and computer skills, relationship skills, and workplace issues.
Information: Mathematics assessment test is required before enrolling in this course.
Offered: Fall, Spring, Summer.

BCT 113 Hand and Power Tools
1 cr. hrs. 1 periods (1 lec.)
Selection and safety procedures. Includes trades terms, hand tool, and power tool use to specific jobs in the construction industry.
Offered: Fall, Spring, Summer.

BCT 114 Blueprint Reading
1 cr. hrs. 1 periods (1 lec.)
Basic concepts of blueprints. Including terms and symbols, components, measuring tools, line types and symbols, abbreviations, grid lines, plan locations, and dimensions, production techniques, and blueprint reading parts and locations.
Offered: Fall, Spring, Summer.

BCT 115 Basic Rigging
1 cr. hrs. 1 periods (1 lec.)
Rigging hardware and equipment. Includes safety, rigging equipment, inspection, crane hand signals, estimating an object, common rope knots, types of derrick and cranes, rigging and moving equipment use, and handling hazardous material.
Offered: Fall, Spring, Summer.
BCT 120 Blueprint Reading for Construction
3 cr. hrs. 3 periods (3 lec.)
Residential and light commercial blueprint reading. Includes blueprint symbols and terminology, construction materials, applications and specifications for commercial buildings, light frame and brick veneer construction, and appropriate mathematics.
Recommendation: Completion of BCT 112 and 114 before enrolling in this course.
Offered: Fall, Spring, Summer.

BCT 123 Concrete/Masonry
3 cr. hrs. 5 periods (1 lec., 4 lab)
Basic concepts and materials for concrete construction, finishing, and masonry work. Includes trade terminology, composition and characteristics of concrete, uses of concrete as a building material, effects of craftsmanship on finished concrete, concrete construction process, site operations and work set-up, history of masonry, and modern masonry materials and methods.
Offered: Spring.

BCT 130 EPA Clean Air Act: Section 608
1 cr. hrs. 1 periods (1 lec.)
Freon certification preparation. Includes basics of refrigerant bearing equipment, ozone depletion and the new legislation, technician categories covered on the certification examination, and certification testing.
Offered: Fall, Spring, Summer.

BCT 132 Residential and Industrial HVAC I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to materials and procedures for heating, ventilating, and air conditioning (HVAC). Includes trade mathematics, copper and plastic piping practices, soldering and brazing, ferrous metal piping practices, basic electricity, introduction to cooling and heating, and air distribution systems.
Prerequisite(s): BCT 111, 112, 113, 114 and 115.
Offered: Fall, Spring, Summer.

BCT 133 Residential and Industrial HVAC II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to commercial airside systems. Includes chimneys, vents, flues, hydronic systems, air quality equipment, leak detection, evacuation, recovery, charging, alternating current, and basic electronics.
Prerequisite(s): BCT 132.
Offered: Fall, Spring, Summer.

BCT 134 Residential and Industrial HVAC III
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to the principles of heat transfer, humidity, filtering, and energy saving devices used in HVAC systems. Includes accessories and optional equipment, metering devices, compressors, heat pumps, leak detection, evacuation, recovery, and charging.
Prerequisite(s): BCT 133.
Offered: Fall, Spring, Summer.

BCT 135 National Electrical Code Residential Wiring Applications
4 cr. hrs. 6 periods (2 lec., 4 lab)
Electrical wiring and installation conforming to National Electrical Code requirements. Includes grounded systems, requirements for over-current protection of conductors, ampacity criteria, installing over-current protection of conductors, installing services, installing motors and transformers, remote control and signaling circuits, and installing structured wiring in homes and offices.
Prerequisite(s): BCT 172.
Offered: Fall, Spring, Summer.

BCT 145 Carpentry I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Theories and concepts for carpentry. Includes orientation to the trade, wood building materials, fasteners and adhesive, hand and power tools, floor systems, wall, ceiling, and roof framing, and windows and exterior doors.
Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.
Offered: Fall, Spring, Summer.
BCT 146 Woodworking I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Concepts and procedures for working with hardwoods. Includes introduction to hardwoods, measuring hardwoods, use of hardwoods, pressure treated wood, hardwood preparation, ripping wood, miter cuts, cross cuts, job site safety, gluing and clamping, veneers, curves and circles, dados and rabbets, and smoothing wood.
Offered: Fall, Spring.

BCT 147 Woodworking II
3 cr. hrs. 5 periods (2 lec., 3 lab)
A continuation of BCT 146. Advanced topics in woodworking. Includes safety practices; designing and planning; measuring and cutting; planning, chiseling, and sanding; butt, biscuit and dowel joints; rabbet joints; dado joints; lap joints; miter joints; mortise-and-tenon joint; veneers; using fasteners, dovetail joints and case casework; and applying stains and clear finishes.
Prerequisite(s): BCT 146
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall, Spring.

BCT 148 Cabinetmaking I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Concepts and procedures for fine woodworking practices. Includes introduction to cabinetmaking, cabinetry styles, human factors, working drawings, lumber and millwork, manufactured panel products, veneers and plastic overlays, hardware, health and safety, measuring and laying out materials, stationary power machines, hand and portable power tools, surfacing and shaping, and building a basic cabinet.
Prerequisite(s): BCT 147.
Offered: Spring.

BCT 149 Cabinetmaking II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of BCT 148. Includes turning, joint making, abrasives and sanding machines, gluing and clamping, bending and laminating wood, overlaying and inlaying veneer, installing plastic laminates, advanced case construction, doors, drawers, applying finishing materials, kitchen cabinets, industrial production cabinetmaking, and employment in cabinetmaking.
Prerequisite(s): BCT 148.
Information: Prerequisite may be waived with appropriate carpentry/cabinetmaking skills. See an instructor or department chair for information.
Offered: May not be offered this year, check class schedule.

BCT 150 Plumbing Basics
4 cr. hrs. 6 periods (2 lec., 4 lab)
Theories and concepts for plumbing and pipe fitting. Includes physics for plumbers, plumbing materials, water supplies, drainage, sewage disposal, pipe joint connections, pipe fittings, rough-in, valves and faucets, and fixtures.
Prerequisite(s): BCT 111.
Offered: Spring, Summer.

BCT 153 Finishing Techniques in Cabinet and Furniture Making
3 cr. hrs. 5 periods (2 lec., 3 lab)
Wood finishing techniques for cabinet and furniture making. Includes safe and effective use of a variety of wood finishes and finishing equipment, reasons for finishing wood, tools for applying finishes, oil finishes, wood stains, pore fillers, introduction to film finishes, shellac, lacquer, varnish, water-based finishes, conversion finishes, choosing a finish, “finishing” the finish, caring for wood finishes, repairing finishes, finishing different woods, and strippers.
Recommendation: Woodworking and cabinetmaking experience helpful. See a BCT faculty member for assistance.
Offered: May not be offered this year, check class schedule.

BCT 159 Furniture Design and Construction
3 cr. hrs. 5 periods (2 lec., 3 lab)
Wood furniture-making techniques for hobbyists and professionals. Includes basic material; tools and equipment safety and use; basic techniques and joint construction; advanced areas of furniture construction; metal fittings/fasteners and their application; advanced techniques in furniture making; drafting and workshop geometry; furniture designs and construction details; and restoration, repairs, and wood finishing.
Prerequisite(s): BCT 147.
Offered: May not be offered this year, check class schedule.
BCT 160 Roof Mounting for Solar Installations
4 cr. hrs. 4 periods (4 lec.)
Techniques and skills for Photovoltaic (PV) installers to size, design, and install solar panels. Includes an introduction to different types of mounting systems. Also includes site location of panels, orientation to house, shading at the site, weather, roof materials, soil and load bearing capacity.
Offered: May not be offered this year, check class schedule.

BCT 172 Electrical I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Concepts and procedures for building and construction electrical training. Includes safety, conduit bending, electrical theory, test equipment, National Electric Code, aceways, boxes, and fittings, print reading, and wiring applications.
Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.
Offered: Fall, Spring, Summer.

BCT 173 Electrical II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 172. Includes alternating current, motor installation, grounding of structures and equipment, conduit bending, electrical boxes and fittings, and conductor installations.
Prerequisite(s): BCT 172.
Offered: Fall, Spring, Summer.

BCT 174 Electrical III
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 173. Includes conductor installation, cable tray, conductor termination and splices, electric service installation, circuit breakers and fuses, contactors and relays, and electrical lighting.
Prerequisite(s): BCT 173.
Offered: Fall, Spring, Summer.

BCT 181 Residential and Industrial Plumbing I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to common types of piping, their proper fitting, fixtures, and distribution systems. Includes introduction to the plumbing trade and drawings, plastic, copper, cast-iron, and carbon steel piping, fixtures and faucets, introduction to drainage, waste, and vent (DWV) systems, and water distribution systems.
Prerequisite(s): BCT 111, 112, 113, 114, and 115.
Offered: Fall, Spring, Summer.

BCT 182 Residential and Industrial Plumbing II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Concepts and practices for plumbing. Includes offsets around obstructions, reading commercial drawings, installing and testing drainage, waste, and vent (DWV) piping system, installing roof, floor and area drains, and servicing various types of valves.
Prerequisite(s): BCT 181.
Offered: Fall, Spring, Summer.

BCT 183 Residential and Industrial Plumbing III
4 cr. hrs. 6 periods (2 lec., 4 lab)
Concepts and installation procedures for water service, fixtures, and appliances. Includes installing and testing water supply piping, fixtures, valves, and faucets; electrical applications; water heaters; fuel gas systems; and servicing of fixtures, valves, and faucets.
Prerequisite(s): BCT 182.
Offered: Fall, Spring, Summer.

BCT 184 National Electrical Code I
3 cr. hrs. 3 periods (3 lec.)
Requirements for the installation of electrical conductors, equipment, raceways, cables, and special occupancies. Includes introduction to the National Electrical Code, wiring and protection, wiring methods and materials, and equipment for general use.
Prerequisite(s): BCT 172.
Information: BCT 184 and 284 together provide preparation for the National Electrical Code certification exam.
Offered: Fall, Spring, Summer.
BCT 190 Fieldwork for Construction
1-8 cr. hrs. 5-40 periods (5-40 lab)
Supervised fieldwork experience on a specific construction project at the project site.
Recommendation: Completion of BCT 111, 112, 113, 114, and 115 before enrolling in this course.
Information: May be taken two times for a maximum of sixteen credit hours.
BCT course work or field experience will be necessary for success in this course. See a BCT instructor or department chair for more information.
Offered: Spring, Summer.

BCT 202 Construction Business Management
3 cr. hrs. 3 periods (3 lec.)
Overview of construction business and project management. Includes planning and organizing, risk management, project management, estimating, scheduling, environmental and safety laws, employer obligations, financial management, contract law, and Arizona state requirements for contractors.
Offered: Fall, Spring, Summer.

BCT 204 Construction Surveying
3 cr. hrs. 5 periods (2 lec., 3 lab)
Principles and techniques of construction surveying. Includes taping, leveling, transit, contour and topographic mapping, and construction surveying.
Prerequisite(s): GTM 105 or MAT 086 or required score on the Mathematics assessment test.
Recommendation: Completion of BCT 120 before enrolling in this course.
Offered: Fall.

BCT 231 Residential and Industrial HVAC IV
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 134. Includes refrigerants and oil, compressors, metering devices, retail refrigeration systems, commercial hydronic systems, and steam systems.
Prerequisite(s): BCT 134.
Offered: Fall, Spring, Summer.

BCT 232 Residential and Industrial HVAC V
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 231. Includes planned maintenance, water treatment, troubleshooting electronic controls, troubleshooting oil heating, troubleshooting heat pumps, and troubleshooting accessories.
Prerequisite(s): BCT 231.
Offered: Fall, Spring, Summer.

BCT 233 Residential and Industrial HVAC VI
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 232. Includes construction drawings and specifications, indoor air quality, energy conservation equipment, and building management systems.
Prerequisite(s): BCT 232.
Offered: Fall, Spring, Summer.

BCT 234 Residential and Industrial HVAC VII
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 233. Includes water treatment, system startup and shutdown, heating and cooling system design, and commercial and industrial refrigeration systems.
Prerequisite(s): BCT 233.
Offered: Fall, Spring, Summer.

BCT 235 National Electric Code Commercial Wiring Applications
4 cr. hrs. 6 periods (2 lec., 4 lab)
Commercial electrical wiring and installation practices conforming to the National Electric Code. Includes commercial building plans, specifications, and drawings, electrical loads and branch circuits, switches and receptacles, branch circuit installations, motor and appliance circuits, feeders, special systems and circuits, panelboard selection and installation, electric service equipment, lamps and luminaries, emergency and standby power systems, and overcurrent protection.
Prerequisite(s): BCT 135.
Offered: Fall, Spring, Summer.
BCT 236 Residential and Industrial Plumbing IV
4 cr. hrs. 6 periods (2 lec., 4 lab)
Concepts that apply to plumbing installations. Includes applied math, sizing water supply piping, potable water treatment, and backflow preventers.
Prerequisite(s): BCT 183.
Offered: Fall, Spring, Summer.

BCT 237 Residential and Industrial Plumbing V
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 236. Includes types of venting; sizing DWV and storm systems; sewage pumps and sump pumps; corrosive resistant waste piping; and compressed air.
Prerequisite(s): BCT 236.
Offered: Fall, Spring, Summer.

BCT 238 Residential and Industrial Plumbing VI
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 237. Includes concepts and practices essential to competitive and successful plumbing businesses. Also includes business principles for plumbers, introductory skills for the crew leader, water pressure booster and recirculation systems, indirect and special waste, and hydronic and solar heating systems.
Prerequisite(s): BCT 237.
Offered: Fall, Spring, Summer.

BCT 239 Residential and Industrial Plumbing VII
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 238. Includes codes; servicing piping systems, fixtures, and appliances; private water supply well systems; private waste disposal systems; swimming pools and hot tubs; and plumbing for mobile homes and travel trailers.
Prerequisite(s): BCT 238.
Information: BCT coursework or field experience will be necessary for success in this course. See a BCT instructor or department chair for more information.
Offered: Fall, Spring, Summer.

BCT 245 Carpentry II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of BCT 145. Includes techniques for reading construction drawings and specifications, site layout, measurement, and leveling, concrete materials and concrete reinforcement materials, construction of forms for footings and on-grade slabs, and concrete forms.
Prerequisite(s): BCT 145.
Offered: Fall, Spring, Summer.

BCT 255M Sustainability in Construction Installation
1 cr. hrs. 1 periods (1 lec.)
Fundamentals of green and sustainability construction, safety in the construction and installation of photovoltaic (PV) solar panel mounting systems and tracker sub categories. Includes safety basics, identification of safety hazards, practices and protective equipment needed during PV system installation, and maintenance. Also includes the identification of tools needed and the recommended green sustainable energy efficient choice of materials.
Offered: May not be offered this year, check class schedule.

BCT 255N Train the Trainer for Building Trades
1 cr. hrs. 1 periods (1 lec.)
Teaching skills for building trade leaders and trainers. Includes how to use proven training methods; explore individual learning styles; develop materials, and create lesson plans. Also includes techniques that provide a flexible approach to training delivery, enable trainers to understand the techniques that provide a flexible approach to training delivery, enable trainers to understand the fundamental stages of the learning process, and apply knowledge learned to deliver effective building trade training.
Offered: May not be offered this year, check class schedule.

BCT 265 Sustainability for Building Trades
3 cr. hrs. 3 periods (3 lec.)
Fundamentals of sustainable design. Includes green building practices and implementation. Also includes green building concepts, site and building planning and development, materials, strategies, cost benefit analysis, and practical applications in the current construction business environment.
Offered: Fall, Spring, Summer.
BCT 271 Electrical IV  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of BCT 174. Includes load calculations-branch and feeder circuits, conductor selection and calculations, practical applications of lighting, hazardous locations, and overcurrent protection.  
Prerequisite(s): BCT 174.  
Offered: Fall, Spring, Summer.

BCT 272 Electrical V  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of BCT 271. Includes distribution equipment, transformers, commercial electrical services, motor calculations, voice, data, and video, and motor controls.  
Prerequisite(s): BCT 271.  
Offered: Fall, Spring, Summer.

BCT 273 Electrical VI  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of BCT 272. Includes load calculations-feeders and services, health care facilities, standby and emergency systems, basic electronic theory, fire alarm systems, and specialty transformers.  
Prerequisite(s): BCT 272.  
Offered: Fall, Spring, Summer.

BCT 274 Electrical VII  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Continuation of BCT 273. Includes advanced controls, signaling systems, specialty transformers, standby and emergency systems, welding machines, HVAC controls, and heat tracing and freeze protection.  
Prerequisite(s): BCT 273.  
Offered: Fall, Spring, Summer.

BCT 284 National Electrical Code II  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of BCT 184. Includes introduction to the National Electrical Code, special occupancies, special equipment, special conditions, and communication systems.  
Prerequisite(s): BCT 184.  
Information: BCT 184 and BCT 284 together provide preparation for the National Electrical Code certification exam.  
Offered: Fall, Spring, Summer.

BCT 286 International Residential Code (IRC) I  
3 cr. hrs. 3 periods (3 lec.)  
Requirements of the major systems of residential building construction (other than commercial). Includes administration, definitions, building planning, foundations, floors, wall construction, wall covering, roof-ceiling construction, roof assemblies, chimneys and fireplaces.  
Recommendation: Completion of general construction field experience before enrolling in this course.  
Offered: Fall.

BCT 287 International Residential Code (IRC) II  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of BCT 286. Includes energy efficiency, mechanical systems, plumbing systems, electrical systems, and referenced standards.  
Prerequisite(s): BCT 286.  
Offered: Spring.
BUS 100 Introduction to Business  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to Business Principles of business operations in the private enterprise system. Includes contemporary business and its environment, structure of American business, management principles of the organization, people, and production, marketing management, information systems and accounting, and financing the enterprise.  
Offered: Fall, Spring, Summer.

BUS 125 eCommerce  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to conducting business on the Internet. Includes electronic commerce terminology, locating information, business applications, legal issues and security, and web site components and connectivity. Also includes marketing on the Internet, career opportunities, future developments, and building and operating a successful e-commerce store.  
Offered: Fall, Spring, Summer.

BUS 148 Ethics in the Workplace  
3 cr. hrs. 3 periods (3 lec.)  
Ethical principles in decision making applied to the business and industry workplace. Includes ethical issues in decision making, ethical frameworks for decisions, personal values and ethical priorities, ethics in business and industry, ethical standards in the workplace, ethical choices, application of ethical principles, social and cultural values applied to decisions, and workplace culture.  
Offered: Fall, Spring, Summer.

BUS 151 Mathematics of Business  
3 cr. hrs. 3 periods (3 lec.)  
Applying mathematical procedures, using algebraic techniques, critical thinking, and problem-solving methods for practical utility in the business environment. Includes math review; bank records; payroll; trade and cash discounts; markup and markdown; simple and compound interest; present and future value; annuities and sinking funds; consumer credit; depreciation; inventory, overhead, and turnover; financial statements; insurance; taxes; and stocks and bonds.  
Prerequisite(s): MAT 086 or completion of Module 22 in MAT 089 or satisfactory score on the Mathematics assessment test.  
Offered: Fall, Spring, Summer.

BUS 205 Statistical Methods in Economics and Business  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to statistical concepts and methods of business. Includes statistics, data, and statistical thinking; methods for describing sets of data, probability, sampling distributions, inferences based on single sample and two samples; estimation with confidence intervals and tests of hypothesis, correlation and regression, time series, design of experiments and analysis of variance (ANOVA), and categorical data analysis.  
Prerequisite(s): MAT 212.  
Recommendation: CSA 110A.  
Information: MAT 172 or 173 may be accepted as the prerequisite if taken prior to Fall 2013.  
Basic Excel knowledge is required before enrolling in this course. CSA 110A meets this requirement.  
Offered: Fall, Spring, Summer.

BUS 210 International Business  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to international business, focusing on the importance of cultural, economic, legal, political, sociological, and strategic complexities that emerge when business activities transcend international borders. Includes the terminology of international business and the basic do's and don'ts within the various foreign business societies.  
Recommendation: Completion of BUS 100 before enrolling in this course.  
Offered: May not be offered this year, check class schedule.

BUS 220 Legal Environment of Business  
3 cr. hrs. 3 periods (3 lec.)  
Overview of the impact of law, ethics and corporate responsibility in business. Includes basic concepts of law, structure, characteristics, the administration thereof, and continues through the many facets of business and the law including without limitation, formation, operation, ethics, corporate responsibility, agency, contracts, and government regulation.  
Offered: Fall, Spring, Summer.
BUS 250 Entrepreneurship  
3 cr. hrs. 3 periods (3 lec.)  
Overview of entrepreneurship, providing a sound base for understanding and application of entrepreneurial activity. Includes the entrepreneurial process, accompanied by the skills necessary for success, including without limitation, idea generation, planning, ownership and control, financing, marketing, technology, and management.  
Prerequisite(s): BUS 100.  
Information: BUS 100 may be waived with consent of instructor.  
Offered: Fall, Spring, Summer.

BUS 277 Analytical Methods in Business  
4 cr. hrs. 4 periods (4 lec.)  
Business statistic topics and applications. Includes descriptive measures and continuous probability distributions; sampling distributions, hypothesis testing, statistical inference, analysis of variance, correlation and regression with an emphasis placed on application to business cases using data rich case analysis. Also includes Excel and SPSS workshops for statistical analyses on business and economic cases accompanied by sample reports incorporating test results, its conclusions and the communication of such conclusions.  
Prerequisite(s): MAT 212 and BUS 205  
Recommendation: CIS 120  
Information: Basic Excel knowledge is required before enrolling in this course. CIS 120 meets this requirement.  
Offered: Spring, Summer.

BUS 296 Independent Study in Business  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Independent study projects or special interest areas in business under the supervision of a faculty member.  
Prerequisite(s): BUS 100.  
Information: May be taken two times for a maximum of six credit hours.  
Offered: May not be offered this year, check class schedule.

BUS 299 Co-op: Business  
1 cr. hrs. 1 periods (1 lec.)  
Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience. Emphasis on attitude adjustment.  
Corequisite(s): BUS 299WK  
Information: May be taken two times for a maximum of two credit hours.  
Offered: Fall.

BUS 299WK Co-op Work: Business  
1-8 cr. hrs. 5-40 periods (5-40 lab)  
A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.  
Corequisite(s): BUS 299  
Information: May be taken two times for a maximum of sixteen credit hours.  
Offered: Spring.

Career and Technical Education  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CTE 210 Methods of Teaching Career and Technical Education  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to instructional classroom management and assessment strategies pertinent to teaching in the secondary schools. Includes the role and function of the teacher in a CTE classroom, laboratory, or shop, standards-based instruction, constructing lesson plans, assessment, instructional strategies, and serving special needs students.  
Offered: May not be offered this year, check class schedule.
CHEMISTRY

CTE 275 CTE Classroom, Laboratory, and Shop Management
3 cr. hrs. 3 periods (3 lec.)
Introduction to managing the CTE classroom, laboratory, shop and instructional environments. Includes how to create a safe learning environment, design classroom and laboratory procedures, and develop an effective classroom management plan. Also includes how teachers will implement organizational systems to manage work-based learning experiences, student records, learning experiences, student records, supplies, equipment, tools, finances and facilities.
Offered: May not be offered this year, check class schedule.

CTE 285 Curriculum Development for Career and Technical Education
3 cr. hrs. 3 periods (3 lec.)
Introduction to the design and use of CTE curriculum. Includes standards, standard indicators, performance objectives, and curriculum mapping. Includes the study of learning styles, designing lessons to encourage appropriate outcomes and behaviors of all learners, questioning techniques, demonstrations, and field trips. Also includes the application requirement to demonstrate the process for developing curriculum for a CTE program including: courses of study, syllabi, lesson plans and assessment.
Offered: May not be offered this year, check class schedule.

CTE 288 Operation of Career and Technical Student Organizations
3 cr. hrs. 3 periods (3 lec.)
Introduction to developing student leadership via career and technical student organizations (CTSO). Includes how to elect and train officers, develop an effective program of work, create meaningful agendas, run meetings using parliamentary procedure, and create constitution and bylaws. Includes the intracurricular nature and legal aspects of advising the CTSO. Also includes the creation of a plan for the implementation of a CTSO that is appropriate for the CTE program.
Offered: May not be offered this year, check class schedule.

Chemistry
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CHM 080 Preparation for General Chemistry
3 cr. hrs. 3 periods (3 lec.)
Fundamentals of chemistry. Includes nomenclature, atomic structure, bonding, chemical equations, moles, stoichiometry, the periodic table, conversions, problem-solving techniques and study skills.
Prerequisite(s): MAT 92 with a C or better, or Module 31 in MAT 089, or required score on the mathematics assessment test.
Information: Designed to prepare students for CHM 151.
Offered: Fall, Spring, Summer.

CHM 121IN Chemistry and Society
4 cr. hrs. 6 periods (3 lec., 3 lab)
Basic chemistry and its relationship to everyday experiences. Includes classification and structure of matter; radioactivity; compound formation from elements; and electron transfer. Also includes acids, bases, salts, the liquid state, the gas state, and special topics.
Information: Designed for non-science majors, education majors, and the general public.
IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

CHM 123IN Chemistry and Art
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the relationship between the physical sciences and the visual arts. Includes an overview of art and science, material science applied to art and archaeology, color and art, painting, sculpture, photography, and the dimensions of the relationship between art and science.
Information: This is an integrated version of the course with the lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.
CHM 125IN Consumer Chemistry
4 cr. hrs. 6 periods (3 lec., 3 lab)
An overview of the chemistry of everyday products and processes for the non-science major. Includes the chemistry of
toothpaste, deodorants, cosmetics, soaps, detergents, food, toys, paints, plastics, and other products commonly found in the
kitchen, laundry, bathroom, bedroom, and workshop. Also includes the process of science and the scientific method.
Information: No previous chemistry background is required.
Offered: Fall.

CHM 128IN Forensic Chemistry
4 cr. hrs. 6 periods (3 lec., 3 lab)
Evolution, practice, and trends in the use of chemistry, physics and biology in forensic studies. Includes the study of scientific
methods, applications of molecular biology in DNA analysis, crime scene evidence analysis; i.e., drugs, ballistics, and terrorism.
Also includes the discussion of implications and effects these applications have on the law, courts, and society.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Previous knowledge of math, biology, chemistry is advantageous.
Offered: May not be offered this year, check class schedule.

CHM 130 Fundamental Chemistry
4 cr. hrs. 4 periods (4 lec.)
Inorganic chemistry as a basis for the study of some life processes. Includes the classification, structure, and general chemical
behavior of inorganic matter.
Prerequisite(s): MAT 092 with a C or better, or Module 31 in MAT 089, or required score on the mathematics assessment test.
Corequisite(s): CHM 130LB
Information: Adapted to the needs of students in allied health programs.
Offered: Fall, Summer.

CHM 130IN Fundamental Chemistry
5 cr. hrs. 7 periods (4 lec., 3 lab)
Inorganic Chemistry as a basis for the study of some life processes. Includes the classification, structure and general chemical
behavior of inorganic matter.
Prerequisite(s): MAT 092 with a C or better, or Module 31 in MAT 089, or required score on mathematics assessment test.
Information: Adapted to the needs of students in allied health programs.
IN is the integrated version of the course and lab taught simultaneously.
Offered: Fall, Spring, Summer.

CHM 130LB Fundamental Chemistry Lab
1 cr. hrs. 3 periods (3 lab)
Inorganic chemistry as a basis for the study of some life processes. Includes the classification, structure and general chemical
behavior of inorganic matter.
Prerequisite(s): MAT 092 with a C or better, or Module 31 in MAT 089, or required score on mathematics assessment test.
Corequisite(s): CHM 130
Information: This is the Lab portion of CHM 130.
Offered: Fall, Summer.

CHM 140 Fundamental Organic and Biochemistry
4 cr. hrs. 4 periods (4 lec.)
Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the
classification, structure, and general chemical behavior of organic and biochemical systems.
Prerequisite(s): A grade of C or better in CHM 130/130LB or CHM 130IN.
Corequisite(s): CHM 140LB
Information: Adapted to the needs of students in nursing and other health professions.
Offered: Summer.
**CHM 140IN Fundamental Organic and Biochemistry**
5 cr. hrs. 7 periods (4 lec., 3 lab)
Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure, and general chemical behavior of organic and biochemical systems.
Prerequisite(s): A grade of C or better in CHM 130/130LB or CHM 130IN.
Information: Adapted to the needs of students in nursing and other health professions. IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

**CHM 140LB Fundamental Organic and Biochemistry Lab**
1 cr. hrs. 3 periods (3 lab)
Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure and general chemical behavior of organic and biochemical systems.
Prerequisite(s): A grade of C or better in CHM 130/130LB or CHM 130IN.
Corequisite(s): CHM 140
Information: Adapted to the needs of students in nursing and other health related professions.
Offered: Summer.

**CHM 151 General Chemistry I**
4 cr. hrs. 4 periods (4 lec.)
Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.
Prerequisite(s): With a grade of C or better: MAT 122 and either CHM 080 or CHM 130/130LB or CHM 130IN or placement into CHM 151 on the Chemistry assessment test.
Corequisite(s): CHM 151LB
Offered: May not be offered this year, check class schedule.

**CHM 151IN General Chemistry I**
5 cr. hrs. 7 periods (4 lec., 3 lab)
Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.
Prerequisite(s): With a grade of C or better: MAT 122 and either CHM 080 or CHM 130/130LB or CHM 130IN or placement into CHM 151 on the Chemistry assessment test.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

**CHM 151LB General Chemistry I Lab**
1 cr. hrs. 3 periods (3 lab)
Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.
Prerequisite(s): With a grade of C or better: MAT 122 and either CHM 080 or CHM 130/130LB or CHM 130IN or placement into CHM 151 on the Chemistry assessment test.
Corequisite(s): CHM 151
Offered: May not be offered this year, check class schedule.

**CHM 152 General Chemistry II**
4 cr. hrs. 4 periods (4 lec.)
Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.
Prerequisite(s): With a grade of C or better: MAT 151 and either CHM 151/151LB or CHM 151IN.
Corequisite(s): CHM 152LB
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Spring.
CHM 152IN General Chemistry II
5 cr. hrs. 7 periods (4 lec., 3 lab)
Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.
Prerequisite(s): With a grade of C or better: MAT 151 and either 151/151LB or CHM 151IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

CHM 152LB General Chemistry II Lab
1 cr. hrs. 3 periods (3 lab)
Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.
Prerequisite(s): With a grade of C or better: MAT 151 and either CHM 151/151LB or CHM151IN.
Corequisite(s): CHM 152
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Spring.

CHM 195 Introduction to Research in Chemistry
4 cr. hrs. 4 periods (4 lec.)
Introduction to the methods of research in chemistry. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.
Information: Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

CHM 196LB Independent Studies in Chemistry
1-4 cr. hrs. 3-12 periods (3-12 lab)
Laboratory projects varying with students' interests and reasons for enrolling.
Offered: May not be offered this year, check class schedule.

CHM 235 General Organic Chemistry I
4 cr. hrs. 4 periods (4 lec.)
Fundamentals of organic chemistry. Includes classification, occurrence, synthesis, analysis, Stereochemistry, and reaction mechanisms of important classes of organic compounds; namely alkanes, cycloalkanes, alkenes, alkynes, and alkyl halides.
Prerequisite(s): CHM 152/152LB or CHM 152IN with a grade of C or better.
Corequisite(s): CHM 235LB
Offered: May not be offered this year, check class schedule.

CHM 235IN General Organic Chemistry I
5 cr. hrs. 7 periods (4 lec., 3 lab)
Fundamentals of organic chemistry. Includes classification, occurrence, synthesis, analysis, Stereochemistry, and reaction mechanisms of important classes of organic compounds; namely alkanes, cycloalkanes, alkenes, alkynes, and alkyl halides. Also includes application of the organic chemistry concepts addressed, using a wide range of laboratory apparatus and procedures. Also focuses on laboratory safety skills and computer software applications related to chemistry.
Prerequisite(s): CHM 152/152LB or CHM 152IN with a grade of C or better.
Information: IN class is an integrated presentation of CHM 235 and CHM 235LB.
Offered: Spring, Summer.

CHM 235LB General Organic Chemistry I Lab
1 cr. hrs. 3 periods (3 lab)
Application of the organic chemistry concepts addressed in CHM 235. Includes classification, occurrence, synthesis, analysis, stereochemistry and reaction mechanisms of organic compounds, using a wide range of laboratory apparatus and procedures. Also focuses on laboratory safety skills and computer software related to chemistry.
Prerequisite(s): CHM 152/152LB or CHM 152IN with a grade of C or better.
Corequisite(s): CHM 235
Offered: May not be offered this year, check class schedule.
CHM 236 General Organic Chemistry II
4 cr. hrs. 4 periods (4 lec.)
Continuation of CHM 235. Includes remaining classes of organic compounds, including dienes, alcohols, ethers, epoxides, aldehydes, ketones, acids, acid derivatives, aromatics, and nitrogen containing compounds. Also includes an emphasis on synthesis and use of chemical and instrumental methods as means of identification and an introduction to biomolecules and/or polymers.
Prerequisite(s): CHM 235/235LB or CHM 235IN with a grade of C or better.
Corequisite(s): CHM 236LB
Offered: Spring.

CHM 236IN General Organic Chemistry II
5 cr. hrs. 7 periods (4 lec., 3 lab)
Continuation of CHM 235. Includes remaining classes of organic compounds, specifically dienes, alcohols, ethers and epoxides, aldehydes, ketones, acids, acid derivatives, aromatics, and nitrogen containing compounds and an introduction to biomolecules and/or polymers. Also includes an emphasis on synthesis and use of chemical and instrumental methods as means of identification while using a wide range of laboratory apparatus and procedures. Also focuses on laboratory safety skills and computer software applications related to chemistry.
Prerequisite(s): CHM 235/235LB or CHM 235IN with a grade of C or better.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Spring, Summer.

CHM 236LB General Organic Chemistry II Lab
1 cr. hrs. 3 periods (3 lab)
Continuation of CHM 235 LB. Includes remaining classes of organic compounds as addressed in CHM 236, specifically dienes, alcohols, ethers and epoxides, aldehydes, ketones, acids and acid derivatives, aromatics and nitrogen containing compounds, in a laboratory setting using a wide range of laboratory apparatus and procedures. Also includes laboratory safety skills and computer software applications as related to chemistry.
Prerequisite(s): CHM 235/235LB or CHM 235IN with a grade of C or better.
Corequisite(s): CHM 236
Offered: May not be offered this year, check class schedule.

CHM 290 Chemistry Internship
1-4 cr. hrs. 1-4 periods (1-4 lec.)
Internship and work experience in a science field or laboratory. Setting, achieving, and evaluating goals for hands-on learning experiences in sciences. Development of skills and knowledge needed to work in a science field or laboratory.
Information: Consent of Internship instructor is required before enrolling in this course.
Offered: Spring, Summer.

CHM 295LB Independent Research in Chemistry
1-4 cr. hrs. 3-12 periods (3-12 lab)
Experience in scientific laboratory research. Specific content to be determined by student and instructor.
Information: One semester of chemistry and consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: Spring, Summer.

Child Development Associate
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CDA 102 The Child's Total Learning Environment
1 cr. hrs. 1 periods (1 lec.)
Analysis of the total learning environment for children birth through age 8. Includes establishing an educational learning environment, value of a child-centered learning environment, the indoor and outdoor environment, developmentally appropriate learning centers, and play materials. Also includes the teacher's role and responsibility within the learning environment, and utilizing the community as an integral part of the child's total learning environment.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: Fall, Spring, Summer.
**CDA 103 Curriculum Planning and Schedule Development**
1 cr. hrs. 1 periods (1 lec.)
Strategies for the creation of lesson plans and schedules for use in the classroom. Includes preparation of group and individualized lesson plans and schedules based on children's abilities, planning as a cooperative effort, foundations of events and activities, balancing variety in the classroom, individual center's philosophy in the planning process, flexibility in planning, and assessment and evaluation.
*Information: All CDA courses require college-level reading and writing.*
*Offered: Fall, Spring, Summer.*

**CDA 112 Guidance Principles for Encouraging Self-Discipline**
1 cr. hrs. 1 periods (1 lec.)
Development of guidelines for using positive discipline techniques in the classroom. Includes role modeling, social development and appropriate actions, program influences on children's behaviors and relationships, rules and limits, and difference between discipline and punishment.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 114 Collecting, Organizing and Using Teaching Aids**
1 cr. hrs. 1 periods (1 lec.)
Survey of several different types of teaching aids used in the early care and education environment for children birth through age eight. Includes identifying what belongs in a developmentally appropriate learning environment for children, how to sort and organize teaching aids according to types, how to incorporate those teaching aids into the various curricula areas of the program and sharing with families through reciprocal relationships. Also includes various types of teaching aids such as individual children's portfolios, activity card file collection, picture and poster file, media resources, reference materials, professional literature, and community resources.
*Offered: Fall, Spring.*

**CDA 121 Techniques for Observing Children**
1 cr. hrs. 1 periods (1 lec.)
Development of techniques for observing, recording and interpreting behavior in children. Includes purpose of observation, observation and collecting information, observation and assessment techniques, interpreting observations, individual documentation, observation-based curriculum planning, behavioral and developmental milestones, and sharing observations and assessments professionally.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 126 Literature for Preschool Children**
2 cr. hrs. 2 periods (2 lec.)
Survey of materials and techniques for the selection and evaluation of children's literature. Includes the importance of literature for children, creating a developmentally appropriate environment for young readers, general categories of books, importance of pictures/illustrations and storytelling, reading aloud to children, creating a story with children and the teacher's role.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Spring.*

**CDA 138 Building Parent and Classroom Connections**
3 cr. hrs. 3 periods (3 lec.)
Analysis of the specific attitudes, philosophies and practical techniques in building relationships with families for teachers. Includes families today, overview of family involvement, benefits of and barriers to teacher family partnerships, at the beginning with parents and children, informal communications with families, parent teacher conferences, home visits, families in the classroom, community involvement, working with families from diverse backgrounds and families in particular circumstances, resolving troublesome attitudes and behaviors, and parent involvement programs that work.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 155 Understanding How Children Learn and Develop**
1 cr. hrs. 1 periods (1 lec.)
Exploration of the cognitive learning progression of children birth through age 8. Includes introduction of various theorists, ways children learn, and the family and community influences and support toward a child's learning and the teacher's role
*Offered: Fall, Spring, Summer.*
**CDA 161 Principles of Social Competence**
1 cr. hrs. 1 periods (1 lec.)
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 170 Ages and Stages of Young Children: Prenatal through Toddler**
2 cr. hrs. 2 periods (2 lec.)
Examination of the developmental stages pre-birth to age three years. Includes general principles and theories of development, biological and environmental factors, conception to birth, infant developmental, toddler developmental milestones, issues in infant care, and toddler care issues.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 173 Ages and Stages of Young Children: The Preschool Years**
1 cr. hrs. 1 periods (1 lec.)
Examination of the developmental stages of preschool children ages 3 to 5 years. Includes general principles and theories of development, physical characteristics, pattern of motor skill development, cognitive development, socio-emotional development, developmental concerns and challenges and family involvement.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 211 Small and Large Muscle Development**
2 cr. hrs. 2 periods (2 lec.)
Examination of small and large muscle development and its relationship to cognitive learning. Includes overview of small/large muscle development, specific sequence, orderly process, practice, characteristics of the large and small muscle, activities and environment to promote muscle development, supervision and guidance, and observation and assessment. Also includes a variety of spontaneous and planned activities.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 222 Elements of Children's Culture**
1 cr. hrs. 1 periods (1 lec.)
Examination of the ways culture affects children's learning. Includes an overview of multiculturalism, cross-cultural competence, responsive learning environment, and family and community involvement.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring, Summer.*

**CDA 224 Learning Theories and Cognitive Development Applications**
2 cr. hrs. 2 periods (2 lec.)
Analysis of how young children grow and learn. Includes egocentrism, cognitive and memory development, concept formation and problem solving skills, and sharing resource with parents.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Fall, Spring.*

**CDA 229 Child Development Associate Assessment Preparation**
3 cr. hrs. 3 periods (3 lec.)
Strategies for completion of the CDA Assessment. Includes documentation requirements, resource file, direct assessment application form, and verification visit requirements.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Spring.*

**CDA 257 Record Keeping for the Family Child Care Provider**
1 cr. hrs. 1 periods (1 lec.)
Strategies for the development of a record keeping system to use in child care. Includes operating a small business, and organizing records. Also includes income tax forms, special tax liabilities and responsibilities, and important records to retain.
*Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.*
*Offered: Summer.*
CDA 258 Family Child Care as a Small Business
1 cr. hrs. 1 periods (1 lec.)
Examination of the aspects of family child care as a small business. Includes the role of the family child care provider, licensing and certification, insurance requirements, development of a business plan, and agreements between parents and providers.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: Summer.

CDA 259 Balancing Work and Family in a Family Child Care Setting
1 cr. hrs. 1 periods (1 lec.)
Strategies for reaching a balance between work and family in the child care setting. Includes establishing an appropriate setting, planning the daily schedule, setting boundaries, keeping a balance in your own life, and communicating with parents. Also includes your role as a liaison between family, child, and parent.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: Summer.

CDA 271 Professionalism in Childcare
1 cr. hrs. 1 periods (1 lec.)
Analysis of the history and ethics of early childhood professionals. Includes defining professionalism; examining the past, present and future; exploring professional values and ethics; continuing professional growth/education; and becoming an advocate for children and their families.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: Fall, Spring, Summer.

CDA 273 Ages and Stages: The Middle Childhood Years
1 cr. hrs. 1 periods (1 lec.)
Examination of the stages of growth and development during the middle childhood years (ages 6 to 8). Includes physical growth, motor development, logical thinking and language skills, and social and emotional growth. Also includes examining developmental concerns and challenges and parental involvement.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: May not be offered this year, check class schedule.

CDA 275 Transitions
1 cr. hrs. 1 periods (1 lec.)
Examination of the nature of transitions in the classroom. Includes introduction to transitions, selection of transitional activities, and transitions as part of the curriculum.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: Spring, Summer.

CDA 276 Preparing a NAEYC Classroom Portfolio
3 cr. hrs. 3 periods (3 lec.)
Facilitation of the process of NAEYC Classroom Portfolio preparation. Includes the types of documentation that provide evidence that the classroom implementation meets the NAEYC Accreditation criteria. This is part of the NAEYC Self-Study and Self-Assessment process leading to NAEYC Accreditation.
Information: Students must have college-level reading and writing skills in order to be successful in all CDA classes.
Offered: May not be offered this year, check class schedule.

Chinese
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CHI 101 Elementary Chinese (Mandarin) I
5 cr. hrs. 5 periods (5 lec.)
Introduction to the Mandarin Chinese language. Includes basic phonetic system of the Chinese language, basic Chinese grammar structures, reading simple texts, basic Chinese writing and Chinese culture. Also includes a foundation in listening, speaking, reading, writing, and cultural awareness.
Offered: Fall.
CHI 102 Elementary Chinese (Mandarin) II
5 cr. hrs. 5 periods (5 lec.)
Continuation of CHI 101. Includes additional phonetic system of Chinese language, additional selection of grammar structures, additional reading Chinese, additional writing Chinese, and additional Chinese culture. Also includes an additional level of listening, speaking, reading, writing, and cultural awareness.
Prerequisite(s): CHI 101.
Offered: Spring.

CHI 201 Intermediate Chinese I
5 cr. hrs. 5 periods (5 lec.)
Continuation of CHI 102. Includes intermediate selection of grammar structures, oral and aural transactions, political, economic, and social vocabulary in readings and writings, intermediate literary works, and norms, values, and beliefs.
Prerequisite(s): CHI 102.
Offered: May not be offered this year, check class schedule.

CHI 202 Intermediate Chinese II
5 cr. hrs. 5 periods (5 lec.)
Continuation of CHI 201. Includes additional intermediate selection of grammar structures, intermediate oral, aural, and written transactions, response to complex topics, additional norms, values, and beliefs, and Chinese history and cultural aspects.
Prerequisite(s): CHI 201.
Offered: May not be offered this year, check class schedule.

Clinical Research Coordinator
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CRC 101 Foundations of Clinical Research
3 cr. hrs. 3 periods (3 lec.)
A comprehensive introduction to the clinical research process and practice. Includes history and evolution of clinical research, phases of clinical trials, protection of human subjects, clinical research team personnel and their roles, and the responsibilities of clinical research organizations. Also includes medical, clinical research, and standard pharmaceutical/pharmacological terms commonly used in clinical research; and issues of sensitivity, diversity, and ethics as applied to clinical research.
Prerequisite(s): BIO 160IN or concurrent enrollment.
Information: Introductory class for program core.
Offered: Fall.

CRC 110 Clinical Research Common Terminology
3 cr. hrs. 3 periods (3 lec.)
Study of common terminology used in clinical research profession in order to properly report adverse events in universally understood terminology. Includes research specific terminology and medical terminology used in order to collect a thorough medical history, during an Adverse Event report, and throughout a clinical trial. Also includes common and medical terminology used in clinical research and other health care professions. In addition, the Medical Dictionary for Regulatory Activities (MedDRA) and the Common Terminology Criteria for Adverse Events (CTCAE) will be explored.
Prerequisite(s): BIO 160IN or concurrent enrollment.
Offered: Fall.

CRC 201 Clinical Research Regulatory Compliance
3 cr. hrs. 3 periods (3 lec.)
Introduction to the Food and Drug Administration (FDA) regulatory process and regulatory requirements for clinical research. Includes an overview of the role and function of the FDA, the drug development process, preparation and maintenance of an Investigational New Drug (IND), regulatory documentation, safety reporting, and Good Clinical Practices (GCPs).
Recommendation: Completion of CRC 101 or concurrent enrollment in the course.
Offered: Fall.
CRC 230 Introduction to Clinical Research Study Protocol
2 cr. hrs. 2 periods (2 lec.)
Introduction to the scientific development of research protocols and related regulatory requirements. Includes differentiations among research design types, rules for writing protocols, and ethical considerations relative to research protocols.
Prerequisite(s): CRC 101.
Recommendation: Completion of or concurrent enrollment in CRC 201.
Offered: Fall.

CRC 240 Pharmacology for Clinical Trials
4 cr. hrs. 4 periods (4 lec.)
Essential drug knowledge and facts and their application in clinical research. Includes common medical diagnoses and their related drug treatments (brand name and generic); what constitutes a drug; the effects and modes of action of drugs upon the body (pharmacodynamics); method and rate of excretion and duration of the effect of drugs (pharmacokinetics); drug side effects; drug-drug interactions; and how to find and interpret drug-related information from primary literature. Also includes an overview of the drug development process from bench through post-approval marketing.
Prerequisite(s): CRC 101.
Offered: Spring.

CRC 250 Clinical Research Site Coordination and Management
3 cr. hrs. 3 periods (3 lec.)
Introduction to the elements involved in implementing and managing a clinical trial from the perspective of the research site staff/team. Includes the identification and evaluation of sites and investigators, on-site budget management, and the coordination of subject participation.
Prerequisite(s): CRC 101, 201, 230.
Offered: Spring.

CRC 260IN Lab Skills and Professional Practice
3 cr. hrs. 5 periods (2 lec., 3 lab)
Clinical skills training to prepare for clinical research coordinator internship, with emphasis on applying clinical research project coordination concepts and practices in a simulated research setting. Includes research subject communication techniques, medical history review, adverse events, vital signs, EKG procedures, blood collection and specimen processing, storage and shipping. Also includes application of clinical research project coordination practices related to a protocol; research and medical terminology; recruitment, enrollment and retention practices; informed consent; detection of errors within study reports and casework; documentation of medications, adverse events and serious adverse events; review of study subject's file data for completeness and accuracy; and regulatory and legal mandates related to clinical trials.
Prerequisite(s): CRC 101, 201, 230, 240 and 250.
Offered: Spring.

CRC 270 Research Management for Sponsors and CRO's
3 cr. hrs. 3 periods (3 lec.)
Introduction to the elements involved in implementing, monitoring and managing a clinical study from the perspective of the Sponsor or Contract Research Organization (CRO). Includes overall project planning, development of study goals, preparation of budget and contracts, implementation of monitoring visits, and effective management of research sites.
Prerequisite(s): CRC 250.
Offered: Spring.

CRC 291 Clinical Research Coordinator Internship
1-3 cr. hrs. 3-9 periods (3-9 lab)
Supervised work experience in a clinical research setting. Includes emphasis on the observation and enhancement of professional and management skills team communication and interaction, and the application of research principles, procedures, protocols, and regulations in the workplace. Student will rotate through a variety of research sites agreed upon by the instructor and student.
Prerequisite(s): CRC 101, 201, 230, 240, 250 and 260IN.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring, Summer.

</table>
CAD 151 Computer Aided Drafting for Construction
4 cr. hrs. 6 periods (3 lec., 3 lab)
Two and three dimensional computer aided drafting (CAD) concepts and techniques applied to architecture and construction designs. Includes advanced drawing and editing tools; advanced layer management; attributed and parametric blocks. Also includes data extraction, external references, color-dependent plot styles, 3D modeling, and rendering and lighting of 3D models.
Offered: Fall, Spring.

CAD 152 Technical Drafting
4 cr. hrs. 6 periods (3 lec., 3 lab)
Basic concepts, techniques, and applications for mechanical drafting. Includes mechanical design fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, three dimensional (3D) solid modeling techniques, and hard copy techniques and procedures.
Prerequisite(s): CAD 101.
Offered: Fall, Spring.

CAD 153 Electro-Mechanical Drafting and Design
4 cr. hrs. 6 periods (3 lec., 3 lab)
Basic concepts, techniques, and applications for electronic drafting. Includes electronic drafting fundamentals and standards, electronic component and schematic applications, electronics theory, Computer Aided Drafting (CAD) techniques, and file management and hard copy techniques and procedures.
Prerequisite(s): CAD 101.
Offered: Fall, Spring.

CAD 154 Integrated Circuit Layout Design I
4 cr. hrs. 6 periods (3 lec., 3 lab)
Principles and concepts of mixed signal integrated circuit layout using Cadence design software. Includes design process, circuit floorplanning, analog layout design, digital layout design, ESD (electro-static discharge) design and padring layout, device matching, DRC (design rule check) verification techniques, and LVS (layout versus schematic) verification techniques.
Prerequisite(s): CAD 104.
Offered: Fall, Spring.

CAD 155 Residential Drafting/Design
4 cr. hrs. 6 periods (3 lec., 3 lab)
Residential Drafting and Design Beginning level Computer Aided Drafting (CAD) of single family detached dwellings. Includes residential CAD skills, site, foundation, floor and roof framing, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, and working drawing coordination.
Prerequisite(s): CAD 101.
Offered: Fall, Spring.

CAD 157 Introduction to Site Development Drafting and Design
4 cr. hrs. 6 periods (3 lec., 3 lab)
Overview of site planning and design. Includes introduction to site development, applications of CAD drafting, mapping, location and direction, legal descriptions and plot plans, contour lines, details and drawings, and Geographic Information Systems.
Prerequisite(s): CAD 101.
Offered: Spring.

CAD 166 Introduction to Revit
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to Building Information Modeling (BIM) for architectural applications using Revit. Includes the basics of 3D parametric software: how to access tools, develop model, build levels and views, create drawing sheets, and plot drawings. Also includes how to integrate knowledge of building systems: site, floor plan, roof plan, building elevations, building and wall sections, and schedules.
Information: For individuals with no BIM experience.
Offered: Fall, Spring.
CAD 172 Geometric Dimensioning and Tolerancing  
3 cr. hrs. 3 periods (3 lec.)  
Establishing controls on sizes and allowances of mechanical parts. Includes definitions and rules, form tolerances, datums, orientation controls, location controls, runout, and profile.  
Prerequisite(s): CAD 117 or 152.  
Information: Prerequisites may be waived if equivalent mechanical drawing experience is documented. See CAD instructor or advisor/counselor.  
Offered: Fall, Spring, Summer.

CAD 196 Independent Study in Computer Aided Drafting: 100 Level  
1-4 cr. hrs. 3-12 periods (3-12 lab)  
Independent work at the 100 level on a special project not included in regular courses. The student is required to obtain a sponsoring CAD instructor and establish objectives, a procedural method, and a method of evaluation.  
Prerequisite(s): CAD 101.  
Information: Consent of instructor is required before enrolling in this course.  
May be taken three times for a maximum of twelve credits.  
Offered: Fall, Spring, Summer.

CAD 199 Co-op: Computer Aided Drafting  
1 cr. hrs. 1 periods (1 lec.)  
Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.  
Corequisite(s): CAD 199WK  
Information: May be taken two times for a maximum of two credit hours.  
Offered: Fall, Spring.

CAD 199WK Co-op Work: Computer Aided Drafting  
1-8 cr. hrs. 5-40 periods (5-40 lab)  
A supervised cooperative work program for students in related occupation area. Teacher- coordinators work with students and their supervisors. Variable credit is available by special arrangement.  
Corequisite(s): CAD 199  
Information: May be taken two times for a maximum of sixteen credit hours.  
Offered: Fall, Spring.

CAD 203 Advanced Electro-Mechanical Drafting and Design  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Continuation of CAD 153. Includes standards for packaging, fastener library, 3-D sheet-metal enclosures, production drawing sheets, materials and fastening systems for enclosures, and hard copy techniques and procedures. Also includes sheet-metal modeling in AutoCAD 3-D and Inventor.  
Prerequisite(s): CAD 153.  
Offered: Spring.

CAD 204 Integrated Circuit Layout Design II  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Continuation of CAD 154. Includes intermediate design process, intermediate circuit floorplanning, intermediate analog layout design, intermediate digital layout design, intermediate ESD (electro-static discharge) design and padring layout, intermediate device matching, intermediate DRC (design rule check) verification techniques, and intermediate LVS (layout versus schematic) verification techniques.  
Prerequisite(s): CAD 154.  
Offered: Fall, Spring.

CAD 206 Commercial Drafting and Design: Revit  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Computer Aided Drafting (CAD) of a commercial building at the intermediate level. Includes intermediate commercial CAD skills, site, foundation, floor, roof framing, reflected ceiling, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, working drawing coordination, special construction applications, and 3D modeling.  
Prerequisite(s): CAD 155 and 166.  
Offered: Fall, Spring.
CAD 207 Drafting and Design for Land Development: Civil 3D
4 cr. hrs. 6 periods (3 lec., 3 lab)
Computer Aided Drafting (CAD) specific to sites for construction of buildings, roads, and utilities at the intermediate level. Includes intermediate civil drafting technology, intermediate surveying, intermediate location and direction, intermediate mapping, intermediate legal descriptions and plot plans, intermediate contour lines, intermediate profiles, intermediate road layout, intermediate earthwork, intermediate Geographic Information Systems (GIS).
Prerequisite(s): CAD 157.
Offered: Fall.

CAD 222 Introduction to Parametric Modeling: Inventor
4 cr. hrs. 6 periods (3 lec., 3 lab)
Beginning level parametric modeling mechanical concepts, techniques, and problems using Inventor software. Includes parametric modeling, working drawings, assemblies, animation, and plotting techniques.
Prerequisite(s): CAD 152.
Offered: Fall, Spring.

CAD 232 Advanced Parametric Modeling: Inventor
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of CAD 222. Includes advanced parametric modeling mechanical concepts, techniques, and problems using Inventor software. Also includes full assembly set, including detail drawings, sub-assemblies, and revision tracking.
Prerequisite(s): CAD 172 and 222.
Offered: Fall, Spring.

CAD 242 Advanced Parametric Modeling: SolidWorks
4 cr. hrs. 6 periods (3 lec., 3 lab)
Advanced parametric modeling mechanical concepts, techniques, and problems using SolidWorks. Includes parametric modeling, working drawings, assemblies, and plotting techniques.
Prerequisite(s): CAD 142, 152 and 172.
Offered: Fall, Spring.

CAD 247 Transportation Design: MicroStation
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of CAD 127. Includes advanced civil drafting technology incorporating surveying and mapping data using MicroStation. Also includes the creation of digital terrain model, horizontal alignment, profiles, vertical alignment, model roadway, creation of cross sections, earthwork quantities, annotation, reports and use viewing tools to review final roadway project.
Prerequisite(s): CAD 127, 157.
Offered: May not be offered this year, check class schedule.

CAD 252 Introduction to Parametric Modeling: Creo
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to parametric modeling with Creo. Includes geometric dimensioning and tolerancing fundamentals and standards, parametric modeling techniques, geometric dimensioning and tolerancing applications, and hard copy techniques and procedures.
Prerequisite(s): CAD 152.
Information: Solid modeling experience strongly recommended before enrolling in this course.
Offered: Fall, Spring.

CAD 254 Integrated Circuit Layout Design III
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of CAD 204. Includes advanced design process, advanced circuit floorplanning, advanced analog layout design, advanced digital layout design, advanced ESD (electro-static discharge) design and padring layout, advanced device matching, advanced DRC (design rule check) verification techniques, and advanced LVS (layout versus schematic) verification techniques.
Prerequisite(s): CAD 204.
Offered: Fall, Spring.
CAD 256 Advanced Commercial Drafting and Design: Revit
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of CAD 206 at the advanced level using Revit MEP. Includes advanced level CADD skills, advanced level commercial project programming, advanced level site, foundation, floor, roof framing, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, working drawing coordination, special construction applications, model energy code, and 3D modeling.
Prerequisite(s): CAD 206.
Offered: Fall, Spring.

CAD 257 Advanced Drafting and Design for Land Development: Civil 3D
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of CAD 207 at the advanced level using Civil 3D. Includes advanced civil drafting technology, advanced surveying, advanced location and direction, advanced mapping, advanced legal descriptions and plot plans, advanced contour lines, advanced profiles, advanced road layout, advanced earthwork, and advanced Geographic Information Systems (GIS).
Prerequisite(s): CAD 207.
Offered: Spring.

CAD 265 Design and Drafting for Sustainability
4 cr. hrs. 6 periods (3 lec., 3 lab)
Computer Aided Design and Drafting (CADD) applications specific to site and building sustainability. Includes green building fundamentals, Geographic Information Systems (GIS), introduction to 3D modeling for analysis, and detailing systems.
Prerequisite(s): CAD 155, 157 and 166.
Offered: Spring.

CAD 266 Mechanical, Electrical, Plumbing Drafting & Design: Revit MEP
4 cr. hrs. 6 periods (3 lec., 3 lab)
3D modeling of commercial mechanical, electrical, and plumbing systems. Includes integration with architectural and structural systems, and production of construction documents.
Prerequisite(s): CAD 206.
Offered: Fall.

CAD 280 Computer Aided Drafting and Design Portfolio
1 cr. hrs. 1 periods (1 lec.)
Development of materials for employment. Includes portfolio contents, resume, cover letter, practice interview, portfolio, and presentation.
Prerequisite(s): CAD 142 or 204 or 206 or 207 or 222 or 252.
Offered: Fall, Spring.

CAD 282 Advanced Parametric Modeling: Creo
4 cr. hrs. 6 periods (3 lec., 3 lab)
Advanced parametric modeling using Creo. Includes advanced level parametric modeling applications, shading and rendering of parametric models, constructing mechanical assemblies, and hard copy techniques and procedures.
Prerequisite(s): CAD 172 and 252.
Information: Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring.

CAD 296 Independent Study in Computer Aided Drafting: 200 Level
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent work at the 200 level on a special project not included in regular courses. The student is required to obtain a sponsoring CAD instructor, and establish objectives, a procedural method, and a method of evaluation.
Prerequisite(s): CAD 101.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credits.
Offered: Fall, Spring.
Computer Information Systems

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CIS 103 Microsoft Windows Operating System
4 cr. hrs. 4 periods (4 lec.)
Professional Administration Fundamental skills necessary to perform day-to-day administration tasks in a Microsoft Windows operating system. Includes windows network administration, windows operating system, user and group accounts, network resource security, print server administration, resource and event audits, and resource monitoring.
*Information: Preparation for Microsoft certification examination.*
*Offered: Fall, Spring.*

CIS 104 Computer Fundamentals
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to computer information systems. Includes hardware, system software, networks, and threats posed by malicious software and web sites. Also includes the social and economic effects of information, using the Internet to do research, and productivity application software.
*Recommendation: Completion of CSA 089 or basic computer and keyboard skills, completion of REA 091 or satisfactory score on the reading assessment test before enrolling in this course.*
*Information: Same as CSA 104.*
*Offered: Fall, Spring, Summer.*

CIS 119 Network Essentials
3 cr. hrs. 3 periods (3 lec.)
Comprehensive introduction to computer networks and data communications. Includes computer networks and services, transmission media and connections, network models, popular protocol suites, other network issues, and network operating systems.
*Recommendation: Completion of CIS 103 before enrolling in this course.*
*Offered: Fall, Spring.*

CIS 120 Computer Applications for Business
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to computer information systems and applications with an emphasis on Microsoft applications, especially Microsoft Excel. Students will develop an awareness of the critical thinking, quantitative analysis and qualitative assessment skills that serve as the foundation for the effective and ethical use of information as part of an informed business or personal decision.
*Prerequisite(s): Within the last three years: C or better in MAT 092 or satisfactory score on the mathematics assessment exam.*
*Offered: Spring.*

CIS 121 Web Publishing
3 cr. hrs. 3 periods (3 lec.)
Introduction to Web site design using the Hypertext Markup Language (HTML) to author pages containing titles, images, lists, image maps, tables, frames, and Cascading Style Sheets. Includes World Wide Web history and development, web servers and Hypertext Transport Protocol (HTTP), web browsers, HTML standards, document design, HTML lists, designing tables and using frames on a web page, and graphics. May include client-side and/or server-side scripting.
*Prerequisite(s): CIS 100.*
*Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.*
*Offered: Fall, Spring.*

CIS 129 Programming and Problem Solving I
5 cr. hrs. 5 periods (5 lec.)
Introduction to personal and business computer systems. Includes components of a computer system; advantages and disadvantages of programming languages; traditional languages, native code and object-oriented concepts; source code versus executable code; and data structures and data representation. Also includes language statements; expressions components; control structures; problem solving techniques; program test data, debugging, and termination; and solving simple problems and creating programs using C or Java.
*Prerequisite(s): MAT 122 or concurrent enrollment.*
*Offered: Fall, Spring, Summer.*
CIS 131 Programming and Problem Solving II
5 cr. hrs. 5 periods (5 lec.)
Continuation of CIS 129. Includes data structures and data representation, complex problem solving, procedural abstraction, and complex arrays with structured elements. Also includes object oriented programming, exception handling, file input and output, debugging, and testing.
Prerequisite(s): CIS 129.
Information: Programming assignments will use the C# or Java language.
Offered: Fall, Spring.

CIS 132 Introduction to Computer Forensics
4 cr. hrs. 4 periods (4 lec.)
Introduction to computer forensics which focuses on methods of detection and prevention of computer crime. Includes multidisciplinary nature of computer forensics; professional opportunities; computer investigations; operating systems introduction; the investigator’s office and laboratory; forensic tools; and digital evidence controls. Also includes processing crime and incident scenes; data acquisition; computing forensic analysis; e-mail investigations; recovering image files; investigative report writing; and expert witness testimony.
Recommendation: Basic knowledge of computers and how to download and install software is recommended before enrolling in this course.
Offered: Fall, Spring.

CIS 133 Fundamentals of Personal Computer Security
3 cr. hrs. 3 periods (3 lec.)
Introduction to Personal Computer (PC) security and how to protect from outside threats. Includes an overview of cyber crime and security issues; networks and the Internet; assessing a personal computer system; denial of service attacks; malware; basics of securing a PC system; and data encryption. Also includes Internet fraud and security; examples of espionage in cyberspace; cyber detective work; and computer security hardware and software.
Recommendation: Completion of CIS 120 and familiarity with the Internet are recommended before enrolling in this course.
Offered: Fall, Spring, Summer.

CIS 136 Microcomputer Components
3 cr. hrs. 3 periods (3 lec.)
An overview of the primary components of common microcomputer systems. Includes systems components, systems upgrades, printer selection, installation and maintenance, disk drive selection, additional input/output devices, selecting and configuring a system, and other microcomputer topics.
Offered: Fall, Spring, Summer.

CIS 137 Introduction to the UNIX Operating System
3 cr. hrs. 3 periods (3 lec.)
Principles, tools, and history of the UNIX and Linux operating systems. Includes user utilities and some option switches, file structure and file names, regular expressions and extended regular expressions, shells, text editing, networking, and UNIX and Linux system administration.
Recommendation: Completion of CIS 120 before enrolling in this course.
Offered: Fall, Spring, Summer.

CIS 141 Introduction to VB.NET
4 cr. hrs. 4 periods (4 lec.)
Introduction to the Visual Basic .NET programming language. Includes Microsoft .NET, .NET framework, common language runtime, getting started with Visual Basic.NET (VB.NET), and object-oriented programming. Also includes user interface programming, VB.NET and the .NET framework, and using ADO.NET in VB.NET
Prerequisite(s): CIS 129.
Offered: Fall, Spring.
CIS 142 Introduction to C#
4 cr. hrs. 4 periods (4 lec.)
Introduction to Microsoft’s .NET Programming Language C. Includes introduction and simple compilation and execution of programs from the Visual Studio IDE; data types and declarations; using methods; creating classes and objects; selection and repetition; and creating and using arrays. Also includes inheritance; exception handling; GUI objects and controls from the Visual Studio IDE; and handling events.
Prerequisite(s): CIS 129.
Recommendation: Completion of CIS/CSA 104, have prior programming experience, or consent of instructor before enrolling in this course.
Offered: Spring.

CIS 162 Database Design and Development
3 cr. hrs. 3 periods (3 lec.)
Introduction to database concepts and terminology. Includes file systems and databases, the relational database model, entity relationship modeling, normalization, and database design.
Offered: Fall, Spring.

CIS 170 CISCO I: Networking Fundamentals
5 cr. hrs. 5 periods (5 lec.)
Introduction to the fundamentals of networking. Includes network concepts; the Open Systems Interconnection (OSI) model; binary numbering system; network architecture; Local Area Network (LAN) design and installation; and Cisco troubleshooting procedures. Also includes preparation for Cisco certification examination.
Prerequisite(s): CIS 136.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Offered: Fall, Summer.

CIS 171 CISCO II: Networking Router Technologies
5 cr. hrs. 5 periods (5 lec.)
Introduction to the fundamentals of networking router technologies. Includes networking concepts; Open Systems Interconnection (OSI) model; Local Area Network (LAN) technologies; routing protocols; router configuration files; and Cisco troubleshooting procedures. Also includes preparation for the Cisco certification examination.
Prerequisite(s): CIS 170.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Offered: Spring.

CIS 172 CISCO III: Advanced Routing and Switching
5 cr. hrs. 5 periods (5 lec.)
Development of skills to configure advanced routing protocols. Includes Local Area Network (LAN) switching; Virtual LAN (VLAN); LAN design; routing protocols; access lists; and Novell Internetwork Packet Exchange (IPX) protocol. Also includes preparation for the Cisco certification examination.
Prerequisite(s): CIS 171.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Offered: Fall.

CIS 173 CISCO IV: Project Based Learning
5 cr. hrs. 5 periods (5 lec.)
Design and configuration of advanced Wide Area Network (WAN) projects using Cisco IOS command set. Includes WAN design; Point-to-Point protocol (PPP); Integrated Services Digital Network (ISDN); and frame relay. Also includes preparation for Cisco certification examination.
Prerequisite(s): CIS 172.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Offered: Spring.
CIS 182 Introduction to ANSI SQL
3 cr. hrs. 3 periods (3 lec.)
Introduction to the American National Standards Institute (ANSI) Structured Query Language (SQL). Includes relational databases; SQL basics and nomenclature; simple queries, search conditions, and sorting; single table query processing and unions; simple and multi-table joins; summary queries using columns, group queries, and subqueries; and query expressions. Also includes adding, deleting, and modifying data from the database; referential integrity and constraints; creating databases; creating, removing, and modifying tables; and defining constraints.
Prerequisite(s): CIS 162.
Information: CIS 162 may be waived with consent of instructor.
Offered: Fall, Spring.

CIS 185 Introduction to Python
4 cr. hrs. 4 periods (4 lec.)
Introduction to the Python programming language. Includes statements, syntax, strings, lists, dictionaries, tuples, dynamic types, classes, modules, functions, numeric operations, file I/O, exception handling, and application development using IDLE.
Prerequisite(s): CIS 131, CIS 182.
Offered: Fall, Spring.

CIS 187 Data Processing Projects I
1-3 cr. hrs. 3-9 periods (3-9 lab)
Provides practical work experience with academic study. Includes problem solving, job site interpersonal relations, and directed independent studies of computer-related topics. Also includes lab exercises involving operating system tasks, word processing, spreadsheets, electronic mail, and the Internet.
Recommendation: It is recommended that students successfully complete four CIS courses before enrolling in this course.
Offered: Spring.

CIS 199 Introductory Co-op: Computer Information Systems
1 cr. hrs. 1 periods (1 lec.)
Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Includes communication skills, time and energy management, stress and its management, careers: information and its uses, job market, principles, theories, and practices in the career field, and problems in the work situation.
Corequisite(s): CIS 199WK
Information: May be taken two times for a maximum of two credit hours.
Offered: Spring.

CIS 199WK Introductory Co-op Work: Computer Information Systems
1-8 cr. hrs. 5-40 periods (5-40 lab)
A supervised cooperative work program for students in related occupation area. Teacher-coordinators work with students and their supervisor. Variable credit is available by special arrangement.
Corequisite(s): CIS 199
Information: May be taken two times for a maximum of sixteen credit hours.
Offered: Spring.

CIS 218 Introduction to Voice over IP (VoIP)
4 cr. hrs. 4 periods (4 lec.)
Introduction to the concepts of Voice over Internet Protocol (VoIP) from the history to expected future uses in the workplace and home. Includes an overview, digital voice fundamentals, standards, how an Internet Protocol (IP) phone call works, protocols and structure, relationship to the Open Standards Interconnection (OSI) model, gateways, quality of service, and router concerns.
Recommendation: Completion of an introductory course in networking or have networking experience before enrolling in this course.
Offered: Spring.
CIS 219 Introduction to Virtual Computing
4 cr. hrs. 4 periods (4 lec.)
Introduction to the concept of virtualization in computers and virtualization products that permit configuration and management of virtualized environments. Includes installation and configuration of VMware workstation, VMware server, Microsoft virtual server, and Microsoft Hyper-V. Also includes working with virtual networks, implementing disaster recovery and high availability, enhancing virtual security and performance, and working with virtual machine manager.
Prerequisite(s): CIS 119 or 170.
Information: Consult instructor for alternative prerequisite(s) before enrolling in this course.
Offered: Fall, Spring, Summer.

CIS 221 Microsoft Windows Server
4 cr. hrs. 4 periods (4 lec.)
Knowledge and skills necessary to install, configure, customize, optimize networks, integrate, and troubleshoot Windows server. Includes overview of Windows networking, managing Windows server, Windows components, and Internetworking and Intranetworking. Also includes active directory services, advanced file systems, Windows security, booting Windows, and Windows application servers.
Prerequisite(s): CIS 103.
Information: Preparation for Microsoft certification examination.
Offered: Fall, Spring.

CIS 222 Implementing Windows Network Infrastructure
4 cr. hrs. 4 periods (4 lec.)
Knowledge and skills to install, configure, maintain, and support a Microsoft Windows network infrastructure. Includes Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), Windows Internet Name Service (WINS), traffic security, remote access, network router, remote installation, connectivity with other operating systems, and Web server.
Prerequisite(s): CIS 221.
Information: Preparation for Microsoft certification examination.
Offered: Spring.

CIS 223 Implementing Windows Directory Services
4 cr. hrs. 4 periods (4 lec.)
Knowledge and skills to install, configure, and administer Microsoft Windows Active Directory directory services. Includes active directory structure, Active Directory directory services, Domain Name System (DNS), group policy implementation, user accounts, software development, group policy security, and administration of active directory objects.
Prerequisite(s): CIS 221.
Offered: Fall.

CIS 224 Designing Windows Network Security
4 cr. hrs. 4 periods (4 lec.)
Knowledge and skills to analyze business requirements and processes to design a security solution for a Microsoft Windows network. Includes technical requirements, security requirements, security solution on a Windows network, security solution for access between networks, and security for communication channels.
Prerequisite(s): CIS 223.
Information: Preparation for Microsoft certification examination.
Offered: May not be offered this year, check class schedule.

CIS 225 Linux (UNIX) System and Network Administration
4 cr. hrs. 4 periods (4 lec.)
Operations and network administration of the Linux (UNIX) system. Includes background review, basic Linux installation installing software packages, network file services configuration, SAMBA file and print server, Apache web server, and file transfer protocol (FTP).
Prerequisite(s): CIS 137.
Offered: Spring, Summer.

CIS 226 Advanced Linux Networking
4 cr. hrs. 4 periods (4 lec.)
Prerequisite(s): CIS 225.
Offered: Fall, Spring.
CIS 228 Fundamentals of Network Security
4 cr. hrs. 4 periods (4 lec.)
Introduction and general overview of security measures for computer networks. Includes authentication methods and techniques; attacks and malicious code; remote access concepts; email and web security; directory and file transfer services; and wireless protocols and security. Also includes hardware devices; topologies and security; methods of intrusion detection; establishing security baselines; introduction to cryptography; disaster recovery policies and procedures; and forensics, risk management, and auditing measures.
Recommendation: It is recommended that students complete CIS 119 or obtain consent of instructor prior to enrolling in this course.
Information: This course prepares students to take the CompTIA Security Exam.
Offered: Fall, Summer.

CIS 229 Protecting Your PC and Network: CounterMeasures to Network
4 cr. hrs. 4 periods (4 lec.)
Introduction to networking vulnerabilities within various protocols and operating systems. Includes an overview of cyber crime and security issues, networks and the Internet, assessing and securing a personal computer (PC) system, denial of service attacks, malware, and data encryption. Also includes Internet fraud and security, espionage in cyberspace, cyber detective work, and computer security hardware and software.
Recommendation: Completion of CIS 119 or 170, and 228 before enrolling in this course.
Offered: Spring.

CIS 235 Advanced Topics in Linux/Unix Security
4 cr. hrs. 4 periods (4 lec.)
Overview for intermediate users of Linux and Linux administrators focusing on security issues. Includes background review, discovering network vulnerabilities, vulnerability mitigation, management awareness, intrusion detection, data gathering, and WiFi.
Recommendation: Completion of CIS 225 is recommended before enrolling in this course.
Offered: Fall, Spring.

CIS 241 Advanced Visual Basic.NET Programming
4 cr. hrs. 4 periods (4 lec.)
Advanced course in Visual Basic.NET programming with special emphasis on the new NET Framework and how it is used to create distributed applications. Includes review of VB.NE basics, basic Web programming, server-side Web programming with VB.NET, accessing data with VB.NET, and introduction and advanced VB.NET applications.
Prerequisite(s): CIS 141.
Offered: Fall.

CIS 250 Introduction to Assembly Language
3 cr. hrs. 3 periods (3 lec.)
Beginning assembly language programming. Includes number systems, machine architecture, program design, the assembler, the stack, array processing and indexing, and sorting. Also includes program debugging and testing, performance issues, program profiling, and programmer productivity issues.
Prerequisite(s): CIS 131.
Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.
Offered: Spring.

CIS 265 The C Programming Language
4 cr. hrs. 4 periods (4 lec.)
Principles and syntax of ANSI Standard C and many of the common library functions. Includes writing C programs in portable code to facilitate systems programming concepts.
Prerequisite(s): CIS 250 or concurrent enrollment.
Offered: Fall, Spring.

CIS 266 CGI Programming with PERL
3 cr. hrs. 3 periods (3 lec.)
Development of Common Gateway Interface (CGI) scripts using Practical Extraction and Report Language (Perl). Includes review of Internet technology and web-based services, review of HyperText Markup Language (HTML), introduction to CGI, server side includes, the Perl language, and client-server interaction. Also includes providing predictable web service, form processing, processing cookies, and Perl CGI debugging.
Prerequisite(s): CIS 121 and 265.
Offered: Spring.
CIS 269 Data Structures
5 cr. hrs. 5 periods (5 lec.)
Advanced topics in computer science and programming in C++. Includes software engineering concepts and theory, memory management, inheritance, overloading, abstract classes, review of C++, stacks, queues, recursion, and dynamic abstract data structures. Also includes templates, hash tables, sort and search algorithms, file handling and streams, trees, graphs and networks.
Prerequisite(s): CIS 278.
Offered: Spring.

CIS 273 Advanced Web Development
4 cr. hrs. 4 periods (4 lec.)
Advanced web development including design and implementation of database web application. Includes review of Hypertext Markup language (HTML), Visual InterDev environment, design considerations for web development, introduction to vbscript, JavaScript and Common Gateway Interface (CGI), client-side scripting and validation, script objects and events, use of Java Applets, and use of Active X components. Also includes Dynamic Hypertext Markup Language (DHTML), Cascading Style Sheets (CSS), active server pages and server-side scripting, use of databases with ActiveX Data Objects (ADO), various database types, security issues, and debug and deploy application.
Prerequisite(s): CIS 121.
Offered: Spring.

CIS 276 Mobile App Programming: Android I
4 cr. hrs. 4 periods (4 lec.)
Topics in computer science and programming in Java specific to Mobile App Programming on Androids. Includes software engineering concepts and theory, Graphical User Interface (GUI) concepts, memory management, inheritance, and exceptions. Also includes eXtensible Markup Language (XML), emulators (Android Virtual Devices), installing, debugging, and an introduction to the Android database system (SQLite).
Prerequisite(s): CIS 131.
Offered: Fall.

CIS 277 Mobile App Programming: Android II
4 cr. hrs. 4 periods (4 lec.)
Advanced topics in computer science and programming in Java specific to Mobile App Programming on Androids. Includes advanced software engineering concepts and theory, Event Handling, Graphical User Interface (GUI) concepts, memory management and complexity. Also includes eXtensible Markup Language (XML), emulators (Android Virtual Devices), debugging.
Information: CIS 276 or instructor approval is required before enrolling.
Offered: Spring.

CIS 278 C++ and Object-Oriented Programming
4 cr. hrs. 4 periods (4 lec.)
Concepts and implementation of object-oriented programming and design using C++. Includes the language syntax of C++ applications using C++ objects to solve information systems problems, and class libraries created for reuse and inheritance.
Prerequisite(s): CIS 131.
Information: Prerequisite may be waived with consent of instructor.
Offered: Fall, Spring.

CIS 279 Java Programming
5 cr. hrs. 5 periods (5 lec.)
Introduction to the Java programming language. Includes review of fundamentals; objects, classes, and methods; extending classes and overriding methods; text input and output to console; and handling events, scrollbars, and mouse events. Also includes working with fonts, colors, menus, checkboxes, lists, choices, and other GUI components; and creating and using Applets.
Prerequisite(s): CIS 131.
Offered: Fall, Spring.
CIS 280 Systems Analysis and Design: Concepts and Tools
4 cr. hrs. 4 periods (4 lec.)
Concepts of systems analysis and design for all phases of the systems development life cycle. Includes problem identification, project initiation and planning, analysis, logical design, physical design, implementation and testing, and operations and maintenance. Also includes specific tools used by systems analysts, introduction and use of CASE (computer-aided software engineering) tools, and project management software.
Prerequisite(s): CIS 131 or 162.
Offered: Fall, Spring.

CIS 281 Systems Analysis and Design: Applications
3 cr. hrs. 3 periods (3 lec.)
Concepts and tools of systems analysis applied to specific projects. Includes performing a project from problem initiation through to implementation using CASE tools, project management software, and appropriate software development tools.
Prerequisite(s): CIS 280.
Offered: Fall.

CIS 283 Advanced Python
4 cr. hrs. 4 periods (4 lec.)
Advanced features of the Python programming language. Includes object-oriented programming, database access, GUI development with tkinter, web applications.
Prerequisite(s): CIS 185.
Offered: Fall, Spring.

CIS 299 Advanced Co-op: Computer Information Systems
1 cr. hrs. 1 periods (1 lec.)
See Cooperative Education (CED) section for description.
Corequisite(s): CIS 299WK
Information: May be taken two times for a maximum of two credit hours.
Offered: Spring.

CIS 299WK Adv Co-op Work: Comp Info Sys
1-8 cr. hrs. 5-40 periods (5-40 lab)
Corequisite(s): CIS 299
Information: May be taken two times for a maximum of sixteen credit hours.
Offered: Spring.

Computer Software Applications
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CSA 089 Beginning Computer Skills
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)
Beginning approach to operating a computer with a focus on basic computer skills and computer terminology. Includes Windows basics, Internet basics, fundamentals of Pima Community College web site and MyPima, email basics, and basic word processing skills.
Offered: Spring.

CSA 100 Computer Literacy
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)
Overview of computer applications and functions. Includes components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes computer networks for communication and information.
Recommendation: Completion of CSA 089 or basic computer and keyboard skills, completion of REA 091 or satisfactory score on the reading assessment test before enrolling in this course.
Information: CSA 100 meets occupational general education computer and information literacy requirements and is a one credit version of CIS-CSA 104.
Offered: Fall, Spring, Summer.
CSA 104 Computer Fundamentals  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Introduction to computer information systems. Includes hardware, system software, networks, and threats posed by malicious software and web sites. Also includes the social and economic effects of information, using the Internet to do research, and productivity application software.  
**Recommendation:** Completion of CSA 089 or basic computer and keyboard skills, completion of REA 091 or satisfactory score on the reading assessment test before enrolling in this course.  
**Information:** Same as CIS 104.  
**Offered:** Spring.

CSA 110 Spreadsheets: Microsoft Excel  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Fundamentals of spreadsheet applications using Microsoft Excel. Includes spreadsheet concepts, formulas and functions, formatting worksheets and cells, working with charts and graphics. Also includes Excel lists, managing multiple worksheets and workbooks, collaborating on a workbook, developing an Excel application, data tables and Scenario management, using Solver, importing data, and advanced functions and filtering.  
**Prerequisite(s):** MAT 086, or required score on the mathematics assessment test, or TEC 111.  
**Recommendation:** Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Compass Reading assessment test before enrolling in this course.  
**Information:** Prerequisite may be waived with consent of instructor.  
**Offered:** Fall, Spring, Summer.

CSA 120 Word Processing: Word  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Word processing techniques using Microsoft Word create, compare, and manage a range of documents. Includes application of templates, themes, styles, mail merge, web pages, macros, tables, forms, cross references, and indexes.  
**Recommendation:** CSA 089 or basic computer skills, completion of REA 091 or satisfactory score on the reading assessment test. OAP 111 or keyboarding by touching at 30 wpm.  
**Offered:** Fall, Spring, Summer.

CSA 130 PowerPoint  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Fundamentals of Microsoft PowerPoint presentation software. Includes introduction to PowerPoint, beginning a presentation, templates and wizards, color scheme, drawing tools, clip art, presentation in outline view, toolbars, organization charts, graphs, advanced text and graphics, templates and the slide master, slide shows, output and presentation options, animation, video, sound, creating action buttons, connecting to the Internet, and running a slide show.  
**Recommendation:** CSA 089 or basic computer skills, completion of REA 091 or satisfactory score on the reading assessment.  
**Offered:** Fall, Spring.

CSA 152 Internet Browser: Microsoft Explorer  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Fundamentals of Microsoft Internet Explorer. Includes introduction to the Internet and the World Wide Web, browsing the Web, customizing the browser, printing and saving Web pages, searching the Web, information resources on the Web, communication and file transferring using the internet, security features, enhancing internet explorer, and ethics and intellectual properties.  
**Recommendation:** Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.  
**Offered:** Spring.

CSA 159 Introduction to Web Pages Using Dreamweaver  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to web site concepts in a Microsoft Windows environment using Dreamweaver. Includes the principles behind HyperText Markup Language (HTML), Extensible HyperText Markup Language (XHTML), and Cascading Style Sheets (CSS). Also includes the creation and formatting of web pages and inclusion of graphic elements, images, tables, links, forms, layout and printing of web pages.  
**Recommendation:** Completion of CIS/CSA 104 prior to enrolling in this course.  
**Offered:** Spring.
CSA 170 Database: Access  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Techniques for using Microsoft Access. Includes an overview of Microsoft Access, creating tables, working with tables, creating and using select queries, creating and using forms, creating and using reports, creating a report that contains totals, principles of table design and relationships, table design techniques, designing select queries, customizing form designs, working with data access pages, customizing reports, parameter and action queries, query joins and crosstab queries, using advanced form techniques, creating basic macros to automate forms, using macros to provide user interaction and automate tasks, using advanced report techniques, and Access, and the Internet.  
Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.  
Offered: Fall, Spring.

CSA 182 Microsoft Windows: Current Version  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Overview of the Microsoft Windows operating system. Includes introduction to Windows, active desktop, multitasking, Windows help features, Windows Explorer, file management, Windows accessories, exchanging data between programs, print management, control panel, customizing Windows, and networking with Windows.  
Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.  
Offered: Spring.

CSA 210 Microsoft Excel Fundamentals  
2 cr. hrs. 4 periods (1 lec., 3 lab)  
Basic and intermediate functions and features of Microsoft Excel. Includes cells and cell content, data analysis, formula calculations, graphics, workgroup collaborations, format and print worksheets, and managing and modifying workbooks. Also includes preparation for the Microsoft Office Specialist (MOS) Excel Certification.  
Information: Completion of CSA 089, CSA 100, or basic computer skills, and completion of REA 091 or testing above REA 091 on the Reading assessment test before enrolling in this course.  
Offered: May not be offered this year, check class schedule.

Cooperative Education

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CED 199 Co-Op: Liberal Arts  
1 cr. hrs. 1 periods (1 lec.)  
Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Includes communication skills, time and energy management, stress and its management, careers: information and its uses, job market, principles, theories, and practices in the career field, and problems in the work situation.  
Corequisite(s): CED 199WK  
Information: May be taken two times for a maximum of two credit hours.  
Offered: May not be offered this year, check class schedule.

CED 199WK Co-op Work: Liberal Arts  
1-8 cr. hrs. 5-40 periods (5-40 lab)  
A supervised cooperative work program for students in related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.  
Corequisite(s): CED 199  
Information: May be taken two times for a maximum of sixteen credit hours.  
Offered: May not be offered this year, check class schedule.
Crime Scene Management

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CSM 100 Introduction to Photography Equipment and Processing for Crime Scene Investigations
1 cr. hrs. 1 periods (1 lec.)
Focus on developing skills in photographing a crime scene. Includes processing black and white films and paper. Also includes tools and equipment, taking basic crime scene photographs, and chemical processes used in processing crime scene photographs.
Offered: May not be offered this year, check class schedule.

CSM 101 Criminalistics
2 cr. hrs. 2 periods (2 lec.)
Focuses on awareness and identification of both physical and biological evidence associated with crime scenes, with an emphasis on scientific analysis. Includes discussion on fingerprints, ballistics, DNA and blood evidence, hair and fibers, tool marks, bite marks, glass fragments, handwriting analysis, the scientific technology behind the investigative process, safety issues, and the future of criminalistics.
Offered: May not be offered this year, check class schedule.

CSM 102 Crime Scene Photography
1 cr. hrs. 1 periods (1 lec.)
Focuses on the specific skills needed to photograph various types of crime scene situations. Includes 1:1 photography, trace evidence, proper use of photographic equipment for crime scene investigations, and photographing post mortem injuries. 
Prerequisite(s): CSM 100.
Offered: May not be offered this year, check class schedule.

CSM 103 Latent Processing
1 cr. hrs. 1 periods (1 lec.)
Techniques involved in developing latent fingerprints. Includes physical characteristics, types of fingerprints, principles of fingerprinting, fingerprint collection, fingerprint surfaces, and the photography of latent prints.
Offered: May not be offered this year, check class schedule.

CSM 104 Fingerprint Identification
3 cr. hrs. 3 periods (3 lec.)
Provides in-depth study and analysis of fingerprints and their comparative value. Includes fingerprinting history, basic pattern types, identification standards and protocols, fingerprint pattern interpretations, and classification systems.
Offered: May not be offered this year, check class schedule.

CSM 105 Blood Pattern Documentation
.5 cr. hrs. .5 periods (.5 lec.)
Focuses on awareness of evidentiary value associated with bloodstain interpretation and the importance of proper photographic documentation. Includes discussion on stain and flow patterns, surface considerations, photographing blood patterns, health hazards, and blood detection presumptive tests.
Offered: May not be offered this year, check class schedule.

CSM 106 Ballistics
.5 cr. hrs. .5 periods (.5 lec.)
Focuses on firearms, safety and basic evidence collection in crime scene management. Includes firearms and ammunition recognition and identification, ammunition components and homemade bombs. Also includes the scientific technology involved in comparative analysis.
Offered: May not be offered this year, check class schedule.

CSM 107 Courtroom Testimony and Report Writing
.5 cr. hrs. .5 periods (.5 lec.)
Focuses on general court practices expected of a crime scene investigator. Includes extensive use of mock/moot trial methods to prepare students for court cases. Also includes developing complete and accurate case reports, tools used by defense attorneys, cross examination, and pre-trial interviews.
Information: This course emphasizes writing skills.
Offered: May not be offered this year, check class schedule.
Culinary Arts

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

CUL 100 Culinary Bootcamp
3 cr. hrs. 5 periods (1 lec., 4 lab)
Intensive introduction to the fundamentals of cooking that covers kitchen operation and culinary techniques. Includes instruction in kitchen skills; equipment and utensils; use and storage of ingredients; and safety precautions. Also includes demonstrations of various cooking methods, such as dry heat cooking (roasting, grilling, sautéing, pan frying), moist heat cooking (braising, shallow poaching, deep poaching, steaming), baking (techniques and production), and sauce preparation. Also includes instruction in culinary and kitchen terminology.

Information: Students who enter the AAS program in Culinary Arts may use this course as an elective.

Offered: Fall, Spring.

CUL 101 Principles of Restaurant Operations
3 cr. hrs. 3 periods (3 lec.)
Fundamentals of operating and managing small and large restaurants. Includes concept development; menu development and food purchases; kitchen equipment; budgeting and cost control; financing and leasing; and legal and tax matters. Also includes restaurant organization, job definitions and staffing, employee training, marketing, sales and promotion, and customer relations.

Offered: Fall, Spring, Summer.

CUL 110 Food Service Nutrition
2 cr. hrs. 2 periods (2 lec.)
Basic nutrition concepts with an emphasis on the nutritional concerns of restaurants and other types of food service operations. Includes health and nutrition; evaluation and use of popular and commercial nutrition information; nutrition elements, such as carbohydrates, lipids, proteins, vitamins, minerals, and water; energy metabolism/balance; and nutrition principles and the life cycle.

Offered: Fall, Spring, Summer.

CUL 115 Food Service Sanitation and Safety
3 cr. hrs. 3 periods (3 lec.)
Theory and practice of food service safety and sanitation. Includes creating a safe food service environment; food-borne illnesses; Hazard Analysis Critical Control Points (HACCP); sanitation in the purchasing, receiving, and storage of food; and sanitation in the preparation and service of food. Also includes maintaining sanitary facilities and equipment, safety and accident prevention, and legal requirements for food service safety and sanitation. Reviews legal elements of food service sanitation based on requirements and recommendations of Pima County Health Department.

Offered: Fall, Spring, Summer.

CUL 126 Applied Math for Culinary
1 cr. hrs. 1 periods (1 lec.)
Fundamentals of cost control in food service operations. Includes an introduction to profit and loss; balance sheets; net worth statements; unit and recipe costing; inventory and food cost percentages; controlling food costs; and menu pricing. Also includes measurements and conversions, yield tests, and recipe conversions.

Offered: May not be offered this year, check class schedule.

CUL 130 Hot Foods I
3 cr. hrs. 5 periods (1 lec., 4 lab)
Introduction to all facets of hot foods. Includes classic stocks; sauces; soups; liaisons such as roux and starches; cooking techniques; preparation of vegetables; and butchering.

Corequisite(s): CUL 150, CUL 160

Offered: Fall.

CUL 140 Culinary Principles
3 cr. hrs. 3 periods (3 lec.)
Introduction to the culinary profession. Includes professionalism, responsibilities, food service vocabulary, menu elements, principles of cooking, and tools and equipment. Also includes knives and knife skills, food tasting, identifying and describing stocks and sauces, herbs and spices, chocolate, and vegetables.

Offered: Fall, Spring, Summer.
CUL 150 Garde Manger  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Introduction to the fundamentals of Garde Manger. Includes care of equipment; knife skills; basic sandwiches; herbs and spices; salad greens; dressings (emulsified and non-emulsified); and commercial cooking techniques.  
Corequisite(s): CUL 130, CUL 160  
Offered: Fall, Spring.

CUL 153 Cakes  
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)  
Introduction to the art of cake baking. Includes the ingredients, preparation, and baking of cakes. Also includes icings, decorations, and fillings.  
Offered: Fall, Spring, Summer.

CUL 156 Pies  
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)  
Introduction to the art of baking pies. Includes a variety of pastry dough, fillings, and other ingredients for creating pies and tarts. Also includes mixing; shaping; baking; and plating and presentation.  
Offered: Fall, Spring, Summer.

CUL 160 Bakery and Pastry Production I  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
A comprehensive introduction to preparing an array of baked goods and sweets. Includes yeast breads; quick breads; creams and custards; cakes; filling and frostings; cookies and brownies; elementary plating; and decorating and garnishing techniques. Also includes ingredients; bakery and pastry vocabulary; and safety and sanitation.  
Corequisite(s): CUL 130, CUL 150  
Offered: Spring.

CUL 161 Cake Decorating and Candy Making  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Basic principles and methods of cake decorating and candy making. Includes history of cakes; selection of ingredients; cooking procedures; cake assembly; and presentation. Also includes techniques for creating basic candies, including holiday treats.  
Offered: Fall, Spring.

CUL 162 Art of Chocolate  
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)  
Introduction to chocolate used in the culinary arts. Includes an introduction and history of chocolate; truffles, dough and batters; and molded and free form art work.  
Offered: Fall.

CUL 163 Sauces  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Concepts, skills, and techniques for sauce and stock creation. Includes preparation of stocks and sauces in a traditional manner and their uses in classic and contemporary kitchens. Also includes identification of and appropriate uses for liaisons.  
Offered: Fall, Spring, Summer.

CUL 166 Gluten-Free Baking  
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)  
Introduction to the art of gluten-free baking. Includes gluten-free breads, desserts, and pizza. Also includes mixing, shaping, baking, and plating and presentation.  
Offered: Fall, Spring, Summer.

CUL 168 Specialty and Hearth Breads  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Preparation, baking, and evaluation of specialty and hearth breads. Includes the evolution of bread products, bread preparation, and the proper use of flour and yeast. Also includes preparing a variety of classic artisan bread shapes, presenting attractive finished products, and judging the quality of finished breads. Also includes health and sanitation considerations in bread making.  
Information: Consent of Culinary Arts Department is required before enrolling in this course.  
Offered: Fall, Spring.
CUL 170 Dining Room Operations
2 cr. hrs. 2 periods (2 lec.)
Theory and practice of operating a casual dining room. Includes preparation for guest service, proper etiquette for serving guests and clearing tables, wine and beverage sales and service, salesmanship, and customer service.
Offered: May not be offered this year, check class schedule.

CUL 180 Food in History
3 cr. hrs. 3 periods (3 lec.)
History of food, the story of cuisine, and the social history of eating. Includes collecting, gathering and hunting food; stock-breeding and farming; sacramental foods; the economy of food markets; the era of merchants; New World food discoveries; and professional food preparation.
Offered: May not be offered this year, check class schedule.

CUL 185 Catering Operations
2 cr. hrs. 2 periods (2 lec.)
Theory and practice of planning and executing catering functions. Includes booking and planning, banquet room set-up and staffing, banquet service, guest payment and follow up, and specialized functions.
Offered: Fall, Spring.

CUL 199 Co-op: Culinary Arts
1 cr. hrs. 1 periods (1 lec.)
See Cooperative Education section for description.
Offered: May not be offered this year, check class schedule.

CUL 199WK Co-op Work: Culinary Arts
1-3 cr. hrs. 5-15 periods (5-15 lab)
A supervised cooperative work program for students in culinary arts. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.
Information: May be taken three times for a maximum of nine credit hours.
Offered: Spring.

CUL 230 Hot Foods II
3 cr. hrs. 5 periods (1 lec., 4 lab)
Continuation of preparation and service of hot food in a contemporary kitchen. Includes cooking techniques; contemporary sauce making; vegetables, grains, and starches; natural liaisons; food plating; and sanitation procedures and techniques.
Prerequisite(s): CUL 130.
Corequisite(s): CUL 251 and CUL 260
Offered: Fall, Spring.

CUL 251 International Cuisine: World of Flavor
3 cr. hrs. 5 periods (1 lec., 4 lab)
Concepts, skills, and techniques used to create global cuisine. Includes ingredients and foods from around the world. Also includes culinary techniques that incorporate culture and food traditions from Latin America, the Mediterranean, Europe, Asia, and the United States.
Corequisite(s): CUL 230, CUL 260
Offered: Fall, Spring.

CUL 260 Bakery and Pastry Production II
3 cr. hrs. 5 periods (1 lec., 4 lab)
Advanced theory and practice of operating a bakery or pastry shop in a hotel or restaurant kitchen. Includes planning, ordering, and scheduling for bakery production; safety and sanitation; and bakery and pastry vocabulary. Also includes advanced yeast breads; classic French pastries; ice cream and frozen desserts; pastry assembly; pastry garnishes; and complex plated desserts.
Prerequisite(s): CUL 160.
Corequisite(s): CUL 230, CUL 251
Offered: Fall, Spring.
**CUL 261 Advanced Cake Decorating**  
3 cr. hrs. 5 periods (1 lec., 4 lab)  
Advanced principles and methods of cake decorating. Includes advanced flower design, gum paste, airbrush, photo transfer, fondant, and chocolate artistry. Also includes advanced techniques for creating cakes for weddings and other special occasions.  
*Prerequisite(s): CUL 161.*  
*Offered: May not be offered this year, check class schedule.*

---

**Dance**  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**DNC 107 Dance Conditioning**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Introduction to the concepts of dance as a strengthening, stretching, and cardiovascular activity and the awareness of alignment techniques through specific movement experiences and images. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements of dance, and developing the craft.  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: Fall, Spring.*

**DNC 130 Tap Dance I**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Introduction to tap dancing. Includes class protocol, warm up, standing and center floor work, locomotor work, elements and developing the craft.  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: May not be offered this year, check class schedule.*

**DNC 131 Tap Dance II**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Continuation of DNC 130. Includes tap dance technique at an intermediate level, class protocol, warm-up, standing and center floor work, locomotor work, elements, and developing the craft.  
*Prerequisite(s): DNC 130.*  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: May not be offered this year, check class schedule.*

**DNC 150 Ballet I**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Introduction to the theory and practice of ballet at the beginning level. Includes terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: Fall, Spring.*

**DNC 151 Ballet II**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Continuation of DNC 150. Includes ballet techniques at the intermediate level, terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.  
*Prerequisite(s): DNC 150.*  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: Spring.*

**DNC 152 Ballet III**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Continuation of DNC 151. Includes ballet technique at the advanced level, ballet terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.  
*Prerequisite(s): DNC 151.*  
*Information: May be taken four times for a maximum of eight credit hours.*  
*Offered: Fall.*
DNC 166 Modern Dance I
2 cr. hrs. 3 periods (1 lec., 2 lab)
Development of basic skills for dance. Includes modern dance technique at a beginning level, class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.
Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

DNC 167 Modern Dance II
2 cr. hrs. 3 periods (1 lec., 2 lab)
Continuation of DNC 166. Includes development of intermediate skills for modern dance, class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.
Prerequisite(s): DNC 166.
Information: May be taken four times for a maximum of eight credit hours.
Offered: Spring.

DNC 168 Modern Dance III
2 cr. hrs. 3 periods (1 lec., 2 lab)
Continuation of DNC 167. Includes development of advanced skills for modern dance, class protocol, warm-up, floor work, locomotor work, elements, and developing the craft.
Prerequisite(s): DNC 167.
Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall.

DNC 180 Choreography
2 cr. hrs. 2 periods (2 lec.)
The study of basic dance composition and construction of a phrase, structure, and form. Includes exploring the basic elements of dance, building a movement phrase, choreographic elements, constructing a dance, and analyzing the effectiveness of choreography.
Prerequisite(s): DNC 150 or 166 or 219.
Information: Prerequisites may be waived with consent of instructor. Information: May be taken four times for a maximum of eight credit hours.
Offered: Spring.

DNC 200 Dance Appreciation and History
3 cr. hrs. 3 periods (3 lec.)
Introduction to the art of dance from its beginning as a religious form to its current place on Broadway and television. Includes concepts in dance appreciation, themes and purposes of dance, analyzing dance works, styles of dance, roles of and major historical periods of world dance, and movement sessions.
Offered: Fall.

DNC 219 Jazz Dance I
2 cr. hrs. 3 periods (1 lec., 2 lab)
Introduction and development of movement skills necessary to prepare the body as an instrument of expression in jazz dance styles. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.
Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

DNC 220 Jazz Dance II
2 cr. hrs. 3 periods (1 lec., 2 lab)
Continuation of DNC 219. Progressive development of alignment for intermediate level jazz dance. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.
Prerequisite(s): DNC 219.
Information: May be taken four times for a maximum of eight credit hours.
Offered: Spring.
DNC 221 Jazz Dance III  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Continuation of DNC 220. Progressive development of alignment for advanced level jazz dance. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.  
Prerequisite(s): DNC 220.  
Information: May be taken four times for a maximum of eight credit hours.  
Offered: Fall.

DNC 230 Rhythms for Dance  
2 cr. hrs. 2 periods (2 lec.)  
Exploration of the elements of music and music structures and their relationship to dance. Includes musical composition forms, rhythmic dance accompaniment, musical instruments, musical scores, and creation of dance accompaniment.  
Prerequisite(s): DNC 150 or 166 or 219.  
Offered: May not be offered this year, check class schedule.

DNC 269 Dance Ensemble  
3 cr. hrs. 6 periods (6 lab)  
Practical experience in all aspects for taking a dance piece from basic choreography and creating a professional performance. Includes rehearsal/performance process, responsibilities of a performer and/or a choreographer, performance skills, choreographic review; costuming, make-up, sets, and props; publicity and analysis of the concert.  
Prerequisite(s): DNC 150 or 166 or 219.  
Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.  
Offered: Fall, Spring.

DNC 280 Business for Dance Careers  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to the various careers available in dance and the appropriate business skills. Includes careers in dance, grant and proposal writing, agency interface, business skills, publicity, and creating a dance business on paper.  
Offered: Spring.

DNC 296 Independent Studies in Dance  
1-3 cr. hrs. 2-6 periods (2-6 lab)  
Composition and/or in-depth independent study in an area of the student's choice with approval by the supervising instructor.  
Information: May be taken four times for a maximum of twelve credit hours. Information: Consent of instructor is required before enrolling in this class.  
Offered: May not be offered this year, check class schedule.

Dental Assisting Education
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

DAE 159 Introduction to Health Care for Dental Assisting  
2 cr. hrs. 2 periods (2 lec.)  
Basic skills essential to working successfully with patients and co-workers in dental offices and clinics as a member of the dental health team. Includes study skills and psychology, vital signs, communication in the dental environment, job entry skills, and research and oral speech projects.  
Corequisite(s): DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 160 Orientation to Dental Care  
1 cr. hrs. 1 period (1 lec.)  
Overview of the field of dental care. Includes the profession of dentistry, areas of service, and ethics and jurisprudence.  
Corequisite(s): DAE 159, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.
DAE 161 Biomedical Dental Science  
3 cr. hrs. 3 periods (3 lec.)  
The biosciences as they relate to the oral cavity. Includes anatomy, physiology, microbiology, oral pathology, and nutrition as each affects total dental health.  
Corequisite(s): DAE 159, DAE 160, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 162 Dental Assisting I  
2 cr. hrs. 2 periods (2 lec.)  
Principles and techniques of dental assisting. Includes tooth morphology, of human dentition, hand and rotary dental instruments and their use in various operative procedures, and chairside procedures.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 162LB Dental Assisting I Lab  
1 cr. hrs. 3 periods (3 lab)  
This is the Lab portion of DAE 162.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 163 Oral Radiography  
2 cr. hrs. 2 periods (2 lec.)  
Introduction to dental roentgenography as a diagnostic aid. Includes radiation protection, dental film, film processing, digital radiography, identification of anatomical landmarks for mounting and interpretation, exposure techniques, and principles of supplementary film.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 163LC Oral Radiography Clinical Lab  
1 cr. hrs. 3 periods (3 lab)  
This is the Clinical Lab portion of DAE 163.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 164 Dental Materials  
2 cr. hrs. 2 periods (2 lec.)  
Chemical and physical properties of dental materials used in dental practice. Includes introduction to dental materials; preventive sealants and restorative materials; dental cements; impression materials; gypsum products; miscellaneous dental materials; and gold, non-precious alloys, and casting of metals.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

DAE 164LB Dental Materials Lab  
1 cr. hrs. 3 periods (3 lab)  
This is the Lab portion of DAE 164.  
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 165, DAE 165LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.
**DAE 165 Dental Assisting Procedures I**
1 cr. hrs. 1 periods (1 lec.)
Techniques and procedures of chairside dental assisting. Includes dental equipment and room design, chairside assisting and team approach, procedures applied in clinical treatment, and computer systems and technology in the dental environment. Also includes the application of student supervised experience in performing dental assisting functions in the clinical setting on patients.
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165LC
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Fall.

**DAE 165LC Dental Assisting Procedures Clinical I**
1 cr. hrs. 4 periods (4 lab)
Techniques and procedures of chairside dental assisting. Includes dental equipment and room design, chairside assisting and team approach, procedures applied in clinical treatment, and computer systems and technology in the dental environment. Also includes the application of student supervised experience in performing dental assisting functions in the clinical setting on patients.
Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162, DAE 162LB, DAE 163, DAE 163LC, DAE 164, DAE 164LB, DAE 165
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Fall.

**DAE 166 Dental Assisting II**
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of dental assisting. Includes pharmacology and therapeutics, techniques and procedures for emergency medical/dental care as applied to dental assisting, and dental office inventory control.
Prerequisite(s): DAE 159, 160, 161, 162/162LB, 163/163LC, 164/164LB and 165/165LC
Corequisite(s): DAE 167, DAE 169, DAE 169LC
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Spring.

**DAE 167 Dental Assisting III**
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of dental practices management and oral health education as applied to dental assisting. Includes preventive dentistry in dental health education, dental office procedures, and summary and evaluation.
Prerequisite(s): DAE 159, 160, 161, 162/162LB, 163/163LC, 164/164LB and 165/165LC
Corequisite(s): DAE 166, DAE 169, DAE 169LC
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Spring.

**DAE 169 Dental Assisting Procedures II**
.5 cr. hrs. .5 periods (.5 lec.)
Application and evaluation of skills acquired in a clinical environment. Includes specialty seminars and guest lecturers, rotations to specialty practices, first and second clinical externship rotation assignments, discussion and analysis of clinical externship, and evaluation process.
Prerequisite(s): DAE 159, 160, 161, 162/162LB, 163/163LC, 164/164LB and 165/165LC.
Corequisite(s): DAE 166, DAE 167, DAE 169LC
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Spring.

**DAE 169LC Dental Assisting Procedures Clinical II**
6 cr. hrs. 24 periods (24 lab)
This is the clinical lab portion of DAE 169.
Prerequisite(s): DAE 159, 160, 161, 162/162LB, 163/163LC, 164/164LB and 165/165LC.
Corequisite(s): DAE 166, DAE 167, DAE 169
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Spring.
Dental Hygiene

For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

DHE 101 Dental Hygiene I
2 cr. hrs. 2 periods (2 lec.)
Introduction to the procedures used in the practice of dental hygiene at the beginning level. Includes professionalism and ethics, infection control, body mechanics/ergonomics, evaluation of patient medical and dental history, assessment data, and instrumentation. Also includes removal of soft deposits, fluorides, clinical procedures, and diversity of patient populations. Also includes a laboratory involving practicing dental hygiene procedures on student partners.
Corequisite(s): DHE 101LC, DHE 104, DHE 104LB, DHE 107, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 101LC Dental Hygiene I Clinical
3 cr. hrs. 12 periods (12 lab)
This is the clinical lab portion of DHE 101.
Corequisite(s): DHE 101, DHE 104, DHE 104LB, DHE 107, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 104 Dental and Oral Morphology
1 cr. hrs. 1 periods (1 lec.)
Form and function of primary and permanent dentition. Includes oral cavity proper, form, function and physiology, tooth identification, terminology, deciduous dentition morphology, occlusion, tooth anomalies, and root morphology.
Corequisite(s): DHE 101, DHE 101LC, DHE 104LB, DHE 107, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 104LB Dental and Oral Morphology Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of DHE 104.
Corequisite(s): DHE 101, DHE 101LC, DHE 104, DHE 107, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 107 Oral Embryology and Histology
2 cr. hrs. 2 periods (2 lec.)
The development and histology of teeth related to the intra and extra oral tissues of the head as they relate to the practice of dental hygiene. Includes terminology and formation of primary embryonic layers, histology, tooth development, enamel, dentin, and pulp. Also includes cementum, periodontal ligament, bone and alveolar process, and mucous membranes and salivary glands.
Corequisite(s): DHE 101, DHE 101LC, DHE 104, DHE 104LB, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 112 Preventive Dentistry
3 cr. hrs. 3 periods (3 lec.)
Introduction to dental disease and the promotion of dental health. Includes the role of dental hygienists as prevention specialists, clinical treatment theories, patient care readiness, dental disease, risk assessment, and oral hygiene instruction. Also includes dentin sensitivity, enamel demineralization and remineralization, chemotherapeutics, and tobacco cessation.
Corequisite(s): DHE 101, DHE 101LC, DHE 104, DHE 104LB, DHE 107, DHE 112, DHE 116, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.
DHE 116 Oral Radiography
2 cr. hrs. 2 periods (2 lec.)
Principles of dental radiography as a diagnostic aid. Includes radiation production, biology, clinic experience in exposing, processing, mounting, and interpreting radiographs on mannequins and patients using a variety of radiographic techniques.
Corequisite(s): DHE 101, DHE 101LC, DHE 104, DHE 104LB, DHE 107, DHE 112, DHE 116LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 116LC Oral Radiography Clinic
1 cr. hrs. 4 periods (4 lab)
This is the clinical lab portion of DHE 116.
Corequisite(s): DHE 101, DHE 101LC, DHE 104, DHE 104LB, DHE 107, DHE 112, DHE 116
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 119 Periodontology
2 cr. hrs. 2 periods (2 lec.)
Survey of periodontology comprised of the etiology, diagnosis, and prognosis of periodontal disease. Includes tissues and microscopic anatomy of the periodontium, historical background, causes, microbiology and classification of periodontal disease, local and systemic contributing factors, clinical assessment, radiographic analysis, and evidence-based periodontal care. Also includes decision making during treatment planning, nonsurgical and patient's role in periodontal therapy, maintenance therapy, research articles and applications, and new dental technology.
Prerequisite(s): DHE 101, 101LC, 104, 104LB, 107, 112, 116, and 116LC.
Corequisite(s): DHE 120, DHE 122, DHE 132, DHE 132LB, DHE 150, DHE 150LB, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 120 Oral Pathology
2 cr. hrs. 2 periods (2 lec.)
Overview of oral pathology which is the study of human disease as found within all of the tissues represented in the area of the oral cavity. Includes introduction to pathology, diagnostic methods, normal exam and variants of normal, inflammation and repair, physical/chemical injuries of the oral tissues, and immunity and autoimmune diseases. Also includes infectious diseases, developmental disorders, neoplasia, genetic disorders, and oral manifestations of systemic disease.
Prerequisite(s): DHE 101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 122, DHE 132, DHE 132LB, DHE 150, DHE 150 LB, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 122 Pharmacology
2 cr. hrs. 2 periods (2 lec.)
Introduction to the theory of pharmacology as it relates to dentistry. Includes drug action and handling, prescription writing, autonomic drugs, analgesics, antibacterial agents, anti-fungal, anti-viral, and anti-anxiety agents, and cardiovascular and psychotherapeutic agents. Also includes endocrine and hormonal drugs, anti-neoplastic and immunosuppressant agents, and respiratory, gastrointestinal, and emergency medications.
Prerequisite(s): DHE 101, 101LC, 104, 104LB, 107, 112, 116, and 116LC.
Corequisite(s): DHE 119, DHE 120, DHE 132, DHE 132LB, DHE 150, DHE 150LB, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.
DHE 132 Dental Materials
2 cr. hrs. 2 periods (2 lec.)
Chemical and physical properties of dental materials used in dental practice. Includes introduction to dental materials, preventive sealants and restorative materials, cements, impression materials, gypsum products, and miscellaneous dental materials. Also includes gold and gold casting procedures, whitening tray fabrication, and review of national board content relating to dental materials.
Prerequisite(s): DHE 101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 120, DHE 122, DHE 132LB, DHE 150, DHE 150LB, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 132LB Dental Materials Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of DHE 132.
Prerequisite(s): DHE 101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 120, DHE 122, DHE 132, DHE 150, DHE 150LB, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 150 Dental Hygiene II
2 cr. hrs. 2 periods (2 lec.)
Continuation of DHE 101/10LC. Application of dental hygiene skills with a variety of clinical patients with simple dental hygiene care plans. Includes instrument review, evidence-based decision making and treatment planning, medical emergency management review, special needs patients, powered instruments, air powder polishing and stain removal, care of dental prostheses, advanced instrumentation and alternate fulcrums, tobacco cessation, subgingival irrigation, and antimicrobials. Also includes dental implant instruments, case studies, table clinics, and laboratory procedures.
Prerequisite(s): DHE101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 120, DHE 122, DHE 132, DHE 132LB, DHE 150, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 150LB Dental Hygiene II Lab
.5 cr. hrs. 1.5 periods (1.5 lab)
This is the lab portion of DHE 150.
Prerequisite(s): DHE 101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 120, DHE 122, DHE 132, DHE 132LB, DHE 150, DHE 150LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 150LC Dental Hygiene II Clinical
3 cr. hrs. 12 periods (12 lab)
This is the clinical lab portion of DHE 150.
Prerequisite(s): DHE101/101LC, 104/104LB, 107, 112 and 116/116LC.
Corequisite(s): DHE 119, DHE 120, DHE 122, DHE 132, DHE 132LB, DHE 150, DHE 150LB
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 155LC Clinical Dental Hygiene Applications
1-2 cr. hrs. 4-8 periods (4-8 lab)
Application of dental hygiene skills on a variety of patients with advanced beginner care plans at the advanced beginner level. Includes instrumentation and clinical procedures.
Prerequisite(s): DHE 119, 120, 122, 132/132LB and 150/150LB/150LC.
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: May not be offered this year, check class schedule.
DHE 160LC Clinical Skills Enhancement I
.25-2 cr. hrs. 1-8 periods (1-8 lab)
A clinical remediation course designed to support identified first year dental hygiene students who are performing at or below clinic course expectations. Includes education plan, development of individualized clinical remediation plan, and assessment.
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course. May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

DHE 196 Independent Studies in Dental Hygiene
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent clinical applications, reading, projects, or lab activities for continuing student development in dental hygiene under faculty guidance.
Information: May be taken two times for a maximum of eight credit hours.
Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: Fall, Spring.

DHE 208 Pain and Anxiety Control for Dental Hygiene
1 cr. hrs. 1 periods (1 lec.)
Delivery of local anesthetics. Includes introduction to pain and anxiety control, pharmacology, neurophysiology, and local anesthetic agents, nitrous oxide and oxygen analgesia, health history and complications, treatment, laboratory practices on student partners, emergency procedures, and head and neck anatomy.
Prerequisite(s): DHE 119, 120, 122, 132/132LB and 150/150LB/150LC.
Corequisite(s): DHE 208LC, DHE 209, DHE 250, DHE 250LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 209 Ethics and Practice Management
1 cr. hrs. 1 periods (1 lec.)
Ethical theories and ethical principles and their application to the practice of dental hygiene. Includes the business the dentistry, dental hygiene career opportunities, ethics, and jurisprudence.
Prerequisite(s): DHE 155LC.
Corequisite(s): DHE 208, DHE 208LC, DHE 250, DHE 250LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 212 Nutrition for Oral Health
1 cr. hrs. 1 periods (1 lec.)
Introduction of the principles of nutrition including food sources, digestion, absorption, and metabolism of nutrients essential to the oral health of individuals. Includes nutrition as the foundation for general and oral health, nutritional and oral implications of common chronic health conditions, carbohydrates, proteins, lipids and fats, minerals and mineralization, medications and oral health, and nutritional concerns for the dentally compromised patient.
Prerequisite(s): DHE 119, 120, 122, 132, 132LB, 150, 150LB, and 150LC.
Corequisite(s): DHE 208, DHE 208LC, DHE 250, DHE 250LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.
DHE 213 Advanced Periodontal Services
2 cr. hrs. 2 periods (2 lec.)
Application of Dental Hygiene skills on advanced periodontal patients. Includes periodontal exam and initial phase, treatment plan, periodontal classifications, plaque control, scaling and root planning indications and limitations, sonic and ultrasonic therapy in periodontal services, hand and powered instrumentation, and implant maintenance. Also includes occlusal evaluation and adjustment, assessment, reevaluation of treatment and maintenance, periodontal healing, antimicrobials and antibiotics, surgical procedures, and nonsurgical periodontal therapy.
Prerequisite(s): DHE 208, 208LC, 209, 212, 250, 250LC.
Corequisite(s): DHE 213CA, DHE 213CB, DHE 216, DHE 255, DHE 255LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 213CA Advanced Periodontal Services Clinical - A
1 cr. hrs. 3 periods (3 lab)
This is the clinical lab part A portion of DHE 213.
Prerequisite(s): DHE 208, 208LC, 209, 212, 250 and 250LC.
Corequisite(s): DHE 213, DHE 213CB, DHE 216, DHE 255, DHE 255LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 213CB Advanced Periodontal Services Clinical - B
1 cr. hrs. 4 periods (4 lab)
This is the clinical lab part B portion of DHE 213.
Prerequisite(s): DHE 208, 208LC, 209, 212, 250 and 250LC.
Corequisite(s): DHE 213, DHE 213CA, DHE 216, DHE 255, DHE 255LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 216 Community and Dental Health Education
3 cr. hrs. 3 periods (3 lec.)
Overview of public dental health education. Includes critiquing dental literature, community dental health planning, basic biostatistics, and epidemiology and research in the dental community. Also includes dental needs and demands, dental care delivery and prevention in the United States.
Prerequisite(s): DHE 208/208LC, 209 and 250/250LC.
Corequisite(s): DHE 213, DHE 213CA, DHE 216, DHE 255, DHE 255LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Spring.

DHE 250 Dental Hygiene III
3 cr. hrs. 3 periods (3 lec.)
Continuation of DHE 150/150LB/150LC. Application of dental hygiene skills with a variety of clinical patients with dental hygiene care plans at the intermediate level. Includes dental hygiene theory and care, instrumentation, and care of patients with various physical disabilities.
Prerequisite(s): DHE 119, 120, 122, 132/132LB and 150/150LB/150LC.
Corequisite(s): DHE 208, DHE 208LC, DHE 209, DHE 250LC
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.

DHE 250LC Dental Hygiene III Clinical
4 cr. hrs. 16 periods (16 lab)
This is the clinical lab portion of DHE 250.
Prerequisite(s): DHE 119, 120, 122, 132/132LB and 150/150LB/150LC.
Corequisite(s): DHE 208, DHE 208LC, DHE 209, DHE 250
Information: Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
Offered: Fall.
DHE 255 Dental Hygiene IV
1 cr. hrs. 1 periods (1 lec.)
Continuation of DHE 250/250LC. Includes application of dental hygiene skills with a variety of clinical patients with dental hygiene care plans at the advanced level. Also includes national, regional, and state exam preparation, advanced instrumentation, and advanced ultrasonic inserts and techniques.
**Prerequisite(s):** DHE 208, 208LC, 209, 212, 250, and 250LC.
**Corequisite(s):** DHE 213, DHE 213CA, DHE 213CB, DHE 216, DHE 255LC
**Information:** Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
**Offered:** Spring.

DHE 255LC Dental Hygiene IV Clinical
3 cr. hrs. 12 periods (12 lab)
This is the clinical lab portion of DHE 255.
**Prerequisite(s):** DHE 208, 208LC, 209, 212, 250, and 250LC.
**Corequisite(s):** DHE 213, DHE 213CA, DHE 213CB, DHE 216, DHE 255
**Information:** Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
**Offered:** Spring.

DHE 260LC Clinical Skills Enhancement II
.25-2 cr. hrs. 1-4 periods (1-4 lab)
A clinical remediation course designed to support identified second year dental hygiene students who are performing at or below clinic course expectations. Includes identification of need through clinical performance scores, development of individualized clinical remediation plan, and assessment.
**Information:** Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course. May be taken two times for a maximum of four credit hours.
**Offered:** Fall, Spring.

DHE 296 Advanced Independent Study: Dental Hygiene
1-4 cr. hrs. 3-12 periods (3-12 lab)
Students independently continue their development in Dental Hygiene under the guidance of a faculty member.
**Information:** May be taken two times for a maximum of eight credit hours. **Information:** Students must be admitted to the PCC Dental Hygiene program and obtain consent of the Dental Hygiene department before enrolling in this course.
**Offered:** Fall, Spring.

**Dental Lab Technology**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

DLT 101 Dental Morphology
2 cr. hrs. 2 periods (2 lec.)
Introduction to human dental morphology through lectures, readings, and sculpting exercises. Includes the dental health care team, anatomical landmarks and terminology, tooth development and landmarks, tooth sculpting, articulators and model mounting, occlusion, and care of laboratory instruments.
**Corequisite(s):** DLT 101LB
**Information:** Consent of program director is required before enrolling in this course.
**Offered:** Fall.

DLT 101LB Dental Morphology Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of DLT 101.
**Corequisite(s):** DLT 101
**Offered:** Fall.
DLT 102 Non-Metallic Dental Materials
3 cr. hrs. 3 periods (3 lec.)
Prerequisite(s): DLT 101 or concurrent enrollment.
Information: Consent of program director is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

DLT 103 Complete Dentures
1 cr. hrs. 1 periods (1 lec.)
Examination of the relationship between upper and lower dentures as interpreted on a functional articulator. Includes evaluation of preliminary impressions and fabrication of models, custom impression trays, evaluation of final impression and master model, baseplate fabrication, occlusion rims, articulation and mounting of working models, and prosthetic tooth selection. Also includes setting artificial denture teeth, processing the trial denture, finishing complete dentures, fabricating surgical templates, and denture repair and reline.
Prerequisite(s): DLT 101 or concurrent enrollment.
Corequisite(s): DLT 103LB
Information: Consent of program director is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

DLT 103LB Complete Dentures Lab
3 cr. hrs. 9 periods (9 lab)
This is the Lab portion of DLT 103.
Corequisite(s): DLT 103
Offered: May not be offered this year, check class schedule.

DLT 104 Dental Occlusion
2 cr. hrs. 2 periods (2 lec.)
Introduction to the principles of techniques used in the dental laboratory. Includes how to trace and label all aspects of the maxillary and mandibular teeth, control of inlay wax application, restoring occlusal surfaces and clinical crowns to ideal occlusion, functional occlusion on articulated casts, and philosophies of different wax added systems.
Prerequisite(s): DLT 101.
Corequisite(s): DLT 104LB
Information: Consent of program director is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

DLT 104LB Dental Occlusion Lab
2 cr. hrs. 6 periods (6 lab)
This is the Lab portion of DLT 104.
Corequisite(s): DLT 104
Offered: May not be offered this year, check class schedule.

DLT 105 Partial Denture Construction
1 cr. hrs. 1 periods (1 lec.)
Construction of removable partial dentures (RPDs). Includes evaluation and fabrication of preliminary impressions and models, survey and RPD design, evaluation and fabrication of final impressions and master models, block out procedures, model duplication and refractory casts, creating wax patterns, spruing and investing frameworks, burnout and alloy casts, and recovery of RPD casting. Also includes metal finishing and polishing, occlusion rims, prosthetic tooth selection and tooth setting, processing and finishing the RPD, and soldering of dental alloys.
Prerequisite(s): DLT 101 or concurrent enrollment.
Corequisite(s): DLT 105LB
Information: Consent of program director is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

DLT 105LB Partial Denture Construction Lab
3 cr. hrs. 9 periods (9 lab)
This is the Lab portion of DLT 105.
Corequisite(s): DLT 105
Offered: May not be offered this year, check class schedule.
DLT 106 Orthodontic Appliances
2 cr. hrs. 2 periods (2 lec.)
Construction and theory of simple orthodontic appliances. Includes evaluation of preliminary impressions and fabrication of orthodontic study models, model trimming and evaluation, classification of occlusion and malocclusion types, tooth numbering systems and identification, wrought wire fabrication, application of wire bending skills, fabrication of removable tooth retaining and moving appliances, and fixed space maintaining appliances.
Prerequisite(s): DLT 101 or concurrent enrollment.
Corequisite(s): DLT 106LB
Information: Consent of program director is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

DLT 106LB Orthodontic Appliances Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of DLT 106.
Corequisite(s): DLT 106
Offered: May not be offered this year, check class schedule.

DLT 108 Laboratory Management
3 cr. hrs. 3 periods (3 lec.)
Examination of the principles of dental laboratory management. Includes blood borne pathogens, infection control guidelines and procedures, Occupational Safety and Health Administration (OSHA) regulations for dental laboratories, post exposure plan, legal and ethical aspects of the industry, history of dentistry, National Association of Dental Laboratories, and establishing a dental laboratory.
Prerequisite(s): DLT 101 or concurrent enrollment.
Information: Consent of program director is required before enrolling in this course.
Offered: Spring.

DLT 201 Dental Laboratory I
2 cr. hrs. 2 periods (2 lec.)
Introduction to the principles and techniques used in the dental laboratory. Includes fabrication and articulation of removable die models, functional occlusion in wax crown and bridge patterns and in crown and bridge metal castings, spruing, investing, and casting crown and bridge patterns, and repairs and soldering.
Prerequisite(s): DLT 101.
Corequisite(s): DLT 201LB
Information: Consent of program director is required before enrolling in this course.
Offered: Fall.

DLT 201LB Dental Laboratory I Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of DLT 201.
Corequisite(s): DLT 201
Offered: Fall.

DLT 202 Dental Metallurgy
3 cr. hrs. 3 periods (3 lec.)
Examination of metals currently used by the dental technician. Includes introduction to dental alloys, physical and chemical properties of dental alloys, weights, measures, and calculations, alloy processing, equipment calibration, metal treatment and torch techniques, electro polisher and electrolyte solution operation and safety procedures, and metal sensitivities and allergies.
Prerequisite(s): DLT 101.
Information: Consent of program director is required before enrolling in this course.
Offered: Fall.
DLT 203 Fixed Bridgework
1 cr. hrs. 1 periods (1 lec.)
Construction of fixed single tooth restorations and bridgework. Includes prescriptions and work authorizations, fixed restoration design and preparation requirements, waxing, seating, finishing, and evaluation of fixed single tooth restorations and bridgework castings.
Prerequisite(s): DLT 101 or concurrent enrollment.
Corequisite(s): DLT 203LB
Information: Consent of program director is required before enrolling in this course.
Offered: Fall.

DLT 203LB Fixed Bridgework Lab
3 cr. hrs. 9 periods (9 lab)
This is the Lab portion of DLT 203.
Corequisite(s): DLT 203
Offered: Fall.

DLT 204 Dental Laboratory II
2 cr. hrs. 2 periods (2 lec.)
Continuation of DLT 201. Principles and techniques used in the dental laboratory. Includes physics of light, color theory, endodontically treated teeth, reduction copings, attachments, application of dental attachments, swing lock retention for removable partial dentures, and semi precision attachment in a bridge.
Prerequisite(s): DLT 101/101LB, 104/104LB, 108, 201/201LB, 202 and 203/203LB.
Corequisite(s): DLT 204LB
Information: Consent of program director is required before enrolling in this course.
Offered: Spring.

DLT 204LB Dental Laboratory II Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of DLT 204.
Corequisite(s): DLT 204
Offered: Spring.

DLT 206 Dental Ceramics
2 cr. hrs. 2 periods (2 lec.)
Introduction to porcelain fused to metal techniques. Includes prescriptions and work authorizations; porcelain fused to metal restoration designs and preparation requirements; design, wax-up, and finishing of porcelain fused to metal substructure; metal conditioning; and building ceramic restorations. Also includes porcelain furnace operation, contouring fired porcelain, finishing, and soldering.
Prerequisite(s): DLT 101/101LB, 104/104LB, 108, 202 and 203/203LB.
Corequisite(s): DLT 206LB
Information: Consent of program director is required before enrolling in this course.
Offered: Spring.

DLT 206LB Dental Ceramics Lab
2 cr. hrs. 6 periods (6 lab)
This is the Lab portion of DLT 206.
Corequisite(s): DLT 206
Offered: Spring.

DLT 207 Advanced Dental Laboratory Technology
2 cr. hrs. 2 periods (2 lec.)
Application of dental laboratory techniques at the advanced level. Includes full dentures, partial dentures, crown and bridge, dental ceramics, and orthodontics.
Prerequisite(s): DLT 101/101LB, 104/104LB, 108, 202 and 203/203LB.
Corequisite(s): DLT 207LB
Information: Consent of program director is required before enrolling in this course.
Offered: Spring.
DLT 207LB Advanced Dental Laboratory Technology Lab
3 cr. hrs. 9 periods (9 lab)
This is the Lab portion of DLT 207.
Corequisite(s): DLT 207
Offered: Spring.

Digital Arts

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

DAR 051 Basic Macintosh for Computer Graphics
1 cr. hrs. 2 periods (2 lab)
Introduction to the Macintosh computer environment. Includes operating system, techniques, document files, hardware, and document storage.
Offered: May not be offered this year, check class schedule.

DAR 100 Fundamentals of Rendering
4 cr. hrs. 5 periods (3 lec., 2 lab)
Basic principles and methods of drawing as applied to digital and graphic design. Includes perspective, light sources, form, and textures.
Offered: Fall.

DAR 101 Color Rendering and Theory
4 cr. hrs. 5 periods (3 lec., 2 lab)
Basic color theory and rendering principles as applied to digital and graphic design. Includes the proportion, form, contrast, and texture in the drawing of wood, food, paper, glass, metallic, landscape, and cloth items.
Recommendation: Completion of DAR 100 before enrolling in this course.
Offered: Fall, Spring.

DAR 102 Fundamentals of Digital Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Overview of the theory, survey, and practice of digital arts design. Includes survey of industry careers, skills and processes needed for working with clients, marketing strategies for products and services, and portfolio requirements for local, national, and global markets.
Offered: Fall, Spring.

DAR 103 Introduction to Digital Arts
3 cr. hrs. 3 periods (3 lec.)
Theory, history, and practice of digital image manipulation. Includes digitally based technologies, analog to digital conversion, data compression, data security, synchronization of digital materials, standards and intellectual property, civil liberties in the digital age, and digital image sound distribution and exhibition.
Offered: Fall, Spring, Summer.

DAR 111 Typography
4 cr. hrs. 5 periods (3 lec., 2 lab)
Letter forms and use in visual communications. Includes type rendering, letter spacing, type and headline groupings, type relationships, type images, and type applications.
Prerequisite(s): DAR 103.
Offered: Fall, Spring, Summer.

DAR 112 Graphic Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Basic principles of color and design as applied to the graphics industry. Includes creating focal points, unity, texture, space relationships, color relationships, color harmonies, and psychology of color.
Offered: Fall, Spring, Summer.
DAR 115 Digital Video Editing
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to non-linear editing on the computer. Historical development, digital video and audio formats, techniques & theory of editing, aspect ratios, organization of the edit, desktop environment, importing digital elements, project organization, video and audio files, non-linear editing skills, applying transitions, designing titles, applying filters, digital and time line effects, importing graphics, mixing audio and video elements, synchronize sound with video, and exporting digital video projects. Includes historical development, digital video and audio formats, techniques and theory of editing, aspect ratios, organization of the edit, desktop environment, importing digital elements, project organization, video and audio files, non-linear editing skills, applying transitions, designing titles, applying filters, digital and time line effects, importing graphics, mixing audio and video elements, synchronize sound with video, and exporting digital video projects.  
Prerequisite(s): DAR 103 or concurrent enrollment.  
Offered: Fall, Spring.

DAR 120 Applied Computer Graphics
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to current computer graphics software. Includes current software, desktop publishing documents, postscript illustration documents, painting or photo editing documents, file creation using computer software applications, computer graphics hardware, and professional environment.  
Offered: Fall, Spring, Summer.

DAR 122 Desktop Graphics: Adobe Illustrator
4 cr. hrs. 5 periods (3 lec., 2 lab)
Computer generated graphics and illustrations. Includes current Adobe Illustrator software, computer graphics hardware, documents, and professional environment.  
Prerequisite(s): DAR 051 and 120.  
Offered: Fall, Spring, Summer.

DAR 124 Writing for Film and Television
3 cr. hrs. 3 periods (3 lec.)
Examining dramatic writing in visual mediums and creating the story for the screen. Includes visual storytelling, story structure, directors, cinematographers, and how screenwriters work. Also includes writing scenes, finishing stories, and writing for television.  
Prerequisite(s): DAR 103.  
Information: Concurrent enrollment may be approved with instructor or department chair recommendation.  
Offered: Fall, Spring.

DAR 125 Digital Video Production I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Principles and techniques of video production. Includes history of digital video, digital video camera and computer equipment, digital camera lenses, exposure, light, color, temperature, composition, portfolio preparation, and career options. Also includes practical experience as part of a digital video production team.  
Prerequisite(s): DAR 115 and 124.  
Offered: Fall, Spring.

DAR 127 Sound Production for Radio
3 cr. hrs. 4 periods (2 lec., 2 lab)
Methods and techniques of the operation of radio broadcasting equipment. Includes the tools for sound production for radio, the console, turntables and compact disc (CD) players, tape recording and playback units, microphones and sound, techniques, applications, drama and dramatic elements, and commercial production. Also includes radio production news and public affairs programs; remote, sports, and advanced production; computer applications in radio; and production in modern format. 
Prerequisite(s): DAR 103, 124.  
Information: This course will require additional expenses for supplies in addition to course and lab fees.  
Offered: May not be offered this year, check class schedule.
**DAR 128 Digital Photography I**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to digital photography emphasizing the technical and aesthetic issues and how these qualities form image content. Includes Adobe Photoshop basics, history of still photography, applications of digital cameras, aspects of the digital medium, camera and computer equipment requirements, digital still camera, memory and file formats, digital still camera lenses, and proper exposure. Also includes light, color, and temperature; depth of field, shutter speed effects, proper use of digital photography, lighting for digital stills, elements of composition, photographic rendering and reality, outputting and publishing, portfolio preparation, and career options in digital photography.

*Recommendation:* Completion of DAR 051 and Adobe Photoshop experience before enrolling in this course.

*Information:* Same as ART 128.

It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras, are available for check out on a rotating basis.

Professional quality computers, software, printers, lighting equipment, and studio will be provided for specific assignments.

There will be additional supply costs beyond course fees.

Offered: Fall, Spring.

**DAR 140 Digital Arts Illustration Studio: Illustration Technique & Media**
4 cr. hrs. 5 periods (3 lec., 2 lab)
Basic principles, techniques and media applied to digital and traditional illustration styles, subject matter used in print illustration. Includes subject, media, technique, composition, and professional environment.

*Prerequisite(s):* DAR 101.

Offered: Fall, Spring.

**DAR 145 Digital Arts Illustration Studio: Character Development for Animation and Print**
4 cr. hrs. 5 periods (3 lec., 2 lab)
Principles and techniques applied to character development used for animation, products, and print material. Includes drawing in a loose manner, designing characters, materials, techniques and construction, various applications, and professional environment.

*Prerequisite(s):* DAR 101.

Offered: Fall, Spring.

**DAR 146 Lighting for Photography I**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to creative professional lighting concepts and techniques for commercial and fine art photography. Includes lighting and studio equipment, light qualities, lighting for form, lighting for surface qualities, still-life photography, portrait photography, image composition, critical analysis, and portfolio.

*Prerequisite(s):* ART/DAR 128.

*Information:* Students are strongly recommended to own or have access to a digital camera with manual exposure control and a computer with image processing software.

Professional quality cameras, computers and software, printers, lighting equipment and studio will be provided for specific assignments.

There may be additional supply costs in addition to course fees. Same as ART 146.

Offered: Fall, Spring.

**DAR 173 History of American Cinema**
3 cr. hrs. 3 periods (3 lec.)
American cinematic film making as an art form, economic force, and system of representation and communication. Includes history of American cinema, development of the significant films and directors, film studios, and image, cinema genres, history of narrative film and film sounds, alternative American films, analysis and criticism, and American cinema team.

Offered: Fall, Spring, Summer.

**DAR 174 Business of Audio**
3 cr. hrs. 4 periods (2 lec., 2 lab)
Economic, legal, and financial aspects of the music and recording industry. Includes recording artist contracts; foreign record deals; copyright in sound recordings; independent record producers; record clubs and premiums; labor agreements; music videos; record covers, label, and liner notes; and agents and managers. Also includes licensing of recordings for motion pictures; counterfeiting, piracy, and bootlegging; trade practice regulation; copyright in the United States; songwriter contracts; copyright infringement; and music and the movies.

*Prerequisite(s):* DAR 103, 124.

Offered: May not be offered this year, check class schedule.
DAR 175 Cinematography
3 cr. hrs. 4 periods (2 lec., 2 lab)
Basic techniques of motion picture production. Includes operation and application of all basic film tools, equipment, and techniques used in cinema production. Also includes practical experience as part of the production team, pre-production, light and image, analysis of film technique, and post-production.
Prerequisite(s): DAR 103, 115, 124.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall, Spring.

DAR 176 Digital Animation
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to digital animation techniques. Includes history of art animation, procedures in animated films, tools of animation, producing drawings, movement, realistic touches, technical information, and exaggerated action. Also includes the animal kingdom, dialogue, animated effects, use of digital technologies, and creation of a digital animation project.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall, Spring.

DAR 177 Location Sound for Film and Video
4 cr. hrs. 5 periods (3 lec., 2 lab)
Theory and practice of sound recording on location for feature films, documentaries, video productions, and multimedia. Includes technical planning and sound design, miking speech, single camera applications, wireless microphones, combinations of microphones, stereo mixing on location, music in film and television, taping off the telephone, and tape presentation. Also includes electronic new gathering and field production, motion picture sound recording, digital audio tape versus analog recording devices, and techniques and aesthetic considerations.
Prerequisite(s): DAR 103, 124.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall.

DAR 196 Digital Arts Independent Projects: Media Projects
1-4 cr. hrs. 3-12 periods (3-12 lab)
Students independently continue their development in media communications with the help of a faculty member.
Prerequisite(s): DAR 103, 124, 125, 175.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times of a maximum of twelve credit hours.
Offered: Fall, Spring.

DAR 205 Lighting for Film and Video
4 cr. hrs. 6 periods (2 lec., 4 lab)
Creative lighting techniques, practices, and use of equipment. Includes the visible spectrum, film and exposure, using electricity, video and the electronic medium, controlling color temperature, light quality, and measuring light intensity. Also includes manipulating light, light concepts in practice, and light in the studio and on location.
Prerequisite(s): DAR 124 and 125 or 175.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Spring.

DAR 210 Digital Arts Design Studio: Advertising Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Principles and techniques as applied to advertising design. Includes ad design, billboard design, logo design, poster design, brochure design, package design, and other mediums.
Prerequisite(s): DAR 112.
Offered: Fall, Spring, Summer.

DAR 211 Digital Arts Design Studio: Product Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Principles and techniques as applied to product design. Includes package design, card design, textile design, compact disc (CD) design, digital video disc (DVD) design, game design, and sign design.
Prerequisite(s): DAR 112.
Offered: Fall, Spring, Summer.
DAR 212 Digital Arts Design Studio: Package Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Procedures and techniques for creating wrapper and container comprehensives. Includes layout, packaging, construction
techniques, mock-ups, and the professional environment.
Prerequisite(s): DAR 112.
Offered: Fall, Spring, Summer.

DAR 214 Digital Arts Business & Portfolio
2 cr. hrs. 3 periods (1 lec., 2 lab)
Digital Arts Business and Portfolio Business techniques for the digital arts industry. Includes designer/client relationship, fee
structures for designer services, documenting time, portfolio development, and advertising and promotion.
Prerequisite(s): DAR 103.
Offered: May not be offered this year, check class schedule.

DAR 215 Advanced Cinematography
4 cr. hrs. 6 periods (2 lec., 4 lab)
Tools, techniques, and procedures involved in professional film production. Includes pre-planning a 16mm motion picture
production, script breakdown, pre-production and post-production, budgeting, distribution, promotion, and developing a
prospectus.
Prerequisite(s): DAR 175.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall.

DAR 217 Post Production for Film
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to film post production video and audio techniques and aesthetics of film editing. Includes history of the art
of film editing, preparing for the edit, tools of the editor, cutting techniques, and preparing for sound. Also includes sound,
dialogue, looping, and music editing; the mix; and the answer print.
Prerequisite(s): DAR 215.
Offered: Spring.

DAR 218 Introduction to Film Music
3 cr. hrs. 3 periods (3 lec.)
Fundamental techniques applied to film music in motion pictures, television, video, and the new media. Includes the history
of film music, the director and the producer, editing, the script, role models and temp tracks, spotting the film, budgets and
schedules, developing the concept, timings and the cue sheet, composing, and recording. Also includes dubbing the final
mix, electronic and contemporary scoring, scoring for different styles and genres, use of song in film, specialized themes, and
the business of film scoring.
Prerequisite(s): DAR 103, 124.
Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.
Offered: May not be offered this year, check class schedule.

DAR 220 Desktop Publishing for Digital Arts: QuarkXpress
4 cr. hrs. 5 periods (3 lec., 2 lab)
Design and creation of publication on a personal computer system. Includes current QuarkXpress software, documents,
hardware, and professional environment.
Prerequisite(s): DAR 051 or 120.
Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.
Offered: May not be offered this year, check class schedule.

DAR 221 Photo Image Editing: Adobe Photoshop
4 cr. hrs. 5 periods (3 lec., 2 lab)
Computer retouching and manipulation of photos and illustrations. Includes current Adobe Photoshop software, edit and
retouch, hardware and professional environment.
Prerequisite(s): DAR 051 or 120.
Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.
Offered: Fall, Spring, Summer.
DAR 222 Advanced Photo Image Editing: Adobe Photoshop
4 cr. hrs. 5 periods (3 lec., 2 lab)
Continuation of DAR 221. Includes advanced techniques using current Adobe Photoshop software, hardware, documents, and professional environment.
Prerequisite(s): DAR 221.
Offered: Fall, Spring.

DAR 223 Digital Drawing and Painting
4 cr. hrs. 5 periods (3 lec., 2 lab)
Design and illustration on a personal computer system using current painting software. Includes color, drawing and painting tools, editing and text tools, brush customizing, special effects, and applications.
Prerequisite(s): DAR 101.
Offered: Spring.

DAR 224 Advanced Screenwriting
3 cr. hrs. 3 periods (3 lec.)
In-depth examination of writing in visual mediums. Includes history of screen writing, development of the screenplay, genre, development of the pitch and story premise, character development, screenplay formats, and drafting a screenplay and premises.
Prerequisite(s): DAR 103 and 124.
Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.
Offered: Spring.

DAR 225 Digital Video Production II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of DAR 125. Production of digital video projects. Includes professional digital video production, digital formats and scripting, production plan, utilization of digital camera and lighting equipment in remote and on-location sites, post-production, linear and non-linear editing equipment and approaches, editing and the visual storyline, and building a portfolio.
Prerequisite(s): DAR 125.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Spring.

DAR 226 Desktop Publishing for Digital Arts: Adobe InDesign
4 cr. hrs. 5 periods (3 lec., 2 lab)
Design and creation of publications on a personal computer system. Includes current Adobe InDesign software documents, computer graphics hardware, and professional environment.
Prerequisite(s): DAR 051 or 120.
Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.
Offered: Fall, Spring.

DAR 228 Advanced Desktop Graphics: Adobe Illustrator
4 cr. hrs. 5 periods (3 lec., 2 lab)
Advanced computer generated vector graphics and illustrations. Includes current Adobe Illustrator software, computer graphics hardware, design, vector graphic documents, and professional environment.
Prerequisite(s): DAR 122.
Offered: May not be offered this year, check class schedule.

DAR 230 Production Techniques for Print
4 cr. hrs. 5 periods (3 lec., 2 lab)
Preparation of artwork for printing. Includes crop marks, typesetting to specifications, typesetting to match a layout line breaks/spelling, spot colors, duotones, bleeds/reversed type, two sided documents, dummy documents, line art/photos, output, newspaper and magazine ads, logo specifications, paper stock, outline photos, CMYK process colors, multiple page booklets, trapping, and professional work environment.
Prerequisite(s): DAR 122, 220 or 226, and 221 or concurrent enrollment.
Offered: Spring.
DAR 232 Digital Photography II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of ART/DAR 128. Includes intermediate digital cameras with manual functions, intermediate digital darkroom and digital output, quality of light, intermediate image composition, multiple images, intermediate portfolio development, and critical analysis. Also includes the intermediate use of state-of-the-art professional quality computers and image processing software, professional digital cameras, printers, and a lighting studio with professional lighting equipment.
Prerequisite(s): ART/DAR 128.
Recommendation: Completion of DAR 221 before enrolling in this course.
Information: Same as ART 232. The prerequisite may be waived with consent of the instructor.
It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras, are available for check out on a rotating basis.
Professional quality computers, software, printers, lighting equipment and studio will be provided for specific assignments.
There will be additional supply costs beyond course fees.
Offered: Fall, Spring.

DAR 233 Digital Photography III
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of ART/DAR 232. Includes digital capture and image acquisition, advanced digital darkroom and digital output, advanced image composition, advanced multiple images integration, advanced portfolio development, and advanced critical analysis. Also includes the advanced use of state-of-the-art professional quality computers and image processing software, professional digital cameras, scanners, printers and projectors.
Prerequisite(s): ART/DAR 232 and DAR 221.
Recommendation: Completion of DAR 222 before enrolling in this course.
Information: Same as ART 233. The prerequisite may be waived with consent of the instructor.
It is recommended students have access to a digital camera with manual exposure control and a computer with image processing software. Professional photographic equipment, including cameras are available for check out on a rotating basis.
Professional quality computers, software, printers, lighting equipment, and studio will be provided for specific assignments.
There will be additional supply costs beyond course fees.
Offered: May not be offered this year, check class schedule.

DAR 235 Advanced Design and Production Applications
4 cr. hrs. 5 periods (3 lec., 2 lab)
Design principles and production techniques as applied to the graphics industry. Includes complex designs with focal points, unity, texture, space relationships, color harmonies, psychology of color, bleed preparation, multiple page documents, paper stock, die cuts in complex designs, and special finishes.
Prerequisite(s): DAR 112 and 230.
Offered: Spring.

DAR 236 Advanced Desktop Publishing
4 cr. hrs. 5 periods (3 lec., 2 lab)
Advanced design and creation of publications using current QuarkXpress and InDesign software. Includes advanced applications in preferences, complex documents, advanced layers, libraries, advanced typography, automating/synchronizing text, advanced style sheet applications, books, tables, WEB and interactive features, and Portable Document Format (PDF).
Prerequisite(s): DAR 220 and 226.
Offered: May not be offered this year, check class schedule.

DAR 240 Digital Arts Illustration Studio: Book Illustration
4 cr. hrs. 5 periods (3 lec., 2 lab)
Principles and techniques applied to various book, graphic novel and comic magazine illustration. Includes advanced subjects, media, techniques, various applications, and professional environment.
Prerequisite(s): DAR 101.
Offered: Fall, Spring.
DAR 246 Lighting for Photography II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of ART/DAR 146. Includes lighting and equipment for studio and location, advanced lighting qualities and techniques, photographing with mixed light sources, lighting for mood and environment, set design and construction, photographing individuals and groups of people, photographing on location, photographing for montage images, advanced image composition, critical analysis, business practices, and portfolios.
Prerequisite(s): ART/DAR 146.
Information: Students are strongly recommended to own or have access to a digital camera with manual exposure control and a computer with image processing software.
Professional quality cameras, computers and software, printers, lighting equipment and studio will be provided for specific assignments.
There may be additional supply costs in addition to course fees. Same as ART 246.
Offered: Fall, Spring.

DAR 250 Computer 2D Animation: Adobe After Effects
4 cr. hrs. 5 periods (3 lec., 2 lab)
Two dimensional animation on the computer. Includes storyboards, techniques and terms, logo animation, character animation, metamorphic animation, and production techniques.
Prerequisite(s): DAR 221 or 223.
Information: Experience in computer graphics may be substituted for some prerequisites. See a Digital Arts faculty member for information.
Offered: Fall, Spring.

DAR 251 Computer 3D Animation: Maya
4 cr. hrs. 5 periods (3 lec., 2 lab)
Beginning modeling, rendering, and animation on the computer using Maya, may include other current industry software. Includes menus, image creation, color, printing, precision model making, object creation and design, and compatibility.
Prerequisite(s): DAR 221 or 250.
Offered: Fall, Spring.

DAR 252 Interactive Design I
4 cr. hrs. 5 periods (3 lec., 2 lab)
Interactive Design I Introduction to the theory, survey, and practice of designing and developing beginning interactive applications. Includes design for current formats, design and development planning; core concepts of Flash, Edge, HyperText Markup Language (HTML) 5, and application development; adding media to projects, core visual aesthetics, business considerations, and publishing.
Prerequisite(s): DAR 051 or 120.
Information: Experience in computer graphics may be substituted for some prerequisites with instructor permission.
Offered: Fall.

DAR 254 Interactive Design II
4 cr. hrs. 5 periods (3 lec., 2 lab)
Theory, survey, and practice of designing and developing advanced interactive applications. Includes current multimedia formats and funding options, storyboarding interactive projects; advanced concepts of Flash, Edge, HyperText Markup Language (HTML) 5, and application development; simple graphics and animations, advanced visual aesthetics, business and legal considerations; and publishing, marketing, and distribution.
Prerequisite(s): DAR 120 and 252.
Offered: Spring.

DAR 255 Television Commercial Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Designing television commercials. Includes a basic overview of videography, production procedures, conceptualizing, storyboarding, budgeting, casting, videotaping, editing, music, special effects, and legal considerations.
Prerequisite(s): DAR 225.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall.
DAR 256 Web Design I
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to the theory, survey, and practice of designing and developing beginning website and application interfaces. Includes building websites, creating a static website with Dreamweaver, creating a dynamic website with WordPress, HyperText Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript, web applications, web content, uploading websites, and web standards.
Prerequisite(s): DAR 122 and 221.
Offered: Fall, Spring.

DAR 257 Advanced Web Design
4 cr. hrs. 5 periods (3 lec., 2 lab)
Theory, survey, and practice of designing and developing advanced website and application interfaces. Includes using basic Hypertext Preprocessor (PHP), designing and adding content to a MySQL database, creating a WordPress theme; using advanced HyperText Markup Language (HTML) Cascading Style Sheet (CSS), and JavaScript code; formatting multimedia content, and best practices in web design.
Prerequisite(s): DAR 221 and 256.
Offered: Fall, Spring.

DAR 258 Advanced Computer 3D Animation: Maya
4 cr. hrs. 5 periods (3 lec., 2 lab)
Advanced modeling, rendering, and animation utilizing high end character 3D software. Includes a review of 3D basics, advanced modeling, animation, and surfacing techniques, advanced lighting and camera effects, and kinematics and contortions.
Prerequisite(s): DAR 251.
Offered: Fall.

DAR 275 Basic Audio Production
4 cr. hrs. 6 periods (2 lec., 4 lab)
Fundamental tools, techniques, and procedures for multi-track recording. Includes elements of sound, sound studios, consoles, digital recorders, microphone application, and technical planning and sound design. Also includes on location versus studio recording, mixing and re-recording, and editing.
Prerequisite(s): DAR 124.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall.

DAR 276 Advanced Audio Production
4 cr. hrs. 6 periods (2 lec., 4 lab)
Production of audio for film, television, radio, and the recording industry. Includes the theoretical foundation of sound, field production recording, techniques involved in audio for video tape and film, and mixing boards and outboard devices. Also includes digital techniques and workstations, systems using both digital and analog devices, and current thought on recording techniques.
Prerequisite(s): DAR 275.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: May not be offered this year, check class schedule.

DAR 277 Film/Video Production Financing
3 cr. hrs. 3 periods (3 lec.)
Strategies to secure production financing for independent film/video projects. Includes fundable projects; research; proposal formats; granting, funding, and special program sources; and developing the project narrative. Also includes budgeting, distribution, promotion, and developing a complete prospectus for funding a media project.
Prerequisite(s): DAR 124.
Offered: May not be offered this year, check class schedule.

DAR 285 Documentary Television and Film
4 cr. hrs. 6 periods (2 lec., 4 lab)
Fundamentals of nonfiction film/video production. Includes history of documentary production, European vs. American documentary makers, operating the camera, film and video techniques, television themes, production of a television documentary, and location problems.
Prerequisite(s): DAR 103.
Information: This course will require additional expenses for supplies in addition to course and lab fees.
Offered: Fall.
DAR 288 Digital Arts Business and Portfolio Capstone
2 cr. hrs. 3 periods (1 lec., 2 lab)
Production of professional quality digital arts portfolio with a focus on extended, in-depth study of the digital art industry and work environment. Includes professional design relationships, fee structures, documenting time, current digital arts tools and processes, interviews, and presentation of portfolios.
Prerequisite(s): DAR 111, 112, 122, 221 and 226.
Offered: Spring.

DAR 290E2 Digital Video and Film Arts Internship
3 cr. hrs. 15 periods (15 lab)
Work environment in digital video and film arts. Includes interpersonal communication, professional development, employment strategies, and field experience.
Prerequisite(s): DAR 103, 124, 125, and 175.
Information: Consent of the video and film arts instructor and 12 credit hours of DAR course work is required to be placed in an internship position.
Offered: Fall, Spring, Summer.

DAR 290E3 Internship in Digital Arts/Graphics
3 cr. hrs. 15 periods (15 lab)
Work environment in digital arts/graphics field. Includes interpersonal communication, professional development, employment strategies, and field experience.
Prerequisite(s): DAR 101, 111, and 112.
Information: Consent of the digital arts/graphics instructor or department chair and 12 credit hours of DAR coursework is required to be placed in an internship position.
Offered: May not be offered this year, check class schedule.

DAR 296 Digital Arts Independent Projects
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes defining a project, tools and medium, conceptualize and execute a project, professional environment, and complete and critique the project.
Information: May be taken four times for a maximum of sixteen credit hours.
Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring.

DAR 296I1 Digital Arts Independent Projects: Design
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.
Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

DAR 296I2 Digital Arts Independent Projects: Illustration
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.
Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

DAR 296I3 Digital Arts Independent Projects: Desktop Publishing
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.
Consent of instructor is required before enrolling in this course.
Offered: Spring.
DAR 296I4 Digital Arts Independent Projects: Interactive Design
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.
Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

DAR 296I8 Digital Art Independent Proj: Adv Digital Video/Audio/Film
1-4 cr. hrs. 3-12 periods (3-12 lab)
Students independently continue their development in digital video, audio, and film media with the help of a faculty member.
Information: May be taken three times for a maximum of twelve credit hours.
Completion of twelve credit hours of DAR courses, DAR 196, and consent of instructor are required before enrolling in this course.
Offered: Fall, Spring.

DAR 297 Digital Arts Seminar
.25-4 cr. hrs. .25-4 periods (.25-4 lec.)
Digital Arts job-related training. Includes presentations and development of skills in a given area. May include special topics of timely or limited interest. Course content may be delivered all, or in part, via the web.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

Direct Care Professional
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

DCP 101 Direct Care Professional: Principles of Care Giving
2.25 cr. hrs. 2.25 periods (2.25 lec.)
Addresses principles and application of care giving and personal care in the various home and community based settings.
Includes examination of legal and ethical issues, communication, activities, nutrition and food preparation, housekeeping, infection control, safety, and time and stress management for the Direct Care Professional (DCP).
Offered: May not be offered this year, check class schedule.

DCP 102 Direct Care Professional: Aging/Physical Disabilities
2 cr. hrs. 2 periods (2 lec.)
Presents principles and applications of provision of care in the home environment for older adults and persons with disabilities. Addresses overview of services and continuum of care; aspects of independent living; and roles and responsibilities of Direct Care Professionals (DCPs). Also includes legal and ethical issues, vulnerable adult abuse, reporting requirements, care plans, biological aspects of aging, physical disabilities and chronic conditions, psychological and cognitive conditions, and implications for DCPs. An overview of dementia-specific care is incorporated.
Prerequisite(s): DCP 101.
Offered: May not be offered this year, check class schedule.

DCP 103 Direct Care Professional: Alzheimer’s/Forms of Dementia
2 cr. hrs. 2 periods (2 lec.)
Presents principles and applications of provision of care in the home environment for persons with Alzheimer and related forms of dementia. Addresses an overview of services and continuum of care; aspects of independent living; and roles and responsibilities of Direct Care Professionals (DCPs). Also includes legal and ethical issues, vulnerable adult abuse, reporting requirements, and care plans. Emphasis on aspects of Alzheimer’s as related to physical disabilities and chronic conditions, psychological and cognitive conditions and implications for DCPs.
Prerequisite(s): DCP 101.
Offered: May not be offered this year, check class schedule.
DCP 104 Direct Care Professional: Developmental Disabilities
2 cr. hrs. 2 periods (2 lec.)
Addresses a foundational knowledge for the provision and application of quality care for people with developmental
disabilities by Direct Care Professionals (DCPs) or family caregivers. Includes the examination and application of
philosophical, social, medical, physical, legal, and ethical issues faced by people with disabilities.
Prerequisite(s): DCP 101.
Offered: May not be offered this year, check class schedule.

DCP 190 Direct Care Professional Internship
2 cr. hrs. 10 periods (10 lab)
Provides students with hands on-experiences at a direct care agency. Includes an orientation to working in a direct care
agency; working with a developmentally/physically disabled population and the aging; professionalism in the direct care
profession, and application of the principles of care giving through hands-on experience in the field. Also includes program
administration; management, supervision and other oversight positions; office practices and computer applications for direct
care; and funding sources for human service agencies and organizations.
Prerequisite(s): DCP 101, 102, and either 103 or 104.
Information: Included in the 160 internship hours are 24 hours of classroom instruction; 1 credit hour is equal to 80 hours of contact
time.
Course is optional for program.
Offered: May not be offered this year, check class schedule.

Early Childhood Education
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ECE 100 Introduction to the Child Care Profession
2 cr. hrs. 2 periods (2 lec.)
Comprehensive employment preparation for clients referred by the Department of Economic Security (DES) and other
individuals interested in the field of child care. Includes child development; positive discipline and guidance; language,
literacy, math, and science development; and learning environments. Also includes licensing, health and safety, nutrition,
children with disabilities, and handling child abuse.
Offered: Fall, Spring, Summer.

ECE 107 Human Development and Relations
3 cr. hrs. 3 periods (3 lec.)
Analysis of the elements that affect growth and development throughout the life span. Includes theories and global
perspectives, prenatal development, oral language development, development within domains, parenting styles, death and
dying, local and community influences, and theories in action.
Information: Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Spring, Summer.

ECE 108 Literature/Social Studies for Children
3 cr. hrs. 3 periods (3 lec.)
Survey of principles, materials, and techniques for the selection and evaluation of children's literature and social studies
materials. Includes history of children's literature, resources, evaluation, developing a professional portfolio, use of
appropriate materials, alignment with national social studies standards, presentation techniques, and developmentally
appropriate practices.
Information: Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Spring.

ECE 114 Effective Parenthood
3 cr. hrs. 3 periods (3 lec.)
Identification and discussion of determinants of positive child rearing practices. Includes genetic factors, parental factors,
healthy and safe environments, parental practices, communication, guidance, problem-solving, discipline techniques,
challenges of parenting, and community resources.
Prerequisite(s): ECE 117.
Information: Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: May not be offered this year, check class schedule.
ECE 115 Supervision and Administration of Early Childhood Programs
3 cr. hrs. 3 periods (3 lec.)
Analysis of elements for planning, implementing, maintaining, and evaluating early childhood education programs. Includes program assessment, philosophy and mission statements, basic business operations, ethics, engaging stakeholders, regulating agencies, and child advocacy.
Prerequisite(s): MAT 082.
Information: Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall, Spring.

ECE 117 Child Growth and Development
3 cr. hrs. 3 periods (3 lec.)
Analysis of the elements which affect growth and development pre-birth to age eight. Includes developmental theorists, roles of genetics, health and social influences, public policy issues, and domains of development.
Information: Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall, Spring, Summer.

ECE 118 Foundations of Early Childhood Education
3 cr. hrs. 3 periods (3 lec.)
A survey of the historical and philosophical foundations of early childhood education. Includes historical and contemporary influences; pedagogy; agency management of early childhood programs; early childhood assessment; and professional responsibilities.
Information: CDA 102, 121, and 271 together constitute ECE 118.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall, Spring, Summer.

ECE 124 Math and Science for Children
3 cr. hrs. 3 periods (3 lec.)
Theories, methods, and techniques for teaching math and science. Includes central concepts in math and science, communication skills, assessment, integration into other subject areas, teaching methods, and developmentally appropriate practices.
Prerequisite(s): MAT 082.
Information: This course replaces CDA 142, 143, and 152.
ECE 124A and 124B together constitute ECE 124.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall.

ECE 124A Math and Science for Children: Module A
2 cr. hrs. 2 periods (2 lec.)
Module A Study of theories, methods, and techniques for teaching math and problem solving. Includes central concepts in math and problem solving, communication skills, assessment, integration into other subject areas, teaching methods, and developmentally appropriate practices.
Prerequisite(s): MAT 082.
Information: This course replaces CDA 142 and CDA 152.
Students must have college-level reading and writing skills to be successful in ECE courses.
ECE 124A and 124B together constitute ECE 124.
Offered: Fall.

ECE 124B Math and Science for Children: Module B
1 cr. hrs. 1 periods (1 lec.)
Module B Study of theories, methods, and techniques for teaching science. Includes central concepts in science, communication skills, assessment, and integration into other subject areas, teaching methods, and developmentally appropriate practices.
Information: This course replaces CDA 143.
Students must have college-level reading and writing skills to be successful in ECE courses.
ECE 124A and 124B together constitute ECE 124.
Offered: Fall.
ECE 125 Nutrition, Health, and Safety for the Young Child
3 cr. hrs. 3 periods (3 lec.)
In-depth study of the health, safety and nutritional needs of children. Includes children's nutritional needs, caregiver responsibilities, food allergies, promoting healthy attitudes, illness prevention, record keeping, promotion of health and safety, safe environments, and community resources.
Information: This course replaces CDA 104, 119, and 151.
ECE 125A, 125B, and 125C together constitute ECE 125.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Spring.

ECE 125A Nutrition, Health, and Safety for the Young Child: Module A
1 cr. hrs. 1 periods (1 lec.)
In-depth study of the safety needs of children. Includes children's needs, caregiver responsibilities, illness prevention, record keeping, promotion of safety, safe environments, and community resources.
Information: This course replaces CDA 104.
ECE 125A, 125B, and 125C together constitute ECE 125.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Spring.

ECE 125B Nutrition, Health, and Safety for the Young Child: Module B
1 cr. hrs. 1 periods (1 lec.)
In-depth study of the health needs of children. Includes children's needs, caregiver responsibilities, promoting healthy attitudes, illness prevention, record keeping, promotion of healthy environments, and community resources.
Information: This course replaces CDA 119.
ECE 125A, 125B, and 125C together constitute ECE 125.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall.

ECE 125C Nutrition, Health, and Safety for the Young Child: Module C
1 cr. hrs. 1 periods (1 lec.)
In-depth study of the nutritional needs of children. Includes children's nutritional needs, caregiver responsibilities, food allergies, promoting healthy attitudes, and community resources.
Information: This course replaces CDA 151.
ECE 125A, 125B, and 125C together constitute ECE 125.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall, Spring.

ECE 129 Infant and Toddler Education
3 cr. hrs. 3 periods (3 lec.)
Examination of effective teaching and guidance practices during infant and toddler years. Includes sensory motor development, development of coordination, object permanence, trial and error interactions, developmentally appropriate practice, guidance strategies, toilet training, physical settings, and observations and record keeping.
Information: This course replaces CDA 129, 227, 228, and 235.
ECE 129A and 129B together constitute ECE 129.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Fall.

ECE 129A Infant and Toddler Education: Module A
2 cr. hrs. 2 periods (2 lec.)
Module A examination of effective teaching and guidance practices during infant and toddler years. Includes developmentally appropriate practice, guidance strategies, toilet training, physical settings, and observations and record keeping.
Information: This course replaces CDA 228 and 235.
ECE 129A and 129B together constitute ECE 129.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: May not be offered this year, check class schedule.
ECE 129B Infant and Toddler Education: Module B
1 cr. hrs. 1 periods (1 lec.)
Module B examination of effective teaching and guidance practices during infant and toddler years. Includes sensory motor development, development of coordination, object permanence, trial and error interactions, developmentally appropriate practice, and the physical settings.
Information: This course replaces CDA 129 and 227.
ECE 129A and 129B together constitute ECE 129. IS
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: May not be offered this year, check class schedule.

ECE 211 Inclusion of Young Children with Special Needs
3 cr. hrs. 3 periods (3 lec.)
Overview of the exceptional learner (birth to age 8). Includes educational implication and service delivery, public policy, identification and assessment, specific areas of exceptionality, service plans, support systems for families, national, state and local responsibilities, early intervention, and observational records. Also includes field experience.
Prerequisite(s): ECE 117.
Information: This course replaced ECE 111. Either ECE 111 or ECE 211 will meet the graduation requirement.
Students must have college-level reading and writing skills to be successful in ECE courses.
Offered: Spring, Summer.

ECE 226 Positive Child Guidance
3 cr. hrs. 3 periods (3 lec.)
Introduction to theory and application of early childhood classroom planning, guidance techniques and classroom management. Includes application of developmental theories, developmentally appropriate practices, behavior management, cultural implications, teaching practices, professional development, and self-evaluation.
Prerequisite(s): ECE 117 and 118, completed with a grade of C or better.
CDA 102, 121, and 271 together can be used instead of ECE 118.
Information: Includes a 9-hour practicum.
In order to be successful in all ECE classes, students must have college-level reading and writing skills.
Offered: Fall, Spring, Summer.

ECE 228 The Young Child: Family, Culture, and Community
3 cr. hrs. 3 periods (3 lec.)
Examination of the influences of family, culture and community on the development and learning of young children. Includes development of personal framework for understanding cultures; cultural differences in attitudes about play; age and cultural appropriateness of classroom materials; cross-cultural communication techniques; techniques for utilizing family strengths; strategies for involving families in the school and classroom; strategies for developing flexible response practices; and community project development.
Prerequisite(s): ECE 117 and 118, completed with a C or better.
CDA 102, 121, and 271 together can be used instead of ECE 118.
Information: This course replaced ECE 128. Either ECE 128 or 228 will meet the graduation requirement.
In order to be successful in all ECE classes, students must have college-level reading and writing skills.
Offered: Fall, Spring, Summer.

ECE 240 Assessment of Young Children
3 cr. hrs. 3 periods (3 lec.)
Assessment techniques associated with the evaluation of young children. Includes observation methods, interpreting assessment data, legal and ethical issues related to assessment, methods and strategies, and application of assessment data.
Prerequisite(s): ECE 117, 118, 226, and 228, completed with a C or better.
CDA 102, 121, and 271 together can be used instead of ECE 118.
Information: In order to be successful in all ECE classes, students must have college-level reading and writing skills.
Offered: Fall, Spring, Summer.
ECE 245 Integrating Learning and Lesson Planning through the Arts
3 cr. hrs. 3 periods (3 lec.)
Survey of principles, materials, techniques, and resources for teaching music/art to children. Includes selection of appropriate materials and activities, integration with basic child development ages/stages, creation of the appropriate environment, integration with other subject areas, and role of the teacher.
*Information: Students must have college-level reading and writing skills to be successful in all ECE courses.*
Offered: Fall.

ECE 246 Integrating Learning and Lesson Planning: Literacy
3 cr. hrs. 3 periods (3 lec.)
Study of oral and written language acquisition and emergent literacy. Includes developmental theories, language integration, language rich environments, children’s literature, and family involvement. Also includes selection of appropriate materials and activities, integration with basic childhood development ages/stages, creation of the appropriate environment, integration with other subject areas, and role of the teacher.
*Prerequisite(s): ECE 117, 118, 226, and 228, completed with a C or better.*
*CDA 102, 121, and 271 together can be used instead of ECE 118.*
*Information: An approved child development course may be used in place of ECE 117.*
ECE 245 taken fall 2014-summer 2015, or ECE 110 (or ECE 110A and ECE 110B), or ECE 112 is considered to be the equivalent of this course.
*Students must have college-level reading and writing skills to be successful in ECE courses.*
Offered: Fall, Spring, Summer.

ECE 260 Foundations and Variations in Early Child Development
3 cr. hrs. 3 periods (3 lec.)
Typical and atypical child growth and development, birth through grade 3. Includes theoretical framework; brain development and effects of experience on brain development; prenatal, perinatal, and postnatal causes of disability; variations in development; healthy development; and intervention.
*Prerequisite(s): ECE 117.*
*Recommendation: Completion of ECE 211 before enrolling in this course.*
*Information: Students must have college-level reading and writing skills to be successful in ECE courses.*
Offered: May not be offered this year, check class schedule.

ECE 262 Early Childhood Special Needs Assessment Practices
3 cr. hrs. 3 periods (3 lec.)
Examine various formal and informal assessment practices for children birth through age 8 who have or are at risk for special needs. Includes legal provisions governing assessment and service eligibility; common disabilities, delays and disorders; use, limitations, and procedural considerations of assessment; the role of family; formal and informal cognitive, skill, and behavior based tests; terms and scoring systems frequently utilized in assessments reports and measurements; use of screening tools and assessments; and intervention methods and models.
*Prerequisite(s): ECE 117.*
*Recommendation: Completion of ECE 211 before enrolling in this course.*
*Information: Students will be expected to complete 6 hours of fieldwork in inclusive classrooms.*
*Students must have college-level reading and writing skills to be successful in ECE courses.*
Offered: May not be offered this year, check class schedule.

ECE 264 Families and Professional Partnerships in ECSE
3 cr. hrs. 3 periods (3 lec.)
Examine the importance of developing relationships between families of children birth through age 8 with special needs and the professionals who work with them. Includes theoretical and cultural influences; variables that impact family functioning and emotions; family-centered services; relationship-based practice; intervention teams and service locations; intervention plan requirements; and professional characteristics and responsibilities.
*Prerequisite(s): ECE 117.*
*Recommendation: Completion of ECE 211 before enrolling in this course.*
*Information: Students will be expected to complete 10 hours of observation in inclusive classrooms.*
*Students must have college-level reading and writing skills to be successful in ECE courses.*
Offered: May not be offered this year, check class schedule.
ECE 266 Curriculum Adaptation in the Inclusive Early Childhood Class  
3 cr. hrs. 3 periods (3 lec.)  
Strategies to address the cognitive, communication, motor, personal-social and adaptive needs of children birth through age 8 with developmental delays or disabilities. Includes normal and exceptional development; legal, ethical, and functional roles of educators and service providers; partnerships with families; recognizing special needs that require adapted instruction; individual intervention plans; developing and coordinating services; designing and implementing curriculum modifications and instructional strategies in the inclusive classroom; promoting the development of social and emotional skills, motor skills, communication skills, and cognitive skills; and adaptive self-help and independence skills.  
Prerequisite(s): ECE 117.  
Recommendation: Completion of ECE 211 before enrolling in this course.  
Information: Students will be expected to complete 15 hours of observation in inclusive classrooms.  
Students must have college-level reading and writing skills to be successful in ECE courses.  
Offered: May not be offered this year, check class schedule.

ECE 268 Strategies to Support Development in Inclusive Environments  
4 cr. hrs. 16 periods (1 lec., 15 lab)  
Identifying and adapting instructional strategies to provide optimal support to individual children through age 8. Includes Developmentally Appropriate Practices (DAP) and Early Childhood Special Education (ECSE) best practices as a blended process; developing and nurturing the family-professional partnership; the role of assessments and progress monitoring for individualizing instructional strategies; designing, implementing, and assessing strategies for adaptive, language and communication, motor, cognitive, social, and emotional development; designing individual educational objectives for children who have needs in one or more domains of the Individuals with Disabilities Education Act; and analyzing one’s professional development.  
Prerequisite(s): ECE 117, 260, 262, 264 and 266.  
Recommendation: Completion of ECE 211 before enrolling in this course.  
Information: Consent of instructor or program coordinator is required before enrolling in this course.  
A child development course may be used to substitute for ECE 117.  
A fingerprint clearance card and TB test are required.  
Students will be expected to complete 120 hours of documented field work in an early childhood special education inclusive setting.  
Students must have college-level reading and writing skills to be successful in ECE courses.  
Offered: May not be offered this year, check class schedule.

ECE 292 Early Childhood Education: Theory to Practice  
4 cr. hrs. 16 periods (1 lec., 15 lab)  
Practical experience in early child care and education. Includes developmentally appropriate practices, evaluation techniques, portfolio development, child advocacy, and self-evaluation. Also includes observation, assessment, documentation techniques, and 100 hours of documented work with children birth through prekindergarten.  
Prerequisite(s): ECE 117, 118, 226, 228, 240, and 246, completed with a C or better.  
CDA 102, 121, and 271 together can be used instead of ECE 118.  
Information: An approved child development course may be used in place of ECE 117.  
Consent of instructor or program coordinator before enrolling in this course.  
A fingerprint clearance card, TB test, and certain immunizations are required. Students must have college-level reading and writing skills to be successful in ECE courses.  
Prerequisites will be waived for students who have achieved a passing score on the Arizona Educator Proficiency Assessment test #36 (Early Childhood Education) and test #93 (Professional Knowledge-Early Childhood).  
Offered: Fall, Spring, Summer.
Economics

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ECN 150 An Economic Perspective
3 cr. hrs. 3 periods (3 lec.)
The study of the interactions of the individuals and societies from the viewpoint of economics. Includes the philosophy of economics, the history of economic thought, conventional economic theory, questions of equity versus efficiency, contemporary economic issues, microeconomics, macroeconomics, the individual and our democracy.
Information: This course is designed to be taken as a single class, as a pre-economics principles course (e.g. after ECN 200, 201 or 202)
Offered: Fall, Spring, Summer.

ECN 200 Basic Economic Principles
3 cr. hrs. 3 periods (3 lec.)
Examination of microeconomic and macroeconomic theory with economic decision making, economic systems, production possibilities model, and market analysis. Includes micro topics, such as consumer demand, producer supply, and overall price determination. Also includes macro topics, such as goals and problems of the macroeconomy, fiscal policy, budgets, the Federal Reserve, and monetary policy.
Prerequisite(s): MAT 092.
Information: Not open to students who have taken or are taking ECN 201 and/or ECN 202.
Offered: Fall, Spring, Summer.

ECN 201 Microeconomic Principles
3 cr. hrs. 3 periods (3 lec.)
Economic theory as applied to individual decision-making units. Includes economic decision making, economic systems, production possibilities model, and market analysis. Also includes details of consumer demand with elasticity and utility maximization, producer supply with market structures and profit maximization, and overall price determination.
Prerequisite(s): MAT 092.
Offered: Fall, Spring, Summer.

ECN 202 Macroeconomic Principles
3 cr. hrs. 3 periods (3 lec.)
Economic theory as applied to the operation of the economy as a whole. Includes economic decision making, economic systems, production possibilities model, and market analysis. Also includes goals and problems of the macroeconomy, foundations of the macroeconomy, fiscal policy, budgets, money, the role of financial institutions and the Federal Reserve, money creation, monetary theory and policy.
Prerequisite(s): MAT 092.
Offered: Fall, Spring, Summer.

ECN 296 Independent Study in Economics
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Independent study projects or special interest areas in economics under the supervision of a faculty member.
Prerequisite(s): ECN 200, or ECN 201 and 202.
Information: May be taken two times for a maximum of six credit hours.
Offered: Fall, Spring.

Education

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

EDU 103 Teaching Students with ADD/ADHD
1 cr. hrs. 1 periods (1 lec.)
Strategies for working with children with attention difficulties. Includes overview Attention Deficit Disorder (ADD) and Attention Deficit Hyperactivity Disorder (ADHD), diagnostic procedures, most common treatments, laws pertaining to servicing ADD/ADHD, strategies for the classroom, and overview of resources and organizations.
Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.
EDU 111 Comprehension Strategies for Struggling Adolescent Readers
1 cr. hrs. 1 periods (1 lec.)
Overview of the issues facing the struggling adolescent reader. Includes strategies and tools for supporting reading skills and comprehension development. Also includes profile and key issues faced by struggling readers, cueing systems used by competent readers, key reading strategies, and development of literacy comprehension.
Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 134 Survival Strategies for the Substitute Teacher
1 cr. hrs. 1 periods (1 lec.)
Techniques to prepare substitute teachers for the tasks they face in elementary, middle school and high school classrooms. Includes classroom management, interpreting and implementing lesson plans, and district procedures and policies.
Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 200 Introduction to Education
3 cr. hrs. 3 periods (3 lec.)
Provides students with an initial perspective of Education. Topics include: purposes of schooling and schools; effective schools; diversity and its effects on schools, teachers, and students; social problems affecting schools; comparative education; curriculum issues and controversies; and technology's impact on schools and schooling. Also, philosophical, legal, and financial issues facing today's schools; history of American education; and current trends in education reform.
Information: This class requires 30 hours of classroom experiential involvement in local schools.
May be taken for Professional Development purposes.
Offered: Fall, Spring.

EDU 201 Diversity in Education
3 cr. hrs. 3 periods (3 lec.)
Examination of diversity: age, class, gender, race disabilities, sexual orientation, and culture effects on the K-12 classroom. Exploration of diversity on education; demographic changes and effects on education; diversity and multicultural philosophies and perspectives and approaches for helping students communicate. Also, analysis of prejudice, single-group studies, multicultural education, human relations and capital. Explores children's school achievement in light of learning and teaching styles and reconstructionist approach to classroom diversity and curriculum planning.
Information: May be taken for Professional Development purposes.
Offered: Spring.

EDU 202 Introduction to the Exceptional Learner
3 cr. hrs. 3 periods (3 lec.)
Special education foundation topics including current educational practices and related educational theories: Instructional, classroom management and assessment. Cultural consideration within K-12 special education; student transitioning within the school and between school and the community. Also, role and function of the special education teacher preparing for instruction, lesson plans, assessment, instruction, technology, and compliance.
Information: May be taken for Professional Development purposes.
Offered: Spring.

EDU 206 Relationships in Classroom Settings
3 cr. hrs. 3 periods (3 lec.)
Introduction to basic classroom management principles including the management of curriculum, instruction, physical environment, psychosocial factors, student motivation and special groups. Also included is a focus on disruptive behavior, family involvement, communication, stress management, and appropriate record keeping.
Information: May be taken for Professional Development purposes.
Offered: Fall, Spring.
EDU 240 Adolescent Development
3 cr. hrs. 3 periods (3 lec.)
Examination of early to young adult adolescent development, investigation of developmental theories and methods, and comprehensive analysis of problems encountered by today’s youth. Topic focus includes the physical, cognitive, moral, and personality development; familial and peer relations; dating and sexuality; and psychosocial problems such as teen suicide, delinquency, and substance abuse. Also, includes ethnic and cultural considerations in addition to educational and vocational issues.
Information: This course requires a 10-hour practicum. Meets Middle School Endorsement and Coaching Certificate requirements in conjunction with other coursework.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 241 Middle School Curriculum and Instruction
3 cr. hrs. 3 periods (3 lec.)
Concepts, skills and research techniques for middle school teachers. Examination of constructivism, research, curriculum development and instruction, unit planning, assessment and evaluation, materials selection, teaching strategies, diversity, motivation and classroom management.
Information: Education department approval is required before enrolling in this course.
Post-Degree Teacher Certification Program approval is required before enrolling in this course. This class requires a 10-hour practicum.
Meets Middle School Endorsement requirements in conjunction with other coursework.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 242 Middle School Practicum
3 cr. hrs. 3 periods (3 lec.)
Strategies and tools for middle school teaching; subject matter instruction methods; adolescent development and learning; diversity of learners and instruction; creating a positive learning environment; instruction planning and implementation; assessment; professionalism; and personal reflection.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 30-hour middle school practicum placement.
Meets Middle School Endorsement requirements in conjunction with other coursework.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 243 ESL Practicum
3 cr. hrs. 3 periods (3 lec.)
Concepts, techniques, and on-site experience working with English Language Learners (ELL). Requires observations of ELL’s in a variety of settings, evaluation of English as a Second Language (ESL) and Sheltered English Instruction, teaching techniques and actual experience in developing lessons and teaching ELL.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 30-hour ESL K-12 practicum
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 244 Teaching Reading and Writing to ESL Students
3 cr. hrs. 3 periods (3 lec.)
Introduction to teaching reading and writing in an English as a Second Language (ESL) setting. Includes teaching techniques, learning strategies and activities, and the six traits of writing, including reading and writing across the curriculum.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 10-hour practicum.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.
EDU 245 Linguistics
3 cr. hrs. 3 periods (3 lec.)
Introduction to the nature, structure, and acquisition of language. Includes basic concepts of phonetics, phonology, morphology, syntax, semantics, psycholinguistics, language variation, and theories of first and second language acquisition.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 246 Assessment of ESL Students
3 cr. hrs. 3 periods (3 lec.)
Introduction to the assessment of English as a Second Language (ESL) students, including knowledge of assessment, purposes of assessment, identification, placement, exit standards for students, linking assessment to instruction, and creating classroom assessments.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 247 Family and Community Involvement in ESL Student Instruction
3 cr. hrs. 3 periods (3 lec.)
Introduction to involving families, school, and community in English as a Second Language (ESL) student learning. Includes research on the value of family/school connections, an overview of effective programs, analysis of practices and resources available, and information on how to develop a school action plan for increasing family and community involvement.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 10-hour practicum.
May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 252 Reading Diagnosis, Decoding, Remediation and Practicum
3 cr. hrs. 3 periods (3 lec.)
Fundamentals of diagnosis, decoding, and remediation of reading problems. Includes instruction techniques on administering, analyzing, and interpreting informal procedures, and using the results to plan a program of remediation.
Prerequisite(s): EDU 276 and 277.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum and can be used to fulfill some elements of the Reading Endorsement.
Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education office for specific information.
Offered: May not be offered this year, check class schedule.

EDU 254 Literacy Development in the Primary Grades/Practicum
3 cr. hrs. 3 periods (3 lec.)
Philosophy, information and strategies for literacy development in the primary classrooms. Includes literacy and language development theories, observation and assessment, family literacy, strategies for teaching, and motivation and management.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum and can be used to fulfill some elements of the Reading Endorsement.
Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.
Offered: May not be offered this year, check class schedule.
EDU 255 Content Area Reading Middle and Secondary Schools/Practicum
3 cr. hrs. 3 periods (3 lec.)
Information and strategies in content area literacy and its fundamental role in instruction across the curriculum. Topics include: overview of content area literacy; active learning in the reading and writing process; comprehension, vocabulary, and study skill strategies; the role of literature in the content areas: writing as a tool for content area comprehension; assessment strategies and technology.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum and can be used to fulfill some elements of the Reading Endorsement.
Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.
Offered: May not be offered this year, check class schedule.

EDU 257 Special Topics: Children's Literature and Literacy/Practicum
3 cr. hrs. 3 periods (3 lec.)
Strategies for using children's literature to support literacy development. Topics include: literature selection criteria, genre, response strategies, literature assessment, elements and styles of literature and poetry, ethnic and gender issues in children's literature, thematic unit building, response assessment, using children's literature to teach writing, and benefits of literature and response in the classroom.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 10-hour practicum and can be used to fulfill some elements of the Reading Endorsement.
Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.
Offered: May not be offered this year, check class schedule.

EDU 268 Issues in Education
1 cr. hrs. 1 periods (1 lec.)
Special topics in education with an emphasis on current issues. Includes issues and concepts relating to the National Board for Professional Teaching, standards, and future teaching practices. Also includes student learning, personal motivation, lesson plan development, behavior and ethics, and professional portfolio.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

EDU 270 Educational Technology and Curriculum Integration
3 cr. hrs. 3 periods (3 lec.)
Introduction to topics and issues in educational technology. Includes electronic communications, basic productivity applications, computer system basics, multimedia and educational courseware and technology integration into the curriculum. Also includes planning for and evaluating educational technology, security, ethics and other issues in technology, and emerging technologies in education.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio.
Offered: May not be offered this year, check class schedule.

EDU 271 Introduction to Teaching
3 cr. hrs. 3 periods (3 lec.)
Introduction to teaching for the prospective teacher focusing on the major models of teaching, the purposes served and the curriculum methods employed with each model. Also includes legal and ethical issues, teaching as a profession, and strategies and practices for increasing instructional effectiveness.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio.
Offered: May not be offered this year, check class schedule.

EDU 272 Educational Psychology
3 cr. hrs. 3 periods (3 lec.)
Introduction to the basic principles of educational psychology relating to the areas of physical, psychological, moral, social and cognitive development. Includes personal and social development, cognitive processes in the classroom, behaviorism, constructivism, learning theorists, and assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio.
Offered: May not be offered this year, check class schedule.
**EDU 273 Introduction to Special Education**
3 cr. hrs. 3 periods (3 lec.)
Introduction to a variety of instructional, classroom management and assessment strategies pertinent to teaching in a special education program. Includes role and function of the special education teacher, preparing for instruction, constructing lesson plans, assessment, instruction, classroom management, instructional media learning tools, and special education compliance.
*Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.*
*This course requires a 10-hour practicum.*
*Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.*
*Offered: May not be offered this year, check class schedule.*

**EDU 274 Structured English Immersion Foundations**
3 cr. hrs. 3 periods (3 lec.)
Overview of Structured English Immersion (SEI) Foundations. Includes concepts designed to meet state standards for teachers of English Language Learners (ELLs). Also includes instruction in SEI strategies, teaching with Arizona English Language Learner (ELL) Proficiency Standards, and monitoring ELL student progress using a variety of assessment tools.
*Information: Meets SEI Endorsement requirements in conjunction with other coursework.*
*Also meets Arizona Department of Education course requirements.*
*Offered: Fall, Spring.*

**EDU 275 Classroom Management**
3 cr. hrs. 3 periods (3 lec.)
Mastery of the knowledge and skills necessary to create and maintain a positive classroom environment. Includes overview of classroom management, students' basic needs, creating positive interpersonal relationships, creating positive peer relationships, working with parents and student motivation and learning. Also includes developing standards for classroom behavior, responding to violations of rules and procedures, using problem solving techniques, developing individual behavior plans, and school-wide student management programs.
*Information: Post-Degree Teacher Certification Program or Education Department approval is required before enrolling in this course.*
*Requires a paid subscription to TaskStream electronic portfolio.*
*Offered: May not be offered this year, check class schedule.*

**EDU 276 Foundation of Reading Instruction**
3 cr. hrs. 3 periods (3 lec.)
Literacy instruction at the elementary school level. Includes literacy development theory; literacy development at the preschool, early childhood and intermediate grade level; instruction techniques for all facets of literacy development; and comprehension strategies, including bilingual learners and special populations. Also includes focus on organizing the classroom and curriculum to enhance literacy development, techniques and assessment as tools for instruction and working with parents to enhance student achievement.
*Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.*
*This class requires a 15-hour practicum and can be used to fulfill some elements of the Reading Endorsement.*
*Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.*
*Requires a paid subscription to TaskStream electronic portfolio.*
*Offered: May not be offered this year, check class schedule.*

**EDU 277 Phonics Instruction in a Balanced Literacy Setting/Practicum**
3 cr. hrs. 3 periods (3 lec.)
Overview and exploration of phonemic awareness, phonics instruction and related research findings. Includes quality literacy programming, understanding language and words, word study about letters and words, and thinking comprehensively.
*Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.*
*This class requires a 15-hour practicum and can be used to fulfill some elements of the Reading Endorsement.*
*Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.*
*Requires a paid subscription to TaskStream electronic portfolio.*
*Offered: May not be offered this year, check class schedule.*
EDU 278 Elementary Science Methods and Curriculum Development
3 cr. hrs. 3 periods (3 lec.)
Overview of the content and instructional methods of teaching science in kindergarten through eighth grade. Includes the academic content of teaching science, the instructional methods of teaching science, practical application, and observation and evaluation.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 15-hour practicum.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Offered: May not be offered this year, check class schedule.

EDU 279 Elementary Math Methods and Curriculum Development
3 cr. hrs. 3 periods (3 lec.)
Introduction to the content and methods of curriculum development in elementary math for the elementary and middle school teacher. Includes standards, resources, teaching math concepts, cooperative learning, topics, teaching aids, activity lessons, integrating mathematics lessons with other disciplines, and presenting a lesson.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 15-hour practicum.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Offered: May not be offered this year, check class schedule.

EDU 280 Social Studies Methods and Curriculum Development
3 cr. hrs. 3 periods (3 lec.)
Overview of the content and methodology of teaching social studies in kindergarten through eighth grade. Includes the social studies academic content, methods of teaching social studies instruction, and evaluation.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 15-hour practicum.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Offered: May not be offered this year, check class schedule.

EDU 281 Structured English Immersion Methods
3 cr. hrs. 3 periods (3 lec.)
Introduction to Structured English Immersion (SEI) methods designed to meet state standards for pre-service and in-service teachers of English Language Learners (ELL). Includes an examination of ELL proficiency standards, assessment of ELLs, SEI foundations and strategies, using disaggregated data to differentiate instruction and parental involvement.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course includes a 15-hour practicum.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Meets ESL Endorsement requirements in conjunction with other coursework.
Also meets Arizona electronic portfolio. Additional fees apply. Meets ESL Endorsement requirements in conjunction with other coursework.
Also meets Arizona Department of Education course requirements.
Offered: Fall, Spring.

EDU 285 Secondary Teaching Methods
3 cr. hrs. 3 periods (3 lec.)
Introduction to a variety of relevant secondary instructional, classroom management, and assessment strategies. Includes the role and function of the teacher in a secondary classroom setting, preparing for instruction, developing lesson plans, designing assessments, delivering instruction, managing the classroom, working with instructional media, and assisting special needs students.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Offered: May not be offered this year, check class schedule.
EDU 286 Structured English Immersion Methods (Completion)
3 cr. hrs. (3 lec.)
Introduction to Structured English Immersion (SEI) methods designed to meet state standards for pre-service and in-service teachers of English Language Learners (ELL). Includes an examination of ELL proficiency standards, assessment of ELLs, SEI foundations and strategies, using disaggregated data to differentiate instruction and parental involvement.
Information: Meets SEI Endorsement requirements in conjunction with other coursework.
Also meets Arizona Department of Education course requirements.
Offered: May not be offered this year, check class schedule.

EDU 287 Structured Engl Immersion Foundations (Augmented Provisional)
3 cr. hrs. (3 lec.)
Overview of Structured English Immersion (SEI) Foundations designed to meet state standards for pre-service and in-service teachers of English Language Learners (ELL). Includes instruction in SEI strategies, teaching with Arizona English Language Learner (ELL) Proficiency Standards, and monitoring ELL student progress using a variety of assessment tools.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This course is designed for currently practicing K-12 teachers and administrators.
Meets SEI Endorsement requirements in conjunction with other coursework.
Also meets Arizona Department of Education course requirements.
Offered: May not be offered this year, check class schedule.

EDU 290 Internship
8 cr. hrs. (40 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: Admission to the Post-Degree Teacher Certification Program and TPP Internship and Education department approval is required before enrolling in this course.
EDU 290A, 290B, 290C, and 290D together constitute EDU 290.
Offered: May not be offered this year, check class schedule.

EDU 290A Internship I
2 cr. hrs. (10 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval before enrolling in this course.
EDU 290A, 290B, 290C and 290D together constitute EDU 290.
Offered: May not be offered this year, check class schedule.

EDU 290B Internship II
2 cr. hrs. (10 lab)
Continuation of EDU 290A, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork and professional development and evaluation.
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration.
EDU 290A, 290B, 290C and 290D together constitute EDU 290.
Offered: May not be offered this year, check class schedule.
EDU 290C Internship III  
2 cr. hrs. 10 periods (10 lab)  
Continuation of EDU 290B, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.  
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration.  
EDU 290A, 290B, 290C and 290D together constitute EDU 290.  
Offered: May not be offered this year, check class schedule.

EDU 290D Internship IV  
2 cr. hrs. 10 periods (10 lab)  
Continuation of EDU 290C, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.  
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration.  
EDU 290A, 290B, 290C, and 290D together constitute EDU 290.  
Offered: May not be offered this year, check class schedule.

Education–General/Post Degree

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

EDC 250 Introduction to Teaching  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to the teaching profession providing a historical context for K-12 education. Includes an introduction to the Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching Standards and the state academic standards and related instructional shifts. Also includes a beginning foundation for pedagogical knowledge for successful teaching, an understanding of ethics and professionalism in K-12 education and an exploration of the challenges and rewards of being a K-12 educator.  
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. Same as ESE 250.  
Offered: Fall, Spring.

EDC 251 Educational Psychology  
3 cr. hrs. 3 periods (3 lec.)  
Overview of how K-12 students learn and how this information can be adapted to encompass learner differences and enable positive student outcomes. Includes theories of how learning is constructed, cognitive processes, multiple intelligences, factors that impact learning, developmental assessments, home and school partnerships, differentiated instruction, learning and behavior, and classroom management strategies. Also includes physical, psychological, moral, social and cognitive development.  
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. Same as ESE 251.  
Offered: Fall, Spring.

EDC 252 Survey of Special Education  
3 cr. hrs. 3 periods (3 lec.)  
Overview of special education for general education and special education pre-service teachers. Includes the history of special education, legislation, types of mild-moderate exceptionalities, referrals and assessment, instructional practices and delivery models, Individualized Education Plans (IEPs), effects of cultural and linguistic diversity, and family and community considerations. Also includes the roles of special education and general education teachers as they pertain to students with exceptionalities.  
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. Same as ESE 252.  
Offered: Fall, Spring.
EDC 253 Educational and Assistive Technology
3 cr. hrs. 3 periods (3 lec.)
Introduction for pre-service teachers to the uses of technology in the K-12 school environment to enhance and support instruction and learning, including assistive technology for students with exceptionalities. Includes legal and ethical issues, instructional practices that incorporate technology, assessment, and use of technology to connect with the broader school community. Also includes conducting research, creating presentations, observing classrooms via virtual practica, and creating lesson plans. 
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. Same as ESE 253.
Offered: Fall, Spring.

EDC 254 Classroom Management: Elementary
3 cr. hrs. 3 periods (3 lec.)
Overview of classroom management styles and strategies that support student engagement and achievement in grades 1-8. Includes learner differences, motivation, interpersonal relationships, teacher expectations, communication, and collaboration. Also includes organizational strategies, procedures, routines, current trends and restorative practices. 
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 256 Classroom Management: Secondary
3 cr. hrs. 3 periods (3 lec.)
Effective classroom management components that support student achievement and engagement in grades 7-12. Includes analysis of how learner differences, teacher expectations, effective communication, effective instruction, positive relationships, and restorative practices can impact learner behavior. Also includes self-assessment, classroom management strategies, including rules, procedures, and organizational strategies. 
Information: Post Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 262 Practicum 1: Elementary
1 cr. hrs. 1 periods (1 lec.)
In a grades 1-8 classroom placement, students will observe and analyze effective teaching strategies for elementary students. Includes theories of learning, classroom management strategies, Essential Elements of Instruction (EEI), assessment data, and differentiating instruction. Also includes self-assessment, relevant laws and policies, and professional behavior. 
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 263 Practicum 2: Elementary
1 cr. hrs. 1 periods (1 lec.)
In a grades 1-8 classroom placement, students will learn effective teaching strategies for elementary students through performance, personal reflection and discussions. Includes Essential Elements of Instruction (EEI) strategies, instructional methods aligned with the Arizona's College and Career Ready Standards (AZCCRS), diversity of learners, an understanding of Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching standards, effectively interacting with students, and appropriate professional behaviors. 
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

EDC 264 Practicum 1: Secondary
1 cr. hrs. 1 periods (1 lec.)
In a grades 7-12 classroom placement, students will observe and analyze effective teaching strategies for secondary students. Includes theories of learning, classroom management strategies, Essential Elements of Instruction (EEI), assessment data, and differentiating instruction. Also includes self-assessment, relevant laws and policies, and professional behavior. 
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.
EDC 265 Practicum 2: Secondary
1 cr. hrs. 1 periods (1 lec.)
In a grades 7-12 classroom placement, students will learn effective teaching strategies for secondary students through performance, personal reflection and discussions. Includes Essential Elements of Instruction (EEI) strategies, instructional methods aligned with the Arizona's College and Career Ready Standards (AZCCRS), diversity of learners, an understanding of Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching standards, effectively interacting with students, and appropriate professional behaviors.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 270 Elementary Methods: English Language Arts/Social Sciences
3 cr. hrs. 3 periods (3 lec.)
Emphasizes the application of theories, methods, and techniques for teaching English Language Arts (ELA) and Social Sciences (SS) in grades 1-8. Includes standards-based instruction, elements of effective instruction, differentiated instruction, 21st century skills, data literacy, and assessment within these two content areas.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 271 Elementary Methods: Math/Science
3 cr. hrs. 3 periods (3 lec.)
Emphasizes the application of theories, methods, and techniques for teaching Mathematics and Science in grades 1-8. Includes standards-based instruction, elements of effective instruction, differentiated instruction, 21st century skills, data literacy, and assessment within these two content areas.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 272 Elementary Methods: Reading/Phonics
3 cr. hrs. 3 periods (3 lec.)
Overview of reading and phonics instruction at the elementary level (grades 1-8). Includes developmental stages of literacy and strategies for teaching phonics, phonemic awareness, vocabulary, decoding, fluency, and reading comprehension. Emphasizes the use of various assessment tools to analyze miscues, diagnose learner needs, guide planning, and differentiate instructions.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Summer

EDC 273 Elementary Methods: Science/Social Sciences
3 cr. hrs. 3 periods (3 lec.)
Emphasizes the application of theories, methods, and techniques for teaching Science and Social Studies (SS) in grades 1-8. Includes standards-based instruction, inquiry learning, problem-based learning, strategies to increase student engagement, 21st century learning, and digital technologies for Science and SS instruction.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Summer.

EDC 274 Elementary Methods: Instruction Across the Curriculum
3 cr. hrs. 3 periods (3 lec.)
Instructional methods for integrating English Language Arts (ELA)/Literacy and Math across the elementary curriculum. Includes emphasis on the use of state academic standards and related instructional strategies. Also includes examination of rigor, text complexity, writing curricular objectives, designing integrated lesson plans, differentiated instruction, assessment, and the uses of technology.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.
EDC 275 Secondary Methods: English Language Arts/Social Sciences
3 cr. hrs. 3 periods (3 lec.)
Instructional methods in English Language Arts (ELA) and Social Sciences (SS) for the secondary teacher. Includes considerations in instructional design related to English Language Arts and Social Sciences such as the Essential Elements of Instruction (EEI) learning objectives, scaffolding instruction, cross-curricular instruction, differentiated instruction, assessment, instructional strategies, learning theories, identifying technology resources, Arizona College and Career Ready Standards (AZCCRS), and Arizona Social Studies Standards. Also includes factors impacting student learning and achievement such as teacher bias, socioeconomic status, gender, language, culture, special needs, teacher expectations, motivation, engagement, and classroom management.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 276 Secondary Methods: Math/Science
3 cr. hrs. 3 periods (3 lec.)
Instructional methods in Mathematics and Science for the secondary teacher. Includes considerations in instructional design related to mathematics and science such as the Essential Elements of Instruction (EEI), learning objectives, scaffolding instruction, cross-curricular instruction, differentiated instruction, assessment, instructional strategies, learning theories, identifying technology resources, Arizona College and Career Ready Standards, and Arizona Science Standards/Next Generation Science Standards. Also includes factors impacting student learning and achievement such as teacher bias, socioeconomic status, gender, language, culture, special needs, teacher expectations, motivation, engagement, and classroom management.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 277 Secondary Methods: Instruction Across the Curriculum
3 cr. hrs. 3 periods (3 lec.)
Instructional methods focused on integrating English Language Arts (ELA) / Literacy and Math across secondary curriculum with a focus on strategies aligned with the Arizona College and Career Ready Standards (AZCCRS), Arizona Social Studies Standards, and Arizona Science Standards/Next Generation Science Standards. Includes the Essential Elements of Instruction (EEI), designing developmentally appropriate instruction, cross-curricular instruction, and learner collaboration. Also includes strategies for incorporating 21st Century Learning Skills into the curriculum, data literacy strategies, and strategies that promote learner development of social and cultural perspectives that expand understanding of local and global issues.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 291 Student Teaching: Elementary
8 cr. hrs. 8 periods (8 lec.)
Student teaching experience in collaboration with a cooperating teacher and a Pima supervising instructor. Includes hands-on experience in a grades 1-8 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiated instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 291A Student Teaching I: Elementary
4 cr. hrs. 4 periods (4 lec.)
Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades 1-8 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
EDC 291A and EDC 291B together constitute EDC 291.
Offered: Fall, Spring.
EDC 291B Student Teaching II: Elementary
4 cr. hrs. 4 periods (4 lec.)
Continuation of EDC 291A: Student Teaching I: Elementary. Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades 1-8 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
EDC 291A and EDC 291B together constitute EDC 291.
Offered: Fall, Spring.

EDC 292 Student Teaching: Secondary
8 cr. hrs. 8 periods (8 lec.)
Student teaching experience in collaboration with a cooperating teacher and a Pima supervising instructor. Includes hands-on experience in a grades 7-12 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

EDC 292A Student Teaching I: Secondary
4 cr. hrs. 4 periods (4 lec.)
Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades 7-12 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
EDC 292A and EDC 292B together constitute EDC 292.
Offered: Fall, Spring.

EDC 292B Student Teaching II: Secondary
4 cr. hrs. 4 periods (4 lec.)
Continuation of EDC 292A: Student Teaching I: Secondary. Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades 7-12 classroom, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
EDC 292A and EDC 292B together constitute EDC 292.
Offered: Fall, Spring.

Education–Special/Post Degree
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ESE 250 Introduction to Teaching
3 cr. hrs. 3 periods (3 lec.)
Introduction to the teaching profession providing a historical context for K-12 education. Includes an introduction to the Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching Standards and the state academic standards and related instructional shifts. Also includes a beginning foundation for pedagogical knowledge for successful teaching, an understanding of ethics and professionalism in K-12 education and an exploration of the challenges and rewards of being a K-12 educator.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Same as EDC 250.
Offered: EDC 250.
ESE 251 Educational Psychology
3 cr. hrs. 3 periods (3 lec.)
Overview of how K-12 students learn and how this information can be adapted to encompass learner differences and enable positive student outcomes. Includes theories of how learning is constructed, cognitive processes, multiple intelligences, factors that impact learning, developmental assessments, home and school partnerships, differentiated instruction, learning and behavior, and classroom management strategies. Also includes physical, psychological, moral, social and cognitive development.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Same as EDC 251.
Offered: Fall, Spring.

ESE 252 Survey of Special Education
3 cr. hrs. 3 periods (3 lec.)
Overview of special education for general education and special education pre-service teachers. Includes the history of special education, legislation, types of mild-moderate exceptionalities, referrals and assessment, instructional practices and delivery models, Individualized Education Plans (IEPs), effects of cultural and linguistic diversity, and family and community considerations. Also includes the roles of special education and general education teachers as they pertain to students with exceptionalities.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Same as EDC 252.
Offered: Fall, Spring.

ESE 253 Educational and Assistive Technology
3 cr. hrs. 3 periods (3 lec.)
Introduction for pre-service teachers to the uses of technology in the K-12 school environment to enhance and support instruction and learning, including assistive technology for students with exceptionalities. Includes legal and ethical issues, instructional practices that incorporate technology, assessment, and use of technology to connect with the broader school community. Also includes conducting research, creating presentations, observing classrooms via virtual practica, and creating lesson plans.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Same as EDC 253.
Offered: Fall, Spring.

ESE 254 Foundations of Instruction: Mild-Moderate Disabilities
3 cr. hrs. 3 periods (3 lec.)
Framework for understanding and working with students with mild-moderate disabilities. Includes current laws, procedures, and academic trends. Also includes characteristics of students with mild-moderate disabilities; collaboration and consultation techniques; and effective materials, resources, and educational pedagogies that meet the needs of learners with disabilities.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

ESE 255 Classroom Management for Mild-Moderate Disabilities
3 cr. hrs. 3 periods (3 lec.)
Effective classroom management components that support student achievement and engagement in grades K-12 for students with mild-moderate disabilities. Includes how teacher expectations, effective communication, positive relationships, and restorative practices can impact learner behavior. Also includes organizing the physical environment, establishing effective classroom rules and procedures, Functional Behavioral Assessments (FBA), and Behavior Intervention Plans (BIP).
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

ESE 260 Practicum 1: Mild-Moderate Disabilities
1 cr. hrs. 1 periods (1 lec.)
In a grades K-12 classroom placement, students will observe and analyze effective teaching strategies for elementary students. Includes theories of learning, classroom management strategies, Essential Elements of Instruction (EEI), assessment data, and differentiating instruction. Also includes self-assessment, relevant laws and policies, and professional behavior.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.
ESE 261 Practicum 2: Mild-Moderate Disabilities
1 cr. hrs. 1 periods (1 lec.)
In a grades K-12 classroom placement, students will learn effective teaching strategies for students with mild-moderate disabilities through performance, personal reflection and discussions. Includes Essential Elements of Instruction (EEI) strategies, instructional methods aligned with the Arizona's College and Career Ready Standards (AZCCRS), diversity of learners, an understanding of Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching standards, effectively interacting with students, and appropriate professional behaviors.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

ESE 270 Methods of Instruction: Students/Mild-Moderate Disabilities
3 cr. hrs. 3 periods (3 lec.)
Emphasizes the application of materials, strategies, methods, and techniques for creating lessons that promote mastery of learning and active participation for teaching students with mild-moderate disabilities. Includes Essential Elements of Instruction (EEI) and Differentiated Instruction. Also includes the incorporation of assessment, Arizona College and Career Ready Standards, and academic trends.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

ESE 271 Mild-Moderate Methods: K-12 Inst. Across the Curriculum
3 cr. hrs. 3 periods (3 lec.)
Instructional strategies for integrating English Language Arts (ELA)/Literacy and Math across K-12 curricula for students with mild-moderate range of exceptionalities. Includes strategies that are aligned with Arizona's College and Career Ready Standards (AZCCRS). Also includes lesson planning, differentiated instruction, and assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Summer.

ESE 272 Developmental Reading, Instruction, Assessment, Remediation
3 cr. hrs. 3 periods (3 lec.)
Comprehensive review of current information related to providing reading instruction to struggling learners. Includes reading development, characteristics of students with reading difficulties, reasons students struggle to read, and the five areas of reading identified by the National Reading Panel. Primary areas of focus are formative assessments used to plan reading interventions, lesson planning, and direct, explicit instructional strategies necessary for teaching struggling learners to read. Also includes classroom management techniques, uses of technology, and self-monitoring techniques for students.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Summer.

ESE 273 Diagnosis and Assessment of Mild-Moderate Disabilities
3 cr. hrs. 3 periods (3 lec.)
Concepts, skills and techniques used when assessing and diagnosing students with mild-moderate disabilities. Includes the assessment process, informal and formal assessments, synthesizing and analyzing testing scores for academic purposes.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.

ESE 290 Student Teaching: Mild-Moderate Disabilities
8 cr. hrs. 8 periods (8 lec.)
Student teaching experience in collaboration with a cooperating teacher and a Pima supervising instructor. Includes hands-on experience in a grades K-12 Special Education school setting, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiated instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
Offered: Fall, Spring.
**ESE 290A Student Teaching I: Mild-Moderate Disabilities**
4 cr. hrs. 4 periods (4 lec.)
Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades K-12 Special Education school setting, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
*Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. ESE 290A and ESE 290B together constitute ESE 290.*
Offered: Fall, Spring.

**ESE 290B Student Teaching II: Mild-Moderate Disabilities**
4 cr. hrs. 4 periods (4 lec.)
Continuation of ESE 290A: Student Teaching I: Mild-Moderate Disabilities. Student teaching experience in collaboration with a Pima supervising instructor. Includes hands-on experience in a grades K-12 Special Education school setting, designing and delivering lesson plans, managing and monitoring the learning environment, strategies for achieving learning goals, differentiating instruction, assessment and planning for instruction, professional readings, self-reflection, building a professional portfolio, clinical and collegial observations and evaluations, networking within the school, participating in student activities, and self-assessment.
*Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course. ESE 290A and ESE 290B together constitute ESE 290.*
Offered: Fall, Spring.

---

**Educational Technology Training**
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**ETT 101 Introduction to Educational Technology**
3 cr. hrs. 3 periods (3 lec.)
An introduction to educational technology exploring the current and emerging technologies available to teachers. Includes theoretical foundations of educational technology, technology enhanced instruction, digital technologies for the classroom, and an overview of productivity, school and classroom management software.
Offered: Fall, Spring.

**ETT 103 Introduction to the Internet in Education**
3 cr. hrs. 3 periods (3 lec.)
Basic use of the internet for education. Includes network and telecommunication systems, web-based applications for teaching and learning, and audio-visual technologies. Also includes an introduction to distance education and issues in implementing internet technologies in schools.
Offered: May not be offered this year, check class schedule.

---

**Electrical Utilities Technology**
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**EUT 101 Introduction to Electrical Utilities**
3 cr. hrs. 3 periods (3 lec.)
Overview of the electrical utility field. Includes electricity generation, generating station, generation, transmission, and distribution, power policies and procedures, radio procedures, electrical utility disciplines, human resources, and system protection.
Offered: Fall.

**EUT 102 Electrical Distribution Math**
3 cr. hrs. 3 periods (3 lec.)
Basic math operations related to electrical distribution. Includes the review of basic math, solving and converting, basic algebra, and Ohm’s Law.
Offered: Fall.
EUT 103 Generation Steam Systems
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to steam systems, thermodynamics, and boiler operation. Includes steam as an energy generating source, steam system operation, and boilers. Also includes pressure and temperature control.
Offered: Fall, Spring.

EUT 104 Overhead and Underground Systems, Hardware, and Equipment
4 cr. hrs. 5 periods (3 lec., 2 lab)
Procedures for working in the overhead and underground distribution components. Includes pole hardware, overhead conductors, porcelain and polymer equipment, overhead transformers, underground equipment installation, electrical utility disciplines, and safety.
Offered: Fall, Spring.

EUT 106 Measuring Electricity
3 cr. hrs. 4 periods (2 lec., 2 lab)
Overview of the theories and devices used to measure electricity. Includes electric utility metering terminology, Blondel's theorem, kilowatt-hour meter operating principles, single-phase and network meters, wiring connections for mounting devices, voltmeter, voltage indicator, and ammeter usage, and Direct Current (DC), and Alternating Current (AC), circuits.
Offered: Fall, Spring.

Emergency Medical Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

EMT 089 Skills Reinforcement for EMT 100
2 cr. hrs. 4 periods (1 lec., 3 lab)
Overview, techniques, and skills for pre-hospital emergency response. Includes equipment operations, communication, documentation, packaging, and patient assessment.
Recommendation: Concurrent enrollment in EMT 100.
Information: Course supplements lecture time and laboratory experience for EMT 100.
Offered: Fall, Spring, Summer.

EMT 090 National Registry Skills Preparation
.5 cr. hrs. .5 periods (.5 lec.)
Introduction to the practical portion of the EMT-B National Registry Skills stations. Includes introduction to the six stations required for EMT-B certification. Also includes opportunity to serve as a patient in medical and trauma scenarios, and to practice hands on assessment with other students.
Recommendation: Designed for students enrolling in EMT 100 the following semester.
Information: Prepares students to serve as patients for National Registry testing.
Offered: Fall, Spring, Summer.

EMT 091 Ambulance Operations
2 cr. hrs. 4 periods (1 lec., 3 lab)
Practical experience and safe operation of emergency vehicles. Includes operating an ambulance on a closed course to become familiar with its handling and operations, and subsequent completion of an obstacle course similar to the Emergency Vehicle Operators Course (EVOC). Also includes proper gurney operation and key safety matters pertaining to the use of lights and sirens.
Recommendation: Concurrent enrollment in EMT 100 or 110.
Information: Students must possess a valid driver's license.
Offered: Fall, Spring.

EMT 092 Cardiac Monitor (EKG) for the EMT
1.5 cr. hrs. 1.5 periods (1.5 lec.)
Introduction to the cardiac monitor or electrocardiograph (EKG). Includes an in-depth look at the cardiac monitor, the many different cardiac rhythms students may encounter as an EMT, and discussion of various treatments for abnormal rhythms.
Corequisite(s): Concurrent enrollment in EMT 100 or 110.
Information: Not a substitute for Advanced Cardiac Life Support (ACLS), but appropriate for entry level EMT students. Ideal exploration course for those considering a career beyond EMT, such as Paramedic or Nursing.
Offered: Fall, Spring.
EMT 100 Emergency Medical Technology
12 cr. hrs. 14 periods (11 lec., 3 lab)
Techniques of pre-hospital emergency medical care for the emergency medical technician. Includes history of emergency medical care delivery systems, roles and responsibilities of EMS providers, ethical and legal issues, and patient assessment. Also includes symptoms of illnesses, injuries, medical emergencies, appropriate medical techniques, triage, and ambulance operations.
Information: Students must be 18 years of age when class begins.
Students must have CPR certification at the Healthcare Provider or Professional Rescuer Level and receive a minimum score of 84 on the Compass reading assessment.
Students must show proof of personal medical insurance and provide immunization records for MMR, TD, TB skin Test, and Varicella; flu vaccine is encouraged.
Students may provide a fingerprint clearance card, or they will be fingerprinted the 1st day of class.
They must submit to drug screening (form provided by the EMT Service Center), and must meet with EMT staff/ prior to registration.
Offered: Fall, Spring, Summer.

EMT 110 First Responder
3 cr. hrs. 3 periods (3 lec.)
Techniques in pre-hospital emergency care appropriate to the First Responder Scope of Practice. Includes identifying signs and symptoms associated with illness and traumatic injuries. Also includes intervention used in managing patient and transfer of patient to higher level medical authority.
Information: This course will prepare those wishing to enroll in EMT 100. We will cover the DOT curriculum for EMT as well as the National Registry Practical portion of EMT.
Offered: Fall, Spring, Summer.

EMT 111 Heartsaver First Aid Provider
.5 cr. hrs. .5 periods (.5 lec.)
Beginning first aid concepts and techniques for the lay person. Includes principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with either medical or traumatic injuries and complaints. Includes: first aid general principles, medical, and trauma. Also includes topic options: adult Cardiopulmonary Resuscitation (CPR), Adult Automatic External Defibrillator (AED), and environmental emergencies.
Information: The Heartsaver First Aid and CPR and AED Provider Manuals are required.
Offered: May not be offered this year, check class schedule.

EMT 112 Heartsaver Cardiopulmonary Resuscitation
.5 cr. hrs. .5 periods (.5 lec.)
Concepts and techniques to assess and treat patients with airway obstruction, respiratory, and cardiac arrest for the lay person. Includes the integration of principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with foreign body airway obstruction, respiratory and/or cardiac arrest. Includes choice of two topics: Adult Cardiopulmonary Resuscitation (CPR) and Pediatric CPR.
Information: Purchase of the Heartsaver CPR provider manual prior to class is required.
Offered: May not be offered this year, check class schedule.

EMT 122 Burn Emergencies
.25 cr. hrs. .25 periods (.25 lec.)
Overview, techniques and skills for burn emergencies. Includes the following topics: general system pathophysiology, assessment, and management. Also includes current burn emergency trends.
Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.
Offered: May not be offered this year, check class schedule.

EMT 123 Neurological Emergencies
.25 cr. hrs. .25 periods (.25 lec.)
Concepts, techniques and skills for neurological emergencies. Includes the following neurological topics: general system pathophysiology, assessment, and management. Also includes integration and current trends in neurological emergencies.
Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.
Offered: May not be offered this year, check class schedule.
**EMT 124 Toxicology Emergencies**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for toxicology emergencies. Includes the following topics: general and specific toxicology, assessment, management and current trends in toxicology emergencies.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 125 Abdominal Trauma**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for abdominal trauma emergencies. Includes the following topics: general system pathophysiology, organ injury assessment and management, organ injuries, pelvic fractures, and current trends in abdominal trauma.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 126 Environmental Emergencies**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for environmental emergencies. Includes the following environmental emergency topics: environmental illnesses, risk factors, general and specific system pathophysiology, assessment, heat and cold, near-drowning, diving, and current environmental emergency trends.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 127 Obstetric Emergencies**  
.25 cr. hrs. .25 periods (.25 lec.)  
Concepts, techniques and skills for obstetric (OB) emergencies. Includes the following topics: anatomy and physiology of the reproductive system, general and specific assessment, complication of pregnancy, normal childbirth, routine care of the neonate, abnormal deliveries, and current obstetric emergency trends.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 128 Allergic Reaction**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for allergic reaction emergencies. Includes the following topics: anaphylaxis, pathophysiology, management of anaphylaxis and allergic reaction, and current trends in allergic emergencies.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 129 Neonatal Resuscitation**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for neonatal resuscitation emergencies. Includes the follow topics: risk factors, physiological adaptations at birth, neonate assessment and management, distressed newborn resuscitation, postresuscitation care, neonatal transport, and neonatal specific situations. Also includes common birth injuries and trends in neonatal emergencies.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.

**EMT 130 Rescue Operations**  
.25 cr. hrs. .25 periods (.25 lec.)  
Overview, techniques, and skills for rescue operations. Includes the following topics: surface water rescue, hazardous atmospheres, highway operations, hazardous terrain, vehicle rescue, assessment procedures, and current trends in rescue operations.  
*Information: Designed for Medical Service personnel interested in continuing education for Emergency state certification.*  
Offered: May not be offered this year, check class schedule.
EMT 140 Pre-Hospital Trauma Life Support
1.5 cr. hrs. 2 periods (1 lec., 1 lab)
Concepts and techniques for evaluating assessment findings to formulate a field impression and implementation of a field treatment plan for a trauma patient. Includes systemic approach to patient assessment and management, airway and ventilation management, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.
Offered: May not be offered this year, check class schedule.

EMT 141 Pre-Hospital Trauma Life Support Refresher
1.5 cr. hrs. 2 periods (1 lec., 1 lab)
Concepts and scenario-based techniques for evaluating assessment findings to formulate a field impression and implementation of a field treatment plan for a trauma patient. Includes a systemic approach to patient assessment and management, airway and ventilation management, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.
Information: Includes teaching and evaluation stations as a review and update for those students who have taken EMT 140.
Offered: May not be offered this year, check class schedule.

EMT 142 Advanced Medical Life Support Instructor
1 cr. hrs. 1 periods (1 lec.)
A review of the Advanced Medical Life Support (AMLS) Provider and Refresher course. Concepts, techniques, and support materials to provide AMLS instructor-candidates with skills necessary to conduct and participate as faculty in an approved AMLS course. Includes the styles of adult learners, suggestions on maximizing the learning experience of participants, and the administration components of the AMLS courses.
Information: The AMLS instructor course is designed for students who have achieved instructor-candidate potential when successfully completing an AMLS provider or refresher course. The student must hold an advanced healthcare provider status and have experience teaching at the advanced practitioner level.
Offered: May not be offered this year, check class schedule.

EMT 143 Prehospital Trauma Life Support Instructor (PHTLS)
1 cr. hrs. 1 periods (1 lec.)
A review of the Prehospital Life Support (PHTLS) Provider and PHTLS Refresher course. Includes concepts, techniques and support materials to provide PHTLS instructor-candidates with the knowledge, skills, and support materials necessary to conduct and participate as faculty in an approved PHTLS course. Also includes styles of adult learners, suggestions to maximize the learning experience of participants, and the administration components of the PHTLS courses.
Information: This course is designed for those who have achieved instructor-candidate potential upon successful completion of the EMT 140 PHTLS Provider and EMT 141 PHTLS Refresher courses.
Advanced healthcare provider status and experience teaching at the advanced practitioner level is required prior to enrolling in this course.
Offered: May not be offered this year, check class schedule.

EMT 155 Advanced Medical Life Support (AMLS) Provider
1.5 cr. hrs. 1.5 periods (1.5 lec.)
Overview, concepts and techniques to study medical emergencies related to adult patients. Includes a pragmatic approach and systematic format regarding patient assessment and management. Includes interactive scenario-based lectures with hands-on physical assessment of patients. Includes a global and initial assessment taking into account the patient’s environmental and scene issues that allows the participant to formulate a general impression, determine the patient’s stability, and explore the possibilities of differential diagnoses. Also includes using a systematic approach to obtain an initial assessment, vital signs, present illness, past medical, focused physical exam; the participant will be driven by the differential diagnoses.
Information: AMLS is an advanced course that assumes a previous working knowledge of medical emergencies, there are necessary prerequisites: EMT-B, EMT-I, EMT-P, RN, MD, DO, and other advanced level healthcare providers with at least one year of clinical experience.
Participant must read the AMLS textbook before class and come to class prepared and complete the pre-test. EMT-B will have a separate pre-test and post-test written evaluation for EMT-Basic providers.
Offered: May not be offered this year, check class schedule.
EMT 156 Advanced Cardiac Life Support Challenge
.25 cr. hrs. .25 periods (.25 lec.)
The Advanced Cardiac Life Support (ACLS) Challenge verifies the knowledge and skills needed to evaluate and manage patients of all ages in cardiac arrest (as required by the American Heart Association Guidelines). Includes 10 core ACLS cases: respiratory emergencies, four types of cardiac arrest: simple VF/VT, complex VF/VT, PEA, and asystole. Also includes four types of prearrest emergencies: bradycardia, stable tachycardia, unstable tachycardia, and acute coronary syndromes and stroke.
Information: Provides the challenge portion of the American Heart Association (AHA) online course in Advanced Cardiac Life Support (ACLS). AHA certificate is required at the beginning of class.
Offered: May not be offered this year, check class schedule.

EMT 158 Transition Training for EMT
1.5 cr. hrs. 2.5 periods (1 lec., 1.5 lab)
Review of current techniques in pre-hospital emergency care for the basic emergency medical technician. Includes signs and symptoms of illness, injuries, medical emergencies, appropriate medical techniques, and ambulance operations.
Information: EMT-B State of Arizona current certification is required before enrolling in this course. Information: May be taken six times for a maximum of nine credit hours.
Offered: Fall, Spring, Summer.

EMT 159 Cardiopulmonary Resuscitation: Healthcare Provider
.5 cr. hrs. .75 periods (.25 lec., .5 lab)
Introduction to the techniques required to provide Cardiopulmonary Resuscitation (CPR) at the healthcare provider level. Includes introduction to body systems and disease states, which lead to cardiac and respiratory arrest. Also includes the assessment and intervention for the airway, respiration and central circulation.
Information: Course meets American Heart Association guidelines for the healthcare provider level. May be taken six times for a maximum of three credit hours.
Offered: Fall, Summer.

EMT 160 Heartsaver CPR and AED Provider
.5 cr. hrs. .5 periods (.5 lec.)
Concepts and techniques to assess and treat patients with airway obstruction, respiratory, and/or cardiac arrest for the lay person. Includes the integration of principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with foreign body airway obstruction, respiratory and/or cardiac arrest. Also includes the choice of five topics: Adult Cardiopulmonary Resuscitation (CPR), Pediatric CPR, Adult Automatic External Defibrillator (AED), Pediatric AED, and Infant CPR.
Information: Purchase of the Heartsaver CPR with AED Provider Manual prior to class is required.
Offered: May not be offered this year, check class schedule.

EMT 170 Advanced Life Support Operations
1 cr. hrs. 1 periods (1 lec.)
Introduction to skills necessary to assess, extricate, and care for victims of crash incidents. Includes exposure to scene management skills to include size-up, disentanglement, victim stabilization for single and multi-victim situations, hazardous materials incidents, integration of local emergency medical services (EMS) for patient assessment and management, and standard operating procedures to selected victim scenarios.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 180 EMT Review - Theory and Practice
6 cr. hrs. 8 periods (4 lec., 4 lab)
Comprehensive review of the knowledge and skills required by certified emergency services professionals. Includes basic preparation, airway, patient assessment, medical emergencies, trauma, special populations, and operations. Also includes a variety of enrichment activities.
Information: Should be taken in conjunction with EMT 100.
Offered: May not be offered this year, check class schedule.
EMT 180A EMT Review - Theory and Practice Module A  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Comprehensive review of the knowledge and skills required by certified emergency services professionals. Includes basic preparation, airway, patient assessment, and medical emergencies, trauma, special populations, and operations. Also includes a variety of enrichment activities.  
Information: Should be taken in conjunction with EMT 100.  
Offered: Fall, Spring.

EMT 205 ALS Pharmacology and Medication Administration  
3 cr. hrs. 3.25 periods (2.75 lec., .5 lab)  
Elements of pharmacological agents and their administration. Includes basic pharmacological background and actions of drugs, regulations, human body systems, and pharmacokinetics. Also includes medications for patient in an emergency setting, and pharmacological mathematics.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 214 ALS Advanced Special Considerations  
2.5 cr. hrs. 3 periods (2 lec., 1 lab)  
Advanced life support skills approach to emergency care of the emotionally disturbed. Includes emotional aspects, approach to the patient, and psychiatric emergencies. Also includes techniques of management and demonstration of skills within a simulated hospital environment.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 218 Paramedic National Registry Preparation  
3.5 cr. hrs. 6 periods (1 lec., 5 lab)  
Review and preparation in standards of paramedic emergency care at the state and national levels. Includes developing testing skills and questions related to assessment, analysis, intervention or evaluation. Also includes each component of the Emergency Medical Technician Paramedic National Standard Curriculum.  
Information: Acceptance into a Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 219 ALS Foundations  
1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)  
Introduction to the Advanced Life Support (ALS) career field. Includes roles and responsibilities, Emergency Medical Services (EMS) components, well being, illness and injury prevention, ethics, medical and legal considerations.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 221 ALS Airway and Ventilation  
1.5 cr. hrs. 2 periods (1 lec., 1 lab)  
Techniques for establishing and/or maintaining a patient's airway. Also includes anatomy and physiology, age specific techniques and procedures, introduction to respiratory pharmacology and respiratory drug profiling.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 222 ALS Patient Assessment and Assessment Based Management  
1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)  
Skills to take a proper history and perform an advanced physical assessment on an emergency patient, and communicate the findings to the patient and others. Includes the physical exam, integrative and on-going exams, communications and documentation. Also includes the implementation of a management plan for patients with common complaints and injuries, dispatch scenarios, scene size-up and forming impressions.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.

EMT 223 ALS Trauma Emergencies and Systems  
2 cr. hrs. 2.25 periods (1.75 lec., .5 lab)  
Techniques to formulate a field impression and implement the treatment plan for the trauma or shock patient. Includes shock, burn injuries, and isolated and multi-systems trauma.  
Information: Acceptance into the Paramedic program is required before enrolling in this course.  
Offered: Fall, Spring, Summer.
EMT 224 ALS Medical Emergencies
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to the utilization of assessment findings to formulate a field impression and implement the treatment plan for the medical patient. Includes respiratory, cardiovascular, neurological, endocrine, allergic, toxic, abdominal and urologic, environmental, behavioral and gynecological emergencies.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 225 ALS Special Medical Considerations
2 cr. hrs. 2.25 periods (1.75 lec., .5 lab)
Introduction to special medical consideration concepts. Includes utilizing assessment findings to formulate a field impression and implement the treatment plan for obstetric, neonatal, pediatric, geriatric, and chronic-care patients.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 227 LC ALS Practicum: Clinical Lab
3 cr. hrs. 9 periods (9 lab)
Techniques for performing skills and completing documentation in accordance with established guidelines, orders, and protocols for critical care, emergency department, labor and delivery, pediatrics, and other specialty units. Includes applying skills associated to the scope of practice for the Advanced Life Support (ALS) Professional.
Information: Acceptance into an ALS Training Program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 228 LC ALS Practicum: Vehicular Lab
3 cr. hrs. 9 periods (9 lab)
ALS vehicular lab concepts. Includes techniques for performing and documenting in accordance with established guidelines, orders, and protocols, and acting within the scope of practice of the ALS Professional and under medical supervision during a vehicular lab.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 230 Basic ECG Interpretation
1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)
Introduction to all levels of emergency care providers with basic electrocardiographic (ECG) rhythm analysis. Includes interpretation and related care in a clinical and pre-hospital setting.
Information: Required content for the identification and treatment of cardiac emergencies. This course is designed for paramedics and paramedic students.
Offered: Fall, Spring, Summer.

EMT 233 Basic Cardiac Life Support Instructor
.75 cr. hrs. .75 periods (.75 lec.)
Concepts, techniques, and skills in how to teach the Basic Cardiac Life Support of the Heartsaver First Aid Provider course. Includes basic principles, course management, personnel issues, time and resource management, and remediation.
Information: Provides the challenge portion of the American Heart Association (AHA) online course in Advanced Cardiac Life Support (ACLS). AHA certificate is required at the beginning of class.
Offered: May not be offered this year, check class schedule.

EMT 234 Heartsaver First Aid Instructor
.75 cr. hrs. .75 periods (.75 lec.)
Concepts, techniques, and skills in how to teach Heartsaver First Aid (HSFAI) for instructors. Includes basic HeartSaver First Aid instructor principles, course management, personnel issues, time and resource management, and remediation.
Information: To become a HSFAI, the candidate must already be an Instructor in Basic Life Support (BLS) or Heartsaver - HS CPR; therefore there are no proficiency requirements other than current card in respective discipline and good standing with AHA.
Offered: May not be offered this year, check class schedule.
EMT 235 Phlebotomy
2 cr. hrs. 2.5 periods (1.5 lec., 1 lab)
Overview and practical application of phlebotomy procedures and techniques. Includes the healthcare setting, overview of the human body, blood collection procedures, and special procedures.
*Information: AZ Post Certified Law Enforcement Officer or other Criminal Justice employee must have written recommendation from agency. Must also have approval from agency Phlebotomy coordinator.
Offered: May not be offered this year, check class schedule.

EMT 236 Phlebotomy Refresher
.5 cr. hrs. .5 periods (.5 lec.)
Review of techniques and theory including up-to-date information regarding phlebotomy procedures, equipment, and legal issues. Designed to offer Law Enforcement Officers and employees of a Criminal Justice Agency, who have previously completed the 40-hour Phlebotomy for Law Enforcement Program. Also includes content suggested for maintaining continued competency while practicing phlebotomy procedures for Criminal Justice purposes.
*Information: AZ Post Certified Law Enforcement Officer or other Criminal Justice employee must have written recommendation from agency.
Must also have approval from agency Phlebotomy coordinator.
Offered: May not be offered this year, check class schedule.

EMT 238 Advanced Cardiac Life Support Instructor
1 cr. hrs. 1 periods (1 lec.)
Overview, concepts, and techniques in how to teach the Advanced Cardiac Life Support in the Provider course. Includes basic principles, course management, personnel issues, time and resource management, and remediation.
Offered: May not be offered this year, check class schedule.

EMT 239 Pediatric Advanced Cardiac Life Support Instructor
1 cr. hrs. 1 periods (1 lec.)
Overview, concepts, and techniques in how to teach Pediatric Advanced Cardiac Life Support (PALS) course to the provider. Includes pediatric basic principles, course management, personnel issues, time and resource management, and remediation.
Offered: May not be offered this year, check class schedule.

EMT 241 Emergency Pediatric Care (EPC) Instructor
1 cr. hrs. 1 periods (1 lec.)
Overview of concepts and techniques used by the Emergency Pediatric Care (EPC) instructor. Includes a review of basic principles of emergency pediatric care, methods of patient assessment, medical emergencies, pediatric trauma, and special populations. Also includes introduction to needs of the adult learner, suggestions on maximizing the learning experience, and administrative components of the EPC course.
*Information: This is an advanced course requiring previous working knowledge of pediatric trauma and medical emergencies. Course is restricted to: EMT-P, RN, MD, DO, and other advanced level healthcare providers who must have at least one year of clinical experience and complete the pre-test before beginning course.
Offered: May not be offered this year, check class schedule.

EMT 242 ALS Advanced Foundations
2 cr. hrs. 2.5 periods (1.5 lec., 1 lab)
Foundations of skills and principles in preparing to be a paramedic. Includes medical terminology, the human body structure, and pathophysiology.
*Prerequisite(s): EMT 219.
*Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 243 Emergency Pediatric Care (EPC) Initial
1.5 cr. hrs. 1.5 periods (1.5 lec.)
Concepts, techniques, and skills associated with medical and trauma emergencies for the newborn and pediatric patient. Includes in-depth study of emergency pediatric care, methods of patient assessment, medical emergencies, pediatric trauma, and management of Children with Special Health Care Needs (CSHCN).
*Information: This is an advanced course requiring previous working knowledge of pediatric trauma and medical emergencies. Course is restricted to EMT, EMT-P, RN, MD, DO, and other advanced level healthcare providers who must have at least one year of clinical experience and complete the pre-test before beginning course.
Offered: May not be offered this year, check class schedule.
EMT 244 ALS Advanced Medical Emergencies
2.5 cr. hrs. 3 periods (2 lec., 1 lab)
Continuation of EMT 224. Advanced life support techniques using pre-hospital approaches to the recognition and intervention of medical emergencies related to toxicology, infectious disease, and hematology. Includes poisoning, drug overdose, and transmission of infectious diseases.
Prerequisite(s): EMT 224.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 247LC ALS Advanced Practicum: Clinical Lab
3 cr. hrs. 9 periods (9 lab)
Continuation of EMT 227LC. In-hospital clinical procedures for the ALS professional. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.
Prerequisite(s): EMT 227LC.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 248LC ALS Advanced Practicum: Vehicular Lab
3 cr. hrs. 9 periods (9 lab)
Continuation of EMT 228LC. Pre-hospital emergency medical procedures for the ALS professional. Includes skills appropriate to the ALS scope of practice in the pre-hospital setting according to established protocols.
Prerequisite(s): EMT 228LC.
Information: Acceptance into the Paramedic program is required before enrolling in this course.
Offered: Fall, Spring, Summer.

EMT 250 Advanced Cardiac Care
1.5 cr. hrs. 2 periods (1 lec., 1 lab)
Introduction to the integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, cardiovascular pathologies and management, and adjunctive diagnostics.
Offered: Fall, Spring, Summer.

EMT 251 Advanced Cardiac Care Refresher
.75 cr. hrs. 1 periods (.5 lec., .5 lab)
Review of the integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, cardiovascular pathologies and management, and adjunctive diagnostics.
Offered: Fall, Spring, Summer.

EMT 252 Pediatric Advanced Life Support
1.5 cr. hrs. 2 periods (1 lec., 1 lab)
Techniques for emergency services for children. Integrates physiological, psychological, and social changes throughout human growth and development. Includes information on pediatric assessment, airway management and respiratory emergencies, cardiovascular emergencies. Also includes information on neonatal emergencies, children with special healthcare needs, and Sudden Infant Death Syndrome (SIDS).
Offered: Fall, Spring, Summer.

EMT 253 Pediatric Advanced Life Support Refresher
.75 cr. hrs. 1 periods (.5 lec., .5 lab)
Overview of techniques for emergency services for children. Integrated physiological, psychological, and social changes throughout human growth and development. Includes information on pediatric assessment, airway management and respiratory emergencies, cardiovascular emergencies. Also includes information on neonatal emergencies, children with special healthcare needs, and Sudden Infant Death Syndrome (SIDS).
Offered: May not be offered this year, check class schedule.
EMT 254 Advanced ECG Interpretation
3 cr. hrs. 3.5 periods (2.5 lec., 1 lab)
Integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, electrocardiographic monitoring, and adjunctive diagnostics.
Prerequisite(s): EMT 230.
Offered: Fall, Spring, Summer.

EMT 255 Instructional Strategies
2 cr. hrs. 2.5 periods (1.5 lec., 1 lab)
Introduction for organization and preparation of curriculum materials for presentation. Includes instructor roles and responsibilities, legal issues, the adult learner, creating an effective learning environment, and instructional strategies and methods.
Offered: May not be offered this year, check class schedule.

EMT 258 Pediatric Education for Pre-Hospital Professionals
1.5 cr. hrs. 2 periods (1 lec., 1 lab)
Foundations of skills and principles in dealing with pediatric patients in a pre-hospital setting. Includes information on the integration of the physiological, psychological, and social changes throughout human growth and development with assessment and communication strategies for patients of all ages.
Offered: Fall, Spring, Summer.

EMT 259 Pediatric Education for Pre-Hospital Professionals Refresher
.75 cr. hrs. 1 periods (.5 lec., .5 lab)
Overview of the foundations of skills and principles in dealing with pediatric patients in a pre-hospital setting. Includes information on the integration of the physiological, psychological, and social changes throughout human growth and development with assessment and communication strategies for patients of all ages.
Offered: May not be offered this year, check class schedule.

EMT 263 Tox-Medic
1.5 cr. hrs. 1.5 periods (1.5 lec.)
Provides paramedics with the training required which authorizes them to perform a medical treatment or administer a drug when responding to a hazardous materials incident.
Offered: Fall, Spring, Summer.

EMT 264 Tox-Medic Refresher
.5 cr. hrs. .5 periods (.5 lec.)
Continuation of EMT 263. Provides paramedics with continuing training in identification, assessment, and treatment of victims exposed to hazardous materials.
Prerequisite(s): EMT 263.
Offered: May not be offered this year, check class schedule.

EMT 295 ALS Independent Research
3 cr. hrs. 3 periods (3 lec.)
Independent research in advanced pre-hospital care.
Information: To be arranged by instructor.
Offered: Fall, Spring, Summer.
Engineering

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ENG 102IN Problem-Solving and Engineering Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Design, effective team participation, and career preparation in engineering. Includes the different engineering fields and careers, basic skills associated with engineering problem solving and communication, the design process, participation in hands-on design projects, and ethics and professional responsibility.
Prerequisite(s): MAT 151 and 182 or MAT 187.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

ENG 110IN Solid State Chemistry
4 cr. hrs. 6 periods (3 lec., 3 lab)
Fundamental principles of the chemistry of condensed states of matter including metals, polymers, molecular solids, and ceramics. Includes quantization, atomic structure, bonding, band and crystalline structure, conductivity, thermodynamics, and phase diagrams. Also includes electrochemistry and electrochemical devices, glass, optical properties and devices, and semiconductor devices.
Prerequisite(s): CHM 151 and MAT 220 or concurrent enrollment.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

ENG 120IN Civil Engineering Graphics and Design
3 cr. hrs. 7 periods (1 lec., 6 lab)
Introduction to civil engineering graphics and design using sketching and computer-aided design (CAD) Civil 3D software. Includes engineering basic applications, basic math and geometry, basic math and algorithms, corridor development, site grading and earthwork concepts, piping and draining concepts, surveying concepts and procedures, and visualization and construction documents.
Prerequisite(s): MAT 108.
Information: Prerequisite(s) may be waived with high school geometry.
IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring

ENG 122IN Engineering Graphics and Design with Solid Modeling
3 cr. hrs. 7 periods (1 lec., 6 lab)
Introduction to engineering graphics and the concepts of engineering design. Includes sketching, dimensioning practices and tolerances, computer-aided design (CAD), basic part modeling, and three-dimensional (3D) assembly modeling.
Prerequisite(s): MAT 108.
Information: Prerequisite may be waived with high school geometry.
IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall.

ENG 130IN Elementary Surveying
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the subject of surveying as it pertains to the field of civil engineering. Includes measurement of distances, leveling, profiling and grade calculations, measurement of angles, remote elevations, and traverse closure. Also includes topographic surveys, public land surveying, and land ownership.
Prerequisite(s): MAT 151 and 182, or MAT 187.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Spring.

ENG 170IN Problem-Solving Using Computers
3 cr. hrs. 5 periods (2 lec., 3 lab)
Design of problem-solving algorithms. Includes structure of C programs, data types, operations, and basics of C, selection, repetition, arrays, functions, data files, addresses and pointers, character strings, and engineering applications.
Prerequisite(s): MAT 151 and 182, or MAT 187.
Information: IN is the integrated version of the course with lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.
ENG 175IN Computer Programming for Engineering Applications I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Programming in C with emphasis on numerical applications in engineering. Includes structure of C programs, data types, operations, and basics of C, selection, repetition, arrays, functions, and data files.
Prerequisite(s): MAT 151 and 182, or MAT 187.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

ENG 210 Engineering Mechanics: Statics
3 cr. hrs. 3 periods (3 lec.)
Engineering analysis of static mechanical systems. Includes vector algebra, equilibrium of particles and rigid bodies, forces, moments, couples, equivalent force systems, analysis of simple structures (trusses, beams, frames, cables, machines), friction, first and second moments of area (moment of inertia).
Prerequisite(s): MAT 231, and PHY 210/210LB or 210IN.
Offered: Fall, Spring.

ENG 218 Fluid Mechanics
4 cr. hrs. 4 periods (4 lec.)
Introduction and fundamental concepts of fluid dynamics and fluid statics. Includes basic equations for a control volume, fluids in motion, inviscid flow, dimensional analysis, flow in pipes and ducts, and boundary layers.
Prerequisite(s): ENG 210 and MAT 241.
Offered: Fall, Spring.

ENG 220 Engineering Mechanics: Dynamics
4 cr. hrs. 4 periods (4 lec.)
Study of the motion of bodies under the action of forces. Includes introduction to dynamics, kinematics of particles and rigid body, kinetics of particles and rigid body, and vibration.
Prerequisite(s): ENG 210 and MAT 241.
Offered: Fall, Spring.

ENG 230 Mechanics of Materials
4 cr. hrs. 4 periods (4 lec.)
Introduction to the analysis and design of the mechanical properties of materials. Includes the concept of stress and strain, axially loaded members, torsion, stresses and strains in beams, analysis of stress and strain, deflections of beams, and columns.
Prerequisite(s): ENG 210.
Offered: Fall, Spring.

ENG 232 Thermodynamics
4 cr. hrs. 4 periods (4 lec.)
Basic laws and examples of engineering applications of macroscopic thermodynamics. Includes an introduction to concepts and definitions, energy and the first law of thermodynamics, evaluating properties, control volume energy analysis, the second law of thermodynamics, using entropy, vapor power systems, gas power systems, and refrigeration and heat pump systems.
Prerequisite(s): MAT 241 and PHY 216.
Offered: Fall, Spring.

ENG 250 Numerical Analysis for Engineers
3 cr. hrs. 3 periods (3 lec.)
Applications of numerical methods and computer programming techniques for the creation of mathematical models of engineering systems. Includes roots of equations, linear simultaneous equations, numerical integration, ordinary differential equations, interpolation and curve fitting.
Prerequisite(s): ENG 170IN or 175IN, and MAT 231.
Offered: May not be offered this year, check class schedule.
ENG 260 Electrical Engineering
3 cr. hrs. 3 periods (3 lec.)
Introductory survey of the electrical engineering discipline with emphasis on electrical power applications. Includes resistive circuits, inductance and capacitance, transients, steady-state sinusoidal analysis, and logic circuits. Also includes operational amplifiers, microcomputers, and diode electronics.
Prerequisite(s): MAT 231, and PHY 216/216LB or 216IN.
Offered: Fall, Spring.

ENG 274IN Digital Logic
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the theory and design of digital logic circuits. Includes combinational logic design, sequential logic design, combinational and sequential component design, register-transfer level design, optimizations and tradeoffs, and physical implementation.
Prerequisite(s): MAT 231, and PHY 216/216LB or 216IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

ENG 276IN Computer Programming for Engineering Applications II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced programming in C for engineering applications. Includes review of C programming, memory concepts, algorithms and analysis, and an introduction to C++.
Prerequisite(s): ENG 175IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

ENG 282IN Basic Electric Circuits
5 cr. hrs. 7 periods (4 lec., 3 lab)
Introduction to the fundamentals of alternating current (AC) and direct current (DC) circuits. Includes circuit variables, circuit elements, simple resistive circuits, techniques of circuit analysis, the operational amplifier; inductance, capacitance, and mutual inductance; response of first-order resistor-inductor (RL) and resistor-capacitor (RC) circuits, natural and step responses of RLC circuits, and sinusoidal steady-state analysis.
Prerequisite(s): MAT 262, and PHY 216/216LB or 216IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

English as a Second Language
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

ESL 050GR Grammar for Beginners
3 cr. hrs. 3 periods (3 lec.)
Fundamentals of grammar with a focus on English in everyday life. Includes verb tense and mood, sentence structure, and parts of speech.
Prerequisite(s): Required score on ESL assessment test.
Recommendation: Concurrent enrollment in ESL 050 is highly recommended.
Offered: May not be offered this year, check class schedule.

ESL 060 Reading, Writing, and Communication for Non-Native Speakers of English I
6 cr. hrs. 6 periods (6 lec.)
High beginning-level, integrated academic skills for non-native speakers of English. Includes content-based units: grammar, reading, writing, listening and speaking, study skills, and technology.
Prerequisite(s): Required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.
**ESL 060CN Conversation I**

3 cr. hrs. 3 periods (3 lec.)

Beginning-level conversational skills for situations and tasks relevant to daily life, social interactions, and personal interests. Includes conversing about a range of topics with communicative appropriateness, basic vocabulary and language functions, and exploration of college resources.

Prerequisite(s): Required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

---

**ESL 060CU Introduction to American Culture**

3 cr. hrs. 3 periods (3 lec.)

Basic-level integrated skills course on American culture for ESL students. Includes cultural adjustment, various topics on American culture, and basic English language skills development.

Prerequisite(s): Required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

---

**ESL 060GR Grammar for Writing I**

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of grammar with a focus on English in everyday life. Includes verb tense and mood, sentence structure, and parts of speech.

Prerequisite(s): Required score on ESL assessment test.

Recommendation: Concurrent enrollment in ESL 060 is highly recommended.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

---

**ESL 060PR Pronunciation I**

3 cr. hrs. 3 periods (3 lec.)

Pronunciation and spelling for non-native English at the introductory and basic levels. Includes an introduction to pronunciation improvement, basic sound-symbol patterns and production of corresponding sounds, stress, rhythm, and intonation, and fluency within communicative contexts.

Prerequisite(s): Required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

---

**ESL 070 Reading, Writing, and Communication for Non-Native Speakers of English II**

6 cr. hrs. 6 periods (6 lec.)

Intermediate-level, integrated academic skills for non-native speakers of English. Includes content-based units: grammar, reading, writing, listening and speaking, study skills, and technology.

Prerequisite(s): ESL 060 with a C or better or required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

---

**ESL 070CN Conversation II**

3 cr. hrs. 3 periods (3 lec.)

Intermediate-level conversational skills for increased fluency and comprehension. Includes conversing about a variety of topics with increased proficiency and communicative appropriateness, vocabulary building skills, range of language functions, and increased awareness of college resources.

Prerequisite(s): ESL 060 or higher with a C or better, or required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

---

**ESL 070CT Computer Technology to Develop English Skills**

3 cr. hrs. 3 periods (3 lec.)

Instruction and practice using computer technology to enhance English skill development. Includes computer operation and applications, oral and written English communication skills, and application of technological skills to enhance personal English development. Also includes utilizing ESL software, ESL websites and the World Wide Web.

Prerequisite(s): ESL 060 or higher with a C or better, or required score on ESL assessment test.

Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.
ESL 070CU Survey of American Culture
3 cr. hrs. 3 periods (3 lec.)
Intermediate-level course on American culture for ESL students. Includes an introduction to a variety of topics in American culture through readings, video and audio clips, and English language skills development.
Prerequisite(s): Completion of ESL 060 or higher with a grade of C or better or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 070GR Grammar for Writing II
3 cr. hrs. 3 periods (3 lec.)
Intermediate level grammar with focus on English in everyday life. Includes verb tense and mood, sentence structure, and parts of speech.
Prerequisite(s): ESL 060 with a C or better, or required score on ESL assessment test.
Recommendation: Concurrent enrollment in ESL 070 is highly recommended.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 070JB English on the Job
3 cr. hrs. 3 periods (3 lec.)
General workplace communication skills for intermediate ESL students. Includes job search skills, communication with supervisors and co-workers, expectations and culture in the American workplace, employee rights and responsibilities, and problem-solving strategies.
Prerequisite(s): ESL 060 with a C or better, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 070PR Pronunciation II
3 cr. hrs. 3 periods (3 lec.)
Pronunciation for non-native English speakers at the intermediate level. Includes introduction to pronunciation improvement, use of pronunciation keys and symbols, suprasegmentals, and increasing fluency within communicative contexts.
Prerequisite(s): ESL 060 or higher with a C or better, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 079EI Institute for American English and Culture I
1-15 cr. hrs. 1-15 periods (1-15 lec.)
Intermediate level English immersion program for non-English speaking international students. Includes English skills development in intermediate oral communication, writing, reading, and vocabulary; and exploration of cross-cultural issues.
Information: Restricted registration. See an international advisor for further information.
Extent of emphasis placed on specific activities and objectives in Program I will vary depending on audience and number of credits.
Offered: May not be offered this year, check class schedule.

ESL 080 Reading, Writing, and Communication for Non-Native Speakers of English III
6 cr. hrs. 6 periods (6 lec.)
High intermediate-level, integrated academic skills for non-native speakers of English. Includes content-based units: grammatical structures, reading, writing, listening and speaking, study skills, and technology.
Prerequisite(s): ESL 070 with a C or better or required score of ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 080CN Conversation III
3 cr. hrs. 3 periods (3 lec.)
Advanced-level conversational skills for increased fluency and comprehension. Includes conversational conventions, vocabulary, critical thinking skills, language functions, and non-verbal communication.
Prerequisite(s): ESL 070 or higher with a C or better, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.
ESL 080CU American English and Culture through Film
3 cr. hrs. 3 periods (3 lec.)
Intermediate-level study of American English and culture through film. Includes exploration of American cultural values and icons. Also includes an emphasis on the development of listening comprehension skills, speaking, and writing.
Prerequisite(s): ESL 070 or higher with a C or better, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 080GR Grammar for Writing III
3 cr. hrs. 3 periods (3 lec.)
Intermediate level grammar with a focus on English in everyday life. Includes verb tense and mood, sentence structure and parts of speech.
Prerequisite(s): ESL 070 with a C or better, or required score on ESL assessment test.
Recommendation: Concurrent enrollment in ESL 080 is highly recommended.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 080PR Pronunciation III
3 cr. hrs. 3 periods (3 lec.)
Pronunciation for non-native English speakers at the advanced level. Includes strategies for continued pronunciation improvement, use of pronunciation keys and symbols, suprasegmentals, and increased fluency within communicative contexts.
Prerequisite(s): ESL 070 or higher with a C or better, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 085 Reading, Writing, and Communication for Non-Native Speakers of English IV
6 cr. hrs. 6 periods (6 lec.)
High intermediate-level, integrated academic skills for non-native speakers of English. Includes content-based units: grammar, reading, listening, speaking, writing, and general skills.
Prerequisite(s): ESL 080 with a C or better or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 085CU Exploring American Film
3 cr. hrs. 3 periods (3 lec.)
Advanced English language skills development through exploration of topics on American film. Includes analysis and discussion of genres and artistic elements of popular American films. Also includes an emphasis on development of listening comprehension skills, speaking, writing, and critical thinking skills.
Prerequisite(s): ESL 080 or higher with a C or better or concurrent enrollment, or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 085GR Grammar for Writing IV
3 cr. hrs. 3 periods (3 lec.)
Advanced level grammar with a focus on written English in academic contexts. Includes verb tense and mood, sentence structure, parts of speech and other structures.
Prerequisite(s): ESL 080 with a C or better, or required score on ESL assessment test.
Recommendation: Concurrent enrollment in ESL 085 is highly recommended.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 088 Reading, Writing, and Communication for Non-Native Speakers of English V
6 cr. hrs. 6 periods (6 lec.)
Advanced-level, integrated academic skills for non-native speakers of English. Includes content-based units: grammar, reading, writing, listening and speaking, study skills, and technology.
Prerequisite(s): ESL 085 with a C or better or required score on ESL assessment test.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.
ESL 088GR Grammar for Writing V
3 cr. hrs. 3 periods (3 lec.)
Advanced level grammar with a focus on written English in academic contexts. Includes verb tense and mood, sentence structure, structural analysis and other structures.
Prerequisite(s): ESL 085 with a C or better, or required score on ESL assessment test.
Recommendation: Concurrent enrollment in ESL 088 is highly recommended.
Information: Prerequisite(s) may be waived with consent of instructor. See an ESL instructor for details.
Offered: May not be offered this year, check class schedule.

ESL 089EI Institute for American English and Culture II
1-15 cr. hrs. 1-15 periods (1-15 lec.)
Advanced level English immersion program for non-English speaking international students. Includes English skills development in advanced oral communication, writing, reading, and vocabulary; and exploration of cross-cultural issues.
Information: Restricted registration. See an international advisor for further information.
Extent of emphasis placed on specific activities and objectives in Program II will vary depending on audience and number of credits.
Offered: May not be offered this year, check class schedule.

Environmental Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ENV 105 Humanity and the Environment
3 cr. hrs. 3 periods (3 lec.)
Technical, sociocultural, and political information on environmental science and technology for non-ENV majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the greenhouse effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.
Corequisite(s): ENV 105LB
Information: Same as ANT 105.
Offered: Fall, Spring.

ENV 105LB Humanity and the Environment Discovery Laboratory
1 cr. hrs. 3 periods (3 lab)
Laboratory exercise and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy carrying capacity models, and waste by-products and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in our society, and anthropological relationships to the environment.
Corequisite(s): ENV 105
Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ENV 105. Information: Same as ANT 105LB.
Offered: Fall, Spring.
Experiential Education
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

EED 110 Prior Learning Assessment
1-6 cr. hrs. 1-6 periods (1-6 lec.)
Explore credit options through the development of an individual's portfolio. Includes how to collect and present materials which identify, describe, and validate professional training and experiential learning which can be evaluated for college-level credit equivalency. Students in this course must be willing to spend considerable time in the preparation of the portfolio which can be submitted to a portfolio evaluator.
Information: A maximum of nine credits may be earned for the EMT-Basic program; students must register for two credits.
A maximum of 36 credits may be earned for the Fire Science, Corrections, Juvenile Corrections, and Intermediate EMT programs; students must register for three credits.
A maximum of 50 credits may be earned for the EMT Paramedic and Law Enforcement programs; students must register for six credits.
A maximum of 9 credits may be earned by students who have earned credits previously in this course; students must register for one credit.
Offered: May not be offered this year, check class schedule.

Fashion Design & Clothing
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

FDC 110 Clothing Construction I
3 cr. hrs. 5 periods (2 lec., 3 lab)
An introduction to basic clothing construction techniques designed for inexperienced sewers. Includes terminology, tools and equipment, garment pattern components, fabric components, interfacing, and construction sample and pressing techniques.
Offered: Fall, Spring.

FDC 111 Clothing Construction II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 110. Intermediate principles of clothing construction. Includes planning the garment, preparation of garment pieces, assembly, unit production, and evaluation.
Prerequisite(s): FDC 110 with a B or better.
Information: Prerequisite may be waived with consent of instructor.
Offered: Fall, Spring.

FDC 112 Alteration and Pattern Fitting
3 cr. hrs. 5 periods (2 lec., 3 lab)
Methods of altering commercial patterns and principles of fitting garments. Includes fitting a commercial pattern, making a muslin, construct a design using fit techniques, and evaluation of standards of fitting and relationship to styles.
Offered: Fall.

FDC 121 Flat Pattern Making
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the flat pattern method of pattern making for apparel production. Includes principles of pattern manipulation, practical applications, and evaluating the applications to a selected design project.
Prerequisite(s): FDC 111.
Offered: Fall

FDC 122 History of Clothing
3 cr. hrs. 3 periods (3 lec.)
Introduction to clothing and personal decoration as a reflection of the wearer's culture, time and place. Includes definition of essential characteristics in the western world, evolution of clothing, geographical and chronological grouping, and areas of analysis through research and projects.
Offered: Fall.
FDC 123 Computer Patternmaking I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to patternmaking for apparel production using computer software. Includes measurements, creating a basic set of slopers, checking sloper fit, and basic pattern concepts.
Prerequisite(s): FDC 111 and 121.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FDC 126 Textiles
3 cr. hrs. 5 periods (2 lec., 3 lab)
Technology and science, art and design, and global industry of textiles. Includes emphasis on performance of textile products in apparel, furnishings, industry, geotextiles, transportation and space exploration. Also includes the components of textile products: fibers, yarns, fabric construction, coloration and finishes, current and developing technology, and environmental effects.
Offered: Spring.

FDC 131 Wardrobe and Styling
3 cr. hrs. 3 periods (3 lec.)
Introduction to the function of wardrobe in contemporary life. Includes the clothing and wearer, current theories on wardrobe, art applied to wardrobe and the individual, and the core working wardrobe, wardrobe issues, and ritual of dress.
Offered: Fall.

FDC 132 Global Fashion and Culture
3 cr. hrs. 3 periods (3 lec.)
Human behavior in relationship to clothing, body image, and self-concept. Includes global behavior and dress, clothing as messenger, the ritual of dress, global fashion for the masses, and life stages and clothing and image needs.
Offered: May not be offered this year, check class schedule.

FDC 135 Fashion Show/Event Planning
3 cr. hrs. 3 periods (3 lec.)
A survey of fashion direction, publicity and fashion event coordination. Includes development of an event, student fashion show production, and wrap up.
Recommendation: Completion of FDC 141 before enrolling in this course.
Offered: Spring.

FDC 141 Introduction to Fashion Design
3 cr. hrs. 3 periods (3 lec.)
Survey of the business of apparel manufacturing and fashion design. Includes history of the industry, careers in fashion, designing the garment, influences on design, and organization of a clothing line.
Offered: Fall, Spring.

FDC 142 Restyling and Alterations
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to techniques for recycling and increasing the life and function of garments. Includes measurement, making, and fitting, techniques for stitching in alternation and fitting, restyling, repair, and conservation of fabric and garments.
Prerequisite(s): FDC 111.
Offered: May not be offered this year, check class schedule.

FDC 144 Fashion Drawing
3 cr. hrs. 5 periods (2 lec., 3 lab)
Technical drawing of a garment on the fashion figure. Includes working on original designs and presenting them in a portfolio. Also includes fabrics and how to render them as well as a basic knowledge of garment construction.
Recommendation: Completion of ART 110 or 213 before enrolling in this course.
Offered: Spring.

FDC 148 Costume Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to basic design techniques for theater costumes. Includes identifying and applying elements, sketching and coloring, paper fabrication of costume design, script and character analysis, application of historical research, and production scheduling and budget.
Information: Same as THE 148. May be taken two times for a maximum of six credit hours.
Offered: May not be offered this year, check class schedule.
FDC 152 Costume Construction
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to basic costume construction techniques for theater costumes. Includes period patterning, period silhouettes, review of basic sewing and construction, measuring and fitting, commercial patterns, recycled garments, and construction of a period costume.
Prerequisite(s): FDC 110, 111 and FDC/THE 148.
Information: Same as THE 152. May be taken two times for a maximum of six credit hours.
Offered: Spring.

FDC 196 Independent Studies in Fashion Design and Clothing
3 cr. hrs. 5 periods (2 lec., 3 lab)
Independent projects for continuing individual development in fashion design and clothing under the guidance of a faculty member.
Information: May be taken three times for a maximum of 9 credit hours. Students must have taken at least twelve (12) credit hours in FDC courses before enrolling in this course.
Offered: May not be offered this year, check class schedule.

FDC 199 Co-op: Fashion Design and Clothing
1 cr. hrs. 1 period (1 lec.)
Introduction to the work environment in the Fashion Apparel field. Includes the internship process, applying course work, oral and written communication skills, and self management on the job.
Corequisite(s): FDC 199WK
Information: Consent of instructor of department chair and successful completion of twelve (12) credit hours of FDC course work are required before enrolling in this course. Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FDC 199WK Co-op Work: Fashion Design and Clothing
1-5 cr. hrs. 5-25 periods (5-25 lab)
A supervised work environment in the Fashion Apparel field. Includes completion of hours, knowledge of fashion industry job site, demonstration of aptitudes and abilities, journal/record of daily experiences and observations, and maintaining a written and digital contact list.
Corequisite(s): FDC 199
Information: Consent of instructor or department chair and successful completion of twelve (12) credit hours of FDC course work are required before enrolling in this course. Information: May be taken four times for a maximum of twenty credit hours.
Offered: May not be offered this year, check class schedule.

FDC 211 Clothing Construction III
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 111. Advanced techniques in construction of clothing. Includes pattern layout options, construction techniques and principles applied to special fabrics, fabric selection for specialty garments, and evaluation.
Prerequisite(s): FDC 111 with a B or better.
Information: Prerequisite may be waived with consent of instructor.
Offered: Fall, Spring.

FDC 212 Tailoring: Jackets
3 cr. hrs. 5 periods (2 lec., 3 lab)
Traditional and speed-tailoring methods for jackets utilizing advanced techniques and materials. Includes pattern alterations for jackets, buttonholes, welt pockets, shaping the interfacing, inner structure of jackets, and complete garment evaluation.
Prerequisite(s): FDC 112 and 211 with a grade of B or better.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall

FDC 213 Tailoring: Pants and Shirts
3 cr. hrs. 5 periods (2 lec., 3 lab)
Traditional and speed-tailoring methods for pants and shirts utilizing advanced techniques and materials. Includes pant construction, shirt construction, and completed garment evaluation.
Prerequisite(s): FDC 112 and 211 with a grade of B or better.
Information: Prerequisites may be waived with consent of instructor.
Offered: Spring.
FDC 214 Bridal and Formal Wear
3 cr. hrs. 5 periods (2 lec., 3 lab)
Advanced construction techniques applied to specialty fabrics for formal wear. Includes client vs. customer, fitting the client, creating the muslin, constructing the formal wear garment, and closing contracts with the client.
Prerequisite(s): FDC 111 and 211 with a grade of B or better.
Recommendation: Successful completion of FDC 212 before enrolling in this course.
Offered: Spring.

FDC 215 Sewing with Knits
3 cr. hrs. 5 periods (2 lec., 3 lab)
Skills and techniques used in the construction of garments made from knit fabrics. Includes pattern selection, fabric selection, tools and equipment, pattern fit and alteration; layout, cutting, and marking; and construction techniques.
Prerequisite(s): FDC 211 with a B or better.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FDC 218 Introduction to Accessory Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to accessory design as it relates to historical and current trends. Includes construction of a simple handbag, construction techniques for hats, belts, hair accessories, and pet fashions. Also includes marketing and merchandising accessories.
Prerequisite(s): FDC 111.
Information: Proficiency test may be required for placement level.
Offered: May not be offered this year, check class schedule.

FDC 221 Flat Pattern Making II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 121. Includes measurement, marking and fitting, review of sloper slash and spread methods of design, pattern preparation, determining garment patterns, garment construction, and evaluation of individual garment design and construction.
Prerequisite(s): FDC 121.
Recommendation: Students should have a grade of C or higher in the prerequisite course before enrolling in this course.
Offered: Fall.

FDC 223 Computer Patternmaking II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 123. Includes introduction to software pattern libraries, advanced computer flat patternmaking, and using computer-aided pattern design.
Prerequisite(s): FDC 123.
Offered: May not be offered this year, check class schedule.

FDC 224 Computer Patternmaking III
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 223. Includes computer marker making, creation of technical sketches for use in production, and computer measurement grading.
Prerequisite(s): FDC 223.
Offered: May not be offered this year, check class schedule.

FDC 231 Flat Patternmaking III
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 221. Application and analysis of advanced patternmaking techniques and principles of grading (sizing) base patterns. Includes advanced patternmaking techniques, review of sloper for design and fitting purposes, creation of original designs, grading, and evaluation of individual garment design and construction.
Prerequisite(s): FDC 221 with a B or better.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall.
FDC 241 Draping I
3 cr. hrs. 5 periods (2 lec., 3 lab)
Application of design principles using the draping method of fashion design to create an original garment on a dress form. Includes review of essential design principles, muslin preparation, determining garment patterns, applying fabrics to the dress form, garment construction, and evaluation of individual garment design and construction.
Prerequisite(s): FDC 111 and 211 with a grade of B or better.
Recommendation: Completion of FDC 211 with a grade of B or better before enrolling in this course.
Offered: Spring.

FDC 242 Draping II
3 cr. hrs. 5 periods (2 lec., 3 lab)
Continuation of FDC 241. Advanced draping techniques for fashion design to include the design and construction of a formal apparel item. Includes muslin for advanced apparel designs, yardage calculation, specialty fashion fabrics, constructing the formal wear or bridal design, and formal apparel evaluation.
Prerequisite(s): FDC 211 and 241 with a grade of B or better.
Offered: Spring.

FDC 245 Digital Fashion Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the use of computer software to design fashion and technical drawings. Includes the fashion work arena, features and applications used to create digital fashion drawings, vocabulary, terms and technical criteria, fashion software, and developing multiple color patterns and textures.
Prerequisite(s): FDC 111, 144 with a B or better.
Recommendation: Completion of ART 100 before enrolling in this course.
Offered: Spring.

FDC 288 Portfolio Preparation
3 cr. hrs. 5 periods (2 lec., 3 lab)
Overview of the development and marketing of a professional portfolio. Includes definition and evaluation of coherent bodies of work, documentation of work, preparation of portfolio production, production of a portfolio, parts of a portfolio, and marketing.
Recommendation: For advanced students who have completed coursework in their specific areas.
Information: Portfolio concentrations will be determined in a conference between student and instructor. Information: Same as ART 288.
Offered: Fall, Spring.

FDC 289 Fashion Design and Clothing Capstone
3 cr. hrs. 5 periods (2 lec., 3 lab)
Development and creation of individual original garments incorporating skills acquired through previous courses. Includes capstone project overview, development of a five piece collection, and presenting the garment line.
Prerequisite(s): FDC 111, 112, 121, 122, 126, 141, 144, 211, 241.
Offered: May not be offered this year, check class schedule.

Finance
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

FIN 100 Basic Principles of Organizational Finance
1 cr. hrs. 1 periods (1 lec.)
Introduction to the fundamental principles of finance. Includes basic financial concepts in industry and banking, the role of financial decision-makers, financial statements, common ratios, time value of money, and investment decisions.
Offered: Spring.

FIN 107 Business Finance
3 cr. hrs. 3 periods (3 lec.)
Fundamental principles of finance in profit-making, governmental, and not-for-profit organizations. Includes financial statements, common ratios, budgeting systems, cash forecasting, time value of money, investment decision, and break-even analysis.
Offered: May not be offered this year, check class schedule.
FIN 190 Internship in Finance
1-3 cr. hrs. 5-15 periods (5-15 lab)
Supervised internship in a financial workplace. Includes experiences supervised by a professional in the field.
Information: Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

FIN 217 Analyzing Financial Data
1 cr. hrs. 1 periods (1 lec.)
Overview of financial data analysis. Includes income statement analysis and interpretation, retained earnings statement, balance sheets, statement of changes in financial position, sources of data, key financial ratios, and analysis procedures.
Prerequisite(s): ACC 211.
Offered: Spring.

Fire Science
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

FSC 101 Principles of Emergency Services
3 cr. hrs. 3 periods (3 lec.)
Introduction to fire protection and emergency services. Includes career opportunities in fire protection and related fields, culture and history of emergency services, fire loss analysis, organization and function of public and private fire protection services, and fire departments as part of local government. Also includes laws and regulations affecting the fire service, fire service nomenclature, specific fire protection functions, basic fire chemistry and physics, introduction to fire protection systems, introduction to fire strategy and tactics, and life safety initiatives.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 104 Fire Science Careers
1-2 cr. hrs. 1-2 periods (1-2 lec.)
Introduction to careers in fire science. Includes the role of the fire fighter, careers in fire fighting, extrication, and fire chemistry. Also includes Air Pak, protective clothing, and the integration of fire sciences with Emergency Medical Services and law enforcement careers.
Offered: **

FSC 110 Rope I
1 cr. hrs. 1 periods (1 lec.)
Introduction to basic rope rescue: safety, equipment, rope craft, anchors, mechanical advantage, belay systems, medical considerations, identifying terrain types, low angle evacuations, steep angle evacuations and steep angle rappelling. Includes performance in rope craft, anchor construction, mechanical advantage construction, belay technique, patient packaging, low angle evacuations, and steep angle rappelling.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

FSC 111 Rope II
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 110. Concepts, techniques, and skills for rope rescue areas: safety, ropecraft, advanced anchors, applied mechanical advantage, belay systems, self-rescue, and high angle pickoffs. Also includes knot passing through technical evacuation systems, rope rescue strategy, and tactics.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

FSC 112 Rope III
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 111. Concepts, techniques, and skills for advanced rope rescue areas: safety, rope craft, anchors, applied mechanical advantage, belay systems, self rescue, high angle pickoffs, knot passing through technical evacuation systems. Also includes rescue tactics and strategies relating to vertical rescues.
Prerequisite(s): FSC 111.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 116 Confined Space I for First Responders
1 cr. hrs. 1 periods (1 lec.)
Introduction to confined space rescue operations including the OSHA regulations governing permit requirements for confined spaces. Includes hazards associated with confined space rescues and means to mitigate these hazards. Also includes Incident Command System recommended to manage confined space rescues as well as an introduction to the equipment used in these rescues.
Recommendation: Complete FSC 110, 111, 112 and Hazardous Materials First Responder Certification prior to enrolling in this course.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

FSC 117 Confined Space II for First Responders
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 116. Overview of the OSHA regulations governing permit required confined spaces, the hazards associated with confined space rescues, and the means to mitigate these hazards. Includes an emphasis on the practical application of these concepts through hands-on activities.
Prerequisite(s): FSC 116.
Recommendation: Complete FSC 110, 111, 112, and Hazardous Materials First Responder Certification prior to enrolling in this course.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 Special Operations, NFPA 1670.
Offered: **

FSC 118 Swift Water Rescue for First Responders
1 cr. hrs. 1 periods (1 lec.)
Concepts and techniques to prepare the emergency responder to perform swift water rescue. Includes rescuer safety and philosophy, river dynamics, hydrology and hazards, and methods of effecting swift water rescues including boat handling operations. Includes basic water accident management techniques in still water. Also includes the water accident portion of this course taught at a swimming pool and the practical application conducted in moving water.
Prerequisite(s): FSC 110, 111, 112.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

FSC 120 Fire Behavior and Combustion
3 cr. hrs. 3 periods (3 lec.)
Introduction to the theories and fundamentals of fire behavior and combustion. Includes physical and chemical properties of fire, materials and their relationship to fire as fuel, and the use of water and other fire suppression agents and strategies.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 121 Trench Rescue for First Responders
1.25 cr. hrs. 1.25 periods (1.25 lec.)
Concepts and techniques to prepare the emergency responder to perform trench rescues. Includes rescuer safety, the OSHA regulation governing trench operations, trench hazards and soil classifications, rescue procedures and the creation of safe areas in which to work within the trench.
Recommendation: Complete FSC 110, 111, 112, 117 and Hazardous Materials First Responder Certification prior to enrolling in this course.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

FSC 122 Structural Collapse Rescue for First Responders
1.25 cr. hrs. 1.25 periods (1.25 lec.)
Concepts and techniques to prepare the emergency responder to perform rescues in collapsed or structurally compromised buildings. Includes rescuer safety, types of building materials and their properties, hazards to rescuers, calculating weights of building materials and their capacities, development of a structural collapse rescue plan, debris removal and possible victim locations. Also includes the FEMA structure marking system, cribbing procedures, and the construction of various shoring systems.
Prerequisite(s): FSC 121.
Recommendation: Complete FSC 110, 111, 112, 116, and 117 prior to enrolling in this course.
Information: This class meets State of Arizona Fire Marshal requirements: NFPA 1983, NFPA 1500 special operations, NFPA 1670.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 123 Building Construction Related to the Fire Service
3 cr. hrs. 3 periods (3 lec.)
Introduction to components of building construction as related to firefighter and life safety. Includes elements of construction and structure design shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies.
Prerequisite(s): FSC 101 and 120 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 124 Fire Prevention
3 cr. hrs. 3 periods (3 lec.)
Introduction to fundamental concepts relating to the field of fire prevention. Includes history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use and application of codes and standards, plans review, fire inspections, fire and life safety education, and fire investigation.
Prerequisite(s): FSC 101 and 120 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 125 Hydraulics and Water Supply
3 cr. hrs. 3 periods (3 lec.)
Introduction to hydraulics and water supply in fire service. Includes theoretical foundations and principles of water use in fire protection, water distribution systems, and survey of hydraulic principles to analyze and to solve water supply problems.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 126 Fire Protection Systems in the Fire Service
3 cr. hrs. 3 periods (3 lec.)
Introduction to fire protection systems in the fire service. Includes features of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppressions systems, water supply for fire protection, and portable fire extinguishers.
Prerequisite(s): FSC 120 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 127 Principles of Emergency Services Safety and Survival
3 cr. hrs. 3 periods (3 lec.)
Introduction to the basic principles and history related to national firefighter life safety initiatives. Includes cultural and behavioral change, organizational health, safety profile, research investigation, national health and safety, risk management, and publication education of fire and life safety.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 130 Strength and Fitness for the Fire Service
2.5 cr. hrs. 2.5 periods (2.5 lec.)
Overview of fitness as it pertains to prospective firefighters. Includes endurance training, flexibility training, strength conditioning and use of equipment in Fire Incident Readiness Evaluation.
Information: Consent of instructor is required before enrolling in this course.
Offered: **

FSC 149 Fire Operations I
4 cr. hrs. 5 periods (3 lec., 2 lab)
Specialized classroom and practical experience in the techniques of firefighting. Includes the chemistry of fire, use of water and other agents, firefighting equipment and its uses, firefighting practices and safety.
Information: Completion of FSC 149 and 150 will help prepare the student for successful completion of State of Arizona Firefighter I & II practical evaluations. Only when taken as a part of the Pima Community College Fire Academy can students be concurrently enrolled in FSC 149 and 150.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
**FSC 150 Fire Operations II**

4 cr. hrs. 5 periods (3 lec., 2 lab)

Specialized classroom and practical experience in the practices and techniques of fire fighting. Includes principles of community fire defense, methods of entry, rescue, tools, apparatus, equipment, salvage, hydraulics, and fire extinguishment.

*Prerequisite(s): FSC 149.*

*Information: Completion of FSC 149 and 150 will help prepare the student for successful completion of State of Arizona Firefighter I & II practical evaluations. Only when taken as a part of the Pima Community College Fire Academy can students be concurrently enrolled in FSC 149 and 150.*

*Offered: **

**FSC 151 Introduction to Fire Science**

3 cr. hrs. 3 periods (3 lec.)

Historical and scientific background on the fire protection field. Includes the development and future of the field in America; governmental, industrial and private fire protection organizations and agencies; and employment and promotional opportunities.

*Recommendation: Completion of FSC 149 prior to enrolling in this class or concurrent enrollment in FSC 149 and 150.*

*Offered: **

**FSC 152 Fundamentals of Fire Prevention**

3 cr. hrs. 3 periods (3 lec.)

Introduction to the principles of fire prevention. Includes authority, responsibility and organization of fire prevention, inspection procedures and reports, fire hazard recognition, building construction, and occupancy classifications. Also includes site access and means of egress, water-based fire protection and water supply systems, portable extinguishers, special agent, extinguishing systems, and fire detection and alarm systems, plans review, hazardous materials and flammable and combustible liquids, and storage, handling, and use of other hazardous materials.

*Prerequisite(s): FSC 149.*

*Offered: **

**FSC 153 Hazardous Materials**

1.5 cr. hrs. 1.5 periods (1.5 lec.)

Basic chemical concepts and their applications to the field of fire science. Includes classes and properties of hazardous materials; recognition and identification of materials; management of materials in transit, in use, and in storage; and management of hazardous materials incidents.

*Information: Equivalent to State of Arizona’s First Responder, 40-hour course.*

*Offered: **

**FSC 154 Advanced Fire Prevention**

3 cr. hrs. 3 periods (3 lec.)

Introduction to high risk and industrial fire prevention. Includes code interpretation and application, research, implementing policy, testifying in legal proceedings, and creating forms and job aids. Also includes conducting field inspections and plans review, and building and fire code applications to simulated situations.

*Prerequisite(s): FSC 152.*

*Information: Completion of this course will allow the student to test for Arizona State Certification as Inspector II.*

*Offered: **

**FSC 160 Wildland Firefighting**

3 cr. hrs. 3 periods (3 lec.)

Basic wildland firefighting. Includes locating and reporting the fire, incident operations and management, suppression equipment, fire behavior, size-up, methods of suppression, and safety.

*Information: This course meets Arizona Center for Fire Service Excellence and Arizona Department of Forestry Guidelines for Wildland Firefighting Training.*

*Offered: **

**FSC 162 Hydraulics and Fire Suppression**

3 cr. hrs. 3 periods (3 lec.)

Principles of hydraulics as applied to fire suppression. Includes physical laws affecting the movement of water through pipes, hydrants, pumpers, hoses, etc.; functions and limitations of mechanical equipment to overcome these restrictions; effect of friction loss; head and pressure; water system; fire flow requirements; and organization for fire suppression.

*Prerequisite(s): FSC 149, 150 and 151.*

*Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings."
FSC 163 Fire Apparatus and Equipment
3 cr. hrs. 3 periods (3 lec.)
Overview, concepts, and techniques to use fire equipment. Includes automotive apparatus (pumpers, aerial ladders, lift platforms, hose wagons, transports and utility vehicles), water towers, heavy auxiliary mechanical equipment and appliances, generators, compressors, rescue and forcible entry tools and cutting torches.
Prerequisite(s): FSC 149, 150 and 151.
Offered: **

FSC 164 Fire Protection Systems
3 cr. hrs. 3 periods (3 lec.)
Principles of fire protection systems. Includes portable and fixed fire extinguishing equipment, automatic sprinkler and deluge systems, rate of temperature rise and smoke detecting devices and alarm systems.
Prerequisite(s): FSC 152.
Offered: **

FSC 165 Building Construction for Fire Protection
3 cr. hrs. 3 periods (3 lec.)
Principles of building design as related to fire protection. Includes fire travel, relation of fire load to propagation of flame, non-conforming structures and application of building codes.
Prerequisite(s): FSC 149, 150 and 151.
Offered: **

FSC 166 Fire Suppression, Strategy and Tactics
3 cr. hrs. 3 periods (3 lec.)
Principles of planning fire suppression attacks. Includes planning an attack to fit the problem and revising the plan of attack to meet changing situations.
Prerequisite(s): FSC 165.
Offered: **

FSC 167 Rescue Practices for the Fire Service
2.5 cr. hrs. 2.5 periods (2.5 lec.)
Introduction to skills necessary to assess, extricate, and care for victims in emergency situations. Includes an overview of fire service-based rescue, rescue operations and incident management, and civilian versus firefighter rescue. Also includes why firefighters become victims and an overview of technical rescues.
Prerequisite(s): FSC 149.
Offered: **

FSC 168 Special Hazard Tactical Problems
3 cr. hrs. 3 periods (3 lec.)
Concepts and techniques designed for the experienced firefighter on successfully mitigating incidents that involve hazards that are not commonly experienced such as hazardous materials under fire conditions. Other examples may include a train derailment and biological attack. Also includes real-life incidents in order to learn from prior experiences, as well as practice with potential scenarios created from the surrounding area.
Prerequisite(s): FSC 153.
Information: Designed for experienced firefighters.
Offered: **

FSC 170 Fire Service Leadership
3 cr. hrs. 3 periods (3 lec.)
Practical training for fire service leadership and supervision. Includes decision-making, problem solving, running a meeting, managing multiple roles, creativity, power, and ethics. Also includes situational leadership, delegation, coaching, and discipline.
Prerequisite(s): FSC 149.
Information: This course meets National Fire Academy (NFA) requirements for Leadership I, II, and III. Information: FSC 170A, 170B, and 170C together constitute FSC 170.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 170A Fire Service Leadership I
1 cr. hrs. 1 periods (1 lec.)
Practical training for fire service leadership and supervision. Includes decision-making, problem solving, and running a meeting.
Prerequisite(s): FSC 149.
Information: This course meets National Fire Academy (NFA) requirements for Leadership I, II, and III. Information: FSC 170A, 170B and 170C together constitute FSC 170.
Offered: **

FSC 170B Fire Service Leadership II
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 170A. Includes practical training for fire service leadership and supervision. Also includes managing multiple roles, creativity, power, and ethics.
Prerequisite(s): FSC 149.
Information: This course meets National Fire Academy (NFA) requirements for Leadership I, II, and III. Information: FSC 170A, 170B, and 170C together constitute FSC 170.
Offered: **

FSC 170C Fire Service Leadership III
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 170B. Includes practical training for fire service leadership and supervision. Also includes situational leadership, delegation, coaching, and discipline.
Prerequisite(s): FSC 149.
Information: This course meets National Fire Academy (NFA) requirements for Leadership I, II, and III. Information: FSC 170A, 170B, and 170C together constitute FSC 170.
Offered: **

FSC 173 Records and Reports
.25-1 cr. hrs. .25-1 periods (.25-1 lec.)
Introduction to the elements and qualities of good report writing and comprehensive documentation. Includes form, style, and methodologies for writing various reports, techniques for developing an accurate narrative, and proper and improper conclusions. Also includes effective and correct use of grammar and the mechanics of writing.
Prerequisite(s): FSC 149.
Offered: **

FSC 174 Fire Investigation
3 cr. hrs. 3 periods (3 lec.)
Introduction to fundamental concepts of fire scene investigation. Includes emergency responder responsibilities and observations, conducting origin and cause interpretation, preservation of evidence and documentation, scene security, motives of the fire setter, and elements of fire dynamics.
Prerequisite(s): FSC 101, 120 and 123 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 175 Intro to Fire Investigation: Origin and Recognition of Arson
3 cr. hrs. 3 periods (3 lec.)
Basic principles of arson investigation. Includes an introduction to fire investigation, laws, fire causes, determining point of origin, evidence, fire setters, case investigation and preparation, and courtroom demeanor and testimony.
Prerequisite(s): FSC 149, 150, 151 and 165.
Offered: **

FSC 180 Driver Training for Fire Service
3 cr. hrs. 3 periods (3 lec.)
Techniques for driving and handling fire vehicles. Includes safe operating procedures, defensive driving, apparatus inspection, training in emergency maneuvers, and the key components of the driving system.
Prerequisite(s): FSC 149, 150 and 151.
Information: Consent of instructor is required before enrolling in this course.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 181 Firefighter Rescue
1 cr. hrs. 1 periods (1 lec.)
Designed to give the firefighter the skills necessary to remove themselves and fellow firefighters from dangerous situations. Includes the skills necessary to perform effectively as a Rapid Intervention Crew (RIC) team with the goal of locating and removing injured or trapped firefighters.
Offered: **

FSC 189 Current Issues in Fire Science
2 cr. hrs. 2 periods (2 lec.)
Study of current issues in the fire service. Includes developing and writing an independent, applied research project, utilizing various computer applications for formatting and design, and use of the Internet and library resources.
Prerequisite(s): WRT 101 and 102.
Information: Completion of twenty credits in FSC prefix courses is required before enrolling in this course.
Offered: **

FSC 230 Fire Investigation II
3 cr. hrs. 3 periods (3 lec.)
Continuation of FSC 174. Principles and advanced concepts of fire investigation. Includes rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation, and courtroom testimony.
Prerequisite(s): FSC 174 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 249 Occupational Safety and Health for Emergency Services
3 cr. hrs. 3 periods (3 lec.)
Concepts of occupational health and safety related to emergency service organizations. Includes risk and hazard evaluation, incident management, occupational health and safety, and control procedures for emergency service organizations.
Prerequisite(s): FSC 127 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 250 Principles of Fire and Emergency Services Administration
3 cr. hrs. 3 periods (3 lec.)
Principles and concepts of administration for the fire and emergency services department. Includes relationship of government agencies to fire service, responsibility and authority, public policy, ethics, and leadership of the company officer.
Prerequisite(s): FSC 101 with a C or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 251 Hazardous Materials Chemistry
3 cr. hrs. 3 periods (3 lec.)
Overview of the basic chemistry of hazardous materials. Includes recognition, identification, reactivity, and health hazards encountered by emergency services.
Prerequisite(s): FSC 120 with a C grade or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 252 Fire Service Strategy and Tactics
3 cr. hrs. 3 periods (3 lec.)
Principles and tactics of fire service ground control. Includes fireground factors and management, command operations and functions, life safety, personnel, equipment, and extinguishing agents.
Prerequisite(s): FSC 120, 123 and 127 with a C grade or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 253 Legal Aspects of Emergency Services
3 cr. hrs. 3 periods (3 lec.)
Overview of the federal, state, and local laws that regulate emergency services. Includes a review of national standards, regulations, and consensus standards.
Prerequisite(s): FSC 101 and 250 with a C grade or better.
Information: This class is in compliance with the Fire and Emergency Services Higher Education (FESHE) model curriculum.
Offered: **

FSC 260 Fire and Emergency Services Instructor I
2 cr. hrs. 2 periods (2 lec.)
Theoretical and practical training in developing and instructing fire and emergency services training programs. Includes an exploration of safety and legal issues, adult learning psychology, developing, planning and presenting effective instruction, evaluating student learning, teaching diverse learners, and use of instructional media.
Prerequisite(s): FSC 189.
Information: Consent of instructor is required before enrolling in this course concurrently with FSC 189. Information: Meets the requirements for the Arizona State Fire Marshal Instructor I certification and NFPA 1041.
Offered: **

FSC 261 Fire and Emergency Services Instructor II
2 cr. hrs. 2 periods (2 lec.)
Continuation of FSC 260. Theoretical and practical training in developing, instructing and managing fire and emergency services training programs. Also includes an exploration of the design and development of training programs, performing needs and task analyses, development and utilization of lesson plans, the recruitment, selection and evaluation of instructors, and training manager’s responsibilities relating to budget and resource management.
Prerequisite(s): FSC 260
Information: Consent of instructor is required before enrolling in this course concurrently with FSC 260.
Meets the requirements for the Arizona State Fire Marshall Instructor II certification and National Fire Protection Association (NFPA) 1041.
Offered: **

FSC 270 Leadership I for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Concepts, techniques, and application of effective executive leadership. Includes leadership styles and characteristics, the effective executive, and leaders with vision, influence and motivation. Also includes being a change facilitator in a traditional organization, and the future of leadership.
Prerequisite(s): FSC 170.
Offered: **

FSC 271 Leadership II for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 270. Includes organizational structure, roles and responsibilities, and organizational values. Also includes organizational vision, fiscal management and priorities, innovative organizations, and executive leadership.
Prerequisite(s): FSC 270.
Offered: **

FSC 272 Leadership III for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 271. Includes communication skills, presentation skills, and verbal and writing skills at an executive level. Also includes interpersonal skills, labor relations, conflict management, ethical and unethical persuasion, and the media.
Prerequisite(s): FSC 271.
Offered: **

FSC 273 Leadership IV for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 272. Includes the local fire department in relation to its city government, local policy development. Also includes legal aspects of the city and department procedures, relationships with organized labor, networking and community relations, relations with local and state fire service providers, and understanding the national and international fire service.
Prerequisite(s): FSC 272.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.
FSC 274 Leadership V for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 273. Includes reasoning, thinking patterns, problem identification, and problem solving strategies. Also
includes problem solving styles, decision- making models and approaches, personal decision making, and evaluation.
Prerequisite(s): FSC 273.
Offered: **

FSC 275 Leadership VI for Fire Service Executives
1 cr. hrs. 1 periods (1 lec.)
Continuation of FSC 274. Includes master planning, facilities, and human resource planning. Also includes financial planning,
strategic planning, implementation planning, and leadership skills in planning for the future.
Prerequisite(s): FSC 274.
Offered: **

FSC 280 Fire Chief Preparation
4 cr. hrs. 4 periods (4 lec.)
Preparation for professional fire personnel to become chief officers. Includes incident command, communication, and
disaster management.
Offered: **

**Contact the Fire Science Program at 206-6966 for course offerings.

Fitness and Sport Sciences
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

FSS 155 Athletic-Academic Success
2 cr. hrs. 2 periods (2 lec.)
Survey of successful educational strategies in support of individual academic plans, career goals and personal decision
making. Includes taking the first step, goals and time, creative thinking, memory, note-taking skills, disarm tests, and
communicating. Also includes health and nutrition, diversity, and resources.
Information: May be taken three times for a maximum of six credit hours.
Offered: Fall, Spring.

FSS 208 Professional Activities: Aerobics and Group Fitness
2 cr. hrs. 3 periods (1 lec., 2 lab)
Aerobics skills and teaching methods for the Fitness and Sport Sciences major. Includes introduction to components of
aerobic fitness, teaching an aerobic class, choreography basics, and strength training. Also includes group related fitness
activities, specific populations and health concerns, and legal and professional responsibilities.
Prerequisite(s): FSS 234 (or concurrent enrollment).
Recommendation: FSS 208 and 277 taken concurrently is highly recommended. WRT 100 or 106 (or placement into WRT 101 on the
writing assessment).
Information: This course requires physical activity and is intended for students pursuing the Fitness Professional Certificate.
Offered: Spring.

FSS 218 Professional Activities: Weight Training
2 cr. hrs. 3 periods (1 lec., 2 lab)
Introduction to the basic resistance training principles. Includes history, anatomy and physiology, biomechanics, weight
training principles and concepts, program development and assessment, and programming.
Prerequisite(s): FSS 234 (or concurrent enrollment).
Recommendation: FSS 218 and 276 taken concurrently is highly recommended. WRT 100 or 106 (or placement into WRT 101 on the
writing assessment).
Information: This course requires physical activity and is intended for students pursuing the Fitness Professional Certificate.
Offered: Fall.
FSS 234 Fundamentals of Exercise Science  
4 cr. hrs. 4 periods (4 lec.)  
Overview of various systems, reactions and adaptations to exercise and movement. Includes structure and function of human anatomy and physiology of the skeletal support system, muscular system, nervous system, endocrine system, cardiovascular system, respiratory system, biomechanics, and metabolism.  
Corequisite(s)  
Recommendation: REA 091 (or placement into REA 112 on the reading assessment), and WRT 100 or 106 (or placement into WRT 101 on the writing assessment).  
Information: This course will count toward the required courses in the Fitness Professional and Coaching certificates. Students intending to transfer into a four-year program or university are advised to seek further information regarding transferability. Fitness Professional students are expected to enroll in this course prior to, or concurrently with, other core courses in the program, specifically FSS 276 and/or FSS 218 (Fall) or FSS 277 and/or FSS 208 (Spring).  
Offered: Fall, Spring.

FSS 236 Communication and Exercise Adherence  
2 cr. hrs. 2 periods (2 lec.)  
Communication skills and interviewing techniques for personal trainers. Includes theories of motivation, the trans-theoretical model and stages of change, and communication techniques.  
Recommendation: WRT 100 or 106 or placement into WRT 101 on the writing assessment test.  
Information: This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers.  
Offered: Fall.

FSS 238 Introduction to Sports Injury Management  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to principles and techniques of preventing, recognizing, treating, and rehabilitating sports related injuries. Includes overview of sports injury management, recognition of common sports injuries, taping/wrapping techniques, principles of rehabilitation, and event preparation and risk management.  
Recommendation: WRT 100 or 106 or placement into WRT 101 on the writing assessment.  
Offered: Fall, Spring.

FSS 241 Nutrition for Exercise and Sport  
3 cr. hrs. 3 periods (3 lec.)  
Examination of the relationship between nutrition and the human body. Includes optimal nutrition, energy expenditure, body composition assessment, regulating the body through exercise, and recent research findings.  
Recommendation: MAT 086, (or placement into MAT 092) REA 091, (or placement into REA 112) and WRT 100 or 106, (or placement into WRT 101).  
Information: This course is intended for the Fitness Professional and professional development for coaches.  
Offered: Fall.

FSS 260 Business Practices for the Personal Trainer  
3 cr. hrs. 3 periods (3 lec.)  
Practices associated with creating and managing a personal training business. Includes how to develop a business plan, marketing services, and legal and professional responsibilities.  
Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.  
This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers.  
Offered: Spring.

FSS 262 Personal Trainer: Special Populations  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Exercise management for persons with chronic diseases. Includes medical model health appraisal, allied health profession referrals, chronic disease and disabilities, and functional exercise adaptations.  
Recommendation: FSS 218 and 276.  
Information: This course is intended for students in the Fitness Professional Certificate program or for current physical education teachers or healthcare providers for continuing education credit.  
Students who are not currently certified as personal trainers must be in the second or later semester of the certificate program before enrolling in this course.  
Offered: Spring.
FSS 270 Advanced Principles for Athletic Conditioning  
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)  
Advanced theory and application of training principles for athletes. Includes safety and personal health issues, strength and conditioning principles, testing and evaluation, exercise techniques, and program design.  
Recommendation: FSS 218, 234, 276, and WRT 100 or 106 (or placement into WRT 101 on the writing assessment).  
Information: This course requires physical activity.  
This course is intended for the Fitness Professions Certificate program and continuing education for fitness professionals, coaches, and physical education teachers.  
Offered: May not be offered this year, check class schedule.

FSS 271 Sport Psychology  
3 cr. hrs. 3 periods (3 lec.)  
Development of the basics of sport psychology. Includes psychological perspective, psychology skills for coaches, psychological skills for athletes, and implementing skills training.  
Recommendation: WRT 100 or 106 or placement into WRT 101 on the writing assessment.  
Information: This course is intended for the Coaching Certificate program and continuing education for fitness professionals, coaches, and physical education teachers.  
Offered: Fall, Spring, Summer.

FSS 272 Coach Techniques/Practices  
3 cr. hrs. 3 periods (3 lec.)  
Coaching Techniques and Practices Concepts and strategies for teaching athletes both new skills and fine tuning of existing skills. Includes preparing to teach skills, presenting, developing and maintaining skills, and cognitive processes involved in skills.  
Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.  
Offered: Fall, Spring.

FSS 273 Sport Physiology  
3 cr. hrs. 3 periods (3 lec.)  
Principles of fitness training for peak performance. Includes sport physiology and the athlete, training for muscular and energy fitness, designing training programs, and producing peak performance.  
Recommendation: WRT 100 or 106 or placement into WRT 101 on the writing assessment.  
Information: This course is intended for the Coaching Certificate program and continuing education for fitness professionals, coaches, and physical education teachers.  
Offered: Spring.

FSS 276 Personal Trainer: Muscular Strength, Endurance, Flexibility  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Assessment and interpretation of results for individualized programs designed for muscular strength, endurance and flexibility. Includes pre-activity screening, assessment, interpretation of results, manipulation of variables in program design, and periodization.  
Prerequisite(s): FSS 234 (or concurrent enrollment).  
Corequisite(s)  
Recommendation: FSS 218 and 276 taken concurrently is highly recommended. REA 091 (or placement into REA 112 on the reading assessment), and WRT 100 or 106 (or placement into WRT 101 on the writing assessment).  
Information: This course requires physical activity and is intended for students pursuing the Fitness Professional Certificate.  
Offered: Fall.

FSS 277 Personal Trainer: Cardiovascular Endurance/Body Composition  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Assessment and interpretation of testing results for individualized program design for cardiovascular training, and the skill development of body composition assessment techniques. Includes assessment issues, development of Specific/Measurable/Action-Oriented/Realistic/Time Bound (SMART) goals, program development, and special considerations.  
Prerequisite(s): FSS 234 (or concurrent enrollment).  
Recommendation: FSS 208 and 277 taken concurrently is highly recommended. REA 091 (or placement into REA 112 on the reading assessment), and WRT 100 or 106 (or placement into WRT 101 on the writing assessment).  
Information: This course requires physical activity and is intended for students pursuing the Fitness Professional Certificate.  
Offered: Spring.
FSS 279 Motor Development
2 cr. hrs. 2 periods (2 lec.)
Examination of development changes in motor patterns for children and adults. Includes introduction to motor development, prenatal development concerns, growth and maturation, infant reflexes and stereotypes, voluntary movements in infancy, perceptual-motor development, movement and changing sense of vision, cognitive and motor development and fine motor development. Also includes effects of early stimulation, social and motor development, psychological changes, motor assessment, and planning and conducting a motor development program.
Recommendation: FSS 243/243A/243B or concurrent enrollment.
Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.
Offered: May not be offered this year, check class schedule.

FSS 280 Lifestyle and Weight Management Consultant
1 cr. hrs. 1 periods (1 lec.)
Emphasis on evaluating fad diets, educating clients on proven techniques for weight loss (diet and exercise), and supporting clients with specific activities at various stages of change. Includes the trans-theoretical model, basic nutritional guidelines, exercise/activity guidelines and safety precautions, and developing personal strategies.
Recommendation: FSS 236 or concurrent enrollment.
Information: This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers.
Students must complete a Nutrition course at the 100 level or higher prior to, or concurrently with this course.
Offered: Fall.

FSS 281 Personal Trainer Exam Preparation
1 cr. hrs. 1 periods (1 lec.)
Summation of the curriculum presented in the Fitness Professional Certificate program. Includes exam content areas, study strategies, and test taking strategies to prepare for a nationally recognized certificate examination for personal trainers.
Prerequisite(s): Successful completion of or current enrollment in FSS 208, 218, 234, 276, and 277.
Information: Prerequisites may be waived with consent of instructor.
Offered: Fall, Spring.

FSS 285 Principles of Athletic Coaching
3 cr. hrs. 3 periods (3 lec.)
Introduction to the principles of athletic coaching. Includes principles of behavior, teaching, physical training, and management.
Recommendation: WRT 100 or 106 or placement into WRT 101 on the writing assessment.
Offered: Spring.

FSS 291 Fitness and Sports Sciences Internship
3 cr. hrs. 11 periods (1 lec., 10 lab)
Volunteer fitness professional field experience at an approved work site. Includes communication in the fitness facility, positive work attitudes and practices, fitness professional ethics, progress review, fitness professional systems, and professional development. Also includes employment strategies, final evaluation, employment interview, and fitness professional field experience.
Prerequisite(s): FSS 208, 218, 234, 236, 276, and 277 or concurrent enrollment.
Information: May be taken concurrently with program elective and/or FSS 281.
Designed for students in their final semester of course work in the Fitness Professional Certificate program.
This course requires approximately 150 hours of supervised internship time at two or more facilities, averaging 10 hours per week for a traditional 16 semester and is adjusted accordingly for more accelerated time periods.
Offered: Fall, Spring, Summer.

FSS 296 Independent Study in Fitness and Sport Sciences
1-4 cr. hrs. 1-4 periods (1-4 lec.)
Students independently continue their academic development in health, physical education, recreation, coaching, dance or fitness, with the help of faculty member.
Information: May be taken two times for a maximum of eight credit hours. Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.
FSS 299 Co-op: Fitness Professional
1 cr. hrs. 1 periods (1 lec.)
Introduction to Cooperative Education which provides for success in securing and retaining a job related to subject area. Includes communication skills, time and energy management, stress and its management, and careers. Also includes placing yourself on the job market, principles, theories, and practices in the career field, and problems in the work situation.
Corequisite(s): FSS 299WK
Information: May be taken two times for a maximum of two credit hours.
This course is intended for the Fitness Professional program and may be taken in the 2nd semester or later upon satisfactory completion of either FSS 276 or FSS 277.
Offered: May not be offered this year, check class schedule.

FSS 299WK Co-op Work: Fitness Professional
2 cr. hrs. 10 periods (10 lab)
A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors.
Corequisite(s): FSS 299
Information: May be taken two times for a maximum of four credit hours.
This course is intended for the Fitness Professional program and may be taken in the 2nd semester or later upon satisfactory completion of either FSS 276 or FSS 277.
Offered: May not be offered this year, check class schedule.

Fitness and Wellness
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

FAW 103 Lifeguarding
1 cr. hrs. 2 periods (2 lab)
Introduction to the profession of lifeguarding. Includes essential water and personal safety, life saving strokes and procedures, rescues and escapes, injury management, surveillance techniques, and preventative safety strategies.
Information: Students must possess a current American Red Cross (ARC) Certification in Basic First Aid and CPR for the Professional Rescuer before enrolling in this course and must complete an American Red Cross swimming proficiency pre-test. Information: This course follows the American Red Cross Life Guarding curriculum and successful completion leads to a three (3) year ARC certification. Information: A program fee may be required to cover ARC certification records. Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 104F1 Conditioning: For Physically Demanding Jobs
1 cr. hrs. 2 periods (2 lab)
Total body conditioning designed to prepare or enhance fitness required for physically demanding professions such as law enforcement, fire fighting, or the military. Includes personal safety and preparation, fitness assessments and goal setting, designing an individualized program, programmatic instruction and conditioning, and reassessment and goal setting.
Information: This course is intended for individuals who are preparing for a job related physical fitness test or who have physically demanding jobs.
May be taken three times for a maximum of three credit hours.
Offered: Spring.

FAW 104F2 Conditioning: Speed, Agility, and Quickness
1 cr. hrs. 2 periods (2 lab)
Total body conditioning designed to enhance sport-related fitness for athletes or fitness enthusiasts. Includes personal safety and preparation, fitness assessments and goal setting, relationship of sport to health related fitness components, designing an individualized program, programmatic instruction and conditioning, and reassessment and goal setting. Also includes focus on the development of agility, balance, coordination, power, reaction time, and speed in sports or activities requiring these skills.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for individuals who have been participating in regular conditioning or sport activities.
Offered: Fall, Spring, Summer.
FAW 106F1 Individual Fitness: Bicycling
1 cr. hrs. 2 periods (2 lab)
Cardiovascular conditioning, improved fitness, and weight management through various cycling workouts. Includes an introduction to cycling, components of training, heart rate zone training, bike preparation and terminology, cycling health and personal safety, designing your training program, and pacing and group riding skills. Also includes cycling techniques, cardiovascular fitness assessment, goal setting, and workout types for specific goals and distances.
*Information: May be taken three times for a maximum of three credit hours.*

All rides will be on roadways and riders must have their own bicycles; however, road or racing bicycles are not required. Helmets are required.

Offered: May not be offered this year, check class schedule.

FAW 106F2 Individual Fitness: Running
1 cr. hrs. 2 periods (2 lab)
Cardiovascular conditioning through running and walk/run workouts intended for the beginning and intermediate runner. Includes an introduction to running, components of training, heart rate zone training, the distances, running health and safety, and designing your training program. Also includes stride technique, proper alignment, cardiovascular fitness assessment, goal setting, and workout types for specific goals and distances.
*Information: May be taken three times for a maximum of three credit hours.*

This course is suitable for students who wish to run a few miles a week to those training for distances up to a marathon.

Offered: Fall, Spring.

FAW 106F3 Individual Fitness: Swimming
1 cr. hrs. 2 periods (2 lab)
Cardiovascular conditioning through lap swimming. Includes basic stroke review, techniques of endurance swimming, and assessment and improvement of cardiovascular fitness level.
*Information: May be taken three times for a maximum of three credit hours.*

This course is not suitable for students with a fear of water or who do not have some initial swimming skill (novices).

Offered: Fall, Spring.

FAW 106F4 Individual Fitness: Walking
1 cr. hrs. 2 periods (2 lab)
Cardiovascular conditioning, improved fitness, and weight management through various walking workouts. Includes introduction to walking, components of training, heart rate zone training, common faults, walking health and personal safety, designing your training program, and race walking techniques. Also includes stride technique, proper alignment, cardiovascular fitness assessment, goal setting, and workout types for specific goals and distances.
*Information: May be taken three times for a maximum of three credit hours.*

Offered: Fall, Spring.

FAW 108 Senior Fitness
1 cr. hrs. 2 periods (2 lab)
Introduction to a personalized fitness program using resistance, cardiovascular, and flexibility training for older adults. Includes orientation to the fitness facility, evaluation of personal fitness status and needs, principles of basic program design, and benefits of healthy lifestyle choices. Also includes choosing appropriate exercises to meet individual goals, and developing initial training strategies for improving body total fitness.
*Information: May be taken three times for a maximum of three credit hours.*

This course is appropriate for healthy older adults who have a desire to maintain or increase their activity levels.

Offered: May not be offered this year, check class schedule.

FAW 109 Triathlon Training: Swimming
1 cr. hrs. 2 periods (2 lab)
Cardiovascular conditioning for triathlon, biathlon, and distance swimming events. Includes essential personal safety and equipment, basic stroke development review, endurance swimming techniques, improving cardiovascular fitness level and event management.
*Information: May be taken three times for a maximum of three credit hours.*

This course is intended for students interested in competitive distance swimming.

Offered: May not be offered this year, check class schedule.
FAW 110F1 Weight Training and Cardiovascular Fitness Level I
1 cr. hrs. 2 periods (2 lab)
Introduction to a personalized fitness program using resistance, cardiovascular, and flexibility training. Includes orientation to the fitness facility, evaluation of personal fitness status and goal setting, principles of basic program design, and benefits of healthy lifestyle choices.
Information: May be taken three times for a maximum of three credit hours.
This course is appropriate for students desiring to improve either health fitness or athletic performance and may NOT be taken concurrently with FAW 110F2 or FAW 110F3.
Offered: Fall, Spring, Summer.

FAW 110F2 Weight Training and Cardiovascular Fitness Level I Extended
2 cr. hrs. 4 periods (4 lab)
Introduction to a personalized fitness program using resistance, cardiovascular, and flexibility training. Includes orientation to the fitness facility, evaluation of personal fitness status and goal setting, principles of basic program design, and benefits of healthy lifestyle choices.
Information: May be taken two times for a maximum of four credit hours.
This course is appropriate for students desiring to improve either health fitness or athletic performance and may NOT be taken concurrently with FAW 110F1 or FAW 110F3.
This course requires twice the time commitment for working out as FAW 110F1.
Offered: Fall, Spring, Summer.

FAW 110F3 Weight Training and Cardiovascular Fitness Level II
2 cr. hrs. 4 periods (4 lab)
Continuation of FAW 110F1 or FAW 110F2. Includes orientation to the fitness facility, evaluation of personal fitness status and needs, principles of program design, and benefits of healthy lifestyle choices.
Prerequisite(s): FAW 110F1 or 110F2.
Information: May be taken two times for a maximum of four credit hours.
This course is appropriate for students desiring to improve either health fitness or athletic performance and may NOT be taken concurrently with FAW 110F1 or FAW 110F2.
Prerequisite(s) may be waived with consent of instructor.
Offered: Fall, Spring, Summer.

FAW 112F1 Ballroom/Latin Dance I
1 cr. hrs. 2 periods (2 lab)
Introduction to ballroom and Latin dancing with emphasis on basic steps, turns, and varied techniques of traditional dances. Includes key components of each dance, floorwork/locomotor skills, dancing as a total activity, and evaluation.
Information: May be taken three times for a maximum of three credit hours.
Traditional ballroom dances covered are the six majors: Foxtrot, Waltz, East Coast Swing, Tango, Cha Cha, and Rumba.
Other popular social dances that may be covered are the Salsa/Mambo, Night Club Two Step, and West Coast Swing.
This course is intended for recreational ballroom dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Offered: Fall, Spring.

FAW 112F2 Ballroom/Latin Dance II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 112F1. Includes key components of each dance, floorwork/locomotor skills, dancing as a total activity, and evaluation. Also includes emphasis on combinations, smooth transitions, and complex rhythmic patterns for the six major Ballroom dances.
Prerequisite(s): FAW 112F1.
Other popular social dances that may be covered are the Salsa/Mambo, Night Club Two Step, and West Coast Swing.
May be taken three times for a maximum of three credit hours.
This course is intended for recreational ballroom dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.
FAW 113F1 Belly Dance I
1 cr. hrs. 2 periods (2 lab)
Introduction to Egyptian, Turkish, and American belly dance with emphasis on foot placement and efficient execution of basic skills. Includes key components of belly dance and dancing as a total activity. Also includes history of belly dance; dance terminology; developing stamina, strength, balance, flexibility, endurance, and coordination; organizing dancing patterns into complete routines; and learning to improvise.
Information: This course is intended for recreational belly dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring, Summer.

FAW 113F2 Belly Dance II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 113F1. Includes key components of each dance, class protocol, dancing as a total activity and evaluation.
Prerequisite(s): FAW 113F1.
Information: May be taken three times for a maximum of three credit hours. Information: Prerequisite(s) may be waived with consent of instructor. Information: This course is for those experienced in Belly Dance.
Offered: May not be offered this year, check class schedule.

FAW 114 Country Western Dance
1 cr. hrs. 2 periods (2 lab)
Introduction to Country Western dancing with emphasis on dance terminology, rhythms, styles, essential steps and combinations. Includes key components of Country Western dance, floorwork/locomotor skills, dancing as a total activity, and evaluation. Also includes developing stamina, strength, balance, coordination, and organizing dancing patterns into complete routines.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for recreational Country Western dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Offered: May not be offered this year, check class schedule.

FAW 123F1 Salsa/Latin Dance I
1 cr. hrs. 2 periods (2 lab)
Introduction to salsa and other Latin dances with emphasis on basic steps, turns, and techniques to build confidence for dancing socially. Includes key components of each dance, floorwork/locomotor skills, dancing as a total activity, and evaluation. Also includes history of salsa, dance terminology, developing stamina, strength and balance, organizing dancing patterns into complete routines, and learning to improvise.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for recreational Salsa dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Offered: Fall, Spring.

FAW 123F2 Salsa/Latin Dance II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 123F1. Salsa and other Latin dances for the more experienced dancer with emphasis on combinations, smooth transitions, and complex rhythmic patterns of salsa dance. Includes key components of each dance, floorwork/locomotor skills, dancing as a total activity, and evaluation. Also includes organizing dancing patterns in choreographies, improvisation, development of personal style, harmonizing movements with a partner, and increasing confidence for dancing in public.
Prerequisite(s): FAW 123F2.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for recreational Salsa dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.
FAW 126 West Coast Swing
1 cr. hrs. 2 periods (2 lab)
Introduction to West Coast Swing dancing with emphasis on dance terminology, rhythms, styles, essential steps and combinations. Includes key components of West Coast Swing, floorwork/locomotor skills, dancing as a total activity, and evaluation. Also includes developing stamina, strength, balance, coordination, and organizing dancing patterns into complete routines.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for recreational West Coast Swing dance and will not be accepted for the Associate of Fine Arts Dance Concentration.
Offered: May not be offered this year, check class schedule.

FAW 128F1 Aerobics
1 cr. hrs. 2 periods (2 lab)
Cardiovascular and muscular exercises generally set to music and performed rhythmically. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines. Also includes determination of cardiovascular endurance level and challenging that system, improving local muscular endurance, and flexibility.
Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 128F2 Aerobics: Aqua Fitness
1 cr. hrs. 2 periods (2 lab)
Improved cardiovascular and muscular strength, endurance and flexibility through non-impact movement in shallow and deep water. Includes essential water and personal safety, movement in the water, and assessing fitness. Also includes utilizing water resistance to improve current fitness level and joint range of motion while minimizing stress to the joint.
Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 128F3 Aerobics: Cardio Cross-Training
1 cr. hrs. 2 periods (2 lab)
Cardiovascular and muscular exercises generally set to music and performed rhythmically. Includes personal safety and preparation, personal fitness assessment and activity modifications, elements of rhythmic aerobic routines, and elements of interval training.
Information: May be taken three times for a maximum of three credit hours.
This course will utilize a variety of aerobic modalities which may include floor exercise, steps, and interval training.
Offered: Fall, Spring, Summer.

FAW 128F4 Aerobics: Cardio-Kickboxing
1 cr. hrs. 2 periods (2 lab)
Cardiovascular and muscular exercises generally set to music, performed rhythmically, and patterns simulate the movements of kickboxing (upper and lower bodystrides) without physical contact. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines.
Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 128F5 Aerobics: Plus-Sized Exercise
1 cr. hrs. 2 periods (2 lab)
Cardiovascular and muscular exercises generally set to music and performed rhythmically. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines. Also includes determination of cardiovascular endurance level and challenging that system, improving local muscular endurance, flexibility, and principles and techniques for warming up and cooling down safely.
Information: May be taken three times for a maximum of three credit hours.
This low-impact, personally modified course is intended for students who are overweight and who do not consider themselves ready for a traditional aerobics-style course.
Offered: May not be offered this year, check class schedule.
FAW 128F6 Aerobics: Step  
1 cr. hrs. 2 periods (2 lab)  
Cardiovascular and muscular exercises set to music, performed rhythmically using basic to complex stepping patterns on the floor and on a raised platform. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines. Also includes determination of cardiovascular endurance level and challenging that system, improving local muscular endurance, and flexibility.  
*Information: May be taken three times for a maximum of three credit hours.*  
*Offered: Fall, Spring.*

FAW 129F1 Aerobi-Dance: Jazz Fitness  
1 cr. hrs. 2 periods (2 lab)  
Cardiovascular and muscular strength conditioning set to music and incorporating jazz dance steps in choreographed group exercise. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines.  
*Information: May be taken three times for a maximum of three credit hours.*  
*This course is an aerobics course using methods common to Jazz but it is not a Jazz dance course and will not be accepted for credit in the Associate of Fine Arts Dance Concentration.*  
*Offered: May not be offered this year, check class schedule.*

FAW 129F2 Aerobi-Dance: Tap Fitness  
1 cr. hrs. 2 periods (2 lab)  
Cardiovascular and muscular strength conditioning set to music and incorporating tap dance steps in choreographed group exercise. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines.  
*Information: May be taken three times for a maximum of three credit hours.*  
*This course is an aerobics course using methods common to Tap but it is not a Tap Dance course and will not be accepted for credit in the Associate of Fine Arts Dance Concentration.*  
*Offered: May not be offered this year, check class schedule.*

FAW 129F3 Zumba®  
1 cr. hrs. 2 periods (2 lab)  
Cardiovascular and muscular exercises inspired by Latin dance and music using Zumba® techniques. Includes personal safety and preparation, personal fitness assessment and activity modifications, and elements of rhythmic aerobic routines.  
*Information: May be taken three times for a maximum of three credit hours.*  
*Offered: Fall, Spring, Summer.*

FAW 130 Boot Camp Style Circuit Training  
1 cr. hrs. 2 periods (2 lab)  
Total body conditioning using various exercises, stations, and equipment which provide a cardiovascular challenge while emphasizing development of muscular strength and endurance. Includes personal safety and preparation, personal fitness assessment and activity modifications, and techniques and considerations for exercise. Also includes work on flexibility, agility, balance, and coordination with emphasis on personal fitness development.  
*Information: May be taken three times for a maximum of three credit hours.*  
*Offered: Fall, Spring, Summer.*

FAW 131 Indoor Cycling  
1 cr. hrs. 2 periods (2 lab)  
Cardiovascular conditioning set to music and performed on a stationary bicycle. Includes personal safety and preparation, key concepts, personal fitness assessment and activity modifications, and elements of indoor cycling training. Also includes determination of cardiovascular endurance level and challenging that system, improving local muscular endurance, and flexibility.  
*Information: May be taken three times for a maximum of three credit hours.*  
*Offered: Fall, Spring, Summer.*
FAW 132 Kickboxing
1 cr. hrs. 2 periods (2 lab)
Total body conditioning using various kickboxing exercises, stations, and equipment that provide a cardiovascular challenge while emphasizing development of muscular strength and endurance through upper and lower body striking activities. Includes personal safety and preparation, personal fitness assessment and activity modifications, and kickboxing skill development.
Information: May be taken three times for a maximum of three credit hours.
Students are expected to provide their own bag gloves or hand wraps for contact with the bags and pads.
Music may be used for motivation during the course but this is not a choreographed class.
Offered: Fall, Spring, Summer.

FAW 134F1 Pilates I
1 cr. hrs. 2 periods (2 lab)
Introduction to the six core principles of Pilates in individual exercises and sequences of movements. Includes key components of Pilates, integrative practice and personalizing one's practice. Also includes total body conditioning to improve strength, flexibility, coordination, proper body alignment, breath control, and overall body awareness.
Information: This course does not use reformers and is primarily mat based.
May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring.

FAW 134F2 Pilates II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 134F1. Includes key components of Pilates, six core/essential principles of Pilates exercises, integrative practice, and personalizing one's practice.
Prerequisite(s): FAW 134F1.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for students who have established a practice of the basic Pilates exercises, does not use reformers, and is primarily mat based.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FAW 136 Stretch and Tone
1 cr. hrs. 2 periods (2 lab)
Muscular strength, endurance, and flexibility exercises designed to improve total body fitness with exercises generally set to music. Includes personal safety and preparation, personal fitness assessment and activity modifications, and techniques and considerations for exercise.
Information: May be taken three times for a maximum of three credit hours.
This course includes some cardiovascular challenge but primary emphasis is on local muscular development (strength and flexibility) and assessment of personal fitness.
Offered: Fall, Spring, Summer.

FAW 138F1 Yoga I
1 cr. hrs. 2 periods (2 lab)
Introduction to stress reduction through yoga. Includes key components of yoga, essential movements and postures, mind-body practice, and personalizing one's practice.
Information: May be taken three times for a maximum of three hours.
Information: There are many styles of yoga and the specific philosophy offered in a given section will reflect that of the instructor; however, this course is gentle to moderate intensity.
Offered: Fall, Spring, Summer.
FAW 138F2 Yoga II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 138F1. Includes key components of yoga, essential and complex movements and postures, mind-body
practice, and personalizing one's practice.
Prerequisite(s): FAW 138F1.
Information: May be taken three times for a maximum of three credit hours.
This course is designed for students who have begun to establish a personal home practice and involves a deepening of the
foundations established in Yoga I with more challenging postures, breathing techniques, length of sequences of skills, meditation,
and philosophy.
There are many styles of yoga and the specific philosophy offered in a given section will reflect that of the instructor and may differ
slightly from other Yoga II instructors.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FAW 138F3 Yoga off the Mat
1 cr. hrs. 2 periods (2 lab)
Development of an individual yoga practice appropriate for individuals in the workplace, and/or for those with limited
mobility, without using floor mats, to optimize performance, manage stress and increase health and well being. Includes key
components of Yoga, adapting essential movements and postures, mind-body practice, and personalizing one's practice.
Information: May be taken three times for a maximum of three credit hours.
This course will be taught in a traditional classroom setting to simulate the workplace environment.
Students may participate in street clothes. Information: Postures may include sitting or standing as physical abilities allow.
Offered: May not be offered this year, check class schedule.

FAW 148F1 Golf I
1 cr. hrs. 2 periods (2 lab)
Fundamentals of golf intended for the novice or player with limited experience. Includes emphasis on grips, stance, swing,
shot selection, putting, rules, and etiquette of the game. Also includes key components of each shot, essentials for game
play, and game management.
Information: May be taken three times for a maximum of three credit hours.
A required range and/or course fee will be payable to the golf course.
Offered: Fall, Spring.

FAW 148F2 Golf II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 148F1. Includes review of the fundamentals, key components of each shot, essentials for game play,
and game management.
Prerequisite(s): FAW 148F1.
Information: May be taken three times for a maximum of three credit hours.
A required range and/or course fee will be payable to the golf course.
This course is intended for golfers with some experience or who play regularly and wish to refine physical skills and mental
strategies to improve performance.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FAW 151 Pickle-Ball
1 cr. hrs. 2 periods (2 lab)
Fundamentals of Pickle-Ball, a shortened court variation of tennis and badminton played with paddles. Includes key
components of Pickle-Ball, fundamental stroke development, and game management.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for skill development and recreational play and is similar to, but requires less court coverage than, tennis.
Offered: May not be offered this year, check class schedule.
FAW 152 Racquetball
1 cr. hrs. 2 periods (2 lab)
Fundamentals of racquetball with emphasis on grips, stance, swing, serving, shot selection, court position, and etiquette. Includes key components of racquetball, fundamental stroke development, and game management.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for skill development and recreational play.
Students must supply their own racquets and safety glasses.
Offered: May not be offered this year, check class schedule.

FAW 155F1 Tennis I
1 cr. hrs. 2 periods (2 lab)
Fundamentals of tennis intended for the novice or player with limited experience. Includes key components of tennis, fundamental stroke development, and game management.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for skill development and recreational play.
Offered: Fall, Spring, Summer.

FAW 155F2 Tennis II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 155F1. Includes review of the key components of tennis, fundamental strokes, shot variations, and game management.
Prerequisite(s): FAW 155F1.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for players with some playing experience who wish to refine physical skills and mental strategies to improve performance.
Recreational competitive play with more emphasis on game strategy is stressed.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FAW 156 Wrestling
1 cr. hrs. 2 periods (2 lab)
Introduction to Folk, Free-Style, and Greco-Roman wrestling. Includes key components of wrestling, match strategies, and conditioning, safety, and hygiene.
Information: May be taken three times for a maximum of three credit hours.
This course is intended for students with varying degrees of experience in wrestling and a desire to improve their own knowledge and skill in the sport.
Emphasis on development of fundamental offensive and defensive combative skills in drills and match-like situations.
Offered: May not be offered this year, check class schedule.

FAW 157F1 Aikido I
1 cr. hrs. 2 periods (2 lab)
Introduction to the fundamentals of Aikido. Includes key components of Aikido, physical and mental preparation, ukemi and basic stances, neutralizing attacks, and budo implements.
Information: May be taken three times for a maximum of three credit hours.
Offered: Fall.

FAW 157F2 Aikido II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 157F1. Includes key components of Aikido, physical and mental preparation, ukemi and basic stances, neutralizing attacks, and budo implements.
Prerequisite(s): FAW 157F1.
Information: May be taken three times for a maximum of three credit hours.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.
FAW 163 Self Defense for Women
1 cr. hrs. 2 periods (2 lab)
Introduction to the mental attitudes and physical skills needed to defend oneself against an attack. Includes knowing your surroundings, basic safety location techniques, and defensive physical skills.
Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 164F1 Tae Kwon Do I
1 cr. hrs. 2 periods (2 lab)
Introduction to the fundamentals of Tae Kwon Do. Includes essentials of Tae Kwon Do, personal preparation, and self defense techniques against an opponent.
Information: May be taken three times for a maximum of three credit hours.
Offered: May not be offered this year, check class schedule.

FAW 164F2 Tae Kwon Do II
1 cr. hrs. 2 periods (2 lab)
Continuation of FAW 164F1. Includes essentials of Tae Kwon Do, personal preparation, self defense techniques against an opponent, and application of advanced skills.
Prerequisite(s): FAW 164F1.
Prerequisite(s) may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

FAW 165 T’ai-chi Chuan
1 cr. hrs. 2 periods (2 lab)
Information: May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring.

FAW 167 Baseball
1 cr. hrs. 2 periods (2 lab)
Fundamental baseball skills for the recreational player. Includes key components of baseball, individual skills, and team skills.
Information: May be taken three times for a maximum of three credit hours.
Offered: Summer.

FAW 168 Basketball
1 cr. hrs. 2 periods (2 lab)
Fundamental basketball skills for the recreational player. Includes key components of basketball, individual skills, and team skills.
Information: May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring.

FAW 170 Soccer
1 cr. hrs. 2 periods (2 lab)
Fundamental soccer skills for the recreational player. Includes key components of soccer, individual skills, and team skills.
Information: May be taken three times for a maximum of three credit hours.
Offered: Spring.

FAW 171F1 Softball: Fast Pitch
1 cr. hrs. 2 periods (2 lab)
Fundamental fast pitch softball skills for the recreational player. Includes key components of fast pitch softball, individual skills, and team skills.
Information: May be taken three times for a maximum of three credit hours.
Students must supply their own gloves.
Offered: May not be offered this year, check class schedule.
FAW 171F2 Softball: Slow Pitch
1 cr. hrs. 2 periods (2 lab)
Fundamental slow pitch softball skills for the recreational player. Includes key components of slow pitch softball, individual skills, and team skills.
*Information: May be taken three times for a maximum of three credit hours.*
*Students must supply their own gloves.*
*Offered: May not be offered this year, check class schedule.*

FAW 173 Volleyball
1 cr. hrs. 2 periods (2 lab)
Fundamental volleyball skills for the recreational player. Includes offensive and defensive systems and strategies, conditioning, and game play.
*Information: May be taken three times for a maximum of three credit hours.*
*Offered: Fall, Spring.*

FAW 180 Weight Management Strategies
1 cr. hrs. 1 periods (1 lec.)
Current research, information, and support to make lifestyle changes to manage weight and improve overall wellness. Includes personal assessment, stages of change, basic nutritional guidelines, exercise/activity guidelines and safety precautions, and developing personal strategies.
*Information: May be taken three times for a maximum of three credit hours.*
*Offered: Spring.*

FAW 182 Healthy Living and Wellness
3 cr. hrs. 4 periods (2 lec., 2 lab)
Promotion of self-awareness of our daily lifestyle choices which impact our health and well-being. Includes dynamic alignment training, assessment training, wellness model, nutrition, somatic training, relaxation techniques, and self-care techniques.
*Offered: Fall.*

FAW 183 Lifestyle Wellness Coaching
3 cr. hrs. 3 periods (3 lec.)
Introduction to lifestyle wellness coaching and developing productive coaching techniques. Includes background and core ingredients of coaching, paths of change, flow model of coaching, setting the foundations for effective coaching, and the coaching relationship. Also includes the art of listening, the power of questioning, direct communication, awareness and action, and building enduring futures.
*Offered: Spring.*

FAW 184 Health, Wellness, and Physical Activity
3 cr. hrs. 3 periods (3 lec.)
Development of skills for personal lifestyle changes that promote health, wellness, and fitness over a lifetime. Includes physical activity, special considerations, nutrition and body composition, and stress and health.
*Offered: Fall.*

**Food Science & Nutrition**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

FSN 127IN Human Nutrition and Biology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis, including genetic and epigenetic effects. Also covers analysis of scientific studies relating to nutrition.
*Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Same as BIO 127IN.*
*Offered: Fall, Spring, Summer.*
FSN 154 Nutrition
3 cr. hrs. 3 periods (lec.)
Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.
Information: Same as SSE 154.
Offered: Fall, Spring, Summer.

French

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

FRE 101 Elementary French I
4 cr. hrs. 4 periods (lec.)
Introduction to the French language. Includes developing proficiency in pronunciation, communication, basic grammar, and introduction to French culture.
Offered: Fall, Spring, Summer.

FRE 102 Elementary French II
4 cr. hrs. 4 periods (lec.)
Continuation of FRE 101. Includes increased proficiency in pronunciation, communication, and basic grammar. Also includes French cultural traditions.
Prerequisite(s): FRE 101.
Offered: Fall, Spring, Summer.

FRE 201 Intermediate French I
4 cr. hrs. 4 periods (lec.)
Continuation of FRE 102. Includes an intensive review of pronunciation, communication, and advanced grammar. Also includes French cultural traditions.
Prerequisite(s): FRE 102.
Information: Prerequisite(s) may be waived with two years of high school French.
This course will be conducted primarily in French.
Offered: Fall.

FRE 202 Intermediate French II
4 cr. hrs. 4 periods (lec.)
Continuation of FRE 201. Includes an intensive review of pronunciation, communication, and advanced grammar. Also includes French cultural traditions.
Prerequisite(s): FRE 201.
Information: This course will be conducted primarily in French.
Offered: Spring.

FRE 296 Independent Study in French
1-4 cr. hrs. 1-4 periods (1-4 lec.)
Independent study in French literature, grammar, or special projects under the supervision of an instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: Fall.
Game Design

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GAM 101 Game Design I
4 cr. hrs. 4 periods (4 lec.)
Textual analysis of game play. Includes history of games, defining play, use of rules, impact of games on culture, psychological impact of games, and working in the game industry.
Offered: Fall, Spring.

GAM 102 Game Design II
4 cr. hrs. 5 periods (3 lec., 2 lab)
Continuation of GAM 101. Includes the role of the game designer, structure of the game, formal and dramatic elements of the game, game play fun, and storyboard development.
Prerequisite(s): GAM 101.
Offered: Fall.

GAM 120 Introduction to Game Programming
4 cr. hrs. 5 periods (3 lec., 2 lab)
Introduction to game engine programming. Includes Unity 3D game engine, JavaScript language features, input interaction, object-oriented JavaScript and ActionScript features, image maps, particle engine, and artificial intelligence techniques.
Prerequisite(s): GAM 101
Recommendation: Previous or concurrent enrollment in MAT 145 (preferred) or MAT 142 (or higher).
Offered: Spring.

GAM 150 Game Programming I
4 cr. hrs. 5 periods (3 lec., 2 lab)
Basic concepts of game programming using managed DirectX and C. Includes getting started with Direct 3D, Direct 3D devices, rendering, meshes, and creating a game.
Prerequisite(s): CIS142.
Offered: Fall.

GAM 151 Game Programming II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of GAM 150. Intermediate concepts of game programming using managed Direct X and C. Includes graphic concepts, High Level Shader, sound, and user input.
Prerequisite(s): GAM 150.
Offered: Spring.

GAM 201 Game Design III
4 cr. hrs. 5 periods (3 lec., 2 lab)
Continuation of GAM 102. Includes conceptualizing a game; prototyping; playtesting; functionality, completeness, and balance, controls and interface; design team; and storyboarding.
Prerequisite(s): GAM 102 and 120.
Offered: Fall, Spring.

GAM 218 Game Design Portfolio Capstone
4 cr. hrs. 5 periods (3 lec., 2 lab)
Production of a professional quality game design portfolio with a focus on a comprehensive capstone project. Includes production of a digital art portfolio, development of a game trailer, playable prototype, project management, current digital arts tools and processes, resumes and interviews, and presentation of a portfolio.
Prerequisite(s): GAM 120 and 201.
Offered: Fall.
Gender & Women’s Studies

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GWS 100 Introduction to Feminist Studies
3 cr. hrs. 3 periods (3 lec.)
Interdisciplinary survey and analysis of women’s issues in structured inequalities and globalization. Includes feminist studies: study of gender, culture, and society; theoretical approaches to gender; learning gender socialization; contemporary feminist issues: socialization, work, and family; body and health issues; gender issues and intimacy; gender and the economy; gender, politics, government, and the military; gender, education, creativity, and language; and gender and spirituality.
Offered: May not be offered this year, check class schedule.

GWS 201 La Chicana
3 cr. hrs. 3 periods (3 lec.)
Interdisciplinary analysis of Chicanas/Mexicanas’ status in the United States. Includes Chicana/Mexicana scholarship and Social Justice Movements, and Chicana/Mexicana feminism in the Southwest, Chicana/Mexicana community empowerment, Chicanas/Mexicanas on the U.S.-Mexico border.
Information: Same as MAS 201.
Offered: May not be offered this year, check class schedule.

GWS 280 Feminist Research Methods
3 cr. hrs. 3 periods (3 lec.)
Introduces research methods applied in contemporary feminist research. Includes introduction to feminist research, research methods, methodologies, and epistemology, feminist construction of knowledge, feminist research as Theory in Action, qualitative research methods/cross-cultural approaches, feminist research issues of power, academic visibility, empowerment, ethics, social justice and agency, and implications of feminist research.
Offered: May not be offered this year, check class schedule.

General Technical Writing

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GTW 101 Writing for Trades and Technical Occupations
3 cr. hrs. 3 periods (3 lec.)
Applied technical reading and writing components necessary for trade and industrial occupations. Includes review of grammar; spelling and sentence building basics; reading trade and technical texts critically; and practical application of writing including writing for clarity, accuracy and professionalism as they relate to job functions, occupational requirements and effective communications across trades.
Prerequisite(s): WRT 070 or 075 with a C or better, or required score on the writing assessment test for WRT 100.
Offered: Fall, Spring.

GTW 101A Writing for Trades and Technical Occupations: Module A
1 cr. hrs. 1 periods (1 lec.)
Module A constitutes approximately the first one-third of GTW 101.
Prerequisite(s): WRT 070 or 075 with a C or better, or required score on the writing assessment test for WRT 100.
Information: GTW 101A, 101B, and 101C together constitute GTW 101. A student may concurrently enroll in all three modules, but modules must be completed sequentially during the semester.
Offered: May not be offered this year, check class schedule.

GTW 101B Writing for Trades and Technical Occupations: Module B
1 cr. hrs. 1 periods (1 lec.)
Module B constitutes approximately the second one-third of GTW 101.
Prerequisite(s): GTW 101A with a grade of C or better, or concurrent enrollment in GTW 101A and/or 101C.
Information: GTW 101A, 101B, and 101C together constitute GTW 101. A student may concurrently enroll in all three modules, but modules must be completed sequentially during the semester.
Offered: May not be offered this year, check class schedule.
GTW 101C Writing for Trades and Technical Occupations: Module C
1 cr. hrs. 1 periods (1 lec.)
Module C constitutes approximately the third one-third of GTW 101.
Prerequisite(s): GTW 101B with a grade of C or better, or concurrent enrollment in GTW 101A and/or 101B.
Information: GTW 101A, 101B, and 101C together constitute GTW 101. A student may concurrently enroll in all three modules, but modules must be completed sequentially during the semester.
Offered: May not be offered this year, check class schedule.

General Technologies Math
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GTM 105 Applied Technical Mathematics
3 cr. hrs. 3 periods (3 lec.)
Applied geometry and trigonometry operations. Includes review of basic math operations, review of pre-algebra, elements of geometry, plane trigonometry, and practical applications.
Prerequisite(s): MAT 086 or completion of module 15 in MAT 089 or satisfactory score on the mathematics assessment test.
Offered: Fall, Spring, Summer.

GTM 105V Applied Technical Mathematics for Aviation
3 cr. hrs. 3 periods (3 lec.)
Applied geometry and trigonometry operations. Includes review of basic math operations, review of pre-algebra, elements of geometry, plane trigonometry, and aviation practical applications.
Prerequisite(s): MAT 086 or completion of Module 15 in MAT 089 or satisfactory score on the mathematics assessment test.
Offered: Fall, Spring.

Geography
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GEO 101 Physical Geography: Weather and Climate
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the physical elements. Includes earth-sun relationships, atmospheric processes, global heat balance, global pressure and temperature patterns, annual weather and climate patterns, weather and air pollution, urban influences on weather and climate, and climatic change. Also includes weather and people, wave cyclones of middle latitudes, weather maps and weather prediction, basic ecological principles, and energy.
Offered: Fall, Spring.

GEO 102 Physical Geography: Land Forms and Oceans
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the surface of the earth and the forces of nature that shape it. Includes continental drift and plate tectonics, geomorphic processes, the hydrologic cycle, pollution esthetics of landforms, recreation and other utilization, and map reading and interpretation.
Offered: Fall, Spring.

GEO 103 Cultural Geography
3 cr. hrs. 3 periods (3 lec.)
Examination of the human world from a geographic perspective. Includes geography as a discipline, culture and human geography, the changing Earth, descriptive fundamentals of population geography, migration, and geography of language and religion. Also includes rural traditions and livelihoods, urban geography, economic changes and industrialization, as well as political and medical geography.
Offered: Fall, Spring, Summer.
GEO 104 World Regional Geography
3 cr. hrs. 3 periods (3 lec.)
Geographic concepts and information organized by conventional regions and nations. Includes geographic perspectives, physical environment, regions and cultures, realms and population, and the regional framework.
Offered: Fall.

GEO 250 Introduction to Medical Geography
3 cr. hrs. 3 periods (3 lec.)
Introduction to the spatial aspects of health and disease. Includes disease mapping, etiology, statistical associations, health care inequities, and spatial distribution of health care facilities.
Offered: May not be offered this year, check class schedule.

GEO 265 Mapping Concepts
1 cr. hrs. 1 periods (1 lec.)
Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.
Information: Same as ANT/ARC/GIS 265.
Offered: Fall.

GEO 267 Introduction to Geographic Information Systems
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.
Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment.
Information: Basic computer skills are required before enrolling in this course. Information: Same as ANT/ARC/GIS 267.
Offered: Fall.

GEO 284 Computer Cartography and CAD
3 cr. hrs. 5 periods (2 lec., 3 lab)
Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.
Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment and CSA 101.
Information: Same as ANT/ARC/GIS 284.
Offered: May not be offered this year, check class schedule.

GEO 296 Independent Studies in Geography
.5-6 cr. hrs. 1-12 periods (.25-3 lec., .75-9 lab)
Students independently continue their studies in Geography under the supervision of a faculty member.
Information: Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

Geology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GLG 101N Physical Geology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the physical aspects of the Earth’s crust. Includes scientific measurements, maps, and the scientific method; hands-on identification and assessment of rocks and minerals; and introduction to geology, earth composition, surface processes, subsurface processes, investigative tools, geologic structures, geologic resources, and earth history. Also includes a field trip to observe and interpret geologic processes in a natural setting.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.
GLG 102IN Historical Geology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the physical, chemical, and biological history of the Earth, including hands-on identification and classification of major fossil groups according to their phyla, ages, and ecosystems. Includes scientific measurements, maps, scientific method, history of historical geology (Uniformitarianism, Catastrophism); identification and interpretation of rocks and sedimentary textures, environments, and structures; geologic time, the evolution of life, planetary evolution, plate tectonics, evolution of the Earth's surface (including the physical environments, resources, and life of the Precambrian, Paleozoic, Mesozoic, and Cenozoic); and human evolution and human impacts. Also includes a field trip to observe rocks and structures and interpret geologic history and fossils in a natural outdoor setting.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

GLG 110IN Geological Disasters and Environmental Geology
4 cr. hrs. 6 periods (3 lec., 3 lab)
Survey of geologic processes with respect to the interactions between humans and the Earth. Includes identifying geologic hazards, understanding the challenges of predicting and preventing natural disasters, and mitigating and preventing pollution; the relationship of natural resources to population distribution, resource usage and impacts, and waste management and pollution prevention; and the hydrologic cycle, plate tectonics, volcanoes, earthquakes, and catastrophic events, such as floods, fires, landslides, earthquakes, and volcanic action. Also includes water quality, resource availability, toxic and radioactive waste disposal problems and proposed solutions, global climate change, sea level rise, greenhouse gases, and extreme weather. Also includes a field trip to investigate local geologic hazards.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.

GLG 140IN Introduction to Oceanography
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to the study of the oceans. Includes scientific measurements, lab techniques, and the scientific method. Also includes introduction to oceanography, geological, chemical, physical, and biological oceanography, and the human presence in the ocean.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: May not be offered this year, check class schedule.

GLG 240IN Geology of Selected Regions
3 cr. hrs. 5 periods (2 lec., 3 lab)
Geologic survey of a specific region. Includes the stratigraphy, structure, historical geology, an emphasis on contemporary geologic processes, and aspects of resource usage by human occupants. Also includes classroom research, laboratory activities, and field work which may involve multi-day field excursions.
Prerequisite(s): GLG 101IN.
Recommendation: Completion of GLG 102 or 102IN before enrolling in this course.
Information: Students will be required to participate in some hiking activities and should be in reasonably good physical condition if considering enrolling in this course.
GLG 101 no longer offered but will meet prerequisite.
Offered: May not be offered this year, check class schedule.

GLG 296 Independent Studies in Geology
.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)
Independent studies, projects, and/or laboratory exercises in geology. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of nine credit hours.
Offered: May not be offered this year, check class schedule.
Geospatial Information Studies

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GIS 181 Global Positioning Systems Basics
1 cr. hrs. 1 periods (1 lec.)
Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS vocabulary, operation, field data collection and data transfer. Also includes using equipment, resources and facilities of the Archaeology Centre.

Information: Same as ANT/ARC 181.
Offered: Fall, Spring.

GIS 265 Mapping Concepts
1 cr. hrs. 1 periods (1 lec.)
Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.

Information: Same as ANT/ARC/GEO 265.
Offered: Fall.

GIS 267 Introduction to Geographic Information Systems
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the technology of geographic information systems (GIS). Includes the evolution of the technology, applications, benefits and costs, characteristics of geographic data, data types, database concepts, and operations and functionality. Also includes hardware, software, implementation, legal issues, and the future of geographic information systems.

Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment.
Information: Prerequisite may be waived with consent of instructor.
Basic computer skills are required before enrolling in this course. Same as ANT/ARC/GEO 267.
Offered: Fall.

GIS 281 Global Positioning Systems
1 cr. hrs. 3 periods (3 lab)
Introduction to the technical use of Global Positioning Systems (GPS) receivers in a field setting. Includes review of GPS vocabulary and concepts, comprehensive initialization of handheld GPS receivers, data collection with handheld GPS, the use of mapping software with data from handheld GPS, concepts of differential GPS, operation of and field data collection with static and RTK precision GPS, use of software packages for differential correction and map production. Also includes using equipment, resources and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC/GIS 181
Information: Prerequisite(s) may be waived with equivalent experience or consent of instructor. Same as ANT/ARC 281
Offered: Fall.

GIS 284 Computer Cartography and CAD
3 cr. hrs. 5 periods (2 lec., 3 lab)
Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.

Prerequisite(s): ANT/ARC/GEO/GIS 265 or concurrent enrollment, and CSA 101.
Information: Same as ANT/ARC/GEO 284.
Offered: May not be offered this year, check class schedule.

GIS 286 Electronic and Digital Field Mapping
4 cr. hrs. 8 periods (2 lec., 6 lab)
Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.

Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.
Recommendation: Consult instructor for alternative prerequisite(s).
Information: Same as ANT/ARC 286.
Offered: Spring.
German

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GER 101 Elementary German I
4 cr. hrs. 4 periods (4 lec.)
Introduction to the German language in developing proficiency in listening to, speaking, reading, and writing. Includes nouns and pronouns pronunciation, communication, basic grammar, and introduction to German culture.
Offered: Fall, Spring.

GER 102 Elementary German II
4 cr. hrs. 4 periods (4 lec.)
Continuation of GER 101. Includes increased proficiency in listening to, speaking, reading, and writing the German language. Also includes pronunciation, communication, intermediate grammar, and German cultural traditions.
Prerequisite(s): GER 101.
Information: One year of high school German may fulfill prerequisite.
Offered: Fall, Spring.

GER 201 Intermediate German I
4 cr. hrs. 4 periods (4 lec.)
Continuation of GER 102. Includes an intensive review of grammar, pronunciation, communication, advanced grammar, readings of selected authors, and German culture.
Prerequisite(s): GER 102.
Information: Two years of high school German may fulfill prerequisite.
Offered: Fall, Spring.

GER 202 Intermediate German II
4 cr. hrs. 4 periods (4 lec.)
Continuation of GER 201. Includes pronunciation, communication, advanced grammar, and German culture.
Prerequisite(s): GER 201.
Offered: Fall, Spring.

GER 296 Independent Study in German
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent study in German literature, or special projects under the supervision of an instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: Fall, Spring.

Global Studies

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

GLS 109 Introduction to Global Studies
3 cr. hrs. 3 periods (3 lec.)
Survey of modern globalization. Includes the study of dimensions of globalization, global organizations, global politics, cultural globalization, the global economy, global environmental independence, and global social movements and counter movements. Also includes global interactions and their current effects on the restructuring of cultural, political, and economic institutions worldwide.
Information: Same as ANT 109 and SOC 109.
Offered: May not be offered this year, check class schedule.
Health Care

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HCA 102 Drug Calculations
1 cr. hrs. 1 periods (1 lec.)
Computation of medication dosage. Includes basic mathematics review, calculation of medications, interpretation of labels, alternate methods of administration, methods of medication calculations, and calculations related to route of administration and in specialty areas.
Corequisite(s): HCA 155, NRS 104
Offered: Fall, Spring, Summer.

HCA 103 Orientation to Pharmacology
3 cr. hrs. 3 periods (3 lec.)
An overview of pharmacology for allied health professionals. Includes pharmacological principles and the chemical, generic, and trade names for drugs. Also includes drug measurement and calculations, prescription preparation, administration, and Federal and Arizona regulations.
Offered: Fall, Spring, Summer.

HCA 119 Orientation to Human Anatomy and Physiology
2 cr. hrs. 2 periods (2 lec.)
Orientation to basic anatomy and physiology appropriate for the health care setting. Includes the application of medical terminology for the health care environment.
Offered: Fall, Spring, Summer.

HCA 152 Advanced Cardiac Life Support
2 cr. hrs. 2 periods (2 lec.)
evaluation and management of patients in pre-arrest and cardiac arrest as required by guidelines of the American Heart Association. Includes advanced cardiac life support (ACLS) overview, review of prerequisite material, case overview, discussion, and demonstration of appropriate treatment for various cardiac emergencies, and practical examination of knowledge and skills.
Information: Provides the didactic portion and the competency skill stations required by the American Heart Associate (AHA) course in Advanced Cardiac Life Support (ACLS). Healthcare provider basic life support (BLS) card is required at the beginning of the class.
This course is designed for students enrolled in the PCC Respiratory Care program.
Students must have completed the first year of the Respiratory Care program before enrolling in this course.
Offered: Summer.

HCA 154 Introduction to Health Care Delivery
3 cr. hrs. 3 periods (3 lec.)
Overview of the health care field. Includes health care delivery systems, medical terminology, ethics and professionalism, patient rights and responsibilities; communication; basic patient assessment; and workplace and personal safety.
Offered: Fall, Spring, Summer.

HCA 155 Introduction to Pharmacology
3 cr. hrs. 3 periods (3 lec.)
Introduction to Pharmacology Application of the nursing process to actions, uses and effects of medications and intended for nursing students. Includes introduction to the study of pharmacology, the nursing process and fundamentals of medication therapy, pharmacokinetics and pharmacodynamics, and applying the nursing process for clients receiving various medications.
Corequisite(s): HCA 102, NRS 104, NRS 104LC, NRS 104LS, WRT 101
Offered: Fall, Spring.
Health Continuing Education

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HCE 249 Medication Delivery Regulations in Nursing
1 cr. hrs. 1 periods (1 lec.)
Overview of the Arizona state regulations impacting medication delivery in nursing. Includes interaction and roles of health care personnel, management and delegation, and advanced scope of practice. Also includes patient rights, and legal and ethical considerations.
Information: Corequisite for HCE 250 or HCE 253.
Offered: May not be offered this year, check class schedule.

HCE 253 Intravenous Medication Therapy for the Registered Nurse
3 cr. hrs. 3 periods (3 lec.)
Techniques for the registered nurse to start, maintain, and discontinue intravenous (IV) therapy, such as peripheral venipuncture and to administer IV therapy. Includes principles of IV therapy, fluid balance in the body, local and systemic complications, therapy and patient care, medication delivery equipment, therapy monitoring and documentation, and skills demonstration. Also includes anatomy and physiology related to IV Therapy.
Information: Registered Nurse or consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

Health Education

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HED 136 Introduction to Health Sciences
3 cr. hrs. 3 periods (3 lec.)
Contemporary health-related issues for all dimensions of the individual. Includes understanding health for ourselves and others, a lifetime of wellness, responsible sexuality, and avoiding harmful habits.
Corequisite(s) Offered: Spring.

HED 140 First Aid and Cardiopulmonary Resuscitation
1 cr. hrs. 1 periods (1 lec.)
Offered: Fall, Spring, Summer.

Health Information Technology

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HIT 100 Introduction to Health Information Management
3 cr. hrs. 3 periods (3 lec.)
An overview of health care delivery systems and mechanisms in the U.S. Includes the medical model of healthcare and delivery in the U.S, public policy, professional roles, legal and regulatory issues, ancillary services, health record and payment systems including the Electronic Health Record (EHR) and computer systems. Also includes health reform initiatives in the U.S.
Offered: Fall, Spring, Summer.

HIT 101 Introduction to ICD Coding
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to principles and application of the International Classification of Diseases (ICD) coding system and the Healthcare Common Procedure Coding System (HCPCS). Includes overview of coding, introduction to ICD 9th Revision Clinical Modifications (9-CM), and ICD 10th Revision Clinical Modifications/Procedural Coding System (10-CM/PCS). Includes coding conventions, coding guidelines, hospital inpatient, outpatient and physician office coding and overview of HCPCS.
Recommendation: HIT 105.
Offered: Fall, Spring, Summer.
HIT 102 CPT Coding
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to principles and application of Current Procedural Terminology (CPT) Coding System. Includes overview of CPT and CPT coding. Also includes the following CPT sections: Anesthesia, Evaluation and Management, Medicine, Radiology, Surgery, and Pathology and Laboratory.
Recommendation: Completion of HIT 105 is recommended before enrolling in this course.
Offered: Fall, Spring.

HIT 105 Medical Terminology
4 cr. hrs. 4 periods (4 lec.)
Terminology used in the medical field. Includes word parts and forms, terms pertaining to the body as a whole, anatomy and structural organization of the body. Also includes terminology of body systems, organs and function including disease processes and symptoms, laboratory tests, clinical procedures and use of medical dictionaries and other resource materials for research and practice.
Offered: Fall, Spring, Summer.

HIT 112 Health Insurance and Medical Billing
3 cr. hrs. 3 periods (3 lec.)
Overview and principles of the basics of health insurance and medical billing. Includes principles of health insurance and medical billing, health insurance contracts, claims process, insurance terminology, abbreviations, and symbols, diagnostic and procedural coding (with emphasis on medical terminology, anatomy and physiology), client eligibility and reimbursement processes, health care statistics, and supervision and management.
Prerequisite: HIT 101 and 102.
Recommendation: Completion of HIT 100 and 105 are recommended before enrolling in the course.
Offered: Fall, Spring, Summer.

HIT 125 Pathophysiology and Pharmacology for HIT
4 cr. hrs. 4 periods (4 lec.)
Principals of pharmacology and pathophysiology. Includes disease processes according to body system, causes, diagnosis and treatment with emphasis on drug actions and classifications. Includes pharmacotherapy and laboratory findings; basic concepts in pharmacology, pharmacokinetics, dosage calculations, and pharmacology as applied to disease and conditions distinct to each body system.
Offered: Fall, Spring, Summer.

HIT 150 Introduction to Health Management Systems
3 cr. hrs. 4 periods (2 lec., 2 lab)
Concepts, theory, and application of Health Management Information Systems (HMIS) from a managerial perspective. Includes evolution of HMIS; roles and responsibilities of managers through adoption and implementation including vision, strategy and execution; Online Health record accessibility, alternative methods of health information retrieval and future directions; HMIS technology and applications including customer relations and resource planning, hardware, software, and interface concepts; community health information networks; patient centered systems; HMIS integration and interoperability; HMIS planning and information requirements; system development including system analysis and developmental methodologies; data stewardship; systems implementation and management; HMIS standards adoption and managing innovation diffusion in healthcare organizations.
Offered: May not be offered this year, check class schedule.

HIT 165 Medical Office Procedures
3 cr. hrs. 4 periods (2 lec., 2 lab)
Services and procedures used in a medical office. Includes qualities of the office worker, healthcare industry, communications and human relations, telephone techniques, financial reports, word processing, administrative support and medical billing, filing, mail processing, content of medical health record and documentation, insurance and claims, and employment in a medical office/facility and the interview.
Recommendation: HIT 105.
Offered: May not be offered this year, check class schedule.

HIT 175 Health Information Statistics and Research
4 cr. hrs. 4 periods (4 lec.)
Principals of health information statistics and research. Includes a statistical approach to healthcare, sources of data collection, data sources and databases. Also includes health care research processes and strategies, project development, data collection, design and analysis, report structure and presentation.
Offered: Fall, Spring.
**HIT 201 Advanced ICD Coding**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Advanced use of references, source documents, and computer software for diagnostic coding in health care settings for outpatient and inpatient hospital coding. Includes interpretation of ICD codes relative to inpatient and outpatient hospital reimbursement, analysis of inpatient and outpatient hospital source documents in a variety of settings to determine proper coding, prospective payment systems, auditing and analysis of patient charts, application of inpatient and outpatient diagnostic codes in the: integumentary, musculoskeletal, respiratory, cardiovascular, digestive, urinary, female and male reproductive, endocrine and nervous systems. Also includes codes for interventional radiology services; development of compliance program for enforcement of regulatory and governmental rules; application of confidentiality and privacy policies and procedures; abstracting data; and computer applications.  
*Prerequisite(s): HIT 102.*  
*Offered: Fall.*

**HIT 202 Coding Certification Preparation**  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Application and demonstration of coding skills in preparation for basic coding exams offered through the American Association of Professional Coders (AAPC) and the American Health Information Management Association (AHIMA). Also includes applied case studies.  
*Prerequisite(s): HIT 101 and HIT 102.*  
*Offered: Fall, Spring.*

**HIT 210 Medical Quality Assurance and Supervision**  
3 cr. hrs. 3 periods (3 lec.)  
Principles of medical quality assurance and supervision. Includes health information management skills and human resource roles and responsibilities. Also includes HIPAA regulations, accreditation and licensure, organizational models, technologies and planning for a professional career in health care.  
*Prerequisite(s): HIT 100 and 105.*  
*Offered: Fall, Spring.*

**HIT 211 Medicolegal Aspects in Health Information Management**  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to regulatory requirements in health care and application of general principles of law in health information management and legal proceedings. Includes American legal system, court systems and legal procedures, principles of liability, patient record requirements, access to health information, patient rights and confidentiality, judicial process of health information, specialized patient records, risk management and quality management, HIV information, computerized patient records, health care fraud and abuse, and ethics.  
*Prerequisite(s): HIT 100 and 105.*  
*Offered: Fall, Spring.*

**HIT 225 Health Management Information Systems**  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Health Management Information Systems from a managerial perspective. Includes the implementation of recent Federal policies and mandates and their impact on health care delivery. Includes electronic health information systems, information security and use of real world software applications.  
*Offered: Spring.*

**HIT 290 Health Information Technology Internship**  
3 cr. hrs. 11 periods (1 lec., 10 lab)  
Volunteer Health Information Technology field experience at an approved work site. Includes communications, positive work attitudes, ethics, progress review, health information systems, professional development, employment strategies, and final evaluation within a classroom seminar setting.  
*Prerequisite(s): HIT 105 and permission of the instructor.*  
*Information: Designed for students in their final semester of course work in the Health Information Technology option.*  
*Offered: Fall, Spring, Summer.*
History

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HIS 101 Introduction to Western Civilization I
3 cr. hrs. 3 periods (3 lec.)
Pre-history to the Wars of Religion, a period extending from 10,000 BCE to 1648 CE. Includes transition from pre-historic to the historic period, Greco-Roman world, Early, Central, and Late Middle Ages, and Renaissance and Reformation.
Offered: Fall, Spring, Summer.

HIS 101HC Introduction to Western Civilization I: Honors
3 cr. hrs. 3 periods (3 lec.)
Pre-history to the Wars of Religion, a period extending from 10,000 BCE to 1648 CE. Includes transition from pre-historic to the historic period, Greco-Roman world, Early, Central, and Late Middle Ages, and Renaissance and Reformation. Also includes Honors content.
Prerequisite(s): Must qualify for Honors program.
Information: Faculty or Advisor approval is required before enrolling in this course. Honors Content: Intensive research using the highest standards and best practices for the discipline; a significant number/variety of readings of both primary and secondary sources; a publishable quality peer reviewed paper or project in a format appropriate for the discipline; and presentation of research, in class or to a wider audience.
Offered: Fall.

HIS 102 Introduction to Western Civilization II
3 cr. hrs. 3 periods (3 lec.)
History of the origins and development of the modern Western world. Includes Wars of Religion, the Enlightenment, the Eighteenth century, the Nineteenth century, and the Twentieth century.
Offered: Fall, Spring.

HIS 102HC Introduction to Western Civilization II: Honors
3 cr. hrs. 3 periods (3 lec.)
History of the origins and development of the modern Western world. Includes Wars of Religion, the Enlightenment, the Eighteenth century, the Nineteenth century, and the Twentieth century. Also includes Honors content.
Prerequisite(s): Must qualify for Honors program.
Information: Faculty or Advisory approval is required before enrolling in this course. Honors Content: Intensive research using the highest standards and best practices for the discipline; a significant number/variety of readings of both primary and secondary sources; a publishable quality peer reviewed paper or project in a format appropriate for the discipline; and presentation of research, in class or to a wider audience.
Offered: May not be offered this year, check class schedule.

HIS 105 Introduction to Chicano Studies
3 cr. hrs. 3 periods (3 lec.)
Chicano(a) life in historical context since 1848. Includes defining Chicano(a) ideologies and realities from an interdisciplinary perspective. Also includes Chicano(a) history and culture within the world systems of Native Americans, New Spain, Mexico and the United States.
Offered: Fall, Spring.

HIS 113 Chinese Civilization
3 cr. hrs. 3 periods (3 lec.)
Introductory survey of the civilization of China from its origins to the present. Formative Period (prehistory - 221 B.C.), unification and expansion (221 B.C. - A.D. 221), period of disunity (222-588), flowering of Chinese culture (589-1279), impact of the Mongols on Chinese civilization (1280-1368), Ming Dynasty peace and prosperity (1368-1644), Qing Dynasty - The Manchu Conquest (1644-1911), Republican China (1912-1949), and People's Republic of China (1949- ).
Offered: Spring.

HIS 114 Japanese Civilization
3 cr. hrs. 3 periods (3 lec.)
Introductory survey of the civilization of Japan from its origins to the present. Includes the Formative Period (prehistory-A.D. 250); influence of Chinese civilization on Japan (300-794); Heian Period - emergence of uniquely Japanese cultural forms (794-1185); Kamakura Shogunate - establishment of military government (1185-1336); Ashikaga Shogunate - civil war and the reunification of Japan (1336-1573); Tokugawa Period (1600-1867); Meiji Period (1868-1912); Taisho Period (1912-1925); Showa Period (1926-1989); and Heisei Period (1990-present).
Offered: Fall.
HIS 122 Tohono O’odham History and Culture
3 cr. hrs. 3 periods (3 lec.)
Survey of Tohono O’odham culture, historical development, and modern issues. Includes development of culture and world view, sources of Tohono O’odham history, role in economic and social development of Northwestern Mexico and Southwestern United States, and contemporary Tohono O’odham issues.
Information: Same as AIS 122.
Offered: Spring.

HIS 124 History and Culture of the Yaqui People
3 cr. hrs. 3 periods (3 lec.)
Survey of the cultural heritage of the Yaqui people and the history of their struggles to protect Yaqui land and customs. Includes Yaqui origins, pre-Columbian Yaqui society, oral traditions and world view, early Spanish contacts, Catholic influences, economic development, rebellions, resistance and leadership, and policies regarding Native Americans. Also includes the deportation and enslavement of the Yaqui from the 17th to the 20th centuries by the Spanish and American governments and the deportation of the Yaqui by the United States in the 1880’s. Also examines acts of genocide and subjugation against the Yaqui in revolutionary Mexico, 20th century relocation and adaptation strategies of the Yaqui in the United States and the Yaqui culture of the 21st century.
Information: Same as AIS 124.
Offered: Fall, Spring, Summer.

HIS 127 History and Culture of the Mexican-American in the Southwest
3 cr. hrs. 3 periods (3 lec.)
Historical survey of Mexicano(a)/Chicano(a) people from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States. Includes historical writings, movements north under Spain and Mexico, repression and resistance. Also covers the political, economic, religious and social movements of the 19th, 20th and early 21st centuries.
Information: Same as ANT 127.
Offered: Fall, Spring.

HIS 128 History of the Dine’ (Navajo)
3 cr. hrs. 3 periods (3 lec.)
Examination of the DinÉ (Navajo) culture, historical development, and modern issues. Includes introduction, origin and oral traditions, Dinehtah before European contact, Mexican and United States periods, Navajo federal Indian relations, and chapter government and the Navajo tribal council.
Information: Same as AIS 128.
Offered: May not be offered this year, check class schedule.

HIS 141 History of the United States I
3 cr. hrs. 3 periods (3 lec.)
Survey of the major developments in American history from the Columbian voyages to the Era of Reconstruction. Includes Colonial America, the Formative Years - 1776-1815, the Early National Period - 1815-1850, and the coming of the Civil War and its aftermath. Also includes the social, intellectual, and political aspects of early American life.
Offered: Fall, Spring, Summer.

HIS 141HC History of the United States I: Honors
3 cr. hrs. 3 periods (3 lec.)
Survey of the major developments in American history from the Columbian voyages to the Era of Reconstruction. Includes Colonial America, the Formative Years - 1776-1815, the Early National Period - 1815-1850, and the coming of the Civil War and its aftermath. Includes the social, intellectual, and political aspects of early American life. Also includes Honors content.
Prerequisite(s): Must qualify for Honors program.
Information: Faculty or Advisor approval is required before enrolling in this course. Honors Content: Intensive research using the highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; a publishable quality peer reviewed paper or project in a format appropriate for the discipline; presentation of research, in class or to a wider audience.
Offered: Spring.

HIS 142 History of the United States II
3 cr. hrs. 3 periods (3 lec.)
Survey of the major developments in American history from era of Reconstruction to the present. Includes the era of Reconstruction, the emergence of modern America, the Early 20th Century, and America as a world power. Also includes the social, intellectual, and political aspects of contemporary American life.
Offered: Fall, Spring, Summer.
HIS 142HC History of the United States II: Honors  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the major developments in American history from Era of Reconstruction to the present. Includes the era of Reconstruction, the emergence of modern America, the Early 20th Century, and America as a world power. Also includes the social, intellectual, and political aspects of contemporary American life. Also includes Honors content.  
Prerequisite(s): Must qualify for Honors program.  
Information: Faculty or Advisor approval is required before enrolling in this course. Honors Content: Intensive research using the highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; a publishable quality peer reviewed paper or project in a format appropriate for the discipline: presentation of research, in class or to a wider audience.  
Offered: May not be offered this year, check class schedule.  

HIS 147 History of Arizona  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the major developments in the history of Arizona. Includes the Pre-Columbian period through the Spanish era, the Mexican Republic, the years as a U.S. territory, and the time since statehood to the present. Also includes the contributions of the various peoples who have formed the unique cultural and ethnic fabric of this area.  
Offered: Fall, Spring, Summer.  

HIS 148 History of Indians of North America  
3 cr. hrs. 3 periods (3 lec.)  
History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Native American origins, early economic and social development, Europeans, eras in Native American history, modern leadership, and research studies.  
Information: Same as AIS/ANT 148.  
Offered: Fall, Spring.  

HIS 150 African-American History and People  
3 cr. hrs. 3 periods (3 lec.)  
African-American history from the colonial period to the present. Includes identity, double consciousness, culture and arts, and political protest.  
Offered: May not be offered this year, check class schedule.  

HIS 160 Latin America Before Independence  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the history and people of Latin America from indigenous origins to independence. Includes theory and geography, indigenous Latin America, European background, colonial economy and society, and resistance and movements for independence in Latin America.  
Recommendation: Placement on PCC assessment tests above REA 091 and into WRT 101. 
Information: Course meets the AGEC Special Requirements of “I” (Intensive Writing), “G” (Global Awareness) and “C” (Cultural Diversity). Students will have writing assignments that require college level skills, and writing quality will be graded.  
Offered: Fall.  

HIS 161 Modern Latin America  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the history and people of Latin America from Independence to the present. Includes Post-Colonial consolidation, early Twentieth Century, United States - Latin America relations, guerrilla movements and reaction and Latin America today.  
Recommendation: HIS 160, and placement on PCC assessment exams above REA 091 and into WRT 101. 
Information: Course meets the AGEC Special Requirements of “I” (Intensive Writing), “G” (Global Awareness), and “C” (Cultural Diversity). Students will have writing assignments that require college level skills, and writing quality will be graded.  
Offered: Spring.  

HIS 180 Women in Western History  
3 cr. hrs. 3 periods (3 lec.)  
Survey of women’s history in the Western World from Antiquity to the Modern Age. Includes Ancient Near Eastern civilizations, women of the Classical World, medieval women, reformation and revolution in early modern and progressive eras, women and war in the Western World, and postwar social developments and movements.  
Offered: Spring.
HIS 232 The Politics and History of Immigration
3 cr. hrs. 3 periods (3 lec.)
Examines the politics of immigration in the United States and the phenomenon of emigration in a global context. Includes analyses of the history of immigration as a result of the country's political economy and its evolution and the role of immigration in the socio-political and economic development of the nation.
Information: Same as POS 232.
Offered: May not be offered this year, check class schedule.

HIS 240 Medieval History
3 cr. hrs. 3 periods (3 lec.)
A survey of the medieval period of Western Civilization from A.D. 410-1453. Includes an examination of the major political, military, social, economic, religious, artistic, and intellectual events of the Middle Ages.
Offered: Fall.

HIS 244 Western America
3 cr. hrs. 3 periods (3 lec.)
Survey of the patterns of American expansion and settlement in the Western United States. Includes mythology and terminology surrounding the West, factors that made the West, political power and warfare, cultural and gender contributions to the West, and historiographers of the American West.
Offered: May not be offered this year, check class schedule.

HIS 245 Abraham Lincoln and the American Civil War
3 cr. hrs. 3 periods (3 lec.)
Overview of the American Civil War. Includes a survey of conditions that led to the American Civil War; an examination of the major political, military, social and economic events of the Civil War; and a treatment of the impact of the Civil War on the United States and the impact of the Civil War on the United States and the Confederate States of America. Also includes an emphasis on the political career of Abraham Lincoln and the destruction of slavery.
Offered: Fall.

HIS 254 History of Women in the United States: The 20th Century
3 cr. hrs. 3 periods (3 lec.)
Survey of American women's history from 1900 to the present. Includes early 20th century gender, race/ethnicity, class formation, women and war, civil rights, feminist, and other social movements, and feminism's change since the 1970's.
Offered: May not be offered this year, check class schedule.

HIS 274 The Holocaust
3 cr. hrs. 3 periods (3 lec.)
Examines the causes, events and legacies of the Nazi assault on humanity. Includes the history of hate against the Jews in Europe, historical antecedents and preconditions of the Holocaust, the Third Reich and the creation of a racial state, the ?Final Solution? and the aftermath.
Offered: Fall, Spring, Summer.

HIS 276 Tudor and Stuart England
3 cr. hrs. 3 periods (3 lec.)
Examination of Tudor England politics, economics, culture, and military. Includes the Battle of Bosworth Field, the reigns of Henry VIII and Edward VI, through the Anglican Reformation to Mary the first Queen Regnant of England to the Golden Age of Elizabeth I that fueled New World exploration and high sea adventures. Also includes James I who unified England and Scotland, Charles I, the English Civil War, Charles II, and James II, who fell in the Glorious Revolution.
Offered: May not be offered this year, check class schedule.

HIS 277 History of the Middle East: From the Rise of Islam to 1453
3 cr. hrs. 3 periods (3 lec.)
Survey of the history, religion, and culture of Muslim societies. Includes the Middle East in the Sixth Century CE, Muhammad and Qur’an, Islam and the Islamic State, Fatamids, Seljuks, and the Crusades, Mongols, Mamlue Egypt, and the Ottoman Turks.
Offered: May not be offered this year, check class schedule.

HIS 278 History of the Middle East: From 1453 to the Present Age
3 cr. hrs. 3 periods (3 lec.)
Survey of the history, religion and culture of the Islamic world from the fifteenth century through the modern period. Includes the Ottoman Empire, Safavid Empire, European imperialism and the early modern Middle East, world wars and the Middle East, and the modern Middle East.
Offered: May not be offered this year, check class schedule.
**HIS 280 History of the World Wars**  
3 cr. hrs. 3 periods (3 lec.)  
Survey of the two world wars of the twentieth century. Includes prelude to war, outbreak of the Great War, war of two fronts, inter-war years, World War II, and post war world. Also includes changes created in society, government, and international relations as a result of the two wars.  
Offered: Fall, Spring.

**HIS 281 Cold War: Soviet Confrontations and Vietnam**  
3 cr. hrs. 3 periods (3 lec.)  
*Information:* This is a continuation course to HIS 280 History of the World Wars; however, HIS 280 is not a prerequisite. This course will require a college level reading ability.  
Offered: May not be offered this year, check class schedule.

**HIS 284 Modern Israel and Arab/Israeli Relations**  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to the modern State of Israel, Arab/Israeli relations, and the United States involvement in the Middle East, from the rise of Zionism in 19th century Europe to the present. Includes origins of modern Israel and Arab/Israeli relationships up to 1917, Palestine mandate, Zionist state-building, and Jewish/Arab relations up to 1948, State of Israel relations with Arab States, search for security, and U.S.'s role between 1948-1967, Arab/Israeli/Palestinian relations, quest for peace, and U.S.'s role between 1967-1984, Palestinian/Arab/Israeli relations and U.S.'s involvement in global and regional events from 1984 to the present.  
Offered: May not be offered this year, check class schedule.

**HIS 296 Independent Study in History**  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Independent study in history. Includes topic identification, research plan, data gathering, and presentation of findings.  
*Information:* Consent of instructor is required before enrolling in this course. Information: May be taken two times for a maximum of three credit hours.  
Offered: May not be offered this year, check class schedule.

---

**Honors Program**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**HON 101 Honors Colloquium**  
3 cr. hrs. 3 periods (3 lec.)  
Dynamic, interdisciplinary course introducing honors students to the adventure of scholarly research, writing, and conversation. Includes defining and debating contemporary social issues in relation to history, science, politics, economics, technology, psychology, and the arts. Also includes encouraging students to develop their creativity; enhance their practices of critical reflection, argumentation, and collaboration; and explore their understandings of cultural diversity in local and global contexts.  
*Information:* Students must be eligible for Honors courses based on placement tests, and/or have a 3.5 GPA, and/or be a Pima Scholar before enrolling in this course.  
Offered: Fall, Spring.

**HON 210 College Honors Advisory Council**  
1 cr. hrs. 1 periods (1 lec.)  
Student representative to the College Honors Advisory Council (CHAC). Includes CHAC meetings, reports, special Honors Program events, and end of semester report. Also includes local campus activities.  
*Information:* May be taken three times for a maximum of three credit hours.  
Offered: Fall, Spring.
HON 244 Honors Field Excursions  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Field excursions to provide direct experience of foreign or domestic cultures and people, and of academic development events through travel and study. Includes a range of visits to foreign or domestic cultural and educational sites, local field excursions, or attendance at conferences and meetings.  
Recommendation: Consult instructor for prerequisites specific to planned excursion.  
Information: May require foreign or domestic travel expenses. Information: May be taken four times for a maximum of twelve credits hours.  
Offered: Spring.

HON 296 Honors Independent Study Project  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Exploration of special interest areas for Honors students. Content to be determined jointly by student and faculty mentor.  
Prerequisite(s): HON 101.  
Information: May be taken three times for a maximum of three credit hours.  
Offered: Fall, Spring.

Hotel & Restaurant Management

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HRM 100 Introduction to the Hospitality Industry  
3 cr. hrs. 3 periods (3 lec.)  
Overview of the hospitality industry, including the food service business, restaurants and hotels, and the meeting and conference industry. Also includes hospitality industry management and leadership; human resources; marketing and promotion; franchising; and ethics in hospitality management.  
Offered: Fall, Spring.

HRM 101 Front Office Procedures  
3 cr. hrs. 3 periods (3 lec.)  
Principles and procedures for front office operations in hotels and resorts. Includes classification of hotels, organizational structure, front office operations planning and evaluation, and human resources management. Also includes reservations, registration, front office accounting, check out and settlement, night audit, and revenue management.  
Offered: Fall, Spring.

HRM 104 Hotel Food and Beverage Management  
3 cr. hrs. 3 periods (3 lec.)  
Hotel food and beverage operations and management. Includes management structure and functions, personnel management, cost control/quality assurance, tools and equipment, facilities, and purchasing and storage. Also includes volume food management; beverage management and service; food products and preparation techniques; menus and recipes; sanitation; and liability issues.  
Offered: Fall.

HRM 110 Food Service Systems Management  
3 cr. hrs. 3 periods (3 lec.)  
Introduction the various components of systematic food service management. Includes investigation of management principles, various management control methods, and critical operational functions.  
Offered: Fall, Spring.

HRM 111 Commercial Food  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to all facets of hot food preparation in a commercial kitchen. Includes the application of proper cooking skills and techniques. Also includes the use and/or preparation of a variety of food items, such as sauces, thickening agents, soups, vegetables, starches, meats, and pastries.  
Prerequisite(s): HRM110  
Information: This course requires 10 hours of commercial kitchen demonstration.  
Offered: Fall, Spring.
HRM 120 Meetings and Convention Management
3 cr. hrs. 3 periods (3 lec.)
Basic principles for planning and operating meetings, conventions, and trade shows. Includes types of events and their economic impact, meetings as a social phenomenon, and the role of the meeting planner. Also includes practical tools for preliminary planning and needs analysis, program design and budgeting, site selection, and on-site management. Offered: May not be offered this year, check class schedule.

HRM 140 Introduction to Bar and Beverage Management
3 cr. hrs. 3 periods (3 lec.)
Introduction to the fundamental areas of beverage operations. Includes planning of the bar, bar staffing and training, legal regulations, standardized recipes, drink costing and pricing, and beverage production methods and mixology. Also includes product identification; purchasing, receiving, storing and issuing beverages; service of spirits, wine and beer products; marketing and menu development; and cost controls of a beverage operation.
Prerequisite(s): HRM 110.
Recommendation: Students should be at least 21 years of age.
Offered: Spring.

HRM 150 Hospitality Property Management
3 cr. hrs. 3 periods (3 lec.)
An examination of planning, implementing, and monitoring the hospitality operation environment with the aim of enhancing the guest experience by fostering a proactive approach to compliance, conformance to standards and competitiveness. Includes design and layout of guestrooms, lobbies, food outlets, and recreation outlets as it pertains to maintenance and housekeeping; product and service analysis; inventory control; preventative maintenance; renovations; liability; protecting guests and their property; asset protections; grounds and landscaping; ecology; and transportation.
Offered: Fall, Spring.

HRM 199 Introductory Co-op: Hotel and Restaurant Management
1 cr. hrs. 1 periods (1 lec.)
Introduction to cooperative education for first-year students. Includes instruction that supports success in securing and retaining a training job related to hotel and restaurant management. Also includes communication skills; time, energy, and stress management; career information and its uses; the job market; principles, theories, and practices in the career field; and problems in the work environment.
Corequisite(s): HRM 199WK
Information: May be taken two times for a maximum of two credit hours.
Offered: Fall, Spring.

HRM 199WK Co-op Work: Hotel and Restaurant Management
1-8 cr. hrs. 5-40 periods (5-40 lab)
A supervised cooperative work program for students in hotel and restaurant management. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.
Corequisite(s): HRM 199
Information: May be taken two times for a maximum of sixteen credit hours.
Offered: Fall, Spring.

HRM 211 Introduction to Hospitality Sales and Marketing
3 cr. hrs. 3 periods (3 lec.)
Basic principles and practical skills for developing marketing strategies and the implementation of marketing plans for hospitality enterprises. Includes the vision of marketing as a management philosophy to guide the design and delivery of guest services and the examination of the dynamic relationship between hospitality marketing and daily operations. Also includes an emphasis on sales as an aspect of meeting the needs of the customer, personal selling of the right product in the right place at the right time as an integral part of hospitality operations.
Prerequisite(s): HRM 100.
Offered: May not be offered this year, check class schedule.

HRM 235 Hospitality Law
3 cr. hrs. 3 periods (3 lec.)
Examination of legal aspects of hospitality management. Includes basic legal principles governing hospitality operations; the hotel-guest relationship; the hotel’s duties to guests and others; laws governing restaurants, foodservice, and bars; and laws relating to hotel employees.
Prerequisite(s): HRM 100.
Offered: Spring.
HRM 245 Hospitality Human Resource Management
3 cr. hrs. 3 periods (3 lec.)
Examination of personnel issues in hospitality management. Includes recruitment, selection, orientation, training, wages and benefits, legal issues, and employee evaluation.
Prerequisite(s): HRM 100 with a grade of C or better.
Offered: Spring.

HRM 299 Introduction to Co-op: Hotel and Restaurant Management
1 cr. hrs. 1 periods (1 lec.)
Advanced cooperative education class that supports success in securing and retaining a training job in hotel and restaurant management. Includes communication skills; time, energy, and stress management; career information and its uses; the job market; principles, theories, and practices in the career field; and problems in the work environment.
Corequisite(s): HRM 299WK
Information: A minimum of 12 credit hours of Hotel and Restaurant Management (HRM) prefix courses or one year of related industry work experience is required before enrolling in this course. May be taken two times for a maximum of two credit hours.
Offered: Fall, Spring, Summer.

HRM 299WK Co-op Work: Hotel and Restaurant Management
1-3 cr. hrs. 5-15 periods (5-15 lab)
A supervised cooperative work program for advanced students in hospitality management. Instructor-coordinators work with students and their supervisors. Variable credit is available by special arrangement.
Corequisite(s): HRM 299
Information: A minimum of 12 credit hours of Hotel and Restaurant Management (HRM) prefix courses or one year of related industry work experience is required before enrolling in this course. May be taken for a maximum of three credit hours.
Offered: Fall, Spring, Summer.

Human Resources Management
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HRS 101 Introduction to Human Resources Management
3 cr. hrs. 3 periods (3 lec.)
Practical applications for success in personnel management. Includes human resources management in perspective, meeting requirements, the challenge, function/environment, recruitment, compensation, incentive plans, training and development, and labor relations.
Offered: Fall, Spring, Summer.

HRS 102 Human Resource Law
3 cr. hrs. 3 periods (3 lec.)
Legal issues associated with human resources management. Includes hiring, personnel practices, wages and hours, taxes employee benefits, family and medical leave, health and safety, illegal discrimination, workers with disabilities, and termination. May also include issues associated with independent contractors, unions, and lawyers and legal research.
Offered: Fall, Spring.

HRS 103 Benefits and Compensation
3 cr. hrs. 3 periods (3 lec.)
Study of benefits and compensation management. Includes strategic compensation planning, components of the wage mix, job evaluation systems, the compensation structure, governmental regulation of compensation, significant compensation issues, employee benefits programs, employee benefits required by law, discretionary major employee benefits, employee services, reasons and requirements for incentive plans, setting performance measures, administering incentive plans, incentive for non-management employees, incentive for management employees, incentives for executive employees, and gain-sharing incentive plans.
Offered: Fall, Spring, Summer.
HRS 104 Job Requirements, Recruitment, and Personnel Selection  
3 cr. hrs. 3 periods (3 lec.)  
Concepts, techniques, and regulation that apply to job requirements, recruitment, and personnel selection. Includes relationships of job requirements and HRS functions, job analysis, job design, matching people and jobs, sources of information about job candidates, employment tests, the employment interview, and reaching a selection decision.  
Offered: Fall, Spring, Summer.

HRS 105 Training and Development  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to training, career development, and appraising and improving performance. Includes the scope of training, conducting the needs assessment, designing the training program, implementing the training program, evaluating the training program, special topics in training and development, elements of career development programs, career development and management succession, career development for a diverse workforce, personal career development, performance appraisal programs, developing an effective appraisal program, performance appraisal methods, and appraisal interview.  
Offered: Fall, Spring.

HRS 106 Labor Relations  
3 cr. hrs. 3 periods (3 lec.)  
Exploration of issues in the area of labor relations. Includes employee rights, disciplinary policies and procedures, appealing disciplinary actions, organizational ethics in employee relations, government regulation of labor relations, the labor relations process, structures, functions, and leadership of labor unions, labor relations in the public sector, contemporary challenges to labor organizations, the bargaining process, trends in collective bargaining, the labor agreement, and administration of the labor agreement.  
Offered: Fall, Spring.

Humanities  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

HUM 131 Mythology  
3 cr. hrs. 3 periods (3 lec.)  
Myths, legends, and folktales of the Greeks and Romans. Includes basic concepts of myths, myths of the Greeks and Romans, major Greek divinities and their Roman counterparts, stories about the major divinities, artistic representation of myths, effects of ancient myths on western literary movement, similarities and differences between major mythic systems, and anthropological and psychological approaches to mythic systems. Also includes a humanistic approach to the study of Greek and Roman sacred narratives, stories derived from oral traditions, and cultural events, which invite symbolic analysis.  
Offered: Fall, Spring, Summer.

HUM 196 Independent Studies in Humanities  
3 cr. hrs. 3 periods (3 lec.)  
Reading and research to be determined between the student and the instructor.  
Offered: Fall, Spring.

HUM 251 Western Humanities I  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to major cultures from rise of city-states through the early Roman Christian era. Includes general history of ideas, art, architecture, religion, philosophy, drama, music, and literature from ancient Near Eastern civilizations, and Greek, Roman, and Early Roman Christian civilizations. Also includes readings such as the Epic of Gilgamesh, Homer, Sophocles, Aristophanes, Plato, Aristotle, Virgil’s Aeneid, Hebrew and the Christian Scriptures, and St. Augustine.  
Offered: Fall, Spring, Summer.

HUM 252 Western Humanities II  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to major western cultures from the early Medieval through AD 1600. Includes general history of ideas, art, architecture, religion, philosophy, drama, music, and literature from early and late Medieval periods, Renaissance-Reformation, and Counter-Reformation. Also includes readings such as heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, Shakespeare, and Cervantes.  
Offered: Spring.
**HUM 253 Western Humanities III**  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to the culture of the modern western world from AD 1600 to the present. Includes general history of ideas, art, architecture, religion, philosophy, drama, music and literature from Enlightenment, Baroque, Romantic, Pre-Modern, and Contemporary periods. Also includes readings such as Voltaire, Rousseau, Goethe, Romantic, pre-modern and contemporary literature, poetry, and drama.  
Offered: Fall, Spring.

**HUM 260 Intercultural Perspectives**  
3 cr. hrs. 3 periods (3 lec.)  
Literary and artistic works of American Indians and Asian, Black, and Hispanic Americans, both men and women. Includes traditional and modern works and contributions to American civilization.  
Offered: Fall, Spring, Summer.

**HUM 270 Meditation**  
3 cr. hrs. 3 periods (3 lec.)  
Theoretical principles and selected traditions of meditation self-awareness. Includes principles and techniques of meditation, meditation traditions, literature of meditation, meditation arts, and psychology and physiology of meditation.  
*Information: Same as PSY 270.*  
Offered: May not be offered this year, check class schedule.

---

**Interior Design**  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**IDE 100 Introduction to Interior Design**  
3 cr. hrs. 3 periods (3 lec.)  
Foundations of the major aspects of Interior Design. Includes introduction to interior design, principles and elements, materials, furnishings, and other components, process of interior design, and vocabulary.  
Offered: May not be offered this year, check class schedule.

**IDE 111 Fundamentals of Interior Design**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Fundamentals and theories of interior design. Includes elements and principles of interior design, design practices, two dimensional (2D) and three dimensional (3D) compositions, and portfolio projects.  
*Recommendation: Completion of IDE 100 before enrolling in this course or concurrent enrollment.*  
Offered: May not be offered this year, check class schedule.

**IDE 122 Visual Communications I**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Interior design visualization techniques and processes. Includes drawing, sketching, skills and mechanics in drafting, and drawing tools and materials.  
Offered: May not be offered this year, check class schedule.

**IDE 152 Color and Lighting Theory**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Design concepts for interior design color and lighting. Includes vision, perception, color and lighting theories, color schemes, design concepts, techniques and applications, psychological implications, and designing an interior for color and lighting.  
*Prerequisite(s): IDE 122 or concurrent enrollment.*  
*Recommendation: Completion of IDE 111 before enrolling in this course.*  
Offered: May not be offered this year, check class schedule.

**IDE 155 Space Planning I**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Theory and methods of information gathering for design projects. Includes programming and planning, research and observation, diagramming methods, skills in drafting, and human factors and behavior.  
*Prerequisite(s): IDE 122 or concurrent enrollment.*  
Offered: May not be offered this year, check class schedule.
IDE 158 Computer Aided Drafting Fundamentals for Interior Design
4 cr. hrs. 6 periods (3 lec., 3 lab)
Two-dimensional computer-aided drafting concepts and techniques for Interior Design. Includes drafting methods and procedures, file management, hard copy production, industry standards, use of scale, blocks and symbol libraries, and portfolio development.
Prerequisite(s): IDE 122.
Recommendation: IDE 111.
Offered: May not be offered this year, check class schedule.

IDE 160 Fabrics for Interiors
3 cr. hrs. 4 periods (2 lec., 2 lab)
Prerequisite(s): IDE 111.
Offered: May not be offered this year, check class schedule.

IDE 196 Independent Study in Interior Design
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent readings or special projects. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

IDE 212 History of Interior Architecture & Furniture: Egyptian Period - 1900
3 cr. hrs. 3 periods (3 lec.)
Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes the Classical Period, the Middle Ages, the Renaissance, and Early America.
Offered: May not be offered this year, check class schedule.

IDE 213 History of Interior Architecture & Furniture from 1900-Pres
3 cr. hrs. 3 periods (3 lec.)
Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes cultural aspects and characteristics of early Twentieth Century, Modernism, Revolution and the Avant-Garde, Contemporary designs, and issues and trends.
Offered: May not be offered this year, check class schedule.

IDE 220 Interior Methods and Materials
3 cr. hrs. 3 periods (3 lec.)
Elements and applications of interior products. Includes specifications for finishes and materials, estimating techniques for interiors, product materials for interiors, environmental concerns, and design solutions.
Prerequisite(s): IDE 100.
Offered: May not be offered this year, check class schedule.

IDE 222 Visual Communications II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of IDE 122. Includes advanced techniques in black and white and color, measured drawings, fundamental design in visual communications, and rendering for interior design.
Prerequisite(s): IDE 122.
Recommendation: Completion of CAD 158 before enrolling in this course.
Offered: May not be offered this year, check class schedule.

IDE 230 Interior Design Business and Professional Practices
3 cr. hrs. 3 periods (3 lec.)
Professional business principles and practices for the interior designer. Includes business action plan, business structure, professional services, design firm model, business principles, contractual relationships, and business correspondence.
Prerequisite(s): IDE 111.
Recommendation: Assessment in Mathematics at the MAT 086 level or higher before enrolling in this course.
Offered: May not be offered this year, check class schedule.
IDE 255 Space Planning II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of IDE 155. Includes programming and planning review, advanced research and observation, advanced diagramming methods illustrating design concepts, advanced drafting including commercial interiors, measurement of human psychological and sociological factors, and presentations.
Prerequisite(s): IDE 122 and 155.
Offered: May not be offered this year, check class schedule.

IDE 256 Human and Environmental Design
3 cr. hrs. 3 periods (3 lec.)
Theories of human factors and environmental issues relating to interior design. Includes design problems, built environment, health, safety and welfare, materials, finishes, fabrications, and human factors.
Prerequisite(s): IDE 155.
Offered: May not be offered this year, check class schedule.

IDE 280 Interior Design Portfolio Development
1 cr. hrs. 1 periods (1 lec.)
Identification of portfolio content. Includes project parameters, procedures and methods, portfolio content, and critique.
Recommendation: Completion of IDE 255 before enrolling in this course or concurrent enrollment.
Offered: May not be offered this year, check class schedule.

International Business Studies
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

IBS 120 Cultural Environment of International Business
3 cr. hrs. 3 periods (3 lec.)
Examination of the cultural values of the foreign country in comparison to those of the United States. Includes social and religious customs, roles of men and women, attitudes toward time, humor, drugs and alcohol, and patterns of communication. Also includes political, educational and legal structures, health care values, attitudes toward shopping and conducting business, business structure, ethics and values.
Offered: May not be offered this year, check class schedule.

Interpreter Training
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ITP 105 Beginning Fingerspelling and Numbers
2 cr. hrs. 2 periods (2 lec.)
Enhancement of receptive and expressive sign language skills, methodology, theory, and application. Includes manual alphabet, numbers, basic monetary designations, basic mathematical functions, regional states, cities, and calendar designations. Also includes common acronyms, basic lexicalized fingerspelling, and history of fingerspelling.
Prerequisite(s): SLG 102.
Information: Additional lab hours are required outside of regularly scheduled class.
Offered: Fall, Spring, Summer.

ITP 200 Introduction to the Deaf Community
4 cr. hrs. 4 periods (4 lec.)
Exploration of the history of American Sign Language (ASL), the deaf community, and the experiences of deaf individuals. Includes norms, values, traditions, and roles of social behaviors. Also includes cross-cultural interactions between deaf and hearing people. Students will also explore the history of the Deaf community, the history of deaf education, issues in language and culture, and Deaf services and programming policies.
Prerequisite(s): SLG 202 and WRT 102.
Offered: Fall.
**ITP 203 Linguistics of American Sign Language**
3 cr. hrs. 3 periods (3 lec.)
Introduction to the linguistic structure of American Sign Language (ASL). Includes history, language requirements, linguistic fields, communication systems, assimilation/symmetry, ASL and English comparisons, time/tense indicators, semantics, morphology, syntax, phonology, modulation/inflation and classifiers/SASSes. Also includes conjunctions, reality principle, conversational regulators, relative clauses, ASL research topics, gloss/transcription, current issues, and linguistic research paper.
Prerequisite(s): SLG 202 and WRT 102.
Information: Student is required to write a linguistic research paper.
Offered: Fall.

**ITP 205 Advanced Fingerspelling and Numbers**
2 cr. hrs. 2 periods (2 lec.)
Advanced receptive and expressive fingerspelling and number skills. Includes lexicalized fingerspelling, related theories/methodologies, numbers, advanced monetary designations, basic and advanced mathematical functions, acronyms for deaf-related organizations and services, common abbreviations, commonly fingerspelled words, major cities, states, and proper nouns.
Prerequisite(s): ITP 105 and SLG 201.
Information: Additional lab hours are required outside of regularly scheduled class.
Offered: Fall, Spring.

**ITP 210 Introduction to Interpreting**
4 cr. hrs. 4 periods (4 lec.)
Introduction to the field and role of a sign language interpreter. Includes defining the client(s), sign language systems and situational assessments, Repetitive Motion Injury RMI, history of spoken and sign language interpreters, certification and licensing of sign language interpreters, and prerequisite knowledge and skills. Also includes the profession of an interpreter, interpreter role and ethics, process of interpreting, settings, and assignment related topics.
Prerequisite(s): SLG 202 and WRT 102.
Offered: Fall.

**ITP 215 Classifiers and ASL Literature**
3 cr. hrs. 3 periods (3 lec.)
This course is a continuation of the major grammatical features of American Sign Language (ASL) to develop communicative and interactive competencies in the culture and language of the deaf. Includes a focus on ASL literature by introducing students to ASL storytelling and poetic techniques, film analysis, story analysis, and its techniques. Also includes ASL narratives, classifiers and size and shape specifiers (SSASes), and perspectives.
Prerequisite(s): SLG 202 and WRT 102.
Information: This course is taught in ASL and utilizes receptive skills through ASL literature and poetic videotapes. Students are expected to experiment with ASL storytelling and the use of classifier techniques. Information: Additional hours may be required outside of the regularly scheduled class.
Offered: Spring.

**ITP 220 Interpreting I**
4 cr. hrs. 4 periods (4 lec.)
Practical experience in consecutive and simultaneous voice to sign interpreting with increasingly complex and diverse materials. Includes applying the process of interpreting, discourse styles and registers, assignment considerations, physical considerations, application of the Code of Professional Conduct, and giving and receiving feedback, and professional issues. Also includes linguistic/syntax, American Sign Language (ASL) comparisons.
Prerequisite(s): ITP 210 and WRT 102.
Information: Additional lab hours may be required outside regularly scheduled class.
Offered: Spring.

**ITP 250 Interpreting II**
4 cr. hrs. 4 periods (4 lec.)
Continuation of ITP 220. Continued development of expressive and receptive interpreting skills in educational and community situations. Includes practical considerations, interpreter role, certification, licensure, communication systems, multiple roles, and code of Professional Conduct. Also includes interpreting, transliterating, idiomatic interpreting, sign invention, team interpreting, giving and receiving feedback, current issues, and environmental dynamics.
Prerequisite(s): ITP 220.
Information: Additional lab hours may be required outside of class.
Offered: Fall.
**ITP 268 Etymology**  
4 cr. hrs. 4 periods (4 lec.)  
Designed to improve and increase English vocabulary and conceptual American Sign Language (ASL) correlates for the sign language interpreter. Includes word origins, common word families, contextual vocabulary building, English idioms, and ASL signs having multiple English translations.  
*Prerequisite(s): SLG 202.*  
*Offered: Spring.*

**ITP 270 Beginning Sign to Voice**  
4 cr. hrs. 4 periods (4 lec.)  
Interpreting basic sign language communication into the spoken word. Practical experience in consecutive and simultaneous sign to voice interpreting with increasingly complex and diverse materials. Includes applying the process of interpreting, discourse styles and registers, assignment considerations, physical considerations, and application of the Code of Professional Conduct. Also includes voicing considerations, linguistic/syntax, American Sign Language (ASL)/English comparisons, pre- and post-situational assessment, giving/receiving feedback, and professional issues.  
*Prerequisite(s): ITP 210 and SLG 202.*  
*Information: Additional lab hours outside of class are required.*  
*Offered: Spring.*

**ITP 280 Advanced Sign to Voice**  
4 cr. hrs. 4 periods (4 lec.)  
Interpreting complex sign language structures into the spoken word. Includes voicing considerations, team interpreting, registers, word/phrase selection, current issues, and environmental dynamics.  
*Prerequisite(s): ITP 270.*  
*Information: Additional lab hours are required outside of regularly scheduled class.*  
*Offered: Fall.*

**ITP 285 Educational Interpreting/Transliterating**  
4 cr. hrs. 4 periods (4 lec.)  
Interpreting in educational settings. Includes transliterating, professional readiness, settings and expectations, and legal and ethical issues.  
*Prerequisite(s): ITP 250 or 280.*  
*Information: Additional hours may be required outside of regularly scheduled class.*  
*Offered: Spring.*

**ITP 286 Video Relay Interpreting**  
4 cr. hrs. 4 periods (4 lec.)  
Development of interpreting and transliteration skills and receptive and expressive skill refinement in video relay call situations. Includes FCC regulations, application of Code of Professional Conduct, call management, and specialized protocols. Also includes support systems, situational and language assessments, team interpreting, and equipment usage.  
*Prerequisite(s): ITP 250 and 280.*  
*Information: Prerequisite(s) may be waived with consent of instructor.*  
*Offered: May not be offered this year, check class schedule.*

**ITP 289 Topics in Interpreting**  
3 cr. hrs. 3 periods (3 lec.)  
Continued development of interpreting and transliterating skills and receptive and expressive skill refinement in consecutive and simultaneous interpreting situations. Topics include specialized settings, specialized vocabulary, specialized protocols, support systems, situational and language assessment, facilitating the communication process, and preparation for national certification exams.  
*Prerequisite(s): ITP 250 and 280.*  
*Information: Prerequisites may be waived with consent of instructor.*  
*Additional lab hours may be required outside of regularly scheduled class.*  
*Offered: Spring.*
ITP 290 Interpreter Training Field Experience
2 cr. hrs. 6 periods (1 lec., 5 lab)
Supervised interpreting opportunities in community settings. Includes selection criteria, completion of documentation assignments for portfolio, problem solving, site orientation, student performance evaluations, observation of professional interpreters, Code of Professional Conduct in practice, professional job expectations, and current issues.
Prerequisite(s): ITP 250.
Offered: Spring.

ITP 296 Independent Study in Interpreting
1-3 cr. hrs. 3-9 periods (3-9 lab)
Extensive practice in identified areas of expressive/receptive interpreting/transliterating under supervision of an instructor.
Prerequisite(s): ITP 210, ITP 220 or 270.
Information: Consent of instructor required before enrolling. Course content and student learning outcomes will be determined by conference between student and instructional faculty.
Offered: Fall, Spring, Summer.

Italian
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

ITA 101 Elementary Italian I
4 cr. hrs. 4 periods (4 lec.)
Introduction to Italian. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.
Offered: Fall, Spring.

ITA 102 Elementary Italian II
4 cr. hrs. 4 periods (4 lec.)
Continuation of ITA 101. Includes additional Italian grammar and structure, transactions and topics in Italian, Italian compositions, manipulating meaning from readings, and interpreting meaning from listening.
Prerequisite(s): ITA 101.
Offered: Fall, Spring.

ITA 201 Intermediate Italian I
4 cr. hrs. 4 periods (4 lec.)
Continuation of ITA 102. Includes intermediate Italian grammar structures, response to unanticipated questions, political, economic, and social vocabulary in readings and writings, intermediate literary interpretation, complex essays in Italian, intermediate level of Italian culture, and extracting meaning from listening.
Prerequisite(s): ITA 102.
Offered: May not be offered this year, check class schedule.

ITA 202 Intermediate Italian II
4 cr. hrs. 4 periods (4 lec.)
Continuation of ITA 201. Includes additional intermediate Italian grammar and sentence structures, communication and cultural topics, responses to complex written form, listening practice, Italian performance, and additional examination of Italian culture.
Prerequisite(s): ITA 201.
Offered: May not be offered this year, check class schedule.
Japanese

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

JPN 085 Introductory Japanese
4 cr. hrs. 4 periods (4 lec.)
Elementary Japanese conversation. Includes an overview of the Japanese language, writing and pronunciation, and useful daily expressions. Also includes Japanese culture and communication.
Offered: May not be offered this year, check class schedule.

JPN 101 Elementary Japanese I
5 cr. hrs. 5 periods (5 lec.)
Introduction to the Japanese language. Includes an overview of the Japanese language, speaking and listening, writing and reading, grammar, personal transactions, and the cultural context within which Japanese conversation takes place. Also includes writing and reading of Hiragana, Katakana, and 23 Kanji characters.
Offered: Fall, Spring.

JPN 102 Elementary Japanese II
5 cr. hrs. 5 periods (5 lec.)
Continuation of JPN 101. Includes oral and written forms, grammatical structures, interpersonal transactions, and the cultural component of communication competency.
Prerequisite(s): JPN 101.
Offered: Fall, Spring.

JPN 201 Intermediate Japanese I
5 cr. hrs. 5 periods (5 lec.)
Continuation of Japanese 102. Includes speaking and listening, grammar, personal transactions, and the cultural context to which Japanese conversations take place. Also includes reading and writing Hiragana, Katakana, and 250 Kanji characters.
Prerequisite(s): JPN 102.
Offered: Fall.

JPN 202 Intermediate Japanese II
5 cr. hrs. 5 periods (5 lec.)
Continuation of Japanese 201. Includes speaking and listening, grammar, personal transactions, and using more complex sentence structure in a cultural context within which Japanese conversations take place. Also includes Hiragana, Katakana, and 365 Kanji characters.
Prerequisite(s): JPN 201.
Offered: Spring.

Journalism

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

JRN 101 Introduction to Reporting and Media Writing
3 cr. hrs. 3 periods (3 lec.)
Introduction to news reporting. Includes journalism as a career, the journalist and the organization of the newsroom, defining news, news style, elements of a news story, fundamentals of writing news, and news gathering and reporting. Also includes organizing and writing the story, revision of stories, and ethics, libel and media law.
Prerequisite(s): WRT 100 or required score on the writing assessment test.
Offered: Fall, Spring.

JRN 102 Survey of Media Communications
3 cr. hrs. 3 periods (3 lec.)
Survey of theory, function and impact of mass media. Includes analysis of book and magazine publishing, newspapers, recorded music, radio, television, film, the Internet, public relations, advertising, and media uses and effects. Also includes media law, ethics, and global communication.
Offered: Fall, Spring.
JRN 185 Newspaper Publishing
3 cr. hrs. 9 periods (lab)
Print and online publication of the college's biweekly student newspaper. Includes news judgment, news gathering, news and opinion writing, multimedia production, editing, headline writing, photography, and other publication activities. Also includes legal and ethical considerations.
Prerequisite(s): JRN 101.
Offered: Fall, Spring.

JRN 186 Writing for the Web
3 cr. hrs. 3 periods (lec.)
Introduction to techniques for writing on the World Wide Web. Includes Web technology; adding photos, graphics, video, audio, hypertext and hypermedia; and linear and nonlinear writing forms. Also includes media law and journalistic ethics.
Prerequisite(s): JRN 101.
Offered: Fall.

JRN 235 Writing/Reporting for Broadcast Journalism
3 cr. hrs. 3 periods (lec.)
Introduction to news writing and reporting for television and radio. Includes broadcast news, formats, terminology and readability; shifting from print to broadcast writing; broadcast copy, news gathering and reporting; and reporting assignments and coverage. Also includes writing for radio and television newscasts; short and long packages for radio and television; live shots; breaking news coverage; influence of the Web and new distribution sources; basic video and audio editing; and broadcast law and ethics.
Prerequisite(s): JRN 101.
Recommendation: Completion of JRN 102 before enrolling in this course or concurrent enrollment.
Offered: May not be offered this year, check class schedule.

JRN 240 Editing, Layout, and Design
3 cr. hrs. 3 periods (lec.)
Principles of news editing, layout, and design. Includes hands-on copy editing, fact-checking, proofreading, electronic page layout, typography, design, headline and caption writing, as well as, legal and professional responsibilities. Also includes grammar, language, and Associated Press style.
Prerequisite(s): JRN 101.
Offered: May not be offered this year, check class schedule.

JRN 260 Magazine and Feature Writing
3 cr. hrs. 3 periods (lec.)
Writing newspaper and magazine feature articles for publication. Includes types of features, generating story ideas, guidelines for research, interviewing and writing; composing query letters, and submitting feature stories for publication.
Prerequisite(s): JRN 101.
Offered: Fall, Spring.

JRN 280 Photojournalism
3 cr. hrs. 3 periods (lec.)
Practical applications of photographic skills to communicate news stories and document life. Includes basic camera operations, multimedia, digital imaging, and editing software, as well as, ethical and legal considerations. Also includes analysis of visual images, composition, technical concepts, cropping and sizing, layout of photo essays, video editing, and writing captions.
Information: Access to a digital camera is required.
Offered: Fall, Spring.

JRN 285 Advanced News Publication
3 cr. hrs. 3 periods (lec.)
Advanced work on print and online publication of the College's biweekly student newspaper. Includes advanced reporting, copy editing, photography, multimedia production, page design and newsroom management. Also includes legal and ethical considerations.
Prerequisite(s): JRN 185
Offered: Fall, Spring.
JRN 290 Journalism Internship
1-5 cr. hrs. 5-25 periods (5-25 lab)
Volunteer internship work experience at an approved site in the journalism field. Includes hands-on work experience, interpersonal communication, learning objectives and progress, and journalism internship assessment.
Prerequisite(s): JRN 101.
Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twenty credit hours.
Offered: Fall, Spring, Summer.

Korean
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

KOR 101 Elementary Korean I
4 cr. hrs. 4 periods (4 lec.)
Introduction to Korean. Includes basic oral and written Korean language forms, basic Korean grammatical structures, reading simple text, and Korean cultures and traditions.
Offered: Fall.

KOR 102 Elementary Korean II
4 cr. hrs. 4 periods (4 lec.)
Continuation of KOR 101. Includes additional phonetics in the Korean language, additional grammatical structures, reading additional simple text, and additional Korean culture and traditions.
Prerequisite(s): KOR 101.
Offered: Spring.

Landscape Technician
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LTP 119 Plants for Landscape Design
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of plant identification and usage. Includes environmental influences, landscape design basic principles, planting and plant care, plant taxonomy, general and specific applications for plants, and plant selection.
Offered: Spring.

LTP 129 Landscape Design
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of landscape design. Includes determination of project requirements, site analysis, measuring, design principles, preliminary design, landscape plan drawing, and development of a practice project and final project.
Offered: Fall.

LTP 140 Landscape Sustainability and Water Harvesting
3 cr. hrs. 3 periods (3 lec.)
Principles and strategies for sustainability in landscapes. Includes environmental impacts, techniques in water harvesting, environmental pollution, and the protection and maintenance of natural systems.
Offered: Fall.
Latin

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LAT 101 Elementary Latin I
4 cr. hrs. 4 periods (4 lec.)
Introduction to the Latin language through reading and composition. Includes all regular verb tenses in active voice; future perfect and pluperfect tenses in passive voice; the irregular verbs sum, possum, eo, volo, nolo, fero; all five noun declensions; all classes of adjective declensions; present infinitives; commands and questions; adverbs; pronouns: personal, demonstrative, reflexive, and relative pronouns; subordinate clauses; expressions of time and place; numerals; participles: present, perfect passive, and future active; and topics in ancient Roman history and culture.
Offered: Fall.

LAT 102 Elementary Latin II
4 cr. hrs. 4 periods (4 lec.)
Continuation of LAT 101. Comparative study of English and Latin grammar. Includes emphasis on analytical thinking, memorization, and familiarization with new terminology. Also includes translation to English from original works in Latin and from English to Latin, and topics in ancient Roman history and culture.
Prerequisite(s): LAT 101.
Offered: Spring.

Law Enforcement Academy

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LEA 110 Law Enforcement Academy Part I
24 cr. hrs. 24 periods (24 lec.)
Development of basic concepts, techniques, and applications utilized in law enforcement. Includes an introduction to ethics and leadership, law and legal matters, multicultural issues, as well as community and police relations. Also includes academic and proficiency skill standards required of law enforcement personnel as defined by the Arizona Peace Officer Standards and Training Board (AZ POST).
Information: Admission to the Law Enforcement Program is restricted and requires completion of program specific application. Please contact the Public Safety and Emergency Services Institute for enrollment information and assistance.

LEA 210 Law Enforcement Academy Part II
23 cr. hrs. 23 periods (23 lec.)
Continuation of LEA 110. Includes increased proficiency of concepts, techniques, and applications utilized in law enforcement, academic and proficiency skills, effective police testimony techniques, review of the United States Constitution, Arizona Revised Statutes (ARS) Title 13, and common civil and criminal liability facing law enforcement agencies and officers. Also includes academic and proficiency skill standards required of law enforcement personnel as defined by the Arizona Peace Officer Standards and Training Board (AZ POST).
Prerequisite(s): LEA 110.

Library and Information Sciences

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LIS 150 Social Media and Ourselves
3 cr. hrs. 3 periods (3 lec.)
Distinguish how social media sites are influenced and impacted by users, as well as the role of social media in interpersonal relationships. Includes a focus on social media sites and the various implications and functions of social media in contemporary times. Also includes the study of new media taking place across disciplinary divides and from multiple theoretical perspectives.
Offered: Fall, Spring, Summer.
Literature

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LIT 124 Introduction to Writers of the Southwest
3 cr. hrs. 3 periods (3 lec.)
Introduction to reading Mexican-American/Chicano, American Indian, and Anglo writers of the Southwest. Includes short stories, novels, poetry, and creative non-fiction. Also includes relevant comparisons of social, political, and environmental themes in different cultures.

*Information: Students do not need to have a writing prerequisite.
Offered: May not be offered this year, check class schedule.

LIT 224 Southwestern Literature
3 cr. hrs. 3 periods (3 lec.)
Reading of Mexican-American/Chicano, American Indian, and Anglo writers of the Southwest. Includes short stories, novels, poetry, and creative non-fiction. Also includes relevant comparisons of social, political, and environmental themes in different cultures.

Offered: May not be offered this year, check class schedule.

LIT 225 Science Fiction Literature
3 cr. hrs. 3 periods (3 lec.)
Survey of science fiction work from the nineteenth through the twenty-first centuries in a variety of forms and media. Includes the development and components of the genre, its subgenres, and critical analysis of science fiction literary works. Also includes the role of technology and social issues in science fiction.

Offered: Summer.

LIT 226 Fantasy Literature: The Epic
3 cr. hrs. 3 periods (3 lec.)
Survey of fantasy literature in a variety of and media emphasizing the epic tradition. Includes the development and components of the fantasy epic and critical analysis of fantasy epic literary works. Also includes the role of mythology and archetypes in the formation of such works.

*Prerequisite(s): WRT 102 or 108.
Offered: May not be offered this year, check class schedule.

LIT 231 Introduction to Shakespeare
3 cr. hrs. 3 periods (3 lec.)
Investigation of a number of Shakespeare's major works. Includes sonnets, comedies, histories, and tragedies. Also includes history, social and cultural conditions, literary background, staging, and writing.

*Prerequisite(s): WRT 102 or 108.
Offered: Spring.

LIT 240 American Literature of Opposition
3 cr. hrs. 3 periods (3 lec.)
Protest and anti-establishment literature of the nineteenth and twentieth centuries in a variety of genres and media. Includes oppositional works from across the political and cultural spectrums. Also includes essay writing and critical thinking. May include contemporary Internet and alternative media.

*Prerequisite(s): WRT 102 or 108.
Offered: May not be offered this year, check class schedule.

LIT 261 Modern Literature
3 cr. hrs. 3 periods (3 lec.)
Critical analysis of literature of the modern period and from a variety of nations and cultures. Includes analyzing literary texts for meaning and form, understanding the contexts of literature, and writing about literature. Also includes selections from various literary genres, which may include fiction, drama, and poetry, as well as other literary forms.

*Prerequisite(s): WRT 102 or 108.
Offered: Fall, Spring, Summer
LIT 262 American Poets
3 cr. hrs. 3 periods (3 lec.)
Study of the voices and visions of American poets. Includes American poetic visions, distinct styles and voices of poets, and writing assignments.
Prerequisite(s): WRT 102 or 108.
Offered: May not be offered this year, check class schedule.

LIT 263 Postmodern Literature
3 cr. hrs. 3 periods (3 lec.)
Examination of postmodern literary works and voices from the United States, South America, Europe, and a variety of other nations and cultures. Includes analysis of the literature and context of the postmodern period (1945 to the present) with a focus on social and historical influences including technology, mass communication, globalization, politics, protest, and war. Also includes exploration of conventional genres and newer emerging forms, such as metafiction, magic realism, language poetry, and hypertext.
Prerequisite(s): WRT 102 or 108.
Offered: May not be offered this year, check class schedule.

LIT 265 Major American Writers
3 cr. hrs. 3 periods (3 lec.)
Survey of selected works by major American authors from the colonial period to the present. Includes extensive writing and reading and emphasizes relating works to their social and historical contexts. Also includes analysis of literary texts of various genres, such as poetry, drama and fiction, for meaning and form.
Prerequisite(s): WRT 102 or 108.
Offered: Fall, Spring.

LIT 267 World Literature: Narrative
3 cr. hrs. 3 periods (3 lec.)
Multicultural readings of great narrative works of western literary tradition. Includes an introduction to narrative literature and works from major periods, such as ancient, classical, renaissance, and romantic, up to and including present. Also includes comparisons of form and theme to works from diverse cultural traditions, and an emphasis on verbal and written analysis of cultural and historical significance.
Prerequisite(s): WRT 102 or 108.
Offered: May not be offered this year, check class schedule.

LIT 280 Introduction to Literature
3 cr. hrs. 3 periods (3 lec.)
Critical analysis of literature from a variety of nations and cultures. Includes analyzing literary texts for meaning and form, understanding the contexts of literature, and writing about literature. Also includes selections from various literary genres, which may include fiction, drama, and poetry, as well as other literary forms.
Prerequisite(s): WRT 102 or WRT 108.
Offered: Spring.

LIT 289 Literature and Film
3 cr. hrs. 3 periods (3 lec.)
Criticism of film's dramatic forms, elements and genres. Includes development of film as an art form, comparative approaches to literature and film, performed drama, critical analysis and film production personnel.
Prerequisite(s): WRT 102 or 108.
Offered: Fall, Spring.

Logistics & Supply Chain Management
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

LGM 101 Principles of Logistics and Supply Chain Management
3 cr. hrs. 3 periods (3 lec.)
Introduction to the field of logistics and supply chain management. Includes development of logistics systems, careers in logistics, distribution planning, supply chain security, and customer service. Also includes roles and functions of: purchasing, inventory control, physical distribution, warehousing, transportation methods, packaging, and customs.
Offered: Fall, Spring.
LGM 102 Inventory Control  
3 cr. hrs. 3 periods (3 lec.)
A study of inventory control concepts and techniques. Includes, cost concepts, determining size and nature of inventory, forecasting, and inventory planning and control. Also includes ordering methods, controlling pilferage, and matching customer demand with supply.
Offered: Spring.

LGM 103 Contracts and Freight Claims  
3 cr. hrs. 3 periods (3 lec.)
A study of the considerations involved in the drafting and negotiation of freight and logistics contracts, and of loss avoidance and mitigation in transit. Includes legal and regulatory requirements applicable to contracts for product transportation, and logistics functions and considerations for drafting and negotiating contracts with freight carriers, warehousemen and other logistics service providers. Also includes customer satisfaction, claim preparation, filing procedures, and claim dispute resolution.
Offered: Spring.

LGM 104 Computerized Logistics  
3 cr. hrs. 4 periods (2 lec., 2 lab)
Analysis of the use of computers in the logistics industry and an introduction to available logistics software. Includes the need for computers, the history and future of computers in the logistics industry, and the impact of computers on customer service. Also includes logistics software availability, selection and implementation, and security measures.
Offered: Spring.

LGM 105 Warehouse Management  
3 cr. hrs. 3 periods (3 lec.)
Survey of warehouse function, process, organization and operations. Includes analysis of warehouse location, operation, and management. Also includes controls and procedures, financial analysis, security, cargo/materials handling, and productivity.
Offered: Fall.

LGM 106 Transportation and Traffic Management  
3 cr. hrs. 3 periods (3 lec.)
A study of the domestic freight transportation system. Includes demand for freight movement, laws, regulations, pricing, and policies. Also includes traffic management, customer service, security, and international transportation issues.
Offered: Fall.

LGM 107 Introduction to Purchasing  
3 cr. hrs. 3 periods (3 lec.)
Survey of basic purchasing functions. Includes establishing requirements and quantities, developing policies and procedures for purchasing, making purchasing decisions, receiving acceptable goods, arranging packaging and shipping, and managing inventory levels.
Offered: Fall.

LGM 108 International Logistics  
3 cr. hrs. 3 periods (3 lec.)
An introduction to the role of logistics in global business. Includes the economic and service characteristics of international transportation providers, the government's role, documentation and terms of sale used in global business, and the fundamentals of effective export and import management.
Offered: Spring.

LGM 109 Readiness Skills for Logistics Careers  
1 cr. hrs. 1 periods (1 lec.)
Development of career and learning goals. Includes learning and the world of work, careers in Logistics, and skill development in context. Also includes a focus on the common requirements of all jobs, the skills basic to employment success, and the formal and informal learning necessary for career advancement.
Offered: Spring.
LGM 190 Logistics and Supply Chain Internship
3 cr. hrs. 11 periods (1 lec., 10 lab)
Culmination of logistics program. Includes guidelines and procedures for workplace learning, application of learned concepts on the job. Also includes initiation, management, and completion of capstone project.
*Information: Consent of instructor is required before enrolling in this course.*
*Students must complete 125 hours at a program-approved employer worksite.*
Offered: Fall, Spring, Summer.

LGM 196 Independent Study in Logistics and Supply Chain Management
3 cr. hrs. 3 periods (3 lec.)
Independent study projects or applied special interest projects in logistics and supply chain management under the supervision of a faculty member.
*Prerequisite(s): LGM 101 and LGM 105, 106, or 107.*
*Information: Consent of instructor is required before enrolling in this course.*
Offered: Fall, Spring, Summer.

---

**Machine Tool Technology**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MAC 100 Introduction to Machine Tool
3 cr. hrs. 3 periods (3 lec.)
Principles and procedures for basic machine tool operations. Includes careers in manufacturing, machine tool history, safety, materials, manufacturing process planning, measurement, layout tools and procedures, principles of metal cutting, bench and hand tools, power saws, drill presses, and abrasive machine.
Offered: Fall, Spring, Summer.

MAC 110 Manual Machine Shop
4 cr. hrs. 6 periods (2 lec., 4 lab)
Introduction to basic machine shop practices. Includes safety, lathes, vertical milling machines, and grinding machines.
*Prerequisite(s): MAC 100.*
*Information: Prerequisite maybe waived with a score of 80% or better on the Machine Tool assessment test. See a machine tool instructor or advisor for prerequisite information.*
Offered: Fall, Spring, Summer.

MAC 120 Machine Shop II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of MAC 110. Includes a more in depth application of safety, lathes, milling machines, and grinding machines.
*Prerequisite(s): MAC 110 or equivalent with department advisor approval.*
Offered: Spring, Summer.

MAC 125 Mechanical Inspection
4 cr. hrs. 6 periods (2 lec., 4 lab)
Principles and applications of dimensional measurement. Includes line graduated measuring instruments, fixed gages, gauge blocks, comparative measurements, optical comparators and projectors, angle measurement, straightness, flatness, and perpendicularity measurement, and coordinated measuring machines.
*Prerequisite(s): GTM 105 and MAC 110.*
*Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.*
Offered: Fall, Spring.

MAC 130 Machine Setup and Fixture Making
3 cr. hrs. 5 periods (1 lec., 4 lab)
Concepts, techniques, and skills in machine setup. Includes how to translate blueprints into fixture making; the application of machine setup; and the making of fixtures.
*Prerequisite(s): MAC 110.*
*Information: Prerequisite may be waived with industry experience. See a machine tool faculty instructor for prerequisite information.*
Offered: Fall, Spring.
MAC 140 Introduction to Electrical Discharge Machining
4 cr. hrs. 6 periods (2 lec., 4 lab)
Application of electrical discharge machining (EDM) in industry today. Includes overview of EDM, EDM machines and processes, spark generation and dielectric fluids, electrodes, and surface finishes.
Prerequisite(s): MAC 110.
Information: Prerequisite maybe waived with Industry experience. See a machine tool instructor for prerequisite information.
Offered: Fall.

MAC 150 Computer Numerical Control (CNC) Mill Programming I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Operations and procedures for automated machining systems. Includes Numerical Control (NC) and Computer Numerical Control (CNC) machining system, positioning and coordinate systems used in NC/CNC programming, part programming, diagnosis and correction of programming errors, and programming procedures.
Prerequisite(s): GTM 105 and MAC 110.
Recommendation: Completion of CAD 101 before enrolling in this course.
Information: Industry experience may be substituted for prerequisite requirements. See a machine tool instructor for prerequisite information.
Offered: Fall, Spring, Summer.

MAC 155 Computer Numerical Control (CNC) Mill Programming II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of MAC 150. Includes review of Computer Numerical Control (CNC), mill programming, diagnosis and correction of programming errors, advanced programming techniques used in production and prototype machining, introduction to lathe programming, and introduction to sub-programming.
Prerequisite(s): MAC 150.
Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.
Offered: Fall, Spring.

MAC 160 Computer Numerical Control (CNC) Lathe Programming
4 cr. hrs. 6 periods (2 lec., 4 lab)
Operations and procedures for Computer Numerical Control (CNC) Lathe. Includes review of CNC concepts and programming, diagnosis and correction of programming errors, advanced programming for CNC Lathes, and introduction to Computer Aided Manufacturing (CAM) programs.
Prerequisite(s): GTM 105 and MAC 150.
Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.
Offered: Fall, Spring.

MAC 245 Wire Electrical Discharge Machining and Programming I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Operations and procedures for EDM machining system. Includes wire EDM overview, EDM operating processes, EDM machine functions, EDM manual part programming, and EDM machining operations.
Prerequisite(s): MAC 140 and 150.
Offered: Spring.

MAC 257 Computer Aided Machining (CAM) I
4 cr. hrs. 6 periods (2 lec., 4 lab)
Programming automated machine tools using Computer Aided Manufacturing (Mastercam) software. Includes review of Computer Numerical Control (CNC) and Computer Aided Drafting (CAD), introduction to a CAM environment, creating geometry, operating manager, and code generation.
Prerequisite(s): MAC 155.
Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.
Offered: Fall, Spring.

MAC 258 Computer Aided Machining (CAM) II
4 cr. hrs. 6 periods (2 lec., 4 lab)
Continuation of MAC 257. Includes profile surface, 3D surfaces, editing surfaces and preparing geometry for wire part.
Prerequisite(s): MAC 257.
Offered: Spring.
MAC 259 Computer Aided Machining (CAM) III: Solid Modeling
4 cr. hrs. 7 periods (1 lec., 6 lab)
Continuation of MAC 258. Includes profile surfaces of tool path, solid model features in three-dimension (3-D), and editing solid model surfaces.
Prerequisite(s): MAC 258.
Offered: May not be offered this year, check class schedule.

MAC 275 Applied Metallurgy
4 cr. hrs. 6 periods (2 lec., 4 lab)
Application of metallurgical concepts, procedures, and testing. Includes materials, alloy classification systems, industrial and manufacturing concepts, properties and testing, and industrial and manufacturing processes and applications.
Offered: Fall, Spring.

MAC 296 Machine Tool Independent Projects
1-4 cr. hrs. 3-12 periods (3-12 lab)
Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.
Information: May be taken sixteen times for a maximum of sixteen credit hours.
Consent of instructor must be obtained before enrolling in this course.
Offered: Fall, Spring.

Management
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

MGT 110 Human Relations in Business and Industry
3 cr. hrs. 3 periods (3 lec.)
Examination of human relations as it relates to business and industry. Includes the roles of the employees, supervisors, and management. Also includes management concepts and functions, communication, leadership, managing change and stress, human motivation, creativity, diversity and culture, and decision making.
Offered: Fall, Spring, Summer.

MGT 122 Supervision
3 cr. hrs. 3 periods (3 lec.)
Theories and concepts of supervision. Includes the role of the supervisor, management concepts and functions, communication, managing change and stress, human motivation, building relationships, supervision of groups, leadership and management styles, selection, orientation, training, appraisal, and discipline. Also includes complaints, grievances, working with the union, security, safety, and health at work.
Recommendation: It is recommended that students complete MGT 110 before enrolling in this course.
Information: This course consists of study and application. The student will first review all of the major concepts in supervision. The student will then utilize all of the major concepts presented to examine and evaluate a series of case studies. At the end of the course, a final and cumulative case study will be evaluated.
Offered: Fall, Spring, Summer.

MGT 124 Small Business Management
3 cr. hrs. 3 periods (3 lec.)
Analysis of the practical problems of organizing, managing and starting a small business. Includes introduction and overview, selecting employees, forms of ownership, managing the business, business plan, pricing, managing cash flow, creating sales forecast, income statements, breakeven analysis, source of funds, international operations, contract, risk, and international opportunities.
Offered: Fall, Spring, Summer.
MGT 130 Retail Analysis
3 cr. hrs. 3 periods (3 lec.)
Overview of retail analysis that emphasizes the financial performance and standards used within the retailing industry. Includes the fundamentals of business analysis and managing the company's strategic service direction with a focus on the company's business model and its strategic performance. Also includes customer/supplier interactions, quality indicators, cash and profit, fundamentals of business analysis, financial literacy and transparency signs, and service quality benchmarking process.
Recommendation: Completion of ACC 211 and MKT 139 before enrolling in this class.
Offered: Spring.

MGT 230 Dynamics of Leadership
3 cr. hrs. 3 periods (3 lec.)
Overview of the theoretical and applied foundations of leadership. The theoretical component includes the historical and contemporary theories and models of leadership, effective followership, multiculturalism, and ethics. The applied component includes the importance and use of vision and mission, inclusive leadership practices, responding to change, developing a personal philosophy of leadership, and creating a personal profile of strengths and assets. Communication and facilitation skills will be practiced with the completion of a leadership project.
Information: Same as STU 230.
Offered: Fall, Spring.

MGT 270 Computer Applications for Managers
3 cr. hrs. 3 periods (3 lec.)
Development of management skills in computer applications for business. Includes state of computing technology, electronic commerce and the economy, international issues, work and the virtual workplace, project management, and presentations.
Recommendation: Completion of CIS/CSA 104 Computer Fundamentals or proficiency with Microsoft Office software before enrolling in this course.
Offered: Fall, Spring.

MGT 276 Human Resources
3 cr. hrs. 3 periods (3 lec.)
Practical aspects of personnel management and support. Includes roles and concepts, acquiring human resources, administering the personnel program, developing employee potential, employee retention, equal employment opportunities, staffing and training, labor relations, and future outlook for personnel management.
Recommendation: Completion of BUS 100 before enrolling in this course.
Offered: Fall, Spring.

MGT 280 Business Organization and Management
3 cr. hrs. 3 periods (3 lec.)
Overview of the functions performed and issues faced by managers in business. Includes managers and management, the managerial environment, planning and decision support systems, project management, managerial control, and leadership. Also includes motivation and performance, control, and creating and sustaining high performance teams.
Recommendation: Completion of BUS 100 and any other MGT course before enrolling in this course.
Offered: Fall, Spring, Summer.

Marketing
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MKT 100 Customer Service Skills
3 cr. hrs. 3 periods (3 lec.)
Overview of the behavior exhibited by successful customer service professionals featuring simulated business settings. Includes conventional behaviors of the workplace, professional communication in the customer service setting, grooming and clothing for a business setting, telephone and email service, effective answers to sales questions, punctuality and the work ethic, professionalism in the workplace, basic qualitative activities, behavior with co-workers, customer service challenges, exceptional customer service, and career advancement strategies in customer service.
Offered: Fall, Spring.
MKT 105 Retail Math
3 cr. hrs. 3 periods (3 lec.)
Develop merchandising and purchasing policies, procedures, concepts, practices and formulas used in retailing with an emphasis on retail mathematics. Includes how to apply a six-month stock and sales plan setting for retail business.
Prerequisite(s): Within the last three years: MAT 086 with a C or better or MAT 089 through module 15 or required score on the mathematics assessment test.
Offered: Fall, Spring.

MKT 111 Principles of Marketing
3 cr. hrs. 3 periods (3 lec.)
Introduction to marketing principles and strategies. Includes developing a preliminary marketing plan, product strategy, pricing strategy, distribution of products/services, promotional strategies, relating the classification of consumer goods with the elements of the marketing mix, and the global marketplace.
Offered: Fall, Spring, Summer.

MKT 113 Salesmanship
3 cr. hrs. 3 periods (3 lec.)
Basic principles and techniques of selling and their practical application. Includes selling as a profession, preparation for relationship selling, the selling process, and planning and managing a sales territory.
Offered: Spring.

MKT 125 Advertising
3 cr. hrs. 3 periods (3 lec.)
Advertising principles and concepts as applied in a business setting. Includes advertising perspectives, developing marketing and advertising strategies, creating advertisements and commercials, and advertising media mix.
Offered: Fall.

MKT 139 Retailing
3 cr. hrs. 3 periods (3 lec.)
Business activities of selling goods and services to final customers. Includes overview of the industry of retailing, environmental framework, consumer demographics and behavior, retail outlet characteristics, the retailing mix, retail information and control systems, the changing nature of retailing, and retailing careers.
Offered: Fall.

MKT 140 Fashion Merchandising
3 cr. hrs. 3 periods (3 lec.)
Overview of enterprises involved in clothing and accessories. Includes design, production, and sourcing of fashion; marketing, distribution, and the fashion consumer; different silhouettes of apparel and textile characteristics, methods of research for retailing, careers in fashion merchandising, and case studies. Also includes a managerial perspective on apparel product quality and profit in a retail setting.
Offered: Fall, Spring.

MKT 196 Independent Study in Marketing and Business
.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)
Student independently continue their studies in Marketing and Business under the supervision of a faculty member.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of nine credit hours.
Offered: May not be offered this year, check class schedule.

MKT 240 Fashion Merchandising Planning and Control
3 cr. hrs. 3 periods (3 lec.)
Survey of analytical skills for the process of merchandising. Includes evaluation of merchandise in clothing sales, merchandise planning, developing the presentation of apparel lines, and finalizing apparel lines through merchandising and budget review. Also includes the application of Web PDM.
Prerequisite(s): MKT 140.
Offered: Spring.
MKT 290 Apparel Merchandising Internship
3 cr. hrs. 15 periods (15 lab)
Volunteer apparel merchandising field experience at an approved work site. Includes development of a business plan, retail strategies, internship goals and evaluation, and report of day-to-day operations.
Prerequisite(s): MKT 240.
Information: Enrollment and placement contingent upon earned grade point average for students in their final semester of the Apparel Merchandising program. Application and acceptance required.
Offered: Fall.

Mathematics
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MAT 082 Basic Mathematics
3 cr. hrs. 3 periods (3 lec.)
Fundamentals and applications of arithmetic. Includes operations on whole numbers, fractions, decimal numbers, ratio and proportion, percent, and measurement.
Offered: Fall, Spring, Summer.

MAT 086 Prealgebra
3 cr. hrs. 3 periods (3 lec.)
Transition from arithmetic to algebra. Includes signed numbers, commutative, associative, and distributive laws, order of operations, algebraic expressions, polynomials, fractions, and linear equations. Also includes percent’s, ratio and proportion, graphing, perimeter, area, volume, and optional topics.
Prerequisite(s): Within the last three years: MAT 082 with a C or better or required score on the Mathematics assessment test.
Information: Access to a scanner required for Math class taken online.
Offered: Fall, Spring, Summer.

MAT 089 Foundational Studies in Mathematics
3 cr. hrs. 3 periods (3 lec.)
Fundamentals and applications of basic math, elementary algebra, and intermediate algebra.
Information: The course content is offered in 35 modules which are computer delivered in a structured, individualized learning environment with on-demand instruction assistance.
Attendance at regularly scheduled classes is required.
The course may be taken four times for a maximum of twelve credit hours. Most students will take this course more than once.
To earn a passing grade, students must successfully complete a minimum of 9 modules.
Upon successful completion of module 35, a student’s enrollment is converted to and credit is received for Mat 122Z.
Offered: Fall, Spring, Summer.

MAT 092 Elementary Algebra
3 cr. hrs. 3 periods (3 lec.)
Introduction to basic algebra. Includes translating written statements into algebraic expressions, linear equations, linear inequalities, graphing, integer exponents, and polynomials. Also includes factoring, simple rational expressions, square roots, quadratic equations, and optional topics.
Prerequisite(s): Within the last three years: MAT 086 with a grade of C or better, completion of module 22 in MAT 089, or satisfactory score on the mathematics assessment test.
Offered: Fall, Spring, Summer.

MAT 106 Elementary Data Analysis with Spreadsheets
2 cr. hrs. 2 periods (2 lec.)
Introduction to statistics. Includes the collection and presentation of data, statistical measures, algebra topics, Excel topics, and data analysis topics.
Prerequisite(s): Within the last three years: MAT 086 with a C or better or MAT 089 through Module 15 or required score on the mathematics assessment test.
Offered: Fall, Spring, Summer.
MAT 108 Practical Geometry and Trigonometry
2 cr. hrs. 2 periods (2 lec.)
Fundamentals of geometry and trigonometry with applications. Includes basic geometric properties, properties of triangles, Pythagorean Theorem and special triangles, polygons, circles, volumes, radian measure, trigonometric functions, and oblique triangles.
Prerequisite(s): Within the last three years: MAT 086 with a C or better or MAT 089 through Module 15 or satisfactory score on the mathematics assessment test.
Offered: Spring.

MAT 122 Intermediate Algebra
3 cr. hrs. 3 periods (3 lec.)
Basic algebraic functions. Includes lines in the plane, systems of linear equations, inequalities, absolute value, polynomials, rational expressions and equations, and radical expressions and equations. Also includes quadratic equations, literal equations, exponents and logarithms, functions, and optional topics.
Prerequisite(s): Within the last three years: C or better in MAT 092 or satisfactory score on the mathematics assessment exam.
Information: No more than 3 credit hours can be applied toward graduation for MAT 122, 122Z and/or 123.
Access to a scanner required for Math classes taken online.
Not a university level course.
Offered: Fall, Spring, Summer.

MAT 122Z Intermediate Algebra
3 cr. hrs. 3 periods (3 lec.)
Basic algebraic functions. Includes lines in the plane, systems of linear equations, inequalities, polynomials, rational expressions and equations, radical expressions and equations. Also includes quadratic equations, literal equations, exponents, logarithms, functions, and optional topics.
Information: Upon completion of all modules of MAT 089, students will have met all of the competencies of MAT122 and will receive credit equivalent to MAT 122Z.
No more than 3 credit hours can be applied toward graduation for MAT 122, 122Z, and/or 123.
Offered: May not be offered this year, check class schedule.

MAT 123 Pre-College Algebra
5 cr. hrs. 5 periods (5 lec.)
Basic and intermediate algebra concepts. Includes translating written statements into algebraic expressions, linear equations, linear inequalities, graphing, integer exponents, and polynomials. Also includes factoring, rational and radical expressions and equations, square roots, quadratic equations, functions, exponential and logarithmic expressions.
Prerequisite(s): Within the last three years: MAT 086 with a B or better or required score on the mathematics assessment exam.
Information: No more than 3 credit hours can be applied toward graduation for MAT 122, 122Z and/or 123.
Access to a scanner required for Math classes taken online.
Not a university level course.

MAT 142 Topics in College Mathematics
3 cr. hrs. 3 periods (3 lec.)
Survey of mathematical topics and applications. Includes application of mathematics to the social services, management science, growth, and probability and statistics.
Prerequisite(s): Within the last three years: MAT 086 with a B or better or required score on the mathematics assessment exam.
Offered: Fall, Spring, Summer.

MAT 145 Mathematics for Game Design
4 cr. hrs. 4 periods (4 lec.)
Survey of mathematical topics and applications as applied to game design. Includes 2D and 3D geometry, geometric symmetry, trigonometry, vectors, logic, probability, statistics, and problem solving.
Prerequisite(s): Within the last three years: MAT 122, 122Z or 123 with a C or better, or satisfactory score on the Mathematics assessment exam.
Offered: Spring.
MAT 146 Mathematics for Elementary Teachers I  
3 cr. hrs. 3 periods (3 lec.)  
An overview of mathematical concepts, principles and applications specifically for elementary teachers. Includes real number properties and patterns, arithmetic operations and algorithms in subsets of real numbers, alternative number systems, set theory, and algebraic reasoning and problem solving. Also includes the technology to teach mathematics.  
Prerequisite(s): Within the last three years: MAT 142 or 151 or higher with a C or better, or mathematics assessment into MAT 167 or higher.  
Information: Access to a scanner required for math classes taken online.  
Offered: Fall, Spring, Summer.

MAT 147 Mathematics for Elementary Teachers II  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of MAT 146. Includes measurement, basic geometry, probability, and statistics. Also includes the technology to teach mathematics.  
Prerequisite(s): Within the last three years: MAT 146 with a C or better.  
Information: Access to a scanner required for math classes taken online.  
Offered: Fall, Spring, Summer.

MAT 151 College Algebra  
4 cr. hrs. 4 periods (4 lec.)  
Introduction to college-level algebra. Includes functions, exponential and logarithmic functions, linear 2x 2 and higher systems, graphing, and calculator use. A graphing calculator is required.  
Prerequisite(s): Within the last three years: MAT 122, 122Z, or 123 with a C or better, or required score on the Mathematics assessment test.  
Information: Credit for only one course will be awarded to students completing MAT 151 and MAT 188. See course description or advisor to choose your best option.  
No more than 7 credits may be applied toward graduation from the following list of courses: MAT 151, 182, 187, 188, and 189.  
A graphing calculator is required. See your instructor for details.  
Access to a scanner required for math classes taken online.  
Offered: Fall, Spring, Summer.

MAT 167 Introductory Statistics  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to statistics. Includes the nature of statistics, quantitative data, probability, probability distributions and the central limit theorem. Also includes estimates for population parameters, hypothesis testing, correlation with regression, and additional topics with choices from chi square distribution, ANOVA and/or nonparametric methods.  
Prerequisite(s): Within the last three years: MAT 151 with a C or better, or required score on the Mathematics assessment test.  
Information: Use of a graphing calculator and/or computer programs may be required at the discretion of the instructor.  
Access to a scanner required for math classes taken online.  
Offered: Fall, Spring, Summer.

MAT 172 Finite Mathematics  
3 cr. hrs. 3 periods (3 lec.)  
Sampling of finite mathematics which includes mathematics of finance, linear business functions, systems of equations, matrices, geometric and simplex methods of solving linear programming problems, logic, sets, combinatorics, basic probability, probability distributions, and Markov chains.  
Prerequisite(s): Within the last three years: C or better in MAT 151 or satisfactory score on the mathematics assessment exam.  
Offered: Fall, Spring, Summer.
MAT 182 Trigonometry
3 cr. hrs. 3 periods (3 lec.)
Introduction to trigonometric functions. Includes graphs, identities, angle measure, vectors, polar coordinates, and conic sections.
Prerequisite(s): Within the last three years: MAT 151 with a C or better or required score on the Mathematics assessment test.
Information: This course will no longer be offered as of Spring 2016. Students currently enrolled in MAT 151 and needing to complete the precalculus sequence should do so prior to Spring 2016.
Credit for only one course will be awarded to student completing MAT 182 and MAT 189. See course description or advisor to choose your best option.
No more than 7 credits may be applied toward graduation from the following list of courses: MAT 151, 182, 187, 188, and 189.
A graphing calculator is required. See your instructor for details.
Offered: Fall, Spring, Summer.

MAT 188 Precalculus I
4 cr. hrs. 4 periods (4 lec.)
College-level algebra. Includes equations, algebraic and transcendental functions, inequalities, systems of equations, and calculator use. Also includes intensive preparation for analytic geometry and calculus.
Prerequisite(s): Within the last three years: MAT 122 with a C or better, or required score on the Mathematics assessment test.
Recommendation: This course is intended for students who plan to continue to Calculus.
Information: Credit for only one course will be awarded to students completing MAT 151 and MAT 188. See course description or advisor to choose your best option.
No more than 7 credits may be applied toward graduation from the following list of courses: MAT 151, 182, 187, 188, and 189.
A graphing calculator is required for this course and will be used extensively.
Offered: Fall, Spring, Summer.

MAT 189 Precalculus II
3 cr. hrs. 3 periods (3 lec.)
College-level trigonometry. Includes trigonometric functions, vectors, conic sections, sequences and series, and calculator use. Also includes intensive preparation for analytic geometry and calculus.
Prerequisite(s): Within the last three years: MAT 188 with a C or better, or satisfactory score on the mathematics assessment test.
Recommendation: This course is intended for students who plan to continue with Calculus.
Information: Credit for only one course will be awarded to students completing MAT 182 and MAT 189. See course description or advisor to choose your best option.
No more than 7 credits may be applied toward graduation from the following list of courses: MAT 151, 182, 187, 188, and 189.
A graphing calculator is required for this course and will be used extensively.
Offered: Fall, Spring, Summer.

MAT 212 Topics in Calculus
3 cr. hrs. 3 periods (3 lec.)
Introductory topics in differential and integral calculus to include limits, continuity, differentiation, and integration of functions with particular emphasis on business applications. Microsoft Excel and/or graphing calculators will be used as tools for further understanding of these concepts.
Prerequisite(s): Within the last three years: C or better in MAT 151 or satisfactory score on the mathematics assessment exam.
Information: A graphing calculator (technology) is required. See your instructor for details.
Offered: Fall, Spring, Summer.

MAT 220 Calculus I
5 cr. hrs. 5 periods (5 lec.)
Introduction to analytical geometry and calculus. Includes limits and continuity, derivatives, applications of the derivative, and integration.
Prerequisite(s): Within the last three years: MAT 187; or MAT 188, and 189 with a C or better; or required score on the Mathematics assessment exam.
Information: Students who have completed MAT 151 between Summer 2012 and Summer 2015 and MAT 182 between Fall 2012 and Fall 2015 will have met the prerequisite for MAT 220.
Offered: Fall, Spring, Summer.
MAT 227 Discrete Mathematics in Computer Science  
4 cr. hrs. 4 periods (4 lec.)  
Mathematical concepts applicable to computer science. Includes logic, set theory, counting techniques, proof techniques, relations and functions, binary relations, big-oh notation, mathematical induction, and recursion.  
**Prerequisite(s):** Within the last three years: MAT 220 or higher with a C or better.  
**Recommendation:** Completion of CIS 129 or programming experience is recommended prior to enrolling in this course.  
**Offered:** Fall.

MAT 231 Calculus II  
4 cr. hrs. 4 periods (4 lec.)  
Continuation of MAT 220. Includes techniques and applications of integration, numerical integration, improper integrals, separable integrals, separable differential equations, sequences, infinite series, and other related topics.  
**Prerequisite(s):** Within the last three years: MAT 220 with a C or better.  
**Offered:** Fall, Spring, Summer.

MAT 241 Calculus III  
4 cr. hrs. 4 periods (4 lec.)  
Continuation of MAT 231. Includes vectors in two and three dimensions, vector-valued functions, differentiation and integration of multivariable functions, and calculus of vector fields.  
**Prerequisite(s):** Within the last three years: MAT 231 with a C or better.  
**Offered:** Fall, Spring, Summer.

MAT 252 Introduction to Linear Algebra  
3 cr. hrs. 3 periods (3 lec.)  
**Prerequisite(s):** Within the last three years: MAT 231 with a C or better.  
**Offered:** Spring.

MAT 262 Differential Equations  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to differential equations. Includes first order differential equations, higher order differential equations, systems of linear differential equations, Laplace transforms, and approximating methods. Also includes applications.  
**Prerequisite(s):** Within the last three years: MAT 231 with a C or better.  
**Offered:** Fall, Spring, Summer.

MAT 296 Independent Studies in Mathematics  
1-4 cr. hrs. 1-4 periods (1-4 lec.)  
Independent studies and projects in mathematics. Content to be determined by conference between student and instructor.  
**Information:** Consent of a sponsoring instructor must be obtained before registering in this class.  
**Offered:** Fall, Spring.

Medical Assistant  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MDA 120 Medical Assistant Profession  
2 cr. hrs. 2 periods (2 lec.)  
Overview of current health care professions, including labor market information, health care delivery systems, and health care payment sources. Includes health organization structure, patient rights and quality care, ethics and behaviors in the workplace, legal issues in health care, and personal responsibility for health and safety. Also includes basic communication skills, teamwork facilitation, student success skills, and college resources for students.  
**Offered:** Contact department at 206-5100.
MDA 121 Medical Assistant Skills for Success  
2 cr. hrs. 2 periods (2 lec.)
Professional and personal success tools, skills, and resources for medical assistants. Includes exploration of career options, job search skills, and portfolio development. Also includes wellness and safety, critical thinking, time management, stress management, self-esteem, gender awareness, assertiveness training, and the investigation of useful community resources.  
Offered: Contact department at 206-5100.

MDA 122 Medical Assistant Clinical Care  
2 cr. hrs. 4 periods (1 lec., 3 lab)
Multi-discipline approach to patient care. Includes asepsis, phlebotomy, electrocardiograms, dressing care, specimen collection and handling, urinalysis, whole blood hematology, glucose monitoring, and cholesterol and coagulation testing. Also includes principles of medication with an emphasis on oral and parenteral routes of drug administration. Also includes legal and ethical standards, and compliance with Occupational Health and Safety Administration (OSHA) and Clinical Laboratory Improvement Amendments (CLIA) regulations.  
Offered: Contact department at 206-5100.

MDA 123 Medical Assistant Clinical Procedures  
3 cr. hrs. 5 periods (2 lec., 3 lab)
Principles and procedures for the medical assistant. Includes methods of assisting clinicians with physical examinations, procedures, treatments, and minor surgical procedures in the medical office. Also includes collecting vital signs; height, weight, and other patient data; and appropriate documentation for the completion of patient histories.  
Offered: Contact department at 206-5100.

MDA 124 Medical Terminology for Health Care Workers  
2 cr. hrs. 2 periods (2 lec.)
Medical terminology used in health care, including descriptors of special care populations and specialty services. Encompasses a body systems approach to terms as they relate to structures, functions, diseases, procedures, and diagnostic tests. Also encompasses medical abbreviations and symbols, spelling, and building and analyzing terms using word parts.  
Offered: Contact department at 206-5100.

MDA 125 Orientation to ICD-9 Coding  
3 cr. hrs. 5 periods (2 lec., 3 lab)
Orientation to the International Classification of Diseases - 9th Edition (ICD-9) coding classification system. Includes terminology, principles and components of the ICD-9 system, codes for diseases and conditions, coding from health records, and coding for the highest specificity.  
Recommendation: Completion of MDA 121 and 124 before enrolling in this course. Also a minimum of 25 words per minute word processing skills.  
Offered: Contact department at 206-5100.

MDA 126 Medical Billing and Insurance for Medical Assistants  
3 cr. hrs. 5 periods (2 lec., 3 lab)
Application of insurance, billing, and coding in the medical profession. Includes federal, state and private insurance claims; procedural and diagnostic coding; and banking and accounting principles. Also includes legal and ethical issues.  
Recommendation: Minimum of 25 words per minute word processing skills.  
Offered: Contact department at 206-5100.

MDA 127 Administrative Procedures for Medical Assistants  
3 cr. hrs. 5 periods (2 lec., 3 lab)
Principles and procedures for front office administration. Includes telephone policy and customer service, correspondence and mail processing, appointment scheduling, medical records management and data collection. Also includes an overview of the medical assistant as office manager.  
Offered: Contact department at 206-5100.

MDA 190A Medical Assistant Front Office Externship  
1 cr. hrs. 5 periods (5 lab)
Practicum in administrative medical assisting. Application of administrative duties, procedures, and knowledge derived from medical assisting courses.  
Prerequisite(s): HCA 119, MDA 120, 121, 124, 125, 126 and 127.  
Information: Permission of the program director is required to enroll in this course.  
Offered: Contact department at 206-5100.
MDA 190B Medical Assistant Back Office Externship
1 cr. hrs. 5 periods (5 lab)
Practicum in clinical medical assisting. Application of clinical skills, procedures, and knowledge derived from medical assisting courses.
Prerequisite(s): HCA 103, 119, MDA 120, 121, 122, 123 and 124.
Information: Permission of the program director is required to enroll in this course.
Offered: Contact department at 206-5100.

Medical Laboratory Technician

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MLT 101 Phlebotomy for Medical Laboratory Technology
3 cr. hrs. 5 periods (2 lec., 3 lab)
Theory and practice of basic phlebotomy techniques and procedures. Includes blood collection for patient care, quality assurance standards, medical terminology, anatomy, blood collection procedures, variables, computers and specimen processing, and point of care (POC) testing.
Prerequisites(s): BIO 156IN or 160IN or 201IN or 202IN.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Spring.

MLT 110 Techniques and Mathematics for the Laboratory
2 cr. hrs. 2 periods (2 lec.)
Introduction to the use of proper techniques and mathematical calculations in a laboratory setting. Includes safety, laboratory mathematics, and auxiliary equipment and instruments.
Prerequisite(s): MAT 092 (or required score on assessment test), and CHM 080 or 130 or placement into CHM 151.
Information: Same as BIO 110.
Offered: May not be offered this year, check class schedule.

MLT 199 Introductory Co-op: Phlebotomy Lab Assisting
1 cr. hrs. 1 periods (1 lec.)
Principles of job success. Includes laboratory workplace skills, communication skills, time and energy management, managing stress, career information, preparing for employment; principles, theories, and practices in the career field; and problems in the work situation.
Prerequisite(s): MLT 101.
Corequisite(s): MLT 199WK
Information: Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

MLT 199WK Introductory Co-op Work: Phlebotomy Lab Assisting
1.25 cr. hrs. 6.25 periods (6.25 lab)
A supervised cooperative work program for students in an occupation related area. Clinical coordinators work with students and their preceptors in a hospital, clinic laboratory, or outpatient collection station. The student develops competency and improved self-confidence when collecting and processing blood, urine or other body fluid samples in the laboratory workplace.
Prerequisite(s): MLT 101
Corequisite(s): MLT 199
Information: Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

MLT 200 Urinalysis/Body Fluids
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the fundamental clinical lab techniques of urine and body fluids. Includes collection, physical and chemical examination, microscopic examination, body fluids, and individual fluids.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Fall.
MLT 211 Hematology
5 cr. hrs. 7 periods (4 lec., 3 lab)
The study of red cells, white cells, and platelets looking at structure, formation, and the diseases associated with these cells. Includes types of blood cells, tests, normal and abnormal blood cells, maturation, disease states, hemoglobins, hemoglobinopathies, hemostasis, coagulation, fibrinolytic system, instrumentation, and quality controls and assurance.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Spring.

MLT 221 Clinical Chemistry
4 cr. hrs. 6 periods (3 lec., 3 lab)
Fundamentals of chemistry in a clinical setting. Includes chemical substances, instruments, laboratory procedures, blood and urine chemistry abnormalities, and laboratory instrument computers and information systems.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Spring.

MLT 231 Immunohematology/Immunology
5 cr. hrs. 7 periods (4 lec., 3 lab)
Introduction to basic immunology related to methods utilized in the clinical laboratory. Includes blood collection, blood components, immunology and complement, principles of seriological testing, genetics, blood group systems, antiglobulin testing, gel and solid phase testing, and identification of unexpected antibodies. Also includes neonatal and obstetrical transfusion practice, pre-transfusion compatibility testing, International Society of Blood Transfusion (ISBT) product labeling, adverse effects of blood transfusions, positive direct antiglobulin test (DAT), immune hemolysis, quality assurance, transplantation, and molecular testing.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Fall.

MLT 251 Clinical Microbiology
5 cr. hrs. 9 periods (3 lec., 6 lab)
Introduction to the structure, identification, and control of bacteria. Includes categories and classification of bacteria, ecology and spread of bacteria, pathogenesis of bacterial infections, clinical bacteriology methodology, various organisms, clinically significant anaerobic bacteria, methods in antimicrobial testing, mycobacteria, viruses and other microorganisms, and local disease processes.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Fall.

MLT 260 Parasitology and Immunology/Serology
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to the basics of mycology and parasitology host relationships and their effects. Includes fungi, medical parasitology, specimen collection, techniques for examination, special techniques, other specimens, detecting and diagnosis of parasitic infections, clinically important parasites, and immunology and seriological testing.
Information: Students must be admitted to the Medical Laboratory Technician program or obtain consent of instructor before enrolling in this course.
Offered: Spring.

MLT 299 Advanced Co-op: Medical Laboratory Technician
1 cr. hrs. 1 periods (1 lec.)
Comprehensive review of course work to prepare the student for national certifying examinations, provide a forum for discussion of current issues and technologies in clinical laboratory science, and augment the concurrent clinical experience. Students share their experience in the clinical area through discussion of topics of interest and presentation of case studies.
Prerequisite(s): MLT 101, 199/199WK, 200, 211, 221, 231, 251 and 260.
Corequisite(s): MLT 299WK
Information: Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring.
MLT 299WK Advanced Co-op Work: Medical Laboratory Technician
8 cr. hrs. 40 periods (40 lab)
A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors in a hospital or clinic laboratory. The student develops competency and improved self confidence in the laboratory workplace.
Prerequisite(s): MLT 101, 199/199WK, 200, 211, 221, 231, 251 and 260.
Corequisite(s): MLT 299
Information: Consent of instructor is required before enrolling in this course.
Offered: Fall, Spring, Summer.

Mexican-American Studies
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MAS 201 La Chicana
3 cr. hrs. 3 periods (3 lec.)
Interdisciplinary analysis of Chicanas/Mexicanas’ status in the United States. Includes Chicana/Mexicana scholarship and Social Justice Movements, and Chicana/Mexicana feminism in the Southwest, Chicana/Mexicana community empowerment, Chicanas/Mexicanas on the U.S.-Mexico border.
Information: Same as GWS 201.
Offered: May not be offered this year, check class schedule.

MAS 208 United States-Mexico Borderlands
3 cr. hrs. 3 periods (3 lec.)
Study of the U.S-Mexico borderlands. Includes a historical overview from the border’s origins in the U.S.-Mexico War and the Treaty of Guadalupe Hidalgo and a comprehensive review of the most significant events and issues of the mid-20th Century to the present. Also includes geography, sociodemographics, political economy, migration and transmigrants, media representations, U.S. border policies, enforcement and security/insecurity, violence and peace, gender and sexuality, U.S-Mexico relations, and popular culture.
Information: Same as ANT 208.
Offered: May not be offered this year, check class schedule.

MAS 265 Survey of Mexican-American Studies
3 cr. hrs. 3 periods (3 lec.)
Interdisciplinary analysis of current issues salient to the Chicana/o population in the United States. Includes analysis of Chicanas/os in the the U.S., Chicana/o and Mexican interdisciplinary scholarship and social justice movements, and Chicanas/os and Mexican migration to the U.S.
Offered: May not be offered this year, check class schedule.
Military – Reserve Officers Training Corps
Airforce, Army and Navy see ROTC.

Music

MUS 052 Introduction to Ear Training
2 cr. hrs. 2 periods (2 lec.)
Ear training for individuals with little or no musical background. Includes identification of keys on a piano keyboard and notes on the musical staff (treble and bass clef), visual and aural recognition of intervals, and dictation and performance of simple rhythmic patterns. Also includes sight singing of simple melodies, identifying major and minor key signatures and scales, singing of major and minor scales, and intervals. Also includes aural identification of individual pitches within major scales, and listening to short melodic figures and playing them back on keyboards.
Recommendation: Students considering music as a major are encouraged to take MUS 052 and 102 concurrently.
Offered: Fall.

MUS 055 Introduction to Piano (Non Major)
2 cr. hrs. 2 periods (2 lec.)
Basic principles and techniques of piano playing in a group situation. Includes study of major/minor scales and key signatures, chords, repertory pieces, technique and finger strength, and learning and practice methods. Also includes transposition of simple compositions, sight reading, and harmonizations of melodies.
Information: Designed for non-music majors.
Offered: Fall, Spring.

MUS 100 Guitar I
2 cr. hrs. 2 periods (2 lec.)
Development of the principles of guitar playing with emphasis on a variety of styles and guitar repertoire. Includes parts of the guitar, music symbols, tuning, playing position, right and left hand techniques, notes on the first through third strings, notes on the fourth string, thumb technique, chord strumming, and right-hand arpeggio patterns. Also includes notes on the fifth and sixth strings, sharps and flats, twelve (12) bar blues, right hand chord technique, and open position chords.
Offered: Fall, Spring.

MUS 101 Guitar II
2 cr. hrs. 2 periods (2 lec.)
Continuation of MUS 100. Includes more detailed development of guitar skills, musicianship, sight-reading, repertoire development, ensemble playing, and improvisation.
Prerequisite(s): MUS 100.
Information: Prerequisites may be waived with consent of instructor.
Offered: May not be offered this year, check class schedule.

MUS 102 Music Fundamentals
3 cr. hrs. 3 periods (3 lec.)
Introduction to fundamentals of music designed to develop basic literacy in music. Includes definitions, notation, rhythm and meter, intervals, scales and transposition, key signatures, and triads. Also includes specific size of intervals, chords and harmony, simple forms, and analyzing music.
Recommendation: Students considering music as a major are encouraged to concurrently enroll in MUS 052 and 102.
Offered: Fall.

MUS 103 Music Theory Review
1 cr. hrs. 1 periods (1 lec.)
Intensive review of music fundamentals. Includes clefs and basic pitch notation, scales, key signatures, intervals, and triads.
Information: May be taken three times for a maximum of three credit hours.
Offered: Fall, Spring.
MUS 108 Pima Jazz Band  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Rehearsal and performance of many styles of music in the jazz idiom. Includes progressive development of musical skills through interpretation of literature.  
Information: Students chosen by audition.  
May be taken ten times for a maximum of twenty credit hours, but a maximum of three credits will apply toward the AGEC.  
Offered: Fall, Spring.

MUS 111 Exploring Music through Piano  
3 cr. hrs. 3 periods (3 lec.)  
Keyboard application skills and music fundamentals. Includes keyboard orientation, tonality, piano proficiency, musical structure, musical texture, and style. Also includes global topics of arts in education and society and historical/stylistic trends through the evolution of keyboard instruments and composition.  
Offered: Fall, Spring.

MUS 116 Pima Community College Orchestra  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Progressive development of musical skills through interpretation of orchestra literature. Includes participation in regular rehearsals and performances.  
Information: Students chosen by audition.  
May be taken ten times for a maximum of twenty credit hours.  
Offered: Fall, Spring.

MUS 120 Concert Band  
3 cr. hrs. 7 periods (1 lec., 6 lab)  
Progressive development of musical skills through interpretation of literature. Includes participation in regular rehearsals and performances.  
Information: Students chosen by audition.  
May be taken ten times for a maximum of thirty credit hours.  
Offered: Fall, Spring.

MUS 125 Structure of Music I  
3 cr. hrs. 3 periods (3 lec.)  
Review of music fundamentals. Includes form and analysis, non-harmonic tones and harmonic analysis, simple keyboard-style harmony, figured bass, chord functions, voicing chords, voice leading, part-writing, and seventh chords. Also includes cadences, chords in second inversion, harmonic progression, secondary dominants, and chorale harmonizations.  
Information: Required for all other music structure courses. Students who are music majors take MUS 125 and 127 concurrently. Music majors must also concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.  
Offered: Fall, Spring.

MUS 126 Structure of Music II  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of MUS 125. Includes chromatic harmony and melody, secondary dominants and modulation, seventh and ninth chords, neapolitan and augmented sixth chords, and enharmonic relations. Also includes chromatic mediants and modulation, harmonic sequence, borrowed chords, and technical vocabulary.  
Prerequisite(s): MUS125  
Corequisite(s): MUS 129  
Offered: Spring, Summer.

MUS 127 Aural Perception I  
2 cr. hrs. 2 periods (2 lec.)  
Development of aural techniques. Includes rhythmic dictation, intervallic recognition, sight singing, and clapping and counting of rhythms.  
Offered: Fall, Spring.
MUS 129 Aural Perception II  
2 cr. hrs. 2 periods (2 lec.)  
Continuation of MUS 127. Includes aural approaches to diatonic harmony, melody, advanced rhythmic structures, advanced applications for rhythmic dictation, intervallic recognition, and general listening techniques.  
Corequisite(s): MUS 126  
Offered: Spring, Summer.

MUS 130 Chorale (SATB)  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Selected group of mixed voices for interpretation of a wide variety of styles of music in concerts throughout the academic year. Includes progressive development of musical skills through interpretation of literature.  
Information: May be taken ten times for a maximum of thirty credit hours.  
Offered: Fall, Spring.

MUS 131 College Singers (SATB)  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Small chorale ensemble. Includes repertory and performance throughout the academic year with the best literature from all styles and periods. Also includes progressive development of musical skills through interpretation of literature.  
Information: Students chosen by audition.  
May be taken ten times for a maximum of thirty credit hours.  
Offered: Fall, Spring.

MUS 136 Voice Class I  
2 cr. hrs. 2 periods (2 lec.)  
Practical training in basic skills and singing without specialization. Includes techniques, group singing, individual practice, and individual performance.  
Offered: Fall, Spring.

MUS 141 Piano Class I (Majors)  
2 cr. hrs. 2 periods (2 lec.)  
Beginning instruction employing group and individual techniques in an electronic lab situation. Includes scales, chords, repertoire, technique, practice habits, transposition of single-line melodies, and sight-reading.  
Offered: Fall, Spring.

MUS 142 Piano Class II (Majors)  
2 cr. hrs. 2 periods (2 lec.)  
Continuation of MUS 141. Incorporates intermediate piano instruction utilizing group and individual practice with electronic pianos. Includes scales, chords, harmonization of major and minor melodies with different accompaniment patterns, and transposition of short major and minor pieces. Also includes repertoire, continued technique and practice habits, and sight reading.  
Prerequisite(s): MUS 141.  
Offered: Fall, Spring.

MUS 143 Piano Class III (Majors)  
2 cr. hrs. 2 periods (2 lec.)  
Continuation of MUS 142. Incorporates intermediate piano instruction utilizing group and individual practice with electronic pianos. Includes scales, chords, arpeggios, harmonizations of major and minor pieces, transposition of pieces, repertoire pieces, technique and practice habits, sight reading, and score reading.  
Prerequisite(s): MUS 142.  
Offered: Spring, Summer.

MUS 144 Piano Class IV (Majors)  
2 cr. hrs. 2 periods (2 lec.)  
Continuation of MUS 143. Incorporates advanced piano instruction utilizing group and individual practice with electronic pianos. Includes scales, arpeggios, learning methods, technique building exercises, memory method, and advanced methods of practicing.  
Prerequisite(s): MUS 143.  
Offered: Spring.
MUS 148 Musical Theater Workshop  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Movement and singing to enhance projection and communication capabilities in musical theater. Includes exercise in stage movement, staging and memorization of scenes, performance and musical theater, and reevaluation and practice.  
Information: May be taken four times for a maximum of eight credit hours.  
Students chosen by audition.  
Offered: Fall, Spring.

MUS 149 Opera Workshop  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Introduction to the techniques of opera. Includes exercise in stage movement, musical preparation, staging and memorization of scenes, performance of opera, and reevaluation and practice.  
Information: May be taken four times for a maximum of eight credit hours.  
Student chosen by audition.  
Offered: Spring.

MUS 151 Exploring Music  
3 cr. hrs. 3 periods (3 lec.)  
Introduction to various historical musical styles. Includes elements of music, musical instruments, the Middle Ages, the Renaissance, the Baroque era, classics, and the Nineteenth and Twentieth centuries.  
Offered: Fall, Spring, Summer.

MUS 154 Jazz Improvisation  
2 cr. hrs. 2 periods (2 lec.)  
Study of jazz improvisation on various instruments. Includes rhythmic, melodic, and harmonic aspects of jazz styles. Also includes an emphasis on progressive development of musical skills through interpretation of literature.  
Information: Students chosen by audition.  
May be taken ten times for a maximum of twenty credit hours.  
Offered: Fall, Spring.

MUS 155 Introduction to Electronic Music I  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Introduction to producing music with Musical Instrument Digital Interface (MIDI) configurations and WAV sounds. Includes concepts in acoustics and music synthesis, use of hardware and software, music notation software, music sequencing software, and documentation of projects. Also includes computers, printers, and keyboard controller.  
Recommendation: Ability to read music before enrolling in this course.  
Offered: Fall, Spring.

MUS 156 Introduction to Electronic Music II  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Continuation of MUS 155. Includes song data entry from computer synthesizer keyboards, editor/library, and percussion writing.  
Prerequisite(s): MUS 155.  
Offered: Spring.

MUS 157 Music Industry I: Marketing, Merchandising and the Law  
3 cr. hrs. 3 periods (3 lec.)  
Operation, scope, and career opportunities in the music business. Includes music in the marketplace, professional songwriting and music composition, music copyright and publishing, business affairs in the music industry, and application of information.  
Offered: Fall.

MUS 158 Music Industry II: Music in Recording and Mass Media  
3 cr. hrs. 3 periods (3 lec.)  
Operation, scope, and career opportunities in the music business. Includes focus on the record industry, environmental music, uses of music in radio, telecommunications and film, and career options.  
Offered: Spring.
MUS 160 Popular Music in America
3 cr. hrs. 3 periods (3 lec.)
Study of the history of popular music culture in America through current trends in today's society. Includes background of music, sources of music, birth of music, syncopated song and dance, jazz, crooners and jazz singers, musical theater, country music, Latin music traditions, and roots of rock and roll. Also includes impact of technology, Motown and soul, rock in the seventies, and modern trends.
Offered: Fall, Spring, Summer.

MUS 201 History and Literature of Music I
3 cr. hrs. 3 periods (3 lec.)
Music history and literature from the ancient Greeks through the Baroque. Includes emphasis on specific works and composers as representative of the evolution of Western music.
Prerequisite(s): MUS 125 or concurrent enrollment.
Offered: Fall.

MUS 202 History and Literature of Music II
3 cr. hrs. 3 periods (3 lec.)
Music history and literature from Bach to the present. Includes emphasis on specific works and composers as representative of the evolution of Western music.
Prerequisite(s): MUS 125 or concurrent enrollment.
Offered: Spring.

MUS 223 Structure of Music III
3 cr. hrs. 3 periods (3 lec.)
Continuation of MUS 126. Includes the nature of polyphony, writing simple melodic lines, basic contrapuntal technique, first species, fugue, theme and variations, binary form, rounded binary form, rondo, sonata forms, and concerto form.
Prerequisite(s): MUS 126
Corequisite(s): MUS 224
Offered: Fall.

MUS 224 Aural Perception III
2 cr. hrs. 2 periods (2 lec.)
Continuation of MUS 129. Includes scales, intervallic recognition, melodic dictation of melodies, chord type identification, rhythmic dictation and performing notated rhythms, syncopated rhythms, and sight singing melodies. Also includes motives and motivic development, themes and thematic development, and conducting while performing various rhythms and melodies.
Prerequisite(s): MUS 129
Corequisite(s): MUS 223
Offered: Fall.

MUS 226 Structure of Music IV
3 cr. hrs. 3 periods (3 lec.)
Continuation of MUS 223. Includes extended chromaticism, aspects of form, influence of musical nationalism, compositional techniques and technical vocabulary, and late romantic and early 20th century tonal music.
Prerequisite(s): MUS 223
Corequisite(s): MUS 228
Offered: Spring.

MUS 228 Aural Perception IV
2 cr. hrs. 2 periods (2 lec.)
Continuation of MUS 224. Includes scales and modes, intervallic recognition, melodic dictation, chord type identification, chord progressions, modulation types rhythmic dictation, and syncopated rhythms, cross-rhythms, hemiola, and asymmetrical meter. Also includes sight singing melodies, motives and motivic development, themes and thematic development, and conducting while performing various rhythms and melodies.
Prerequisite(s): MUS 224
Corequisite(s): MUS 226
Offered: Spring.
MUS 257 Music Recording and Production
3 cr. hrs. 3 periods (3 lec.)
Introduction to the recording and production of music. Includes the elements of sound, the mixing board, hard drive recorder, microphone types and applications, recording strategies and room use, lab software for editing, mixing and re-recording, and creating a final project.
Offered: Fall, Spring.

Music Studio Instruction
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MUP 061 Studio Instruction: Brass (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major. Faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 062 Studio Instruction: Guitar (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills to be stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 063 Studio Instruction: Percussion (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 064 Studio Instruction: Piano (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.
MUP 065 Studio Instruction: Strings (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 066 Studio Instruction: Voice (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 067 Studio Instruction: Woodwinds (Pre Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.
Corequisite(s): (MUS 052 and 102) or (MUS 125 and 127).
Information: Audition as a music major and faculty signature required before enrolling in this course.
Contact the music department for audition and placement information.
May be taken two times for a maximum of four credit hours.
Offered: Fall, Spring.

MUP 161 Studio Instruction: Brass I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 162 Studio Instruction: Guitar I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 163 Studio Instruction: Percussion I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 164 Studio Instruction: Piano I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.
MUP 165 Studio Instruction: Strings I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 166 Studio Instruction: Voice I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 167 Studio Instruction: Woodwinds I (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 168 Studio Instruction I: (Major)
2 cr. hrs. 4 periods (4 lab)
Weekly studio instruction. Includes participation in student recitals and jury exams.
Corequisite(s): MUS 125, MUS 127
Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 171 Studio Instruction: Brass II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 161. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 161.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 172 Studio Instruction: Guitar II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 162. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 162.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 173 Studio Instruction: Percussion II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 163. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 163.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 174 Studio Instruction: Piano II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 164. Private weekly instrumental lessons. Includes further development of performance skills and participation in recitals and jury exams.
Prerequisite(s): MUP 164.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.
MUP 175 Studio Instruction: Strings II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 165. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 165.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 176 Studio Instruction: Voice II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 166. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 166.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 177 Studio Instruction: Woodwinds II (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 167. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 167.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 178 Studio Instruction II: (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 168. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 168.
Corequisite(s): MUS 126, MUS 129
Offered: Fall, Spring.

MUP 261 Studio Instruction: Brass III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 171. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 171.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 262 Studio Instruction: Guitar III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 172. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 172.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 263 Studio Instruction: Percussion III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 173. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 173.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.
MUP 264 Studio Instruction: Piano III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 174. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 174.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 265 Studio Instruction: Strings III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 175. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 175.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 266 Studio Instruction: Voice III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 176. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 176.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 267 Studio Instruction: Woodwinds III (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 177. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 177.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 268 Studio Instruction III: (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 178. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 178.
Corequisite(s): MUS 223, MUS 224
Offered: Fall, Spring.

MUP 271 Studio Instruction: Brass IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 261. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 261.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 272 Studio Instruction: Guitar IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 262. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 262.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.
MUP 273 Studio Instruction: Percussion IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 263. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 263.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 274 Studio Instruction: Piano IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 264. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 264.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 275 Studio Instruction: Strings IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 265. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 265.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 276 Studio Instruction: Voice IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 266. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 266.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 277 Studio Instruction: Woodwinds IV (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 267. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 267.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.

MUP 278 Studio Instruction IV: (Major)
2 cr. hrs. 4 periods (4 lab)
Continuation of MUP 268. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.
Prerequisite(s): MUP 268.
Corequisite(s): MUS 226, MUS 228
Offered: Fall, Spring.
NURSING

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

NRS 104 Nursing Process I
4 cr. hrs. 4 periods (4 lec.)
Nursing 104 introduces the student to the application of the nursing process and to the concepts of client, health, environment and nurse with emphasis on caring for the adult and older adult client. This course introduces the student to behaviors that serve as the basis of effective nursing practice: (1) a safe practitioner, (2) an effective communicator, (3) a manager/teacher, (4) a culturally competent/caring healthcare provider, and (5) professional and ethical issues of being a nurse. The student applies nursing theory in the college laboratory and the clinical setting while caring for adults and older adults in acute care, long term care and community environments.

Prerequisite(s): WRT 101 or concurrent enrollment.
Corequisite(s): HCA 102, HCA 155, NRS 104LC, NRS 104LS
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 104LC Nursing Process I Clinical Lab
3 cr. hrs. 9 periods (9 lab)
This is the Clinical Lab portion of NRS 104.
Prerequisite(s): WRT 101 or concurrent enrollment.
Corequisite(s): HCA 102, HCA 155, NRS 104, NRS 104LS
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 104LS Nursing Process I Skills Lab
1 cr. hrs. 3 periods (3 lab)
This is the Skills Lab portion of NRS 104.
Prerequisite(s): WRT 101 or concurrent enrollment.
Corequisite(s): HCA 102, HCA 155, NRS 104, NRS 104LC
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 105 Nursing Process II
4 cr. hrs. 4 periods (4 lec.)
Continuation of NRS 104. Application of the nursing process and expansion on the concepts of client, health, environment and nurse, with emphasis on caring for adult clients with common health alterations. Expansion of behaviors that are the basis of effective nursing practice: (1) a safe practitioner, (2) effective communicator, (3) manager/teacher, (4) a culturally competent/caring healthcare provider, and (5) professional and ethical issues of being a nurse. Includes additional application of theory in the college laboratory and the clinical setting in acute care environments.
Prerequisite(s): HCA 102, 155, NRS 104, 104LC, 104LS, WRT 101. Corequisite(s) or Prerequisite(s): BIO 205IN, ECE 107 or PSY 240.
Corequisite(s): NRS 105LC, NRS 105LS
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 105LC Nursing Process II Clinical Lab
4 cr. hrs. 12 periods (12 lab)
This is the Clinical Lab portion of NRS 105.
Prerequisite(s): HCA 102, 155, NRS 104, 104LC, 104LS, WRT 101. Corequisite(s) or Prerequisite(s): BIO 205IN, ECE 107 or PSY 240.
Corequisite(s): NRS 105, NRS 105LS
Offered: Fall, Spring.
NRS 105LS Nursing Process II Skills Lab
1 cr. hrs. 3 periods (3 lab)
This is the Skills Lab portion of NRS 105.
Prerequisite(s): HCA 102, 155, NRS 104, 104LC, 104LS, WRT 101. Corequisite(s) or Prerequisite(s): BIO 205IN, ECE 107 or PSY 240.
Corequisite(s): NRS 105, NRS 105LC
Offered: Fall, Spring.

NRS 188 Transition to Associate Degree Nursing
4 cr. hrs. 4 periods (4 lec.)
Non-clinical course facilitating transition of the Licensed Practical Nurse (LPN) into the Pima Community College Associate Degree Nursing program. Includes role transition through the application of the nursing process and orients the student to the philosophy, major concepts and program outcomes of the ADN program, and focuses on adult clients experiencing selected health alterations.
Corequisite(s) or Prerequisite(s): BIO 205IN, ECE 107 or PSY 240.
Corequisite(s): NRS 188LS
Information: In order to enroll in this course, the student must hold a current valid Licensed Practical Nurse (LPN) license in Arizona. The student must also meet all admission criteria for the Associate Degree Nursing Program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 188LS Transition to Associate Degree Nursing Skills Lab
1 cr. hrs. 3 periods (3 lab)
This is the Skills Lab portion of NRS 188.
Corequisite(s) or Prerequisite(s): BIO 205IN, ECE 107 or PSY 240.
Corequisite(s): NRS 188
Information: In order to enroll in this course, the student must hold a current valid Licensed Practical Nurse (LPN) license in Arizona. The student must also meet all admission criteria for the Associate Degree Nursing Program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 196 Independent Study in Nursing
1-9 cr. hrs. 1-9 periods (1-9 lec.)
Content to be determined by conference between student and instructor.
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: May not be offered this year, check class schedule.

NRS 201 Nursing Process III
5 cr. hrs. 5 periods (5 lec.)
Continuation of NRS 105 or NRS 188. Application of the nursing process and expansion of the concepts of nurse, health, client, and environment, with an emphasis on the family and child and clients with mental health disorders. Includes content related to the roles of safe practitioner, effective communicator, manager/teacher and culturally competent/caring healthcare provider. Also includes professional and ethical issues related to provision of nursing care. Also includes additional clinical application of selected nursing skills and knowledge of the developing family and child and clients with mental health disorders.
Prerequisite(s): BIO 205IN, ECE 107 or PSY 240, NRS 105, 105LC, and 105LS.
Corequisite(s): NRS 201LC, NRS 203
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.

NRS 201LC Nursing Process III Clinical Lab
4 cr. hrs. 12 periods (12 lab)
This is the clinical lab portion of NRS 201.
Prerequisite(s): BIO 205IN, ECE 107 or PSY 240, NRS 105, 105LC, 105LS Corequisite(s) or Prerequisite(s): BIO 127IN or FSN 127 and WRT 102.
Corequisite(s): NRS 201, NRS 203
Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.
Offered: Fall, Spring.
NURSING ASSISTANT

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

NRA 101 Nursing Assistant
2 cr. hrs. 2 periods (2 lec.)
Introduction to nursing assisting. Includes body systems and common diseases, basic nursing assisting skills, providing client care, providing restorative care, providing long-term care, home health care, and certification requirements.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 101LC, NRA 101LS
Information: Students must obtain consent from the Nursing Department before enrolling in this course.
Offered: Fall, Spring.
NRA 101LC Nursing Assistant Clinical
1 cr. hrs. 3 periods (3 lab)
Clinical Lab for NRA 101.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 101, NRA 101LS
Offered: Fall, Spring.

NRA 101LS Nursing Assistant Skills
1 cr. hrs. 3 periods (3 lab)
Skills Lab for NRA 101.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 101, NRA 101LC
Offered: Fall, Spring.

NRA 102 Patient Care Technician
1 cr. hrs. 1 periods (1 lec.)
Introduction to the role of the patient care technician. Includes legal and ethical considerations, infection control, principles of asepsis during dressing changes and catheterizations, recording an electrocardiogram, proper procedure of a venipuncture, enteral feedings, and communication and interpersonal skills.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 102LC, NRA 102LS
Information: Students must obtain consent from the Nursing Department before enrolling in this course. You must be a Certified Nursing Assistant or have successfully completed NRA 101 within the last two years to enroll in this course.
Offered: Fall, Spring.

NRA 102LC Patient Care Tech Clinical
.67 cr. hrs. 2 periods (2 lab)
Clinical Lab for NRA 102.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 102, NRA 102LS
Information: Students must obtain consent from the Nursing Department before enrolling in this course. You must be a Certified Nursing Assistant or have successfully completed NRA 101/101LC/101LS within the last two years to enroll in this course.
Offered: Fall, Spring.

NRA 102LS Patient Care Tech Skills
.33 cr. hrs. 1 periods (1 lab)
Skills Lab for NRA 102.
Prerequisite(s): Within the last two years: REA 091 with a C or better or a score of 85 or higher on the Compass Reading Assessment test.
Corequisite(s): NRA 102, NRA 102LC
Information: Students must obtain consent from the Nursing Department before enrolling in this course. You must be a Certified Nursing Assistant or have successfully completed NRA 101/101LC/101LS within the last two years to enroll in this course.
Offered: Fall, Spring.
Office and Administrative Professions

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

OAP 111 Keyboarding for Office Technology
1 cr. hrs. 2 periods (2 lab)
Development of keyboarding skills to include mastery of alphabet, numeric, and symbol keyboards. Includes drills to build speed and accuracy skills with document processing of business correspondence. Also includes letters, reports, tables, resumes, language arts, and word processing commands.
Information: Course may be repeated 2 times for a total of 3 credits.
Offered: May not be offered this year, check class schedule.

OAP 123 Professional Development for Administrative Support
3 cr. hrs. 6 periods (6 lab)
Procedures and skills for securing a job. Includes resume development, interview techniques, application forms, application letter, research requirements, customer service skills, job shadowing, and sexual harassment.
Recommendation: Completion of OAP 111 or equivalent proficiency on computer keyboard before enrolling in this course.
Offered: May not be offered this year, check class schedule.

OAP 132 Records Management: Filing Systems
3 cr. hrs. 3 periods (3 lec.)
Principles and procedures of filing systems. Includes rules for indexing, coding, and filing, cross references, filing systems, advantages and disadvantages of each filing system, file maintenance and management, and simulations.
Offered: May not be offered this year, check class schedule.

OAP 151 Business English
3 cr. hrs. 3 periods (3 lec.)
English fundamentals essential for modern business communication. Includes reference skills, parts of speech, basic sentence terms, verbals, types of sentences, punctuation and grammar usage.
Recommendation: Completion of OAP 050 or assessment at the WRT 100 level before enrolling in this course.
Offered: Fall, Spring.

OAP 171 Office Procedures
3 cr. hrs. 4 periods (2 lec., 2 lab)
Functions and procedures used in a wide range of office activities. Includes visitors and clients, office functions, document production, communication skills, office duties and tasks, travel arrangements, meetings, conferences, professional attitudes and image, and job evaluation.
Prerequisite(s): OAP 111.
Offered: May not be offered this year, check class schedule.

OAP 199 Co-op: Office and Administrative Professions
1 cr. hrs. 1 periods (1 lec.)
Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.
Corequisite(s): OAP 199WK
Information: May be taken two times for a maximum of two credit hours.
Offered: Fall.

OAP 199WK Co-op Work: Office and Administrative Professions
1-8 cr. hrs. 5-40 periods (5-40 lab)
A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.
Corequisite(s): OAP 199
Information: May be taken two times for a maximum of sixteen credit hours.
Offered: Fall.
OAP 251 Business Communications
3 cr. hrs. 3 periods (3 lec.)
Principles of effective writing and listening skills. Includes language development, verbal and nonverbal communications, customer relations, and writing and editing correspondence.
Prerequisite(s): OAP 151.
Information: Prerequisite may be waived depending on work experience. See an OAP instructor for prerequisite information.
Offered: Fall, Spring.

Optical Science
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

OPS 201 Geometrical and Instrumental Optics I
3 cr. hrs. 3 periods (3 lec.)
Basic principles of light, refraction, reflection, properties of optical glass, prisms, paraxial optics, pupils and stops, visual and other basic instruments, aberrations, measurements, and testing.
Prerequisite(s): ENG 110IN, MAT 220, and PHY 210/210LB.
Corequisite(s): OPS 201LB
Offered: May not be offered this year, check class schedule.

OPS 201LB Geometrical and Instrumental Optics I Laboratory
1 cr. hrs. 4 periods (4 lab)
Cleaning optics, measuring refractive indices, reflection, deviating prisms, scanners, ideal imaging, thin lenses, thick lenses, Gaussian reduction, and throughput.
Corequisite(s): OPS 201
Offered: May not be offered this year, check class schedule.

OPS 202 Geometrical and Instrumental Optics II
3 cr. hrs. 3 periods (3 lec.)
Optical instruments, field and relay lenses, telescopes, microscopes, optical materials, achromatization, illumination, cameras, and projectors.
Prerequisite(s): OPS 201/201LB.
Corequisite(s): OPS 202LB
Offered: May not be offered this year, check class schedule.

OPS 202LB Geometrical and Instrumental Optics II Laboratory
1 cr. hrs. 4 periods (4 lab)
Measuring refractive indices, dispersing and deviating prisms, thin lenses, thick lenses, aberration evaluation, Keplerian and Galileo telescopes, and compound microscopes.
Corequisite(s): OPS 202
Offered: May not be offered this year, check class schedule.

Paralegal
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

PAR 101 Introduction to Paralegal Careers
3 cr. hrs. 3 periods (3 lec.)
Role, responsibilities and ethical standards of the paralegal. Includes paralegal employment and regulation, ethical rules of the legal profession, law office administration and systems, communication, introduction to legal research and legal analysis, state and federal judicial systems, and overview of litigation and specialty areas of law.
Offered: Fall, Spring.
PAR 102 Civil Litigation Procedures I
3 cr. hrs. 3 periods (3 lec.)
Principles and procedures for commencement of civil litigation. Includes rules of civil procedure, subject matter jurisdiction, venue, statutes of limitations, parties, pleading format, preparation of complaint and answer, counterclaims, crossclaims, and third party practice. Also includes the causes of action, remedies, and potential defenses in contract and tort law.
Prerequisite(s): PAR 101 or concurrent enrollment, WRT 101 or concurrent enrollment, and REA 112 or a reading assessment score of 95 or higher on the college reading assessment.
Offered: Fall, Spring.

PAR 103 Legal Research
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of legal research. Includes categories of research materials, citing legal material, finding and using secondary authority, finding tools. Shepards Citators, case law, constitutions, statutes and administrative law, analyzing research problems, and preparing research reports.
Prerequisite(s): PAR 101 and WRT 102.
Information: Prerequisites may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor.
Offered: Fall, Spring.

PAR 104 Paralegal Ethics
3 cr. hrs. 3 periods (3 lec.)
Rules and principles of professional responsibility in the legal field. Includes sources of the rules of legal ethics, ethical guidelines and attorney supervision of paralegals, unauthorized practice of law, confidentiality, conflicts of interest, advertising and solicitation, attorney’s fees and fiduciary duties, competence, malpractice, ethical conduct issues in litigation, and professional integrity issues.
Prerequisite(s): PAR 103 or concurrent enrollment.
Information: Prerequisite may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor.
Offered: Fall, Spring.

PAR 106 Civil and Criminal Evidence
3 cr. hrs. 3 periods (3 lec.)
Paralegal’s role in the analysis and application of the rules of evidence. Includes relevancy and its limits, privileges, use, impeachment, and exclusion of witness, opinion and expert testimony, hearsay, authentication, and contents of writings, recordings, and photographs.
Prerequisite(s): PAR 103 or concurrent enrollment.
Information: Prerequisite may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor.
Offered: Fall, Spring.

PAR 202 Civil Litigation Procedures II
3 cr. hrs. 3 periods (3 lec.)
Continuation of PAR 102. Includes discovery/disclosure procedures in Federal Court and in Arizona Superior Court, file organization and document control, pre-trial motions, gathering and organizing evidence, preparation of witnesses, alternative dispute resolutions, trial, post-trial and appellate procedures.
Prerequisite(s): PAR 102.
Offered: Fall, Spring.

PAR 203 Tort Law Procedures
3 cr. hrs. 3 periods (3 lec.)
Concepts and procedures used in tort cases. Includes tort litigation procedures and tort case law in the areas of negligence, professional negligence, strict liability, product liability, liability issues, and insurance coverage. Also includes interviewing and investigation techniques for the paralegal in tort cases.
Prerequisite(s): PAR 101 and 102.
Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Fall.
PAR 204 Wills, Trusts, and Estates
3 cr. hrs. 3 periods (3 lec.)
Concepts and procedures of wills, trusts and estate planning for paralegals. Includes Arizona statutes and rules, probate and non-probate property, testate or intestate succession, will drafting and execution, will-related documents and advance directives, trusts, estate administration and related legal actions.
Prerequisite(s): PAR 101.
Information: Prerequisite(s) may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Fall.

PAR 206 Criminal Law and Procedures I
3 cr. hrs. 3 periods (3 lec.)
Criminal law and trial processes from arrest through pre-trial procedures. Includes rules of criminal procedure, initial criminal law process, pretrial investigation and discovery, criminal and constitutional law cases, criminal statutes, and pretrial motion practice.
Prerequisite(s): PAR 101.
Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Fall.

PAR 207 Criminal Law and Procedures II
3 cr. hrs. 3 periods (3 lec.)
Continuation of PAR 206. Includes rules of criminal procedure, trial rights of defendants, trial procedure, case preparation for trial, direct and cross examination, evidentiary objections, and motions for the close of evidence.
Prerequisite(s): PAR 106 or concurrent enrollment, and PAR 206.
Offered: Spring.

PAR 208 Domestic Relations and Family Law
3 cr. hrs. 3 periods (3 lec.)
Law and procedures related to family relationships and domestic matters. Includes basic principles of family law, marital contracts, legal issues in family law affecting children, initiating a divorce proceeding, contested proceedings, and assisting at a dissolution trial.
Prerequisite(s): PAR 101.
Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Spring.

PAR 209 Bankruptcy Procedures
3 cr. hrs. 3 periods (3 lec.)
Application of legal procedures in bankruptcy. Includes jurisdiction, cast of characters and their roles in bankruptcy, client interview, evaluation of options, advising client, and drafting Chapter 7 liquidation, Chapter 13 adjustment of debts of individuals, Chapter 12 adjustment of debts of family farmer, Chapter 11 reorganization, and the paralegals' role.
Prerequisite(s): PAR 101.
Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Fall.

PAR 210 Administrative Law
4 cr. hrs. 4 periods (4 lec.)
Concepts and procedures of administrative law for paralegals. Includes an overview of laws and regulations in employment, immigration, social security, and environmental law. Also includes practical applications in employment, immigration, social security, and environmental law.
Prerequisite(s): PAR 101 and 103.
Information: Prerequisite(s) may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Fall.

PAR 210A Administrative Law: Employment
1 cr. hrs. 1 periods (1 lec.)
Concepts and procedures of employment law for paralegals. Includes an overview of employment law and regulations, and practical applications in employment law.
Prerequisite(s): PAR 101 and 103.
Information: PAR 210A, 210B, 210C, and 210D together constitute PAR 210. Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Summer.
PAR 210B Administrative Law: Immigration
1 cr. hrs. 1 periods (1 lec.)
Concepts and procedures of immigration law for paralegals. Includes an overview of immigration law and regulations, and practical applications in immigration law.
Prerequisite(s): PAR 101 and 103.
Information: PAR 210A, 210B, 210C and 210D together constitute PAR 210. Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Summer.

PAR 210C Administrative Law: Social Security
1 cr. hrs. 1 periods (1 lec.)
Concepts and procedures of social security law for paralegals. Includes an overview of social security law and regulations, and practical applications in social security law.
Prerequisite(s): PAR 101 and 103.
Information: PAR 210A, 210B, 210C, and 210D together constitute PAR 210. Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Summer.

PAR 210D Administrative Law: Environmental
1 cr. hrs. 1 periods (1 lec.)
Concepts and procedures of environmental law. Includes an overview of environmental laws and regulations, and practical applications in environmental law.
Prerequisite(s): PAR 101 and 103.
Information: PAR 210A, 210B, 210C and 210D together constitute PAR 210. Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: May not be offered this year, check class schedule.

PAR 211 Legal Writing
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of legal writing. Includes writing style, editing and proofreading, legal analysis, legal brief types, and applications of legal writing for memoranda, litigation documents, and correspondence.
Prerequisite(s): PAR 103, 202 and WRT 102.
Offered: Fall, Spring.

PAR 212 Law Office Computerization
3 cr. hrs. 3 periods (3 lec.)
Application of computer software in a legal field. Includes computer hardware and software, word processing applications, database management systems, spreadsheet software, law office management, automated litigation support, telecommunications, and specialized legal software for the preparation of legal documents and document organization.
Prerequisite(s): CSA 101 and PAR 101.
Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.
Offered: Spring.

PAR 213 Computer Assisted Legal Research
3 cr. hrs. 3 periods (3 lec.)
Computer assisted research systems. Includes historical development, full-text system; Westlaw, search techniques, and display elements, databases, special services, and Internet searching.
Prerequisite(s): PAR 103.
Information: Prerequisite may be waived with equivalent research experience; see a PAR advisor or course instructor.
Offered: Fall, Spring.

PAR 215 Corporate Law Procedures
3 cr. hrs. 3 periods (3 lec.)
Procedures and document drafting for the formation of business entities. Includes introduction to agency law, non-corporate entities, business corporations, corporation changes, forms of corporations, financing a public or private corporation, changes in corporate structure, and the role of the paralegal in corporate law.
Prerequisite(s): PAR 101.
Information: Prerequisite(s) may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor.
Offered: Spring.
PAR 217 Real Estate Legal Procedures
3 cr. hrs. 3 periods (3 lec.)
Legal procedures and requirements in real estate transactions and litigation. Includes real estate principles and legal concepts, recording and constructive notice, and real property taxes. Also includes an analysis of real estate contracts and purchase agreements, escrows and closings, deeds, co-ownership, legal descriptions, leases, encumbrances, liens, and foreclosures.
Prerequisite(s): PAR 101.
Information: Employment in a legal-related field or an Arizona Real Estate license may be substituted for PAR 101. See a PAR Advisor or course instructor for prerequisite information.
Offered: Fall, Spring.

PAR 290 Paralegal Internship
4 cr. hrs. 16 periods (1 lec., 15 lab)
Volunteer paralegal field experience at an approved work site. Includes communications, positive work attitudes, ethics, progress review, law office systems, professional development, employment strategies, and final evaluation within a classroom seminar setting.
Prerequisite(s): PAR 104, 202 and WRT 102.
Information: Enrollment and placement contingent upon earned grade point average in PAR courses.
Designed for students in their final semester of course work in the Paralegal Program.
Six credit hours of PAR specialty electives from the following list must be taken - PAR 203, 204, 206, 207, 208, 209, 210, 212, 215, or 217. A minimum of 45 credit hours if completing the AAS Degree, or 27 credit hours in completing the certificate are required.
Application and acceptance required.
Offered: Fall, Spring.

Pharmacy Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

PHT 170 Introduction to Pharmacy Technology
2 cr. hrs. 2 periods (2 lec.)
An overview of the history, structure, operation, and function of the pharmacy, and the roles of the pharmacist and pharmacy support personnel. Includes: medical terminology, emphasizing common medical roots, prefixes, and suffixes; pharmaceutical abbreviations; and dosage forms and routes of administration. Also includes: information and reference resources; an introduction to third-party payment systems, HMO’s, Medicare, and Medicaid; and contemporary issues, including legal and ethical aspects and future concepts in pharmacy.
Offered: Fall, Spring, Summer.

PHT 171IN Pharmaceutical Calculations
4 cr. hrs. 6 periods (3 lec., 3 lab)
Mathematical computations needed in the practice of pharmacy technology. Includes fundamentals of mathematical calculations, units and measures for the calculation of drug dosages, and interpretation of the prescription or medication order. Also includes calculation of drug dosages, reducing and enlarging formulas, percentage preparations, dilution and concentration, isotonic solutions and electrolyte solutions.
Prerequisite(s): PHT 170 or concurrent enrollment and MAT 092.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

PHT 172 Drug Therapy I
4 cr. hrs. 4 periods (4 lec.)
Overview of the relationship between the central nervous system (CNS), the autonomic nervous system (ANS) and pharmaceutical therapy. Includes anatomy and physiology of the CNS, neurotransmission and disorders of the CNS, therapeutic applications of drugs affecting the CNS, and characteristics of drugs of the CNS. Also includes anatomy and physiology of the ANS, drug action on ANS neurotransmission, disorders treated with autonomic drugs, and types and characteristics of autonomic drugs.
Prerequisite(s): PHT 170 or concurrent enrollment.
Offered: Fall, Spring, Summer.
PHT 174N Pharmacy Operations
3 cr. hrs. 5 periods (2 lec., 3 lab)
An integrated course combining lecture and laboratory exercise in practical, technical, and legal aspects of drug management; distribution (dispensing); and storage in outpatient (retail), inpatient (hospital), and nursing home settings. Includes pharmacy equipment and devices, materials, non-sterile dosage forms, and inventory control. Also includes small or large scale compounding, packaging and quality control; practical aspects of recordkeeping, and insurance issues relevant to the daily pharmacy operations.
Prerequisite(s): PHT 170, PHT 171 or concurrent enrollment.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

PHT 178N Computer Applications for Pharmacy
3 cr. hrs. 5 periods (2 lec., 3 lab)
Basic concepts of computer operation. Includes the Internet, computer hardware and software, and professional pharmacy applications in retail and hospital pharmacy.
Prerequisite(s): PHT 170 or concurrent enrollment.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

PHT 180N Sterile Products
4 cr. hrs. 6 periods (3 lec., 3 lab)
Application of aseptic techniques and use of the laminar flow hood in the preparation of sterile products. Includes history of sterile products and parenteral therapy, characteristics of sterile products, principles of fluid and electrolyte therapy, basics of microbiology, antisepsis and sterilization, and sterile products calculations. Also includes introduction to IV labels and profile systems, aseptic techniques, total parenteral nutrition, incompatibilities, quality control, and specialized sterile products.
Prerequisite(s): PHT 170 and PHT 171 or concurrent enrollment.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring.

PHT 181N Interprofessional Relations in Pharmacy
3 cr. hrs. 3 periods (3 lec.)
Overview of effective communications skills needed by the pharmacy technician to use interpersonally and between the pharmacist, the patient, and other health care professionals. Includes human relations development, personality inventory, and elements in communication in areas of non-verbal, interpersonal, barriers, listening, empathy and interviewing. Also includes building better patient understanding in special situations such as death and dying, ethnicity, conflict resolution, and ethical patient care.
Prerequisite(s): PHT 170 or concurrent enrollment.
Offered: Fall, Spring, Summer.

PHT 182N Drug Therapy II
4 cr. hrs. 4 periods (4 lec.)
Relationship between anatomy and physiology, disease states, and pharmaceutical therapy. Includes origins, dosage forms, indications, actions, routes of administration and side effects of both prescription and non-prescription drugs used in diseases of the cardiovascular, circulatory, renal, endocrine, respiratory, digestive, reproductive, and integumentary systems.
Prerequisite(s): PHT 172.
Offered: Fall, Spring, Summer.

PHT 187N Pharmacy Law and Ethics
3 cr. hrs. 3 periods (3 lec.)
Practical guide to pharmacy law and ethics for the pharmacy technician. Includes state and federal law, roles of the pharmacist and the pharmacy technician, and ethical practices for patients.
Prerequisite(s): PHT 170 or concurrent enrollment.
Offered: Fall, Spring, Summer.

PHT 190LB Pharmacy Technician Internship
4 cr. hrs. 16 periods (16 lab)
On-site training in outpatient and inpatient pharmacy services under direct supervision of designated pharmacist.
Prerequisite(s): PHT 170, 171, 172, 174, 178, 180, 181, 182 and 187.
Information: Consent of program coordinator is required before enrolling in this course.
Offered: Fall, Spring, Summer.
PHI 101 Introduction to Philosophy
3 cr. hrs. 3 periods (3 lec.)
Survey of Western Philosophy. Includes primary source readings in western philosophic areas: logic, epistemology, ethics, social/political philosophy, philosophy of religion, metaphysics, philosophy of science, and aesthetics.
Offered: Fall, Spring, Summer.

PHI 120 Introduction to Logic
3 cr. hrs. 3 periods (3 lec.)
Introduction to the main types of logical reasoning. Includes the nature of language, deductive logic, and inductive logic.
Offered: Fall, Spring, Summer.

PHI 122 God, Mind, and Matter
3 cr. hrs. 3 periods (3 lec.)
Introduction to the metaphysics and epistemology of the cognitive and material domains of Western philosophy. Includes philosophic method, distinctions, God, mind, and matter in ancient philosophy, medieval philosophy, modern philosophy, and contemporary philosophy and physics.
Offered: Fall, Spring.

PHI 123 Philosophical Foundations of Science
3 cr. hrs. 3 periods (3 lec.)
Introduction to Western philosophical foundations of science. Includes philosophical and scientific methods, classical, medieval, modern and contemporary science and mathematics, and philosophical problems raised by discovery and change.
Offered: Spring.

PHI 130 Introductory Studies in Ethics and Social Philosophy
3 cr. hrs. 3 periods (3 lec.)
Introduction to the study of the principles of morality and standards of conduct from a western philosophical perspective. Includes philosophic method, foundations of moral philosophy, ethical-value judgments and human nature, theories of social morality and justice, and emotions and faith.
Offered: Fall, Spring.

PHI 140 Philosophy of Religion
3 cr. hrs. 3 periods (3 lec.)
Introduction to Western philosophical methods as applied to religion. Includes philosophical method, nature and meaning of religion and God, classical arguments, faith and reason, theodicy, mysticism, and the impact of religion on ethics, psychology, and law.
Information: Same as REL 140.
Offered: Fall, Spring.
**Phlebotomy**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**PHB 160 Foundations of Phlebotomy**
3 cr. hrs. 3 periods (3 lec.)
Overview of the role of phlebotomy in the healthcare profession. Includes the role of the phlebotomist within the culture of healthcare, conventions of laboratory organization and structure, the organization and purposes of laboratory departments, and the services a laboratory provides as an essential key to diagnosis. Also includes medical vocabulary, laboratory terminology, and basic anatomy and physiology with a focus on the circulatory system.
Offered: Fall, Spring, Summer.

**PHB 162 Safety Standards in Phlebotomy**
3 cr. hrs. 3 periods (3 lec.)
Study of phlebotomy safety practices and infection control in a laboratory setting. Includes quality controls, procedural controls, processing requirements, and transportation procedures. Also includes patient education, related legal guidelines, OSHA standards, and proper equipment operation.
Corequisite(s): PHB 164, PHB 166LB
Offered: Fall, Spring, Summer.

**PHB 164 Professional Practices in Phlebotomy**
3 cr. hrs. 3 periods (3 lec.)
A survey of professional practices in phlebotomy, including values, ethical behavior in the workplace, and workers’ rights and responsibilities. Includes stress management, development of positive personal communication skills, and concepts of teamwork. Also includes OSHA and other regulatory requirements.
Corequisite(s): PHB 162, PHB 166LB
Offered: Fall, Spring, Summer.

**PHB 166LB Phlebotomy Laboratory Practice**
2 cr. hrs. 6 periods (6 lab)
Laboratory practice performing phlebotomy and capillary collections, including proper order of draw, labeling, and specimen handling. Includes study of basic storage, transportation, and processing. Also includes proper laboratory conduct and safety.
Corequisite(s): PHB 162, PHB 164
Offered: Fall, Spring, Summer.

**PHB 190LC Clinical Internship in Phlebotomy**
1-3 cr. hrs. 5-15 periods (5-15 lab)
Capstone experience for phlebotomy students. Includes an externship in the field where students practice the skills and knowledge they gain during training, such as single and multi-draw venipuncture, capillary draws, storage and transportation of specimens, testing and processing specimens, legal and ethical behaviors and documentation, and professional conduct.
Prerequisite(s): PHB 160, 162, 164 and 166LB.
Information: Credit hours will vary depending on length of time needed for student to obtain required experience for certification.
Offered: Fall, Spring, Summer.

**Physics**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**PHY 121 Introductory Physics I**
4 cr. hrs. 4 periods (4 lec.)
Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes the nature of physics, linear motion and kinematics, dynamics, work and energy, linear momentum, rotational motion, heat, states of matter, and waves and sound.
Prerequisite(s): Placement into College Algebra (MAT 151) or higher.
Corequisite(s): PHY 121LB
Offered: Fall, Spring.
PHY 121N Introductory Physics I
5 cr. hrs. 7 periods (4 lec., 3 lab)
Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes the nature of physics, linear motion and kinematics, dynamics, work and energy, linear momentum, rotational motion, heat, states of matter, and waves and sound.
Prerequisite(s): Placement into College Algebra (MAT 151) or higher.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

PHY 121LB Introductory Physics I Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of PHY 121.
Prerequisite(s): Placement into College Algebra (MAT 151) or higher.
Corequisite(s): PHY 121
Offered: Fall, Spring.

PHY 122 Introductory Physics II
4 cr. hrs. 4 periods (4 lec.)
Continuation of PHY 121/121LB or 121N. Includes light, electricity, magnetism and electromagnetism, relativity, atomic physics, quantum physics, wave mechanics, and nuclear physics.
Prerequisite(s): PHY 121/121LB or 121IN.
Corequisite(s): PHY 122LB
Offered: May not be offered this year, check class schedule.

PHY 122IN Introductory Physics II
5 cr. hrs. 7 periods (4 lec., 3 lab)
Continuation of PHY 121/121LB or 121N. Includes light, electricity, magnetism and electromagnetism, relativity, atomic physics, quantum physics, wave mechanics, and nuclear physics.
Prerequisite(s): PHY 121/121LB or 121IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

PHY 122LB Introductory Physics II Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of PHY 122.
Prerequisite(s): PHY 121/121LB or 121IN.
Corequisite(s): PHY 122
Offered: May not be offered this year, check class schedule.

PHY 195 Introduction to Research in Physics
4 cr. hrs. 4 periods (4 lec.)
Introduction to the methods of research in physics. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.
Information: Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

PHY 196 Independent Studies in Physics
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent studies and projects in physics and allied science fields. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course. Information: May be taken two times for a maximum of eight credit hours.
Offered: May not be offered this year, check class schedule.
PHY 210 Introductory Mechanics
4 cr. hrs. 4 periods (4 lec.)
Calculus-based introduction to mechanics for physics, engineering, and mathematics majors. Includes nature of physics, linear motion and kinematics, dynamics, work and energy, linear momentum, and rotational motion.
Prerequisite(s): MAT 220.
Corequisite(s): PHY 210LB
Information: High school physics is required before enrolling in this course.
Offered: Fall.

PHY 210IN Introductory Mechanics
5 cr. hrs. 7 periods (4 lec., 3 lab)
Calculus-based introduction to mechanics for physics, and mathematics majors. Includes nature of physics, linear motion and kinematics, dynamics, work and energy, linear momentum, and rotational motion. Also includes in-class exercises, outside observation projects, and independent studies.
Prerequisite(s): MAT 220.
IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall, Spring, Summer.

PHY 210LB Introductory Mechanics Lab
1 cr. hrs. 3 periods (3 lab)
Laboratory for PHY 210. Includes in-class exercises, outside observation projects, and independent studies. Emphasizes hands-on group and individual experiences to enrich understanding of PHY 210 lecture material.
Corequisite(s): PHY 210
Information: High school physics is required before enrolling in this course.
Offered: Fall.

PHY 216 Introductory Electricity and Magnetism
4 cr. hrs. 4 periods (4 lec.)
Calculus-based introduction to electricity and magnetism for physics, mathematics, and engineering majors. Includes electric charge and Coulomb's law, the electric field, Gauss' law, electric potential, capacitors and dielectrics, current and resistance, the magnetic field, Ampere's law and Biot-Savart law, and Faraday's law of induction. Also includes magnetic properties of matter, inductance, alternating current, Maxwell's equations, and electromagnetic waves.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Corequisite(s): PHY 216LB
Offered: Spring.

PHY 216IN Introductory Electricity and Magnetism
5 cr. hrs. 7 periods (4 lec., 3 lab)
Calculus-based introduction to electricity and magnetism for physics, mathematics, and engineering majors. Includes electric charge and Coulomb's law, the electric field, Gauss' law, electric potential, capacitors and dielectrics, current and resistance, the magnetic field, Ampere's law and Biot-Savart law, and Faraday's law of induction. Also includes magnetic properties of matter, inductance, alternating current, Maxwell's equations, and electromagnetic waves. Also includes in-class exercises, outside observation projects, and independent studies.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Spring.

PHY 216LB Introductory Electricity and Magnetism Lab
1 cr. hrs. 3 periods (3 lab)
Laboratory for PHY 216. Includes in-class exercises, outside observation projects, and independent studies. Emphasizes hands-on group and individual experiences to enrich understanding of PHY 216 lecture material.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Corequisite(s): PHY 216
Offered: Fall, Spring.
PHY 221 Introduction to Waves and Heat
3 cr. hrs. 3 periods (3 lec.)
Calculus-based introduction to waves and heat for physics, mathematics, and engineering majors. Includes fluid statics and dynamics, temperature, heat and thermodynamics, kinetic theory, thermodynamics and entropy, oscillations and simple harmonic motion, and wave motion. Also includes electromagnetic waves and the propagation of light, diffraction and interference, reflection and refraction at plane surfaces, and spherical mirrors and lenses.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Corequisite(s): PHY 221LB
Offered: Fall.

PHY 221IN Introduction to Waves and Heat
4 cr. hrs. 6 periods (3 lec., 3 lab)
Calculus-based introduction to waves and heat for physics, mathematics and engineering majors. Includes fluid statics and dynamics, temperature, heat and thermodynamics, kinetic theory, thermodynamics and entropy, oscillations and simple harmonic motion, and wave motion. Also includes electromagnetic waves and the propagation of light, diffraction and interference, reflection and refraction at plane surfaces, and spherical mirrors and lenses.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall.

PHY 221LB Introduction to Waves and Heat Lab
1 cr. hrs. 3 periods (3 lab)
Laboratory for PHY 221. Includes in-class exercises, outside observation projects, and independent studies. Emphasizes hands-on group and individual experiences to enrich understanding of PHY 221 lecture material.
Prerequisite(s): MAT 231 and PHY 210/210LB or 210IN.
Corequisite(s): PHY 221
Offered: May not be offered this year, check class schedule.

PHY 230 Introduction to Modern Physics
3 cr. hrs. 3 periods (3 lec.)
Calculus-based introduction to modern physics from the theory of relativity to the origins of quantum mechanics. Includes the classical and special theory of relativity, relativistic kinematics, relativistic dynamics, the quantization of energy, particles and waves, the atom and early quantum theory, the Schrodinger wave equation, and nuclear, and particle physics.
Prerequisite(s): PHY 210 and 216 and PHY 221 and MAT 231.
Offered: May not be offered this year, check class schedule.

PHY 295LB Independent Research in Physics
1-4 cr. hrs. 3-12 periods (3-12 lab)
Experience in scientific laboratory research. Specific content to be determined by student and instructor.
Information: One semester of physics and consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: May not be offered this year, check class schedule.

Political Science
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

POS 100 Introduction to Politics
3 cr. hrs. 3 periods (3 lec.)
Issues, principles, and trends in political science. Includes politics and political science, political philosophy and ideology, comparative politics, American national and state and local government, and international relations.
Offered: Fall, Spring.
POS 196 Independent Study in Political Science
2-4 cr. hrs. 2-4 periods (2-4 lec.)
Independent readings or special projects in political science. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: May not be offered this year, check class schedule.

POS 201 American National Government and Politics
3 cr. hrs. 3 periods (3 lec.)
Basic concepts and substance of American politics. Includes methods of political analysis, cultural environment of American politics, impact of class, gender, and immigration, Constitution, civil liberties, and civil rights, and public opinion and fundamental values. Also includes political institutions, institutions of government, economic and social policy-making, and American foreign policy and interdependence.
Information: The combination of both POS 201 and 231 satisfies the requirement for teacher certification, as does POS 210.
Offered: Fall, Spring, Summer.

POS 202 Introduction to International Relations
3 cr. hrs. 3 periods (3 lec.)
Examination of contemporary international relations. Includes approaches to the study of international relations, international systems, actors in the international systems, foreign policies, and major forms of interactions.
Offered: Fall, Spring, Summer.

POS 203 Introduction to Political Ideas
3 cr. hrs. 3 periods (3 lec.)
Introductory survey of western political philosophy. Includes political philosophy as a discipline, and introduction to the ideas of key political thinkers from ancient through medieval, early modern, late modern, and contemporary periods.
Offered: Fall, Spring.

POS 204 Introduction to Comparative Politics
3 cr. hrs. 3 periods (3 lec.)
Basic concepts and substance of comparing political systems. Includes methods of comparative political analysis, politics the socio-cultural environment, public authority, and political power, individuals, cultural diversity, and state, political institutions, governmental institutions, and political change.
Offered: Fall, Spring.

POS 210 National and State Constitutions
3 cr. hrs. 3 periods (3 lec.)
Principles and procedures of national and state constitutions. Includes major principles of American and Arizona Constitutionalism, historical and legal environments of the United States and Arizona constitutions, structures, powers, and responsibilities of United States government, structures of Arizona government, civil liberties and civil rights in the United States, and constitutional change.
Information: POS 210 satisfies the requirement for teacher certification as does the combination of both POS 201 and 231.
Offered: Fall, Spring.

POS 214 Arizona Constitution
1 cr. hrs. 1 periods (1 lec.)
Fundamental principles of the Arizona Constitution of 1910. Includes importance of state constitutions, legislative branch and direct democracy, Arizona plural executive, judicial branch, and local governments in Arizona.
Information: This course fulfills the Arizona teacher certification requirement for state constitutions.
Offered: May not be offered this year, check class schedule.

POS 231 American State and Local Governments and Politics
3 cr. hrs. 3 periods (3 lec.)
Basic concepts and substance of American state and local politics and government. Includes methods of political analysis, federalism/intergovernmental relations, cultural environment of state and local politics, impact of class, gender, age and occupation, public opinion and fundamental values. Also includes interest articulation and aggregation, institutions and processes of state and local governments, tribal governments, and state and local policy-making.
Information: The combination of both POS 201 and 231 satisfies the requirements for teacher certification, as does POS 210.
Offered: Fall, Spring.
POS 232 The Politics and History of Immigration
3 cr. hrs. 3 periods (3 lec.)
Examines the politics of immigration in the United States and the phenomenon of emigration in a global context. Includes analyses of the history of immigration as a result of the country's political economy and its evolution and the role of immigration in the socio-political and economic development of the nation.
Information: Same as HIS 232.
Offered: May not be offered this year, check class schedule.

POS 240 Understanding Terrorism
3 cr. hrs. 3 periods (3 lec.)
Analysis of terrorism as an international phenomenon. Includes terrorism definitions and perspectives, classifications of terrorism, cultural and geographical issues, responses by governments to terrorism, terrorism's future impact on the international and domestic scene, and current government reports on terrorism.
Offered: Fall.

POS 290 Political Science Internship
3 cr. hrs. 15 periods (15 lab)
Supervised internship in a local governmental office. Includes placement with elected officials or candidates for public office, governmental agencies, and city, county or state departments. Also includes substantive assignments involving development and application of analytical, research and writing skills.
Prerequisite(s): WRT 101.
Information: Completion of 6 credit hours of Political Science courses are required before enrolling in this course.
May take course a maximum of three times for a total of nine credit hours.
Offered: Fall, Spring, Summer.

Portuguese
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

POR 101 Elementary Portuguese I
4 cr. hrs. 4 periods (4 lec.)
Basic linguistic skills of the Portuguese language. Includes article, gender, numerals, present indicative, irregular plurals, idiomatic expression, commands, the preterite, and cultural traditions. Also includes proficiency in speaking, reading, writing, and understanding Portuguese.
Offered: Fall.

POR 102 Elementary Portuguese II
4 cr. hrs. 4 periods (4 lec.)
Continuation of POR 101. Includes preterite indicative, imperfect indicative, simple past tenses of indicative, pronominal verbs, present participle in progressive constructions, subjunctive, and the use of the present, descriptive adjective, present perfect indicative, conditional verbs, present subjunctive, and cultural traditions. Also includes increased proficiency in listening, speaking, reading, and writing Portuguese.
Prerequisite(s): POR 101.
Offered: May not be offered this year, check class schedule.

Professional Flight Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

PFT 101 Stage One: Ground School
4 cr. hrs. 4 periods (4 lec.)
Knowledge and procedures for the Federal Aviation Administration (FAA) private pilot ground school certificate. Includes aerodynamics, instruments and systems, weight and balance, cross-country planning, Airman's Informational Manual (AIM), Notices to Airmen (NOTAMS), aircraft/facility directory, radio navigation, weather, safe and efficient operation of airplanes, and final examination.
Offered: Fall, Spring.
Psychology

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

PSY 100 Psychology I
6 cr. hrs. 6 periods (6 lec.)
Information: PSY 100A and 100B together constitute PSY 100.
Offered: May not be offered this year, check class schedule.

PSY 100A Psychology I
3 cr. hrs. 3 periods (3 lec.)
Survey of psychology including history, perspectives, and methods; development; intelligence, thinking, and language; personality; psychopathology; psychotherapy; and social cognition and behavior.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Offered: May not be offered this year, check class schedule.

PSY 100B Psychology II
3 cr. hrs. 3 periods (3 lec.)
Survey of psychology including history, perspectives, and methods; structure and functions of the nervous and endocrine systems; perception; learning; motivation and emotion; personality; and stress and health.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Information: The content of PSY 100A and 100B together constitute the content of PSY 101.
Offered: May not be offered this year, check class schedule.

PSY 101 Introduction to Psychology
4 cr. hrs. 4 periods (4 lec.)
Survey of psychology including history, perspectives, and methods; structure and functions of the nervous and endocrine systems; development; perception; learning; memory; intelligence, thinking and language; motivation and emotion; personality; psychopathology; psychotherapy; stress and health; and social cognition and behavior.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Information: Content is a combination of elements of PSY 100A and 100B.
Offered: Fall, Spring, Summer.

PSY 101HC Introduction to Psychology: Honors
4 cr. hrs. 4 periods (4 lec.)
Survey of psychology including history, perspectives, and methods; structure and functions of the nervous and endocrine systems; development; perception; learning; memory; intelligence, thinking and language; motivation and emotion; personality; psychopathology; psychotherapy; stress and health; and social cognition and behavior. Also may include the following Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; “publishable quality”, peer reviewed paper or project in format appropriate for this discipline: presentation of research, in class or to a wider audience.
Information: Must qualify for Honors program.
PSY 101HC will fulfill any PSY 101 requirement.
Faculty or Advisor approval may be required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

PSY 132 Psychology and Culture
3 cr. hrs. 3 periods (3 lec.)
Presents current knowledge about human diversity in behavior and culture using examples from a variety of contexts within western and global societies. Highlights topics in cross-cultural psychology, such as intergroup relations, diverse cognitive styles, ethnocentrism, gender, personality, emotion, language, communication, work and health. The role of enculturation throughout the lifespan will be explored to increase awareness of how behavioral and cognitive principles affect interactions in a multicultural world.
Recommendation: Completion of PSY 100A or 101 before enrolling in this class.
Offered: Fall, Spring.
PSY 210 Introduction to Biopsychology
3 cr. hrs. 3 periods (3 lec.)
Survey of the basic principles of the nervous system function. Includes research methods, theoretical perspectives, anatomy and functions of the nervous system, and brain function and behavior. Also includes such topics as the biological basis of sleep and rhythms, stress and health, aggression and violence, and mental disorders.
Prerequisite(s): PSY 100B or 101.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in the class.
Offered: Spring.

PSY 214 Abnormal Psychology
3 cr. hrs. 3 periods (3 lec.)
Overview of the theoretical models, diagnosis, disorders, and treatment approaches in the field of abnormal psychology. Includes history; models; anxiety and mood disorders; mind and body disorders; psychosis and cognitive functioning disorders; and life span disorders.
Prerequisite(s): PSY 100A or 101.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.
Offered: Fall, Spring.

PSY 215 Human Sexuality
3 cr. hrs. 3 periods (3 lec.)
Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, sociological, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of one of the following before enrolling in this course: PSY 100A, PSY 100B, PSY 101, or SOC 101.
Information: Same as SOC 215.
Offered: Fall, Spring, Summer.

PSY 216 Psychology of Gender
3 cr. hrs. 3 periods (3 lec.)
Biological and social explanations of gender development and behaviors. Includes research methods used to study gender, biological sexual differentiation, differential socialization and gender stereotyping, gender differences, limitations of traditional gender roles, cross-cultural gender issues, and changing gender roles.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A and 100B, or PSY 101 before enrolling in this course.
Offered: Fall, Spring.

PSY 218 Health Psychology
3 cr. hrs. 3 periods (3 lec.)
Overview of health psychology in relationship to cultural diversity in the United States, and awareness of the universal aspect of humanity. Includes mind-body relationships, behavior risk factors, and psychosocial aspects of specific disorders. Also includes health psychology, social, economic, and political dimensions of relationships between and among ethnic and gender groups.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A or 100B or PSY 101 before enrolling in this course.
Offered: Fall, Spring.

PSY 220 The Psychology of Death and Loss
3 cr. hrs. 3 periods (3 lec.)
Adjustment to death and loss. Includes thinking about death, meaning of death, death system, dying, hospice, and end-of-life issues. Also includes suicide, violent death, euthanasia, bereavement, funeral process, near death experiences, and death education and counseling.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A or 100B or PSY 101 before enrolling in this course.
Offered: May not be offered this year, check class schedule.
PSY 224 Investigating Paranormal Psychology
3 cr. hrs. 3 periods (3 lec.)
Survey of experiments and case studies in paranormal phenomena. Includes extrasensory perception, psychokinesis, and reports of near-death experiences. Also includes research methodologies and potential applications.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A or 101 before enrolling in this class.
Offered: Fall.

PSY 230 Psychological Measurements and Statistics
3 cr. hrs. 3 periods (3 lec.)
Measurement, quantitative description and statistical inference as applied to psychological variables. Includes scientific research and statistics, descriptive statistics, inferential statistics, correlation and linear regression, and non-parametric tests.
Prerequisite(s): PSY 100A or 101, and MAT 122 or equivalent with a C or better.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in the class.
Offered: Fall, Spring, Summer.

PSY 240 Developmental Psychology
3 cr. hrs. 3 periods (3 lec.)
Human development from conception through adulthood. Includes physical, cognitive, emotional, and social development milestones at various periods in the lifespan. Also includes research methods used in developmental psychology, and the exploration of empirical literature in psychology as it relates to developmental issues.
Prerequisite(s): PSY 100A and 100B, or 101.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in the class.
Offered: Fall, Spring, Summer.

PSY 250 Introduction to Social Psychology
3 cr. hrs. 3 periods (3 lec.)
Introduction to major theories and research findings of social psychology. Includes research focus and methods, social influence on individual behavior, effects of culture and gender on social behavior, self-perception and attitudes, and social perceptions and international relations.
Prerequisite(s): PSY 100A or 101.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.
Offered: May not be offered this year, check class schedule.

PSY 254 Psychology of Love and Compassion
3 cr. hrs. 3 periods (3 lec.)
Introduction to theory and research on the psychology of love and caring. Includes applications to mental, physical and spiritual health. Also includes gender behaviors and expectations in loving relationships.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A or 100B or PSY 101.
Offered: Fall, Spring.

PSY 262 Positive Psychology
3 cr. hrs. 3 periods (3 lec.)
An introduction to research, theory and intellectual history of positive psychology. Overview and application of psychological principles relevant to the nature of happiness and psychological well-being as opposed to dysfunction and symptoms of mental disorders. Includes research methods, authenticity, happiness, mindfulness, positive interventions, emotional intelligence, character strengths, creativity, and core values and virtues.
Prerequisite(s): PSY 101 with a C or better.
Offered: Fall, Spring.

PSY 270 Meditation
3 cr. hrs. 3 periods (3 lec.)
Theoretical principles and selected traditions of meditation self-awareness. Includes principles and techniques of meditation, meditation traditions, literature of meditation, meditation arts, and psychology and physiology of meditation.
Information: Same as HUM 270.
Offered: May not be offered this year, check class schedule.
PSY 289 Psychology Research Methods
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to scientific methodologies used in psychological research. Includes experience in using a range of psychological research methods for students.
Prerequisite(s): PSY 100A and 100B, or PSY 101; and PSY 230 and WRT 101 with a grade of C or better.
Recommendation: Designed for students planning to major or minor in psychology.
Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.
Offered: Fall, Spring.

ROTC - Air Force
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MLA 100 Foundations of Air Force I
2 cr. hrs. 2 periods (2 lec.)
Foundations of the United States Air Force I is the first half of a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.
Information: United States Air Force Reserve Officers’ Training Corps (AFROTC) Cadets must attend a Leadership seminar on Tuesday and Thursday from 6:45 A.M. to 7:45 A.M. Course offered in cooperation with the University of Arizona.
Offered: Fall.

MLA 101 Foundation of the Air Force II
2 cr. hrs. 2 periods (2 lec.)
Foundations of the United States Air Force II is the second half of a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.
Information: United States Air Force Reserve Officers’ Training Corps (AFROTC) Cadets must attend a Leadership seminar on Tuesday and Thursday from 6:45 A.M. to 7:45 A.M. Course offered in cooperation with the University of Arizona.
Offered: Spring.

MLA 110 Military Aerospace Physical Training Program
1 cr. hrs. 2 periods (2 lab)
Introduction to the Air Force physical training program. Includes attention to the group’s physical ability, emphasis on individual physical abilities, and gradual increase to a higher level of physical fitness. Also includes establishment of goals and standards for conduct in physical training, and prepares the student to pass the Air Force Physical Fitness Assessment (AF PFA).
Information: Initial dates for the AF PFA will be determined the first week of class and identified in the cadet wing calendar.
Offered: Fall, Spring.

MLA 200 Evolution of USAF Air and Space Power I
2 cr. hrs. 2 periods (2 lec.)
Evolution of USAF Air and Space Power I is the first half of a survey course that features topics on Air Force heritage and leaders. Includes introduction to air power through examination of the Air Force Core Functions; and application of communication skills. Course purpose is to instill an appreciation of the development and employment of air power and to motivate second year students to transition from Air Force Reserve Officers’ Training Corps (AFROTC) Cadet to Air Force ROTC Officer Candidate.
Information: United States Air Force Reserve Officers’ Training Corps (AFROTC) Cadets must attend a Leadership seminar on Tuesday and Thursday from 6:45 A.M. to 7:45 A.M. Course offered in cooperation with the University of Arizona.
Offered: Fall.

MLA 201 Evolution USAF Air and Space Power II
2 cr. hrs. 2 periods (2 lec.)
Evolution of USAF Air and Space Power II is the second half of a survey course that features topics on Air Force heritage and leaders. Includes introduction to air power through examination of the Air Force Core Functions; and application of communication skills. Course purpose is to instill an appreciation of the development and employment of air power and to motivate second year students to transition from Air Force Reserve Officers’ Training Corps (AFROTC) Cadet to Air Force ROTC Officer Candidate.
Information: United States Air Force Reserve Officers’ Training Corps (AFROTC) Cadets must attend a Leadership seminar on Tuesday and Thursday from 6:45 A.M. to 7:45 A.M. Course offered in cooperation with the University of Arizona.
Offered: Spring.
ROTC - Army

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

MLS 100 Introduction to Military Skills I
3 cr. hrs. 3 periods (3 lec.)
Introduction to Army leadership and the Reserve Officers’ Training Corps (ROTC) program. Includes role of the U.S. Army, principles and techniques of applied leadership, customs, traditions and military courtesy, basic marksmanship, first aid, land navigation, and small-unit tactics.
Information: Course offered in cooperation with the University of Arizona. Field trip may be required to Ft. Huachuca, AZ. Offered: Fall.

MLS 101 Introduction to Military Skills II
3 cr. hrs. 3 periods (3 lec.)
Continuation of MLS 100. Introduction to Army leadership and the Reserve Officers’ Training Corps (ROTC) program. Includes U.S. Army tactical concepts such as map reading, land navigation, and general operations. Also includes Adaptive Leader Methodology (ALM) and development of leader character presence, intellect, and intelligence.
Prerequisite(s): MLS 100 with a C or better.
Information: Course offered in cooperation with the University of Arizona. Field trip may be required to Ft. Huachuca, AZ. Prerequisite(s) may be waived with consent of instructor. Offered: Spring.

MLS 102 Army Physical Training
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)
Introduction to the importance of physical fitness and its life long benefits. Includes physical conditioning, establishing goals and setting standards for physical training.
Offered: Fall, Spring.

MLS 103 Ranger Challenge
1 cr. hrs. 2 periods (2 lab)
Introduction to the basic military skills needed to complete the ranger challenge. Includes individual fitness training, team building skills, self-discipline, and conditioning.
Offered: May not be offered this year, check class schedule.

MLS 200 Army Leadership Dynamics I
3 cr. hrs. 3 periods (3 lec.)
Foundations of tactical leadership strategies and styles. Includes development of attributes and core leadership competencies of Army rank, structure, and duty. Also includes personal motivation and team building through planning, executing, assessing team exercises, and leadership sessions.
Prerequisite(s): MLS 100 and 101 with a C or better.
Information: Course offered in cooperation with the University of Arizona. Field trip may be required to Ft. Huachuca, AZ. Prerequisite(s) may be waived with consent of instructor.
Offered: Fall.

MLS 201 Army Leadership Dynamics II
3 cr. hrs. 3 periods (3 lec.)
Continuation of MLS 200. Foundations of tactical leadership strategies and styles. Includes challenges of leading tactical teams in the operational environment; dynamics of adaptive leadership in military operations; and development of individual leadership styles. Also includes self-awareness, communications, and team building skills.
Prerequisite(s): MLS 200 with a C or better.
Information: Course offered in cooperation with the University of Arizona. Field trip may be required to Ft. Huachuca, AZ. Prerequisite(s) may be waived with consent of instructor.
Offered: Spring.

MLS 296 Independent Study in Military Science
3 cr. hrs. 3 periods (2 lec., 1 lab)
Advanced level study in leadership, values and ethics, personal development, officership, tactics and techniques, and effective writing. Includes topics that contribute to the development of professional and proficient cadets and officers.
Information: Course offered in cooperation with the University of Arizona.
See an instructor before enrolling in this course.
Offered: May not be offered this year, check class schedule.
ROTC - Navy

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

NSP 100 Naval Laboratory I
1 cr. hrs. 2 periods (2 lab)
Overview of the Naval service. Includes drill and ceremonies, physical fitness, cruise preparation, sail training, safety awareness, and personal finances. Also includes applied exercises in naval ship systems, navigation, naval operations, naval administration, and military justice.
Information: Acceptance into the Navy Reserve Officers’ Training Corps (ROTC) program at the University of Arizona is required before enrolling in this course.
Offered: Spring.

NSP 101 Introduction to Naval Science
3 cr. hrs. 3 periods (3 lec.)
Provides the general military information required of a junior officer in the naval service by introducing structure, mission, and long held customs and traditions. Includes a brief description of each community within the Navy, an outline of Military Law as it applies to the junior officer, sea power and its implications, and shipboard damage control and safety.
Information: Acceptance into the Navy Reserve Officers’ Training Corps (ROTC) program at the University of Arizona is required before enrolling in this course.
Offered: Fall.

NSP 102 Naval Ship Systems I
3 cr. hrs. 3 periods (3 lec.)
Overview of naval ship systems engineering. Includes the fundamentals of ship construction, stability, damage control and repair, basic thermodynamics, and steam and nuclear propulsion systems.
Information: Acceptance into the Navy Reserve Officers’ Training Corps (ROTC) program at the University of Arizona is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

NSP 103 Naval Laboratory I (Marine Option)
2 cr. hrs. 4 periods (4 lab)
Overview of drill and physical readiness requirements for Marines. Includes topics, such as drill and ceremonies, physical fitness, Officer Candidate School (OCS) preparation, Land Navigation training, safety awareness, general military subjects, and applied field exercises in Marine Corps small unit.
Information: Acceptance into the Navy Reserve Officers’ Training Corps (ROTC) program (Marine Option) at the University of Arizona is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

NSP 110 Navy/Marine Physical Training
1 cr. hrs. 2 periods (2 lab)
Introduction to Navy and Marine Corps physical training. Includes physical fitness and physical leadership through running, swimming, calisthenics, circuit training, obstacle course, and team-effort events. Also includes establishment of goals and standards for conduct in physical training, and prepares the student to pass the Navy Personal Fitness Assessment (PFA) or the Marine Corps Physical Fitness Test (PFT) and Combat Fitness Test (CFT).
Information: Acceptance into the Navy Reserve Officers’ Training Corps (ROTC) program (Marine Option) at the University of Arizona is required before enrolling in this course.
Course offered in cooperation with the University of Arizona. A final physical fitness test will be run during the last month of the course.
Offered: Fall, Spring.
NSP 201 Naval Ship Systems II
3 cr. hrs. 3 periods (3 lec.)
Introduction to the basic concepts in detection, tracking, and destruction of enemy forces. Emphasis will be placed on the fundamentals of weapon systems theory, principles, and application. Discussion of past, present, and future weapons will be included to understand the evolution of weapons systems components and their applications.
Information: Acceptance into the Navy Reserve Officers' Training Corps (ROTC) program (Marine Option) at the University of Arizona is required before enrolling in this course.
Course offered in cooperation with the University of Arizona.
Offered: Spring.

NSP 202 Sea Power and Maritime Affairs
3 cr. hrs. 3 periods (3 lec.)
United States (U.S.) Naval history from the American Revolution to the present. Includes the general concept of sea power, the role of various warfare components of the Navy in supporting its mission, the implementation of sea power as an instrument of national policy, and a comparative study of U.S. and Soviet naval strategies.
Information: Acceptance into the Navy Reserve Officers' Training Corps (ROTC) program (Marine Option) at the University of Arizona is required before enrolling in this course.
Course offered in cooperation with the University of Arizona.
Offered: Spring.

Radiologic Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

RAD 170 Medical Imaging Fundamentals
2 cr. hrs. 2 periods (2 lec.)
Principles of radiographic imaging. Includes orientation, production of diagnostic radiation, image formation, ethics and professionalism, patient care and management, and radiographic positioning of the abdomen and chest.
Corequisite(s): RAD 170LB
Information: Consent of program faculty is required before enrolling in this course.
This course is open only to those students who have been admitted to the RAD program and who have attended the program orientation.
Offered: Summer.

RAD 170LB Medical Imaging Fundamentals Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of RAD 170.
Corequisite(s): RAD 170
Offered: Summer.

RAD 171 Radiographic Positioning I
3 cr. hrs. 3 periods (3 lec.)
Overview of radiographic procedures. Includes radiographic positions of the abdomen, chest, upper extremities, shoulder girdle, and lower extremities. Also includes standard terms, positioning considerations for routine and special radiographic procedures, image critique, patient safety, assessment, and pertinent pathology.
Prerequisite(s): RAD 170/170LB.
Corequisite(s): RAD 171LB, RAD 172, RAD 172LB, RAD 173LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall.

RAD 171LB Radiographic Positioning I Lab
1.5 cr. hrs. 4.5 periods (4.5 lab)
This is the lab portion of RAD 171.
Corequisite(s): RAD 171, RAD 172, RAD 172LB, RAD 173LC
Offered: Fall.
RAD 172 Medical Imaging Technology I
3 cr. hrs. 3 periods (3 lec.)
Introduction to the principles of x-ray production. Includes radiographic imaging orientation, matter and the atom, mass and energy, basic electricity, formulation of x-ray techniques and technique chart, and x-ray tubes. Also includes diagnostic x-ray systems, as low as reasonably achievable (ALARA) guidelines, and kilovoltage, milliamperage, and milliamperage second.
Prerequisite(s): RAD 170/170LB.
Corequisite(s): RAD 171, RAD 171LB, RAD 172LB, RAD 173LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall.

RAD 172LB Medical Imaging Technology I Lab
.5 cr. hrs. 1.5 periods (1.5 lab)
This is the lab portion of RAD 172.
Prerequisite(s): RAD 170/170LB.
Corequisite(s): RAD 171, RAD 171LB, RAD 172, RAD 173LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall.

RAD 173LC Clinical Education I
6 cr. hrs. 24 periods (24 lab)
Introduction to the first clinical practicum. Includes clinical site orientation, basic operation of radiographic equipment, patient care, exam protocols and review of department policies. Also includes upper and lower extremities, chest, and abdomen radiographic exams.
Prerequisite(s): RAD 170/170LB.
Corequisite(s): RAD 171, RAD 171LB, RAD 172, RAD 172LB
Information: Consent of program faculty is required before enrolling in this course.
Information: Competency-based assignments, concepts of patient-centered clinical practice and professional development shall be discussed, examined, performed and evaluated under the supervision of a certified Radiologic Technologist.
The clinical practicum incorporates critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of radiographic procedures.
Offered: Fall.

RAD 174 Radiographic Positioning II
3 cr. hrs. 3 periods (3 lec.)
Continuation of RAD 171. Includes routine and special positioning of the pelvis, hips, SI joints, boney thorax, and vertebral column. Also includes pediatric radiography, trauma/surgical mobile radiography, and related osseous system pathology.
Prerequisite(s): RAD 171/171LB, 172/172LB and 173LC.
Corequisite(s): RAD 174LB, RAD 175, RAD 175LB, RAD 176LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Spring.

RAD 174LB Radiographic Positioning II Lab
1.5 cr. hrs. 4.5 periods (4.5 lab)
This is the lab portion of RAD 174.
Corequisite(s): RAD 174, RAD 175, RAD 175LB, RAD 176LC
Offered: Spring.

RAD 175 Medical Imaging Technology II
3 cr. hrs. 3 periods (3 lec.)
Continuation of RAD 172/172LB. Includes cones, diaphragms, and collimators; grids, magnetism and electromagnetism, x-ray generators, technical factor calculations, automatic exposure control, and x-ray detection devices. Also includes equipment accuracy regulations, digital imaging, and mobile radiography and fluoroscopy.
Prerequisite(s): RAD 171/171LB, 172/172LB and 173LC.
Corequisite(s): RAD 174, RAD 174LB, RAD 175LB, RAD 176LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Spring.
RAD 175LB Medical Imaging Technology II Lab  
.5 cr. hrs. 1.5 periods (1.5 lab)  
This is the lab portion of RAD 175.  
Prerequisite(s): RAD 171/171LB, 172/172LB and 173LC.  
Corequisite(s): RAD 174, RAD 174LB, RAD 175, RAD 176LC  
Information: Consent of program faculty is required before enrolling in this course.  
Offered: Spring.

RAD 176LC Clinical Education II  
6 cr. hrs. 24 periods (24 lab)  
Continuation of RAD 173LC. Includes routine and special radiographic procedures, trauma and mobile radiography, osseous pathology, and pediatric radiography.  
Prerequisite(s): RAD 171/171LB, 172/172LB and 173LC.  
Corequisite(s): RAD 174, RAD 174LB, RAD 175, RAD 175LB  
Information: Consent of program faculty is required before enrolling in this course.  
Information: Competency-based assignments, concepts of patient-centered clinical practice and professional development shall be discussed, examined, performed and evaluated under the supervision of a certified Radiologic Technologist.  
The clinical practicum incorporates critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of radiographic procedures.  
Offered: Spring.

RAD 177LC Clinical Education III  
6 cr. hrs. 24 periods (24 lab)  
Continuation of RAD 176LC. Includes routine and special radiographic procedures, mobile radiography, emergency department procedures, and observation and assisting in fluoroscopic procedures.  
Prerequisite(s): RAD 174/174LB, 175/175LB and 176LC.  
Information: Consent of program faculty is required before enrolling in this course.  
Information: Competency-based assigned, concepts of patient-centered clinical practice and professional development shall be discussed, examined, performed and evaluated under the supervision of a certified Radiologic Technologist.  
The clinical practicum incorporates critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of radiographic procedures.  
Offered: Summer.

RAD 181 Radiographic Positioning III  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of RAD 174. Includes radiographic positioning and fluoroscopic procedures of the urinary system, pharmacodynamics of radiopaque contrast media, intravenous drug administration technique (venipuncture), the digestive system, and the biliary system.  
Prerequisite(s): RAD 174/174LB and 177LC.  
Corequisite(s): RAD 181LB, RAD 182, RAD 183LC  
Information: Consent of program coordinator is required before enrolling in this course.  
Offered: Fall.

RAD 181LB Radiographic Positioning III Lab  
1 cr. hrs. 3 periods (3 lab)  
This is the lab portion of RAD 181.  
Corequisite(s): RAD 181, RAD 182, RAD 183LC  
Offered: Fall.

RAD 182 Medical Imaging Technology III  
3 cr. hrs. 3 periods (3 lec.)  
Continuation of RAD 175. Includes image intensification, digital fluoroscopy, special imaging procedures, principles of conventional film processing, other imaging modalities, and professional roles and behaviors.  
Prerequisite(s): RAD 175/175LB, 177LC.  
Corequisite(s): RAD 181, RAD 181LB, RAD 183LC  
Information: Consent of program faculty is required before enrolling in this course.  
Offered: Fall.
RAD 183LC Clinical Education IV
4 cr. hrs. 16 periods (16 lab)
Continuation of RAD 177LC. Includes diagnostic and fluoroscopic equipment and procedures, contrast media policies and protocols, intravenous administration, and gastrointestinal, genitourinary, and biliary exams.
Prerequisite(s): RAD 177LC.
Corequisite(s): RAD 181, RAD 181LB, RAD 182
Information: Consent of program faculty is required before enrolling in this course.
Information: Competency-based assignments, concepts of patient-centered clinical practice and professional development shall be discussed, examined, performed and evaluated under the supervision of a certified Radiologic Technologist.
The clinical practicum incorporates critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of radiographic procedures.
Offered: Fall.

RAD 184 Radiographic Positioning IV
3 cr. hrs. 3 periods (3 lec.)
Continuation of RAD 181. Includes routine skull, sinuses, facial bone radiographs and radiation biology.
Prerequisite(s): RAD 181/181LB, 182, 183LC.
Corequisite(s): RAD 184LB, RAD 185, RAD 186LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Spring.

RAD 184LB Radiographic Positioning IV Lab
.5 cr. hrs. 1.5 periods (1.5 lab)
This is the lab portion of RAD 184
Prerequisite(s): RAD 181/181LB, 182, 183LC.
Corequisite(s): RAD 184, RAD 185, RAD 186LC
Information: Consent of program faculty is required before enrolling in this course.
Offered: Spring.

RAD 185 Clinical Seminar
2.5 cr. hrs. 2.5 periods (2.5 lec.)
This is a capstone course. Includes review of radiographic procedures and exams, image acquisition and evaluation, patient care, equipment operation/maintenance/quality control, radiation protection and safety, and completion of registry mock exams.
Prerequisite(s): RAD 181/181LB, 182, 183LC.
Corequisite(s): RAD 184, RAD 184LB, RAD 186LC
Information: Consent of program faculty is required before enrolling in this course.
This is a capstone course which includes review of program curriculum and instruction in applying to the American Registry of Radiologic Technology (AART) and the Medical Radiologic Technology Board of Examiners (MRTBE). The course includes review sessions, written mock registry and multiple computerized exams.
Offered: Spring.

RAD 186LC Clinical Education V
6 cr. hrs. 24 periods (24 lab)
Continuation of RAD 183LC. Includes skull and facial bones radiographic procedures, and advanced modality rotations.
Prerequisite(s): RAD 181/181LB, 182, 183LC.
Corequisite(s): RAD 184, RAD 184LB, RAD 185
Information: Consent of program faculty is required before enrolling in this course.
Competency-based assignments, concepts of patient-centered clinical practice and professional development shall be discussed, examined, performed and evaluated under the supervision of a certified Radiologic Technologist.
The clinical practicum incorporates critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of radiographic procedures.
Offered: Spring.
**Reading**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**REA 071 Reading Fundamentals**
4 cr. hrs. 4 periods (4 lec.)
Development of fundamental reading strategies. Includes extensive development of word analysis, vocabulary, information literacy, and reading strategies necessary to assure successful comprehension at the literal and interpretive levels.

*Information: Designed for persons who need an intensive review of the basic reading strategies.*

*Offered: Fall, Spring.*

**REA 075 Spelling**
2 cr. hrs. 2 periods (2 lec.)
Development of strategies for improving spelling. Includes basics of the English spelling system and spelling rules.

*Information: May be taken two times for a maximum of four credit hours.*

*Offered: May not be offered this year, check class schedule.*

**REA 081 Reading Improvement I**
4 cr. hrs. 4 periods (4 lec.)
Improvement of basic reading strategies. Includes development of word analysis, vocabulary, information literacy, and reading strategies necessary to assure successful comprehension at the literal level and interpretive levels.

*Prerequisite(s): REA 071 with a C or better or required score on Reading assessment test.*

*Information: Designed for persons who need to improve strategies in order to increase their success in college. Information: May be taken two times for a maximum of eight credit hours.*

*Offered: Fall, Spring, Summer.*

**REA 091 Reading Improvement II**
4 cr. hrs. 4 periods (4 lec.)
Development of reading strategies. Includes vocabulary comprehension, study strategies, metacognition, information literacy, and community of readers.

*Prerequisite(s): REA 081 with a C or better required score on the Reading assessment test.*

*Information: May be taken two times for a maximum of eight credit hours.*

*Offered: Fall, Spring, Summer.*

**REA 112 Critical Reading**
4 cr. hrs. 4 periods (4 lec.)
Development of college reading strategies. Includes comprehension strategies at the college level, critical reading and thinking, information literacy, vocabulary development, and advanced study strategies.

*Prerequisite(s): REA 091 with a C or better (or required score on Reading assessment test) and WRT 070 with a C or better (or placement into WRT 100 or higher).*

*Information: Student may be admitted with instructor recommendation.*

*Offered: Fall, Spring, Summer.*

**REA 112HP Critical Reading for Health Professions**
4 cr. hrs. 4 periods (4 lec.)
Development of college reading strategies. Includes comprehension strategies at the college level, critical reading and thinking, information literacy, vocabulary development, and advanced study strategies.

*Prerequisite(s): REA 091 with a C or better (or satisfactory score on Reading assessment). WRT 070 with a C or better (or placement into WRT 100 or higher).*

*Recommendation: Recommended for students pursuing an associate’s degree in Nursing, Radiologic Technology, Respiratory Therapy or Dental Hygiene Education.*

*Information: Students must obtain consent of an advisor, counselor, or reading instructor before enrolling in this course. Same as REA 112.*

*Offered: Fall, Spring.*
Religion

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

REL 119 Judaism, Christianity, and Islam
3 cr. hrs. 3 periods (3 lec.)
Introduction to the three major western religions. Includes nature of religious belief, development of Judaism, teaching of Judaism, festivals and rituals of Judaism, development of Christianity, teaching of Christianity, Christian festivals and rituals, development of Islam, teachings of Islam, Islamic festivals and rituals, and common heritage, emphasis, and variations of Judaism, Christianity, and Islam.
Offered: Spring.

REL 130 Asian Religions
3 cr. hrs. 3 periods (3 lec.)
Religions of India and the Far East. Includes Hinduism, Buddhism, and East Asian religions.
Offered: Fall, Spring.

REL 140 Philosophy of Religion
3 cr. hrs. 3 periods (3 lec.)
Introduction to Western philosophical methods as applied to religion. Includes philosophical method, nature and meaning of religion and God, classical arguments, faith and reason, theodicy, mysticism, and the impact of religion on ethics, psychology, and law.
Information: Same as PHI 140.
Offered: Fall, Spring.

REL 200 Religion in Popular Culture
3 cr. hrs. 3 periods (3 lec.)
Exploration of the relationship between religion and contemporary society. Includes representation of religion in popular culture, function of religion as popular culture, and conflicts between religion and popular culture. Also includes a focus on popular media, such as movies, television, music, news, advertising, and recreation.
Offered: Fall, Spring, Summer.

REL 220 Old Testament
3 cr. hrs. 3 periods (3 lec.)
Major books of the Old Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.
Offered: Fall, Spring.

REL 221 New Testament
3 cr. hrs. 3 periods (3 lec.)
Major books of the New Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.
Offered: Fall, Spring.

Respiratory Therapy

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

RTH 110 Introduction to Respiratory Care
4 cr. hrs. 4 periods (4 lec.)
Overview of respiratory care. Includes respiratory care and the health care system, computer applications, terms, symbols, and units of measure, patient safety, communication, and record keeping, demonstration of basic life support, principles of infection control, ethical and legal implications of practice, cultural sensitivity in health care, and disaster preparedness.
Corequisite(s): RTH 112, RTH 121, RTH 121LB, RTH 125LC
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Fall
**RTH 112 Respiratory Physiology**  
4 cr. hrs. 4 periods (4 lec.)  
Study of the cardiopulmonary system and associated structures. Includes the anatomy of the respiratory system, ventilation and diffusion of pulmonary gases, the circulatory system, oxygen and carbon dioxide transport, control of ventilation, and renal failure and its effects on the cardiopulmonary system.  
Prerequisite(s): BIO 160.  
Corequisite(s): RTH 110, RTH 121, RTH 121LB, RTH 125LC  
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Fall  

**RTH 121 Basic Therapeutics**  
4 cr. hrs. 4 periods (4 lec.)  
Basic respiratory care therapeutics, equipment function, clinical indications and contraindications. Includes medical gas therapy, oxygen delivery devices, humidity and aerosol therapy, hyperinflation therapy, chest physical therapy, and basic airway management.  
Corequisite(s): RTH 110, RTH 112, RTH 121LB, RTH 125LC  
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Fall  

**RTH 121LB Basic Therapeutics Lab**  
1 cr. hrs. 3 periods (3 lab)  
This is the Lab portion of RTH 121.  
Corequisite(s): RTH 110, RTH 112, RTH 121, RTH 125LC  
Information: Students must be admitted to the Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Fall  

**RTH 123 Basic Assessment and Monitoring**  
3 cr. hrs. 3 periods (3 lec.)  
Study of patient assessment and monitoring of the cardiopulmonary impaired patient. Includes bedside respiratory assessment, clinical laboratory studies assessment, oxygenation and ventilation, pulmonary function measurements, clinical application of chest radiography, and basic interpretation of electrocardiogram tracing.  
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.  
Corequisite(s): RTH 123LB, RTH 124, RTH 135LC, RTH 162, RTH 246  
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Spring.  

**RTH 123LB Basic Assessment and Monitoring Lab**  
1 cr. hrs. 3 periods (3 lab)  
This is the Lab portion of RTH 123.  
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.  
Corequisite(s): RTH 123, RTH 124, RTH 135LC, RTH 162, RTH 246  
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Spring.  

**RTH 124 Pharmacology for Respiratory Care**  
3 cr. hrs. 3 periods (3 lec.)  
Principles of pharmacology and drug receptor theory as it relates to patients with cardiopulmonary disease. Includes general principles of pharmacology, drug dose calculations, central and peripheral nervous system, bronchodilators, drugs used to control airway mucus and edema, and drugs used in the management of ventilator patients and patients with cardiorespiratory disorders.  
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.  
Corequisite(s): RTH 123, RTH 123LB, RTH 135LC, RTH 162, RTH 246  
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.  
Offered: Spring.
**RTH 125LC Clinical Procedures I**
1 cr. hrs. 4 periods (4 lab)
Clinical application of all prerequisite and concurrent respiratory care course work. Includes hospital/clinical site orientations, review of hospital respiratory department administration, departmental policies, procedures, reporting system, and medical record data entry, utilization of the medical record to retrieve information, therapist observation, medical gas therapy, and patient assessment and monitoring. Also includes aerosol therapy administration, hyperinflation therapy, evaluation of the effectiveness of therapy, and patient care plans.
Corequisite(s): RTH 110, RTH 112, RTH 121, RTH 121LB
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Spring.

**RTH 135LC Clinical Procedures II**
3 cr. hrs. 12 periods (12 lab)
Continuation of RTH 125. Includes infection control procedures, medical asepsis, equipment disinfection, and processing, aerosol and humidity therapy, medical gas therapy, IPPB therapy, incentive spirometry, and chest physiotherapy. Also includes airway management and care, basic cardiopulmonary resuscitation, arterial blood gases, and case study presentation.
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.
Corequisite(s): RTH 123, RTH 123LB, RTH 124, RTH 162, RTH 246
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Summer

**RTH 162 Principles of Mechanical Ventilation**
3 cr. hrs. 3 periods (3 lec.)
Introduction to the concepts of mechanical ventilation for the adult patient. Includes establishing the need for mechanical ventilation, non-invasive versus invasive mechanical ventilation, the physiologic basis of ventilatory support, physical principles of positive pressure ventilation, physical assessment of the critically ill patient, interpreting basic waveform graphics, and respiratory monitoring in the intensive care unit.
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.
Corequisite(s): RTH 123, RTH 123LB, RTH 124, RTH 135LC, RTH 246
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Spring.

**RTH 241 Critical Care Therapeutics**
4 cr. hrs. 4 periods (4 lec.)
Study of critical care principles and procedures in the adult patient. Includes airway management, mechanical ventilation waveform graphics, selected adult mechanical ventilators and troubleshooting, care of the mechanically ventilated patient, alternative modes of mechanical ventilation, and home mechanical ventilation.
Prerequisite(s): RTH 123/123LB, 124, 135LC, 162 and 246.
Corequisite(s): RTH 241LB, RTH 243, RTH 243LB, RTH 245LC
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course.
Offered: Fall.

**RTH 241LB Critical Care Therapeutics Lab**
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of RTH 241.
Prerequisite(s): RTH 123/123LB, 124, 135LC, 162 and 246.
Corequisite(s): RTH 241, RTH 243, RTH 243LB, RTH 245LC
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course.
Offered: Fall
RTH 243 Advanced Assessment and Monitoring
4 cr. hrs. 4 periods (4 lec.)
Study of the assessment of the critical respiratory patient. Includes cardiac output assessment, invasive hemodynamic monitoring, assessment of sleep-related breathing disorders, nutritional assessment and the respiratory system, advanced cardiac arrhythmia interpretation, cardiac stress testing, bronchoscopy, and advanced pulmonary function testing.
Prerequisite(s): RTH 123/123LB, 124, 135LC, 162 and 246.
Corequisite(s): RTH 241, RTH 241LB, RTH 243LB, RTH 245LC
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Fall.

RTH 243LB Advanced Assessment and Monitoring Lab
1 cr. hrs. 3 periods (3 lab)
This is the lab portion of RTH 243.
Prerequisite(s): RTH 123/123LB, 124, 135LC, 162 and 246.
Corequisite(s): RTH 241, RTH 241LB, RTH 243, RTH 245LC
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Fall.

RTH 245LC Clinical Procedures III
4 cr. hrs. 16 periods (16 lab)
Continuation of RTH 135LC. Includes clinical assessment of the critical care patient, advanced airway management, advanced respiratory assessment monitoring, adult mechanical ventilation, transport of the critically ill patient, and care decisions in mechanically ventilated adult patients. Also includes hemodynamic assessment of the critically ill patient, observation in various respiratory care delivery environments, interaction with medical director, and case study presentation.
Prerequisite(s): RTH 123/123LB, 124, 135LC, 162 and 246.
Corequisite(s): RTH 241, RTH 241LB, RTH 243, RTH 243LB
Information: Students must be admitted to the Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Fall.

RTH 246 Cardiorespiratory Disorders I
3 cr. hrs. 3 periods (3 lec.)
Study of commonly encountered respiratory disorders in the adult patient. Includes infectious pulmonary diseases, obstructive pulmonary disease, traumatic injuries of the lungs and chest, pulmonary vascular diseases and disorders of the pleura and chest wall, and various important cardiopulmonary topics.
Prerequisite(s): RTH 110, 112, 121/121LB and 125LC.
Corequisite(s): RTH 123, RTH 123LB, RTH 124, RTH 135LC, RTH 162
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Fall.

RTH 251 Specialty Therapeutics
4 cr. hrs. 4 periods (4 lec.)
Study of respiratory therapies used in specialized environments. Includes development and care of the fetus, care of the neonatal and pediatric patient, management of ventilation and oxygenation in the neonatal and pediatric patient, transport, home care, and care of the parents, pulmonary rehabilitation, and advanced cardiorespiratory care therapies.
Prerequisite(s): RTH 241/241LB, 243/243LB and 245LC.
Corequisite(s): RTH 251LB, RTH 255LC, RTH 256, RTH 257LB
Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Spring.
**RTH 251LB Specialty Therapeutics Lab**
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of RTH 251.
Prerequisite(s): RTH 241/241LB, 243/243LB and 245LC.
Corequisite(s): RTH 251, RTH 255LC, RTH 256, RTH 257LB

Information: Students must be admitted to the PCC Respiratory Care program and obtain consent of the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Spring.

**RTH 255LC Clinical Procedures IV**
4 cr. hrs. 16 periods (16 lab)
Continuation of RTH 245. Includes clinical assessment, advanced airway management and advanced respiratory assessment monitoring of the neonatal/pediatric patient, mechanical ventilation and care decisions for the adult and neonatal/pediatric patient, observation and participation in various respiratory care delivery environments, and case study presentation preparation.
Prerequisite(s): RTH 241/241LB, 243/243LB and 245LC.
Corequisite(s): RTH 251, RTH 251LB, RTH 256, RTH 257LB

Information: Students must be admitted to the PCC Respiratory program and obtain consent of the Respiratory Care department before enrolling in this course.
Offered: Spring.

**RTH 256 Cardiorespiratory Disorders II**
3 cr. hrs. 3 periods (3 lec.)
Continuation of RTH 246. Includes neuromuscular disorders affecting ventilation, neoplastic diseases of the lung and environmental lung diseases. Also includes assessment of the developing fetus and the neonate, cardiovascular disorders and congenital anomalies of the newborn, cardiopulmonary disorders of the newborn, and pediatric cardiopulmonary disorders.
Prerequisite(s): RTH 241, 243, 245 and 246.
Corequisite(s): RTH 251, RTH 251LB, RTH 255LC, RTH 257LB

Information: Students must be admitted to the PCC Respiratory program and obtain consent of the Respiratory Care department before enrolling in this course.
Offered: Spring.

**RTH 257LB Clinical Applications and Professional Development**
1 cr. hrs. 4 periods (4 lab)
Completion of clinical application projects. Includes preparation of resumes, review for and completion of computerized self-assessment exams for credentialing, and interaction with licensure and national credentialing organizations. Also includes participation in a respiratory related service learning project and professional development through shared reporting.
Prerequisite(s): RTH 241/241LB, 243/243LB and 245LC.
Corequisite(s): RTH 251, RTH 251LB, RTH 255LC, RTH 256

Information: Students must be admitted to the PCC Respiratory Care program and obtain consent from the Respiratory Care department before enrolling in this course. See a faculty advisor prior to enrollment.
Offered: Spring.

**RTH 295 Independent Research in Respiratory Therapy**
.5-4 cr. hrs. 1.5-12 periods (1.5-12 lab)
Experience in scientific laboratory or field research in respiratory therapy.

Information: This course is open only to those students who have been admitted to the RTH program.
Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of twelve credit hours.
Offered: Summer.
Russian

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

RUS 101 Elementary Russian I
4 cr. hrs. 4 periods (4 lec.)
Introduction to the Russian language. Includes Cyrillic alphabet, greetings, gender, readings, communications, and activities.
Offered: Fall, Spring, Summer.

RUS 102 Elementary Russian II
4 cr. hrs. 4 periods (4 lec.)
Continuation of RUS 101. Includes grammar and vocabulary, housing and furniture, family and professions, shopping, money and measurements, and biographies of people.
Prerequisite(s): RUS 101.
Information: Prerequisite(s) may be waived with one year of high school Russian. See an instructor.
Offered: Fall, Spring, Summer.

RUS 201 Intermediate Russian I
4 cr. hrs. 4 periods (4 lec.)
Continuation of RUS 102. Includes grammar review, plural case endings, prepositional/accusative cases, weather and climate, and reflexive verbs.
Prerequisite(s): RUS 102.
Information: Prerequisite(s) may be waived with two years of high school Russian. See an instructor.
Offered: May not be offered this year, check class schedule.

RUS 202 Intermediate Russian II
4 cr. hrs. 4 periods (4 lec.)
Continuation of RUS 201. Includes grammar review, sports terms, health care terms, postal system, traveling in Russia, and etiquette.
Prerequisite(s): RUS 201.
Offered: May not be offered this year, check class schedule.

Science Summer Career Academy

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SCA 100EP Career Choices in STEM: Physics and Engineering
2 cr. hrs. 2 periods (2 lec.)
Introduction and exploration of the various careers available in engineering and physics. Includes college preparation, university transfer skills, developing a career goal and educational action plan, interviewing strategies and practices, and the fundamentals of physics, engineering, and mathematics.
Offered: Summer.

SCA 100ST Career Choices in STEM: Science
2 cr. hrs. 2 periods (2 lec.)
Introduction and exploration of the various careers available in science. Includes college preparation, university transfer skills, developing a career goal and educational action plan, interviewing strategies and practices, and the fundamentals of chemistry, biology, geology, and mathematics.
Offered: Summer.
Science for Teachers

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SCT 280 Process of Science for Elementary Educators I
3 cr. hrs. 3 periods (3 lec.)
Interdisciplinary, hands-on, inquiry-based science for elementary educators. Includes the nature of science, integrating science in the elementary school classroom, technology and society, matter and energy, the universe, structure of life and organism in their environment.
Prerequisite(s): BIO 105, MAT 142, and one of the following: AST 101/101LB or 101IN, AST 102/102LB or 102IN; CHM 121/121LB or 121IN, CHM 130/130LB or 130IN, CHM 151/151LB or 151IN; GEO 101, GEO 102; GLG 102IN; PHY 115/115LB, PHY 121/121LB or 121IN.
Information: Designed for elementary education majors.
Prerequisite(s) may be waived with Elementary or Secondary Teacher Certification.
Does not meet AGEC requirements for science.
Offered: Fall, Spring.

SCT 281 Process of Science for Elementary Educators II
3 cr. hrs. 3 periods (3 lec.)
Continuation of SCT 280. Includes integrating additional science in the elementary school classroom, human health, human society, applying science and technology, patterns and relationships, historical perspectives, and critical thinking processes.
Prerequisite(s): SCT 280 or 280C.
Information: Designed for elementary education majors.
Prerequisite(s) may be waived with Elementary or Secondary Teacher Certification.
Does not meet AGEC requirements for science.
Offered: Fall, Spring.

Sign Language

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SLG 050 Conversational Sign Language I
3 cr. hrs. 3 periods (3 lec.)
Introduction to conversational sign language skills. Includes basic sign vocabulary, d/Deaf culture, and an overview of communications systems.
Offered: Fall, Spring, Summer.

SLG 055 Conversational Sign Language II
3 cr. hrs. 3 periods (3 lec.)
Continuation of SLG 050. Includes intermediate sign vocabulary, d/Deaf culture, and a focus on developing intermediate skills in sign language.
Information: Completion of SLG 050 or consent of instructor is required before enrolling in this course.
Offered: Fall, Spring.

SLG 101 American Sign Language I
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to American Sign Language (ASL). Includes: parameters; syntax; sentence types; facial expressions and body language; pronominalization; nouns and verbs; modals; sign space; time line and time modulations; classifiers; pluralizations; and deaf history and culture. Also includes: fingerspelling numbers; lexicalized fingerspelling; conceptual accuracy; sign modulation; conversational regulators; basic compounds and contractions; and existence of regional dialects/sign and language variations. Because language and culture are inextricably linked, this course will also demonstrate how ASL conveys the values, beliefs, customs, and history of American Deaf culture.
Information: Students will be required to perform an additional 10 lab hours outside of the regular classroom schedule. This lab experience is designed to 1) provide a "signing only" environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; and 3) provide students with real life exposure to the Deaf community.
Information: This class is conducted primarily without voice.
Offered: Fall, Spring, Summer.
SLG 102 American Sign Language II
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of SLG 101. Includes: parameters; syntax; sentence types; facial expression and body language; sign space; pronominalization; nouns/verbs; time line; classifiers; pluralizations; deaf culture; and fingerspelling numbers. Also includes conceptual accuracy, modulations, sight line, lexicalized fingerspelling, contractions, direct address, conjunctions, model stories, history of sign, language variations, sign continuum, and how people hear. Because language and culture are inextricably linked, this course will also demonstrate how ASL conveys the values, beliefs, customs, and history of American Deaf culture.
Prerequisite(s): SLG 101 with a grade of C or better.
Information: Students will be required to perform ten additional lab hours outside of the regular schedule. The lab experience is designed to 1) provide a “signing only” environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. Information: This class is conducted primarily without voice.
Offered: Fall, Spring, Summer.

SLG 201 American Sign Language III
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of SLG 102. Includes sentence order, modulation/inflection, prosody, sign space usage, conceptual accuracy, sign vocabulary, and deaf culture and history. Because language and culture are inextricably linked, this course will also demonstrate how ASL conveys the values, beliefs, customs, and history of American Deaf culture.
Prerequisite(s): SLG 102 with a grade of C or better.
Information: Students will be required to perform an additional ten lab hours outside of regular classroom schedule. The lab experience is designed to 1) provide a “signing only” environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. Information: This class is conducted primarily without voice.
Offered: Fall, Spring, Summer.

SLG 202 American Sign Language IV
4 cr. hrs. 6 periods (3 lec., 3 lab)
Continuation of SLG 201. Includes: use of sign space; conceptual accuracy; directionality; mimetic description; dialects; numerical applications; American Sign Language (ASL) expansions; English words with no direct ASL translation; English passive voice to ASL active voice; rendering ASL and English passages; current cultural issues; and the field of interpreting. Because language and culture are inextricably linked, this course will also demonstrate how ASL conveys the values, beliefs, customs, and history of American Deaf culture.
Prerequisite(s): SLG 201 with a grade of C or better.
Information: Students will be required to perform an additional ten lab hours outside of regular classroom schedule. The lab experience is designed to 1) provide a “signing only” environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. Information: This class is conducted primarily without voice.
Offered: Fall, Spring.

SLG 296 Independent Study in Sign Language
1-3 cr. hrs. 3-9 periods (3-9 lab)
Exploration of special interest areas in sign language and deaf cultures. Includes extensive practice of sign language skills and in depth study of deaf cultures involving literature, grammar, and special projects under the supervision of the instructor.
Prerequisite(s): SLG 102.
Information: Student must have consent of instructor.
Offered: Fall, Spring, Summer.
Social Services

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**SSE 110 Introduction to Social Welfare**
3 cr. hrs. 3 periods (3 lec.)
Introduction to the social welfare system. Includes historical context, approaches to service delivery, social welfare as an institution, development of the social work profession, practice methods, professional values and code of ethics, private and public funding sources, bureaucratic structures, community resources, and welfare myths and realities. Also includes social problems and special populations, cultural awareness and competency, use of technology, professional organizations, and public policy and future trends.
Offered: Fall, Spring, Summer.

**SSE 111 Group Work**
3 cr. hrs. 3 periods (3 lec.)
Examination of group dynamics using experiential learning. Includes goals, communication patterns, leadership, power and influence, decision-making, conflict resolution, controversy, creativity, problem solving, diversity, and personal growth within groups. Also includes application of concepts through observation, group exercises, and case studies.
Offered: Fall, Spring.

**SSE 121 Study of Substance Use Disorders**
3 cr. hrs. 3 periods (3 lec.)
Introduction to the study of substance use disorders in the United States. Includes history of substance use and historical development of prohibitions, classification and effects of substances, diagnosis and assessment of substance use disorders, theories of addiction and treatment strategies, and funding sources for treatment programs. Also includes cross-cultural perspectives; co-occurring disorders and integrated treatment modalities; treatment interventions; special populations; ethical issues; and education, resources, and prevention.
Offered: Fall, Spring.

**SSE 123 Prevention of Substance Use Disorders**
3 cr. hrs. 3 periods (3 lec.)
Comprehensive review of approaches to prevention of substance use disorders. Includes principles of prevention; risk factors, protective factors, resilience; and systems-oriented and client-oriented prevention strategies. Also includes controversial prevention issues, client-oriented prevention programs and funding, special populations, prevention in the workplace, and program evaluation.
Offered: Fall, Spring.

**SSE 128 Introduction to Behavioral Health**
3 cr. hrs. 3 periods (3 lec.)
Introduction to the behavioral health care system in southern Arizona. Includes providing excellent service, ethics and boundaries, engagement and clinical documentation, introduction to service planning and covered services, management of complex needs, and strength-based behavioral health general assessment training. Also includes demographic data set, court ordered treatment, covered services, behavioral health enhanced assessment training, and clinical training standardized self-study modules.
Offered: Fall, Spring, Summer.

**SSE 140 Domestic Violence: Causes and Cures**
3 cr. hrs. 3 periods (3 lec.)
Overview of historical and contemporary causes of domestic violence. Includes laws and law enforcement, society, populations victimized, and diagnosis and treatment techniques. Also includes community resources, treatment centers, and support groups, cultural awareness, special populations at risk, and theories explaining the prevalence of domestic violence.
Offered: Spring.

**SSE 146 Child Abuse Intervention and Protection**
3 cr. hrs. 3 periods (3 lec.)
Overview of the scope and nature of child abuse and neglect. Includes child abuse from historical and cultural perspectives, context of the family and child development, analyzing dynamics, identifying symptoms and assessing risks, short-term and long-term effects of child abuse, intervention and the roles of professionals, and prevention management of child abuse cases.
Offered: Fall.
SSE 154 Nutrition
3 cr. hrs. 3 periods (3 lec.)
Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.
Information: Same as FSN 154.
Offered: Fall, Spring.

SSE 160 Introduction to Youth Services
3 cr. hrs. 3 periods (3 lec.)
Introduction to the field of youth services as offered through voluntary youth organizations, social service and child welfare agencies, juvenile detention and correctional agencies and community health care agencies. Includes youth services for children, dependent children, delinquent children, challenged and special needs youth, and practice issues and prevention in youth services.
Offered: Fall.

SSE 170 Community Health Advisor
3 cr. hrs. 3 periods (3 lec.)
Preparation of Community Health Advisors for outreach disease prevention, advocacy, education, and referral services within prescribed communities. Includes national and local history of community health work programs, overview of the health services system, communication and relationship building skills, coping with stress, personal health, building self-esteem, and dealing with feelings. Also includes presentation skills, using support materials, interacting with other agencies within the community, managing home visits, dealing with challenging situations, professional issues, and empowering and mobilizing for action.
Offered: Fall.

SSE 204 Counseling in a Multicultural Setting
3 cr. hrs. 3 periods (3 lec.)
Concepts, techniques, and skills in values, perceptions, attitudes, and behaviors emphasizing intercultural communication patterns within a counseling setting. Includes culture and counseling, profiles of Americans, profiles of special populations, differences, cultural elements in counseling, dynamic factors, common terminology, disparities in treatment, counseling, and counseling theories.
Recommendation: Completion of SSE 110 before enrolling in this course. Those students pursuing the Behavioral Health Certificate are highly recommended to complete BHS 132 before enrolling in this course.
Offered: Fall, Spring, Summer.

SSE 205 Case Report Writing
3 cr. hrs. 3 periods (3 lec.)
Introduction to the principles, concepts, techniques and necessary skills to create and maintain case report records. Includes case report writing, report content, ethical and legal issues, current trends in behavioral health case report writing, and cultural competence.
Offered: Fall, Spring.

SSE 210 Community Organization and Development
3 cr. hrs. 3 periods (3 lec.)
An examination, principles, and techniques of community organizing to effect change in America. Includes current conditions, theoretical frameworks, community change, overcoming resistance, professional practice and ethics, promoting neighborhood change, using information technology, planning for action, personal power, and people as a valuable resource. Also includes developing resources and funding, use of the media, community development, principles for effective leadership, strategies for institutional change, and government structure and legislative lobbying.
Prerequisite(s): SSE 110.
Offered: Fall, Spring.

SSE 211 Group Technique Applications
3 cr. hrs. 3 periods (3 lec.)
Application of advanced concepts in group dynamics. Includes skill development and preparation for group facilitation in the community through in-class experiential learning. Also includes community-group case studies, ethical standards, and multicultural issues.
Prerequisite(s): SSE 111.
Offered: Fall, Spring.
SSE 220 Treatment of the Substance Use Disorders
3 cr. hrs. 3 periods (3 lec.)
Principles and techniques of treating substance use disorders. Includes treatment modalities, helping, treatment plans, case studies, withdrawal, and value clarification. Also includes role playing in treatment situations, causes of substance use disorders, and integration of treatment for substance use disorders and case management skills.
Offered: Fall, Spring.

SSE 222 Political, Legal and Ethical Aspects of Substance Use
3 cr. hrs. 3 periods (3 lec.)
Overview of substance use and the law. Includes historical and legal overview, major legislation and court decisions; substances and their effects, substance classification, and the concept of addiction; nature, uses, legal status, and social and economic aspects of the major psychoactive drugs. Also includes attitudes toward substance use and the connection between substance use, crime, and gangs; implications of decriminalization or legalization of substances, international drug trafficking and its effect on U.S. policy and programs, law enforcement, and ethics and ethical practice.
Offered: Fall, Spring.

SSE 224 Substance Use Disorders Among Diverse and
3 cr. hrs. 3 periods (3 lec.)
Special Needs Populations Examination and focus on understanding racial and ethnic differences in the prevalence of substance use disorders. Includes culture and substance use disorders, ethnic and racial groups, profiles of special populations, differences, cultural elements and relationships, dynamic factors, common terminology, counseling, and counseling theories.
Offered: Spring.

SSE 242 Crisis Intervention, Theory and Techniques
3 cr. hrs. 3 periods (3 lec.)
Principles and practice of crisis intervention. Includes crisis intervention theory, skills of crisis intervention, handling specific types of crises, large-scale community crises, crises worker issues and challenges, and community response to crises.
Offered: Spring.

SSE 281 Social Service Delivery Systems
3 cr. hrs. 3 periods (3 lec.)
Study of the social service delivery system. Includes the profession of social work, social work roles, service delivery systems, special and diverse populations, and diversity issues related to service delivery.
Prerequisite(s): SSE 110.
Information: Requires 40 hours of classroom-mediated community agency contact.
Offered: Fall, Spring.

SSE 285 Foundations of Social Work Practice
3 cr. hrs. 3 periods (3 lec.)
Theoretical foundation and skill base for effective culturally competent communication and interviewing with individuals, families, small groups, and larger systems. Includes framework for multicultural understanding and social work practice, interpersonal communication in professional helping relationships, major helping and developmental theories, and personal and professional development.
Prerequisite(s): SSE 281 or concurrent enrollment.
Offered: Fall, Spring.

SSE 289 Topics in Community Involvement
1-6 cr. hrs. 1-6 periods (1-6 lec.)
Direct, constructive student involvement in community problems. Includes social change and community service, action planning, change strategies, mobilizing personal power, team membership, causes of community problems, evaluation procedures, formal and informal community resources, geographic and functional communities, and roles of change agents and community service agents.
Information: Students employed or working as volunteers with agencies or groups may get credit for those activities under this course.
Same as SOC 289.
May be taken two times for a maximum of six credit hours.
Offered: May not be offered this year, check class schedule.
SSE 290 Youth Services Field Experience
4 cr. hrs. 16 periods (1 lec., 15 lab)
Supervised placement in community youth serving agencies. Includes completion of written assignments, regular supervision services with agency supervisors, assistance with resume writing, orientation to agencies in the community, and evaluation of student performance.
Prerequisite(s): SSE 160 and 285.
Recommendation: Consult instructor for alternative prerequisites.
Information: May be taken two times for a maximum of eight credit hours.
Consent of instructor is required before enrolling in this course.
Students complete 225 clock hours of direct service at a youth serving organization during the semester.
Offered: Fall, Spring.

SSE 292 Social Services Field Experience
4 cr. hrs. 16 periods (1 lec., 15 lab)
Supervised placement in community social services agencies. Includes completion of written assignments, regular supervision service with agency supervisors, assistance with resume writing, orientation to agencies in the community, and evaluation of student performance.
Prerequisite(s): SSE 285.
Recommendation: Consult instructor for alternative prerequisites.
Information: May be taken two times for a maximum of eight credit hours.
Consent of instructor is required before enrolling in this course.
Students complete 225 clock hours of direct service at a social service organization during the semester.
Offered: Fall, Spring.

SSE 293 Community Health and Development Field Experience
4 cr. hrs. 16 periods (1 lec., 15 lab)
Community health and development skills practiced and evaluated in community-based health, human service, education and community agencies and settings. Includes supervised placement in an appropriate social service agency or organization, supervisory services and site visits, orientation to community agencies and organizations, field experience evaluation, and classroom seminars.
Prerequisite(s): SSE 170.
Information: Students complete 225 clock hours of direct service at a community health and development organization during the semester.
Offered: Spring.

SSE 296 Independent Study in Social Services
1-3 cr. hrs. 3-9 periods (3-9 lab)
Advanced projects, research and learning in the social services. Content to be determined by conference between student and instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken three times for a maximum of nine credit hours.
Offered: May not be offered this year, check class schedule.

Sociology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SOC 101 Introduction to Sociology
3 cr. hrs. 3 periods (3 lec.)
Introduction to the basic concepts of sociology, sociological analysis and research. Includes social structure, status, social group, social control, social stratification, social class, gender, race, sexuality, ethnicity, aging, learning and physical challenges, family, religion, education, government, health, technology, corporations, terrorism, environmental sustainability, social movements and social change, mass society, and postmodernity. Also includes globalization within and across contemporary societies and cultures.
Offered: Fall, Spring, Summer.
SOC 109 Introduction to Global Studies
3 cr. hrs. 3 periods (3 lec.)
Survey of modern globalization. Includes the study of dimensions of globalization, global organizations, global politics, cultural globalization, the global economy, global environmental independence, and global social movements and counter movements. Also includes global interactions and their current effects on the restructuring of cultural, political, and economic institutions worldwide.
Information: Same as ANT 109 and GLS 109.
Offered: May not be offered this year, check class schedule.

SOC 110 Introduction to Cities and Global Society
3 cr. hrs. 3 periods (3 lec.)
Introduction to the study of the urban environment. Includes exploring the city, city form and city culture, urban diversity, and urban and global dilemmas and possible solutions. Also includes a special emphasis on understanding cities and the impact of globalization at community, national, and international levels.
Offered: May not be offered this year, check class schedule.

SOC 120 Current Social Problems
3 cr. hrs. 3 periods (3 lec.)
Analysis of the causes, effects, and solutions to current social problems. Includes the causes, effects, and the complexity of solutions to current social problems in behavioral variance, inequality, social institutions, and global issues.
Recommendation: Completion of SOC 101 before enrolling in this course.
Offered: Fall, Spring.

SOC 127 Marriage and the Family
3 cr. hrs. 3 periods (3 lec.)
Introduction to the social functions of marriage and the family. Includes structures of marriages and families, relationships, marriage, and transformation of marriage.
Offered: Fall, Spring.

SOC 130 Social World of Drugs
3 cr. hrs. 3 periods (3 lec.)
Introduction to the social aspects of the use and abuse of drugs in the United States. Includes evolution of drug use, pharmacology, social and medical aspects of drugs, the business of drugs, sociological explanations of drug use and abuse, and social issues, policy, and politics.
Recommendation: Completion of SOC 101 before enrolling in this course.
Offered: Fall, Spring.

SOC 140 Sociology of Religion
3 cr. hrs. 3 periods (3 lec.)
Sociological analysis of religion as a social institutional arena. Includes functional versus substantive definitions of religion, methodological stance sociologists take toward religion as an object of study, classical and contemporary theoretical perspectives on religion, major faith traditions, secularization versus fundamentalism, globalization and religion, new religious movements, religion and key social statuses, and religious diversity and change in the U.S.
Offered: Spring.

SOC 166 Social Gerontology
3 cr. hrs. 3 periods (3 lec.)
Introduction to the social aspects of aging and the aged. Includes the concept of the life course, the demographics of a graying United States, myths and facts about aging, sociological theories on aging, historical and cross-cultural analyses of aging, age norms, family patterns in later life, retirement patterns, living environments in later life, the social meaning of death and dying, the economics of aging, the politics of aging, social services for older Americans and religion and aging.
Offered: Spring.

SOC 201 Race, Ethnicity, Minority Groups and Social Justice
3 cr. hrs. 3 periods (3 lec.)
Social processes involved in the construction of difference. Includes race, ethnicity, minority groups, nationality, and social justice. Also includes the analysis of social, political, cultural, religious, economic and historical formations with special reference to current global trends, social conflict, and change.
Offered: Fall, Spring, Summer.
SOC 203 Sociology of Utopia
3 cr. hrs. 3 periods (3 lec.)
Exploration of the idea of utopia and its influence on human societies throughout global history. Includes utopia and social structure, utopias before Christianity, Christian and humanist utopianism, utopian revivals and dystopias, and utopian thinking and social institutions.
Offered: May not be offered this year, check class schedule.

SOC 204 Gender Identities, Interactions and Relations
3 cr. hrs. 3 periods (3 lec.)
Examination of the social structures and processes related to gender in society. Includes sex versus gender, theoretical perspectives, politics past and present, gender and the family, love and marriage, and masculinity. Also includes gender in the workplace, in the media, religion, and medicine, and global perspectives.
Offered: Fall.

SOC 215 Human Sexuality
3 cr. hrs. 3 periods (3 lec.)
Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, sociological, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.
Prerequisite(s): REA 091 with a C or better (or assessment into REA 112).
Recommendation: Completion of PSY 100A or 100B or 101 or SOC 101 before enrolling in this course.
Information: Same as PSY 215.
Offered: Fall, Spring, Summer.

SOC 280 Sociology of Education
3 cr. hrs. 3 periods (3 lec.)
Analysis of the role and purpose of education in society. Includes overview of the education system, social theories of education, cultural theories of educational, policy and school reform, and education for individual and societal change.
Offered: May not be offered this year, check class schedule.

SOC 289 Topics in Community Involvement
3 cr. hrs. 3 periods (3 lec.)
Direct, constructive student involvement in community problems. Includes social change and community service, action planning, change strategies, mobilizing personal power, team membership, causes of community problems, evaluation procedures, formal and informal community resources, geographic and functional communities, and roles of change agents and community service agents.
Information: Students employed or working as volunteers with agencies or groups may get credit for those activities described in this course. Information: Same as SSE 289. Information: May be taken two times for a maximum of 6 credits.
Offered: May not be offered this year, check class schedule.

SOC 296 Independent Study in Sociology
3 cr. hrs. 3 periods (3 lec.)
Exploration of special interest areas. Includes sociological question(s), methodological research design, implementation of viable research, data analysis using sociological theories, and presentation of findings.
Information: Activities determined by conference between student and instructor related to content of this course.
Information: May be taken two times for a maximum of six credit hours.
Offered: May not be offered this year, check class schedule.

Solar Technologies
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SLR 100 Introduction to Photovoltaic Technology
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to photovoltaic (PV) technology. Includes the application of PV technology, basic concepts, safety basics, energy efficient appliances, solar energy fundamentals, solar cell materials, solar cell physics, and connecting solar panels in series and parallel. Also includes testing solar cells and modules, sunlight concentrators, photovoltaic system components, and system financial considerations.
Offered: May not be offered this year, check class schedule.
SLR 101 Beginning Photovoltaic Installation
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to photovoltaic energy and photovoltaic (PV) system installation. Includes markets and applications, safety basics, electricity basics, energy efficient appliances, solar energy fundamentals, photovoltaic materials, module fundamentals, concentrators, system components, system sizing, electrical design, mechanical design, and performance analysis and troubleshooting.
Information: This course specifically provides preparation for the North American Board of Certified Energy Practitioners (NABCEP) Photovoltaic Installer Certification exam.
Offered: Fall, Spring.

SLR 102 Advanced Photovoltaic Installation
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of SHC 101. Includes advanced photovoltaic (PV) energy and system installation training. Also includes safety basics, stand-alone PV system sizing, grid-tied system sizing, National Electric Code (NEC) compliant wire sizing, grounding of PV systems, site analysis and array mounting, and PV system commissioning, troubleshooting, maintenance and performance evaluation.
Information: This course specifically provides preparation for the North American Board of Certified Energy Practitioners (NABCEP) Photovoltaic Installer Advanced Certification exam.
Offered: Fall, Spring.

SLR 103 Introduction to Batteries and Fuel Cells
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to the fundamentals of batteries and fuel cells. Includes history, basic structure and construction, theory of operation, and different types of commercially available batteries and fuel cells. Also includes the basic physics and chemistry related to the operation of these devices, and the electrical properties of the devices when connected in series and in parallel.
Offered: May not be offered this year, check class schedule.

SLR 130 Solar Hot Water Systems
4 cr. hrs. 6 periods (3 lec., 3 lab)
Introduction to solar thermal systems. Includes the types, maintenance, performance, controls, site selection considerations, performance estimating and testing. Also includes related mathematics, copper piping practices, soldering and brazing, basic heat transfer, and basic principles of hydronics.
Prerequisite(s): BCT 106, 111, 112, 113, 114, and 115.
Offered: Spring.

Spanish
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SPA 085 Introductory Spanish
4 cr. hrs. 4 periods (4 lec.)
Beginning Spanish for students with no previous formal study of the language. Includes correct pronunciation, basic grammar and conversation, and common communications such as informal greetings and numbers.
Information: This course is not for transfer, but helps prepare students for success in transferable courses.
Offered: May not be offered this year, check class schedule.

SPA 101 Elementary Spanish I
4 cr. hrs. 4 periods (4 lec.)
Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.
Offered: Fall, Spring, Summer.

SPA 101HC Elementary Spanish I for Healthcare
4 cr. hrs. 4 periods (4 lec.)
Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in a healthcare context.
Information: Same as SPA 101. Emphasis on healthcare-related vocabulary.
Offered: Fall, Spring.
SPA 101HN Elementary Spanish I: Honors
4 cr. hrs. 4 periods (4 lec.)
Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also may include the following Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; “publishable quality”, peer reviewed paper or project in format appropriate for this discipline; presentation of research, in class or to a wider audience.
Information: Must qualify for Honors program.
SPA 101HN will fulfill any SPA 101 requirement.
Faculty or Advisor approval may be required before enrolling in this course.
Offered: Spring.

SPA 101LE Elementary Spanish I for Law Enforcement
4 cr. hrs. 4 periods (4 lec.)
Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in a law enforcement context.
Information: Same as SPA 101. Emphasis on law-enforcement-related vocabulary.
Offered: Fall.

SPA 102 Elementary Spanish II
4 cr. hrs. 4 periods (4 lec.)
Continuation of SPA 101. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication.
Prerequisite(s): SPA 101.
Information: Prerequisite may be waived with one year of high school Spanish. See an instructor, advisor, or counselor.
Offered: Fall, Spring, Summer.

SPA 102HC Elementary Spanish II for Healthcare
4 cr. hrs. 4 periods (4 lec.)
Continuation of SPA 101HC. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication and vocabulary in a healthcare context.
Prerequisite(s): SPA 101.
Information: Same as SPA 102. Emphasis on healthcare-related vocabulary.
Prerequisite may be waived with one year of high school Spanish. See an instructor, advisor, or counselor.
Offered: Fall, Spring.

SPA 102HN Elementary Spanish II: Honors
4 cr. hrs. 4 periods (4 lec.)
Continuation of SPA 101. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication. Also may include the following Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; “publishable quality”, peer reviewed paper or project in format appropriate for this discipline; presentation of research, in class or to a wider audience.
Prerequisite(s): SPA 101.
Information: Must qualify for Honors program.
SPA 102HN will fulfill any SPA 102 requirement.
Prerequisite may be waived with one year of high school Spanish. See an instructor, advisor, or counselor.
Faculty or Advisor approval may be required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

</table>
SPA 206 Advanced Conversation Spanish
4 cr. hrs. 4 periods (4 lec.)
Development of oral communicative techniques and critical thinking skills. Includes communicative skills, complex vocabulary utilization, grammatical structures, and cultural awareness.
Recommendation: Completion of one year of Spanish before enrolling in this course.
Offered: May not be offered this year, check class schedule.

SPA 251 Intermediate Spanish III
3 cr. hrs. 3 periods (3 lec.)
Tools for thinking critically and analytically in Spanish. Includes writing proficiency, reading proficiency, and control of language through lexical and grammatical precision.
Prerequisite(s): SPA 202.
Offered: Fall, Spring.

SPA 253 Intermediate Spanish for Heritage and Bilingual Learners
4 cr. hrs. 4 periods (4 lec.)
Intensive writing and speaking in Spanish for heritage and bilingual learners. Includes intermediate oral communication, complex reading communication, intermediate written communication, and themes in popular and traditional cultures.
Prerequisite(s): SPA 203.
Information: Prerequisites may be waived with ability to speak, read, and write Spanish.
Offered: Fall, Spring.

SPA 254 Interm Grammar/Writing for Span Heritage/Bilingual Learners
3 cr. hrs. 3 periods (3 lec.)
Continuation of SPA 253. Includes intensive grammar and writing for heritage and bilingual learners within a dynamic cultural context. Includes complex intermediate oral communication, intermediate grammar and writing communication, exploration of diversity of culture and customs, and themes in literature.
Prerequisite(s): SPA 253.
Information: Prerequisites may be waived with ability to speak, read, and write Spanish.
Offered: Fall, Spring.

SPA 296 Independent Study in Spanish
1-4 cr. hrs. 1-4 periods (1-4 lec.)
Independent Spanish readings or other projects under the supervision of an instructor.
Information: Consent of instructor is required before enrolling in this course.
May be taken two times for a maximum of eight credit hours.
Offered: May not be offered this year, check class schedule.

Special Education
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

EDS 250 Issues in Special Education
1 cr. hrs. 1 periods (1 lec.)
Overview of issues presented in public schools when special education services are provided to students with disabilities. Includes perspectives which challenge and support the delivery of services and examination of their consequences.
Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.
EDS 251 Legal Issues in Special Education
1 cr. hrs. 1 periods (1 lec.)
An introduction to legal issues in special education. Includes the history of special education law, Section 504 of the Rehabilitation Act, Americans with Disabilities Act, and the purpose, principles and amendments to the Individuals with Disabilities Education Act (IDEA) and its re-authorizations, application of free and appropriate public education to students with disabilities, least restrictive environment mandates. Also includes disciplinary procedures, transition plans, and key themes in legal regulations regarding the disabled.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EDS 252 Understanding Individuals with Disabilities Education Act
1 cr. hrs. 1 periods (1 lec.)
Overview and examination of the Individuals with Disabilities Education Act, 2004, which mandates students with disabilities be provided a free, appropriate public education. Includes an emphasis on the process of eligibility. Also includes the delivery of services to school age children.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EDS 253 Development and Implementation of IEPs
1 cr. hrs. 1 periods (1 lec.)
Overview and examination of an Individualized Education Program (IEP) required components. Includes how IEPs are developed for and utilized in the classroom. The roles and responsibilities of required members of IEP team will be reviewed and analyzed in relation to students, family members, and teachers. Also includes an emphasis on the cycle of creating, reviewing and revising an IEP to reflect the needs of students.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EDS 254 Classroom Management for Special Education
2 cr. hrs. 2 periods (2 lec.)
Overview of skills, methods and strategies for behavior management. Includes a foundation on how to recognize, evaluate, and respond to classroom situations. Also includes how to develop classroom management skills with educators, parents and students, as well as develop a behavior management plan for special needs students.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.

Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
This class requires a 10-hour special education practicum.

Offered: May not be offered this year, check class schedule.

EDS 255 Assistive Technology for Special Education Teachers
3 cr. hrs. 3 periods (3 lec.)
An overview of the assistive technology devices and services that can assist a person with a disability to overcome the functional limitations of the disability. Includes the continuum of assistive technology devices, instructional designs for learning, curriculum adaptation and integration strategies, and assessment and evaluation protocols. Also includes how to make better choices about technology and individual needs.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.

Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: May not be offered this year, check class schedule.

EDS 256 Survey of Special Education
3 cr. hrs. 3 periods (3 lec.)
Overview of special education foundations and issues. Includes special education issues: mental retardation, learning disabilities, Attention Deficit Hyperactivity Disorder (ADHD), emotional and behavioral disorders, gifted and talented, speech and language disorders, hearing and visual impairments, autism, and physical, health, and traumatic brain injuries. Also includes special education history, legislation, family effects, diversity, and educational considerations.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Information: Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: May not be offered this year, check class schedule.
EDS 257 Diagnosis Assessment of Students w/Mild-Moderate Disabilities  
3 cr. hrs. 3 periods (3 lec.)
Concepts, skills, and techniques to diagnose and assess students with learning and mild-moderate disabilities. Includes how to develop screening, pre-referral, eligibility, and placement for individuals with exceptional learning needs skills. Includes an emphasis on informal assessment for instruction and on the introduction of formal assessment for special education eligibility. Also includes synthesizing, developing and writing a comprehensive report.
Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
This class requires a 15-hour special education practicum.
Offered: May not be offered this year, check class schedule.

EDS 258A Foundations of Instruction Cross-Categorical  
2 cr. hrs. 2 periods (2 lec.)
Foundations of instruction for designated disabilities, including mild to moderate mental retardation, learning disabilities, emotional disabilities, and physical and other health impairments. Includes assessment, instruction, and instructional design; establishment and maintenance of case records; use of assessment data to design goals and objectives; development of Individualized Education Plans (IEPs); Also includes communication and consultation with teachers, families, students, administrators, and agencies; directing and monitoring activities of Paraprofessionals, aids, volunteers, and peer tutors; and modification of curriculum and instruction to accommodate student needs.
Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
Offered: May not be offered this year, check class schedule.

EDS 259 Teaching Methods Cross-Categorical  
3 cr. hrs. 3 periods (3 lec.)
Overview of how to educate special needs students while meeting their needs academically and socially. Includes methods of teaching students in the Special Education classroom, general education classroom; methods of collaboration with general education teachers and parents; and setting up your classroom for classroom management success. Also includes how to construct and carry out an effective lesson plan and develop an Individualized Education Program (IEP).
Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course.
Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.
This class requires a 15-hour special education practicum.
Offered: May not be offered this year, check class schedule.

EDS 260 Developmental Reading, Instruction, Assessment, Remediation  
3 cr. hrs. 3 periods (3 lec.)
Concepts, techniques and skills to teach struggling readers. Includes the components of reading. Includes the application of concepts to conduct assessments, instructional and remedial activities for struggling readers. Also includes how to participate in the Individualized Education Program (IEP) process to help develop long-range individualized instructional plans and create short-range goals and objectives considering an individual student's abilities, needs and learning environment.
Information: Post-Degree Teacher Certification Program approval is required before enrolling in this course.
This class requires a 15-hour practicum and can be used to fulfill some elements of the Reading Endorsement. Please contact the Post-Degree Teacher Education office or contact the Arizona Department of Education Certification office for specific information.
Requires a paid subscription to TaskStream electronic portfolio.
Offered: May not be offered this year, check class schedule.

EDS 290 Internship  
8 cr. hrs. 40 periods (40 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, midterm evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post-Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration.
EDS 290A, 290B, 290C, and 290D together constitute EDS 290.
Offered: May not be offered this year, check class schedule.
EDS 290A Internship I
2 cr. hrs. 10 periods (10 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, midterm evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post-Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration.
EDS 290A, 290B, 290C, and 290D together constitute EDS 290.
Offered: May not be offered this year, check class schedule.

EDS 290B Internship III
2 cr. hrs. 10 periods (10 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration.
EDS 290A, 290B, 290C, and 290D together constitute EDS 290.
Offered: May not be offered this year, check class schedule.

EDS 290C Internship III
2 cr. hrs. 10 periods (10 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration.
EDS 290A, 290B, 290C, and 290D together constitute EDS 290.
Offered: May not be offered this year, check class schedule.

EDS 290D Internship IV
2 cr. hrs. 10 periods (10 lab)
Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.
Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. Information: EDS 290A, 290B, 290C, and 290D together constitute EDS 290.
Offered: May not be offered this year, check class schedule.

Speech Communication
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SPE 102 Introduction to Speech Communication
3 cr. hrs. 3 periods (3 lec.)
Introduction to the function, basic concepts, and skills of oral communication in interpersonal and public address situations. Includes the communication process, interpersonal communication, public speaking, and group process.
Offered: Fall, Spring, Summer.

SPE 110 Public Speaking
3 cr. hrs. 3 periods (3 lec.)
Study and training in public speaking with emphasis on audience adaptation. Includes the responsibility of the public speaker and the listener, informative and persuasive speaking, audience analysis, organizing information, visual aids, delivery techniques, evaluating evidence, handling questions, and speech evaluation.
Offered: Fall, Spring, Summer.
SPE 120 Business and Professional Communications
3 cr. hrs. 3 periods (3 lec.)
Study and training in organizational communication within a multicultural/global environment. Includes communication in a multicultural/global business environment; interpersonal communication skills in a culturally diverse workforce; researching, organizing, and delivering informative, instructional, and persuasive presentations; interviewing techniques; group process in business; and listening techniques.
Offered: Fall, Spring, Summer.

SPE 130 Small Group Discussion
3 cr. hrs. 3 periods (3 lec.)
Study and training in group process. Includes the nature and functions of groups, preparation for group work, group communication process, problem solving and decision making, and observing and evaluating the group process.
Offered: Fall.

Student Success
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

STU 100 College Study Skills
1 cr. hrs. 1 periods (1 lec.)
Skills and techniques required for being an efficient student. Includes study techniques, memory and concentration, college resources, goal setting, time management, attentive listening, organization of lecture/text material, note taking systems, test taking strategies, and test anxiety.
Offered: Fall, Spring, Summer.

STU 102 Personal Finance in College Decision Making
1 cr. hrs. 1 periods (1 lec.)
Basic elements of personal and family finances. Includes managing personal finances, funding resources and financial obligations, strategies for success, setting a career direction and taking control of the future, and transition from college into the mainstream.
Offered: Fall, Spring.

STU 105 Math Success Skills
1 cr. hrs. 1 periods (1 lec.)
Math study and test-taking skills and overcoming math anxiety. Includes effective math study skills, reading a math text, problem solving, current research on math anxiety, and overcoming math anxiety.
Offered: Fall, Spring.

STU 106 Making Career Choices: Interests and Values
1 cr. hrs. 1 periods (1 lec.)
Development of skills and knowledge necessary to make a career selection. Includes career exploration and self-assessments, choosing an occupational area or specific career, and researching potential career opportunities. Also includes programs of study and degree requirements.
Information: STU 106 is a one credit hour version of STU 109 that concentrates on self-assessment inventories, career research and degree identification
Offered: Fall, Spring.

STU 107 University Transfer Preparation
1 cr. hrs. 1 periods (1 lec.)
Preparation of a plan for a successful transition to a college or university. Includes clarification of transfer degree/major based on career and academic interests; introduction to and awareness of transfer resources, financial resources, and college funding; development of a personal education plan for transfer; and general transition planning.
Prerequisite(s): REA 081.
Recommendation: Concurrent enrollment in or completion of REA 091 and WRT 100. Completion of this course before completing 30 college credits.
Offered: Fall, Spring, Summer.
STU 109 Making Career Choices: Interests, Values, and Goal Development
2 cr. hrs. 2 periods (2 lec.)
Development of skills and knowledge necessary to make a career selection, includes career exploration and self-assessments, choosing an occupational area or specific career, and researching potential career opportunities. Also includes degrees and programs of study, goal setting, and job seeking skills.
Information: STU 109 is a 2 credit hour version of STU 106 that expands the career exploration process to include skills and strategies necessary to secure employment in the future.
Offered: Fall, Spring, Summer.

STU 112 Strategies for Taking Control of Your Future
.25 cr. hrs. .25 periods (.25 lec.)
Development of an educational plan based on career expectations. Includes strategies for success, setting a career direction, and taking control of the future.
Information: Students cannot receive credit for both STU102 and STU112.
Offered: May not be offered this year, check class schedule.

STU 121 Adult College Re-entry Skills
3 cr. hrs. 3 periods (3 lec.)
Designed for adult re-entry to assist in making a smooth transition into college. Includes: career exploration and employability skills; college success skills; college and community resources; and personal, academic and financial goals. Also includes confidence building, gender awareness, and communication in the workplace.
Offered: Fall, Spring.

STU 135 Stress Management
1 cr. hrs. 1 periods (1 lec.)
Principles and techniques for managing stress and living a healthier life style. Includes factors that impact stress in daily life and the positive influence of wellness practices, such as observing healthy nutrition habits, maintaining physical fitness, and managing stressful situations.
Offered: Spring.

STU 150 Becoming a Master Student
3 cr. hrs. 3 periods (3 lec.)
Enhance academic and personal skills to maximize learning and success at the college level. Includes critical thinking skills, learning styles, college and/or career goals, study skills and personal styles. Also includes examination of human diversity, values, perspectives, as they relate to student’s success.
Recommendation: Completion of REA 091 and WRT 100 before enrolling in this course or concurrent enrollment.
Offered: Fall, Spring, Summer.

STU 200 Becoming a Critical Thinker
3 cr. hrs. 3 periods (3 lec.)
Development and application of critical thinking strategies. Includes fundamentals of critical thinking and application of thinking skills to everyday issues. Also includes bias, perception, and belief; critical questioning; reporting, inferring and judging; argumentation; language and thought; creativity and critical thinking; and critical thinking about the media.
Recommendation: Completion of REA 091 before enrolling in this course or concurrent enrollment.
Offered: Fall, Spring, Summer.

STU 210 Transfer Strategies
2 cr. hrs. 2 periods (2 lec.)
Transitioning to a college or university. Includes planning for a successful transfer experience; community college and university resources; and transition procedures, policies, and activities.
Recommendation: Consult with a counselor or advisor prior to enrolling in this course. Completion of STU107, 109, or 109A is strongly recommended.
Offered: Fall, Spring.
STU 230 Dynamics of Leadership
3 cr. hrs. 3 periods (3 lec.)
Overview of the theoretical and applied foundations of leadership. The theoretical component includes the historical and contemporary theories and models of leadership, effective followership, multiculturalism, and ethics. The applied component includes the importance and use of vision and mission, inclusive leadership practices, responding to change, developing a personal philosophy of leadership, and creating a personal profile of strengths and assets. Communication and facilitation skills will be practiced with the completion of a leadership project.
Information: Same as MGT 230.
Offered: Fall, Spring, Summer.

STU 240 Exploring Leadership through Community Engagement
3 cr. hrs. 3 periods (3 lec.)
Leadership experience through supervised community involvement. Includes leadership theories and models, leadership attributes, strategic leadership, group leadership and inclusion, and professional leadership skills. Also includes personal goal setting, application of leadership concepts through experiential learning, self-management, personal evaluation, and critical thinking. Participation in a community and/or college experiential learning project is a critical part of this course.
Recommendation: Successful completion of REA 091 and STU 230 or other meaningful leadership experience.
Information: Consent of the instructor or an advisor is required before registering for this course.
Offered: Fall.

STU 250 Transitional Resiliency
3 cr. hrs. 3 periods (3 lec.)
A study of the current research on resiliency, learning, and leadership in an integrative manner that fosters individual leadership. Includes exploration of the physical, psychological, and social systems of resiliency, psychological principles applied to learning and instructional design, and analysis of readings addressing practical and theoretical leadership principles. A model of a whole task approach to blend objectives and learning concepts in various contexts will be utilized.
Information: This course is designed for students who are veterans of the military.
Offered: May not be offered this year, check class schedule.

Surface Mining Technology
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

SMT 101 Mine Safety
1 cr. hrs. 1 periods (1 lec.)
Introduction to mine safety for new miners. Includes the use and application of safety gear. Also includes safety procedures prescribed by the Mine Safety and Health Administration (MSHA) for new miners.
Offered: Contact department at 206-5098.

SMT 102 Introduction to Hydraulics and Pneumatics
2 cr. hrs. 3 periods (1 lec., 2 lab)
Principles, components, symbols, and applications of hydraulic and pneumatic systems. Includes system development and troubleshooting; hydraulic and pneumatic components; and flow diagrams for particular applications. Also includes troubleshooting procedures for systems, system components, and assemblies.
Offered: Contact department at 206-5098.

SMT 103 Basic Mine Welding
4 cr. hrs. 6 periods (2 lec., 4 lab)
Procedures and techniques used in arc and oxyacetylene mine welding. Includes surface health, safety, and environmental practices, welding terminology, and arc and oxyacetylene welding equipment. Also includes proper welding procedures for arc and oxyacetylene, arc and oxyacetylene steel welding, welding machines and polarities, filler metal identification, welding positions, and oxyacetylene cutting.
Offered: Contact department at 206-5098.
SMT 104 Advanced Mine Welding and Fabrication
4 cr. hrs. 6 periods (2 lec., 4 lab)
Principles and techniques of steel layout and fabrication welding. Includes measurement, print reading review, layout tools, and layout techniques. Also includes hand-held power tool safety and use, large power tool safety and use, drawing interpretation, and welding projects.
Prerequisite(s): SMT 103.
Offered: Contact department at 206-5098.

SMT 106 Basic Rigging for the Mines
1 cr. hrs. 1 periods (1 lec.)
Rigging hardware used in mines and for surface mine equipment. Includes safety, rigging equipment, inspection, crane hand signals, estimating an object, and common rope knots. Also includes types of derricks and cranes, and proper equipment use.
Offered: Contact department at 206-5098.

SMT 110 Diesel Engines
4 cr. hrs. 6 periods (2 lec., 4 lab)
Theory and operation of diesel combustion engines common to heavy equipment used in surface mining. Includes diagnosis, engine rebuilding, and performance testing.
Offered: Contact department at 206-5098.

SMT 111 Diesel Electrical
3 cr. hrs. 4 periods (2 lec., 2 lab)
Theory and diagnosis of diesel electrical systems. Includes diesel starting, charging, accessory electrical systems and components, malfunctions, troubleshooting, and repair. Also includes various industry standard diagnostic electrical equipment and testing techniques.
Offered: Contact department at 206-5098.

SMT 112 Diesel Fuel Systems
3 cr. hrs. 4 periods (2 lec., 2 lab)
Theory, diagnosis and service of hydro-mechanical and electronic diesel fuel systems. Includes how to analyze fuel system components, and system operational characteristics. Also includes testing and service procedures of diesel fuel systems common to mining equipment.
Offered: Contact department at 206-5098.

SMT 120 Advanced Diesel Engines
3 cr. hrs. 5 periods (2 lec., 3 lab)
Concepts and techniques related to heavy duty diesel engine fuel, compression, air induction, and exhaust systems, diagnosis and repair of mechanical engines. Includes how to isolate and repair mechanical engine, fuel, and air induction systems. Also includes how to use industry standard tooling and repair information.
Offered: Contact department at 206-5098.

SMT 121 Steering, Suspension & Brakes for Mining Vehicles
2 cr. hrs. 3 periods (1 lec., 2 lab)
Theory, diagnosis, and repair of heavy equipment suspension, steering and brake systems of mining vehicles. Includes tires and wheels, steering components, suspension types, and hydraulic and air brake systems construction and operation. Also includes diagnostic and service techniques of suspension, steering and braking systems.
Offered: Contact department at 206-5098.

SMT 130 Industrial Shop Practices
3 cr. hrs. 5 periods (1 lec., 4 lab)
Concepts and techniques for industrial repair and maintenance shops. Includes safe and efficient use of hand and power tools, fine measurement, tool maintenance and sharpening.
Offered: Contact department at 206-5098.

SMT 131 Industrial Pump Maintenance and Repair
3 cr. hrs. 5 periods (1 lec., 4 lab)
Concepts and techniques to maintain and repair pumps used in the surface mining industry. Includes pump construction, operation, application and troubleshooting.
Offered: Contact department at 206-5098.
SMT 132 Industrial Valve Maintenance and Repair
3 cr. hrs. 5 periods (1 lec., 4 lab)
Concepts and techniques for valve construction, operation, and associated piping systems found in the surface mining industry. Includes assembly and disassembly of valves, common causes of valve failure and troubleshooting techniques.
Offered: Contact department at 206-5098.

SMT 140 Bulk Materials Handling
3 cr. hrs. 5 periods (1 lec., 4 lab)
Safe operation, maintenance, and repair of industrial materials handling machinery. Includes conveyors, feed and discharge devices, screens, and crushers.
Offered: Contact department at 206-5098.

SMT 142 Machinery Maintenance and Troubleshooting
3 cr. hrs. 5 periods (1 lec., 4 lab)
Systematic methods to identify causes of mechanical failure. Includes use of predictive methods to prevent mechanical failure and maximize machinery life.
Offered: Contact department at 206-5098.

SMT 150 Electricity and Electronics
4 cr. hrs. 6 periods (2 lec., 4 lab)
Basic principles of electricity and electronics theory with a heavy emphasis on industrial applications. Includes the use of electrical theory, circuits, electrical measurements, schematics, wiring diagrams, and symbols, and practical mining applications.
Information: Prerequisites may be waived with permission of the department.
Offered: Contact department at 206-5098.

SMT 151 DC Electrical Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Introduction to Direct Current (DC) theory and systems emphasizing industrial applications and setting. Includes batteries, DC circuits, electrical test and measuring equipment, various conductors, semiconductors, and insulators. Also includes how to develop troubleshooting skills.
Offered: Contact department at 206-5098.

SMT 152 AC Electrical Systems
3 cr. hrs. 5 periods (1 lec., 4 lab)
Introduction to alternating current (AC) theory and systems in industrial application settings. Includes transformers, electrical measuring test equipment, single and polyphase motors, AC generation. Also includes how to troubleshoot electrical systems.
Information: Prerequisites may be waived with permission of the department.
Offered: Contact department at 206-5098.

SMT 153 Conduits and Raceways
3 cr. hrs. 5 periods (1 lec., 4 lab)
Introduction to conduit and raceway installation and bending with heavy emphasis on industrial applications and settings. Includes conduit types sizes, tools and equipment used to cut, bend, thread and install electrical conduit. Also includes hands-on application to wire pulling and termination methods.
Offered: Contact department at 206-5098.

SMT 190 Surface Mining Technology Internship I
2 cr. hrs. 10 periods (10 lab)
Supervised field experience in a surface mine. Includes discussion and application of concepts relevant to the surface mining technology field. Also includes individualized internship placement to develop personal professional skills in either diesel technology, electrical technology or industrial plan technology.
Information: This course requires admission to the SMT program before enrolling. Information: Requires students to meet with the instructor and on-site supervisor.
Offered: Contact department at 206-5098.
SMT 191 Surface Mining Technology Internship II  
2 cr. hrs. 10 periods (10 lab)  
Supervised field experience with a participating surface mine to expand career interests and apply subject knowledge relevant to the surface mining technology field. Includes individualized internship placement to develop personal and professional skill in either diesel technology, electrical technology or industrial plan technology.  
Information: Designed for students in their second semester of course work in the Surface Mining Technology program.  
Offered: Contact department at 206-5098.

SMT 205 Blueprint Interpretation for Surface Mining  
3 cr. hrs. 3 periods (3 lec.)  
Interpretation of construction documents and drawings. Includes basic drafting and blueprint reading skills and their application to construction, and component, basic electrical, and basic welding print reading for surface mining. Also includes development of the learner’s visualization and plan interpretation skills with respect to specific concepts.  
Offered: Contact department at 206-5098.

SMT 210 Heating and Air Conditioning for Mining Vehicle  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Diagnosis and repair of heavy equipment heating, ventilation, and air conditioning (HVAC) systems. Includes personal and environmental safety, system components, system diagnosis and repair. Also includes refrigerant recovery, recycling and handling.  
Offered: Contact department at 206-5098.

SMT 220 Mining Equipment Drivetrain  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Procedures and techniques to service and repair mining equipment, manual and automatic transmissions, and the drive-train. Includes theory, diagnosis, and service of clutches, driveline, synchro transmissions and final drives, torque converters, and automatic transmission. Also includes proper repair and service of assemblies for standard and automatic transmissions.  
Offered: Contact department at 206-5098.

SMT 260 Motors and Motor Control for Mining  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Theory, diagnosis and the repair of various motors used in surface mining and operation of heavy mining equipment. Includes construction and operation of single phase and three phase induction motors, run capacitors, start capacitors, contactors, motor starters, relays, and over current protection devices. Also includes diagnostic, installation and service techniques.  
Prerequisite(s): SMT 150 and 152, or permission of department.  
Information: Prerequisites may be waived with permission of the department.  
Offered: Contact department at 206-5098.

SMT 261 Programmable Logic Controllers  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Concepts and techniques to use programmable logic controls. Includes control systems, modes, inputs and outputs and final control elements. Also includes mining equipment applications.  
Offered: Contact department at 206-5098.

SMT 290 Surface Mining Technology Internship III  
3 cr. hrs. 15 periods (15 lab)  
Supervised field experience with a participating surface mine to expand career interests and apply subject knowledge relevant to the surface mining technology field. Includes individualized internship placement to develop personal and professional skill in either diesel technology, electrical technology or industrial plan technology.  
Information: Designed for students in their third semester of course work in the Surface Mining Technology program.  
Offered: Contact department at 206-5098.

SMT 291 Surface Mining Technology Internship IV  
3 cr. hrs. 15 periods (15 lab)  
Supervised field experience with a participating surface mine to expand career interests and apply subject knowledge relevant to the surface mining technology field. Includes individualized internship placement to develop personal and professional skill in either diesel technology, electrical technology or industrial plan technology.  
Information: Designed for students in their fourth semester of course work in the Surface Mining Technology program.  
Offered: Contact department at 206-5098.
Technology

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**TEC 100 Introduction and Overview of Electronics**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Examination of the principles and techniques of basic electrical concepts. Includes fundamentals of electricity, current, voltage, resistance, Ohm’s Law, electrical measurements, meters, power, DC circuits, magnetism, inductance, capacitance, alternating current, transformers, and AC circuits. Also includes the language of electronics and the mathematical foundations relative to the electronics industry.  
Offered: Fall, Spring.

**TEC 101 Physics for Technology**  
3 cr. hrs. 3 periods (3 lec.)  
Fundamentals of applied physics for technology. Includes matter, motion, forces, work and energy, fluids, temperature and heat, wave motion, electricity, direct current electricity, magnetism, alternating current, electronic devices, and light.  
*Prerequisite(s): MAT 122 or TEC 111.*  
*Corequisite(s)*  
Offered: Fall, Spring.

**TEC 103 Light and Optical Systems**  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Introduction to light and optical systems used in photolithographic processes and equipment in semiconductor manufacturing. Includes the electromagnetic spectrum, basic principles of light, light sources, interaction between matter and light, optics terminology, and standing waves. Also includes filters, microscopes, photolithography, and optical fibers.  
*Prerequisite(s): TEC 113.*  
Offered: Spring.

**TEC 105 Electronic Assembly Tools**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Introduces hand tools and measuring devices used in electronics and electromechanical assemblies. Includes basic and special assembly tools; fastener installation and removal tools; precision measuring tools; fabrication tools; and torque and optical measuring instruments. Also includes an emphasis on required safety procedures and practices and the use of selected tools, measuring devices, and procedures.  
Offered: Fall.

**TEC 111 Applied Math I**  
2 cr. hrs. 2 periods (2 lec.)  
Introduction to numerical operations in measurement and systems of units. Includes geometric figures, waveshapes, scale drawings, collection of data, display of data, and data calculations. Also includes basic algebraic and numeric expressions, scientific notation, and instruction on using the handheld calculator.  
Offered: Fall.

**TEC 112 Applied Math II**  
2 cr. hrs. 2 periods (2 lec.)  
Continuation of TEC 111. Includes graphing, linear equations, functional notation, quadratic equations, and solving systems of linear equations. Also includes many examples and exercises pertaining to electrical, magnetic, fluidic, thermal, and mechanical systems; and layout and analysis of resistor, diode, and transistor circuits using a circuit simulation program.  
*Prerequisite(s): TEC 111.*  
Offered: Spring.

**TEC 113 Problem Solving for Electronics and Optics**  
3 cr. hrs. 3 periods (3 lec.)  
Problem solving for electronics and optics. Includes exponents and radicals, logarithmic and exponential functions, application of equations, resistive-capacitive and resistive-inductive transient behavior, trigonometric considerations, circular functions, vectors and phasors, mathematics of phasors, alternative current and circuits, and sinusoidal alternating current. Also includes coordinate systems, the conic sections, trigonometric identities, complex exponentials, Euler’s formula, and examples in optics.  
*Prerequisite(s): MAT 122 or TEC 112 or required score on the mathematics assessment test.*  
Offered: Fall.
TEC 117 Optical Assembly Techniques
3 cr. hrs. 4 periods (2 lec., 2 lab)
Fundamental procedures used during the assembly of optical equipment. Includes vibration isolation, epoxy and curing, mounting optics, alignment aids, assembly and disassembly techniques, fasteners, and materials. Also includes thermal considerations, vibration mounting of components, baffles, hermetic sealing, and metal finishing.
Recommendation: Completion of TEC 116 before enrolling in this course.
Offered: Fall.

TEC 121 Basic Electric and Magnetic Properties
3 cr. hrs. 3 periods (3 lec.)
Introduction to AC, DC, and magnetic circuit theory. Includes passive devices, terminology, basic laws, network calculations, electrical measurements, instruments, and units. Also includes use of hand tools, safety, use of schematic and block diagrams, troubleshooting, and electronic circuit applications.
Prerequisite(s): TEC 100 and 111.
Corequisite(s): TEC 121LB
Offered: Fall.

TEC 121LB Basic Electric and Magnetic Properties Lab
1 cr. hrs. 3 periods (3 lab)
Introduction to AC, DC, and magnetic circuit theory. Includes passive devices, terminology, basic laws, network calculations, electrical measurements, instruments, and units. Also includes use of hand tools, safety, use of schematic and block diagrams, troubleshooting, and electronic circuit applications. This is the Lab portion of TEC 121.
Prerequisite(s): TEC 100 and 111.
Corequisite(s): TEC 121
Offered: Fall.

TEC 122 Applied Semiconductor Devices
3 cr. hrs. 3 periods (3 lec.)
Basic semiconductor theory and applications. Includes measurement, component selection, effects of the environment on components, component protection, and applications. Also includes diodes, transistors, integrated circuits with operational amplifiers, and regulated power supplies.
Prerequisite(s): TEC 113 and 121.
Corequisite(s): TEC 122LB
Offered: Spring.

TEC 122LB Applied Semiconductor Devices Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 122.
Prerequisite(s): TEC 113 and 121.
Corequisite(s): TEC 122
Offered: Spring.

TEC 123 Digital Circuits and Computers
3 cr. hrs. 3 periods (3 lec.)
Introduction to the theory, operation, and application of digital components used in combinational and sequential logic. Includes number systems; Boolean algebra; gates and invertors; digital measurements and test equipment; memory; error detection; convertors; programmable logic arrays; microprocessor basics; and technical information.
Corequisite(s): TEC 123LB
Offered: Fall.

TEC 123LB Digital Circuits and Computers Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 123.
Corequisite(s): TEC 123
Offered: Fall.
TEC 125 AC Networks with Phasors
3 cr. hrs. 3 periods (3 lec.)
Applications of trigonometry and the algebra of complex numbers to AC circuits safety, troubleshooting, analysis, measurement, and design. Includes phasors, transfer functions, three phase power, filters, concepts of Fourier analysis, impedance matching, RLC circuits, waveshaping, and transmission lines at high AC frequencies.
Prerequisite(s): TEC 113 and 121.
Corequisite(s): TEC 125LB
Offered: Spring.

TEC 125LB AC Networks with Phasors Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 125.
Corequisite(s): TEC 125
Offered: Spring.

TEC 126 Electronics Construction and Assembly
3 cr. hrs. 4 periods (2 lec., 2 lab)
Basic skills in construction and assembly of electronic equipment. Includes soldering through-hole and surface mount components; reading and interpreting internal electronic wiring schematics; and mechanical assembly diagrams. Also includes performing printed circuit board construction; wiring and cabling construction; terminations; and chassis construction.
Prerequisite(s): TEC 100, 105, and 111.
Offered: Spring.

TEC 127 Printed Circuit Board Solder Assembly
3 cr. hrs. 4 periods (2 lec., 2 lab)
Advanced skills for assembly of electronic equipment. Includes wire and terminals connections; through-hole and surface mount soldering of components; printed circuit board requirements; coatings and encapsulations; and rework, repair and inspection methodology. Also included IPC standards to prepare student for IPC J-STD-001 Certification by exam.
Prerequisite(s): TEC 100, 105 and 111.
Corequisite(s): TEC 126
Offered: Spring.

TEC 128 Electronic Measurements
2 cr. hrs. 2 periods (2 lec.)
Techniques to perform measurements on passive and active component circuits. Includes measurement standards; types of meters; parameters of passive and active devices; harmonic and inter-modulation distortion; radio frequency modulation; operation and measurements of the oscilloscope; and the distortion analyzer.
Prerequisite(s): TEC 122 and 125.
Corequisite(s): TEC 128LB
Offered: Spring.

TEC 128LB Electronic Measurements Lab
1 cr. hrs. 2 periods (2 lab)
This is the Lab portion of TEC 128.
Corequisite(s): TEC 128
Offered: Spring.

TEC 130 Computer Assembly and Testing
3 cr. hrs. 3 periods (3 lec.)
Computer system assembly, set-up, and start-up. Includes computer systems overview, safety precautions, support equipment, operating systems, system assembly, system start-up, troubleshooting, and peripheral connections.
Corequisite(s): TEC 130LB
Offered: Fall, Spring.

TEC 130LB Computer Assembly and Testing Lab
1 cr. hrs. 2 periods (2 lab)
This is the Lab portion of TEC 130.
Corequisite(s): TEC 130
Offered: Fall, Spring.
TEC 132 Computer Systems Servicing
3 cr. hrs. 3 periods (3 lec.)
Advanced computers servicing and peripherals installation. Includes an introduction to computer servicing, laser and ink-jet printers, troubleshooting of printers, safety and troubleshooting of monitors, floppy disk drives, hard disk drives/optical drives, operating systems, application programs, and network basics.
Prerequisite(s): TEC 130.
Corequisite(s): TEC 132LB
Offered: Fall.

TEC 132LB Computer Systems Servicing Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 132.
Corequisite(s): TEC 132
Offered: Fall.

TEC 160 Microcomputers and Programming Techniques
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to microcomputer operation. Includes overview and history of the microcomputer, applications, terminology and specifications, software/programming, operating systems, disk operations, programming in BASIC, and introduction to Assembly Language.
Prerequisite(s): MAT 092 or TEC 111.
Information: Prerequisite maybe waived with consent of instructor.
Offered: Fall.

TEC 221 Linear Devices
3 cr. hrs. 5 periods (2 lec., 3 lab)
Linear devices in electronic systems. Includes overview of linear integrated circuits, the ideal operational amplifier, real operational amplifier parameters, selected linear and non-linear applications and transfer functions, phase lock loops, voltage reference circuits, and voltage regulators. Also includes optoelectronic devices, power supply bypassing, convertors, other selected linear devices, and testing and troubleshooting.
Prerequisite(s): TEC 122 and 125.
Offered: Fall.

TEC 222 Electromechanical Devices and Systems
3 cr. hrs. 3 periods (3 lec.)
Prime movers encompassing DC motors, AC motors, synchros, stepper motors, and fluid motors. Includes control systems and the utilization of electronic devices in electromechanical control. Also includes mechanical components of electromechanical systems, electronic components used in motor control systems, sensors, transducers, relays, and solenoids.
Prerequisite(s): TEC 122, 125 and 221.
Corequisite(s): TEC 222LB
Offered: Spring.

TEC 222LB Electromechanical Devices and Systems Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 222.
Corequisite(s): TEC 222
Offered: Spring.

TEC 225 Fluid Devices and Automated Systems
2 cr. hrs. 2 periods (2 lec.)
Application and control of fluid devices using programmable logic devices. Includes microprocessors, software, ladder logic and diagrams, programmable logic controllers (PLCs), and variety of input/output devices used in the automated manufacturing and test environments. Also includes safety and basic physical principles or laws governing the operation of pneumatic and hydraulic devices.
Prerequisite(s): TEC 101, 123 and 222.
Corequisite(s): TEC 225LB
Offered: Fall.
TEC 225LB Fluid Devices and Automated Systems Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 225.
Corequisite(s): TEC 225
Offered: Fall.

TEC 228 RF and Microwave Devices
3 cr. hrs. 3 periods (3 lec.)
Introduction to electronic communication circuits and methodologies in transmitters and receivers. Includes history and trends in communications technology, the electromagnetic spectrum, resonant circuits, coupling, lumped filters, behavior of devices, amplifiers, receivers, transmitters, and signal sources. Also includes properties, applications, measurements, and specifications of electronic communications components, systems at RF and microwave frequencies, overview of RF components, waveguides, and antennas.
Prerequisite(s): TEC 122, 124, 125, and 221.
Corequisite(s): TEC 228LB
Offered: Spring.

TEC 228LB RF and Microwave Devices Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 228.
Corequisite(s): TEC 228
Offered: Spring.

TEC 230 Peer-to-Peer Networking and Network Cabling Fundamentals
3 cr. hrs. 3 periods (3 lec.)
Introduction to basic networking concepts and cabling standards. Includes the Open System Interconnection (OSI) model of networking, types of networking, multi-user vs. single-user programs, network security, type of connections, and type of cabling.
Prerequisite(s): TEC 132/132LB.
Corequisite(s): TEC 230LB
Information: Prerequisite maybe waived with consent of instructor.
Offered: Spring.

TEC 230LB Peer-To-Peer Networking and Network Cabling Fundamentals Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 230.
Corequisite(s): TEC 230
Offered: Spring.

TEC 250 Digital Devices
3 cr. hrs. 3 periods (3 lec.)
Digital integrated circuits, primarily TTL. Includes power requirements, propagation delay, input and output electrical characteristics, counters, latches, multiplexors, decoders, flip-flops and other digital devices. Also includes digital circuit troubleshooting.
Prerequisite(s): TEC 122 and 123.
Corequisite(s): TEC 250LB
Offered: Fall.

TEC 250LB Digital Devices Lab
1 cr. hrs. 3 periods (3 lab)
This is the Lab portion of TEC 250.
Corequisite(s): TEC 250
Offered: Fall.
**TEC 251 Analog Circuits**  
3 cr. hrs. 3 periods (3 lec.)  
Advanced analog circuits used in current digital systems. Includes logic and number system review, methods of representing, logical functions, combinatorial logic families, power supply requirements, input characteristics, outputs, and voltages.  
*Prerequisite(s):* TEC 221.  
*Corequisite(s):* TEC 251LB 
*Offered:* Spring.

**TEC 251LB Analog Circuits Lab**  
1 cr. hrs. 3 periods (3 lab)  
This is the Lab portion of TEC 251.  
*Corequisite(s):* TEC 251 
*Offered:* Spring.

**TEC 286 Fiber Optics Installation and Testing**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Installation and use of optical fibers and related equipment in the optical industry. Includes optics theory, fiber types, cable assembly and installation, testing of cables, special equipment, and survey of applications.  
*Prerequisite(s):* TEC 103. 
*Offered:* Fall.

**TEC 287 Laser Fundamentals**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Fundamentals of lasers and how they are built and used in industry. Includes laser safety, properties of laser light, introduction to quantum mechanics, cavity design, effects of extra cavity feedback and stability, laser types and applications, cooling, and assembly and testing techniques.  
*Prerequisite(s):* TEC 103. 
*Offered:* Spring.

**TEC 288 Optical Testing**  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Common techniques and equipment for testing of optical systems and components. Includes optical testing theory, measurement of paraxial parameters, interferometers, non-interferometric tests, and surface profiling.  
*Prerequisite(s):* TEC 103. 
*Offered:* Spring.

---

**Theater**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**THE 104 Voice and Movement for the Actor**  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Principles and practice of voice and movement skills for the actor. Includes phonetics, physical isolation and awareness exercises, development and practice of stage dialects, and physicalization of character.  
*Information:* May be taken five times for a maximum of fifteen credit hours. 
*Offered:* Fall, Spring.

**THE 105 Theater Appreciation**  
3 cr. hrs. 3 periods (3 lec.)  
An exploration of the theory and practice of the discipline of theatre art. Includes setting the stage for understanding and appreciating theatre arts, the artists, and production of the play.  
*Prerequisite(s):* WRT 100 or 101 or 102. 
*Information:* Students are expected to attend and critique a minimum of one theatrical production. Students may, at the discretion of the instructor, receive additional credit for participation in a PCC theatre production when this participation is not part of the student's requirements for another class.  
*Offered:* Fall, Spring.
THE 110 Movement/Dance for Actors  
2 cr. hrs. 3 periods (1 lec., 2 lab)  
Physical dynamics of actor training. Includes relaxation and warm-up techniques, vocabulary for movement, use of movement in developing acting skills, and improvisation for scenes and text analysis. Also includes execution of basic dance and movement, as well as the history of dance and movement for musical theater, and exercises.  
Offered: Fall, Spring.

THE 111 Stagecraft  
3 cr. hrs. 3 periods (3 lec.)  
Principles and the practical application to the operation and techniques of various types of stages and stage scenery. Includes theater organization, geography, shop safety, tools and hardware applications, historic overview, construction design, three-dimensional scenery, and properties research. Also includes acquisition, maintenance, costume design, stage rigging systems, paint, materials handling, measuring, construction, assembly, finishing, rigging, and painting techniques.  
Corequisite(s):THE 113  
Offered: Fall, Spring.

THE 113 Stagecraft Crew  
1 cr. hrs. 3 periods (3 lab)  
Preparing, organizing, setting up, running and shifting of theatrical sets, properties and costumes for approved theatrical productions. Includes scenic cost estimates and budget, construction, planning and execution, production deadlines, property acquisition, and props construction. Also includes painting and finishing, scenery shifting, and property organization, distribution, and security.  
Corequisite(s):THE 111  
Offered: Fall, Spring.

THE 118 Basic Theater Graphics  
3 cr. hrs. 3 periods (3 lec.)  
Principles and practice of graphic skills necessary in the planning of theatrical productions. Includes techniques of pencil sketching, study of theatrical drafting conventions, techniques of mechanical drawing, study of mechanical perspective, color rendering techniques, study of color theories, and study of computer design applications for theatrical drafting.  
Offered: Spring.

THE 125 Theater Production  
2 cr. hrs. 6 periods (6 lab)  
The practical application of exploratory learning within an ensemble setting. Includes the relating of ideas and possibilities to practical methods, skills and structure of Theatrical Production.  
Information: May be taken four times for a maximum of eight credit hours.  
Consent of instructor required before enrolling in this course.  
Offered: Fall, Spring.

THE 140 History of Theater to the 18th Century  
3 cr. hrs. 3 periods (3 lec.)  
Survey of theater, drama and audiences from their origins to the late 18th century. Includes origins of theater, physical theater, tragic and comic theories and genres, Greek and Roman tragedies and comedies, neo-classical drama, and major styles and specific plays.  
Offered: Fall.

THE 148 Costume Design  
3 cr. hrs. 5 periods (2 lec., 3 lab)  
Introduction to basic design techniques for theater costumes. Includes identifying and applying elements, sketching and coloring, paper fabrication of costume design, script and character analysis, application of historical research, and production scheduling and budget.  
Information: Same as FDC 148. May be taken two times for a maximum of six credit hours.  
Offered: Spring.
THE 149 Introduction to Acting I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to performance techniques and the development of physical skills for effective performance. Includes theatrical codes of behavior, exercise and structured improvisations, control of emotions and body, verbal and non-verbal intentions, emotional recall techniques and exercises, concentration and centering exercises, and physical investment exercises. Also includes physical projection of emotional states, imagery, auditioning, critiques of two productions, maintaining spontaneity, critiques of two productions, maintaining spontaneity, character analysis, playing a character, and monologues and scenes.
Offered: Fall, Spring.

THE 151 Introduction to Acting II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of THE 149. Includes character analysis and development exercises, analysis of scenes and plays, critiques of two productions, acting vocabulary and its application, sub-texts to a scene, exercises in emotional investment; and analyzing, playing intentions, and super objectives in a script.
Prerequisite(s): THE 104 (or concurrent enrollment) and THE 149.
Offered: Spring.

THE 152 Costume Construction
3 cr. hrs. 5 periods (2 lec., 3 lab)
Introduction to basic costume construction techniques for theater costumes. Includes period patterning, period silhouettes, review of basic sewing and construction, measuring and fitting, commercial patterns, recycled garments, and construction of a period costume.
Prerequisite(s): FDC 110, 111 and FDC/THE 148.
Information: Same as FDC 152.
May be taken two times for a maximum of six credit hours.
Offered: Fall.

THE 210 Screen Acting
2 cr. hrs. 3 periods (1 lec., 2 lab)
Introduction to film and television acting techniques. Includes special technical aspects of acting before a camera, performance preparation, and conduct of performance.
Offered: Fall, Spring.

THE 220 Stage Lighting
3 cr. hrs. 3 periods (3 lec.)
Principles of stage lighting design and practice. Includes historical context, electricity and lamps, fixtures, dimming equipment, control equipment, color media use and handling, design techniques, special effects and set up, and safety procedures. Also includes care, maintenance, proper use of lighting equipment, organization of lighting work, and operation.
Corequisite(s): THE 222
Offered: Fall.

THE 222 Stage Lighting Crew
1 cr. hrs. 3 periods (3 lab)
Organizing, setting up and operating of stage lighting for approved theatrical productions. Includes analysis of designer information, cost estimates and budgeting, planning and execution of operations, and control board techniques for rehearsals and performances.
Corequisite(s): THE 220
Offered: Fall.

THE 223 Scene Design
3 cr. hrs. 5 periods (2 lec., 3 lab)
Principles of scene design for various types of stage and models of productions. Includes historical context, theater architecture, scenic elements, design process and research, development of working drawings, perspective rendering, color use, period styles in furniture and architecture, and script analysis. Also includes cost estimates, material choices, advanced construction techniques, paint mixing and application techniques, stage furniture overview, and set dressing and finishing.
Corequisite(s)
Offered: Spring.
THE 245 Principles of Dramatic Structure
3 cr. hrs. 3 periods (3 lec.)
Examination of the structural elements of major dramatic forms and styles. Includes role of the dramaturge; examination of major themes; analysis of dramatic forms, styles, and actor-audience relationships; visualizing a text; and character analysis. Also includes analysis of text for language and poetic elements, dramatic criticism, and play production as a collaborative effort.
Offered: Spring.

THE 250 Intermediate Acting I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Intermediate Acting I Theory and practice of creating sustained character portrayals through the performance of a series of monologues, chosen from a broad spectrum of both classical and contemporary theatrical literature. Includes participation in physical and vocal exercises and improvisations, exercises to expand actor's instruments, study of Shurtleff theory, nuances of auditions, and technique of voice over. Also includes performance of audition monologues, audition scenes, audition songs, scenes for an audition, commercial scripts, and oral report on audition experiences.
Prerequisite(s): THE 103, 111 or concurrent enrollment, and 149.
Offered: Fall.

THE 251 Intermediate Acting II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Performance-oriented class focuses on the practice and theory of pre-realistic styles of acting, and focuses on Shakespeare through the use of verse and prose. Includes the performance and analysis of Commedia del Arte, Moliere (Neo-classicism), and Restoration.
Prerequisite(s): THE 104 and 111 or concurrent enrollment, and THE 151 or 250.
Offered: Spring.

THE 296 Independent Studies in Theater
1-4 cr. hrs. 3-12 periods (3-12 lab)
Students work at various assigned tasks in theatrical settings under the guidance of an instructor. Includes the opportunity for the student to design his/her own project with the instructor's approval.
Information: May be taken eight times for a maximum of eight credit hours.
Consent of instructor is required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

Therapeutic Massage
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

TMA 101 Introduction to Massage Therapy
3 cr. hrs. 3 periods (3 lec.)
Survey of massage therapy practice including history, overview of bodywork systems, benefits and indications of massage, and legal requirements of practice in Arizona.
Offered: Fall, Spring.

TMA 120 Professionalism and Ethics for Massage Therapists
2 cr. hrs. 2 periods (2 lec.)
Overview of the ethics and professionalism related to an effective, successful massage therapy/bodywork practice. Includes general ethical principles of practice and professional dress, conduct, boundaries and communication.
Offered: Fall.

TMA 201IN Therapeutic Massage Practices I
6 cr. hrs. 9 periods (3 lec., 6 lab)
Principles of professionalism, ethics, and legalities. Includes use of terminology related to massage therapy; applications, indications, and contraindications of the nine strokes of Swedish massage; and study of the human osseous and muscular structure. Also includes emphasis on normal movement patterns, origins, insertions, and functions of the muscular system.
Prerequisite(s): With a grade of C or better: BIO 160IN, TMA 101, TMA 120, WED 110, and WED 111.
Offered: Fall.
TMA 202IN Therapeutic Massage Practices II
6 cr. hrs. 9 periods (3 lec., 6 lab)
Refined application of the nine strokes of Swedish massage and contraindications to avoid. Includes application of advanced
principles and techniques of trigger point therapy, muscle energy technique, stretching, hydrotherapy protocols, hot and
cold applications, reflexology, and corporate massage. Also includes study of the human osseous and muscular structure
with emphasis on normal movement patterns and the origin, insertion, and function of the muscular system.
Prerequisite(s): TMA 201IN with a grade C or better.
Information: IN indicates an integrated course with lecture and lab taught simultaneously. Course is restricted to students enrolled in
the program.
Offered: Spring.

TMA 202LC Therapeutic Massage Practice Clinical Lab I
1 cr. hrs. 3 periods (3 lab)
Students practice and perfect the application of fundamental Swedish Massage techniques in a supervised, supportive
learning environment in an onsite clinical setting. Course reinforces massage theory and practice learned in TMA 201IN.
Corequisite(s): TMA 202IN
Offered: Spring.

TMA 203IN Therapeutic Massage Practices III
6 cr. hrs. 9 periods (3 lec., 6 lab)
Refinement and integration of technical skills, psychosocial competencies, and role identity. Exploration of techniques to
assess and facilitate range of motion and functions; purpose, benefits, indications, and contraindications of therapeutic
massage for specific neuro-musculoskeletal disorders/injury and special populations. Application of massage techniques
with therapist’s pre- and post-client evaluations of the client. Adaptation of massage techniques for special populations.
Prerequisite(s): TMA 202IN, 210, and 215 with a grade of C or better.
Information: Course restricted to students admitted to program. Information: IN is the integrated version of the course with the
lecture and lab taught simultaneously.
Offered: Spring.

TMA 203LC Therapeutic Massage Practice Clinical Lab II
1 cr. hrs. 3 periods (3 lab)
Students practice and perfect the application of Swedish and Deep Tissue massage techniques in a supervised, supportive
learning environment in an onsite clinical setting. Course reinforces massage theory and practice learned in TMA 202IN.
Corequisite(s): TMA 203IN
Offered: Spring.

TMA 210 Fundamentals of Kinesiology
3 cr. hrs. 4 periods (2 lec., 2 lab)
A survey of the biology of movement. Includes a review of the skeletal and muscular systems, planes of movement and terms
of anatomical reference; structure and function of joints; and origins, insertions and actions of muscles of the trunk and limbs.
Also includes demonstration and analysis of normal and abnormal movement.
Prerequisite(s): BIO 160IN with a grade of C or better.
Offered: Fall.

TMA 214 Pregnancy Massage
1 cr. hrs. 1 periods (1 lec.)
Basic information and techniques for performing massage on pregnant clients. Includes information about body changes
during pregnancy, benefits and cautions of pregnancy massage, and techniques for common discomforts during pregnancy.
Also includes pre-session considerations, setting and supplies for pregnancy massage and suggestions for documentation.
Information: Must be an advanced massage student or licensed massage therapist. Prerequisite may be waived with consent of
instructor.
Offered: May not be offered this year, check class schedule.

TMA 215 Introduction to Pathology for Massage and Bodywork
3 cr. hrs. 3 periods (3 lec.)
Introduces the student to basic disease processes and common pathologies associated with organ systems and provides
an overview of pathology pertinent to massage therapy and bodywork. Includes cautions, contraindications and adaptive
measures as applied to common pathologies of organ systems. Also includes the potential interactions between bodywork
and medications.
Prerequisite(s): BIO 160 and TMA 101 with a grade of C or better.
Offered: Spring.
TMA 222 Business Management for Massage and Bodywork
2 cr. hrs. 2 periods (2 lec.)
Business management course designed specifically for massage therapy and bodywork practitioners. Includes business planning and development, financial management, marketing, and communications for these professional practices. Recommendation: Concurrent enrollment in TMA 290LC.
Offered: Summer.

TMA 225 Massage in Health Care Settings
1.5 cr. hrs. 1.5 periods (1.5 lec.)
Introduction to concepts, conditions, and unique elements of performing therapeutic massage in health care settings. Includes overview of common hospital policies, professionalism in the medical field, communication with health care providers, and sanitation and hygiene. Also includes an overview of appropriate massage techniques to employ on patients with specific medical conditions and diseases, impact of medications on massage patients, appropriate massage modifications for effects of medications, medical terminology and abbreviations, and case studies. Information: Elective course for Licensed Massage Therapists (equivalent to 19.5 Continuing Education Hours or 1.95 CEUs.) Offered: Fall.

TMA 240 Therapeutic Massage National Certification Exam Preparation
2 cr. hrs. 2 periods (2 lec.)
Preparation for National Certification Exam in Therapeutic Massage and Bodywork. Includes anatomy, physiology, kinesiology, and pathology of body systems; Asian and non-Western bodywork approaches; massage and bodywork assessment, theory and application. Also includes professional standards, ethics, and business and legal practices; effective study approaches; and test-taking strategies. Information: Offered for current massage students, licensed massage therapists, or bodyworkers. Offered: May not be offered this year, check class schedule.

TMA 290LC Therapeutic Massage Clinical
3 cr. hrs. 8 periods (8 lab)
Application and integration of fundamental and advanced massage techniques for various purposes and populations. Includes Swedish, Deep Tissue, Pain and Injury Management, Stretching, Range of Motion, Asian, Energy and Hospital- Based massage therapies. Prerequisite(s): Completion of TMA 101, 125, 201IN, 202IN, 202LC, 203IN, 203LC, 210, 215, and WED 110, 111 with a grade of C or better. Offered: Summer.

TMA 291 Therapeutic Massage Internship
1 cr. hrs. 5 periods (5 lab)
Advancement and refinement of the knowledge, practice skills and professional abilities necessary for success in a therapeutic massage setting. Includes observing, assisting and participating in various duties and massage practices in an off-site, clinical therapeutic massage setting as appropriate and specific to the internship site. Also includes observation and application of business and professional skills. Prerequisite(s): Completion of TMA 101, 120, 201IN, 202IN, 202LC, 203IN, 203LC, 210, 215 and WED 110, 111 with a grade of C or better. Information: May be taken three times for a maximum of three credit hours. Information: Students enrolling for the first time must take the course concurrently with TMA 290LC. Offered: Summer.

TMA 296 Therapeutic Massage Independent Study
1-3 cr. hrs. 2-6 periods (.5-.5 lec., 1.5-4.5 lab)
Opportunity to continue development as a massage therapist through the pursuit of a specific project or area of study in therapeutic massage. Content will be determined by instructor and student. Information: Students must obtain faculty approval before enrolling in this course. Course content and student learning outcomes will be kept on file. May be taken three times for a maximum of three credit hours. Offered: May not be offered this year, check class schedule.
Translation & Interpretation

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**TRS 101 Introduction to Translation and Interpretation**
3 cr. hrs. 3 periods (3 lec.)
Principles and procedures for acquisition of skills in interpretation and translation of written materials. Includes an introduction to translation and interpretation; translation and interpretation preparation, procedures, and specialties; and work of the translator and interpreter.
Offered: Fall.

**TRS 102 English and Spanish for Translation**
4 cr. hrs. 4 periods (4 lec.)
Analysis of the English and Spanish languages from the translator’s point of view. Includes the structure of English and Spanish, cultural and stylistic components, and semantics. Also includes standard English mechanics, punctuation, and metaphorical and idiomatic expressions as well as an analysis of Spanish and the dialectal differences, interferences and lexical obstacles.
Prerequisite(s): SPA 254 and WRT 102.
Offered: Fall.

**TRS 110 Translation and Interpretation Strategies for All Languages**
3 cr. hrs. 3 periods (3 lec.)
Language neutral approach to the principles and procedures for translation and interpretation. Includes translation and interpretation preparation, strategies, procedures, and specialties delivered in English.
Offered: May not be offered this year, check class schedule.

**TRS 120IN Technology for Translation and Interpretation**
2 cr. hrs. 3 periods (1 lec., 2 lab)
Survey of the technological equipment that facilitates the work of the translator. Includes computers for transcription/translation, information distribution techniques, file transfer technologies, using the World Wide Web in translation and interpretation, and applied projects.
Prerequisite(s): CSA 100 and TRS 101.
Information: CSA 100 may be waived if computer applications experience is documented. See an instructor.
IN is the integrated version of the course with the lecture and lab taught simultaneously.
Offered: Fall.

**TRS 150 Survey of Translation Specialty Areas**
4 cr. hrs. 4 periods (4 lec.)
Introduction to the translation specialty areas of health care, legal, literary, and commercial/business. Includes introduction to specialty areas, types of documents, elements and characteristics of specialty documents, resource development, ethical and legal restrictions, and development of translation subskills.
Offered: Spring.

**TRS 160 Translation in Specialty Areas**
4 cr. hrs. 4 periods (4 lec.)
Principles and procedures for translating specialty area materials. Includes health care, legal, commercial/business, and literary translation exercises.
Prerequisite(s): TRS 150.
Offered: Spring.

**TRS 161 Medical Spanish and English Interpreting**
3 cr. hrs. 3 periods (3 lec.)
Interpreting in a medical context. Includes interpreting in a medical setting, pronunciation of Spanish and English names and medical terms, Spanish and English medical terminology, bicultural medical communication, and regional dialects.
Information: This course assumes bilingual fluency in both English and Spanish.
Offered: Fall.
TRS 162 Introduction to Legal Spanish/English Interpretation
3 cr. hrs. 3 periods (3 lec.)
Interpreting in a legal context. Includes interpreting in a legal setting, knowledge of legal procedure and ancillary issues related to legal terminology in Spanish and English, bicultural legal communication, and regional differences.
Information: Requires Spanish/English language fluency.
Offered: Spring.

TRS 202 Interpretation Techniques
3 cr. hrs. 3 periods (3 lec.)
Specific theories and practices in interpreting oral communication from English to Spanish and Spanish to English. Includes theories of interpretation, techniques of interpretation, interpretation strategies, interpretation procedures, and modes of interpretation.
Prerequisite(s): TRS 101.
Information: Consent of instructor is required before enrolling in this course. Information: See the TRS instructor or department chair for more prerequisite information.
Offered: Spring.

TRS 203 Consecutive Interpretation and Sight Translation
4 cr. hrs. 6 periods (3 lec., 3 lab)
Essential modes of interpretation. Includes history and use, theory, interpreting skills development, sight translation skills, consecutive interpretation skills, and interpretation issues.
Prerequisite(s): TRS 202.
Information: Prerequisite(s) may be waived with consent of instructor.
Offered: Fall.

TRS 270 Simultaneous Interpretation
4 cr. hrs. 4 periods (4 lec.)
Study and practice of simultaneous interpretation. Includes history and use, theory, interpreting skills development, simultaneous interpretation skills, and issues in simultaneous interpretation.
Prerequisite(s): TRS 202.
Offered: Fall.

TRS 282 Advanced Project in Translation
4 cr. hrs. 5 periods (3 lec., 2 lab)
Engaging in a specialty area advanced project to produce a translated product. Includes agency/individual sponsor, translation goals, translating written documents, on-site and/or supervised training, and preparation for exit competency evaluation.
Prerequisite(s): TRS 101, 102, 160.
Offered: Spring.

Travel/Tourism Operations
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

TVL 101 Introduction to the Travel Industry
3 cr. hrs. 3 periods (3 lec.)
Major components of travel products and careers. Includes travel industry and hospitality products, distribution of the travel product, and careers in the travel industry.
Offered: Fall, Spring.

TVL 102 Computerized Reservation Systems
3 cr. hrs. 5 periods (2 lec., 3 lab)
Basic software training. Includes screen management, passenger name record (PNR), Sabre's FOX, PNR modifications, faring/pricing the completed PNR, booking and pricing hotels and rental cars.
Offered: Spring.
TVL 103 Geography for the Tourism Professional
3 cr. hrs. 3 periods (3 lec.)
Examination of tourist attractions and applied physical geography of global tourism destinations. Students will choose three of the following geographic areas on which to focus: North America, Mexico, Northern and Central Europe, East Africa, East Asia, France, Southern Europe, Alaska, Hawaii, and Hong Kong. Includes the Travel Institute’s Destination Specialist Certification Exam in the geographic areas studied.
Offered: Spring.

TVL 109 Survey of Leisure Products
3 cr. hrs. 3 periods (3 lec.)
Leisure travel components. Includes hotels, rental cars, AMTRAK, tours, and cruise accommodations.
Offered: Spring.

TVL 121 Tourism Sales and Marketing
3 cr. hrs. 3 periods (3 lec.)
Concepts of selling techniques for the tourism professional. Includes phone and internet selling strategies as well as an introduction to listening skills, sales techniques, client behavior styles, closing the sale, legal aspects of the travel industry for inside, outside and home-base tourism professionals. Also includes concepts of tourism marketing and marketing techniques for the tourism professional, consumer behavior, strategies, and marketing elements.
Offered: Spring.

TVL 211 Tour Direction and Tour Group Management
3 cr. hrs. 3 periods (3 lec.)
Introduction to the basic principles of guiding tours. Includes principles of tour group handling, tour group planning, tour guide basics, tour guide narration, tour guide procedures and challenges, and public speaking for the tour guide.
Offered: Spring.

TVL 296 Independent Study in Travel/Tourism
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Independent studies projects or special interest areas in travel/tourism. Content to be determined jointly between student and instructor.
Information: May be taken three times for a maximum of nine credit hours.
Offered: Fall, Spring, Summer.

Truck Driver Training
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

TDT 111 Role of Commercial Trucking in Supply Chain Management
4 cr. hrs. 4 periods (4 lec.)
Introduction to the commercial truck driving and transportation industry. Includes an overview of supply chain management and relevant importance of the transportation industry in America. Also includes federal and state rules and regulations, careers in trucking, over-the-road performance expectations, professional communications, healthy lifestyles, money management, and tools for a successful career.
Information: Admission to the Truck Driver Training Program is required prior to registration.
Offered: **

TDT 116 Basic Vehicle Operations-Coach/Transit Bus
3 cr. hrs. 3 periods (3 lec.)
Information to prepare the trainees to pass the Commercial Driver License (CDL) exam and obtain a Class "B" permit with a "P" passenger endorsement. Includes CDL preparation, driving conditions, pre-trip inspection, air brakes, map reading, hours of service, backing, and transporting passengers.
Information: Admission to the Truck Driver Training Program is required prior to registration.
Offered: **
TDT 117 Basic Driving Maneuvers - Coach/Transit Bus
3 cr. hrs. 3.5 periods (2.5 lec., 1 lab)
Techniques for the inspection and safe operation of a coach or transit bus. Includes pre-trip inspection, backing, basic control of left and right turns, progressive shifting, space and speed management, visual search and communication, defensive driving, and hazard perception.
Information: Admission to the Truck Driver Training Program is required prior to registration.
Offered: **

TDT 118 Basic Vehicle Operations and Commercial Driver's License Req
5 cr. hrs. 5 periods (5 lec.)
Basic methods of safely operating a combination vehicle. Includes the operation of the air brake system, coupling and uncoupling a tractor and trailer, cargo handling including hazardous materials, proper method of conducting a pre-trip inspection, completion of braking maneuvers, and trip planning. Also includes familiarization of the United States Department of Transportation (USDOT) regulations, hours of driver service, and all Commercial Driver's License (CDL) requirements, managing a professional driver life, managing speed effectively, and road and weather condition response.
Information: Admission to the Truck Driver Training Program is required prior to registration.
Offered: **

TDT 119 Basic Driving Maneuvers ø Class A CDL
3.5 cr. hrs. 4 periods (3 lec., 1 lab)
Demonstration and skill development of basic maneuvers of driving a combination vehicle. Driving proficiency development including control, backing, visual search, shifting, turning, space and speed management, and hazard perception. Successful completion of this class should prepare trainee for Commercial Driver’s License (CDL) skill examination.
Prerequisite(s): Completion of TDT 118 with a grade of C or better.
Information: Admission to the Truck Driver Training Program is required prior to registration. A valid Commercial Driver’s License (CDL) permit will meet the prerequisite for TDT 118.
Offered: **

TDT 120 Truck Driver Training Refresher
3.5 cr. hrs. 4 periods (3 lec., 1 lab)
Overview of Truck Driver skill requirements. Includes all range and road skills with instruction in control, backing, visual search, shifting, turning, space and speed management, and hazard perception.
Information: Valid Commercial Driver’s License and Department of Transportation physical and drug screen are required before enrolling in this course.
Offered: **

TDT 122 Safety Awareness in the Transportation Industry
4 cr. hrs. 4 periods (4 lec.)
Essential awareness of commercial motor vehicle safety. Includes proper daily vehicle inspections and systems analysis, cargo securement, identifying driving hazards and safe driving techniques, emergency maneuvers, and accident procedures. Also includes regulating agency presentations, and cardiopulmonary resuscitation (CPR), automated external defibrillator (AED), and first aid training and certification.
Information: Admission to the Truck Driver Training Program is required prior to registration.
Offered: **
** Contact the Truck Driver Training Program at 206-2744 for course offerings.

Veterinary Science
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

VSC 101 Introduction to Veterinary Science I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Basic instruction in the comparative anatomy and physiology of mammals. Includes basic cell biology, tissue types and functions. Also includes major body systems and their roles in veterinary science.
Offered: May not be offered this year, check class schedule.
VSC 102 Introduction to Veterinary Science II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of VSC 101. Includes basic instruction in nutrition, diseases, surgery, and their roles in veterinary science. Also includes discussion of decision making in veterinary science.
Prerequisite(s): VSC 101.
Offered: May not be offered this year, check class schedule.

VSC 195 Introduction to Research in Veterinary Science
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Introduction to the methods of research in veterinary science. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.
*Information: Three credit hours of Veterinary Science and consent of instructor are required before enrolling in this course.*
Offered: May not be offered this year, check class schedule.

VSC 196 Independent Study in Veterinary Science
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Introductory study of a particular Veterinary Science subject or subjects to hone skills while working in an independent format.
*Information: Three credit hours of Veterinary Science and consent of instructor are required before enrolling in this course.*
*Information: Content of study and its manner of execution must be developed through mutual agreement between the student and the instructor prior to enrollment in the course.*
Offered: Summer.

VSC 290 Veterinary Science Internship
1-4 cr. hrs. 5-20 periods (5-20 lab)
Internship and work experience in a veterinary science field or laboratory. Includes setting, achieving, and evaluating goals for hands-on learning experiences in veterinary sciences. Also includes development of skills and knowledge needed to work in a veterinary science field or laboratory.
*Information: Six credit hours of Veterinary Science and consent of instructor are required before enrolling in this course.*
Offered: Fall, Spring.

VSC 295 Independent Research in Veterinary Science
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Experience in scientific laboratory research.
Prerequisite(s): VSC 195.
*Information: Nine credit hours of Veterinary Science and consent of instructor are required before enrolling in this course.*
*Information: Specific content to be determined by student and instructor.*
Offered: May not be offered this year, check class schedule.

VSC 296 Independent Research in Veterinary Science
1-3 cr. hrs. 1-3 periods (1-3 lec.)
Advanced study of a particular Veterinary Science subject or subjects to hone skills while working in an independent format.
*Information: Consent of instructor is required before enrolling in this course.*
*Information: Content of study and its manner of execution must be developed through mutual agreement between the student and the instructor prior to enrollment in the course.*
Offered: May not be offered this year, check class schedule.

Veterinary Technology
For courses numbered 098, 198, 298, see "Topic Courses" on page 283.

VET 100 Introduction to Veterinary Technology
3 cr. hrs. 3 periods (3 lec.)
Introduction into the role of the veterinary technician careers and career paths, legal applications, ethical responsibilities, professional attitudes, medical terminology, and occupational safety issues. Also includes breed identification of domestic animals, behavioral characteristics of animals, human-animal bonding, and dealing with pet loss.
Corequisite(s): VET 110, VET 130, VET 225
*Information: Admission to the Veterinary Technology program is required before enrolling in this course.*
Offered: Fall.
VET 105 Practical Wildlife Rehabilitation
3 cr. hrs. 7 periods (1 lec., 6 lab)
Introduction to the practical handling and rehabilitation of a variety of wild species with a state and nationally licensed wildlife rehabilitator. Includes skills, education and sponsored experience with several domestic species. Also includes the handling of some advanced species that will require a demonstration of competency.
Information: This is not a restricted course and is open to any student interested in wildlife. This course would be beneficial to Veterinary Technology, Wildlife Management or other biological science related majors. Additional immunizations may be required before enrolling in this course.
Offered: May not be offered this year, check class schedule.

VET 106 Veterinary Practice Assistant I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to the basic skills needed to assist veterinary professionals in the quality care of animals. Includes animal restraint, nursing, vaccinations and other basic assisting skills.
Corequisite(s): VET 107, VET 108
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall, Spring, Summer.

VET 107 Veterinary Practice Assistant II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of VET 106. Includes pharmacy, surgical, laboratory and imaging skills.
Corequisite(s): VET 106, VET 108
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall, Spring, Summer.

VET 108 Introduction to Veterinary Facility Practices
6 cr. hrs. 6 periods (6 lec.)
Introduction into the role of the veterinary practice assistant in the veterinary medicine profession. Includes careers and career paths, legal applications, ethical responsibilities, professional attitudes, medical terminology, and occupational safety issues. Also includes standard office procedures with an emphasis in client relations and education and computer skills, breed identification of domestic animals, behavioral characteristics of animals, human-animal bonding, and dealing with pet loss.
Corequisite(s): VET 106, VET 107
Information: Consent of program faculty is required before enrolling in this course.
Offered: Fall, Spring, Summer.

VET 110 Veterinary Nursing Procedures I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to veterinary nursing techniques. Includes physical examination, history taking, injections, preventative health care, basic nutrition and animal restraint. Also includes husbandry techniques, kennel management and sanitation of kennel facilities for dogs and cats.
Corequisite(s): VET 100, VET 130, VET 225
Information: Admission to the Veterinary Technology program is required before enrolling in this course.
Offered: Fall.

VET 111 Veterinary Nursing Procedures II
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of VET 110 with an emphasis on venipuncture, catheterization, fluid therapy and basic dental care procedures. Includes complete physical examinations, wound management, CPR and first aid.
Prerequisite(s): VET 100, 110, 130 and 225.
Corequisite(s): VET 120, VET 131, VET 150
Offered: Spring.

VET 120 Clinical Pathology I
3 cr. hrs. 4 periods (2 lec., 2 lab)
Introduction to clinical pathology. Includes pathology terminology, basic laboratory procedures and specimen collection and preservation. Also includes basic use and care of microscopes.
Prerequisite(s): VET 100, 110, 130 and 225.
Corequisite(s): VET 111, VET 131, VET 150
Offered: Spring.
VET 121 Clinical Pathology II  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Continuation of VET 120. Includes review of laboratory procedures, urinalysis, and cytologic evaluations. Also includes pathogens, parasites, and hematologic evaluations.  
Prerequisite(s): VET 111, 120, 131 and 150.  
Corequisite(s): VET 200, VET 211  
Offered: Fall.

VET 130 Animal Anatomy and Physiology I  
4 cr. hrs. 6 periods (3 lec., 3 lab)  
Anatomy and physiology of domestic animals. Includes the study of body systems such as skeletal, muscular, integumentary, special sense organs, circulatory and digestive. Also includes principles of disease.  
Corequisite(s): VET 100, VET 110, VET 225  
Information: Admission to Veterinary Technology program is required before enrolling in this course.  
Offered: Fall.

VET 131 Animal Anatomy and Physiology II  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Continuation of VET 130. Includes the study of the nervous, respiratory, and reproductive systems and special sense organs. Also includes endocrine, urinary systems, and principles of disease.  
Prerequisite(s): VET 100, 110, 130 and 225.  
Corequisite(s): VET 111, VET 120, VET 150  
Offered: Spring.

VET 150 Pharmacology  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Introduction to regulations of biologics and pharmaceuticals. Includes classification, dosage calculations, labeling, logging and packaging of drugs.  
Prerequisite(s): VET 100, 110, 130 and 225.  
Corequisite(s): VET 111, VET 120, VET 131  
Offered: Spring.

VET 191 Veterinary Technician Clinical Experience I  
3 cr. hrs. 12 periods (12 lab)  
Supervised 200 hour clinical experience, which will be conducted at local veterinary hospitals, clinics, laboratory, and zoo or research facilities.  
Information: Completion of first year Veterinary Technology courses is required before enrolling in this course.  
Offered: Summer.

VET 196 Independent Study in Veterinary Technology  
1-3 cr. hrs. 1-3 periods (1-3 lec.)  
Independent study course offering students an inroad to focus on a particular veterinary medical subject or subjects, to study that subject, and to hone manual skills while working in an independent format. Content of study and its manner of execution must be developed through mutual agreement between the student and the instructor prior to enrollment in the course.  
Information: Consent of instructor is required before enrolling in this class.  
Offered: Fall, Spring.

VET 200 Anesthetic and Surgical Nursing  
3 cr. hrs. 4 periods (2 lec., 2 lab)  
Techniques and procedures involving surgery and anesthesia. Includes preparation and identification of instruments and equipment, routine surgical procedures and handling of instruments and supplies during surgery. Also includes anesthesia induction and monitoring, post surgical care, clean up and surgical record keeping.  
Prerequisite(s): VET 111, 120, 131 and 150.  
Corequisite(s): VET 121, VET 211  
Offered: Fall.
VET 205 Radiology and Imaging Techniques
2 cr. hrs. 2 periods (2 lec.)
Principles and techniques of radiographic imaging. Includes the physics behind production of X-rays, ultrasound and advanced imaging. Introduction to radiographic equipment, endoscopy equipment, ultrasound equipment and 3-dimensional imaging units. Instruction in workplace safety measures regarding imaging equipment.
Prerequisite(s): VET 130 and 131.
Corequisite(s): VET 205LB, VET 210, VET 220
Offered: Fall, Spring.

VET 205LB Radiology and Imaging Techniques Lab
1 cr. hrs. 2 periods (2 lab)
The lab portion of VET 205. Includes principles and techniques of radiographic imaging. Also includes the production of X-rays, radiographic equipment, safety measures and radiographic quality, diagnostic radiographs, positioning of patients, darkroom techniques and X-ray processing.
Prerequisite(s): VET 130 and 131.
Corequisite(s): VET 205, VET 210, VET 220
Offered: Offered: May not be offered this year, check class schedule.

VET 210 Veterinary Nursing Procedures: Large Animal Care
2 cr. hrs. 5 periods (1 lec., 4 lab)
Veterinary nursing techniques for large animals. Includes restraint procedures; nursing care and behavior of large animals; preventative medicine; nutrition; and large animal medical and surgical procedures. Also includes mentoring techniques; teamwork; communications; and health problem assessment involving kennel management.
Prerequisite(s): VET 111, 120, 131 and 150.
Corequisite(s): VET 205, VET 205LB, VET 220
Offered: Spring.

VET 211 Veterinary Nursing Procedures: Avian, Exotic, and Lab Animals
2 cr. hrs. 5 periods (1 lec., 4 lab)
Veterinary nursing techniques for avian, exotic and laboratory animals. Includes care and management of laboratory animals and exotic companion animals; nursing procedures; preventative health care; and restraint. Also includes mentoring techniques; teamwork; communications; and health problem assessment involving kennel management.
Prerequisite(s): VET 111, 120, 131, 150.
Corequisite(s): VET 121, VET 200
Offered: Fall.

VET 220 Clinical Pathology III
3 cr. hrs. 4 periods (2 lec., 2 lab)
Continuation of VET 121 for summation of laboratory skills and techniques needed of the Veterinary Technician. Includes blood chemistry, bacteriologic and microbiologic procedures and necropsy.
Prerequisite(s): VET 121, 200 and 211.
Corequisite(s): VET 205, VET 205LB, VET 210
Offered: Spring.

VET 225 Veterinary Hospital Procedures
3 cr. hrs. 3 periods (3 lec.)
Standard office procedures with an emphasis in client relations, education and computer skills. Ethics in veterinary medicine, state and federal regulations governing veterinarian practices and all aspects of clinical patient care will be covered.
Corequisite(s): VET 100, VET 110, VET 130
Information: Admission to the Veterinary Technology program is required before enrolling in this course.
Offered: Fall.

VET 230 VTNE and AZ State Veterinary Medical Examining Board Review
3 cr. hrs. 3 periods (3 lec.)
Preparation for a Veterinary Assistant or non-certified Technician to sit for the national and state Veterinary Technician Board Exams. Includes a review of the Arizona Revised Statutes and Administrative Rules pertaining to Veterinary medicine and content review of all pertinent medical subjects. Also includes test taking skills, test anxiety techniques and practice board exams.
Offered: Spring.
VET 291 Veterinary Technician Clinical Experience II
3 cr. hrs. 12 periods (12 lab)
Supervised 200 hour clinical experience, which will be conducted at local veterinary hospitals, clinics, laboratory, and zoo or research facilities.
**Information:** Completion of all VET Courses is required before enrolling in this course.
**Offered:** Spring.

---

**Welding**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**WLD 110 Basic Arc and Oxyacetylene Welding**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Procedures and techniques in arc and oxyacetylene welding. Includes health, safety, and environmental practices, welding terminology, arc and oxyacetylene welding equipment, proper welding procedures for arc and oxyacetylene, arc and oxyacetylene steel welding, welding machines and polarities, filler metal identification, and welding positions, and oxyacetylene cutting.
**Offered:** Fall, Spring, Summer.

**WLD 115 Blueprint Reading/Estimating**
4 cr. hrs. 4 periods (4 lec.)
Principles and procedures for interpreting structural blueprints and determining materials and labor costs. Includes fundamentals of blueprint reading, welding print format and types of fabrication blueprints, welding symbols and sizes, structural shapes and symbols, blueprint interpretation, introduction to estimating, bonds and insurance, materials specifications, labor, structural steel systems, and steel fabrication checklist.
**Prerequisite(s):** MAT 082 or required score on math assessment test.
**Offered:** Fall, Spring.

**WLD 120 Welding for Metal Sculpture**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Basic welding techniques and processes used in metal sculpture design and fabrication. Includes oxyacetylene safety practice, oxyacetylene equipment handling, oxyacetylene welding procedures, assembly of portable equipment, oxyacetylene cutting and design, oxyacetylene bronze build-up, arc welding safety practices, arc welding procedures, basic joint design, currents and polarities, arc welding machines and electrodes, and arc designing for sculpture.
**Offered:** Fall, Spring, Summer.

**WLD 160 Arc Welding**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Principles and techniques of joining metals with an electric arc as the source. Includes arc welding uses, safety, techniques, flame cutting, joint design, welding costs, electric currents and power sources, carbon arc cutting, filler metal selection, hardfacing, and metal identification.
**Prerequisite(s):** WLD 110.
**Information:** Prerequisite may be waived with appropriate work experience or course work. See a welding instructor or advisor for prerequisite information.
**Offered:** Fall, Spring.

**WLD 250 Pipe Welding**
4 cr. hrs. 6 periods (2 lec., 4 lab)
Principles and techniques of pipe welding. Includes introduction to pipe layout and drawing equipment. Also includes an introduction to performance testing, types of pipe, methods and preparation of pipe joints and miter joints, methods of joining pipe and miter joints.
**Prerequisite(s):** WLD 160.
**Information:** Prerequisite(s) may be waived with appropriate work experience. See a welding instructor or advisor for prerequisite information.
**Offered:** Fall, Spring.
WLD 261 Gas Metal Arc Welding  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Procedures and techniques in Gas Metal Arc Welding (GMAW) and Flux Core Arc Welding (FCAW) processes. Includes health, safety, and environmental practices, welding terminology, GMAW and FCAW processes and equipment, equipment operation and welding techniques, power source and wire feed types and controls, welding currents and polarities, welding wires in GMAW and FCAW processes, shielding gases, and mild steel and aluminum welding.  
Offered: Fall, Spring, Summer.

WLD 262 Gas Tungsten Arc Welding  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Procedures and techniques in the Gas Tungsten Arc Welding (GTAW) process. Includes health, safety, and environmental practices, welding terminology, GTAW process and equipment, equipment operation and techniques, power source types and controls, welding currents and polarities, tungsten electrodes, shielding gases, mild steel welding, aluminum welding, stainless steel welding, and GTAW certification.  
Prerequisite(s): WLD 110.  
Information: Prerequisite may be waived with welding industry experience.  
Offered: Fall, Spring.

WLD 263 Layout and Fabrication Welding  
4 cr. hrs. 6 periods (2 lec., 4 lab)  
Principles and techniques of steel layout and fabrication welding. Includes measurement, print reading review, layout tools, layout techniques, hand-held power tool safety and use, large power tool safety and use, drawing interpretation, structural methods, and welding projects.  
Prerequisite(s): WLD 115, 261 and GTM 105 (or placement into MAT 092 or higher).  
Recommendation: Completion of WLD 160 before enrolling in this course.  
Information: Prerequisites may be waived for appropriate work experience. See a welding instructor or advisor for prerequisite information.  
Offered: Fall, Spring.

WLD 296 Welding Independent Projects  
1-4 cr. hrs. 3-12 periods (3-12 lab)  
Self-directed laboratory projects. Includes project objectives, procedures, safety practices, welding processes, set-up for the project, and project completion.  
Prerequisite(s): WLD 110.  
Information: Welding industry experience or welding skills may be substituted for the prerequisite requirement. See a welding instructor for approval. Information: May be repeated up to three times for a maximum of sixteen credit hours.  
Offered: Fall, Spring.

Wellness Education  
For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

WED 110 Introduction to Complementary & Alternative Medicine  
3 cr. hrs. 3 periods (3 lec.)  
Definition of health; exploration of mind-body-spirit connection in health; various therapeutic modalities; identification of strengths and limitations of alternative therapies. Also includes development of ability to critically review written material in the alternative therapy area.  
Offered: Fall, Spring.

WED 111 Self Care for Personal Wellness  
2 cr. hrs. 2 periods (2 lec.)  
Emphasis on mind-body methods for personal wellness through integration of physical, emotional, social, and spiritual dimensions of being. Development of a personal practice to achieve and sustain a balanced program to support personal health and well-being.  
Offered: Fall.
**WED 120 Introduction to Energy Healing**  
1 cr. hrs. 1 periods (1 lec.)  
An overview of energy modalities, how energy works, how energy can be manifested and used for healing, and the personal responsibilities and ethical considerations for a practitioner of healing.  
*Information: Elective course for Therapeutic Massage Program. Open to anyone who wishes to enroll. Recommended to health and wellness professionals for Continuing Education hours.*  
*Offered: Spring.*

**WED 121 Reiki I**  
1 cr. hrs. 1 periods (1 lec.)  
Instruction and certification in the Usui Method of Reiki Level I. Includes concepts, definitions, history, ethics, levels of Reiki, assessing energy, and hand positions used in Reiki. Also includes Reiki I attunement, and Reiki I sharing.  
*Information: Elective course for Therapeutic Massage Program. Open to anyone who wishes to enroll. Recommended to health and wellness professionals for Continuing Education hours.*  
*Offered: Spring.*

**WED 122 Reiki II**  
1 cr. hrs. 1 periods (1 lec.)  
Review of the Usui Method of Reiki Level I, and instruction and coaching in the concepts and techniques for Usui Method of Reiki Level II: distance healing and healing symbols in Reiki practice. Includes Reiki II attunement and certification.  
*Prerequisite(s): WED 121*  
*Information: WED 121 may be waived with a Reiki I certificate from a qualified Reiki Master. See instructor for details. Applicable as an elective course for the Therapeutic Massage program and as continuing education hours for health and wellness professionals.*  
*Offered: Spring.*

**WED 124 Craniosacral Therapy for Massage Therapists/Health Prof.**  
2 cr. hrs. 2 periods (2 lec.)  
Instruction and certification in Craniosacral Therapy: a gentle, non-invasive bodywork technique. Includes history, concepts, effects, hand placements, sensations, and practice of a Craniosacral session.  
*Information: Elective course for Therapeutic Massage students. Open to anyone who wishes to enroll. Recommended for health and wellness professionals (equivalent to 26 Continuing Education Hours or 2.6 CEUs.)*  
*Offered: May not be offered this year, check class schedule.*

**WED 131 Body Mechanics for Health Care Providers**  
1 cr. hrs. 1 periods (1 lec.)  
Understanding and practice of techniques to prevent and correct injuries associated with the physical demands and stresses related to health care in residential, outpatient and home facilities; and massage and body work. Includes posture, body mechanics, and self-care strategies to prevent injuries.  
*Recommendation: Recommended for wellness education, continuing education for health care workers, and additional elective study for therapeutic massage students.*  
*Offered: Fall.*

**Writing**

For courses numbered 098, 198, 298, see “Topic Courses” on page 283.

**WRT 070 Developmental Writing**  
3 cr. hrs. 3 periods (3 lec.)  
Development of fundamental writing skills. Includes writing processes and sentence development and structure.  
*Prerequisite(s): Required score on Writing assessment test.*  
*Information: WRT 070A, 070B, and 070C together constitute WRT 070. Information: Equivalent to WRT 075.*  
*Offered: Summer.*
WRT 070AL Developmental Writing with Individualized Instruction
4 cr. hrs. 4.5 periods (3.5 lec., 1 lab)
Development of fundamental writing skills. Includes writing processes, sentence development, and structure. Also includes individualized instruction to increase academic and college readiness.
Prerequisite(s): Required score on writing assessment.
Information: Equivalent to WRT 070. This course incorporates a component of comprehensive skill development in an effort to increase college readiness. This course is appropriate for students needing additional support.
Offered: Fall, Spring, Summer.

WRT 070A Developmental Writing: Module A
1 cr. hrs. 1 periods (1 lec.)
Constitutes approximately the first one-third of WRT 070.
Prerequisite(s): Required score on Writing assessment test.
Information: WRT 070A, 070B, and 070C together constitute WRT 070. Information: A student may concurrently enroll in WRT 070A, 070B, and 070C. Information: Equivalent to WRT 075A.
Offered: May not be offered this year, check class schedule.

WRT 070B Developmental Writing: Module B
1 cr. hrs. 1 periods (1 lec.)
Constitutes approximately the second one-third of WRT 070.
Prerequisite(s): WRT 070A with a C or better, or concurrent enrollment.
Information: WRT 070A, 070B, and 070C together constitute WRT 070. Information: A student may concurrently enroll in WRT 070A, 070B, and 070C. Information: Equivalent to WRT 075B.
Offered: May not be offered this year, check class schedule.

WRT 070C Developmental Writing: Module C
1 cr. hrs. 1 periods (1 lec.)
Constitutes approximately the third one-third of WRT 070.
Prerequisite(s): WRT 070B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 070A and 070B.
Information: WRT 070A, 070B, and 070C together constitute WRT 070. Information: A student may concurrently enroll in WRT 070A, 070B, and 070C. Information: Equivalent to WRT 075C.
Offered: May not be offered this year, check class schedule.

WRT 072 Sentence Patterns
1 cr. hrs. 1 periods (1 lec.)
Review of various types of sentence structures. Includes variety of sentences, common grammar and sentence errors, punctuation, and short papers.
Offered: Fall, Spring, Summer.

WRT 073 Punctuation
1 cr. hrs. 1 periods (1 lec.)
Review of punctuation mechanics. Includes rules of punctuation, punctuation mark usage, and written assignments.
Offered: May not be offered this year, check class schedule.

WRT 075 Developmental Writing for Non-Native Speakers of English
3 cr. hrs. 3 periods (3 lec.)
Development of fundamental writing skills for non-native speakers of English. Includes writing processes, sentence development and structure, and written works.
Prerequisite(s): Required score on the Writing assessment test.
Information: WRT 075A, 075B, and 075C together constitute WRT 075. Information: Equivalent to WRT 070.
Offered: May not be offered this year, check class schedule.
WRT 075A Developmental Writing for Non-Native Speakers of Eng: Mod A
1 cr. hrs. 1 periods (1 lec.)
Development of fundamental writing skills for non-native speakers of English. Includes writing processes, beginning sentence development and structure, and written works.
Prerequisite(s): Required score on Writing assessment test.
Recommendation: Completion of ESL 085 or 088 before enrolling in this course.
Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070A.
Offered: May not be offered this year, check class schedule.

WRT 075B Developmental Writing for Non-Native Speakers of Eng: Mod B
1 cr. hrs. 1 periods (1 lec.)
Development of fundamental writing skills for non-native speakers of English. Includes intermediate sentence development and structure and written works.
Prerequisite(s): WRT 075A with a C or better or concurrent enrollment in WRT 075A and/or 075C.
Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070B.
Offered: May not be offered this year, check class schedule.

WRT 075C Developmental Writing for Non-Native Speakers of Eng: Mod C
1 cr. hrs. 1 periods (1 lec.)
Development of fundamental writing skills for non-native speakers of English. Includes advanced sentence development and structure and written works.
Prerequisite(s): WRT 075B with a C or better or concurrent enrollment in WRT 075A and/or 075B.
Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070C.
Offered: May not be offered this year, check class schedule.

WRT 100 Writing Fundamentals
3 cr. hrs. 3 periods (3 lec.)
Introduction to academic writing. Includes basic practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, composing using appropriate technology, and analyzing and writing paragraphs and short essays.
Prerequisite(s): WRT 070 or 075 with a C or better, or required score on the Writing assessment test.
Information: WRT 100A, 100B, and 100C together constitute WRT 100. Equivalent to WRT 106.
Offered: Fall, Spring, Summer.

WRT 100A Writing Fundamentals: Module A
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic, beginning practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, and analyzing and writing paragraphs and short essays.
Prerequisite(s): WRT 070 or 075 with a C or better or required score on Writing assessment test.
Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106A.
Offered: Fall, Spring, Summer.

WRT 100B Writing Fundamentals: Module B
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic intermediate practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, and analyzing and writing short essays.
Prerequisite(s): WRT 100A with a C or better or concurrent enrollment in WRT 100A and/or 100C.
Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106B.
Offered: Fall, Spring, Summer.
**WRT 100C Writing Fundamentals: Module C**
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic advanced practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, composing using appropriate technology, and analyzing and writing short essays.
Prerequisite(s): WRT 100B with a C or better or concurrent enrollment in WRT 100A and/or 100B.
Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106C.
Offered: Fall, Spring, Summer.

**WRT 100R Integrated Writing and Reading Fundamentals**
6 cr. hrs. 6 periods (6 lec.)
Integrated writing and reading skills. Includes basic practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, composing texts using appropriate technology, and analyzing and creating paragraphs and short essays. Also includes vocabulary, comprehension, study strategies, metacognition, information literacy, and a community of readers.
Prerequisite(s): Completion of WRT 070 with a grade of C or better, or assessment into Writing 100 and completion of REA 081 with a grade of C or better, or assessment into REA 091.
Information: This course fulfills REA 091 and WRT 100.
Offered: May not be offered this year, check class schedule.

**WRT 101 Writing I**
3 cr. hrs. 3 periods (3 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts, employing critical thinking skills, practicing multiple writing processes, using conventions in creating and revising texts, composing using appropriate technology, and writing college-level essays with an emphasis on argumentation.
Prerequisite(s): WRT 100 or 106 with a C or better or required score on writing assessment test.
Offered: Fall, Spring, Summer.

**WRT 101A Writing I: Module A**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes practicing multiple writing processes, using conventions in creating and revising texts, and writing college-level essays with an emphasis on argumentation.
Prerequisite(s): WRT 100 or 106 with a C or better or required score on Writing assessment test.
Offered: Fall, Spring, Summer.

**WRT 101B Writing I: Module B**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes employing critical thinking skills, composing using appropriate technology, and writing college-level essays with an emphasis on argumentation.
Prerequisite(s): WRT 101A with a C or better or concurrent enrollment in WRT 101A and/or 101C.
Information: WRT 101A, 101B, and 101C together constitute WRT 101. A student may concurrently enroll in WRT 101A, 101B, and 101C. Equivalent to WRT 107B.
Offered: Fall, Spring, Summer.

**WRT 101C Writing I: Module C**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts and writing college-level essays with an emphasis on argumentation.
Prerequisite(s): WRT 101B with a C or better or concurrent enrollment in WRT 101A and/or 101B.
Information: WRT 101A, 101B, and 101C together constitute WRT 101. A student may concurrently enroll in WRT 101A, 101B, and 101C. Equivalent to WRT 107C.
Offered: Fall, Spring, Summer.
WRT 101HC Writing I: Honors
3 cr. hrs. 3 periods (3 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts, employing critical thinking skills, practicing multiple writing processes, using conventions in creating and revising texts, composing using appropriate technology, and writing college-level essays with an emphasis on argumentation. Also includes additional Honors content.
Prerequisite(s): Honors assessment score required.
Information: Must qualify for Honors program and obtain instructor or advisor/counselor approval to register for this course. Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; a publishable quality, peer reviewed paper or project in a format appropriate for the discipline: presentation of research, in class or to a wider audience.
Offered: Fall, Spring.

WRT 101P Writing I
3 cr. hrs. 3 periods (3 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts, employing critical thinking skills, practicing multiple writing processes, using conventions in creating and revising texts, composing using appropriate technology, and writing college-level essays with an emphasis on argumentation.
Prerequisite(s): Placement into WRT100 on the writing assessment.
Corequisite(s): WRT 194
Information: Equivalent to WRT101. For students who assess into WRT 100 but believe that with additional studio instruction they can successfully complete WRT 101.
Offered: Fall, Spring.

WRT 101S Writing I / Integrated Studio
4 cr. hrs. 4.5 periods (3.5 lec., 1 lab)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts, employing critical thinking skills, practicing multiple writing processes, using conventions in creating and revising texts, using appropriate technology, and writing college-level essays with an emphasis on argumentation. Integrates an intensive studio component that includes specific strategies designed to improve student performance and success.
Prerequisite(s): Placement into WRT100 on the writing assessment.
Information: Equivalent to WRT101. For students who assess into WRT100 but believe that with additional studio instruction they can successfully complete WRT101.
Offered: Fall, Spring.

WRT 102 Writing II
3 cr. hrs. 3 periods (3 lec.)
Continuation of WRT 101. Includes reading, analyzing, and discussing various types of text; writing analytical or critical papers; and developing research skills. Also includes writing a research paper.
Prerequisite(s): WRT 101 or 107 with a C or better.
Offered: Fall, Spring, Summer.

WRT 102A Writing II: Module A
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 101. Includes beginning practice in reading, analyzing, and discussing various types of text and beginning practice in writing analytical or critical papers.
Prerequisite(s): WRT 101 or 107 with a C or better.
Information: WRT 102A, 102B and 102C together constitute WRT 102. A student may concurrently enroll in WRT 102A, 102B and 102C. Equivalent to WRT 108A.
Offered: Fall, Spring, Summer.

WRT 102B Writing II: Module B
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 101. Includes intermediate practice in reading, analyzing, and discussion various types of text; intermediate practice in writing analytical or critical papers; and developing basic research skills. Also includes writing a research paper.
Prerequisite(s): WRT 102A with a C or better, or concurrent in WRT 102A.
Information: WRT 102A, 102B and 102C together constitute WRT 102. A student may concurrently enroll in WRT 102A, 102B, and 102C. Equivalent to WRT 108B.
Offered: Fall, Spring, Summer.
WRT 102C Writing II: Module C
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 101. Includes advanced practice in reading, analyzing, and discussing various types of text and advanced practice in writing analytical or critical papers.
Prerequisite(s): WRT 102B with a C or better, or concurrent enrollment in WRT 102A and 102B.
Information: WRT 102A, 102B and 102C together constitute WRT 102. A student may concurrently enroll in WRT 102A, 102B and 102C. Information: Equivalent to WRT 108C.
Offered: Fall, Spring, Summer.

WRT 102HC Writing II: Honors
3 cr. hrs. 3 periods (3 lec.)
Continuation of WRT 101 or WRT 101HC. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing advanced research and critical thinking skills, and written works. Also includes writing a research paper as well as additional Honors level content.
Prerequisite(s): WRT 101 or WRT 101HC with a C or better.
Information: Qualification for Honors program and consent of instructor or advisor/counselor is required before enrolling in this course. Honors Content: Intensive research using highest standards and best practices for the discipline, and a significant number/variety of readings of both primary and secondary sources; publishable quality, peer reviewed paper or project in format appropriate for this discipline: presentation of research, in class or to a wider audience.
Offered: Fall, Spring.

WRT 106 Writing Fundamentals for Non-Native Speakers of English
3 cr. hrs. 3 periods (3 lec.)
Introduction to academic writing. Includes basic practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, composing using appropriate technology, and analyzing and writing paragraphs and short essays.
Prerequisite(s): WRT 070 or 075 with a C or better or required score on Writing assessment test.
Information: WRT 106A, 106B, and 106C together constitute WRT 106. Equivalent to WRT 100.
Offered: Fall, Spring.

WRT 106A Writing Fundamentals for Non-Native Speakers of Eng: Mod A
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic, beginning practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, and analyzing and writing paragraphs and short essays.
Prerequisite(s): WRT 070 or 075 with a C or better or required score on Writing assessment test.
Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100A.
Offered: Fall, Spring, Summer.

WRT 106B Writing Fundamentals for Non-Native Speakers of Eng: Mod B
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic intermediate practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, and analyzing and writing short essays.
Prerequisite(s): WRT 106A with a C or better or concurrent enrollment in WRT 106A and/or 106C.
Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100B.
Offered: Fall, Spring, Summer.

WRT 106C Writing Fundamentals for Non-Native Speakers of Eng: Mod C
1 cr. hrs. 1 periods (1 lec.)
Introduction to academic writing. Includes basic advanced practice in employing critical thinking skills, practicing multiple writing processes, using appropriate conventions in creating and revising texts, composing using appropriate technology, and analyzing and writing short essays.
Prerequisite(s): WRT 106B with a C or better or concurrent enrollment in WRT 106A and/or 106B.
Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100C.
Offered: Fall, Spring, Summer.
**WRT 107 Writing I for Non-Native Speakers of English**
3 cr. hrs. 3 periods (3 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts, employing critical thinking skills, practicing multiple writing processes, using conventions in creating and revising texts, composing using appropriate technology, and writing college-level essays
*Prerequisite(s): WRT 100 or 106 with a C or better, or required score on the writing assessment test.*
*Offered:* Fall.

**WRT 107A Writing I for Non-Native Speakers of English: Module A**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes practicing multiple writing processes, using conventions in creating and revising texts, and writing college-level essays with an emphasis on argumentation.
*Prerequisite(s): WRT 107A with a C or better or concurrent enrollment in WRT 107A and/or 107C.*
*Information:* WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 101A.
*Offered:* Fall, Spring, Summer.

**WRT 107B Writing I for Non-Native Speakers of English: Module B**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes employing critical thinking skills, composing using appropriate technology, and writing college-level essays with an emphasis on argumentation.
*Prerequisite(s): WRT 107B with a C or better or concurrent enrollment in WRT 107A and/or 107C.*
*Information:* WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 100B.
*Offered:* Fall, Spring, Summer.

**WRT 107C Writing I for Non-Native Speakers of English: Module C**
1 cr. hrs. 1 periods (1 lec.)
Principles and practices of college-level writing. Includes using rhetorical principles in analyzing and creating texts and writing college-level essays with an emphasis on argumentation.
*Prerequisite(s): WRT 107C with a C or better or concurrent enrollment in WRT 107A and/or 107B.*
*Information:* WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 101C.
*Offered:* Fall, Spring, Summer.

**WRT 108 Writing II for Non-Native Speakers of English**
3 cr. hrs. 3 periods (3 lec.)
Continuation of WRT 107 appropriate for non-native speakers of English. Includes reading, analyzing, and discussing various types of text; writing analytical or critical papers; and developing research skills. Also includes writing a research paper.
*Prerequisite(s): WRT 101 or 107 with a C or better.*
*Information:* Equivalent to WRT 102.
*Offered:* Fall.

**WRT 108A Writing for Non-Native Speakers of English: Module A**
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 107. Includes beginning practice in reading, analyzing, and discussing various types of text and beginning practice in writing analytical or critical papers.
*Prerequisite(s): WRT 101 or 107 with a C or better.*
*Offered:* Fall, Spring, Summer.
WRT 108B Writing II for Non-Native Speakers of English: Module B
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 107. Includes intermediate practice in reading, analyzing, and discussion various types of text; intermediate practice in writing analytical or critical papers; and developing basic research skills. Also includes writing a research paper.
Prerequisite(s): WRT 108A with a C or better, or concurrent enrollment in WRT 108A.
Offered: Fall, Spring, Summer.

WRT 108C Writing II for Non-Native Speakers of English: Module C
1 cr. hrs. 1 periods (1 lec.)
Continuation of WRT 107. Includes advanced practice in reading, analyzing, and discussing various types of text and advanced practice in writing analytical or critical papers.
Prerequisite(s): WRT 108B with a C or better, or concurrent enrollment in WRT 108A and 108B.
Offered: Fall, Spring, Summer.

WRT 125 Beginning Poetry Writing
3 cr. hrs. 3 periods (3 lec.)
Poetry for beginners. Includes beginning poetry writing techniques, beginning evaluation and critical response to poems, and beginning original writing.
Information: May be taken three times for a maximum of nine credit hours.
Offered: Fall, Spring, Summer.

WRT 126 Basics of Short Story Writing
3 cr. hrs. 3 periods (3 lec.)
Short fiction writing for beginners. Includes beginning fiction writing techniques, beginning critical responses to fiction, and beginning original writing.
Information: May be taken three times for a maximum of nine credit hours.
Offered: Fall, Spring, Summer.

WRT 140 Writing and Editing Technical Communications
3 cr. hrs. 3 periods (3 lec.)
Introduction to basic concepts and techniques for writing and editing technical documents. Includes sentence structure and style; common grammar, usage, and punctuation rules; paragraph structure; common style-level problems; advanced writing-style concepts; editing in document development, publication, and use; editing technical reports; and writing a technical document.
Prerequisite(s): WRT 101 or 107 with a grade of C or better.
Offered: May not be offered this year, check class schedule.

WRT 140A Writing and Editing Technical Communications: Module A
1 cr. hrs. 1 periods (1 lec.)
Introduction to concepts and techniques for writing and editing technical documents at the beginning level. Includes sentence structure and style; common style-level problems; advanced writing-style concepts; editing in document development, publication, and use; and editing technical reports.
Prerequisite(s): WRT 101 or 107 with a grade of C or better or required score on writing assessment test.
Information: WRT 140A, 140B and 140C together constitute WRT 140. A student may concurrently enroll in WRT 140A, 140B and 140C.
Offered: Fall, Spring, Summer.

WRT 140B Writing and Editing Technical Communications: Module B
1 cr. hrs. 1 periods (1 lec.)
Introduction to concepts and techniques for writing and editing technical documents at the intermediate level. Includes common grammar, usage, and punctuation rules; common style-level problems; writing-style concepts; editing in document development, publication, and use; and editing
Prerequisite(s): WRT 140A with a grade of C or better or concurrent enrollment in WRT 140A and 140C.
Information: WRT 140A, 140B and 140C together constitute WRT 140. A student may concurrently enroll in WRT 140A, 140B and 140C.
Offered: Fall, Spring, Summer.
WRT 140C Writing and Editing Technical Communications: Module C
1 cr. hrs. 1 periods (1 lec.)
Introduction to concepts and techniques for writing and editing technical documents at the advanced level. Includes common grammar, usage, and punctuation rules; paragraph structure; common style-level problems; writing-style concepts; editing in document development, publication, and use; editing technical reports; and writing a technical document.
Prerequisite(s): WRT 140B with a grade of C or better or concurrent enrollment in WRT 140A and 140B.
Information: WRT 140A, 140B and 140C together constitute WRT 140. A student may concurrently enroll in WRT 140A, 140B and 140C.
Offered: Fall, Spring, Summer.

WRT 154 Career Communications
3 cr. hrs. 3 periods (3 lec.)
Job related writing skills for use in career communications. Includes writing for audiences and situations at the beginning and intermediate levels, applying business writing and organization conventions, completing job-related forms at the beginning and intermediate levels, and writing resumes.
Prerequisite(s): WRT 100 or 106 with a C or better or required score on writing assessment test.
Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C, but courses must be completed sequentially.
Offered: Fall, Spring.

WRT 154A Career Communication: Job Related Writing Principles & Skills
1 cr. hrs. 1 periods (1 lec.)
Job-related writing principles and skills. Includes writing for audiences and situations at the beginning level, and applying business writing and organization conventions.
Prerequisite(s): WRT 100 or 106 with a C or better or required score on writing assessment test.
Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C, but courses must be completed sequentially.
Offered: Fall, Spring, Summer.

WRT 154B Career Communications: Basic Job Related Correspondence
1 cr. hrs. 1 periods (1 lec.)
Writing skills for basic job-related correspondence. Includes completing job-related forms at the beginning level, and writing resumes.
Prerequisite(s): WRT 154A with a C or better.
Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C, but courses must be completed sequentially.
Offered: Fall, Spring, Summer.

WRT 154C Career Communications: Basic Job Related Reports
1 cr. hrs. 1 periods (1 lec.)
Writing skills for basic job-related reports. Includes writing for audiences at the intermediate level, and completing job-related forms at the intermediate level.
Prerequisite(s): WRT 154B with a C or better.
Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C, but courses must be completed sequentially.
Offered: Fall, Spring, Summer.

WRT 162 Literary Magazine Workshop
3 cr. hrs. 3 periods (3 lec.)
Creative magazine publication. Includes review of college literary magazines, critical review, magazine design and editing, magazine production techniques, as well as printing and distribution.
Information: May be taken two times for a maximum of six credit hours.
Offered: Spring.
WRT 194 Writing Studio
1 cr. hrs. 1.5 periods (.5 lec., 1 lab)
Supplemental writing studio for sections of Writing 101P. Includes writing strategies designed to improve student performance and success in Writing 101P.
Prerequisite(s): Placement into WRT 100 on the writing assessment.
Corequisite(s): WRT 101P
Information: For students who assess into WRT 100 but believe that with additional studio instruction they can successfully complete WRT 101. This is a required co-requisite for WRT 101P. WRT 101 is equivalent to WRT 101P.
Offered: May not be offered this year, check class schedule.

WRT 196 Independent Studies in Writing
1-4 cr. hrs. 3-12 periods (3-12 lab)
Independent projects in writing to be arranged with the instructor.
Information: May be taken four times for a maximum of sixteen credit hours.
Offered: Spring.

WRT 205 Introduction to Poetry Writing
3 cr. hrs. 3 periods (3 lec.)
Writing contemporary poetry. Includes poetry writing techniques, evaluation and critical response to poems, and original writing.
Prerequisite(s): WRT 102 or 108 with a C or better.
Offered: Fall, Spring, Summer.

WRT 206 Short Story Writing
3 cr. hrs. 3 periods (3 lec.)
Short fiction writing. Includes fiction writing techniques, critical responses to fiction, and original writing.
Prerequisite(s): WRT 102 or 108 with a C or better.
Offered: Fall, Spring, Summer.

WRT 207 Creative Nonfiction
3 cr. hrs. 3 periods (3 lec.)
Creative nonfiction writing. Includes techniques of creative nonfiction writing, original writing, and critical responses to nonfiction.
Prerequisite(s): WRT 102 with a grade of C or better.
Information: Consent of instructor is required to enroll in this course.
Offered: Fall, Spring.

WRT 215 Advanced Poetry Writing
3 cr. hrs. 3 periods (3 lec.)
Advanced poetry writing workshop. Includes continued focus on techniques of writing, evaluation and critical responses to poetry, and original writing. Also includes more intensive study of contemporary poets and poetry.
Prerequisite(s): WRT 125 or 205 with a C or better.
Information: Consent of instructor is required to enroll in this course. May be taken four times for a maximum of twelve credit hours.
Offered: Spring.

WRT 216 Advanced Fiction Writing
3 cr. hrs. 3 periods (3 lec.)
Advanced techniques of fiction writing. Includes advanced techniques of fiction writing, original writing, and critical response to fiction. Also includes preparing manuscripts for publication.
Prerequisite(s): WRT 206 with a C or better.
Information: Consent of instructor is required to enroll in this course. Information: May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.
WRT 217 Advanced Creative Nonfiction
3 cr. hrs. 3 periods (3 lec.)
Advanced techniques of creative nonfiction writing. Includes advanced original writing, advanced critical responses to nonfiction, and marketing techniques.
Prerequisite(s): WRT 207 with a grade of C or better.
Information: Consent of instructor is required to enroll in this course. Information: May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

WRT 226 Special Projects in Fiction
3 cr. hrs. 3 periods (3 lec.)
Advanced fiction writing for book-length projects. Includes techniques for book-length fiction writing, original writing and/or revision process, critical responses to fiction, and marketing and publishing of fiction books.
Prerequisite(s): WRT 216 with a C or better.
Information: Consent of instructor is required to enroll in this course. Information: May be taken four times for a maximum of twelve credit hours.
Offered: Fall, Spring.

WRT 254 Advanced Professional Communications
3 cr. hrs. 3 periods (3 lec.)
Techniques of writing for scientific, technical and other professional occupations. Includes writing long and short reports, researching and writing about a topic, presentations, and use of appropriate style.
Prerequisite(s): WRT 102 or 108 with a C or better.
Offered: Fall, Spring.

WRT 254A Advanced Professional Communications: Module A
1 cr. hrs. 1 periods (1 lec.)
Techniques of writing for scientific, technical, and other professional occupations. Includes writing long and short reports at a beginning level and researching and writing about a topic at a beginning level.
Prerequisite(s): WRT 102 or 108 with a C or better.
Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.
Offered: Fall, Spring, Summer.

WRT 254B Advanced Professional Communications: Module B
1 cr. hrs. 1 periods (1 lec.)
Techniques of writing for scientific, technical, and other professional occupations. Includes writing long and short reports at an intermediate level and researching and writing about a topic at an intermediate level.
Prerequisite(s): WRT 254A with a C or better or concurrent enrollment in WRT 254A and/or 254C.
Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.
Offered: Fall, Spring, Summer.

WRT 254C Advanced Professional Communications: Module C
1 cr. hrs. 1 periods (1 lec.)
Techniques of writing for scientific, technical, and other professional occupations. Includes researching and writing about a topic at an advanced level and presentations.
Prerequisite(s): WRT 254B with a C or better or concurrent enrollment in WRT 254A and/or 254B.
Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.
Offered: Fall, Spring, Summer.

WRT 281 Beginning Workshop in Tutoring Composition
1 cr. hrs. 3 periods (3 lab)
Introductory workshop in tutoring composition. Includes tutee characteristics and tutoring techniques for development of writing strategies.
Prerequisite(s): WRT 101 and 102 with a grade of C or better.
Offered: May not be offered this year, check class schedule.
WRT 282 Intermediate Workshop in Tutoring Composition
1 cr. hrs. 3 periods (3 lab)
Continuation of WRT 281. Includes assisting tutees with research methods, assisting tutees with disabilities, and assisting tutees whose first language is not English.
Prerequisite(s): WRT 281 with a C or better.
Offered: May not be offered this year, check class schedule.

WRT 285 Pima Writers' Workshop
2 cr. hrs. 2 periods (2 lec.)
Writing of fiction, nonfiction, poetry, and stories for children. Includes techniques of writing, publishing trends and approaches, and criteria for evaluating writing. Also includes the opportunity for participants to have their writing critiqued and presentations by professional authors, editors, and agents.
Information: May be taken five times for a maximum of ten credit hours.
Offered: Summer.

Business and Industry

The Business and Industry certificates and degrees are designed for a variety of purposes to meet the needs of business, industry, and government agencies. They can be customized for clientele in need of a specific credential.

Business and Industry Technology — Associate of Applied Science Degree

The Associate of Applied Science degree is available for a variety of purposes to meet the needs of business, industry, and government agencies. It can be customized for apprenticeship, for workforce development, and for special clientele in need of a custom credential.

The intent of the technical electives is to provide students a body of knowledge and skills that is coherent and provides them opportunities for either a new career or career advancement. The choice of these electives usually requires a partnership between the College and another organization.
General Education Requirements - A grade of C or better is required for graduation.

Law Enforcement

For more information about the Law Enforcement programs, please contact the Public Safety and Emergency Services Institute at Community Campus — (520) 206-6350.

Basic Law Enforcement — Certificate for Direct Employment

Learn the skills necessary to become a law enforcement officer with courses in ethics, criminal investigation, police proficiencies and law. This certificate is designed for individuals working in a law enforcement position. The courses are scheduled based on agency requirements.

Required Prerequisites:

- High school diploma or GED
- At least 21 years of age upon completion of the academy
- No felony convictions
- U. S. Citizen
- Must possess a valid driver’s license
- Physical requirement test
- Written evaluation
- Psychological evaluation
- Oral Board review
- Background investigation
- Medical evaluation
- Polygraph exam
- Other requirements that are specific to Arizona Peace Officer Standards and Training Board (AZ POST)

Completion of the program meets and exceeds the minimum P.O.S.T. requirements for entry-level employment as an Arizona peace officer.

General Education Requirements - A grade of C or better is required for graduation.

Course lists for each General Education category listed below can be found starting on page 56.

Apprentice-Related Instruction

Pima Community College works jointly with local and state apprenticeship groups to offer related instruction in a number of apprenticeship programs. Before students may enroll for apprentice-related instruction, they must be registered with the U.S. Department of Labor's Bureau of Apprenticeship and Training, and the organization operating a specific training program. Apprentice-related instruction at Pima Community College is offered in these areas and provides foundation courses towards the associate of applied science degree.

**Degree Program:**

Those working to gain the Business and Industry Technology Associate of Applied Science degree (trade and industrial technology option) must meet the minimum degree requirement of 64 credit hours. Students must complete 46 credit hours of apprentice-related instruction, and/or college technical courses. The college technical courses must be approved by the department chair.
Center for Training and Development (CTD) Programs

Pima Community College’s Center for Training and Development (CTD) provides high quality training leading to immediate jobs or to job advancement in many in-demand fields. Since 1963, CTD has trained more than 40,000 individuals who wanted to gain new employment, improve their skills in their current jobs or move up the career ladder in their fields. Students learn entry-level skills or upgrade existing knowledge through training classes that provide classroom instruction, hands-on lab learning, and internships and externships. CTD boasts a 90% completion rate and an 85% job placement rate.

The Center’s non-traditional training options allow students to attend in an open-entry/open-exit enrollment year-round up to 30 hours a week during days, evenings or weekends. Each student receives a certificate at the conclusion of their training. CTD offers programs for credit, noncredit, clock-hour, and continuing education units (CEUs). Noncredit and CEU options are available in many areas; for a current list, contact CTD. Credit program information is found under the credit programming section of the catalog.

CTD clock-hour certificate programs are found below. Additional clock-hour programming may be available; please contact the Center for Training and Development for most current programming information. Clock-hour offerings provide students with a method for accessing immediate employment skills related to specific occupational areas. They require student attendance as well as completion of competencies related to the career field. Clock-hour programming is offered in a variety of methods depending on the career path; it provides intensive instruction in the career field, contains integrated academic and life success skills, and provides comprehensive student support services.

Clock-hour programs have various admissions requirements depending on the programming area. COMPASS testing is required for most certificates. Please contact the Center for Training and Development at (520) 206-5100 for details on specific admissions requirements for each program area.

For additional information regarding the Surgical Instrument Technician and Surgical Technologist Certificate Programs, please contact the Center for Training and Development Office at 520-206-5100. More information can be found at http://pima.edu/programs-courses/career-training-programs/surgical-technology/index.html.
Selected Policies, Governance and Faculty
Selected Board Policies

The following policies address the College’s compliance with a variety of federal anti-discrimination laws. The College makes every effort to resolve the complaints of persons who feel they have been discriminated against.

For questions concerning the College’s Affirmative Action/Equal Opportunity and Harassment policies, the College’s unlawful discrimination complaint process, or the College’s Americans with Disabilities Act (ADA) process, contact D. Franklin, EEO/AA/ ADA Office at Pima Community College District Office, 4905C, East Broadway Blvd., Tucson, AZ 85709-1310, (520) 206-4539. Confidentiality will be practiced on a need-to-know basis.

Equal Employment Opportunity/ Affirmative Action

Pima Community College is committed to the principles of equal employment opportunity and affirmative action. The College prohibits discrimination in the terms and conditions of employment based on race, color, national origin, religion, sex, age, disability, veteran status, sexual orientation, gender identity or any other basis protected by law. Our affirmative action program identifies specific recruiting needs in an effort to increase the representation of minorities, women, individuals with disabilities and protected veterans in our institution. Employees and applicants shall not be subjected to retaliation because they have filed a complaint, participated in an investigation or opposed any unlawful practice.

Anti-Harassment

The College is committed to providing a work and educational environment that is free from harassment. Harassment based on an individual’s race, color, national origin, religion, sex including sexual harassment, age, disability, veteran status, sexual orientation, gender identity or any other basis protected by law is prohibited. All employees and students are expected to abide by this policy. Retaliation against any member of the College community for reporting harassment, filing an internal or external complaint, or participating in an investigation is strictly prohibited.

Title IX

“No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving Federal financial assistance.” Title IX of the Educational Amendments of 1972; 34 CFR Part 106

Pima Community College is committed to providing a safe and positive learning and working environment that is free from discrimination on the basis of sex, including sexual harassment and sexual violence. The following people have been designated to handle inquiries regarding Title IX policies and procedures:

EO/Deputy Title IX Coordinator
4905 E. Broadway, D108, Tucson, AZ 85709
520-206-4539
Email: #EEO-ALL@pima.edu

Title IX Coordinator
4905 E. Broadway, B204, Tucson, AZ 85709
520-206-4973
Email: Title9@pima.edu

Americans with Disabilities Act (ADA)

It is the policy of Pima Community College to comply with the ADA and Section 504 of Rehabilitation Act of 1972. No qualified person will, because of disability, be denied employment, access to, participation in, or the benefits of any program, activity or service offered by the College. The College will make every effort to ensure that qualified individuals with a disability are provided a reasonable accommodation; and the College will promote respect for and equal treatment of individuals with disabilities. For public and employee requests for accommodations, or questions concerning the College discrimination complaint process, contact the College ADA Coordinator at 520-206-4539, #EEO-ALL@pima.edu or 4905 E. Broadway Blvd., D108, Tucson AZ 85709.

**Emeritus Status**
The Board of Governors confers Emeritus status on distinguished individuals, retired from the College, to signify honor and respect for outstanding accomplishments and contributions to the College over many years. This distinction is a tribute to the special relationship that will extend well into the future as the College periodically calls upon the services of these highly regarded colleagues for the benefit of the College community. Faculty and administrators receiving such an award exemplify the characteristics of ideal community college educators who, through their professional careers at Pima Community College, have contributed significantly to disciplines or services, professional organizations, their campuses, the Central Office, the College district, and the Pima community.

- Edward M. Duperret, M.Ed., Faculty Emeritus 1992
- Leland H. Scott, Ph.D., Faculty Emeritus 1992
- Henry “Hank” Oyama, M.Ed., Vice President Emeritus 1992
- Robert Longoni, M.A., Faculty Emeritus 1993
- Jamie Trainer, M.S., Faculty Emerita 1993
- Constance Howard, M.S., Dean Emerita 1993
- Johnas F. Hockaday, Ph.D., Chancellor Emeritus 1995
- Max Jules Gottschalk, B.A., Faculty Emeritus 1999
- Angela Zerdavis, Ed.D., President and Faculty Emerita 2004
- Miguel A. Palacios, Ph.D., President Emeritus 2004
- Philip J. Silvers, Ph.D., Assistant Vice Chancellor Emeritus 2004
- Arthur Alberding, Ph.D., Faculty Emeritus 2005

**Distinguished Staff Status**
The Board of Governors confers Distinguished status on retired College staff to signify honor and respect for outstanding accomplishments and contributions to the College over many years. Staff members receiving such an award exemplify the characteristics of the ideal community college. Through their professional careers at Pima Community College, these distinguished individuals have contributed significantly to their areas of service, professional organizations, their campuses, the District Office, the College district, and the community.
