REMARKS Marcy Euler, M.Ed. <i>President, Pima Foundation</i>
REMARKS Lee D. Lambert, J.D. <i>Chancellor</i>
COMMENCEMENT SPEAKER	Gabriela Fragozo <i>Associate of Science Degree, Arizona General Education Curriculum - Science Certificate</i>

PRESENTATION OF DEGREES

*Out of respect for your classmates, after receiving your scroll, please return to your seat
and do not leave the arena floor until the ceremony has ended.*

CONFERRING OF DEGREES

TO THE CLASS OF 2023:

Graduation is the best time of the school year. It's a time to celebrate, and you, Pima Community College's 3,249-member Class of 2023, have earned the right to cheer!

Your road to a degree and certificate may have been marked with detours. But you persevered. You graduated! Give yourselves a hand. And give your loved ones a hand, too – without their support, many of you would not be here tonight.

Your degree or certificate will be a passport to further academic and career achievement. The worlds of work and learning are changing rapidly. Fortune will favor those who embrace learning as a lifelong pursuit. We hope that for many of you, tonight's graduation is the first of many.

I would like to thank our faculty, staff, administrators and Governing Board, who have worked hard to help you cross the finish line.

I also want to thank College Events, PCCTV and the many Pima employees volunteering their time to create what should be a uniquely fun experience.

And most of all, thank you, Class of 2023! Keep striving!

Lee D. Lambert, J.D.
Chancellor

CONGRATULATIONS, PIMA COMMUNITY COLLEGE GRADUATES!

The Governing Board of Pima Community College recognizes your commitment and dedication, including your energy, effort, time and finances, to earn the degree or certificate you will be awarded tonight! You should be very proud.

This commencement shows that you can make a big, positive change in your life! This energy and momentum will carry you forward whether you are bringing your acquired skills and knowledge to current employment, starting a new job or furthering your higher education at another institution. The world needs people who want to contribute and make a difference for their family, their neighborhood and the larger community. Pima is proud that you spent this time here and we look forward to hearing about your accomplishments and to offering you further opportunities.

Many people supported your educational journey. We thank the faculty and staff who shared their love of their subject matter with you, often igniting fires leading students to new intellectual passions or pursuits. We thank the administrators who assure Pima is an amazing place of opportunity for all students in myriad fields. We thank your families, friends, mentors and fellow students for their support and nurturing while you juggled many responsibilities to get to this moment!

On behalf of the Governing Board, congratulations on this great accomplishment!

Theresa Riel, Chair
Pima Community College District Governing Board

GOVERNING BOARD

Greg Taylor, *District 4*

Theresa Riel, *District 2*
Luis L. Gonzales, *District 5*

Maria D. Garcia, *District 3*

COMMENCEMENT SPEAKER

Gabriela Fragozo

Gabriela Fragozo is graduating with an Associate of Science degree and an Arizona General Education Curriculum - Science (AGEC-S) certificate. She is a Tucson native and graduate of Presidio School. She has been a Pima student since fall 2021. She also is a tutor at the Downtown Campus Learning Center.

She wants her classmates to reflect on their success and the challenges they have overcome, but also to contribute to their community.

“Take those opportunities to volunteer and become one with our society,” she says. “Now more than ever, it is our responsibility to make the changes in our community that we have visualized alongside our goals.”

MULTICULTURAL CONVOCATION STUDENT REPRESENTATIVES — DIVERSITY STATEMENTS

Nicolas Fimbres

Diversity is important because it is through different perspectives that one can gain a greater understanding of the world around them. Furthermore, it fosters kindness and empathy in the community.

Maleah Manning

Diversity is incredibly important for a variety of reasons in a community. With diversity, we enable ourselves to learn from one another, whether it is through their culture, beliefs, experiences and more. Diversity allows us to open our eyes to one another and see life from a different perspective.

Namrata Patel

Diversity allows us to bring together differences in opinion, experiences, ideas, tolerance and much more. This allows us as a community to be inclusive and equal, making it stronger than those that are not diverse by building a strong understanding and sense of appreciation of the people living in a diverse community.

Alexis Rose Young

Having a diverse community brings a myriad cultural traditions and opens up people to different food, religion and experiences. With these experiences, we grow as individuals and a community who explores the world through each other's unique cultures and ideologies.

PIMA COMMUNITY COLLEGE DIVERSITY AND INCLUSION AWARDS

The Pima Community College Diversity and Inclusion Awards were created to acknowledge work in different areas throughout the College and community that brings us closer to creating diverse and inclusive communities. These awards are given annually to individuals, organizations and departments that have demonstrated exemplary leadership, vision or service in promoting diversity and inclusion, beyond their normal scope of work, in three categories: Leadership; Service; and Education.

EDUCATIONAL LEADERSHIP IN DIVERSITY AND INCLUSION

PIMA'S CENTRE FOR ARCHAEOLOGICAL FIELD TRAINING

In 2022, Pima's Centre for Archaeological Field Training developed an addendum to Pima's existing Intergovernmental Agreement with the Pascua Yaqui Tribe to support archaeological survey training on tribal land. The agreement provides students with opportunities for training in archaeological survey and Pascua Yaqui culture, as well as opportunities for Pima's Archaeology Program to engage with and do outreach to Pascua Yaqui Tribe members interested in archaeology.

This collaboration was highly successful, with archaeological sites and other cultural resources previously unknown to the tribe being documented. This will enable the tribe to better understand and manage the cultural resources on their lands. In addition, participating Pima students gained a better understanding of Pascua Yaqui Tribe culture. Tribal members also can take Pima's archaeological survey classes and gain a better understanding of archaeology and the career opportunities available in the field.

The Centre's exceptional work is a rare example of the successful implementation of a project designed to close equity gaps and promote inclusion in the discipline of archaeology. This project and Pima's Archaeology Program can serve as a model for other archaeology programs seeking to take concrete steps that will help address issues of equity and inclusion in the discipline while serving students and tribal communities.

PIMA COMMUNITY COLLEGE DIVERSITY AND INCLUSION AWARDS

LEADERSHIP IN DIVERSITY AND INCLUSION

JEFFREY C. THIES, PH.D. **DEAN OF COLLEGE READINESS AND STUDENT SUCCESS**

Jeff Thies, Ph.D., actively works to identify the needs of students and coordinates with his team and administration to enhance their learning experiences, support them in achieving their educational goals and provide a culturally competent learning space.

He spends much of his time meeting with various members of staff to discuss students' barriers. He works to develop solutions and implement strategies for success by actively listening to his team, being a role model in his division, and being dedicated to positive outcomes.

Thies leads Pima's Equity in Retention Academy, which also is supported by ACOT and focuses on equity and retention in student success.

Pima's first Data Summit was held in December 2022, with the objective of increasing awareness of data availability and sharing current uses or planned uses of data to make informed decisions. Ultimately, this should facilitate continuous improvement of the student experience with a specific project.

Thies also periodically meets with his team to look at disaggregated student outcome data and focus on closing gaps. He constantly is looking at data from different perspectives and making data-driven decisions, especially about equity. Expanding the team to cross-functional teams at Pima helps many different units to better examine data.

PIMA COMMUNITY COLLEGE DIVERSITY AND INCLUSION AWARDS

SERVICE EXCELLENCE TO ADVANCE DIVERSITY AND INCLUSION

EMMA BRACK, STUDENT

Emma Brack has created a culture of diversity, equity and inclusion through her extensive involvement in mental health awareness efforts on campus and her efforts in the Diversity and Inclusion Club.

As she returned to college in the middle of the pandemic, Brack didn't know how to navigate the online world and find community. When she visited online student spaces, she found that they were not meant for discussion of tough personal issues. So, she took it upon herself to create the space that students needed – dedicated to peer support and mental health awareness. Thus, Stress Transformation Hour was born.

Stress Transformation Hour is a time dedicated to allowing students to talk about feelings, get and offer peer support and raise mental health awareness. The activity has helped so many students from all walks of life get out of their own head and talk about the issues they may be facing in their life. In her Stress Transformation Hours, Brack ensures that students feel welcomed, included and seen. She does this through her active listening and implementing diversity, equity and inclusion principles into the hour.

Stress Transformation Hour has been running for two years at Pima. The quantitative results of her project include having 60 meetings and 36 weekly newsletters, with the participation of 100 students. The qualitative results include countless lives that have been touched by Brack's work.

While involved in the D&I Club, Brack became a voice around the conversations of gender-free bathrooms at Pima and the insensitivity of Pima's Aztec mascot. Pima has created gender-free bathrooms and a College working group is addressing the issue of the Aztec mascot. Brack also went above and beyond by presenting at the 2021 Unteaching and Unlearning Summit on how to be anti-racist.

PIMA COMMENCEMENT CEREMONY AND REGALIA BACKGROUND

Pima Community College generally requires that graduates wear traditional “cap and gown” academic regalia during the commencement ceremony. At the same time, Pima also embraces graduates’ self-expression, both reverent and light-hearted, as part of the ceremony. Graduates may and often do personalize or supplement their traditional graduation attire to reflect their own traditions, achievements and personalities. There may also be times when wearing alternate ceremonial attire, other than a traditional cap and gown, enhances the commencement ceremony for the graduate while still honoring the importance of the occasion.

The tradition of wearing caps and gowns at Pima Community College graduation ceremonies began in the mid-1980s. During the procession, Pima graduates, administrators and faculty members wear colorful academic regalia that has an interesting history and symbolism.

The costume was created at ancient European universities and was worn daily to distinguish academic persons, such as doctors, masters, licentiates and bachelors, from other populations. It evolved further as colleges and universities adapted the gown, hood and cap from early European versions. Each costume has a distinct meaning.

The doctoral gown has velvet panels and sleeve bars in the distinctive color representing the field of learning and immediately identifying the doctor’s degree. The master’s gown is identified by the sleeve that drapes freely to the wrist, with the back of the sleeve extending down below the knee in a crescent shape. The distinguishing feature of the bachelor’s gown is the official pointed sleeve, lavish in its drape and fullness. The simplest style indicates the gown of the associate degree candidate.

The Intercollegiate Code dictates colors on the academic hood that relate to various fields of learning: Light blue represents education; brown, fine arts and architecture; peacock blue, public administration; apricot, nursing; citron, social work; and sapphire blue, business administration.

Students graduating with honors who belong to the national scholastic honor society Phi Theta Kappa, wear a gold hood and tassel. Some also will wear pewter medallions hanging from a red, white and blue ribbon, signifying that they have completed the Student Medallion Leadership Institute. During the ceremony graduates will move their tassels from right to left, as instructed, to complete the conferring of degrees.

During the processional, the Chancellor is traditionally preceded by the bearer of the academic mace. The academic mace has become the symbol of the power of colleges and universities to confer degrees to candidates who have earned the privilege of the degree.

The Pima Community College mace is constructed of materials native to Arizona: Mesquite; turquoise and copper. It was designed by Pima’s Media Production and Publications department.

The mace and base were commissioned for fabrication to local artisans: Ken Tower, a retired instructor from Flowing Wells High School, for the mesquite woodworking; Shane McPherson of Mac’s Indian Jewelry, for the creation of the turquoise-inlaid copper rings and the turquoise inlay to the seals; and Desert Crucible Inc., a local art foundry, for casting the bronze College seal.

2023 CLASS PROFILE

A total of 3,249 Pima Community College students have graduated or are candidates for graduation at the May ceremony.

The oldest graduate is 76 years of age and earned a Certificate Advanced Culinary Arts in August 2022. The youngest is expected to earn the Arizona General Education Curriculum - Arts (AGEC- A) certification at the age of 16 in Spring 2023.

The class has 1,700 female candidates and 1,498 male candidates. (Some students do not indicate a gender on their graduation application.) The College expects to award 4,520 degrees and certificates to these students. Many Pima students earn more than one certificate and/or degree.

A total of 183 graduation candidates, or 9.9% of the 1,848 associate degree candidates, have a grade point average of 3.90 or greater and meet the requirements for graduation with highest honors.

AMONG THE COLLEGE'S ASSOCIATE DEGREE PROGRAMS, THESE HAVE THE HIGHEST NUMBER OF GRADUATION CANDIDATES*:

629	Liberal Arts (AA)	30	Visual and Performing Arts (AFA)
175	Science (AS)	29	Dental Hygiene (AAS)
161	Business Administration (AB)	29	Veterinary Technician (AAS)
153	Nursing (AAS)	28	Cyber Security
75	EMT Paramedic (AAS)	25	Digital Film Arts and Animation
64	Aviation Technology (AAS)	24	Networking/Cyber Defense
55	General Studies (AGS)	21	Digital Arts (AAS)
38	Business (AAS)	21	Paralegal (AAS)
32	Clinical Research Coordinator	20	Early Childhood Studies (AAS)
32	Health Information Technology (AAS)		

AA - Associate of Arts // AFA - Associate of Fine Arts // AGS - Associate of General Studies // AAS - Associate of Applied Science

*All other degree programs within the College are graduating 19 or fewer students with associate degrees.

THE DEGREES AND CERTIFICATES TO BE AWARDED ARE:

1,386	Certificates	142	Post-Degree Certificate
