Pima County Community College District

4905 East Broadway Blvd.

Tucson, AZ 85709-1010

(520) 206-4500

Board of Governors

District 1 Dr. Brenda B. Even

District 2 Mr. Richard G. Fimbres

District 3 Ms. Sherryn S. Marshall

District 4 Mr. Scott A. Stewart

District 5 Ms. Marty Cortez, Chair

Dr. Robert D. Jensen, Chancellor

Pima Community College is an equal opportunity, affirmative action employer and educational institution committed to excellence through diversity. See page 348 for more information.

Reasonable accommodations, including materials in an alternative format, will be made for individuals with disabilities when a minimum of five working days' advance notice is given. For the general public, please contact the PCC information line at (520) 206-4500 (TTY 206-4530); for PCC students, contact the appropriate campus Disabled Student Resources Office.

Catalog replacement cost: \$1.50

The Pima Community College catalog and the semester *Schedule of Classes* are available as both printed and electronic documents published on the College web site at www.pima.edu. Printed documents are prepared on the basis of the best information available at the time. Both the Internet and printed catalog are official. The Internet version is updated regularly, therefore the Internet version should be relied upon as the most up-to-date.

All information—including statements on tuition, fees, course offerings, admission, and graduation requirements—is subject to change without notice, obligation, or liability.

Message from the Chancellor

Welcome to Pima Community College and to the wealth of opportunities that are waiting for you! Transfer...workforce skills training...career renewal...personal enrichment—it's all here! You can take courses in a traditional semester, over television or the Internet, on weekends and evenings. Or you can try open entry classes that finish when you've demonstrated you are competent in the skill. You can attend classes on any of our five campuses or numerous centers. There are classes during holidays and summer. You design your own plan, but I encourage you to visit an advisor or counselor at any campus or center to make sure all your options have been considered. They are there to support your success!

Most importantly, you'll enjoy an outstanding faculty, staff and administration dedicated to assisting you in reaching your educational goal!

Pima Community College is undergoing a period of campus renovations and renewal. Much of the construction is finished on the campuses, but some continues. Please bear with us. When we finish, our campuses will be redesigned to further support your success. You'll notice that all student services—registration, advising, financial aid, etc. are in one place that is the heart of the campus.

We hope you'll get involved with student life at Pima. Your experience here will be enriched if you take advantage of what the many activities, student government or interest groups offer. Take the opportunity to enjoy the variety of cultural, arts and musical events held at PCC. And don't forget to cheer for your favorite athletic team. Pima can boast many state championships!

I wish you success this year and in the years to come and I hope you enjoy your experience at Pima Community College.

Cordially,

Dr. Robert D. Jensen
Chancellor

How This Catalog Can Help Students To Succeed

As you pursue your goal of higher education, this catalog can be a valuable tool in answering your questions and helping you while you are at Pima Community College. The *Pima Community College Catalog* is organized to guide you through each step of your college career at this institution:

- **Admission/Registration**
- **Tuition and Fees**
- **Financial Aid**
- **Certificate and Degree Requirements**
- **Course Descriptions**
- **Campus Services**
- **Faculty Information**
- **Selected Policies**

If you have any questions about the material in this catalog or need help in planning your educational goals, please see a PCC advisor

or counselor at any of the campuses or centers.

This catalog is one of three publications that are essential to a student's success at Pima Community College.

The other two publications in the triangle of student success are:

- **Schedule of Classes**—a semester publication of classes offered. The schedule is available online (www.pima.edu) and at all campuses.
- **Student Handbook**—an annual publication of regulations and resources at PCC. The handbook is distributed to students attending orientation and available at any campus Advising and Counseling Center.

Academic Calendar

Fall Semester 2001

All College In-Service Day (College closed)	Aug. 20
* Late registration	Aug. 20 - 25
Faculty advising begins	Aug. 21 - 24
* Fall classes begin (traditional semester)	Aug. 27
‡ First 8-week session begins	Aug. 27
Add/drop week (traditional-length courses)	Aug. 27 - Sep. 1
Labor Day holiday (College closed)	Sep. 3
Refund deadline	Sep. 10
December graduation applications due	Oct. 5
Census Date, 45th day	Oct. 10
Traditional Semester Midpoint	Oct. 15 - 21
First 8-week session ends	Oct. 21
‡ Second 8-week session begins	Oct. 22
Veterans Day holiday (College closed)	Nov. 12
Withdrawal deadline (traditional-length courses)	Nov. 13
Thanksgiving holiday (College closed)	Nov. 22 - 25
Final exam week	Dec. 10 - 16
Second 8-week session ends	Dec. 14
Fall semester ends	Dec. 14
Final grades due	Dec. 14
Winter recess (students/faculty)	Dec. 15 - Jan. 6
Holiday break (College closed)	Dec. 25 - Jan. 1

Winter Intersession 2001/2002

‡ Classes begin	Dec. 17
Holiday break (College closed)	Dec. 25, 31 & Jan. 1
Classes resume	Jan. 2
Classes end	Jan. 10
Final grades due	Jan. 10

Spring Semester 2002

College opens	Jan. 2
Faculty advising begins	Jan. 7 - 10
* Late registration	Jan. 7 - 12
All Faculty Day	Jan. 11
* Spring classes begin (traditional semester)	Jan. 14
‡ First 8-week session begins	Jan. 14
Add/drop (traditional-length courses)	Jan. 14 - 19
Martin Luther King, Jr., Day holiday (College closed)	Jan. 21
Refund Deadline	Jan. 28

May graduation applications due	TBA
** Rodeo Days holiday (College closed)	Feb. 21 - 22
Census Date, 45th day	Feb. 28
Traditional Semester Midpoint	Mar. 4 - 10
First 8-week session ends	Mar. 10
Spring Break (no classes)	Mar. 11 - 17
‡ Second 8-week session begins	Mar. 18
Withdrawal deadline (traditional-length courses)	Apr. 11
Second 8-week session ends	May 12
Final exam week	May 13 - 19
Spring semester ends	May 17
Final grades due	May 17
Graduation	May, TBA

Summer Sessions 2002

Session A

Memorial Day (College closed)	May 27
Classes begin	May 28
Add/drop	May 28 - 29
Classes end	Jun. 28

Session B

Classes begin	Jul. 1
Add/drop	Jul. 1 - 2
Independence Day holiday (College closed)	Jul. 4
Classes end	Aug. 2

Session C

Memorial Day (College closed)	May 27
Classes begin	May 28
Add/drop	May 28 - 29
Independence Day holiday (College closed)	Jul. 4
Classes end	
8-week session	Jul. 19
10-week session	Aug. 2

* Registration continues throughout the semester for short-term, accelerated, and open-entry classes.

‡ Sessions may begin earlier at Davis-Monthan Air Force Base.

** The College will be open for classes/activities on the Saturday and Sunday following the 2001 and 2002 Rodeo Holiday.

The College

Accreditation

Pima Community College is accredited by the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools, which can be contacted at their web site address, www.ncacihe.org; by telephone at (800) 621-7440; by fax at (312) 263-7462; or by mail at 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504. Specialized agencies, each recognized by the U.S. Department of Education, have also accredited or approved individual study programs in nursing, radiologic technology, dental hygiene education, dental laboratory technology, dental assisting education, legal assistant, and respiratory therapy.

Mission Statement

Pima Community College welcomes all who seek to increase their knowledge, gain skills, enrich their lives, and benefit from the diverse learning opportunities it offers.

The College provides quality, comprehensive, affordable higher education. The College assesses the needs of its communities and responds quickly to provide programs and services. It offers both traditional and alternative approaches to learning, emphasizes teaching excellence, assesses student learning, and builds collaborative partnerships. The College promotes access for students through multiple sites and interactive technologies. It recognizes that its constituents benefit from global awareness.

Values Statement

Pima Community College reflects the values and aspirations of the greater community that we serve.

We believe in—

Vision and Leadership. We are committed to a positive vision of the future, adapting responsibly to changing individual and community needs. We are leaders in promoting the value of education to improve the quality of life and to participate in the global marketplace.

Quality Learning in a Caring Environment. Our special strength lies in inspiring student confidence and learning. We believe that student achievement and success are increased by providing options for students, nurturing the whole person, and continuously improving instruction and services.

Diversity. We encourage individual expression and we respect differences in culture and language. We honor the environmental heritage of the Southwest and the cultural traditions of the peoples of the world.

Responsiveness and Collaboration. We reach out to understand our community, to share resources, and to provide access for students. We value ongoing communication with constituents. We believe in investing in the future of our students and employees and providing appropriate facilities and technology. We hold ourselves accountable for our stated values and the public trust placed in us.

College Purposes

The College fulfills its Mission through the following purposes:

General Education – to provide a core of learning in all associate degree and certificate programs which promotes good citizenship and lifelong learning.

Occupational and Professional Education – to educate and train students for the requirements and opportunities of the changing local and global economies.

Transfer Education – to prepare students to transfer to and succeed in other institutions of higher education.

Developmental Education – to assist students in learning basic skills to succeed in college work and in life.

Community Education – to offer organizations and individuals diverse education, personal enrichment, and training opportunities to upgrade and enhance their skills and knowledge.

Student Development and Support Services – to assist students in realizing their full potential through counseling, career planning, advising, assessment, student activities, and specialized educational services.

Business and Economic Development – to assist the economic development of the greater community through collaborative planning, workforce development programs, continuing education and training, and technical assistance to businesses.

Mission Indicators of Success

1. Pima Community College students and employees will reflect the diversity in the community.
2. Students will find the College's programs and services accessible and competitively affordable among Arizona community colleges.
3. College courses and programs will meet the needs of students, employers, and its educational partners.
4. Employers and educational partners will find that the College adapts quickly and responsibly to changing education and workplace requirements.
5. Students will show persistence in reaching their educational goals.
6. Community constituents will share the College's perception of its mission and progress toward achieving its mission.
7. The College will identify and implement ways to meet the needs of the unserved, underserved, and non-returning students in its service area.
8. The College will meet the expectation of employers and its educational partners for collaboration, articulation, and sharing resources.
9. Students completing coursework will have the knowledge, skills, and values to compete successfully in continuing higher education and local and global markets.
10. The College will provide effective professional development programs.

The College will evaluate and report to the community its overall institutional effectiveness.

Institutional Effectiveness Policy

The College is committed to ensuring institutional effectiveness through continuous assessment and quality improvement. Accordingly, the College will establish responsive and integrated planning, evaluation, development and project-support systems to help the College fulfill its mission in the most effective and efficient manner.

(Adopted by the College Board of Governors, March 11, 1992)

Implementation

The College takes a number of integrated steps to plan and improve its programs and services.

- It annually measures its overall mission performance by reporting to the community on ten Indicators of Success.
- The quality of each academic program and service is assessed on a three-year cycle.
- It applies a comprehensive set of measures to assess student academic achievement in all facets of student learning.
- The performance of all employees and its Board of Governors is assessed on a regular basis.

Each of these steps is supported by timely surveys and research studies of students, College employees, area employers and taxpayers, and other education partner institutions.

Historic Profile

In 1966 the citizens of Pima County, Arizona, voted by a large margin to form a junior college district. The county superintendent of schools appointed a five-member governing board that laid the groundwork for Pima College. With help from committees composed of citizens, the board developed educational goals, created a financial plan, selected a president, and chose a campus site.

The next year the citizens of Pima County elected a board to replace the appointed officials and approved a \$5.9 million bond issue for the College. In 1969, construction on the first campus began on a 267-acre site in the foothills of the Tucson Mountains west of the city.

The College's first classes met in the fall of 1969 at Tucson Medical Center, Villa Maria, and Marana. In the fall of 1970 Pima College officially opened its doors to 3,543 students. Classes were held in the unlikely quarters of a hangar at the Tucson International Airport. By January of 1971, students in all programs attended classes in the eleven buildings on Anklam Road—today's West Campus.

Expansion and evolution began almost right away. In 1972 the board renamed the institution Pima Community College to better reflect its mission statement of service to the community. And it began to offer greater access through additional campuses.

In 1974 the Downtown Campus was established at Stone Avenue and Speedway Boulevard. The first classes were held in a remodeled post office building. With the purchase of neighboring structures and the construction of the campus center and classroom technology building, the campus grew to fifteen buildings. The campus is expected to serve more than 10,000 students when the 1995 bond project is completed.

In 1975 the College established the Community Campus to supplement traditional on-campus education. Currently, this campus

offers classes at over 145 sites throughout southern Arizona, and is the hub for distance learning. The Community Campus also the Center for Training and Development, a non-credit workforce development skills training unit that was established in 1963 and became part of the College ten years later. Pima College Adult Education, a part of Pima County since 1969 joined the College in 2000 and is headquartered at Community Campus. The Corporate and Community Education Office at the Community Campus offers customized training for the business community, noncredit courses, and study tours. After occupying several sites, Community Campus's permanent facility opened in January of 1997 near St. Mary's Road and Interstate 10.

The College also established the East Education Center in 1976, which became the East Campus in 1980. Located on a desert site east of Davis-Monthan Air Force Base, the campus doubled in size in the fall of 1989 with the construction of the student union and library. It has recently been expanded to accommodate just over 6,000 students. The campus shares recreational and classroom facilities with the Tucson Parks and Recreation Clements Center.

The South Education Center opened in 1986, and by 1994 had grown into the Desert Vista Campus, located near Interstate 19 and Valencia Road. The campus also houses many training and student services of the Center for Training and Development as well as a charter school serving Native American students. The 1995 bond expansion will allow the campus to serve nearly 7,000 students.

Since a 1995 Pima County bond election, the College has been using taxpayer-supported bonds to finance much-needed expansion and important facility and technology improvements throughout the Pima County Community College District. As a result of the 1995 bond election, the College opened the Northwest Community Learning Center in 1998 as a forerunner to the establishment of a comprehensive campus in the northwest sector of the county, and in 2000 it established the Northeast Community Learning Center.

For many of its 30 years, Pima Community College has ranked among the five largest multi-campus community colleges in the nation, and currently enrolls more than 50,000 students annually.

College Locations

If you experience difficulty reaching any of the campuses, educational centers, or offices listed above, call **(520) 206-4500** for assistance.

Community Campus

Serving students since 1975, the Community Campus conducts credit and noncredit classes at its campus location (401 N. Bonita Avenue) and in more than 145 facilities throughout southern Arizona, including the Northeast Community Learning Center (7816 E. Wrightstown Road), Northwest Community Learning Center (8310 N. Thornydale), Davis-Monthan Air Force Base, and at various public facilities in greater Tucson, Green Valley, Nogales, Santa Cruz, and Sells.

The Community Campus provides a wide range of courses developed to meet the diverse needs of the greater Tucson community as defined by its residents and local businesses. Customer-driven programs and classes are offered to nearly 30,000 persons every year. In the Fall 2000 semester, the Community Campus along with the Northeast and Northwest Learning Centers served more than 6,600 students.

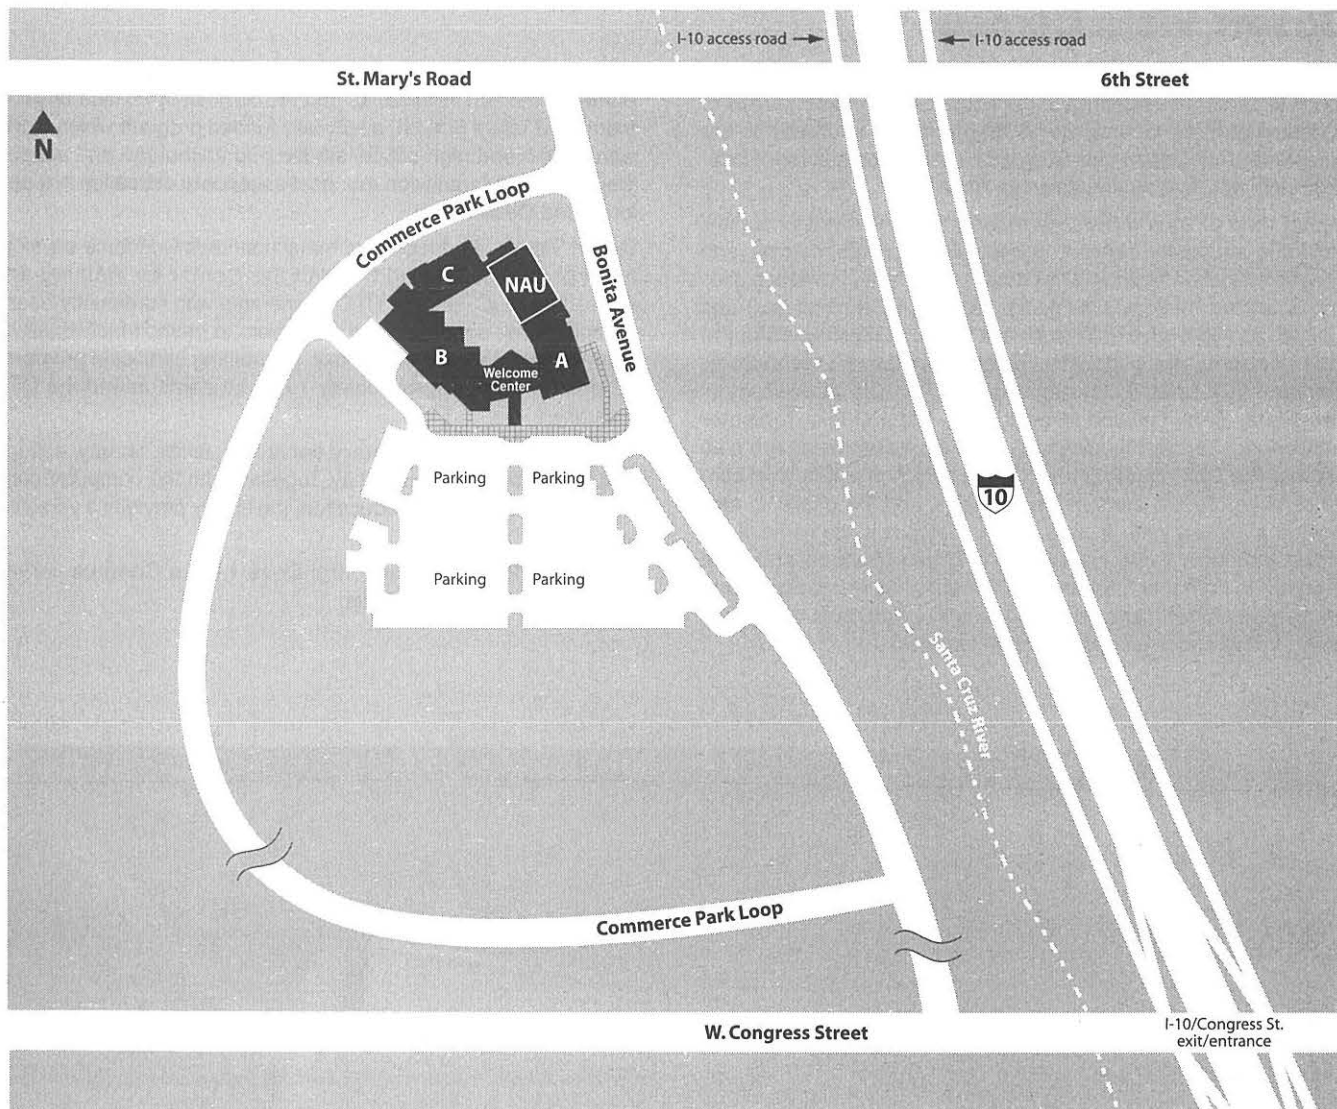

The Community Campus also develops and administers educational services in support of College district-wide educational programs and initiatives, and it delivers degrees in Associate of Arts (AA), Associate of Science (AS), Associate of General Studies (AGS), and Associate of Applied Science—Business and Industry Technology (AAS/BIT). AAS/BIT degree programs include a degree in Microsoft Certified Systems Engineer (MCSE) studies and a degree in Certified Novell Engineer (CNE) studies.

Campus services include development and delivery of programs in the following areas: Business and Industry Training (BIT) divi-

sion services include corporate education and professional development classes coordinated through the Employee Development Institute (EDI), the Information Technology (IT) Institute, and the Small Business Development Center (SBDC). Specific BIT Division programs include Continuing Education for Health Professionals and Continuing Education for K-12 Educators. Workforce training services are provided by the Center for Training and Development (CTD). Adult basic education classes are coordinated by the Pima College Adult Education Division and are held at various sites in Tucson. Community education programs and services include senior and general interest classes, summer classes for K-12 students, workshops, seminars, and study tours throughout the Southwest, Mexico, and abroad. International business training exchanges are conducted through the International Training and Development Center.

The Community Campus administrative headquarters houses a registration and cashier center, an advising and counseling center, a learning resource and educational service center, a conference and training center, and administrative offices for the campus and its various divisions. The telecommunications wing houses the College district-wide interactive classroom system hub, broadcast-quality production facilities, and the telecourse distribution center. Also in this wing, the College has provided space to Northern Arizona University (NAU) for its interactive classroom and distribution control center for NAU distance learning operations in southern Arizona.

Desert Vista Campus

In 1986, Pima Community College opened the Education Center-south to serve the residents of the south and southwest areas of Tucson and Pima County. By 1993, the center evolved into the comprehensive Desert Vista Campus, moving to its present location near Interstate 19 and Valencia Road.

Desert Vista offers a wide range of programs and diverse courses, including university transfer, occupational, developmental, and general education. Outstanding courses are offered in Mathematics and Sciences (Biology, Chemistry, Astronomy, and Physics) and Languages (Spanish and English as a Second Language.) Many of these courses are supported by state-of-the-art technology. Programs in Aviation Technology, Culinary Arts, Child Development Associate, Early Childhood Education, Electronics, Computer Networking, Telecommunications, and Optoelectronics are also offered. The Child Development Center, which provides child care for children of PCC students, employees, and the public, is also located at Desert Vista. In addition, the campus is the home of the Pima Community College/University of Arizona Sequential Degree Program in Bilingual Elementary Education. All instructional programs and student support services are backed by a computing network of services geared for student success.

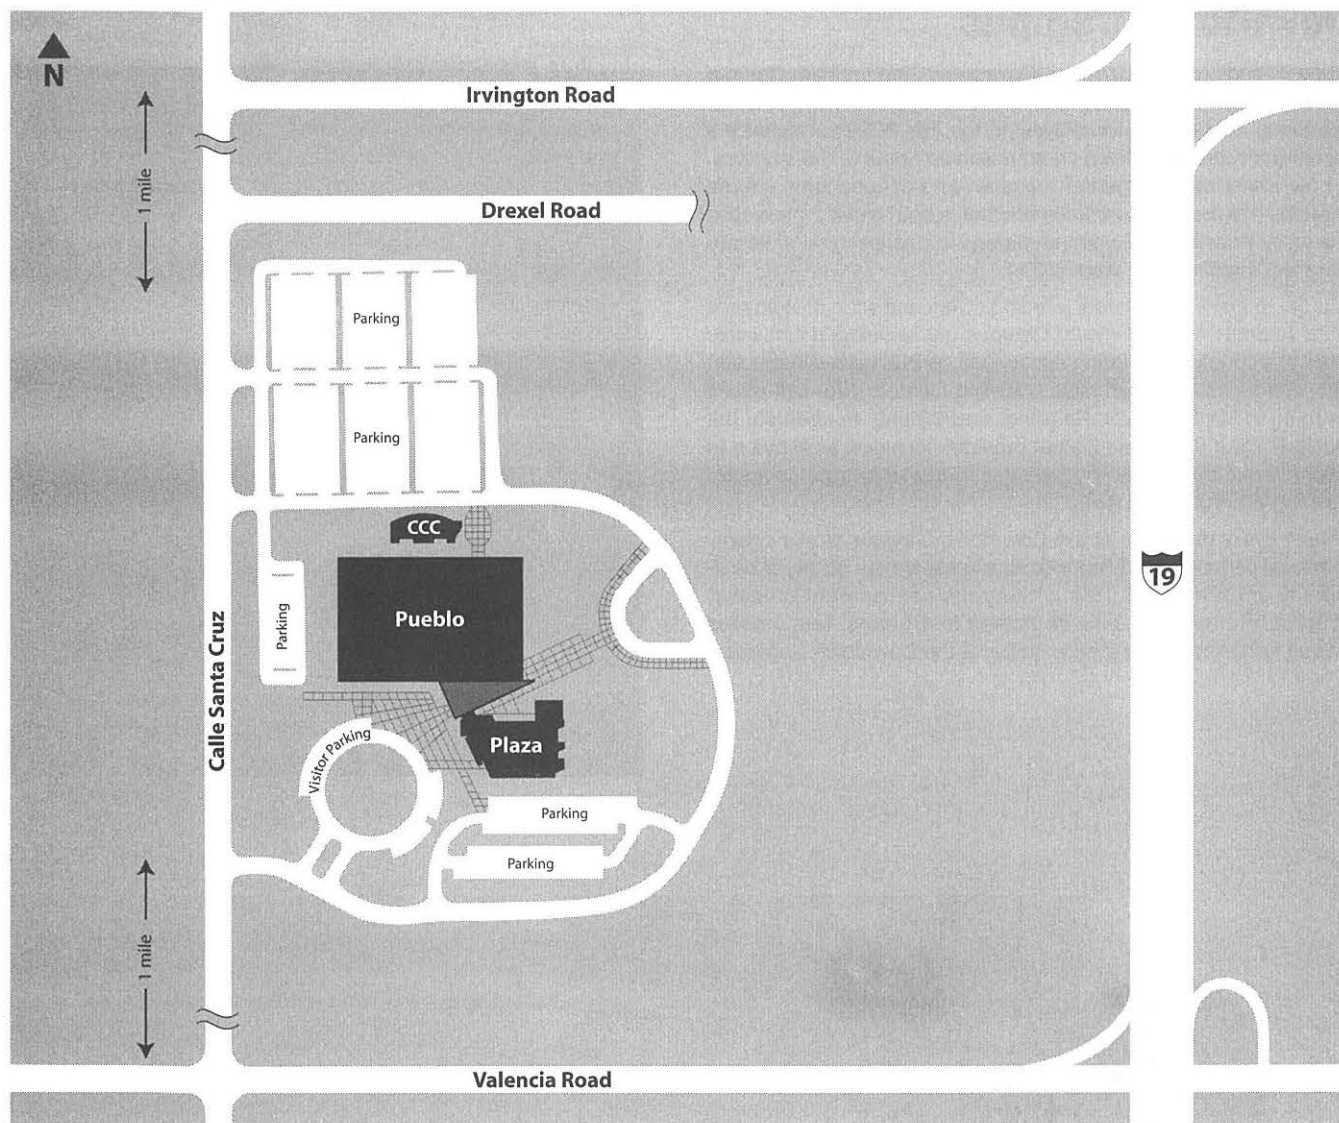

Vision High School, a charter school which mainstreams dually enrolled high school students into the community college environment, and Talent Search, a federally funded program which works with middle and high school students to encourage and support their successful transition into post-secondary education are also located at Desert Vista.

Desert Vista is the location of many noncredit workforce development programs offered through the Center for Training and Development (CTD). The CTD cooperates with community-based organizations, agencies, and employers to provide individualized year-round, open-entry/open-exit, job training certificate programs for employment. Approximately 1,000 students attend the CTD annually.

The new Desert Vista Library serves students, faculty, college employees and the community. Together with the computer commons, testing, and adult education, the library provides a versatile, varied study space.

In the Fall 2000 semester, the Desert Vista Campus served approximately 3,300 students.

Downtown Campus

Since its beginning in 1974, the Downtown Campus has offered a variety of opportunities for students to enhance their personal, academic, and professional lives. In the Fall 2000 semester the centrally located Downtown campus served about 9,100 students. A balance of developmental, transfer, and occupational course offerings has created an enrollment that is both heavily involved in university transfer (41%) and immersed in occupational programming leading directly to work (30%).

In order to meet the different learning styles and scheduling needs of its students, the Downtown Campus has developed innovative ways of instruction, including supervised, individualized instruction with video lessons. Alternative Learning Centers offer self-paced learning in Mathematics, Reading, and Writing. In addition, the Multidiscipline Computer Center provides technical assistance to students and assists faculty who desire to incorporate computer learning into the classroom.

Almost every discipline at the Downtown Campus works closely with local community advisory groups to assure the quality and relevancy of curriculum. This continuous assessment process, coupled with capable and dedicated instructors, has created unique and exceptional programming at the Downtown Campus.

East Campus

In 1976, the College established the East Education Center for residents of Tucson's east side. The response was overwhelming, and four years later, in 1980, the East Campus was constructed. The campus offers general education, university transfer, and developmental courses, as well as an impressive list of selected occupational programs. Included in its offerings are the Emergency Medical Technology Program, the Pharmacy Technology Program, the Administration of Justice Program, and the Environmental Technology Program. Computer Science and Languages complete an array of notable programs. This year, the campus continues its outstanding academic growth with the addition of a Veterinary Technology Program. An active Student Life office assures EC students of a variety of opportunities to enhance their personal success.

Sitting on almost 58 acres in the Pantano and Irvington Roads area, the campus is adjacent to the Fred Enke Golf Course, Lincoln Regional Park, the Atterbury Bird Sanctuary, and the City of Tucson's Clements Recreational Center. Surrounded by natural Sonoran vegetation, it maintains a relaxed, comfortable atmosphere, with buildings clustered around several small patios and shaded courtyards.

In the Fall 2000 semester, the East Campus served more than 5,200 students. Current facilities include classrooms, laboratories, an outstanding Tutoring Center, a newly renovated Library/Student Center, and the Arizona State Environmental Technology Training Center (ASETT). Beginning in the fall of 2001, the campus will also serve as home to Pima Community College's Football Program.

The East Campus is in the process of renovation. Please bear with us as we strive to match our campus structure to the needs of our students.

West Campus

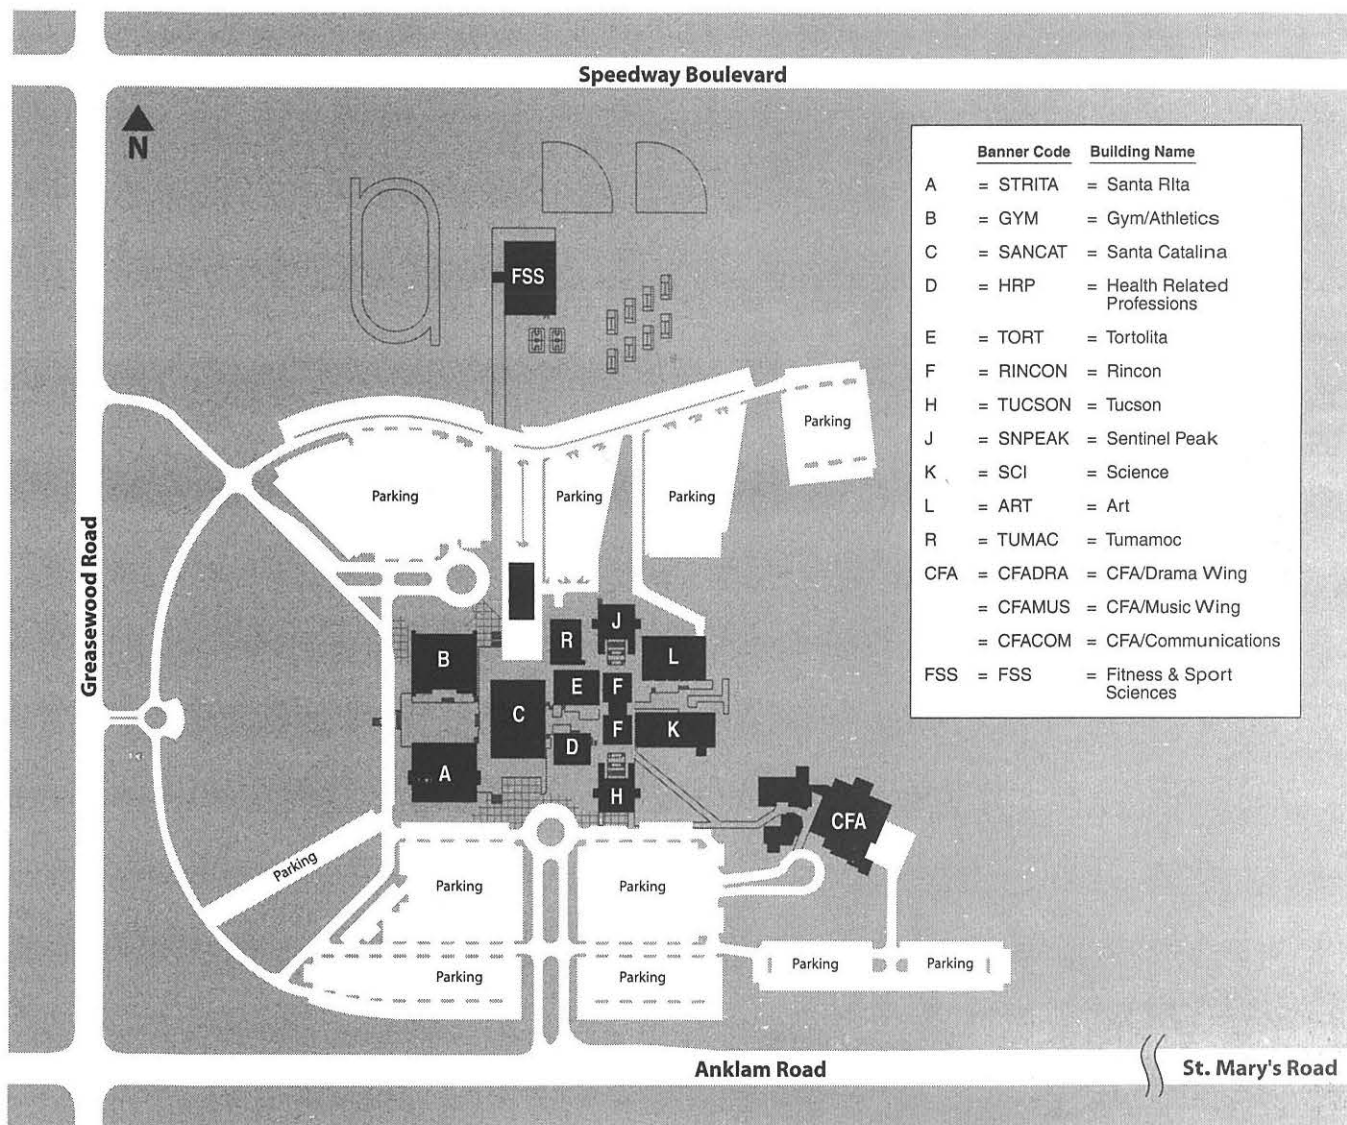

Located on 267 acres in the foothills of the Tucson Mountains, the West Campus opened in January of 1971 as the first campus of Pima Community College. Today, it provides a wide range of courses in general education, university transfer, occupational, and developmental instruction.

The Center for the Arts is also located at West Campus. Used for student instruction as well as by the community, the arts complex houses two theaters, an art gallery, music recital hall, offices, and classrooms. Also, West Campus is the home of the College's inter-collegiate athletics, Engineering, Digital Arts, Arts, and Printing Programs.

Designed to blend with the surrounding desert, the campus features inner courtyards and has several hiking trails running through the grounds for students to use for exercise or relaxation during study breaks. Campus facilities include laboratories, fitness and sports center, health-related professions building, library, and computer center. As the largest of the five campuses, the West Campus enrolled over 13,200 students.

Admissions, Registration, and Records

Admission to the College

Pima Community College (PCC) has an open-door policy that encourages all individuals to further their educational interests. No person can be denied admission to the College on the basis of sex, race, creed, color, national origin, age, or disability. PCC is open to individuals who meet the following definition for either *Regular* or *Special* admissions status. Admission to specific degree (or certificate) programs is not guaranteed. Preference in admission to PCC for all programs may be given to Pima and Santa Cruz County residents.

Admission to the College is granted to persons in the following categories established by the Arizona Community College Commission (R7-1-301).

- A. Admission of Regular Students—*Regular* admission will be granted to any person who is pursuing a program of study that leads to a PCC degree or certificate and who meets at least one of the following standards:
 1. Is a graduate of a high school that is accredited by a regional accrediting association or approved by the State Board of Education or other state educational agency.
 2. Has a high school certificate of equivalency (GED) or who has met the Ability to Benefit criteria.
 3. Is 18 years of age or older and demonstrates evidence of potential success at the college level based on PCC assessments.
 4. Is a transfer student in good standing from an accredited college or university.
- B. Admission of Students Under 18 Years of Age—*Special* admission will be granted to a person who does not meet any of the standards stated above in A. Special admission students may be limited to enrolling in no more than two classes (maximum 8 credit hours) per semester. Special admission may be granted so long as College officials determine that such admission is in the best interest of the student and the College. Students in this category may be:
 1. Students under the age of 18 who have taken the appropriate college assessments and have demonstrated the academic skill level to benefit from the course. (Signature of a parent/guardian is required for students under the age of 18. Admission of students under the age of 16 is subject to the successful completion of the Underage Admission process with any campus Dean of Student Development.)
 2. Students who achieve the following test scores:
 - SAT (Scholastic Aptitude Test) composite (verbal and math) of 930 or more, SAT II of 500 or more, **or**
 - ACT (American College Test) composite of 22 or more.If a student achieves one of the above scores, she or he shall not be denied admission because of age, lack of a high school diploma or high school certificate of equivalency, grade in school, lack of permission of school officials, or lack of concurrent enrollment in a public or private school.
 3. Students in a special program sponsored by the College.

Admission of International Students

Admission may be granted to individuals who are applying for **full-time** status as an F-1 student, or who are attending as an active F-1 student at another institution and have satisfied all accompanying criteria. Admission to the College may be granted on a **part-time** basis to individuals on visas other than F-1. Tuition and fees are the same rate as out-of-state students. All international

students must comply with the appropriate immigration standards and regulations. The admission requirements for all international students are listed below.

1. Full-time International Students

International students already in the U.S. and seeking admission to PCC as a full-time student (12 credit hours or more per semester) must submit proof of the following requirements at least two weeks before the beginning of the semester of enrollment.

- a. Completion of an academic program equal to an American secondary school;
- b. Score 450 or more on the Test of English as a Foreign Language (TOEFL);
- c. Application for admission, along with a \$25 non-refundable fee, to the Admissions Office;
- d. Letter of financial guarantee;
- e. Official transcripts in English of all work done at previous educational institutions.

2. Part-time International Students

International students who want to attend PCC on a part-time basis must submit an application for admission. Students in the U.S. who are on a visa other than F-1 may attend part-time (no more than 6 credit hours per semester). Part-time international students must score 450 or more on the TOEFL if they plan to enroll in classes other than English as a Second Language or bilingual classes.

For more information, please contact the International Student Services Office at (Country Code 1) 520-206-6732 or see the PCC web site at <http://www.pima.edu>.

Student Residency Requirements

For tuition purposes, students must indicate their residency status when applying for admission. All questions about your legal residency must be determined by the appropriate Admissions Office before registration and payment of fees for any semester or session. It is the students' responsibility to apply for admission and to register under the correct residency status (domicile determination). Your domicile is determined as of the first day of the session in which you are enrolling. The following guidelines to determine residency status are taken from the Arizona Revised Statutes Sections 15-1801 through 15-1807. If you have problems understanding these guidelines, or need help determining your residency status, please contact any campus Admissions Office.

Definitions (Section 15-1801)

In this article, unless the context otherwise requires:

1. Armed forces of the United States means the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the commissioned corps of the United States Public Health Services, and the National Oceanographic and Atmospheric Association.
2. Continuous attendance means enrollment at an educational institution in this state as a full-time student, as such term is defined by the governing body of the educational institution for a normal academic year since the beginning of the period for which continuous attendance is claimed. Such person need not attend summer sessions or other such intersession beyond the normal academic year in order to maintain continuous attendance.
3. Domicile means a person's true, fixed and permanent home,

and place of habitation. It is the place where he intends to remain and to which he expects to return when he leaves without intending to establish a new domicile elsewhere.

4. Emancipated person means a person who is neither under a legal duty of service to his parent nor entitled to the support of such parent under the laws of this state.
5. Parent means a person's father or mother, or if one parent has custody, that parent, or if there is no surviving parent or the whereabouts of the parents are unknown, then a guardian of an unemancipated person if there are not circumstances indicating that such guardianship was created primarily for the purpose of conferring the status of an in-state student on such unemancipated person.

In-State Student Status (Section 15-1802)

1. Except as otherwise provided in this article no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes.
2. A person is not entitled to classification as an in-state student until he/she is domiciled for one year, except that a person whose domicile is in this state is entitled to classification as an in-state student if he/she meets one of the following requirements:
 - a. His/her parent's domicile is in this state and his parent is entitled to claim him as an exemption for state and federal tax purposes.
 - b. He/she is an employee of an employer that transferred him/her to this state for employment purposes or he/she is the spouse of such employee.
3. The domicile of an unemancipated person is that of such person's parent.
4. Any unemancipated person who remains in this state when such person's parent, who had been domiciled in this state, removes from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, so long as such person maintains continuous attendance.
5. A person who is a member of the armed forces of the United States stationed in this state pursuant to military orders or who is the spouse or a dependent child as defined in Section 43-1001 of the armed forces of the United States stationed in this state pursuant to military orders is entitled to classification as an in-state student. The student, while in continuous attendance, toward the degree for which currently enrolled, does not lose in-state student classification.
6. A person who is a member of an Indian tribe recognized by the United States Department of the Interior whose reservation land lies in this state and extends into another state and who is a resident of the reservation is entitled to classification as an in-state student.

Alien In-State Student Status (Section 15-1803)

An alien is entitled to classification as an in-state refugee student if such person has been granted refugee status in accordance with all applicable laws of the United States and has met all other requirements for domicile.

Presumption Relating To Student Status (Section 15-1804)

Unless the contrary appears to the satisfaction of the registering authority of the community college or university at which a student is registering, it shall be presumed that:

1. No emancipated person has established a domicile in this state while attending any educational institution in this state as a full-time student, as such status is defined by the State

Board of Directors for Community Colleges or the Arizona Board of Regents, in the absence of a clear demonstration to the contrary.

2. Once established, a domicile is not lost by mere absence unaccompanied by intention to establish a new domicile.
3. A person who has been domiciled in this state immediately prior to becoming a member of the armed forces of the United States shall not lose in-state status by reason of such person's presence in any other state or country while a member of the armed forces of the United States.

Student Status Regulations (SECTION 15-1805)

The Arizona Board of Regents and the State Board of Directors for Community Colleges shall adopt guidelines applicable to all institutions under their respective jurisdictions that will insure uniform criteria to aid the institutions in determining the tuition status of any student and that will establish uniform procedures for review of that status.

Testimony Concerning Student Status: Designation of Persons to Administer Oaths (Section 15-1806)

The Arizona Board of Regents and the State Board of Directors for Community Colleges shall designate a person employed at each institution under their respective jurisdictions to administer oaths or affirmations in connection with the taking of testimony relative to student status for tuition purposes.

Concurrent Enrollment; Nonresident Tuition (Section 15-1807)

1. It is unlawful for any nonresident student to register concurrently in two or more public institutions of higher education in this state including any university or community college for a combined student credit hour enrollment of more than six semester hours without payment of nonresident tuition at one of such institutions.
2. Any nonresident student desiring to enroll concurrently in two or more public institutions of higher education in this state including any university or community college for a combined total of more than six semester hours who is not subject to nonresident tuition at any of such institutions shall pay the nonresident tuition at the institution of his choice in an amount equivalent to nonresident tuition at such institution for the combined total of semester hours for which the nonresident student is currently enrolled.

Evidence of Domicile

In some cases, a student may have to present documents for the College to verify their in-state status. The State Board of Directors for Community Colleges Regulation 7-1-23 provides the following guidelines regarding documents that students may present.

1. An affidavit signed by the student must be filed with the person responsible for verifying domicile.
2. One or more of the following may be used in determining a student's domicile in Arizona:
 - a. Driver's license
 - b. Income tax return
 - c. Voter registration
 - d. Automobile registration
 - e. Place of graduation from high school
 - g. Dependency as indicated on federal income tax return
 - h. Ownership of real property
 - i. Notarized statement of landlord or employer
 - j. Bank accounts
 - k. Other relevant information

Immunization

To protect the health of all students and to prevent illness, students should be immunized if they were born after January 1957. Measles/rubella shots are available at all Pima County Health Department Offices, for a minimal fee, or from private doctors. For more information, please contact the Pima County Immunization Program Office at (520) 740-3755.

Declaring a Program of Study

Students must declare a program of study (major) when applying for admission and make sure that it is listed correctly on their records. Advisors and counselors are available at all campus locations to help choose the right program of study. The program of study can affect financial aid or veterans benefits.

Before the First Semester

The following procedures are crucial to student success.

- Assessments
- Advising & Orientation
- Transfer of Credits
- Credit by Examination

Assessments

Full-time students are required to take the mathematics, reading, and writing assessment tests before registering for classes. Part-time students are required to take the mathematics, reading and writing assessment tests when they register for the first time in a class in these subjects. The assessment tests are free of charge and the results will be used to place students in appropriate classes. Students must be admitted to the College and show a photo ID before testing.

In addition to these basic skills assessments, the College also offers assessments for students taking English as a Second Language (ESL) classes, Computer Information Systems (CIS), Chemistry (CHM), and Biology (BIO) courses.

Requirements

Prior to registering, the following students **must** take the basic skills assessments in reading, writing and mathematics.

- New full-time students; **or**
- Any student who has earned at least 12 credit hours; **or**
- Any student under the age of 16; **or**
- Any student registering for the first-time in a reading, writing or mathematics course.

To register in General Education classes, all students must meet one of the following reading requirements:

- Score at the REA 091 level or higher on PCC assessments; **or**
- Complete the REA 091 course with a grade of "C" or higher; **or**
- Concurrently enroll in REA 081 or REA 091 and a General Education course during the first semester of General Education coursework.

Times

Appointments are not necessary, but please allow three hours to complete all assessments.

Special Accommodations

Special accommodations (such as extended time, large print, writing assistants, and interpreters) for qualified disabled students are available through the Disabled Student Resources Offices. For more information, please refer to the *Disabled Student Resources* section.

Preparation

To prepare students for the basic skills assessments in reading, writing and mathematics, a study booklet is available for a small charge at any campus bookstore, or go to www.pima.edu and link to Virtual Advising.

Other Testing Services

For students without a high school diploma, PCC offers the General Education Development test to help students earn their GED for high school equivalency. The General Education Development test is available at the West Campus Assessment Center and at Pima College Adult Education Centers.

Additionally, the institutional TOEFL exam (Test Of English as a Foreign Language) is available at the West Campus Assessment Center.

Advising and Orientation

A Student Success Program has been developed for all students new to higher education or any student enrolling in reading, writing, mathematics or General Education courses for the first time. For a complete description of the mandatory requirements or exceptions for this advising and orientation program, please refer to the *Schedule of Classes* or go to www.pima.edu and click on "Advising" or "Catalog."

This program provides information about programs of study, schedule planning, course selection, time management, College procedures, university transfer options, and briefly describes available financial aid resources. Orientation is offered as a credit class, workshop, or on-line tutorial. For more information, contact any campus Advising and Counseling Center.

Transfer of Credits into PCC

Students who have taken classes at another college or university may transfer the credits to Pima Community College. The College may accept class credit (with a grade of C, its equal, or better) from colleges and schools accredited by any of the following regional accreditation commissions:

Middle States Association of Colleges and Secondary Schools

New England Association of Colleges and Schools, Inc.

North Central Association of Colleges and Secondary Schools

Northwest Association of Secondary and Higher Schools

Southern Association of Colleges and Schools

Western Association of Schools and Colleges

To transfer credits to Pima Community College, the student must:

- Request an official transcript from the institution(s) previously attended to be sent directly to the District Admissions Office at 4905B E. Broadway, Suite 220, Tucson, AZ 85709-1120. The student will be notified when the transcript has been received.
- Submit a written request for evaluation of the credits. Students must be currently enrolled at PCC in order to request evaluation of transfer credits.

Military Servicemembers Opportunity College

Pima Community College has been named as an institutional member of Servicemembers Opportunity Colleges (SOC). The SOC is a group of over 400 college and universities that willingly provide postsecondary (after high school) education to members of the military throughout the world. As a member of the SOC, the College recognizes the unique nature of the military lifestyle. Pima Community College is committed to making it easier to transfer relevant course credits and has flexible requirements when deciding residency for members of the military.

The SOC was formed by educational representatives from each of the armed services, the Office of the Secretary of Defense, and a group of thirteen leading national higher education associations. The American Association of Community Colleges (AACC) sponsors SOC. For information about the Department of Veterans Affairs (DVA) educational assistance, please see the Financial Assistance section of this catalog.

Credit by Examination

Pima Community College realizes that when you enter the College, you may have already gained the knowledge and/or ability to perform the work of certain courses and program requirements. Therefore, you have the opportunity to earn college credit by assessment of prior learning. You receive credit by passing examinations or portfolio.

Please note that you cannot receive credit by examination for a course that is lower than the one in which you are currently enrolled or for one in which you have already received credit. Also credit by examination may or may not transfer to other colleges or universities. In addition, credit by examination does not fulfill the requirement of completing 15 credits at PCC. It also cannot be used in qualifying a student for veterans benefits. Contact PCC's Veterans Office at 206-4715 for more information.

Credit by examination shall include:

- Advanced Placement (AP) and International Baccalaureate (IB) Programs.
- College-Level Examination Program (CLEP)
- Special examination for credit.

Advanced Placement (AP) & International Baccalaureate (IB) Programs

Pima Community College accepts Advanced Placement (AP) and International Baccalaureate Diploma (IB) credits. Taking Advanced Placement or International Baccalaureate courses in high school can accelerate your college career. At Pima Community College, you can earn up to 30 credits towards your degree simply by taking examinations at the end of AP or IB classes. Credits you earn based on your exam performance may be counted toward your certificate or degree including General Education requirements. See AP and IB credit tables below. Contact a Pima Community College advisor to confirm course credit towards specific programs.

Advanced Placement classes are offered in select high schools. Exams are administered through the College Board each May. Some students take AP exams after taking honors or accelerated courses in their schools. For more information about the AP program visit the College Board web site (<http://www.collegeboard.org/ap/students/index.html>).

The International Baccalaureate Diploma Program is also offered in select high schools. This rigorous 2-year course of pre-university studies leads to exams that can be used to qualify for college credit. Pima Community College accepts certain higher-level IB exams for credit, see the IB table below. For more information about the IB Program visit the main web site for the IB Diploma Programme (<http://www.ibo.org/ibo/english/diploma.htm>).

AP and/or IB credit is re-evaluated upon transfer to another institution. For students planning to transfer AP and/or IB credit, please consult the catalog of the institution to which you plan to transfer for how the institution accepts AP and/or IB credit. An effort has been made to match Pima Community College's AP and IB scores with the University of Arizona's AP and IB scores.

AP and IB credit may fulfill Arizona General Education (AGEC) credit and/or Occupational General Education credit if the AP and IB score results in credit given in a course in the general education list. For example, a score of 4 or 5 on the American History Advanced Placement Exam results in HIS 141 and 142 credit that fulfills AGEC and Occupational General Education requirements.

Passing scores for subjects credited through the AP and IB Exams are recorded as a P grade and will not be stated in terms of a specific course grade. No record is made of failing scores.

Please refer to the following table for the required scores for General Education application or Course Credit awarded. These scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

Advanced Placement

	4	Other Requirements—Second Language	SPA 101 & 102	8

College-Level Examination Program (CLEP)

The College-level Examination Program is a means by which students can obtain college credits without having to enroll formally in the courses. Pima Community College accepts for college credit both the General and the Subject examinations of the CLEP, provided satisfactory scores are attained. Students must pay a registration service fee and an examination fee for each test. Two types of exams are available under the program.

- 1. General Examinations**—Students can take five General Examinations: College Mathematics, English Composition, Humanities, Natural Sciences, and Social Sciences/History. These General Examinations are available at the Downtown Campus Assessment Center and through the Testing Office at the University of Arizona. For more information about the General Examinations offered at the Downtown Campus, please contact the Downtown Campus Assessment Center at 206-6370.
- 2. Subject Examinations**—The CLEP also offers 29 subject examinations that are more specific. Subject Examinations are NOT offered at Pima Community College but are available through the Testing Office at the University of Arizona, Old Main, Room 223. For more information, call the Testing Office at the University of Arizona at 621-7589.

CLEP credit is re-evaluated upon transfer to another institution. For students planning to transfer CLEP credit, please consult the catalog of the institution to which you plan to transfer as to how the institution accepts CLEP credit. An effort has been made to match Pima Community College's CLEP scores with the University of Arizona's CLEP scores.

CLEP credit may fulfill Arizona General Education (AGEC) credit and/or Occupational General Education credit if the CLEP score results in credit given in a course in the general education list. For example, a score of 50 on the Western Civilization II:1648 to Present test results in HIS 102 credit that will fulfill AGEC and Occupational General Education requirements.

Passing scores for subjects credited through the CLEP are recorded with a P grade and will not be stated in terms of specific course grade. No record is made of failing scores.

Please refer to the following table for the required scores for General Education application of Course Credit awarded. These scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

CLEP

Exam Title	Exam Score	PCC General Education Requirement	PCC Course Equivalency	PCC Credit
------------	------------	-----------------------------------	------------------------	------------

CLEP General Exams

College Mathematics	500	None	MAT 122	3 units
English Composition	500	None	WRT 100	3 units
Humanities	500	Fulfills 4 credits of Humanities and Fine Arts/Historical Perspective General Education requirement	HUM 110	4 units
Natural Science	565	Fulfills 4 credits of Biological and Physical Science requirement	BIO, departmental elective credits	4 units
Social Science/History	500	Fulfills 3 credits of Social and Behavioral Science General Education requirement	HIS, departmental elective credits	3 units

CLEP Subject Exams

American Government	50	Fulfills 3 credits of Social and Behavioral Science General Education requirement	POS 110	3 units
American Literature	55	Fulfills 3 credits of Humanities and Fine Arts/Historical Perspective General Education requirement	LIT 265	3 units
Analyzing & Interpreting Literature	50	None	LIT 286	3 units
Calculus with Elementary Functions	50	Satisfies Math General Education requirement for all AGECs	MAT 220	3 units
College Algebra	50	Satisfies Math General Education requirement for AGEC-A	MAT 151	4 units
College Algebra/Trigonometry	50	Satisfies Math General Education requirement for AGEC-A	MAT 151 & 182	7 units

Exam Title	Exam Score	PCC General Education Requirement	PCC Course Equivalency	PCC Credit
College-Level French Language	(a)63	Satisfies Other Requirements—Second Language General Education requirement	(a)FRE 101, 102, 201 & 202 (a)16 units	
	(b)54		(b)FRE 101, 102 & 201 (b)12 units	
	(c)49		(c)FRE 101 & 102 (c)8 units	
	(d)39		(d)FRE 101 (d)4 units	
College-Level German Language	(a)60	Satisfies Other Requirements—Second Language General Education requirement	(a)GER 101, 102, 201 & 202 (a)16 units

Introduction to Educational Psychology	50	None	ECE, departmental elective credit	3 units
Principles of Accounting	50	None	ACC 100	3 units
Introductory Business Law	50	None	BUS, departmental elective credit	3 units
Introductory Psychology	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements	PSY 101	4 units
Introductory Sociology	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements	SOC 101	3 units
Principles of Macroeconomics	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements	ECN 202	3 units
Principles of Management	50	None	MGT, departmental elective credit	3 units
Principles of Marketing	50	None	MKT 111	3 units

CLEP (cont.)

Exam Title	Exam Score	PCC General Education Requirement	PCC Course Equivalency	PCC Credit
Principles of Micro-economics	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements	ECN 201	3 units
Trigonometry	50	Fulfills 3 credits of the Mathematics General Education requirement for an AGEC-A or Occupational General Education	MAT 182	3 units
Western Civilization I: Ancient Near East to 1648	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements OR 3 credits of Humanities and Fine Arts General Education requirements	HIS 101	3 units
Western Civilization II: 1648 to the Present	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements OR 3 credits of Humanities and Fine Arts General Education requirements	HIS 102	3 units

Enrolling in Classes

Each semester the College publishes a *Schedule of Classes* that has a list of classes offered, with the dates, times, and locations of each course section. The schedule also provides instructions on when and how to register, information on financial aid, advising, student resources, and important dates and deadlines for the upcoming semester or sessions.

There are four ways to register for classes after students have been admitted, assessed and advised:

- Banner on-line registration
- Automated touch-tone telephone registration system (MAX 2000)
- Operator-assisted telephone registration
- Walk-in registration at all campus and district Admissions Offices

Student enrollment is not official for any academic term until all tuition and fees are paid.

Please note: (For traditional semesters) Students enrolled in 12 or more credits are classified as full-time students. Students enrolled in less than 12 credits are classified as part-time students.

For more information:

- See the PCC web site at <http://www.pima.edu>.
- See the *Schedule of Classes*.
- Contact any campus Admissions Office or the general information line (206-4500).

Maximum Credit Hours Per Semester

Students can enroll in a maximum of 18 credit hours in the fall and spring semesters and 12 credit hours in the summer sessions. These credit limits include resident work, registration with the University of Arizona, and extension, correspondence, or high school classes taken at the same time. Enrollment beyond these limits requires approval. For more information, please contact any campus Advising and Counseling Center.

Course Prerequisites

Students must meet course prerequisites as stated in this catalog, or demonstrate to the instructor their ability to take the class. If the student does not have the proper prerequisite(s) for the class, the instructor can withdraw the student from that class after notification.

Student Policies

Student Rights and Responsibilities

All PCC students are considered to be responsible adults and are accountable for their own behavior. The College expects all students to obey local, state, and federal laws and follow the College's standards of conduct.

For more information on student rights and responsibilities, please read the *Student Rights and Responsibilities* booklet. Copies are available at any campus library, advising and counseling center, or Deans of Student Development and Instruction office. An overview is available in the current *Student Handbook*.

Religious Observances

Pima Community College accommodates the religious observances and practices of students unless it will result in undue hardship to College programs. Arrangements should be made with the instructor at least two weeks in advance.

Family Educational Rights and Privacy Act (FERPA)

Students are informed each year of the Family Educational Rights and Privacy Act of 1974. The act was designed to protect the privacy of educational records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data. Students have the right to file complaints with the Family Educational Rights and Privacy Act Office about alleged failures by the College to follow the rules of the act.

For more information about the Family Educational Rights and Privacy Act, please contact any campus Admissions and Records Office.

Information Covered under the Act

Student information is divided into two categories, public and student directory (unpublished), which can be disclosed by the College for any purpose at its discretion.

Public and student directory information includes the student's name, address, telephone number, date of birth, program of study, course status (freshman, sophomore, full-time, part-time), participation in college activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors, awards received, and previous schools attended by the student.

Currently enrolled students can instruct the College not to disclose public or directory information for any purpose under the Family Educational Rights and Privacy Act of 1974. A form to request withholding is published in the Fall, Spring, and Summer editions of the Schedule of Classes. The withholding form must be sent to the Admissions and Records Office before the drop/add deadline for each semester. Pima Community College assumes that any student who does not request the withholding of public or directory information gives consent for disclosure.

Third Party Transactions

Students who wish to have a parent, spouse or friend or other third party complete any transactions, such as registration, which affect their educational record must provide the third party with: a.) the student's photo ID, and b.) a statement describing the transaction and granting the third party permission from the student. The student must sign and date the statement.

Academic Policies: Grades, Academic Progress, and Student Classification

Grading Policies

Grades at Pima Community College are recorded at the end of each session according to the following system:

A—Superior = 4 grade points per credit hour

B—Above Average = 3 grade points per credit hour

C—Average = 2 grade points per credit hour

D—Below Average = 1 grade point per credit hour

F—Failure = 0 grade point per credit hour

P—Pass = C or better without grade distinction. This grade may be given at the student's request and the instructor's option.

I—Incomplete: A record of Incomplete as a grade can be given only at the student's request and the instructor's option. The instructor who gives the grade of I will give the student a form list-

ing the work needed and a deadline for completion. When the work is finished, the instructor is responsible for grading the work and sending a Change of Grade form to the Admissions Office. If the student does not finish the work required and a final grade form is not sent within one year, the Incomplete will automatically be changed to an F.

IP—Work "in progress" in open entry/open exit class: A record of IP as a grade will be made when a student is making satisfactory progress in a class that crosses sessions in start and end dates. At the end date of the class, the instructor submits a Change of Grade form to the Admissions Office, assigning a grade of A, B, C, D, F, I or Y.

W—Official Withdrawal: A student can request this grade during the first two-thirds of any session. The instructor may give this grade on or before the census deadline to students who have stopped attending the class before that deadline.

Y—Special Withdrawal: All students are informed of the possible negative effects of the Y grade. The decision to grant the special withdrawal is based on what is best for the student. The instructor will fill out the Y grade form, listing the reason for the special withdrawal.

X—An X placed next to the grade means the grade was earned by a proficiency or assessment test.

AU—Audit: To audit a class means to enroll in and to attend a class without working for or expecting to receive credit. The symbol for audit, AU, appears on the transcript of grades and on the class enrollment list by the student's name. Students auditing a class must register by the end of the official refund period and must receive the written permission of the instructor.

Grade Point Average (GPA) Calculation

The GPA is figured by multiplying the number of credit hours for each class by the number of points for the grade given and dividing the sum of the points by the total number of credit hours of A, B, C, D, and F grades. The GPA is based only on work completed at Pima Community College. A complete record of all credit courses attempted at the College is kept for each student.

Grade Reports

Grade reports are mailed to each student at the end of each term.

Appeal of Grades

There is an appeal process for grade challenges. Please refer to the Student Rights and Responsibilities section of the Student Handbook that is available at any campus Advising and Counseling Center, library, Dean of Student Development or Dean of Instruction office.

Course Repeat Grades

The higher of two grades earned for the same class will be used to figure the GPA. Both courses will appear on the student's transcript.

Academic Standards of Progress

This section covers:

- Good Academic Standing
- Official Withdrawal Guidelines
- Academic Alert
- Academic Disqualification
- Appeal of Academic Disqualification
- Academic Reinstatement
- Academic Renewal

Good Academic Standing

The following criteria will be applied to determine good academic standing at PCC. All students will be in good academic standing if their cumulative grade point average (GPA) meets or exceeds the standards listed below.

Credits Completed	Minimum Cumulative Grade Point Average (GPA)
0 - 3	1.0
4 - 9	1.2
10 - 14	1.3
15 - 24	1.5
25 - 48	1.75
49 or more	2.0

Credit hours completed include those credits earned at PCC with a grade of A, B, C, D, F, or P.

Official Withdrawal Guidelines

Students can request a grade of W (official withdrawal) only during the first two-thirds of the class based on the beginning and ending dates as listed in the Schedule of Classes. For open entry/open exit classes, the two-thirds deadline is based on the days between the date of the student's registration and the last day of the semester or session. For classes of two or less days, the instructor must approve the W grade if it is requested after the class begins.

Instructors can only give a W grade on or before the census deadline to students who have stopped attending the class before that deadline.

Academic Alert

Students will be placed on academic alert when:

1. The student's cumulative grade point average (GPA) does not meet the minimum standards for good academic standing.

The student has appealed and been reinstated after having been placed on academic disqualification.

The academic alert system:

1. Informs students of academic status.
2. Allows students one semester to raise their GPA to the minimum required for good academic standing.
3. Advises students of available College resources that may help improve their academic performance.

Academic Disqualification

Students on academic alert will be academically disqualified if they have not raised their cumulative GPA to the required minimum (listed above) after the academic alert semester. (Exception: If the student earns a 2.0 GPA or higher for the current semester he/she will be permitted to continue on academic alert status.)

Students who have been academically disqualified will not be permitted to enroll until they have been reinstated through the College appeal process. Specific appeal procedures are outlined in the letter that is given to all students who are disqualified.

Appeal of Academic Disqualification

Students who have been academically disqualified must follow the College appeal procedures for reinstatement. Students who feel that unusual conditions contributed to their unsatisfactory academic progress can request immediate reinstatement. For more information on appeal procedures, please refer to the Student Rights and Responsibilities section of the Student Handbook.

Academic Reinstatement

Students who have been academically disqualified can appeal by following the appeal procedures for reinstatement. For more information on appeal procedures, please refer to the Student Rights and Responsibilities section of the Student Handbook. After reinstatement the student will be placed on academic alert status.

Academic Renewal

Past academic performance may not, for a variety of reasons, be reflective of a student's subsequent demonstrated ability. Students who meet the criteria can have up to three consecutive terms of course work ignored in figuring their academic standing, grade-point average, and eligibility for degree or certificate completion. Academic Renewal may be given only once and will apply to the entire term, not just one class. Since the student's complete record (before and after Academic Renewal) remains on the transcript, other institutions may consider all classes when a student transfers or applies to a professional or graduate-level program.

For more information, please see any campus Advising and Counseling Center.

Student Classification

Full-Time Student

Students who have Financial Aid should contact the Financial Aid Office to verify their full-time status.

Fall or spring semester = enrolled in 12 or more credit hours

10-week summer session = enrolled in 6 or more credit hours

5-week summer session = enrolled in 4 or more credit hours

Part-Time Student

Fall or spring semester = enrolled in 1–11 credit hours

Summer session = enrolled in no more than 5 credit hours

5-week summer session = enrolled in no more than 3 credit hours

Freshman

Students who have earned less than 28 semester hours of credit are classified as freshmen.

Sophomore

Students who have earned 28 or more semester hours of credit are classified as sophomores.

Costs and Payments

Tuition and Fees

The following information reflects the College's tuition, fee, and refund policies for the Fall 2001, Spring 2002, and Summer 2002 (all sessions) semesters. **Tuition, fees, and refunds are subject to change. Please refer to a current *Schedule of Classes* for the most up to date information.**

Tuition - All Terms

Credit Hours	Resident	Non-Resident
1	\$ 36.50	\$ 62.50
2	73.00	125.00
3	109.50	187.50
4	146.00	250.00
5	182.50	312.50
6	219.00	375.00
7	255.50	1,316.00
8	292.00	1,504.00
9	328.50	1,692.00
10	365.00	1,880.00
11	401.50	2,068.00
12	438.00	2,256.00
13	474.50	2,444.00
14	474.50	2,595.50
15	474.50	2,747.00
16	474.50	2,898.50
17	474.50	3,050.00
18	474.50	3,201.50
19	511.00	3,389.50
20	547.50	3,577.50
21	584.00	3,765.50
22	620.50	3,953.50
23	657.00	4,141.50
24	693.50	4,329.50
25	730.00	4,517.50
26	766.50	4,705.50
27	803.00	4,893.50
28	839.50	5,081.50
29	876.00	5,269.50
30	912.50	5,457.50

Fees

Fees Applicable to all Students

Semester Registration Processing Fee	\$5.00
Withdrawal Fee	
(total withdrawal from more than 7 credits)	\$10.00

Credit Course Fees

Misc. Lecture Fee	Not to exceed \$40.00
(to recover extra costs specifically related to the course)	
Misc. Laboratory Fees	Not to exceed \$20.00
Health Science Liability Insurance	
(per semester)	\$15.00 - \$20.00
Music Lessons (individual)	1/2 hour per week \$264.00
	1 hour per week \$528.00
Communication Graphics	Not to exceed \$60.00
(based upon specialized software and	
support training requirements)	
Aviation Mechanics Program	Not to exceed \$75.00
(based upon direct cost of	
instructional materials)	
Course Repeat Fee (per credit hour)	\$35.00
Course-Related Field Trip	Based on actual cost of trip

Miscellaneous Fees

Application Fee (non-resident)	\$25.00
Transcripts (per copy)	\$2.00
Deferred Tuition Payment Plan Processing Fee	\$15.00
Graduation Application	\$15.00
GED Test (fee set by State Legislature)	\$25.00
GED Test (repeat each section)	\$5.00
ID Card	\$2.00
Career Interest Fee (per test)	Not to exceed \$20.00

Penalties and Fines

Past-Due Tuition	Amount of tuition due
Past-Due Book Loan	Amount of loan
Collection Agency Fees	Not to exceed 50% of balance
Late Fee	\$25.00
5% of balance: minimum \$25, maximum \$100 (per occurrence)	
Non-sufficient Funds Checks (per each occurrence)	\$25.00
Excessive Loss or Breakage	Replacement cost
Lost Books	Replacement cost plus
	\$10.00 processing fee
Parking and Traffic Fines	\$10.00 - \$25.00
	(per violation of parking and
	traffic regulations)

Tuition and Fees Payment Methods

Tuition and fees must be paid in full by the published payment deadlines. The payment deadlines for each term are published in the *Schedule of Classes* and on the College web site (www.pima.edu) The dates are also available at any campus Cashier's or Admissions Office.

A late fee (\$25.00-100.00) will be assessed on all accounts not paid in full (or deferred) by the published payment deadlines.

Important Notice: Students are financially responsible for all classes in which they register. **Students who do not attend class(es) will be financially responsible for the tuition due UNLESS they officially drop the class(es) by the published drop deadline.**

Tuition and fees may be paid by using any of the following payment methods:

- Credit Card - Visa, MasterCard, American Express, Discover
- Check - traveler's, cashier's, or personal check
- Money order
- Cash

When paying with a personal check, make it payable to Pima Community College. Please write your student identification number (in most cases, this is your social security number) on the check along with the academic term for which you are paying. When paying in person, at least one form of picture ID is required. **Please note that it is college policy to write student ID numbers on checks when students fail to do so.**

Student Refund Policy for Credit Courses

Regular Refund Policy

Students who officially drop one or more classes by the regular refund schedule may be eligible for a refund. The drop must result in a decrease to your total tuition assessment as determined by the number of credit hours for which the student is registered. Refer to the "Tuition and Fees" section of the *Schedule of Classes* to determine if the drop will decrease the tuition assessment.

Students who drop all classes within the official refund period, are eligible for a 100% refund of paid tuition and fees. Outstanding charges owed to the College may be deducted from the refund amount.

If a class (or classes) must be canceled by the College, students will receive a 100% refund of paid tuition and fees for the class(es) being canceled. Tuition paid by financial assistance may be returned to the awarding fund.

Refund checks are processed on a weekly basis by the Bursar's Office. Early refunds, or refunds to credit cards, may be requested through the Bursar's Office at 206-4574.

Regular Refund Schedule

Course Length	Refund Deadline
Regular 16 weeks	within 13 calendar days after start of the semester
7 or more weeks.....	by the end of 7 calendar days from the start of the session
4 to less than 7 weeks	within 4 calendar days from the start of the session
2 to 4 weeks	within 1 calendar day from the start of the session
less than 2 weeks	prior to the day of first class meeting

Note: Refer to the *Schedule of Classes* for the program starting dates. Refunds will not be issued for classes dropped after the official refund deadlines.

Special Refunds Policy

Students who totally withdraw from the College due to an unforeseen circumstance, may request a special provision refund at the Admissions Office on the campus where they are taking classes. The request must be made in writing and must be made during the semester that the withdrawal occurred. Only tuition will be refunded and the amount of the refund will be pro-rated based on the schedule on the following page. The campus president (or designee) may approve a refund for extenuating circumstances not specifically included in the following provisions.

1. Serious illness or injury. A written doctor's statement verifying that an illness or injury prevented the student from completing classes must be provided.
2. Death of a close family member. The College defines close family members as your spouse, children, parents, grandparents, siblings, grandchildren, or in-laws. Official documentation (such as a death certificate) must be provided in order to receive a refund.
3. Military Temporary Duty (TDY) Assignments. The assignment must be involuntary and unforeseen as of the official deadline for dropping the classes in question. A copy of the official orders requiring the TDY must be provided with the request.

Note: Recipients of federal student aid are not eligible for special provision refunds. See "Return of Federal Financial Aid Funds" on the following page. The College reserves the right to turn down any special provision request.

Special Provisions Refund Schedule (pro-rated)

Refer to the *Schedule of Classes* for specific dates

Elapsed Portion of Program	Refund (paid tuition)
30%	75%
45%	50%
60%	25%
Greater than 60%	No refund

Return of Federal Financial Aid Funds (Title IV Funds)*

Federal regulations require that a percentage of the funds disbursed be returned to students who are federal financial aid recipients if they totally withdraw from the College on or before the 60% point in the enrollment period.

During the first 60% of the enrollment period, students "earn" Federal Title IV funds in direct proportion to the length of time the student remains enrolled.

Example:

Students who withdraw at the 30% point of the enrollment period, earn 30% of all aid that could be disbursed. The remaining 70% of the aid is unearned aid and must be returned.

The College must perform the following steps in the return of funds process:

1. Determine the percentage of the period that the student completed ($\text{Days attended} \div \text{Days in period} = \text{Percentage completed}$).
2. Apply this same percentage to the total awarded Title IV aid for which the student established eligibility before withdrawing ($\text{Total aid disburseable} \times \text{Percentage completed} = \text{Earned aid}$).
3. Subtract earned aid from disbursed aid. This is the earned aid. ($\text{Earned aid} - \text{Disbursed aid} = \text{Unearned aid}$.)
4. Distribute responsibility for returning unearned aid by the College and the student.

The College's share is determined first by taking the lesser of:

- The total amount of earned aid; or
- An amount equal to the student's tuition and fee charges multiplied by the percentage of aid unearned.

This comparison ensures that the College will not return more aid than it could have kept to cover tuition and fee charges and that the student will not be required to return aid he or she could not have received as a cash disbursement.

The student's share of the amount to be returned is the difference between the total that has to be returned and the College's share.

5. Allocate unearned aid back to the Title IV programs, including Unsubsidized Stafford/Direct Loan, Subsidized Stafford/Direct Loan, Federal Perkins Loan, PLUS Loan, Federal Pell Grant, FSEOG, LEAP (SSIG).

The College's share is fully allocated before any of the student's share.

- The College returns unearned aid in the order shown up to the full amount disbursed from one program before moving on to the next.
- Once the College's share has been distributed back to the programs, then the student's share is allocated in its entirety. However, any portion of the unearned aid owed to a grant program is reduced by 50%.

Withdrawals

The withdrawal date used will depend on whether the student officially withdraws, or if the student drops out without notifying the College. Please refer to the withdrawal process outlined in the current *Schedule of Classes*.

- If a student officially notified the College of his or her intent to withdraw, the withdrawal date used is the date on which the student began the official withdrawal process.
- If a student withdraws without notifying the College, the withdrawal date used is the midpoint (50%) of the payment or enrollment period.

- If a student is enrolled in a program where attendance is required, the withdrawal date used is the student's last day of academic attendance.
- If a student withdraws before classes begin for the applicable semester, the student must repay all financial aid monies issued.
- If a student withdraws from the College, all future financial aid awards for the academic year and summer session(s) will be cancelled immediately.

*Note: This refund policy is based on U.S. Department of Education regulations subject to change if federal regulations change.

Student Refund Policy for Noncredit Corporate and Community Education Activities and Study Tours

Community Campus handles the enrollment and refund requests for special interest, noncredit activities, and study tours. Refund requests must be received seven (7) calendar days prior to the start of the activity. See below for penalties and refunds when ending (termination of) your registration in study tours and other trips. If the College cancels an activity, students will receive a full refund.

Every effort is made to contact those who have enrolled (known as participants) before the start date if the activity has to be canceled. Enrollment is confirmed if PCC does not contact those who have enrolled before the start date. When registering by mail, please send the registration form and payment to Community Campus, Corporate and Community Education Offices, 401 North Bonita Ave. To obtain a registration receipt, please enclose a self-addressed, stamped envelope.

Penalties and Refunds for Dropped Registration for Study Tours and Other Trips

One-Day Trips—Requests to end registrations must be received seven (7) days prior to the tour date.

Trips of More than One Day—Termination penalties are as follows:

100% of tour fee if request is received within 13 calendar days of tour date.

50% of tour fee if request is received within 14 to 29 calendar days of tour date.

25% of tour fee or \$25, whichever is less, if request is received 30 calendar days or more prior to tour date.

For more information, contact the Corporate and Community Education Offices at 206-6569.

Financial Assistance

Financial Aid/Scholarships

General Information

To provide all members of the community access to Pima Community College and to help them pay for the cost of their education, the Financial Aid Office offers a full range of student financial aid. The money for the financial assistance comes from federal and state programs as well as private donors. Funds are awarded to students based on financial need, academic achievement (grades), and program of study (major). The first step to applying for financial aid is to complete the Free Application for Federal Student Aid (FAFSA) form. Certain scholarships may require a separate application.

The Free Application for Federal Student Aid (FAFSA) is available at any campus Financial Aid Office.

In order to receive first consideration for the limited financial assistance funds that are available for the award year, **students must complete and send their FAFSA to the Federal Government by March 15.** Applications can then be processed and return to PCC by the **College's priority date of April 2.**

However, if the priority date is missed, students may still apply at any time of the year.

All students should apply. Students who do not demonstrate financial need may qualify for scholarships, temporary short-term loans, or other programs.

For more information, see the current *Student Handbook* and *Financial Aid Guide*, or call the Financial Aid Information Line at (520) 206-4950.

Federal and State Financial Aid Programs

Federal Pell Grants

The federal government funds the Pell Grant Program to provide financial assistance for students who have not earned a bachelor's or professional degree. The federal government establishes who is qualified. It bases the awards to students on their dependency status (if a parent or guardian provides for them), enrollment, and living accommodations (if you live at home, rent, or own). The Pell Grant, unlike a loan, does not have to be repaid.

Federal Stafford and Direct Loan Programs

The Federal Stafford and Direct Loan Programs offer "subsidized" and "unsubsidized" loans. Loans may be made through a bank or credit union that participates in the Stafford Loan Program, or they may be made directly by the school (the Direct Loan Program). A subsidized loan is awarded on the basis of financial need. If a student qualifies for a subsidized loan, the federal government pays the interest on the loan until the student starts repaying it. On the other hand, an unsubsidized loan is not awarded on the basis of need. If a student qualifies for an unsubsidized loan, the student pays the interest from the date the loan is given until the loan is repaid in full. Students have the choice of paying the interest as it accrues (charged every month) or to let it accumulate (build up) and add the interest to the loan. Students can receive both subsidized and unsubsidized loans. Students must start to repay the loan or loans beginning six (6) months after they graduate, leave school, or drop below half-time enrollment.

Federal Plus Loan Program

Federal Plus Loan Program is for parents who have students living with them as dependents. The loans are made directly by the school (the Direct Plus Loan Program) or through a bank or credit

union that participates in the Stafford Loan Program. This loan program enables parents with good credit histories to borrow funds to pay for the education expenses of each child who is a dependent and an undergraduate student enrolled at least half-time. Parents cannot receive more than the cost of education, with the amount of any other financial aid received also deducted. The interest rate is variable, but it will never exceed nine (9) percent. The interest rate for Plus Loans is adjusted each year on July 1. Payment of principal and interest begins within 60 days after the last issuance of loan money to the parents. In addition, interest begins to accrue (be charged) from the date the first loan payment is given.

Campus-Based Programs

The federal government has three programs in which funds are given out from the College. Pima Community College participates in these campus-based programs: the Federal Supplemental Educational Opportunity Grant, the Federal Work Study, and the Federal Perkins Loan. Every year the government gives the College a certain amount of funds to award. Financial need is the qualification upon which these programs are based. Funds will be awarded to the neediest students first. Since the funds given to the College are limited, students are encouraged to apply as early as possible to meet the **College's priority date of April 2.**

Federal Supplemental Educational Opportunity Grants (FSEOG)

A Federal Supplemental Educational Opportunity Grant (FSEOG) is for undergraduate students with exceptional (extreme) financial need. In awarding FSEOG, the College gives priority to students who receive Federal Pell Grants. An FSEOG does not have to be paid back.

Federal Work-Study

The Federal Work-Study Program provides jobs for students with financial need. Students may work up to 20 hours per week in a job that is either on-campus or off-campus. The program encourages community service work and work related to students' courses of study.

Federal Perkins Loans

A Federal Perkins Loan is a low-interest (5 percent) loan. The College decides the amount of the loan based on exceptional (extreme) financial need. These loans must be repaid. Students have to start repaying the loan six (6) months after they are no longer enrolled in school. The starting date to repay the loan can be delayed when in certain circumstances such as: performing community service, unemployment, or economic hardship.

Leveraging Educational Assistance Partnership (LEAP)

The Leveraging Educational Assistance Partnership (LEAP) grant program, formerly known as the Arizona State Student Incentive Grant Program (SSIG), makes grants available to students with financial need. The College decides the amount of the award based on individual need and enrollment status.

Institutional Student Aid

A number of campus jobs are available throughout the College. These positions are not based on financial need, and the students are selected by the employing department. Students are able to work an average of 19.5 hours per week. For application and placement information, contact any campus Job Placement Office.

Short-Term Loans

This program is intended to help students pay for tuition and books due to emergencies or funding problems. Students must pay back

the loans within 30 to 60 days or by the end of the enrollment period, whichever comes first.

Scholarships

A number of scholarships have been set up for students by generous private donors. The awards may be based on merit only, or a combination of financial need and merit, and on program of study. The Free Application for Federal Student Aid (FAFSA) is the form used to apply for the following scholarships. Recipients are chosen from the pool of eligible financial aid applicants.

- William A. Barnes Memorial Scholarship
Eligibility criteria: Enrollment in Office Education, Automotive, Computer Science, Nursing, Construction, Construction Drafting, Pharmacy Technology, Radiologic Technology, or Respiratory Therapist Program
Value: Amount and number of awards vary
- Andrew P. Martin Scholarship
Eligibility criteria: Tucson-area high school graduate, enrollment in Air Conditioning, Automotive, Construction, Construction Drafting, Drafting Technician, Graphic Technician, Machine Tool Technician, or Welding Program
Value: Amount and number of awards vary
- Margaret Ernst Memorial Scholarship
Eligibility criteria: Promising student
Value: Amount and number of awards vary
- Kim Fackelman Memorial Scholarship
Eligibility criteria: Enrollment in Computer Science
Value: Amount and number of awards vary
- Houston Health Scholarship
Eligibility criteria: Enrollment in Dental Assisting, Dental Hygiene, Nursing, Pharmacy Technology, or Radiologic Technology
Value: Amount and number of awards vary
- Sharon Krieg Memorial Scholarship
Eligibility criteria: Promising students
Value: Amount and number of awards vary
- Mary Macon Memorial Scholarship
Eligibility criteria: Promising students
Value: Amount and number of awards vary
- Marshall Foundation Fund—Allied Health
Eligibility criteria: Enrollment in an Allied Health Program
Value: Amount and number of awards vary
- Marshall Foundation Fund—Nursing
Eligibility criteria: Female students enrolled in the Nursing Program
Value: Amount and number of awards vary
- Andrew J. Pizzini Memorial Fund
Eligibility criteria: Promising students
Value: Amount and number of awards vary
- Jeffrey H. Ross Memorial Scholarship
Eligibility criteria: Promising students
Value: Amount and number of awards vary
- Kara Watchman Memorial Scholarship
Eligibility criteria: Promising students
Value: Amount and number of awards vary

Foundation Awards

The PCC Foundation receives funds from various donors. The availability of these funds occurs at different times during the year. Recipients are selected from a pool of eligible applicants who have completed the Free Application for Federal Student Aid (FAFSA).

- Intel Scholarship
Eligibility criteria: Students enrolled in Semiconductor Manufacturing Technology
Applications available in the West Campus Technology Department annually
Value: To cover tuition and books; number of awards varies

- Campbell Endowment
Eligibility criteria: Awarded to Tohono O'odham students
Contact Carol Enos at 206-7263
Value: To cover tuition and books; number of awards varies
- Patrona Hungariae Scholarship Fund
Eligibility criteria: For students studying Political Science or Public Administration
Contact: Dr. Tamás Zsitvay
Value: Amount and number of awards varies
- Wynelle Knight Memorial Scholarship
Eligibility criteria: For disabled students
Contact any campus Disabled Student Resource Coordinator
Value: \$250 award; number of awards varies
- Witt Memorial Scholarship
Eligibility criteria: Continuing enrollment in the Construction Program
Contact your construction-related faculty member for more information
Value: \$500 award; number of awards varies

Department of Veterans Affairs (DVA) Educational Assistance

Pima Community College is an approved institution for Department of Veterans Affairs (DVA) educational benefits. Veterans, survivors, and dependents, eligible for DVA benefits under Title 38 of the U.S. Code (Chapters 30, 32, and 35), and reservists (Arizona National Guard) under Title 10, Chapter 1606, must be certified through the District Veterans Office (DVO). Students are encouraged to complete the required DVA procedures as early as possible through any campus Veterans Office. Students must meet PCC's admissions requirements and comply with the College's Academic Standards of Progress (see the Admission, Registration, Records section of this catalog for a complete description) to maintain your status.

Enrollment Certification and Limitations

Eligible persons must complete an enrollment certification (Pima Community College Veterans Certification Worksheet) **each** semester immediately after registration to initiate or continue receiving benefits. Continuing students are mailed a copy of their worksheet to be used during their next registration.

Benefits

Veterans receive educational assistance based on their enrollment certification status for a certified period (i.e., full-time, three-quarter-time, half-time). In a "traditional" semester (16 or 17 weeks in length), this measure is determined by the following:

- | | |
|----------------------|-----------------------------|
| ■ Full-time | 12 or more semester credits |
| ■ Three-quarter-time | 9–11 semester credits |
| ■ Half-time | 6–8 semester credits |

Less than half-time periods are eligible for reimbursement of tuition and college fees paid by the student. Veterans on less than half-time periods are entitled to a request for "Lump Sum Payment."

Veterans at the half-time status or higher will receive a monthly benefit check. The rate of that check will vary by student status and "chapter" of eligibility. Up-to-date pay charts are maintained in the campus Veterans Offices.

Enrollment in accelerated (nonstandard semester) terms (e.g., Davis-Monthan Air Force Base courses) will have an effect on the monthly rate received. Status is determined by the number of semester credits taken in a certified period (number of weeks).

Combination of traditional and nonstandard courses will cause a variance in your status; therefore, there will be changes in the amount of the checks.

DVA will not allow for the certification of open entry/open exit courses until a final grade (course completion) is received and posted to the students' record. Combination of open entry/open exit courses with other traditional or nonstandard courses has a direct impact on your monthly entitlement and rates.

Degree Plans

Students applying for DVA educational benefits can **only** be certified for courses they are enrolled in that are within their objective—program of study (or major). Eligible students should select a program of study (approved by the DVA) prior to registration for classes. Veterans are provided **Degree Plans** to indicate the course(s), in accordance with the applicable PCC catalog, that fit within their program. A Degree Plan is contained in the Pima Community College Veterans Certification Worksheet and is normally provided upon initial enrollment for benefits or when a program change occurs.

All degree programs are approved for a specific number of credit hours. Eligible students will not be certified or paid by the DVA for courses above and beyond the approved length. The DVA will pay only for required courses in approved programs. This same rule applies to certificate and vocational certificate programs which may be measured in clock hours rather than semester credits.

Veterans are limited to one program change, new Degree Plan, in a twelve-month period. A program change may occur when a veteran changes institutions (place of training) and there is a material loss of 12 credits or more that are not transferrable to the new institution. The DVA approves and monitors the number of program changes over the period of eligibility to ensure progress in reported goals.

Academic Standards

DVA educational benefits will not be paid for courses unless they are used in computing graduation requirements for the selected objective. Students receiving the grade of General or Official Withdrawal in any of these courses will have to reimburse the DVA retroactive to the start of the semester, unless there are mitigating circumstances approved by the DVA. In some cases the interval pay may also be adjusted as a result of the withdrawal.

All veterans should maintain a 2.0 grade point average (GPA) for continuous certification. Veterans not making satisfactory progress or who do not maintain academic status (see "Academic Standards of Progress" in the Admissions, Registration, Records, and Graduation section) will not be certified (benefits will be suspended) until the cause for the academic disqualification has been corrected and the program of study being pursued is suited to the person's aptitudes, interests, and abilities.

Transfer of Previously Earned Credit

DVA requires that all students receiving educational benefits have their "prior military and/or college experience" evaluated for credit toward the objective at Pima Community College. Students must have all official transcripts and a DD Form 214 (Military) sent to PCC for evaluation. Upon receipt, the College will evaluate the document(s) to determine what credit can be accepted at Pima. This information must then be forwarded to the DVA prior to the second semester of attendance. Failure to have this process completed during the first semester of attendance could result in overpayment and/or delay of benefits.

Additional Benefits

Students who are eligible for DVA educational benefits and have completed the enrollment certification process, you may also apply for Tutorial and/or DVA Work-Study. These programs are available in addition to the educational benefits. For more information concerning eligibility for these programs and the process to obtain this assistance contact any campus Veterans Office.

Pima Community College Foundation

Although state and local taxes have traditionally provided the basic needs for community colleges, private support is often necessary for true academic excellence.

Citizens of the community established the PCC Foundation in 1977 as an incorporated, not-for-profit organization to assist Pima Community College in its efforts to expand educational opportunities and services in the community. In addition, the PCC Foundation provides a means for citizens to participate actively in the future growth and development of their community college.

A major goal of the PCC Foundation is to raise funds to support the College through equipment and supplies, student scholarships, faculty creative teaching grants, and special needs of the College as determined by the Foundation Board of Directors. Scholarship information can be obtained from the College Financial Aid Offices.

The Pima Community College Foundation also plays an important role in promoting the College so that individuals, business, and industry will recognize its achievements.

Each year students and faculty address various groups about the programs of the College.

Gifts to the Foundation are tax deductible, and the Foundation will assist prospective donors in making donations, bequests, and in the planning of trust and will arrangements for the College. For more information or assistance, please contact the Pima Community College Foundation office at 206-4646.

Student Services and Student Life

Student Services

Admissions/Registration

Admissions staff welcomes all who are interested in pursuing their education. Students must apply for admission to the College before registering for classes. The Admissions and Registration Offices are located on all campuses and services are available year-round. Information is available on applying for admission, registration, student records, residency, veterans' services, transcript evaluations, and graduation. Students may call or visit a campus of their choice for additional information.

Advising/Counseling

Advisors and counselors are available year-round at campus Advising and Counseling Centers to help students choose courses and make decisions that best meet their educational needs. Both walk-in service and appointments are available. All students should meet with an advisor, counselor, or faculty member at least once each semester to discuss proper course selection. All new students should read the "Before Your First Semester" section of this catalog.

Counseling services can help students in a variety of ways. Counselors are ready to help students decide on college majors and careers that match their interests, abilities, and personalities. Counselors help students develop study skills, techniques, and strategies for college success. They offer support with stress management and personal issues and help students identify appropriate community agencies for assistance.

Counselors teach a variety of Student Success (STU) courses. Each semester, an assortment of courses is offered, giving students the opportunity to focus on college and life skills. Check the *Schedule of Classes* under Student Success for times and locations.

Assessments

Reading, Writing, and Mathematics assessments for placement in a course appropriate to a student's skill level are available at all campuses and learning centers. Some locations offer other testing services including those for the General Education Development test (GED), English as a Second Language (ESL), and placement tests for specific disciplines.

Special arrangements for disabled students (such as extended time, large print, writing assistants, and interpreters) are available through the Disabled Student Resources Offices. For more information, please refer to the Disabled Student Resources section.

Bookstores

Classes held on different campuses may have different textbook requirements. Students should be sure they are purchasing the books for the location of their classes. The staff of the bookstore is available to assist students in selecting appropriate textbooks based on instructor and course reference number. For text information and ordering, visit the bookstore web site at www.pima.bkstr.com.

Cafeteria

Cafeteria Services are provided by Chartwells at all campuses except Community Campus. All locations have vending machines and some informal seating areas.

Campus Police Services

The Pima Community College Department of Public Safety, a law

enforcement agency with national accreditation, maintains a district wide security force that is on duty year-round, 24 hours a day. Security or Department of Public Safety personnel are present at all campuses and provide support to all college locations. Each campus maintains a lost and found service. Department staff also escort students, faculty and staff to and from their vehicles, upon request.

The Department of Public Safety provides annual campus crime statistics to the College community. Reports of the previous five years are mailed to currently enrolled students and employees each year. They are also available upon request from each campus Admissions Office and are posted at various campus locations. Updates and important safety and security issues are published in the student newspaper *Aztec Press*, the employee Bulletin, and through the College's internet home page at www.pima.edu/dps.

Campus Police

Campus Escort	206-2700
Emergency	911
Report Suspicious Activity	206-2700

Career Services

Career counseling is available from counselors on each campus. The counselor can assist students in deciding on their college major and the career that matches each student's interests, skills, and personality. To see a counselor, students may call any of the campus Counseling and Advising Centers for an appointment.

Some campuses have Career Centers. The Career Centers offer sources of information to help students discover their personal interests and strengths and explore career choices including the skills required, salary ranges, and future outlook for jobs. The Centers also provide free assistance with resume writing, interview techniques and job search strategies.

Cashier

Students can pay for classes with cash, credit card, debit card, money order, or check at any Cashier Office. Financial Aid recipients should make arrangements for payment through the Financial Aid Office. Veterans should go to the Admissions Office to arrange for payment of tuition and fees. A picture ID is required for all transactions.

Childcare

Child Development Centers are located at Desert Vista Campus and West Campus with a facility underway at Downtown Campus for Fall 2001. Quality, convenient childcare is provided for children ages 3-5. Students interested in this service should visit one of the centers and complete a registration form. This service is provided on a space available basis.

Disabled Student Resources

It is the policy of Pima Community College district to comply with the American with Disabilities Act (ADA) of 1990 and section 504 of the rehabilitation act of 1973 as amended, as well as other applicable federal and state laws and regulations that prohibit discrimination on the basis of disability. No qualified person will, solely by reason of disability, be denied access to, participation in, or the benefits of any program, activity, or service offered by the college.

The College will make every effort to 1) insure that qualified individuals with a disability are provided a reasonable accommodation and 2) promote respect for the dignity and equal treatment of individuals with disabilities.

Pima Community College is committed to providing college-wide educational support assistance for students with documented disabilities. Disabled Students Resources (DSR) assists students through the developing of service plans which incorporate classroom, lab and testing accommodations, as needed. Through the provision of accommodations, each student will have the opportunity to function to the best of his/her ability within the scope of the College's services, programs, and activities. The DSR department also refers students with disabilities to other college departments and community agencies that can enhance and support their educational experience. When appropriate, services provided by DSR may include academic and career advising, priority registration, note-taking assistance, sign language interpreting, auxiliary aids and services, use of specialized equipment, taped texts, extended test times and mobility assistance.

Student requests for accommodation due to disability are processed through DSR Offices. DSR Specialists will provide intake assistance, eligibility determination with appropriate documentation, student services plans, faculty notification of accommodation and monitoring of student accommodations. Students with disabilities may contact any DSR Office listed below to begin a request for accommodation or continue an accommodation service plan each semester.

Financial Aid

There are many ways for students to pay for their education under various loan and scholarship programs. Although the federal government provides the largest amount of aid, a student may qualify for funds from the State of Arizona, from Pima Community College, and from private donors. Contact a Financial Aid Specialist at one of the campus Financial Aid Offices to get started by reviewing eligibility criteria, deadlines, and application processes.

International Student Services

The International Students Services Office (ISSO), located at West Campus, was established to recruit international students and help them reach their educational goals. For more information, call the ISSO at (520) 206-6838.

Job Referral Information

Job Referral Information is available to students who are currently enrolled or have taken a class at Pima Community College. Most campuses maintain a list of part-time and full-time job opportunities available throughout the College, at the District Central Office, and some off-campus sites. In addition, students can access this job list through the PCC web site at www.pima.edu.

Library Services

Pima Community College provides library services at all the cam-

puses. Library resources include books, journals, audio/video tapes, compact discs, microforms, online databases and the World Wide Web.

All libraries have staff available to answer reference questions and assist students in using library and Internet resources. Campus librarians offer library research skills classes, individualized help sessions, workshops and library orientation presentations. In addition to these services, there are orientation videos available for check out. Students should ask any library staff member for more information.

Resources are listed in an online catalog called PIMALINK, which can be accessed via the World Wide Web at <http://library.pima.edu>. PIMALINK lists most materials owned by college libraries. It also provides links to the University of Arizona library and the Tucson-Pima Public library. PIMALINK contains a number databases of full text and/or abstract journal articles, plus encyclopedias, and many other electronic resources.

PIMALINK can be accessed from any on-campus library or computer center PC. Students can also connect to PIMALINK from their home or office through a PC that is connected to an Internet service provider. Some databases are available to dial-in users who have a student ID card with a bar code. Ask a librarian for information on how to gain access to all PIMALINK's resources from off campus.

All campus libraries provide access to PIMALINK. Full access to the Pima Community College library collection is available from any campus library. Materials are shared via courier and fax services. Items that are not available on one campus can be delivered to another campus. All libraries also provide an interlibrary loan service that will borrow and deliver materials available from other institutions. All the libraries provide study and lounge areas.

Orientation

All new students attending college for the first time who intend to pursue a degree or certificate should attend a new student orientation/registration session. The first step is to have an application on file and the basic skills assessments completed. To make an

appointment for a workshop session, students should contact an Advising and Counseling Center. During the orientation advisors and counselors help students with career planning, course selection, and registration.

Specialized Programs

Pima Community College has designed special programs to assist minority students, individuals who are reentering the workforce, international students, veterans and students with disabilities. These programs may help qualified students in getting financial aid or benefits, career information, counseling, advising, and tutoring. Some campuses offer specific activities for certain populations. Contact any campus Dean of Student Development Office for more information.

Student Identification Cards

A Student Identification Card provides access to PCC Libraries,

Bookstores, Assessment/Testing Centers, Athletic Facilities, and Computer Labs. Use your Student ID to receive discounts on many events in town. You may obtain a Student ID Card by paying the fee at the Cashier's Office and taking the receipt to the ID area. Student ID cards must be validated each term.

Tutoring

Free tutoring is available in a variety of subjects for students who need help in their studies. Contact any campus tutoring or learning center for additional information.

Veterans

A student who is a veteran, or a survivor or dependent of a veteran, may be eligible for veterans educational benefits. For more information on eligibility and on how to apply, students should contact the Veterans Services Representative at any campus Admissions Office.

Student Life

Pima Community College offers a rewarding environment for its students. There are opportunities to get together to share common interests, celebrate diverse cultures, enjoy various cultural events, and much more. In addition, there are avenues available to develop and demonstrate leadership qualities, to establish contacts within the PCC and Tucson community, and to be a voice within the College. Specific information on student government, student clubs and organizations, and cultural events can be obtained by consulting the Offices of Student Activities or Dean of Student Development on any campus.

Health and Wellness

First aid is available at PCC's Department of Public Safety (campus police) offices located on all five campuses. The campus police can be contacted at 206-2700, and in the case of an emergency, call 911. Accident insurance is provided under a blanket policy for Pima Community College students who are enrolled for credit courses. The insurance is available without additional cost to the student. The policy covers students for injuries incurred during College activities. Details of the coverage are available to students at the time of registration.

Supplementary accident and sickness medical expense insurance may be purchased by students. Forms and information are available at each campus student services area.

Drug Free Schools and Communities Act Information

Pima Community College is committed to the Drug Free Schools and Communities Act Amendments of 1989 (Public Law 101-226, 20 U.S.C. §1145g).

Standards of Conduct

The unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees is prohibited. The following misconduct is subject to disciplinary action, including exclusion, suspension, or expulsion:

1. Violating or failing to comply with published rules and regulations of conduct of the College which prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on College property or as part of any of its activities; or
2. Being under the influence of, using, selling, possessing, or distributing any illicit drugs or alcohol on College property or as part of any of its activities. This prohibition includes, but is not necessarily limited to, marijuana, any narcotic drug, hallucinogen, stimulant, depressant, amphetamine, barbiturate, abusable glue, aerosol paint, or other chemical substances. Over-the-counter drugs are excluded from consideration unless improperly used.

Legal Sanctions

Local, state, and federal laws prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol. Conviction for violating these laws can lead to imprisonment, fine, probation, and/or assigned community service. Students convicted of a drug- and/or alcohol-related offense will be ineligible to receive federally funded or subsidized grants, loans, scholarships, or employment. Pima County Community College District will fully subscribe to and cooperate with the local, state, and federal authorities in the

enforcement of all laws regarding the unlawful possession, use, or distribution of illicit drugs and alcohol.

Health Risks

There are definite health risks associated with the use of alcohol and illegal substances. Students who experiment with drugs, alcohol, and illegal substances, or use them recreationally, may develop a pattern of use that leads to abuse and addiction. Use of alcohol and illegal substances is a major factor in accidents and injuries, and among persons between the ages of 18 and 24, it is responsible for more deaths than all other causes combined.

Support Resources

College officials will assist students with appropriate referrals and information concerning drug and alcohol education, counseling, treatment, or rehabilitation or reentry programs that may be available in the community. Contact the Advising and Counseling Center on any campus for information.

Housing

Pima Community College does not own or operate student housing, either on campus or in the community. However, students can receive information about community agencies and organizations that provide housing by contacting any campus Office of the Dean of Student Development.

Leadership and Student Government

Students have a voice in College functions through recognized student government associations at each of the campuses, the Board of Governors, and appropriate student groups and committees. Student government representatives also sit on various task forces and committees that make recommendations to the administration.

Although the student representatives on the Board of Governors cannot cast a vote with the official members, they can voice an opinion on agenda items.

Students are urged to volunteer for College task forces and committees. For information on these activities, consult the Office of Student Activities or Office of the Dean of Student Development on any campus.

Parking and Bus Service

Free parking is provided at all Pima Community College campuses. However, students are responsible for reading and understanding the College's parking and traffic regulations. For complete information on parking and traffic regulations, see the Pima County Community College District Parking & Traffic Regulations for Motor Vehicles, Bicycles and Other Non-Pedestrian Devices, available at all campus libraries and at any campus Office of the Dean of Student Development. For information regarding how to obtain disabled parking permits, contact a DSR Specialist on any campus.

To organize a car pool, call RideShare (884-7433) for more information. For students interested in riding the public bus, SunTran provides bus service to all campuses. Copies of current bus schedules are available in the student activities area of each campus, or by calling SunTran at 792-9222 for schedule information.

In accordance with A.R.S. 15-1444C, all vehicles allowed to park in any Pima Community College parking lot must comply with the emissions standard as stated in A.R.S. 49-542. Out-of-county or out-of-state students, when they register are required to sign an affidavit that states their vehicle meets the Arizona emission standards. If a vehicle is not on record as complying, it is subject to being towed at the owner's expense.

Performing Arts

PCC provides experience in the performing arts at its comprehensive Center for the Arts, headquartered at the West Campus. It houses the 420-seat Proscenium Theatre, a studio theater, a recital hall, stage shops, classroom space, an art gallery, and an outdoor amphitheater. In addition, PCC's Theater Department is known for its contemporary, multicultural focus. The department presents student performances at the Center for the Arts throughout the year. Discounted rates to performances are available to students with a valid PCC Student ID. For more information, call the Center for the Arts at 206-6988; for information on performance tickets, call the CFA box office at 206-6986.

Phi Theta Kappa

The College offers membership in Phi Theta Kappa (PTK), an international honors society. The members of this society have prestige of membership, leadership opportunities, availability of honor society scholarships, involvement in community projects, and acquaintance with other honor society members. For additional information, contact any campus Dean of Student Development Office.

Publications

Students interested in writing, editing, and reporting, can work on one of Pima's two student publications. *Aztec Press*, a weekly newspaper, provides students an opportunity to learn about journalism. For more information about serving on the newspaper staff in any position, please contact either the Arts and Communications Division office or *Aztec Press*.

Pima also has a literary magazine. Students interested in this form of publishing may enroll in WRT 162—Literary Magazine Workshop held at the Downtown Campus. The workshop annually publishes *Cababi*. The *Cababi* contains literary pieces, including those from Downtown Campus students, faculty, and staff. The magazine also sponsors an annual art contest for its cover and center pages.

Sports—Intercollegiate Athletics

Pima is a member of the Arizona Community College Athletic Association, National Junior College Athletic Association, and the NJCAA Region #1. The sports organization governing the College's participation sets the rules of who can play (eligibility requirements). The basic requirements are that the athletes be full-time enrolled students, be making progress in their studies (satisfactory academic progress), and that each person has received a medical clearance to participate. Pima competes in a variety of sports, including soccer (men and women), cross-country (men and women), basketball (men and women), tennis (men and women), track (men and women), baseball (men), volleyball (women), golf (men and women), and softball (women). Football (men) was added to the mix in 2001.

Sports—Intramural

Any member of the College—students, faculty, and staff—may participate in intramural activities. These sports are geared toward individual and team competition. Many activities are available and others are developed when enough interest is shown. Activities may include basketball, badminton, flag football, golf, tennis, volleyball, racquetball, and several two-mile cross-country runs.

Sports—Recreational

Pima also has several club recreation sports. Current and active club sports include karate, ice hockey, rodeo (men and women),

tae kwon do, judo, indoor track, marathon, volleyball (men), wrestling, and Los Dorados (Sundays).

Student Clubs and Organizations

For those students with similar interests, PCC has a variety of clubs and organizations. For information on all clubs, contact either the campus Student Life Office or any campus Dean of Student Development Office.

Student Recognition Activities

PCC provides many opportunities to celebrate the achievements and accomplishments of its many diverse students. An annual Student Recognition Event, usually held at the end of the academic year, is one of the most special gatherings. Parents and friends join the college community in recognizing the overall academic achievement, special skills, as well as leadership and community service of selected students.

Educational Options

Introduction

To meet the diverse needs of students, Pima Community College offers a variety of ways for students to reach their educational goals. Students can take traditional, alternative-style, or accelerated classes. These classes cover many subject areas and fulfill degree and certificate requirements. Students can take classes that transfer into a four-year institution, courses that are designed to help students obtain job training, or continue their education in an area of special interest.

These classes are provided during the day, evenings, and weekends. Evening classes begin at 5:00 p.m. or later and are highlighted in the Schedule of Classes. Classes are offered at the five PCC campuses and at more than 100 off-campus sites, including Davis-Monthan Air Force Base, Raytheon Missile Systems plant, public schools, and neighborhood centers in Pima and Santa Cruz counties.

Traditional-Style Classes

PCC offers traditional style classes in which students are required to attend lecture and/or lab on specified days and times throughout the 16-week fall and spring semesters.

Alternative-Style Classes

PCC offers several alternative-style classes that provide students with different teaching methods to fit students' learning styles and may provide students access to courses not offered through the traditional-style classes. These alternative styles include:

Accelerated Classes

8- and 10-Week

- Accelerated Weekend
- Express Degree
- Holiday Session
- Summer Session

Bilingual Classes

Cooperative Education Classes

Field Experience Classes

Flex Classes

Independent Learning Classes

Interactive TV Classes

International Studies Content Classes

Internet Classes

Open Entry/Open Exit Classes

Regular Weekend Classes

Self-Paced Classes

Spanish-Assisted Classes

Telecourses

See the *Schedule of Classes* for more details.

Bilingual Education

Students are offered a unique educational opportunity through bilingual courses, which are taught in English with assistance in Spanish. Instructors who speak both languages help students understand and learn by using both English and Spanish in presenting class material, answering questions, or providing assistance.

Honors Program

The College supports students who are highly motivated and who would benefit from an enhanced curriculum. The Honors Program serves this group of students. The program encourages its students to develop their practice of scholarly inquiry, critical reflection, and collaboration.

The intent of the Honors Program is to bring together these students, outstanding instructors, and an intensified approach to the traditional academic or occupational disciplines.

Honors Program students are required to complete HON 101 plus 12 additional Honors credits. Successful completion of the Honors Program is shown on the student's diploma upon graduation from Pima Community College.

Incoming Freshmen

In order to apply to the Honors Program, freshmen students must meet one of the criteria below:

1. ACT score of 29 or an SAT score of 1290

or

2. A high school GPA of at least 3.5 and one of the following:
 - a. membership in the Honor Society at the student's high school

or

- b. Advanced Placement (AP) credit

or

- c. Placement into WRT 101 and beyond REA 091 on PCC's assessments

Continuing and Transfer Students

In order to apply to the Honors Program, continuing and transfer students must have earned a GPA of 3.5 for all college courses 100 level or higher and meet one of the criteria below:

1. A minimum of 12 credits completed at or above the 100 level.

or

2. Placement into WRT 101 and beyond REA 091 on PCC's assessments

Applications for the Honors Program are available at any campus. For more information, see to the Honors Program web site (www.pima.edu/~honors).

The college also offers the opportunity for students to join Phi Theta Kappa, the international honor society for two-year colleges. Phi Theta Kappa membership is given only by invitation. See a campus Phi Theta Kappa representative for more details on how to qualify. The name of the Phi-Theta Kappa advisor may be obtained from any campus Office of the Dean of Student Development.

International Education

For students who would like to concentrate on International Studies, PCC offers an Associate of Arts Degree in International Business Studies. For more information on this program of study, please refer to the Educational Programs section of this catalog and see an advisor or counselor.

Students interested in classes with an international content should consult the *Schedule of Classes* each semester.

Earning a Degree or a Certificate

Degree, Certificate, and Program Requirements

Pima Community College offers degrees and certificates in a variety of areas. Each degree and certificate has specified program requirements for graduation. Degree and Certificate Requirements must be met before a degree or certificate is granted. See the Educational Programs section of this catalog for program requirements.

Each program lists the required coursework and credits. A student may be awarded a degree by completing the coursework with less than the credits shown in the program display if the student has completed a minimum of 60 credit hours numbered 100 or higher. For example, a degree displays a required 64 credits. It lists MAT 151 College Algebra for 4 credits. A student completed MTH 150 College Algebra five years ago when it was 3 credits. The student may graduate because the student completed the required course, College Algebra, even if the student has not completed the 4-credit version of College Algebra and does not have 64 credits. The same is true if the student had transferred in a 3-credit version of College Algebra from a university. The student may graduate because the required coursework was fulfilled.

General Education Information

The Value of General Education

General Education helps students to gain an understanding and appreciation of themselves; their history and culture; the history and culture of humanity; the principles and impact of mathematics, science and technology; and the principles of effective communication. Through an understanding and appreciation of these elements, the students should come to a realization of the interrelationships.

The process of general education is designed to develop the following thinking skills: comparing; interpreting; summarizing; suggesting and testing hypotheses; imagining and creating; criticizing and evaluating; designing projects and investigations; gathering and organizing data; reasoning, problem solving, and decision making.

General Education Requirements by Degree or Certificate

The following list shows the minimum General Education Credits needed for each type of degree program or certificate offered at Pima Community College. When considering which type of program is best for you, please note that if you intend to transfer to a university to complete a bachelor's degree, the Associate of Arts (AA), Associate of Business Administration (ABUS), and the Associate of Science (AS) are the degrees designed for that purpose. The Associate of General Studies, Associate of Applied Arts (AAA), and the Associate of Applied Science (AAS) degrees require additional General Education courses.

Transfer Degrees	General Education Credits Needed
Associate of Arts (AA)	35
Associate of Business Administration (ABUS)	35
Associate of Science (AS)	35

Not Intended for Transfer	General Education Credits Needed
Occupational Degrees:	
Associate of Applied Arts (AAA)	18-21
Associate of Applied Science (AAS)	18-21
Occupational Certificates:	
Occupational Certificates of 30 or more credits	6
Occupational Certificates below 30 credits	0
Associate of General Studies	18

Prerequisite for General Education

In order to enroll in General Education courses, the student must meet **one** of the following reading requirements.

- Test higher than REA 091 on PCC assessments
- Complete REA 091 with a "C" grade or higher
- Be concurrently enrolled in REA 091 during their first semester of general education coursework

Students who test into REA 081 can concurrently enroll in REA 081 and one general education course. Individual associate degrees and certificates may require a higher level of reading. Students who test into REA 112 are encouraged, but not required, to enroll in REA 112.

General Education Requirements for Transfer Programs

This section covers the General Education requirements for the following degrees:

- Associate of Arts Degree (AA)
- Associate of Business Administration Degree (ABUS)
- Associate of Science Degree (AS)

Arizona General Education Curriculum (AGEC)

The AGEC is a block of 35 or more credits that, when completed, can be transferred to another Arizona public community college or university without losing any credits. The AGEC meets all lower-division General Education requirements for bachelor's degrees at Arizona's public universities (Arizona State University, Northern Arizona University, and the University of Arizona). The AGEC may also meet other universities' General Education program requirements. See an advisor or counselor for more information.

There are three forms of the AGEC: the **AGEC-A** for Associate of Arts degrees, the **AGEC-B** for the Associate of Business Administration degrees, and the **AGEC-S** for the Associate of Science degrees.

AGEC-A The AGEC-A may be applied to liberal arts university degree programs. See the Liberal Arts Associate of Arts Degree for Transfer in this catalog for more information on choice of major and see an advisor or counselor to establish a degree plan using a university transfer guide.

AGEC-B The AGEC-B may be applied to universities' business administration and public administration degree programs. See the Associate Degree in Business Administration (ABUS) for more information on this major and see an advisor or counselor to establish a degree plan and to be sure of the AGEC pathway. Also, an AGEC-S fulfills the requirements for an AGEC-A or AGEC-B.

AGEC-S The AGECE-S may be applied to universities' science degree programs. See the Associate of Science Degree for Transfer in this catalog and see an advisor to establish a degree plan and to be sure of the AGECE pathway. Also, an AGECE-B fulfills the requirements for an AGECE-A.

If the AGECE is not completed before a student transfers to another community college or university:

- The student cannot complete an AA, ABUS, or AS degree.
- The student may be required to take additional general education courses at the college or university.
- The credits will be evaluated individually by the college or university using the Course Equivalency Guide and accepted depending on the degree requirements.

AGECE Category Requirements

Each AGECE (AGECE-A, AGECE-B, and AGECE-S) has the same categories and number of credits, but differ in the mathematics and science courses required. Courses may not be used to complete more than one category.

Students who complete an AGECE-A, change their major and wish to apply the AGECE-A toward a degree program requiring the AGECE-B or AGECE-S must complete the mathematics or science courses defined within that degree program major. However, the lower-division general education requirements of the degree were fulfilled by the AGECE-A.

Subject Category	Credit Hours
English Composition	6
Humanities and Fine Arts	6-9
At least one course from the Art list and one course from the Humanities/Historical Perspectives list.	
Biological and Physical Sciences	8
AGECE-A: Any course from the list	
AGECE-B: Any course from the list	
AGECE-S: CHM 151/152 or PHY 210/216 are required	
Mathematics	3
AGECE-A: MAT 142 or above is required	
AGECE-B: MAT 212 or above is required	
AGECE-S: MAT 220 or above is required	
Social and Behavioral Sciences	6-9
Courses must be completed from at least two prefixes in this category.	
Other requirement options:	0-6
a. Oral Communication	
b. Computer Science, Critical Thinking, Logic, Mathematics or Science	
c. Second Language	
d. International and Multi-cultural Studies	
Total General Education Credits Required	35

AGECE Special Requirements

Students are required to take courses that meet each of the following:

1. Intensive writing and critical inquiry (I)
2. Cultural diversity highlighting ethnic, race, and/or gender awareness (C)
3. Global diversity (G)

AGECE special requirements can be completed in one, two or, three courses. Look for the AGECE special requirement code (I, C, and G) in the course lists below. To avoid exceeding the 35 credits

required for the AGECE; the student should choose some courses that satisfy both the AGECE special requirements and the category requirements. For example, ANT 112 satisfies the category requirement of Humanities and Fine Arts and three AGECE special requirements: Intensive Writing and Critical Inquiry (I), Cultural Diversity (C), and Global Awareness (G). See an advisor or counselor for help in selecting courses.

AGECE Special Requirement Legend

- I- Satisfies Intensive Writing Special Requirement
- C- Satisfies Cultural Diversity Special Requirement
- G- Satisfies Global Awareness Special Requirement

AGECE Categorical Requirement:

English Composition (6 credits): Complete two courses, either the combination of WRT 101 and 102 or WRT 107 and 108.

Course No.	Course Title	Credit Hrs.	AGECE Special Requirement
WRT 101	Writing I	3	
WRT 102	Writing II	3	
WRT 107	Writing I for International Students	3	
WRT 108	Writing II for International Students	3	

AGECE Categorical Requirement

Humanities and Fine Arts (6-9 credits): See your degree display to determine if six or nine credits are required from this category. Complete at least one course from the Art list and at least one course from the Humanities/Historical Perspective list.

Art List

Course No.	Course Title	Credit Hrs.	AGECE Special Requirement
ART 100	Basic Design	3	
ART 105	Art Appreciation	3	G
ART 110	Drawing I	3	
ART 115	Color and Composition	3	
ART 120	Sculptural Design	3

General Education Requirements for the Associate of Applied Arts (AAA) the Associate of Applied Science Degree (AAS) and Certificates

General Education Requirements for Certificates for Direct Employment (30 Credit Hours or More)

Courses may not be used to complete more than one category.

Subject Category	Credit Hours
Communication Requirement	3
Analysis and Critical Thinking Requirement	3
Total General Education Credits Required	6

Communication Requirement

3 Credits

Choose 3 credit hours from the following list:

ASC 151
MEC 101
SPE 102
SPE 120
WRT 101 (or 107)
WRT 154

Analysis and Critical Thinking Requirement

3 Credits

Choose 3 credit hours from any of the categories below. The mathematics competency requirement must be met.

Mathematics Category

The mathematics competency requirement can be met by assessment (Compass Algebra score of 20 or above or Asset Elementary Algebra score of 32 or above) or course work (1-3 credits). See an advisor or counselor for verification of your assessment score.

Any MAT course at the 100 level or higher (except MAT 198)

GTM 105
TEC 113

Science Category

Any course from the AGECE Biological/Physical Science List

MAC 275
PHY 101

Critical Thinking Category

PHI 120
REA 112
STU 103

General Education Requirements for AAA and AAS Degrees:

Courses may not be used to complete more than one category.

Subject Category	Credit Hours
Communication Requirement	6
Analysis and Critical Thinking Requirement	6
Humanities and Social Science Requirement	6
Computer and Information Literacy Requirement	0-3
Total General Education Credits Required	18-21

General Education Course Lists for AAA and AAS Degrees

Communication Requirement

6 credits

Choose one of the following pairs. WRT 101 (or 107) and WRT 102 (or 108) are suggested for students planning to transfer to a university.

ASC 151 and ASC 251
MEC 101 and SPE 120
SPE 102 and WRT 154
SPE 120 and WRT 154
WRT 101 (or 107) and WRT 102 (or 108)

Analysis and Critical Thinking Requirement

6 credits

Courses may be chosen from any of the categories below. At least one course must be from science or critical thinking. The mathematics competency requirement must be met.

Mathematics Category

The mathematics competency requirement can be met by assessment (Compass Algebra score of 20 or above or Asset Elementary Algebra score of 32 or above) or course work (1-3 credits). See an advisor or counselor for verification of your assessment score.

Any MAT course at the 100 level or higher (except MAT 198)

GTM 108 105

TEC 113

Science Category

Any course from the Arizona General Education Curriculum (AGEC) Biological/Physical Science List

MAC 275

PHY 101

Critical Thinking Category

PHI 120

REA 112

STU 103

Humanities and Social Science Requirement 6 credits

Courses must be taken from at least two of the following categories. One of the course must meet either cultural diversity or global diversity criteria (C or G designation from the AGEC lists or a course from the Leadership and Ethics Category).

Humanities and Fine Arts Category

Any course from the AGEC Art list

Any course from the AGEC Humanities list

Any course from the AGEC Other Requirements Options: (c) Second Language list

Any conversational language course numbered at the 100 level or higher. The following courses meet this requirement: SPA 106, 102, 121, 122, 203, 204, THO 106, 107.

Social and Behavioral Science Category

Any course from the AGEC Social/Behavioral Sciences list

Any course from the AGEC Other Requirement Options: (d) International and Multi-Cultural Studies list

Leadership and Ethics Category

Any course in this category meets the cultural diversity requirement

STU 230

BUS 148

Computer and Information Literacy Requirement 0-3 credits

Completion of certain degree programs automatically fulfills this requirement. See your program display. Otherwise choose a course from the list below:

CAD 101

CSA 101, 101A, 101B

5. Must have an overall 2.0 grade point average (GPA) on a 4.0 grade point scale.

6. Cannot count "D" grades to fulfill graduation requirements if they are received in general education and/or core courses. "F" grades do not fulfill any requirements.

7. Must complete a graduation application for the receipt of certificates and/or degrees by the dates specified in this Catalog's academic calendar. Failure to complete the application by that date will result in a delay in processing until the following semester.

Graduation with Honors

Students who are graduating with a degree and who have completed 30 credit hours at Pima Community College may be granted honors designation if they meet certain grade point averages (GPA):

3.500 to 3.799 GPA = Graduation with Honors

3.800 to 4.000 GPA = Graduation with High Honors

These designations will be shown on diplomas and listed on the student's official transcripts.

Student's Catalog of Record (Catalog Under Which A Student Graduates)

Students maintaining continuous enrollment at any public Arizona community college or university may graduate according to the requirements of the catalog in effect at the time of initial enrollment or according to the requirements of any catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment whether attending a public community college and/or public university in the State of Arizona.

The rules for maintaining continuous enrollment are:

1. A semester in which a student earns course credit will be counted toward continuous enrollment.
2. Noncredit courses, audited courses, failed courses, or courses from which the student withdraws do no count toward continuous enrollment.
3. Failure to enroll in three consecutive regular (fall or spring) semesters breaks continuous enrollment for a student. Enrollment in the intervening summer terms may be used to maintain continuous enrollment status.

If continuous enrollment is not maintained, the student must meet the requirements for graduation of the catalog in effect at the time they re-enroll or any subsequent catalog of continuous enrollment. Students re-enrolled during a summer term must follow the following fall catalog or any subsequent catalog of continuous enrollment.

Time Limit for Coursework

In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant. Coursework that is more than eight years old is applicable to completion of degree requirements at the discretion of the student's major department. Departments may accept such coursework, reject it, or request that the student revalidate its substance. The eight-year limit on coursework applies except when program accreditation agencies limit the life of coursework to less than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs, when completing earlier requirements is no longer possible or educationally sound. The time limit for coursework does not apply to General Education courses.

Graduation

Graduation Requirements

In order to graduate from Pima Community College, a student:

1. Must complete the General Education requirements appropriate to the degree or certificate.
2. Must complete the program core, support, and prerequisite requirements for the appropriate degree or certificate.
3. a. Must complete a minimum of 60 credit hours of coursework at the 100 level or higher for an Associates Degree. At least 15 semester credit hours of the total required to qualify for an Associates Degree must be earned at PCC.
b. Must complete between 6 and 59 college credit hours to earn a certificate. At least 6 hours of the total required to qualify for a certificate must be earned at PCC.
4. Must complete the reading requirement, if specified for the appropriate degree or certificate.

Educational Programs, Degrees, and Certificates

Degrees and Certificates

Listed below are the current educational programs with their degrees or certificates and their program codes. If you are uncertain as to which code to use, or for information on programs appearing with no code, please see an advisor or counselor.

Associate of Arts, Associate of Business Administration, and Associate of Science Degree Transferability to Regional Universities

The table below provides direction to a student regarding how Pima Community College's courses within the associate of arts (A.A.), associate of business administration (ABUS), and associate of science (A.S.) degrees transfer to the three state public universities and to other regional universities. Since all universities have distinct general education and degree requirements, it is important for a student to recognize the differences. This table only provides evidence as to the transferability of each PCC transfer degree.

For each associate of arts or associate of science degree program listed below, a percentage is given indicating how well each degree meets Pima Community College's curriculum standards for transferability to the indicated institution. One of the standards for transfer requires that seventy percent (70%) of the degree's core and support courses transfer as credit in a major. An "NT" means that the degree program does not meet the standard for transferability, and thus less than seventy percent (70%) of the core and support courses transfer as credit in a major.

The transfer percentages give some indication of what percentage of credits for courses a student can expect to receive, and what assurance the courses within the associate degree are intended to transfer.

In every case, a student should see an advisor or counselor for detailed transfer information and for requirements to fulfill a bachelor's degree.

Examples:

1. The Associate of Arts in Anthropology Degree meets Pima Community College's curricular standard for transferability to Arizona State University, Northern Arizona University, and the University of Arizona. A student is assured that 100% of the courses in the degree will transfer to these institutions.
2. The Associate of Arts in Administration of Justice Studies transfers to Northern Arizona University (100% of core and support courses) and Western New Mexico University (100% of core and support courses). It does not meet the standard for transfer to Arizona State University or the University of Arizona. The student should see an advisor or counselor about transfer to any of these universities, but in particular about transfer to Arizona State University and the University of Arizona.

Exceptions:

Not all regional universities are represented. Grand Canyon University and Tucson University College of Arts and Sciences are not represented because at this time Pima Community College does not have articulated agreements with these institutions. These universities will be added when agreements are signed. However, some courses and degrees will transfer to these institutions; see an advisor or counselor for transfer information.

Accounting—Certificate for Direct Employment

Program Identification Code: CRTACCOUNTIN

This certificate provides skills and knowledge for entry-level employment into bookkeeping and accounting careers. This certificate also provides the foundation for the Associate of Applied Science Degree in Accounting. Students who plan to become Certified Public Accountants should take the courses required for the business administration transfer program.

Program Identification

Code: AASACCOUNTIN

The accounting degree program trains students in the theory, systems and basic problems of business accounting. The student will have the background for a beginning career in areas such as private, public and government accounting. Students who plan to become Certified Public Accountants should take the courses required for the business administration transfer program.

Administration of Justice Studies

The Administration of Justice Studies program is designed to serve three types of students:

- Pre-service - for students wishing to secure employment in the criminal justice system
- In-service - the professional who needs to increase his/her skills for their present duties
- Transfer - for students wishing to transfer to a four-year school and pursue a Bachelors degree in an area of justice studies (Please see information below.)

The Associate of Applied Science degree for direct employment offers a broad range of skills training. This program is designed to provide the basic courses needed to seek employment or promotion in corrections and/or criminal justice. Students are urged to seek the help of an Administration of Justice faculty advisor or counselor before and during enrollment in the program.

Program Identification Code: AASADMINJUST

This program is for students interested in employment and/or advancement within the justice system, and is designed to transfer to the Bachelor of Applied Science (B.A.S.) Degree in Criminal Justice at Northern Arizona University. Students interested in transferring to a BA or BS program at Arizona State University, Northern Arizona University, or University of Arizona should consult an advisor and consider the Associate of Arts degree in Administration of Justice.

Students who are employed with the adult or juvenile corrections system and have passed a certified corrections training program will be given credit toward this AAS degree and are not required to take the following core courses:

For Juvenile Corrections graduates: AJS 123, 212, 256, 290

For Adult Corrections graduates: AJS 115, 123, 212, 246, 256, 290

Program Identification Code: AOAADMINJUST

The Associate of Arts degree is specifically designed for students who are planning to transfer to Northern Arizona University or Western New Mexico University. Those students who plan to transfer to Arizona State University or the University of Arizona or another four-year institution should consult with a faculty advisor or counselor and follow the transfer guide of the college they wish to attend.

Administrative and Office Support Careers

Administrative and Office Support Careers offers a variety of courses and programs. The certificate offerings include administrative office aide, computer applications office aide, administrative office specialist, and computer applications office support. The Associate of Applied Science degree offers students the opportunity to pursue preparation to become an administrative assistant, a computer applications specialist, legal secretary, medical office front office specialist, or a medical transcriber. There is also an Associate of Applied Science degree in records and information management with options in either business or health information management. The Administrative and Office Support Careers curriculum offers education in communications, business and management subjects, and includes computer applications, professional development, and administrative operations.

Administrative Office Aide—Certificate for Direct Employment

Program Identification Code: CRTADMINAIDE

An administrative office aide performs a variety of tasks to facilitate office operations. See an administrative and office support faculty advisor or counselor located on the Downtown or Desert Vista Campuses.

Program Identification Code: AASMEDSECR TY

The Records and Information Management program is designed to train students for direct employment in business and industry or the health information management field. The program is transferable to the University of Phoenix. Students who wish to transfer to another four-year university will have met some of the general education requirements. For students selecting the Health Information Management option, Phoenix College in the Maricopa Community College District has an accredited Health Information Technology program. Some of these courses may meet the requirements of the American Health Information Management Association's correspondence program. See an administrative and office support faculty advisor or counselor located on the Downtown or Desert Vista Campuses.

Computer Applications Office Aide—Certificate for Direct Employment

(Formerly Data Entry Clerk)

Program Identification Code: CRTCOMPAPPAD

This certificate prepares the student to enter the market as an entry-level computer applications aide in the office support field. The student will be able to produce documents, spreadsheets, databases, and presentations within the Windows operating environment. Success in this program requires good reading and comprehension skills and the ability to follow instructions.

‡AGEC requires 35 credits. This subtotal shows the AGECE credits not fulfilled by core, support, or second language courses.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Program Identification Code: AOAAMRINDSTU

This program is open to all students, Native American and non-native American for transfer to a university. In addition to preparing students for study of Native American issues and topics, it provides the groundwork for moving into other areas within Liberal Arts and Sciences at the upper level of the junior and senior year.

Anthropology

(See also Archaeology.)

The anthropology and archaeology programs prepare graduates for further academic studies at a four-year college or university as well as providing practical job-related skills. Anthropology students can select from an Associate of Arts Degree for Transfer program as well as basic and advanced certificates that emphasize archaeological fieldwork.

The Associate of Arts Degree for Transfer in anthropology provides a global understanding of the nature of humankind as well as developing the student's awareness of the biological and cultural development of humanity. Emphasis is placed on the heritage and cultural diversity of the Southwest. The program prepares students for upper division study in anthropology at a major university. The curriculum generally parallels the lower division anthropology and liberal arts requirements at the state universities.

Anthropology—Associate of Arts Degree for Transfer

Program Identification Code:

AOAANTHROPOL

After successfully completing this program students may be eligible to transfer to upper class levels in anthropology at a four-year college or university. Students should consult the catalog for the institution to which they plan to transfer in order to establish the graduation and anthropology major requirements and determine the transferability of Pima Community College courses.

Any student who completes this degree fulfills the state public universities general education requirements as well as the lower division requirements for anthropology majors at the University of Arizona.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Archaeology

(See also Anthropology)

Students have the opportunity to develop a wide variety of skills and abilities in field archaeology. Emphasis is placed on actual field experience, supplemented by appropriate lecture courses. The curriculum is flexible enough to meet the needs of students pursuing professional training in archaeology, amateur archaeologists, and people with general interest in archaeology. The program strives to promote the preservation and conservation of archaeological resources and to contribute to the knowledge of the prehistory of Southern Arizona. Upon the completion of the courses listed, an individual will receive either a certificate in field archaeology or a certificate in archaeological fieldwork, a certificate in Computer Archaeology and Cartography, or an Associate of Arts Degree in Archaeology.

Field Archaeology—Certificate

Program Identification

Code: CRTFLDARCHEO

The archaeological fieldwork curriculum at Pima Community College is designed to provide interested persons with basic levels of practical archaeological field experience. Field courses are taught within the context of Arizona prehistory and emphasize an appreciation of the archaeological and environmental resources of the American Southwest. No prior experience or prerequisites are necessary to begin the program or to enroll for classes.

General Education Requirements - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

NOTE: General Education is not required for the Field Archaeology Option.

Communication Requirement†
WRT 101 fulfills this requirement.

Analysis and Critical Thinking Requirement3

Required Core Courses

See the appropriate Associate of Arts, Associate of Science, or Associate of Business Degrees. The AGEC certificate will be awarded in the process of completing the Associate Degree for Transfer. See your advisor or counselor.

Total credits as displayed.....35

Program Identification Codes:

Upon completion of this certificate, the student fulfills the lower-division general education at all Arizona public universities and colleges including the University of Arizona (UA), Arizona State University (ASU), and Northern Arizona University (NAU). It is also applicable to the University of Phoenix (UPHX) and may be applicable to other colleges and universities. Students are strongly advised to complete the associate degree after completing this certificate. See your advisor about completing an associate degree.

Students should use the Associate of Arts, Associate of Business Administration, or Associate of Science program identification code.

Applied Arts—Associate of Applied Arts Degree

Program Identification Code: AAAAPPLDARTS

This program gives students the opportunity either to gain experience in several media or to concentrate on a single area of interest. Instruction is offered in basic design, color, drawing, painting, photography, weaving, fibers, ceramics, metalwork, printmaking, screen printing, art history and sculpture, and fashion design. All art classes in the program are taught by professional working artists. Students are encouraged to become involved in the art community through extracurricular activities such as the Pima Community College Art Gallery and the Visiting Artist program. Students select art electives and support courses according to their major areas of interest. Applied Arts faculty advisors or counselors are located on the West Campus.

Asian Studies—Associate of Arts Degree for Transfer

Program Identification Code: AOAASNSTUDY

The Asian Studies program prepares graduates for further academic studies at a four-year college or university by providing a broad based, multidisciplinary, multicultural, comparative, social science approach to the study of Asia. Students will be required to complete four semesters of an Asian language and a selection of courses designed to provide students with an introduction to the histories and cultures of Asia and the West. Core courses in geography, history, humanities and religion will give the student a broad based, multidisciplinary introduction to the program area.

Astronomy

A student planning on obtaining a degree with an option in Astronomy should follow the Associate of Science Degree for Transfer. See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOSSCIENCE

Automotive Technology

The automotive classes on the Downtown Campus are offered in an open-entry/open-exit, self-paced format. The program is accredited by the National Automotive Technician Education Foundation (NATEF)/Automotive Service Excellence (ASE). Students may enter classes any time of the year including summer and complete the work at their own speed according to a schedule of their own choice. Further information on course scheduling should be obtained from an automotive technology faculty advisor or counselor on the Downtown Campus.

All students taking Downtown Campus automotive classes must have safety glasses and work shoes.

A person majoring in automotive technology may obtain extra experience while enrolled in classes by registering for additional practice opportunities. See an automotive faculty advisor for details.

Automotive Mechanics—Certificate for Direct Employment

Program Identification Code: CRTAUTOMECHS

Automotive courses meet the needs of the beginner, the technician who wants to update skills and the do-it-yourself person. The automotive programs may also help students enter the automotive field in positions other than auto technician such as service writer, parts specialist, and automotive related sales positions. The automotive program offers a one-year certificate and a two-year Associate of Applied Science Degree with options in Mechanical Repair, Collision Repair, Painting and Refinishing, and Estimating and Shop Management.

Students in the automotive mechanics one-year certificate program are trained in general automotive repair for entry-level positions. Persons who later decide to move on to the Associate of Applied Science Degree may use the certificate program courses as the first step.

Automotive Technology—Associate of Applied Science Degree for Direct Employment

Entrance Requirements

Entrance requirements for the Associate of Applied Science degree are:

- AUT 089 - Small Engine Troubleshooting and Repair
- AUT 101 - Automotive Maintenance

Aviation Technology

This certificate/degree prepares students for careers in Aviation Technology with options in Aircraft Airframe and Powerplant, Composites Fabrication and Repair, Interior Installer, or Structural Repair. The Aircraft Airframe and Powerplant courses prepare experienced aircraft mechanics for Federal Aviation Administration (FAA) airframe and powerplant certification. Coursework is open to all students but only those meeting the experience requirements of Federal Aviation Regulation, Part 65, can test for certification. Approval to test is granted by the FAA and requires at least 30 months of experience performing maintenance to both airframe and powerplants or 18 months performing maintenance to either airframe or powerplants. For more information call (520) 206-6186.

The Aircraft Interior Installer option prepares students to enter the workforce skilled in the construction and finishing of high-dollar customer optioned business jet interiors. Potential students must attend an orientation, take reading and math assessment tests and possess above-average mechanical aptitude.

Students accepted into the Aircraft Structural option or the Composites Fabrication and Repair option will be taught techniques and processes required to repair and modify transport category metal and composite aircraft structures. Potential students must attend an orientation, take math and reading assessment tests and possess above-average mechanical aptitude.

Biochemistry

A student planning on obtaining a degree with an option in Biochemistry should follow the Associate of Science Degree for Transfer. See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOSSCIENCE

Biology—Associate of Science Degree for Transfer

A student planning on obtaining a biology degree from the University of Arizona should follow the Associate of Science Degree for Transfer. Students seeking a biology degree from Arizona State University or Northern Arizona University should follow the Associate of Arts Degree for Transfer in Liberal Arts. See your transfer guide.

Students interested in pre-agriculture, pre-dental, pre-medical, pre-pharmacy and pre-veterinary subject areas should consult the catalog of the school to which they plan to apply. See a biology faculty advisor or counselor.

A student seeking a degree must take the math, writing, and reading assessment exams. The student should then meet with a biology advisor or counselor to plan courses. Students who plan to transfer to an upper division school to complete their degree should also contact an advisor or counselor from their chosen school for verification of transfer courses as soon as possible.

Program Identification Code: AOSSCIENCE

Building and Construction Technologies

This program area provides training in building management; construction technology; carpentry, facilities maintenance; heating, ventilation, air conditioning, and refrigeration (HVAC-R); electrical; and plumbing, and control systems. Three programs are offered:

- a certificate providing the applicant with basic skill levels for entry-level helper positions in Facilities Maintenance, and HVAC-R
- a certificate with options in Facilities Maintenance, HVAC-R, Electrical, and Plumbing; Carpentry, and Control Systems
- an Associate of Applied Science Degree in Building and Construction Technologies with options in Building Management, Construction Technology, Carpentry, Facilities Maintenance, HVAC-R, Electrical, and Plumbing, and Control Systems

The design of the program is to get the applicants involved with the work place within six months after starting the program and continuing their education in the certificate or Associate of Applied Science Degree. This program uses the self-paced, competency-based instruction which provides open entry/open exit scheduling flexibility. This method of presentation provides the vehicle by which the applicants can demonstrate their proficiencies as outlined in required course work using both applied knowledge, hands-on techniques, and work experiences to complete the program at their own pace.

This program requires high levels of motivation, high levels of self esteem, dedication to learning, the ability to follow instructions, and excellent study habits. Program courses and advising are available at the Downtown Campus.

**May be taken for credit by examination.

Program Identification Code: CRTBLDGCON-B

This program provides entry-level skills and foundations which permit an applicant to enter the work force as an entry-level helper in facilities maintenance. Students can progress from this certificate to the Advanced Building and Construction Certificate and on to the Building and Construction Technologies Associate of Applied Science degree.

Advanced Building and Construction Technologies—Certificate for Direct Employment

Program Identification Code: CRTBLDGCON-A

This program provides six options: facilities maintenance, heating, ventilation, air conditioning, and refrigeration (HVAC-R), electrical, and plumbing, carpentry, and control systems. This program provides advanced skill levels found in the entry-level technician/journeyman levels of these crafts and trades. Applicants with this level of skills can expect to enter the work force at an intermediate pay scale with rapid advancement based on demonstrated skills required in the area of concentration taken. This level of employment requires good basic reading, writing, math and area of concentration skills. In addition, it requires good work habits and the ability to follow instructions given by employers and more advanced technicians/journeymen in supervisory positions in order to be successful in the workplace. This certificate is a career ladder step to the Building and Construction Technologies Associate of Applied Science Degree.

Building and Construction Technologies – Construction Management—Associate of Applied Science Degree

Program Identification

Code:

AASCONSTMGMT

Northern Arizona University College of Engineering and Technology has a partnership agreement with Pima Community College to offer a Bachelor's degree in the Tucson area. The completion of the Associate of Applied Science Degree in Construction Management provides 59 applicable credit hours towards Northern Arizona University's Bachelor of Science in Construction Management. Students interested in the Bachelor's Degree should see an NAU advisor located at the NAU Statewide Academic Programs office in Tucson or a Pima Community College advisor or counselor located at the Downtown Campus.

Program Identification Code: CRTELECTRIC

This certificate provides entry-level skills and knowledge of electrical utilities technology jobs and is the foundation for the Associates of Applied Science Degree in Building and Construction Technologies.

Business

The Business programs are designed to meet the goals of students:

- interested in exploring business as a career
- desiring appropriate skills to enter the business field
- needing skills to aid in opening a small business
- planning to transfer to a four-year institution as a business major

The certificate/degrees include:

- A certificate designed to introduce the student to basic business courses
- A certificate for direct employment enabling students to seek job entry-level positions in business
- An Associate of Applied Science degree with a specialty in management or marketing for students seeking employment after graduation
- An Associate of Business Administration (ABUS) degree in business administration for students intending to transfer to Arizona State University, Northern Arizona University, the University of Arizona, or the University of Phoenix
- An Associate of Arts degree in retailing for students wishing to transfer to the University of Arizona

Basic Business—Certificate for Direct Employment

Program Identification

Code: CRTBUSINES-B

This certificate introduces the student to basic business courses and is the foundation for the advanced business certificate.

Course Number	Course Title	Credit Hours
Required Core Courses - A grade of C or better is required for graduation.		
ACC 100	Practical Accounting Procedures.....	3
ASC 151*	Business English	
or WRT	Determined by assessment test score.....	3
BUS 100	Introduction to Business.....	3
BUS 151*	Mathematics of Business	3
MGT 110	Human Relations in Business and Industry	3
Total credits as displayed.....		15
*This course has a prerequisite, co-requisite, or recommendation. See course description section.		

Advanced Business—Certificate for Direct Employment

Program Identification

Code: CRTBUSINES-A

This certificate enables students to seek job-entry positions in business and is the foundation for the Associate of Applied Science Degree in Business.

General Education Requirements - A grade of C or better is required for graduation.

Program Identification

Code: AASBUSINESS

This degree provides the skills and knowledge for direct employment in business with specialties in management and marketing. Students seeking to transfer to a university in business administration should follow the Associate of Business (ABUS) Degree

Business Administration—Associate of Business Administration (ABUS) for Transfer

Program Identification Code: AOBBUSIADMIN

The business administration degree program for transfer prepares students for a university bachelor's degree program in business administration. The options lead to majors in accounting, business administration, business computing management/management information systems, business economics, finance, international business, management, and marketing.

This degree fulfills lower-division general education and major requirements for the B.S Degree in Business Administration at the University of Arizona, University of Phoenix, Arizona State University, and Northern Arizona University. It may also transfer into business programs at other universities. See your business advisor or counselor.

Program Identification Code: AOABUSADRETL

Retailing is selling goods and services to final consumers. The retail industry includes food and fashion, soft goods and hard goods, services retailing, merchandise planning, advertising and promotion, and international retailing.

The courses in this program meet the University of Arizona lower divisional requirements for a bachelor of science degree in family and consumer resources with a major in retailing and consumer studies.

Students without retail experience are encouraged to either apply for admission to a marketing cooperative education program or independently attain employment in a retail establishment.

Chemistry—Associate of Science Degree for Transfer

Chemistry—Environmental Science

Students who are interested in an environmental science transfer degree should consult the section in the catalog under Environmental Technology—Associate of Arts Degree for Transfer in Liberal Arts.

Program Identification Code: AOSSCIENCE

A student planning on obtaining a chemistry degree should follow the Associate of Science Degree for Transfer. A student seeking a degree must take the math, writing, and reading assessment exams. The student should then meet with a chemistry faculty advisor or counselor to plan courses. The student who plans on transferring to an upper division school to complete his/her degree should also contact an advisor or counselor from their chosen school for verification of transfer courses.

Computer Aided Drafting Technology

Computer Aided Drafting, Electro-Mechanical/Mechanical—Certificate for Direct Employment

Program Identification Code: CRTELECMECHN

This certificate provides skills in drafting and design fundamentals used in the electronics manufacturing industry utilizing manual and computer aided drafting (CAD) tools. It also provides a foundation for the Associate of Applied Science Degree in Computer Aided Drafting Technology.

General Education Requirements - A grade of C or better is required for graduation.

Computer Aided Drafting Technology—Associate of Applied Science Degree

Suggested Entrance Requirements: Entry requirements for the Associate of Applied Science degree are REA 081, WRT 100, and MAT 086. Students should have successfully completed course work or assessments within the first year of the program.

Program Identification Code: AASELECMECHN

This Associate of Applied Science degree allows the students to develop skills which prepare them for careers in Computer Aided Drafting (CAD) as found in several types of industry.

This degree provides for five options: Electro-Mechanical, Mechanical, Technical Illustration, Construction, and Integrated Circuit Layout Design. The electro-mechanical drafting option involves drafting and design fundamentals used in the electronics manufacturing industry utilizing manual and Computer Aided Drafting (CAD) tools. The mechanical option involves drafting and design fundamentals used in the manufacturing industry utilizing manual and CAD tools. The technical illustration option involves the merging of artistic and mechanical aspects of drafting and design utilizing manual and CAD tools. The construction option involves the preparation and/or use of working drawings for construction projects utilizing manual and CAD tools. The integrated circuit layout design option involves CAD, electronics, and layout skills combined with integrated circuit knowledge.

Computer Information Systems

These programs are designed to prepare students for employment in the field, mainly as computer programmers and provide transfer courses for those wishing to enroll at a four-year college. In addition, they enable those already employed in the field to upgrade their skills and provide personal interest courses to meet the community's needs. The program options provide a full range of computer science skills, including computer literacy, data entry, programming, computer operations and systems analysis and design. For data entry see the Administrative and Office Support Careers program. The following programs are offered:

Computer Programming Specialist

- Certificate for Direct Employment

Small Computer Systems Administrator

- Associate of Applied Science Degree For Direct Employment

Computer Programmer/Analyst

- Associate of Applied Science Degree For Direct Employment

Computer Science

- Associate of Science Degree For Transfer

Network Administrator

- Certificate for Direct Employment

Web Technologies

- Certificate for Direct Employment

Computer Programming Specialist—Certificate for Direct Employment

IMPORTANT: Before enrolling in this program students should consult a computer science faculty advisor. Prerequisites for Programming in C option are CIS 129, 131, and 250. Prerequisites for Programming in COBOL are CIS 100 or 129 and 130 or 131. Prerequisites for Programming in Visual Basic are CIS 102 and 129.

Program Identification

Code: CRTCMPPRGSP

This program offers an accelerated programming study for those who have completed one or more years of college that include the program prerequisites. In addition, it enables experienced professionals to upgrade and expand their skills and employment opportunities. Experienced students will be given the opportunity to test out of CIS 100 or request waiver of prerequisites by the Computer Science Department.

Program Identification Code: AOSCOMPUTSCI

This program is designed to meet the requirements for the first two years of a Bachelor's degree in Computer Science. Although it is not intended for direct employment, the Associate of Science Degree provides a sufficient fundamental knowledge of mathematics, general education, and computer science to obtain entry-level positions by some employers.

Computer Science – Network Administrator—Certificate for Direct Employment

IMPORTANT: Before enrolling in this program students should consult a computer science faculty advisor. Program prerequisites are CIS 102 and 103, 119, 129 or 130, 136 or TEC 130.

Program Identification Code: CRTNETWRKADM

This program offers an accelerated programming study for those who have completed one or more years of college that include the program prerequisites. Students are prepared for entry-level positions as a network administrator with companies using Windows NT, NetWare (Novell) or Linux (UNIX) Operating Systems. The program provides the necessary knowledge and ability to install, maintain, configure and troubleshoot network hardware and software. Within the field of Network Administration it also enables experienced professionals to upgrade their programming skills and expand employment opportunities.

Course Number	Course Title	Credit Hours
Required Core Courses - A grade of C or better is required for graduation.

CIS 225*	LINUX (UNIX) System and Network Administration.....	4
CIS 272*	Advanced Networking Concepts.....	4
Total credits as displayed.....		27

*This course has a prerequisite, co-requisite, or recommendation. See course description section.

Computer Science – Web Technologies—Certificate for Direct Employment

IMPORTANT: Before enrolling in this program students should consult a computer science faculty advisor. Program prerequisites are CIS 102, 103, 129, 131, 135, 250.

Program Identification Code: CRTWEBTECH

This program offers an accelerated programming study of entry-level World Wide Web design, development and web site administration for those who have completed one or more years of college that include the program prerequisites. Within the field of web site publishing it also enables experienced professionals to upgrade their programming skills and expand employment opportunities.

The Court Support Services Program offers a combination of classroom and field experiences preparing students for careers in the court support areas. The court support field includes, but is not limited to, areas of: docketing, calendaring, scheduling, court security, budget support, office support, jury management, and procedure specialists.

Court Support Services – Tribal Court Advocacy—Certificate for Direct Employment

The Tribal Court Advocate Option is designed to prepare students for careers in the tribal courts. The program of study will include a thorough synopsis of the roles and purposes of Tribal Courts, and the role of advocates in these courts. The curriculum focuses on the presentation of legal principles and the application of these principles in a tribal court setting. The program of study will provide students with knowledge of the major structures and organization of the American judicial system, including an emphasis on the Tribal Courts in Arizona as well as the rest of the nation. The curriculum will also cover the role and function of Tribal Court jurisdictions and the basic role and functions of advocates in the Tribal Courts.

Program Identification Code: CRTTRBCRTADV

The curriculum concentrates on the teaching of legal concepts and the application of these concepts in the tribal court setting. Students will be prepared to provide paraprofessional support in the form of legal research, preparation of legal documents and advocacy.

Dental Assisting Education

Admission to the Dental Assisting Education program requires a separate application procedure.

Students are encouraged to meet with an advisor or counselor.

Students seeking admission to the Dental Assisting Education program must be in the process of completing the following basic requirements before receiving an application:

- High School diploma or GED
- Admission to Pima Community College
- Completion of the Compass assessments (Math, Reading, Writing)
- One semester of high school or college biology or zoology

Program Co-requisite:

- WRT 150 with a grade of C or better within the first two semesters of the program. As an exception, WRT 101 may meet this requirement for students choosing to transfer.

General Requirements:

- Total required credits: 29 credit hours
- DAE course work: 29 credit hours

Restrictions:

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program department chairperson.

Minimal Grade Achievement:

- Students must receive a C grade or better in all core courses to progress to the next semester.

Dental Assisting Education—Certificate For Direct Employment

Students in this program should enroll in DAE 159 during the first semester of the program.

Course Number	Course Title	Credit Hours

Total credits as displayed.....		29

*This course has a prerequisite, co-requisite, or recommendation. See course description section.

The Dental Assisting Education program provides theoretical and practical preparation for its program graduates. Graduates of the Dental Assisting Education program may seek immediate employment as qualified dental assistants in hospitals, clinics and dental offices.

The total program may be completed within two semesters. A minimum of 336 hours of clinical procedures in affiliated dental clinics and/or private dental offices will be completed during the second semester of study. Students who complete this program will graduate with a certificate for direct employment from Pima Community College and will be eligible to take the national certification examination and state oral radiography licensure examination.

Dental Hygiene

Admission to the Dental Hygiene program requires a separate application procedure. Students are encouraged to meet with an advisor or counselor. Students seeking admission to the Dental Hygiene program must have either completed or be currently enrolled during the Fall semester in the following basic requirements before receiving an application:

Program Prerequisites

- High School diploma or GED
- Admission to Pima Community College
- Reading assessment test score at the level of, or completion of REA 112
- Math assessment test at the level of MAT 151 or higher, or completion of MAT 122
- BIO 201IN within the last 8 years
- BIO 202IN within the last 8 years
- BIO 205IN within the last 8 years
- CHM 140/140LB within the last 8 years

General Requirements

- Total required credits: 60-63 credit hours
- DHE course work: 46 credit hours
- Other course work including General Education courses: 14-17 credit hours

Restrictions

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program department chairperson.

Minimal Grade Achievement

- Students must receive a C grade or better in all core courses to progress to the next semester.

Dental Hygiene—Associate of Applied Science Degree for Direct Employment

This curriculum provides the theoretical and practical preparation to qualify graduates for positions in general and specialty dental offices, hospitals, schools, and public health agencies. The program consists of four semesters on campus with one summer session. The program is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council of Post-secondary Accreditation and the United States Department of Education. Graduates of the Dental Hygiene program will receive an Associate of Applied Science Degree and will be eligible for licensure in Arizona and other jurisdictions.

Dental Laboratory Technology

Admission to the Dental Laboratory Technology program requires a separate application procedure.

Students are encouraged to meet with an advisor or counselor.

Students seeking admission to the Dental Laboratory Technology program must be in the process of completing the following basic requirements before receiving an application:

- High School diploma or GED
- Admission to Pima Community College
- Completion of the Math and Reading assessment tests
- Completion and evaluation of GATB (General Aptitude Test - Battery)

General Requirements

- Total required credits: 69-71 credit hours
- DLT course work: 47 credit hours
- Other course work including General Education courses: 22-24 credit hours

Restrictions

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program coordinator.
- Applicants must demonstrate reading competency at the level of REA 112 (12 grade level) or higher to qualify for graduation from the DLT program.

Minimal Grade Achievement

- Students must receive a C grade or better in all core courses to progress to the next semester.

Dental Laboratory Technology—Associate of Applied Science Degree for Direct Employment

The total program is made up of four semesters of classes. It includes 1,492 clock hours of laboratory practice.

Graduates will receive an Associate of Applied Science degree with a major in dental laboratory technology.

Graduates of the Dental Laboratory Technology program qualify to take the National Board for Certification in Dental Laboratory Technology's Recognized Graduate Exam.

After two years of practical work experience, the recognized graduate can qualify to take the Certified Dental Technician practical exam given by the National Board for Certification in Dental Laboratory Technology.

Digital and Film Arts—Certificate for Direct Employment

Program Identification Code: CRTDIGIFILM

The Digital and Film Arts certificate is an intensive, hands-on program designed to prepare students for positions as media center managers, television news camera persons, television production camera persons, television news tape editors, television commercial producers, scriptwriters and audio technicians. Successful graduates will be able to work in various film formats, digital video formats, analog video formats, make simple repairs to various equipment, recommend equipment purchases and assess media production needs.

Cooperative education opportunities exist in television stations, production centers, industrial video facilities and audio production studios. To be eligible, students must have completed at least six credit hours of media communications classes, have available time to work on site and have access to necessary transportation. A good background of writing courses is strongly recommended for students entering this field. Aptitudes for mechanics, graphic design, art, music and verbal expression are also helpful.

General Education Requirements - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Program Identification Code: AASDIGIFILM

Persons trained in Digital and Film Arts can work in a variety of jobs in the production of television programs, films and audio programs. The field includes such jobs as writer, producer, editor, director, camera operator, sound designer, web designer and graphic designer.

Instruction includes digital camera operation, non lineara video editing, studio production, digital audio production, desktop publishing, art and graphic design, computer applications in media, electronic field production, electronic news gathering, film production, film editing, lighting, script writing, and digital photography. The Associate Degree programs also involve students as interns at work sites in the community through cooperative education courses. Student activities also include student-produced films and videos which are aired locally on cable television and shown in local media arts centers.

Digital and Film Arts – Animation—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASANIMATION

This interdisciplinary degree is designed for direct employment, to prepare students for entry-level careers in Animation, Digital/Film Arts, Multimedia and Communication Graphics. The degree provides a course of study that develops the disciplines of script writing, video production, cinematography, and film animation, combined with Communication Graphics skills of drawing, illustration, and cartooning, digital imaging and computer animation. A creative background in drawing, art, music, design, computers and electronics is helpful but not required. Entry requirements for this degree are CGR 100 and CGR 051, or 120.

General Education Requirements - A grade of C or better is required for graduation.

Digital and Film Arts—Associate of Arts Degree for Transfer

A student planning on obtaining a Digital and Film Arts degree should follow the Associate of Arts Degree for Transfer in Liberal Arts.

The program is designed to prepare students to transfer to a four-year college or university program in audio, film, and/or video. Good writing skills and creative background in art, design, computers, and photography are helpful in this degree option.

Verification of transfer courses should be established with the transfer university or college or a Pima Community College counselor or faculty advisor. For additional information on Associate of Arts Degree for Transfer in Liberal Arts and Associate of Science Degree transferability to regional universities, please refer to the chart in the front of this section.

Education

Students interested in pursuing teaching as a career, either at the elementary or secondary level, should follow the Associate of Arts Degree for Transfer in Liberal Arts in this catalog.

Students should be aware that education is an upper-level major in Arizona's three state universities and admission may be dependent on a number of factors, including mandated pre-professional tests, grade point average, and pre-professional experience. It is therefore recommended that students contemplating a teaching career study the catalog and contact an advisor or counselor at the college/university you plan to transfer to for information regarding admission requirements.

Pima Community College provides courses in the Early Childhood Education department that are designed to introduce prospective elementary and secondary teachers to the education field and provide them with field experiences. Consult an ECE faculty advisor or counselor for a list of these courses. Students interested in secondary teaching should consult Pima Community College faculty advisor or counselors in their prospective major and minor teaching content areas.

Program Identification Codes:

- *Elementary Education: AOALIBRALART*
- *Secondary Education: AOALIBRALART*
- *Special Education and Rehabilitation: AOALIBRALART*

Emergency Medical Technology

This program provides the theoretical and practical preparation to qualify graduates for the certificate for the Emergency Medical Technician (EMT-B). Students who wish to continue their studies in emergency medicine should review the Associate of Applied Science degree in Paramedicine.

Clinical experience requirements for all levels of Emergency Medical Technology require immunization records for the following immunizations:

- MMR Measles, Mumps, Rubella
- TD Tetanus, Diphtheria (within the last seven years)
- TB Tuberculosis screening indicating negative activity (given no more than six months prior to the beginning of the program)
- HBV Hepatitis B vaccination series (HBV is encouraged for students who will be working as a healthcare provider, but is not required and can be declined)

Students entering the Basic Emergency Medical Technology class must also meet the following requirements:

- Must be 18 years of age at the start of the class.
- Possess CPR Certification at the Healthcare Provider Level with at least 1 year left in the certification period. CPR certification meeting these requirements is available at Pima Community College.
- Must provide proof of personal medical insurance to participate in clinical experience. Student health insurance is available through Pima Community College Student Services.
- Read at the 9th grade level through College assessment (contact Assessment Center).
- Students must meet with an advisor on the East Campus to complete a pre-enrollment worksheet prior to enrolling in the EMT-B Certificate.

Certification testing requires an additional fee to the National Registry of Emergency Medical Technicians (NREMT). Students with felony and some misdemeanor convictions may not be eligible for certification. Students may contact the Arizona Department of Health Services for additional information, though final verification may not be available until an application is submitted to AZDHS.

Emergency Medical Technology—Certificate for Direct Employment

EMT-B Certificate

Acceptance Into the Program:

This EMT-B course is approved by the Arizona Department of Health Services, Bureau of Emergency Medical Services and by the National Registry of Emergency Medical Technicians. Students who complete the program will be eligible to apply for a certificate by Pima Community College. Upon successful completion of the program, the graduate is eligible to take the required state and National Registry of Emergency Medical Technicians examinations. Certification to work as an Emergency Medical Technician rests entirely with the Arizona Department of Health Services, Bureau of Emergency Medical Services. Requirements for entrance into the EMT program (see narrative) may also be found in Arizona Administrative Code, Title 9, Chapter 25, Article 308 (A) (B) (C) (D). Completion of college admission requirements.

Completion of acceptance criteria as established by the Arizona Department of Health Services and Pima Community College.

Class size is limited to 24 students by the State of Arizona regulations.

For course prerequisites and/or recommendations, check course section of this catalog.

Program Identification Code: CRTEMEDTEC-B

This program provides the theoretical and practical preparation to qualify graduates for the certificate for the Emergency Medical Technician (EMT-B). Students who wish to continue their studies in emergency medicine should review the Associate of Applied Science Degree in Paramedicine.

Emergency Medical Technology – Paramedic—Certificate for Direct Employment

The program is approved by the Arizona Department of Health Services, Bureau of Emergency Medical Services and by the National Registry of Emergency Medical Technicians. Students who complete the program will be issued a certificate for direct employment by Pima Community College. Upon successful completion of the program the graduate is eligible to take the required State and National Registry of Emergency Medical Technicians examinations. Current Arizona Department of Health Services regulations allow program graduates to take the Arizona EMT-P examination and/or the National Registry of Emergency Medical Technicians examination. Certification to work as an Emergency Medical Technician rests entirely with the Arizona Department of Health Services, Bureau of Emergency Medical Services. Requirements for entrance into the EMT-P program (see narrative) may also be found in Arizona Administrative Code, Title 9, Chapter 25, Article 408 (A) (B) (C) (D).

Acceptance into the Program:

- Completion of college admission requirements.
- Completion of acceptance criteria as established by the Arizona Department of Health Services and Pima Community College.
- Class size is limited to 24 students by State of Arizona regulations.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

**See an advisor or counselor for important information concerning this course.

Program Identification Code: AOEENGINEERG

The engineering program presumes an aptitude for mathematical analysis and a strong high school background in pre-calculus mathematics and physics. Students with deficiencies in these areas should take appropriate prerequisite courses prior to beginning the engineering program. Since most of the courses in the program must be taken sequentially, it is important for the student to maintain contact with an advisor or counselor to assure a logical progression and to keep abreast of frequent program modifications resulting from technological developments.

The Associate of Science degree provides a solid foundation in mathematics and physical science with some beginning applications in the analysis and design of engineering systems. The student is directed, with the guidance of an advisor or counselor, toward a specific engineering discipline (i.e., electrical, computer, aerospace, mechanical, civil, etc.) through the selection of technical electives.

English and Creative Writing

A student planning on obtaining a degree with an option in English or Creative Writing should follow the Associate of Arts Degree for Transfer in Liberal Arts.

See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOALIBRALART

Environmental Technology

Environmental Technology is a rapidly expanding occupational field throughout the United States. Increasing populations, combined with more stringent state and federal environmental regulations, have created a rapidly growing need for trained environmental technicians. The Environmental Technology program includes both certificate and degree sequences designed to provide students with the necessary training to successfully compete in this growing field. Training opportunities in the program are being continually expanded as new environmental technology needs emerge. Cooperative education experiences are available to enhance student learning and later employability.

The certificate and degree programs listed below are offered through the academic Environmental Technology program on a credit basis. Those students interested in taking courses on a non-credit basis should contact the Arizona State Environmental Technology Training (ASETT) Center. The Center, which is the U.S. Environmental Protection Agency's designated state wastewater training center located on the East Campus, offers statewide education and training programs in all facets of Environmental Technology.

Students interested in transferring to a four-year institution should check with a Pima Community College counselor or advisor or with the transfer college or university for other pre-baccalaureate Environmental Technology programs.

Environmental Technology – Environmental Laboratory Analysis—Certificate for Direct Employment

*This course has a prerequisite, co-requisite, or recommendation. See course description section.

Program Identification Code: CRTFIRESICIEN

This program emphasizes professional firefighting skills related to the everyday demands of the profession, management of situations, and coping with change and challenge in the field. The program is designed for both professionals already serving as firefighters and as a preparatory program for those who seek firefighting as a career. It also prepares the student to move toward managerial and command positions.

This certificate provides the foundation for the Associate of Applied Science Degree in Fire Science.

This program transfers to ASU-East and is offered in Tucson as a Bachelor of Applied Science Degree in Fire Service Management.

Fire Science—Associate of Applied Science Degree for Direct Employment

Program Prerequisite 1: EMT 100

Program Prerequisite 2: Successful completion of a recognized firefighting academy, or completion of the following courses with a grade of C or better: FSC 149, 150, 151, 167

Program Identification

Fitness and Sport Sciences

Students desiring a career in physical education or exercise sciences should pursue the Associate of Arts Degree for Transfer in Liberal Arts Degree in this catalog. This degree provides the first two years of required studies which can be applied to a degree at a four-year college or university. In addition, the Fitness and Sport Sciences department offers preparation courses for students interested in a variety of fitness-related fields. Students should be aware that upward mobility in the fitness industry usually requires a degree with course emphasis in the field for advancement.

Completion of an Associate of Arts Degree for Transfer in Liberal Arts requires general education courses (AGEC) which strengthen basic skills and provide knowledge to succeed in work and life. The degree allows for approximately fifteen credits in the major area. Students who plan to pursue a major in Physical Education need to meet with a department advisor or counselor to plan their studies. It is highly recommended that students complete the following courses as the foundation of their transfer degree: FSS 279-Motor Development, FSS 286-Sports Officiating, FSS 288-History and Philosophy of Sports and Physical Education, and several credits from a variety of Processional Activity courses (FSS 208-232).

The FSS department requires that students meet the level of WRT 100-Writing Fundamentals, or WRT 106-Writing Fundamentals for International Students, before they enroll in the above FSS courses.

Students interested in becoming Fitness Professionals can be hired as employees or independent contractors, and wages vary with experience, certifications, and facility standards. While having a certificate or license is not required by law or regulated by the United States government, it is highly recommended for all Fitness Professionals, and is generally required for career advancement. A variety of courses offered by the FSS department will comprehensively prepare students academically and with hands-on training to successfully test with one or more of the national certification organizations. Courses offered by this department can also be used to fulfill professional development requirements for those already certified. Interested students need to contact a department advisor for more information and assistance with planning their studies.

Students interested in coaching can enroll in courses that provide national coaching certification with either the American Sport Education Program or the National Federation of Interscholastic Coaches Association. The certification is applicable to either individual or team sports.

The FSS department offers a large selection of courses ranging from individualized activities, such as aerobics, spinning, martial arts, weight training, racket sports, track and field, and swimming to team sports, such as basketball, volleyball, soccer, baseball, and softball. Specialized courses for senior conditioning are also available. Activity courses are listed in this catalog at the 100-level under the following prefixes: FSS-Fitness and Sport Sciences, FAR-Fitness and Recreation, and DNC-Dance.

Students are encouraged to participate in and enjoy the activity courses while a student at Pima Community College.

Fitness and Sport Sciences – Coaching—Certificate for Direct Employment

Program Identification Code: CRTCOACHING

This program prepares students for certification through the Arizona Department of Education to coach at the high school level in this state. The curriculum also prepares students for certification through the National Federation Interscholastic Coaches Education Program (NFICEP) and the American Sport Education Program (ASEP) supported by the Arizona Interscholastic Association. Recognized in neighboring states of California, Colorado, New Mexico, Nevada and Utah, the ASEP/NFICEP programs are currently accepted in a total of 34 states as the method of certifying coaches for employment.

Fitness Professional—Certificate for Direct Employment

Program Identification Code: CRTFITNESS

Successful completion of this program will prepare students for national certification exams and employment in the rapidly expanding fitness profession in varied business settings. Program competencies require that students have or concurrently attain skill proficiency levels of REA 112, MAT 086, and WRT 101. Students must show proof of CPR and First Aid Certification valid through the completion date of this program. After completion of a majority of the coursework, students will participate in two work related experiences: one at the Fitness and Conditioning Center and one in an approved club or agency in the greater Tucson area.

General Studies—Associate of General Studies Degree

A general studies program degree is for students who wish to pursue a uniquely designed associate degree. Courses may be chosen from a variety of subject areas to fit into a program of study arranged by the student and a faculty advisor or counselor. An associate of general studies degree will be granted when at least 60 credit hours of study at the 100 level or higher are completed given the fulfillment of the college reading requirement and the fulfillment of the college general education requirements. (See requirements under the General Education section.) Please see an advisor or counselor.

If the goal of the student is to transfer to a four-year institution, the student may have to complete additional freshman and sophomore level courses beyond the general studies degree program in order to become a junior at the four-year institution. The student who does have a fairly clear transfer goal may be better served by a specific associate degree listed within this catalog. An additional option for transfer students who have not determined a major/career is the Liberal Arts and Sciences degree program in this catalog. Please see an advisor or counselor.

If the goal of the student is direct employment, the general studies degree program may be used for exploration. The student may have to complete additional courses in the occupational area necessary for employment and advancement. Please see an advisor or counselor.

Program Identification Code: AGSGENRSTUDY

History

A student planning on obtaining a degree with an option in History should follow the Associate of Arts Degree for Transfer in Liberal Arts. See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOALIBRALART

Hospitality/Tourism

This program area prepares students for service in the broad-based hospitality/tourism industry. Tucson's rapid growth affords many opportunities within this industry which encompasses hotels, motels, clubs, food and beverage establishments, and tourist services. Career opportunities are excellent as nearly one out of every six jobs in Arizona is related to the hospitality industry.

The program options are designed to prepare students to enter the hospitality/tourism work force and/or to update people already employed in the industry. The program options include an Associate of Arts Degree for Transfer, Recreation and Tourism Management-Associate of Arts Degree for Transfer and Associate of Applied Science Degrees in Hospitality Management, Travel Industry Operations, and Culinary Arts. The Hospitality Management Degree offers seven specialty areas from which the student may choose one of the following options: Housekeeping Management, Hotel/Resort Management, Food and Beverage Management, Sales and Convention Service Management, Accounting Management, Human Resources Management, and Language Specialty. Faculty advisors or counselors in the program area are located at the Community Campus.

Hospitality—Associate of Arts Degree for Transfer

Entrance Requirements:

Entrance requirements for the Associate of Arts Degree for Transfer are REA 112, WRT 100 or assessment at WRT 101, MAT 122 or assessment at MAT 151, and STU 101.

Program Identification Code: AOADESIGN

The Associate of Arts Degree for Transfer is designed to articulate with Northern Arizona University's Interior Design program in the School of Performing Arts. The completion of the Associate of Arts Degree for Transfer in Interior Design provides applicable credits towards Northern Arizona University's Bachelor of Science Degree in Interior Design. Also the Associate of Arts Degree from Pima Community College, by containing the AGECE-A, fulfills the lower-division liberal studies requirements for Northern Arizona University.

International Business Studies—Associate of Applied Science Degree for Direct Employment

This degree program covers the following areas: language training, cross-cultural training for the business and/or social environment, training for living in a foreign country, culture shock training, training to develop skills in handling everyday transactions of international trade and training for hosting foreign business personnel. In addition the degree encompasses business course offerings and general education requirements.

Courses in these programs are structured to accommodate content for any country or geographic region. The acculturation portion of the program should be taken by family members of employees anticipating a foreign assignment. For transcript purposes, each IBS course will show the actual foreign country or region studied.

Program Identification Code: AASINTLBUSIN

This program area is designed to meet the needs of business and industry by providing education and training with the following emphases: (1) preparing the student for employment in an international setting, (2) upgrading the skills of students currently employed in a company with international operations and (3) preparing the student for a foreign assignment.

Program Identification Code: AAINTPTRAIN

This curriculum provides theoretical academic, and technical training to those students desiring to pursue a degree in interpreting for the Deaf. The program includes classroom lecture, laboratory skills, and field experience in the community.

Journalism and Media Publishing

(Formerly Media Communications)

Print and Electronic Journalism—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASPRNTMEDIA

This program is designed to prepare students for employment as desktop publishers, graphic designers and artists, newspaper paste-up and layout persons, reporters, freelance writers, small publication editors and journalism advisors or counselors, copy editors, visual journalists and print design specialists. Cooperative education opportunities are available on small publications, daily and weekly newspapers, magazines on-line, and specialty publications. Students must complete at least six credit hours of media communications courses before being placed at work sites. Students may also work on the Aztec Press, the student-produced newspaper, in the areas mentioned above. They may also express their creativity through editorials, cartoons, feature stories and photography. Helpful qualifications for success in this field are good writing and communication skills and an interest in art, design, layout, computers, reporting, editing and visual journalism.

Journalism—Associate of Arts Degree for Transfer

A student planning on obtaining a journalism degree should follow the Associate of Arts Degree for Transfer. The program is designed to prepare students to transfer to a four-year college or university program in journalism. Those interested in reporting should have a well-rounded background with emphasis on interviewing, writing, and storytelling skills. Typing and familiarity with word processing are also necessary. Photojournalism is an option for students who have basic dark room skills and who are interested in black-and-white and color photography. Those interested in publication production should have a background in art, design, graphics, and computers.

Verification of transfer courses should be established with the transfer university or college or a Pima Community College counselor or faculty advisor. For additional information on Associate of Arts Degree for Transfer and Associate of Science Degree transferability to regional universities, please refer to the chart in the front of this section.

Students must have completed the Law Enforcement Certificate to be admitted into this program.

This AAS transfers to the Bachelor of Applied Science degree program in Justice Systems and Policy Planning at NAU-Tucson.

Legal Assistant (Paralegal)

This program is approved by the American Bar Association and is designed to prepare students for entry-level paraprofessional positions in the legal field. The American Bar Association states that the terms legal assistant and paralegal are used interchangeably. A legal assistant or paralegal is a person, qualified by education, training or work experience who is employed or retained by a lawyer, law office, corporation, governmental agency or other entity and who performs specifically delegated substantive legal work for which a lawyer is responsible.

Legal Assistants (Paralegals) may not give legal advice or otherwise engage in the unauthorized practice of law.

Legal assistant work includes developing and modifying procedures used in the legal field, preparing and interpreting legal documents, preparation of a case for trial, investigation of the facts of a case, researching, selecting, assessing, compiling, and using information from the law library and other references, and analyzing and handling procedural problems.

Legal assistants may be employed by law firms, businesses, financial institutions, title and escrow companies, or government agencies. Additional positions for which they may qualify include title examiner, trust officer, contract clerk, legal investigator, and law firm administrator. An internship at an approved work site is available during the last semester of course work for students who have not had previous work experience in the legal field.

Students should also have a minimum reading capability at the twelfth-grade level in order to ensure success in the program. In addition, good organizational ability, oral and written communication skills, and ability to relate well to people are important for success in this field.

Legal Assistant Program Objectives

To prepare students with employment entry-level practical skills and knowledge for the legal assistant field, the program offers a series of courses which gives students the ability to:

1. Describe the role and responsibilities of a legal assistant within a law office and the court system.
2. Demonstrate knowledge of the law library, research skills and methods and the ability to write research memoranda and reports using proper citation form for legal sources.
3. Demonstrate knowledge of professional ethics as applied to the practice of law and the legal assistant.
4. Demonstrate the legal assistant's role during litigation and trial and the ability to prepare motions, pleading, instruments of discovery, notetaking, and daily trial recapitulation.
5. Apply legal problem solving techniques and the principles of abstract, inductive and deductive reasoning to case law and factual situations.

Program Options:

There are two programs available from which a student may choose one. The advanced certificate carries an admissions requirement of a Baccalaureate or Associate of Arts Degree from an accredited post-secondary institution. The Associate of Applied Science Degree carries an admissions requirement of a high school diploma or the student must have passed an equivalency examination in order to register for LAS 103, 104, 106, 202, and 211.

LAS advisors are available on the Downtown Campus only.

Analysis and Critical Thinking Requirement	3 credits
Mathematics Category	

The Mathematics competency requirement must be met by assessment or course work.
Any MAT course at the 100 level or higher (except MAT 108).

Science Category

AST 101/101LB, 102/102LB, BIO 100IN or higher (except 198, 297, 298), CHM 100 or higher (except 196, 198, 297), GEO 101, 102, GLG 101IN, 102IN, PHY 115/115LB, PHY 121/121LB, PHY 122/122LB, 210/210LB, 216/216LB, 221/221LB

Critical Thinking Category

PHI 120

*This course has a prerequisite, co-requisite, or recommendation. See course description section.

†Core or support course(s) fulfill this requirement.

Machine Tool Technology

This program area is designed to provide the skills, knowledge, and practice needed for employment as a machinist. Depending upon their qualifications, students may find positions in the local job market as machine operators, conventional machinists, CNC machinists, CNC programmers, mechanical inspectors or machinist apprentices.

Three program options are available: Conventional Machinist certificate and Computer Numerical Control (CNC) Machinist certificate, and the Associate of Applied Science Degree in Machine Tool Technology.

Machine tool training includes a broad range of techniques used in metals manufacturing in addition to support courses in manufacturing processes, metallurgy, math, drafting, and computer aided machining. Such a background can provide a base from which students may pursue a baccalaureate degree in manufacturing engineering technology or mechanical engineering. Students interested in obtaining the higher degree should contact the college or university of their choice to determine transfer requirements.

Good mechanical aptitude and good basic skills in reading, writing, and mathematics are important for success in this program. It is suggested that all students confer with a machine tool advisor or counselor on the Downtown Campus before registering.

Computer Numerical Control (CNC) Machinist—Certificate for Direct Employment

Entrance Requirement

MAC 100 or a score of 80% or better on a machine tool assessment test.

General Education Requirements - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Communication Requirement3
See General Education section, page 55.

Analysis and Critical Thinking Requirement†
GTM 105 fulfills this requirement.

Mathematics

Associate of Arts Degree for Transfer in Liberal Arts

A student planning on obtaining a mathematics degree should follow the Associate of Arts Degree for Transfer in Liberal Arts. A student seeking a degree must take the math, writing, and reading assessment exams. The student should then meet with a mathematics faculty advisor to plan courses. The student who plans on transferring to an upper division school to complete his/her degree should also contact an advisor or counselor from their chosen school for verification of transfer courses.

Program Identification Code: AOSSCIENCE

Music—Associate of Arts Degree for Transfer

Program Identification Code: AOAMUSIC

This program is designed to prepare students to become musical performers, composers, conductors, teachers, researchers or program directors. Employment opportunities exist in such places as schools, church and community organizations, music publication, band and orchestras. Students receive instruction to develop aural, composing, ensemble and solo skills in all areas of music. Cooperative education opportunities include performance for art galleries, a musical theater, a pep band, etc. The program is adaptable for part-time as well as full-time attendance and emphasizes close contact between teachers and students through small classes and individual attention. Faculty members are all active professional performers. For success in this program, it is important to have some background in music and to possess reading and listening skills, knowledge of repertoire, and self-discipline. Program advisor or counselors are available on the West Campus.

Nursing

Overview

Pima Community College offers a variety of educational alternatives for students who seek to enter the nursing field. These alternatives are included in a program that prepares graduates to function in the role of Registered Nurse, Licensed Practical Nurse, Patient Care Technician, or Nursing Assistant level.

Upon successful completion of a specified portion or all of the program, the graduate is eligible to take the required registry and licensure examination.

The Associate Degree Nursing Program can be completed only at the West Campus. An Associate of Applied Science Degree for Direct Employment can be granted to the student who successfully completes two years or four semesters of the Associate Degree Nursing Program.

The Practical Nursing Program can be completed at the West Campus or the Center for Training and Development. The Practical Nurse Program at the Center for Training and Development does not provide college credit.

Associate Degree Nursing—Associate of Applied Science Degree for Direct Employment

This program is approved by the Arizona State Board of Nursing and accredited by the National League of Nursing Accrediting Commission (NLNAC), 61 Broadway, New York, NY 10006, Tel: 212-363-5555 x153. Students satisfactorily completing this curriculum will graduate with an Associate of Applied Science degree in nursing. Graduates of this program will be eligible to take the National Council Licensure Examination (NCLEX-RN) to qualify for licensure as a registered nurse.

Admission or graduation from the program does not guarantee obtaining a license or certificate to practice nursing. Licensure and certification requirements and the subsequent procedures are the exclusive right and responsibility of the Arizona State Board of Nursing. Students must satisfy the requirements of the Nurse Practice Act Statutes, Rules and Regulations (August 1998) independently of any college or school requirements for graduation.

If convicted of a felony, an applicant for licensure/certification must submit proof that they have completed any sentence including imprisonment, probation, parole, community supervision or any form of court supervision. The Arizona Nurse Practice Act (Sections 32-1601; 32-1632; 32-1637) states "If convicted of one or more felonies, has received an absolute discharge from the sentences for all felony convictions five or more years prior to the date of filing an application." Examples of situations which may prohibit licensure and certification include, but are not limited to, felony/misdemeanor convictions, substance abuse, conviction of an offense involving immoral behavior, or being guilty of acts which deceive, defraud or harm the public in any way. Fingerprinting will be part of the application process for nursing assistant, LPN and RN applicants.

Program graduates may transfer to other colleges and universities for continued education at the baccalaureate level. Articulation agreements are currently in place with the University of Arizona and the University of Phoenix.

A certificate for direct employment as a practical nurse can be granted to the student who successfully completes the first year of the Associate Degree Nursing Program and the NRS 180 course. The student will be eligible to take the National Council Licensure Examination (NCLEX-PN) for licensure as a Practical Nurse (LPN).

A Nursing Assistant certificate can be granted to the student who successfully completes the first semester of the Associate Degree Nursing Program.

Students opting to leave the nursing program at the end of the first semester, or at the end of the first year, may reenter the second or third semester without need for further course work, if they reenter within one (1) year as based on space availability.

The Practical Nurse graduate from the Center for Training and Development and the Licensed Practical Nurse from the Tucson community are eligible to apply for entry into the second year of the Associate Degree Nursing (ADN) Program by completing the prerequisite requirements. If accepted, the student must successfully complete a three credit transition course (NRS 188/188LB) and meet all acceptance requirements for admission into the third semester of the Associate Degree Nursing (ADN) Program.

Students currently enrolled in accredited ADN Nursing Program out of state may apply to transfer into the second or third semester of the nursing program. Interested students should contact the HRP admissions office. Admission is dependent on evaluation of general education and nursing education course work as well as seat availability.

Interested applicants should contact the Nursing Department for specific information.

Admission to the ADN program requires a separate application procedure.

Students are encouraged to meet with an advisor or counselor.

Students seeking admission to the Associate Degree Nursing program must have either completed or be currently enrolled during the Fall semester in the following basic requirements before receiving an application:

- High school diploma or GED
- Admission to Pima Community College
- Compass reading assessment test score of 90 , or completion of REA 112
- Math assessment test at the level of MAT 151 or higher, or completion of MAT 122
- Chemistry placement test score to place into General Chemistry or higher, or completion of CHM 130/130LB with a grade of C or better within the last 8 years
- BIO 201IN with grade of C or better within the last 8 years
- BIO 202IN with grade of C or better within the last 8 years

Associate Degree Nursing—Associate of Applied Science Degree for Direct Employment (cont.)

In addition, it is essential that nursing students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavioral under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.

General Program Requirements

- Total required credits: 72-74 credit hours
- ADN course work: 36 credit hours
- General Education courses: 36-38 credit hours

Restrictions

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program department chairperson.
- Prerequisite, support and general education courses taken at other accredited colleges or universities will be evaluated for transfer by the college transcript evaluation department.

Minimal Grade Achievements

- Students must receive a C grade or better in all courses to progress to the next semester or to graduate.

The Associate Degree Nursing (ADN) Program prepares the student to enter nursing practice as a registered nurse.

This program provides the basic health care skills students can use as pharmacy technicians. Pharmacy technicians can find employment in hospitals (private and government), nursing care facilities, private and chain drug stores, drug manufacturers, wholesale drughouses and health maintenance organizations. Program graduates are prepared to assist the pharmacist in the packaging and distribution of medication. The technical certificate student will have knowledge of the professional, technical skills necessary for direct employment as a pharmacy technician. Both the certificate and degree students will have spent considerable time in laboratory and clinical training.

Pharmacy Technology—Associate of Applied Science Degree for Direct Employment

‡AGEC requires 35 credits. This subtotal shows the AGECE credits not fulfilled by core, support, or second language courses.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Program Identification Code: AOAPOLITLSCI

The political science program is designed to prepare students for transfer to a political science program at a four-year institution. Following a four-year degree students may also pursue graduate degrees in law, international business communications, political science, public administration, and management. Although it is not intended for direct employment, the political science Associate of Arts Degree for Transfer may be recognized by some employers for entry-level positions.

Pre-Agriculture

Students interested in the area of Agriculture should follow the Associate of Arts Degree for Transfer in Liberal Arts and consult the catalog of the school to which they plan to apply. Students should also see the pre-agriculture advisor or counselor at the school they plan to attend.

Program Identification Code: AOALIBRALART

Pre-Architecture

This Pre-Architecture Certificate is a minimum of 37 credits that will provide you with an AGEC-A certificate. The student will have completed lower-division general education for the Bachelor of Architecture and the first year, the pre-architecture year, of the five-year program. The certificate will require, for most students, three semesters at Pima Community College including a semester in which the student is co-enrolled at Pima Community College and the University of Arizona.

Many students find it advantageous to co-enroll at the University of Arizona in the spring semester prior to transfer to complete the three pre-architecture courses that are not offered at Pima Community College. The three University of Arizona courses, ARCH 112, 114, and 118, are not required to complete this certificate but are required to begin the first year (second year of the five-year program) of the professional program of the Bachelor of Architecture. ARCH 112, 114, and 118 can be completed during the same semester at the University of Arizona. If a student does not co-enroll and does not complete ARCH 112, 114, and 118 while at Pima Community College, the student will have complete the courses after transferring to the University of Arizona and the Bachelor of Architecture program will be more than a five-year program.

Pre-Architecture—Certificate for Transfer

Program Identification

Code: CRTPREARCHIT

This is a program designed to prepare students to transfer into the Bachelor of Architecture in College of Architecture at the University of Arizona. The Bachelor of Architecture is a five-year program—one pre-architecture year and four in the professional program. If a student needs to complete prerequisite courses, the program may require more than five years to complete. Admission into the College of Architecture is competitive and occurs once each year in June for entry into the fall semester. Students interested in this program should see a University of Arizona College of Architecture advisor.

Total credits as displayed.....37

†Core or support course(s) fulfill this requirement.

‡AGEC requires 35 credits. This subtotal shows the AGEC credits not fulfilled by core, support, or second language courses.

Pre-Dental

Students interested in the area of Dentistry should follow the Associate of Science Degree for Transfer and consult the catalog of the school to which they plan to apply. Students should also see the pre-dental advisor or counselor at the school they plan to attend.

Program Identification Code: AOSSCIENCE

Pre-Law

Students interested in the area of Law should follow the Liberal Arts Associate of Arts Degree for Transfer in Liberal Arts and consult the catalog of the school to which they plan to apply. Students should also see the pre-law advisor or counselor at the school they plan to attend.

Program Identification Code: AOALIBRALART

Pre-Medical

Students interested in the area of Medicine should follow the Associate of Science Degree for Transfer and consult the catalog of the school to which they plan to apply. Students should also see the pre-medical advisor or counselor at the school they plan to attend.

Program Identification Code: AOSSCIENCE

Pre-Pharmacy

Students interested in the area of Pharmacy should follow the Associate of Science Degree for Transfer and consult the catalog of the school to which they plan to apply. Students should also see the pre-pharmacy advisor or counselor at the school they plan to attend.

Program Identification Code: AOSSCIENCE

Pre-Veterinary

Students interested in the area of Veterinary Medicine should follow the Associate of Science Degree for Transfer and consult the catalog of the school to which they plan to apply. Students should also see the pre-medical advisor or counselor at the school they plan to attend.

Program Identification Code: AOLIBRALART

Psychology

A student planning on obtaining a degree in Psychology should follow the Associate of Arts Degree for Transfer in Liberal Arts. See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOALIBRALART

Public Administration

The Public Administration Degree program for transfer prepares students for a university Bachelor's degree program in Public Administration. Public Administration includes the following major fields of interest: Public Management, Health Services Administration, Criminal Justice Administration and Human Services Administration. Students interested in the latter two fields should consult administration of justice and social services faculty advisor or counselors. Pre-law students are encouraged to major in public administration. Skill development in human relations, statistics, decision-making and policy analysis is emphasized throughout the program.

This program has been primarily designed for transfer to the University of Arizona; however, this degree will apply to Public Administration at all other state universities, including Arizona State University, Northern Arizona University, and the University of Phoenix. Those wishing to transfer to the Business and Public Administration College at the University of Arizona should place heavy emphasis on mathematics. Verification of transfer courses should be established with the transfer university and college. For additional information on Associate of Arts Degree for Transfer and Associate of Science Degree transferability to regional universities, please refer to the chart in the front of this section. Students should check with program advisor or counselors located on the West Campus for further information.

New students are required to take the math assessment test which is administered during registration. The prerequisite for MAT 172 and 212 is MAT 151 or satisfactory score on mathematics assessment.

Associate of Business Administration (ABUS) Degree for Transfer

Program Identification Code: AOBPUBLADMIN

The public administration degree program for transfer prepares students for a university Bachelor's degree program in public administration.

This degree fulfills lower-division general education and major requirements for the Bachelor of Science degree in Public Administration at the University of Arizona and in Business Administration at University of Phoenix, Arizona State University, Northern Arizona University, and the University of Arizona. It may also transfer into public administration or business programs at other universities. See your business advisor or counselor.

Public Safety and Emergency Services Institute

The purpose of the Public Safety and Emergency Services Institute is to provide training and educational opportunities and resources to several career areas including Administration of Justice, Law Enforcement, Emergency Medical Technician, Fire Science and Public Safety Communications. We offer convenient, flexible and immediately useful programs to professionals who seek advancement in their careers as well as courses for the general public. In addition, the Law Enforcement Associate of Applied Science Degree is designed to transfer to NAU's Bachelor of Applied Science Degree in Justice Systems and Policy Planning, and the Fire Science Associate of Applied Science Degree to ASU's East Campus, Bachelor of Applied Science Degree in Fire Service Management. Both ASU (East Campus) and NAU's programs are offered in Tucson.

Educational opportunities at the Institute reflect contemporary issues, current techniques and technology used in public safety and emergency services. Our programs and services focus on the safety and well being of Southern Arizona and the greater community.

The training and education we offer can give your employees new and improved skills, insight and understanding, and opportunities to learn how to meet a changing agency's environment. We also provide all the academic support services they need: academic advising, computer labs, and information resources.

When your commissioned and non-commissioned employees enroll in courses which are a part of the Institute, your agency gains professionals who have a greater range of skills, and who have the education to meet the expanding role of your agency. The Institute provides a source for management education and leadership development plus targeted opportunities for professional development.

Our partnerships with public safety agencies are based on mutual respect, mutual trust and mutual benefit. We work together to make effective use of the talent, facilities and resources possessed by each partner.

See the following programs: Administration of Justice, Emergency Medical Technology, Fire Science, Corrections (See contractual), Law Enforcement Related Instruction, Juvenile Corrections (See contractual), and Public Safety Communications. Also see courses in Community Development (CDE).

Radiologic Technology

Students seeking admission to the Radiologic Technology program must have either completed or be currently enrolled during the Fall semester in the following basic requirements before receiving an application:

- High School diploma or GED
- Admission to Pima Community College
- Reading assessment test score at the level of, or completion of REA 112
- Math assessment test at the level of MAT 151 or higher, or completion of MAT 122 with a grade of C or higher
- BIO 201IN within the last eight years
- BIO 202IN within the last eight years

General Requirements

- Total required credits: 65-67 credit hours
- RAD coursework: 52 credit hours
- Other coursework including General Education courses: 13-15 credit hours

Restrictions

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program director.

Minimal Grade Achievement

- Students must receive a grade of C or better in all core courses to progress to the next semester.

Associate of Applied Science Degree for Direct Employment

Radiologic technology is a health sciences program that prepares the student for a career in diagnostic medical imaging. The Associate of Applied Science Degree program enables students to become certified radiologic technologists after successfully completing the medical radiography examination of the American Registry of Radiologic Technologists. The certified technologist has several career alternatives: direct employment in hospitals, clinics and private doctors' offices or, with additional training, specialization in other medical imaging modalities or radiation therapy. Graduates may transfer to a university that offers a Bachelor of Science degree program in the field.

Admission to the Radiologic Technology program requires a separate application procedure.

Students are encouraged to meet with a radiologic technology program advisor or counselor.

Real Estate

The real estate program is designed to fulfill industry needs in the Tucson area. There are two options in real estate sales/brokerage: a certificate and a two-year Associate of Applied Science Degree for Direct Employment.

Real Estate Sales/Brokerage

This real estate option is designed to prepare persons to handle the sales of private residences, apartment buildings, industrial and commercial property and unimproved land. Students also are trained in finance, appraising, communications, and small business management. Training in real estate is offered through a one-semester basic certificate and through a two-year Associate of Applied Science degree program.

Program Identification Code: CRTREALESTAT

The certificate program, intended for the selling agent, qualifies students to take the state licensing exam. The State requires candidates for the sales license to have six credit hours (ninety clock hours) of real estate education which can be met by taking RLS 105, or RLS 101 and RLS 202.

This certificate provides the foundation for the Associate of Applied Science Degree in Real Estate Sales/Brokerage.

Real Estate Sales/Brokerage—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASREALESTAT

The two-year program provides for additional growth, development and specialization in the real estate field. The real estate degree and certificate programs are job oriented. Persons interested in a four-year degree should follow the first two-year course requirements of the university they plan to attend.

Recreation and Tourism Management—Associate of Arts Degree for Transfer

Recreation specialty provides a broad understanding of opportunities within recreation departments, with an emphasis on the value of field-based learning. Tourism specialty provides an understanding of opportunities within the travel and tourism field. Recreation is the second-largest industry in the United States. Employment opportunities include, but are not limited to, the following areas: city, county, district and state park and recreation departments; hospitals, nonprofit community-based agencies; commercial recreation agencies; resort and tourist agencies; youth, teen, adult and senior citizens recreation; outdoor programs; fitness facilities; private membership clubs and camps.

Students entering the Recreation specialty area must possess a CPR certification, courses for this requirement are available at Pima Community College. See a recreation advisor.

There are two specialty areas within this degree: Recreation and Tourism. This program is designed to transfer into Recreation and Tourism Management at Arizona State University-West. It may transfer to other universities as well. See a recreation or tourism advisor.

Reserve Officers Training Corps (ROTC)

ROTC is offered to students at Pima Community College (PCC) by the three military departments, Military Aerospace Studies (Air Force), Military Science (Army), and Naval Science (Navy), at the University of Arizona. Although students enroll in their ROTC classes at Pima, classes are held on the University of Arizona campus. Students are under no military obligation during their first two years in the program. Interested students are encouraged to contact the appropriate military department prior to enrolling in classes.

Upon entering one of the three programs as a cadet or midshipman, ROTC will provide the student with the necessary course materials and uniforms. These items remain the property of ROTC and must be returned when leaving, or graduating from the program.

Students who complete the first two years of the program at PCC and continue their ROTC training at a four-year institution may receive tax-free subsistence pay of \$100 per month during their junior and senior years at four-year colleges. For further information, students need to contact the ROTC at the University of Arizona.

Respiratory Therapist Program

Respiratory care is a allied health specialty which deals with the assessment, treatment, management and care of patients with deficiencies and abnormalities associated with respiration and circulation. The Respiratory Therapist program trains students in the therapeutic use of medical gases and their administering devices, environmental control, humidity and aerosol therapy, inhaled medications, chest physiotherapy, airway management, mechanical ventilator management, rehabilitation, home care, and cardiopulmonary resuscitation. Students also learn a variety of techniques used in the diagnosis, monitoring and assessment of patients with cardiopulmonary disorders. Following a physician's orders, respiratory care personnel must work closely with other members of the health care team including physicians, nurses, rehabilitation therapists and other health technologists.

Following completion of this Council on Accreditation of Allied Health Programs (CAAHEP) approved program, the graduate is qualified for immediate employment and for application to the National Board for Respiratory Care (NBRC) for the entry-level certification exam to attain the status of a certified respiratory therapy technician (CRTT) required for state licensure in the state of Arizona. He or she may also apply for entry into a baccalaureate program. Upon successful completion of the entry-level examination the graduate is then eligible for the advanced practitioner examinations offered through the NBRC to attain the status of a Registered Respiratory Therapist (RRT). The respiratory therapist usually works in hospitals, special-care facilities, long-term care facilities, home care or rehabilitation. Employment also exists within commercial companies in sales or within contract service agencies. The registered therapist may choose to work strictly as a clinician or in other areas such as management, medical research or education in the hospital, college or university setting.

Admission to the Respiratory Therapist program requires a separate application procedure.

Students are encouraged to meet with an advisor or counselor.

Students seeking admission to the Respiratory Therapist program must have completed the following basic requirements before receiving an application:

- High School Diploma or GED
- Admission to Pima Community College
- Reading assessment test score at the level of, or completion of REA 112
- MAT 122 with a grade of C or better
- BIO 160IN with a grade of C or better
- CHM 130/130LB with a grade of C or better
- WRT 101 with a grade of C or better

General Requirements

- Total required credits: 68-70 credit hours
- RTH coursework: 54 credit hours
- Other courses including General Education courses: 14-16 credit hours

Restrictions

- Correspondence and extension study from an accredited institution is limited and subject to approval by the program coordinator and department chairperson.

Minimal Grade Achievement

- Students must receive a grade of C or better in all core courses to progress to the next semester.

Respiratory Care—Associate of Applied Science Degree for Direct Employment

The Respiratory Therapist program gives the theory and practice to prepare students for jobs as respiratory therapists. It also prepares the student for transfer into four-year programs.

The Associate degree program consists of five semesters of professional (RTH) and support courses. Students, who are accepted into the program and complete all required courses will be scheduled to enter the hospital portion of their program beginning with the second semester. Graduates of the Respiratory Therapist program will receive an Associate of Applied Science Degree in respiratory care.

Social Services

There are two degree programs available: a two-year Associate of Applied Science (AAS) for direct employment and a two-year Associate of Arts Degree for Transfer (AA) to a university. Students are strongly recommended to see a Social Service faculty advisor or counselor and obtain a transfer guide if they plan to transfer to a four-year college or university.

The Social Service Associate degree programs develop skills and knowledge for working with clients, conducting interviews, collecting data, making home visits, working as a team member, determining treatment actions, performing outreach and advocacy and acting as a link between the professional care giver and the client. In addition, the skill/knowledge base includes identification of community resources, recognizing power bases in the community, application of models for social change and utilization of resources in serving clients.

The substance abuse specialty degrees add a skill and knowledge base which emphasizes treatment modes, including the physiological and psychological effects of drugs and alcohol, current legislation and legal aspects of the drug situation, case management and other topics important to substance abuse rehabilitation.

The gerontology specialty degrees add a skill and knowledge base which emphasizes the special needs the elderly present in social service settings, social issues created by an aging population, special health problems of the elderly and treatment alternatives in the field of gerontology.

The youth services specialty degrees add a skill and knowledge base which emphasizes the normal development needs of children and adolescents, the causes and consequences of delinquency, dependency, and other problems unique to youth, the special care and treatment needs of youth in out-of-home placements (foster care, group homes, shelters, residential treatment, detention facilities, etc.), and the need to mobilize community resources to support youth in healthy communities and prevent delinquency, dependency, teen pregnancy, substance addiction, teenage suicide, HIV/AIDS, youth gangs, and other problems of youth.

In addition to the Associate degree programs, four certificates are offered, which are designed as a second major for students in other Associate degree programs or as skill building for those individuals who are already employed in industry, business and human services. While this course work is not necessarily intended to qualify individuals for employment, as does the Associate degree, it will enhance understanding of social welfare, substance abuse, eating disorders, and domestic violence issues. Those interested in pursuing one of these certificates are encouraged to consider an associate degree appropriate to their interests.

The certificate in Social Services provides core skills for and understanding of social welfare, agencies, groups and those in need on a one-to-one basis.

The certificate in substance abuse provides core understanding of drug and alcohol use, abuse, treatment modalities and political/legal aspects of substance abuse in society.

The certificate in domestic violence intervention provides core understanding of the causes and cures of domestic violence, crisis intervention and alternative treatment methods to this problem which crosses racial, economic and social boundaries.

The certificate in eating disorders provides core understanding of the symptoms, causes, and treatment modalities of this problem in both youth and adults.

Those seeking an Associate degree must fulfill minimum general education requirements set by Pima Community College to graduate. A grade of "D" in a core course or in the SSE elective requirement will not fulfill graduation requirements for an Associate degree or certificate in Social Services. Students applying for graduation in an Associate degree program must demonstrate competency in reading.

The Social Services Field Experience (SSE 190) is required for those seeking the Associate of Applied Science degree in Social Services or the Social Services Substance Abuse Specialty. SSE 191, Field Placement Gerontology I, and SSE 291, Field Placement Gerontology II, are required for those seeking the Social Services Gerontology Specialty Associate of Applied Science degree. The Associate of Arts Degree for Transfer in the Social Services Gerontology Specialty requires completing only SSE 191, Field Placement Gerontology I. In these courses, the student performs a minimum of 240 hours of supervised work in a helping setting relevant to his/her career interests. While it is highly recommended for all students in Social Services, it is not required for those seeking a certificate or an Associate of Arts Degree for Transfer.

Students who plan to transfer to a four-year college or university can meet the first and second year general education requirements at Pima Community College but must check the requirements of the school they plan to attend. All Social Services majors are strongly urged to talk with a Social Services faculty advisor or counselor about the best way to schedule classes.

Social Services—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASSOCIALSRV

The Social Services program prepares students for employment in many community service agencies and lays the foundation for continuing education in the helping professions. The skill and knowledge base will qualify the student for entry-level employment in mental health, substance abuse treatment, domestic violence intervention, gerontology, eating disorders, child care, retardation counseling, welfare delivery, community outreach, client advocacy and other service oriented positions.

Speech

Program Identification Code: CRTHEALTHADV

The Community Health Advisor certificate provides training in health promotion and disease prevention education services. The curriculum prepares students for community assessments and case findings, health advocacy, and provision of one-to-one basic direct services for families and clients in their homes and other neighborhood settings.

Sociology—Associate of Arts Degree for Transfer

Program Identification Code: AOASOCIOLOGY

The Associate of Arts Degree for Transfer in Sociology prepares the student to transfer to a four-year college or university and pursue a degree in sociology. After successfully completing this program students should be eligible to take upper division classes at a four-year institution. Students should consult the catalog for the institution to which they plan to transfer in order to establish the graduation and sociology major requirements and determine the transferability of Pima College courses.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Spanish

A student planning on obtaining a degree with an option in Spanish should follow the Associate of Arts Degree for Transfer in Liberal Arts.

See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: AOALIBRALART

Speech Communication—Associate of Arts Degree for Transfer

Students in this program may also improve their communication skills by participating in forensic activities such as speaking before community audiences and competing in inter-collegiate speech tournaments. Through such activities, students may develop skills in debating; in persuasive, informative, extemporaneous and impromptu speaking; and in oral interpretation of literature and readers' theater. All students are welcome to participate in these activities regardless of previous speaking experience. Students are encouraged to take forensics during their first semester of study.

Students who plan to transfer to four-year institutions will find the speech communication program includes courses generally required of a major in the first four semesters of study. However, they should check the specific requirements of the institutions to which they plan to transfer.

All electives must be selected with the concurrence of a speech communication program advisor or counselor. Students should note that Voice and Diction is offered in the Fall Semester and Oral Interpretation of Literature is offered in the Spring Semester.

¥AGEC requires 35 credits. This subtotal shows the AGECE credits not fulfilled by core, support, or second language courses.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Program Identification Code: AOASPEECHCOM

The speech communication area offers an Associate of Arts Degree for Transfer which helps prepare students for careers requiring extensive interaction with the public: business, law, education, politics, public relations, sales, and theology. The program develops and improves skills in public address, interpersonal communication and group communication in social and career settings.

Technology – Electronic and Optical Systems Technologies

The following programs offer many opportunities for students seeking employment in the developing fields associated with emerging high-technology industries. Almost fifty percent of the courses (core courses) are common to each program. The common core helps the student who wishes to change from one specialty to another or to attain degrees in two or more specialties.

The Pima Community College Technology program (TEC) contains four certificates and six Associate of Applied Science (A.A.S.) degree programs for direct employment. The certificate programs are arranged so that the student wishing to continue for the Associate of Applied Science degree in one or more of the specialties can do so easily, requiring a minimum of additional courses.

In alignment with documented advice from employers, the Technology curriculum puts great emphasis on technical communications, testing and measurement, proper use of tools, statistical quality and experimentation, team problem solving, safety, reliability, general principles of technology, and the basic sciences that are appropriate for the specialty. Specialties include courses on electricity, electronics, electro-mechanics, electronic communications, optoelectronics and special manufacturing processes as needed. Mathematics (essentially without calculus) is applied throughout the program.

Students should plan to take assessment tests in reading, writing, mathematics, and technology prior to registering for these courses.

Technology—Certificate for Direct Employment

Program Identification

Code:

CRTTECHNOLOGY

This program provides the common core plus one electronic telecommunications course of the Technology curriculum.

Thus, the student wishing to continue for the Associate of Applied Science degree in any of the technology specialties may do so with ease. This certificate will help prepare the student for limited entry-level positions in a number of areas including electronic telecommunications, microcomputer technology, semiconductor manufacturing, systems networking, and electronics.

Program Identification Code: AASTECSEMCON

This program enables the student to prepare for employment in microchip fabrication and electronics industries. It contains the common core of the Technology curriculum and adds courses on optics, vacuum systems, fluidic devices and automated systems, power RF, semiconductor manufacturing processes. Students are encouraged to enroll in TEC 290 during their last semester in addition to courses listed in this program.

Electronics Technology—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASTECELECTR

This program enables the student to prepare for employment in general electronics. Containing the common core courses of the Technology Curriculum, it allows the student to attain competencies along a broad range of topics including basic electricity, digital and analog devices and circuits, electronic communications, electronics construction and measurement, technical communications and team problem solving, statistical process control and experimentation, and electromechanical systems.

Program Identification Code: AASTECCOMPUT

This program enables the student, equipped with common core courses of the Technology curriculum, to put major emphasis on microcomputer assembly and testing, microcomputer systems servicing, microcomputer repair, and basic networking including dedicated server networks. It is recommended that students seeking immediate employment in this field take TEC 290 in addition to the program courses. This course should be taken in the last semester of enrollment.

Systems Networking Technology—Associate of Applied Science Degree for Direct Employment

Program Identification Code: AASTECHNETWRK

This program focuses on computer technology and the various means through which computers are networked to provide services. Including industry-driven common core courses of the Technology curriculum, it provides the student with additional information to achieve technical competencies in microcomputer assembly and testing, microcomputer systems servicing, dedicated server networks, networks of the Internet, networks and operating systems, and client server computing. Additional emphasis is placed on the important matter of remaining current and growing professionally in a rapidly changing technical environment. It is recommended that students seeking immediate employment in this field take TEC 290 in addition to the program courses. This course should be taken in the last semester of enrollment.

Students completing this certificate will have completed the requirements for the Electro-Optical Assembly and Testing certificate with additional coursework in geometric and wave optics and advanced coursework in fiber optics installation and testing.

Electro-Optics—Associate of Applied Science Degree for Direct Employment

Program Identification

Code: AASOPTICSTEC

Students graduating with an Associate of Applied Science Degree in Optoelectronics will have completed the basic core requirements for Technology and the both certificates in Electro-Optical Assembly Testing and Optical Manufacturing. Students will also learn to calibrate and test optical systems and learn the fundamentals of laser technology.

¥AGEC requires 35 credits. This subtotal shows the AGEC credits not fulfilled by core, support, or second language courses.

§This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Program Identification Code: AOATHEATER

The theater program, leading to an Associate of Arts Degree for Transfer, prepares students for transfer to a four-year college, leading to a Bachelor of Arts in Theater Production, Theater Education, or Theater Theory. This program provides extensive experience and training in performing and all other areas of theater production.

Translation Studies—Certificate for Direct Employment

Certificate Entrance Requirements:

- WRT 102 or 108
- SPA 203 and 204 or a proficiency test
- Demonstrate fifty percent (50%) competency in the translation of a document without aid

Certificate Exit Requirement

- Demonstrate seventy-five percent (75%) competency in the translation of a document without aid

Program Identification
Code: CRTTRANSLATE

The Translation Studies program is designed for individuals with proficiency in both Spanish and English who are interested in acquiring the skills to do accurate translation of written materials. Through a combination of theoretical classes and hands on laboratory style practicums, students will gain experience in translating health care, legal, literary and commercial materials and will have the option of selecting one of those fields for an internship. Program courses and advising are available at the Downtown Campus.

Program identification code: CRTTRUCKB

Truck Driver Training (TDT) provides training which will enable trainees to learn and develop the knowledge and skills necessary to be successful in the trucking industry as a truck driver. It helps prepare the potential truck driver to pass the Commercial Driver License test.

Veterinary Technology

Veterinary Technician—Associate of Applied Science Degree

This program is academically challenging and is based on the American Veterinary Medical Association guidelines. Students are strongly encouraged to meet with an advisor or counselor prior to applying to the program.

Students seeking admission to the Veterinary Technology program must meet the following basic requirements:

- High School diploma or GED.
- Admission to Pima Community College.
- Compass reading assessment test score at REA 112, or completion of REA 091.
- Math assessment test score at MAT 151 or higher, or completion of MAT 122 with a grade of C or better.

Students entering the Veterinary Technology program must also meet the following requirements:

- Must provide proof of personal medical insurance. Student health insurance is available through Pima Community College Student Services.
- Must provide proof of immunizations. (Students are strongly encouraged to undergo rabies immunization prior to entering the program.)

In addition, it is essential that veterinary technology students be able to perform a variety of physical activities. At a minimum, students will be required to lift animals, stand for long periods of time and perform bending activities. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.

General Requirements

- Total required credits: 70.
- VET course work: 45 credits.
- Other courses including General Education courses: 25.

Minimal Grade Achievements

- Students must receive a C grade or better in all core courses to progress to the next semester or to graduate.

Program Identification

Code: AASVETTECH

The Veterinary Technology program prepares the student for a career as a veterinary technician. The Associate of Applied Science Degree program provides specialty training which enables graduates to provide professional assistance to veterinarians, biological research workers, scientists, and animal control and humane organizations. Program graduates are knowledgeable in the care and handling of animals, animal behavior, restraint, nutrition, medical and surgical nursing, anesthesia, radiography and clinical laboratory procedures. The program consists of four semesters, and one five-week summer externship. Upon graduation, a student will be eligible to take the state and national boards to become a certified veterinary technician.

General Education Requirements - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.	
Communication Requirement	†
ASC 151 and 251 fulfill this requirement.	
Analysis and Critical Thinking Requirement	†
BIO 100IN and MAT 122 fulfill this requirement.	
Humanities and Social Science Requirement	6
See General Education section, page 55.	
Computer and Information Literacy Requirement	†
CSA 101A fulfills this requirement.

*This course has a prerequisite, co-requisite, or recommendation. See course description section.

Program Identification Code: CRTWELDING

The certificate provides skills and knowledge for entry-level careers in welding and is the foundation for the Associate of Applied Science in Welding

Students are taught in classroom and lab areas like those found in industry.

Welding students may find cooperative education to be a way of gaining work experience while attending classes. See a Cooperative Education teacher-coordinator for details.

Educational Courses

Course Numbering System and Prerequisites

Courses numbered from 001-099 are those unique to the community college, are considered developmental in nature, are not anticipated to be transferable, and do not satisfy degree requirements.

Courses numbered 100-199 are considered to be on the freshman level.

Courses numbered 200-299 are considered to be on the sophomore level.

Sample course listing:

ACC	101	Financial Accounting	3 cr. hrs.	3 periods
course prefix	course number	course title	semester hours of credit	hours of lecture and/or lab per week

A student registering for a course must meet the prerequisites or otherwise satisfy the instructor of his or her preparation to take the course. After notification, an instructor may withdraw a student who does not have the proper prerequisites for the class as stated in the catalog. Prerequisites may be waived by the instructor.

Consult the semester Schedule of Classes for specific offerings each semester.

Topics Courses

Courses designated with the numbers **098**, **198**, **298** are courses created by a Pima College Faculty member to offer a specific subject not found in the regular courses of the college catalog.

Students should be aware that these courses are NOT designed for transfer to a university, nor does Pima College articulate them with any university to seek transfer status.

Legend for Courses:

IN - Integrated lecture/lab
LB - Lab
LC - Clinical Lab
LS - Skills Lab

Consult the semester *Schedule of Classes* for specific offerings each semester.

ACCOUNTING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ACC 060 Basic Tax Preparation /3 cr. hrs./4 periods (2 lec., 2 lab)

Basic skills in tax preparation. Includes preparation of federal Form 1040EZ, 1040A, and a simple 1040, selected schedules, worksheets, and other forms. Also includes preparation of Arizona tax forms.

Information: Requires supervised tax preparation work at a community site.

Information: May be taken four times for a maximum of twelve credit hours.

ACC 100 Practical Accounting Procedures /3 cr. hrs./3 periods (3 lec.)

Introduction to accounting systems for small businesses. Includes the basic accounting cycle, the use of special journals, procedures for controlling cash, and payroll accounting.

ACC 101 Financial Accounting /3 cr. hrs./3 periods (3 lec.)

Introduction to accounting as a service activity, analytical discipline, and information system. Includes quantitative information to make decisions, identification of events that characterize economic activity, and the collection and communication of economic activity. Also includes recording accounting data, internal control of assets, measurement and reporting of liabilities and owners' equity.

ACC 102 Managerial Accounting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 101, MAT 092.

Accounting information for managers. Includes concepts for those who are inside an organization and who are responsible for planning, directing and controlling its operation. Also includes process costing, profit planning, overhead analysis, and capital budgeting decisions.

ACC 150 Payroll Accounting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 100 or 101.

Current practices in payroll accounting and tax reporting. Includes laws affecting payroll and computation of gross earnings and withholding taxes. Also includes computerized payroll systems.

ACC 173 Introduction to Fund Accounting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 101.

Accounting practices in governmental units, such as city, county, and state agencies, and other not-for-profit organizations. Includes temporary fund balance accounts, budget entries, encumbrances, and tax receivables.

ACC 200 Accounting on the Microcomputer I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ACC 100 or 101.

Fundamental accounting applications using commercial programs. Includes the use of modular accounting programs and electronic spreadsheets, emphasizing hands-on experience.

ACC 201 Intermediate Accounting I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 102.

Comprehensive coverage of financial accounting topics. Includes GAAP application, rationale, and clarification of the reasons for specific accounting principles. Also includes balance sheets, cash and receivables, inventories, and temporary and long term investments.

ACC 202 Intermediate Accounting II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 201.

Continuation of ACC 201. Includes continual integration of theory and practice, investments, long and short term liabilities, pension plans, stockholders equity, and analysis of financial statements.

ACC 203 Cost Accounting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 102, MAT 122, REA 112.

Interpretation, use, and analysis of cost data for management planning, coordination and control. Includes the application of theories and concepts which underlie cost accounting and budgeting. Also includes job order costing, spoilage, standard costs, and capital budgeting.

ACC 204 Individual Tax Accounting /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ACC 100 or 101.

Principles of accounting for taxes on personal income and business operations of self-employed individuals. Includes federal tax law, inclusions and exclusions from gross income, tax credits, property transactions, capital gains and losses, and tax preparation using a professional computer software package.

ACC 205 Corporate and Partnership Tax Accounting /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ACC 101.

Principles of federal taxation of partnerships and corporations (including S corporations). Includes gift, trust, and estate taxation.

ACC 210 Accounting on the Microcomputer II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ACC 200.

Continuation of ACC 200. Advanced accounting applications using commercial programs. Includes the use of modular accounting programs and electronic spreadsheets, emphasizing hands-on experience.

ACC 215 Quickbooks Computer Accounting /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of instructor.

Use of current Quickbooks software to set up and maintain accounting records for a small business. Includes accounts receivable, accounts payable, inventory, and payroll features.

ACC 220 Peachtree Computer Accounting /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of instructor.

Use of current Peachtree software to set up and maintain accounting records for a small business. Includes accounts receivable, accounts payable, inventory, and payroll features.

ACC 250 Certified Bookkeeper Review /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ACC 100 or 101.

Preparation for the American Institute of Professional Bookkeepers (AIPB) Certified Bookkeeper examination. Involves review of accounting theory and practical bookkeeping skills. Includes adjusting and correcting entries, bank reconciliations, payroll, depreciation, and inventory.

ACC 299 Co-op Related Class in ACC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

ACC 299WK Co-op Work in ACC /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

ADMINISTRATION OF JUSTICE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

AJS 101 Introduction to Administration of Justice Systems /3 cr. hrs./3 periods (3 lec.)

History and philosophy of administration of justice in America. Includes identifying the various subsystems, role expectations and their interrelationships, theories of crime, punishment and rehabilitation, ethics, education and training for professionalism in the system, and career opportunities related to local criminal justice agencies.

AJS 107 Patrol Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): AJS 101 or concurrent enrollment or consent of instructor.

Patrol as one of the primary police operations. Includes conspicuous presence as a means of suppressing crime and preserving peace, organization and functions of police patrol, methods, techniques and responsibility in patrol operations, use of special equipment, and application of laws on arrest, search and seizure.

AJS 109 Criminal Law /3 cr. hrs./3 periods (3 lec.)

Historical development and philosophy of law and constitutional provisions. Includes definitions, classifications of crime and their application to the system of administration of justice, legal research, study of case law, methodology, and concepts of law as a social force.

AJS 115 Criminal Procedures /3 cr. hrs./3 periods (3 lec.)

Overview of the system used in the U.S. to administer criminal cases. Includes implications for civil rights, the police process, the prosecuting attorney, the defense attorney, courts, grand jury, trial jury, coroner-medical examiner, judicial process, and the trial, and its aftermath.

AJS 123 Corrections as a System /3 cr. hrs./3 periods (3 lec.)

Overview of corrections as a system and as a part of the justice process. Includes history, theories, systems of operations in corrections, analysis of the objectives of correctional administration, relevant law, and public relations.

AJS 124 Ethics and the Administration of Justice /3 cr. hrs./3 periods (3 lec.)

Exploration of ethical issues and the justice system. Includes elements of moral and ethical behavior, principles of justice, and theories of moral development. Also includes ethics of the police, courts, corrections, and modern issues in the administration of justice.

AJS 146 Child Abuse Intervention and Protection /3 cr. hrs./3 periods (3 lec.)

Overview of the principles and methods of dealing with child abuse. Includes the many definitions and forms of child abuse, recognition of its symptoms, family dysfunctions, the interaction with and counseling of the parental abuser, and the utilization of available community resources.

Information: Same as SSE 146.

AJS 150 Defensive Tactics for Law Enforcement /3 cr. hrs./3 periods (3 lec.)

Force tactics as they apply to law enforcement. Includes the use of verbal and physical skills to accomplish control with a minimum potential of injury to the officer or subject. Also includes handcuffing, impact weapons, and handgun retention.

AJS 152 Beginning Marksmanship /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to firearms. Includes moral and legal aspects of firearms, safety and range practice.

AJS 160 Introduction to Youth Services /3 cr. hrs./3 periods (3 lec.)

Introduction to the field of youth services as offered through voluntary youth organizations, social service and child welfare agencies, juvenile detention and correctional agencies and community health care agencies. Includes the normal development needs of children and adolescents, the special needs of dependent, delinquent, challenged and special needs youth, roles of youth workers, and the need to focus on prevention through strengthening families and communities. Also includes a survey of local youth serving agencies.

Information: Same as SSE 160.

AJS 165 Introduction to Justice Data Systems /3 cr. hrs./3 periods (3 lec.)

Introduction to data systems for all levels of law enforcement and correctional personnel and students in the criminal justice system. Includes introduction to computer hardware and operating systems, police information systems, types of software useful to the criminal justice system, computerized prisons and jails, and the future of computerization in criminal justice.

AJS 170 Death Investigation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): AJS 101 or consent of instructor.

Procedures and techniques of investigating sudden and unexpected, suspicious and violent deaths within the framework of a modern law enforcement and medical examiner system.

AJS 201 Rules of Evidence /3 cr. hrs./3 periods (3 lec.)

The origin, development, philosophy and constitutional basis of evidence. Includes constitutional and procedural considerations affecting arrest and search and seizure. Also includes degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights, and case studies.

AJS 204 Criminal Investigation and Report Preparation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): AJS 109 or concurrent enrollment or consent of instructor.

Fundamentals of modern criminal investigation. Includes procedures and skills in search and investigation, conduct at the crime scene, collection and preservation of evidence, developing sources of information, preparation of cases for court prosecution, and report-writing requirements for administration and court use.

AJS 210 Police Community and Human Relations /3 cr. hrs./3 periods (3 lec.)

Survey of the police officer's role in attaining and maintaining public support. Includes recognition and understanding of community problems, community action programs, methods of coping with crisis situations, ethnic and minority cultures, various environments, crime prevention, and police operations in relation to these cultures and environments.

AJS 212 Juvenile Justice Procedures /3 cr. hrs./3 periods (3 lec.)

Analysis of the philosophy, organization, functions and jurisdiction of juvenile agencies and courts. Includes Arizona juvenile statutes, detention, court procedures, and case disposition. Also includes custody and treatment of the offender and crime prevention methods and reporting procedures applicable to juvenile offenders.

AJS 225 Criminology /3 cr. hrs./3 periods (3 lec.)

Survey of the nature, extent and control of crime and delinquency. Includes comparison of theoretical and practical approaches to causation, prevention, punishment and treatment, and current problems.

AJS 245 The Correctional Process /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): AJS 101 or concurrent enrollment or consent of instructor.

Survey of correctional services and treatment. Includes philosophy, history, correctional models by type and function, institutional treatment, parole operations, community based treatment and special treatment programs.

AJS 246 Race and Ethnicity Issues in the Administration of Justice /3 cr. hrs./3 periods (3 lec.)

Focus on minorities in the criminal justice system. Includes multi-cultural community ties: challenges for law enforcement and corrections, cross-cultural communication, the Latino/ Hispanic American offender, the American Indian offender, the African American offender, peace officer image and cultural sensitivity, and police officer professionalism and peacekeeping strategies in a diverse society.

AJS 256 Justice System Administration /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): AJS 101 or consent of instructor.

Examination of crime, punishment, and correctional practices. Includes current issues affecting the economy, politics, social stability, prison and community corrections, and minorities.

AJS 290 Administration of Justice Field Experience /1-3 cr. hrs./1-3 periods (5-15 lab)

Prerequisite(s): Consent of instructor.

Participation in community administration of justice agencies. Includes experience in the practical application of classroom instruction. Also includes biweekly seminars to discuss theory and practice pertinent to the agency experience.

Information: May be taken two times for a maximum of six credit hours.

ADMINISTRATIVE SUPPORT CAREERS

For courses numbered 098, 198, 298, see "Topics Courses" in index. For former ASC Computer Application Courses, see current program display.

ASC 050 Fundamentals of Business English /1 cr. hr./1 period (1 lec.)

English basics in business. Includes parts of speech, sentence patterns, and punctuation. Also includes emphasis on business-related material.

ASC 100 Data Entry Beginning Keystroke Development /2 cr. hrs./ 6 periods (6 lab)

Recommended: ASC 111A or keyboarding proficiency.

Training for beginning level speed and accuracy. Includes ten key pad, alpha-numeric pre-timed and self-timed exercises, and dexterity drills.
Information: May be taken four times for a maximum of eight credit hours.

ASC 101 Beginning Shorthand /3 cr. hrs./5 periods (3 lec., 2 lab)

Recommended: ASC 111, 151.

Abbreviated system of writing in Gregg Shorthand. Includes the shorthand alphabet, English skills, shorthand speed, and transcription techniques.

ASC 102 Shorthand Refresher /3 cr. hrs./5 periods (3 lec., 2 lab)

Recommended: ASC 101 or one year high school shorthand or dictation speed of 50 words per minute, and ASC 151 or concurrent enrollment.

Speed building and accuracy in Gregg Shorthand. Includes shorthand theory, English skills, and mailable transcription techniques.

ASC 111 Computer Keyboarding and Document Production / 3 cr. hrs./5 periods (3 lec., 2 lab)

Theory and practice of computer keyboarding. Includes speed and accuracy techniques, language arts skills, correspondence, employment documents, and word processing commands.

ASC 111A Computer Keyboarding and Document Production: Keyboard /1 cr. hr./1.7 periods (1 lec., .7 lab)

Techniques and functions for computer keyboarding skills. Includes keyboarding, speed and accuracy, language arts, and word processing commands.

ASC 111B Computer Keyboarding and Document Production: Formatting Documents /1 cr. hr./1.7 periods (1 lec., .7 lab)

Prerequisite(s): ASC 111A.

Continuation of ASC 111A. Includes speed and accuracy, language arts, correspondence, and word processing commands.

ASC 111C Computer Keyboarding and Document Production: Applications /1 cr. hr./1.6 periods (1 lec., .6 lab)

Prerequisite(s): ASC 111B.

Continuation of ASC 111B. Includes speed and accuracy, correspondence, employment documents, language arts, and word processing commands.

ASC 112 Advanced Computer Keyboarding: Document Production /3 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ASC 111.

Continuation of ASC 111. Includes speed and accuracy techniques, language arts, correspondence, reports, tables, financial statements, specialized reports, legal documents, business reports, and word processing commands.

ASC 112A Advanced Computer Keyboarding: Skill Development/ Production /1 cr. hr./1.7 periods (1 lec., .7 lab)

Prerequisite(s): ASC 111 or equivalent proficiency.

Continuation of ASC 111. Includes speed and accuracy techniques, language arts, correspondence, reports, and word processing commands.

ASC 112B Advanced Computer Keyboarding: Specialized Formatting /1 cr. hr./1.7 periods (1 lec., .7 lab)

Prerequisite(s): ASC 112A or equivalent proficiency.

Continuation of ASC 112A. Includes speed and accuracy techniques, language arts, tables, financial statements, specialized reports, legal documents, and word processing commands.

ASC 112C Advanced Computer Keyboarding: Simulated Office Projects /1 cr. hr./1.6 periods (1 lec., .6 lab)

Prerequisite(s): ASC 112B or equivalent proficiency.

Continuation of ASC 112B. Includes speed and accuracy techniques, language arts, business forms, in-basket exercises, and word processing commands.

ASC 114 Computer Keyboarding: Skillbuilding /2 cr. hrs./6 periods (6 lab)

Recommended: ASC 111A or equivalent proficiency on computer keyboard.

Development of computer keyboarding. Includes skill assessment, skill building development, data input accuracy, increasing keyboarding accuracy, and skill building software.

ASC 123 Professional Development for Administrative Support / 3 cr. hrs./5 periods (2 lec., 3 lab)

Recommended: ASC 111 or equivalent proficiency on computer keyboard, and CSA 152 or 153.

Procedures and skills for securing a job. Includes resume development, interview techniques, application forms, application letter, research requirements, customer service skills, job shadowing, and sexual harassment.

ASC 124 Computer Applications: Introduction to Data Entry / 1 cr. hr./1.6 period (.9 lec., .7 lab)

Prerequisite(s): ASC 111A or equivalent proficiency on the computer keyboard.

Practical applications using data entry software for business. Includes terminology and procedures, operations, creating files, and data manipulation.

ASC 134 Data Entry Advanced Keystroke Development /2 cr. hrs./ 6 periods (6 lab)

Recommended: ASC 100 or 7000 keystrokes per hour.

Training for advanced level speed and accuracy. Includes alpha-numeric pre-timed and self-timed exercises, dexterity drills, and speed measurement.

ASC 136 Work Site Simulations /3 cr. hrs./5 periods (2 lec., 3 lab)

Recommended: CSA 101 or equivalent experience with Word, Excel, and Access.

Operations and techniques in an office environment. Includes transactions processing, record extraction, corrections, and additions, accounting features, numerical and alphabetical sorting, reports, and business simulations.

ASC 141 Legal Terms /3 cr. hrs./3 periods (3 lec.)

Language used in a legal setting. Includes general terminology, court system, and specialized areas of law.

ASC 142 Legal Procedures I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ASC 112.

General law office procedures. Includes legal support staff, career development, legal ethics, written communication, calendaring, court system, preparation of legal documents, family law, contract law, and employment law.

ASC 143 Legal Procedures II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ASC 142 or consent of instructor.

Continuation of ASC 142. Includes legal support staff, court systems, civil litigation and torts, and criminal litigation procedures.

ASC 151 Business English /3 cr. hrs./3 periods (3 lec.)

Recommended: ASC 050 or assessment at the WRT 100 level.

English fundamentals essential for modern business communication. Includes reference skills, parts of speech, basic sentence terms, verbals, sentences, punctuation, writing style, and grammar usage.

ASC 161 Medical Office Procedures /4 cr. hrs./5 periods (3 lec., 2 lab)

Recommended: ASC 112 or equivalent proficiency or concurrent enrollment, and ASC 162.

Services and procedures used in a medical office. Includes human relations, telephone and electronic communication, financial activities, word processing, administrative support, filing, machine transcription, mail processing, patient records, insurance, and medical and business terms.

ASC 162 Medical Terms I /3 cr. hrs./3 periods (3 lec.)

Terminology used in the medical field. Includes word parts and forms, anatomy and physiology, diseases, and reference materials.

ASC 164 Medical Transcription I /3 cr. hrs./4 periods (2 lec., 2 lab)
Recommended: ASC 162 or experience in the medical field, and word processing experience.

Terms and format for transcribing medical reports. Includes ethics and legal responsibility, preparation of medical reports, transcription of medical records, rules, and medical terminology.

ASC 171 Office Procedures /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ASC 111.

Functions and procedures used in a wide range of office activities. Includes business operations, visitors and clients, office functions, document production, communication skills, office duties and tasks, notetaking, travel arrangements, meetings and conferences, office equipment, and professional attitudes and image, Internet exploration, and job evaluation.

ASC 199 Co-op Related Class in ASC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

ASC 199WK Co-op Work in ASC /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

ASC 224 Machine Transcription /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): ASC 111 or computer keyboarding speed of 35 wpm and ability to format manuscripts, and tables, and ASC 151.

Skills and techniques of transcribing dictated materials. Includes transcription equipment, transcription techniques, language arts development, mailable documents, and career opportunity awareness.

ASC 242 Legal Procedures III /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ASC 143 or consent of instructor.

Continuation of ASC 143. Includes business organizations, real estate, estate planning, wills and trusts, probate and protective proceedings.

ASC 251 Business Communications /3 cr. hrs./3 periods (3 lec.)

Recommended: ASC 151 or consent of instructor.

Principles of effective writing and listening skills. Includes language development, verbal and nonverbal communications, customer relations, and writing and editing correspondence.

ASC 262 Medical Terms II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ASC 162.

Continuation of ASC 162. Includes advanced work with word parts and forms, anatomy and physiology, diseases, and reference materials. Also includes therapeutic drugs and medical reports.

ASC 264 Medical Transcription II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Keyboarding at 50 wpm, ASC 164 and 262.

Continuation of ASC 164. Includes punctuation, capitalization, numbers, figures, abbreviations, business letter transcription, proofreading, spelling, word division and reference books.

ASC 266 Medical Transcription III /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Keyboarding at 60 wpm, ASC 264.

Continuation of ASC 264. Includes advanced training in punctuation, capitalization, rules, medical correspondence, proofreading, prefixes and suffixes, transcription, and medical terms.

**ASC 297 Administrative Support Seminar: /25-4 cr. hrs./
.25-16 periods (.25-4 lec., .25-12 lab)**

Prerequisite(s): Consent of instructor.

Administrative support job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

ASC 299 Co-op Related Class in ASC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

ASC 299WK Co-op Work in ASC /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

AMERICAN INDIAN STUDIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

AIS 089 Native American Literature /3 cr. hrs./3 periods (3 lec.)

Introduction to works of Native American authors. Includes literary forms, historical context, moral implications of the literature, and cultural significance.

**AIS 101 Introduction to American Indian Studies I /3 cr. hrs./
3 periods (3 lec.)**

Examination of the diversity of American Indian tribes. Includes successive colonization waves and conflict between Native Americans and colonizing nations. Also includes the development of Native American cultures, and policies toward Native Americans.

**AIS 102 Introduction to American Indian Studies II /3 cr. hrs./
3 periods (3 lec.)**

Prerequisite(s): AIS 101.

Continuation of AIS 101. Includes diversity of American Indian tribes, successive colonization waves, and conflict between Native Americans and colonizing nations. Also includes contemporary issues and their impact on American Indians in transition and an introduction to Native American theories and philosophies.

ANTHROPOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

**ANT 101 Human Origins and Prehistory /3 cr. hrs./3 periods
(3 lec.)**

Survey of physical anthropology and archaeology. Includes the emergence of the human species from its origins based on our understanding of the archaeological and fossil record.

Information: Same as ARC 101.

**ANT 102 Introduction to Cultural Anthropology and Linguistics /
3 cr. hrs./3 periods (3 lec.)**

Survey of human societal structure. Includes historical events, communication and language, marriage and family, environmental adaptation, economics, politics, gender, and religion. Also includes an introduction to the comparative study of cultures.

**ANT 104 Humanity and the Environment Discovery Laboratory /
1 cr. hr./3 periods (3 lab)**

Prerequisite(s): Concurrent enrollment in ANT/ENV 105.

Laboratory exercises and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy-carrying capacity models, and waste by-products and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in our society, and anthropological relationships to the environment.

Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ANT 105.

Information: Same as ENV 104.

**ANT 105 Humanity and the Environment /3 cr. hrs./3 periods
(3 lec.)**

Technical, sociocultural, and political information on environmental science and technology for non-ENV majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the green house effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.

Information: Same as ENV 105.

ANT 110 Buried Cities and Lost Tribes /3 cr. hrs./3 periods (3 lec.)

Exploration of the human past. Includes studying important archaeological finds from various cultures around the world.

Information: Same as ARC 110.

ANT 112 Exploring Non-Western Cultures /3 cr. hrs./3 periods (3 lec.)

Anthropological introduction to non-Western cultures. Includes theory, method, and history of anthropology, pre-colonial non-Western cultures, and post-colonial non-Western cultures in a global context.

ANT 126 Peoples in Transition /3 cr. hrs./3 periods (3 lec.)

Anthropological approaches to social change. Includes a comparison of cultures in situations of contact and change, and of methods and theories for studying culture change.

ANT 127 History and Culture of the Mexican-American in the Southwest /3 cr. hrs./3 periods (3 lec.)

Historical survey of the Mexican American people from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States Southwest and the Border region. Includes the totality of Chicano life in the United States since the Treaty of Guadalupe Hidalgo and the challenges into the 21st Century. Also includes settlement patterns, society and political economy of the Spanish Empire and Mexico in El Norte.

Information: Same as HIS 127.

ANT 129 Culture and Personality /3 cr. hrs./3 periods (3 lec.)

Survey of studies on society and the factors that influence it. Includes historical considerations, psychoanalytic elements, distributional models, religion and myth, the family and community, and methods utilized in the studies.

ANT 135 Pre-Columbian Art /3 cr. hrs./3 periods (3 lec.)

Survey of the art and architecture of the Americas from the earliest times to the period of the Spanish conquest. Includes archaeology, art history, ethnohistory, folklore, ethnography, and literature of Pre-Columbian peoples. Also includes recognition of major art styles and important sites.

Information: Same as ART 135 and HIS 135.

ANT 136 Masks /3 cr. hrs./3 periods (3 lec.)

Survey of traditional masks and sculpture of the tribal peoples of North America, Africa, Asia, Indonesia, and Oceania. Includes archaeology, art history, ethnohistory, folklore, ethnography, and literature of tribal peoples. Also includes recognition of major art styles and their cultural relationships.

Information: Same as ART 136 and HIS 136.

ANT 148 History of Indians of North America /3 cr. hrs./3 periods (3 lec.)

History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Indian origins, adaptations to cultural, political and economic changes, and current status. Also includes emphasis on federal Indian policies and leadership.

Information: Same as HIS 148.

ANT 150 African-American History and People /3 cr. hrs./3 periods (3 lec.)

African-American history from the colonial period to the present. Includes identity, double consciousness, culture and arts, and political protest.

Information: Same as HIS 150.

ANT 200 Biological Anthropology /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ANT/ARC 101 or consent of instructor.

Interaction of human biology and culture. Includes various peoples and their environment, case studies of micro evolution and macro evolution, human variability and demography. Also includes population biology and genetics.

ANT 202 Sex, Gender, and Culture /3 cr. hrs./3 periods (3 lec.)

Anthropological examination of gender identity, roles, and relations. Includes studies of families, domestic groups, and communities. Also includes selected case studies and frameworks for analysis.

ANT 203 Ethnic Groups and Culture /3 cr. hrs./3 periods (3 lec.)

Anthropological survey of ethnicity. Includes cultural definition of ethnic groups, social variables, and ethnic boundaries.

ANT 205 Introduction to Southwestern Prehistory /3 cr. hrs./3 periods (3 lec.)

Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes living people of the Southwest, dating methods, the Archaic Cultures, and agricultural strategies.

Information: Same as ARC 205.

ANT 206 Contemporary Native Americans of the Southwest /3 cr. hrs./3 periods (3 lec.)

Anthropological examination of Native American cultures of the Southwestern United States. Includes linguistic and cultural diversity, Southwestern Native American economies, cultural configuration, and frameworks for analysis.

ANT 207 Southwestern Prehistory Lab /1 cr. hr./3 periods (3 lab)

Prerequisite(s): ANT/ARC 205 or concurrent enrollment in ANT/ARC 205 or consent of instructor.

Laboratory and field activities to provide interpretive context for prehistoric cultures of the American Southwest. Includes categories of prehistoric archaeological sites, and historical period sites.

Information: Field trips are taken to selected sites.

Information: Same as ARC 207.

ANT 210 Cultural Anthropology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ANT 102.

Exploration of the study of culture. Includes anthropological theory and method, a comparison of ethnographies, and analytic paradigms. Also includes selected topics.

ANT 215 The Nature of Language /3 cr. hrs./3 periods (3 lec.)

Introduction to anthropological linguistics. Includes the history of linguistics and language, descriptive linguistics, sociolinguistics, language and thought, language acquisition, and the biology of language development. Also includes bilingualism and multiculturalism.

ANT 225 Archaeology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ANT/ARC 101 or consent of instructor.

Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology, method and techniques of archaeological excavation, surveying and mapping, dating, sampling and statistical methods, archaeological analysis, and a synthesis of archaeological data.

Information: Same as ARC 225.

ANT 250 Archaeology Laboratory /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): ANT/ARC 101, ARC 180, or consent of instructor.

Laboratory experience in the curating, processing and analysis of prehistoric and historic artifacts recovered from archaeological sites. Includes human osteology, sex and age determination techniques, zooarchaeology, mammal and avian bone identification, and prehistoric ceramics.

Information: Same as ARC 250.

ANT 265 Mapping Concepts /1 cr. hr./1 period (1 lec.)

Introduction to the practical use of maps. Includes fundamental cartographic concepts, terminology and exercises.

Information: Same as ARC 265 and GEO 265.

ANT 267 Introduction to Geographic Information Systems / 3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ANT/ARC/GEO 265 or concurrent enrollment.

Recommended: Basic computer skills.

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.

Information: Same as ARC 267 and GEO 267.

ANT 275 Archaeological Excavation I /4 cr. hrs./8 periods (2 lec, 6 lab)

Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona.

Information: Same as ARC 275.

ANT 276 Archaeological Exploration I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC 180 or concurrent enrollment or consent of instructor.

Techniques and methods for recognizing, locating and recording archaeological sites. Includes fieldwork in southern Arizona.

Information: Same as ARC 276.

ANT 277 Archaeological Excavation II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 275, GLG 101, and consent of instructor.

Continuation of ANT/ARC 275. Includes advanced excavation techniques, field crew supervision, and selected field projects.

Information: Same as ARC 277.

ANT 278 Archaeological Exploration II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 276, GLG 101, and consent of instructor.

Continuation of ARC 276. Includes archival investigation, advanced field techniques, crew supervision, and selected field projects.

Information: Same as ARC 278.

ANT 281 Global Positioning Systems I /2 cr. hrs./2 periods (2 lec.)

Introduction of the use of GPS (Global Positioning Systems) receivers in a field setting for non-technical applications. Includes system configuration, data collection, and data transfer.

Information: Same as ARC 281.

ANT 282 Managing Archaeological Data /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): ANT/ARC 275 or ANT/ARC 276, CSA 101, and consent of instructor.

Organization and management of data associated with archaeological field work and collections. Includes collection strategies and techniques, application software, and data contexts.

Information: Same as ARC 282.

ANT 283 ArchaeoCAD /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CSA 101, and ANT/ARC 265 or concurrent enrollment.

Computer aided drafting software emphasizing techniques and hardware appropriate for archaeological applications. Includes hardware configuration, approaches to CAD, and data collection techniques.

Information: Same as ARC 282.

ANT 284 Archaeocartography/Desktop Mapping /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): ARC 265 or concurrent enrollment, CSA 101.

Cartographic techniques and hardware for computer generation of maps. Includes software for cartography.

Information: Same as ARC 284 and GEO 284.

ANT 285 Field Mapping I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ANT/ARC 265 or concurrent enrollment, ANT/ARC 275, and consent of instructor.

Traditional surveying instruments and associated software for field mapping. Includes mapping strategies, instrument operation, field data techniques, and producing maps.

Information: Same as ARC 285.

ANT 286 Field Mapping II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC 285 and consent of instructor.

Continuation of ARC 285. Includes electronic surveying instruments, computerized data collection systems, and associated software for mapping archaeological sites.

Information: Same as ARC 286.

ANT 289 Global Positioning Systems II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): ANT/ARC 265 or concurrent enrollment, ANT/ARC 281, CSA 101 and consent of instructor.

Continuation of ANT 281. Includes advanced applications of global positioning systems and related equipment. Also includes software applications and data manipulation.

Information: Same as ARC 289.

ANT 295 Field Projects /3 cr. hrs./9 periods (9 lab)

Prerequisite(s): Consent of instructor.

Participation in a field project in one of the subfields of anthropology.

Information: Same as ARC 295.

ANT 296 Independent Studies in ANT/ARC /5-3 cr. hrs./ .5-9 periods (.5-9 lec)

Prerequisite(s): Consent of instructor.

Students independently continue their studies in anthropology under the supervision of a faculty member.

Information: May be taken three times for a maximum of nine credit hours.

Information: Same as ARC 296.

ARCHAEOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ARC 060 Artifacts and Sites of Tucson /5 cr. hrs./5 periods (.5 lec.)

Overview of the artifacts and archaeological sites of the Tucson Basin. Includes using collections, materials and resources of the Archaeology Centre.

Information: Field trip is part of the course.

ARC 061 Tucson Prehistory /5 cr. hrs./5 periods (.5 lec.)

Overview of the prehistoric cultures of the Tucson Basin. Includes using collections, materials and resources of the Archaeology Centre.

ARC 062 Stone Tool Making /5 cr. hrs./5 periods (.5 lec.)

Introduction to the production of chipped stone tools. Includes using collections, materials and resources of the Archaeology Centre.

ARC 063 Prehistoric Pottery Making /5 cr. hrs./5 periods (.5 lec.)

Introduction to the making of pottery employing techniques used by the prehistoric inhabitants of the Tucson Basin. Includes using collections, materials and resources of the Archaeology Centre.

ARC 075 Field Archaeology /4 cr. hrs./8 periods (2 lec., 6 lab)

Participation in archaeological field activities. Includes a non-technical approach with an emphasis on local field work.

ARC 093 Archaeology Workshop /5-3 cr. hrs./5-3 periods (.5-3 lec.)

Workshop with an emphasis on field and lab techniques. Includes using collections, materials and resources of the Archaeology Centre.

ARC 101 Human Origins and Prehistory /3 cr. hrs./3 periods (3 lec.)

Survey of physical anthropology and archaeology. Includes the emergence of the human species from its origins based on our understanding of the archaeological and fossil record.

Information: Same as ANT 101.

ARC 110 Buried Cities and Lost Tribes /3 cr. hrs./3 periods (3 lec.)

Exploration of the human past. Includes studying important archaeological finds from various cultures around the world.

Information: Same as ANT 110.

ARC 180 Artifact Identification /2 cr. hr./2 periods (2 lec.)

Introduction to the recognition, identification and classification of the various types of artifacts recovered from local archaeological sites. Includes an overview of prehistoric ceramics in the Tucson Basin, chipped stone technology, ground stone tool identification, and miscellaneous artifacts.

ARC 205 Introduction to Southwestern Prehistory /3 cr. hrs./3 periods (3 lec.)

Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes living people of the Southwest, dating methods, the Archaic Cultures, and agricultural strategies.

Information: Same as ANT 205.

ARC 207 Southwestern Prehistory Lab /1 cr. hr./3 periods (3 lab)

Prerequisite(s): ANT/ARC 205 or concurrent enrollment in ANT/ARC 205 or consent of instructor.

Laboratory and field activities to provide interpretive context for prehistoric cultures of the American Southwest. Includes categories of prehistoric archaeological sites, and historical period sites.

Information: Field trips are taken to selected sites.

Information: Same as ANT 207.

ARC 225 Archaeology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ANT/ARC 101 or consent of instructor.

Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology, method and techniques of archaeological excavation, surveying and mapping, dating, sampling and statistical methods, archaeological analysis, and a synthesis of archaeological data.

Information: Same as ANT 225.

ARC 250 Archaeology Laboratory /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): ANT/ARC 101, ARC 180, or consent of instructor.

Laboratory experience in the curating, processing and analysis of prehistoric and historic artifacts recovered from archaeological sites. Includes human osteology, sex and age determination techniques, zooarchaeology, mammal and avian bone identification, and prehistoric ceramics.

Information: Same as ANT 250.

ARC 265 Mapping Concepts /1 cr. hr./1 period (1 lec.)

Introduction to the practical use of maps. Includes fundamental cartographic concepts, terminology and exercises.

Information: Same as ANT 265 and GEO 265.

ARC 267 Introduction to Geographic Information Systems / 3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ANT/ARC/GEO 265 or concurrent enrollment.

Recommended: Basic computer skills.

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.

Information: Same as ANT 267 and GEO 267.

ARC 270 Archaeological Materials /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in ANT/ARC 275 or ANT/ARC 276.

The handling, processing and curation of the materials acquired during field work as well as the information derived from them.

Information: May be taken four times for a total of four credit hours.

ARC 275 Archaeological Excavation I /4 cr. hrs./8 periods (2 lec., 6 lab)

Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona.

Information: Same as ANT 275.

ARC 276 Archaeological Exploration I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC 180 or concurrent enrollment, or consent of instructor.

Techniques and methods for recognizing, locating and recording archaeological sites. Includes fieldwork in southern Arizona.

Information: Same as ANT 276.

ARC 277 Archaeological Excavation II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC/ANT 205 and ARC/ANT 265 or concurrent enrollment, ARC/ANT 275, GLG 101, and consent of instructor.

Continuation of ARC/ANT 275. Includes advanced excavation techniques, field crew supervision, and selected field projects.

Information: Same as ANT 277.

ARC 278 Archaeological Exploration II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC/ANT 205 and ARC/ANT 265 or concurrent enrollment, ARC/ANT 276, GLG 101, and consent of instructor

Continuation of ARC 276. Includes archival investigation, advanced field techniques, crew supervision, and selected field projects.

Information: Same as ANT 278.

ARC 281 Global Positioning Systems I /2 cr. hr./2 periods (2 lec.)

Introduction to the use of GPS (Global Positioning Systems) receivers in a field setting for non-technical applications. Includes system configuration, data collection, and data transfer.

Information: Same as ANT 281.

ARC 282 Managing Archaeological Data /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): ANT/ARC 275 or ANT/ARC 276, CSA 101, and consent of instructor.

Organization and management of data associated with archaeological field work and collections. Includes collection strategies and techniques, application software, and data contexts.

Information: Same as ANT 282.

ARC 283 ArchaeoCAD /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CSA 101, and ARC/ANT 265 or concurrent enrollment. Computer aided drafting software emphasizing techniques and hardware appropriate for archaeological applications. Includes hardware configuration, approaches to CAD, and data collection techniques.

Information: Same as ANT 283.

ARC 284 Archaeocartography/Desktop Mapping /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ARC 265 or concurrent enrollment, CSA 101. Cartographic techniques and hardware for computer generation of maps. Includes software for cartography.

Information: Same as ANT 284 and GEO 284.

ARC 285 Field Mapping I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC/ANT 265 or concurrent enrollment, ARC/ANT 275, and consent of instructor.

Traditional surveying instruments and associated software for field mapping. Includes mapping strategies, instrument operation, field data techniques, and producing maps.

Information: Same as ANT 285.

ARC 286 Field Mapping II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): ARC 285 and consent of instructor.

Continuation of ARC 285. Includes electronic surveying instruments, computerized data collection systems, and associated software for mapping archaeological sites.

Information: Same as ANT 286.

ARC 289 Global Positioning Systems II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): ARC/ANT 265 or concurrent enrollment, ARC/ANT 281, CSA 101 and consent of instructor.

Continuation of ARC 281. Includes advanced applications of global positioning systems and related equipment. Also includes software applications and data manipulation.

Information: Same as ANT 289.

ARC 295 Field Projects /3 cr. hrs./9 periods (9 lab)

Prerequisite(s): Consent of instructor.

Participation in a field project in one of the subfields of anthropology.

Information: Same as ANT 295.

ARC 296 Independent Studies in ANT/ARC /5-3 cr. hrs./5-3 periods (.5-3 lab)

Prerequisite(s): Consent of instructor.

Students independently continue their studies in anthropology under the supervision of a faculty member.

Information: May be taken three times for a maximum of nine credit hours.

Information: Same as ANT 296.

ART

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ART 100 Basic Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to the elements and principles of visual design. Includes line, shape, space, value, texture, volume and color. Also includes skill development in organizing these elements and applying the visual principles of harmony, variety, balance, tension, rhythm, proportion, repetition, and contrast.

ART 105 Art Appreciation /3 cr. hrs./3 periods (3 lec.)

Introduction to the visual arts. Includes the exploration of aesthetic theory, art history, art criticism, and 2-D studio production. Also includes art theory, slide and digital exploration of major periods in World Art, studio activities in two-dimensional materials, and visits to local art museums.

ART 110 Drawing I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to drawing. Includes use of graphic media: pencil, charcoal, and ink on paper. Also includes elements of design as applied to representational drawing.

ART 115 Color and Composition /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to recognizing color principles and relationships and analyzing and duplicating colors. Includes creating the illusion of dimension, transparency, and luminosity in original design. Also includes the use of a variety of materials.

ART 120 Sculptural Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Recommended: ART 100 is strongly recommended for non-majors, and recommended for majors.

Extension of ART 100 into sculptural concepts and media. Includes study of volume, mass, and space relationships through modeling, casting, carving and construction.

ART 123 Lost Wax Sculpture Casting Workshop /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): ART 100 or equivalent art experience.

Fundamentals of art metal sculpture casting using the ceramic shell mold process. Includes wax design (direct and indirect), pattern making techniques, mold making, casting in bronze and aluminum and metal finishing processes.

ART 130 Art and Culture I /3 cr. hrs./3 periods (3 lec.)

Slide and lecture discussions of western civilization's major contributions to the development of sculpture, painting, and architecture. Includes a survey from prehistoric through Gothic art.

ART 131 Art and Culture II /3 cr. hrs./3 periods (3 lec.)

Continuation of ART 130. Includes western civilization's major contributions to the development of sculpture, painting, and architecture from the renaissance into the twentieth century.

ART 132 Modern Art Survey /3 cr. hrs./3 periods (3 lec.)

Survey of modern art trends in painting, sculpture, and architecture from the middle 19th century to recent times. Includes slide and lecture discussions which will emphasize both formal and contextual aspects of art works.

ART 133 Art in America /3 cr. hrs./3 periods (3 lec.)

Introductory survey of American art from the colonial period to the present. Includes emphasis on American painting, sculpture, decorative arts, and architecture as well as European influences. Also includes folk art, crafts, art of under represented Americans, and issues surrounding cultural production.

ART 134 Arts of Diverse Cultures /3 cr. hrs./3 periods (3 lec.)

Introduction to the artistic traditions of Asia, Africa, Oceania, Native North America, Mesoamerica, and South America. Includes social/cultural contexts of art works and issues of Western interpretation of non-Western art.

ART 135 Pre-Columbian Art /3 cr. hrs./3 periods (3 lec.)

Survey of the art and architecture of the Americas from the earliest times to the period of the Spanish conquest. Includes archeology, art history, ethnohistory, folklore, ethnography, and literature of Pre-Columbian peoples. Also includes recognition of major art styles and important sites.

Information: Same as ANT 135 and HIS 135.

ART 136 Masks /3 cr. hrs./3 periods (3 lec.)

Survey of traditional masks and sculpture of the tribal peoples of North America, Africa, Asia, Indonesia, and Oceania. Includes archeology, art history, ethnohistory, folklore, ethnography, and literature of tribal peoples. Also includes recognition of major art styles and their cultural relationships.

Information: Same as ANT 136 and HIS 136.

ART 140 Photography I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to black and white photography as an art form with an emphasis on fundamental technique of the camera and darkroom. Includes film development, printing, beginning portfolio development and historical content.

ART 141 Photography II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 140.

Principles and processes of intermediate black and white photography. Includes developing a personal vision and utilizing archival procedures.

ART 143 Commercial Photography /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 141.

Introduction to principles and practices of photography as a business. Includes materials, equipment, facilities, and technologies. Also includes both traditional and digital methods.

ART 160 Ceramics I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100 or concurrent enrollment.

Introduction to ceramics. Includes wheel and hand-built forms and basic glazing techniques.

ART 164 Raku Pottery Workshop /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): ART 160 or equivalent ceramic experience.

Introduction to Raku, a low temperature, quick-firing ceramics method developed in Sixteenth Century Japan. Includes traditional and contemporary approaches involved in clay body composition, in the forming, glazing and firing of pots and in Raku kiln building.

ART 170 Metalwork I: Jewelry /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Exploration of the basic techniques and design approaches used in the fabrication of jewelry and other metalwork. Includes construction, casting, forming, surface embellishment, and other techniques.

ART 172 Knife Making Workshop /1 cr. hr./1.7 periods (.7 lec., 1 lab)

Prerequisite(s): ART 100 or equivalent art experience.

Introduction to essential processes used in knife making. Includes design, layout, materials, angle structure, forging, heat treating, and finishing. Also includes ornamentation methods such as inlay, engraving, chasing and etching.

ART 174 Blacksmithing Workshop /1 cr. hr./1.7 periods (.7 lec., 1 lab)

Prerequisite(s): ART 100 or equivalent art experience.

Introduction to design, layout, materials fuels, forge making and practices. Includes hot-working ferrous and non-ferrous metals, tool making and heat treating.

ART 180 Weaving I: Four-Harness Loom /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Weaving on a four-harness loom. Includes projects involving color, texture, pattern, and the use of tabby, twill, tubular, textural, and tapestry weaves in the creation of clothing and fiber art.

ART 181 Mixed Media Fibers /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to fiber as an art medium. Includes fiber processes such as basketry, crochet, macrame, plaiting, surface design, and mixed media.

ART 210 Drawing II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 110.

Continuation of ART 110. Includes further development of imaginative and technical skills in the use of space and graphic design. Also includes the development of a portfolio of finished drawings.

ART 212 Printmaking I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to basic aesthetics and techniques of printmaking. Includes intaglio etching, relief printing, and monotypes.

ART 213 Life Drawing /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Recommended: ART 110.

Drawing the human figure using the two-dimension concept as a graphic vehicle of expression. Includes opportunities to work in various media.

ART 214 Printmaking II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 212.

Continuation of ART 212. Includes advanced problems in aesthetics and techniques of intaglio etching, relief printing, and monotypes. Also includes an introduction to alternative, non-traditional approaches.

ART 215 Painting I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 110.

Recommended: ART 115.

Studio course in beginning oil painting. Includes still-life object painting, landscape and figure studies. Also includes palette-mixing technique and stretcher bar building.

ART 216 Screenprinting I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 100.

Introduction to screenprinting using water base and inks. Includes screen construction, the use of cut film, photo emulsion, stencil making techniques, printing techniques, and one-color and multi-color process work.

ART 217 Painting II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 115, 215.

Continuation of ART 215. Includes advanced principles and practice of painting techniques. Also includes mixed media, the art market, and contemporary painting methods.

ART 218 Screenprinting II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 216.

Continuation of ART 216. Advanced work in blockout, cut film, photo emulsion, photo film, and experimental stencil-making techniques.

Information: Students may select areas of interest for concentration and refinement of skills.**ART 219 Printmaking III /3 cr. hrs./5 periods (2 lec., 3 lab)**

Prerequisite(s): ART 214.

Continuation of ART 214. Includes non-traditional approaches to printmaking such as monotypes, planographic, or mixed media processes. Also involves advanced problems in traditional intaglio etching.

ART 220 Sculpture II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 120.

Exploration of various methods and materials used in sculpture. Methods may include modeling, casting, metal forming, construction techniques and carving. Materials may include plaster, clay, cement, bronze, aluminum, steel, copper, wood, plastics, wax and mixed media.

ART 230 History of Photography /3 cr. hrs./3 periods (3 lec.)

Introduction to the history of photography from 1839 to contemporary schools. Includes development of the technical aspects of photography, styles, movements and its relationship to artistic and cultural heritage.

ART 260 Ceramics II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 160.

Continuation of ART 160. Includes further development of wheel thrown and hand-built forms, glaze composition, and application techniques.

ART 261 Ceramics III /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 260.

Advanced study for students who demonstrate mastery of ceramic skills and principles taught in ART 160 and 260. Includes clay composition, glaze calculation, and advanced design problems.

ART 262 Ceramics IV /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 260.

Advanced study for students who wish to design ceramic projects that would fit into an architectural setting. Includes the exploration of creative processes and the use of different approaches, materials, and technology to achieve design goals.

ART 270 Metalwork II: Jewelry /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 170.

Jewelry design and production techniques. Includes casting, construction, cold forging, and stone setting in precious and non-precious metals.

ART 271 Metalwork II: Smithing and Casting /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 170.

Design and production of aesthetic and functional objects. Includes hot and cold forging, raising, forming, and casting using various metals such as copper, silver, bronze, steel, iron, and aluminum.

ART 280 Weaving II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ART 180.

Continuation of ART 180. Includes advanced study for students experienced on multi-harness looms. Students may select areas of interest for in-depth exploration.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I1) Independent Study in ART: Art History /1-3 cr. hrs./ 2-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in art history. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I2) Independent Study in ART: Ceramics /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in ceramics. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I3) Independent Study in ART: Metals /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in metals. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I4) Independent Study in ART: Painting, Drawing, and Design /1-3 cr. hrs./3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in painting, drawing, and design. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I5) Independent Study in ART: Photography /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in photography. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I6) Independent Study in ART: Printmaking /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in printmaking. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I7) Independent Study in ART: Sculpture /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in sculpture. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART 296 (I8) Independent Study in ART: Fibers /1-3 cr. hrs./ 3-5 periods (1-2 lec., 1-3 lab)**

Prerequisite(s): Consent of instructor.

Advanced projects in fibers. Content to be determined by conference between student and instructor.

Information: May be taken four times for a maximum of twelve credit hours.**ART FOR PERSONAL DEVELOPMENT***For courses numbered 098, 198, 298, see "Topics Courses" in index.***APD 050 Photography /2 cr. hrs./4 periods (1 lec., 3 lab)**

Introduction to black and white photography for personal use. Includes history of photography, introduction to the camera, principles of film, and darkroom orientation.

APD 051 Mariachi Music I /2 cr. hrs./4 periods (1 lec., 3 lab)

Practical application of mariachi music skills. Includes an introduction to mariachi music, reading music, playing and transposing songs and melodies, and learning the basics of ensemble singing. Also includes the care and maintenance of various mariachi musical instruments.

APD 056 Mexican Mural Painting /2 cr. hrs./4 periods (1 lec., 3 lab)

Introduction to and application of the principles of Mexican mural painting. Includes historical events that influenced the birth of mural art, prominent painters in Europe and Mexico that influenced mural art, events that influenced Chicano mural art in the United States, and applying the principle median of mural art.

APD 062 Acrylic and Oil Painting I /2 cr. hrs./4 periods (1 lec., 3 lab)

Introduction to oil and acrylic painting. Includes painting preparation, composing and building paintings, and developing a personal vision.

APD 063 Acrylic and Oil Painting II /2 cr. hrs./4 periods (1 lec., 3 lab)

Intermediate painting for further development of the techniques. Includes review of painting preparation, intermediate composing and building paintings, and intermediate development of a personal vision.

APD 064 Acrylic and Oil Painting III /2 cr. hrs./4 periods (1 lec., 3 lab)

Recommended: APD 063.

Advanced painting for techniques, color knowledge, and content sources. Includes review preparation, advanced level of composing, and building paintings, and advanced development of a personal voice and vision.

APD 065 Watercolor I /2 cr. hrs./4 periods (1 lec., 3 lab)

Introduction to watercolor painting for personal use. Includes watercolor materials, properties of watercolor pigments, and watercolor application methods.

APD 066 Watercolor II /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 065.

Progressive watercolor methods. Includes use of photographs and drawings, watercolor styles, watercolor applications, and beginning experimentation.

APD 067 Watercolor III /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 065.

Additional progressive watercolor methods. Includes intermediate watercolor applications, and intermediate experimentation.

APD 068 Watercolor IV /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 065.

Continuation of progressive watercolor methods. Includes advanced watercolor applications and advanced experimentation.

APD 072 Mariachi Music II /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 051.

Continuation of APD 051. Includes history of the mariachi, types of rhythms, and songs that are indigenous to the culture of Mexico.

APD 073 Mariachi Music III /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 072.

Continuation of APD 072. Includes basic music and style, keys, relationship of tonality to keys, and rhythmic patterns.

APD 076 Art Appreciation /3 cr. hrs./5 periods (2 lec., 3 lab)

Examination of contemporary art and understanding of the artistic heritage in visual world art. Includes museum and gallery visits, discussion with artists and visits to their studios.

Information: Experimental drawing and sculpture done in class.

APD 077 Mariachi Music IV /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 073.

Continuation of APD 073. Includes history and evolution of mariachi music, ear training, rhythm types, tonality and its application, and vocal training.

APD 078 Mariachi Music V /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): APD 077.

Continuation of APD 077. Includes music theory, rhythms and patterns, rhythmic applications, advanced tonality application techniques, performance and gesturing techniques, and execution of songs.

ASTRONOMY*For courses numbered 098, 198, 298, see "Topics Courses" in index.***AST 101 Solar System /3 cr. hrs./3 periods (3 lec.)**

Descriptive and historical introduction to the science of astronomy focusing on the sun and its family of planets. Includes comets, origin of the solar system, the space program and critiques of related pseudosciences, e.g., astrology.

AST 101LB Solar System Laboratory /1 cr. hr./3 periods (3 lab)

Laboratory for AST 101 involving exercises, star gazing sessions and field trips to planetariums and observatories.

AST 102 Stars, Galaxies, Universe /3 cr. hrs./3 periods (3 lec.)

Introduction to the universe beyond the solar system. Includes the nature of light, how astronomers and telescopes work, the possibilities of alien life in the universe, quasars, pulsars and black holes. Also includes the origin, nature and future of the universe.

AST 102 LB Stars, Galaxies, Universe Laboratory /1 cr. hr./3 periods (3 lab)

Laboratory for AST 102 involving exercises, star gazing sessions and field trips to planetariums and observatories.

AST 105 Life in the Universe /3 cr. hrs./3 periods (3 lec.)

The science of astronomy focusing on the formation of the universe, the solar system, and life. Includes Earth's location in space and time, nature of life, light and the spectrum, origin of the universe, galaxies and stars, origin of the solar system, planetary atmospheres, origin of life on Earth, life on other solar system planets, and life around other stars.

AST 105LB Life in the Universe Laboratory /1 cr. hr./3 periods (3 lab)

Prerequisite(s): AST 105 or concurrent enrollment.

Laboratory for AST 105 involving observations, experiments and image analysis. Includes scientific and photogeology laboratory exercises, group telescopic observation projects, and personal observation projects.

AST 296 Independent Study in Astronomy /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Experience in astronomical research, projects, or topical studies. Specific content to be determined by student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.**AUTOMOTIVE TECHNOLOGY***For courses numbered 098, 198, 298, see "Topics Courses" in index.***AUT 089 Small Engine Troubleshooting and Repair /2 cr. hrs./4 periods (1 lec., 3 lab)**

Principles and procedures for overhauling, troubleshooting and repairing small engines. Includes safety, engine types and identification, engine operation and maintenance, disassembly and inspection, engine reconditioning and assembly, fuel and ignition system assembly, and mechanical operation and testing.

AUT 101 Automotive Maintenance /2 cr. hrs./4 periods (1 lec., 3 lab)

Techniques of routine vehicle maintenance. Includes customer vehicle identification and handling, new vehicle pre-delivery inspection and preparation, safety inspection, lubrication tasks, and light line tasks.

AUT 105 Light Line Maintenance /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for light line service. Includes safety, transmission and driveline systems, brake systems, air conditioning/heating systems, electrical systems, suspension/steering systems, engine performance, and tools and equipment.

AUT 120 Engine Diagnosis and Repair /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for light line engine service. Includes personal and environmental safety, general engine diagnosis, engine in-car repair, lubrication system diagnosis and repair, and cooling system diagnosis and repair.

AUT 122 Engine Removal and Installation /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for heavy line engine exchange. Includes personal and environmental safety, front wheel drive engine removal and installation, and rear wheel drive engine removal and installation.

AUT 124 Automotive Diesel Engine Tune-up /3 cr. hrs./7 periods (1 lec., 6 lab)

Maintenance of automotive diesel engines. Includes tune-up, assembly and calibration of fuel injectors, and diagnosis and repair of glow plug electronic control systems.

AUT 125 Tune-up and Emissions Troubleshooting /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for diagnosing ignition, fuel, and mechanical control systems. Includes two and four barrel and computerized feedback carburetors, manifold system test and replacement, point and electronic ignition testing, replacement, and adjustment, emissions troubleshooting, timing belt replacement, and duraspark ignition analysis.

AUT 126 Engine Performance and Driveability Troubleshooting /3 cr. hrs./7 periods (1 lec., 6 lab)

Diagnosis, service, and repair of computerized engine control systems. Includes turbo-charged and multi-port fuel injection, hall-effect ignition, throttle body injection, General Motors and Bosch sequential injection with distributorless, and direct ignition, and computerized emissions control systems.

AUT 128 Automotive Electrical Fundamentals and Applications /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures of electrical diagnosis and repair. Includes electrical fundamentals and test equipment, electrical system, battery, starting system, charging system, lighting systems, instrumentation, horn and wiper/washer, integrated circuits, and computerized control systems.

AUT 129 Automotive Electrical Accessories /3 cr. hrs./7 periods (1 lec., 6 lab)

Electrical circuit diagnosis, repair, and replacement. Includes electrical fundamentals and test equipment, accessory diagnosis and repair, tilt steering column repair, and electrical connectors and terminal replacement.

AUT 132 Automotive Drivetrain Removal and Replacement /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for automatic driveline component exchange. Includes safety, automatic transmission and transaxle, manual drive train, rear axle and drive shaft, and sub-frame assemblies.

AUT 133 Automatic Transmission/Transaxle Rebuilding /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for overhaul. Includes safety, automatic transmission rear wheel drive, automatic transaxle front wheel drive, and electronically controlled automatic transmission and transaxle.

AUT 136 Automotive Manual Transmission and Driveline Service / 3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for automotive driveline component overhaul. Includes safety, manual transmissions, front and rear axle assemblies, and transfer cases.

AUT 138 Automotive Suspension Systems /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for automotive suspension system service. Includes safety, adjustment and repair of front and rear suspension systems, and related suspension component service.

AUT 139 Automotive Steering and Alignment Systems /3 cr. hrs./7 periods (1 lec., 6 lab)

Principles and procedures for automotive steering and alignment systems service. Includes safety, manual and power steering systems, wheel alignment diagnosis, adjustment, and repair, and wheel and tire diagnosis and repair.

AUT 140 Automotive Brakes /3 cr. hrs./7 periods (1 lec., 6 lab)

Service, repair, and diagnosis of hydraulic brake systems. Includes disc/drum and disc/disc brakes, hydraulic cylinders, disc brake caliper, machining and fabrication, and rear wheel and four wheel anti-lock brake diagnosis.

AUT 142 Automotive Air Conditioning /3 cr. hrs./7 periods (1 lec., 6 lab)

Diagnosis and repair of automotive air conditioning systems. Includes personal and environmental safety, air conditioning system diagnosis and repair, component diagnosis and repair, heating and engine cooling diagnosis and repair, operating systems and controls diagnosis and repair, and automatic and semi-automatic temperature control performance test.

AUT 150 Non-Structural Collision Repair: Panel Replacement / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for replacing automobile non-structural damage. Includes personal and environmental safety, determining needed repairs, hinged component replacement, fixed component replacement, and moveable glass repair/replacement.

AUT 151 Non-Structural Collision Repair: Panel Straightening / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for repairing automobile non-structural damage. Includes personal and environmental safety, determining needed repairs, metal straightening, lights, trim, and appliques, and plastic and fiber-glass fillers.

AUT 152 Structural Collision Repair: Cutting and Welding / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for basic collision repair welding and cutting. Includes personal and environmental safety, vehicle protection measures, cutting and heating processes, and gas metal arc welding.

AUT 153 Structural Collision Repair: Unibody Measurement and Straightening /3 cr. hrs./7 periods (1 lec. 6 lab.)

Techniques for repairing unibody structural damage. Includes personal and environmental safety, visual damage assessment, damage measurement and analysis, and straightening structural members.

AUT 154 Structural Collision Repair: Unibody Components / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for replacing damaged unibody structural components. Includes personal and environmental safety, structural panel sectioning or replacement, stationary glass replacement, and anti-corrosion protection.

AUT 155 Structural Collision Repair: Alloy Welding Processes / 3 cr. hrs./7 periods (1 lec., 6 lab.)

Techniques and processes for collision repair welding. Includes personal environment safety, vehicle protection measures, resistance spot welding, Metal Inert Gas (MIG) aluminum welding, Tungsten Inert Gas (TIG) aluminum welding, and oxyacetylene welding.

AUT 156 Structural Collision Repair: Body-Over Frame /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for repairing Body-Over Frame (BOF) structural collision

damage. Includes personal and environmental safety, BOF damage assessment, measurement, and repair.

AUT 157 Automotive Collision Repair: Non-Metal Components / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for repair of automotive plastics. Includes personal and environmental safety, plastic identification, adhesive repairs, plastic welding repairs, padded dash repair, Simulated Metal Component (SMC) repairs, and plastic refinishing.

AUT 158 Automotive Collision Estimating /3 cr. hrs./3 periods (3 lec.)

Techniques for developing collision repair estimates. Includes personal and environmental safety, damage analysis, and manual and computer prepared damage reports.

AUT 160 Automotive Collision Repair: Surface Refinish Preparation /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for preparing automobiles for refinish. Includes personal and environmental safety, finish identification, surface cleaning and preparation.

AUT 161 Automotive Collision Repair: Paint Mixing and Application /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for paint mixing, matching and applying. Includes personal and environmental safety, spray gun and related equipment, paint mixing and matching, paint application on metal, and paint application on plastics.

AUT 162 Automotive Collision Repair: Solving Paint Application Problems /3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques for identifying and correcting paint application problems. Includes personal and environmental safety, surface preparation problems, non-compatible materials/mis-identification, paint mixing problems, and spray techniques and equipment problems.

AUT 163 Automotive Collision Repair: Refinish Final Detail / 3 cr. hrs./7 periods (1 lec., 6 lab)

Techniques to assure vehicle appearance and customer satisfaction. Includes personal and environmental safety, overspray removal, buffing and polishing vehicle refinish, applying accents, and vehicle cleaning.

AUT 180 Vehicle Inspection / .25 cr. hr./ .75 period (.75 lab)

Prerequisite(s): AUT 101, 105, 139 or equivalent experience and consent of instructor.

Rack and lift a vehicle for determining vehicle condition. Includes vehicle inspection - ground level and hoisted, work and parts orders, and report of findings.

AUT 185 Automotive Shop Skills Application / .5-3 cr. hrs./ 1.5-9 periods (1.5-9 lab)

Prerequisite(s): Completion of an AUT prefix course in the same specialty area and consent of instructor.

Light line diagnosis and repair of daily use vehicles. Includes preparing repair orders, complaint procedures, researching service data, vehicle service and repair tasks, and shop maintenance.

AUT 199 Co-op Related Class in AUT /1 cr. hr./1 period (1 lec.)

See Cooperative Education for description.

AUT 199WK Co-op Work in AUT /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education for description.

AUT 261 Automotive Service Excellence (ASE) Test Preparation / 1 cr. hr./3 periods (3 lab)

Prerequisite(s): Field experience or five automotive classes, and consent of instructor.

Automotive Service Excellence (ASE) certification test review. Includes engine repair, electrical systems, engine performance, suspension and steering, brakes, air conditioning and heating, automatic transmission and transaxles, manual drive trains and axles, and Automotive Service Excellence test taking strategies.

AUT 262 Throttle Body Fuel Injection /1 cr. hr./3 periods (3 lab)

Prerequisite(s): Field experience or five automotive classes, and consent of instructor.

Diagnosis, service and repair of a throttle body computerized engine control system. Includes engine compartment familiarization, throttle body fuel system, magnetic ignition system, and emission controls.

AUT 263 Sequential Fuel Injection /1 cr. hr./3 periods (3 lab)

Prerequisite(s): Field experience or five automotive classes, and consent of instructor.

Diagnosis, service and repair of sequential computerized engine control systems. Includes engine compartment familiarization, sequential fuel system, distributorless ignition system, and emissions control.

AUT 264 Engine Overhaul/Rebuild /3 cr. hrs./7 periods (1 lec., 6 lab)

Prerequisite(s): Field experience or five automotive classes, and consent of instructor.

Diagnosis, repair, and machining of engine components. Includes personal and environmental safety, overhead valve cylinder head, overhead cam cylinder head, engine block, crankshaft, flywheel, vibration damper, camshaft, bearings, timing mechanisms, connecting rod, and piston assembly.

AUT 265 Automotive Service Excellence (ASE) Advanced Engine Diagnosis (L1) Test Preparation /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Current ASE - A8 Certification.

Review of the materials and procedures for the ASE L1 test. Includes safety and advanced engine performance diagnosis.

AUT 266 Advanced Engine Performance and Waveform Analysis / 2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): AUT 126 or consent of instructor.

Theory and diagnosis of computerized engine control systems. Includes safety and hazardous material handling, procedural direction and documentation, four and five gas emission analysis, waveform scope analysis, computer program strategies, alternative diagnostic methods and case studies.

AUT 297 Automotive Seminar: / .25-4 cr. hrs./ .25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Automotive job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

AUT 299 Co-op Related Class in AUT /1 cr. hr./1 period (1 lec.)

See Cooperative Education for description.

AUT 299WK Co-op Work in AUT /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education for description.

AVIATION TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

AVM 101 Structural Repair I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): Concurrent enrollment in AVM 115.

Recommended: Mathematics assessment above MAT 082.

Structural repair of fuselage, wings and empennage groups. Includes safety, hand and machine cutting, and measuring tools. Also includes layout methods and structural repair processes.

AVM 102 Structural Repair II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): AVM 101.

Continuation of AVM 101. Includes safety, bend allowance, layout, fasteners, machine usage, patching techniques and structural repair techniques.

AVM 105 Aircraft Sheetmetal Repair /4 cr. hrs./8 periods (2 lec., 6 lab)

Principles and procedures for fuselage, wing, and empennage sheetmetal repair. Includes safety, handtools, layout methods, materials, fasteners, repair techniques, parts fabrication, and corrosion prevention and control.

AVM 110 Aircraft Blueprint Reading /3 cr. hrs./3 periods (3 lec.)

Aircraft Blueprint Reading. Includes measurements, tools, drawing and lay-out equipment, views and projections, types of drawing and reference lines, drawing format, fastener code block, geometric construction and aircraft blueprint interpretation.

AVM 112 Composite Fabrication /3 cr. hrs./5 periods (1 lec., 4 lab)

Construction and processes using advanced composite materials, to include reinforcing fibers, matrix and core materials, manufacturing processes, composite safety, tools and equipment.

AVM 114 Regulatory Requirements /3 cr. hrs./3 periods (3 lec.)

Outlines the procedures, manuals, regulations and documents used in performing repairs, installations or alterations on aircraft interiors, includes hazardous material regulations and procedures.

AVM 115 Applied Aircraft Mathematics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 086 or assessment at the MAT 092 level.

Mathematic functions used in structural repair work. Includes whole numbers, fractions, decimals, single numbers, percentages, ratio, measurement of area and volume and trigonometric functions.

AVM 116 Tool Usage and Safety /2 cr. hrs./2 periods (2 lec.)

Safety precautions and equipment used while performing repair, installation or alterations to an aircraft. Basic hand tools, standard shop equipment, specialty equipment fixtures used while working with wood, metal and composites.

AVM 120 Aviation Electricity /4 cr. hrs./5 periods (3 lec., 2 lab)

Theory and application of direct- and alternating-current electrical systems in aircraft. Includes electron theory, common circuit design, aircraft schematics, and the application of Ohm's Law in troubleshooting aircraft DC and AC electrical systems.

AVM 121 Aircraft Interior Installer I /5 cr. hrs./7 periods (1 lec., 6 lab)

Basic construction techniques for sheet metal and composite fixtures used in aircraft interiors. Includes machining of these materials, fastener installation, forming, preservative coatings, layout and marking to facilitate fabrication or assembly.

AVM 122 Aircraft Interior Installer II /5 cr. hrs./7 periods (1 lec., 6 lab)

Prerequisite(s): AVM 121.

Continuation of AVM 121. Includes airframe preparation for the installation, attachment and fitting of insulation, sound proofing,

carpeting, wall and window panels. Also includes procedures and techniques for finish and touch-up painting.

AVM 123 Airframe Familiarization /3 cr. hrs./3 periods (3 lec.)

Structure and system functions of aircraft. Includes fuselage, control systems, support systems, ground handling and servicing and publications.

AVM 124 Aircraft Interior Installer III /5 cr. hrs./7 periods (1 lec., 6 lab)

Prerequisite(s): AVM 122.

Continuation of AVM 122. Includes final installation of fixtures and support equipment, functional testing for fit, alignment trim and detail checks and touch up procedures. Also includes removal of protective coverings and temporary restraint devices to ready the interior for the acceptance inspection.

AVM 130 Aircraft Composite Materials and Repair /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): Consent of instructor.

Construction and processes using advanced composite materials. Includes reinforcing fibers, matrix and core materials, manufacturing of components, composite safety, curing wet layup and prepreg repairs, tools and equipment, assessment of repairs, and repair procedures.

AVM 150 Structural Repair III /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): AVM 102.

Continuation of AVM 102. Includes repair publications, materials handling, cable fabrication, machining processes, protective coatings, hand forming and structural repair processes.

AVM 151 Structural Repair IV /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): AVM 150.

Continuation of AVM 150. Includes tube and hose fabrication, locking fasteners, damage classifications and structural repair processes.

AVM 160 Aircraft Materials and Metallurgy /3 cr. hrs./3 periods (3 lec.)

Characteristics and properties of aircraft structural metals. Includes ferrous and non-ferrous metals, surface treatment, alloying, corrosion control and destructive and non-destructive testing.

AVM 165 Aircraft Hardware and Fasteners /3 cr. hrs./3 periods (3 lec.)

Aircraft structural repair hardware and fasteners. Includes specifications and standards, types, control linkages, tubing, hose and packings.

AVM 170 Aircraft Powerplant Familiarization /3 cr. hrs./3 periods (3 lec.)

Aircraft powerplant functions and systems. Includes reciprocating and turbine engine powerplants, requirements, hazards and safety, nacelles, cowling pylon and mounting systems and foreign object damage.

AVM 203 Structural Repair V /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): AVM 151, 160.

Continuation of AVM 151. Includes jiggging, shoring and alignment, corrosion and heat treatment and structural repair processes.

AVM 204 Structural Repair VI /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): AVM 203.

Continuation of AVM 203. Includes sealants and sealant applications, heat treatment, plastics and plastic repairs and structural repair processes.

AVM 210/210LB Advanced Composite Aircraft Repair I /5 cr. hrs./7 periods (4 lec., 3 lab.)

Prerequisite(s): AVM 101, 103, or 110 and 115 (can be taken concurrently).

Theory and application of composite materials utilized in aircraft construction. Includes material types, handling and storage, manufacturing techniques, design criteria, safety, tool and equipment usage, damage and repair assessment, repair techniques, fastening systems, and documentation. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core structures.

AVM 220 Airframe Structures /6 cr. hrs./8 periods (4 lec., 4 lab)

Prerequisite(s): 30 months of experience, concurrently performing the duties of airframe and power plant maintenance, or 18 months of experience performing the duties appropriate to this rating.

Principles and techniques of maintaining, repairing and building airframe structures. Includes federal aviation regulations, aerodynamic principles, assembly and rigging, weight and balance, woodworking techniques, welding and metallurgy, fabric coverings, aircraft finishes and structural repair.

AVM 221 Airframe Systems and Components /6 cr. hrs./8 periods (4 lec., 4 lab)

Prerequisite(s): 30 months of experience, concurrently performing the duties of airframe and power plant maintenance, or 18 months of experience performing the duties appropriate to this rating.

Theory of operation, repair and maintenance of various aircraft systems and components. Includes direct current electrical systems, repair and trouble-shooting, hydraulic and pneumatic systems, aircraft instrumentation, communication and navigation systems, air conditioning and pressurization, fire detection and extinguishing systems, and aircraft fuel systems.

AVM 230 Power Plant Mechanics /6 cr. hrs./8 periods (4 lec., 4 lab)

Prerequisite(s): 30 months of experience, concurrently performing the duties of airframe and power plant maintenance, or 18 months of experience performing the duties appropriate to this rating.

Repair and maintenance of aircraft power plants. Includes reciprocating and gas turbine engines, theory of operating construction, overhaul procedures, lubrication systems, fuel metering systems, ignition systems, propellers and engine testing.

AVM 250 Structural Repair VII /4 cr. hrs./10 periods (1 lec., 9 lab)

Prerequisite(s): AVM 204.

Simulated industry repair performance. Includes quality assurance, required paperwork and repairs to aircraft structures.

AVM 260/260LB Advanced Composite Aircraft Repair II /4 cr. hrs./10 periods (1 lec., 9 lab.)

Prerequisite(s): AVM 210.

Theory and application of composite and bonded metal structures utilized in aircraft construction. Includes repair methods selection, source documents, repair methods and design criteria, bonded metal repairs, tank and non-tank processing, priming, and environmental considerations. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core, and bonded metal structures.

AVM 297 Aviation Seminar: /25-4 cr. hrs./25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Aviation job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

BIOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

BIO 083 Oceanus: Marine Environment /3 cr. hrs./3 periods (3 lec.)

The marine environment as a unique feature of the planet Earth. Includes the formation of oceans, world-wide weather patterns, life forms in ocean environments from the intertidal zone to deep-sea rifts, the status of dolphins and whales and the future of the oceans in relation to the human species.

BIO 100IN Biology Concepts /4 cr. hrs./6 periods (3 lec., 3 lab)

Basic principles and concepts of biology. Includes methods of scientific inquiry, cell structure and chemistry, metabolism, reproduction, genetics, evolution, and ecology.

BIO 104IN Animal Sexual Behavior /4 cr. hrs./6 periods (3 lec., 3 lab)

Exploration of animal mating patterns via behavioral research. Includes the scientific process, evolution, animal diversity, genetics, and ecology.

BIO 105IN Environmental Biology /4 cr. hrs./6 periods (3 lec., 3 lab.)

Fundamentals of ecology and their relevance to human impact on natural ecosystems. Includes ecosystem structure and function, population dynamics, and human impacts on air, water, land, and biodiversity.

BIO 109IN Natural History of the Southwest /4 cr. hrs./6 periods (3 lec., 3 lab)

Study of the common plants and animals of the Southwest. Includes their distribution, adaptation, behavior and ecology. Also includes physical geography and geological principles of the region.

BIO 115IN Wildlife of North America /4 cr. hrs./6 periods (3 lec., 3 lab)

Introduction to the mammals, birds, fish, reptiles, amphibians and selected invertebrates of North America. Includes habitats, wildlife interrelationships, population dynamics, and discussion of national, state, and private wildlife agencies. Also includes a laboratory emphasis on native Arizona species.

BIO 127IN Human Nutrition and Biology /4 cr. hrs./6 periods (3 lec., 3 lab)

Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis. Emphasizes laboratory experience that utilizes current technologies in the study of nutritional biochemistry and biochemistry-based nutritional assessment.

Information: Same as FSN 127.

BIO 156IN Human Biology for Allied Health /4 cr. hrs./6 periods (3 lec., 3 lab)

Introduction to biology for the health professions. Includes basic chemistry of life, cell and tissue structure and function, and patterns of inheritance.

BIO 160IN Introduction to Human Anatomy and Physiology /4 cr. hrs./6 periods (3 lec., 3 lab)

Structure and dynamics of the human body. Includes foundations such as chemical, cellular and tissue levels of organization. Also includes major structures and functions of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems.

**BIO 181IN General Biology I: (Majors) /4 cr. hrs./6 periods (3 lec., 3 lab)**

Prerequisite(s): Equivalent of one semester college chemistry.

Assessed placement at MAT 122 and REA 091.

Principles of structure and function of living things at the molecular, cellular and organismic levels of organization. Includes scientific process; chemistry of the cell; cell structure, function, and reproduction; inheritance; molecular biology and biotechnology.

BIO 182IN General Biology II: (Majors) /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BIO 181 or consent of instructor.

Additional principles of structure and function of living things at molecular, cellular, organismic and higher levels of organization. Includes evolution, classification and diversity of organisms, structure and function of organisms, and ecology.

BIO 183IN Marine Biology /3 cr. hrs./5 periods (2 lec., 3 lab)

Survey of marine environments and their biotic communities with emphasis on the natural history of marine organisms (from sponges to whales). Includes lab work.

Information: Field trip required.

BIO 184IN Plant Biology /4 cr. hrs./6 periods (3 lec., 3 lab)

Study of principles and processes in plant biology with emphasis on vascular plants. Includes survey of plant kingdom.

BIO 187IN Introduction to Biological Research /4 cr. hrs./6 periods (3 lec., 3 lab)

Introduction to the methods of research in biology. Includes scientific laboratory procedures, experimental design, scientific writing, bioethics, and current research in working laboratories.

BIO 201IN Human Anatomy and Physiology I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BIO 156 with a grade of C or better or a passing grade on the biology assessment test.

Structure and function of the body. Includes cells, tissues, membranes, and the integumentary, skeletal, muscular, and nervous systems.

BIO 202IN Human Anatomy and Physiology II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BIO 201 with a grade of C or better.

Continuation of BIO 201. Includes the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems.

BIO 204IN Survey of Human Diseases /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): An introductory anatomy and physiology course or equivalent.

Examination of disease processes and their effects on the systems of the human body.

Information: Primarily for students in the health occupation programs, but also open to students who wish to take a lab-science course.

BIO 205IN Microbiology /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): One semester of a biological science.

Study of microorganisms and their relationship to health, ecology, and related fields. Includes classification, metabolism, microbial control, and immunity. Also includes an overview of viruses and the pathogenic fungi.

BIO 289 Fostering and Achieving Cultural Equity and Sensitivity for Health Professions (FACES) /3-4 cr. hrs./7-8 periods (1-2 lec., 6 lab)

Introduction to current health care opportunities and issues affecting health care. Includes guided rotations in a hospital and/or clinic. Also includes a speaker series that focuses on issues of diversity that impact health care in the United States today and opportunities in the health care professions.

Information: This course is offered in collaboration with the Office of Minority Affairs and the University of Arizona.

BIO 295 Independent Research in Biology /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): One semester of biology and consent of instructor.

Experience in scientific laboratory or field research. Specific content to

be determined by student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.

BIO 296 Special Projects /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): One year of biology.

Exploration of special interest areas. Content to be determined by student and facilitator/instructor.

Information: May be taken two times for a maximum of eight credit hours.

BUILDING AND CONSTRUCTION TECHNOLOGIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

BCT 060 Building and Construction Technologies Pre-Vocational Mathematics /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Mathematics assessment required.

Developmental mathematics for vocational programs. Includes whole numbers, decimals, common fractions, and improper fractions.

BCT 100 Professionalism in Service for Building and Construction Technologies /1 cr. hr./1 period (1 lec.)

Procedures in business and customer service. Includes an introduction to professionalism, self-evaluation, service routine, dealing with a dissatisfied customer, and problem situations.

BCT 101 Principles of Construction /3 cr. hrs./3 periods (3 lec.)

Building the human environment. Includes introduction to the construction industry, types of construction, regulations, patterns as a concept, methods, and construction process.

BCT 102 Building Materials /3 cr. hrs./3 periods (3 lec.)

Construction standards and specific types of building materials used in commercial, industrial, and private construction projects. Includes construction standards, site work, concrete, masonry, metals, wood and wood products, thermal and moisture protection, doors and windows, finishes, specialties, equipment, furnishings, special construction, conveying systems, mechanical systems, and electrical systems.

BCT 103 Principles and Concepts for HVAC-R /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116 or concurrent enrollment.

Basic air conditioning and refrigeration fundamentals. Includes air conditioning and refrigeration cycle, measuring temperature and pressures, mechanical refrigeration cycle, types of systems, compressors, condensers, evaporators, metering devices, controls, refrigeration cycle accessories, and refrigeration service techniques.

BCT 104 Introduction to Equipment Maintenance /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116 or concurrent enrollment.

Procedures and concepts for maintaining buildings in a commercial/industrial setting. Includes preventative maintenance requirements, maintenance terminology, industrial tool use, electrical equipment maintenance, electrical feed, bearing applications, sheaves applications, flexible drives and V-belts, centrifugal pump maintenance, vacuum pump maintenance, fire suppressant system maintenance and repair, metal fabrication, steel pipe plumbing, as-built print reading, lubricants, and interior wall frame/construction.

BCT 106 Soldering and Brazing for Building and Construction Technologies /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116 or concurrent enrollment.

Principles and techniques of joining different types of alloys by braze welding and soldering. Includes safety and health, procedures and design, precleaning and surface preparation, filler metals, fluxes and atmospheres, torch brazing, pipe and tube, copper, and cast iron.

BCT 108 Maintenance Management Concepts /3 cr. hrs./3 periods (3 lec.)

Development of maintenance strategies and maintenance functions for a building. Includes maintenance management, preventive maintenance, inventory and procurement, maintenance planning and scheduling, maintenance training and work cultures, predictive maintenance, reliability-centered maintenance, total productive maintenance, and maintenance return on investment.

BCT 111 Basic Safety /1 cr. hr./1 period (1 lec.)

Overview of safety rules and procedures for working on construction sites. Includes general and company safety policies, construction site job hazards and procedures, and personal protective equipment needs and uses. Also includes lifting, ladder and scaffold procedures, hazards, communications requirements, and fire and electrical safety guidelines.

BCT 112 Basic Construction Mathematics /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Mathematics assessment required.

Addition, subtraction, multiplication and division of whole, decimal and fractional numbers. Includes percents, metric system, and use of calculators.

BCT 113 Hand and Power Tools /1 cr. hr./1 period (1 lec.)

Selection, use, maintenance and safety procedures for common hand and power tools. Includes applications to specific jobs in the construction industry.

BCT 114 Blueprint Reading /1 cr. hr./1 period (1 lec.)

Basic concepts of blueprints, including terms and symbols, grid line systems and blueprint production techniques. Includes dimensions and blueprint reading.

BCT 115 Basic Rigging /1 cr. hr./1 period (1 lec.)

Rigging safety, equipment and inspection. Includes crane hand signals, common rope knots, types of derricks and cranes and safety procedures for rigging and moving materials and equipment.

BCT 116 Occupational Safety and Health Administration Safety Training for Building and Construction Technologies /1 cr. hr./1 period (1 lec.)

Prerequisite(s): BCT 111.

Introduction to Occupational Safety and Health Administration (OSHA) standards, inspection procedures, and consultation services. Includes OSHA safety and training programs, safety procedures, rigging procedures, and confined space procedures.

Information: Open only to students enrolled in the Building and Construction Technologies program.

BCT 118 Building and Construction Technologies Applied Mathematics I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BCT 112 and satisfactory score on the mathematics assessment test at MAT 086 or higher.

Practical mathematics as applied to Building and Construction Technologies. Includes calculator operations, problem solving techniques, estimating, English and metric measurement, graphs and tables, using data, straight lines and angles, two and three dimension shapes, ratio and proportion, scale drawings, signed numbers and vectors, scientific notation, precision accuracy and tolerance, powers and roots, formulas, and linear equations.

BCT 119 Building and Construction Technologies Applied Mathematics II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BCT 118 and MAT 086 or satisfactory score on the mathematics assessment test.

Continuation of BCT 118. Includes review of basic math operations, graphical data, nonlinear equations, statistics, probabilities, right triangle relationships, trigonometric functions, factoring, relationships and functions, quadratic equations, systems of equations, inequalities, applied geometry, computer spreadsheets, computer graphics, and quality control.

BCT 120 Blueprint Reading for Construction /3 cr. hrs./3 periods (3 lec.)

Residential and light commercial blueprint reading. Includes blueprint symbols and terminology, construction materials, applications and specifications for commercial buildings, light frame and brick veneer construction, and appropriate mathematics.

BCT 122 Residential Construction /3 cr. hrs./5 periods (2 lec., 3 lab)

Principles and procedures of residential construction. Includes safety, foundations, wall and roof construction, electrical, plumbing, mechanical, and interior/exterior finishing.

BCT 123 Concrete/Masonry /3 cr. hrs./5 periods (1 lec., 4 lab)

Principles and techniques of masonry construction. Includes preparation, composition, protection, placement and curing of concrete, mortar and plaster. Also includes construction using brick, concrete block and stone.

BCT 124 Gas Furnace Heating /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 126.

Theories and concepts for gas furnace installation and operation. Includes principles of gas combustion, gas furnaces, gas burners, gas controls, gas ignition systems, safety and operating controls, gas furnace installation practices, ventilation and combustion air, and gas furnace troubleshooting.

BCT 125 Electrical Theory and Applications /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116.

Electrical theory, circuits, and components for systems found in buildings. Includes basic electricity, meters, circuit analysis, direct current, alternating current, voltages, inductors, capacitors, transformers and impedance.

BCT 126 HVAC Electricity, Circuitry, and Controls /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 125.

Electrical theory, circuits and components for air conditioning systems. Includes basic electricity, meters, circuit analysis, alternating current and voltage, electric motors and components, installation of HVAC systems, motor controls, control devices, National Electrical Code, control systems circuitry, and troubleshooting.

BCT 127 HVAC Systems Applications /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 103 or concurrent enrollment.

Principles and procedures of air conditioning and heating systems. Includes tools, controls, system charging, evaporative cooling, gas/oil/electric heating, heat pumps, and load calculation.

BCT 128 HVAC Systems Service and Repair /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 127.

Repair of air conditioning and heating equipment. Includes refrigerants, system evacuation and charging, water cooled systems, controls, operating conditions, troubleshooting, and Air Conditioning and Refrigeration Institute (ARI) Residential or Light Commercial certification.

BCT 130 EPA Clean Air Act: Section 608 /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Field Experience.

Freon certification preparation. Includes basics of refrigerant bearing equipment, ozone depletion and the new legislation, technician categories covered, and the certification examination.

BCT 135 National Electrical Code Wiring Applications /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 125.

Electrical wiring and installation conforming to National Electrical Code requirements. Includes grounded systems, requirements for overcurrent protection of conductors, ampacity criteria, installing overcurrent protection of conductors, installing services, installing motors and transformers, and remote control and signaling circuits.

BCT 145 Carpentry Framing /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116 or equivalent experience.

Fundamentals of carpentry framing. Includes stud frame construction, tool safety standards and operations, carpentry tools, construction materials, site evaluation, foundation layout, framing materials and methods, floor framing methods, wall framing methods, roof framing methods, roof sheathing, and roof coverings.

BCT 146 Woodworking /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116 or equivalent experience.

Concepts and procedures for working with hardwoods. Includes introduction to hardwoods, measuring hardwoods, use of hardwoods, pressure treated wood, hardwood preparation, ripping wood, miter cuts, cross cut, job site safety, gluing and clamping, veneers, curves and circles, dados and rabbits, and smoothing.

BCT 150 Plumbing Basics /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116.

Theories and concepts for plumbing and pipe fitting. Includes physics for plumbers, plumbing materials, water supplies, drainage, sewage disposal, pipe joint connections, pipe fittings, rough-in, valves and faucets, and fixtures.

BCT 151 Design, Operation, and Maintenance of Building Systems I /3 cr. hrs./3 periods (3 lec.)

Introduction to the building systems. Includes basic construction materials, structural systems, building envelope, roofing systems, interiors, paints, fundamentals of heating, ventilating, air-conditioning, and refrigeration (HVAC-R), air circulation, cooling systems, heating systems, HVAC system, and plumbing.

BCT 152 Programmable Logic Controllers for Energy Management Systems I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 125.

Use and operation of Programmable Logic Controllers (PLC). Includes introduction to PLCs, number systems and codes, logic functions, and input/output addressing.

BCT 155 Potable Water Plumbing /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 150.

Application of potable water plumbing procedures. Includes sources, distribution, and treatment of water, water piping materials and sizing, code requirements, water heaters, and water heater installation.

BCT 156 Drain Systems Plumbing /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 150.

Application of building drainage systems. Includes installation practices, types of building drains, plan view of drainage systems, vent stacks, and types of venting.

BCT 172 Building and Construction Technologies Electrical I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 111, 112, 113, 114, 115, 116.

Concepts and procedures for building and construction electrical training. Includes safety, conduit bending, electrical theory, test equipment, print reading, and wiring applications.

BCT 173 Building and Construction Technologies Electrical II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 172.

Continuation of BCT 172. Includes alternating current, motor installation, grounding of structures and equipment, conduit bending, electrical boxes and fittings, and conductor installations.

BCT 174 Building and Construction Technologies Electrical III /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 173.

Continuation of BCT 173. Includes conductor installation, cable tray, conductor termination and splices, electric service installation, circuit breakers and fuses, contactors and relays, and electrical lighting.

BCT 185 Residential Energy Audit /3 cr. hrs./3 periods (3 lec.)

Arizona's Home Energy Rating System (HERS) Program. Includes energy auditing, heat energy and energy loss, conservation practices and measures, finance and sales, and computer modeling.

BCT 190 Fieldwork for Construction /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Consent of instructor.

Supervised fieldwork experience on a specific construction project at the project site.

Information: May be taken four times for a maximum of thirty-two credit hours.

BCT 199 Co-op Related Class in BCT /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

BCT 199WK Co-op Work in BCT /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

BCT 202 Construction Management /3 cr. hrs./3 periods (3 lec.)

Construction management procedures. Includes analysis of the general provisions of contracts and review of material submittals.

BCT 204 Construction Surveying /3 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): BCT 118 or equivalent.

Principles and techniques of construction surveying. Includes taping, leveling, transit, contour and topographic mapping, and construction surveying.

BCT 222 Commercial HVAC Systems /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 128 or appropriate field experience.

Principles and components for commercial air conditioning and heating systems. Includes types and functions, refrigeration systems, chilled water systems, distribution systems, calculations and formulas, and troubleshooting and service.

BCT 223 Pneumatic HVAC Controls /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): BCT 128 or appropriate field experience.

Pneumatic controls for HVAC systems. Includes major components, controlled devices, relays, thermostats and calibration.

BCT 225 Electrical Distribution and Motor Controls for Buildings /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 126 or 135.

Theory and troubleshooting of complex electrical distribution and motor circuitry found in commercial and industrial buildings. Includes plant power distribution, static and manual controls, sensing and timing controls, electromagnetic control switches, electrical control switches, alternating current and direct current motors and motor control circuits, preventative maintenance, troubleshooting, and programmable logic controllers.

BCT 242 Cross-Connection Control /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): BCT 150, or ENV 102, 103.

Protection of potable water systems back flow. Includes theory of cross-connection control, regulations, plumbing codes, inspector and tester responsibilities, and repair and testing of backflow assemblies. Emphasis is placed on assembly testing, troubleshooting and repair. Information: Helps prepare students for the State Certification Exam. Information: Same as ENV 242.

BCT 251 Design, Operation, and Maintenance of Building Systems II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BCT 151.

Continuation of BCT 151. Includes electricity and electrical systems, electrical systems operation and maintenance, lighting principles, lighting applications and maintenance, vertical transportation systems, maintenance and modernization of elevators, energy management, cleaning management and procedures, cleaning equipment and supplies, window cleaning and metal maintenance, pest control, and waste management, landscaping and parking, fire protection systems, building security, building operations and maintenance administration.

BCT 252 Programmable Logic Controllers for Energy Management Systems II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 152.

Continuation of BCT 152. Includes discrete input/output system, analog input/output system, PLC control software programming, and control system implementation and programming.

BCT 271 Building and Construction Technologies Electrical IV /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 174.

Continuation of BCT 174. Includes distribution equipment, distribution system transformers, electricity in HVAC systems, over-current protec-

tion, conductor selection and calculations, raceway, box and fitting, and fill requirements.

BCT 272 Building and Construction Technologies Electrical V /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 271.

Continuation of BCT 271. Includes wiring devices, motor controls, motor calculations, motor maintenance, and hazardous locations.

BCT 273 Building and Construction Technologies Electrical VI /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 272.

Continuation of BCT 272. Includes high voltage terminations/splices, load calculations, electric theory, specialty lighting, and advanced motor maintenance.

BCT 274 Building and Construction Technologies Electrical VII /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BCT 273.

Continuation of BCT 273. Includes advanced controls, signaling systems, specialty transformers, standby and emergency systems, welding machines, HVAC controls, and heat tracing and freeze protection.

BCT 280 Uniform Building Code for Building and Construction Technologies I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Field Experience.

Uniform Building Code for Building Technology applied to new construction and major remodeling. Includes building structures, types of building construction, fire protection systems, and means of egress.

BCT 281 Uniform Building Code for Building and Construction Technologies II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BCT 280.

Continuation of BCT 280. Includes building accessibility, structural forces, electrical systems, mechanical systems, and plumbing systems.

BCT 282 Uniform Mechanical Code with City and County Amendments for Building and Construction Technologies /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Field Experience.

Principles and regulations developed for the electrical, HVAC, pipe fitting, plumbing, sheet metal and facilities maintenance occupations. Includes terminology, ventilation air supply, exhaust systems, duct systems, combustion air, chimneys and vents, special fuel-burning and energy-utilizing equipment, boiler/water heaters, refrigeration, panel and hydronic panel heating system, fuel gas piping, special piping and storage systems, solar systems and workmanship standards.

BCT 283 Uniform Plumbing Code for Building and Construction Technologies /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Field Experience.

Principles and regulations developed for the plumbing and facilities maintenance occupations. Includes terminology, plumbing fixtures, water heaters, water supply and distribution installation, sanitary drainage system installation, special waste, vent and trap requirements, storm drainage, and fuel piping.

BCT 284 National Electric Code for Building and Construction Technologies /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Field Experience.

Theory and application of electrical wiring and equipment installation standards. Includes general electrical theory, service, feeders, branch circuits, calculations for dwelling type occupancies, electrical circuit design for commercial and industrial occupancies, installation rules for specific circuits or systems, installation of general circuits and equipment, installation rules for distribution equipment, and special equipment and occupancies.

BCT 296 Independent Study in Building and Construction Technologies /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Independent readings or special projects. Content to be determined by conference between student and instructor.

BCT 297 Building and Construction Technologies Seminar: / .25-4 cr. hrs./25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Building and Construction Technologies job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

BCT 299 Co-op Related Class in BCT /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

BCT 299WK Co-op Work in BCT /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

BUSINESS*For courses numbered 098, 198, 298, see "Topics Courses" in index.***BUS 100 Introduction to Business /3 cr. hrs./3 periods (3 lec.)**

Principles of business operations in the private enterprise system. Includes contemporary business and its environment structure of American business, management principles of the organization, people, and production, marketing management, information systems and accounting and financing the enterprise.

BUS 125 Business on the Internet /4 cr. hrs./6 periods (3 lec., 3 lab)

Conducting business on the Internet. Includes electronic-commerce terminology, Internet business applications, building a successful Website, legal and security issues, and marketing on the Internet. Also includes hands-on assignments and projects.

BUS 148 Ethics in the Workplace /3 cr. hrs./3 periods (3 lec.)

Ethical principles in decision making applied to the business and industry workplace. Includes ethical issues in decision making, ethical frameworks for decisions, personal values and ethical priorities, ethics in business and industry, ethical standards in the workplace, ethical choices, application of ethical principles, social and cultural values applied to decisions, and workplace culture.

BUS 151 Mathematics of Business /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082 or satisfactory assessment test score.

Fundamental mathematical procedures designed for practical utility in the business environment. Includes payroll, bank records, purchasing, sales, consumer credit, insurance, taxes, interest, inventory, depreciation, stocks and bonds, financial statements, and introductory statistics.

BUS 200 Business Law /3 cr. hrs./3 periods (3 lec.)

Principles and sources of business law. Includes nature of American law, scope and complexity of tort law, nature and principles of contract law, sale of goods under the Uniform Commercial Code, nature and principles of agency law, and business organizations.

BUS 205 Statistical Methods in Economics and Business / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 172.

Introduction to statistical concepts and methods of business. Includes data collection, data description, inference, decision making, problem solving, prediction, and analyzing variation in economic and business systems. Also includes sampling techniques, methods of data description, sampling distributions, point and interval estimation on population mean and proportion, hypothesis testing about population mean and proportion, linear regression and correlation, chi-square tests, attribute and variables control charting.

BUS 210 International Business /3 cr. hrs./3 periods (3 lec.)

Recommended: BUS 100.

Introduction to international business, focusing on the importance of cultural, economic, legal, political, sociological, and strategic complexities that emerge when business activities transcend international borders. Includes the terminology of international business and the basic do's and don'ts within various foreign business societies.

BUS 220 Legal Environment of Business /3 cr. hrs./3 periods (3 lec.)

Legal, ethical, and international environment of business. Includes an introduction to law, ethics and corporate responsibility, judicial system and litigation, alternative dispute resolution, administrative agencies, crimes and torts, contract law, product liability, international business law, agency law, and legal forms of business enterprises.

CHEMISTRY*For courses numbered 098, 198, 298, see "Topics Courses" in index.***CHM 080 Preparation for General Chemistry /3 cr. hrs./3 periods (3 lec.)**

Prerequisite(s): MAT 092.

Fundamentals of chemistry. Includes nomenclature, atomic structure, bonding, chemical equations, moles, stoichiometry, the periodic table, conversions, problem-solving techniques and study skills.

Information: Designed to prepare students for CHM 151.**CHM 121/121LB Introductory Chemistry /4 cr. hrs./5 periods (3 lec., 2 lab)**

Basic chemistry and its relationship to everyday experiences. Designed to meet the needs and interests of non-science majors, education majors, and general public. Includes classification and structure of matter, basic principles of chemical reaction and their environmental and societal impact.

CHM 122/122LB Introductory Organic and Biochemistry /4 cr. hrs./ 5 periods (3 lec., 2 lab)

Prerequisite(s): CHM 121.

Continuation of CHM 121. Organic chemistry as it relates to consumer products and pollution of our environment. Includes biochemistry and physiochemistry and their relationship to medicines, drugs, health and food products.

CHM 130/130LB Fundamental Chemistry /5 cr. hrs./7 periods (4 lec., 3 lab)

Inorganic chemistry as a basis for the study of some life processes. Includes the classification, structure and general chemical behavior of inorganic matter.

Information: Adapted to the needs of students in allied health programs.**CHM 140/140LB Fundamental Organic and Biochemistry / 5 cr. hrs./7 periods (4 lec., 3 lab)**

Prerequisite(s): CHM 130, high school chemistry within the last three years or consent of instructor.

Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure and general chemical behavior of organic and biochemical systems.

Information: Adapted to the needs of students in nursing and other allied health programs.**CHM 151/151LB General Chemistry /5 cr. hrs./7 periods (4 lec., 3 lab)**

Prerequisite(s): MAT 122 and CHM 080 or CHM 130 with a grade of C or better, or placement on the chemistry assessment at the CHM 151 level.

Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.

CHM 152/152LB General Chemistry II /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): CHM 151.

Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.

CHM 195 Introduction to Research in Chemistry /4 cr. hrs./ 4 periods (4 lec.)

Prerequisite(s): Consent of instructor.

Introduction to the methods of research in chemistry. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.

CHM 196LB Independent Studies in Chemistry /1-4 cr. hrs./3-12 periods (3-12 lab)

Laboratory projects varying with students' interests and reasons for enrolling.

CHM 235/235LB General Organic Chemistry I /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): CHM 152.

Fundamentals of organic chemistry. Includes classification, occurrence, synthesis, analysis, stereo-chemistry and reaction mechanisms of important classes of organic compounds, notably alkanes, alkenes, alkyl halides and organometallics.

CHM 236/236LB General Organic Chemistry II /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): CHM 235.

Continuation of CHM 235. Includes emphasis on synthesis and the use of chemical and instrumental methods as means of identification. Also includes focus on remaining classes of organic compounds, including alkynes, alcohols, ethers and epoxides, aldehydes, ketones, acids, acid derivatives, aromatics and nitrogen containing compounds.

CHM 295LB Independent Research in Chemistry /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): One semester of chemistry and consent of instructor.

Experience in scientific laboratory research. Specific content to be determined by student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.

CHILD DEVELOPMENT ASSOCIATE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CDA 103 Planned Arrangements and Schedules /1 cr. hr./1 period (1 lec.)

Strategies for lesson planning and creation of schedules for use in the classroom. Includes preparation of written lesson plans, schedules based on children's abilities, past experiences, present circumstances and educational objectives of the program.

CDA 104 Ensuring a Safe Environment for Children /1 cr. hr./1 period (1 lec.)

Exploration of the issues of creating a safe environment for children. Includes planning for children's safety by providing them with the skills and information regarding safety rules and concerns. Also includes planning for reduction of accidents by center personnel and designation of areas of responsibility.

CDA 112 Guidance Principles for Encouraging Self-Discipline /1 cr. hr./1 period (1 lec.)

Development of guidelines for using positive discipline techniques in the classroom. Includes learning to set up a positive atmosphere to encourage children to display appropriate behaviors. Also includes learning ways to set consequences which are age-appropriate and communicated clearly to the children.

CDA 114 Collecting, Organizing and Using Teaching Aids /1 cr. hr./1 period (1 lec.)

Survey of teaching aids used in the classroom. Includes learning about different types of teaching aids, how to organize and update existing teaching aids and how to utilize the teaching aids in your program.

CDA 119 Providing a Healthy Environment for Children /1 cr. hr./1 period (1 lec.)

Examination of wellness to benefit the early childhood classroom setting. Includes identifying procedures for wellness in children and staff, such as, using daily routines, hand washing procedures, diaper changing procedures, identification of illness, and healthy lifestyle information.

CDA 120 The Child's Total Learning Environment /1 cr. hr./1 period (1 lec.)

Analysis of the total learning environment for children. Includes learning about the child's total learning environment and how this

environment meets individual needs. Also includes developing competencies about children's rates and styles of learning, the benefits of play, the selection of educational materials, the advantage of well-planned activities, and the inclusion of activities in both indoor and outdoor environments.

CDA 121 Techniques for Observing Children /1 cr. hr./1 period (1 lec.)

Development of techniques for observing, recording and interpreting behavior in children. Includes application of techniques used in making observations of children.

CDA 126 Literature for Preschool Children /1 cr. hr./1 period (1 lec.)

Survey of materials and techniques for the selection and evaluation of children's literature. Includes exploration of children's literature at various age levels. Also includes using techniques of story telling in the classroom.

CDA 127 Blocks in the Early Childhood Program /1 cr. hr./1 period (1 lec.)

Examination of teaching techniques for using block play in the classroom. Includes the development of an understanding of the importance of block play, the equipment and space needed, and the time necessary for fulfillment of block play activities.

CDA 128 Record Keeping Skills for Daily Infant/Toddler Care Programs /1 cr. hr./1 period (1 lec.)

Analysis of the benefits of record keeping for effective planning, implementing, and evaluating of programs. Includes techniques of record keeping, use of records for planning and evaluation, and long-range program planning.

CDA 129 Organization of Space, Materials and Equipment for Infants and Toddlers /1 cr. hr./1 period (1 lec.)

Exploration of how to effectively organize classroom space, materials and equipment for infants and toddlers. Includes techniques of space management, equipment selection and placement, safety concerns, and effective organization of the classroom for maximum learning.

CDA 130 Observation Skills of Infants and Toddlers /1 cr. hr./1 period (1 lec.)

Analysis of the skills required to observe and record infant and toddler behavior. Includes techniques and evaluation methods for utilizing observations.

CDA 131 Building Relations with Parents Through Communication /1 cr. hr./1 period (1 lec.)

Identification of the skills needed to work effectively with parents. Includes working to ensure continuity between school and home and the development of a trust relationship. Also includes techniques used to gain cooperation from parents.

CDA 132 Supporting the Growth and Education of Parents /1 cr. hr./1 period (1 lec.)

Strategies for working with parents to develop positive discipline techniques, open communications, and mutual trust and respect. Includes how to communicate parenting tips, recruit volunteers for the classroom, and develop newsletters and effective daily communications. Also includes development of cultural awareness, family support networks, and community resources for families in need.

CDA 133 Enhancing Family Involvement /1 cr. hr./1 period (1 lec.)

Strategies for working with parents of early learners. Includes developing a parent handbook, encouraging parent involvement in the program, sharing goals and objectives with parents, bridging home and school, conducting parent meetings and open houses, and planning for communication.

CDA 134 Using Observation in the Infant/Toddler Program /1 cr. hr./1 period (1 lec.)

Identification of types of information which can be gained from observation. Includes purpose of observation, collection and interpretation of observations, activities developed from observations, and identification of observed behaviors.

CDA 135 Childcare Facility: Startup, Equipment, and Budgets /1 cr. hr./1 period (1 lec.)

Start-up procedures of a childcare facility. Includes introduction to early childhood education, planning program type, site selection, start-up elements, facility and equipment, and budgeting.

CDA 136 Childcare Facility: Staff Selection and Training /1 cr. hr./1 period (1 lec.)

Selection and training of staff for a childcare facility. Includes procedures for staff selection, staff training and development, and program evaluation methods.

CDA 137 Childcare Facility: Health, Evaluation, and Community Partners /1 cr. hr./1 period (1 lec.)

Wellness, program evaluation, and community partnership issues associated with a childcare facility. Includes nutrition, health, and safety services, program evaluation, programs for parents and volunteers, professional activities and organizations, public relations, relationships with governmental agencies, and fund-raising procedures.

CDA 141 Fostering Communication and Language /1 cr. hr./1 period (1 lec.)

Examination of the techniques for fostering communication skills and language development. Includes defining communication, predicting "normal" communication milestones, assessing language development and communication skills, and encouraging expressive communication.

CDA 142 Beginning Mathematical Concepts /1 cr. hr./1 period (1 lec.)

Analysis of general principles of mathematical concept acquisition. Includes competencies in mathematics, such as, classification, seriation, numbers, spatial relations, and temporal relations.

CDA 143 Science and Discovery /1 cr. hr./1 period (1 lec.)

Theories, methods, and techniques for teaching science and discovery. Includes the learning the process of discovery, initiating and integrating science experiences, creating a science area, finding natural science settings, and planning science experiences.

CDA 151 Nutrition /1 cr. hr./1 period (1 lec.)

Examination of basic nutrition. Includes nutrition needs of young children; social, psychological, cultural and religious connections to food; mealtime experiences; plans for nutritional experiences and programs.

CDA 152 Enhancing Questioning and Problem Solving Abilities /1 cr. hr./1 period (1 lec.)

Analysis of techniques for the development of question and problem solving abilities. Includes facts about problem solving, the steps involved, and factors to be considered. Also includes developing problem solving activities using individual and group settings.

CDA 155 Understanding How Children Learn /1 cr. hr./1 period (1 lec.)

Exploration of the natural skills of children. Includes planning learning activities, discovering ways children learn, exploring cognitive learning, skill development, and concept acquisition. Also includes exploring the role of the teacher and evaluating outcomes of skill development.

CDA 161 Enhancing a Positive Self-Concept /1 cr. hr./1 period (1 lec.)

Analysis of self-concept in children. Includes defining the self-concept and self-esteem, examining factors influencing the development of the self-concept, seeking the uniqueness in each child, and creating an environment for success. Also includes acceptance of the expression of authentic feelings, stages of emotional development, and activities to encourage the expression of feelings.

CDA 171 Ages and Stages of Young Children: Prenatal Through Infancy /1 cr. hr./1 period (1 lec.)

Examination of the developmental stages prebirth through infancy. Includes general principles of development, cognitive and personality development, biological and environmental factors. Also includes a study of the period from conception to birth, the birthing process, developmental milestones, issues in infant care, and problems during infancy.

CDA 172 Ages and Stages of Young Children: Toddlerhood /1 cr. hr./1 period (1 lec.)

Examination of the developmental stages of toddlers. Includes physical and motor development, language and cognitive development, and social development. Also includes issues in toddler care and developmental health issues (i.e., speech, hearing, illness).

CDA 173 Ages and Stages of Young Children: The Preschool Years /1 cr. hr./1 period (1 lec.)

Examination of the developmental stages of preschool children ages 18 months to 5 years. Includes physical characteristics, motor skill development, cognitive development, and socio-emotional development. Also includes issues in early childhood programs and developmental health issues.

CDA 201 Music and Creative Movement /1 cr. hr./1 period (1 lec.)

Exploration of music and movement. Includes how to develop self-confidence and skills in music and movement. Also includes developing skills in singing with children, selecting appropriate music, using rhythm activities, encouraging creative movement, and using music with activities.

CDA 202 Dramatic Play /1 cr. hr./1 period (1 lec.)

Strategies for using dramatic play for learning. Includes defining types of dramatic play and identifying the value of dramatic play. Also includes planning for unlimited dramatic play, using dramatic play in the learning environment, selecting books, music and tapes, relating dramatic play to themes and units, and defining the role of the teacher.

CDA 203 Creative Media /1 cr. hr./1 period (1 lec.)

Survey of principles, materials, and techniques used in developing creative media. Includes defining creativity, discussing creative development, designing the creative media area, and guiding the creative media area. Also includes the process of creating, creative media activities, the creative process, and evaluation in the creative media area.

CDA 211 Large Muscle Development /1 cr. hr./1 period (1 lec.)

Examination of large muscle development and its relation to cognitive learning. Includes defining large muscle development and its sequence in children. Also includes design of activities to promote large muscle development, creation of the learning environment, supervision techniques used, and plans for activities including various types and levels of development.

CDA 212 Small Muscle Development /1 cr. hr./1 period (1 lec.)

Examination of small muscle development and its relation to cognitive development. Includes defining small muscle development and its sequence in children. Also includes design of activities to promote small muscle development, creation of the learning environment, supervision techniques used, and plans for activities including various types and levels of development.

CDA 221 Planning and Implementing a Bilingual Program / 1 cr. hr./1 period (1 lec.)

Strategies for creating a bilingual program. Includes examination of the elements of language and how it relates to bilingual education. Also includes assessing how the teacher's attitude affects learning, evaluating current language skills, setting program expectations and goals, and developing a plan to implement a bilingual program.

CDA 222 Elements of Children's Culture /1 cr. hr./1 period (1 lec.)

Examination of the ways culture affects children's learning. Including building identities through social interaction and developing positive personal attitudes. Also including an analysis of racial similarities and differences, gender role identity, disabilities, cultural differences, the physical environment, implementing culture into the daily routine, and parent involvement.

CDA 224 Applications of Cognitive Development /1 cr. hr./ 1 period (1 lec.)

Analysis of how babies grow and learn. Including investigations of developmental milestones; stages of egocentrism; concepts of object permanence, causality, time and space; development of memory, problem solving skills, and color and number perception. Also includes ways to serve as a resource for parents.

CDA 225 Language Development of Infants and Toddlers /1 cr. hr./ 1 period (1 lec.)

Examination of how language develops in infants and toddlers. Includes the essence of communication, receptive and expressive language skills, and landmarks of language. Also includes ways to stimulate language development, opportunities for language activities, and identification of language delays.

CDA 226 Learning Principles and Theories of Cognitive Development /1 cr. hr./1 period (1 lec.)

Analysis of learning principles and cognitive development theories. Includes sensory-perceptual awareness, egocentrism, cognitive development milestones, memory, concept formation and problem solving. Also includes ways to share information with parents.

CDA 227 Sensorimotor Learning in Infancy and Toddlerhood / 1 cr. hr./1 period (1 lec.)

Examination of sensorimotor learning in infancy and toddlerhood. Includes principles of sensorimotor awareness, egocentrism, cognitive development milestones, development of memory, concept formation and problem solving. Also includes ways to share information with parents.

228 Autonomy and Positive Self-Concept of Infants and Toddlers /1 cr. hr./1 period (1 lec.)

Analysis of the development of trust and autonomy in infants and toddlers. Includes factors influencing the development of self-concept, individualized routine care, designing the environment, developing skills based on interest, dealing with individual differences, and assisting parents.

CDA 229 Child Development Associate Assessment Preparation / 3 cr. hr./3 period (3 lec.)

Strategies for completion of the CDA Assessment. Includes documentation requirements, resource file, direct assessment application form, and verification visit requirements.

CDA 230 Working with Families of Children with Special Needs / 1 cr. hr./1 period (1 lec.)

Investigation of the needs of working with families who have children with special needs. Includes dealing with the emotional stress, encouraging parent participation, using the "family approach," learning about parents' rights, and working with families.

CDA 231 Planning the Educational Program for Children with Special Needs /1 cr. hr./1 period (1 lec.)

Analysis of programs for children with special needs. Includes early identification, observations, mainstreaming or inclusion, assessment and diagnosis. Also includes creating an IEP and creating individualized activities.

CDA 232 Children with Special Needs and the Basics of Inclusion /1 cr. hr./1 period (1 lec.)

Analysis of inclusion (mainstreaming) in the classroom. Includes types of special needs, teacher expectations, and individual learning styles. Also includes how inclusion works and the legal issues of inclusion.

CDA 235 Guidance and Discipline of Infants and Toddlers /1 cr. hr./ 1 period (1 lec.)

Examination of effective ways to guide and discipline infants and toddlers. Includes defining discipline versus punishment, types of appropriate discipline, and specific guidance techniques. Also includes dealing with temper tantrums, succeeding with toilet training, setting rules and limits, creating appropriate environments for exploration, and communicating with parents.

CDA 253 Physical Development in Infancy /1 cr. hr./1 period (1 lec.)

Examination of the physical development of infants. Includes characteristics at birth, reflexes, physical strength and control, and gross motor development. Also includes how to share growth information with parents.

CDA 254 Physical Development in Toddlerhood /1 cr. hr./1 period (1 lec.)

Examination of the physical development of toddlers. Includes physical characteristics of toddlers, physical strength, and gross motor development. Also includes how to share information on toddler development with parents.

CDA 256 Math for School Age Children /1 cr. hr./1 period (1 lec.)

Analysis of appropriate math concepts and activities for school age children. Includes the links between intellectual development and mathematical concepts learning. Also includes developing math concepts, teaching problem-solving, and exploring the strands of mathematics.

CDA 257 Record Keeping for the Family Child Care Provider / 1 cr. hr./1 period (1 lec.)

Strategies for the development of a record keeping system to use in child care. Includes operating a small business, and organizing records. Also includes income tax forms, special tax liabilities and responsibilities, and important records to retain.

CDA 258 Family Child Care as a Small Business /1 cr. hr./1 period (1 lec.)

Examination of the aspects of family child care as a small business. Includes the role of the family child care provider, licensing and certification, insurance requirements, development of a business plan, and agreements between parents and providers.

CDA 259 Balancing Work and Family in a Family Child Care Setting /1 cr. hr./1 period (1 lec.)

Strategies for reaching a balance between work and family in the child care setting. Includes establishing an appropriate setting, planning the daily schedule, setting boundaries, keeping a balance in your own life, and communicating with parents. Also includes your role as a liaison between family, child, and parent.

CDA 271 Professionalism in Childcare /1 cr. hr./1 period (1 lec.)

Analysis of the history and ethics of early childhood professionals. Includes defining professionalism; examining the past, present and future; exploring professional values and ethics; continuing professional growth/education; and becoming an advocate for children and their families.

CDA 273 Ages and Stages: The Middle Childhood Years /1 cr. hr./ 1 period (1 lec.)

Examination of the stages of growth and development during the middle childhood years (ages 6 to 12). Includes physical growth, motor development, logical thinking and language skills, and social and emotional growth. Also includes examining developmental concerns and challenges.

CDA 274 Emerging Literacy /1 cr. hr./1 period (1 lec.)

Analysis of the developmentally appropriate practices in the teaching of literacy. Includes creating the environment for young readers, working with young writers, developing a functional literacy environment, and the teacher's role in literacy.

CDA 275 Transitions /1 cr. hr./1 period (1 lec.)

Examination of the nature of transitions in the classroom. Includes defining "transitions" and using "wait time." Also includes selection of transitional activities, resources for transitions, and transitions as part of the curriculum.

COMMUNICATION GRAPHICS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CGR 051 Basic Macintosh for Computer Graphics /1 cr. hr./ 2 periods (1 lec., 1 lab)

Introduction to the Macintosh computer environment. Includes operating system, techniques, document file, hardware, and disks.

CGR 100 Fundamentals of Rendering /4 cr. hrs./5 periods (4 lec., 1 lab)

Basic principles and methods of drawing as applied to digital and graphic design. Includes overview of drawing software, thumbnails, objects in perspective, media, drawing techniques, composition drawing, drawing styles, and professional environment.

CGR 101 Color Rendering and Theory /4 cr. hrs./5 periods (4 lec., 1 lab)

Recommended: CGR 100.

Basic color theory and rendering principles as applied to digital and graphic design. Includes color terminology, color perspective, color perception, meaning of colors, media characteristics, drawing software, traditional drawing methods, and professional environment. Also includes utilizing wood, food, paper, metallic, landscape, and cloth items.

CGR 111 Typography /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 110 or concurrent enrollment.

Letter forms and use in visual communications. Includes type rendering, letter spacing, type and headline groupings, type relationships, type images, and type applications.

CGR 112 Graphic Design I /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 110, 111.

Basic principles of color and design as applied to the graphics industry. Includes creating focal points, unity, texture, space relationships, color control, color harmonies, and psychology of color.

CGR 120 Applied Computer Graphics /4 cr. hrs./5 periods (4 lec., 1 lab)

Introduction to current computer graphics software. Includes Desktop publishing, postscript illustration, painting or photo editing, computer graphics hardware, and professional environment.

CGR 121 Desktop Publishing for Communication Graphics: PageMaker /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120, or experience in computer graphics. Layout, graphics, and typography on a computer system. Includes computer basics, current PageMaker software, computer graphics hardware, documents, and professional environment.

CGR 122 Desktop Graphics: Adobe Illustrator /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120, or experience in computer graphics. Computer generated graphics and illustrations. Includes current Adobe Illustrator software, computer graphics hardware, documents, and professional environment.

CGR 125 Introduction to Offset Printing /3 cr. hrs./5 periods (2 lec., 3 lab)

Basic principles of graphic layout, design, and typography through computer applications. Includes printer's system of measurement, basic computer operations, electronic pre-press, electronic pagemaking, computerized typesetting, using graphics, design and layout, major printing processes, graphic cameras, offset platemaking, image assembly, proofreading, and presswork.

CGR 140 Digital/Traditional Illustration and Cartooning I /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 101.

Basic principles and techniques as applied to beginning digital and traditional drawing styles and subject matter. Includes loose style drawing, digital drawing software, media development, beginning techniques, concept ideas, composition rendering, personal style development, and professional environment.

CGR 141 Digital Processes /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 125.

Principles and procedures in digital pre-press production. Includes review of the printer's system of measurement, Adobe PageMaker operations, QuarkXpress operations, color manipulation in Adobe Illustrator, high resolution output devices, digital platemaking, conventional and digital proofing, and conventional platemaking.

CGR 142 Airbrush Techniques I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 100.

Introduction to the use of the airbrush. Includes airbrush operation, retouching, illustration, tools and materials, techniques, and professional environment.

CGR 145 Digital/Traditional Illustration and Cartooning II /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 140.

Continuation of CGR 140 at an intermediate level. Includes intermediate loose style drawing, digital drawing and painting, intermediate media development, intermediate techniques, intermediate concept ideas, intermediate composition rendering, intermediate personal style development, and professional environment.

CGR 150 Customer Service Technology /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 125.

Principles and procedures of working with customers in a printing environment. Includes printers system of measurement, paper cutter operations, telephone communications, pantone matching system, paper, paper estimation, paper binding machines, cost estimating, bindery machine operations, and copy machine operations.

CGR 190 Industry Experience in Graphic Pre-Press /3 cr. hrs./ 15 periods (15 lab)

Prerequisite(s): CGR 141.

Work environment in digital creation of art for print. Includes pre-press process, work flow, and pre-press operations.

CGR 199 Co-op Related Class in CGR /1 cr. hr./1 period (1 lec.)

Prerequisite(s): CGR 112, 210, 211.

Co-requisite(s): Concurrent enrollment in CGR Co-op Work. See Cooperative Education section for description.

CGR 199 Co-op Work in CGR /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): CGR 112, 210, 211.

Co-requisite(s): Concurrent enrollment in CGR Co-op Related Class. See Cooperative Education section for description.

CGR 201 Figure Drawing I /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 100.

Drawing the human head, hands and features. Includes eyes, mouth, nose, hair, full head, and hands.

CGR 202 Figure Drawing II /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 201.

Continuation of CGR 201. Includes proportions, anatomy, toning, and body positioning and movement.

CGR 203 Figure Drawing III /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 202.

Continuation of CGR 202. Includes advanced anatomy, toning, body positioning and movement, and the clothed body.

CGR 210 Graphic Design II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 112.

Continuation of CGR 112. Includes ads, billboard, logos, posters, brochures, quick ads/flyers, and other mediums.

CGR 211 Graphic Design III /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 210.

Continuation of CGR 210. Includes advanced work on ads, billboards, logos, posters, brochures, quick ads/flyers, and other mediums.

CGR 212 Graphic Design IV /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 211.

Continuation of CGR 211. Includes additional work on ads, billboards, logos, posters, brochures, quick ads/flyers, and other mediums.

CGR 213 Package Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 112.

Procedures and techniques for creating wrapper and container comprehensives. Includes layout, packaging, construction techniques, mock-ups and the professional environment.

CGR 214 Communication Graphics Business and Portfolio / 2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): CGR 112.

Business techniques for the communication graphics industry. Includes designer/client relationship, fee structures for designer services, documenting time, portfolio development, and advertising and promotion.

CGR 216 Offset Presswork /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 125.

Theory, operation and maintenance of small offset presses. Includes offset press theory and operations, plate preparation and maintenance, AB Dick press operations, Multilith press operations, digital offset press theory, line printing, halftone printing, and single and two color printing.

CGR 220 DeskTop Publishing for Communication Graphics: QuarkXpress /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120, or experience in computer graphics. Design and creation of publications on a personal computer system. Includes current QuarkXpress software, documents, hardware, and professional environment.

CGR 221 Photo Image Editing: Adobe Photoshop /4 cr. hrs./ 5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120, and 122, or experience in computer graphics.

Computer retouching and manipulation of photos and illustrations. Includes current Adobe Photoshop software, edit and retouch, hardware, and professional environment.

CGR 222 Advanced Photo Image Editing: Adobe Photoshop / 4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 221.

Continuation of CGR 221. Includes advanced techniques using current Adobe Photoshop software, hardware, documents, and professional environment.

CGR 223 Computer Painting /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 101.

Design and illustration on a personal computer system using current paint software. Includes color, drawing and painting tools, editing and text tools, brush customizing, special effects and applications.

CGR 224 DeskTop Graphics: Macromedia Freehand /4 cr. hrs./ 5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120.

Computer generated graphics and illustrations. Includes current Macromedia Freehand software, documents, computer graphics hardware, and professional environment.

CGR 225 DeskTop Graphics: Corel Draw /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CGR 051 or 120 or experience in computer graphics. Computer generated graphics and illustrations. Includes current software, documents, computer graphics hardware, and professional environment.

CGR 226 DeskTop Publishing for Communication Graphics: Adobe InDesign /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CGR 051 or 120 or experience in computer graphics. Design and creation of publications on a personal computer system. Includes current Adobe InDesign software, documents, computer graphics hardware, and professional environment.

CGR 230 Production Techniques for Paint /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 122, and 221 or concurrent enrollment, and 121, or 220, or 226.

Preparation of artwork for printing. Includes spot color, four-color separation, bleeds, brochure and newspaper ad preparation, photo manipulation, photographic effects, complex color printing, multiple software use, specialty production, and professional environment.

CGR 240 Digital/Traditional Illustration and Cartooning III / 3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 145.

Continuation of CGR 145 at the advanced level. Includes advanced loose style drawing, advanced digital and traditional drawing and painting, advanced media development, advanced concept ideas, advanced composition rendering, advanced personal style development, pre-press applications, portfolio, and professional environment.

CGR 242 Airbrush Techniques II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 142.

Continuation of CGR 142. Includes airbrush operation, color, illustration, and professional environment.

CGR 243 Airbrush Techniques III /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 242.

Continuation of CGR 242. Includes additional applications, retouching, style, illustrations, and professional environment.

CGR 244 Airbrush Techniques IV /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CGR 243.

Continuation of CGR 243. Includes specialization, techniques, and professional environment.

CGR 250 Computer 2D Animation: Adobe After Effects /4 cr. hrs./ 5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 221, or 223 or experience in computer graphics. Animation on the computer. Includes storyboards, techniques and terms, logo animation, character animation, metamorphic animation, and production techniques.

CGR 251 Computer 3D Animation /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 122.

Solid modeling on the computer. Includes menus, image creation, color, printing, precision model making, object creation and design, and compatibility.

CGR 252 Computer Multimedia Design I /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 051 or 120, or experience in computer graphics. Computer interactive multimedia authoring. Includes using current Macromind Director software, graphics, text, animation, sound, authoring, and outputting methods.

CGR 253 Digital Video with Premiere /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 221 or experience in computer graphics.

Design and creation of digital video on a personal computer using current Adobe Premiere software. Includes terminology and techniques, editing, special effects, and production within a professional environment.

CGR 254 Computer Multimedia Design II /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 252.

Continuation of CGR 252. Includes multimedia formats and components, creation processes, production processes, business and legal considerations, and marketing and distribution.

CGR 255 Television Commercial Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Designing television commercials. Includes a basic overview of videography, production procedures, conceptualizing, storyboarding, budgeting, casting, videotaping, editing, music, special effects, and legal considerations.

Information: Does not include the technical aspects of television production which are covered in MEC 125 and 225.

CGR 256 Web Design /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 122, 221.

Design and production of graphics for the World Wide Web. Includes introduction to the World Wide Web, hardware, software (browsers), hypertext mark-up language (HTML), home pages, links, uploading, multimedia, and web sites.

CGR 257 Advanced Web Design /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): CGR 221, 256.

Advanced design and production of web sites and home pages. Includes planning and management, user interface, design, multimedia, careers in World Wide Web, and web education.

CGR 258 Advanced Computer 3D Animation /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CGR 251.

Advanced modeling, rendering and animation utilizing high-end character 3D software. Includes a review of 3D basics, advanced modeling, animation, and surfacing techniques, advanced lighting and camera effects, and kinematics and contortions.

CGR 260 PageMaker Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Computer generated text and graphics for brochures and business packages. Includes DeskTop environment, PageMaker software, and creating and printing a document.

CGR 261 Adobe Illustrator Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Computer generated text and graphics for illustration. Includes Macintosh environment, scanning, illustration software, and techniques and procedures.

CGR 262 QuarkXpress Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Computer generated text and graphics for publication. Includes Desktop environment, QuarkXpress software, and creating and printing a document.

CGR 263 Adobe Photoshop Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Digital photograph manipulation in Adobe Photoshop. Includes digital photographs, placing photographs, tools and palette, color manipulation, and output.

CGR 264 Macromedia Freehand Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Computer generated graphics and text for illustration. Includes Macintosh environment, scanning an image, illustration software (Macromedia Freehand), creating and printing an illustration, and professional environment.

CGR 265 Web Design Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh and computer graphics experience.

Design and production of graphics for the World Wide Web. Includes introduction to the World Wide Web, hardware, software, HyperText Mark-up Language (HTML), home pages, links, and uploading.

CGR 266 Macromind Director Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.

Design of interactive computer presentations for training, selling, information, and entertaining. Includes creating original art, presentations, interactivity, and importing and outputting.

CGR 267 Adobe Premiere Seminar on the Macintosh /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.
Design and produce computer graphics for video. Includes digitalizing video, editing, special effects, and outputting to video and computer formats.

CGR 268 Adobe After Effects Seminar on the Macintosh /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): Basic Macintosh skill required.
Composite of animations, photos, and videos into presentations. Includes keyframe animation, composing files for productions, special effects, and outputting to video and computer formats

CGR 269 Advanced Web Design Seminar on the Macintosh / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): CGR 265 or web design experience.
Continuation of CGR 265. Includes user interface, review of JAVA, Dynamic HTML, and XML for graphics and web design.

CGR 270 Adobe Photoshop Tips and Tricks Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): CGR 221 or 263 or experience with Adobe Photoshop.
Computer retouching and manipulation of photos and illustrations. Includes current Adobe Photoshop software, effects, hardware, and professional environment.

CGR 271 DeskTop Prepress Seminar on the Macintosh /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): CGR 122 or 261, 220 or 262, 221 or 263, or experience using QuarkXpress, Illustrator, or Photoshop experience.
Integration of QuarkXpress, Illustrator, and Photoshop in preparing computer generated art for outputting to film and print. Includes trapping, color, file formats, outputting, and prepress considerations.

CGR 272 Advanced Adobe Photoshop Seminar on the Macintosh /1 cr. hr./1 period (1 lec.)

Prerequisite(s): CGR 221 or 263 or experience with Adobe Photoshop.
Computer generated graphics and illustrations. Includes current software, documents, computer graphics hardware, and professional environment.

CGR 290 Industry Experience in Presswork /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): CGR 216.
Work environment on offset presses. Includes large format presses and automated presses.

CGR 296 Communication Graphics Independent Projects: / 1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I1) Communication Graphics Independent Projects: Design /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in design. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I2) Communication Graphics Independent Projects: Illustration /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in illustration. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I3) Communication Graphics Independent Projects: DeskTop Publishing /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in DeskTop publishing. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I4) Communication Graphics Independent Projects: Computer Art /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in computer art. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I5) Communication Graphics Independent Projects: Cartooning /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in cartooning. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I6) Communication Graphics Independent Projects: Airbrush /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in airbrush. Includes establishing objectives, procedures, and a method of evaluation.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 296 (I7) Communication Graphics Independent Projects: Offset Production /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.
Self-directed laboratory projects in offset production. Includes defining a project, tools and equipment, creating and producing the project, professional environment, completing the project, and critique the project.
Information: May be taken four times for a maximum of sixteen credit hours.

CGR 297 Communication Graphics Seminar: / .25-4 cr. hrs./ .25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.
Communication graphics job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

CGR 299 Co-op Related Class in CGR /1 cr. hr./1 period (1 lec.)

Prerequisite(s): CGR 199.
Co-requisite(s): Concurrent enrollment in CGR 299 Co-op Work.
See Cooperative Education section for description.

CGR 299WK Co-op Work in CGR /1-8 cr. hrs./5-40 periods (5.40 lab)

Prerequisite(s): CGR 199.
Co-requisite(s): Concurrent enrollment in CGR 299 Co-op Related Class.
See Cooperative Education section for description.

COMMUNITY DEVELOPMENT EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CDE 045 Youth Leadership /1-2 cr. hrs./1-2 periods (1-2 lec.)

Prerequisite(s): Consent of instructor.
On-site leadership experiences for youth within non-profit community organizations. Includes training and mentoring, development of leadership and communication skills, and board membership. Also includes performance of a variety of service activities at non-profit community organizations, and assessment of volunteer experiences.

CDE 100 Community Organizational Management and Leadership I /1 cr. hr./1 period (1 lec.)

Exploration of basic community development skills. Includes communication, organizational management, resource and leadership. Also includes techniques to analyze the neighborhood environment and enhancements to improve the quality of life.

CDE 101 Community Organizational Management and Leadership II /1 cr. hr./1 period (1 lec.)

Continuation of CDE 100. Includes a survey of skills necessary to research, design, develop and present a focused plan of action for meeting the needs of a neighborhood or community. Also includes strategic and action planning, environmental scanning, prioritization of needs, developing indicators of effectiveness, and presenting the plan orally and in writing.

CDE 110 Neighborhood Organization /1 cr. hr./1 period (1 lec.)

Basic organization for the development of a neighborhood association. Includes the skills and components of organization, meeting strategies, development of a information database, running effective meetings, creating by-laws, officer training, and publishing a newsletter.

CDE 111 Neighborhood Development /1 cr. hr./1 period (1 lec.)

Basics of maintaining the neighborhood association after initial start-up. Includes community resources, soliciting support, grant writing, problem solving, working with difficult people, neighborhood self-defense, and organizing events.

CDE 112 Neighborhood Planning /1 cr. hr./1 period (1 lec.)

Basic procedures for ensuring the future of the neighborhood association. Includes historical record keeping, inventory of assets, developing long-range plans, bringing plans into reality, evaluation, and plan revision.

CDE 115 Effective Meetings /.25-1 cr. hr./ .25-1 period (.25-1 lec.)

Introduction to the nature, functions and facilitation techniques of effective meetings. Also includes roles and responsibilities of individuals and groups in a meeting setting.

CDE 125 Basic Grant Proposal Writing /.25-1 cr. hr./ .25-1 period (.25-1 lec.)

Introduction to the fundamentals of grant proposal writing for first time grant writing volunteers. Includes the pros and cons of grants and how to research grants.

CDE 130 Dialogue Facilitation Skills /1 cr. hr./1 period (1 lec.)

Introduction to the skills necessary for facilitating public deliberation forums. Also includes techniques for reflection and public agenda setting after deliberation has occurred.

CDE 135 Neighborhood Project Planning /.25-1 cr. hr./ .25-1 period (.25-1 lec.)

Introduction to the process of planning and implementing a Community History project. Includes techniques for soliciting community participation, developing the project idea and budget and the ethical issues of history projects.

CDE 170 Citizen's Academy /3 cr. hrs./3 periods (3 lec.)

Introduction to the law enforcement agency. Includes its role in the community and the criminal justice system. Also includes mission, values, ethics, resources, skills, and collaborations.

COMPUTER AIDED DESIGN/DRAFTING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CAD 101 Computer Aided Drafting Fundamentals /4 cr. hrs./6 periods (3 lec., 3 lab)

Two-dimensional computer aided and traditional drafting concepts and techniques. Includes computer aided drafting procedures and methods, electronic file management, hard copy production, freehand sketching and visualization, industry standards, scale and dimensioning, and final project.

Information: For individuals with no computer and/or drafting experience.

CAD 101A Computer Aided Drafting Fundamentals: Module A /2 cr. hrs./3 periods (2 lec., 1 lab)

Two-dimensional computer aided and traditional drafting concepts and techniques. Includes computer aided drafting procedures and methods, electronic file management, hard copy production, and freehand sketching and visualization.

Information: For individuals with no computer and/or drafting experience.

CAD 101B Computer Aided Drafting Fundamentals: Module B /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): CAD 101A.

Continuation of CAD 101A. Includes freehand sketching and visualization, industry standards, scale and dimensioning, and final project.

CAD 102 Computer Aided Drafting Fundamentals: Review /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): Computer and/or drafting experience.

Two-dimensional computer aided and traditional drafting concepts and techniques. Includes software review, computer aided drafting procedures and methods, electronic file management, hard copy production, projections, industry standards, scale, and final project.

Information: For individuals with computer and/or drafting experience.

CAD 105 Manufacturing Processes I /3 cr. hrs./3 periods (3 lec.)

Properties and applications of materials. Includes production systems, production materials, ferrous and nonferrous alloys, nonmetallic materials, casting processes, powder metallurgy, and hot and cold working processes.

CAD 110 Manufacturing Processes II /3 cr. hrs./3 periods (3 lec.)

Equipment and tooling applications. Includes measuring, gaging, metal cutting, turning and boring, drilling and reaming, milling, broaching, abrasive machining, and thread cutting and forming.

CAD 116 Electronic Print Reading /2 cr. hrs./2 periods (2 lec.)

Principles and concepts of electronic print reading. Includes print and manufacturing terms, print fundamentals and standards, schematic and interconnection diagram drawings, cable assembly drawings, print analysis, and change paper procedures.

CAD 117 Print Reading and Sketching for Manufacturing/4 cr. hrs./5 periods (3 lec., 2 lab)

Principles and concepts of print reading and technical freehand sketching. Includes common print and manufacturing terms, print fundamentals and standards, freehand sketching applications, and print analysis.

CAD 121 Fundamentals of the Construction Industry for Computer Aided Drafting /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Concurrent enrollment in CAD 101 or 102 recommended.

Introduction to the construction industry. Includes overview of the construction industry, regulations, structural systems, environmental control, and bidding, estimating, and scheduling.

CAD 152 Technical Drafting /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Basic concepts, techniques, and applications for technical drafting. Includes use of mechanical drafting fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, CAD procedures and methods, and hard copy techniques and procedures.

CAD 153 Electronic Drafting /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Recommended: CAD 116.

Basic concepts, techniques, and applications for electronic drafting. Includes electronic drafting fundamentals and standards, electronic component and schematic applications, electronics theory, Computer Aided Drafting (CAD) techniques, and file management and hard copy techniques and procedures.

CAD 154 Introduction to Integrated Circuit Layout /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102, MAC 103, and CAD 153 or concurrent enrollment.

Principles and concepts of integrated circuit layout. Includes basic electronics, fundamentals of integrated circuits, manufacturing

process, circuit design, UNIX operating system, schematic diagram, and physical layout overview.

CAD 155 Residential Design/Drafting /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Computer Aided Design/Drafting (CADD) of single family detached dwellings. Includes residential CADD skills, site, foundation, floor, and framing plans, building section and elevation details, mechanical, plumbing, and electrical drawings, and working drawing coordination.

CAD 156 Commercial Design/Drafting I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Computer Aided Design/Drafting (CADD) of a wood frame and masonry addition and renovation of a commercial building. Includes commercial CADD skills, site, demolition, foundation, floor, and framing plans, building sections and elevations, reflected ceiling plan, and mechanical, plumbing, and electrical plans.

CAD 157 Site Development Design/Drafting /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Computer Aided Design/Drafting (CADD) specific to sites for construction of buildings, roads, and utilities. Includes introduction to civil drafting technology, fundamentals of surveying, location and direction, mapping, legal descriptions and plot plans, contour lines, profiles, road layout, earthwork, and Geographic Information Systems (GIS).

CAD 158 Interior Design/Drafting /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CAD 101 or 102.

Computer Aided Design/Drafting (CADD) applications specific to the interior design professions. Includes review of CADD skills, interior design CADD skills, block functions, Internet applications, three dimensional design, presentation drawings, building systems, working drawings, and working drawing coordination.

CAD 162 Mechanical Design I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102 and 152 or concurrent enrollment.

Basic concepts, techniques, and applications for mechanical design. Includes review of mechanical design fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, mechanical design procedures and methods, three-dimensional modeling techniques, and additional file management and hard copy techniques and procedures.

CAD 163 Electronics Design /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102, and 153.

Basic concepts, techniques, and applications for electronics design. Includes fundamentals and standards, electronic component, schematic diagram application, and printed circuit board design, electronics design theory, continuation of introduction to Computer Aided Drafting (CAD) procedures and methods, and file management and hard copy techniques and procedures.

CAD 164 Basic Integrated Circuit (Digital) Layout Design / 4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 154.

Principles and concepts of digital integrated circuit layout design. Includes design process, P-channel metal-oxide semiconductor (PMOS) and N-channel metal-oxide semiconductor (NMOS), contacts, inverter cell, inverted OR gate (NOR) cell, inverted AND gate (NAND) cell, chip planning, tri-state buffer cell, latch cell, flip-flop cell, input buffer cell, counter cell, shift register cell, and oscillator cell.

CAD 170 Three-Dimensional Modeling Techniques /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 101 or 102 or one year of CAD experience and consent of instructor.

Advanced Computer Aided Drafting (CAD) three-dimensional concepts, techniques, and problems. Includes review of fundamentals and standards, three dimensional wire frame, surface, and solid modeling applications, and hard copy techniques and procedures.

CAD 172 Geometric Dimensioning and Tolerancing /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): CAD 101 or 102 or equivalent drafting experience.

Establishing controls on sizes and allowances of mechanical parts. Includes definitions and rules, form tolerances, datums, orientation controls, location controls, runout, and profile.

CAD 199 Co-op Related Class in CAD /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

CAD 199WK Co-op Work in CAD /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

CAD 202 Mechanical Design II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 105, 162.

Advanced technical drawing concepts, techniques, and problems in mechanical design. Includes review of mechanical design fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, advanced solid modeling techniques and hard copy techniques and procedures.

CAD 203 Electro-Mechanical Design /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 105 or concurrent enrollment, and CAD 152, 163.

Concepts, techniques, and applications for electro-mechanical design and product development. Includes electro-mechanical design fundamentals and standards, electronic symbol library, design applications, mechanical assembly techniques, and hard copy techniques and procedures.

CAD 204 Introduction to Analog Layout Techniques /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 105 and 164 or concurrent enrollment.

Principles and concepts of analog layout techniques. Includes metal-oxide semiconductor (MOS) layout, floor planning, resistors, capacitors, bipolar devices, diodes, engineering concerns, layout concerns, and layout versus schematic verification (LVS).

CAD 205 Custom Residential Design/Drafting /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 155.

Computer Aided Design/Drafting (CADD) of a custom single family detached dwelling. Includes advanced CADD skills, project programming, site, foundation, floor, framing, mechanical, plumbing, and electrical plans, building sections and elevations, working drawing coordination, special constructional applications, and model energy code. May be taken four times for a maximum of sixteen credit hours.

CAD 206 Commercial Design/Drafting II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 156.

Practical application of commercial Computer Aided Design/Drafting (CADD) principles. Includes additional CADD production skills, foundation, floor framing, and roof framing plans, structural elevations, architectural backgrounds, expanded plans, stair drawings, mechanical, plumbing, and electrical plans, and manual revision of computer generated drawings.

CAD 220 Advanced Three-Dimensional Modeling Techniques / 4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 170.

Concepts and procedures for designing, modeling, and mass property analysis of mechanical/electro-mechanical models. Includes solid modeling and parametric design fundamentals and standards, design applications, mass property calculations, and hard copy techniques and procedures.

CAD 252 Mechanical Design III /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 172, 202.

Continuation of CAD 202. Includes geometric dimensioning and tolerancing fundamentals and standards, geometric dimensioning and tolerancing symbol library, geometric dimensioning and tolerancing applications, advanced solid modeling techniques, and hard copy techniques and procedures.

CAD 254 Advanced Integrated Circuit (Analog) Layout Design / 4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CAD 204.

Advanced principles and concepts of integrated circuit layout design. Includes advanced layout techniques, advanced cell construction techniques, advanced UNIX operating system use, advanced design rules check (DRC) techniques, and advanced layout versus schematic (LVS) check techniques.

CAD 280 Portfolio /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CAD 252 or 253.

Culminating project for the Computer Aided Drafting (CAD) Program. Includes project parameters, CAD system selection, CAD procedures and methods, drawing and design applications, and hard copy techniques and procedures.

CAD 296 Independent Study in Computer Aided Drafting / 1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Independent work on a special project not included in regular courses. The student is required to obtain a sponsoring instructor in this area and establish objectives, a method of procedure and a method of evaluation.

CAD 297 Computer-Aided Design/Drafting Seminar: /25-4 cr. hrs./25-16 periods (.25-4 lec., 0-12 lab)

Prerequisite(s): Consent of instructor.

Computer-Aided Design/Drafting job-related training. Includes timely and/or limited interest information.

Information: May be taken four times for a maximum of sixteen credit hours.

CAD 299 Co-op Related Class in CAD /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

CAD 299WK Co-op Work in CAD /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

COMPUTER INFORMATION SYSTEMS

For courses numbered 098, 198, 298, see "Topics Courses in Index."

CIS 100 Introduction to Computers /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): MAT 092 or concurrent enrollment.

Introduction to computer information systems. Includes components of a computer system, problem solving and program development concepts, system development concepts, application of information technology and computer ethics and security. Also includes applied problem solving using a spreadsheet tool such as MS Excel and program development using programming tools such as QBASIC and HTML.

CIS 102 Software Development Tools /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): CSA 101.

Use of application software as a tool for program development. Includes Windows, word processing, spreadsheets, multimedia presentations, and the Internet. Also includes the integration capabilities of the software tools listed.

Information: For Computer Information Systems Majors.

CIS 103 Windows Operating System /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): CIS 102.

Introduction to the use, installation, customization, and future trends of microcomputer Windows Operating Systems. Includes operating system commands, command processor functions, input/output control, software and windowing environments. Also includes data linking, and object linking and embedding.

Information: For Computer Information System Majors.

CIS 106 Database Concepts and Applications /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 102.

Introduction to the database concepts and applications in the microcom-

puter environment. Includes design, develop, populate, and troubleshoot using current relational database management system software. Also includes developing custom user interfaces using basic and advanced queries, forms, and reports, creating macros and introduction to database programming using programming languages such as Structure Query Language (SQL) and Visual Basic for Applications (VBA).

Information: For Computer Information Systems Majors.

CIS 119 Network Essentials /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 103.

Comprehensive introduction to computer networks and data communications. Includes LANs, MANs and WANs, centralized versus distributed network services, transmission media and connections (coax, fiber-optic, twisted pair, etc.), network software, and public data networks such as the telephone network and Internet. Also includes network protocols and the OSI model, popular protocol suites, and network management.

CIS 121 WWW Publishing and Support /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 129 or 130 or consent of instructor.

Introduction to constructing Web pages containing forms, image maps, tables, frames, scripting and dynamic HTML. Also includes embedding multi-media into a page, Cascading Style Sheets, effective presentations, and design, and CGI scripting.

CIS 129 Programming and Problem Solving I /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): MAT 122 or concurrent enrollment.

Introduction to personal and business computer systems. Includes terminology, fundamental concepts of information systems, hardware, software, operating systems with emphasis on computer programming and problem solving. Also includes advantages/disadvantages of different language types, source code versus executable code, data structures and data representation, natural and artificial language statements, syntax, semantics, expressions, control structures and procedural abstraction. Also includes concepts of problem solving techniques, creating test data, program debugging and program termination, solving simple problems, and the use of BASIC programming language, programming environment and hardware, and using computers and other methods to complete assignments.

CIS 130 Programming Fundamentals /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 100 or satisfactory score on CIS 100 test.

Structured programming principles and techniques. Includes problem analysis, the algorithm, structured program design, the program development cycle, table processing and file handling. Although emphasis is on logic rather than a language, C++ is taught to reinforce basic principles.

CIS 131 Programming and Problem Solving II /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 129.

Continuation of CIS 129. The student will be developing software using multi-dimensional arrays with structured elements, file handling of both text and binary typed files, sorting and searching models. Requirements for planning, good coding practices, and documentation. Applications include both numerical and business orientated problems.

Information: Programming assignments will use the TURBO PASCAL language.

CIS 136 Microcomputer Components /3 cr. hrs./4 periods (3 lec., 1 lab)

Primary components of common microcomputer systems, monitors, hard and floppy drives, printers, accessory boards, and cables. Includes procedures of upgrading a basic system, the use of interfacing equipment, trouble-shooting techniques and simple maintenance practices.

CIS 137 Introduction to the UNIX Operating System /3 cr. hrs./4 periods (3 lec., 1 lab)

Principles and tools of the UNIX operating system. Includes utilities, file structure, text editors, tools, documentation, networking, and the comparison and usage of different shells.

CIS 139 Beginning Visual Basic Programming /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 129.

Introduction to Visual and event-driven programming using Visual Basic for 32-bit Windows and NT operating systems. Includes design considerations, custom controls, procedures in Code Module, menu editor, keyboard and mouse commands, error handling, report writing, sequential file processing, relational database processing and maintenance program using Data Control and bound controls, prepare programs for final distribution.

CIS 140 FORTRAN Programming /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 100, and MAT 092 or satisfactory score on math assessment test.

Techniques of module programming using FORTRAN 90 constructs. Includes design, error-trapping, on-line debugging, objects, testing procedures, and hierarchical development concepts. Also includes using the DOS and/or Windows environment.

CIS 160 COBOL Programming /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 130 or 131, and 135.

Comprehensive study of and practice in writing programs using COBOL (standard business language). Includes proper documentation, programming standards and programming techniques for utilizing auxiliary storage devices.

CIS 187 Data Processing Projects I /1-3 cr. hrs./3-9 periods (3-9 lab)

Prerequisite(s): Completion of four courses in the Computer Science program or consent of instructor.

Provides practical work experience with academic study. Includes problem solving, job site interpersonal relations, and directed independent studies of computer-related topic. Also includes lab exercises involving operating system tasks, word processing, spreadsheet, electronic mail, and the Internet.

CIS 199 Co-op Related Class in CIS /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

CIS 199WK Co-op Work in CIS /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

CIS 204 Spreadsheet Applications /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 102 and 129 or CIS 130.

Advanced concepts in electronic spreadsheet applications. Includes problem solving and using hands-on solutions relating to spreadsheet software. Also includes graphing, database maintenance, analysis and design of large spreadsheets, linking several spreadsheets, and programming spreadsheet macros with an appropriate programming language such as Visual Basic for Applications.

CIS 206 Database Development /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CIS 106 and 129 or CIS 130 and 280 or consent of instructor.

Introduction to database concepts and terminology. Includes the relational database model, database design, the role of Structured Query Language (SQL), data modeling, and normalization of database tables. Also includes the design, creation, and maintenance of a database system.

CIS 220 Novell NetWare Networking and Administration /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 119 and CIS 130 or 131, or consent of instructor.

Administration of microcomputer networks using Novell NetWare. Includes networking fundamentals, computer networking protocols, NetWare server installation and configuration, maintenance, operation and administration.

CIS 221 MS Windows Server Based Networking and Administration /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 119 or consent of instructor.

Computer networking using MS Windows Server. Includes networking fundamentals, computer networking protocol comparisons, MS Windows Server installation, maintenance, operation and administration.

CIS 222 Advanced Novell Networking /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CIS 220 or consent of instructor.

Advanced concepts of Novell NetWare networking. Includes planning, design and installation of network directory services. Also includes server and client management, trouble-shooting techniques and managing the enterprise.

CIS 223 Advanced MS Windows Server Based Networking /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CIS 221 or consent of instructor.

Configuration, installation and management of MS Windows Server Based networking in the enterprise. Includes protocol and binding configuration, server management, user and client management, interoperability with Novell NetWare, and problem response and resolution.

CIS 225 Linux (UNIX) System and Network Administration /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 137 or consent of instructor.

Operations and network administration of the Linux (UNIX) system. Includes comparison of Linux distributions and installation of Linux. Also covers network configuration including /etc/inetd.conf, Apache, SAMBA, FTP and NFS and addresses security issues associated with the Internet.

CIS 238 Integrated Software Projects /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): CIS 106, 204.

Utilization of the integration features of an application software suite such as Microsoft Office. Includes presentation of problems in various situations requiring the use of problem-solving, critical-thinking, and creative-thinking skills. Also includes hands-on computer skill to design a solution and use a software suite to complete each of the projects.

CIS 239 Advanced Programming in Visual BASIC /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 139 or consent of instructor.

Advanced event-driven and object-oriented programming in Visual BASIC for 32-bit Windows or NT. Includes Relational Database programming using object-oriented approach, Data Controls, ADO and DAO code, MDI, API functions, INI and Registry files, report writing, OLE Automation, creation of Active X Controls, collections, writing context sensitive help, Active Server Pages, Client/Server using ADO, RDC, RDO, and ODBC, Packaging and Deployment application.

CIS 240 Machine Architecture and Organization /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 250.

Introduction to digital computers, elementary hardware concepts, machine operations and instructions, assembly language concepts, and programming in assembly language.

CIS 250 Introduction to Assembly Language /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CIS 130 or 131 or consent of instructor.

Beginning 80x86 assembly language programming. Includes various number systems, machine organization and different addressing methods. Also includes array processing, indexing, sorting, stack parameter passing, internal and external procedures, string functions, data packing, logical and bit-level operations, DOS and BIOS interrupts, macros, and file I/O.

CIS 260 Advanced COBOL and File Management /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 160.

Advanced COBOL programming techniques and language features are thoroughly explored. Includes report writer, sort verbs, file organization, debugging aids, and interaction with the operating system.

CIS 265 The C Programming Language /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): Concurrent enrollment in CIS 250.

Principles and syntax of ANSI Standard C and many of the common library functions. Includes writing C programs in portable code to facilitate systems programming concepts.

CIS 266 CGI Programming with PERL /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 121 and 265 or consent of instructor.

Development of CGI scripts using Perl. Includes producing efficient and effective scripts. Also includes creating interactive Web pages using forms, post processing, CGI graphics, and persistent cookies.

CIS 269 Data Structures /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 265.

Advanced topics in computer science and programming in C. Includes software design and development, testing and validation, and the algorithmic process. Also includes dynamic allocation, advanced sort and search algorithms, recursion, stacks, queues, linked lists, trees, hash tables, and graphs.

CIS 272 Advanced Networking Concepts /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): CIS 119 and 136 or consent of instructor.

Advanced networking concepts and technologies applied to Local and Wide Area networks. Includes topology and standards, internetworking devices, such as routers, hubs and bridges, and network design and layout.

CIS 273 Advanced Web Development /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): CIS 121 or consent of instructor.

Advanced web development including design and implementation of database web application. Includes use of HTML, scripting languages such as vbscript, JavaScript, or CGI PERL, client and server scripting, active server pages, Java Applets, Active X components, database usage, debugging and deployment of a web application. Also includes discussion of various database types.

CIS 275 Advanced 80x86 Assembly Language /4 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 250.

Advanced 80x86 assembly programming techniques. Includes macros, file I/O, conditional assembly, high level language interfacing, direct disk accessing, hardware and software interrupts, and TSR's.

CIS 278 C++ and Object-Oriented Programming /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 265 or consent of instructor.

Concepts and implementation of object-oriented programming and design using C++. Includes the language syntax of C++, applications using C++ objects to solve information systems problems, and class libraries created for reuse and inheritance.

CIS 279 Java Programming /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 265.

Introduction to the Java programming language. Includes writing standalone programs with use of buttons, scrollbars, menus, check boxes, and other features. Also includes fundamentals of sending both data and programs, such as Applets, over the Internet.

CIS 280 Systems Analysis and Design: Concepts and Tools /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 131 or concurrent enrollment in CIS 206.

Concepts of systems analysis and design for all phases of the systems development life cycle. Includes problem identification, project initiation and planning, analysis, logical design, physical design, implementation and testing, and operations and maintenance. Also includes specific tools used by systems analysts, introduction and use of CASE (computer-aided software engineering) tools, and project management software.

CIS 281 Systems Analysis and Design: Applications /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): CIS 280.

Concepts and tools of systems analysis applied to specific projects. Includes performing a project from problem initiation through to implementation using CASE tools, project management software, and appropriate software development tools.

CIS 287 Data Processing Projects II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Consent of instructor.

Analysis and solution of a computer problem related to business. Includes choice of a computer language, structured programming techniques, setting priorities, and development and testing of procedures. Also includes methods of documentation, enhancement projection, and making a formal presentation.

CIS 289 Database Systems Design and Management /5 cr. hrs./6 periods (4 lec., 2 lab)

Prerequisite(s): CIS 280 and a high level language.

Introduction to the design and use of a database system. Includes data structures, file organizations, database models, program/query development in Structured Query Language (SQL), database administration and a top-down, systematic approach to developing a relational database and defining requirements as entities, attributes, and relationships. Also includes other database models such as hierarchical, network, and object-oriented.

CIS 299 Co-op Related Class in CIS /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

CIS 299WK Co-op Work in CIS /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

COMPUTER SOFTWARE APPLICATIONS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CSA 101 Computer Fundamentals /3 cr. hrs./4 periods (2 lec., 2 lab)

Overview of computer applications and functions. Includes historical significance of the computer, components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes advanced office software, office networking, and computer networks for communication and information.

CSA 101A Computer Fundamentals: Module A /1 cr. hr./2 periods (1 lec., 1 lab)

Overview of computer applications and functions. Includes historical significance of the computer, components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes computer networks for communication and information.
Information: CSA 101A and 101B together constitute CSA 101.

CSA 101B Computer Fundamentals: Module B /2 cr. hrs./3 periods (1 lec., 2 lab)

Overview of computer applications and functions. Includes historical significance of the computer, components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes office networking, and computer networks for communication and information.
Information: CSA 101A and 101B together constitute CSA 101.

CSA 105 Macintosh Software Applications /3 cr. hrs./4 periods (3 lec., 1 lab)

Principles and procedures for operating Macintosh application software. Includes microcomputer overview, Macintosh basics and operating system, computer graphics, word processing, spreadsheet, database, hypercard, and desktop publishing.

CSA 107 Microcomputer Software/Hardware Topics /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): CSA 101 and 180, 181, or 182.

Overview of microcomputer operating procedures. Includes software, hardware, and communication networks.

CSA 108 Software Skills Update /1-3 cr. hrs./1.6-5 periods (.6-2 lec., 1-3 lab)

Techniques and procedures using current equipment and software. Includes file creation, data manipulation, calculations, editing, and printing.
Information: May be taken up to a maximum of twelve credit hours.

CSA 110 Microsoft Excel /75-6 cr. hrs./75-6 periods (.75-6 lec.)

Fundamentals of Microsoft Excel. Includes creating, saving, editing, and printing spreadsheets, creating and using ranges, using date and time functions, viewing and editing worksheets, using multiple worksheets, protecting the date and time functions, creating multiple views, using, creating, maintaining, sorting, and finding information in a list, creating, using and enhancing a chart. Also includes creating complex formulas, customizing work area, creating pivot tables, linking files, consolidating data, and recording macros.

CSA 110A Beginning Microsoft Excel /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Excel at the beginning level. Includes creating, saving, editing, and printing spreadsheets.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

CSA 110B Intermediate Microsoft Excel /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Excel at the intermediate level. Includes creating and using ranges, using date and time functions, viewing and editing worksheets, using multiple worksheets, protecting the date and time functions, viewing and editing worksheets. Also includes using multiple worksheets, creating multiple views, using, creating, maintaining, sorting, and finding information in a list, and creating, using and enhancing a chart.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

CSA 110C Advanced Microsoft Excel /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Excel at the advanced level. Includes creating complex formulas, customizing work area, creating pivot tables, linking files, consolidating data, and recording macros.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

CSA 111 Lotus 1-2-3 Spreadsheets /3 cr. hrs./4 periods (3 lec., 1 lab)

Solving business problems using Lotus 1-2-3. Includes making forecasts, setting up calculations, performing statistics, graphing, searching databases and reporting.

CSA 112 Microsoft Excel for Power Users /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Techniques to maximize usage of Microsoft Excel. Includes using macros, database functions, data sharing, and Report Manager.

CSA 115 Spreadsheets /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): CSA 101 or consent of instructor.

Basic concepts of spreadsheet processing in the microcomputer environment. Includes entering data, modifying, creating graphs, logical functions, statistical functions, financial functions, and windows.

CSA 115A Beginning Spreadsheets /1 cr. hr./1.35 periods (1 lec., .35 lab)

Prerequisite(s): CSA 101 or consent of instructor.

Beginning concepts of spreadsheet processing using the microcomputer. Includes techniques of creating, manipulating and printing a simple spreadsheet using popular spreadsheet software.

Information: CSA 115A, 115B, and 115C together constitute CSA 115.

CSA 115B Intermediate Spreadsheets /1 cr. hr./1.35 periods (1 lec., .35 lab)

Prerequisite(s): CSA 115A.

Intermediate concepts of spreadsheet processing using the microcomputer. Includes functions, windows, logical operators, and graphics using a commercial spreadsheet package.

Information: CSA 115A, 115B, and 115C together constitute CSA 115.

CSA 115C Advanced Spreadsheets /1 cr. hr./1.35 periods (1 lec., .35 lab)

Prerequisite(s): CSA 115B.

Advanced concepts of spreadsheet processing using the microcomputer. Includes macros, and the spreadsheet database using advanced spreadsheet software.

Information: CSA 115A, 115B, and 115C together constitute CSA 115.

CSA 120 Microsoft Word /75-6 cr. hrs./75-6 periods (.75-6 lec.)

Word processing concepts using Microsoft Word. Includes creating and editing documents, and using character and paragraph formatting, tables, styles, templates, and macros, merge, multiple-columnar formats, Internet basics, creating and using advanced styles, templates, and forms, working with graphics in documents, working with large documents, determining document layout, and sharing documents.

CSA 120A Beginning Microsoft Word /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Word at an introductory level. Includes getting started with Word for Windows, editing a document, enhancing text, formatting a document, and multipage documents.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

CSA 120B Intermediate Microsoft Word /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Word at an intermediate level. Includes file management, advanced page setup, tables, AutoText, merging, and templates and wizards.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

CSA 120C Advanced Microsoft Word /.25-2 cr. hrs./25-2 periods (.25-2 lec.)

Microsoft Word at an advanced level. Includes macros, templates, styles, table of content, graphics, and customizing Word.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

CSA 121 Microsoft Word for Power Users / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Techniques to maximize usage of Microsoft Word. Includes creating, running, and editing macros, using forms and merging, and working in workgroups.

CSA 125 Corel WordPerfect / .75-6 cr. hrs./ .75-6 periods (.75-6 lec.)

Applications of WordPerfect software. Includes an introduction to Windows, and using the basic, intermediate, and advanced capabilities of WordPerfect for Windows software to prepare a variety of documents.

CSA 125A Beginning Corel WordPerfect / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Corel WordPerfect at the beginning level. Includes using such features as basic editing, enhancing text, using search and replace, formatting and working with multipage documents.

Information: CSA 125A, 125B, and 125C together constitute CSA 125.

CSA 125B Intermediate Corel WordPerfect / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Corel WordPerfect at the intermediate level. Includes managing files, advanced page setup, columns, tables, merging, address book, sorting, and Table of Contents.

Information: CSA 125A, 125B, and 125C together constitute CSA 125.

CSA 125C Advanced Corel WordPerfect / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Corel WordPerfect at the advanced level. Includes graphics, styles, macros, templates, drawing, TextArt, and charting.

Information: CSA 125A, 125B, and 125C together constitute CSA 125.

CSA 127 Word Processing / 3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): ASC 111A or concurrent enrollment or equivalent proficiency on the computer keyboard.

Word processing software. Includes creating documents using menus, editing text in a document, text enhancement, page formatting, writing tools, file management, creating tables, sorting and calculating, merging documents, text columns, outlines, macros, templates and styles, indexes and table of contents, graphic images, drawing and charting, and forms.

CSA 127A Word Processing I / 1 cr. hr./ 1.6 periods (.7 lec., .9 lab)

Prerequisite(s): ASC 111A or concurrent enrollment or equivalent proficiency on the computer keyboard.

Introduction to word processing software. Includes creating documents using menus, editing text in a document, text enhancement, page formatting, writing tools, and file management.

Information: CSA 127A, 127B, and 127C together constitute CSA 127.

CSA 127B Word Processing II / 1 cr. hr./ 1.4 periods (.7 lec., .7 lab)

Prerequisite(s): CSA 127A.

Continuation of CSA 127A. Includes creating tables, sorting and calculating, merging documents, text columns, outlines, and macros.

Information: CSA 127A, 127B, and 127C together constitute CSA 127.

CSA 127C Word Processing III / 1 cr. hr./ 1.4 periods (.7 lec., .7 lab)

Prerequisite(s): CSA 127B or equivalent proficiency on the computer keyboard.

Continuation of CSA 127B. Includes templates and styles, indexes and table of contents, graphic images, drawing and charting, and forms.

Information: CSA 127A, 127B, and 127C together constitute CSA 127.

CSA 130 Microsoft PowerPoint / .75-6 cr. hrs./ .75-6 periods (.75-6 lec.)

Fundamentals of Microsoft PowerPoint. Includes beginning a presentation, templates and Wizards, color scheme, drawing tools, clip art, presentation in outline view, toolbars, organization charts, graphs, advanced text and graphics, templates and the slide master, slide shows, output and presentation options. Also includes animation, video, sound, creating action buttons, connecting to the Internet, and running a slide show.

CSA 130A Beginning Microsoft PowerPoint / .25-2 cr. hr./ .25-2 periods (.25-2 lec.)

Microsoft PowerPoint at the beginning level. Includes introduction to PowerPoint for Windows, creating a test presentation, enhancing text, drawing and creating objects and lines, managing your presentation, and notes and handouts.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

CSA 130B Intermediate Microsoft PowerPoint / .25-2 cr. hr./ .25-2 periods (.25-2 lec.)

Microsoft PowerPoint at the intermediate level. Includes coloring and shading tools, pictures and Clipart, drawing features, appearance, and pictures and slides.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

CSA 130C Advanced Microsoft PowerPoint / .25-2 cr. hr./ .25-2 periods (.25-2 lec.)

PowerPoint software and advanced techniques. Includes sound and animation, organizational charts, inserting video, and connecting to the Internet.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

CSA 140 ClarisWorks / 1 cr. hr./ 1.5 periods (1 lec., .5 lab)

ClarisWorks for the beginning-level student. Includes word processing, spreadsheet charts and graphics, integrating applications, classroom uses of templates, spreadsheets, graphics and charts, designing a newsletter, and setting up a database.

CSA 141 Integrated Office Suite / 4 cr. hrs./ 6 periods (3 lec., 3 lab)

Prerequisite(s): ASC 111A or concurrent enrollment or equivalent proficiency on the computer keyboard.

Practical applications using integrated windows software. Includes word processing, database, spreadsheets, and slide presentation.

CSA 142 Integrated Office Suite for Power Users / 3 cr. hrs./ 3 periods (2 lec., 3 lab)

Prerequisite(s): CSA 110, 120, or 127, 130, and 170.

Advanced applications using integrated windows software. Includes advanced business applications and features, sharing data and objects between applications, sharing data between users, and linking applications to the Internet.

CSA 150 Internet Laboratory / 1 cr. hr./ 2 periods (2 lab)

Using the Internet. Includes e-mail, Telnet, FTP, WWW, Archie, Gopher, and other Internet tools.

Information: May be taken six times for a maximum of six credit hours.

CSA 151 Introduction to the Internet for New Computer Users / 1 cr. hr./ 2 periods (1 lec., 1 lab)

Prerequisite(s): Basic knowledge of personal computer operations.

History, principles, and use of Internet for persons with personal computer experience. Includes a short introduction to computers and computer communications, e-mail, Telnet, FTP, WWW, Archie, Gopher, and other Internet Tools.

Information: May be taken three times for a maximum of three credit hours.

CSA 152 Microsoft Internet Explorer / .50-2 cr. hrs./ .50-2 periods (.50-2 lec.)

Fundamentals of Microsoft Internet Explorer. Includes customizing the browser, browsing the Web, printing and saving Web pages, security features, using Internet Explorer with other applications, and advanced features.

CSA 152A Beginning Microsoft Internet Explorer / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Microsoft Internet Explorer at the beginning level. Includes customizing the browser, browsing the Web, and printing and saving Web pages.

Information: CSA 152A and 152B together constitute CSA 152.

CSA 152B Advanced Microsoft Internet Explorer / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Microsoft Internet Explorer at the advanced level. Includes security features, using Internet Explorer with other applications, and advanced features.

Information: CSA 152A and 152B together constitute CSA 152.

CSA 153 Netscape Navigator / .50-2 cr. hrs./ .50-2 periods (.50-2 lec.)

Fundamentals of Netscape Navigator. Includes Communicator basics using Netscape Navigator, locating information, accessing information, and communications security. Also includes customizing the Netscape Navigator.

CSA 153A Beginning Netscape Navigator / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Netscape Navigator at the beginning level. Includes Communicator basics using Netscape Navigator, and locating information.

Information: CSA 153A and 153B together constitute CSA 153.

CSA 153B Advanced Netscape Navigator / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Netscape Navigator at the advanced level. Includes accessing information, communications security, and customizing the Netscape Navigator.

Information: CSA 153A and 153B together constitute CSA 153.

CSA 154 Introduction to Newsgroups / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Basics for using Newsgroups. Includes the participation in newsgroups and newsgroup tips.

CSA 155 Microsoft FrontPage / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Create and manage Web sites using FrontPage Web authoring system. Includes an introduction to FrontPage Explorer, working with FrontPage Explorer, working with FrontPage Editor, creating hyperlinks, and using the advanced features to create tables, forms and frames.

CSA 156 Searching the Internet / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Fundamentals for searching the Internet. Includes search basics, common search engines, and using common search engines.

CSA 157 Introduction to E-Mail / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Basics for using e-mail. Includes how e-mail works, and using an e-mail system.

CSA 158 The Internet for Experienced Computer Users / 1 cr. hr./ 2 periods (1 lec., 1 lab)

History, principle, and use of Internet. Includes Internet mail, Telnet, FTP, WWW, Archie, Gopher, and other Internet tools. Students must have a working knowledge of DOS, text editing, and electronic mail.

CSA 160 Instructional Applications of the Internet / 1 cr. hr./ 1.5 periods (1 lec., .5 lab)

Integrating Internet services into the instructional process. Includes an introduction to the Internet, using the Internet, using the World Wide Web, instructional design for Computer-Mediated Communications (CMC), and educational issues of computer-mediated communication, and new technologies.

CSA 170 Microsoft Access / .75-6 cr. hrs./ .75-6 periods (.75-6 lec.)

Techniques for using Microsoft Access. Includes an overview of Microsoft Access, creating tables, working with tables, creating and using select queries, creating and using forms, creating and using reports, creating a report that contains totals, principles of table design and relationships, table design techniques, designing select queries, customizing form designs, working with data access pages, customizing reports, parameter and action queries, query joins and crosstab queries, using advanced form techniques, creating basic macros to automate forms, using macros to provide user interaction and automate tasks, using advanced report techniques, and Access, and the Internet.

CSA 170A Beginning Microsoft Access / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Microsoft Access at the beginning level. Includes an overview of Access, creating tables, working with tables, creating and using select queries, creating and using forms, creating and using reports, and creating a report that contains totals.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

CSA 170B Intermediate Microsoft Access / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Microsoft Access at the intermediate level. Includes techniques to enhance database designs using the principles of normalization and table relationships. Also includes principles of table design, principles of table relationships, table design techniques, designing select queries, customizing form designs, working with data access pages, and customizing reports.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

CSA 170C Advanced Microsoft Access / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Microsoft Access at the advanced level. Includes advanced techniques for using complex queries, creating more efficient forms and reports, and automating forms. Also includes parameter and action queries, query joins and crosstab queries, using advanced form techniques, creating basic macros to automate forms, using macros to provide user interaction and automate tasks, using advanced report techniques, and Access and the Internet.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

CSA 171 Microsoft Access for Power Users / .25-2 cr. hrs./ .25-2 periods (.25-2 lec.)

Techniques to maximize usage of Microsoft Access. Includes sharing and replicating databases, maintaining data, importing and exporting data, Microsoft Access and the Internet.

CSA 177 Databases / 2 cr. hrs./ 4 periods (1 lec., 3 lab)

Prerequisite(s): ASC 111A or concurrent enrollment or equivalent proficiency on the computer keyboard.

Database operations using current software. Includes file creation, data formatting, special features, special functions, saving and printing.

CSA 180 Microsoft Windows 95 / .75-3 cr. hrs./ .75-3 periods (.75-3 lec.)

Introduction to Microsoft Windows on the personal computer. Includes overview of the microcomputer systems, fundamentals of Windows, customizing Windows, file management, and applications and accessories that work with Windows.

CSA 180A Beginning Microsoft Windows 95 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 95 at the beginning level. Includes getting started with Windows 95, working with Windows, creating and working with files and folders, customizing Windows, and using the control panel.

Information: CSA 180A, 180B, and 180C together constitute CSA 180.

CSA 180B Intermediate Microsoft Windows 95 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 95 at the intermediate level. Includes memory configuration for Windows, keyboard alternatives vs. mouse use, running Windows applications, File Manager, Printer Manager, and using Windows accessories.

Information: CSA 180A, 180B, and 180C together constitute CSA 180.

CSA 180C Advanced Microsoft Windows 95 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 95 at the advanced level. Includes customizing Windows 95, sharing Data, Multimedia, HyperTerminal and Microsoft Exchange, Networks, and Windows 95 and the Internet.

Information: CSA 180A, 180B, and 180C together constitute CSA 180.

CSA 181 Microsoft Windows 98 / .75-3 cr. hrs./ .75-3 periods (.75-3 lec.)

Fundamentals of Windows 98. Includes an introduction to Windows 98, Explorer, the active Desktop, My Computer, files and folders, and installing and running applications, configuring memory for Windows, using keyboard alternatives vs. the mouse. Also includes running Windows applications, using file Manager, Printer Manager, and Windows accessories, customizing Windows 98, adding plug-and-play and multiple monitors, networking with Windows, using Mobile Windows 98, and accessing the Internet.

CSA 181A Beginning Microsoft Windows 98 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 98 at the beginning level. Includes an introduction to Windows 98, Explorer, the active desktop, My Computer, files and folders, and installing and running applications.

Information: CSA 181A, 181B, and 181C together constitute CSA 181.

CSA 181B Intermediate Microsoft Windows 98 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 98 at the intermediate level. Includes memory configuration for Windows, using keyboard alternatives vs. the mouse, running Windows applications, and using File Manager, Printer Manager, and Windows accessories.

Information: CSA 181A, 181B, and 181C together constitute CSA 181.

CSA 181C Advanced Microsoft Windows 98 / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Windows 98 at the advanced level. Includes customizing Windows 98, adding plug and play and multiple monitors, networking with Windows, using Mobile Windows 98, and accessing the Internet.

Information: CSA 181A, 181B, and 181C together constitute CSA 181.

CSA 182 Microsoft Windows (Current Version) / 3 cr. hrs./ 5 periods (2 lec., 3 lab)

Overview of the Microsoft Windows operating system. Includes introduction to Windows, active desktop, multitasking, Windows help features, Windows Explorer, file management, Windows accessories, exchanging data between programs, print management, control panel, customizing Windows, and networking with Windows.

CSA 182A Beginning Microsoft Windows (Current Version) / 1 cr. hr./ 1.7 periods (.7 lec., 1 lab)

Overview of the Microsoft Windows operating system. Includes introduction to Windows, active desktop, multitasking, and Windows help features.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

CSA 182B Intermediate Microsoft Windows (Current Version) / 1 cr. hr./ 1.7 periods (.7 lec., 1 lab)

Continuation of CSA 182A. Includes Windows Explorer, file management, Windows accessories, and exchanging data between programs.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

CSA 182C Advanced Microsoft Windows (Current Version) / 1 cr. hr./ 1.7 periods (.7 lec., 1 lab)

Continuation of CSA 182B. Includes print management, control panel, customizing Windows, and networking with Windows.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

CSA 200 PageMaker for Windows / 3 cr. hrs./ 4.5 periods (3 lec., 1.5 lab)

Using PageMaker for Desktop publishing. Includes layout and design, printing textual material, graphic materials, design elements, and printing alternatives.

CSA 207 Microsoft Publisher / 3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): CSA 127A, 127B.

Desktop publishing for administrative support personnel. Includes a variety of desktop publishing software, terms and concepts, text, graphics, page format, other features, and basic design.

COOPERATIVE EDUCATION**CED 199 Co-op Related Class / 1 cr. hr./ 1 period (1 lec.)**

Co-requisite(s): Concurrent enrollment in 199 Co-op Work.

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Information: May be taken two times for a maximum of two credit hours.

CED 199 Co-op Work / 1-8 cr. hrs./ 5-40 periods (5-40 lab)

Co-requisite(s): Concurrent enrollment in 199 Co-op Related Class.

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken two times for a maximum of sixteen credit hours.

CED 299 Co-op Related Class / 1 cr. hr./ 1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in 299 Co-op Work.

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience. Emphasis on attitude adjustment.

Information: May be taken two times for a maximum of two credit hours.

299 Co-op Work /1-8 cr. hrs./5-40 periods (5-40 lab)

Co-requisite(s): Concurrent enrollment in 299 Co-op Related Class. A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken two times for a maximum of sixteen credit hours.

CED 090 Field Experience in Workplace Readiness /3 cr. hrs./7 periods (2 lec., 5 lab)

Prerequisite(s): Consent of instructor.

Introduction to the workplace for high school students. Includes teamwork, problem solving, self-management, diversity, communication, and ethics.

CED 199 Co-op Related Class in Liberal Arts /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in 199 Co-op Work.

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Information: May be taken two times for a maximum of two credit hours.

CED 199 Co-op Work in Liberal Arts /1-8 cr. hrs./5-40 periods (5-40 lab)

Co-requisite(s): Concurrent enrollment in 199 Co-op Related Class.

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken two times for a maximum of sixteen credit hours.

CED 299 Co-op Related Class in Liberal Arts /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in 299 Co-op Work.

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience. Emphasis on attitude adjustment.

Information: May be taken two times for a maximum of two credit hours.

CED 299 Co-op Work in Liberal Arts /1-8 cr. hrs./5-40 periods (5-40 lab)

Co-requisite(s): Concurrent enrollment in 299 Co-op Related Class.

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken two times for a maximum of sixteen credit hours.

COURT SUPPORT SERVICES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CSS 101 Survey of Court Systems I /3 cr. hrs./3 periods (3 lec.)

Overview of the major structures and organization of the American judicial system, and a comprehensive overview of the roles and purposes of distinct jurisdictions, and the role of court support personnel in these courts. Includes an examination of the basic professional expertise required in the support of court operations. Also includes an examination of the roles of the major participants within the court milieu, and the extent of support services required of these participants.

CSS 111 Introduction to the United States Judicial System /1 cr. hr./2 periods (1 lec., 1 lab)

Major structures and organization of the American judicial system. Includes an emphasis on the Arizona courts. Also includes a comprehensive overview of the roles and purposes of distinct jurisdictions, and the role of court support personnel in these courts.

CSS 112 Role of Court Support Staff in the United States Judicial System /1 cr. hr./2 periods (1 lec., 1 lab)

Roles of the major participants within the court milieu. Includes organizational structure of courts, role of court support staff in the judicial process, daily operation of the courts, and ethics.

CSS 113 Case Management Concepts /1 cr. hr./2 periods (1 lec., 1 lab)

Basic concepts of case management used in contemporary courts. Includes an examination of the basic professional expertise required in the support of court operations.

CSS 114 Jury Management /1 cr. hr./2 periods (1 lec., 1 lab)

Overview of how individuals are selected for potential jury service. Includes an examination of the basic managerial expertise needed in jury management. Also includes an examination of the role of technology in jury management.

CSS 115 Technology in the Courts /1 cr. hr./2 periods (1 lec., 1 lab)

Examination of technology management to enhance the capability and efficiency of the court system. Includes an analysis of technology applied to logistical support, jury management, cash management, courtroom support and case processing.

CSS 116 Introduction to the Tribal Courts /3 cr. hr./3 periods (3 lec.)

Examination of the roles and purposes of tribal courts. Includes an overview of the major functions, structure and organization of Tribal Courts, and the role of the tribal court in the total American judicial system. Also includes a comprehensive overview of the roles and purposes of tribal court jurisdictions, the role of tribal court advocates and court support personnel in these courts and a survey of the structure of the Arizona judicial system.

CSS 117 Alternative Dispute Resolution /1 cr. hr./2 periods (1 lec., 1 lab)

Theory and practice of Alternative Dispute Resolution. Includes an examination of Alternative Dispute Resolution as a process to expedite case processing. Also includes strategies and tactics involved in Alternative Dispute Resolution.

CSS 120 Introduction to Tribal Court Advocacy /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CSS 116.

Introduction to the role and purpose of tribal court advocates. Includes an examination of tribal court jurisdictions and the role of tribal court advocates in these courts. Also includes the major functions, structure, and organization of Tribal Courts including the role of the tribal court advocate, a survey of the structure of the Arizona judicial system, and the role of the tribal court in the Arizona judicial system.

CSS 201 Survey of Court Systems II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CSS 101.

Overview of the role of court support personnel in the total operation of the American judicial system. Includes an examination of the basic managerial expertise needed to support the complex operation of the courts. Also includes an examination of technology management to expand the capacity of the court system and improve the performance of the courts. Also includes an analysis of the areas of responsibility including logistical support, staff relations, jury management, cash management, courtroom support, customer service, and case processing.

CSS 210 Judicial System Communication /3 cr. hrs./3 periods (3 lec.)

Introduction to the writing and speaking skills needed in the court support fields. Includes practice and application of these skills to court specific reports, narratives and forms. Also includes preparation and presentation of written reports, oral presentations, group projects, and technical presentations. Also includes court specific terminology, form completion and other communication skills required by the court support areas.

CSS 220 Issues in Tribal Court Advocacy /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CSS 116.

Overview of the major issues incorporated in the study of tribal court advocacy. Includes the study of issues essential to tribal governments in developing and strengthening their systems of justice. Also includes the re-examination of the role of the tribal court advocate in the most essential issues involved in tribal court sovereignty.

CSS 290 Court Support Services Field Experiences /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): CSS 101.

Participation in judicial system placements to acquire practical experiences in the court support areas. Includes seminars conducted to discuss the field experiences in relation to court support services. Also includes an analysis of the host agencies roles and purposes in the total judicial process.

CULINARY ARTS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

CUL 101 Principles of Restaurant Operations /3 cr. hrs./3 periods (3 lec.)

Basic nutrition concepts with an emphasis on the nutritional concerns of restaurants and other types of food service operations. Includes health and nutrition, evaluation and use of popular and commercial nutrition information, carbohydrates, lipids, proteins, vitamins, minerals, water, energy metabolism/balance, and nutrition principles and the life cycle.

CUL 110 Food Service Nutrition /2 cr. hrs./2 periods (2 lec.)

Basic nutrition concepts with an emphasis on the nutritional concerns of restaurants and other types of food service operations. Includes health and nutrition, evaluation and use of popular and commercial nutrition information, carbohydrates, lipids, proteins, vitamins, minerals, water, energy metabolism/balance, and nutrition principles and the life cycle.

CUL 115 Food Service Sanitation and Safety /3 cr. hrs./3 periods (3 lec.)

Theory and practice of food service safety and sanitation. Includes creating a safe food service environment, food-borne illnesses, Haz-

ard Analysis Critical Control Points, sanitation in the purchasing, receiving and storage of food, sanitation in the preparation and service of food, maintaining sanitary facilities and equipment, safety and accident prevention, and legal requirements for food service safety and sanitation.

Information: Reviews legal elements of food service sanitation based on requirements and recommendations of Pima County Health Department.

CUL 120 Stewarding /2 cr. hrs./2 periods (2 lec.)

Co-requisite: CUL 130, 150, 160 and 170.

Introduction to stewarding as kitchen support service. Includes cleaning and sanitizing a kitchen, functions of a steward, receiving, food rotation, and ordering systems.

CUL 126 Applied Mathematics for Food Service /1 cr. hr./1 period (1 lec.)

Fundamentals of cost controls. Includes an introduction to profit and loss, balance sheet and net worth statements, measurement and conversions, recipe conversions, unit and recipe costing, yield tests, inventory and food cost percentages, controlling food costs, and menu pricing.

CUL 130 Hot Foods I /3 cr. hrs./3 periods (3 lec.)

Co-requisite: CUL 120, 150, 160, 170.

Introduction to all facets of hot foods. Includes classical stocks, sauces, soups, liaisons: roux and starches, cooking techniques, preparation of vegetables, and butchering.

CUL 140 Culinary Principles I /2 cr. hrs./2 periods (2 lec.)

Introduction to the background of culinary work. Includes professionalism, job responsibilities, tools and equipment, knives and knife skills, stocks, sauces, principles of cooking, food service vocabulary, the menu, food tasting, herbs and spices, chocolate, and vegetables.

CUL 150 Garde Manger I /2 cr. hrs./2 periods (2 lec.)

Co-requisite: CUL 120, 130, 160, 170.

Introduction to the fundamentals of Garde Manger. Includes care of equipment, dressings: emulsified/non-emulsified, knife skills, basic sandwiches, herbs and spices, salad greens, and commercial cooking techniques.

CUL 160 Bakery and Pastry Production I /3 cr. hrs./3 periods (3 lec.)

Co-requisite: CUL 120, 130, 150, 170.

Theory and practice of operating a bakery or pastry shop in a hotel or restaurant kitchen. Includes planning, ordering and scheduling for bakeshop production, safety and sanitation, bakery and pastry vocabulary, ingredients, yeast breads, quick breads, creams and custards, dough, cakes, filling, and frostings, cookies and brownies, and elementary plating, decorating and garnishing techniques.

CUL 170 Dining Room Operations I /2 cr. hrs./2 periods (2 lec.)

Co-requisite: CUL 120, 130, 150, 170.

Theory and practice of operating a casual dining room. dining room preparation and guest service, proper etiquette for service and clearing, wine and beverage sales and service, salesmanship, and serving the public.

CUL 180 Food in History /3 cr. hrs./3 periods (3 lec.)

History of foodstuffs, the story of cuisine, and the social history of eating. Includes collecting, gathering and hunting foodstuffs, stock-breeding and farming, sacramental foods, the economy of food markets, the era of merchants, Columbus, Cortez and new world food discoveries, and professional food preparation.

CUL 185 Catering Operations /2 cr. hrs./2 periods (2 lec.)

Theory and practice of planning and executing catering functions. Includes booking and planning, banquet room set-up and staffing, banquet service, guest payment and follow up, and specialized functions.

CUL 199 Co-op Related Class in CUL /1 cr. hr./1 period (1 lec.)

Co-requisite: Concurrent enrollment in 199 Co-op Work.

See Cooperative Education for description.

CUL 199WK Co-op Work in CUL /1-6 cr. hrs./5-30 periods (5-30 lab)

Co-requisite: Concurrent enrollment in 199 Co-op Class.

See Cooperative Education for description.

CUL 210 Menu Planning and Facilities Design /2 cr. hrs./2 periods (2 lec.)

Principles and techniques of menu planning and restaurant design for food service operations. Includes designing a facility, designing a kitchen, determining equipment needs, developing a cost effective menu, ambiance and food, and inventory control procedures.

CUL 230 Hot Foods II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CUL 130.

Co-requisite: CUL 250, 260, 270.

Hot food preparation and service in a contemporary kitchen. Includes contemporary sauce making, vegetables, grains, and starches, natural liaisons, cooking techniques, food plating, and sanitation procedures and techniques.

CUL 240 Culinary Principles II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): CUL 140.

Advanced culinary instruction. Includes food service vocabulary, grains, pasta, cheese, fish and shellfish, game, international cuisine, and wine, beer and spirits.

CUL 250 Garde Manger II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): CUL 150.

Co-requisite: CUL 230, 260, 270.

Refinement of skills required in a Garde Manger Department. Includes charcuterie, cold buffets, salad greens, salad dressings, garnish, and hygiene and sanitation standards.

CUL 260 Bakery and Pastry Production II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): CUL 160.

Co-requisite: CUL 220, 230, 250, 270 or consent of instructor.

Advanced theory and practice of operating a bakery or pastry shop in a hotel or restaurant kitchen. Includes planning, ordering, and scheduling for bakeshop production, safety and sanitation, bakery and pastry vocabulary, advanced yeast breads, classic French pastries, ice cream and frozen desserts, assembling pastries, pastry garnishes, and complex plated desserts.

CUL 270 Dining Room Operations II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CUL 170.

Co-requisite: CUL 230, 250, 260.

Theory and practice of operating a formal dining room. Includes dining room preparation and guest service, proper etiquette for service and clearing, wine and beverage sales and service, salesmanship, customer relations, banquets and buffets, table side food preparation, and maitre d'hôtel responsibilities.

DANCE

For courses numbered 098, 198, 298, see "Topic Courses" in index.

DNC 120 Jazz Dance I /2 cr. hrs./3 periods (1 lec., 2 lab)

Introduces and develops movement skills for jazz dance styles in lyrical, Broadway, and current trends of expression. Includes movements incorporating spatial awareness, rhythmic variations, and isolations of head, shoulders, ribs, hips, arms and legs. Also includes basic jazz vocabulary.

Information: May be taken four times for a maximum of eight credit hours.

DNC 130 Beginning Tap Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to tap dancing. Includes basic foot movement, body movements, simple steps, and a complete routine.

Information: May be taken four times for a maximum of four credit hours.

DNC 131 Intermediate Tap Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Tap dance for students with basic skills. Includes time steps, coordination skills, footwork, and more complex combinations and routines.

Information: May be taken four times for a maximum of four credit hours.

DNC 132 Advanced Tap Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Advanced techniques and skills in tap dance. Includes time steps, footwork, and combinations and routines.

Information: May be taken four times for a maximum of four credit hours.

DNC 140 West Coast Swing /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the West Coast Swing. Includes an overview of the West Coast Swing, dance techniques, beginning and intermediate level patterns, moves, and turns.

DNC 145 Beginning Country Western Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to country western dance for the beginner. Includes basic steps, turns, techniques, and skill development.

Information: May be taken four times for a maximum of four credit hours.

DNC 146 Intermediate Country Western Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Country western dance techniques for the confident dancer. Includes dance patterns, styles and performance transformation.

Information: May be taken four times for a maximum of four credit hours.

DNC 147 Advanced Country Western Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Advanced country western dance techniques. Includes dance patterns, dance execution, and performance techniques.

Information: May be taken four times for a maximum of four credit hours.

DNC 150 Introduction to Ballet /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to basic principles of classical ballet. Includes development of proper body alignment, muscular structure and movement memory for use in other dance classes. Also includes acquisition of a working vocabulary of ballet terminology.

DNC 151 Intermediate Ballet /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): DNC 150 or consent of instructor.

Continuation of the fundamentals of classical ballet. Includes improving ballet fundamentals and expanding ballet vocabulary and technical ability. Also includes continued development of proper body alignment and placement.

DNC 160 Ballroom/Latin Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Basic techniques of ballroom and Latin dancing. Includes foxtrot, waltz, swing, rumba, cha-cha, and tango. Also includes dance movement variations.

DNC 166 Beginning Modern Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Development of basic skills for dance. Includes biomechanical function and care of the body, dance theory and technique, and expressive movement.

Information: May be taken four times for a maximum of four credit hours.

DNC 167 Intermediate Modern Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Development of intermediate skills in stretch and strength for dance. Includes proper biomechanical function and care of the body, dance theory, and technique. Also includes an introduction to more complex material and greater movement articulation is expected.

Information: May be taken four times for a maximum of four credit hours.

DNC 168 Advanced Modern Dance /1 cr. hr./2 periods (1 lec., 1 lab)

Development of advanced skills in stretch and strength for dance. Includes proper biomechanical function and care of the body, dance theory and technique, and a capacity for expressive movement.

Information: May be taken four times for a maximum of four credit hours.

DNC 169 Dance Ensemble /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): DNC 166, 167, or 168.

Development of dance technique and performance skills. Includes learning dances, the principles of dance composition, and the concert experience.

Information: May be taken four times for a maximum of four credit hours.

DNC 170 Introduction to Bailes Folklóricos Mexicanos /2 cr. hrs./3 periods (1 lec., 2 lab)

Information: May be taken four times for a maximum of eight credit hours.

DNC 171 Folkloric Mexican Dance I: Oaxaca /2 cr. hrs./3 periods (1 lec., 2 lab)

Information: May be taken four times for a maximum of eight credit hours.

DNC 172 Bailes Folklóricos Mexicanos: Vera Cruz /2 cr. hrs./3 periods (1 lec., 2 lab)

Information: May be taken two times for a maximum of four credit hours.

DNC 173 Folkloric Mexican Dance II: Michoacan /2 cr. hrs./3 periods (1 lec., 2 lab)

Information: May be taken two times for a maximum of four credit hours.

DNC 220 Jazz Dance II /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): DNC 120 or consent of instructor.

Progressive development of alignment for intermediate level jazz dance. Includes movements incorporating syncopation of body parts, dynamic efforts, and spatial and rhythmic variations. Also includes focus on strength and stability of the body's center or core, of the upper extremity, and of the outward and inward rotation of the legs.

Information: May be taken four times for a maximum of eight credit hours.

DNC 221 Jazz Dance III /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): DNC 220 or consent of instructor.

Advanced level training for jazz dance. Includes continuing refinement of expressive body control of alignment for jazz movements and encouragement toward performance opportunities.

Information: May be taken four times for a maximum of eight credit hours.

DENTAL ASSISTING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

DAE 159 Introduction to Health Care for Dental Assisting /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of program coordinator.

Basic skills essential to working successfully with patients and co-workers in dental offices and clinics. Includes the psychology of human behavior and communication skills as a member of a dental health team. Also includes college success skills, critical thinking, resume writing, and interview techniques.

DAE 160 Orientation to Dental Care /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of program coordinator.

Overview of the field of dental care. Includes the dental health team, ethics, jurisprudence and professional organizations.

DAE 161 Biomedical Dental Science /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of program coordinator.

Biosciences as related to the oral cavity. Includes anatomy, physiology, histology, microbiology, infection control, oral pathology, and nutrition as affecting total dental health.

DAE 162/162LB Dental Assisting I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Consent of program coordinator.

Principles and techniques of dental assisting. Includes morphology of human dentition and dental instruments and their use in various operative procedures.

DAE 163/163LB Oral Radiography /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Consent of program coordinator.

Use of dental roentgenography as a diagnostic aid. Includes safety factors when exposing radiographs; training in exposing, processing, mounting, labeling and filing radiographs; and training in recognizing radiographs that are acceptable for diagnosis.

DAE 164/164LB Dental Materials /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Consent of program coordinator.

Chemical and physical properties of dental materials used in dental practice. Includes materials used in preventive, restorative, and prosthetic procedures.

DAE 165/165LB Pre-Clinical Procedures /2 cr. hrs./5 periods (1 lec., 4 lab)

Prerequisite(s): Consent of program coordinator.

Techniques and procedures of chairside assisting in general and specialty dental practices.

DAE 166 Dental Assisting II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DAE 160, 161, 162, 163, 164, 165.

Principles and techniques of pharmacology, therapeutics and emergency medical-dental care as applied to dental assisting.

DAE 167 Dental Assisting III /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DAE 161, 162, 163, 164, 165.

Principles and techniques of dental practice management and oral health education as applied to dental assisting.

DAE 190LB Clinical Procedures /6 cr. hrs./24 periods (24 lab)

Prerequisite(s): DAE 161, 162, 163, 164, 165.

Application of acquired skills in a clinical environment under direct supervision of the dentist and instructor.

DENTAL HYGIENE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

DHE 101/101LB Pre-Clinical Dental Hygiene /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): Admission to Dental Hygiene Program.

Dental hygiene clinical procedures. Includes asepsis, infection control, gathering and evaluating patient medical and dental histories, legal and ethical considerations, body mechanics, intra and extra oral exams, and instrumentation. Also includes a laboratory involving practicing dental hygiene procedures on student partners.

DHE 104/104LB Dental and Oral Morphology /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Admission to Dental Hygiene Program.

Form and function of primary and permanent dentition. Includes observation, identification and recording of normal and abnormal dentition.

DHE 107 Oral Embryology and Histology /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Admission to Dental Hygiene Program.

Development and histology of teeth, intra and extra oral tissues of the head as they relate to the practice of dental hygiene.

DHE 116/116LB Oral Radiography /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): DHE 101, 104, 107, 209.

Dental roentgenography as a diagnostic aid. Includes safety factors when exposing radiographs, training in exposing, processing, mounting, labeling and filing radiographs, and training in recognizing radiographs that are acceptable for diagnosis.

DHE 119 Periodontology /1 cr. hr./1 period (1 lec.)

Prerequisite(s): DHE 101, 104, 107, 209.

Etiology, diagnosis and prognosis of periodontal disease.

DHE 120 Oral Pathology /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): DHE 101, 104, 107.

Co-requisite(s): Concurrent enrollment in DHE 116 and DHE 190. Introduction to diseases of the mouth and surrounding structures. Includes diagnosis and etiology, oral manifestation of generalized disease, and neurological conditions.

DHE 121 Nutrition and Preventive Dentistry /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to Dental Hygiene Program.

Introduction to dental disease and the promotion of dental health. Includes oral hygiene instruction, antimicrobials, fluorides, nutrition, and diet and their role in dental disease and health.

DHE 190/190LB Clinical Dental Hygiene I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): DHE 101, 104, 107, 121.

Application of dental hygiene skills with a variety of clinical patients with simple dental hygiene care plans. Includes an introduction to alternative instrumentation procedures and clinical application of chemotherapeutics.

DHE 191/191LB Clinical Dental Hygiene II /3 cr. hrs./7 periods (1 lec., 6 lab)

Prerequisite(s): Completion of first year of Dental Hygiene Program. Application of dental hygiene skills with a variety of clinical patients.

DHE 196 Independent Studies in Dental Hygiene /1-4 cr. hrs./1-8 periods (0-4 lec., 0-8 lab)

Prerequisite(s): Consent of program director.

Independent clinical applications, readings, projects, or lab activities for continuing student development in dental hygiene under faculty guidance.

Information: May be taken two times for a maximum of eight credit hours.

DHE 204/204LB Dental Materials /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Completion of first year of Dental Hygiene Program. Chemical and physical properties of dental materials used in dental practice. Includes materials used in preventive, restorative, and prosthetic procedures.

DHE 207 Pharmacology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DHE 116, 119, 190.

Introduction to the theory of pharmacology as it relates to dentistry. Includes identification of drugs which affect or are affected by dental treatment.

DHE 208LB Pain and Anxiety Control for Dental Hygiene /1 cr. hr./3 periods (3 lab)

Prerequisite(s): Completion of first year Dental Hygiene Program and DHE 207.

Application of local anesthetics, nitrous oxide and oxygen sedation. Includes medical emergencies and dental complications.

DHE 209/209LB Computers and Practice Management /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): Admission to Dental Hygiene Program.

Introduction to basic computer skills and applications used in dentistry. Includes an overview of computer operations and applications in dentistry. Also includes elements of dental hygiene practice management, records management, time management, periodontal maintenance systems, and clinical practice applications.

DHE 213/213LB Advanced Periodontal Services /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): DHE 120, 207, 290.

Application of diagnosis, measurement and treatment of advanced periodontal patients. Includes deep scaling, irrigation and home care education for patients.

DHE 216 Community and Dental Health Education /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DHE 120, 207, 290.

Public health dentistry and modalities of dental health education. Includes literature reviews of public health issues with extramural community experiences.

DHE 290/290LB Clinical Dental Hygiene III /5 cr. hrs./13 periods (1 lec., 12 lab)

Prerequisite(s): Completion of first year of Dental Hygiene Program. Practice of dental hygiene skills with difficult clinical patients and procedures. Includes beginning treatment planning.

DHE 291/291LB Clinical Dental Hygiene IV /4 cr. hrs./10 periods (1 lec., 9 lab)

Prerequisite(s): DHE 120, 207, 290.

Advanced treatment planning. Includes application of skills for difficult and special needs patients and extramural rotations to community facilities.

DHE 296 Advanced Independent Studies in Dental Hygiene /1-4 cr. hrs./1-4 periods (3-12 lab)

Prerequisite(s): Departmental approval.

Students independently continue their development in Dental Hygiene under the guidance of a faculty member.

Information: May be taken two times for a maximum of eight credit hours.

DENTAL LABORATORY TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

DLT 101/101LB Dental Morphology /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Consent of program director.

Development and structure of teeth and construction of dentures. Includes configuration of hard and soft areas of the jaws, as related to denture construction. Emphasis on principles in tooth design and balanced occlusion with regard to normal and abnormal ridge relationship. Plaster sculpture is used in the production of a full complement of anatomical teeth.

DLT 102 Nonmetallic Dental Materials /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of instructor.

Principles of chemistry and physics as related to dental materials. Includes review of such products as gypsum materials, plastic and elastic duplicating materials, denture base materials, acrylic resin teeth, dental waxes, separating media and dental porcelain.

DLT 103/103LB Complete Dentures /4 cr. hrs./10 periods (1 lec., 9 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Complete examination of the relationship between upper and lower dentures as interpreted on a functional articulator. Includes casting of models, trays, bite blocks, setting up dentures in balanced occlusion, investing, packing, curing and finishing of dentures.

DLT 104/104LB Dental Laboratory I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Chemistry and metallurgy of dental alloys, the compositions of plating solutions and principles of electroplating. Includes use of cast gold alloys, abnormal castings, base metal casting alloys, metallographic techniques and wrought metal bars and clasps. A full complement of teeth is sculptured from wax ivory blocks and set up to occlusion. Upper and lower partial frame structures are constructed in cast chromium-cobalt alloy.

DLT 105/105LB Partial Denture Construction /4 cr. hrs./10 periods (1 lec., 9 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Construction of partial dentures and appliances. Includes wrought metal lingual bars and clasps; investing and soldering techniques of bilateral appliances; processing partial dentures in acrylic in three techniques; fabrication of dies of inlays and abutments; and repair and relining of dentures.

DLT 106/106LB Orthodontics and Maxillofacial Construction /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Construction and theory of simple orthodontic and maxillofacial appliances. Includes construction utilizing wrought wire and/or cast metal frames as retentive devices and the processing of acrylic to form final appliances.

DLT 108 Laboratory Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Examination of the principles of dental laboratory management. Includes legal, ethical and historical aspects of the dental laboratory, infection control, principles of management and computer usage in the dental laboratory.

DLT 201/201LB Dental Laboratory II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Principles of fixed bridgework, abutments, inlays and crowns. Includes theory of spanning spaces with various types of artificial teeth in complete fixed and cantilever bridgework; importance of stress, function and aesthetics in the design of fixed bridgework; handling of wax patterns, investments, casting techniques and making dies from impressions; and techniques in waxing, investing, casting inlays, three-quarter crown, full crown and veneers. Tooth carving techniques taught in previous semester are used.

DLT 202 Dental Metallurgy I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Examination of metals currently used by the dental technician. Includes physical properties of metals, crystal structure, manufacturing processes, theory of alloys, soldering, casting investments and heat treatment of gold alloys.

DLT 203/203LB Fixed Bridgework /4 cr. hrs./10 periods (1 lec., 9 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Construction of fixed bridgework. Includes waxing, investing and finishing simple and complex inlays, full crowns, veneers and three-quarter crowns; and construction of bridges of various designs utilizing dental alloys.

DLT 204/204LB Dental Laboratory III /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Principles of surveying, design of cast partials and technical applications of metallurgy and engineering principles. Includes composition and physical properties of gold and chromium-cobalt alloys and their working qualities. Also includes designs and principles used in the construction of removable bridgework.

DLT 206/206LB Dental Ceramics /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Skill development in porcelain and porcelain-on-metal techniques. Includes composition and physical properties, as well as the fundamentals of manipulating porcelain and metal. Emphasis on low- and high-fusing porcelains, their vitrification, control of form, control of color, design of metal structure and application of stain and glaze.

DLT 207/207LB Advanced Dental Laboratory Technology / 6 cr. hrs./ 9 periods (3 lec., 6 lab)

Prerequisite(s): DLT 101 or concurrent enrollment, and consent of program director.

Application of dental laboratory techniques. Includes complete dentures, partial dentures, crown and bridge work, dental ceramics, orthodontics, and maxillofacial appliances.

DESIGN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

DES 100 Introduction to Interior Design /3 cr. hrs./3 periods (3 lec.)

Foundations of the major aspects of Interior Design. Includes introduction to interior design, principles and elements, materials, furnishings, and other components, process of interior design, and vocabulary.

DES 111 Fundamentals of Design /3 cr. hrs./4 periods (2 lec., 2 lab)

Fundamentals and theories of design. Includes elements and principles of design, design practices, two dimensional (2D) and three dimensional (3D) compositions, and portfolio projects.

DES 122 Graphic Communication I /3 cr. hrs./4 periods (2 lec., 2 lab)

Interior design visualization techniques and processes. Includes drawing, sketching, skills and mechanics in drafting, and drawing tools and materials.

DES 152 Color and Lighting Theory /3 cr. hrs./3 periods (3 lec.)

Design concepts for interior design color and lighting. Includes vision, perception, color and lighting theories, color schemes, design concepts, techniques and applications, and psychological implications.

DES 155 Space Planning I /3 cr. hrs./4 periods (2 lec., 2 lab)

Theory and methods of information gathering for design projects. Includes programming and planning, research and observation, diagramming methods, skills in drafting, and human behavior.

DES 160 Fabrics for Interiors /3 cr. hrs./4 periods (2 lec., 2 lab)

Recommended: DES 111.

Analysis, evaluation, and application of fabrics. Includes history of fabrics, fiber content, fabric construction, fabric finishes and techniques and fabric trends.

DES 196 Independent Study in Design /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Independent readings or special projects. Content to be determined by conference between student and instructor.

DES 197 Seminar for Designers: /1-8 cr. hrs./1-24 periods (0-8 lec., 0-24 lab)

Prerequisite(s): Consent of instructor.

Supervised group learning experience of varied durations and locations of design interest. Includes visits to historical or contemporary sites and local field trips and excursions or qualified educational tours abroad.

Information: May be taken three times for a maximum of twenty-four credit hours.

DES 212 History of Interior Architecture and Furniture from the Egyptian Period to 1900 /3 cr. hrs./3 periods (3 lec.)

Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes the Classics, Middle Ages, Renaissance, and Early American.

DES 213 History of Interior Architecture and Furniture from 1900 to the Present /3 cr. hrs./3 periods (3 lec.)

Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes characteristics of early Twentieth Century, Modernism, Contemporary, and current trends.

DES 220 Interior Methods and Materials /3 cr. hrs./3 periods (3 lec.)

Elements and applications of interior products. Includes specifications for finishes and materials, estimating techniques for interiors, product materials for interiors, environmental concerns, and design solutions.

DES 222 Graphic Communication II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): DES 122.

Recommendation: CAD 158.

Continuation of DES 122. Includes advanced techniques in black and white and color, measured drawings, fundamental design in graphic communications, and rendering for interior design.

DES 230 Interior Design Business and Professional Practices / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DES 111, 122, 155.

Professional business principles and practices for the interior designer. Includes business action plan, business structure, professional services, design firm model, business principles, contractual relationships, and business correspondence.

Information: Assessment in Mathematics at the MAT 086 level or higher recommended.

DES 255 Space Planning II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): DES 122, 155.

Recommended: CAD 158, 222,

Continuation of DES 155. Includes programming and planning review, advanced research and observation, advanced diagramming methods illustrating design concepts, advanced drafting including commercial interiors, measurement of human, psychological, and sociological factors, and presentations.

DES 256 Human and Environmental Design /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): DES 122, 155.

Recommended: DES 158.

Theories of human factors and environmental issues relating to interior design. Includes design problems, built environment, health, safety, and welfare, materials, finishes, fabrications, and human factors.

DES 280 Interior Design Portfolio Development /1 cr. hr./1 period (1 lec.)

Prerequisite(s): DES 230, 255, 256.

Identification of portfolio content. Includes project parameters, procedures and methods, portfolio content, and critique.

DES 289 NCIDQ Review /1-3 cr. hrs./1-3 periods (1-3 lec.)

Prerequisite(s): Consent of instructor.

Preparation for the National Council for Interior Design Qualification examination. Includes a review of design concepts, building codes, space planning, plumbing, furniture selection, lighting, HVAC, and other topics appropriate for this examination.

EARLY CHILDHOOD EDUCATION*For courses numbered 098, 198, 298, see "Topics Courses" in index.***ECE 106 The Growing Years /3 cr. hrs./3 periods (3 lec.)**

Examination of forces which shape the growing child. Includes the interplay of biological factors, human interaction and social structure from earliest womb environment into adolescence.

ECE 107 Human Development and Relations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or concurrent enrollment.

Analysis of the elements which affect growth and development throughout the life span. Includes hereditary, familial, environmental, and cultural influences.

ECE 108 Literature/Social Studies for Children /3 cr. hrs./3 periods (3 lec.)

Survey of principles, materials, and techniques for the selection and evaluation of children's literature and social studies materials. Includes incorporating an appreciation of other cultures, and planning and implementing developmentally appropriate activities.

ECE 110 Communication and Language: Early Literacy for Children /3 cr. hrs./3 periods (3 lec.)

Study of oral and written language acquisition and emergent literacy. Includes principles, methods, and current teaching techniques. Also includes an examination of cultural diversity, instructional material, assessments, and computer technology.

ECE 111 Special Education for Children /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or concurrent enrollment, and WRT 100.

History, philosophy, and current trends in special education. Includes identification and characteristics of children with special needs, assessment procedures, referral services, and available resources. Also includes the role of the teachers, parent(s), and family in effecting appropriate instructional techniques and environmental modifications.

ECE 112 Music/Art for Children /3 cr. hrs./3 periods (3 lec.)

Survey of principles, materials, techniques, and resources for teaching music/art to children. Includes planning, implementing, and evaluating developmentally appropriate activities. Also includes a compilation of resource materials.

ECE 114 Effective Parenthood /3 cr. hrs./3 periods (3 lec.)

Identification and discussion of determinants of positive child rearing practices. Includes physical, cognitive, personality, and moral development. Also includes parenting skills and positive guidance techniques for conflict resolution and effective interpersonal relationships.

ECE 117 Child Growth and Development /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or concurrent enrollment, and WRT 100.

Analysis of concepts and issues in growth and development of children. Includes prenatal factors, the birth process, and determinants of physical, cognitive, social, cultural, emotional, and moral development through adolescence.

ECE 120 Supervision and Administration of Early Childhood Programs /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082, REA 112, WRT 100.

Analysis of elements for planning, implementing, maintaining, and evaluating early childhood education programs. Includes regulations, health and safety issues, and staff selection, development, and supervision. Also includes management of facilities, budget, equipment, supplies, and arranging environment.

ECE 124 Math/Science for Children /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082.

Theories, methods, and techniques for teaching math and science. Includes selection, development, and presentation of instructional materials with an integrated curriculum approach. Also includes computer applications.

ECE 125 Nutrition for the Young Child /3 cr. hrs./5 periods (2 lec., 3 lab)

In-depth study of the nutritional needs of children. Emphasis on the total basic nutrient requirements for optimal health and development.

ECE 126 Teaching Techniques /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or concurrent enrollment, and WRT 100.

Introduction to theory and application of guidance techniques and classroom management. Includes observing, recording, and interpreting behavior, behavior modification, cultural influences, and development of positive attitudes and self concept. Also includes supervised field experience.

ECE 127 Computers in Primary and Early Childhood Education / 3 cr. hrs./3 periods (3 lec.)

Integrating computers into primary and early childhood educational classrooms. Includes the effect of computers on young children's development, selecting software using evaluation systems, evaluating software with developmental scales, introducing children to computers, teaching strategies to integrate computers into the curriculum, utilizing computers to promote an anti-bias curriculum, selecting anti-bias software, communicating with parents, connecting with the community, and networking across the globe.

ECE 128 Preschool and Child Care / 3 cr. hrs./3 periods (3 lec.)

Examination and acquisition of competencies required by child care personnel in educating and caring for infants, toddlers, and preschoolers in early childhood programs. Includes observing and recording, age-appropriate activities, discipline, problem-solving, health and safety, guiding language and action, special needs, cultural awareness, and essential curricula. Also includes a supervised field project.

ECE 130 School-Age Child Care and Program Development / 3 cr. hrs./3 periods (3 lec.)

Examination of child care programs for school-age children, including before and after school care, full day and recreational programs. Encompasses activities, leadership program planning, discipline, safety, problem solving, ethics, standards, cultural awareness, special needs, partnership, resources, supervising staff, and marketing. Also includes a supervised field experience project.

ECE 199 Co-op Related Class in ECE / 1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

ECE 199WK Co-op Work in ECE / 2 cr. hrs./10 periods (10 lab)

See Cooperative Education section for description.

ECE 296 Independent Studies in Early Childhood Education / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Students independently continue their development in Early Childhood Education under the guidance of a faculty member.

Information: May be taken two times for a maximum of six credit hours.

ECE 299 Co-op Related Class in ECE / 1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

ECE 299WK Co-op Work in ECE / 2 cr. hrs./10 periods (10 lab)

See Cooperative Education section for description.

ECONOMICS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ECN 136 Personal and Family Finance / 3 cr. hrs./3 periods (3 lec.)

Principles which assist individuals and families to choose among financial alternatives to meet their needs. Includes choosing a career, making major purchases, sources of consumer and financial information, and effective use of income.

ECN 200 Basic Economic Principles / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092.

Economic theory as applied to individual decision-making units (microeconomics) and as applied to the operation of the economy as a whole (macroeconomics). Includes economic decision making, economic systems, supply and demand model, price determination, elasticity, household income, business ownership, cost-benefit analysis, profit maximization, production functions and costs, competition and market structures, goals and problems of the macroeconomy, foundations of the macroeconomy, fiscal policy and budgets, money, the role of financial institutions and the Federal Reserve, money creation, and monetary theory and policy.

Information: Not open to students who have taken or are taking ECN 201 and/or ECN 202.

ECN 201 Microeconomic Principles / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092.

Economic theory as applied to individual decision-making units. Includes economic decision making, economic systems, consumer demand, producer supply, price determination, elasticity, household income, business ownership, cost-benefit analysis, profit maximization, production functions and costs, competition and market structures, government in the market economy, labor markets, and income distribution.

ECN 202 Macroeconomic Principles / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092.

Economic theory as applied to the operation of the economy as a whole. Includes economic decision making, economic systems, supply and demand model, goals and problems of the macroeconomy, foundations of the macroeconomy, fiscal policy and budgets, money, the role of financial institutions and the Federal Reserve, money creation, monetary theory and policy, and the assessment of goals, tools, and policies of macroeconomics.

EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

EDU 100 Principles of Bilingual Education / 3 cr. hrs./3 periods (3 lec.)

Examination of basic principles of bilingual education. Includes philosophy, history, rationale, legislation and models.

EDU 101 Introduction to Bilingual Elementary Education / 3 cr. hrs./3 periods (3 lec.)

Introduction to prospective teachers, to the personal, social, institutional, and instructional issues relevant to teaching in general and bilingual education in particular. Includes engagement in pre-professional activities including autobiographical reflections, reading, discussing, and responding to relevant professional literature, observing in a bilingual education classroom, and reflecting on class presentations and interviews of parents, teachers, administrators, resource personnel, and students.

EDU 102 Dimensions of Multicultural Education / .25-1 cr. hr./ .25-1 period (.25-1 lec.)

Prerequisite(s): Consent of instructor.

Basic concepts of multicultural education with emphasis on race, ethnicity, gender, class, age, disability, and religion. Includes demographic differences among individuals, concepts and experiences of stereotyping and discrimination, and origins of stereotypes.

EDU 103 Teaching Students with Attention Deficit Disorder/ Attention Deficit Hyper-activity Disorder (ADD/ADHD) / .25-1 cr. hrs./ .25-1 periods (.25-1 lec.)

Prerequisite(s): Consent of instructor.

Strategies for working with children with attention difficulties. Includes overview of ADD/ADHD, diagnostic procedures, most common treatments, laws pertaining to servicing ADD/ADHD, strategies for the classroom, and overview of resources and organizations.

EDU 104 Teaching Mathematics Through Problem Solving I for K-8 / 2 cr. hrs./2 periods (2 lec.)

An in-depth study of the teaching of mathematics in grades kindergarten through eight. Includes problem solving in all strands of the elementary mathematics curriculum for the developing and understanding of mathematical concepts and skills.

EDU 105 Teaching Mathematics Through Problem Solving, 9-12 / 2 cr. hrs./2 periods (2 lec.)

An in-depth study of the teaching of mathematics in grades nine through twelve. Includes problem solving in all courses of the secondary mathematics curriculum for the development of mathematical reasoning and application of mathematics to problem-solving situations.

EDU 108 Music, Art, and Drama for School-Age Child Care / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Examination of principles, techniques, and resources for creating age-appropriate projects and activities in music, art, and drama. Includes multiculturalism and social skills.

EDU 109 Language, Arts, Science, and Math for School-Age Child Care /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Synthesis of principles for development of age-appropriate multidisciplinary activities. Includes the evaluation of commercially produced programs and software.

EDU 114 Teaching Mathematics Through Problem Solving II for K-8 /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): EDU 104.

Advanced concepts for the teaching of math in grades kindergarten through eighth grade (K-8). Focuses on strengthening an understanding of how to teach math through problem solving and on the sequence of concepts and skills for each strand of the K-8 curriculum.

EDU 118 Literacy, Literature, and Learning in the Bilingual Classroom /1 cr. hr./1 period (1 lec.)

Teaching techniques using literature in the bilingual classroom. Includes strategic thinking skills, teaching themes, questioning, creative thinking, problem-solving strategies, and teaching skills through literature.

EDU 124 Teaching Mathematics Through Problem Solving III for K-8 /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of instructor.

Synthesizing the content presented in Math through Problem Solving I and II. Includes assessment procedures, review of probability and functions, developing instructional units, integrating writing as a vehicle for learning and assessment, concepts of ratio, scale, measurement and proportional reasoning, and synthesizing experiences and ideas.

EDU 125 Design and Delivery of Instruction for the 21st Century / .5-3 cr. hrs./5-3 periods (.5-3 lec.)

Prerequisite(s): Consent of instructor.

Fundamentals of instructional design applied to teaching students in traditional or non-traditional time formats and delivery systems. Includes the following individual modules: Designing Good Instruction, Using Visuals to Improve Instruction, Improving Vocal Performance, Using Interactive, Participatory Techniques, Teaching and Learning Styles, Using the Internet for Instruction, Developing Graphics for the Web, Using Multimedia for Instruction, Introduction to PowerPoint, Introduction to ToolBook, Using the Interactive Classroom, and Designing an Independent Learning Package.

EDU 126 Introduction to Multimedia /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Comprehensive introduction to multimedia design and production. Includes microcomputer basics, project planning and design principles for multimedia as well as basic digital graphics, audio, and video editing. Students will develop their own multimedia projects using Microsoft PowerPoint, the World Wide Web (HTML), and Asymetrix ToolBook.

EDU 127 Introduction to Asymetrix ToolBook /5-3 cr. hrs./ .5-3 periods (.5-3 lec.)

Prerequisite(s): Consent of instructor.

Introduction to the Asymetrix ToolBook multimedia authoring system. Includes overall multimedia project design, creating and manipulating ToolBook Objects, creating animations, importing graphics, sound, and video files, as well as an introduction to OpenScript for customizing ToolBook applications.

EDU 128 Teaching with the Internet /1 cr. hr./1.5 periods (1 lec., .5 lab)

Prerequisite(s): Consent of instructor.

Methods of integrating Internet resources into the classroom. Includes Internet overview, World Wide Web (WWW) catalogs and search engines, integrating WWW resources into the curriculum, lesson plan, project and field trip sites, educational news sources, special interest sites, library catalogs, magazine and reference databases, filtering and copyright issues, and citing electronic resources.

EDU 129 How to Write Competitive Grant Proposals /5-3 cr. hrs./ .5-3 periods (.5-3 lec.)

Prerequisite(s): Consent of instructor.

Strategies to develop effective, competitive grant proposals. Includes identifying and qualifying funding sources, interpreting and utilizing the funding agency's solicitations, developing the proposal format, and writing the proposal narrative.

EDU 130 Legal Issues in Education /5-3 cr. hrs./5-3 periods (.5-3 lec.)

Prerequisite(s): Consent of instructor.

Introduction to legal issues in an educational environment for students, teachers, and staff. Includes Affirmative Action (AA), Equal Employment Opportunity (EEO), Americans with Disabilities Act (ADA), and sexual harassment legal concepts, the rights of students, staff, and teachers, identifying and defining situations, forms of discrimination, techniques to prevent discrimination and sexual harassment, strategies to increase awareness, confidentiality and Right-to-Know, and internal and external processes.

EDU 131 Latin American Art for Teachers /1 cr. hr./1 period (1 lec.)

Latin American history, language, art, and architecture for K-16 instructors. Includes current events, language and customs, and how they are related to the art of Latin American cultural awareness through art. Also includes an emphasis on methods of integration for lesson plans.

EDU 132 Instructional Applications of the Internet /1 cr. hr./ 1.5 periods (1 lec., .5 lab)

Prerequisite(s): Consent of instructor.

Integrating Internet services into the instructional process. Includes an introduction to the Internet, using the Internet, using the World Wide Web, instructional design for Computer-Mediated Communications (CMC), and educational issues of computer-mediated communications, and new technologies.

EDU 133 Cooperating Teachers: Mentoring Student Teachers / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Techniques to prepare classroom teachers to mentor student teachers. Includes phases of student teaching, student teaching roles and characteristics, responsibilities, beliefs and philosophy, adult learners, and issues and problems.

EDU 134 Survival Strategies for the Substitute Teacher /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Techniques to prepare substitute teachers for the tasks they face in elementary, middle school and high school classrooms. Includes classroom management, interpreting and implementing lesson plans, and district procedures and policies.

EDU 135 Math Applications Across the Curriculum for Instructors of K-8 /1 cr. hr./1 period (1 lec.)

Applying mathematical concepts to non-mathematical disciplines for grades K-8. Includes classroom management, curriculum in the classroom and the teacher as a learner.

Information: May be taken four times for a maximum of four credit hours.

EDU 140 Instructional Methodology /1-3 cr. hrs./1-3 periods (1-3 lec.)

Methods of instruction designed to improve teaching skills. Includes preparing goals and objectives, analyzing material to be taught, building the lesson plan, using visual aids, and organizing and presenting materials to fit classroom time frames.

EDU 141 Techniques for Teaching Science K-12 /2 cr. hrs./ 3 periods (2 lec., 1 lab)

Techniques for teaching a classroom unit in science for the classroom instructor. Includes lab techniques and strategies, projects appropriate to grade level, utilizing resources in the community, preparing laboratory apparatus, introduction to computers and laboratory software, developing instructional strategies, interpreting results, and implementing ideas for classroom instruction.

EDU 150 Teaching Critical and Creative Thinking /3 cr. hrs./ 3 periods (3 lec.)

Background, theory and techniques of instruction to facilitate the development of critical and creative thinking skills. Includes locating prepared materials, developing content-specific exercises on various skill levels, integrating skills into general course content, and application to various teaching fields.

EDU 151 Teaching Developmental Education /3 cr. hrs./3 periods (3 lec.)

Teaching techniques for instructors of developmental education courses. Includes background theory and instructional techniques to support under prepared students by creating an environment that encourages critical thinking and responds to differences in learning style, age, gender, and culture. Also includes administrative issues affecting the delivery of developmental education.

EDU 161 The Arizona Community College /3 cr. hrs./3 periods (3 lec.)

Exploration of the philosophy and functions of the Arizona community college. Includes history, mission, goals, legislation, curriculum and instruction, board and administration functions, student development, and continuing education.

EDU 170 Developing an Independent Learning Package / .25-1 cr. hr./25-1 period (.25-1 lec.)

Design and development of an independent learning package (ILP) as an alternative distance delivery system for instruction. Includes rationale, standards, components, step-by-step guide, and a template for development of new modules/courses in this mode.

EDU 171 Making Effective Presentations /25-1 cr. hr./25-1 period (.25-1 lec.)

Introduction to making effective oral presentations to large and small groups. Includes overcoming anxiety and organizing, preparing and delivering presentations. Also includes improving verbal and non-verbal communication skills, and using visual materials effectively.

EDU 172 Constructing a Course Syllabus /25-1 cr. hr./25-1 period (.25-1 lec.)

Design and construction of syllabus for handout in a classroom situation. Includes reasons for preparing a syllabus, benefits and characteristics of a good syllabus, general suggestions, required and recommended elements, suggested course policies, and the use of a standard syllabus format/template.

EDU 173 Teaching and Learning Styles /25-1 cr. hr./25-1 period (.25-1 lec.)

Introduction to the ways teachers present and learners process learning or instructional materials. Includes overview and perspective of learning styles, major theories, applications to instruction, assessment of individual teaching and learning styles.

EDU 174 Overview of the Arizona Community College /25 cr. hr./25 period (.25 lec.)

Brief overview of the history and philosophy of the Community College movement in the United States and in the State of Arizona. Includes a brief review of the structure, finance, governance and organization of Arizona's Community Colleges, their students, curricula, instruction, facilities, and current issues facing these colleges.

EDU 175 Using Questions in the Classroom /25-1 cr. hr./25-1 period (.25-1 lec.)

Using questions to improve student understanding and learning in a classroom environment. Includes Socratic dialogue, reasons for asking questions, levels and types of questions, and questioning strategies. Also includes ways to improve classroom questions and student responses.

EDU 176 Andragogy: Teaching Adult Students /25-1 cr. hr./25-1 period (.25-1 lec.)

Techniques for teaching adult students. Includes characteristics of adult learning, motivating factors, curriculum considerations, instructional strategies, and effective classroom management techniques.

EDU 177 Motivating Students /25-1 cr. hr./25-1 period (.25-1 lec.)

Motivating students to learn. Includes theoretical background, motivating factors and strategies, intrinsic and extrinsic theories, classroom factors, behaviors associated with high motivation, affective factors in classroom climate, and practical suggestions for motivating students.

EDU 178 Alternative Instructional Delivery /25-1 cr. hr./25-1 period (.25-1 lec.)

Designing and delivering instruction to meet the needs of a diverse student body using available technology. Includes student diversity factors, alternative time frames, and alternative delivery systems.

EDU 179 Characteristics of Good Instruction /25-1 cr. hr./25-1 period (.25-1 lec.)

New instructional paradigm for design and delivery of instruction. Includes pragmatic definition of student-centered, competency-based, modularized, and individualized instruction. Also includes information on inclusion of assessment, metacognitive and student support components, and application of research-based pedagogy and appropriate technology to deliver instruction.

EDU 180 Teaching an Independent Learning Package Course / .25-1 cr. hr./25-1 period (.25-1 lec.)

Overview of the information needed by those who are to be the instructor of record for an existing Independent Learning Package (ILP). Includes an overview of an ILP, rationale and program information, and faculty requirements and responsibilities. Also includes the development and critique of required instructional materials.

EDU 181 Teaching a Telecourse / .25-1 cr. hr./25-1 period (.25-1 lec.)

Overview of the information needed by those who are to be the instructor of record for a telecourse. Includes rationale and information about this distance delivery system, faculty requirements and responsibilities. Also includes the development and critique of required instructional materials.

EDU 182 Academic Mentoring / .25-1 cr. hr./25-1 period (.25-1 lec.)

Introduction to the process of mentoring in an academic setting. Includes overview of the concept, roles and responsibilities of mentors and mentees, suggestions for building useful and successful relationships. Also includes mentoring specific academic projects such as syllabus construction, instructional design, making presentation assessing learners preparing a teaching portfolio, and applying for an academic position.

EDU 200 Introduction to Education / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or concurrent enrollment, and WRT 100. Survey of historical and philosophical development in education. Includes current theories, multi cultural education, and the role of local, state, and national government. Also includes supervised exposure to educational settings. The purpose of this course is to provide a realistic view of the teaching profession in a variety of educational settings in order to provide a basis for making the decision to pursue teaching as a career.

EDU 201 Balanced Literacy / 1 cr. hr./1 period (1 lec.)

Introduction to balanced teaching strategies for reading and writing. Includes lesson plans and review, balanced literacy, mini-lesson, teacher assessment, resource books for the teacher, and benefits of balanced literacy.

EDU 220 Legal Issues Related to Caring for School Age Children / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Legal parameters of responsibility for personnel who must provide care for school age children. Includes cover concepts of negligence, documentation, state law and case law.

EDU 221 Effective Communication for Leaders / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Training that demonstrates the relationship between acquired behavioral styles and effective communication skills while in a leadership role. Includes techniques to employ when under stress, in competition, or when influencing others.

EDU 222 Children's Literature for Elementary Teachers / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Exploring children's literature for elementary teachers. Includes importance of reading, history of literature, literature for social studies, uses of literature for children, and selection of literature and assessment.

EDU 223 Motivate Writing in the Classroom / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Activities to motivate writing for the K-12 classroom. Includes overview, pre-writes and fast writes, games to motivate students, general activities using the newspaper, celebrating the completed project, teacher-to-teacher networking activities, and feedback and resources available

EDU 224 Brain Research Implications for Learning / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Strategies to enhance learning through brain research. Includes brain functioning environments for optimum learning, rule of emotions in learning, how the brain functions best, and mind and brain principles.

EDU 225 Multiple Intelligences / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Exploration of brain theory and its implications for teaching. Includes parts of the brain, why multiple intelligences, Gardner's eight intelligences, lesson planning, application, and feedback and evaluation.

EDU 226 Balanced Literacy Instruction with Phonemic Awareness and Phonics / .25-3 cr. hrs./25-3 cr. hrs./25-3 periods (.25-3 lec.)

Phonemic awareness, phonics, and explicit decoding strategies to strengthen balanced literacy instruction. Includes elements of a balanced literacy program, effective assessment in a balanced program, skills and strategy instruction in a balanced classroom, and small group instruction.

EDU 226A Balanced Literacy: Module A / 1 cr. hr./1 period (1 lec.)

Introduces elements of a balanced literacy program. Includes current research, assessment in a balanced program, and small and large group instruction.

Information: EDU 226A, 226B, and 226C together constitute EDU 226.

EDU 226B Balanced Literacy: Module B / 1 cr. hr./1 period (1 lec.)

Continuation of balanced literacy instruction. Includes a focus on a reading program and related research elements of balanced reading program, role of phonemic awareness, and intervention models.

Information: EDU 226A, 226B, and 226C together constitute EDU 226.

EDU 226C Balanced Literacy: Module C / 1 cr. hr./1 period (1 lec.)

Continuation of balanced literacy instruction. Emphasis includes a final review of current research, the role of phonic skills and decoding strategies, intervention models for struggling readers, and the role of sight vocabulary.

Information: EDU 226A, 226B, and 226C together constitute EDU 226.

EDU 227 Introduction to Phonemic Awareness for K-3 / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Introduction to phonemic awareness, Includes defining phonemic awareness, research finding, developmental levels and examples of activities, training principles, and phonemic awareness activities.

EDU 228 Fairytales to Integrate the Curriculum / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Using fairytales to create an integrated curriculum that promotes language and literacy. Includes research, early childhood literature, using brainstorming sheets, planning and applying, constructing an integrated curriculum that promotes languages and literacy, and sharing information with parents.

EDU 229 Six Traits-Six Points Rubric / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Introduction to the newly adopted Arizona six point-six traits rubric. Includes lesson ideas to use with students to teach and practice each of the six traits, as well as an opportunity to score several papers using the rubric.

EDU 230 Creating an Integrated Curriculum / .25-3 periods (.25-3 lec.)

Techniques for creating an integrated curriculum Includes philosophy, theories, models of an integrated curriculum, and the process to develop the curriculum.

EDU 231 Native American and Southwestern Children's Literature / .25-3 cr. hrs./25-3 periods (.25-3 lec.)

Introduction to the various genres of Native American and Southwestern children's literature. Includes an introduction to the people and culture of the southwest through the use of children's texts, criteria for evaluating children's books, searching the Internet for Native American sites and reviews of Southwestern children's books, and developing a bibliography of regional and Native American children.

EDU 234 Behavior Management and Interventions / 1 cr. hr./2 periods (.5 lec., 1.5 lab)

Prerequisite(s): Consent of instructor.

Techniques for the integration and inclusion of students with special needs into the classroom, for substitute teachers. Includes the definition of inclusion, critical factors of inclusion, philosophy of mainstreaming and inclusion, Federal Law P.S. 94-142 and Section 504, teachers responsibilities of special needs students, performance levels and modifying instructional materials, grading and evaluation procedures, collaboration and consultation, creating an inclusive classroom, and behavior interventions.

EDU 236 Positive Classroom Management /1 cr. hr./1 period (1 lec.)

Techniques for implementing a positive classroom environment. Includes philosophy, management theories, models of management, and the process to develop a positive style.

ELECTRICAL UTILITIES TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

EUT 101 Introduction to Electrical Utilities /3 cr. hrs./3 periods (3 lec.)

Overview of the electrical utility field. Includes electricity generation, generating station, generation, transmission, and distribution, power policies and procedures, radio procedures, and electrical utility disciplines.

EUT 102 Electrical Distribution /4 cr. hrs./6 periods (3 lec., 3 lab)

Procedures for working in electrical distribution. Includes climbing equipment, pole setting, climb and work on poles, handlines, and personal protective grounding.

EUT 104 Overhead and Underground Systems, Hardware, and Equipment /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): EUT 102.

Procedures for working in the overhead and underground. Includes pole hardware, overhead conductors, porcelain equipment, overhead transformers, and underground equipment.

EUT 105 Equipment Operations /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): EUT 102.

Procedures for operating electrical utility equipment. Includes pre- and post-trip inspection, hand signals, ten-foot rule, vehicle grounding, drivers log, boom and bucket trucks.

EUT 106 Measuring Electricity /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): EUT 101.

Overview of the theories and devices used to measure electricity. Includes electric utility metering terminology, Blondel's theorem, kilowatt-hour meter operating principles, single-phase and network meters, wiring connections for mounting devices, voltmeter, voltage indicator, and ammeter usage.

EUT 107 Substation Operations /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): EUT 101.

Equipment used in the transmission and distribution of electrical power. Includes substation components, substation types, substation voltages, and substation hazards.

EUT 108 Protective Relaying /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): EUT 101.

Equipment used in the protection of transmission and distribution systems. Includes relay components, relay types, and relay maintenance techniques.

EUT 109 Electronic Equipment Operations /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): EUT 101, BCT 125.

Communication techniques used in the electrical utility industry. Includes power systems operation, mobile radios, microwave systems, supervisory control and data acquisition equipment, and fundamentals of computer systems.

EUT 110 Power Plant Operations /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): EUT 101.

Principles and procedures for the generation of electrical power. Includes power plant functions, steam cycle, basic electricity in power generation, basic chemistry in power generation, and emergency conditions and hazards.

EMERGENCY MEDICAL TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

EMT 070 Basic Cardiac Life Support /.5 cr. hr./5 period (.5 lec.)

Principles and techniques of basic cardiac life support. Includes techniques of airway care and cardiopulmonary resuscitation and common types of equipment used in basic cardiac life support. Also includes an introduction to the pathogenesis of coronary artery disease, electric shock, drowning and sudden death. The course is designed to train allied health personnel and other interested individuals. Upon course completion, the student will have completed requirements to be issued a Healthcare Provider CPR card through the American Heart Association.

EMT 100 Basic Emergency Medical Technology /9 cr. hrs./11 periods (8 lec., 3 lab)

Prerequisite(s): Students must be 18 years of age when class begins. Students must have a current cardiopulmonary resuscitation (CPR) card at the Healthcare Provider level.

Techniques of pre-hospital emergency medical care for the emergency medical technician. Includes symptoms of illnesses, injuries, medical emergencies, appropriate medical techniques, and ambulance operations.

EMT 110 First Responder /3 cr. hrs./3 periods (3 lec.)

Techniques in pre-hospital emergency care appropriate to the First Responder Scope of Practice. Includes identifying signs and symptoms associated with illness and traumatic injuries. Also includes intervention used in managing patient and transfer of patient to higher level medical authority.

EMT 158 Transition Training for EMT /1.5 cr. hrs./2.5 periods (1 lec., 1.5 lab)

Prerequisite(s): Currently certified as EMT-B by the State of Arizona. Review of current techniques in pre-hospital emergency care for the basic emergency medical technician. Includes signs and symptoms of illness, injuries, medical emergencies, appropriate medical techniques, and ambulance operations.

EMT 159 Cardiopulmonary Resuscitation: Healthcare Provider / .5 cr. hr./5 period (.25 lec., .25 lab)

Introduction to the techniques required to provide cardiopulmonary resuscitation at the Healthcare Provider Level. Includes introduction to body systems and disease states which lead to cardiac and respiratory arrest. Also includes the assessment and intervention for the airway, respiration and central circulation.

Information: Course meets American Heart Association guidelines for the Healthcare Provider level.

EMT 170 Extrication/Rescue Techniques /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.

Introduction to skills necessary to assess, extricate, and care for victims of crash incidents. Includes exposure to scene management skills to include size-up, disentanglement, victim stabilization for single and multi-victim situations, hazardous materials incidents, integration of local emergency medical services (EMS) for patient assessment and management, and standard operating procedures to selected victim scenarios.

EMT 201 Pre-Hospital Environment /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Acceptance into the Paramedic Program.

Introduction to the Paramedic career field. Includes roles and responsibilities, EMS components and communications, medical/legal considerations, and rescue/vehicle extrication. Also includes major incident response and stress management.

EMT 201A Pre-Hospital Environment: Module A /1.5 cr. hrs./ 1.5 periods (1.5 lec)

Prerequisite(s): Acceptance into the Paramedic Program.

Module A constitutes the first one-half of EMT 201.

Information: EMT 201A and 201B together constitute EMT 201.

EMT 201B Pre-Hospital Environment: Module B /1.5 cr. hrs./ 1.5 periods (1.5 lec)

Prerequisite(s): EMT 201A.

Module B constitutes the second one-half of EMT 201.

Information: EMT 201A and 201B together constitute EMT 201.

EMT 202 Paramedic Preparation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Acceptance into the Paramedic Program.
 Foundations of skills and principles in preparing to be a paramedic. Includes medical terminology and the human body structure. Also includes phases of pre-hospital assessment, scene size-up, and primary assessment.

EMT 203 Advanced Airway Management /2 cr. hrs./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Techniques for life support in the pre-hospital setting. Includes airway management, oxygen therapy, respiratory system, pathophysiology and assessment.

EMT 203A Advanced Airway Management: Module A /1 cr. hr./1 period (.5 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Module A constitutes the first one-half of EMT 203.
Information: EMT 203A and 203B together constitute EMT 203.

EMT 203B Advanced Airway Management: Module B /1 cr. hr./1 period (.5 lec., .5 lab)

Prerequisite(s): EMT 203A..
 Module B constitutes the second one-half of EMT 203.
Information: EMT 203A and 203B together constitute EMT 203.

EMT 204 Shock and Fluid Therapy /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Elements of shock and development of shock management techniques. Includes anatomy and physiology of body systems affected by shock, and shock components. Also includes patient assessment and the relationship between shock and intravenous therapy.

EMT 204A Shock and Fluid Therapy: Module A /5 cr. hr./1 period (.5 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Module A constitutes the first one-half of EMT 204.
Information: EMT 204A and 204B together constitute EMT 204.

EMT 204B Shock and Fluid Therapy: Module B /5 cr. hr./1 period (.5 lec., .5 lab)

Prerequisite(s): EMT 204A.
 Module B constitutes the second one-half of EMT 204.
Information: EMT 204A and 204B together constitute EMT 204.

EMT 205 Advanced Life Support Pharmacology /2 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Elements of pharmacological agents and their administration. Includes basic pharmacological background and actions of drugs, regulations, human body systems, and pharmacokinetics. Also includes medications for patients in an emergency setting, and pharmacological mathematics.

EMT 205A Advanced Life Support Pharmacology: Module A /1 cr. hr./1.5 periods (1 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Elements of pharmacological agents and their administration. Includes basic pharmacological background and actions of drugs.
Information: EMT 205A and 205B together constitute EMT 205.

EMT 205B Advanced Life Support Pharmacology: Module B /1 cr. hr./1.5 periods (1 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Continuation of EMT 205A. Includes pharmacological regulations, human body systems, and pharmacokinetics. Also includes medications for patients in an emergency setting, and pharmacological mathematics.
Information: EMT 205A and 205B together constitute EMT 205.

EMT 206 Pathophysiology of Traumatic Injuries I /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Acceptance into the Paramedic Program.
 Introduction to traumatic injury and intervention in the pre-hospital setting. Includes facts about head, neck, and spine injuries, anatomy and physiology, assessment and management. Also includes basic trauma facts, triage protocols, kinetics, and different types of trauma.

EMT 207 Pathophysiology of Traumatic Injuries II /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Acceptance into the Paramedic Program.
 Continuation of EMT 206. Emphasis on soft tissues and burn injuries. Includes anatomy and physiology, patient assessment, and pathophysiology of injuries. Also includes techniques of management and specific injuries.

EMT 208 Advanced Life Support Medical Emergencies I: Respiratory /2 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Techniques for life support in the pre-hospital setting. Includes airway management, oxygen therapy, and the respiratory system. Also includes pathophysiology and techniques of management.

EMT 208A Advanced Life Support Medical Emergencies I: Respiratory-Module A /1 cr. hr./1.5 period (1 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Module A constitutes the first one-half of EMT 208.
Information: EMT 208A and 208B together constitute EMT 208.

EMT 208B Advanced Life Support Medical Emergencies I: Respiratory-Module B /1 cr. hr./1.5 period (1 lec., .5 lab)

Prerequisite(s): EMT 208A.
 Module B constitutes the second one-half of EMT 208.
Information: EMT 208A and 208B together constitute EMT 208.

EMT 209 Advanced Life Support Medical Emergencies II: Cardiovascular /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Advanced life support techniques in the assessment and management of cardiovascular emergencies. Includes anatomy and physiology, and recognition of dysrhythmias.

EMT 210 Advanced Life Support Medical Emergencies III: Endocrine, Nervous System, Acute Abdomen, and Anaphylaxis /2 cr. hrs./2 periods (1.5 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Advanced life support techniques using pre-hospital approaches to the recognition and intervention of medical emergencies related to the nervous system, acute abdomen, and anaphylaxis. Includes anatomy and physiology, assessment, pathophysiology, and management. Also includes the dialysis patient, the immune system, and allergies.

EMT 211 Advanced Life Support Emergency IV: Toxicology, Infectious Diseases, Environmental Injuries, and Geriatrics /2 cr. hrs./2 periods (1.5 lec., .5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Advanced life support techniques using pre-hospital approaches to the recognition and intervention of medical emergencies related to toxicology, infectious disease, environmental injuries, and geriatrics. Includes poisoning, drug overdose and substance abuse, and alcohol abuse. Also includes transmission of infectious diseases, thermal disorders, near-drowning and drowning, nuclear radiation, diving emergencies, and the elderly patient.

EMT 212 Pathophysiology and Management of Gynecological, Obstetrical, and Neonatal Emergencies /2 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Advanced life skills approaches to gynecological, obstetrical, and neonatal emergencies. Includes anatomy and physiology, assessment of the gynecological patient, and gynecological emergencies. Also includes the prenatal period, the puerperium, emergency management of the neonate, routine care of the newborn, the premature neonate, the distressed neonate, and neonatal transport.

EMT 213 Pathophysiology and Management of the Pediatric Patient /2 cr. hrs./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
 Advanced life support skills approaches to the assessment and management of medical and traumatic emergencies of the pediatric patient. Includes pediatric advanced life support.

EMT 214 Emotional Aspects of Illness and Injury /1 cr. hr./ 2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Advanced life support skills approach to emergency care of the emotionally disturbed. Includes emotional aspects, approach to the patient, and psychiatric emergencies. Also includes techniques of management, and demonstration of skills within a simulated hospital environment.

EMT 215 Paramedic Practicum: Clinical /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
In-hospital clinical procedures for the paramedic. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.

EMT 215A Paramedic Practicum: Clinical Module A /1 cr. hr./ 5 periods (5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
First of three modules of in-hospital clinical procedures for the paramedic. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.

Information: EMT 215A, 215B, and 215C together constitute EMT 215.

EMT 215B Paramedic Practicum: Clinical Module B /1 cr. hr./ 5 periods (5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Second of three modules of in-hospital clinical procedures for the paramedic. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.

Information: EMT 215A, 215B, and 215C together constitute EMT 215.

EMT 215C Paramedic Practicum: Clinical Module C /1 cr. hr./ 5 periods (5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Third of three modules of in-hospital clinical procedures for the paramedic. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.

Information: EMT 215A, 215B, and 215C together constitute EMT 215.

EMT 216 Paramedic Practicum: Vehicular /5 cr. hrs./25 periods (25 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Pre-hospital emergency medical procedures for the paramedic. Includes skills appropriate to the paramedic scope of practice in the pre-hospital setting according to established protocols.

EMT 216A Paramedic Practicum: Vehicular Module A /1 cr. hr./ 5 periods (5 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
First of three modules of pre-hospital emergency medical procedures for the paramedic. Includes skills appropriate to the paramedic scope of practice in the pre-hospital setting according to established protocols.

Information: EMT 216A, 216B, and 216C together constitute EMT 216.

EMT 216B Paramedic Practicum: Vehicular Module B /2 cr. hr./ 10 periods (10 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Second of three modules of pre-hospital emergency medical procedures for the paramedic. Includes skills appropriate to the paramedic scope of practice in the pre-hospital setting according to established protocols.

Information: EMT 216A, 216B, and 216C together constitute EMT 216.

EMT 216C Paramedic Practicum: Vehicular Module C /2 cr. hr./ 10 periods (10 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Third of three modules of pre-hospital emergency medical procedures for the paramedic. Includes skills appropriate to the paramedic scope of practice in the pre-hospital setting according to established protocols.

Information: EMT 216A, 216B, and 216C together constitute EMT 216.

EMT 218 Advanced Life Support Review and Preparation-Paramedic /5 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Review and preparation in standards of paramedic emergency care at the state and national levels. Includes developing testing skills and questions related to assessment, analysis, intervention or evaluation.

Also includes each component of the Emergency Medical Technician Paramedic National Standard Curriculum.

EMT 230 Emergency Cardiac Care /3 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Introduction to all levels of emergency care providers with basic electrocardiographic (EKG) rhythm analysis. Includes interpretation and related care in a clinical and pre-hospital setting.

Information: Required content for the identification and treatment of cardiac emergencies.

EMT 232 Pediatric Advanced Life Support /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Education and training in techniques of Pediatric Advanced Life Support. Includes endotracheal intubation, defibrillation, dysrhythmias recognition, pharmacology, and intra-osseous infusion.

Information: Required for American Heart Association provider approval and validation.

EMT 240 Trauma Management /2 cr. hrs./2 periods (1 lec., 1 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Introduction to critical skills necessary to manage the trauma patient and the emergency scene through the Incident Command System (ICS). Includes emergency medical skills by focusing on emergency care interventions. Also includes exposure to patient assessment, initial treatment, resuscitative techniques, patient stabilization, and transport of the patient to the emergency care facility.

EMT 295 Independent Research in Emergency Medical Technology /2 cr. hrs./3 periods (3 lab)

Prerequisite(s): Acceptance into the Paramedic Program.
Independent research in advanced pre-hospital care to be arranged by instructor.

ENGINEERING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ENG 102IN Problem-Solving and Engineering Design /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): MAT 151, 182 or 187.
Engineering design, effective team participation, and career preparation. Includes participation in hands-on design projects, developing an education and career plan, and initiating development of the personal and management skills necessary for life-long learning.

ENG 120IN Engineering Graphics /3 cr. hrs./7 periods (1 lec., 6 lab)

Prerequisite(s): MAT 108 or high school geometry.
Principles and techniques of engineering graphics. Includes freehand technical sketching, instrument working drawings, projection, descriptive geometry and applications to engineering space problems.

ENG 130IN Elementary Surveying /3 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MAT 151 and 182, or 187.
Theory of measurements and errors in surveying. Includes vertical and horizontal control methods; topographic, public land and construction surveys; and use of surveying instruments.

ENG 170IN Problem-Solving Using Computers /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MAT 151, 182 or 187.
Design of problem-solving algorithms. Includes implementation in a structured programming language and application to engineering.

ENG 210 Engineering Mechanics: Statics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PHY 210.
Co-requisite(s): Concurrent enrollment in MAT 241.
Engineering analysis of static mechanical systems. Includes vector algebra, equilibrium, momentum, couples, centroids, trusses, machines, friction and equivalent force systems.

ENG 218 Fluid Mechanics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENG 210, MAT 241.

Introduction to hydrostatics and hydrodynamics. Includes continuity, irrotational flow, pressure distributions, weirs and gates, momentum and energy, surface drag, pipe friction, form drag, and pipefitting losses.

ENG 220 Engineering Mechanics: Dynamics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENG 210.

Study of the motion of bodies under the action of forces. Includes kinematics of particles, and kinetics of rigid bodies.

ENG 230 Mechanics of Materials /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENG 210.

Analysis and design of structural members subjected to tension, compression, torsion, and bending. Includes the fundamental concepts of stress, strain, elastic behavior, inelastic behavior, and strain energy.

ENG 232 Thermodynamics /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): MAT 241, PHY 216.

Basic laws and examples of engineering applications of macroscopic thermodynamics. Includes equations of state, reversible and irreversible processes, vapor power cycles, refrigeration and heat pump cycles.

ENG 240IN Introduction to Digital Systems /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ENG 102.

Basic principles of digital systems. Includes digital coding of information, basic logic design, number systems, sequential circuit design and computer organization.

ENG 250 Numerical Analysis for Engineers /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENG 170 or 275 or Pascal or Matlab, and MAT 231. Applications of numerical methods and computer programming techniques for the creation of mathematical models of engineering systems. Includes roots of equations, linear simultaneous equations, numerical integration, ordinary differential equations, interpolation and curve fitting.

ENG 260 Elements of Electrical Engineering /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PHY 216, MAT 231.

Introductory survey of the electrical engineering discipline with emphasis on electrical power applications. Includes electrical quantities, components, meters, capacitors, inductors, and transients. Also includes DC resistive network analysis, magnetic circuits, transformers, motors, and generators.

ENG 274IN Digital Logic /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to the theory and design of digital logic circuits. Includes number systems, coding of information, Boolean algebra, combinational logic circuit design, sequential circuit design, and register transfer system design.

ENG 275IN Computer Programming for Engineering Applications /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MAT 151, 182, or 187.

Programming in C with emphasis on numerical applications in engineering. Includes fundamentals of C language, analysis of errors inherent in floating point representations and calculations, structured program design, and applications to solving engineering problems.

ENG 282IN Basic Electric Circuits /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): ENG 102.

Co-requisite(s): Concurrent enrollment in MAT 262.

Basic principles of linear circuits and components. Includes DC, transient and sinusoidal steady-state analysis of passive circuits in elementary configurations. Also includes analysis of frequency selective circuits using the transfer function concept and Bode diagrams.

ENGLISH AS A SECOND LANGUAGE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

Information: The ESL curriculum is designed for bilingual and foreign students to help them develop proficiency in oral and written English by practicing basic skills in listening to, speaking, reading and writing American English. Students will be placed in the program according to assessment test results and teacher evaluation.

ESL 050 English for Beginners /2 cr. hrs./2 periods (2 lec.)

Beginning level English for students with no previous knowledge of English. Includes survival skills in day-to-day situations, basic language skills, listening, reading, and writing.

ESL 061 Elementary Listening, Speaking, and Pronunciation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Placement by ESL assessment test.

Principles of good listening and speaking skills, and standard pronunciation of American English. Includes basic conversational skills and sound and rhythm patterns.

ESL 062 Elementary Grammatical Patterns I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Placement by ESL assessment test or consent of instructor.

Instruction and practice in the use of English grammatical patterns at the elementary level in both spoken and written English. Includes the development of basic vocabulary in daily life.

ESL 063 Elementary Grammatical Patterns II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 062 with grade of C or better, placement by ESL assessment test, or consent of instructor.

Continuation of ESL 062. Instruction and practice in the use of English grammatical patterns at the higher elementary level in both spoken and written English.

ESL 064 Elementary Reading /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Placement by ESL assessment test or consent of instructor.

Beginning reading course designed to develop basic language and reading skills through a wide variety of readings. Includes interpretation of simplified narrative and descriptive passages on familiar and unfamiliar topics including American culture. Also includes vocabulary development through contextual clues.

ESL 065 Elementary Writing /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 063 with a grade of C or better, placement by ESL assessment test, or consent of instructor.

Elementary writing instruction and practice in grammar and usage, mechanics, punctuation, and sentence writing. Includes practical writing tasks for personal and everyday life.

ESL 071 Intermediate Listening, Speaking, and Pronunciation / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ESL 061 or 063 or placement by ESL assessment test. Intermediate development of skills in listening, speaking and pronunciation. Includes a review of grammatical structures and sound patterns.

Information: May be taken two times for a maximum of six credit hours.

ESL 072 Intermediate Grammatical Patterns I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 063 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Instruction and practice in the use of English grammatical patterns at the intermediate level in both spoken and written English. Emphasizes correct use of verb tenses.

ESL 073 Intermediate Grammatical Patterns II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 072 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Continuation of ESL 072. Includes verb tense review at intermediate level. Also includes extensive instruction and practice in correct use of modal verbs, verb complements, and phrasal verbs in both spoken and written English.

ESL 074 Intermediate Reading /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 064 with grade of C or better, placement by ESL assessment test, or consent of instructor. Intermediate reading course designed for continued development of reading strategies for higher level passages on familiar and unfamiliar topics. Includes general comprehension of main ideas, specific information, understanding structural details, and briefly summarizing reading passages. Also includes greater understanding of multiple meanings and connotations in vocabulary development and cultural issues.

ESL 075 Intermediate Writing /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 073 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Intermediate writing instruction and practice in grammar, usage, sentence structure, punctuation, and paragraph development. Includes writing for both personal and academic purposes. Also includes techniques for pre-writing, revision, and editing.

ESL 078 English on the Job /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Completion of ESL 063 with a grade of C or better; placement by ESL assessment test, or consent of instructor. General workplace communication skills for intermediate ESL students. Includes improvement of communication with coworkers and supervisors through practice in integrated language skills and discussion of intercultural concepts. Also includes strategies for problem solving on the job.

ESL 079 American Culture Through Literature /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor. Intermediate to advanced ESL reading skills through literary selections in English. Includes social and historical American culture, reading skill enhancement, vocabulary, structure and style, and writing activities and discussion.

ESL 081 Advanced Listening, Speaking, and Pronunciation / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ESL 072 or placement by ESL assessment test. Advanced course designed to develop fluency in American English pronunciation. Includes the use of oral reading materials, conversational practice, and laboratory exercises.

ESL 082 Advanced Grammatical Patterns I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 073 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Instruction and practice in the use of English grammatical patterns at the advanced level in both spoken and written English. Emphasizes correct use of verb forms in written English, including the perfect tenses, the passive voice, and verb complements. Also includes advanced study of the use of prepositions and articles.

ESL 083 Advanced Grammatical Patterns II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 082 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Continuation of ESL 082. Emphasizes correct use of subordinate clauses in complex sentences. Special emphasis is given to written English in academic contexts. Also includes continued study of the use of prepositions and articles.

ESL 084 Advanced Reading /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 074 with grade of C or better, placement by ESL assessment test, or consent of instructor. Advanced reading course designed for continued development of overall reading proficiency through the articles and other forms of reading (charts, graphs, and illustrations) from a variety of publications on cultural and academic topics. Includes strategies for main ideas, supporting details, summary writing, making inferences, determining meaning from context, speed reading, and critical thinking skills.

ESL 085 Advanced Writing /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Completion of ESL 083 with a grade of C or better, placement by ESL assessment test, or consent of instructor. Advanced writing instruction and practice in grammar, usage, sentence structure, punctuation, and short essay development. Includes academic writing tasks such as paraphrasing and summarizing. Also includes techniques for pre-writing, revision, and editing.

ESL 089 English with Ease /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ESL 074 or placement by ESL assessment test. Conversational course for advanced ESL students to promote fluency in the English language. Includes vocabulary development, listening and reading comprehension, fluency practice, and retention and production of idiom and set expressions in a variety of contexts.

ESL 091 Academic Presentation Skills /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ESL 081 and 084 or placement by ESL assessment test. Preparation for active participation in academic college courses. Includes development of discussion and presentation skills and fluency in pronunciation.

ESL 093 Comprehensive TOEFL Preparation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ESL 081, 084, 085 or placement by ESL assessment test. Comprehensive TOEFL test preparation for ESL/EFL students. Includes detailed analysis and intensive practice for all four test components: listening, grammar, reading, and the Test of Written English (TWE). Also includes test-taking strategies on both timed and untimed practice tests.

ESL 094 Academic Reading and Writing /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ESL 083 and 084 or placement by ESL assessment test. Advanced reading and writing for academic college coursework. Includes strategies for reading and comprehending academic texts and for writing academic papers. Also includes integration with oral language development and library research skills.

ENVIRONMENTAL TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ENV 083 Environmental Issues for Realtors /2 cr. hrs./3 periods (2 lec., 1 lab)

Technical and legal issues concerning the sale of commercial, industrial, and residential properties that may involve "environmental damage." Includes detailed Environmental Phase I Site Assessments.

Information: Not for ENV majors.

Information: Same as RLS 083.

ENV 086 Household Environmental Awareness /2 cr. hrs./3 periods (2 lec., 1 lab)

Exploration of environmental issues that face households in modern society. Includes home energy generation and conservation, solar power, water conservation, recycling, composting, food production, alternative home-building techniques, and home chemical use/indoor air pollution.

Information: Not for ENV majors.

ENV 087 Chemical Handling for Exterminators /2 cr. hrs./3 periods (2 lec., 1 lab)

Chemical storage, transportation, and disposal of "cidal" agents in conjunction with all applicable state and federal regulations, including a regulatory overview, audit survival tips, and individual safety issues, as well as state licensing information.

Information: Not for ENV majors.

ENV 089 Basic Skills for Environmental Technology /3 cr. hrs./3 periods (3 lec.)

Basic skills in mathematics, chemistry, and biology for students entering the environmental technology programs. Includes basic principles in mathematics, chemistry, and environmental biology.

ENV 100 Introduction to Environmental Technology /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): REA 112 and MAT 082, or ENV 089.

Overview of society and its impact on the environment including environmental regulations. Includes exploration of biological and physical sciences, soil and water resources, and air quality. Also includes the technologies for resource and waste management, and environmental and personnel protection.

ENV 102 Hydraulics /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ENV 100 or concurrent enrollment, MAT 092 or concurrent enrollment.

Fundamentals of hydraulics as applied to water and wastewater management. Includes basic hydraulic concepts, pressure, force, Bernoulli's principle, fundamentals of closed and open channel flow, major and minor head losses, overview of flow measurement and pump types, calculations and pump characteristic curves.

ENV 104 Humanity and the Environment Discovery Laboratory /1 cr. hr./3 periods (3 lab)

Prerequisite(s): Concurrent enrollment in ANT/ENV 105.

Laboratory exercises and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy-carrying capacity models, and waste by-products and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in our society, and anthropological relationships to the environment.

Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ENV 105.

Information: Same as ANT 104.

ENV 105 Humanity and the Environment /3 cr. hrs./3 periods (3 lec.)

Technical, sociocultural, and political information on environmental science and technology for non-ENV majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the green house effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.

Information: Same as ANT 105.

ENV 106 Chemistry of Water/Wastewater Treatment /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): ENV 100.

Co-requisite(s): Concurrent enrollment in MAT 092.

Basic concepts of inorganic and organic chemistry as applied to water and wastewater treatment. Includes classification and structure of matter, fundamental chemical principles and relationships, fundamental chemical analyses, identification of chemical reactions and their application to the treatment of water and wastewater. Also includes basic laboratory principles and safety.

ENV 130 Introduction to Water and Wastewater Treatment /4 cr. hrs./5 periods (4 lec., 1 lab)

Prerequisite(s): ENV 102, 106.

Overview of water and wastewater treatment processes and the importance of treatment to public environmental health. Includes summary of drinking water and wastewater sources, water quality, wastewater characteristics, and drinking water and wastewater regulations. Also includes conventional water treatment involved in ground and surface waters as well as conventional wastewater treatment involved in sewage treatment and general solid waste management presented along with the principles of basic operational laboratory analyses and basic treatment process calculations.

ENV 132 Water and Wastewater Conveyance Systems /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ENV 102, and MAT 092 or concurrent enrollment.

Operation and maintenance of water distribution and wastewater collection systems. Includes system management, components and design, principles of construction, flow characteristics, inspection, testing and maintenance, pump and lift stations, reservoirs, appurtenances, applications of mathematics, and safety programs.

ENV 150 Introduction to Hazardous Materials and EPA Compliance /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENV 100 or concurrent enrollment, MAT 092 or concurrent enrollment.

Basic concepts of hazardous materials management. Includes historical perspectives, past incidents, relationships to the environment, federal, state and local regulations, terminology, toxicology, personal protective equipment, waste minimization, underground storage tanks and site and facility safety.

ENV 153 Chemistry of Hazardous Materials /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): ENV 100 or concurrent enrollment.

Chemical principles as applied to hazardous materials handling. Includes basic chemical principles, nomenclature, equations, reactivity and hazards (radioactivity, organics, corrosives, combustibles, oxidizers, flammables, cryogenic materials and explosives).

ENV 155 Site Investigation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENV 150, or concurrent enrollment.

Hazardous materials site investigation and clean up. Includes planning and organization, training and medical programs, site characterization, sampling and monitoring, site control, container handling and emergency response.

ENV 156 Hazard Communication and Department of Transportation Hazardous Materials /4 cr. hrs./4 periods (4 lec.)

Recommended: ENV 100.

Overview of regulations for transporting hazardous materials and substances and principals of designing and writing hazard communication programs for industry. Includes Title 49 Code of Federal Regulations, definitions, requirements for transportation and classes of hazardous materials, hazard determination, Material Safety Data Sheet (MSDS) file preparation, development of training programs for employees and writing of a hazard communication program.

ENV 158 Explosives Handling /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Consent of instructor.

Movement and storage of explosive components. Includes regulations, definitions, protective equipment, tools, handling and movement, safety and responsibility.

ENV 172 Water and Wastewater Operator Proficiency /2 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): ENV 102, 106, 130, and ENV 132, or taken concurrently.

Overview of up-to-date information and regulations pertaining to the field of water and wastewater systems.

Information: This course must be taken at the end of the Advanced Water and Wastewater Systems Technology Certificate for Direct Employment.

ENV 175 Pollution Management Proficiency /2 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): ENV 150, 153, 155, and ENV 156 or taken concurrently.

Overview of up-to-date information and regulations pertaining to the field of solid and waste management.

Information: This course must be taken at the end of the Advanced Hazardous Materials Certificate for Direct Employment.

ENV 196 Independent Study in Environmental Technology / 1-3 cr. hrs./1-6 periods (1-3 lec., 0-3 lab)

Prerequisite(s): Consent of instructor.

Independent study in Environmental Technology. Content to be determined by conference between student and instructor.

ENV 200 OSHA 30: Industrial/Workplace Safety /3 cr. hrs./ 3 periods (3 lec.)

Recommended: ENV 100.

Foundations, principles, regulations, and technologies of industrial safety. Includes job safety analysis, personal protective equipment, noise exposure, mechanical and electrical safety, trenching and shoring, respiratory protection, confined space, personal safety, back safety, heat stress, lab safety and traffic safety.

ENV 202 Environmental Sampling and Monitoring /3 cr. hrs./ 4 periods (3 lec., 1 lab)

Prerequisite(s): ENV 100.

Principles of qualitative and quantitative sampling and monitoring. Includes water, wastewater, air and solid materials (soils, geology, solids and hazardous waste). Also includes flow measuring devices, sampling equipment, use of tables, calculations, chain of custody, and sample handling.

**ENV 205 Environmental Law for Non-Lawyers /3 cr. hrs./3 periods (3 lec.)**

Prerequisite(s): ENV 100 or 105.

Examination of regulatory statutes which impact the field of environmental technology. Includes the evolution of key environmental legislation, the regulatory statutes and key precedencies that form the foundation of environmental law. The legislation includes NEPA, RCRA, CERCLA, TSCA, FIFRA, Clean Air Act, and Clean Water Act.

ENV 206 Air Monitoring and Sampling /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): ENV 100.

Principles of sampling, monitoring, and testing air samples. Includes identification of air contaminants, methods of monitoring and sampling each type of contaminant, instruments used in monitoring and sampling, and means of calculating exposure levels. Also includes an introduction to government regulations concerning air quality and industrial air pollution control devices.

ENV 208 Environmental Laboratory Analysis /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ENV 100, CHM 130 (CHM 151 for AA Transfer Degree).

Principles of environmental analysis and laboratory training. Includes chemical and biological analyses techniques, sample preparation, equipment use and maintenance, record keeping and report preparation, and laboratory management. Also includes wet chemistry techniques commonly employed in the environmental laboratory, including electrometric, gravimetric and photometric analyses for water, wastewater and air and soil sample.

ENV 220 Advanced Wastewater Treatment /3 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ENV 130.

Exploration of the principles of biological and physical/chemical methodologies to treat municipal and industrial wastewater. Includes uses of chemicals for neutralization, coagulation, and precipitation; activated sludge systems, biological and trickling filters, and land treatment for removal of solids from wastewaters. Also includes an emphasis on utilizing laboratory, visual, and mathematical techniques for process control and troubleshooting.

ENV 240 Advanced Water Treatment /3 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): ENV 130.

Processes of ground and surface water treatment. Includes softening, manganese and iron removal, trihalomethane control, alternative disinfection, carbon treatment, air stripping, ion exchange, water quality considerations and process control utilizing laboratory techniques and results.

ENV 242 Cross-Connection Control /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): BCT 150, or ENV 102, 132.

Protection of potable water systems back flow. Includes theory of cross-connection control, regulations, plumbing codes, inspector and tester responsibilities, and repair and testing of backflow assemblies. Emphasis is placed on assembly testing, troubleshooting and repair.

Information: Helps prepare students for the State Certification Exam.

Information: Same as BCT 242.

ENV 244 Electrical and Mechanical Maintenance /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Water and wastewater equipment maintenance. Includes maintenance program development and recordkeeping, electricity and electrical equipment maintenance, mechanical maintenance as applied to prime movers, pumps and pumping stations, couplings, compressors, valves, chemical feeders and flow meters.

ENV 250 Toxicology and Industrial Hygiene /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ENV 200.

Recommended: ENV 251.

Introduction to the basics of toxicology, toxic substances, how exposure can occur, what levels of exposure are harmful, and how to control workplace toxic hazards. Includes governmental regulations and standards for toxic substances. Also includes safe industrial practices for handling toxic chemicals and general industrial hygiene.

ENV 251 OSHA 40: Hazardous Materials: Health and Safety / 3 cr. hrs./4 periods (3 lec., 1 lab)

Recommended: ENV 100.

Protection of personnel in contact with hazardous materials. Includes basic toxicology, personal protection and safety, hazard identification systems, recognition and identification of hazardous materials, hazard classes and their properties, site emergencies, spill control and clean up. Meets OSHA requirements for business, industry, and government hazardous materials handlers.

ENV 258 Advanced Laboratory Analysis /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ENV 208.

Principles of advanced environmental analysis. Includes EPA methodology, quality assurance/quality control, record keeping, instrument operation and maintenance, and sample preparation. Also includes hands-on experience with methods and instrumentation commonly employed in environmental and other chemical laboratories.

ENV 296 Advanced Independent Study in Environmental Technology /1-3 cr. hrs./1-6 periods (1-3 lec., 0-3 lab)

Prerequisite(s): Consent of instructor.

Independent study in Environmental Technology. Content to be determined by conference between student and instructor.

ENV 299 Co-op Related Class in ENV /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience.

Information: Emphasis on attitude adjustment.

Information: May be taken two times for a maximum of two credit hours.

ENV 299WK Co-op Work in ENV /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Consent of instructor.

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken two times for a maximum of sixteen credit hours.

EQUINE SCIENCE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

EQS 101 Equine Anatomy and Physiology /3 cr. hrs./5 periods (2 lec., 3 lab)

Basic instruction in the structure and function of the horse. Includes an introduction to the scientific method as it relates to the horse, anatomy and physiology of the equine species, and basics of conformation analysis.

Information: Prepares student for further science and equitation studies in equine science.

EQS 102 Equine Judging /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to the proper selection and judging of horse conformation and performance. Includes concepts of anatomy, condition, and way of going. Standards of equine judging will be emphasized.

Information: May be taken four times for a maximum of twelve credit hours.

EQS 120 Beginning Horsemanship /3 cr. hrs./4 periods (2 lec., 2 lab)

Introduction to horsemanship. Includes horse handling, tack and equipment, introduction to riding and training, and training techniques.

EQS 200 Equine Animal Science I /3 cr. hrs./3 periods (3 lec.)

Basic instruction in equine animal science. Includes equine conformation disorders, basic equine nutrition and disorders of nutrition, parasitology, infectious diseases, and injury induced lameness.

EQS 201 Equine Animal Science II /3 cr. hrs./3 periods (3 lec.)

Advanced topics in equine animal science. Includes the anatomy and physiology of the equine nervous, endocrine and reproductive system, reproductive physiology of the mare and the stallion, breeding management practices, foaling and the neonatal period, foal management,

advanced techniques in equine reproduction, business management for the mare owner and the stallion service manager.

EQS 203 Horse Care and Management /4 cr. hrs./5 periods (3 lec., 2 lab)

The care and management of the horse as a domestic companion animal. Includes basic veterinary requirements, feeds and feeding, stabling, and preventive health care.

EXPERIENTIAL EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

EED 110 Prior Learning Assessment /2 cr. hrs./2 periods (2 lec.)

Explore credit options through the development of an individuals portfolio. Includes how to collect and present materials which identify, describe, and validate professional training and experiential learning which can be evaluated for college-level credit equivalency. Students in this course must be willing to spend considerable time in the preparation of the portfolio which can be submitted to a portfolio evaluator.

Information: May be taken two times for a maximum of four credit hours.

Information: This course applies to students in the Public Safety Institute (Fire Science, Law Enforcement, and Corrections) programs only.

FASHION DESIGN AND CLOTHING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FDC 111 Clothing Construction I: Beginning /3 cr. hrs./5 periods (2 lec., 3 lab)

Fundamental principles of clothing construction. Includes selection of fabric and style and all techniques required for construction of clothing for men, women and/or children using commercial patterns.

Information: Proficiency test may be taken for level placement.

FDC 112 Alteration and Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Methods of altering commercial patterns and principles of fitting garments. Includes production of personal patterns for basic dress, shirt and pants.

FDC 121 Flat Pattern Making I /3 cr. hrs./3 periods (3 lec.)

Introduction to the flat pattern method of pattern making. Includes focus on engineering aspects and skills in pattern manipulation.

FDC 122 History of Clothing /3 cr. hrs./3 periods (3 lec.)

Introduction to clothing and personal decoration as a reflection of the wearer's culture, time and place. Includes an overview of human relationship with clothing and body art from 3000 B.C. to the 21st century.

FDC 123 Introduction to Computer Pattern Making /3 cr. hrs./4 periods (2 lec., 2 lab)

Introduction to the computer as used in pattern-making for apparel production. Includes focus on use of Pad System program.

FDC 126 Textiles /3 cr. hrs./5 periods (2 lec., 3 lab)

Technology and science, art and design, and global industry of textiles. Includes emphasis on performance of textile products in apparel, furnishings, industry, geotextiles, transportation and space exploration. Also includes the components of textile products, fibers, yarns, fabric construction, coloration and finishes, current and developing technology, and environmental effects.

FDC 131 Clothing Selection /3 cr. hrs./3 periods (3 lec.)

Introduction to the function of wardrobe in contemporary life. Includes concept of a working wardrobe which serves the wearer through clear communication, readiness and energy for tasks and roles, comfort, value and conservation of resources.

FDC 132 Society, Culture, and Dress /3 cr. hrs./3 periods (3 lec.)

Human behavior in relationship to clothing, body image, and self-concept. Includes basic human needs, habituation, effect of marketing and fashion campaigns on individuals and groups, and evaluation of clothing and image trends as both a cause and result of society and culture.

FDC 141 Introduction to Fashion Design I /3 cr. hrs./3 periods (3 lec.)

Survey of the business of apparel manufacturing and fashion design. Includes profiles of designers and their methods of work. Also includes fashion and design principles and their application in the apparel industry.

FDC 142 Alteration and Repair /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to techniques for recycling and increasing the life and function of garments. Includes methods of altering, fitting, repairing, restyling, reconditioning and restoring of clothing.

FDC 211 Clothing Construction II: Advanced /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): FDC 111 or satisfactory score on proficiency test. Second level clothing construction techniques. Includes placement of pattern and repeat in fabric and one-lay layout. Also includes construction of lined garment, unique patterned fabric, nap fabric garment and knit or stretch garment.

FDC 212 Clothing Construction III: Tailoring /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): FDC 112, 211, or consent of instructor. Traditional and speed-tailoring methods, utilizing advanced techniques and materials. Includes focus on changing a flat piece of fabric into a three-dimensional garment with structure and shape.

FDC 241 Fashion Design II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): FDC 111, 141 or consent of instructor. Application of fashion design principles. Students design and construct original garments by draping fabric on the dress form.

FINANCE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FIN 111 Personal Investment Portfolios /3 cr. hrs./3 periods (3 lec.)

Examination of various investment vehicles and portfolios. Includes strategies for achieving investment goals in view of risk and return relationships. Also includes common stocks, bonds, investment companies, types of speculative investments and a review of various portfolios with different investment objectives.

FIN 131 Principles of Credit Unions /3 cr. hrs./3 periods (3 lec.)

Introduction to credit union organizations. Includes concept and operating principles, historical development, structure, legal basis and regulation, membership demographics and services, leadership, credit union system in the United States, insurance and bonding by Credit Union National Association (CUNA), and current challenges.

FIN 136 Investments and Family Financial Management /3 cr. hrs./3 periods (3 lec.)

Overview of investments and family financial management concepts and practices. Includes analysis of financial statements, family budgeting, taxation, mutual funds and aspects of other investment alternatives.

FIN 199 Co-op Related Class in FIN /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

FIN 199WK Co-op Work in FIN /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

FIN 208 Installment Credit /3 cr. hrs./3 periods (3 lec.)

Study of consumer installment credit. Includes overview of consumer installment credit, consumer installment loans, laws and regulations affecting consumer lending, products and services, risks and benefits, consumer lending process, consumer loan delinquencies, and administration and management.

FIN 217 Analyzing Financial Statements /2-3 cr. hrs./2-3 periods (2-3 lec.)

Interpretation and utilization of financial data. Includes income statement analysis and interpretation, retained earnings statement, balance sheet, statement of changes in financial position, sources of data, and key financial ratios.

FIN 231 Credit Union Operations /3 cr. hrs./3 periods (3 lec.)

Principles of credit union organization, department functions, and compliance to consumer regulations. Includes managing credit union operations, teller operations, credit granting, financial counseling, collections, credit unions and the law, advertising, and related operations.

FIN 239 Credit Union Financial Management /3 cr. hrs./3 periods (3 lec.)

Recommended: ACC 101.

Credit union accounting and financial management. Includes basic accounting principles, accounting cycle, subsidiary and control general ledgers, financial statements, accruing and calculating member dividends, reserve accounts, internal controls, financial statement analysis, preparing and managing financial budgets, cash flow budgeting, interest earning assets (loans and investments), cost of funds, risk management, financial trends, and audits.

FIRE SCIENCE

For courses numbered 098, 198, 298, see "Topics Courses" in Index.

FSC 130 Strength and Fitness for the Fire Service /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Overview of fitness as it pertains to prospective firefighters. Includes endurance training, flexibility training, strength conditioning and use of equipment in Fire Incident Readiness Evaluation.

FSC 149 Fire Operations I /4 cr. hrs./5 periods (3 lec., 2 lab)

Specialized classroom and practical experience in the techniques of fire fighting. Includes the chemistry of fire, use of water and other agents, fire fighting equipment and its uses, fire fighting practices and safety.

FSC 150 Fire Operations II /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): FSC 149.

Specialized classroom and practical experience in the practices and techniques of fire fighting. Includes principles of community fire defense, methods of entry, rescue, tools, apparatus, equipment, salvage, hydraulics, and fire extinguishment.

Information: Completion of FSC 149 and 150 will help prepare the student for successful completion of State of Arizona Firefighter I practical evaluation.

FSC 151 Introduction to Fire Science /3 cr. hrs./3 periods (3 lec.)

Historical and scientific background on the fire protection field. Includes the development and future of the field in America; governmental, industrial and private fire protection organizations and agencies; and employment and promotional opportunities.

FSC 152 Fundamentals of Fire Prevention /3 cr. hrs./3 periods (3 lec.)

Introduction to the principles of fire prevention. Includes authority, responsibility and organization of fire prevention, inspection procedures and reports, fire hazard recognition, building construction, and occupancy classifications. Also includes site access and means of egress, water-based fire protection and water supply systems, portable extinguishers, special agent, extinguishing systems, and fire detection and alarm systems, plans review, hazardous materials and flammable and combustible liquids, and storage, handling, and use of other hazardous materials.

FSC 153 Hazardous Materials /2-3 cr. hrs./2-3 periods (2-3 lec.)

Basic chemical concepts and their applications to the field of fire science. Includes classes and properties of hazardous materials; recognition and identification of materials; management of materials in transit, in use, and in storage; and management of hazardous materials incidents.

Information: Equivalent to State of Arizona's First Responder, 40-hour course.

FSC 154 Advanced Fire Prevention /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSC 152.

Introduction to high risk and industrial fire prevention. Includes code interpretation and application, research, implementing policy, testifying in legal proceedings, and creating forms and job aids. Also includes

conducting field inspections and plans review, and building and fire code applications to simulated situations.

Information: Completion of this course will allow the student to test for Arizona State Certification as Inspector II.

FSC 160 Wildland Firefighting /2 cr. hrs./2 periods (2 lec.)

Basic wildland firefighting. Includes locating and reporting the fire, incident operations and management, suppression equipment, fire behavior, size-up, methods of suppression, and safety.

FSC 162 Hydraulics and Fire Suppression /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092.

Recommended: PHY 101.

Principles of hydraulics as applied to fire suppression. Includes physical laws affecting the movement of water through pipes, hydrants, pumpers, hoses, etc.; functions and limitations of mechanical equipment to overcome these restrictions; effect of friction loss; head and pressure; water system; fire flow requirements; and organization for fire suppression.

FSC 163 Fire Apparatus and Equipment /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSC 149.

Automotive apparatus (pumpers, aerial ladders, lift platforms, hose wagons, transports and utility vehicles), water towers, heavy auxiliary mechanical equipment and appliances, generators, compressors, rescue and forcible entry tools and cutting torches.

FSC 164 Fire Protection Systems /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSC 162.

Principles of fire protection systems. Includes portable and fixed fire extinguishing equipment, automatic sprinkler and deluge systems, rate of temperature rise and smoke detecting devices and alarm systems.

FSC 165 Building Construction for Fire Protection /3 cr. hrs./3 periods (3 lec.)

Principles of building design as related to fire protection. Includes fire travel, relation of fire load to propagation of flame, non-conforming structures and application of building codes.

FSC 166 Fire Suppression, Strategy and Tactics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSC 149.

Principles of planning fire suppression attacks. Includes planning an attack to fit the problem and revising the plan of attack to meet changing situations.

FSC 167 Rescue Practices for the Fire Service /3 cr. hrs./3 periods (3 lec.)

Introduction to skills necessary to assess, extricate, and care for victims in emergency situations. Includes an overview of fire service-based rescue, rescue operations and incident management, and civilian versus firefighter rescue. Also includes why firefighters become victims and an overview of technical rescues.

FSC 168 Special Hazard Tactical Problems /3 cr. hrs./3 periods (3 lec.)

Tactical problems and specific hazards not normally encountered. Designed for experienced fire fighters. Includes hazard characteristics and hazardous materials under fire conditions.

Information: Designed for experienced fire fighters.

FSC 170 Fire Service Leadership /3 cr. hrs./3 periods (3 lec.)

Practical training for fire service leadership and supervision. Includes decision-making, problem solving, running a meeting, managing multiple roles, creativity, power, and ethics. Also includes situational leadership, delegation, coaching, and discipline.

Information: Meets National Fire Academy requirements for Leadership I, II, and III.

FSC 171 Fire Conflict Management /3 cr. hr./3 period (3 lec.)

Overview of assertive communication and conflict management principles and techniques. Includes discussions, simulated exercises, and role-play to enhance an individual's ability to effectively cope with conflict.

FSC 171A Fire Conflict Management: Module A /1 cr. hr./1 period (1 lec.)

Overview of assertive communications, how people communicate, methods for controlling emotional reactions to confrontational and difficult situations, specific personality types and ways to deal with them, effective listening techniques, and handling complaints from the public. Includes discussions, self-assessments, simulated exercises, and role-play to enhance an individual's ability to effectively and honestly communicate and cope with conflict.

Information: FSC 171A, 171B, and 171C together constitute FSC 171.

FSC 171B Fire Conflict Management: Module B /1 cr. hr./1 period (1 lec.)

Continuation of FSC 171A. Includes principles of gathering information, information gathering techniques, mediation techniques, when you are involved in the conflict, and role-plays. Also, involves discussions, self-assessments, simulated exercises, and role-play to enhance an individual's ability to ethically and effectively mediate conflict.

Information: FSC 171A, 171B, and 171C together constitute FSC 171.

FSC 171C Fire Conflict Management: Module C /1 cr. hr./1 period (1 lec.)

Continuation of FSC 171B. Includes assessing personal skills, abilities and motivations, barriers to communication, communication filters, and work force diversity and values. Also includes, discussions, self-assessments, simulated exercises, and role-play to enhance an individual's ability to effectively and honestly communicate.

Information: FSC 171A, 171B, and 171C together constitute FSC 171.

FSC 175 Introduction to Fire Investigation: Origin and Recognition of Arson /3 cr. hrs./3 periods (3 lec.)

Basic principles of arson investigation. Includes an introduction to fire investigation, laws, fire causes, determining point of origin, evidence, fire setters, case investigation and preparation, and courtroom demeanor and testimony.

FSC 180 Driver Training for Fire Service /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Techniques for driving and handling fire vehicles. Includes safe operating procedures, defensive driving, apparatus inspection, training in emergency maneuvers, and the key components of the driving system.

FSC 185 Advanced Fire Investigation: Arson /3 cr. hrs./3 periods (3 lec.)

Training in fire investigation. Includes fire loss, arson laws, search and seizure, interviewing witnesses, photography, reconstruction, and vehicular fires.

FSC 189 Current Issues in Fire Science /1 cr. hr./1 period (1 lec.)

Study of current issues in the fire service. Includes developing and writing an independent, applied research project, utilizing various computer applications for formatting and design, and use of the internet and library resources.

FSC 260 Fire and Emergency Services Instructor I /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of instructor.

Theoretical and practical training in developing and instructing fire and emergency services training programs. Includes an exploration of safety and legal issues, adult learning psychology, developing, planning and presenting effective instruction, evaluating student learning, teaching diverse learners, and use of instructional media.

Information: Meets the requirements for the Arizona State Fire Marshal Instructor I certification and NFPA 1041.

FSC 261 Fire and Emergency Services Instructor II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Consent of instructor.

Continuation of FSC 260. Theoretical and practical training in developing, instructing and managing fire and emergency services training programs. Also includes an exploration of the design and development of training programs, performing needs and task analyses, development and utilization of lesson plans, the recruitment, selection and evaluation of instructors, and training manager's responsibilities relating to budget and resource management.

Information: Meets the requirements for the Arizona State Fire Marshal Instructor II certification and NFPA 1041.

FSC 270 Leadership I for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Concepts, techniques, and applications of effective executive leadership. Includes leadership styles and characteristics, the effective executive, and leaders with vision, influence and motivation. Also includes being a change facilitator in a traditional organization, and the future of leadership.

FSC 271 Leadership II for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Continuation of FSC 270. Includes organizational structure, roles and responsibilities, and organizational values. Also includes organizational vision, fiscal management and priorities, innovative organizations, executive leadership, and deployment of self.

FSC 272 Leadership III for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Continuation of FSC 271. Includes communication skills, presentation skills, and verbal and writing skills at an executive level. Also includes interpersonal skills, labor relations, conflict management, ethical/unethical persuasion, and the media.

FSC 273 Leadership IV for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Continuation of FSC 272. Includes the local fire department in relation to its city government, local policy development, and understanding how the local educational system works. Also includes legal aspects of the city and department procedures, networking and community relations, relations with local and state fire service providers, and understanding the national and international fire service providers.

FSC 274 Leadership V for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Continuation of FSC 273. Includes reasoning, thinking patterns, problem identification, and problem solving strategies. Also includes problem solving styles, decision-making models and approaches, personal decision making, and evaluation.

FSC 275 Leadership VI for Fire Service Executives /1 cr. hr./ 1 period (1 lec.)

Continuation of FSC 274. Includes master planning, facilities planning, and human resource planning. Also includes financial planning, strategic planning, implementation planning, and leadership skills in planning for the future.

FSC 280 Fire Chief Training /4 cr. hrs./4 periods (4 lec.)

Preparation for professional fire personnel to become chief officers. Includes incident command, communications, and disaster management.

FITNESS AND RECREATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FAR 050 Senior Fitness and Conditioning /1 cr. hr./2 periods (1 lec., 1 lab)

Conditioning for mature individuals. Includes muscular endurance, strength, and cardiovascular fitness. Also includes coordination and flexibility.

FAR 105 Beginning Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

Aerobics for the beginning student. Includes a variety of exercises and dance routines to strengthen the cardiovascular system and tone muscles. Also, includes warm-ups and stretches for loosening muscles and joints and cool-down routines that stress relaxing and tapering off from the rigorous exercise program.

Information: This course is not intended for Fitness and Sports Science majors.

FAR 109 Walking for Fitness /1 cr. hr./2 periods (1 lec., 1 lab)

Individually paced walking using effective biomechanics and techniques as associated with recreation fastwalking. Includes cardiovascular workouts within a target zone to promote positive health, fitness and confidence.

Information: May be taken three times for a maximum of three credit hours.

FAR 112 Beginning Bowling /1 cr. hr./1.5 periods (.5 lec., 1 lab)

Introduction to beginning bowling. Includes the history of bowling, basics of bowling, bowling etiquette, bowling equipment, the beginning approach, the proper stance, getting to the foul line, scoring, keys to successful bowling, and types of bowling games.

FAR 120 Self Defense for Women /2 cr. hrs./3 periods (2 lec., 1 lab)

Introduction to the mental attitudes and physical skills needed to defend oneself against an attack. Includes recognizing potentially dangerous situations and how to avoid them.

Information: May be taken four times for a maximum of eight credit hours.

FAR 130 Beginning Tae Kwon Do /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the basics of Tae Kwon Do. Includes stretching techniques, warm up exercises, self-defense techniques, and kicking techniques. Also includes skills sufficient to pass the yellow belt test.

Information: May be taken four times for a maximum of four credit hours.

FAR 131 Intermediate Tae Kwon Do /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FAR 130 or consent of instructor.

Continuation of FAR 130. Includes combinations of punches, strikes, and kicks. Also includes skills necessary to pass the green belt test.

Information: May be taken four times for a maximum of four credit hours.

FAR 132 Advanced Tae Kwon Do /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FAR 131 or consent of instructor.

Continuation of FAR 131. Includes advanced techniques and tournament type skill performance.

Information: May be taken four times for a maximum of four credit hours.

FAR 133 Beginning Karate /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to Okinawan Karate. Includes history and philosophy, basic techniques, performance categories, and self-defense strategies.

Information: May be taken four times for a maximum of four credit hours.

FAR 134 Intermediate Karate /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FAR 133.

Continuation of FAR 133. Includes intermediate level katas (combinations of movements).

Information: May be taken four times for a maximum of four credit hours.

FAR 136 Beginning Kung Fu /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the basics of Kung Fu. Includes techniques in kicking and punching, and basic Shaolin forms. Also includes developing body language in areas such as discipline, endurance and attitude.

FAR 140 Beginning Chi Kung /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to Chi Kung (Chinese yoga). Includes stretching and breathing in simple, dynamic movements and postures. Also includes the practice of Chi Kung which benefits health by promoting relaxation and increasing strength, flexibility and oxygen supply to all cells of the body.

FAR 153 Swim Fit /1 cr. hr./2 periods (1 lec., 1 lab)

Cardiovascular conditioning through lap swimming for the fitness enthusiast. Includes basic stroke review. Also includes techniques of endurance swimming and determination of cardiovascular fitness level.

Information: May be taken four times for a maximum of four credit hours.

FAR 154 Water Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

Cardiovascular, strengthening, and flexibility exercise in the pool for swimmers at all levels. Includes review of safety water techniques, and upper and lower body movement in water. Also includes coordination of movement to music, and cardiovascular fitness level determination using heart rate measurements.

Information: May be taken four times for a maximum of four credit hours.

FAR 155 Swimming: Stroke Development /1 cr. hr./1 period (1 lec., 1 lab)

Swimming lessons for both the novice and advanced swimmer in the development and/or refinement of a wide variety of strokes. Includes orientation to the aquatic environment, rhythmic breathing, water and deep water entry, and treading water. Also includes front and back crawl, backstroke, breaststroke, sidestroke, butterfly, underwater swimming, turns, and diving.

FAR 160 Life Guarding /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): Prior or concurrent enrollment in American Red Cross Basic First Aid and CPR for the professional rescuer. Introduction to the profession of life guarding. Includes endurance swimming, approach and lifesaving stroke techniques. Also includes prevention and surveillance techniques as well as shallow and deep water rescues, including spinal injuries.

Information: May be taken four times for a maximum of eight credit hours.

FAR 161 Beginning T'ai-chi Chuan /2 cr. hrs./3 periods (1 lec., 2 lab)

Basic techniques of Yang style T'ai-Chaun, a form of martial arts. Includes an introduction to and principles of T'ai-chi; T'ai-chi for a healthier life style and self defense; and Yang Style Short Form.

Information: This course is not intended for Fitness and Sports Science majors.

FAR 170 Basic Scuba /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Consent of instructor.

Introduction to the open water swimming environment. Includes SCUBA diving equipment, physics, environmental biology of the ocean, and human physiology. Upon successful completion of the course, students are qualified for diving in open water and may choose to complete National Association of Scuba Educators (NASE) certification.

Information: Students are required to complete a 200 yard fitness swim test and a 10 minute minimum survival float.

FITNESS AND SPORT SCIENCES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FSS 105 Beginning In-Line Skating /1 cr. hr./2 periods (1 lec., 1 lab)

Basics of in-line skating. Includes protective equipment, rules of the road, safety on skates, stretching and cool down, getting comfortable on in-line skates, moving on in-line skates, beginning movements or stride one, beginning braking, beginning turning, edge control, stride two, and practical skating.

FSS 106 Intermediate In-Line Skating /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FSS 105 or consent of instructor.

In-line skating for the experienced skater. Includes review of equipment needs and safety rules, fitness preparation, and intermediate level movements related to downhill and uphill skating.

FSS 110 Beginning Golf /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to golf for the beginner. Includes grip, stance, swing, putting, and rules.

Information: May be taken four times for a maximum of four credit hours.

FSS 111 Intermediate Golf /1 cr. hr./2 periods (1 lec., 1 lab)

Development of skills introduced in the beginning class. Includes grip, stance, swing, driving, chipping, rules, and etiquette.

Information: May be taken four times for a maximum of four credit hours.

FSS 112 Advanced Golf /1 cr. hr./2 periods (1 lec., 1 lab)

Advanced skills in golf and development of the mental aspects of the game. Includes techniques for playing hazards, difficult lies, and making special shots.

Information: May be taken four times for a maximum of four credit hours.

FSS 113 Beginning Racquetball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to racquetball for the beginner and novice. Includes equipment, safety, game rules, techniques, and skill development. Also includes singles, cut-throat, and doubles play.

Information: May be taken four times for a maximum of four credit hours.

FSS 114 Intermediate Racquetball /1 cr. hr./2 periods (1 lec., 1 lab)

Intermediate level skill development and play. Includes a review of the beginning level skills. Also includes rules, etiquette, singles and doubles strategies, and tournament play.

Information: May be taken four times for a maximum of four credit hours.

FSS 116 Beginning Tennis /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the basic skills and rules of tennis. Includes forehand, backhand, serve, and volley. Also includes strategy, courtesy, selection of equipment, and general rules for playing singles and doubles.

Information: May be taken four times for a maximum of four credit hours.

FSS 117 Intermediate Tennis /1 cr. hr./2 periods (1 lec., 1 lab)

Refinement of tennis skills for the developing player. Includes running forehand drive, running backhand drive, service, volley, drop shot, overheads, strategies, and analysis of opponent's game. Also includes scoring, handling physical and mental stress, avoiding injury, and tournament play.

Information: May be taken four times for a maximum of four credit hours.

FSS 118 Advanced Tennis /1 cr. hr./2 periods (1 lec., 1 lab)

Progressive skill development for the advanced tennis player. Includes advanced strategies in singles and doubles play, poise in tournaments, analyzing your opponent, handling injury, and interpretation of rules.

Information: May be taken four times for a maximum of four credit hours.

FSS 119 Track and Field /1 cr. hr./2 periods (1 lec., 1 lab)

Fundamental techniques of track and field. Includes development of personal skills, rules, courtesies, safety, philosophy, and training.

Information: May be taken four times for a maximum of four credit hours.

FSS 120 Beginning Soccer /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to soccer for the beginner. Includes history of soccer, basic skills, strategies, terminology, and rules to be used in drill and game activities.

Information: May be taken four times for a maximum of four credit hours.

FSS 121 Advanced Soccer /1 cr. hr./2 periods (1 lec., 1 lab)

Advanced skills for soccer. Includes game-like conditions, special plays and advanced game strategies.

Information: May be taken four times for a maximum of four credit hours.

FSS 122 Beginning Handball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to handball for the beginner. Includes equipment, safety, strategies, techniques, and skill development.

Information: May be taken six times for a maximum of six credit hours.

FSS 125 Beginning Basketball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the fundamentals of basketball. Includes development of offensive and defensive skills, rules, team play, and strategy.

Information: May be taken four times for a maximum of four credit hours.

FSS 126 Intermediate Basketball /1 cr. hr./2 periods (1 lec., 1 lab)

Development of techniques for students with basic basketball skills. Includes footwork, jumping, rebounding, guarding, designed plays, and officiating techniques.

Information: May be taken four times for a maximum of four credit hours.

FSS 127 Advanced Basketball /1 cr. hr./2 periods (1 lec., 1 lab)

Advanced skills for basketball. Includes game-like conditions, special plays, and advanced game strategies.

Information: May be taken four times for a maximum of four credit hours.

FSS 128 Beginning Baseball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to the fundamentals and basic skills of baseball. Includes infield, outfield, catching, pitching, offensive and defensive strategies.

Information: May be taken four times for a maximum of four credit hours.

FSS 129 Beginning Softball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to slow and fast pitch softball. Includes defensive and offensive skills, strategies, pitching strategies, officiating, and rules.

Information: May be taken four times for a maximum of four credit hours.

FSS 130 Advanced Softball /1 cr. hr./2 periods (1 lec., 1 lab)

Progressive skill development for the advanced softball player. Includes advanced tactics and competition.

FSS 131 Beginning Volleyball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to volleyball for the beginning player. Includes basic skills, rules, and team systems and strategies.

Information: May be taken four times for a maximum of four credit hours.

FSS 132 Intermediate Volleyball /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to volleyball for the player with previous volleyball experience. Includes refinement of basic skills, introduction of advanced skills, and team systems.

Information: May be taken four times for a maximum of four credit hours.

FSS 133 Advanced Volleyball /1 cr. hr./2 periods (1 lec., 1 lab)

Volleyball for the skilled and experienced player. Includes refining skills and introducing advanced techniques and team systems.

Information: May be taken four times for a maximum of four credit hours.

FSS 134 Advanced Baseball /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FSS 128.

Introduction to advanced tactics and competition in baseball. Includes advanced instruction in base running, fielding, hitting, and offensive and defensive strategies.

Information: May be taken four times for a maximum of four credit hours.

FSS 148 Spinning /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Consent of instructor.

Individually paced physical stationary bike riding. Includes fundamental techniques of spinning and mental conditioning to maximize benefits from non-impact cardiovascular workouts set to music.

FSS 150 Fitness Activities /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to fitness activities for the beginner. Includes the importance of exercise, proper nutrition, effect of attitudes on health, and the basics of the physiology of exercise. Also includes participation in stretching exercises, walking, jogging, dancing, and biking.

Information: May be taken four times for a maximum of four credit hours.

FSS 151 Sports Conditioning /1 cr. hr./2 periods (1 lec., 1 lab)

Co-requisite: Enrollment in an athletic team class.

Conditioning class for athletes. Includes working with respective coaches on drills and exercises designed for a particular sport.

Information: May be taken four times for a maximum of four credit hours.

FSS 152 Independent Activity /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): At least one physical education activity class or consent of instructor. Independent fitness activities designed for students who are actively engaged in a fitness activity, but are unable to meet regularly scheduled physical education classes.

Information: May be taken four times for a maximum of four credit hours.

FSS 153 Plus-sized Exercise /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Twenty-five pounds or more overweight.

Beginning aerobic exercise, toning, and stretching for individuals desiring to use exercise for weight control. Includes student determination of appropriate exercise intensity levels and modifications during activities.

Information: May be taken four times for a maximum of four credit hours.

FSS 155 Athletic-Academic Success /2 cr. hrs./2 periods (2 lec.)

Survey of successful educational strategies in support of individual academic plans, career goals and personal decision making. Includes attitude adjustments, learning styles, study skills, test preparation, time

management and long range academic planning. Also includes concerns for lifetime health and fitness, NJCAA eligibility, and transfer to four-year colleges.

Information: May be taken three times for a maximum of six credit hours.

FSS 156 Sport Conditioning Through Plyometrics /1 cr. hr./ 2 periods (1 lec., 1 lab)

Introduction to sport specific conditioning through plyometrics. Includes basic skills and strategies of plyometric drills and their usage for various specific sports.

Information: May be taken four times for a maximum of four credit hours.

FSS 174 Yoga /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to stress reduction through Yoga. Involves stretching, basic postures, breathing, and relaxation techniques to improve overall wellness.

Information: May be taken four times for a maximum of four credit hours.

FSS 176 Low Impact Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

Introduction to cardiovascular and muscular exercises. Includes walking, jogging, stretching, calisthenics, and muscle toning. Also includes cool down and relaxation exercises.

Information: May be taken four times for a maximum of four credit hours.

FSS 177 Medium Intensity Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

Moderate cardiovascular and muscular conditioning. Includes increasing stamina and exercise levels, and the development of individual workout routines.

Information: May be taken four times for a maximum of four credit hours.

FSS 178 High Intensity Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

Intensive aerobics designed for muscular and cardiovascular efficiency. Includes the development of a complete exercise program.

Information: May be taken four times for a maximum of four credit hours.

FSS 179 Step Aerobics /1 cr. hr./2 periods (1 lec., 1 lab)

High intensity, low impact program that involves stepping on and off a platform repeatedly, while simultaneously performing upper body movements. Includes both beginning and advanced students at varying intensity levels.

FSS 180 Strategies for Weight Management /1 cr. hr./1 period (1 lec.)

Current research, information, and support to make lifestyle changes to manage weight and improve overall wellness. Includes an introduction to new concepts in weight control, physiological and psychological effects of dieting, collection of baseline data (anthropometric measures, health and exercise histories), behavior modification and motivational techniques, nutritional information, and exercise and activity concepts.

Information: May be taken four times for a maximum of four credit hours.

FSS 181 Stretch and Tone /1 cr. hr./2 periods (1 lec., 1 lab)

Muscular strength and endurance workout designed to tone and strengthen the entire body. Includes hand weights, resistant tubing, dynabands, stretching and flexibility exercises.

Information: May be taken six times for a maximum of six credit hours.

FSS 185 Beginning Weight Training and Cardiovascular Fitness / 1 cr. hr./2 periods (1 lec., 1 lab)

Basic, balanced fitness training program designed for the beginner. Includes the development of a personalized weight training and cardiovascular routine designed for growth in muscle endurance, strength, and cardiovascular fitness.

Information: May be taken six times for a maximum of six credit hours.

FSS 186 Intermediate Weight Training and Cardiovascular Fitness / 2 cr. hrs./4 periods (4 lab)

Exploration into the range and magnitude of weight and cardiovascular training. Includes rules for weight training, body position when exercising, order of exercises, overloading, and cardiovascular assessment. Also includes current trends and issues.

Information: May be taken six times for a maximum of twelve credit hours.

FSS 187 Advanced Weight Training and Cardiovascular Fitness / 2 cr. hrs./4 periods (4 lab)

Intensive weight training and cardiovascular activities for physically qualified individuals. Includes advanced training techniques and development of higher degree skill techniques.

Information: May be taken six times for a maximum of twelve credit hours.

FSS 199 Co-op Related Class in FSS /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 199 Co-op Work.

See Cooperative Education section for description.

FSS 199 WK Co-op Related Work in FSS /1-3 cr. hrs./5-15 periods (5-15 lab)

Prerequisite(s): Concurrent enrollment in 199 Co-op Related Class.

See Cooperative Education section for description.

FSS 201 Introduction to Exercise Science and Physical Education / 3 cr. hrs./3 periods (3 lec.)

Introduction to the disciplines and professions associated with exercise science and physical education. Includes an overview of historical and philosophical foundations.

FSS 236 Motivational Techniques for Personal Trainers and Coaches /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Basic theories of motivation, reinforcement, and goal setting for personal trainers and coaches to apply to their clients or athletes. Includes individual and group dynamics, exercise adherence, and communication techniques. Focuses on practical applications.

FSS 238 Introduction to Sports Injury Management /2 cr. hrs./ 2 periods (2 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Introduction to principles and techniques of preventing, treating and rehabilitating sports related injuries. Includes recognition of sports injuries, therapeutic methods, mechanisms of sports injuries, nutrition, and taping and wrapping techniques.

FSS 239 Introduction to Leisure Education /3 cr. hrs./3 periods (3 lec.)

Survey of job careers in the leisure service field. Includes sports and recreation specialty, health, teaching, and coaching in the commercial, private, and public sector.

FSS 241 Nutrition and Body Composition /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Examination of the relationship between nutrition and the human body. Includes optimal nutrition, energy expenditure, body composition assessment, regulating the body through exercise, and recent research findings.

FSS 242 Games and Activities for the School-Aged Child / 3 cr. hrs./3 periods (3 lec.)

Basic skills in and knowledge of methods and materials for teaching physical activities, games, and sports to the school-aged (K-8) child. Includes program development and planning, classroom management techniques, legal considerations, activities, and modifications for the special child.

FSS 250 Sport Safety Training and CPR /1 cr. hr./1 period (1 lec.)

Emergency first aid for respiratory failure and cardiac arrest. Includes one-rescuer techniques for conscious and unconscious adults and children, which provides one-year American Red Cross certification for

each, and standard first aid for the immediate care, especially in sports situations, for victims of injury or sudden illness, which provides three-year ARC certification. Also includes further care if medical help is delayed or unavailable, urgent care in life threatening situations, and information on HIV/AIDS and prevention of disease transmission.
Information: May be taken four times for a maximum of four credit hours.

FSS 250A Sport Safety: CPR /5 cr. hr./5 period (.5 lec)

Emergency first aid for respiratory failure and cardiac arrest. Includes one-rescuer techniques for conscious and unconscious adults and children, which provides one-year American Red Cross certification for each. Also includes information on HIV/AIDS.

Information: May be taken four times for a maximum of two credit hours.

Information: FSS 250A and 250B together constitute FSS 250.

FSS 250B Sport Safety Training /5 cr. hr./5 period (.5 lec.)

Standard first aid for the immediate care, especially in sports situations, for victims of injury or sudden illness. Includes provision of three-year American Red Cross certification. Also includes further care if medical help is delayed or unavailable, urgent care in life threatening situations, and information on prevention of disease transmission.

Information: May be taken four times for a maximum of two credit hours.

Information: FSS 250A and 250B together constitute FSS 250.

FSS 270 Principles of Strength and Conditioning /1 cr. hr./3 periods (3 lab)

Prerequisite(s): FSS 218.

Advanced theory and application of resistance training principles. Includes designing, implementing and evaluating training and conditioning programs to improve fitness and athletic performance.

Information: May be taken three times for a maximum three credit hours.

FSS 271 Sports Psychology /3 cr. hrs./3 periods (3 lec.)

Development of the basics of applied sports psychology. Includes principles of motivation, varied psychological skills for athletes' performance improvement, and leadership emphasis through communication skills. Also includes imagery, stress management and attentional skills development for performance enhancement.

FSS 272 Coaching Techniques and Practices /3 cr. hrs./3 periods (3 lec.)

Concepts and strategies for teaching athletes both new skills and fine tuning of existing skills. Includes presentation of new skills, development and maintenance of skills, and cognitive processes for improved performance.

Information: Appropriate for coaches of athletes of all ages and skill levels.

FSS 273 Sport Physiology /3 cr. hrs./3 periods (3 lec.)

Principles of muscular, energy and endurance fitness training for peak performance. Includes focus on individual differences, muscular fitness components, energy systems, performance evaluation, and training program development.

FSS 276 Individualized Exercise for Wellness /2 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Evaluation and interpretation of basic wellness concepts. Includes exercise, nutrition, weight control, and the application of each to create a total fitness profile.

FSS 277 Personal Trainer /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSS 218, 276, or concurrent enrollment.

Principles and methods of training. Includes screening and evaluation, individual program design, injury prevention, first aid, and legal issues. Also includes an overview of anatomy, exercise physiology, biomechanics, weight training, and cardio-respiratory fitness.

FSS 278 Personal Trainer Practicum /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): FSS 276 and 277 or concurrent enrollment.

Intended for students preparing to be personal trainers. Includes hands-on experience working with student-clients enrolled in other FSS courses by helping develop appropriate exercise goals, providing motivation, giving supplemental nutritional information, and demonstrating exercise techniques.

FSS 279 Motor Development /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Examination of developmental changes in motor patterns for children and adults. Includes methods used in evaluating motor skill performance and the selection of appropriate movement experiences.

FSS 280 Lifestyle and Weight Management Consultant /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): FSS 241 or 277 or concurrent enrollment, or consent of instructor.

Designed for the fitness professional. Includes current and complete survey of the knowledge, instructional techniques, and professional responsibilities that lifestyle and weight management consultants need to safely and effectively help clients make appropriate lifestyle changes. Also includes communication, basic health behavior psychology, body composition assessment, physiology of obesity, applied exercise science, basic nutrition, program planning and implementation, legal, professional, and ethical responsibilities.

FSS 285 Principles of Athletic Coaching /1-3 cr. hrs./1-3 periods (1-3 lec.)

Prerequisite(s): Consent of instructor.

Surveys the fundamentals of coaching. Includes integrating knowledge from experienced coaches with the latest research by sport scientists.

FSS 286 Sports Officiating /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Familiarization with and application of the rules of various sports from

the standpoint of an official. Includes current methods and materials to develop competency in executing official rules. Also includes actual experience through service in the college's intramural program and other agencies.

FSS 287 Tennis Officiating and Group Tennis Instruction /2 cr. hrs./ 2 periods (2 lec.)

Teaching and officiating tennis. Includes basic instructional skills and officiating techniques.

FSS 288 History and Philosophy of Sport and Physical Education /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Historical development and philosophical foundations of contemporary sports and related activities. Includes ancient societies, the Middle Ages, European perspectives, and a chronicle of American athletic tradition and thought.

FSS 289 Sports Administration /2 cr. hrs./2 periods (2 lec.)

Theory, concepts and practices for effective sports program administration. Includes planning, organizing, leading, controlling and financing sports programs and developing a sound philosophical basis for efficient and successful administration.

FSS 296 Independent Studies in Fitness and Sport Sciences / 3 cr. hrs./9 periods (9 lab)

Prerequisite(s): Consent of instructor.

Students independently continue their development in health, physical education and recreation with the help of a faculty member.

Information: May be taken two times for a maximum of six credit hours.

FSS 299 Co-op Related Class in FSS /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 299 Co-op Work, and consent of instructor.

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Information: May be taken two times for a maximum of two credit hours.

FSS 299WK Co-op Related Work in FSS /1-3 cr. hrs./5-15 periods (5-15 lab)

Prerequisite(s): Concurrent enrollment in 299 Co-op Class, and consent of instructor.

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors.

Information: May be taken two times for a maximum of six credit hours.

PROFESSIONAL ACTIVITIES COURSES

FOR STUDENTS PLANNING A MAJOR OR MINOR IN FITNESS AND SPORT SCIENCES

FSS 208 Professional Activities: Aerobics /1 cr. hr./3 periods (3 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Aerobic skills and teaching methods for the Fitness and Sport Sciences major. Includes proper posture, exercise considerations, importance of music, learning theory, and evaluation methods.

FSS 213 Professional Activities: Basketball /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Basketball skills and teaching methods for the Fitness and Sport Sciences major. Includes offense, defense, special situations, and teaching techniques. Also includes participation in the sport.

FSS 218 Professional Activities: Weight Training /1 cr. hr./ 3 periods (3 lab)

Introduction to basic resistance training principles. Includes anatomy

and physiology, biomechanics, weight training principles, assessment and program development for healthy adults by Fitness and Sport Sciences majors.

FSS 223 Professional Activities: Racquetball /1 cr. hr./3 periods (3 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Racquetball skills and teaching methods for the Fitness and Sport Sciences major. Includes basic techniques and methods, offensive and defensive play, serve strategy, learning theory, and evaluation methods.

FSS 224 Professional Activities: Self Defense /1 cr. hr./3 periods (3 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Self defense for the Fitness and Sport Sciences major. Includes skill to recognize, avoid, and eliminate potentially dangerous situations, defending yourself, reporting attacks, and support agencies for victims of attack.

FSS 225 Professional Activities: Soccer /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Soccer for the Fitness and Sport Sciences major. Includes methods of teaching skills, playing strategies, classroom management, disciplinary policies, and coaching philosophies.

FSS 227 Professional Activities: Softball /1 cr. hr./3 periods (3 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Softball skills and teaching methods for the Fitness and Sport Sciences major. Includes equipment used, offensive and defensive play, strategy, and rules of the game.

FSS 230 Professional Activities: Tennis /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Principles of teaching and coaching the sport of tennis. Includes skill development, rules, strategies, and the singles and doubles game.

FSS 231 Professional Activities: Track and Field /2 cr. hrs./ 3 periods (1 lec., 2 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Track and field skills and teaching methods for the Fitness and Sport Sciences major. Includes conditioning, field events, performance, and strategy.

FSS 232 Professional Activities: Volleyball /2 cr. hrs./3 periods (1 lec., 2 lab)

Prerequisite(s): WRT 100 or 106 or concurrent enrollment or satisfactory score on the writing assessment test.

Principles of teaching and coaching the sport of volleyball. Includes skill development, skill progressions, instructional methods, basic rules, and strategies.

FOOD SCIENCE AND NUTRITION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FSN 055 Gourmet/International Cuisine /2 cr. hrs./3 periods (1 lec., 2 lab)

Study of international foods with lectures and food preparation by students. Includes history of foods studied.

Information: May be taken two times for a maximum of four credit hours.

FSN 057 Vegetarian Dietary Cookery /2 cr. hrs./3 periods (1 lec., 2 lab)

Study of food combinations from vegetable sources which supply adequate nutrition. Includes demonstrations in the planning and preparation of foods from plants which supply essential nutrients.

FSN 110 Cake Decorating and Candy Making /3 cr. hrs./4 periods (2 lec., 2 lab)

Basic principles and methods of cake decorating and candy making. Includes history of cakes, selection of ingredients, cooking procedures, cake assembly, and presentation. Also includes techniques for creating wedding cakes and holiday delectables.

FSN 113 Food Study /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to the composition of various food types. Includes methods of preparing foods to be flavorful, attractive and nutritious. Also includes emphasis on selection and application of proper nutrients for maintenance of health in persons of all ages.

FSN 127 Human Nutrition and Biology /4 cr. hrs./6 periods (3 lec., 3 lab)

Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis. Emphasizes laboratory experience that utilizes current technologies in the study of nutritional biochemistry and biochemistry-based nutritional assessment.

Information: Same as BIO 127IN.

FSN 154 Nutrition /3 cr. hrs./3 periods (3 lec.)

Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.

Information: Same as SSE 154.

FOUNDATIONS FOR PERSONAL CHANGE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FPC 101 Work and Learning in America /1 cr. hr./1 period (1 lec.)

Development of career and learning objectives. Includes learning and the world of work, careers in the 21st century, and skill development in context. Also includes a focus on the common requirements of all jobs, the skills basic to employment success, and the formal and informal learning necessary for career advancement.

FPC 102 Reading for Information /1 cr. hr./1 period (1 lec.)

Development of reading skills appropriate to career objectives. Includes reading and the world of work, skills of workplace reading, and skill development in context. Also includes a focus on interpreting the printed work in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 103 Applied Mathematics /1 cr. hr./1 period (1 lec.)

Development of mathematical skills appropriate to career objectives. Includes mathematics and the world of work, problem solving strategies, and skill development in context. Also includes a focus on basic calculations in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 104 Writing at Work /1 cr. hr./1 period (1 lec.)

Development of writing skills appropriate to career objectives. Includes writing and the world of work, community through the written word, and skill development in context. Also includes a focus on practical writing in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 105 Applied Technology /1 cr. hr./1 period (1 lec.)

Development of technology skills appropriate to career objectives. Includes technology and the world of work, understanding technological principles, and skill development in context. Also includes a focus on basic principles of technology in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 106 Observation at Work /1 cr. hr./1 period (1 lec.)

Development of observation skills appropriate to career objectives. Includes observation, problem solving, and the world of work, strategies

for observing and interpreting, and skill development in context. Also includes a focus on observing processes and behaviors at work to solve problems and make decisions.

Information: May be taken four times for a maximum of four credit hours.

FPC 107 Teamwork /1 cr. hr./1 period (1 lec.)

Development of teamwork proficiency appropriate to career objectives. Includes teamwork on the job, essentials for teamwork success, and skill development in context. Also includes a focus on task and relationship skills in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 108 Locating Information /1 cr. hr./1 period (1 lec.)

Development of skills in locating information from graphical displays appropriate to career objectives. Includes locating information in the world of work, data and types of data displays, and skill development in context. Also includes a focus on basic data formats in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 109 Listening /1 cr. hr./1 period (1 lec.)

Development of listening skills appropriate to career objectives. Includes listening and the world of work, hearing, listening, and interpreting, and skill development in context. Also includes a focus on literal comprehension, interpretation, and critical listening in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 110 Speaking English on the Job /1 cr. hr./1 period (1 lec.)

Development of spoken English skills appropriate to career objectives. Includes spoken English and the world of work, key issues in spoken English, and skill development in context. Also includes a focus on basic grammar, diction, and vocabulary in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

FPC 150 Problem Solving in the Workplace /3 cr. hrs./3 periods (3 lec.)

Techniques for analyzing and solving problems associated with providing services and producing goods. Includes contexts for analysis, business and industry challenges and problems, techniques to define specific problems, techniques of analysis, and problem solving protocols and strategies.

FRENCH

For courses numbered 098, 198, 298, see "Topics Courses" in index.

FRE 101 Elementary French I /4 cr. hrs./4 periods (4 lec.)

Introduction to the French language. Includes developing proficiency in listening, speaking, reading, and writing. Also includes French cultural traditions.

FRE 102 Elementary French II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): FRE 101.

Continuation of FRE 101. Includes increased proficiency in listening, speaking, reading, and writing. Also includes French cultural traditions.

FRE 201 Intermediate French I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): FRE 102 or two years of high school French.

Continuation of FRE 102. Includes an intensive review of grammar in addition to reading selected authors and writing short compositions. Also includes extensive practice in speaking French.

Information: This course will be conducted primarily in French.

FRE 202 Intermediate French II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): FRE 201.

Continuation of FRE 201. Includes an emphasis on efficient and contemporary language usage.

Information: This course will be conducted primarily in French.

FRE 296 Independent Study in French /1-4 cr. hrs./1-4 periods (1-4 lab)

Prerequisite(s): Consent of instructor.

Independent study in French literature, grammar, or special projects under the supervision of an instructor.

Information: May be taken two times for a maximum of eight credit hours.

FRE 297 French Language Seminar: /25-4 cr. hrs./25-4 periods (.25-4 lec.)

Prerequisite(s): Consent of instructor.

French language related training. Includes presentations and development of skills in a given area, and topics of timely or limited interest.

GENERAL BUSINESS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

GEB 130 Making the Difference through Empowerment /5 cr. hr./ .5 period (.5 lec.)

Techniques for personal empowerment. Includes understanding the role in personal and organizational success, keys to optimum performance in action skills, giving and receiving feedback, and effective ways to take responsibility for success.

GEB 131 Trust and Communication /5 cr. hr./ .5 period (.5 lec.)

Cultivating an environment of trust in an organization and the impact of effective interaction skills in one-on-one communication. Includes recognizing and avoiding five "Trust Traps" behaviors that can make them appear untrustworthy to others and how to interact effectively with co-workers, managers, customers, and suppliers.

GEB 132 Active Listening and Influencing Others /5 cr. hr./ .5 period (.5 lec.)

Techniques and skills to become an active listener and active participant in a work or social setting. Includes strategies for gaining agreement and commitment, for building relationships, and to influence others.

GEB 133 Writing for the Workplace /5 cr. hr./ .5 period (.5 lec.)

Fundamentals of workplace communications. Including writing and correctly punctuating sentences, coherent paragraphs, and complete documents.

GEB 134 Supporting Others and Valuing Differences /5 cr. hr./ .5 period (.5 lec.)

Importance and value of supporting others and recognizing the value of basic human differences. Includes assessing personal skills, abilities, and motivations and to recognizing the synergistic effect possible with people with diverse skills, motivations, and values work together and listen to each other.

GEB 135 Conflict and Partnerships /5 cr. hr./ .5 period (.5 lec.)

Handling conflict and refining partnerships. Includes techniques for continuous improvement in dealing with conflict, formulating an on-the-job action plan, and satisfying needs of internal and external customers.

GEB 136 Working with Self-Directed Teams /5 cr. hr./ .5 period (.5 lec.)

Recognize the personal, interpersonal, and organizational advantages of teamwork and cooperation. Includes identifying and understanding the stages of team development and the six factors that make teams effective. Also includes making distinction between teamwork and teams and the advantages of self-directed teams for team members, the team, and the organization.

GEB 137 Reaching Agreement /5 cr. hr./ .5 period (.5 lec.)

Understanding the dynamics of reaching agreement. Includes techniques for making good decisions and reaching agreement to maintain high standards of quality and commitment. Also includes interaction guidelines, key principles, and group process behaviors to facilitate group agreement and consensus.

GEB 150 Management Update Techniques I /1 cr. hr./1 period (1 lec.)

Techniques of reviewing and improving management and supervisory skills. For first line managers. Includes management coordination, effective decision making, the planning process, organization control, staffing, terminations and sources of authority.

GEB 151 Management Update Techniques II /1 cr. hr./1 period (1 lec.)

Techniques of reviewing and improving management and supervisory skills. For first line managers. Includes interviewing, communication, effective presentations, time management and career advancement.

GEB 152 Management Update Techniques III /1 cr. hr./1 period (1 lec.)

Techniques of reviewing and improving management and supervisory skills. For first line managers. Includes self-image, working with others, group processes, motivation, personality and leadership.

GEB 153 Management Update Techniques IV /1 cr. hr./1 period (1 lec.)

Techniques of reviewing and improving management and supervisory skills. For first line managers. Includes leadership techniques, management training, coping with change, executive ethics, dealing with complaints and criticism, motivation, selling yourself, the habit of success and the laws of success.

GEB 154 Management Update Techniques V /1 cr. hr./1 period (1 lec.)

Continuation of GEB 153. Includes the psychology of work, psychological and physiological implications of burnout, non-verbal communication, executive mid-life crisis, and psychology of love and work.

GENERAL TECHNOLOGIES MATHEMATICS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

GTM 105 Applied Technical Mathematics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Applied geometry and trigonometry operations. Includes review of basic math operations, angle calculations, elements of geometry, trigonometric functions, and practical applications.

GEOGRAPHY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

GEO 101 Physical Geography: Weather and Climate /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Introduction to the physical elements. Includes weather, climate, vegetation, and soils. Also includes their importance to humans, their interrelationships, resulting patterns, and effects.

GEO 102 Physical Geography: Land Forms and Oceans /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Introduction to the surface of the earth and the forces of nature that shape it. Includes the study of volcanoes, earthquakes, glaciers, rivers, oceans, and the interrelation of these forces with humans.

GEO 103 Cultural Geography /3 cr. hrs./3 periods (3 lec.)

Examination of the human world from a geographic perspective. Includes an exploration of global issues such as population, food supply, geopolitics, and urbanization. Also includes industrialization as seen in the special combination of cultural, physical, historical, economic, and organizational qualities imprinted on the landscapes of the world.

GEO 104 World Regional Geography /3 cr. hrs./3 periods (3 lec.)

Geographic concepts and information organized by conventional regions and nations. Includes human social and natural environments in both historical and contemporary contexts. Also includes political, economic, population, and physical geographic topics appropriate for elementary and secondary education.

GEO 108 Geography of Current Events /3 cr. hrs./3 periods (3 lec.)
Analysis of physical, cultural and regional geography through examination of global current events. Includes assessment of the region or country effected and its people, economy, politics, history, religion and language. Also includes consideration of global geophysical and climate patterns.

GEO 230 Map and Air Photo Interpretation /4 cr. hrs./6 periods (3 lec., 3 lab)

Fundamentals of map reading and air photo and image analysis. Includes introduction to standard cartographic methods and common products such as USGS topographic maps, orthophoto quads, high altitude infrared mapping photography and satellite imagery. Also includes applications in physical and social sciences, natural resources, engineering, agriculture, mining, commerce and industrial location.

GEO 250 Introduction to Medical Geography /3 cr. hrs./3 periods (3 lec.)

Spatial aspects of health and disease. Includes disease mapping, etiology, diffusion, and statistical associations. Also includes health care inequities and spatial distribution of health care facilities.

GEO 265 Mapping Concepts /1 cr. hr./1 period (1 lec.)

Introduction to the practical use of maps. Includes fundamental cartographic concepts, terminology and exercises.

Information: Same as ANT 265 and ARC 265.

GEO 267 Introduction to Geographic Information Systems /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ANT/ARC/GEO 265 or consent of instructor.

Recommended: Basic computer skills.

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.

Information: Same as ARC 267 and ANT 267.

GEO 284 Archaeocartography/Desktop Mapping /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): ARC 265 or concurrent enrollment, CSA 101.

Cartographic techniques and hardware for computer generation of maps. Includes software for cartography.

Information: Same as ANT 284 and ARC 284.

GEOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

GLG 101IN Introductory Geology I /4 cr. hrs./6 periods (3 lec., 3 lab)

Introduction to the physical aspects of the earth's crust; rocks and minerals, their relationship to one another; and the surface and subsurface processes that operate on and in the earth.

GLG 102IN Introductory Geology II /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: GLG 101.

This course traces the history of the earth and life on earth as indicated by the sequence of rock layers, the distribution of surface sediments, former geographic relationships, the fossil record and the nature of ancient environments.

GLG 110 Environmental Geology and Natural Hazards /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): GLG 101 or equivalent.

Survey of geologic processes that interact with human activities with emphasis on rivers and floods, landslides, earthquakes and volcanic action. Problems of water quality, resource availability and toxic and radioactive waste disposal will also be considered.

GLG 221IN Structural Geology /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): Trigonometry and GLG 101 or equivalent required.

Recommended: GLG 102.

Study of structures from formation and deformation of rocks, of the forces which cause such deformations and the geographic features which result. Field mapping techniques will be introduced in the lab portion of the course.

GLG 240 Geology of Selected Regions /2-3 cr. hrs./2-3 periods (2-3 lec.)

Prerequisite(s): GLG 101.

Recommended: GLG 102.

Geologic survey of a specific region. Includes the stratigraphy, structure, historical geology and most important geologic processes operating today. Also includes aspects of resource use by human occupants.

Information: May be taken four times for a maximum of twelve credit hours.

GLG 244IN Geological Field Excursions /1-3 cr. hrs./5 periods (0-1 lec., 1-5 lab)

Prerequisite(s): Consent of instructor.

Field excursions to provide encounters with geologic features and processes. Overnight camping is usually involved, moderately strenuous overnight or day hikes may be undertaken.

Information: May be taken four times for a maximum of twelve credit hours.

GLG 280IN Geology of Arizona /3 cr. hrs./3 periods (2 lec., 1 lab)

Prerequisite(s): GLG 101, 102.

Stratigraphy, structure and geologic history of Arizona and adjacent areas. Lab will consist of multi-day field excursions. Emphasis will be on discovery of the stories behind today's often spectacular Arizona scenery.

GERMAN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

GER 101 Elementary German I /4 cr. hrs./4 periods (4 lec.)

Introduction to the German language. Includes developing proficiency in listening, speaking, reading, and writing. Also includes German cultural traditions.

GER 102 Elementary German II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): GER 101 or one year of high school German.

Continuation of GER 101. Includes increased proficiency in listening, speaking, reading, and writing. Also includes German cultural traditions.

GER 201 Intermediate German I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): GER 102 or two years of high school German.

Continuation of GER 102. Includes an intensive review of grammar, in addition to reading selected authors and writing short compositions. Also includes extensive practice in speaking German.

GER 202 Intermediate German II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): GER 201.

Continuation of GER 201. Includes an emphasis on efficient and contemporary language usage.

GER 296 Independent Study in German /1-4 cr. hrs./1-4 periods (1-4 lab)

Prerequisite(s): Consent of instructor.

Independent study in German literature, grammar, or special projects under the supervision of an instructor.

Information: May be taken two times for a maximum of eight credit hours.

GER 297 German Language Seminar: /25-4 cr. hrs./25-4 periods (.25-4 lec.)

Prerequisite(s): Consent of instructor.

Reports and presentations on selected subjects related to the German language.

HEALTH CARE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HCA 102 Drug Calculations /1 cr. hr./1 period (1 lec.)

Computation of medication dosage. Includes abbreviations related to medications, systems of measurement, drug labels, and medication orders while focusing on accurate dosage calculation of medication.

HCA 154 Introduction to Health Care /3 cr. hrs./3 periods (3 lec.)
Survey of the health sciences field. Includes the health care delivery systems, health careers, health science fundamentals and how to relate to the patient as a person.

HCA 155 Introduction to Pharmacology /3 cr. hrs./3 periods (3 lec.)
Application of the nursing process to actions, uses and effects of medications. Designed for nursing students and includes classifications, actions, uses, contraindications, doses, routes of administration, side effects, interactions, and incompatibilities. Also includes the application of the nursing process to the safe administration of medications and appropriate client/family education.

HEALTH CONTINUING EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HCE 250 Intravenous Medication Therapy /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Licensed LPN or consent of instructor.

Techniques for licensed personnel to administer IV therapy with selected premixed medications and solutions. Includes principles of IV therapy, fluid balance in the body, local and systemic complications, therapy and patient care, medication delivery equipment, therapy monitoring and documentation, and skills demonstration.

HCE 251 Initiating Intravenous Therapy /1 cr. hrs./1 periods (1 lec.)

Prerequisite(s): Licensed Practical Nurse or consent of instructor.

Theory and practice needed for the current LPN to start, maintain, and discontinue intravenous (IV) therapy (peripheral venipuncture) under the supervision of a registered nurse. Includes anatomy and physiology, sites for venipuncture, fluid replacement therapy, infusion equipment, intravenous solutions, flowrate of IV infusion, starting an IV infusion, nursing management of IV therapy, skills demonstration and practice, and clinical practice and certification.

HCE 252 Homecare for the Ventilator Dependent Patient /1 cr. hr./1 period (1 lec.)

Basic theory and practice for the health care worker to gain and demonstrate knowledge and skills in home ventilator care. Includes airway and tracheotomy-related care, oxygen and inhaled medication administration and monitoring, and ventilator-related management and monitoring. Also includes discussions of psychological aspects of home ventilator care.

Information: Course completion provides certification as a ventilator care provider/professional.

HEALTH EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HED 136/136LB Introduction to Health Sciences /3 cr. hrs./3 periods (2 lec., 1 lab)

Contemporary health-related issues for all dimensions of the individual. Includes aspects of physical, mental, social, and emotional health. Also includes health promotion and disease prevention.

HED 140 First Aid and Cardiopulmonary Resuscitation /1 cr. hr./1 period (1 lec.)

Theory and practice in the following areas: Standard first aid and treatment of cardiopulmonary respiratory emergencies.

Information: Same as HED 140A and B.

HED 140A First Aid /5 cr. hr./5 period (.5 lec.)

Standard first aid for the immediate care for victims of injuries or sudden illness. Includes further care if medical help is delayed or is not available and urgent care needed in life threatening situations, such as arrested breathing, heart attack, stroke, heavy bleeding, poisoning and shock.

HED 140B Cardiopulmonary Resuscitation (CPR) /5 cr. hr./5 period (.5 lec.)

Emergency first aid for respiratory failure and cardiac arrest. Includes one and two rescuer techniques for conscious or unconscious adults and children.

HISTORY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HIS 090 Community Studies Past and Present /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Structured project experience in community history. Includes library research, oral history interviews, conceptualization of a project, writing the material, guest writer contributions, and finalization of a project.

Information: May be taken two times for a maximum of six credit hours.

HIS 101 Introduction to Western Civilization I /3 cr. hrs./3 periods (3 lec.)

Pre-history to the Wars of Religion, a period extending from 10,000 BCE to 1648 CE. Includes transition from the pre-historic to the historic period, Greco-Roman world, Early, Central, and Late Middle Ages, and Renaissance and Reformation.

HIS 102 Introduction to Western Civilization II /3 cr. hrs./3 periods (3 lec.)

History of the origins and development of the modern Western world. Includes Wars of Religion, the Enlightenment, the Eighteenth century, the Nineteenth century, and the Twentieth century.

HIS 105 Introduction to Chicano Studies /3 cr. hrs./3 periods (3 lec.)

Chicano(a) life since 1848 and the struggles for self-determination. Includes the diverse perspectives of theory, research, history, literature, art, culture, society, political economy and traditions within the discipline of Chicano(a) Studies. Also includes humanities of Chicano(a) origins in Mesoamerica, New Spain and independent Mexico.

HIS 113 Chinese Civilization /3 cr. hrs./3 periods (3 lec.)

Introductory survey of the civilization of China from its origins to the present. Includes a focus on the historical development of the social, political, economic, religious, military, and intellectual systems of China.

HIS 114 Japanese Civilization /3 cr. hrs./3 periods (3 lec.)

Introductory survey of the civilization of Japan from its origins to the present. Includes a focus on the historical development of the social, political, economic, religious, military, and intellectual systems of Japan.

HIS 115 Civilization of India /3 cr. hrs./3 periods (3 lec.)

Religious, cultural, and historical traditions of India from ancient times to the present. Includes origins of Indian civilization, heterodox challenge and Hindu response, coming of Islam and the new social vision, eclipse of Islam and the rise of Europe, Indian polity in transition, and nationhood and the modern world.

HIS 122 Tohono O'Odham History and Culture /3 cr. hrs./3 periods (3 lec.)

Where have the Tohono O'Odham people been, who are they, where are they going? In answering these questions, the class examines the history and culture of the Tohono O'Odham.

HIS 124 History and Culture of the Yaqui People /3 cr. hrs./3 periods (3 lec.)

Survey of the cultural heritage of the Yaqui people and the history of their struggles to protect Yaqui land and customs. Includes Yaqui oral traditions, Spanish, Mexican and Catholic influences, and ceremonial associations. Also includes emphasis on leadership and survival strategies.

HIS 127 History and Culture of the Mexican-American in the Southwest /3 cr. hrs./3 periods (3 lec.)

Historical survey of the Mexican American people from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States Southwest and the Border region. Includes the totality of Chicano life in the United States since the Treaty of Guadalupe Hidalgo and the challenges into the 21st Century. Also includes settlement patterns, society and political economy of the Spanish Empire and Mexico in El Norte.

Information: Same as ANT 127.

HIS 135 Pre-Columbian Art /3 cr. hrs./3 periods (3 lec.)

Survey of the art and architecture of the Americas from the earliest times to the period of the Spanish conquest. Includes archeology, art

history, ethnohistory, folklore, ethnography, and literature of Pre-Columbian peoples. Also includes recognition of major art styles and important sites.

Information: Same as ANT 135 and ART 135.

HIS 136 Masks /3 cr. hrs./3 periods (3 lec.)

Survey of traditional masks and sculpture of the tribal peoples of North America, Africa, Asia, Indonesia, and Oceania. Includes archeology, art history, ethnohistory, folklore, ethnography, and literature of tribal peoples. Also includes recognition of major art styles and their cultural relationships.

Information: Same as ANT 136 and ART 136.

HIS 141 History of the United States I /3 cr. hrs./3 periods (3 lec.)

Survey of the major developments in American history from the Columbian voyages to the Era of Reconstruction. Includes the actions and activities of the broad diversity of peoples who contributed to the evolution of American society during that time. Also includes the social, intellectual, and political aspects of early American life.

HIS 142 History of the United States II /3 cr. hrs./3 periods (3 lec.)

Survey of the major developments in American history from the Era of Reconstruction to the present. Includes the actions and activities of the broad diversity of peoples who contributed to the evolution of American society during that time. Also includes the social, intellectual, and political aspects of early American life.

HIS 147 History of Arizona /3 cr. hrs./3 periods (3 lec.)

Survey of the major developments in the history of Arizona. Includes the Pre-Columbian period through the Spanish era, the Mexican Republic, the years as a U.S. territory, and the time since statehood to the present. Also includes the contributions of the various peoples who have formed the unique cultural and ethnic fabric of this area.

HIS 148 History of Indians of North America /3 cr. hrs./3 periods (3 lec.)

History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Indian origins, adaptations to cultural, political and economic changes, and current status. Also includes emphasis on federal Indian policies and leadership.

Information: Same as ANT 148.

HIS 150 African-American History and People /3 cr. hrs./3 periods (3 lec.)

African-American history from the colonial period to the present. Includes identity, double consciousness, culture and arts, and political protest.

Information: Same as ANT 150.

HIS 160 History and People of Latin America I /3 cr. hrs./3 periods (3 lec.)

Survey of the history and people of Latin America from indigenous origins to independence. Includes geography, indigenous Latin America, European background, new world, and movements for independence in Spanish America.

HIS 161 History and People of Latin America II /3 cr. hrs./3 periods (3 lec.)

Survey of the history and people of Latin America from nation-building to the present. Includes 19th Century, 20th Century, United States and Latin America, and Latin America today.

HIS 165 History of Mexico I /3 cr. hrs./3 periods (3 lec.)

Survey of Mexican history from pre-Columbian periods through Spanish conquest and colonization. Includes the movement for independence.

HIS 166 History of Mexico II /3 cr. hrs./3 periods (3 lec.)

Survey from early nation-building to the present. Includes the struggles for economic, political and social modernity. Also includes relationship with the United States.

HIS 170 History and People of Africa /3 cr. hrs./3 periods (3 lec.)

Survey of the political and cultural history of Africa from pre-historic settlements to the modern era. Includes earliest people of Africa, internal development of African societies, impact of Islam, emerging world economy, age of European expansion war and post war period, anti-colonial movements, and the Third World.

HIS 180 Women in Western History /3 cr. hrs./3 periods (3 lec.)

Survey of women's history in the Western World from Antiquity to the Modern Age. Includes Ancient Near Eastern civilizations, women of the Classical World, medieval women, reformation and revolution in early modern and progressive eras, women and war in the Western World, and postwar social developments and movements.

HIS 244 History of the American West /3 cr. hrs./3 periods (3 lec.)

Survey of the patterns of American expansion and settlement in the Western United States. Includes mythology and terminology surrounding the West, factors that made the West, political power and warfare, cultural and gender contributions to the West, and historiographers of the American West.

HIS 253 History of Women in the United States: Early America /3 cr. hrs./3 periods (3 lec.)

Survey of American women's history from Colonization to the turn of the century. Includes history and politics of the region and country, women of the new republic, transformation of a nation, civil war and reconstruction, and late 19th century.

HIS 254 History of Women in the United States: The 20th Century /3 cr. hrs./3 periods (3 lec.)

Survey of American women's history throughout the 20th century. Includes early 20th century gender, race/ethnicity, class formation, women and war, civil rights, feminist, and other social movements, and feminisms: change since 1970's.

HIS 274 The Holocaust /3 cr. hrs./3 periods (3 lec.)

Causes and legacies of the Nazi assault on humanity. Includes history of hate in Europe, historical antecedents and preconditions, Third Reich and creation of the racial state, from isolation to the "Final Solution", aftermath (1945-), and the Holocaust and relevant events.

HIS 277 History of the Middle East: From the Rise of Islam to 1453 /3 cr. hrs./3 periods (3 lec.)

Survey of the history, religion, and culture of Muslim societies. Includes the Middle East in the Sixth Century CE, Muhammad and Qur'an, Islam and the Islamic State, Fatamids, Seljuks, and the Crusades, Mongols, Mamluk Egypt, and the Ottoman Turks.

HIS 278 History of the Middle East: From 1453 to the Present Age /3 cr. hrs./3 periods (3 lec.)

Survey of the history, religion, and culture of the Islamic world from the fifteenth century through the modern period. Includes the Ottoman Empire, Safavid Empire, European imperialism and the early modern Middle East, world wars and the Middle East, and the modern Middle East.

HIS 280 History of the World Wars /3 cr. hrs./3 periods (3 lec.)

Survey of the two world wars of the twentieth century. Includes prelude to war, outbreak of the great war, war of two fronts, inter-war years, World War Two, and post war world. Also includes changes created in society, government, and international relations as a result of the two wars.

HIS 296 Independent Studies in History /1-4 cr. hrs./1-16 periods (4 lec., 12 lab)

Prerequisite(s): Consent of instructor.

Independent study in history. Includes topic identification, research plan, data gathering, and presentation of findings.

Information: May be taken two times for a maximum of four credit hours.

HOME ECONOMICS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HEC 127 Marriage and the Family /3 cr. hrs./3 periods (3 lec.)

Introduction to the social functions of marriage and the family. Includes structures of marriages and families, relationships, marriage, and transformation of marriage.

Information: Same as SOC 127.

HONORS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HON 101 Honors Colloquium /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Honors program.

Dynamic, interdisciplinary course introducing honors students to the adventure of scholarly research, writing, and conversation. Includes defining and debating contemporary social issues in relation to history, science, politics, economics, technology, psychology, and the arts. Also includes encouraging students to develop their creativity; enhance their practices of critical reflection, argumentation, and collaboration; and explore their understandings of cultural diversity in local and global contexts.

HON 210 Advisory Student Planning Board /1 cr. hr./1 period (1 lec.)

Prerequisite(s): HON 101 or 297.

The Advisory Student Planning Board (ASPB) is a selected group of six to eight students who function as an advisory group to the Honors Program coordinator and to the College Honors Advisory Council. The functions of the board include conducting student surveys on Honors courses to offer, recruiting qualified honors students at campuses and/or high schools, developing publicity and working with guest speakers. Campus representatives to the board will serve as Honors aides to the Campus Honors Coordinators. Aides will answer general questions, help plan and organize campus meetings and social events and bring campus student views to the ASPB meetings.

Information: May be taken three times for a maximum of three credit hours.

HON 296 Honors Independent Study Project /1-3 cr. hrs./1-3 periods (1-3 lec.)

Prerequisite(s): HON 101.

Exploration of special interest areas for Honors students. Content to be determined jointly by student and faculty mentor.

Information: May be taken three times for a maximum of three credit hours.

HON 297 Occupational Honors Seminar /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Honors Program.

Introduction to the Honors Program for students in an occupational program. Includes creative and critical thinking techniques, problem solving strategies, and research exploration. Also includes extensive analysis developed through student projects and presentations.

HOSPITALITY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HRM 100 Introduction to the Hospitality Industry /3 cr. hrs./3 periods (3 lec.)

Overview of the hospitality, travel and tourism industry. Includes hospitality careers, foodservice, restaurant organization, hotels and hotel organization, club organization, meeting industry, management and leadership, human resources, marketing and selling, marketing communications, management companies, franchising, and ethics in hospitality management.

HRM 101 Front Office Procedures /3 cr. hrs./3 periods (3 lec.)

Principles and procedures for front office operations in hotels and resorts. Includes classification of hotels, hotel organization, front office operations, reservations, registration, front office accounting, check out and settlement, night audit, planning and evaluating operations, revenue management, and managing human resources.

HRM 102 Hospitality Financial Accounting I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082 or equivalent score on the mathematics assessment test.

Concepts and procedures used in the hospitality financial cycle. Includes accounting theory and practice, business organization, financial statement, chart of accounts, asset, liability, and equity accounts, revenue and expense accounts, effects of business transactions, debits and credits, accounting records, journalizing and posting, month-end accounting process, year-end accounting process, and computer applications.

HRM 104 Hotel Food and Beverage Management /3 cr. hrs./ 3 periods (3 lec.)

Hotel food and beverage operations and management. Includes volume food management history, management structures and functions, personnel management, facilities, tools, and equipment, purchasing and storage, beverage management and service, controlling costs/quality assurance, food preparation techniques, sanitation, liability issues, menus and recipes, and food products.

HRM 120 Meetings and Convention Management I /3 cr. hrs./ 3 periods (3 lec.)

Basic principles of the meetings, convention, and trade show industry. Includes types of meetings, meetings as a social phenomenon, economic impact, suppliers and servicers to the industry, and the role of the meeting planner.

HRM 130 Meetings and Convention Management II /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): HRM 120.

Principles for the professional meeting manager. Includes site selection, convention and visitors bureau, negotiations, contracts and lease agreements, program planning, budgeting and financial management, liability and insurance, housing, facilities, food and beverage arrangements, transportation, audio-visual equipment, and exhibition arrangements.

HRM 150 Executive Housekeeping I /3 cr. hrs./3 periods (3 lec.)

Foundations and applications of housekeeping operations. Includes housekeeping techniques, work controls, and security and safety.

HRM 150A Executive Housekeeping I: Housekeeping Techniques / 1 cr. hr./1 period (1 lec.)

Organization and maintenance of a housekeeping department. Includes purpose, standards, procedure development, cleaning equipment, housekeeping chemicals, and interior finishes and partnerships.

Information: HRM 150A, 150B, and 150C together constitute HRM 150.

HRM 150B Executive Housekeeping I: Work Controls /1 cr. hr./ 1 period (1 lec.)

Labor components of productivity. Includes work measurement techniques, quality management and improvement, and standards development and evaluation.

Information: HRM 150A, 150B, and 150C together constitute HRM 150.

**HRM 150C Executive Housekeeping I: Security and Safety /1 cr. hr./ 1 period (1 lec.)**

OSHA regulations, inspection, penalties, and compliance. Includes OSHA inspection, training for safety, handling chemicals safely, blood-borne pathogens, and safety and security.

Information: HRM 150A, 150B, and 150C together constitute HRM 150.

HRM 151 Executive Housekeeping II /3 cr. hrs./3 periods (3 lec.)

Foundations and applications of sanitation operations. Includes microbiology, chemical controls, and pest control.

HRM 151A Executive Housekeeping II: Microbiology /1 cr. hr./ 1 period (1 lec.)

Principles and methods to control infection. Includes infection control program, bacteria, infection, controlling infection, managing linens and waste, and the housekeeping role in infection control.

Information: HRM 151A, 151B, and 151C together constitute HRM 151.

HRM 151B Executive Housekeeping II: Chemical Controls /1 cr. hr./ 1 period (1 lec.)

Use of chemicals and their applications in the workplace. Includes cleaning process, types of soil, chemistry for the non-chemist, building blocks of modern cleaners, soaps and detergents, types of cleaners, and chemical safety.

Information: HRM 151A, 151B, and 151C together constitute HRM 151.

HRM 151C Executive Housekeeping II: Pest Control /1 cr. hr./ 1 period (1 lec.)

Principles and methods for controlling pests. Includes pest identification, pest control, pesticides, labels and labeling, safe use of pesticides, pesticide equipment, laws and regulations, and choosing a pest control service.

Information: HRM 151A, 151B, and 151C together constitute HRM 151.

HRM 152 Executive Housekeeping III /3 cr. hrs./3 periods (3 lec.)

Foundations and applications of financial operations. Includes purchasing, accounting, and budgets.

HRM 152A Executive Housekeeping III: Purchasing /1 cr. hr./ 1 period (1 lec.)

Procurement of supplies and equipment. Includes quality, quantity control and materials management, price determination, vendor selection and relations, negotiation techniques, purchasing law, systems and procedures, data processing, and purchasing management.

Information: HRM 152A and 152B together constitute HRM 152.

HRM 152B Executive Housekeeping III: Accounting/Budgets / 2 cr. hrs./2 periods (2 lec.)

Principals, concepts, and accounting processes conducted by businesses. Includes overview, principles and concepts of accounting, accounting terms, records, posting information, controlling accounts, discounts and interest, accounting and bookkeeping, merchandise inventory, and budget usage.

Information: HRM 152A and 152B together constitute HRM 152.

HRM 153 Executive Housekeeping IV /3 cr. hrs./3 periods (3 lec.)

Foundations and applications of selected housekeeping services. Includes interior design, waste management, and laundry and linen.

HRM 153A Executive Housekeeping IV: Interiors /1 cr. hr./1 period (1 lec.)

Interior environments for facilities. Includes history of interior design, elements and principals of design, size and content of custodial facilities, maintainability, color, textiles, lighting, walls and wallcovering decorating tips, wall groupings, flooring, furniture, and master planning.

Information: HRM 153A, 153B, and 153C together constitute HRM 153.

HRM 153B Executive Housekeeping IV: Waste Management / 1 cr. hr./1 period (1 lec.)

Effective handling of waste stream. Includes regulatory overview, waste minimization, waste stream analysis, incineration, recycling, and general waste disposal consideration.

Information: HRM 153A, 153B, and 153C together constitute HRM 153.

HRM 153C Executive Housekeeping IV: Laundry and Linen / 1 cr. hr./1 period (1 lec.)

Functions of a laundry and linen service with emphasis on health care applications. Includes linen processing, laundering, textiles, linen dis-

tribution, linen control, and quality control.

Information: HRM 153A, 153B, and 153C together constitute HRM 153.

HRM 199 Co-op Related Class in HRM /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 199 Co-op Work.

See Cooperative Education section for description.

HRM 199WK Co-op Work in HRM /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Concurrent enrollment in 199 Co-op Related Class.

See Cooperative Education section for description.

HRM 202 Hospitality Financial Accounting II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): HRM 102.

Concepts and procedures used in the intermediate hospitality financial accounting cycle. Includes hotel revenue accounting and controls, hotel expense accounting, periodic inventory method, hotel financial statements, analysis of financial statements, statement of cash flows, property and equipment accounting, other noncurrent asset accounting, inventory accounting, hospitality payroll accounting, internal control, and selected accounting topics.

HRM 211 Hospitality Sales and Marketing Application I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Minimum of one year's experience working in the hospitality industry.

Principles and techniques of sales and marketing. Includes office organization, sales techniques, advertising, public relations, publicity and a marketing plan.

HRM 235 Hospitality Law /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): HRM 100.

Examination of the legal aspects of hospitality management. Includes basic legal principles governing hospitality operation, hotel-guest relationship, hotel's duties to guests and others, laws relating to restaurants, foodservice, and bars, and laws relating to hotel employees and general hotel operations.

HRM 245 Hospitality Human Resource Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): HRM 100.

Examination of personnel issues. Includes recruitment, selection, orientation, training, wage and benefit, legal issues, and employee appraisal.

HRM 297 Hospitality Seminar: /1-25-4 cr. hrs./1-25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Hospitality job-related training. Includes presentations by specialists in a given area and topics of timely or limited interest.

HRM 299 Co-op Related Class in HRM /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 299 Co-op Work, and a minimum of 12 credit hours of Hospitality prefix courses or one year of related industry work experience.

Information: See Cooperative Education section for description.

HRM 299WK Co-op Work in HRM /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Concurrent enrollment in 299 Co-op Related Class, and a minimum of 12 credit hours of Hospitality prefix courses or one year of related industry work experience.

Information: See Cooperative Education section for description.

HUMANITIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HUM 101 Introduction to Humanities /3 cr. hrs./3 periods (3 lec.)

Introduction to Humanities. Includes discussion of the principles of and examples from both western and non-western traditions covering art/architecture, poetry, drama, music/dance, prose, religion, and philosophy from the ancient world to 1400.

HUM 107 Humanities Through the Arts /3 cr. hrs./3 periods (3 lec.)

Humanities through a study of seven major art forms: film, drama, music, literature, painting, sculpture, and architecture. Includes historical development, elements used in creating works of art, meaning and form, and criticism or critical evaluation of each art form.

HUM 110 Humanities I /4 cr. hrs./4 periods (4 lec.)

Introduction to major cultures from Sumer through the Reformation. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music, and literature. Also includes readings from the *Epic of Gilgamesh*, Homer, Sophocles, Aristophanes, Plato, Aristotle, Virgil's *Aeneid*, the Hebrew and the Christian Scriptures, St. Augustine, heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, and Shakespeare.

HUM 111 Humanities II /4 cr. hrs./4 periods (4 lec.)

Introduction to the culture of the modern western world from the Counter Reformation-Baroque to the present. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music and literature. Also includes readings from the Baroque philosophers, Cervantes, Voltaire, Rousseau, Goethe, Romantic, pre-modern and contemporary literature, poetry, and drama.

HUM 131 Mythology /3 cr. hrs./3 periods (3 lec.)

Myths, legends, and folktales of the Greeks and Romans. Includes basic concepts of myths, major divinities and stories about them, artistic representations, effects of ancient myths on western literary tradition, and similarities and differences between major mythic systems.

HUM 196 Independent Studies in Humanities /3 cr. hrs./3 periods (3 lec.)

Reading and research projects to be arranged with instructor.

HUM 251 Western Humanities I /3 cr. hrs./3 periods (3 lec.)

Introduction to major cultures from Sumer through the early Christian era. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music, and literature. Also includes readings from the *Epic of Gilgamesh*, Homer, Sophocles, Aristophanes, Plato, Aristotle, Vergil's *Aeneid*, the Hebrew and the Christian Scriptures, and St. Augustine.

HUM 252 Western Humanities II /3 cr. hrs./3 periods (3 lec.)

Introduction to major western cultures from the early Medieval through the Baroque. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music, and literature. Also includes readings from heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, Shakespeare, Cervantes, and Baroque philosophers.

HUM 253 Western Humanities III /3 cr. hrs./3 periods (3 lec.)

Introduction to the culture of the modern western world from the Enlightenment to the present. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music and literature. Also includes readings from Voltaire, Rousseau, Goethe, Romantic, pre-modern and contemporary literature, poetry, and drama.

HUM 260 Intercultural Perspectives /3 cr. hrs./3 periods (3 lec.)

Literary and artistic works of American Indians and Asian, Black, and Hispanic Americans, both men and women. Includes traditional and modern works and contributions to American civilization.

HUM 270 Meditation /3 cr. hrs./3 periods (3 lec.)

Principles, techniques, and practice of meditation. Includes information and experiential activities to increase understanding of physical, mental, emotional, social, and spiritual factors in meditation and stress reduction.

Information: Same as PSY 270.

HUMAN RESOURCES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

HRS 101 Introduction to Human Resources Management / 3 cr. hrs./3 periods (3 lec.)

Practical applications for success in personnel management. Includes human resources management in perspective, meeting requirements, the challenge, function/environment, recruitment, compensation, incentive plans, training and development, and labor relations.

HRS 101A Human Resources Management: Environment and Legal Issues / 1 cr. hr./1 period (1 lec.)

Environment and legal issues associated with human resources management. Includes competitive challenges and human resources management, demographic and employee concerns, the partnerships of line managers and HR Departments, equal employment opportunities, and the legal and regulatory environment.

Information: HRS 101A, 101B, and 101C together constitute HRS 101.

HRS 101B Human Resources Management: Recruitment Compensation, and Training / 1 cr. hr./1 period (1 lec.)

Recruitment, compensation, and training issues associated with human resources management. Includes relationship of job requirements and HRS functions, job analysis and design, Human Resources Planning (HRP), elements of effective HRP, recruiting within and outside the organization and protected classes, matching people and jobs, sources of information about job candidates, employment tests, the employment interview, reaching a selection decision, strategic compensation planning, components of the wage mix, job evaluation systems, the compensation structure, compensation issues, employee benefits, setting performance measures, incentive plans, and training and development.

Information: HRS 101A, 101B, and 101C together constitute HRS 101.

HRS 101C Human Resources Management: Labor Relations / 1 cr. hr./1 period (1 lec.)

Labor relations and human resources management. Includes employee rights, disciplinary policies and procedures, appealing disciplinary actions, alternative dispute-resolution procedures, organizational ethics in employee relations, governmental regulation of labor relations, the labor relations process, structures, functions, and leadership of labor unions, labor relations in the public sector, contemporary challenges to labor organizations, the bargaining process, trends in collective bargaining, the labor agreement, and administration of the labor agreement.

Information: HRS 101A, 101B, and 101C together constitute HRS 101.

HRS 102 Human Resource Law / 3 cr. hrs./3 periods (3 lec.)

Legal issues associated with human resources management. Includes hiring, personnel practices, wages and hours, taxes, employee benefits, family and medical leave, health and safety, illegal discrimination, workers with disabilities, and termination. May also include independent contractors, unions, and lawyers and legal research.

HRS 102A Human Resource Law: Employment and Compensation / 1 cr. hr./1 period (1 lec.)

Legal issues associated with employment and compensation. Includes hiring, personnel practices, wages and hours, and employee taxes.

Information: HRS 102A, 102B, and 102C together constitute HRS 102.

HRS 102B Human Resource Law: Benefits, FMLA, and Health/Safety / 1 cr. hr./1 period (1 lec.)

Legal issues associated with benefits, family and medical leave (FMLA), and health/safety. Includes laws, statutes, and ordinances concerning employee benefits, family and medical leave, and health and safety.

Information: HRS 102A, 102B, and 102C together constitute HRS 102.

HRS 102C Human Resource Law: Discrimination, ADA, and Termination / 1 cr. hr./1 period (1 lec.)

Legal issues associated with discrimination, ADA, and termination. Includes laws, statutes, and ordinances concerning illegal discrimination, workers with disabilities, and termination. May also include independent contractors, unions, and lawyers and legal research.

Information: HRS 102A, 102B, and 102C together constitute HRS 102.

HRS 103 Benefits and Compensation / 3 cr. hrs./3 periods (3 lec.)

Study of benefits and compensation management. Includes strategic compensation planning, components of the wage mix, job evaluation systems, the compensation structure, governmental regulation of compensation, significant compensation issues, employee benefits programs, employee benefits required by law, discretionary major employee benefits, employee services, reasons and requirements for incentive plans, setting performance measures, administering incentive plans, incentives for non-management employees, incentives for management employees, incentives for executive employees, and gain-sharing incentive plans.

HRS 103A Managing Compensation / 1 cr. hr./1 period (1 lec.)

Study of compensation management systems. Includes strategic compensation planning, components of the wage mix, job evaluation systems, the compensation structure, governmental regulation of compensation, and significant compensation issues.

Information: HRS 103A, 103B, and 103C together constitute HRS 103.

HRS 103B Employee Benefits / 1 cr. hr./1 period (1 lec.)

Study of issues in the area of employee benefits. Includes employee benefits programs, employee benefits required by law, discretionary major employee benefits, and employee services.

Information: HRS 103A, 103B, and 103C together constitute HRS 103.

HRS 103C Incentive Rewards / 1 cr. hr./1 period (1 lec.)

Study of incentive compensation plans used to motivate employees. Includes reasons and requirements for incentive plans, setting performance measures, administering incentive plans, incentives for nonmanagement employees, incentives for management employees, incentives for executive employees, and gainsharing incentive plans.

Information: HRS 103A, 103B, and 103C together constitute HRS 103.

HRS 104 Job Requirements, Recruitment, and Personnel Selection / 3 cr. hrs./3 periods (3 lec.)

Concepts, techniques, and regulations that apply to job requirements, recruitment, and personnel selection. Includes relationships of job requirements and HRM functions, job analysis, job design, relationships of job requirements and HRM functions, job analysis, job design, matching people and jobs, sources of information about job candidates, employment tests, the employment interview, and reaching a selection decision.

HRS 104A Job Requirements and Employee Contributions / 1 cr. hrs./1 period (1 lec.)

Concepts, techniques, and regulations that apply to job requirements and employee contributions. Includes relationships of job requirements and HRS functions, job analysis, and job design.

Information: HRS 104A, 104B, and 104C together constitute HRS 104.

HRS 104B Human Resources Planning and Recruitment / 1 cr. hr./1 period (1 lec.)

Concepts, techniques, and regulation that apply to human resources planning and recruitment. Includes human resources planning, elements of effective HRP, recruiting within the organization, recruiting outside the organization, and recruiting protected classes.

Information: HRS 104A, 104B, and 104C together constitute HRS 104.

HRS 104C Employee Selection / 1 cr. hr./1 period (1 lec.)

Concepts, techniques, and regulations that apply to selection of personnel. Includes matching people and jobs, sources of information about job candidates, employment tests, the employment interview, and reaching a selection decision.

Information: HRS 104A, 104B, and 104C together constitute HRS 104.

HRS 105 Training and Development / 3 cr. hrs./3 periods (3 lec.)

Introduction to training, career development, and appraising and improving performance. Includes the scope of training, conducting the needs assessment, designing the training program, implementing the training program, evaluating the training program, special topics in training and development, elements of career development programs, career development and management succession, career development for a diverse workforce, personal career development, performance appraisal programs, developing an effective appraisal program, performance appraisal methods, and appraisal interviews.

HRS 105A Training /1 cr. hr./1 period (1 lec.)

Training activities for effective job performance. Includes the scope of training, conducting the needs assessment, designing the training program, implementing the training program, evaluating the training program, and special topics in training and development.

Information: HRS 105A, 105B, and 105C together constitute HRS 105.

HRS 105B Career Development /1 cr. hr./1 period (1 lec.)

Career development skills to integrate individual employee needs with those of the organization. Includes elements of career development programs, career development and management succession, career development for a diverse workforce, and personal career development.

Information: HRS 105A, 105B, and 105C together constitute HRS 105.

HRS 105C Appraising and Improving Performance /1 cr. hr./1 period (1 lec.)

Introduction to performance appraisal procedures to enhance productivity and facilitate progress towards strategic goals. Includes performance appraisal programs, developing an effective appraisal program, performance appraisal methods, and appraisal interviews.

Information: HRS 105A, 105B, and 105C together constitute HRS 105.

HRS 106 Labor Relations /3 cr. hrs./3 periods (3 lec.)

Exploration of issues in the area of labor relations. Includes employee rights, disciplinary policies and procedures, appealing disciplinary actions, organizational ethics in employee relations, government regulation of labor relations, the labor relations process, structures, functions, and leadership of labor unions, labor relations in the public sector, contemporary challenges to labor organizations, the bargaining process, trends in collective bargaining, the labor agreement, and administration of the labor agreement.

HRS 106A Employee Rights and Discipline /1 cr. hr./1 period (1 lec.)

Exploration of issues in the area of employee rights and discipline. Includes employee rights, disciplinary policies and procedures, appealing disciplinary actions, and organizational ethics in employee relations.

Information: HRS 106A, 106B, and 106C together constitute HRS 106.

HRS 106B The Dynamics of Labor Relations /1 cr. hr./1 period (1 lec.)

Exploration of the dynamics of labor relations. Includes government regulation of labor relations, the labor relations process, structures, functions, and leadership of labor unions, labor relations in the public sector, and contemporary challenges to labor organizations.

Information: HRS 106A, 106B, and 106C together constitute HRS 106.

HRS 106C Collective Bargaining and Contract Administration /1 cr. hr./1 period (1 lec.)

Exploration of issues in the area of collective bargaining and contract administration. Includes the bargaining process, trends in collective bargaining, the labor agreement, and administration of the labor agreement.

Information: HRS 106A, 106B, and 106C together constitute HRS 106.

INTERNATIONAL BUSINESS STUDIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

IBS 120 Cultural Environment of International Business /3 cr. hrs./3 periods (3 lec.)

Examination of the cultural values of the foreign country in comparison to those of the United States. Includes social and religious customs, roles of men and women, attitudes toward time, humor, drugs and alcohol, and patterns of communication. Also includes political, educational and legal structures, health care values, attitudes toward shopping and conducting business, business structure, ethics, and values.

IBS 135 The International Career /1 cr. hr./1 period (1 lec.)

International complexities of the work force within American businesses. Includes global changes for an international work force, skills and cross-cultural training necessary for the international job market, requirements for support staff and middle management, profiles of international complexes offering employment, and suggestions and processes for employment in the international field.

IBS 136 Introduction to Global Economy /3 cr. hr./3 period (3 lec.)

Fundamental principles of the global economy. Includes a survey of international trade, currency exchange rate, balance of payment, price levels and currency depreciation and policy recommendations available to governments. Also includes methods of limiting imports and eliminating trade barriers.

IBS 140 Basic Techniques of International Trade /3 cr. hrs./3 periods (3 lec.)

Principles of international trade. Includes political and legal factors, export documentation, customs regulations, financial considerations, trade zones, trading companies, communications, exporting techniques, and case studies.

IBS 160 Hosting Foreign Business Personnel /1 cr. hr./1 period (1 lec.)

Training in routine hosting considerations with sensitivity to the culture of the visitor. Includes the initial greeting, orientation, assistance with legal documents, locating a support system, housing, and transportation.

IBS 170 Doing Business with Mexico /1 cr. hr./1 period (1 lec.)

United States and Mexico conducting business together. Includes current conditions, categories of business, financial arrangements, maquiladoras, the bureaucracy, culture, and communication.

IBS 290 International Business Experience /1-4 cr. hrs./1-6 periods (1-4 lec., 1-2 lab)

Supervised international business experience for students from another country. Instructor-coordinators work with students and their supervisors.

Information: Variable credit is available by special arrangements.

INTERPRETER TRAINING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ITP 105 Fingerspelling and Numbers /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): SLG 102.

Enhancement of receptive and expressive sign language skills with the manual alphabet and numbers. Includes methodology, theory, and application. Also includes states, major cities, basic mathematical functions, and common acronyms.

Information: Additional lab hours are required outside of regularly scheduled class.

ITP 200 Introduction to the Deaf Community /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SLG 202, WRT 102.

Explores the history of American Sign Language, the Deaf community, and the experiences of deaf individuals. Includes norms, values, traditions, and rules of social behaviors. Also includes cross-cultural interactions between hearing and deaf people.

ITP 203 Linguistics of American Sign Language /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SLG 202, WRT 102.

Introduction to the linguistic structure of American Sign Language (ASL). Includes a comparison of semantics, morphology, phonology, syntax, as well as other components of ASL to English in light of current research. Also includes integration of linguistic information introduced in earlier ASL courses into an applied linguistic framework.

ITP 205 Advanced Fingerspelling and Numbers /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): SLG 201.

Advanced receptive and expressive sign language skills with the manual alphabet and numbers. Includes lexicalized fingerspelling, advanced mathematical functions, and related national acronyms.

Information: Additional lab hours are required outside of regularly scheduled class.

ITP 210 Introduction to Interpreting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SLG 202, WRT 102.

Introduction to the field and role of a sign language interpreter. Includes in-depth examination of the interpreting process, interpreter's philosophical base and behavior, interpreter's Code of Ethics, and professional options. Also includes basic consecutive interpreting.

ITP 215 Classifiers, Mimetic Description and ASL Literature / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SLG 202, WRT 102.

Practical experience in sign language skills through the use of classifiers, mime and ASL literature. Includes direct address, physical representations, spatial representations, perspective, and traditional deaf folklore. Information: Additional lab hours may be required outside of class.

ITP 220 Interpreting I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITP 210, WRT 102.

Practical experience in consecutive and simultaneous interpreting in increasingly complex and diverse situations. Includes text analysis and review, development of interpreting skills such as cloze, short term memory, chunking, shadowing, and dual task training. Also includes feedback on sign selection, expressiveness, clarity, fluency and speed.

ITP 250 Interpreting II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITP 220.

Continuation of ITP 220. Development of expressive and receptive interpreting skills in educational and community situations. Includes an emphasis on specialized situations such as platform, interview, television, medical, legal, and deaf-blind interpreting.

Information: Additional lab hours may be required outside of class.

ITP 268 Etymology /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): SLG 202.

Designed to improve and increase vocabulary for sign language interpreters. Includes use of structural analysis and contextual clues. Also includes English idioms, foreign phrases, and multiple meaning words.

ITP 270 Sign to Voice /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SLG 202.

Interpreting basic sign language structures into the spoken word. Includes receptive processing tools, voicing considerations, and vocabulary enhancement.

Information: Additional lab hours outside of class are required.

ITP 280 Advanced Sign to Voice /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITP 270.

Interpreting complex sign language structures into the spoken word. Includes ASL/English comparisons, vocabulary enhancement, and improvement of technical skills.

Information: Additional lab hours are required outside of regularly scheduled class.

ITP 285 Educational Interpreting/Transliterating /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITP 220.

Interpreting in educational settings. Includes skill-building, team building, transliterating, and issues specific to educational interpreting.

Information: Additional lab hours are required outside of regularly scheduled class.

ITP 290 Interpreter Training Field Experience /2 cr. hrs./6 periods (1 lec., 5 lab)

Prerequisite(s): ITP 220 or consent of instructor.

Supervised interpreting opportunities in community settings. Includes practicum experience, observations, and classroom discussions focusing on job preparation and current issues.

ITALIAN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

ITA 101 Elementary Italian I /4 cr. hrs./4 periods (4 lec.)

Introduction to the Italian language. Designed to provide proficiency in basic communication (listening, speaking, reading and writing). Emphasis on Italian cultural traditions.

ITA 102 Elementary Italian II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITA 101.

Continuation of ITA 101. Designed to provide increased proficiency in listening, speaking, reading and writing. Continued emphasis on Italian cultural traditions.

ITA 201 Intermediate Italian I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITA 102.

Continuation of ITA 102. Includes the review of grammar, in addition to reading and writing short compositions, and oral practice in the Italian language. Also includes Italian cultural traditions and customs.

ITA 202 Intermediate Italian II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): ITA 201.

Continuation of ITA 201. Includes advanced grammar usage, in addition to reading and writing short compositions, and oral practice in the Italian language. Also includes Italian cultural traditions and customs.

JAPANESE

For courses numbered 098, 198, 298, see "Topics Courses" in index

JPN 085 Introductory Japanese /3 cr. hrs./4 periods (3 lec., 1 lab)

Elementary Japanese conversation. Includes an overview of the Japanese language, writing and pronunciation, and useful daily expressions. Also includes expressions in daily life and Japanese culture and communication.

JPN 101 Elementary Japanese I /5 cr. hrs./5 periods (5 lec.)

Introduction to the Japanese language. Includes an overview of the Japanese language, speaking and listening, grammar, personal transactions, and the cultural context within which Japanese conversation takes place. Also includes writing and reading of Hiragana, Katakana, and 75 new Kanji characters.

JPN 102 Elementary Japanese II /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): JPN 101.

Continuation of JPN 101. Includes oral and written forms, grammatical structures, and interpersonal transactions. Also includes the cultural component of communication competency.

JPN 201 Intermediate Japanese I /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): JPN 102.

Continuation of Japanese 102. Includes speaking and listening, grammar, personal transactions, and the cultural context to which Japanese conversations take place. Also includes reading and writing Hiragana, Katakana, and 250 new Kanji characters.

JPN 202 Intermediate Japanese II /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): JPN 201.

Continuation of Japanese 201. Includes speaking and listening, grammar, personal transactions, and using more complex sentence structure in a cultural context within which Japanese conversations take place. Also includes Hiragana, Katakana, and 3645 Kanji characters.

JPN 245 Communicating with the Japanese /3 cr. hrs./3 periods (3 lec.)

Theories on the impact of culture on communication with the Japanese applied to Japanese communication styles and the Japanese language. Includes Japanese communication dimensions, and barriers to successful intercultural communication between the Japanese and others. Also includes an overview of the Japanese language, cultural factors affecting communication between the Japanese and others, and improving communication with the Japanese.

Information: This course is taught in English.

LANDSCAPE TECHNICIAN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LTP 100 Landscape Today and Tomorrow /3 cr. hrs./3 periods (3 lec.)

Overview of the landscape contracting industry: its history, current status and projection for the future. Also includes special attention to career opportunities within various specialties.

LTP 120 Plant Pathology, Pests and Controls /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): BIO 184.

In-depth study of the pests, insects and diseases which damage

shrubs, flowers, ornamental trees, turf grass and interior foliage. Emphasis on identification, control and treatment of the above problems as well as on the theory of utilizing chemicals, pesticides, herbicides and biological control.

LTP 130 Soils Management /4 cr. hrs./6 periods (3 lec., 3 lab)

Analysis of soil types and fertility requirements of plants. Includes derivation, classification and evaluation of soils and the chemical, biological and physical requirements for plant growth.

LTP 160 Plant Usage and Identification I /3 cr. hrs./5 periods (2 lec., 3 lab)

Principles and techniques of plant usage and identification. Includes how to use plants, plant identification, and a short history of plant taxonomy. Also includes the one hundred and fifty most common landscape plants and interior plants used in the southwest.

LTP 196 Independent Studies in Landscape Design /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Independent studies and projects in landscape design and technology. Content to be determined by conference between student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.

LTP 199 Co-op Related Class in LTP /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

LTP 199WK Co-op Work in LTP /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

LTP 200 Landscape Management Systems /3 cr. hrs./3 periods (3 lec.)

Principles of planning and implementing landscape projects. Includes management information systems, foreman duties, customer relations and contract laws. Also includes at least one site visit, and prepares the student to manage all phases of a landscape project.

LTP 205 Irrigation Design I /3 cr. hrs./3 periods (3 lec.)

Design of turf, ornamental and drip (emitter) irrigation systems. Includes establishment of design criteria, selection and application of system components, preparation of irrigation plans and specifications and basic estimating procedures.

Information: Intended for students and professionals interested in irrigation systems.

LTP 206 Irrigation Design II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LTP 205.

Covers the design of large-scale irrigation systems, such as apartment complexes, parks and roadway projects, using both conventional sprinkler and drip systems. Includes establishing design criteria, selection and application of system components, preparation of irrigation plans and specifications.

LTP 210 Irrigation Installation /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to irrigation systems for technicians in the landscape and irrigation industries. Includes turf, ornamental, and drip (emitter) systems. Also includes materials, equipment, installation techniques, blueprint reading, and basic maintenance and repair procedures.

LTP 215 Interior Plantscape Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Design and maintenance of the total interior horticultural environment. Includes principles of design, design procedures, and horticultural and business practices. Also includes working with interior plantscapers, interior designers, architects and clients, with an emphasis on the creative aspects of the process.

LTP 230 Landscape Maintenance /3 cr. hrs./3 periods (3 lec.)

Examination of management and technical skills required to operate and maintain southwestern landscapes. Includes water management, pests and disease controls.

LTP 260 Basic Landscape Design /3 cr. hrs./3 periods (3 lec.)

Designing residential and light commercial landscape sites. Includes drafting tools and techniques, site planning, preparation of working drawings and specifications, and construction cost estimating.

LTP 270 Plant Usage and Identification II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): LTP 160 and 260 or concurrent enrollment in LTP 260. Continuation of LTP 160. Includes advanced studies in the principles and techniques of plant usage and identification. Also includes familiarization with where and how to use plants, plant identification, plant taxonomy and emphasis on two hundred additional plants used in landscapes and interior applications in the southwest.

LTP 290 Landscape Field Experience /1-4 cr. hrs./5-20 periods (5-20 lab)

Prerequisite(s): Consent of instructor.

Supervised landscape experience with a private company, government agency, or non-profit organization. Includes work-site experiences such as the bid process, customer relations, employer/employee relations, wholesale purchasing, and installation and maintenance techniques.

Information: Students should be able to do physical labor under difficult conditions.

Information: May be taken two times for a maximum of eight credit hours.

LATIN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LAT 101 Elementary Latin I /4 cr. hrs./4 periods (4 lec.)

Introduction to the Latin language. Includes proficiency in Latin-to-English reading skills and vocabulary building. Also includes background in Roman cultural traditions.

LAT 102 Elementary Latin II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): LAT 101.

Continuation of LAT 101. Includes proficiency in Latin-to-English reading skills and vocabulary building. Also includes a continued emphasis on Roman cultural traditions.

LAW ENFORCEMENT RELATED INSTRUCTION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LEN 100 Careers in Law Enforcement /3 cr. hr./3 period (3 lec.)

Survey of careers and career paths in law enforcement. Includes exploration of the broad scope of job functions and opportunities in various law enforcement agencies. Also includes awareness of the selection criteria, life style, and necessary personal choices for a career in this field.

LEN 102 Communicating in Spanish in the Workplace /1-6 cr. hrs./1-6 periods (1-6 lec.)

Prerequisite(s): Consent of instructor.

Basic Spanish for easier communication with the Spanish speaking public. Includes conversational Spanish, work-related Spanish words, phrases, and idioms, and a survey of the cultures where the Spanish language is spoken.

LEN 105 Ethics and Leadership in Law Enforcement /3 cr. hrs./3 periods (3 lec.)

Principles of ethical behavior for law enforcement professionals. Includes establishing a leadership role within the community. Also includes the Law Enforcement Code of Ethics, and the Canons of Police Ethics as a basis to establish trust and protect a positive image of law enforcement.

LEN 110 Multicultural Issues in Law Enforcement /3 cr. hrs./3 periods (3 lec.)

Exploration of the value of diversity in a law enforcement environment. Includes the standards and norms of different groups and individuals and how they impact the attitudes and behaviors. Also includes the need to adapt interactions without compromising established societal norms.

LEN 115 Interpersonal Relations in Law Enforcement /3 cr. hrs./3 periods (3 lec.)

Exploration of the interactions of law enforcement professionals with peers and the public. Includes the unique roles and expectations which occur when entering a law enforcement career. Also includes specific methods and techniques used in a situational interactions.

LEN 120 Introduction to Law Enforcement /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Overview of the components of the criminal justice system, their functions, responsibilities and interrelationships. Includes a historical perspective, an outline of regulatory agency functions, responsibilities, jurisdictional limitations, techniques of management and supervision, problem solving strategies, and the relationship between employee and supervisor. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board.

LEN 125 Law and Legal Matters I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LEN 120.

Examination of the basic concepts, phrases and definitions needed to study criminal law. Includes an analysis of constitutional requirements, statutes and case law on search and seizure, the conditions under which an officer or citizen may make an arrest, an officer's duties and responsibilities prior to and during the arrest, and the rules of evidence. Also includes summonses and subpoenas, civil processes, and the functions of the various courts, agencies, and laws relating to juveniles.

LEN 126 Law and Legal Matters II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LEN 125.

Continuation of LEN 125. Includes the proper techniques for giving effective police testimony, outline of the United States Constitution, Arizona Revised Statutes (ARS) Title 13, and a review of common civil and criminal liability facing law enforcement agencies and officers.

LEN 130 Patrol Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Study of the types, purposes and techniques of police patrol. Includes citizen protection, crime prevention, emergency and non-emergency situations, safely conducting a high risk vehicle stop, domestic disputes and managing crisis situations, mental illness and criminal behavior,

crimes in progress, indicators of alcohol intoxication, and symptoms of medical conditions. Also includes use of police radio, hazardous materials, disasters, hate motivated acts, fires, and civil disputes.

LEN 135 Traffic Enforcement and Investigation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Introduction to the attitude and techniques essential in dealing effectively with traffic violators. Includes the effects of alcohol and drugs on drivers and techniques for obtaining evidence for successful prosecution, the legal basis of the Uniform Traffic Citation, specific techniques for stopping and approaching suspects in vehicles, traffic collision investigation, and proper methods for taking and recording evidence at the collision scene. Also includes techniques for directing and controlling vehicular and pedestrian movements by means of hand signals, and applicable sections of the ARS relating to law enforcement authority.

LEN 140 Criminal Investigation /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Principles common to all types of investigation. Includes conducting a proper search, sketching the crime scene, recording and preserving notes, packaging and marking evidence for identification, synthesizing information into a final report, the functions of a crime laboratory, proper interviewing and questioning techniques, and methods of fingerprinting. Also includes investigating the more common sex crimes, procedures for investigating cases involving death, organized criminal activities, techniques used in the investigation of assault, burglary, robbery, auto theft, child abuse, missing persons, and narcotics and dangerous drug violations.

LEN 145 Community and Police Relations /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Benefits and methods of developing positive police-community relations and recognizing cultural differences within the community. Includes the emotional and behavioral indicators of crime victims, personal communication, crime prevention functions of the patrol officer and various crime prevention programs.

LEN 150 Records and Reports /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Introduction to the characteristics of good reports and field notes and obtaining and using investigative information from police records systems. Includes form, style, and procedures for writing various reports, techniques for developing an accurate narrative, and proper and improper conclusions. Also includes modern technology in police data processing and information available through the use of local state and national records.

LEN 154 Federal Law Enforcement Operations for Border Patrol /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Consent of instructor.

Training in investigative and operational processes and procedures in Federal Law Enforcement Operations for Border Patrol Officers. Includes an overview of border patrol investigations and operations, specialized techniques, and field operations.

LEN 155 Immigration and Nationality Law for Border Patrol /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Survey of legal issues to immigration and nationality law for Border Patrol officers. Includes nationality law, immigration law, liability issues, and civil rights issues. Also includes basic issues related to constitutional law, statutory authority, and criminal law.

LEN 159 Firearms and Unusual Weapons /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Overview of firearms and unusual weapons for border patrol officers. Includes mechanical and safety features of service firearms and unusual weapons. Also includes portrayals of how various street weapons are used and carried; officer survival techniques involving edged weapons; and officer patrol preparation for surviving an armed encounter.

LEN 160 Life Management Skills for Law Enforcement /3 cr. hrs./ 3 periods (3 lec.)

Overview of law enforcement as a hazardous and stressful occupation. Includes methods of dealing with everyday problems of life at home and at work. Also includes the administration of self-assessment and techniques to help attainment of a desirable lifestyle.

LEN 163 Research and Planning /3 cr. hrs./3 periods (3 lec.)

Introduction to research methods and planning concepts. Includes problem solving steps, research design, information gathering techniques, and oral and written reports.

LEN 180 Introduction to Private Security /3 cr. hrs./3 periods (3 lec.)

Introduction to the private security profession. Includes law enforcement services, responsibilities and workplace skills, legal matters, patrol procedures, search and seizure, crime scene management, and crime prevention techniques.

LEN 181 Loss Prevention and Plain Clothes Security /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Introduction to the problems of internal and external theft. Includes shoplifting, employee theft, workplace safety, laws or arrest, disease exposure, and incident documentation. Also includes personal safety measures, electronic surveillance, and the court process.

LEN 190 Field Supervision /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): Employment as a probationary law officer.

Supervised application of the knowledge, skills, and abilities under field conditions as a part of probationary status. Includes requirements that the probationary officer demonstrate proficiency in patrol operations that meet agency standards.

LEN 205 Police Proficiency Skills I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Law Enforcement Academy or consent of instructor.

Methods of first aid and stress management. Includes providing emergency medical care to victims, legal and civil issues, and proper procedures for handling various traumas. Also includes the manifestations and techniques of managing personal job-related stress.

LEN 206 Police Proficiency Skills II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LEN 205.

Continuation of LEN 205. Includes the mechanical, safety features, servicing, and firing of the service weapon.

Information: The student must achieve a minimum qualification score to successfully complete this course.

LEN 207 Police Proficiency Skills III /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LEN 206.

Continuation of LEN 206. Includes the development and demonstration of each participant's mental and physical condition through structured exercise and classroom education. Also includes various techniques for maintaining physical control of disruptive, combative, or potentially dangerous subjects, including restraint holds.

Information: Students must score in the fair range for all measures, except body fat, to complete this course.

LEN 208 Police Proficiency Skills IV /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LEN 207.

Continuation of LEN 207. Includes basic defensive driving techniques, hazardous road conditions, dynamics of a moving vehicle, the driving task, pursuit and high speed response procedures, high speed vehicle control, and methods to successfully stop fleeing vehicles. Also includes the liabilities and responsibilities associated with the use of force, factors in use of force situations, and proper police baton techniques.

LEN 250 Basic Follow-up Investigations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Survey of basic follow-up investigative resources and techniques utilized by detectives in law enforcement. Includes evidence collection, role of the County Attorney, laws regarding search and seizure, laws concerning statements and confessions, obtaining a search warrant, media interviews, and safety equipment. Also includes crime scene management and interrogation techniques.

LEN 251 Internal Investigations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Basic investigative techniques necessary to successfully identify, investigate, and document employee conduct and/or behavior, both administratively and criminally. Includes formulating and investigative plan, managing the investigation, identifying and collecting evidence, and documenting the investigation.

LEN 260 Financial Analysis in Criminal Justice /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Consent of instructor.

Techniques of financial analysis for criminal justice applications. Includes sources of financial information, analysis of financial documents, and preparation of schedules to provide evidence of financial crimes.

LEN 270 Principles of Law Enforcement Supervision /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Basic skills and concepts of law enforcement supervision. Includes leadership, reports, performance communications, staff skills, police liability, community problem solving, and customer service.

LEN 271 Skills for Community-Oriented Policing /4 cr. hrs./ 4 periods (4 lec.)

Provides the basis for effective interactions between law enforcement officers and the community members. Includes an introduction to the community policing philosophy, conflict resolution, personal accountability, preparing for change, and interpersonal skills. Also includes fundamentals of crime prevention.

LEN 274 Supervision of Community-Oriented Policing /3 cr. hrs./ 3 periods (3 lec.)

Examination of the skills needed to supervise a basic community-oriented policing program. Includes various perspectives of community-oriented policing, team building, empowerment, time management, public speaking, and situational leadership. Also includes the appropriate organizational structure, community assessment, and strategic planning.

LEN 280 General Instructor /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Arizona Police Officer Standards and Training General Instructor certification. Includes demonstration and written requirements.

LEN 281 Field Training Officer /2 cr. hrs./2 periods (2 lec.)

Roles and duties of the training officer in law enforcement. Includes an understanding of the law enforcement training program, its history, structure, and function.

LEN 282 Incident Command Instructor /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Incident Command System (ICS) training for instructors. Includes leadership, management responsibilities, incident objectives and demobilization and post incident analysis. Also includes the function of operations, logistics, planning, and finance.

LEN 290 Law Enforcement Field Experience /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): LEN 274.

Supervised placement in community-oriented policing. Includes development, implementation, and evaluation of a project in the community.

LEGAL ASSISTANT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LAS 101 Introduction to Legal Assistant Careers /3 cr. hrs./ 3 periods (3 lec.)

Role, responsibilities and ethical standards of legal assistant employment and regulation. Includes an overview of: ethical rules, law office administration and systems, communication, interviewing, investigation, evidence, legal research, legal analysis, state and federal judicial systems, litigation, and specialty areas of law.

LAS 102 Civil Litigation Procedures I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REA 112 or higher, or a reading assessment score of at least 12th grade in both vocabulary and comprehension as measured by the college assessment process.

Principles and procedures for commencement of civil litigation. Includes rules of civil procedure, subject matter jurisdiction, personal jurisdiction, venue, statutes of limitations, parties, pleading format, preparation of complaint and answer, counterclaims, crossclaims, and third party practice. Also includes the causes of action, remedies, and potential defenses in contract and tort law.

LAS 103 Legal Research /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 and WRT 101 or employment in the legal or a related field.

Principles and techniques of legal research. Includes categories of research materials, citing legal material, finding and using secondary authority, finding tools, Shepard's Citators, case law, constitutions, statutes and administrative law, analyzing research problems, and preparing research reports.

LAS 104 Legal Assistant Ethics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 103 or concurrent enrollment.

Rules and principles of professional responsibility in the legal field. Includes sources of the rules of legal ethics, ethical guidelines and attorney supervision of legal assistants, unauthorized practice of law, confidentiality, conflicts of interest, advertising and solicitation, attorneys' fees and fiduciary duties, competence, malpractice, ethical conduct issues in litigation, and professional integrity issues.

LAS 106 Civil and Criminal Evidence /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 103 or concurrent enrollment.

Legal assistant's role in the analysis and application of the rules of evidence. Includes relevancy and its limits, privileges, use, impeachment, and exclusion of witnesses, opinion and expert testimony, hearsay, authentication, and contents of writings, recordings, and photographs.

LAS 201 Consumer Law Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101.

Legal procedures between consumers and business entities/governmental agencies. Includes consumer claims arising from the sale of merchandise, warranties, consumer rights, defective construction claims, consumer credit reports, collection practices, towing and repossession of motor vehicles, consumer rights under form contracts/contracts of adhesion, and fair housing law.

LAS 202 Civil Litigation Procedures II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 102.

Continuation of LAS 102. Includes discovery procedures in Federal Court, disclosure procedures in Arizona Superior Court, file organization and document control, pre-trial motions and proceedings, gathering and organizing evidence, preparation of witnesses, alternative resolutions without trial, trial procedures, post-trial and appellate procedures.

LAS 203 Tort Law Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101, 102.

Concepts and procedures used in tort law cases. Includes tort litigation procedures and tort case law in the areas of negligence, professional negligence, strict liability, product liability, liability issues, and insurance coverage. Also includes interviewing and investigation techniques for the legal assistant in tort cases.

LAS 204 Wills, Trusts, and Estates /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 or employment in a legal related field.

Preparation to assist a lawyer in estate planning. Includes an introduction to wills, trusts and estates, intestate succession, guardianships, will related documents, will drafting and executing, estate administration, probate related legal action, trusts and administration, and fiduciary duties.

LAS 206 Criminal Law and Procedures I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 or employment in a legal related field.

Criminal law and trial processes from arrest through pre-trial procedures. Includes rules of criminal procedure, initial criminal law process, pretrial investigation and discovery, criminal and constitutional law cases, criminal statutes, and pretrial motion practice.

LAS 207 Criminal Law and Procedures II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 206.

Continuation of LAS 206. Includes rules of criminal procedure, trial rights of defendants, trial procedure, case preparation for trial, direct and cross examination, evidentiary objections, and motions for the close of evidence.

LAS 208 Domestic Relations and Family Law /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 or employment in the legal or a related field.

Law and procedures related to family relationships and domestic matters. Includes basic principles of family law, marital contracts, legal issues in family law affecting children, initiating a divorce proceeding, contested proceedings, and assisting at a dissolution trial.

LAS 209 Bankruptcy Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 or employment in the legal or a related field.

Application of legal procedures in bankruptcy. Includes jurisdiction, cast of characters and their roles in bankruptcy, client interview, evaluation of options, advising client, and drafting Chapter 7 liquidation, Chapter 13 adjustment of debts of individuals, Chapter 12 adjustment of debts of family farmer, Chapter 11 reorganization, and the legal assistants' roles.

LAS 210 Administrative Law /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101, 102.

Laws and procedures relating to the jurisdiction and regulatory powers of governmental agencies and departments. Includes administrative law procedures, social security law, employment law, immigration law, and environmental law.

LAS 211 Legal Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 103, 202, WRT 101.

Principles and techniques of legal writing. Includes writing style, editing and proofreading, legal analysis, legal brief types, and applications of legal writing for memorandum, litigation documents, correspondence, and transaction documents.

LAS 212 Law Office Computerization /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 (or concurrent enrollment) and CSA 101.

Applications of computer software in the legal field. Includes computer hardware and software, word processing applications, database management systems, spreadsheet software, law office management, automated litigation support, telecommunications, and specialized legal software for the preparation of legal documents and document organization.

LAS 213 Computer Assisted Legal Research /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 103 or equivalent research experience.

Computer assisted legal research systems. Includes search techniques, display elements, database menus, special services regarding citation methods, advanced search techniques, and cost effective usage.

LAS 215 Corporate Law Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BUS 220 (or concurrent enrollment) or LAS 101 or employment in the legal or related field.

Role and responsibilities of a legal assistant regarding the procedures and document drafting necessary for incorporation and the requirements for maintaining corporate legal status. Includes incorporation and maintenance, corporate power theories and defenses, stocks, voluntary dissolution and takeovers.

LAS 217 Real Estate Legal Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LAS 101 or employment in the legal field or a Real Estate License.

Legal procedures and requirements in real estate transactions and litigation. Includes real estate principles and legal concepts, recording and constructive notice, and real property taxes. Also includes an analysis of real estate contracts/purchase agreements, escrows and closings, deeds, co-ownership, legal descriptions, leases, encumbrances, liens, and foreclosures.

LAS 290 Legal Assistant Internship /4 cr. hrs./16 periods (1 lec., 15 lab)

Prerequisite(s): WRT 101, BUS 220, LAS 104, 202, and two LAS specialty electives. A minimum of 45 credit hours if completing the AAS Degree, or 27 credit hours if completing the certificate are required. Application and acceptance required.

Volunteer legal assistant field experience at an approved work site. Includes communications, positive work attitudes, ethics, progress review, law office systems, professional development, employment strategies, and final evaluation within a classroom seminar setting.

Information: Enrollment and placement contingent upon earned grade point average in LAS courses.

Information: Designed for students in their final semester of course work in the Legal Assistant Program.

LIBRARY SKILLS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LIB 070 Introduction to Libraries and Information Resources / 1 cr. hr./1 period (1 lec.)

Basic library skills. Includes types and purposes of libraries, areas of the library, call number systems, questioning skills, types and parts of print and online books, standard print resources, library catalog, periodicals and periodical indexes, internet use for research, evaluation of information and plagiarism.

LIB 161 Research Techniques for the Internet /2 cr. hrs./2 periods (2 lec.)

Techniques for exploring the Internet to identify information resources as part of the research process. Includes overview of electronic information resources, library catalogs, search strategies, abstract/index and full-text databases, electronic journals, newspapers, and books, other World Wide Web (WWW) resources, and access and use issues.

LITERATURE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

LIT 085 Reading For Pleasure /3 cr. hrs./3 periods (3 lec.)

Exploration of a wide variety of popular writing in order to develop the attitudes, habits and skills which make reading enjoyable.

LIT 120 Literary Visions /3 cr. hrs./3 periods (3 lec.)

Basics of reading and writing about literature. Includes an introduction to the major genres of literature: fiction, poetry, and drama. Also includes the elements of these genres: plot and structure, character, setting, style, symbolism and myth, and theme.

Information: This course is not transferable.

LIT 174 Introduction to Native American Writings /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 101, 107, or 154.

Study of Native American texts, including autobiographical writings, short stories, and nonfiction. Includes introduction to historical and cultural contexts, themes and issues addressed by Native American authors, Native American narratives, and reports and presentations.

LIT 231 Introduction to Shakespeare /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Investigation of a number of Shakespeare's major works. Includes sonnets, comedies, histories, and tragedies. Also includes, history, social and cultural conditions, literary background, staging, and writing.

LIT 237 Women in Literature /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Survey of literature by and/or about women. Includes issues concerning women in literature and the changing images of women. Also includes a literary analysis of selected writings.

LIT 260 Major British Writers /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Representative selection of works by major authors. Includes a range of periods and types of literature.

LIT 261 Modern Literature /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Critical analysis of literature of the modern period and from a variety of nations and cultures. Includes analyzing literary texts for meaning and form, understanding the contexts of literature, and writing about literature. Also includes selections from various literary genres, which may include fiction, drama, and poetry, as well as other literary forms.

LIT 265 Major American Authors /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102 or 108.

Survey of selected works by major American authors from the colonial period to the present. Includes extensive writing and reading and emphasizes relating works to their social and historical contexts. Also includes analysis of literary texts of various genres, such as poetry, drama and fiction, for meaning and form.

LIT 266 World Literature: Dramatic /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Major dramatic works of western culture. Includes literary forms, historical context, psychological and moral implications of the literature, and cultural significance of plays.

LIT 267 World Literature: Narrative /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Great narrative works of literary tradition with emphasis on form, theme and cultural context.

LIT 274 Native American Literature /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 101 or 154.

A survey of Native American oral stories, autobiographical writings, fiction, poetry, and nonfiction. Includes historical and cultural contexts, major themes and issues in contemporary Native American literature, literary forms and techniques, and critical essays.

LIT 288 Politics and the Novel /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Discussion and analysis of significant political questions as seen through the eyes of various novelists.

LIT 289 Literature and Film /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102.

Investigation of the relationship between written literature and the moving image of film and video. Includes birth of film, comparative approaches, performed drama, and critical analysis.

MACHINE TOOL TECHNOLOGY*For courses numbered 098, 198, 298, see "Topics Courses" in index.***MAC 100 Introduction to Machine Tool /3 cr. hrs./3 periods (3 lec.)**

Principles and procedures for basic machine tool operations. Includes careers in manufacturing, machine tool history, safety, materials, manufacturing process planning, measurement, layout tools and procedures, principles of metal cutting, bench and hand tools, power saws, drill presses, and abrasive machine.

MAC 103 Applied Shop Mathematics I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082 or satisfactory score on mathematics assessment test.

Practical mathematics as applied to machine tool and related technologies. Includes fractions, accuracy, exponents, pocket calculators, measurement, measuring instruments, algebra, ratios and proportions, and formulas.

MAC 104 Applied Shop Mathematics II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAC 103 and MAT 086 or satisfactory score on the mathematics assessment test.

Continuation of MAC 103. Includes review of basic math operations, angles, circles, trigonometry, trigonometric applications, oblique triangles, three-dimensional figures, Cartesian coordinate system, and point-to-point programming.

MAC 110 Machine Shop I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): MAC 100 or a score of 80% or better on a machine tool assessment test.

Introduction to basic machine shop practices. Includes safety, lathes, and milling machines.

MAC 120 Machine Shop II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): MAC 110 or equivalent with department advisor approval.

Continuation of MAC 110. Includes a more in depth application of safety, lathes, milling machines, and grinding machines.

MAC 130 Fundamentals of Metallurgy /3 cr. hrs./3 periods (3 lec.)

Basic principles of metallurgy. Includes structural materials, industrial concepts, properties of metals and alloys, hardness testing, science of metals, periodic table, structure of metals, nature of metals, and metallography.

MAC 199 Co-op Related Class in MAC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

MAC 199WK Co-op Work in MAC /1-8 cr. hrs./5-40 periods (5-40 lab)

See Cooperative Education section for description.

MAC 205 Mechanical Inspection /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): MAC 104, 120.

Principles and applications of dimensional measurement. Includes line graduated measuring instruments, fixed gages, gauge blocks, comparative measurements, optical comparators and projectors, angle measurement, straightness, flatness, and perpendicularity measurement, and coordinate measuring machines.

MAC 210 Jig and Fixture Design /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): CAD 101, MAC 104.

Design and application of tools, jigs, and fixtures for basic metal working. Includes basic types of jigs and fixtures, design economics, designing and constructing jigs and fixtures, and specialized work-holding tooling.

MAC 250 Computer Numerical Control (CNC) Mill Programming I /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: CAD 101, GTM 105, MAC 120.

Operations and procedures for automated machining systems. In-

cludes Numerical Control (NC) and Computer Numerical Control (CNC) machining systems, positioning and coordinate systems used in NC/CNC programming, part programming, diagnosis and correction of programming errors, and program procedures.

MAC 255 Computer Numerical Control (CNC) Mill Programming II /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: MAC 250.

Continuation of MAC 250. Includes review of Computer Numerical Control (CNC), mill programming, diagnosis and correction of programming errors, advanced programming techniques used in production and prototype machining, introduction to lathe programming, and introduction to sub-programming.

MAC 257 Computer Aided Machining (CAM) I /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: CAD 152, MAC 255.

Programming automated machine tools using Computer Aided Manufacturing (CAM) software. Includes review of Computer Numerical Control (CNC) and Computer Aided Drafting (CAD), introduction to a CAM environment, creating geometry, operating manager, and code generation.

MAC 258 Computer Aided Machining (CAM) II /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: MAC 257.

Continuation of MAC 257. Includes profile surfaces, three-dimensional surfaces, and editing surfaces.

MAC 260 Computer Numerical Control (CNC) III: Lathe /4 cr. hrs./6 periods (3 lec., 3 lab)

Recommended: MAC 255.

Operations and procedures for Computer Numerical Control (CNC) Lathe. Includes review of CNC concepts and programming, diagnosis and correction of programming errors, advanced programming for CNC Lathes, and introduction to Computer Aided Manufacturing (CAM) programs.

MAC 272 Integrated Design and Manufacturing with Pro-E /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Consent of instructor.

Recommended: MAC 250.

Integration of design and manufacturing with a Computer Numerical Control (CNC) machining system. Includes introduction to Pro-Engineering (Pro-E) software, engineering drawings with Pro-E, planning of operations with Pro-E, machining operations, engineering planning sheet, CNC machining system and cutting tools, Pro-E to CNC transition, cutting-tool set-up, part fabrication, and inspection.

MAC 275 Applied Metallurgy /4 cr. hrs./8 periods (2 lec., 6 lab)

Application of metallurgical concepts, procedures, and testing. Includes materials, alloy classification systems, industrial and manufacturing concepts, properties and testing, and industrial and manufacturing processes and applications.

MAC 280 Machine Shop III /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): MAC 104, 120.

Continuation of MAC 120. Includes advanced applications of safety, dimensional measurement, lathe operation, milling machine operation, and grinding machine operation.

MAC 285 Physical Metallurgy /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MAC 130.

Behavior of materials, metals, and alloys during shaping and processing operations. Includes strengthening processes, alloying, phase diagrams, nonferrous alloys, basic steel, heat treating equipment, alloy steels, cast irons, stainless steels, process effects, and non-destructive testing.

MAC 296 Machine Tool Independent Projects /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.

Information: May be taken sixteen times for a maximum of sixteen credit hours.

MAC 297 Machine Tool Seminar: /25-4 cr. hrs./25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Machine tool job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

MANAGEMENT

(Formerly MAN)

*For courses numbered 098, 198, 298, see "Topics Courses" in index.***MGT 110 Human Relations in Business and Industry /3 cr. hrs./3 periods (3 lec.)**

Basic theories and concepts for understanding human relations needs of business employees and managers. Includes organizational behavior, diversity, motivation and performance management, job design, group work, organizational design, organizational power, and conflict and negotiation.

MGT 122 Supervision /3 cr. hrs./3 periods (3 lec.)

Principles of personnel supervision. Includes group dynamics, organizational work structures, source and nature of worker values, team communication skills, decision making, creativity within worker teams, controversy within worker teams, conflict of interest within worker teams, dealing with diversity, and team development and training for continuous improvement.

MGT 124 Small Business Management /3 cr. hrs./3 periods (3 lec.)

Analysis of the practical problems of organizing, managing and starting a small business. Includes introduction and overview, selecting employees, forms of ownership, managing the business, business plan, pricing, managing cash flow, creating sales forecast, income statements, breakeven analysis, sources of funds, international operations, contracts, risk, and international opportunities.

MGT 130 Quality Systems Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092.

Contemporary quality-system philosophies. Includes introductory topics on quality, economics of quality, introductory quantitative tools for quality, concepts of statistical process control, sampling applications in quality, reliability, computer applications in quality, and internal services.

MGT 270 Computer Applications for Managers /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CSA 101 or proficiency with Microsoft Office software.

Development of management skills in computer applications for business. Includes state of computing technology, electronic commerce and the economy, international issues, work and the virtual workplace, interaction with the information systems department, project management, presentations, and spreadsheets for managerial decision-making.

MGT 276 Human Resources /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BUS 100.

Practical aspects of personnel management and support. Includes roles and concepts, acquiring human resources, administering the personnel program, developing employee potential, maintaining the workforce, and future outlook for personnel management.

MGT 278 Labor/Management Relations /3 cr. hrs./3 periods (3 lec.)

Examination of basic principles and current status of labor/management relations in the United States. Includes modern society and industrial relations, the American Labor Movement, the collective bargaining process, and government regulation. Also includes union-management patterns, and an overall assessment of the consequences of collective bargaining and the future of labor-management relations.

MGT 280 Business Organization and Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): BUS 100 and any other MGT course.

Overview of the functions performed and issues faced by managers in business. Includes theory, general research findings, and knowledge from a managerial perspective. Also includes diverse philosophies for understanding management as a total system within the constraints imposed by society, government, technology, and ideology.

MGT 299 Co-op Related Class in MGT /1 cr. hr./1 period (1 lec.)

Co-requisite: Concurrent enrollment in 299 Co-op Work.

See Cooperative Education section for description.

MGT 299WK Co-op Work in MGT /3-6 cr. hrs./15-30 periods (15-30 lab)

Co-requisite: Concurrent enrollment in 299 Co-op Work.

See Cooperative Education section for description.

MARKETING*For courses numbered 098, 198, 298, see "Topics Courses" in index.***MKT 111 Marketing /3 cr. hrs./3 periods (3 lec.)**

Introduction to marketing principles and strategies that are survival tools for not-for-profit and for-profit organizations in today's global and competitive market. Includes the marketing variables product, price, channels of distribution, physical distribution, and promotion. Also includes strategic planning, consumer characteristics and behavior, market environments and market research.

MKT 113 Salesmanship /3 cr. hrs./3 periods (3 lec.)

Basic principles and techniques of relationship selling and their practical application to the selling process. Includes selling as a profession, legal and ethical issues, customer and product knowledge, and steps in the selling process.

MKT 125 Advertising /3 cr. hrs./3 periods (3 lec.)

Advertising principles and concepts as applied in a business setting. Includes developing advertising strategies within the marketing framework, advertising research, advertising media planning, and creating and producing advertisements.

MKT 139 Retailing /3 cr. hrs./3 periods (3 lec.)

Business activities of selling goods and services to final customers. Includes panoramic view of the many facets of retail industry such as fashion, consumer behavior, retail management, and career opportunities. Also includes focus on practical application.

MKT 150 Physical Distribution Management /3 cr. hrs./3 periods (3 lec.)

In depth study of the logistical function. Includes customer service standards, inventory control concepts, transportation methods, order processing systems, warehouse location analysis, industrial packaging, and materials handling.

MKT 160 Marketing for Nonprofit Organizations /3 cr. hrs./3 periods (3 lec.)

Application of marketing principles and practices to nonprofit organizations. Includes marketing terminology and strategic planning concepts. Also includes student design of an integrated marketing plan for a nonprofit organization.

MKT 299 Co-op Related Class in MKT /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

MKT 299WK Co-op Work in MKT /3-6 cr. hrs./15-30 periods (15-30 lab)

See Cooperative Education section for description.

MATHEMATICS*For courses numbered 098, 198, 298, see "Topics Courses" in index.***Information:** All students enrolling in their first mathematics course with the College and all new, full-time students are required to take the mathematics assessment tests. A satisfactory assessment test score may be requested in lieu of, or in addition to, the listed prerequisites for any course.**Information:** Students who have earned credit in any college mathematics course equivalent to or above MAT 082 will not receive credit for MAT 082 or any of its components without permission of the Mathematics Department Chair.

MAT 050 Approaching Mathematics Positively /1 cr. hr./1 period (1 lec.)

Designed for students who avoid taking mathematics courses or who have anxiety in mathematics courses. Includes defining mathematics anxiety, underlying causes, and practicing anxiety reduction techniques. Also includes mathematics study and test-taking.

Information: Same as HDE 050.

MAT 065 Health Careers Mathematics /3 cr. hrs./3 periods (3 lec.)

Mathematical skills for nursing and chemistry. Includes fractions, decimals, scientific notation, dosages, concentrations, logarithms and conversions in apothecary, metric and household measures.

MAT 082 Basic Mathematics /3 cr. hrs./3 periods (3 lec.)

Fundamentals and applications of arithmetic. Includes operations on whole numbers, fractions, decimal numbers, ratio and proportion, percent, and measurement.

MAT 082A Basic Mathematics: Module A /1 cr. hr./1 period (1 lec.)

Module A constitutes approximately the first one-third of MAT 082.

Information: MAT 082A, 082B, and 082C together constitute MAT 082.

MAT 082B Basic Mathematics: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 082A or concurrent enrollment.

Module B constitutes approximately the second one-third of MAT 082.

Information: MAT 082A, 082B, and 082C together constitute MAT 082.

MAT 082C Basic Mathematics: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 082B or concurrent enrollment.

Module C constitutes approximately the third one-third of MAT 082.

Information: MAT 082A, 082B, and 082C together constitute MAT 082.

MAT 086 Prealgebra /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 082 or satisfactory score on the mathematics assessment test.

Transition from arithmetic to algebra. Includes signed numbers, order of operations, polynomials, fractions, linear equations, area and perimeter, decimals, percents, and ratio and proportion.

MAT 086A Prealgebra: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 082 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-third of MAT 086.

Information: MAT 086A, 086B, and 086C together constitute MAT 086.

MAT 086B Prealgebra: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086A.

Module B constitutes approximately the second one-third of MAT 086.

Information: MAT 086A, 086B, and 086C together constitute MAT 086.

MAT 086C Prealgebra: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086B.

Module C constitutes approximately the third one-third of MAT 086.

Information: MAT 086A, 086B, and 086C together constitute MAT 086.

MAT 092 Elementary Algebra /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Introduction to basic algebra. Includes the real number system, algebraic expressions, linear equations and inequalities, integer exponents, polynomials, simple rational expressions, and square roots.

MAT 092A Elementary Algebra: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-third of MAT 092.

Information: MAT 092A, 092B, and 092C together constitute MAT 092.

MAT 092B Elementary Algebra: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 092A or concurrent enrollment.

Module B constitutes approximately the second one-third of MAT 092.

Information: MAT 092A, 092B, and 092C together constitute MAT 092.

MAT 092C Elementary Algebra: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 092B or concurrent enrollment.

Module C constitutes approximately the third one-third of MAT 092.

Information: MAT 092A, 092B, and 092C together constitute MAT 092.

MAT 107 Introduction to Symbolic Logic /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Fundamentals of mathematical reasoning and logic with applications. Includes introduction to arguments, Venn diagrams, compound statements, truth functional connectives, and theoretical aspects of truth tables.

MAT 107A Introduction to Symbolic Logic: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-half on MAT 107.

Information: MAT 107A, and 107B together constitute MAT 107.

MAT 107B Introduction to Symbolic Logic: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 107A.

Module B constitutes approximately the second one-half on MAT 107.

Information: MAT 107A, and 107B together constitute MAT 107.

MAT 108 Practical Geometry and Trigonometry /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Fundamentals of geometry and trigonometry with applications. Includes basic geometric properties, properties of triangles, Pythagorean Theorem and special triangles, polygons, circles, volumes, radian measure, trigonometric functions, and oblique triangles.

MAT 108A Practical Geometry and Trigonometry: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-half of MAT 108.

Information: MAT 108A and 108B together constitute MAT 108.

MAT 108B Practical Geometry and Trigonometry: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 108A.

Module B constitutes approximately the second one-half of MAT 108.

Information: MAT 108A and 108B together constitute MAT 108.

MAT 113 Mathematics with Trigonometry and Statistics /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): MAT 122 or TEC 112 or satisfactory score on the mathematics assessment test.

Non-linear and simultaneous equations used in network analysis. Includes basic trigonometry and complex numbers used in AC circuit theory and optics, waveforms and methods of description, basic probability and statistics used in statistical process control and metrology, introductory periodic waveform analysis, and graphical presentations of special sums and rates of change in linear circuit applications.

Information: Same as TEC 113.

MAT 114 Elementary Data Analysis and Statistical Inference / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 086 or satisfactory score on the mathematics assessment test.

Introduction to statistics. Includes the collection and presentation of data and statistical measures.

MAT 122 Intermediate Algebra /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092 or satisfactory score on the mathematics assessment test.

Basic algebraic functions. Includes the language of sets, lines in the plane, systems of linear equations, rational expressions and equations, radical expressions and equations, quadratics, exponents, and logarithms.

MAT 122A Intermediate Algebra: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 092 or concurrent enrollment in MAT 092C or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-third of MAT 122.

Information: MAT 122A, 122B, and 122C together constitute MAT 122.

MAT 122B Intermediate Algebra: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 122A or concurrent enrollment.

Module B constitutes approximately the second one-third of MAT 122.

Information: MAT 122A, 122B, and 122C together constitute MAT 122.

MAT 122C Intermediate Algebra: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 122B or concurrent enrollment.

Module C constitutes approximately the third one-third of MAT 122.

Information: MAT 122A, 122B, and 122C together constitute MAT 122.

MAT 142 Topics in College Mathematics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 122 or satisfactory score on the mathematics assessment test.

Survey of mathematical topics and applications. Includes application of mathematics to the social services, management science, growth, and probability and statistics.

MAT 151 College Algebra /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): MAT 122 or satisfactory score on the mathematics assessment test.

Introduction to college-level algebra. Includes equations, functions, systems of equations, exponential and logarithmic functions, graphing of higher order polynomial and rational functions, sequences and series, and calculator use.

MAT 151A College Algebra: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 122 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-fourth of MAT 151.

Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151.

MAT 151B College Algebra: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 151A.

Module B constitutes approximately the second one-fourth of MAT 151.

Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151.

MAT 151C College Algebra: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 151B.

Module C constitutes approximately the third one-fourth of MAT 151.

Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151.

MAT 151D College Algebra: Module D /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 151C.

Module D constitutes approximately the fourth one-fourth of MAT 151.

Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151.

MAT 167 Introductory Statistics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Introduction to statistics. Includes sampling; data display; measures of central tendency, variability, and position; random variables; probability; probability distributions; confidence intervals; hypothesis testing; and regression.

MAT 172 Finite Mathematics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Mathematics for students majoring in business. Includes set theory, partitions, permutations, combinations, probability, Bernoulli trials, Markov chains and the simplex method of linear programming.

MAT 173 Mathematics for Business I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): CIS 100, MAT 151.

Introduction to business finite mathematics. Includes basic probability, summation, conditional probability and independence, Bayes' Theorem, compound interest, random variables, random sampling, and computer skills.

MAT 174 Mathematics for Business II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 173.

Continuation of MAT 173. Includes distributions, normal distribution, basic statistics, integration, common business functions, differentiation, and computer skills.

MAT 182 Trigonometry /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Introduction to trigonometric functions. Includes graphs, identities, angle measure, vectors, polar coordinates, and conic sections.

MAT 182A Trigonometry: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-third of MAT 182.

Information: MAT 182A, 182B, and 182C together constitute MAT 182.

MAT 182B Trigonometry: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 182A or concurrent enrollment.

Module B constitutes approximately the second one-third of MAT 182.

Information: MAT 182A, 182B, and 182C together constitute MAT 182.

MAT 182C Trigonometry: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): MAT 182B or concurrent enrollment.

Module C constitutes approximately the third one-third of MAT 182.

Information: MAT 182A, 182B, and 182C together constitute MAT 182.

MAT 187 Precalculus /5 cr. hrs./5 periods (5 lec.)

Prerequisite: MAT 122 or satisfactory score on the mathematics assessment test.

Recommended: For highly motivated students who have strong algebraic skills.

College-level algebra and trigonometry. Includes equations, algebraic functions, inequalities, systems, conic sections, sequences and series, trigonometric functions, polar form, and partial fractions. Also includes intensive preparation for analytic geometry and calculus.

Information: Credit is allowed for MAT 151 and 182 or MAT 187, but not all three.

MAT 212 Topics in Calculus /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Calculus for students majoring in business. Includes limits, continuity, differentiation and integration of algebraic functions.

MAT 220 Calculus I /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): MAT 151 and MAT 182 or 187 or satisfactory score on the mathematics assessment test.

Introduction to analytical geometry and calculus. Includes limits, continuity, differentiation and integration of algebraic and basic trigonometric functions, and applications of differentiation and integration.

MAT 227 Discrete Mathematics in Computer Science /3-4 cr. hrs./3-4 periods (3-4 lec.)

Prerequisite(s): MAT 151 or satisfactory score on the mathematics assessment test.

Mathematical concepts applicable to course work in computer science. Includes logic, sets, proof techniques, induction, graphs, formal languages, and basic application of discrete mathematics to computer science.

Information: Basic applications of discrete mathematics are omitted for the three-credit class.

MAT 231 Calculus II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): MAT 220.

Continuation of MAT 220. Includes differentiation and integration of logarithmic and exponential functions, techniques and applications of integration and infinite series.

MAT 241 Calculus III /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): MAT 231.

Continuation of MAT 231. Includes conic sections, polar coordinates, solid geometry, two and three dimensional vectors, moments, partial derivatives and multiple integration.

MAT 252 Introduction to Linear Algebra /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 231 and consent of instructor, or MAT 241.

Introduction to vector spaces and linear transformations. Includes matrices, Gaussian Elimination, Gram-Schmidt process, eigenvalues, and eigenvectors.

MAT 262 Differential Equations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 231.

Introduction to differential equations. Includes differential equations of the first order with exact solutions, numerical approximations and systems, explicit methods for solving equations of higher order including series and Laplace transforms, and physical applications of first and second order differential equations.

MAT 295 Independent Research in Mathematics /1-4 cr. hrs./3-12 periods (3-12 lab)

Prerequisite(s): Consent of instructor.

Experience in mathematical research. Specific content to be determined by student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.

MEDIA COMMUNICATION

For courses numbered 098, 198, 298, see "Topics Courses" in index

MEC 101 Introduction to Reporting and Media Writing /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): Writing 100 or satisfactory score on the writing assessment test.

Introduction to news reporting. Includes evaluation of news, news gathering methods, writing leads, organization of stories, interviewing and writing various types of news stories. Also includes a considerable amount of writing using computers.

MEC 102 Survey of Media Communications /3 cr. hrs./3 periods (3 lec.)

Survey of theory, nature, function, and impact of today's mass media. Includes a review and evaluation of important journalists' work and of

various media and auxiliary industries, such as book and magazine publishing, newspapers, radio, television, film, recordings, advertising and public relations. Also includes an overview of related career options.

MEC 103 Introduction to Digital Arts /3 cr. hrs./3 periods (3 lec.)

Theory, history, and practice of digital image manipulation. Includes digitally based technologies, analog to digital conversion, data compression, data security, synchronization of digital materials, standards and intellectual property, civil liberties in the digital age, and digital image sound distribution and exhibition.

MEC 110 Introduction to Public Relations /3 cr. hrs./3 periods (3 lec.)

Recommended: MEC 101.

Introduction to public relations. Includes principles, practices, theory, ethics and law, and techniques for defining and dealing with internal and external public. Also includes writing, message dissemination, development of media networks, and media relations, organizing special events and news conferences, research for planning and evaluation, and group projects to develop and evaluate a public relations plan.

MEC 124 Writing for Film and Television /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 103 or concurrent enrollment.

Examining dramatic writing in visual mediums and creating the story for the screen. Includes visual storytelling, story structure, working screen writers, writing scenes, finishing stories, writing for television, and directors and cinematographers.

MEC 125 Beginning Video Production /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 124.

Principles and techniques of video production. Includes operation and application of all the basic tools, equipment, and techniques used in television production. Also includes practical experience as part of a production team.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 127 Sound Production for Radio /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 103, 124.

Methods and techniques of the operation of radio broadcasting equipment. Includes use of studio microphones, audio control consoles, audio type cartridge machines, audio tape standard recorders and optical disk machines.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 173 History of American Cinema /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 124 and 175 or consent of instructor.

American cinematic film making as an art form, economic force, and system of representation and communication. Includes historical development of different genres, significant films and directors, film studios, and technologies. Also includes film screening sessions, guest film makers, and cinema historians.

MEC 174 Business of Audio /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 103, 124.

Economic, legal and financial aspects of the music and recording industry. Covers current markets for music videos, compact disks, and DAT technologies. Also examines recording companies and artists, music writers and publishers, copyright laws, and general music/audio industry concerns.

MEC 175 Cinematography /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 124 or concurrent enrollment.

Basic techniques of motion picture production. Includes camera operation, animation application, film editing, and motion picture lab processes. Also includes the creation and production of super 8 films.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 176 Film Animation /3 cr. hrs./5 periods (2 lec., 3 lab)

Introduction to film animation techniques. Includes the organization of various creative arts in the production of an animated film with an em-

phasis on the individual's use of animation as a means of personal expression. Also includes an historical overview of animation, scoreboard technique, developing story structure, translating concepts into visual terms, character design, backgrounds, layout drawings, animation techniques, development of preproduction sound elements, and the integration of these elements aimed towards the production of a complete sound animation film.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 177 Location Sound for Film and Video /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): MEC 103, 124.

Theory and practice of sound recording on location for feature films, documentaries, video productions, and multimedia. Includes hands-on experience with sync sound recording, time code, microphone applications and problem-solving on location.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 180 Newspaper Business Procedures /1 cr. hr./1 period (1 lec.)

Introduction to principles and business procedures of newspapers in general and of the weekly student newspaper. Includes marketing, advertising sales, circulation, record keeping and simple accounting for print and online editions. Also includes extensive use of computers, scanners and software to invoice ads, post payments and deposits, write commission reports, and design advertisements.

MEC 186 Writing for the Web /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or satisfactory score on writing assessment test.

Recommended: MEC 101, 102 or concurrent enrollment, and proficiency in computer applications.

Introduction to basic concepts and techniques for writing on the World Wide Web. Includes introduction to Web technology, basic journalistic techniques useful for Web writing, Hypertext Markup Language (HTML) or Web editing software, linear forms, nonlinear forms, clicking and scrolling affect on writing, process for writing and writing online, tips for writing online, citations, communication law in the electronic age, and journalism ethics in the new media.

MEC 187 Introduction to Electronic Publishing in Journalism/Media /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 101 and computer literacy.

Recommended: Basic word processing skills and computer literacy. Introduction to electronic (on-line) publishing with applications to new media. Includes work with computers, desktop publishing, imaging and Internet software, HTML formatting, and designing Web pages/sites to create camera-ready publications and maintain a Web site. Also includes methods to navigate and do research on the Internet and the World Wide Web, concepts, principles and ethics of publishing on the Internet, responsibilities of an electronic journalist, disinformation and privacy issues.

MEC 188 DeskTop Publishing for Journalism and Media Communication /3 cr. hrs./4 periods (2 lec., 2 lab)

Recommended: Word processing or keyboard skills.

Desktop publishing for media communications. Includes basic principles of page layout using text and graphics applied to journalistic and electronic media. Also includes designing and editing tabloid newspapers, brochures, newsletters, scoreboards, slide presentations, and transparencies.

MEC 189 Newspaper Graphics /1 cr. hr./1 period (1 lec.)

Application of principles and techniques of newspaper layout, design elements, typography, line art, illustrations, editorial graphics and photographs in journalism and to the weekly student newspaper. Includes extensive use of computers, scanners and desktop publishing software and applications to online editions.

MEC 193 Journalism Workshop /3 cr. hrs./9 periods (9 lab)

Prerequisite(s): MEC 101.

Recommended: MEC 102.

Publication of the college's weekly student newspaper and online edition of the newspaper. Includes news judgment, news gathering, news

and editorial writing, editing and headline writing, photography, page design and computer pagination, advertising, and other publication activities. Also includes newsroom management and ethical and legal considerations. Requires extensive use of computers, scanners and publishing software. Emphasis may be selective according to student goals and skills.

Information: May be taken three times for a maximum of nine credits hours.

MEC 196 Independent Studies in Media /1-4 cr. hrs./3-12 periods (6 lec., 6 lab)

Prerequisite(s): Six credit hours of MEC classes and consent of instructor.

Students independently continue their development in media communications with the help of a faculty member.

Information: May be taken three times for a maximum of twelve credit hours.

MEC 199 Co-op Related Class in MEC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

MEC 199WK Co-op Work in MEC /1-3 cr. hrs./5-15 periods (5-15 lab)

See Cooperative Education section for description.

MEC 211 Lighting for Film and Video /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 124, and MEC 125 or 175.

Creative lighting techniques, practices, and use of equipment. Includes lighting theory, color theory, and technical and artistic lighting methods used in feature film, commercials, and video production. Also includes working as part of a film or video lighting production team.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 215 Advanced Cinematography /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 175.

Tools, techniques, and procedures involved in professional film production. Includes the film proposal, script breakdown, pre-production and post-production of one 16 mm film, and laboratory experience with film production equipment.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 216 Post Production for Film /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): MEC 215.

Introduction to film post production video and audio techniques and aesthetics of film editing. Includes step-by-step editing room procedures leading to final screening. Also includes logging, storing, retrieving footage, synchronizing dailies, selecting takes, editing of dialogue and sound effects, final mixing, and color timing.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 218 Introduction to Film Music /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 103 and 124 or consent of instructor.

Historical development of and fundamental techniques applied to film music. Includes influential and new composers and scores, relationships to genres, scripts, action and characters, and business and cultural associations. Also includes composing for varying media, spotting, timing, recording, editing and dubbing, and electronic and contemporary scoring for specialized styles and themes as applied to motion pictures, television, video, and the new media.

MEC 224 Advanced Screenwriting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 103 and 124 or consent of instructor.

Continuation of MEC 124. Includes further development of screenplays, improvement of dialogue skills, and character development techniques. Also includes writing or improving a feature script and creating a movie pitch to accompany a script.

MEC 225 Advanced Video Production /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 125.

Production of a variety of television programs. Includes the utilization of television equipment in remote and on-location sites as well as in studio operation. Also includes the production of special programs for the arts, education, and industry.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 230 Advanced Reporting /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 101 or consent of instructor, MEC 102 or concurrent enrollment.

Advanced news gathering and news writing for reporting complex stories. Includes development of varied leads, review and practice in most types of basic news assignments, and focus on in-depth stories expanding what constitutes news. Also includes alternate methods of news gathering, such as computer-assisted and Internet research, observation and interviewing techniques, and document searches.

MEC 235 Broadcast Journalism /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 101.

Survey of radio and television journalism. Includes broadcast news media, electronic journalism and the broadcast news process.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 240 Editing, Layout, and Design /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MEC 101.

Principles and techniques of publication editing, layout, and design. Includes newsroom and other settings, copy and electronic editing, proofreading, headline writing, electronic page layout, typography and design, copyflow, and problems and responsibilities of editors. Also involves the extensive use of computers in the editing process.

MEC 260 Magazine and Feature Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 101.

Writing magazine and newspaper feature articles for publication. Includes the requirement to research, write and attempt to market an article or series of features.

MEC 270 Media Advertising and Public Relations /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MEC 101.

Principles and techniques of media advertising and public relations. Includes planning, sales and production. Also includes working in groups to produce a national and local advertising campaign and a public relations campaign.

MEC 271 Film/Video Production Financing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MEC 124.

Strategies of production financing for independent film/video projects. Includes positioning media projects in the marketplace, writing fundable proposals, and identifying funding sources. Also includes developing a prospectus for a media project.

MEC 275 Basic Audio Production /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 124.

Fundamental tools, techniques, and procedures for multitrack recording. Includes application to film, television, radio, and the recording industry. Also includes using multi-track recording and mixing techniques to produce original production soundtracks.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 276 Advanced Audio Production /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 275.

Production of audio for film, television, radio, and the recording industry. Includes utilization of professional audio equipment on location as well as in studio operation. Also includes post-production of audio for film and video, and audio production for special problems in the arts, education, and industry.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 280 Photojournalism /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MEC 101 or consent of instructor, MEC 102 or concurrent enrollment.

Practical applications of photographic skills to communicate nonfiction stories and document life. Includes basic camera operations and use of lenses, film stocks, filters, flash, and scanners, computers and digital imaging software. Also includes ethical and legal considerations, analysis of photographs, cropping and sizing, layout of photo essays, and writing cutlines and captions.

MEC 281 News and Feature Program Production /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 225.

Techniques and procedures involved in producing television news feature programs for cablecasting or broadcasting. Includes procedures, cameras, lenses, audio, and graphics for in-field productions. Also includes lighting, visual expression, producing, directing, interviewing techniques, and the completion of three, thirty-minute news/feature video programs for cablecasting.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 285 Documentary Television and Film Production /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): MEC 215, 225.

Fundamentals of nonfiction film/video production. Includes script writing, research techniques, camera, lenses, audio approach, recording techniques, working methods, and production problems. Also includes the production of a television documentary.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

MEC 295 Applied Photojournalism /1 cr. hr./1 period (1 lec.)

Recommended: MEC 280 or equivalent experience.

Application of photojournalistic concepts and techniques to complete assignments for the weekly student newspaper. Includes creating visual images for spot and general news, features, portraits, sports, sports and photo essays, writing cutlines and captions, and designing the layout of photo stories. Also includes use of film scanners, computers and digital imaging software to size, crop and adjust images.

Information: Access to a 35MM still film cameras is required. Digital, still, and video cameras will be available.

MEC 296 Advanced Independent Studies in Media /1-4 cr. hrs./3-12 periods (6 lec., 6 lab)

Prerequisite(s): 12 credit hours of MEC courses, completion of MEC 196 and consent of instructor.

Students independently continue their development in media communications with the help of a faculty member.

Information: May be taken three times for a maximum of twelve credit hours.

MEC 299 Co-op Related Class in MEC /1 cr. hr./1 period (1 lec.)

See Cooperative Education section for description.

MEC 299WK Co-op Work in MEC /1-3 cr. hrs./5-15 periods (5-15 lab)

See Cooperative Education section for description.

MUSIC

For courses numbered 098, 198, 298, see "Topics Courses" in index.

MUS 051 Evening Wind Ensemble /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Students chosen by audition.

Advanced performances of instrumental music. Focuses on reading and interpreting band literature.

Information: May be taken eight times for a maximum of eight credit hours.

MUS 052 Introduction to Ear Training /2 cr. hrs./2 periods (2 lec.)

Recommendation: Students considering music as a major are encouraged to take MUS 052 and 102 concurrently.

Ear training for individuals with little or no musical background. Includes learning to perform what is written and identify what is heard through simple melodies and rhythms.

MUS 054 Introductory Jazz Improvisation /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Students chosen by audition.

Basic principles and techniques of jazz improvisation. Enrollment determined by audition with instructor.

Information: May be taken six times for a maximum of twelve credit hours.

MUS 055 Introduction to Piano I /2 cr. hrs./2 periods (2 lec.)

Basic principles and techniques of piano playing in a group situation. Includes reading musical notation, practicing techniques, and learning basic theoretical concepts.

MUS 056 Introduction to Piano II /2 cr. hrs./2 periods (2 lec.)

Continuation of MUS 055. Expansion and refinement of piano playing techniques.

Information: Designed for non-music majors.

MUS 061 Applied Music-Private Instruction: Brass (Non Major) / 2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 062 Applied Music-Private Instruction: Guitar (Non Major) / 2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 063 Applied Music-Private Instruction: Percussion (Non Major) /2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 064 Applied Music-Private Instruction: Piano (Non Major) / 2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 065 Applied Music-Private Instruction: Strings (Non Major) / 2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 066 Applied Music-Private Instruction: Voice (Non Major) / 2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 067 Applied Music-Private Instruction: Woodwinds (Non Major) /2 cr. hrs./5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 068 Applied Music-Private Instruction (Non Major) /0 cr. hrs./ .5 period (.5 lec.)

Private weekly lessons. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.

MUS 089 Contemporary Guitar Styles /1 cr. hr./2 periods (1 lec., 1 lab)

Basic training in the essential elements of a variety of popular Ameri-

can guitar styles. Includes folk, country/western, blues, rock, and jazz. Also includes rhythm accompaniment, improvising solos, fretboard theory/harmony, memorization, and tablature reading.

MUS 100 Guitar I /2 cr. hr./2 periods (2 lec.)

Development of the principles of guitar playing with emphasis on a variety of styles and guitar repertoire.

MUS 101 Guitar II /2 cr. hr./2 periods (2 lec.)

Prerequisite(s): MUS 100 or consent of instructor.

Continuation of MUS 100 with more detailed development of guitar skills including basic musicianship, sight-reading, repertoire development, ensemble playing and improvisation.

MUS 102 Music Fundamentals /3 cr. hrs./3 periods (3 lec.)

Recommended: Students considering music as a major are encouraged to take MUS 052 and 102 concurrently.

Introduction to the fundamentals of music and music notation. Includes study of harmony, melody, rhythm, and music terminology. Also includes clefs and staff, notes, intervals, scales, modes, chords, keys and signatures, meter, and form.

MUS 108 Pima Jazz Band I /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Enrollment by audition.

Rehearsal and performance of many styles of music in the jazz idiom. Includes progressive development of musical skills through interpretation of literature.

Information: May be taken four times for a maximum of four credit hours.

MUS 109 Pima Jazz Band II /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Enrollment by audition.

Continuation of MUS 108. Includes continued emphasis on progressive development of musical skills through interpretation of literature.

Information: May be taken four times for a maximum of four credit hours.

MUS 111 Exploring Music Through Piano /3 cr. hrs./3 periods (3 lec.)

Keyboard application skills and music fundamentals. Includes beginning improvisation, playing by ear, harmonizing melodies, music reading, and repertory pieces. Also includes aural application to music regarding form, style, and structure.

MUS 112 Community Jazz Band I /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Students chosen by audition.

Rehearsal and performance of many styles of music in the jazz idiom. Includes progressive development of musical skills through interpretation of professional literature.

Information: Members selected primarily from Tucson's adult community.

Information: May be taken four times for a maximum of four credit hours.

MUS 113 Community Jazz Band II /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Students chosen by audition.

Continuation of MUS 112. Includes continued emphasis on progressive development of musical skills through interpretation of professional literature.

Information: Members selected primarily from Tucson's adult community.

Information: May be taken four times for a maximum of four credit hours.

MUS 116 Pima Community College Orchestra I /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Students chosen by audition.

Progressive development of musical skills through interpretation of orchestral literature. Includes participation in regular rehearsals and performances.

Information: May be taken eight times for a maximum of eight credit hours.

MUS 117 Pima Community College Orchestra II /1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): Students chosen by audition.

Continuation of MUS 116. Includes participation in regular rehearsals and performances.

Information: May be taken eight times for a maximum of eight credit hours.

MUS 120 Concert Band I /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Students chosen by audition.

Progressive development of musical skills through interpretation of literature. Includes participation in regular rehearsals and performances.

Information: May be taken six times for a maximum of eighteen credit hours.

MUS 121 Concert Band II /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Students chosen by audition.

Continuation of MUS 120. Includes participation in regular rehearsals and performances.

Information: May be taken six times for a maximum of eighteen credit hours.

MUS 125 Theory and Structure of Diatonic Music /3 cr. hrs./3 periods (3 lec.)

Review of music fundamentals followed by figured bass, chord functions and voicing, voice leading, harmonic progressions, part writing, and harmonization. Includes foundations of tonal music and composition and provides basic first year level music theory for transfer.

Information: Required for all other music structure courses.

MUS 126 Theory and Structure of Counterpoint /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 125.

Introduction to tonal counterpoint. Includes study and writing of melody, two-part species counterpoint, form generating techniques, imitation, canons, invertible counterpoint, ground bass variations, and fugue.

MUS 127 Aural Perception: Diatonic and Rhythmic Skills /1 cr. hr./2 periods (1 lec., 1 lab)

Recommended: Students who are music majors take MUS 125 and 127 concurrently.

Development of aural techniques. Includes dictation and performance of intervals and melodic and simple rhythmic structures. Also includes general techniques of listening to music.

MUS 128 Aural Perception: Melody and Rhythm /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 127.

Continuation of MUS 127. Includes analysis, dictation, sight-singing, and developing perception of melodic structures, and forms.

MUS 130 Chorale (SATB) /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Students chosen by audition.

Selected group of mixed voices for interpretation of a wide variety of styles of music in concerts throughout the academic year. Includes progressive development of musical skills through interpretation of literature.

Information: May be taken six times for a maximum of eighteen credit hours.

MUS 131 College Singers (SATB) /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Students chosen by audition.

Small chorale ensemble. Includes repertory and performance throughout the academic year with the best literature from all styles and periods. Also includes progressive development of musical skills through interpretation of literature.

Information: May be taken six times for a maximum of eighteen credit hours.

MUS 134 Vocal Ensemble /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): Students chosen by audition.

Rehearsal and performance of literature for various combinations of voices. Emphasis on progressive development of musical skills through interpretation of literature.

Information: May be taken four times for a maximum of four credit hours.

MUS 136 Voice Class I /2 cr. hrs./2 periods (2 lec.)

Practical training in basic skills and singing without specialization. Includes breathing, diction, tone, and rhythm.

MUS 137 Voice Class II /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): MUS 136.

Continuation of MUS 136. Includes practical training in basic skills and singing without specialization. Also includes breathing, diction and interpretation of song literature.

MUS 141 Piano Class I /1 cr. hr./2 periods (1 lec., 1 lab)

Beginning instruction employing group and individual techniques in an electronic lab situation. Includes introduction and development of elements of basic musicianship, keyboard skills, and learning techniques for music majors.

MUS 142 Piano Class II /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 141.

Continuation of MUS 141. Incorporates intermediate piano instruction of group and individual practice in an electronic lab. Focuses on more advanced theoretical and technical applications to the piano, including chord progressions, harmonizations, sight-reading and repertoire.

MUS 143 Piano Class III /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 142.

Continuation of MUS 142. Incorporates advanced intermediate piano instruction utilizing group and individual practice in an electronic lab. Focuses on further study of theoretical and applied techniques at the piano.

MUS 144 Piano Class IV /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 143.

Continuation of MUS 143. Incorporates advanced piano instruction utilizing group and individual practice in an electronic lab. Focuses on advanced application of theory and technique, including scales, arpeggios, harmonizations, transpositions and an in-depth study of repertoire and style. Also includes development of learning, memorization, and performance skills.

MUS 147 Singing/Movement for the Stage /2 cr. hrs./3 periods (1 lec., 2 lab)

Basics of singing in the context of movement on the stage. Includes familiarity with the stage and the movements that work best for the performer, how to get on and off stage as yourself or as a character, how to approach a characterization, how to make your body work for

you, and how to move with or against the music. Also includes live accompaniment.

Information: Singing skill is required.

Information: May be taken four times for a maximum of eight credit hours.

MUS 148 Musical Theater Workshop /2 cr. hrs./2 periods (2 lec.)

Movement and singing to enhance projection and communication capabilities. Includes auditioning techniques, live accompaniment, and exploring the musical theater as a way to communicate.

Information: May be taken four times for a maximum of eight credit hours.

MUS 149 Opera Workshop /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Students chosen by audition.

Introduction to the techniques of opera. Includes stage movement, character development, and acting. Also includes arias, duets, ensembles, and auditioning techniques.

Information: May be taken four times for a maximum of twelve credit hours.

MUS 151 Exploring Music /3 cr. hrs./3 periods (3 lec.)

Introduction to various musical styles with emphasis on listening and application of the basic elements of music (melody, rhythm, harmony, form and timbre) to each style.

MUS 154 Jazz Improvisation /2 cr. hr./2 periods (2 lec.)

Prerequisite(s): MUS 102 or audition.

Study of jazz improvisation on various instruments. Includes rhythmic, melodic, and harmonic aspects of jazz styles. Also includes an emphasis on progressive development of musical skills through interpretation of literature.

Information: May be taken six times for a maximum of twelve credit hours.

MUS 160 Popular Music in America /3 cr. hrs./3 periods (3 lec.)

Study of the history of popular music culture in America beginning with the foundations of music in colonial America through current trends in today's society. Includes ragtime, blues, jazz, country, Broadway musical, folk, and rock.

MUS 161 Applied Music-Private Instruction: Brass I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 162 Applied Music-Private Instruction: Guitar I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 163 Applied Music-Private Instruction: Percussion I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 164 Applied Music-Private Instruction: Piano I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 165 Applied Music-Private Instruction: Strings I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 166 Applied Music-Private Instruction: Voice I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 167 Applied Music-Private Instruction: Woodwinds I (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 168 Applied Music-Private Instruction I (Major) /0 cr. hrs./ .5 period (.5 lec.)

Prerequisite(s): Students chosen by audition.

Private weekly lessons. Includes participation in student recitals and jury exams.

MUS 171 Applied Music-Private Instruction: Brass II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 161.

Continuation of MUS 161. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 172 Applied Music-Private Instruction: Guitar II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 162.

Continuation of MUS 162. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 173 Applied Music-Private Instruction: Percussion II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 163.

Continuation of MUS 163. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 174 Applied Music-Private Instruction: Piano II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 164.

Continuation of MUS 164. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 175 Applied Music-Private Instruction: Strings II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 165.

Continuation of MUS 165. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 176 Applied Music-Private Instruction: Voice II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 166.

Continuation of MUS 166. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 177 Applied Music-Private Instruction: Woodwinds II (Major) / 2 cr. hrs. /5 period (.5 lec.)

Prerequisite(s): MUS 167.

Continuation of MUS 167. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 178 Applied Music-Private Instruction II (Major) /0 cr. hrs. / .5 period (.5 lec.)

Prerequisite(s): MUS 168.

Continuation of MUS 168. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 201 History and Literature of Music I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 102 or 125.

Music history and literature from the ancient Greeks through the Baroque. Includes emphasis on specific works and composers as representative of the evolution of Western music.

MUS 202 History and Literature of Music II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 102 or 125.

Music history and literature from Bach to the present. Includes emphasis on specific works and composers as representative of the evolution of Western music.

MUS 207 Music Composition /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 125.

Development of compositional skills. Includes techniques, notation, and formal models. Also includes problems of instrumentation and the practice of writing music.

MUS 225 Theory and Structure of Chromatic Music /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 125.

Chromatic harmony, melody, and associated contrapuntal and rhythmic structure. Includes modulation, chromatic chords, use of sevenths and ninth chords, and in-depth analysis of selected masterworks.

MUS 226 Theory and Structure of Modern Music /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MUS 125.

Analysis of compositional models and notation in modern music. Includes examination and application of techniques, and reading and analysis of modern scores. Also includes analysis of aesthetics, historical, social, political, and philosophical aspects.

MUS 227 Aural Perception: Harmony /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 127.

Development of the perception of chromatic tonal harmony, melody, modulation, and forms. Includes sight-singing and dictation.

MUS 228 Aural Perception: Modern /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MUS 127.

Development of the perception of modern rhythms, melodies and harmony. Includes polytonality, atonality, modality, asymmetric meters, syncopated rhythms, quartal and secundal chords. Also includes sight singing and dictation in modern contexts.

**MUS 261 Applied Music-Private Instruction: Brass III (Major) / 2 cr. hrs./5 period (.5 lec.)**

Prerequisite(s): MUS 171.

Continuation of MUS 171. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 262 Applied Music-Private Instruction: Guitar III (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 172.

Continuation of MUS 172. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 263 Applied Music-Private Instruction: Percussion III (Major) /2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 173.

Continuation of MUS 173. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 264 Applied Music-Private Instruction: Piano III (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 174.

Continuation of MUS 174. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 265 Applied Music-Private Instruction: Strings III (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 175.

Continuation of MUS 175. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 266 Applied Music-Private Instruction: Voice III (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 176.

Continuation of MUS 176. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 267 Applied Music-Private Instruction: Woodwinds III (Major) /2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 177.

Continuation of MUS 177. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 268 Applied Music-Private Instruction III (Major) /0 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 178.

Continuation of MUS 178. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 271 Applied Music-Private Instruction: Brass IV (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 261.

Continuation of MUS 261. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 272 Applied Music-Private Instruction: Guitar IV (Major) / 2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 262.

Continuation of MUS 262. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 273 Applied Music-Private Instruction: Percussion IV (Major) /2 cr. hrs./5 period (.5 lec.)

Prerequisite(s): MUS 263.

Continuation of MUS 263. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 274 Applied Music-Private Instruction: Piano IV (Major) / 2 cr. hrs./1.5 period (.5 lec.)

Prerequisite(s): MUS 264.

Continuation of MUS 264. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 275 Applied Music-Private Instruction: Strings IV (Major) / 2 cr. hrs./1.5 period (.5 lec.)

Prerequisite(s): MUS 265.

Continuation of MUS 265. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 276 Applied Music-Private Instruction: Voice IV (Major) / 2 cr. hrs./1.5 period (.5 lec.)

Prerequisite(s): MUS 266.

Continuation of MUS 266. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 277 Applied Music-Private Instruction: Woodwinds IV (Major) / 2 cr. hrs./1.5 period (.5 lec.)

Prerequisite(s): MUS 267.

Continuation of MUS 267. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 278 Applied Music-Private Instruction IV (Major) / 0 cr. hrs. / .5 period (.5 lec.)

Prerequisite(s): MUS 268.

Continuation of MUS 268. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

MUS 296 Independent Studies in Music / 1 cr. hr./3 periods (1 lec., 2 lab)

Prerequisite(s): MUS 102.

Composition and/or in-depth study in an area of the student's choice with approval by the supervising instructor.

Information: May be taken four times for a maximum of four credit hours.**NURSING***For courses numbered 098, 198, 298, see "Topics Courses in index."***NRS 096 Basic Independent Study in Nursing / 1 cr. hr./1 period (1 lec.)**

Prerequisite(s): Consent of instructor.

Basic level independent readings or special projects. Content to be determined by conference between student and instructor.

NRS 104/104LC/104LS Nursing Process I / 8 cr. hrs./16 periods (4 lec., 12 lab)

Prerequisite(s): Acceptance into the Nursing Program, HCA 102.

Co-Requisite: Concurrent enrollment in BIO 202, HCA 155 and WRT 101.

Introduction to the application of the nursing process and to the concepts of nurse, health, client and environment, with emphasis on caring for adult and elderly clients. Includes the roles of the nurse as communicator, care provider, care manager, teacher, and member of the profession. Also includes college and clinical laboratory application of selected nursing skills and knowledge in acute care, long term care, and community settings, history of microcomputers, parts of a microcomputer system and the role of microcomputers in the healthcare setting.

NRS 105/105LC/105LS Nursing Process II / 9 cr. hrs./19 periods (4 lec., 15 lab)

Prerequisite(s): NRS 104, BIO 202, HCA 102, 155, WRT 101 and concurrent enrollment in BIO 205, ECE 117 and FSN 154.

Continuation of NRS 104. Application of the nursing process and expansion on the concepts of nurse, health, client and environment, with emphasis on caring for adult clients, and on the roles of the nurse as communicator, care provider, care manager, teacher and member of

the nursing profession. Includes a focus on adult clients experiencing common health alterations. Also includes additional college and clinical laboratory application of selected nursing skills and knowledge in acute care and community settings.

NRS 180 Transition to Practical Nursing / 2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): BIO 202, 205, ECE 117, FSN 124, HCA 102, 155, NRS 104, 105, WRT 101.

Nonclinical course which provides the theoretical preparation to qualify the student to apply for licensure by the Arizona State Board of Nursing as a Practical Nurse (LPN). Includes application of the nursing process to provide basic care to families in the maternity cycle, health of children and psychosocial health. Also includes the role of the LPN in relation to the nursing process.

NRS 188/188LB Transition to Associate Degree Nursing / 3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): Graduate of Pima Community College Practical Nurse (PN) program after May, 1990 or hold a current valid Licensed Practical Nurse (LPN) license in Arizona. Must meet all admission criteria for the Associate Degree Nursing Program.

Nonclinical course facilitating transition of the Licensed Practical Nurse into the Pima Community college Associate Degree Nursing program. Includes role transition through the application of the nursing process and orients the student to the philosophy and major concepts of the ADN program. Also includes focus on adult clients experiencing selected health alterations and knowledge of the history of microcomputers, the parts of a microcomputer system and the role of microcomputers in the healthcare setting.

NRS 196 Independent Study in Nursing / 1-4 cr. hrs./1-4 periods (1-4 lec.)

Prerequisite(s): Consent of instructor.

Independent readings or special projects. Content to be determined by conference between student and instructor.

NRS 201/201LC Nursing Process III / 9 cr. hrs./17 periods (5 lec., 12 lab)

Prerequisite(s): NRS 105, BIO 202, 205, ECE 117, FSN 154, HCA 102, 155, and concurrent enrollment in NRS 203, PSY 101, WRT 102.

Continuation of NRS 105. Application of the nursing process and expansion on the concepts of nurse, health, client, and environment, with an emphasis on family, child and psychosocial health. Also expands on the roles of the nurse as communicator, care provider, care manager, teacher and member of the nursing profession. Also includes additional clinical and laboratory application of selected nursing skills and knowledge to the developing family, child and seriously mentally ill clients in acute care and community settings.

NRS 202/202LC Nursing Process IV / 9 cr. hrs./21 periods (3 lec., 18 lab)

Prerequisite(s): NRS 203, PSY 101, WRT 102.

Continuation of Nursing 201. Application of the nursing process and expansion on the concepts of nurse, health, client, and environment, with emphasis on caring for and managing groups of clients, and on the roles of the nurse as communicator, care provider, care manager, teacher and member of the nursing profession. Includes a focus on clients experiencing multiple and complex health alterations. Also includes additional college and clinical laboratory application of selected nursing skills and knowledge in all healthcare settings.

Information: Involves student completion of a five-week preceptorship in an assigned healthcare setting.**NRS 203 Trends and Issues in Nursing / 1 cr. hr./1 period (1 lec.)**

Prerequisite(s): NRS 105.

Co-requisite(s): Concurrent enrollment in NRS 201.

Exploration of the nursing role. Includes current issues and trends in nursing and health care delivery and the role of the nurse as a member of the profession.

NURSING ASSISTANT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

NRA 101/101LC/101LS Nursing Assistant /4 cr. hrs./8 periods (2 lec., 6 lab)

Basic client care nursing skills. Includes theory base for direct client care and fundamental and advanced psychomotor skills at the nursing assistant level.

NRA 102/102LC/102LS Patient Care Technician /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): Certified Nursing Assistant or successful completion of NRA 101 within the last two years.

Multi-skilled approach to patient care. Includes legal and ethical responsibility, asepsis, dressing changes, catheterization, electrocardiograms, phlebotomy, tube feeding, and communication skills.

NURSING CONTINUING EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

NCE 101 Review for NCLEXPN /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Completion of Practical Nursing Program.

Licensure exam preparation. Includes test taking techniques specific to NCLEX format, mock licensure examination and question analysis.

NCE 160/160LB Intravenous Therapy for Licensed Practical Nurses /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): Licensed Practical Nurse and one year current work experience.

Theory and practice needed to administer intravenous fluids and selected premixed medications. Includes assessment of client, pharmacological actions of drugs and fluids, effects on body systems, calculations, prevention and treatment of complications, psychological preparation, alterations to the nursing care plan, and skills acquisition.

NCE 217/217LB Fundamental Hemodialysis /6 cr. hrs./10 periods (2 lec., 8 lab)

Prerequisite(s): LPN or RN license.

Principles and purpose of hemodialysis related to vascular access, initiation and termination of hemodialysis. Includes the administration of intravenous solutions.

NCE 280 The Nurse As Manager /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): LPN, RN or consent of instructor.

Provides information for nurses to successfully transition between the roles of nurse clinician and nurse manager. Includes leadership and management, communication skills, decision making, delegating of work, healthcare policy issues, effective use of power, networking, the law and ethics, and nursing informatics. Also includes change management, quality management, priority management, financial and budget management, management in the work setting, and personnel management.

PHARMACY TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PHT 170 Introduction to Pharmacy Technology /2 cr. hrs./2 periods (2 lec.)

Overview of the role of pharmacy support personnel. Includes allied health professions, history and structure of pharmacy, and legal aspects of pharmacy. Also includes medical terminology emphasizing common medical roots, prefixes and suffixes, and pharmaceutical abbreviations.

PHT 171/171LB Pharmaceutical Calculations /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): PHT 170 or concurrent enrollment.

Mathematical computations needed in the practice of pharmacy technology. Includes fundamentals of mathematical calculations, units and measures for the calculation of drug dosages, and interpretation of the prescription or medication order. Also includes calculation of drug dosages, reducing and enlarging formulas, percentage preparations, dilution and concentration, isotonic solutions, and electrolyte solutions.

PHT 172 Drug Therapy I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): PHT 170 or concurrent enrollment.

Overview of the relationship between the central nervous system (CNS), the autonomic nervous system (ANS) and pharmaceutical therapy. Includes anatomy and physiology of the CNS, neurotransmission and disorders of the CNS, therapeutic applications of drugs affecting the CNS, and characteristics of drugs of the CNS. Also includes anatomy and physiology of the ANS, drug action on ANS neurotransmission, disorders treated with autonomic drugs, and types and characteristics of autonomic drugs.

PHT 174/174LB Pharmacy Operations /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): PHT 170 or concurrent enrollment, and PHT 171 or concurrent enrollment.

Technical aspects of drug distribution in both inpatient and outpatient settings. Includes basic pharmacy references, equipment and materials, non-sterile dosage forms, and inventory control. Also includes large and small scale compounding, packaging, and quality control.

PHT 178/178LB Pharmacy Microcomputers /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): PHT 170 or concurrent enrollment.

Basic concepts of computer operation. Includes the Internet, computer hardware and software, and professional pharmacy applications in retail and hospital pharmacy. Also includes legal and ethical considerations, and future directions.

PHT 180/180LB Sterile Products /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): PHT 171 or concurrent enrollment.

Application of aseptic techniques and use of the laminar flow hood in the preparation of sterile products. Includes history of sterile products and parenteral therapy, characteristics of sterile products, principles of fluid and electrolyte therapy, basics of microbiology, antiseptics and sterilization, and sterile products calculations. Also includes introduction to IV labels and profile systems, aseptic techniques, total parenteral nutrition, incompatibilities, quality control, and specialized sterile products.

PHT 181 Interprofessional Relations in Pharmacy /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PHT 170 concurrent enrollment or consent of instructor.

Overview of effective communication skills needed by the pharmacy technician to use interpersonally and between the pharmacist, the patient, and other health care professionals. Includes human relations development, personality inventory, and elements in communication in areas of non-verbal, interpersonal, barriers, listening, empathy and interviewing. Also includes building better patient understanding in special situations such as death and dying, ethnicity, conflict resolution, and ethical patient care.

PHT 182 Drug Therapy II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): PHT 170 or concurrent enrollment.

The relationship between anatomy and physiology, disease states, and pharmaceutical therapy. Includes origins, dosage forms, indications, actions, routes of administration and side effects of both prescription and non-prescription drugs used in diseases of the cardiovascular, circulatory, renal, endocrine, respiratory, digestive, reproductive, and integumentary systems.

PHT 189 Pharmacy Technician Administration /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Completion of the certificate or consent of instructor.

Practical management techniques for pharmacy technician supervisors and managers. Includes building an organization from the beginning stages. Also includes managing and maintaining the organization.

PHT 190LB Pharmacy Technician Internship /4 cr. hrs./16 periods (16 lab)

Prerequisite(s): Completion of the core curriculum for the certificate. On-site training in outpatient and inpatient pharmacy services under direct supervision of a designated pharmacist.

PHT 197 Clinical Seminar /2 cr. hrs./2 periods (2 lec.)

Co-requisite(s): Concurrent enrollment in PHT 190.

Topics and discussions of importance to the pharmacy technician. Includes employment search preparation, research reports, and technical papers. Also includes a review of the Arizona Pharmacy Association Pharmacy Technician Certification Exam.

PHILOSOPHY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PHI 101 Introduction to Philosophy /3 cr. hrs./3 periods (3 lec.)

Survey of Western Philosophy. Includes primary source readings in western philosophic areas: logic, epistemology, ethics, social/political philosophy, philosophy of religion, metaphysics, philosophy of science, and aesthetics.

PHI 120 Introduction to Logic /3 cr. hrs./3 periods (3 lec.)

Introduction to the main types of logical reasoning. Includes the nature of language, deductive logic, and inductive logic. Also includes the principles of sound reasoning in both formal and scientific investigation.

PHI 122 God, Mind, and Matter /3 cr. hrs./3 periods (3 lec.)

Introduction to the metaphysics and epistemology of the cognitive and material domains of Western philosophy. Includes primary source readings and philosophic method applied to ancient, medieval, modern, and contemporary investigations of God, mind, and matter.

PHI 123 Philosophical Foundations of Science /3 cr. hrs./3 periods (3 lec.)

Introduction to Western philosophical foundations of science. Includes scientific method, classical, medieval, modern and contemporary ideas regarding science, mathematics, and knowledge, and philosophical problems raised by discovery and change.

PHI 130 Introductory Studies in Ethics and Social Philosophy / 3 cr. hrs./3 periods (3 lec.)

Introduction to the study of the principles of morality and standards of conduct from a western philosophical perspective. Includes philosophical method, foundations of moral philosophy, ethical-value judgments and human nature, theories of social morality and justice, and emotions and faith.

PHI 140 Philosophy of Religion /3 cr. hrs./3 periods (3 lec.)

Introduction to Western philosophical methods as applied to religion. Includes nature and meaning of religion and God, classical arguments, the impact of religious belief on ethics, psychology, and law in the West, faith and reason, theodicy, and mysticism.

Information: This is not a world religions class.

Information: Same as REL 140.

PHYSICS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PHY 061 Problem Solving for Physics 121 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 121.

Strategies and techniques used to solve problems encountered in Physics 121. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 062 Problem Solving for Physics 122 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 122.

Strategies and techniques used to solve problems encountered in Physics 122. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 063 Problem Solving for Physics 210 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 210.

Strategies and techniques used to solve problems encountered in Physics 210. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 064 Problem Solving for Physics 216 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 216.

Strategies and techniques used to solve problems encountered in Physics 216. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 065 Problem Solving for Physics 221 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 221.

Strategies and techniques used to solve problems encountered in Physics 221. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 066 Problem Solving for Physics 230 /1 cr. hr./1 period (1 lec.)

Co-requisite(s): Concurrent enrollment in PHY 230.

Strategies and techniques used to solve problems encountered in Physics 230. Includes mathematical skills, error analysis, and graphing, with an emphasis on analysis and solution of word problems.

PHY 101/101LB Technical Physics I /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MAT 086.

Concepts of physics related to technician occupations. Includes state of matter, forces in water and other liquids, forces in air and other gases, forces in work and machines, concepts of motion, heat energy, psychometrics, electrical principles, and electromagnetic spectrum.

PHY 102/102LB Technical Physics II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MAT 092 or concurrent enrollment is suggested.

Designed for the technician. Covers the application to the various technology fields of acoustics, electricity, light, optics, and electronics. Includes a brief explanation of the math used.

PHY 115/115LB Physical Science /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): High School algebra.

Basic concepts of mechanics, heat, light, sound, electricity and energy. Included are properties of matter, the atomic theory of matter, and discussion of the impact of modern physics on society.

PHY 121/121LB Introductory Physics I /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): High school algebra.

Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes mechanics and heat.

PHY 122/122LB Introductory Physics II /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): PHY 121.

Continuation of PHY 121. Includes waves, electricity, magnetism, optics, relativity, and modern physics.

PHY 195 Introduction to Research in Physics /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Consent of instructor.

Introduction to the methods of research in physics. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.

PHY 196 Independent Studies in Physics /1-4 cr. hrs./3-12 periods (3-12 lec.)

Prerequisite(s): Consent of instructor.

Independent studies and projects in physics and allied science fields. Content to be determined by conference between student and instructor.

Information: May be taken two times for a maximum of eight credit hours.

PHY 210/210LB Introductory Mechanics /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): MAT 220 and high school physics.

Calculus-based introduction to mechanics for physics, engineering, and mathematics majors. Includes kinematics, dynamics, and conservation of energy, linear, and angular momentum.

PHY 216/216LB Introductory Electricity and Magnetism /5 cr. hrs./ 7 periods (4 lec., 3 lab)

Prerequisite(s): PHY 210, MAT 231.

Calculus-based introduction to electricity and magnetism for physics, mathematics, and engineering majors. Includes electric and magnetic field theory, Gauss's Law, potential theory, capacitance, circuit theory, Ampere's Law, Faraday's Law, and Maxwell's equations.

PHY 221/221LB Introduction to Waves and Heat /4 cr. hrs./ 6 periods (4 lec., 2 lab)

Prerequisite(s): PHY 210, MAT 231.

Calculus-based introduction to waves and heat for physics, mathematics, and engineering majors. Includes fluid statics and dynamics, heat and thermodynamics, simple harmonic motion, wave theory, physical and geometric optics.

PHY 230 Introduction to Modern Physics /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PHY 210 and 216, or PHY 221 and MAT 231.

Calculus-based introduction to modern physics from the theory of relativity to the origins of quantum mechanics. Includes the classical theory of relativity, inertial reference frames, the special theory of relativity, and relativistic kinematics and dynamics. Also includes the quantization of energy, wave particle duality, early quantum theory, atomic physics and the hydrogen atom, nuclear, and elementary particle physics.

PHY 295LB Independent Research in Physics /1-4 cr. hrs./ 3-12 periods (3-12 lab)

Prerequisite(s): One semester of physics and consent of instructor. Experience in scientific laboratory research. Specific content to be determined by student and instructor.

Information: May be taken three times for a maximum of twelve credit hours.**POLITICAL SCIENCE***For courses numbered 098, 198, 298, see "Topics Courses" in index.***POS 100 Introduction to Politics /3 cr. hrs./3 periods (3 lec.)**

Basic issues, principles, and methods of contemporary political science. Includes the nature of politics and political science, the role of ideas and goals in creating political change, the different forms of government and political behaviors, and modes of international influence and control.

POS 105 Fundamentals of Arizona Government /1 cr. hr./1 period (1 lec.)

Study of the government of Arizona. Includes its history and politics, the Constitution, the legislature, the executive branch, fiscal and personnel, the judiciary system, trial rights, elections and voting, local governments, urbanization, and intergovernmental relations.

POS 110 American National Government and Politics /3 cr. hrs./ 3 periods (3 lec.)

Basic concepts and substance of American politics. Includes methods of political analysis, cultural environment of American politics, impact of class, gender, and immigration, Constitution, civil liberties, and civil rights, public opinion and fundamental values, political institutions, and institutions of government, economic and social policymaking and American foreign policy and interdependence.

POS 120 Introduction to International Relations /3 cr. hrs./ 3 periods (3 lec.)

Examination of contemporary international relations. Includes an overview of various frameworks for the analysis of international relations, the concept of power, formation of foreign policy, international law, international and regional organizations, and the economic, social and political determinants of global political behavior.

POS 130 American State and Local Governments and Politics / 3 cr. hrs./3 periods (3 lec.)

Basic concepts and substance of American state and local politics and government. Includes methods of political analysis, federalism/intergovernmental relations, cultural environment of state and local politics, impact of class, gender, age, and occupation, public opinion and fun-

damental values, interest articulation and aggregation, institutions and processes of state and local governments, tribal governments, and state and local policy-making.

POS 140 Introduction to Comparative Politics /3 cr. hrs./3 periods (3 lec.)

Basic concepts and substance of comparing political systems. Includes methods of comparative political analysis, politics and the socio-cultural environment, public authority and political power, individuals, cultural diversity, and state, political institutions, governmental institutions, and political change.

POS 160 Introduction to Political Ideas /3 cr. hrs./3 periods (3 lec.)

Basic concepts in political theory. Includes historical and contemporary views on justice and the good society, authority and obligations of political leaders and citizens, the tension between liberty and equality, and tenets of feminism and cultural criticism.

POS 196 Independent Study in Political Science /2-4 cr. hrs./ 2-4 periods (2-4 lec.)

Independent readings or special projects in political science. Content to be determined by conference between student and instructor.

POS 220 National and State Constitutions /3 cr. hrs./3 periods (3 lec.)Principles and procedures of the national and state constitutions. Includes historical and legal environment of the United States and Arizona constitutions, civil rights and civil liberties, opinions and values in national and state politics, linking mechanisms in national and state politics, policymakers, public policy-making, and constitutional change. Information: Satisfies the requirements for teacher certification.**POS 230 Minority Groups and the Political Process /3 cr. hrs./ 3 periods (3 lec.)**

Investigation of the position of various minority groups in the American political system. Includes general political attitudes, voting behavior, and patterns of political organization. Also includes party activity and the minority role in the formation of public policy.

POS 290 Political Science Internship /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): WRT 101 and 6 credit hours in political science.

Supervised internship in a local governmental office. Includes placement with elected officials or candidates for public office, governmental agencies, and city, county or state departments. Also includes substantive assignments involving development and application of analytical, research and writing skills.

PORTUGUESE*For courses numbered 098, 198, 298, see "Topics Courses" in index.***POR 101 Elementary Portuguese I /4 cr. hrs./4 periods (4 lec.)**

Basic linguistic skills of the Portuguese language. Includes proficiency in speaking, reading, writing and understanding Portuguese. Also includes an emphasis on Portuguese cultural traditions.

POR 102 Elementary Portuguese II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): POR 101.

Continuation of POR 101. Includes increased proficiency in listening, speaking, reading and writing. Also includes continued study of cultural traditions of Portugal and Brazil.

POR 201 Intermediate Portuguese I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): POR 102.

Continuation of POR 102. Includes selection of grammar structures, literary, political, and social vocabulary, selection of literary works by period, and cultural and stylistic differences.

POR 202 Intermediate Portuguese II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): POR 201.

Continuation of POR 201. Includes additional selection of grammar structures, additional literary, political, and social readings, additional selection of literary works by period, and additional cultural and stylistic differences.

POSTAL SERVICE MANAGEMENT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PSM 140 Mail Processing /3 cr. hrs./3 periods (3 lec.)

Principles and practices of mail processing. Includes mail classification and rates, service standards, postal terminology, mail processing functions, distribution systems, objectives, responsibilities, mail preparation, manual distribution, revenue protection and bulk mail centers.

PSM 210 Mailroom Procedures and Mailing Techniques /3 cr. hrs./3 periods (3 lec.)

In-depth study of business mailroom procedures and techniques. Includes mailroom setup, equipment, personnel administration, time management and U.S. Postal Service requirements for all classes of mail.

Information: Prepares student for employment in a business mailroom.

PSM 260 Postal Problems Analysis /3 cr. hrs./3 periods (3 lec.)

Analysis and solution of actual postal problems using systematic approaches. Includes problem identification, determination and analysis of dimensions, probable causes, adverse consequences, alternative solutions, and specification and defense of best solution.

PRODUCTION INVENTORY MANAGEMENT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PIM 150 Physical Distribution Management /3 cr. hrs./3 periods (3 lec.)

In-depth study of the logistical function. Includes customer service standards, inventory control concepts, transportation methods, order processing systems, warehousing location analysis, industrial packaging, and materials handling.

Information: Same as MKT 150.

PIM 200 Production Planning /3 cr. hrs./3 periods (3 lec.)

Master planning techniques used for production management and inventory. Includes business planning, production forecasting, master production scheduling, and techniques in materials management.

Information: Candidates for APICS Master Planning certification examination will find this course valuable.

PIM 210 Production Control /3 cr. hrs./3 periods (3 lec.)

Principles of production activity control and capacity management. Includes scheduling and controlling the shop floor, capacity requirements planning, resource requirements planning and closed loop Material Requirements Planning (MRP).

Information: Candidates for APICS Production Activity Control certification examination will find this course valuable.

PIM 215 Material and Capacity Requirements Planning /3 cr. hrs./3 periods (3 lec.)

Beginning and advanced methods of time-phased Material and Capacity Requirements Planning (M&CRP). Includes bills of material, data-requirements, phased inventory requirements, the planner's interface to the MRP system, and methods of capacity planning.

Information: Candidates for APICS Material and Capacity Requirements Planning certification examination will find this course valuable.

PROFESSIONAL FLIGHT TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PFT 101 Stage One Ground School /4 cr. hrs./4 periods (4 lec.)

Knowledge and procedures for the Federal Aviation Administration (FAA) private pilot ground school certificate. Includes aerodynamics, instruments and systems, weight and balance, cross-country planning, Airman's Informational Manual (AIM), Notices to Airmen (NOTAMS), aircraft/facility directory, radio navigation, weather, safe and efficient operation of airplanes, and final examination.

PFT 122 Meteorology /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.

Continuation of PFT 101. Includes an in-depth study of weather elements, weather hazards, aviation weather reports, and forecasts.

PFT 130 Stage Three Commercial Ground School /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): Consent of instructor.

Preparatory course for Federal Aviation Administration (FAA) Commercial Pilot Certification. Includes the information required to pass the FAA written test for the Commercial Pilot Certificate.

PFT 204 Stage Four Commercial Pilot (Instrument) Ground School /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): PFT 101 and consent of instructor.

Knowledge and procedures for the Federal Aviation Administration (FAA) instrument pilot certificate. Includes government publications, radio aids, air traffic control procedures, Federal Aviation Regulations (FAR), cross country operations and procedures, weather theory, aviation weather data, flight instruments and systems, attitude instrument flight, flight physiology, and final examination.

PFT 230 Flight Instructor Fundamentals of Instruction /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PFT 130, 204, or consent of instructor.

Study of the basic principles of teaching and learning as it applies to the requirements to obtain the Federal Aviation Administration's (FAA) Flight Instructor rating. Includes the fundamentals of conveying aeronautical knowledge and skills to beginning and advanced learners in preparation for FAA examinations.

PFT 231 Flight Instructor Airplane Ground School /5 cr. hrs./5 periods (5 lec.)

Prerequisite(s): Possession of an Airplane Flight Instructor certificate and instrument rating.

Theory and procedures associated with the ground school requirements to attain Federal Aviation Administration Flight Instructor certification. Includes aerodynamic principles, engine limitations, pitotage, communications, and federal regulations.

PFT 250 Flight Instructor Instrument Airplane Ground School / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Possession of an Airplane Flight Instructor certificate and instrument rating.

Theory and procedures associated with the ground school requirements to attain Federal Aviation Administration Flight Instructor - Instrument Airplane certification. Includes the items required by the FAA to obtain an Instrument Flight Rating addition to a Flight Instructor Certificate and a requirement to teach all areas required by the FAA to obtain an Instrument Flight Instructor Airplane Rating addition to a Flight Instructor Certificate.

PSYCHOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PSY 089 Understanding Human Behavior /3 cr. hrs./3 periods (3 lec.)

The scientific approach to the study of psychology, surveying the physiological, intrapsychic and social-behavioral views of human thought and behavior. Includes sensation and perception, motivation, learning and memory, maturation and development, personality theory and psychotherapy.

PSY 100A Psychology I /3 cr. hrs./3 periods (3 lec.)

Survey of psychology. Includes definition of psychology, history of psychology, research methods and critical thinking, major stages in child development, major stages in life span development, intelligence, major personality theories, psychological disorders, therapeutic approaches, and social psychology research.

PSY 100B Psychology II /3 cr. hrs./3 periods (3 lec.)

Topics in psychology. Includes definition of psychology, history of psychology, biological basis of behavior, sensory process, receiving the world, states of consciousness, conditioning and learning, memory process, motivation and emotions, role of health psychologists in lessening behavioral risks to health, role of stress in our lives, and gender identity and sexuality.

PSY 101 Introduction to Psychology /4 cr. hrs./4 periods (4 lec.)

Recommended: Twelfth grade reading level or higher.

Survey of general psychology. Includes a definition of psychology, history of psychology, research methods and critical thinking, biological basis of behavior, sensory process, receiving the world, states of consciousness, conditioning and learning, memory process, motivation and emotions, role of health psychologists, role of stress in our lives, major stages in child and life span development, gender identity and sexuality, intelligence, personality theories, psychological disorders, therapeutic approaches, social psychology research, and gender identity and sexuality.

Information: Content is a combination of elements of PSY 100A and 100B.

PSY 140 Introduction to Applied Behavior Analysis /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.

Introduction to the field of behavior change using client-centered positive approaches. Includes teaching, psychotherapy, personal behavior change programs, law enforcement, addiction, business management, treatment of juvenile offenders, and sports psychology.

PSY 200 Industrial, Organizational, and Business Psychology / 3 cr. hrs./3 periods (3 lec.)

Introduction to the application of psychological theory and practice to the work place. Includes employment laws and policies, leadership models and characteristics, and organizational structures. Also includes employment-related stress theories and interventions, and designing effective work environments.

PSY 210 Introduction to Biopsychology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100B or 101.

Survey of the basic principles of the nervous system function. Includes research methods, theoretical perspectives, anatomy and functions of the nervous system, and brain function and behavior. Also includes such topics as the biological basis of sleep and rhythms, stress and health, aggression and violence, and mental disorders.

PSY 214 Abnormal Psychology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.

Examination of primary patterns of behavior disorders, including different perspectives on the causes and treatment approaches.

PSY 215 Human Sexuality /3 cr. hrs./3 periods (3 lec.)

Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, sociological, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.

Information: Same as SOC 215.

PSY 216 Psychology of Gender /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.

Biological and social explanations of gender development and behavior. Includes consequences of gender related attitudes and expectations and implications of human liberation.

PSY 218 Health Psychology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.

Overview of the area of health psychology. Includes mind-body relationships, behavior risk factors and psychosocial aspects of specific disorders.

PSY 220 The Psychology of Death and Loss /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101.

Adjustment to death and loss. Includes current social and attitudinal considerations.

PSY 224 Investigating Paranormal Psychology /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): PSY 100A and 100B or 101 or consent of instructor.

Survey of experiments and case studies in paranormal phenomena. Includes extrasensory perception, psychokinesis, and reports of near-death experiences. Also includes research methodologies and potential applications.

PSY 226 Psychology of Creative Arts /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A and 100B or 101 or consent of instructor.

Experiential, theory and practice of the primary modalities of art therapy. Includes history, psychological and anthropological theory, analysis of techniques, field applications, and cross-cultural bridges. Also includes individuation, community-building, stress management, and enhancement of professional skills.

PSY 228 Introduction to Psychodrama /3 cr. hrs./3 periods (3 lec.)

Practical application of psychodramatic methods. Includes use of warm-up, action, sharing, scene setting, auxiliaries, role reversal, mirror, double, soliloquy, and aside.

PSY 230 Psychological Measurements and Statistics /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): PSY 100A, 100B, MAT 122.

Measurement, quantitative description and statistical inference as applied to psychological variables. Designed for students planning to major or minor in psychology.

PSY 250 Introduction to Social Psychology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101.

Introduction to major theories and research findings of social psychology. Includes research focus and methods, social influence on individual behavior, effects of culture and gender on social behavior, self-perception and attitudes, and social perceptions and international relations.

PSY 254 Psychology of Love and Compassion /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101.

Introduction to theory and research on the psychology of love and caring. Includes applications to mental, physical and spiritual health.

PSY 265 Normal Personality /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.

Psychological functioning and coping behaviors for normal personality development.

PSY 270 Meditation /3 cr. hrs./3 periods (3 lec.)

Principles, techniques, and practice of meditation. Includes information and experiential activities to increase understanding of physical, mental, emotional, social, and spiritual factors in meditation and stress reduction.
Information: Same as HUM 270.

PSY 271 Social Psychology of Sport /3 cr. hrs./3 periods (3 lec.)

Analysis of the relationship of sport to the social psychological principles of socialization, values, concentration, anxiety, aggression, motivation, team interactions, and peak performance.
Information: Same as SOC 271.

PSY 273 Psychology of Human Performance /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 101 or 100A.
Psychological theories, research and intervention strategies for enhancing performance in diverse life and work settings. Includes time management, principles of self-regulation, enhancing memory and work habits, setting goals and dealing with stress. Also includes cognitive theories and approaches to self control, problem solving and decision making, mental imagery, attentional focus, effective communication, and conflict resolution.

PSY 289 Research Methods /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): PSY 230.
Introduction to scientific methodologies used in psychological research. Includes experience in using a range of psychological research methods for students planning to major or minor in psychology.

PSY 289A Research Methods /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): PSY 230.
Lecture class on scientific methodologies used in psychological research. Includes a selection of psychological research methods.
Information: Designed for students planning to major or minor in psychology.
Information: PSY 289A and 289B together constitute PSY 289.

PSY 289B Laboratory for Research Methods /1 cr. hr./3 periods (3 lab)

Prerequisite(s): PSY 289A or concurrent enrollment.
Laboratory on experimental research and report writing for PSY 289A. Includes conducting, analyzing and writing reports on original research.
Information: PSY 289A and 289B together constitute PSY 289.

PSY 290 Social Psychology Practicum /1-6 cr. hrs./3-18 periods (3-18 lab)

Prerequisite(s): PSY 100A or 101 or consent of instructor.
Familiarization with specific areas of social psychology. Includes pertinent research, directed observation, and personal participation in relevant experimental or natural settings.
Information: May be taken two times for a maximum of six credit hours.

PSY 296 Individual Studies in Psychology /1-6 cr. hrs./1-6 periods (1-6 lec.)

Prerequisite(s): PSY 100A or 101 or consent of instructor.
Exploration of special interest areas. Content to be determined by student and facilitator-instructor.
Information: May be taken two times for a maximum of six credit hours.

PUBLIC ADMINISTRATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PAD 105 Introduction to Public Administration /3 cr. hrs./3 periods (3 lec.)

Basic concepts and substance of American public administration. Includes a definition of public administration, paradigms of public administration, public organizations in the United States, public management techniques, implementation and evaluation, and ethics and public administration.

PAD 204 Introduction to the Analysis of Data for Decision Making /3 cr. hrs./3 periods (3 lec.)

Informal and exploratory approaches to the analysis of empirical data in a public administration context. Includes methods of decision analysis, modeling decisions, modeling uncertainty, and modeling preferences.

PAD 221 Health, Human Services, and Public Management /3 cr. hrs./3 periods (3 lec.)

Survey of significant issues in health care, aging, social security, public planning and decision-making. Includes American health services, American human services, public management in America, policy-making and implementation, data use and interpretation in public management, and practical cases in health and human services.

PUBLIC SAFETY COMMUNICATIONS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

PSC 120 Public Safety Communications I /3 cr. hrs./3 periods (3 lec.)

Skills and concepts of Public Safety telecommunications. Includes an historical perspective, interpersonal communications skills, public access, organizational structure, and current technology.

PSC 121 Public Safety Communications II /3 cr. hrs./3 periods (3 lec.)

Continuation of PSC 120. Includes organizational structure, interpersonal communication skills, stress management, hazardous materials, and basic and advanced life support.

PSC 130 Communication Center Operations I /3 cr. hrs./3 periods (3 lec.)

Performance skills and concepts of a public safety telecommunications operation center. Includes organizational structure, skills training, technology, liability, interpersonal communications, customer service, and computer databases.

PSC 131 Communication Center Operations II /3 cr. hrs./3 periods (3 lec.)

Continuation of PSC 130. Includes an historical perspective, interpersonal communications skills, public access, organizational structure, standard operating procedures, current technology, and the use of computers.

PSC 190 Field Experience /1-4 cr. hrs./5-20 periods (5-20 lab)

Prerequisite(s): Consent of instructor.
Field experience providing the opportunity to apply course work in a planned and supervised public safety communications setting.

PSC 199 Co-op Related Class in PSC /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Consent of instructor.
See Cooperative Education section for description.

PSC 199WK Co-op Work in PSC /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Consent of instructor.
See Cooperative Education Section for description.

QUALITY CONTROL TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

QCT 101 Quality Control I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092 or satisfactory score on the math assessment test.
Introduction to the concepts of quality control. Includes basic statistics, use of control charts for attributes and variables, linear correlation, and assigned experiments. Also includes specialized concepts of reliability and maintainability.

QCT 102 Quality Control II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): QCT 101.
Introduction to the concepts of quality control management. Includes quality department organization, quality systems and procedures, procurement quality control, standards and calibration, inspection principles and practices, internal quality audits and the economics of quality control.

QCT 105 Quality Management for the Receiving Area /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): REA 073, MAT 082.

Analysis of quality management for the receiving area in the manufacturing environment. Includes product acceptance types and methods, configuration control and traceability, hardware disposition, and qualification of supplies and verification of hardware.

QCT 106 Quality Specialist: Receiving Area Inspection /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): QCT 105.

Principles and procedures of quality management in the receiving area of a manufacturing environment. Includes inspection tasks common to all shipments; receiving and processing of source and in-house inspected materials such as electrical, mechanical, sister division, raw, and certified supplier materials; and documenting nonconforming material.

QCT 110 Nondestructive Inspection /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MAC 285, MAT 110.

Parts inspection for production defects. Includes types of discontinuities, principles of nondestructive inspection methods, equipment and test procedures, applicable specifications and standards, interpretation and evaluation of test results.

RADIOLOGIC TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

RAD 170/170LB Medical Imaging Fundamentals /3 cr. hrs./ 5 periods (2 lec., 3 lab)

Prerequisite(s): Admission into program.

Principles of radiographic imaging. Includes medical imaging equipment, image formation, positioning of the chest, and radiation protection.

RAD 171/171LB Radiographic Positioning I /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 170 and consent of program coordinator.

Radiographic positioning of the abdomen, upper and lower extremities, pelvic girdle, and spine. Includes patient care, anatomy, and pathology.

RAD 172/172LB Medical Imaging Technology I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 170 and consent of program coordinator.

Radiographic image production and evaluation. Includes image quality, quality assurance, radiation protection, and film processing.

RAD 173LB Clinical Education I /4 cr. hrs./16 periods (16 lab)

Prerequisite(s): RAD 170 and consent of program coordinator.

Application of general radiographic procedures in a clinical education center under the supervision of a certified radiographer. Includes safety practices and patient care.

RAD 174/174LB Radiographic Positioning II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 171, 172, 173.

Radiographic positioning of the ribs and shoulder girdle. Includes fluoroscopic procedures of the upper/lower gastrointestinal tract, biliary, and genitourinary systems.

RAD 175/175LB Medical Imaging Technology II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 171, 172, 173.

Principles of x-ray production. Includes radiation physics, x-ray generators, diagnostic radiographic systems, and radiation safety.

RAD 176LB Clinical Education II /4 cr. hrs./24 periods (24 lab)

Prerequisite(s): RAD 171, 172, 173.

Continuation of RAD 173. Includes application of special radiographic positioning of the skeletal system exclusive of the skull. Also includes emergency radiographic procedures.

RAD 177LB Clinical Education III /6 cr. hrs./36 periods (36 lab)

Prerequisite(s): RAD 174, 175, 176.

Continuation of RAD 176. Includes surgical radiographic procedures.

RAD 181/181LB Radiographic Positioning III /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 177.

Radiographic positioning of the skull, special imaging procedures, and radiation biology. Includes radiographic critique and anatomy.

RAD 182/182LB Medical Imaging Technology III /4 cr. hrs./ 6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 177.

Specialized and advanced medical imaging systems. Includes mobile radiography, tomography, image intensification, special procedures, Nuclear Medicine, Ultrasound, CT Scanning, and Magnetic Resonance Imaging.

RAD 183LB Clinical Education IV /4 cr. hrs./24 periods (24 lab)

Prerequisite(s): RAD 177.

Continuation of RAD 177. Includes fluoroscopy, mobile, and special radiographic procedures.

RAD 184/184LB Radiographic Positioning IV /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): RAD 181, 182, 183.

Routine positioning for mammography, pediatrics, cardiovascular, and interventional examinations. Includes anatomy, patient care, patient management, and medical emergencies.

RAD 185 Clinical Seminar /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RAD 181, 182, 183.

Presentations on radiographic procedures. Includes image production, patient care, equipment operation, and radiation protection.

RAD 186LB Clinical Education V /4 cr. hrs./24 periods (24 lab)

Prerequisite(s): RAD 181, 182, 183.

Continuation of RAD 183. Includes advanced imaging procedures, Computer Tomographic Scanning, Magnetic Resonance Imaging, and radiographic positioning of the skull.

RAD 210 Sectional Anatomy of the Head and Neck /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): American Registry of Radiologic Technologists certification or permission of instructor.

Three dimensional anatomy presented in sagittal, transverse, and

coronal planes of the head and neck. Includes structure identification and anatomic relationships of the bones, organs, muscles, nerves, and cavities.

RAD 211 Sectional Anatomy of the Abdomen /1 cr. hr./1 period (1 lec.)

Prerequisite(s): American Registry of Radiologic Technologists certification or permission of instructor.

Three dimensional anatomy presented in sagittal, transverse, and coronal planes of the abdomen. Includes structure identification and anatomic relationships of the bones, organs, muscles, nerves, and cavities.

RAD 212 Sectional Anatomy of the Thorax /1 cr. hr./1 period (1 lec.)

Prerequisite(s): American Registry of Radiologic Technologists certification or consent of instructor.

Three dimensional anatomy presented in sagittal, transverse, and coronal planes of the thorax. Includes structure identification and anatomic relationships of the bones, organs, muscles, nerves, and cavities.

READING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

REA 050 Basic Reading /1 cr. hr./1 period (1 lec.)

Development of skills necessary to prepare for and pass the General Education Development (GED) test.

REA 068 Techniques of Vocabulary /2 cr. hr./2 period (2 lec.)

Introduction to five basic strategies for vocabulary development. Includes use of context clues, word parts, word cards, the dictionary, and imaging techniques.

Information: May be taken four times for a maximum of eight credit hours.

REA 071 Reading Fundamentals /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Satisfactory score on reading assessment test.

Development of fundamental reading strategies. Includes extensive development of word analysis, vocabulary, and reading strategies necessary to assure successful comprehension at the literal level. Designed for persons who need an intensive review of the basic reading strategies.

Information: May be taken two times for a maximum of eight credit hours.

REA 073 Understanding What You Read /2 cr. hrs./2 periods (2 lec.)

General overview of methods and techniques for reading college material. Includes explanation and application of the different levels of comprehension in college textbooks. Also includes strategies for applying the comprehension skills necessary for college reading.

Information: May be taken two times for a maximum of four credit hours.

REA 075 Spelling /2 cr. hr./2 period (2 lec.)

Development of strategies for improving spelling. Includes the improvement of spelling skills through study and practice of phonic principles and study of homonyms and their appropriate uses.

Information: May be taken two times for a maximum of four credit hours.

REA 077 Study Skills /2 cr. hrs./2 periods (2 lec.)

Development of study skill strategies. Includes instruction and application in note taking, memory and using text structure for better understanding. Also includes organizational techniques, graphic literacy and techniques for learning textbook material.

Information: May be taken four times for a maximum of eight credit hours.

REA 078 Test-Taking Techniques /1 cr. hr./1 period (1 lec.)

Techniques of preparing for and taking various types of tests as found in a college setting.

Information: May be taken two times for a maximum of two credit hours.

REA 081 Reading Improvement I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Successful completion of REA 071 with grade of C or better, satisfactory score on reading assessment test or instructor recommendation.

Improvement of basic reading strategies. Includes development of

word analysis, vocabulary, and reading strategies necessary to assure successful comprehension at the literal and text-based levels.

Information: Designed for persons who need to improve reading strategies in order to increase their success in college.

Information: May be taken two times for a maximum of eight credit hours.

REA 091 Reading Improvement II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Successful completion of REA 081 with grade of C or better, satisfactory score on reading assessment test or instructor recommendation.

Development of reading strategies. Includes literal and critical comprehension, textbook reading strategies, analytical reasoning, reading rate improvement, and vocabulary expansion and retention.

Information: Designed for persons who need to improve reading strategies in order to increase their success in college.

Information: May be taken two times for a maximum of eight credit hours.

REA 112 Critical Reading /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): REA 091 or placement through reading assessment.

Development of college reading strategies. Includes comprehension strategies at the college level, critical reading and thinking, reading rate, and advanced study strategies. Also includes vocabulary development.

REA 125 Speed Reading /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): Comprehension score of 12.0 on the college reading assessment test.

Improvement of reading rate. Includes an emphasis on comprehension and analysis of written passages using various visual perception techniques.

REAL ESTATE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

RLS 083 Environmental Issues for Relators /2 cr. hrs./3 periods (2 lec., 1 lab)

Technical and legal issues concerning the sale of commercial, industrial, and residential properties that may involve "environmental damage." Includes detailed Environmental Phase I Site Assessments.

Information: Not for ENV majors.

Information: Same as ENV 083.

RLS 101 Introduction to Real Estate Principles /3 cr. hrs./3 periods (3 lec.)

Introduction to the broad field of real estate. Includes the principles of the nature and description of real estate; rights and interests in land/acquisition and transfer of title; different kinds of ownership, title records and contracts; landlord and tenant relationships; and real estate brokerage. The Arizona Department of Real Estate will accept this course as satisfying forty-five (45) of the ninety (90) hour pre-licensing educational requirements.

RLS 105 Principles of Real Estate/License Preparation /6 cr. hrs./6 periods (6 lec.)

Introduction to real estate, including associated rules and regulations. The Arizona Department of Real Estate accepts this course as satisfying the 90 hour pre-licensing educational requirements.

Information: RLS 105 covers the same material as RLS 101, but more in-depth.

RLS 202 Real Estate Appraisals /3 cr. hrs./3 periods (3 lec.)

Basic principles and practical application of real estate appraisals. Includes valuation terms, market analysis, classification of data and income and cost factors.

RLS 205 Real Estate Finance /3 cr. hrs./3 periods (3 lec.)

Overview of real estate finance from the viewpoint of the home mortgage loan officer. Includes the mortgage market, acquisition of a mortgage portfolio, mortgage plans and procedures, mortgage loan processing and servicing and duties of the mortgage loan officer.

RLS 252 Advanced Appraisal Techniques /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RLS 202 or consent of instructor.

Provides understanding of the mathematical procedures used to analyze data and derive value estimates for income-producing properties. Includes the theory and application of the income capitalization approach to appraisal. Also includes discounted cash flow analysis.

RECORD AND INFORMATION MANAGEMENT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

RIM 121 Introduction to Health Information Management /2 cr. hrs./2 periods (2 lec.)

Overview of organization and analysis of the health record. Includes health record, health record systems, ancillary department relationships, and accreditation standards.

RIM 132 Records Management: Filing Systems /3 cr. hrs./3 periods (3 lec.)

Principles and procedures of filing systems. Includes rules for indexing, coding, and filing, cross references, filing systems, advantages and disadvantages of each filing system, file maintenance and management, and simulations and field trip(s).

RIM 132A Records Management: Filing Systems A /1 cr. hr./1 period (1 lec.)

Principles and procedures of filing systems. Includes rules for indexing, coding, and filing, and cross references.

Information: RIM 132A, 132B, and 132C together constitute RIM 132.

RIM 132B Records Management: Filing Systems B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RIM 132A.

Continuation of RIM 132A. Includes filing systems, and advantages and disadvantages of each filing system.

Information: RIM 132A, 132B, and 132C together constitute RIM 132.

RIM 132C Records Management: Filing Systems C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RIM 132B.

Continuation of RIM 132B. Includes file maintenance and management, and simulations and field trip(s).

Information: RIM 132A, 132B, and 132C together constitute RIM 132.

RIM 133 Records Management: Development of a Program /3 cr. hrs./3 periods (3 lec.)

Principles of file management from creation to final disposition. Includes records information management program development, technology in records information management, related records information management functions, and inactive records information management.

RIM 221 Medical/Health Record Coding /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ASC 262, BIO 204, RIM 121.

Overview of coding classification systems. Includes terminology, principles and components of coding systems, codes for disease, condition, operations, and nonsurgical procedures, information from health records, and coding for the highest specificity.

RIM 231 Records Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RIM 133.

Forms management, micrographics, and automated retrieval as a part of records management. Includes establishing a forms program, building forms control files, warehousing, inventory control, and distribution, forms analysis, form design and construction, the photographic process, equipment and supplies, indexing systems, fundamental consideration, micrographics design, non-computerized storage and retrieval systems, computer-assisted retrieval systems, maintenance of information on magnetic media and optical disk, and new developments in technology.

RIM 231A Records Management: Forms Management /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RIM 133.

Forms management as a part of records management. Includes es-

tablishing a forms program, building forms control files, warehousing, inventory control, and distribution, forms analysis, and form design and construction.

Information: RIM 231A, 231B, and 231C together constitute RIM 231.

RIM 231B Records Management: Micrographics /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RIM 133.

Micrographics as a part of records management. Includes the photographic process, equipment and supplies, indexing systems, fundamental consideration, and micrographics design.

Information: RIM 231A, 231B, and 231C together constitute RIM 231.

RIM 231C Records Management: Automated Retrieval /1 cr. hr./1 period (1 lec.)

Prerequisite(s): RIM 133.

Automated retrieval as a part of records management. Includes non-computerized storage and retrieval systems, computer-assisted retrieval systems, maintenance of information on magnetic media and optical disk, and new developments in technology.

Information: RIM 231A, 231B, and 231C together constitute RIM 231.

RIM 232 Records Management: Supervision /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RIM 133.

Practical approach to office organization and administrative management. Includes management of: administrative services, physical resources, human resources, and systems and procedures.

RECREATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

REC 120 Leisure and Society /3 cr. hrs./3 periods (3 lec.)

Overview of recreation and leisure, and their role in contemporary society. Includes the history of leisure and work, theoretical perspectives, contemporary factors affecting leisure and play, ethics, conceptualizing leisure, role of leisure and recreation in society, and leisure services as a profession.

Information: Same as TVL 120.

REC 132 Aging: Health and Physiology /3 cr. hrs./3 periods (3 lec.)

Overview of the health and physiology of the elderly. Includes disabilities, nutrition, medication and drugs, chronicity, sensory loss, and other aspects of the normal aging process. Also includes recognition of health problems and making appropriate referrals.

Information: Same as SSE 132.

REC 210 Leisure Delivery Systems /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REC/TVL 120.

Introduction to development, management, and organization of the leisure services profession. Includes the significance of leisure and tourism in society, leisure and tourism as a profession, delivery systems, and organizational management.

Information: Same as TVL 210.

REC 250 Leadership in Recreation and Tourism /3 cr. hrs./3 periods (3 lec.)

Principles and strategies of leadership as applied to recreational and tourism settings. Includes leisure services, leadership, planning and evaluation, and communication skills.

Information: Same as TVL 250.

REC 283 Customer Service and Program Planning /3 cr. hrs./3 periods (3 lec.)

Essential elements and basic principles of recreational service and planning. Includes planning, marketing, and evaluating a program, and customer service.

REC 290 Fieldwork /3-6 cr. hrs./15-30 periods (15-30 lab)

Prerequisite(s): Consent of instructor.

Field experience providing the opportunity to apply coursework in a planned and supervised recreational or tourism setting.

Information: May be taken two times for a maximum of six credit hours.

Information: Same as TVL 290.

RELIGION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

REL 119 Western Religions /3 cr. hrs./3 periods (3 lec.)

Introduction to Judaism, Christianity, and Islam. Includes historical development, teachings, festivals, and rituals. Also includes common heritage, emphasis and variations in Judaism, Christianity, and Islam.

REL 130 Asian Religions /3 cr. hrs./3 periods (3 lec.)

Religions of India and the Far East. Includes Hinduism, Buddhism, and East Asian religions.

REL 140 Philosophy of Religion /3 cr. hrs./3 periods (3 lec.)

Introduction to Western philosophical methods as applied to religion. Includes nature and meaning of religion and God, classical arguments, the impact of religious belief on ethics, psychology, and law in the West, faith and reason, theodicy, and mysticism.

Information: This is not a world religions class.

Information: Same as PHI 140.

REL 200 Religion in Popular Culture /3 cr. hrs./3 periods (3 lec.)

Exploration of the relationship between religion and contemporary society. Includes representation of religion in popular culture, function of religion as popular culture, and conflicts between religion and popular culture. Also includes a focus on popular media (movies, television, music, news, advertising, and recreation).

REL 220 Old Testament /3 cr. hrs./3 periods (3 lec.)

Major books of the Old Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.

REL 221 New Testament /3 cr. hrs./3 periods (3 lec.)

Major books of the New Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.

REL 233 Early Christianity /3 cr. hrs./3 periods (3 lec.)

History and selected writing of the first three hundred years of Christianity. Includes the world of early Christianity, major issues in early Christianity, and writings of major Church Fathers.

REL 234 Islam /3 cr. hrs./3 periods (3 lec.)

History and literature of Islam. Includes texts of the Qur'an, life of the Prophet Mohammed, basic tenets and practices of Islam, poetry and practices of the Sufi poets, and the historical development of Islam from the eighth century to the present.

REL 273 Judaism /3 cr. hrs./3 periods (3 lec.)

Introduction to the Jewish religion. Includes the nature and central themes of Judaism, Days of Awe, Shabbat, Pesach, Shavuot, Lots, Hanukkah, institutions, and life cycle events.

REL 275 Native American Worldviews /3 cr. hrs./3 periods (3 lec.)

Native American views of reality, morality, religion, and society. Includes regions and cultural traditions, significant features, and interpretive issues.

RESERVE OFFICERS TRAINING CORPS-ROTC-AIR FORCE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

MLA 100 Air Force Today I /2 cr. hrs./2 periods (2 lec.)

Review of the history, functions, and organization of the Air Force, Air Force doctrine, national strategy, and strategic offensive forces. Includes leadership building activities such as professional training and orientation, fitness training, and drill and ceremony training.

Information: Course offered in cooperation with the University of Arizona.

MLA 101 Air Force Today II /2 cr. hrs./2 periods (2 lec.)

Strategic defensive forces, U.S. general purpose forces, and the support commands and operating agencies of the Air Force. Includes leadership building activities such as professional training and orientation, fitness training, and drill and ceremony training.

Information: Course offered in cooperation with the University of Arizona.

MLA 200 History of Air Power I /2 cr. hrs./2 periods (2 lec.)

Review of chronological development of air power from the advent of the air age through World War II. Includes leadership building activities such as professional training and orientation, fitness training, and drill and ceremony training.

Information: Course offered in cooperation with the University of Arizona.

MLA 201 History of Air Power II /2 cr. hrs./2 periods (2 lec.)

The development of the Air Force from 1946 to the present. Includes leadership building activities such as professional training and orientation, fitness training, and drill and ceremony training.

Information: Course offered in cooperation with the University of Arizona.

RESERVE OFFICERS TRAINING CORPS-ROTC-ARMY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

MLS 100 Introduction to Leadership /3 cr. hrs./3 periods (3 lec.)

Organization of the Army. Includes principles and techniques of applied leadership, customs, traditions and military courtesy.

Information: Course offered in cooperation with the University of Arizona.

MLS 101 Leadership Principles /3 cr. hrs./3 periods (3 lec.)

Principles and techniques of military leadership. Includes customs, basic marksmanship, first aid, land navigation, small-unit tactics and practicum.

Information: Course offered in cooperation with the University of Arizona.

MLS 200 Army Composition/Function and Leadership Development I /3 cr. hrs./3 periods (3 lec.)

Military staff organization and operation. Includes procedures and conduct of military briefings and benefits.

Information: Course offered in cooperation with the University of Arizona.

MLS 201 Army Composition/Function and Leadership Development II /3 cr. hrs./3 periods (3 lec.)

Responsibilities and obligations of a commissioned officer. Includes small unit leadership, motivation and practicum.

Information: Course offered in cooperation with the University of Arizona.

RESERVE OFFICERS TRAINING CORPS-ROTC-NAVY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

NSP 100 Naval Laboratory I /1 cr. hr./2 periods (2 lab)

Applied exercises in naval ship systems, navigation, naval operation, naval administration and military justice. For freshman NROTC students at the University of Arizona. Includes such topics as drill and ceremonies, physical fitness, cruise preparation, sail training, safety awareness, personal finance and applied exercises.

Information: May be taken two times for a maximum of two credit hours.

NSP 101 Introduction to Naval Science /2 cr. hrs./2 periods (2 lec.)

An introduction to the Naval profession and to concepts of sea power. Includes an emphasis on missions, organizations and warfare components of the Navy and Marine Corps, Naval courtesy and customs, military justice, leadership, and nomenclature.

Information: Course offered in cooperation with the University of Arizona.

NSP 102 Naval Ship Systems I: Engineering /3 cr. hrs./3 periods (3 lec.)

Ship characteristics and types. Includes ship design, hydrodynamic forces, stability compartmentation, propulsion, electrical and hydraulic systems, interior communications, ship control and damage controls. Also includes theory and design of steam, gas turbine and nuclear propulsion.

Information: Course offered in cooperation with the University of Arizona.

NSP 200 Naval Laboratory II /1 cr. hr./2 periods (2 lab)

Continuation of NSP 100. For sophomore NROTC students at the University of Arizona.

Information: May be taken two times for a maximum of two credit hours.

NSP 201 Naval Ship Systems II: Weapons /3 cr. hrs./3 periods (3 lec.)

Theory and employment of weapons systems. Includes the processes of detection, evaluation, threat analysis, selection, delivery and guidance. Physical aspects of radar and underwater sound are also covered.

Information: Field trip.

Information: Course offered in cooperation with the University of Arizona.

NSP 202 Sea Power and Maritime Affairs /3 cr. hrs./3 periods (3 lec.)

U.S. Naval history from the American Revolution to the present. Includes a discussion of the theories of Mahan, political issues of merchant marine commerce, and a comparison of U.S. and Soviet naval strategies.

Information: Field trip.

Information: Course offered in cooperation with the University of Arizona.

RESPIRATORY THERAPY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

RTH 110 Introduction to Respiratory Care /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Admission to the RTH program or consent of instructor. Overview of respiratory care, its evolution as a profession and its current relation to the modern health care system. Includes medical terminology, health communication, general patient care principles, as well as ethical and legal implications of health care. Also includes study of infection control and physical principles related to respiratory care.

RTH 112 Respiratory Physiology /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Admission to RTH program and BIO 160.

Study of the cardiopulmonary system and associated structures. Includes nervous system control of ventilation, renal system, and principles involved in ventilation and gas transport. Also includes the effects of aging, exercise, and altitude on the cardiopulmonary system.

RTH 121/121LB Basic Therapeutics /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): RTH 110, 112.

Co-requisite(s): Concurrent enrollment in RTH 125.

Basic respiratory care therapeutics, equipment function, clinical indications and contraindications. Includes medical gas administration, humidity and aerosol therapy, hyperinflation therapy, chest physiotherapy, basic cardiac life support, and basic airway management.

RTH 123/123LB Basic Assessment and Monitoring /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): RTH 110, 112.

Co-requisite(s): Concurrent enrollment in RTH 121.

Study of patient assessment, diagnostic procedures, and testing techniques. Includes the detection and monitoring of adult, neonatal and pediatric cardiorespiratory disorders. Also includes participation in a service-learning project.

RTH 124 Pharmacology for Respiratory Care /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RTH 110, 112.

Principles of pharmacology, drug dose calculations, and drug receptor theory as it relates to patients with cardiopulmonary disease. Includes specific emphasis on drugs used by respiratory care practitioners as well as discussion of other drugs used in the treatment of patients under their care.

RTH 125LB Clinical Procedures I /1 cr. hr./4 periods (4 lab)

Prerequisite(s): RTH 110, 112.

Clinical application of all prerequisite and concurrent respiratory care course work. Includes hospital and departmental organization, professionalism, medical record utilization, oxygen administration and analysis, and respiratory physiology principles applied to patient care.

RTH 135LB Clinical Procedures II /4 cr. hrs./16 periods (16 lab)

Prerequisite(s): RTH 121, 123, 124, 125.

Continuation of RTH 125. Includes clinical application of all prerequisite respiratory care course work. Also includes basic respiratory care therapeutics, basic assessment, monitoring, and clinical application of cardiopulmonary medications.

RTH 241/241LB Critical Care Therapeutics /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): RTH 121, 123, 124, 125, 135.

Co-requisite(s): Concurrent enrollment in RTH 243.

Study of critical care principles and procedures in the adult patient. Includes advanced airway management, mechanical ventilation principles, care of the mechanically ventilated patient, and alternatives to conventional ventilation.

RTH 243/243LB Advanced Assessment and Monitoring /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): RTH 135.

Co-requisite(s): Concurrent enrollment in RTH 241.

Study of the assessment of the critical respiratory patient. Includes advanced diagnostic studies and testing techniques employed in the detection and monitoring of adult, neonatal, and pediatric cardiorespiratory disorders. Also includes participation in a service-learning project.

RTH 245LB Clinical Procedures III /4 cr. hrs./16 periods (16 lab)

Prerequisite(s): RTH 135.

Co-requisite(s): Concurrent enrollment in RTH 241, 243, 246.

Continuation of RTH 135. Includes clinical application of all prerequisite respiratory care course work with emphasis on adult critical care, assessment and monitoring. Also includes cooperative and problem-based learning and students will interact with and present case studies to the program's medical director.

RTH 246 Cardiorespiratory Disorders I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RTH 121, 123, 124.

Study of commonly encountered respiratory disorders in the adult patient. Includes examination of the etiology, pathology, pathogenesis, clinical manifestations and treatment of a variety of common adult pulmonary diseases.

RTH 251/251LB Specialty Therapeutics /5 cr. hrs./7 periods (4 lec., 3 lab)

Prerequisite(s): RTH 241, 243, 245, 246.

Study of respiratory therapies used in specialized environments. Includes basic and advanced respiratory care of the neonatal and pediatric patient, discussion of fetal development, birth, transitions, neonatal and pediatric resuscitation, neonatal mechanical ventilation, selected ventilators, high frequency ventilation and extra corporeal membrane oxygenation. Also includes advanced cardiac life support (ACLS), pulmonary rehabilitation, respiratory care outside of the hospital environment, balloon pump function, hyperbaric oxygenation and recent advances in respiratory care techniques and procedures.

RTH 255LB Clinical Procedures IV /4 cr. hrs./20 periods (20 lab)

Prerequisite(s): RTH 241, 243, 245.

Co-requisite(s): Concurrent enrollment in RTH 251, 256, 257.

Continuation of RTH 245. Includes clinical application of all prerequisite respiratory care course work with emphasis on adult critical care, neonatal/pediatric basic and critical care therapeutics, assessment and monitoring, pulmonary rehabilitation, and specialized environments for the delivery of respiratory care.

RTH 256 Cardiorespiratory Disorders II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): RTH 246.

Continuation of RTH 246. Includes the study of commonly encountered respiratory disorders in the adult patient and examination of pulmonary problems related to the newborn and pediatric patient. Also includes examination of the etiology, pathology, pathogenesis, clinical manifestations, and treatment of selected adult, neonatal, pediatric cardiopulmonary diseases.

RTH 257LB Clinical Applications and Professional Development /1 cr. hr./4 periods (4 lab)

Prerequisite(s): RTH 241, 244.

Co-requisite(s): Concurrent enrollment in RTH 251, 255, 256.

Completion of clinical application group projects. Includes preparation of resumes, review for credentialing exams, present clinical case studies, and interaction with the program's medical director. Also includes participation in a service-learning project.

RUSSIAN

For courses numbered 098, 198, 298, see "Topics Courses" in index.

RUS 101 Elementary Russian I /4 cr. hrs./4 periods (4 lec.)

Introduction to the Russian language. Includes Cyrillic alphabet, greetings, gender, readings, communications, and activities.

RUS 102 Elementary Russian II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): RUS 101.

Continuation of RUS 101. Includes grammar and vocabulary, housing and furniture, family and professions, shopping, money and measurements, and biographies of people.

RUS 201 Intermediate Russian I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): RUS 102 or two years of high school Russian.

Continuation of RUS 102. Includes grammar review, plural case endings, prepositional/accusative cases, weather and climate, and reflexive verbs.

RUS 202 Intermediate Russian II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): RUS 201.

Continuation of RUS 201. Includes grammar review, sports terms, health care terms, postal system, traveling in Russia, and etiquette.

SIGN LANGUAGE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SLG 050 Conversational Sign Language I /3 cr. hrs./3 periods (3 lec.)

Introduction to conversational sign language skills. Includes basic sign vocabulary, Deaf culture, and an overview of communication systems.

SLG 055 Conversational Sign Language II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SLG 050.

Conversational sign language skills. Includes intermediate vocabulary, deaf culture, and other signing modes of communicating with the Deaf.

SLG 101 American Sign Language I /4 cr. hrs./5 periods (3 lec., 2 lab.)

Introduction to American Sign Language. Includes principles, methods and techniques for communicating with deaf individuals who sign. Also includes a brief history of sign, introduction to Deaf culture, development of expressive and receptive sign skills, manual alphabet, numbers and sign vocabulary.

Information: Students will be required to perform additional lab hours outside of the regular classroom schedule.

Information: This class is conducted primarily without voice.

SLG 102 American Sign Language II /4 cr. hrs./5 periods (3 lec., 2 lab.)

Prerequisite(s): SLG 101.

Continuation of SLG 101. Includes sign vocabulary, numbers, fingerspelling, and culture. Also includes an emphasis on enhancement of receptive sign skills, further development of expressive sign skills, and application of rudimentary syntactical and grammatical structure.

Information: Students will be required to perform additional lab hours outside of the regular schedule.

Information: This class is conducted primarily without voice.

SLG 201 American Sign Language III /4 cr. hrs./5 periods (3 lec., 2 lab.)

Prerequisite(s): SLG 102.

Continuation of SLG 102. Includes an integration of ASL expressive and receptive skills using bilingual techniques. Also includes vocabulary expansion, idioms, manual and non-manual aspects of ASL, ASL linguistics, cross-cultural communication, and cultural knowledge of ASL.

Information: Students will be required to perform additional lab hours outside of regular classroom schedule.

Information: This class is conducted primarily without voice.

SLG 202 American Sign Language IV /4 cr. hrs./5 periods (3 lec., 2 lab.)

Prerequisite(s): SLG 201.

Continuation of SLG 201. Includes continued expansion of sign vocabulary, sharpening of fingerspelling and number skills, and review of and instruction in linguistic knowledge of ASL. Also includes an emphasis on conversational techniques and skills in ASL in a cross-cultural framework.

Information: Students will be required to perform additional lab hours outside of regular classroom schedule.

Information: This class is conducted primarily without voice.

SOCIAL SERVICES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SSE 110 Introduction to Social Welfare /3 cr. hrs./3 periods (3 lec.)

Introduction to the social welfare system. Includes approaches to service delivery, community resources, bureaucratic structures, welfare myths and realities, special populations, and cultural awareness. Also includes local community agencies and resources, welfare policies and case histories.

SSE 111 Group Work /3 cr. hrs./3 periods (3 lec.)

Examination of group dynamics. Includes communication patterns, leadership, decision-making, conflict resolution, problem solving, and personal growth within groups. Also includes application of concepts through observation, group exercises, and case studies.

SSE 121 Introduction to Substance Abuse /3 cr. hrs./3 periods (3 lec.)

Introduction to the history of drug abuse, including alcohol in the United States. Includes classification of drugs, historical review of drug laws, prohibition, theories of addiction, treatment, strategies, cultural perspectives and treatment interventions. Also includes special populations, education, and available resources to addicts, alcoholics and their families.

SSE 123 Substance Abuse Prevention /3 cr. hrs./3 periods (3 lec.)

Comprehensive review of approaches to prevention. Includes drug control policies and the impact of abused substances on all segments of society. Also includes focus on the resources of multiple societal sectors to reduce the demand for drugs.

SSE 130 Gerontology: Casework Practice /3 cr. hrs./3 periods (3 lec.)

Recommended: SSE 202.

Development of casework management skills specializing on the elderly. Includes intake, assessment, referral, care planning, communication within a professional team setting, and the wellness of elders living in the community.

SSE 132 Aging: Health and Physiology /3 cr. hrs./3 periods (3 lec.)

Overview of the health and physiology of the elderly. Includes disabilities, nutrition, medication and drugs, chronicity, sensory loss, and other aspects of the normal aging process. Also includes recognition of health problems and making appropriate referrals.

Information: Same as REC 132.

SSE 140 Domestic Violence: Causes and Cures /3 cr. hrs./3 periods (3 lec.)

Survey of historical and contemporary causes of domestic violence. Includes the examination of abused populations: spouse, sibling, adult child-to-parent, children, and victims of dating violence. Also includes diagnosis, prevention, and treatment of domestic violence, and identification of and need for treatment programs.

SSE 146 Child Abuse intervention and Protection /3 cr. hrs./3 periods (3 lec.)

Overview of the principles and methods of dealing with child abuse. Includes the many definitions and forms of child abuse, recognition of its symptoms, family dysfunctions, the interaction with and counseling of the parental abuser, and the utilization of available community resources.

Information: Same as AJS 146.

SSE 150 Introduction to Eating Disorders /3 cr. hrs./3 periods (3 lec.)

History, dynamics, prevalence, and treatment approaches to eating disorders. Includes anorexia nervosa, bulimia, and obesity. Also includes the history and background of attitudes toward these disorders and biological, psychoanalytic, behavioral, and other theoretical perspectives.

SSE 151 Treatment Modalities for Eating Disorders /3 cr. hrs./3 periods (3 lec.)

Dynamics and approaches to the treatment of eating disorders. Includes diagnosis, psychological assessment, forms of intervention including psychotherapeutic, and clinical issues encountered in treatment.

SSE 152 Medical Aspects of Eating Disorders /3 cr. hrs./3 periods (3 lec.)

Introduction to the classification, epidemiology, and physiology of obesity, anorexia, compulsive overeating, and bulimia. Includes weight control and fad diets, endocrinology, psychopharmacology, and nutritional assessment. Also includes treatment and recovery.

SSE 154 Nutrition /3 cr. hrs./3 periods (3 lec.)

Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.

Information: Same as FSN 154.

SSE 160 Introduction to Youth Services /3 cr. hrs./3 periods (3 lec.)

Introduction to the field of youth services as offered through voluntary youth organizations, social service and child welfare agencies, juvenile detention and correctional agencies and community health care agencies. Includes the normal development needs of children and adolescents, the special needs of dependent, delinquent, challenged and special needs youth, roles of youth workers, and the need to focus on prevention through strengthening families and communities. Also includes a survey of local youth serving agencies.

Information: Same as AJS 160.

SSE 170 Community Health Advisor /3 cr. hrs./3 periods (3 lec.)

Preparation of Community Health Advisors for outreach health prevention, advocacy, education, and referral services within prescribed neighborhoods. Includes community health and human services, capac-

ity-building, cultural mediation, health education assessment, teaching, interpersonal communication, organization, and advocacy skills.

SSE 191 Field Placement Gerontology I /4 cr. hrs./16 periods (1 lec., 15 lab)

Prerequisite(s): SSE 110, 130.

Supervised placement in a gerontologic social service setting.

SSE 202 Casework Methods I /3 cr. hrs./3 periods (3 lec.)

Theory and practice of casework within the context of the Southwest. Includes case management, interviewing, case history and review, treatment planning, and development of helping relationships. Also includes major helping theories and strategies and case samples from varied settings, and provides a theoretical foundation and skills base for social work interventions with individuals, small groups and larger systems.

SSE 210 Community Organization and Development /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 110.

Principles and techniques of organizing to effect change. Includes role of the professional organizer, nature of institutions, causes of change or failure to change, and strategies for effective change.

SSE 211 Group Technique Applications /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 111.

Application of advanced concepts in group dynamics. Includes skill development through in-class experiential learning and group facilitation. Also includes community-group case studies, ethical standards, and multicultural issues.

SSE 212 Casework Methods II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 202.

Advanced techniques in interviewing, recording, client evaluation, case management, strategies for intervention, and focus on diverse and special populations. Includes application of advanced skills in varied settings and attention to service delivery in a fragmented community resource system.

SSE 214 Human Behavior in the Social Environment /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor, or PSY 101, SOC 101, and BIO 156 or 160.

Introduction to the interrelation of biological, psychological, sociological, and cultural systems and their effects on behavior as the basis for social work practice. Includes a focus on the development of children and youth in ethnic minority families of the southwest, and influences of the family, group, and culture in shaping human behavior.

SSE 216 Social Policy and Services /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor, or ECN 202, POS 110, SSE 110, SSE 210.

History, philosophy, and values of social welfare policy as it interacts with social problems. Includes function and role of social welfare in society and development of the social work profession and practice.

SSE 220 Treatment of the Substance Abuser /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 120.

Recommended: SSE 122.

Principles and techniques of treating the substance abuser. Includes therapeutic communities, day care programs, methadone maintenance, detoxification, and psychotherapy.

SSE 222 Political and Legal Aspects of Drug Use /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 120.

Recommended: SSE 122.

Overview of drug abuse and the law. Includes the influence of politics, economics, civil liberties, court decisions, and public opinion. Also includes consideration of international trafficking, gangs, and money laundering.

SSE 242 Crisis Intervention, Theory and Techniques /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SSE 112 or consent of instructor.

Principles and practice of crisis intervention. Includes techniques of intervention, referrals, and diagnosis utilized in resolving crisis situations encountered in social service settings.

SSE 260 Youth Services: Policy, Practice and Prevention /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): SSE 160.

Principles and techniques of working with youth. Includes an examination of national, state and local policies which impact youth services, effective prevention strategies and how to implement them within the community, and practice skills necessary for working in a variety of youth service settings.

SSE 289 Advanced Topics in Community Involvement /1-6 cr. hrs./ 1-6 periods (1-6 lec.)

Prerequisite(s): Consent of instructor.

Direct, constructive student involvement in community problems. Includes working individually or in small teams through guidance and periodic consultations with faculty advisors. Also includes special activities to be determined by the advisors. Students employed or working as volunteers with agencies or groups may get credit for those activities under this course.

Information: Same as SOC 289.**SSE 290 Field Experience Youth Services /4 cr. hrs./16 periods (1 lec., 15 lab)**

Prerequisite(s): SSE 112, 160 and consent of instructor.

Supervised placement in community youth serving agencies. Includes classroom seminars which discuss pertinent theory and issues raised through the field experience.

Information: May be taken two times for a maximum of eight credit hours.**SSE 291 Field Placement Gerontology II /3 cr. hrs./15 periods (15 lab)**

Prerequisite(s): SSE 191.

Continuation of SSE 191. Includes in-depth working relations with the elderly within a supervised placement.

SSE 292 Social Services Field Experience /4 cr. hrs./16 periods (1 lec., 15 lab)

Prerequisite(s): SSE 112 and consent of instructor.

Supervised placement in community social services agencies. Includes classroom seminars which discuss pertinent theory and issues raised through the field experience.

Information: May be taken two times for a maximum of eight credit hours.**SSE 293 Community Health Advising Field Experience /6 cr. hrs./ 23.2 periods (1.2 lec., 22 lab)**

Prerequisite(s): SSE 170.

Community Health Advisor skills practiced and evaluated in community-based health and human service agencies and settings. Includes supervised placement in community serving agencies and classroom seminars covering pertinent theory and issues raised through the field experience. Information: Students complete 320 clock hours of direct service scheduled in an 8-week block at 40 hours per week or 16 weeks at 20 hours per week.

SSE 296 Independent Study in Social Services /1-3 cr. hrs./ 3-9 periods (3-9 lab)

Prerequisite(s): Consent of instructor.

Advanced projects, research and learning in the social services. Content to be determined by conference between student and instructor.

Information: May be taken three times for a maximum of nine credits.**SOCIOLOGY**

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SOC 101 Introduction to Sociology /3 cr. hrs./3 periods (3 lec.)

Introduction to the basic concepts of sociology and sociological analysis. Includes identity, folkways, norms, mores, groups, status, role, gender, socialization, social structure, culture and ethnicity. Also includes deviance, social control, bureaucracy, social change, social class, collective behavior, social movements, social stratification, inequality, institutions, social organization, and globalization within and across contemporary societies and cultures.

SOC 103 Explorations in Prejudice /3 cr. hrs./3 periods (3 lec.)

Focus on and exploration of the source and consequences of various forms of prejudice within the United States as well as globally. Includes examination of the concept of prejudice from several sociological perspectives and of current trends of prejudice.

SOC 110 Introduction to Cities and Community Planning / 3 cr. hrs./3 periods (3 lec.)

Introduction to the study of the urban environment. Includes exploring the city, city form and city culture, urban diversity, and the urban dilemma and possible solutions. Also includes a special emphasis on understanding cities on the global as well as local event.

SOC 120 Current Social Problems /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): SOC 101.

Analysis of social disorganization. Includes causes and effects of social problems, focus and solutions to social problems, power shifts and the global order, and education and structures of power.

SOC 127 Marriage and the Family /3 cr. hrs./3 periods (3 lec.)

Introduction to the social functions of marriage and the family. Includes structures of marriages and families, relationships, marriage, and transformation of marriage.

Information: Same as HEC 127.**SOC 166 Social Gerontology /3 cr. hrs./3 periods (3 lec.)**

Introduction to the bio-cultural and holistic study of aging, dying, and death. Includes the bio-social process of aging, factors in longevity and the social meaning of death.

SOC 201 Minority Relations and Urban Society /3 cr. hrs./ 3 periods (3 lec.)

Analysis of minority development and relations in the United States. Includes social, political, economic and historical data for overviews, understandings, critical thinking and writing about the evolution of minorities.

SOC 203 Sociology of Utopia /3 cr. hrs./3 periods (3 lec.)

Exploration of the idea of utopia and its influence on human societies throughout global history. Includes utopia and social structure, utopias before Christianity, Christian and humanist utopianism, utopian revivals and dystopias, and utopian thinking and social institutions.

SOC 204 Women in Society /3 cr. hrs./3 periods (3 lec.)

Examination of the status of women in society. Includes sociological and historical perspectives, politics, family issues, love and marriage, masculinity, professions and workplace, media, religion, global perspectives, and medical and information technology.

SOC 215 Human Sexuality /3 cr. hrs./3 periods (3 lec.)

Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, sociological, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.

Information: Same as PSY 215.**SOC 271 Social Psychology of Sport /3 cr. hrs./3 periods (3 lec.)**

Analysis of the relationship of sport to the social psychological principles of socialization, values, concentration, anxiety, aggression, motivation, team interactions, and peak performance.

Information: Same as PSY 271.**SOC 273 Sociology of Sport /3 cr. hrs./3 periods (3 lec.)**

Analysis of the impact of sport on society. Includes the relationship of sport to societal institutions: the economy, politics, education, family, religion, and the interrelationships between sport and the concepts of race, gender, and stratification. Also includes the examination of contemporary issues in sport including the economics of sport, ethics, gender equity, and the relationships between players, coaches, and fans.

SOC 289 Advanced Topics in Community Involvement /1-6 cr. hrs./ 1-6 periods (1-6 lec.)

Prerequisite(s): Consent of instructor.

Direct, constructive student involvement in community problems. Includes working individually or in small teams through guidance and periodic consultations with faculty advisors. Also includes special activities to be determined by the advisors. Students employed or

working as volunteers with agencies or groups may get credit for those activities under this course.

Information: Same as SSE 289.

SOC 296 Individual Studies in Sociology /1-6 cr. hrs./1-6 periods (1-6 lec.)

Prerequisite(s): Consent of instructor.

Exploration of special interest areas. Content to be determined by conference between student and instructor.

SPANISH

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SPA 070 Spanish for Medical Personnel /3 cr. hrs./3 periods (3 lec.)

Conversational practice in a medical context. Designed to develop speaking and listening techniques essential for basic medical situations, stressing expressions of courtesy and medical terminology.

SPA 085 Introductory Spanish /4 cr. hrs./4 periods (4 lec.)

Beginning Spanish for students with no previous formal study of the language. Includes correct pronunciation, basic grammar and conversation, and common communications such as informal greetings and numbers.

Information: This course is not for transfer, but helps prepare students for success in transferable courses.

SPA 101 Elementary Spanish I /4 cr. hrs./4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

SPA 101A Elementary Spanish I: Module A /1 cr. hr./1 period (1 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.

SPA 101B Elementary Spanish I: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 101A.

SPA 101B constitutes approximately the second one-fourth of SPA 101. Information: SPA 101A, 101B, 101C, 101D must be successfully completed to receive credit for SPA 101.

SPA 101C Elementary Spanish I: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 101B.

SPA 101C constitutes approximately the third one-fourth of SPA 101. Information: SPA 101A, 101B, 101C, 101D must be successfully completed to receive credit for SPA 101.

SPA 101D Elementary Spanish I: Module D /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 101C.

SPA 101D constitutes approximately the fourth one-fourth of SPA 101. Information: SPA 101A, 101B, 101C, 101D must be successfully completed to receive credit for SPA 101.

SPA 102 Elementary Spanish II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 101 or equivalent.

Continuation of SPA 101. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication.

SPA 102A Elementary Spanish II: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 101 or equivalent.

SPA 102A constitutes approximately the first one-fourth of SPA 102.

Information: SPA 102A, 102B, 102C, and 102D must be successfully completed to receive credit for SPA 102.

SPA 102B Elementary Spanish II: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 102A.

SPA 102B constitutes approximately the second one-fourth of SPA 102.

Information: SPA 102A, 102B, 102C, and 102D must be successfully completed to receive credit for SPA 102.

SPA 102C Elementary Spanish II: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 102B or equivalent.

SPA 102C constitutes approximately the third one-fourth of SPA 102.

Information: SPA 102A, 102B, 102C, and 102D must be successfully completed to receive credit for SPA 102.

SPA 102D Elementary Spanish II: Module D /1 cr. hr./1 period (1 lec.)

Prerequisite(s): SPA 102C or equivalent.

SPA 102D constitutes approximately the fourth one-fourth of SPA 102.

Information: SPA 102A, 102B, 102C, and 102D must be successfully completed to receive credit for SPA 102.

SPA 103 Spanish for Spanish Speakers I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Ability to speak Spanish.

Spanish for individuals of bilingual background. Includes basic oral and written forms for bilingual individuals, grammatical structures, cultural and stylistic elements, interpersonal transactions, and geographical and cultural awareness. Also includes an awareness of diversity of Spanish-speaking cultures.

SPA 104 Spanish for Spanish Speakers II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 103 or equivalent or ability to speak Spanish.

Continuation of SPA 103. Includes further development of oral and written forms for bilingual individuals, additional grammatical structures, cultural and stylistic elements, interpersonal transactions, and geographical and cultural differences. Also includes a continued awareness of the diversity of Spanish.

SPA 106 Beginning Conversation I /4 cr. hrs./4 periods (4 lec.)

Introduction to conversational Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and cultural perspectives. Also includes reading, writing, speaking, and listening skills with primary emphasis on oral communication.

SPA 107 Beginning Conversation II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 106.

Continuation of SPA 106. Includes oral and written communication, additional grammatical structures, additional interpersonal transactions, and additional cultural perspectives. Also includes additional reading, writing, speaking, and listening skills with primary emphasis on oral communication.

SPA 121 Beginning Spanish for Occupational Applications I /4 cr. hrs./4 periods (4 lec.)

Survey of beginning vocabulary and grammatical structures used in a variety of occupational settings. Includes basic oral and written forms, grammatical structures, and interpersonal transactions, with an emphasis on immediate application at home or on the job. Also includes geographical and cultural differences among Spanish speaking populations.

SPA 122 Beginning Spanish for Occupational Applications II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 121.

Continuation of SPA 121. Includes oral and written forms, additional grammatical structures, and additional interpersonal transactions. Also includes additional geographical and cultural differences among Spanish speaking populations.

SPA 201 Intermediate Spanish I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 102 or equivalent.

Continuation of SPA 102. Includes reading a variety of materials, discussing these readings, and writing compositions while reviewing grammatical structures. Also includes listening comprehension and Hispanic cultural components where Spanish is spoken.

SPA 202 Intermediate Spanish II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 201.

Continuation of SPA 201. Includes reading selections from original, authentic writings, conversation and discussions on a more advanced level, writing compositions using grammatically correct structure, and development of creative writing skills in Spanish. Also includes listening and comprehending lengthy spoken discourse, and a broader study of cultural differences within the Hispanic world.

SPA 203 Composition and Conversation for Bilingual Individuals I /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 104 or equivalent or ability to speak, read, and write Spanish.

Intensive writing and speaking in Spanish for individuals of bilingual background. Includes oral communication, written communication, bilingual careers and professions, and themes in popular and traditional culture.

SPA 204 Composition and Conversation for Bilingual Individuals II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 203 or equivalent or ability to speak, read, and write Spanish.

Continuation of SPA 203. Includes additional oral and written communication, exploration of international current events and issues, and additional themes in popular and traditional culture.

SPA 230 Introduction to Literature in Spanish /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): SPA 202 or equivalent or consent of instructor.

Survey of literature written in Spanish. Designed to give students a broader knowledge of the language through literature selected from representative Spanish, Latin American and Chicano writers.

SPA 296 Independent Study in Spanish /1-4 cr. hrs./1-4 periods (1-4 lab)

Prerequisite(s): Consent of instructor.

Independent Spanish readings or other projects under the supervision of an instructor.

Information: May be taken two times for a maximum of eight credit hours.

SPA 297 Spanish Language Seminar: /25-4 cr. hrs./25-4 periods (.25-4 lec.)

Prerequisite(s): Consent of instructor.

Spanish language related training. Includes presentations and development of skills in a given area, and topics of timely or limited interest.

SPEECH COMMUNICATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SPE 102 Introduction to Speech Communication /3 cr. hrs./3 periods (3 lec.)

Introduction to the function, basic concepts, and skills of oral communication in interpersonal and public address situations. Includes listening, communication styles, communication barriers, and methods to help eliminate barriers.

SPE 105 Voice and Diction /2 cr. hrs./2 periods (2 lec.)

Study and training in basic voice production. Includes proper breathing techniques, sound production, kinesics, general speech standards, common voice problems, and methods to overcome problems.

SPE 110 Public Speaking /3 cr. hrs./3 periods (3 lec.)

Study and training in public speaking and audience adaptation. Includes developing skills in the areas of research, logic, analysis, organization, and delivery.

SPE 120 Business and Professional Communication /3 cr. hrs./3 periods (3 lec.)

Study and training in communication within work situations. Includes oral reports, interviewing, persuasion, listening, and group problem-solving and decision-making.

SPE 124 Argumentation /3 cr. hrs./3 periods (3 lec.)

Principles and practice of argumentation. Includes basic forms of analysis, evidence, proof, reasoning, and refutation.

SPE 130 Small Group Discussion /3 cr. hrs./3 periods (3 lec.)

Study and training in group process. Includes the nature and functions of groups, norms of group participation and interaction, and group leadership. Also includes a special focus on communication in group decision-making.

SPE 136 Oral Interpretation of Literature /3 cr. hrs./3 periods (3 lec.)

Study and training in the oral presentation of literature. Includes literary conventions, analysis techniques, role of the interpreter, use of voice and body, characterization, and oral interpretation modes. Also includes a special focus on analyzing and experiencing literature as human discourse.

SPE 296 Independent Study in Speech /1-4 cr. hrs./1-4 periods (1-4 lec.)

Prerequisite(s): Six credit hours in speech.

Under individual guidance of an instructor, student researches an aspect of communication not available through regular course offerings.

STUDENT SUCCESS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

STU 050 Approaching Mathematics Positively /1 cr. hr./1 period (1 lec.)

Designed for students who avoid taking mathematics courses or who have anxiety in mathematics courses. Includes defining mathematics anxiety, underlying causes, and practicing anxiety reduction techniques. Also includes mathematics study and test-taking.

Information: Same as MAT 050.

STU 100 College Success Skills /1 cr. hr./1 period (1 lec.)

Skills and techniques required for being an efficient student. Includes goal setting and problem solving, time management, organizing study materials/study techniques, college/community resources, learning styles, concentration and memory, note-taking techniques, tips for making note-taking easier, test-taking techniques, and test anxiety.

STU 100A How to Study /25 cr. hr./25 period (.25 lec.)

Instruction and practice in techniques required for being an "efficient" student. Includes goal setting and problem solving, time management, organizing study materials/study techniques, and college/community resources.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.

STU 100B Memory and Concentration / .25 cr. hr./ .25 period (.25 lec.)

Strategies for improving memory and concentration. Includes learning styles and concentration and memory.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.

STU 100C Notetaking Tips / .25 cr. hr./ .25 period (.25 lec.)

Systematic instruction and practice taking notes from lectures and print material. Includes notetaking techniques and tips for making notetaking easier.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.

STU 100D Testing Tips / .25 cr. hr./ .25 period (.25 lec.)

Instruction and practice in preparing for and taking tests. Includes test taking techniques and test anxiety.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.

STU 101 Becoming A Master Student / 3 cr. hrs./ 3 periods (3 lec.)

Recommended: Competency at the REA 091 and WRT 100 level.

Enhancement of academic and personal skills to maximize learning and success at the college setting. Includes assessing college readiness and learning skills, time management, building memory and concentration skills, reading for college, note taking, test taking, diversity, writing for college, relationships, lifestyle and wellness, and next step.

STU 103 Becoming a Critical Thinker / 2 cr. hrs./ 2 periods (2 lec.)

Development and application of thinking strategies. Includes understanding the fundamentals, becoming an individual, evaluating arguments, recognizing errors in thinking, applying critical thinking strategies, and creative thinking.

STU 104 Career and Self-Management Skills / 3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): Acceptance into the Progress! program.

Techniques for developing academic, personal, and professional skills of the single parent, homemaker, and re-entry student. Includes college success tools, skills, community resources, personal, academic and financial aid goals, time management, self-esteem, stress management, career exploration, gender awareness, assertiveness training, critical thinking, and job development.

STU 109 Career Exploration / 2 cr. hrs./ 2 periods (2 lec.)

Development of skills and knowledge necessary to make career choices. Includes values clarification, skill identification, interest and personality identification and recognition, adult developmental issues, career research, developing a plan of action, review of self-assessment inventory, eliminating stereotypes, advanced career research, information interviews, decision making, and developing an educational/career plan.

STU 109A Career Exploration: Interests and Values / 1 cr. hr./ 1 period (1 lec.)

Self-assessment for career decision making. Includes values clarification, skill identification, interest and personality identification and recognition, adult development issues, career research, and developing a plan of action.

Information: STU 109A and 109B together constitute STU 109.

STU 109B Career Exploration: Goal Development / 1 cr. hr./ 1 period (1 lec.)

Resources for career planning. Includes personality preferences, eliminating stereotypes, advanced career research, information interviews, decision making, and developing an educational/career plan.

Information: STU 109A and 109B together constitute STU 109.

STU 110 Developing Self-Esteem / 2 cr. hrs./ 2 periods (2 lec.)

Exploration and assessment of student's current self-esteem level. Includes definition, early self-esteem theorists, components of self-esteem development, global and area specific self-esteem, personal assessment, influence of significant others, life script, personality preferences, cultural influences, communication skills, irrational beliefs, cognitive behavioral change strategies, risk taking, and goal development.

STU 120 Building Positive Relationships / 3 cr. hrs./ 3 periods (3 lec.)

Exploration of the principles of relationships as they are created in families, friendships, employment, college and love/romance. Includes relationship development, characteristics of non-rewarding or negative relationships, building blocks of rewarding or positive relationships, assessing and developing relationship intelligence, listening skills, assertive behavior skills, conflict management skills, collaborative problem solving, and development of an individual plan.

STU 130 Stress Management for Wellness / 2 cr. hrs./ 2 periods (2 lec.)

Principles and techniques for stress management and wellness in daily life. Includes the environmental, physical, and psychological factors and impact of stress on daily life, identification of wellness concepts in the areas of nutrition, physical fitness, addictions, co-dependency, stress management, emotions, life values, and a healthy life style.

STU 210 Transfer Strategies / 2 cr. hrs./ 2 periods (2 lec.)

Transitioning to a college or university. Includes planning for successful transferring, community college/university resources, and transition procedures. Also includes policies and applications activities for transferring to a university or college of choice.

STU 220 Employment Success Strategies / 3 cr. hrs./ 3 periods (3 lec.)

Exploration of the world of work and success in the modern workplace. Includes nature of the modern workplace, skills needed to find a job and succeed, assessment of individual skill levels, personal plan for developing employment success skills, practice of employment success skills, and traditional and modern employment search strategies.

STU 220A Employment Success Strategies: How to Succeed in the Modern Workplace / 1 cr. hr./ 1 period (1 lec.)

Exploration of the world of work and success in the modern workplace. Includes nature of the modern workplace and skills needed to find a job and succeed.

Information: STU 220A, 220B, and 220C together constitute STU 220.

STU 220B Employment Success Strategies: Assessing and Developing Skills / 1 cr. hr./ 1 period (1 lec.)

Continuation of STU 220A. Includes assessment of individual skill levels, personal plan for developing employment success skills, and practice of employment success skills.

Information: STU 220A, 220B, and 220C together constitute STU 220.

STU 220C Employment Success Strategies: New Job Search / 1 cr. hr./ 1 period (1 lec.)

Continuation of STU 220B. Includes traditional and modern employment search strategies.

Information: STU 220A, 220B, and 220C together constitute STU 220.

STU 230 Dynamics of Leadership / 3 cr. hrs./ 3 periods (3 lec.)

Supervised practical training in leadership. Includes history, philosophy and vision of leadership, aspects of leadership, power of positive vision, goal setting, decision making, life planning, identifying a personal philosophy, team building, delegating, ethics in leadership, servant leadership, initiating change, managing conflict, and designing and completing leadership projects.

STU 230A Dynamics of Leadership: Philosophy and Vision / .5 cr. hr./ .5 period (.5 lec.)

Introduction to leadership. Includes history of leadership, aspects of leadership, and power of positive vision.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

STU 230B Dynamics of Leadership: Decision Making and Goal Setting / .5 cr. hr./ .5 period (.5 lec.)

Achieving positive ends. Includes goal setting, decision making, life planning, and identifying a personal philosophy.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

STU 230C Dynamics of Leadership: Teambuilding and Empowering /5 cr. hr./5 period (.5 lec.)

Positive groups dynamics. Includes team building and delegating.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

STU 230D Dynamics of Leadership: Ethics in Leadership /5 cr. hr./5 period (.5 lec.)

Development of ethical behavior. Includes ethics in leadership and servant leadership.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

STU 230E Dynamics of Leadership: Conflict and Change /5 cr. hr./5 period (.5 lec.)

Elements of the change process. Includes initiating change and managing conflict.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

STU 230F Dynamics of Leadership: Developing Viable Leadership Projects /5 cr. hr./5 period (.5 lec.)

Effective leadership skills. Includes designing and completing leadership projects.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230.

SUPERMARKET MANAGEMENT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

SUP 101 Introduction to the Supermarket Industry /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Overview of the supermarket industry. Includes the role of the supermarket, supermarket economics, departments, quality customer service, merchandising, advertising, current trends in supermarkets, and career opportunities.

SUP 102 Supermarket Store Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Management of store operations. Includes computer systems, data analysis, laws and regulations affecting store operations, security, culture building, and managing for quality customer service.

SUP 103 Supermarket Merchandising /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Principles of retailing/marketing concepts and strategies. Includes an overview of business functions: production, finance, and marketing, forms of retail organizations and business opportunities, organizing retail stores, staffing a retail store, developing a retail store strategy, planning for product purchases, pricing, and inventory control, establishing and maintaining a positive store image, promotion of the retail store, and developing a business plan for a retail venture.

SUP 104 Principles of Marketing for the Supermarket /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Marketing concepts as applied to the supermarket industry. Includes contemporary marketing environment, identifying consumer needs, product strategy, distribution strategy, elements of promotion, developing promotional strategies, evaluating the effectiveness of promotion, and pricing strategy.

SUP 105 Supermarket Warehouse Operations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Introduction to the management of warehousing for the supermarket industry. Includes warehouse structure, functions, inventory control, order filling and shipping, reclamation, and management of warehouse operations.

TECHNOLOGY – ELECTRONIC AND OPTICAL SYSTEMS TECHNOLOGIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TEC 101/101LB Principles of Technology I /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): TEC 111 or consent of instructor.

Introductory experimentation and study of applied mechanical, fluid, electrical, and thermal systems. Includes the physical constructs of force, work, rate, resistance, energy, power, and force transformation.

TEC 101A Principles of Technology IA /2 cr. hrs./4 periods (1 lec., 3 lab.)

Introductory experimentation and study of applied mechanical, fluid, electrical, and thermal systems. Includes the physical constructs of force, work, rate, and resistance.

Information: TEC 101A and 101B together constitute TEC 101.

TEC 101B Principles of Technology IB /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): TEC 101A or consent of instructor.

Continuation of TEC 101A. Includes experimentation and study of applied mechanical, fluid, electrical, and thermal systems within the physical constructs of energy, power, and force transformation.

Information: TEC 101A and 101B together constitute TEC 101.

TEC 102 Principles of Technology II /4 cr. hrs./8 periods (2 lec., 6 lab)

Prerequisite(s): TEC 101 or consent of instructor.

Continuation of TEC 101. Includes experimentation and study of applied momentum, waves, and vibrations. Also includes transient responses to physical stimuli, energy convertors and transducers, electromagnetic and nuclear radiation, light, and optical systems.

TEC 103 Light and Optical Systems /1 cr. hr./2 periods (1 lec., 1 lab)

Prerequisite(s): MAT/TEC 113.

Introduction to light and optical systems used in photolithographic processes and equipment in semiconductor manufacturing. Includes principles, terminology, and components used in basic optical systems.

TEC 111 Applied Math I /3 cr. hrs./3 periods (3 lec.)

Introduction to numerical operations in measurement and systems of units. Includes geometric figures, waveshapes, scale drawings, collection of data, display of data, and data calculations. Also includes basic algebraic and numeric expressions, scientific notation, and instruction on using the handheld calculator.

TEC 111A Applied Math I: Module A /1 cr. hr./1 period (1 lec.)

Module A constitutes approximately the first one-third of TEC 111.

Information: TEC 111A, 111B, and 111C together constitute TEC 111.

TEC 111B Applied Math I: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): TEC 111A.

Module B constitutes approximately the second one-third of TEC 111.

Information: TEC 111A, 111B, and 111C together constitute TEC 111.

TEC 111C Applied Math I: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): TEC 111B.

Module C constitutes approximately the third one-third of TEC 111.

Information: TEC 111A, 111B, and 111C together constitute TEC 111.

TEC 112 Applied Math II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TEC 111 or MAT 092 or satisfactory score on the mathematics assessment test.

Continuation of TEC 111. Includes linear equations, functional notation, quadratic equations, logarithms, complex numbers, and basic analytic geometry. Also includes many examples and exercises pertaining to electrical, magnetic, fluidic, thermal, mechanical, and chemical systems.

TEC 112A Applied Math II: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): TEC 111 or MAT 092 or satisfactory score on the mathematics assessment test.

Module A constitutes approximately the first one-third of TEC 112.

Information: TEC 112A, 112B, and 112C together constitute TEC 112.

TEC 112B Applied Math II: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): TEC 112A.

Module B constitutes approximately the second one-third of TEC 112.

Information: TEC 112A, 112B, and 112C together constitute TEC 112.**TEC 112C Applied Math II: Module C /1 cr. hr./1 period (1 lec.)**

Prerequisite(s): TEC 112B.

Module C constitutes approximately the third one-third of TEC 112.

Information: TEC 112A, 112B, and 112C together constitute TEC 112.**TEC 113 Mathematics with Trigonometry and Statistics /3 cr. hrs./3 periods (3 lec.)**

Prerequisite(s): MAT 122 or TEC 112 or satisfactory score on the mathematics assessment test.

Non-linear and simultaneous equations used in network analysis. Includes basic trigonometry and complex numbers used in AC circuit theory and optics, waveforms and methods of description, basic probability and statistics used in statistical process control and metrology, introductory periodic waveform analysis, and graphical presentations of special sums and rates of change in linear circuit applications.

Information: Same as MAT 113.**TEC 114 Mathematics for Optics /2 cr. hrs./2 periods (2 lec.)**

Prerequisite(s): TEC 113.

Basic mathematical formulae pertaining to fundamental understanding of optics. Includes college algebra and trigonometric functions. Also includes basic optics math such as Snell's law, Malus' law, Brewster's law, critical angle calculations, total internal reflection and numerical aperture.

TEC 116 Optical Shop Protocol and Inspection Standards /2 cr. hrs./3 periods (1 lec., 2 lab)

Typical procedures and safety requirements of the optical industry. Includes terminology used in the field of optics pertaining to ISO and mil specifications, safe handling of optical components and assemblies, lasers, lamps, power devices, sharp edges, equipment, and protective eye wear and clothing. Also includes identifying optical components and coatings, clean room protocol, and proper handling of optical assemblies and equipment.

TEC 117 Optical Assembly Techniques /3 cr. hrs./4 periods (2 lec., 2 lab)

Recommended: TEC 116.

Fundamental procedures used during the assembly of optical equipment. Includes use of epoxies and special adhesives during assembly, basic vibration isolation, mounting techniques, inspection of incoming subassemblies, and proper methods of disassembly. Also includes thermal and vibrational considerations as applied to assembly of systems.

TEC 121/121LB Basic Electric and Magnetic Properties /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 101 and 112, or consent of instructor.

Introduction to AC, DC, and magnetic circuit theory. Includes passive devices, terminology, basic laws, network calculations, electrical measurements, instruments, and units. Also includes use of hand tools, safety, use of schematic and block diagrams, troubleshooting, and electronic circuit applications.

TEC 121A Basic Electric and Magnetic Properties: Module A /2 cr. hrs./3 periods (1.5 lec., 1.5 lab)

Prerequisite(s): TEC 101 and 112, or consent of instructor.

Module A constitutes approximately the first one-half of TEC 121.

Information: TEC 121A and 121B together constitute TEC 121.**TEC 121B Basic Electric and Magnetic Properties: Module B /2 cr. hrs./3 periods (1.5 lec., 1.5 lab)**

Prerequisite(s): TEC 121A.

Module B constitutes approximately the second one-half of TEC 121.

Information: TEC 121A and 121B together constitute TEC 121.**TEC 122/122LB Applied Semiconductor Devices /4 cr. hrs./6 periods (3 lec., 3 lab)**

Prerequisite(s): MAT/TEC 113, TEC 121 and 151.

Basic semiconductor theory and applications. Includes measurement, component selection, effects of the environment on components, component protection, and applications. Also includes diodes, transistors, integrated circuits with operational amplifiers, and regulated power supplies.

TEC 123/123LB Digital Circuits and Computers /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 101 or consent of instructor.

Introduction to the theory, operation, and application of digital components used in combinational and sequential logic. Includes memory, error detection, convertors, and basic microprocessors. Also includes digital test equipment, measurements, tests on digital components and circuits, technical data, applications notes, specifications for digital components, and microprocessor applications.

TEC 124 Modern Electronic Communications /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): MAT/TEC 113, TEC 121 and 151, or consent of instructor.

Recommended: Concurrent enrollment in TEC 122.

Introduction to electronic communication circuits and methodologies in transmitters and receivers. Includes construction, measurement, and troubleshooting of modern electronic communications circuits and components. Also includes safety and FCC regulations.

TEC 125/125LB AC Networks with Phasors /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MAT/TEC 113, TEC 121, 151.

Applications of trigonometry and the algebra of complex numbers to AC circuit safety, troubleshooting, analysis, measurement, and design. Includes phasors, transfer functions, three phase power, filters, concepts of Fourier analysis, impedance matching, RLC circuits, waveshaping, and transmission lines at high AC frequencies.

TEC 126 Electronics Construction and Assembly /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MAT/TEC 113, TEC 121.

Basic skills required to work on electronic equipment. Includes assembly techniques, soldering and desoldering, printed circuit board fabrication, wire wrapping and cable construction. Also includes discussion of machine shop and power tools.

TEC 127 Printed Circuit Board Solder Assembly /3 cr. hrs./5 periods (1 lec., 4 lab)

Procedures and skills required for assembling components and for high reliability soldering of these components on printed circuit boards to appropriate military specifications. Includes defect recognition, component preparation, component recognition, installation and high reliability soldering of these components to a printed circuit board.

TEC 128/128LB Electronic Measurements /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 122, 125, 171.

Techniques to perform AC and DC measurements on passive and active component circuits. Includes the use of a variety of measuring devices such as recorders, transducers, audio and radio frequency generators, frequency counters, spectrum analyzers, distortion analyzers, with emphasis on oscilloscope operation.

TEC 130/130LB Microcomputer Assembly and Testing /4 cr. hrs./5 periods (3 lec., 2 lab)

Prerequisite(s): TEC 101 or 101B or consent of instructor.

Microcomputer system assembly, set-up, and start-up. Includes building a personal computer, installing the circuit boards, power supply, and disk drives. Also includes system testing and trouble shooting, configuring for different operating systems, tools and equipment safety, use of diagnostic and support software, peripheral connections, and component replacement.

TEC 132/132LB Microcomputer Systems Servicing /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 130, 160.

Servicing microcomputers, peripherals and software. Includes determining the operational status of monitors, printers, floppy disk drives, hard drives, installed operating systems, and application software.

TEC 140 Geometric Optics /2 cr. hrs./2 periods (2 lec.)

Co-requisite(s): TEC 114.

Exploration of how light moves through an optical system. Includes reflection, refraction, elimination of stray reflections, ray trace diagrams, and measurement of para-axial parameters using the nodal slide method. Also includes application of geometric optics to eye glasses, telescopes,

periscopes, binoculars, photographic equipment and projection systems.
Information: Coupled with Wave Optics, provides a basis for all 200 level courses in optics.

TEC 141 Wave Optics /3 cr. hrs./3 periods (3 lec.)

Co-requisite(s): TEC 286.

Exploration of the wavelike nature of light and how light interacts with matter. Includes concepts related to the dual nature of light, harmonic waves, propagation, polarization, interference effects, diffraction, coherence and Fourier optics.

Information: Coupled with Geometric Optics, forms the basis for all 200 level courses in optics.

TEC 151 Information Transfer in Technology /2 cr. hrs./2 periods (2 lec.)

Information transfer in metrology, data collection, data description, and analysis. Includes the representation of systems and processes, an introduction to components, symbols, and diagrams. Also includes the description of equipment and parts, the use of technical information sources, methods of troubleshooting, technical note-taking and technical telephone/computer communications.

TEC 160 Microcomputers and Programming Techniques /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): MAT 092 or TEC 111 or consent of instructor.

Introduction to microcomputer operation. Includes terminology, reading and understanding specifications, system start up, disk operations, programming simple electronic problems. Also includes an introduction to assembly language and number systems.

TEC 170 Foundations of Improvement Technology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT 092 or TEC 111 or satisfactory score on the mathematics assessment test.

Statistical thinking, systems thinking, psychology, and theory of knowledge for the continuous improvement of processes in technician training and work. Includes team dynamics, introductory control charting, and basic design of experiments concepts. Also includes techniques for teams to identify and prioritize improvement opportunities, represent and analyze important processes, and identify feasible routes to achieve improvement and excellence in technical training and work.

TEC 171 Statistical Process Control and Experimentation /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): MAT/TEC 113, TEC 170.

Basic statistical control and experimentation for technicians. Provides tools for representing processes, methods for data collection, statistical data-descriptive devices, control charting, capability analyses, and elementary statistical experimental designs. Includes use of calculator and quality software.

TEC 182 Fundamentals of Semiconductor Manufacturing Chemistry and Safety /3 cr. hrs./3 periods (3 lec.)

Fundamentals of chemistry with emphasis on chemical safety in the semiconductor manufacturing workplace. Includes chemical principles, calculations, terminology, uses of chemicals, types of hazards, safeguards, regulations, and basic first aid.

TEC 221 Linear Devices /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): TEC 122, 125.

Linear devices in electronic systems. Includes operational amplifiers, measurement, specification, selection, troubleshooting, and theory of linear devices. Also includes power requirements and the means to obtain necessary power.

TEC 222/222LB Electromechanical Devices and Systems /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 122, 125.

Prime movers encompassing DC motors, AC motors, synchros, stepper motors, and fluid motors. Includes control systems and the utilization of electronic devices in electromechanical control. Also includes mechanical components of electromechanical systems, electronic components used in motor control systems, sensors, transducers, relays, and solenoids.

TEC 225/225LB Fluid Devices and Automated Systems /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): TEC 123, 160.

Application and control of fluid devices using programmable logic devices. Includes microprocessors, software, ladder logic and diagrams, programmable logic controllers (PLCs), and a variety of input/output devices used in the automated manufacturing and test environments. Also includes safety and basic physical principles or laws governing the operation of pneumatic and hydraulic devices.

TEC 226 Integrated Systems in Semiconductor Manufacturing /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 221, 222, 225, 272, and 273 and 274 or concurrent enrollment.

Integration of chemical, computer, electronic, electromechanical, fluidic, and optical components to duplicate or simulate systems in the semiconductor manufacturing workplace. Includes process analysis, technical communications, metrology and data collection, statistics, troubleshooting and team problem solving, safety, statistical process control and experimental design, system assembly, reliability, test, and cleanroom procedures.

TEC 227/227LB Communication and Information Transmission Systems /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 122, 124, 125, 171.

Recommended: TEC 123.

Introduction to electronic communications and information transmission. Includes technical properties, components, sub-systems, specifications, adjustment, operation, maintenance, and troubleshooting of cable, RF point-to-point, laser, fiber, satellite, transponder, cellular, and computer systems.

TEC 228/228LB RF and Microwave Devices /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 221, 222, 227.

Properties, applications, measurements, and specifications of electronic communications components and systems at RF and microwave

frequencies. Includes antennas, transmitting and modulating devices, interconnecting systems, antennas, satellite transceiving devices, and cellular telephone configurations.

TEC 229 Integrated Systems in Telecommunications /4 cr. hr./ 6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 221, 222, 227, 228 or concurrent enrollment. Overview of communications. Includes systems specifications, the ordering of materials, installation, operation, inventory, maintenance, repair, and documentation.

TEC 230/230LB Peer-To-Peer Networking /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 132 or consent of instructor. Introduction to basic networking concepts. Includes network topologies, configuration, protocols, and technologies. Also includes inter-networking concepts and experiential learning.

TEC 232/232LB Dedicated Server Networks /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 230. Dedicated file server networking technology using industry standard network operating systems. Includes installation, setup, administration, setting of network interface card, interrupts, I/O base address, and memory configurations. Also includes using technical literature to make user accounts, directories, permissions, printer servers, printer queues, printer definitions, printer configurations, and remote printing.

TEC 234/234LB Microcomputer Repair /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): TEC 122, 123, 124, 125, and 132. Repair and replacement of microcomputer components. Includes microprocessors and system architecture. Also includes tools, test equipment, handshaking, and troubleshooting.

TEC 235 Survey of Networks and Operating Systems /3 cr. hrs./ 4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 132. Survey of computer, networks, and operating systems including DOS, OS/2, VMS, UNIX, peer-to-peer and client/server network operating systems (NOS). Includes topics on network topologies, protocols, and transmission media. Also includes topics on distributed operating systems.

TEC 236 Underpinnings of the Internet /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 160. Introduction to the Internet and its services. Includes topics on the structure, operation, and physical components of the network. Also includes differences due to variations in server operating systems.

TEC 237/237LB Contemporary Client/Server Computing /3 cr. hrs./ 4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 232, 235. Introduction to client/server computing from the ground up. Includes topics on client/server models, operating systems, network operating systems (NOS), and middleware, database servers, and groupware.

TEC 238 Information Acquisition and Professional Advancement / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TEC 232, 235, 236, 237 or concurrent enrollment. Locating information pertaining to systems networking standards and protocols. Includes costs, information technologies, operating systems, transmission methods, networking equipment, and management. Also includes methods of storing, retrieving, archiving, disseminating, and destroying unnecessary or obsolete information.

TEC 250/250LB Digital Devices /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 122, 123. Digital integrated circuits, primarily TTL. Includes power requirements, propagation delay, input and output electrical characteristics, counters, latches, multiplexors, decoders, flip-flops and other digital devices. Also includes digital circuit troubleshooting.

TEC 251/251LB Analog Circuits /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 250 or concurrent enrollment, and TEC 221. Advanced analog circuits used in current digital systems. Includes power supplies, power failure, surge protection, and power amplifiers.

TEC 255/255LB Microprocessor I /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 160 and 250 or concurrent enrollment. Microcomputer operation, including operating systems, diagnostics, system, monitor, assemblers, linking loaders and backup procedures. Also includes machine language, assembly language and subroutine calls from higher level languages.

TEC 256/256LB Microprocessor II /4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TEC 255. In-depth study of microcomputer hardware to the component level. Includes microprocessors, bus structure and timing, memory, input-output, interrupt, DMA and troubleshooting.

TEC 272 Semiconductor Manufacturing Processes I /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): TEC 103, 171, 182. Study of semiconductor manufacturing. Includes crystal growth, wafer preparation, wafer fabrication, oxidation, diffusion and ion implantation with attention to affiliated processes, equipment, materials, key concepts, measurements, safety, contamination control, tests, and terminology.

TEC 273 Semiconductor Manufacturing Processes II /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): TEC 272. Continuation of TEC 272. Includes photolithography (photomasking and etching), deposition, packaging, wafer test, evaluation, and process yields with attention to affiliated processes, equipment, materials, key concepts, measurements, safety, contamination control, tests, and terminology.

TEC 274/274LB Vacuum Systems and Power RF /3 cr. hrs./ 4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 122, 125, 182, 225. Basic gas laws, theory, definitions, and applications of power RF in manufacturing industries, particularly semiconductor manufacturing. Includes pumps, vacuum gauges, measurement, lead detection, safety in high vacuum environments, troubleshooting, and RF generation and transmission. Also includes materials and components, plasmas, plasma etching systems, cleaning and other vacuum lab procedures.

TEC 284 Calibration of Optical Systems /3 cr. hrs./5 periods (1 lec., 4 lab)

Co-requisite(s): TEC 141. Applications of specialized equipment and analytical procedures for performance evaluation and calibration of optical systems in the optics industry. Includes radiometric entities and figures of merit used to describe system performance, NIST traceability for radiation standards and associated hardware. Also includes use of point sources, Jones sources, extended area sources, and collimated sources related to use in calibration, measurement of noise and statistical methods of noise cancellation to improve signal to noise ratios.

TEC 286 Fiber Optics Installation and Testing /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 141 or concurrent enrollment. Installation and use of optical fibers and related equipment in the optical industry. Includes procedures such as terminating and coupling of fiber, comparison of fiber types, and testing of fibers to see if the coupling and terminations are within specifications. Also includes applications of fiber optics, such as their use in medicine, communications, aviation and imaging devices.

TEC 287 Laser Fundamentals /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): TEC 141. Lasers and how they are built and used in industry. Includes the principles of laser operation, characteristics of laser light, and safe handling and servicing of lasers. Also includes some basic quantum mechanics, cavity design, unit assembly techniques, and use of high voltage power supplies needed for lasers to operate.

TEC 288 Optical Testing /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): TEC 141. Use of common techniques and equipment for the testing of optical systems and components. Includes how interferometry and various profilers are used to examine surface features. Also includes other, non-interferometric tests and examination of the theory behind each.

TEC 289 General Radio/Telephone FCC License /4 cr. hrs./ 4 periods (4 lec.)

Prerequisite(s): TEC 230 or equivalent experience.
Preparation for FCC general radio/telephone certificate examination. Includes review of electronic circuit analysis, basic radio theory, laws and regulations.

TEC 290 Technology Education Field Experience /1-6 cr. hrs./ 5-30 periods (5-30 lab)

Prerequisite(s): Consent of instructor.
Participation in a high technology placement to provide experience in the practical application of classroom instruction. Includes practical experience, observation of business practices, job skills preparation, and an emphasis on work-place behaviors.
Information: May be taken two times for a maximum of six credit hours.

THEATER

For courses numbered 098, 198, 298, see "Topics Courses" in index.

THE 103 Voice and Movement for the Actor I /1 cr. hr./2 periods (2 lab)

Principles and practice of beginning voice and movement skills for the actor. Includes phonetics, physical isolation and awareness exercises.
Information: May be taken two times for a maximum of two credit hours.

THE 104 Voice and Movement for the Actor II /1 cr. hr./2 periods (2 lab)

Prerequisite(s): THE 103.
Continuation of THE 103. Includes development and practice of stage dialects and physicalization of character.
Information: May be taken two times for a maximum of two credit hours.

THE 107 Introduction to Pantomime /3 cr. hrs./3 periods (3 lec.)

Development of theater skills through the language of mime. Includes technique and vocabulary necessary to articulate thought process by means of body dynamics.

THE 110 Movement/Dance for Actors /3 cr. hrs./3 periods (3 lec.)

Physical dynamics of actor training. Includes warm-up and relaxation techniques, text and scene analysis through movement and an introduction to dance and movement traditions of musical theater.

THE 111 Stagecraft /2 cr. hrs./2 periods (2 lec.)

Principles of the operation and effects of various types of stages and stage scenery. Includes the construction of stage scenery and the history and construction of costumes and properties.

THE 112 Stagecraft Laboratory /1 cr. hr./3 periods (3 lec.)

Co-requisite(s): Concurrent enrollment in THE 111 and 113.
Practical application of techniques for constructing stage scenery and properties. Includes uses of various materials, construction of flats, steps and platforms, and rigging systems.
Information: May be taken three times for a maximum of three credit hours.

THE 113 Stagecraft Crew /1 cr. hr./3 periods (3 lab)

Co-requisite(s): Concurrent enrollment in THE 111 and 112.
Preparing, organizing, setting up, running and shifting of theatrical sets, properties and costumes for approved theatrical productions.
Information: May be taken three times for a maximum of three credit hours.

THE 115 Make-up /1 cr. hr./3 periods (1 lec., 2 lab)

Principles and practice of straight and character make-up under various conditions. Includes special effects, masks, clown make-up and fantasy make-up.

THE 118 Basic Theater Graphics /2 cr. hrs./4 periods (1 lec., 3 lab)

Principles and practice of graphic skills necessary in the planning of theatrical productions. Includes drafting and mechanical drawing, perspective drawing, and watercolor painting techniques.

THE 140 History of Theater I /3 cr. hrs./3 periods (3 lec.)

Survey of theater, drama and audiences from its origins to the late 18th century. Includes changes in theaters, stages and theatrical conventions, and representative plays from each period.

THE 141 History of Theater II /3 cr. hrs./3 periods (3 lec.)

Survey of theater, drama and audiences from the 18th century to the present. Includes changes in theaters, stages and theatrical conventions, and representative plays from each period.

THE 149 Introduction to Acting I /3 cr. hrs./4 periods (3 lec., 1 lab)

Introduction to performance techniques and the development of physical skills for effective performance. Includes techniques of acting and characterization.

THE 151 Introduction to Acting II /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): THE 103 or concurrent enrollment, and THE 149.
Continuation of THE 149. Includes methods of developing and projecting a character's physical scope, emotional inner life, and the employment of sub-text (unspoken thoughts) in performances. Also includes techniques for character and script analysis.

THE 220 Stage Lighting /2 cr. hrs./2 periods (2 lec.)

Co-requisite(s): Concurrent enrollment in THE 221 and 222.
Principles of stage lighting design and practice. Includes study of stage lighting, instruments and their capabilities, construction, and uses in various theatrical applications.

THE 221 Stage Lighting Laboratory /1 cr. hr./3 periods (3 lab)

Co-requisite(s): Concurrent enrollment in THE 220 and 222.
Practical application of stage lighting techniques. Includes mounting, hanging and focusing from design, adjustments and repair of instruments, organizing and operation of control systems, and safety practices.
Information: May be taken three times for a maximum of three credit hours.

THE 222 Stage Lighting Crew /1 cr. hr./3 periods (3 lab)

Co-requisite(s): Concurrent enrollment in THE 220 and 221.
Organizing, setting up and operating of stage lighting for approved theatrical productions.
Information: May be taken three times for a maximum of three credit hours.

THE 223 Scene Design /2 cr. hrs./2 periods (2 lec.)

Prerequisite(s): THE 118.
Co-requisite(s): Concurrent enrollment in THE 224 and 225.
Principles of scene design for various types of stage and models of productions. Includes ground plans, color design, painting techniques, and uses of plastic materials and fabric design.

THE 224 Scene Design Laboratory /1 cr. hr./3 periods (3 lab)

Prerequisite(s): THE 118.
Co-requisite(s): Concurrent enrollment in THE 223 and 225.
Practical application of scene design techniques. Includes base and paint application in various styles, mixing and blending of painting materials and forming and mounting set decorations.
Information: May be taken three times for a maximum of three credit hours.

THE 225 Scene Design Crew /1 cr. hr./3 periods (3 lab)

Prerequisite(s): THE 118.
Co-requisite(s): Concurrent enrollment in THE 223 and 224.
Planning, painting, and decorating stage settings for approved theatrical productions.
Information: May be taken three times for a maximum of three credit hours.

THE 245 Principles of Dramatic Structure /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.
Examination of the structural elements of major dramatic forms and styles. Includes reading and viewing of representative plays and analysis of their structures in relationship to modes of presentation and the resulting effects.

THE 250 Intermediate Acting I /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): THE 103 and 112 or concurrent enrollment, and THE 149.
Theory and practice of creating sustained and logical character portrayals using all types of dramatic literature from various cultures. Includes rehearsal and performances of scenes in representational and presentation styles and practice in auditioning techniques.

THE 251 Intermediate Acting II /3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): THE 104 and 112 or concurrent enrollment, and THE 151 or 250.

Continuation of THE 250. Includes scene and monologue development and focusing on conventions of non-realistic styles.

THE 296 Independent Studies in Theater /1-4 cr. hrs./3-12 periods (3-12 lab)

Students work at various assigned tasks in theatrical productions under the guidance of an instructor. Includes the opportunity for the student to design his/her own project with the instructor's approval.

TOHONO O'ODHAM

For courses numbered 098, 198, 298, see "Topics Courses" in index.

THO 101 Elementary Tohono O'Odham I /4 cr. hrs./4 periods (4 lec.)

Skill development to provide proficiency in basic communication in the Tohono O'Odham language. Includes listening, speaking, reading, and writing. Also includes an emphasis on examination of Tohono O'Odham cultural traditions.

THO 102 Elementary Tohono O'Odham II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): THO 101.

Continuation of THO 101. Includes increased proficiency in listening, speaking, reading, and writing. Includes continued study of Tohono O'Odham cultural traditions.

THO 106 Conversational Tohono O'Odham I /4 cr. hrs./4 periods (4 lec.)

Introduction to conversational Tohono O'Odham. Includes O'odham culture and history, basic alphabet pronunciation, basic greetings, basic interpersonal transactions, and cultural perspectives.

THO 107 Conversational Tohono O'Odham II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): THO 106 or equivalent.

Continuation of THO 106. Includes oral and written communication, grammatical structures, additional interpersonal transactions, and additional cultural perspectives.

TOHONO O'ODHAM CULTURE

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TOC 150 Tohono O'Odham Food Systems /3 cr. hrs./3 periods (3 lec.)

Overview of Tohono O'Odham food systems. Includes pre-encounter methods of farming, hunting, and food gathering. Also includes an exploration of current methods of cultivation, effects of food subsidy programs on traditional diet, and cultural importance of these food systems in the past and present time.

TOC 151 Tohono O'Odham Writing Systems /1 cr. hr./1 period (1 lec.)

History of the development of Tohono O'Odham writing systems. Includes the three existing systems and sounds and symbols of the language. Also includes the Alvarez-Hale writing system.

TRAINING FOR SPECIAL EDUCATION

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TSE 101 Orientation to the Exceptional Child /3 cr. hrs./3 periods (3 lec.)

Introduction to the physical and mental characteristics of children in special education. Includes disability categories such as mental retardation, emotionally handicapped, hearing and visually impaired, orthopedically impaired, traumatic brain injury, autism, and multiple handicapped. Also includes a historical perspective, future populations, and laws that impact special education.

TSE 105 Techniques for Working with Developmentally-Disabled People /2 cr. hrs./3 periods (1 lec., 2 lab)

Basic skills and knowledge for the entry-level habilitation technician. Includes the basic characteristics of mental retardation, epilepsy, cerebral palsy and autism; safety procedures related to client activities; intervention techniques; and the continuum of services available to clients.

TSE 132 Behavior Modification Techniques for Special Education /3 cr. hrs./3 periods (3 lec.)

Behavior theories and strategies for changing inappropriate behavior through the use of positive reinforcement principles. Includes data collection, principles of reinforcement, schedules of reinforcement, token economies, contracts, modeling, generalization, and program evaluation.

TSE 240 Techniques for Teaching Students with Mental Retardation /3 cr. hrs./3 periods (3 lec.)

Techniques and procedures for teaching students with mental retardation. Includes definitions of the educable/trainable mentally retarded person, etiologies, characteristics, and educational methodologies and teaching techniques.

TSE 245 The Young Child with Disabilities /3 cr. hrs./3 periods (3 lec.)

Causes, characteristics, and intervention techniques for children with disabilities (birth through five). Includes characteristics and stages of learning of the normal child and the identification and educational programming for the child with disabilities.

TSE 255 Characteristics of Behavioral Disorders /3 cr. hrs./3 periods (3 lec.)

Overview of techniques and procedures for teaching students who display behavioral disorders. Includes evaluation strategies and intervention models for managing behaviors.

TSE 265 Adaptive Technology in Special Education /3 cr. hrs./3 periods (3 lec.)

Overview of mechanical and electrical adaptive devices and their application with special needs students. Includes communication, self-help skills, and environmental control independence.

TRAINING IN BEHAVIORAL HEALTH

TBH 198 Special Topics in Behavioral Health Education / .25-4 cr. hrs./25-12 periods (0-4 lec., 0-12 lab)

Customized course to meet the continuing training needs of individuals in the behavioral health field. Includes topics which reflect current issues, trends, and technologies.

TBH 298 Special Advanced Topics in Behavioral Health Education / .25-4 cr. hrs./25-12 periods (0-4 lec., 0-12 lab)

Customized course to meet the continuing training needs of individuals in the behavioral health field. Includes advanced topics which reflect current issues, trends, and technologies.

TRANSLATION STUDIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TRS 101 Introduction to Translation / 4 cr. hrs./4 periods (4 lec.)

Principles and procedures for the translation of written materials. Includes an introduction to translation, translation preparation, translation procedures, basics of grammar in the target languages English and Spanish, translator ethics and protocol, legal/quasi-legal translation, business/commercial translation, literary translation, and health care translation.

TRS 102 Spanish for Translation / 4 cr. hrs./4 periods (4 lec.)

Analysis of the Spanish language from the translator's point of view. Includes the structure of Spanish, cultural and stylistic components, paragraph and document development, mechanics and punctuation for editing, and writing resources.

TRS 103 English for Translation / 4 cr. hrs./4 periods (4 lec.)

Analysis of the English language from the translator's point of view. Includes the structure of English, cultural and stylistic components, paragraph and document development, mechanics and punctuation for editing, and writing resources.

TRS 120 Technology for Translation / 4 cr. hrs./6 periods (3 lec., 3 lab)

Prerequisite(s): TRS 101, CSA 101 or computer applications experience.

Survey of the technological equipment that facilitates the work of the translator. Includes computers for transcription/translation, information distribution techniques, file transfer technologies, using the Internet, and applied projects.

TRS 150 Survey of Translation Specialty Areas / 4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): TRS 102, 103.

Introduction to the translation specialty areas of health care, legal, literary, and commercial/business. Includes introduction to specialty areas, types of documents, elements and characteristics of specialty documents, resource development, ethical and legal restrictions, and development of translation subskills.

TRS 160 Translation in Specialty Areas / 4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): TRS 120, 150.

Principles and procedures for translating specialty area materials. Includes health care, legal, commercial/business, and literary translation exercises.

TRS 290 Practicum in Specialty Area Translation / 4 cr. hrs./16 periods (1 lec., 15 lab)

Prerequisite(s): TRS 160.

Engaging in a specialty area internship to produce a translated product. Includes agency/individual sponsor, internship goals, portfolio project, and on-site or supervised training.

TRS 297 Translation Studies Seminar: / .25-4 cr. hrs./25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Translation studies job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

TRAVEL INDUSTRY OPERATIONS

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TVL 101 Introduction to the Travel Industry / 3 cr. hrs./3 periods (3 lec.)

Major components of travel products and careers. Includes travel industry and hospitality products, distribution of the travel product, and careers in the travel industry.

TVL 102 Computerized Reservation Systems I / 3 cr. hrs./5 periods (2 lec., 3 lab)

Basic software training. Includes screen management, passenger name record (PNR), Sabre's FOX, PNR modifications, faring/pricing the completed PNR, booking and pricing hotels and rental cars.

TVL 103 Geography for Travel Professionals I / 3 cr. hrs./3 periods (3 lec.)

Examination of major tourist destinations. Includes physical geography, and North and South America.

TVL 104 Geography for Travel Professionals II / 3 cr. hrs./3 periods (3 lec.)

Examination of major tourist destinations. Includes physical geography, Europe, Africa, Asia and Oceania.

TVL 109 Survey of Leisure Products / 3 cr. hrs./4 periods (3 lec., 1 lab)

Leisure travel components. Includes hotels, rental cars, AMTRAK, tours, and cruise accommodations.

TVL 120 Leisure and Society / 3 cr. hrs./3 periods (3 lec.)

Overview of recreation and leisure, and their role in contemporary society. Includes the history of leisure and work, theoretical perspectives, contemporary factors affecting leisure and play, ethics, conceptualizing leisure, role of leisure and recreation in society, and leisure services as a profession.

Information: Same as REC 120.

TVL 121 Travel Sales / 3 cr. hrs./4 periods (3 lec., 1 lab)

Prerequisite(s): TVL 109.

Sales techniques in the travel industry. Includes phone and listening skills, sales techniques, client behavior styles, closing the sale, legal aspects of the travel industry, and outside sales.

TVL 181 Selling and Marketing Leisure Products / .5-1 cr. hr./ .5-1 period (.5-1 lec.)

Introduction to selling and marketing leisure travel products. Includes eco-tourism, adventure travel, introduction to specialization, and cruise ship marketing.

TVL 182 The Art of Selling Travel / .5-1 cr. hr./ .5-1 period (.5-1 lec.)

Introduction to sales techniques for travel industry professionals. Includes phone selling and listening skills, the formal sales process, client behavior styles, and closing the sale.

TVL 183 How to Market Travel Products / .5-1 cr. hr./ .5-1 period (.5-1 lec.)

Introduction to development and implementation of a marketing plan. Includes developing an effective marketing plan, evaluating the local travel industry market, market segmentation, marketing methodology, consumer behavior, and developing new leads.

TVL 184 Destination Certification: Mexico / .5-1 cr. hr./ .5-1 period (.5-1 lec.)

Introduction to destination geography, culture, and history of Mexico. Includes the history and politics of the country, geographical highlights, climate, destination attractions, tourist sights, recommended hotels, and tourism infrastructures. Also incorporates the exam for the Destination Specialist Certification for Mexico.

TVL 185 Destination Certification: Caribbean / .5-1 cr. hr./ .5-1 period (.5-1 lec.)

Introduction to destination geography, culture, and history of Caribbean. Includes the history and politics of the region, geographical highlights, climate, destination attractions, tourist sights, recommended hotels, and tourism infrastructures. Also incorporates the exam for the Destination Specialist Certification for the Caribbean.

TVL 199 Co-op Related Class in TVL /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 199 Co-op Work, and a minimum of 12 credit hours of Travel Industry (TVL) courses or one year of related work experience.

See Cooperative Education section for description.

TVL 199WK Co-op Work in TVL /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Concurrent enrollment in 199 Co-op Related Class, and a minimum of 12 credit hours of Travel Industry (TVL) courses or one year of related work experience.

See Cooperative Education section for description.

TVL 203 Computerized Reservation Systems II: Fares and Ticketing /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): TVL 102.

Continuation of TVL 102. Includes advanced pricing, supplier pricing, ticketing, and Sabre's TIMATIC function.

TVL 205 Tourism Marketing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TVL 101.

Concepts of hospitality and travel marketing. Includes consumer behavior, research and environment, strategies, and marketing elements.

TVL 210 Leisure Delivery Systems /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): REC/TVL 120.

Introduction to development, management, and organization of the leisure services profession. Includes the significance of leisure and tourism in society, leisure and tourism as a profession, delivery systems, and organizational management.

Information: Same as REC 210.

TVL 211 Tour Group Development, Sales and Management /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TVL 101 and/or one year of experience working in the hospitality-tourism industry.

Development, management and marketing of tours. Includes sales techniques, packaging, tour-guide skills and relationships with other destination services.

TVL 214 Destination Development /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TVL 101 and 205 or concurrent enrollment.

Principles of tourism planning. Includes demographics, supply components, infrastructure, superstructure and hospitality resources, marketing, planning, and tourism demand components.

TVL 250 Leadership in Recreation and Tourism /3 cr. hrs./3 periods (3 lec.)

Principles and strategies of leadership as applied to recreational and tourism settings. Includes leisure services, leadership, planning and evaluation, and communication skills.

Information: Same as REC 250.

TVL 290 Field Work /3-6 cr. hrs./15-30 periods (15-30 lab)

Prerequisite(s): Consent of instructor.

Field experience providing the opportunity to apply course work in a planned and supervised recreational or tourism setting.

Information: May be taken two times for a maximum of six credit hours.

Information: Same as REC 290.

TVL 296 Independent Study in Travel/Tourism /1-3 credits/1-3 periods (1-3 lec.)

Prerequisite(s): Consent of instructor.

Independent studies projects or special interest areas in travel/tourism. Content to be determined jointly between student and instructor.

Information: May be taken three times for a maximum of nine credit hours.

TVL 297 Travel Industry Seminar: /25-4 cr. hrs./25-16 periods (25-4 lec., 25-12 lab)

Prerequisite(s): Consent of instructor.

Travel industry job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

TVL 299 Co-op Related Class in TVL /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Concurrent enrollment in 299 Co-op Work, and a minimum of 15 credit hours of Travel Industry (TVL) courses or one year of related work experience.

See Cooperative Education section for description.

TVL 299WK Co-op Work in TVL /1-8 cr. hrs./5-40 periods (5-40 lab)

Prerequisite(s): Concurrent enrollment in 299 Co-op Related Class, and a minimum of 15 credit hours of Travel Industry (TVL) courses or one year of related work experience.

See Cooperative Education section for description.

TRIBAL GOVERNMENT

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TRB 101 Tribal Law I /3 cr. hrs./3 periods (3 lec.)

Legal problems specific to American Indians and tribes. Includes the nature and scope of Indian law, federal Indian law, and policy, the special federal-tribal relationship, Indian tribal governments, Indian tribal sovereignty, and the jurisdictional framework in Indian country.

TRB 102 Tribal Law II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): TRB 101.

Legal problems special to American Indians and tribes. Includes criminal, civil, tax, and regulatory jurisdiction in Indian country, rights of individual Indians, tribal economic development and Indian water, and fishing, and hunting rights.

TRUCK DRIVER TRAINING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

TDT 101 Introduction to Trucking and First Aid /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Overview and introduction to the operation of a tractor-trailer and basic first aid. Includes an overview of the history of trucking, control systems, vehicle systems, coupling and uncoupling, CPR and first aid, over the road management, and the process to follow in the job search.

TDT 102 Driver Challenges and Air Brake System /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Operation of the tractor-trailer and the practices required to meet financial obligations. Includes visual search and communications, basic control, speed and space management, pre-trip inspection, extreme driving, emergency maneuvers, air brakes, preventative maintenance, shifting, backing, accident procedures, money, management, and special rigs and refrigerated trailers.

TDT 103 Introduction to Hours of Service and Department of Transportation Regulations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Handling responsibilities that do not involve operating a vehicle. Includes hours of service requirements, trip planning, and team logs.

TDT 104 Hazardous Materials and the Department of Transportation Regulations /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Laws governing the transportation industry. Includes night operations, hazardous materials, Department of Transportation rules and regulations, and environment.

TDT 105 Defensive Driving and Cargo Handling /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Procedures for handling potentially dangerous situations and for handling of cargo. Includes visual search, hazard perception, satellite communication, electronic engines, driver safety, and cargo handling and documentation.

TDT 106 Pre-Trip and Backing Skills /1 cr. hr./1.5 periods (.5 lec., 1 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Vehicle inspection and backing a tractor-trailer. Includes pre-trip inspection, backing, straight line, 45° dock/offset, parallel park, serpentine, and visual search.

TDT 107 Basic Control /1 cr. hr./1.5 periods (.5 lec., 1 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Building of skills required to maneuver a tractor-trailer. Includes engine start, instrument scan, proper gear start, steering position, mirror checks, rpm/range control, up shift progressive, down shift, double clutch, smooth braking, set parking brake, right hand turn, and left hand turn.

TDT 108 Proficiency Development /1 cr. hr./1.5 periods (.5 lec., 1 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Introduction to safe driving techniques. Includes skip and shift recovery, visual and traffic checks, speed management, lane control and change, merge and exit freeway, space management, and use of signals and horn.

TDT 109 Extreme Driving Conditions /1 cr. hr./1.5 periods (.5 lec., 1 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Advanced techniques of control and safe driving. Includes uphill start and roll back, up and down hill upshift, up and down hill downshift, adverse condition, curve and passing control.

TDT 110 Introduction to Externship /1 cr. hr./1 period (1 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Overview and introduction to the operation of the company that will administer the externship of the trainee truck driver. Includes history of the company, company policies, and procedures for dispatch, payroll, insurance, requirements for logging, trip reporting, and paperwork.

TDT 112 Preparation for the Commercial Driver's License Exam / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Information to prepare trainees to pass the Commercial Driver's License exam and a class A permit. Includes air brakes, pre-trip inspection, combination vehicle, and hazardous materials. Also includes information to manage speed effectively and respond to various road and weather conditions.

TDT 113 Operation of a Tractor-Trailer /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Techniques for the safe and efficient operation of a tractor-trailer. Includes coupling and uncoupling, backing, hazard perception, cargo handling, rules and regulations, hours of service, and trip planning and hours of service.

TDT 114 Inspect and Operate a Tractor-Trailer /1 cr. hr./1 period (3 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Basic skills to inspect and operate a tractor-trailer safely. Includes pre-trip inspection, backing, basic control, visual search, progressive shifting, and communication.

TDT 115 Safe Driving Techniques /1 cr. hr./1 period (3 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Safe driving techniques while developing driving proficiency. Includes space management, extreme driving, speed management, and hazard perception.

TDT 116 Straight Truck and Bus Driver /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Information to prepare the trainees to pass the Commercial Driver's License exam and obtain a Class "B" permit. Includes CDL preparation, driving conditions, pre-trip inspection, air brakes, hazardous materials, and city map reading, hours of service, backing, cargo handling, and transporting passengers.

TDT 117 Straight Truck and Bus Driver: Road and Range /1 cr. hr./1 period (3 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Techniques for the inspection and safe operation of a straight truck or bus. Includes pre-trip inspection, backing, basic control of left and right turns, progressive shifting, proficiency development, space and speed management, visual search and communication, extreme driving, and hazard perception.

TDT 190 Truck Driver Training: Externship /3 cr. hrs./15 periods (15 lab)

Prerequisite(s): Meet admission requirements as outlined by the American Institute of Technology.

Measured development of the entry-level driver and the employing company's achievement in promoting the new driver from trainee to solo operations. Includes objectives and guidelines to establish uniform progress, methodology, and the measurement of the essential skills necessary to all drivers.

VETERINARY TECHNOLOGY

For courses numbered 098, 198, 298, see "Topics Courses" in index.

VET 100 Introduction to Veterinary Technology /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Admission to the Veterinary Technology program. Introduction to the role of the veterinary technician in the veterinary medicine profession. Includes careers and career paths, legal applications, ethical responsibilities, professional attitudes, medical terminology, and occupational safety issues. Also includes breed identification of domestic animals, behavioral characteristics of animals, human-animal bonding, and dealing with pet loss.

VET 110 Veterinary Nursing Procedures I /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Admission to the Veterinary Technology program.

Co-requisite: Concurrent enrollment in VET 100, 130, BIO 100, and MAT 122.

Introduction to veterinary nursing techniques. Includes physical examination, history taking, injections, preventative health care, basic nutrition and animal restraint. Also includes husbandry techniques, kennel management and sanitation of kennel facilities for dogs and cats.

VET 111 Veterinary Nursing Procedures II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 100, 110, 130.

Co-requisite: Concurrent enrollment in VET 120, 131, 150, and CHM 130.

Continuation of VET 110 with an emphasis on venipuncture, catheterization, fluid therapy and basic dental care procedures. Includes complete physical examinations, wound management, CPR and first aid.

VET 120 Clinical Pathology I /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 100, 110, 130.

Co-requisite: Concurrent enrollment in VET 111, 131, 150, and CHM 130.

Introduction to clinical pathology. Includes pathology terminology, basic laboratory procedures and specimen collection and preservation. Also includes basic use and care of microscopes.

VET 121 Clinical Pathology II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 120, 131, 150.

Co-requisite: ASC 151, VET 200, 205, 210.

Continuation of VET 120. Includes review of laboratory procedures, urinalysis, and cytologic evaluations. Also includes pathogens, parasites, and hematologic evaluations.

VET 130 Animal Anatomy and Physiology I /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): Admission to the Veterinary Technology program.
Co-requisite: Concurrent enrollment in BIO 100, MAT 122, VET 100, 110.

Anatomy and Physiology of domestic animals. Includes the study of body systems such as skeletal, muscular, integumentary, special sense organs, circulatory and digestive.

VET 131 Animal Anatomy and Physiology II /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 100, 110, 130.

Co-requisite: Concurrent enrollment in CHM 130, VET 111, 120, 150.
Continuation of VET 130. Includes the study of the nervous, respiratory, reproductive systems and teeth. Also includes endocrine and urinary systems.

VET 150 Pharmacology and Disease /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 100, 110, 130.

Co-requisite: Concurrent enrollment in CHM 130, VET 111, 120, 131.
Introduction to regulation of biologics and pharmaceuticals. Includes classification, dosage calculations, labeling, logging and packaging of drugs. Also includes principles of disease with an emphasis on diseases of public health significance.

VET 200 Anesthetic and Surgical Nursing /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 111, 120, 131, 150.

Co-requisite: Concurrent enrollment in BIO 205, SPE 102, VET 121, 205, 210.

Techniques and procedures involving surgery and anesthesia. Includes preparation and identification of instruments and equipment, routine surgical procedures and handling of instruments and supplies during surgery. Also includes anesthesia induction and monitoring, post surgical care, clean up and surgical record keeping.

VET 205 Radiology and Imaging Techniques /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 111, 120, 131, 150.

Co-requisite: Concurrent enrollment in ASC 151, VET 121, 200, 210.
Principles and techniques of radiographic imaging. Includes the production of X-rays, radiographic equipment, safety measures and radiographic quality. Also includes diagnostic radiographs, positioning of patients, darkroom techniques and X-ray processing.

VET 210 Veterinary Procedures III /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): VET 111, 120, 131, 150.

Co-requisite: Concurrent enrollment in ASC 151, VET 121, 200, 205, BIO 205.

Continuation of VET 111. Includes both small and large animal topics, restraint procedures, nursing care and behavior of large animals, preventative medicine, nutrition, and large animal medical and surgical procedures. Also includes mentoring techniques, teamwork, communications, and health problem assessment involving kennel management.

VET 211 Veterinary Nursing Procedures IV /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): ASC 151, VET 121, 200, 210, 210.

Co-requisite: Concurrent enrollment in ASC 251, VET 220, 225.

Continuation of kennel responsibilities with an introduction to avian, exotic and laboratory animal care. Includes the care and management of laboratory animals, diseases, nursing procedures, preventative health care and restraint.

VET 220 Clinical Pathology III /3 cr. hrs./4 periods (2 lec., 2 lab)

Prerequisite(s): ASC 151, VET 121, 200, 205, 210.

Co-requisite: Concurrent enrollment in ASC 251, VET 211, 225.

Summation of laboratory skills and techniques needed of the Veterinary Technician. Includes blood chemistry, bacteriologic and microbiologic procedures and necropsy.

VET 225 Veterinary Hospital Procedures /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ASC 151, VET 121, 200, 205, 210.

Co-requisite: Concurrent enrollment in ASC 251, VET 211, 220.

Standard office procedures with an emphasis in client relations, education and computer skills. Includes ethics in veterinary medicine, state and federal regulations governing veterinarian practices and all aspects of clinical patient care.

VET 291 Veterinary Technical Clinical Experience /3 cr. hrs./7 periods (7 lab)

Prerequisite(s): Completion of all VET courses.

Supervised five-week clinical experience which will be conducted at local veterinary hospitals, clinics, laboratory, and zoo or research facilities.

WELDING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

WLD 110 Basic Arc and Oxyacetylene Welding /3 cr. hrs./5 periods (2 lec., 3 lab)

Procedures and techniques in arc and oxyacetylene welding. Includes health, safety, and environmental practices, welding terminology, arc and oxyacetylene welding equipment, oxyacetylene flame cutting, proper welding procedures for arc and oxyacetylene, arc and oxyacetylene steel welding, welding machines and polarities, filler metal identification, and welding positions.

WLD 115 Blueprint Reading/Estimating /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): MAT 082.

Principles and procedures for interpreting structural blueprints and determining materials and labor costs. Includes fundamentals of blueprint reading, welding print format and types of fabrication blueprints, welding symbols and sizes, structural shapes and symbols, blueprint interpretation, introduction to estimating, bonds and insurance, materials and specifications, labor, structural steel systems, and steel fabrication checklist.

WLD 119 Pattern Layout for Pipe Fabrication /3 cr. hrs./5 periods (2 lec., 3 lab)

Prerequisite(s): MAT 082 or satisfactory score on math assessment.

Pattern layout techniques for pipe welding. Includes drawing equipment, basic mathematic concepts, parallel, radial, and triangulation line development, and special problems.

WLD 150 Oxyacetylene Welding /4 cr. hrs./6 periods (2 lec., 4 lab)

Set up, procedures, and operation of oxyacetylene welding equipment. Includes safety, mild steel welding, equipment, joints, flame cutting, pipe and braze welding, expansion and contraction, hardfacing, cast and galvanized iron, stainless steel and silver soldering.

WLD 160 Arc Welding /4 cr. hrs./6 periods (2 lec., 4 lab)

Principles and techniques of joining metals with an electric arc as the source. Includes arc welding uses, safety, techniques, flame cutting, joint design, welding costs, power sources, carbon arc cutting, filler metal selection, hard facing, and metal identification.

WLD 161 Plate Certification Welding /2 cr. hrs./4 periods (1 lec., 3 lab)

Prerequisite(s): WLD 150 and 160, or two years of equivalent experience in all-position welding.

Advanced procedures in test plate welding certification using the American Welding Society Code D1.1. Includes test codes, weld test coupon evaluation, preparation of test plates, V-groove test plate welding, and evaluation of proper welding procedures.

WLD 250 Pipe Welding /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): WLD 119, 150, 160.

Principles and techniques of pipe welding. Includes classifications on performance testing, types of pipe, methods and preparation of pipe and miter joints, methods of joining, and preparation and methods of welding test plate.

WLD 261 Gas Metal Arc Welding /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): WLD 150, 160.

Procedures and techniques in Gas Metal Arc Welding (GMAW) and Flux Core Arc Welding (FCAW) processes. Includes health, safety, and environmental practices, welding terminology, GMAW and FCAW processes and equipment, equipment operation and welding tech-

niques, power source and wire feed types and controls, welding currents and polarities, welding wires in GMAW and FCAW processes, shielding gases, and mild steel and aluminum welding.

WLD 262 Gas Tungsten Arc Welding /4 cr. hrs./6 periods (2 lec., 4 lab)

Prerequisite(s): WLD 150, 160.

Procedures and techniques in the Gas Tungsten Arc Welding (GTAW) process. Includes health, safety, and environmental practices, welding terminology, GTAW process and equipment, equipment operation and techniques, power source types and controls, welding currents and polarities, tungsten electrodes, shielding gases, mild steel welding, aluminum welding, stainless steel welding, and GTAW certification.

WLD 297 Welding Seminar: / .25-4 cr. hrs./ .25-16 periods (.25-4 lec., .25-12 lab)

Prerequisite(s): Consent of instructor.

Welding job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

WOMENS STUDIES

For courses numbered 098, 198, 298, see "Topics Courses" in index.

WST 100 Introduction to Feminist Studies /3 cr. hrs./3 periods (3 lec.)

Interdisciplinary survey and analysis of women's issues in structured inequalities and globalization. Includes feminist studies; study of gender, culture, and society; theoretical approaches to gender; learning gender socialization; contemporary feminist issues: socialization, work, and family; body and health issues; gender issues and intimacy; gender and the economy; gender, politics, government, and the military; gender, education, creativity, and language; and gender and spirituality.

WRITING

For courses numbered 098, 198, 298, see "Topics Courses" in index.

WRT 070 Developmental Writing /3 cr. hrs./3 periods (3 lec.)

Training in fundamental writing skills. Includes sentence development and structure, writing a variety of sentences, and writing short papers.

WRT 070A Developmental Writing: Module A /1 cr. hr./1 period (1 lec.)

Module A constitutes approximately the first one-third of WRT 070.

Information: WRT 070A, 070B, and 070C together constitute WRT 070.

WRT 070B Developmental Writing: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 070A or concurrent enrollment.

Module B constitutes approximately the second one-third of WRT 070.

Information: WRT 070A, 070B, and 070C together constitute WRT 070.

WRT 070C Developmental Writing: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 070B or concurrent enrollment.

Module C constitutes approximately the third one-third of WRT 070.

Information: WRT 070A, 070B, and 070C together constitute WRT 070.

WRT 072 Sentence Patterns /1 cr. hr./1 period (1 lec.)

Review of various types of sentence structures. Includes variety of sentences, common grammar and sentence errors, punctuation, and short papers.

WRT 073 Punctuation /1 cr. hr./1 period (1 lec.)

Review of punctuation mechanics. Includes rules of punctuation, punctuation mark usage, and written assignments.

WRT 075 Developmental Writing for International Students / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): ESL 084 or satisfactory score on the writing assessment test.

Specialized training for bilingual students in the fundamental skills of writing in English. Includes writing and punctuating sentences, sen-

tence development and structure, and the writing process. Also includes idiomatic expressions and issues of interest to non-native speakers of English.

Information: Equivalent to WRT 070.

WRT 075A Developmental Writing for International Students: Beginning Skills /1 cr. hr./1 period (1 lec.)

Prerequisite(s): ESL 084 or satisfactory score on the writing assessment test.

Specialized training for bilingual students in the fundamental skills of beginning writing in English. Includes beginning writing and punctuating sentences, beginning sentence development and structure, and the short paragraph writing process. Also includes idiomatic expressions and issues of interest to non-native speakers of English.

Information: Equivalent to WRT 070A.

Information: WRT 075A, 075B, and 075C together constitute WRT 075.

WRT 075B Developmental Writing for International Students: Intermediate Skills /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 075A.

Specialized training for bilingual students in the fundamental skills of intermediate writing in English. Includes intermediate writing and punctuating sentences, intermediate sentence development and structure, and the long paragraph writing process. Also includes idiomatic expressions and issues of interest to non-native speakers of English.

Information: Equivalent to WRT 070B.

Information: WRT 075A, 075B, and 075C together constitute WRT 075.

WRT 075C Developmental Writing for International Students: Advanced Skills /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 075B.

Specialized training for bilingual students in the fundamental skills of advanced writing in English. Includes advanced writing and punctuating sentences, advanced sentence development and structure, and the short essay writing process. Also includes idiomatic expressions and issues of interest to non-native speakers of English.

Information: Equivalent to WRT 070C.

Information: WRT 075A, 075B, and 075C together constitute WRT 075.

WRT 100 Writing Fundamentals /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 070 or satisfactory score on writing assessment test.

Review of sentence structure, mechanics and usage. Includes review of the writing process, designing and writing effective paragraphs, and writing longer papers.

WRT 100A Writing Fundamentals: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 070 or satisfactory score on writing assessment test.

Module A constitutes approximately the first one-third of WRT 100.

Information: WRT 100A, 100B, and 100C together constitute WRT 100.

WRT 100B Writing Fundamentals: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 100A.

Module B constitutes approximately the second one-third of WRT 100.

Information: WRT 100A, 100B, and 100C together constitute WRT 100.

WRT 100C Writing Fundamentals: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 100B.

Module C constitutes approximately the third one-third of WRT 100.

Information: WRT 100A, 100B, and 100C together constitute WRT 100.

WRT 101 Writing I /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or satisfactory score on writing assessment test.

Principles and practices of writing. Includes writing college-level essays, review of basic writing skills, and written works. Also includes descriptive, expository, and persuasive writing.

WRT 101A Writing IA /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 100 or satisfactory score on writing assessment test.

Practice in structuring college-level essays. Includes the writing process, rhetorical analysis, and narrative and descriptive strategies.

Information: WRT 101A, 101B, and 101C together constitute WRT 101.

WRT 101B Writing IB /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 101A.

Practice in writing essays on selected themes. Includes the following strategies: illustration, comparison and contrast, definition and analysis.

Information: WRT 101A, 101B, and 101C together constitute WRT 101.

WRT 101C Writing IC /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 101B.

Practice in writing argumentative essays. Includes principles of argumentation, library research and writing from sources. Also includes writing an in-class essay.

Information: WRT 101A, 101B, and 101C together constitute WRT 101.

WRT 102 Writing II /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 101.

Continuation of WRT 101. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing research skills, and written works. Also includes writing a research paper.

WRT 106 Writing Fundamentals for International Students / 3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 075 or satisfactory score on the writing assessment test.

Review of sentence structure, mechanics and usage appropriate for international students. Includes review of the writing process, designing and writing effective paragraphs, and writing longer papers.

Information: Equivalent to WRT 100.

WRT 106A Writing Fundamentals for International Students: Module A /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 075 or satisfactory score on the writing assessment test.

Module A constitutes approximately the first one-third of WRT 106.

Information: Equivalent to WRT 100A.

WRT 106B Writing Fundamentals for International Students: Module B /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 106A.

Module B constitutes approximately the second one-third of WRT 106.

Information: Equivalent to WRT 100B.

WRT 106C Writing Fundamentals for International Students: Module C /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 106B.

Module C constitutes approximately the third one-third of WRT 106.

Information: Equivalent to WRT 100C.

WRT 107 Writing I for International Students /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 106 or satisfactory score on the writing assessment test.

Principles and practices of writing appropriate for international students. Includes writing college level essays, review of basic writing skills, and written works. Also includes descriptive, expository, and persuasive writing.

Information: Equivalent to WRT 101.

WRT 107A Writing I for International Students: Module A /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): WRT 106 or satisfactory score on the writing assessment test.

Module A constitutes approximately the first one-third of WRT 107.

Information: Equivalent to WRT 101A.

WRT 107B Writing I for International Students: Module B /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): WRT 107A.

Module B constitutes approximately the second one-third of WRT 107.

Information: Equivalent to WRT 101B.

WRT 107C Writing I for International Students: Module C /1 cr. hr./ 1 period (1 lec.)

Prerequisite(s): WRT 107B.

Module C constitutes approximately the third one-third of WRT 107.

Information: Equivalent to WRT 101C.

WRT 108 Writing II for International Students /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 107.

Practice in writing analytical compositions, including a research paper or annotated papers. Includes readings in fiction, nonfiction, drama and poetry as a basis for writing. Also includes methodologies appropriate for international students.

Information: Equivalent to WRT 102.

WRT 125 Beginning Poetry Writing /3 cr. hrs./3 periods (3 lec.)

Poetry for beginners. Includes beginning techniques of poetry writing and their effects, beginning evaluation and critical response to poems, and beginning original writing.

Information: Not for transfer.

Information: May be taken three times for a maximum of nine credit hours.

WRT 126 Short Story Writing /3 cr. hrs./3 periods (3 lec.)

Techniques of writing short fiction.

Information: May be taken three times for a maximum of nine credit hours.

WRT 150 Practical Communications /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 070 or satisfactory score on the writing assessment test.

Writing and speaking skills for career fields. Includes career application procedures, and written and oral communication skills.

WRT 154 Career Communications /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 100 or 101.

Job related writing skills. Includes writing for audiences and situations, completing job related forms, writing resumes, and using standard written English. May include other written communications as appropriate to occupational areas.

WRT 154A Career Communications: Job Related Writing Principles and Skills /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 100 or 101.

Basic job related writing principles and skills. Includes the use of standard written English and writing for audiences and situations.

Information: WRT 154A, 154B, and 154C together constitute WRT 154.

WRT 154B Career Communications: Basic Job Related Correspondence /1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 154A.

Writing job related correspondence. Includes forms and letters, resumes, and application letters and forms.

Information: WRT 154A, 154B, and 154C together constitute WRT 154.

WRT 154C Career Communications: Basic Job Related Reports / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 154B.

Writing of job related reports. Includes short reports, technical descriptions, and evaluation of published materials.

Information: WRT 154A, 154B, and 154C together constitute WRT 154.

WRT 162 Literary Magazine Workshop /3 cr. hrs./3 periods (3 lec.)

Literary magazine publication. Includes application of editing, design, layout and production techniques. Laboratory work includes at least one literary publication of student work in each semester.

Information: It is recommended that this course be taken for credit for two consecutive semesters.

Information: May be taken two times for a maximum of six credit hours.

WRT 196 Independent Studies in Writing /1-4 cr. hrs./3-12 periods (3-12 lab)

Independent projects in writing to be arranged with the instructor.

Information: May be taken four times for a maximum of sixteen credit hours.

WRT 205 Introduction to Poetry Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102, 108.

Writing contemporary poetry. Includes techniques of poetry writing and their effects, evaluation and critical response to poems, and original writing.

WRT 206 Short Story Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102 or 108.

Short fiction writing. Includes techniques of fiction writing and their effects, critical responses to fiction, and original writing.

WRT 207 Sophomore Composition /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 102, and consent of instructor.

Practice in exposition and some narrative. Includes study of satire, the personal essay, introduction to the use of fiction techniques in nonfiction, and class discussion of original manuscripts.

Information: May be taken four times for a maximum of twelve credit hours.

WRT 215 Advanced Poetry Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 125 or 205.

Continuation of poetry writing with increased emphasis on craft. Includes candid peer and instructor criticism of both published models and student poems.

WRT 216 Advanced Fiction Writing /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): Consent of instructor.

Advanced techniques of fiction writing. Includes writing, critiquing and revising original fiction and preparing manuscripts for publication.

Information: May be taken four times for a maximum of twelve credit hours.

WRT 217 Creative Nonfiction /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 207 or consent of instructor.

Nonfiction writing with an emphasis on using narrative elements and devices. Includes writing, critiquing, and revising original manuscripts as well as the preparation of manuscripts for publication. Also includes the personal essay and memoir as literary forms.

Information: May be taken four times for a maximum of twelve credit hours.

WRT 226 Special Projects in Fiction /3 cr. hrs./3 periods (3 lec.)

Prerequisite(s): WRT 216 and consent of instructor.

Continuation of advanced fiction writing with emphasis on book-length projects. Includes writing, critiquing, and revising of short story collections and novels and preparing them for publication.

Information: May be taken four times for a maximum of twelve credit hours.

WRT 254 Advanced Professional Communications /3 cr. hrs./ 3 periods (3 lec.)

Prerequisite(s): WRT 154 or 102.

Techniques of writing for scientific, technical and other professional occupations. Includes writing long and short reports, researching and writing about a topic, oral presentations, and use of appropriate style.

WRT 254A Advanced Professional Communications: Module A / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 154 or 102.

Module A constitutes approximately the first one-third of WRT 254.

Information: WRT 254A, 254B, and 254C together constitute WRT 254.

WRT 254B Advanced Professional Communications: Module B / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 254A or concurrent enrollment.

Module B constitutes approximately the second one-third of WRT 254.

Information: WRT 254A, 254B, and 254C together constitute WRT 254.

WRT 254C Advanced Professional Communications: Module C / 1 cr. hr./1 period (1 lec.)

Prerequisite(s): WRT 254B or concurrent enrollment.

Module C constitutes approximately the third one-third of WRT 254.

Information: WRT 254A, 254B, and 254C together constitute WRT 254.

WRT 281 Beginning Workshop in Tutoring Composition /1 cr. hr./ 3 periods (3 lab)

Prerequisite(s): WRT 101, 102.

Introductory workshop in tutoring composition. Includes instruction and practice in tutoring techniques.

WRT 282 Intermediate Workshop in Tutoring Composition /1 cr. hr./ 3 periods (3 lab.)

Prerequisite(s): WRT 281.

Continuation of WRT 281. Includes improvement of tutoring skills. Also includes additional instruction and practice in tutoring techniques.

WRT 285 Pima Writers' Workshop /2 cr. hrs./2 periods (2 lec.)

Writing of fiction and poetry. Includes presentations by professional authors on plot and character development, writing techniques, and marketing. Also includes the opportunity for participants to have their writing critiqued by professional writers.

Information: May be taken five times for a maximum of ten credit hours.

YAQUI

For courses numbered 098, 198, 298, see "Topics Courses" in index.

Yaq 101 Elementary Yaqui I /4 cr. hrs./4 periods (4 lec.)

Introduction to the Yaqui language. Includes instruction in the grammar and writing system of the language and is intended to help the student acquire skills in speaking, reading, and writing Yaqui. Also includes an overview of Yaqui traditional culture as a background for the use of the language.

Yaq 102 Elementary Yaqui II /4 cr. hrs./4 periods (4 lec.)

Prerequisite(s): Yaq 101.

Continuation of Yaq 101. Includes development of skills in speaking, understanding, reading, and writing the language. Also includes study of the Yaqui traditional culture as a background for language use.

Workforce Response Programs and Courses

The programs and courses in this section are provided as a service to external agencies, usually on a contractual basis. Students are selected for these programs and courses by the contractual agency.

Basic Business and Industry Technology Certificate for Direct Employment

Course Number	Course Title	Credit Hours
Core Courses - A grade of C or better is required for graduation.		
Electives	Technical Electives	3-15
Complete 3-15 credit hours from Business or Industry Technical courses with the approval of a faculty advisor or instructional dean.		
Total credits as displayed		3-15

Advanced Business and Industry Technology Certificate for Direct Employment

General Education courses are required for certificates that exceed 29 credits.

General Education Requirements - A grade of C or better is required for graduation.		
Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.		
Communication Requirement		3
See General Education section, page 55.		
Analysis and Critical Thinking Requirement		3
See General Education section, page 55.		
Subtotal		6
Course Number	Course Title	Credit Hours
Required Core Courses - A grade of C or better is required for graduation.		
Technical Electives		16-59
Complete 16-59 credit hours from Business or Industry Technical courses with the approval of a faculty advisor or instructional dean.		
Total credits as displayed		16-59

Business and Industry Technology Associate of Applied Science Degree

The Associate of Applied Science degree is available for a variety of purposes to meet the needs of business, industry, and government agencies. It can be customized for apprenticeship, for workforce development, and for special clientele in need of a custom credential.

The intent of the technical electives is to provide students a body of knowledge and skill which is coherent and provides them opportunities for either a new career or career advancement. The choice of these electives usually requires a partnership between the College and another organization.

General Education Requirements - A grade of C or better is required for graduation.		
Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Apprentice Related Instruction

Pima Community College works jointly with local and state apprenticeship groups to offer related instruction in a number of apprenticeship programs. Most programs require one year or more of on-the-job training to learn a skilled craft or trade. Students also receive classroom instruction which explains the principles and procedures used on the job.

Before students may enroll for apprentice related instruction, they must be tested, selected, signed up (indentured) and registered with the U.S. Department of Labor's Bureau of Apprenticeship and Training, and the organization operating a specific training program. Apprentice related instruction at Pima Community College is presently offered in these areas:

Carpentry
Custodial Development
Electrical
Engineering Technician
General Construction
Heating, Ventilating, Air Conditioning
Ironworking
Machinist
Masonry
Painting and Decorating
Pipe Fitting
Plumbing
Roofing
Sheet Metal

Certificate Program: Upon finishing all apprentice related instruction in a chosen program, a student will obtain a certificate of completion from Pima Community College.

Students may also work toward an associate degree either while enrolled in apprenticeship programs or after completing the apprenticeship.

Degree Program: Those working to gain an associate of applied science degree (trade and industrial technology option) must meet the minimum degree requirement of 64 credit hours. Students must complete 46 credit hours of apprentice-related instruction, and/or college technical courses as well as satisfy the college reading requirement. The college technical courses must be approved by the department chair.

Apprentice Related Instruction

Before students may enroll for apprentice related instruction, they must be tested, selected, signed up (indentured) and registered with the U.S. Department of Labor's Bureau of Apprenticeship and Training, and the organization operating a specific training program. Apprentice related instruction at Pima Community College is presently offered in these areas:

CARPENTRY

CRP 101	Concrete Formwork: Building Layout / 1 cr. hr./1 period (1 lec.)
CRP 102	Concrete Formwork: Residential Footing Form /1 cr. hr./1 period (1 lec.)
CRP 103	Concrete Formwork: Footing Forms and Bolt Layout /1 cr. hr./1 period (1 lec.)
CRP 104	Concrete Formwork: Basic Wall Forms / 1 cr. hr./1 period (1 lec.)

CRP 105	Concrete Formwork: Circular Wall Form / 1 cr. hr./1 period (1 lec.)
CRP 106	Concrete Formwork: Column Form /1 cr. hr./ 1 period (1 lec.)
CRP 107	Concrete Formwork: Spandrel Beam / 1 cr. hr./1 period (1 lec.)
CRP 108	Concrete Formwork: Deck Forms and Shoring /1 cr. hr./1 period (1 lec.)
CRP 109	Concrete Formwork: Concrete Stair Forms / 1 cr. hr./1 period (1 lec.)
CRP 110	Concrete Formwork: Tilt-up Construction I / 1 cr. hr./1 period (1 lec.)
CRP 111	Concrete Formwork: Tilt-up Construction II / 1 cr. hr./1 period (1 lec.)
CRP 112	Concrete Formwork: Bridge Pier Column / 1 cr. hr./1 period (1 lec.)
CRP 113	Concrete Formwork: Flatwork /1 cr. hr./ 1 period (1 lec.)
CRP 114	Concrete Formwork: Culverts, Headwall and Wingwalls /1 cr. hr./1 period (1 lec.)
CRP 115	Concrete Formwork: Concrete Wall Blockouts /1 cr. hr./1 period (1 lec.)
CRP 116	Concrete Formwork: Gang Forms /1 cr. hr./ 1 period (1 lec.)
CRP 117	Concrete Formwork: Retaining Wall Footing Form /1 cr. hr./1 period (1 lec.)
CRP 118	Framing: Basic Wall Framing /1 cr. hr./ 1 period (1 lec.)
CRP 119	Framing: Wall Layout, Plating and Detailing / 1 cr. hr./1 period (1 lec.)
CRP 120	Framing: Floor Joist /1 cr. hr./1 period (1 lec.)
CRP 121	Framing: Gable Roof /1 cr. hr./1 period (1 lec.)
CRP 122	Framing: Hip Roof /1 cr. hr./1 period (1 lec.)
CRP 123	Framing: Intersecting Roof /1 cr. hr./1 period (1 lec.)
CRP 124	Framing: Wood Stairs /1 cr. hr./1 period (1 lec.)
CRP 125	Framing: Framing Square /1 cr. hr./1 period (1 lec.)
CRP 126	Framing: Advanced Framing Square Application /1 cr. hr./1 period (1 lec.)
CRP 127	Framing: Residential Layout /1 cr. hr./1 period (1 lec.)
CRP 128	Exterior Finish: Canopy /1 cr. hr./1 period (1 lec.)
CRP 129	Exterior Finish: Roof Covering /1 cr. hr./ 1 period (1 lec.)
CRP 130	Exterior Finish: Commercial Display /1 cr. hr./ 1 period (1 lec.)
CRP 131	Interior Finish: Standard Door Installation / 1 cr. hr./1 period (1 lec.)
CRP 132	Interior Finish: Running Trim /1 cr. hr./1 period (1 lec.)
CRP 133	Interior Finish: Door Hardware /1 cr. hr./1 period (1 lec.)
CRP 134	Interior Finish: Metal Partitions /1 cr. hr./1 period (1 lec.)
CRP 135	Interior Finish: Soffit Panel /1 cr. hr./1 period (1 lec.)

CRP 136	Interior Systems: Metal Frame Walls /1 cr. hr./ 1 period (1 lec.)
CRP 137	Interior Systems: Dry Wall Application / 1 cr. hr./1 period (1 lec.)
CRP 138	Interior Systems: Dry Wall Estimation of Material /1 cr. hr./1 period (1 lec.)
CRP 139	Interior Systems: Suspended Lay-in Ceiling / 1 cr. hr./1 period (1 lec.)
CRP 150	Carpentry History: Tools and Materials / 5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 151	Carpentry: Foundations and Forms / 5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 152	Carpentry: Exterior Finish /5 cr. hr./6 periods (4 lec., 2 lab)
CRP 153	Reinforced Concrete and Heavy Construction /5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 154	Carpentry: Interior Finish /5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 155	Carpentry: Roof Framing /5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 156	Carpentry: Stair Building /5 cr. hrs./6 periods (4 lec., 2 lab)
CRP 157	Blueprint Reading and Estimating /5 cr. hrs./ 6 periods (4 lec., 2 lab)

CUSTODIAL DEVELOPMENT

CUA 101	Custodial Development: Chemicals and Equipment Used in Cleaning /1 cr. hr./ 1 period (1 lec.)
CUA 102	Custodial Development: Area Cleaning T echniques /1 cr. hr./1 period (1 lec.)
CUA 103	Custodial Development: Safety and Floor Care /1 cr. hr./1 period (1 lec.)
CUA 104	Custodial Development I: Floor Coverings / 1 cr. hr./1 period (1 lec.)
CUA 105	Custodial Development I: Floor Cleaning Techniques /1 cr. hr./1 period (1 lec.)
CUA 106	Custodial Development I: Carpet Cleaning Techniques /1 cr. hr./1 period (1 lec.)
CUA 201	Custodial Development II: Furniture Cleaning Techniques /1 cr. hr./1 period (1 lec.)
CUA 202	Custodial Development II: Special Area Cleaning Techniques /1 cr. hr./1 period (1 lec.)

DESIGN, BUILDING, AND MAINTENANCE

DBM 121	Residential and Industrial Plumbing I / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 122	Residential and Industrial Plumbing II / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 123	Residential and Industrial Plumbing III /4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 124	Residential and Industrial Plumbing IV / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 201	Residential and Industrial Plumbing V / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 202	Residential and Industrial Plumbing VI / 4 cr. hrs./6 periods (3 lec., 3 lab)

DBM 203	Residential and Industrial Plumbing VII / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 204	Residential and Industrial Plumbing VIII / 4 cr. hrs./6 periods (3 lec., 3 lab)
DBM 210	Supervisory Techniques for Foremen / 1 cr. hr./1 period (1 lec.)
DBM 211	Leadership and Motivation /1 cr. hr./1 period (1 lec.)
DBM 212	Oral and Written Communication /1 cr. hr./ 1 period (1 lec.)
DBM 213	Problem Solving and Decision-Making / 1 cr. hr./1 period (1 lec.)
DBM 214	Contract Documents /1 cr. hr./1 period (1 lec.)
DBM 215	Planning and Scheduling /1 cr. hr./1 period (1 lec.)
DBM 216	Cost Awareness and Production Control / 1 cr. hr./1 period (1 lec.)
DBM 217	Project Safety and Loss Prevention /1 cr. hr./ 1 period (1 lec.)
DBM 218	Project Management /1 cr. hr./1 period (1 lec.)
DBM 219	Construction Law: Changes, Claims, and Negotiations /1 cr. hr./1 period (1 lec.)
DBM 220	Productivity Improvement /1 cr. hr./1 period (1 lec.)

ELECTRICAL APPRENTICESHIP TRAINING

ELT 101	Apprentice Inside Wireman I /6 cr. hrs./ 6 periods (6 lec.)
ELT 101A	Apprentice Inside Wireman I: Math Review / 3 cr. hrs./3 periods (3 lec.)
ELT 101B	Apprentice Inside Wireman I: Math for Electricians /3 cr. hrs./3 periods (3 lec.)
ELT 102	Apprentice Inside Wireman II /6 cr. hrs./ 6 periods (6 lec.)
ELT 201	Apprentice Inside Wireman III /6 cr. hrs./ 6 periods (6 lec.)
ELT 202	Apprentice Inside Wireman IV /6 cr. hrs./ 6 periods (6 lec.)
ELT 231	Apprentice Inside Wireman V /6 cr. hrs./ 6 periods (6 lec.)
ELT 232	Apprentice Inside Wireman VI /6 cr. hrs./ 6 periods (6 lec.)
ELT 241	Apprentice Inside Wireman VII /6 cr. hrs./ 6 periods (6 lec.)
ELT 242	Apprentice Inside Wireman VIII /6 cr. hrs./ 6 periods (6 lec.)
ELT 251	Apprentice Inside Wireman IX /6 cr. hrs./ 6 periods (6 lec.)
ELT 252	Apprentice Inside Wireman X /6 cr. hrs./ 6 periods (6 lec.)

IRONWORKING APPRENTICESHIP

IWA 101	Introduction to Trade Science /3 cr. hrs./ periods (3 lec.)
IWA 102	Ironworkers Safety, Math/Blueprint Reading / 3 cr. hrs./3 periods (3 lec.)
IWA 110	Structural Blueprint Reading I /3 cr. hrs./ 3 periods (3 lec.)

IWA 111	Structural Blueprint Reading II /3 cr. hrs./ 3 periods (3 lec.)
IWA 112	Lead-In Construction /2 cr. hrs./2 periods (2 lec.)
IWA 120	Structural Steel Erection I /3 cr. hrs./3 periods (3 lec.)
IWA 121	Structural Steel Erection II /3 cr. hrs./3 periods (3 lec.)
IWA 130	Reinforcing Blueprint Reading I /3 cr. hrs./ 3 periods (3 lec.)
IWA 131	Reinforcing Blueprint Reading II /2 cr. hrs./ 2 periods (2 lec.)
IWA 140	Post Tensioning I /3 cr. hrs./3 periods (3 lec.)
IWA 141	Post Tensioning II /3 cr. hrs./3 periods (3 lec.)
IWA 150	Rigging I /3 cr. hrs./3 periods (3 lec.)
IWA 151	Rigging II /3 cr. hrs./3 periods (3 lec.)
IWA 152	Basic Welding /3 cr. hrs./4 periods (3 lec., 1 lab)
IWA 153	Advanced Welding /3 cr. hrs./4 periods (3 lec., 1 lab)
IWA 160	Ornamental Ironworking I /3 cr. hrs./4 periods (3 lec.)
IWA 161	Ornamental Ironworking II /3 cr. hrs./3 periods (3 lec.)
IWA 170	Ironworking Safety I /3 cr. hrs./3 periods (3 lec.)
IWA 171	Ironworking Safety II /3 cr. hrs./3 periods (3 lec.)
IWA 172	Hazardous Materials Recertificate /.5 cr. hr./ .5 period (.5 lec.)
IWA 180	Light Industrial Construction Methods and Materials I /3 cr. hrs./3 periods (3 lec.)
IWA 181	Light Industrial Construction Methods and Materials II /3 cr. hrs./3 periods (3 lec.)
IWA 190	Fabrication and Detail /3 cr. hrs./3 periods (3 lec.)

MACHINE TOOL APPRENTICE

MTA 101	Shop Theory I: Safety/Chip Formation/Cutting Fluids /.5 cr. hr./1 period (.5 lec.)
MTA 102	Shop Theory I: Saws and Sawing /.5 cr. hr./ .5 period (.5 lec.)
MTA 103	Shop Theory I: Drill Presses /1 cr. hr./1 period (1 lec.)
MTA 104	Shop Theory I: Milling Machines /1 cr. hr./ 1 period (1 lec.)
MTA 111	Blueprint Reading I /1 cr. hr./1 period (1 lec.)
MTA 113	Machine Tool Mathematics I: Basic Math/ Algebra /1 cr. hr./1 period (1 lec.)
MTA 114	Machine Tool Mathematics I: Geometry/Trigonometry /1 cr. hr./1 period (1 lec.)

PLUMBING AND PIPEFITTING

PFA 150A	Plumbing and Pipefitting I /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 150B	Plumbing and Pipefitting I /4.5 cr. hrs./ 4.5 periods (4.5 lec.)

PFA 151A	Plumbing and Pipefitting II /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 151B	Plumbing and Pipefitting II /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 152A	Plumbing and Pipefitting III /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 152B	Plumbing and Pipefitting III /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 153A	Plumbing and Pipefitting IV /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 153B	Plumbing and Pipefitting IV /4.5 cr. hrs./ 4.5 periods (4.5 lec.)
PFA 154A	Plumbing V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 154B	Plumbing V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 155A	Plumbing VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 155B	Plumbing VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 156A	Plumbing VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 156B	Plumbing VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 157A	Plumbing VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 157B	Plumbing VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 158A	Plumbing IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 158B	Plumbing IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 159A	Plumbing X /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 159B	Plumbing X /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 160A	Pipefitting V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 160B	Pipefitting V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 161A	Pipefitting VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 161B	Pipefitting VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 162A	Pipefitting VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 162B	Pipefitting VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 163A	Pipefitting VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 163B	Pipefitting VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 164A	Pipefitting IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 164B	Pipefitting IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 165A	Pipefitting X /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 165B	Pipefitting X /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 166A	Refrigeration I /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 166B	Refrigeration I /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 167A	Refrigeration II /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 167B	Refrigeration II /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 168A	Refrigeration III /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 168B	Refrigeration III /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 169A	Refrigeration IV /4.5 cr. hrs./4.5 periods (4.5 lec.)

PFA 169B	Refrigeration IV /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 170A	Refrigeration V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 170B	Refrigeration V /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 171A	Refrigeration VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 171B	Refrigeration VI /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 172A	Refrigeration VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 172B	Refrigeration VII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 173A	Refrigeration VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 173B	Refrigeration VIII /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 174A	Refrigeration IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 174B	Refrigeration IX /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 175A	Refrigeration X /4.5 cr. hrs./4.5 periods (4.5 lec.)
PFA 175B	Refrigeration X /4.5 cr. hrs./4.5 periods (4.5 lec.)

SAFETY EDUCATION

SED 110	Sit-Down Lift Truck Operations /3 cr. hrs./ 7 periods (1 lec., 6 lab)
SED 115	Stand-Up, Narrow-Aisle Lift Truck Operations /2 cr. hrs./4 periods (1 lec., 3 lab)

SHEET METAL

SMA 111	Apprentice Sheet Metal I /5 cr. hrs./5 periods (5 lec.)
SMA 112	Apprentice Sheet Metal II /5 cr. hrs./5 periods (5 lec.)
SMA 121	Apprentice Sheet Metal III /5 cr. hrs./5 periods (5 lec.)
SMA 122	Apprentice Sheet Metal IV /5 cr. hrs./5 periods (5 lec.)
SMA 131	Apprentice Sheet Metal V /5 cr. hrs./5 periods (5 lec.)
SMA 132	Apprentice Sheet Metal VI /5 cr. hrs./5 periods (5 lec.)
SMA 141	Apprentice Sheet Metal VII /5 cr. hrs./ 5 periods (5 lec.)
SMA 142	Apprentice Sheet Metal VIII /5 cr. hrs./ 5 periods (5 lec.)
SMA 151	Apprentice Sheet Metal IX /5 cr. hrs./5 periods (5 lec.)
SMA 152	Apprentice Sheet Metal X /5 cr. hrs./5 periods (5 lec.)

Wheels Of Learning

CARPENTRY

Industrial Continuing Educational Training Courses

Pima Community College strives to meet training needs and requirements requested by local companies. The following courses have been made available to meet specific company training needs. In most cases when the courses are offered, they are open to any students who meet prerequisite requirements. Consult the Schedule of Classes for availability. The industrial training courses are not a part of any specific certificate or degree requirements.

ASSEMBLY PRODUCTION

ASP 101	Assembly Production Processing /4 cr. hrs./6 periods (2 lec., 4 lab)
ASP 103	Hydraulic Systems /4 cr. hrs./6 periods (2 lec., 4 lab)
ASP 105	Pneumatic Systems /4 cr. hrs./6 periods (2 lec., 4 lab)
ASP 107	Vacuum Systems /4 cr. hrs./6 periods (2 lec., 4 lab)
ASP 109	Mechanical Assembly Tools and Machines /3 cr. hrs./5 periods (2 lec., 3 lab)
ASP 110	Assembly Tools and Instruments /2 cr. hrs./3 periods (1 lec., 2 lab)
ASP 112	Manufacturing Electronic Assemblies /3 cr. hrs./4 periods (2 lec., 2 lab)
ASP 114	Prototype and Electronic Test Equipment Construction /3 cr. hrs./5 periods (2 lec., 3 lab)
ASP 116	Electronic Component Preparation and Insertion Equipment /3 cr. hrs./5 periods (2 lec., 3 lab)
ASP 118	Physical Metrology /3 cr. hrs./5 periods (2 lec., 3 lab)
ASP 120	Metrology Measurement /3 cr. hrs./4 periods (2 lec., 2 lab)
ASP 123	Electrical Measurement /4 cr. hrs./6 periods (3 lec., 3 lab)
ASP 126	Waveform Generation /3 cr. hrs./4 periods (2 lec., 2 lab)
ASP 130	Waveform Analysis /3 cr. hrs./4 periods (2 lec., 2 lab)
ASP 140	Surface Mount Assembly /3 cr. hrs./4 periods (2 lec., 2 lab)

FABRICATION

FAB 101	Mechanical Calibration Inspection Techniques /4 cr. hrs./6 periods (2 lec., 4 lab)
FAB 102	Deburring and Parts Finishing /1.5 cr. hrs./2 periods (1 lec., 1 lab)

FAB 104	Punch Press and Material Preparation /4 cr. hrs./5 periods (3 lec., 2 lab)
FAB 105	Strippit and Weideomatic Turret Punch Press /4 cr. hrs./5 periods (3 lec., 2 lab)
FAB 125	Tool and Cutter Grinding /4 cr. hrs./8 periods (2 lec., 6 lab)
FAB 127	Ultra Precision Production Grinding /4 cr. hrs./8 periods (2 lec., 6 lab)
FAB 162	Resistance Spot Welding /4 cr. hrs./6 periods (2 lec., 4 lab)
FAB 163	Automatic GTAW Spot Welding/Silver Brazing /4 cr. hrs./6 periods (2 lec., 4 lab)
FAB 164	Laser Beam Welding /4 cr. hrs./6 periods (2 lec., 4 lab)
FAB 251	Numerical Control Troubleshooting /4 cr. hrs./5 periods (3 lec., 2 lab)
FAB 270	Robotics and Automated Systems: Mechanical /4 cr. hrs./5 periods (3 lec., 2 lab)
FAB 271	Programmable Logic Controllers /4 cr. hrs./5 periods (3 lec., 2 lab)
FAB 281	Tool Room Grinding /4 cr. hrs./6 periods (3 lec., 3 lab)
FAB 282	Gage and Fixture Construction /4 cr. hrs./8 periods (2 lec., 6 lab)

MAINTENANCE TECHNOLOGY

MNT 101	Custodial Procedures /4 cr. hrs./6 periods (3 lec., 3 lab)
MNT 104	Lubrication of Industrial Equipment /3 cr. hrs./4 periods (2 lec., 2 lab)
MNT 106	Heavy Equipment Operations /2 cr. hrs./4 periods (1 lec., 3 lab)
MNT 108	Water Treatment for HVAC Systems /1 cr. hr./2 periods (1 lec., 1 lab)
MNT 110	Industrial Air Compressors /3 cr. hrs./7 periods (1 lec., 6 lab)
MNT 112	Industrial Pumps /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 114	Chillers and Cascade Systems /4 cr. hrs./6 periods (3 lec., 3 lab)
MNT 116	Industrial Boilers /5 cr. hrs./7 periods (4 lec., 3 lab)
MNT 118	Industrial Air Treatment /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 120	Fundamentals of Carpentry /3 cr. hrs./3 periods (3 lec.)
MNT 122	Tools and Equipment for Carpentry /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 124	Industrial Carpentry: Foundations /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 126	Industrial Carpentry: Framing I /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 128	Industrial Carpentry: Finishing I /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 130	Industrial Carpentry: Framing II /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 132	Industrial Carpentry: Finishing II /3 cr. hrs./5 periods (2 lec., 3 lab)

MNT 140	Tools and Equipment for Industrial Painting / 3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 141	Industrial Painting Applications I /3 cr. hrs./ 5 periods (2 lec., 3 lab)
MNT 142	Industrial Painting Applications II /3 cr. hrs./ 5 periods (2 lec., 3 lab)
MNT 150	Rigging and Load Lifting /3 cr. hrs./5 periods (2 lec., 3 lab)
MNT 152	Industrial Bearings /2 cr. hrs./3 periods (2 lec., 1 lab)
MNT 154	Industrial Couplings, Clutches, and Brakes / 2 cr. hrs./4 periods (1 lec., 3 lab)
MNT 155	Industrial Mechanical Drives /3 cr. hrs./ 4 periods (3 lec., 1 lab)
MNT 156	Fiberglass, Thermoplastic, and Metal Forming /3 cr. hrs./4 periods (2 lec., 2 lab)
MNT 160	Industrial Diesel Engine Maintenance and Repair /4 cr. hrs./6 periods (3 lec., 3 lab)

Selected Policies, Governance, and Faculty

If You Have a Problem...

The College makes every effort to resolve the complaints of persons who feel that their rights have been infringed upon or that they have been discriminated against whether in the classroom or in student support areas. The *Student Rights and Responsibilities* booklet and the *Student Handbook* outline procedures for appealing grades or code of conduct penalties. However, students with general complaints should see either the campus dean of instruction or the campus dean of student development for guidance in resolving problems.

Selected Board Policies

Affirmative Action/Equal Opportunity

Pima County Community College District reaffirms its commitment to affirmative action and equal employment opportunity for all qualified persons without regard to race, color, national origin, religion, sex, sexual orientation, disability, age, or on the basis of membership as set forth in USERRA, or on any other basis which is proscribed by law.

It is the policy of Pima County Community College District that equal employment opportunity can only be achieved through demonstrated leadership and aggressive implementation of a viable affirmative action program. Therefore, the Pima County Community College District Affirmative Action and Equal Employment Opportunity Policy sets forth responsibilities for administrators, supervisors, faculty, staff, and all other members of the College. This policy shall be administered without regard to race, color, national origin, religion, sex, sexual orientation, disability, age, or on the basis of membership as set forth in USERRA, or on any other basis which is proscribed by law, except where gender, religion, national origin, or age is a bona fide occupational requirement.

Pima County Community College District will assure full participation of all persons contracting or providing services to the College.

The Board of Governors of Pima County Community College District has affirmed that the College is an equal educational/employment opportunity institution. College discrimination policies apply to all students and to all educational programs, services, activities, and facilities, as well as to all employees and all terms and conditions of employment.

To inquire about filing a discrimination complaint, contact an Intake Interviewer designated to serve your campus. For general information related to discrimination or Title IX issues, the College's discrimination/sexual harassment complaint procedure, or the rights and protections afforded by the ADA, contact J. O. Toro, ADA/504 Officer, District Central Office, 4905C East Broadway Blvd., Tucson, AZ, 85709-1310, (520) 206-4539. Every effort will be made to maintain the highest level of confidentiality.

Harassment (Including Sexual Harassment) Policy Statement

Pima Community College District is committed to promoting and maintaining a productive work and educational environment free of discrimination and harassment. In keeping with this commitment, Pima County Community College District will not tolerate verbal or physical conduct by an employee or student that harasses, disrupts, or interferes with another's work performance or education or that creates an intimidating, offensive or hostile work or educational environment.

Employees and students are expected to maintain a productive

work and educational environment that is free from harassing or disruptive activity. No form of harassment will be tolerated, including harassment for the following reasons: race, national origin, religion, disability, pregnancy, age, military status or sex. Special attention should be paid to the prohibition of sexual harassment, which includes harassment by members of the same or opposite sex.

Each administrator, faculty member and supervisor has a responsibility to keep the workplace free of any form of harassment, and in particular, sexual harassment. No supervisor is to threaten or insinuate, either explicitly or implicitly, that an employee's refusal or willingness to submit to sexual advances will affect the employee's terms or conditions of employment.

Similarly, each administrator and faculty member has a responsibility to keep the campus and classroom free of any form of harassment, and in particular, sexual harassment. No faculty member or administrator is to threaten or insinuate, either explicitly or implicitly, that a student's refusal or willingness to submit to sexual advances will affect the student's status, including grades.

Other sexually harassing or offensive conduct, whether committed by administrators, faculty, supervisors, non-supervisory employees, students or non-employees, is also prohibited. Such conduct includes, but is not limited to:

- A. Unwanted physical contact or conduct of any kind, including sexual flirtations, touching, advances or propositions;
- B. Verbal harassment of a sexual nature, such as lewd comments, sexual jokes or references, and offensive personal references;
- C. Jokes of a sexual nature;
- D. Demeaning, insulting, intimidating or sexually suggestive comments about an individual's dress or body;
- E. The display in the workplace of demeaning, insulting, intimidating or sexually suggestive objects or pictures, including nude photographs;
- F. Demeaning, insulting, intimidating or sexually suggestive written, recorded, or electronically transmitted messages.

Any of the above conduct, or other offensive conduct, directed at individuals because of their race, national origin, religion, disability, pregnancy, age or military status is also prohibited.

Matters with a sexual connotation or sexual content which occur in legitimate educational curricula or endeavors do not violate this policy unless used excessively or improperly. Although it is not possible to list every act or matter described which can violate this policy, examples include but are not limited to the following:

- A. Repeated focus on topics of a sexual nature;
- B. Use of profanity outside of the subject matter being taught;
- C. Use of vulgarities;
- D. Humiliating, embarrassing or otherwise harassing any individual or group of individuals.

Any member of the College community, especially administrators and supervisors, who believes that the actions or words of any other member of the College community constitute harassment has a responsibility to report the complaint as soon as possible. Issues of harassment covered by EEO laws should be directed to the Affirmative Action office or to any Intake Interviewer on any of the campuses or at the District office. All other forms of harassment should be directed to the Human Resources Employee Relations office.

All complaints of harassment will be investigated in as prompt, impartial and confidential a manner as possible under the ADA and Equal Opportunity/Discrimination Complaint Procedure or

under the appropriate College personnel or student handbooks. All members of the College community are required to cooperate in any investigation. Both the charging party and the respondent will be given the opportunity to present their side of the incident.

Any employee or student who is found to have violated this harassment policy will be subject to appropriate disciplinary action, depending on the circumstances, up to and including termination for employees or expulsion for students.

Disciplinary action will be taken against any individual who files a false discrimination or harassment complaint and against any individual who provides false testimony during investigations.

Employees are required, as a condition of employment, to cooperate with the College's investigation of harassment complaints.

Retaliation against any member of the College community for filing an internal or external complaint or participating in an investigation is strictly prohibited and will be grounds for disciplinary action up to and including termination for employees or expulsion for students.

The College administration is authorized to establish regulations and procedures to effect this policy.

Americans with Disabilities Act

The PCC Board of Governors endorses the philosophy of all state and federal laws providing for equal employment opportunity.

Whereas, now the Congress of the United States has passed a new law, the Americans with Disabilities Act (ADA), to provide "a clear and comprehensive mandate for the elimination of discrimination against individuals with disabilities," and,

Whereas, this governing board endorses the philosophy that no qualified individual should be excluded from jobs, services, activities, or benefits based upon disabilities over which they have no control; and,

Whereas, it is the desire of this governing board to make clear its commitment that the Pima County Community College District shall comply with the provisions of the Americans with Disabilities Act;

Now, therefore, be it resolved that the Pima County Community College District, acting through its governing board in this resolution, hereby declares its support of the Americans with Disabilities Act and its corporate intention to comply with the terms thereof, and further, hereby directs the Chancellor of the District to formulate and implement a plan to assure compliance with the terms of said act.

Equal Educational Opportunity Policy

The Board of Governors affirms that the Pima County Community College District is an equal educational opportunity institution. In support of this commitment, the Board of Governors authorizes and directs the Chancellor to implement regulations and procedures to facilitate opportunity for equal access to, retention in, and completion of College educational programs.

State Board of Directors for Community Colleges of Arizona

	Term Expires
Chairman: Karen F. Rizk, Yavapai County	2004
Vice Chairman: Evangelina "Conkie" Hoover, La Paz County	2005
Immediate Past Chair: Patrick K. Carlin, Mohave County	2008
Secretary: Lourdes Moreno-Jeong, Santa Cruz County	2007
Treasurer: Alfred R. "Bud" Anderson, Pinal County	2006
Executive Committee Member-at-Large: La Verl E. Ashcroft, Apache County	2005

Members:

Apache County, La Verl E. Ashcroft	2005
Cochise County, Theodore C. Fichtl	2002
Coconino County, Michael G. Clifton	2003
Gila County, Steve Johnson	2003
Graham County, Lois W. Claridge	2002
Greenlee County, Dixie Zumwalt	2006
La Paz County, Evangelina "Conkie" Hoover	2005
Maricopa County, Nick Balich	2004
Mohave County, Patrick K. Carlin	2008
Navajo County, Thava D. Freedman	2007
Pima County, Oscar S. Lizandi	2005
Pinal County, Alfred R. "Bud" Anderson	2006

Emeritus Status

The Board of Governors confers Emeritus status on distinguished individuals, retired from the College, to signify honor and respect for outstanding accomplishments and contributions to the College over many years. This distinction is a tribute to the special relationship that will expand well into the future as the College periodically calls upon the services of these highly regarded colleagues for the benefit of the College community. Faculty and administrators receiving such an award exemplify the characteristics of ideal community college educators who, through their professional careers at Pima Community College, have contributed significantly to disciplines or services, professional organizations, their campuses, the Central Office, the College district, and the Pima community.

James E. Gibson, Ed.D., Provost Emeritus	1991
Edward M. Duperret, M.Ed., Faculty Emeritus	1992
Leland H. Scott, Ph.D., Faculty Emeritus	1992
Henry "Hank" Oyama, M.Ed., Vice President Emeritus	1992
Robert Longoni, M.A., Faculty Emeritus	1993
Jamie Trainer, M.S., Faculty Emerita	1993
Constance Howard, M.S., Dean Emerita	1993
Johnas F. Hockaday, Ph.D., Chancellor Emeritus	1995
Max Jules Gottschalk, B.A., Faculty Emeritus	1999

Distinguished Staff Status

The Board of Governors confers Distinguished status on retired College staff to signify honor and respect for outstanding accomplishments and contributions to the College over many years. Staff members receiving such an award exemplify the characteristics of the ideal community college. Through their professional careers at Pima Community College, these distinguished individuals have contributed significantly to their areas of service, professional organizations, their campuses, the Central Office, the College district, and the community.
