Pima Community College is an equal opportunity, affirmative action employer and educational institution committed to excellence through diversity. See page 364 for more information.

Reasonable accommodations, including materials in an alternative format, will be made for individuals with disabilities as soon as can be reasonably expected upon receiving proper notification. For the general public, please contact the PCC information line at (520) 206-4500 (TTY 206-4530); for PCC students, contact appropriate campus Disabled Student Resources office.

Catalog replacement cost: \$3 (includes postage)

The *Pima Community College Catalog* and the semester *Schedule of Classes* are available as both printed and electronic documents published on the College Web site at <http://www.pima.edu>. Printed documents are prepared on the basis of the best information available at the time. Both the Internet and printed catalog are official. The Internet version is updated regularly, therefore the Internet version should be relied upon as the most up-to-date.

All information—including statements on tuition, fees, course offerings, admission, and graduation requirements—is subject to change without notice, obligation, or liability.

Message from the Chancellor

You will find that Pima Community College offers a wealth of opportunities. As a student, you can choose from a wide variety of degree and certificate programs. You can take traditional semester day and evening classes, accelerated classes, or a mix of both. You can take classes at any of the six college campuses, at convenient education centers, and at more than 100 off-campus locations throughout Pima County. You can even take fully-accredited Pima Community College classes at home and at work, via cable TV or over the internet.

At each campus, you can meet with a counselor or advisor, find out more about available financial aid, improve your study skills, register for classes, and much more. Orientation sessions will introduce you to the College and academic life. Along the way, you will meet outstanding faculty and staff, all dedicated to helping you reach your educational goals.

Pima Community College offers learning opportunities for students of all ages, including non-credit personal interest classes and adult basic skills classes, as well as G.E.D. programs. We also supply individuals with improved work skills and provide affordable workshops, training classes and other services for local businesses and industry in support of the economic development of Southern Arizona.

I wish you success in achieving your educational goals. I sincerely hope you will enjoy your experience at Pima Community College and the lifelong benefits from the knowledge that you acquire.

Cordially,

A handwritten signature in cursive script that reads "Roy Flores".

Roy Flores, Ph.D.
Chancellor

Summer Sessions 2009

Session A

Memorial Day holiday (College closed)	May 25
Classes begin	May 26
Add deadline	May 27
Drop/Refund/Audit deadline	May 29
Student Withdrawal deadline	Jun. 17
Graduation Application deadline	Jun. 26
Classes end	Jun. 29
Independence Day holiday (College closed)	Jul. 3

Session B

Classes begin	Jul. 6
Add deadline	Jul. 7
Drop/Refund/Audit deadline	Jul. 9
Student Withdrawal deadline	Jul. 27
Classes end	Aug. 7

Session C

Memorial Day holiday (College closed)	May 25
Classes begin	May 26
Add/Drop/Refund/Audit deadline	Jun. 1
Graduation Application deadline	Jun. 26
Student Withdrawal deadline	
• 8-week session	Jul. 2
• 10-week session	Jul. 13
Independence Day holiday (College closed)	Jul. 3
Classes end	
• 8-week session	Jul. 20
• 10-week session	Aug. 3

* Registration continues throughout the semester for short-term, accelerated, and open-entry classes.

‡ Sessions may begin earlier at Davis-Monthan Air Force Base.

** The College will be open for classes/activities on the Saturday and Sunday following the 2009 Rodeo Holiday.

The College

How This Catalog Can Help Students To Succeed

This catalog is a valuable tool in answering your questions and helping you while you are at Pima Community College. The Pima Community College Catalog is organized to guide you through each step of your college career at this institution:

- Admission/Registration
- Tuition and Fees
- Financial Aid
- Certificate and Degree Requirements
- Course Descriptions
- Campus Services
- Faculty Information
- Selected Policies

If you have any questions about the material in this catalog or need help in planning your educational goals, please see a PCC advisor or counselor at any of the campuses or centers.

This catalog is one of three publications that are essential to a student's success at Pima Community College.

The other two publications are:

- **Schedule of Classes**—a semester publication of classes offered. The schedule is available online (www.pima.edu) and at all campuses.
- **Student Handbook**—an annual publication of regulations and resources at PCC. The handbook is distributed to students attending orientation and available at any campus advising and counseling center.

Accreditation

Pima Community College is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The Commission can be reached through their web site (www.higherlearningcommission.org), by telephone (800-621-7440), or by mail at 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504. The following programs have also been accredited or certified by specialized agencies recognized by the Arizona Department of Education and/or the U.S. Department of Education: Automotive Technology, Building And Construction Technology, Dental Assisting, Dental Hygiene, Dental Laboratory Technology, Emergency Medical Technician, Health Information Technology, Histotechnology, Machine Tool Technology, Nursing, Paralegal, Pharmacy Technology, Radiologic Technology, Respiratory Therapy, Surgical Technology, Teacher Education, Therapeutic Massage, and Veterinary Technology. In addition, Pima's Aviation Technology program is approved by the Federal Aviation Agency.

College Vision

Pima Community College will provide access to learning without the limits of time, place or distance.

College Values

We value:

- Accountability
- Diversity
- Innovation
- Integrity
- People
- Quality

Mission Statement

The mission of Pima Community College is to develop our community through learning.

College Goals

1. To improve access to all College programs and services.
2. To provide excellent teaching and responsive student services.
3. To prepare a highly skilled workforce.
4. To create student-centered partnerships with colleges and universities.
5. To provide effective developmental and adult basic education.
6. To create partnerships with business and industry, the local schools, government, and other constituencies that enhance the community.
7. To foster responsible civic engagement.

Institutional Effectiveness Policy

The College is committed to ensuring institutional effectiveness through continuous assessment and quality improvement. Accordingly, the College will establish responsive and integrated planning, evaluation, development and project-support systems to help the College fulfill its mission in the most effective and efficient manner.

(Adopted by the College Board of Governors, March 11, 1992)

The College annually measures its overall mission performance by reporting to the community through the College planning process.

Historic Profile

In 1966 the citizens of Pima County, Arizona, voted by a large margin to form a junior college district. The county superintendent of schools appointed a five-member governing board that laid the groundwork for Pima College. With help from committees composed of citizens, the board developed educational goals, created a financial plan, selected a president, and chose a campus site.

The next year the citizens of Pima County elected a board to replace the appointed officials and approved a \$5.9 million bond issue for the College. In 1969, construction on the first campus began on a 267-acre site in the foothills of the Tucson Mountains west of the city.

The College's first classes met in the fall of 1969 at Tucson Medical Center, Villa Maria, and Marana. In the fall of 1970 Pima College officially opened its doors to 3,543 students. Classes were held in unlikely quarters, a hangar at the Tucson International Airport. By January of 1971, students in all programs attended classes in the 11 buildings on Anklam Road — today's West Campus, which has expanded to include a center for the arts to serve more than 12,000 students.

Expansion and evolution soon began. In 1972 the board renamed the institution Pima Community College to better reflect its mission of service to the community. And it began to offer greater access through additional campuses.

In 1974 the College opened the Downtown Campus at Stone Avenue and Speedway Boulevard. The first classes were held in a remodeled post office building. With the purchase of neighboring structures and the construction of the campus center and classroom technology building, the campus grew to 10 buildings. The campus currently serves more than 10,000 students.

In 1975 the College established the Community Campus to supplement traditional on-campus education. Currently, this campus offers classes at more than 145 sites throughout southern Arizona, and is the hub for distance learning. The Community Campus oversees the Center for Training and Development, a non-credit workforce development skills training unit that was established in 1963 and became part of the College 10 years later. Pima Community College Adult Education, a part of Pima County since 1969, joined the College in 2000 and is headquartered at Community Campus. The Corporate and Community Education office at the Community Campus offers customized training for the business community, noncredit courses, and study tours. After occupying several sites, the permanent Community Campus facility opened in 1997 near St. Mary's Road and Interstate 10 and serves about 4,000 students.

The College established the East Education Center in 1976, which became the East Campus in 1980. Located on a desert site east of Davis-Monthan Air Force Base, the campus doubled in size in the fall of 1989 with the construction of the student union and library. It has since expanded to accommodate more than 6,000 students. In 2004, the College and Tucson Parks and Recreation built a 21-acre park on the northwest edge of the campus, with soccer and softball fields, and a fitness facility for students.

The South Education Center opened in 1986, and by 1993 had grown into the Desert Vista Campus, located near Interstate 19 and Valencia Road. The campus serves nearly 4,000 students each semester, including many who use the training and student services of the Center for Training and Development. The campus also houses a charter high school serving Native American students.

A 1995 Pima County bond election enabled the College to use taxpayer-supported bonds to finance much-needed expansion

and important facility and technology improvements throughout the Pima County Community College District.

The Northwest Community Learning Center opened in 1998 and in fall 2003 was replaced by Northwest Campus on North Shannon Road. The Northwest campus offers a full spectrum of educational, recreational and cultural programs and services to more than 4,000 students. Major areas of study include the arts and sciences, preparation for health careers and hotel and restaurant management. In 2000, the College established the Northeast Community Learning Center and in 2002 opened the Southeast Community Learning Center. In 2003, the Community Performing Arts and Learning Center in Green Valley opened.

In partnership with area school districts, Desert Vista, East, Northwest and West campuses host branches of Aztec Middle College, an alternative high school.

For many of its 41 years, Pima Community College has ranked among the ten largest multi-campus community colleges in the nation, and currently serves more than 80,000 students annually.

College Locations

Community Campus

As Tucson, Pima County, and the entire Southern Arizona region continue to grow and change, Community Campus responds with degrees, certificates, training and comprehensive student services to meet the needs of our dynamic student population. Community Campus serves over 50,000 students each year, offering flexible degree and certificate programs and services to meet every need, including fully online and hybrid options, self-paced distance courses, and online advising and tutoring. Community Campus is also home to two vital community programs. Adult Education, for adult learners with less than high school education, includes Family and Workplace Literacy, General Equivalency Diploma (GED) Preparation, and College Transition opportunities. Community Education provides personal interest classes and activities for everyone, from pre-kindergarten children through senior citizens.

Through Community Campus, students can complete Associate of Arts (AA), Associate of Business (AB), Associate of General Studies (AGS), Associate of Arts Elementary Education (AAEE), Associate of Applied Arts (AAS), and Associate of Applied Science (AAS) degrees; AGECE general education certificates for transfer; specialized basic and advanced certificates; post-degree teacher training certificates, endorsements, and professional development; workforce development programs; and customized courses and certificates developed in industry specific disciplines on a contractual basis. The Associate of Applied Science Business and Industry Technology (AAS-BIT) degree includes industry certifications ranging from A+ and Net+ to Cisco.

Community Campus services include development and delivery of classes and programs in a variety of modes and locations in support of college wide programs and initiatives. The Community Campus has been serving students since 1975, offering credit and non-credit classes at its campus location (401 North Bonita Avenue) and at more than 100 facilities throughout southern Arizona, including Davis Monthan Air Force Base and Green Valley. Community Campus is at the center of the College's distance education programs, offered online and via cable TV.

The teacher training program offers Arizona Department of Education (ADE) approved teacher preparation at the post-baccalaureate level in elementary, secondary and special education, as well as ADE endorsements in Reading, English as a Second Language, Middle Schools, and Structured English Immersion (SEI) for currently certified teachers; professional development courses for K-12 educators and administrators; an Associate of Arts degree in Elementary Education; a basic certificate in Educational Technology; and is in the process of developing a new post-baccalaureate advanced certificate in Educational Technology with a focus on online course development and delivery. All programs are available online.

Through its Workforce and Business Development (WBD) division, the College provides comprehensive, cost-effective training options for individual workers, as well as for businesses, organizations and governmental agencies. The WBD Contract Training department offers traditional or customized credit, non-credit or continuing education unit (CEU) courses to meet the needs of regional employers. These courses may be offered in person or online, at a location and at times convenient for the client. The Small Business Development Center (SBDC) provides business consulting and training services that address every stage of business development from start-up to business expansion and strategic planning. The Center for Training and Development offers 70+ job training certificates in healthcare, truck driving, food services, medical office, business office, information technology and employability skills. Students may enter many of these programs on a weekly basis.

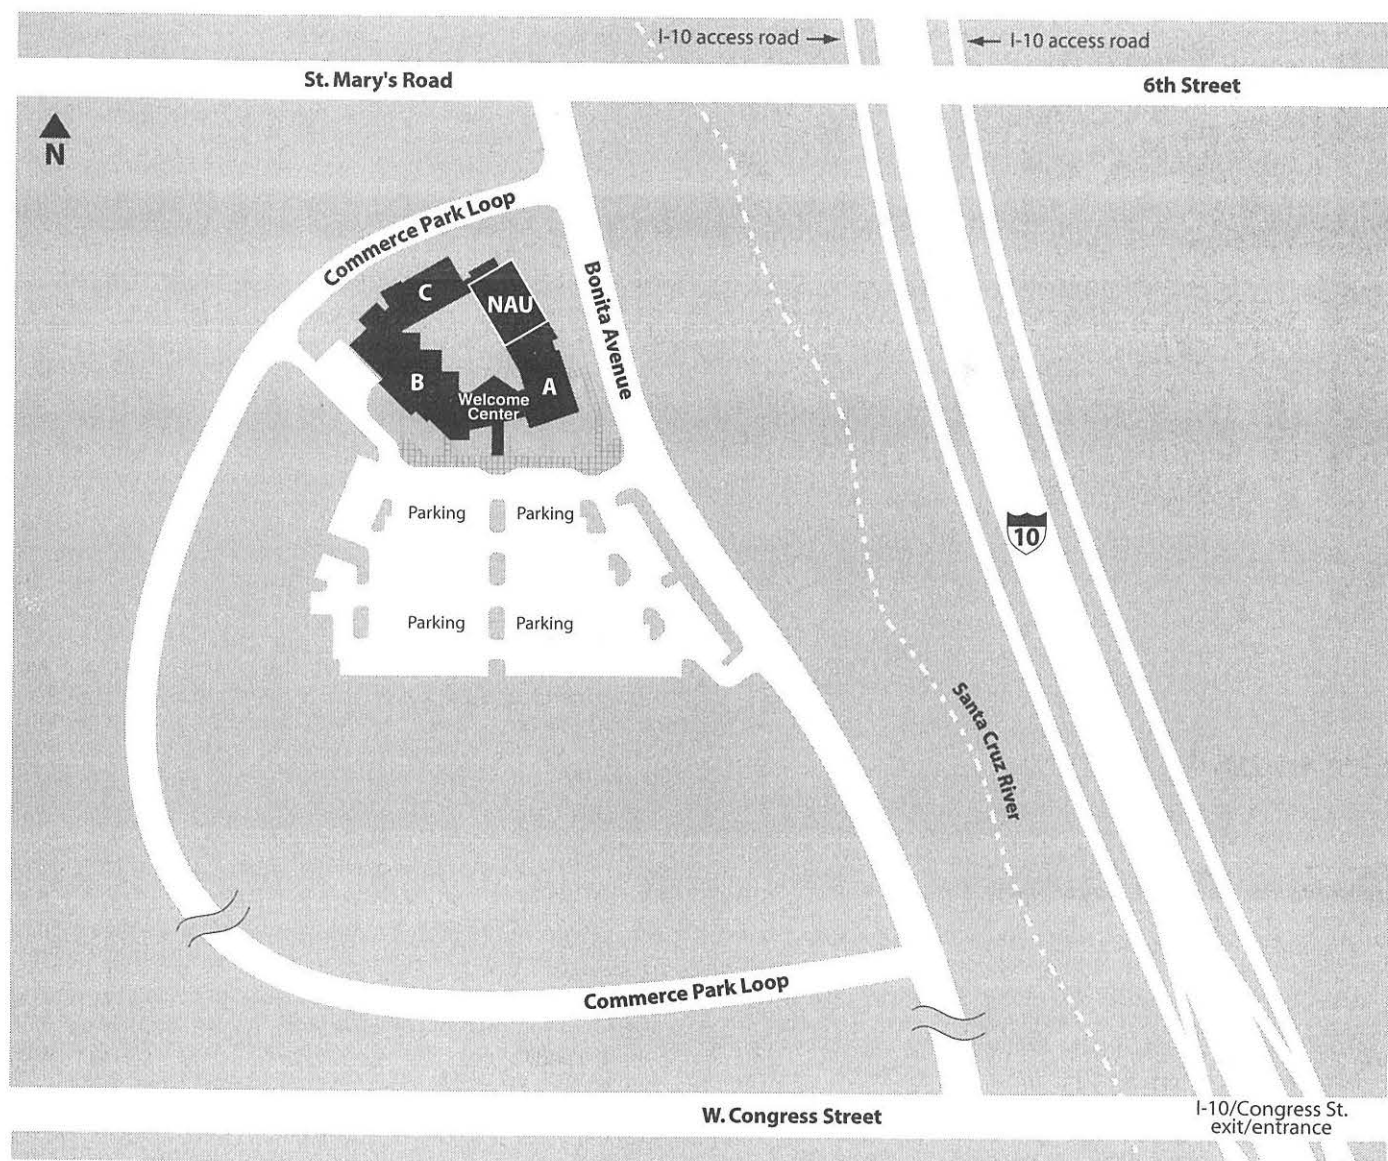

The Public Safety and Emergency Services Institute (PSESI) offers open enrollment courses, and also partners with public and private agencies, to provide degrees and certificates in law enforcement, fire science, corrections, juvenile corrections, crime scene management and emergency medical technology. The Arizona State Environmental Technology Training Center specializes in environmental health and safety training to meet regulatory requirements of OSHA, EPA and state codes. The Center also offers certificates in water, wastewater and backflow as well as State-recognized backflow certifications. The Arizona Prison Program contracts with appropriate federal and state agencies to provide occupational training programs for inmates. Finally, the WBD division works closely with Pima County to assist students in receiving Workforce Investment Act funding for classes.

Pima Community College Adult Education, with sites throughout Pima County, coordinates adult basic education classes and services. PCCAE offers an array of programs, including GED preparation classes and testing, English for speakers of other languages, citizenship classes, College Transition opportunities and education programs for specific populations.

Discover Southern Arizona through Community Education programs and services which include non-credit general interest classes, programs for active adults, Motorcycle Rider Education, Pima for Kids summer classes for K-8 students, workshops and seminars, as well as educational study tours throughout the Southwest and Mexico.

The Center for Learning Technology (CLT) houses the College's broadcast-quality video production facilities, telecourse and internet development and delivery center.

The Community Campus facilities also include Northern Arizona University (NAU). NAU has offices, an interactive classroom and labs, and distribution control for its distance learning operations throughout Southern Arizona at the Community Campus.

Desert Vista Campus

In 1986, Pima Community College opened the Education Center South to serve residents of the south and southwest areas of Tucson and Pima County. By 1993, the center had evolved into the comprehensive Desert Vista Campus, moving to its present location near Interstate 19 and Valencia Road. The architecture and unique colors of the campus reflect the community it serves.

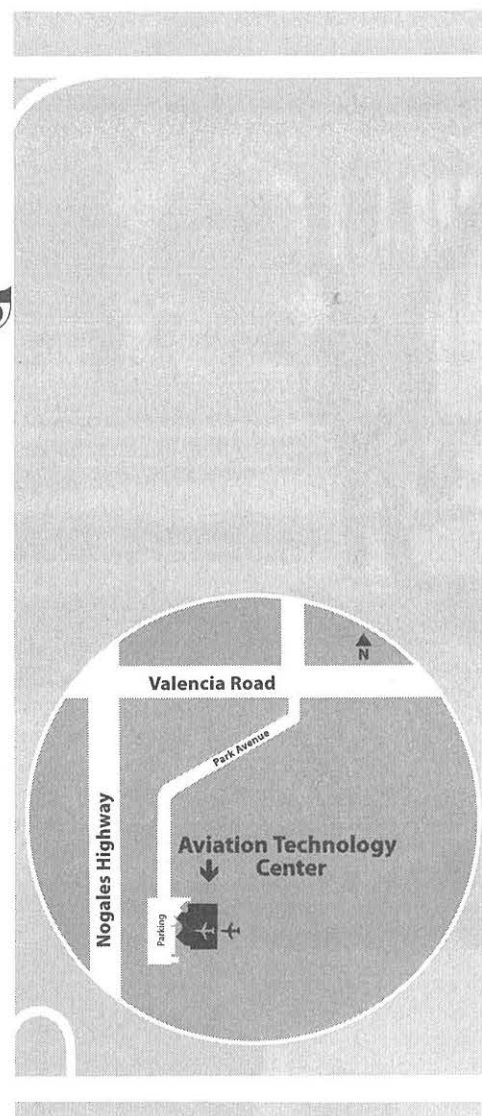

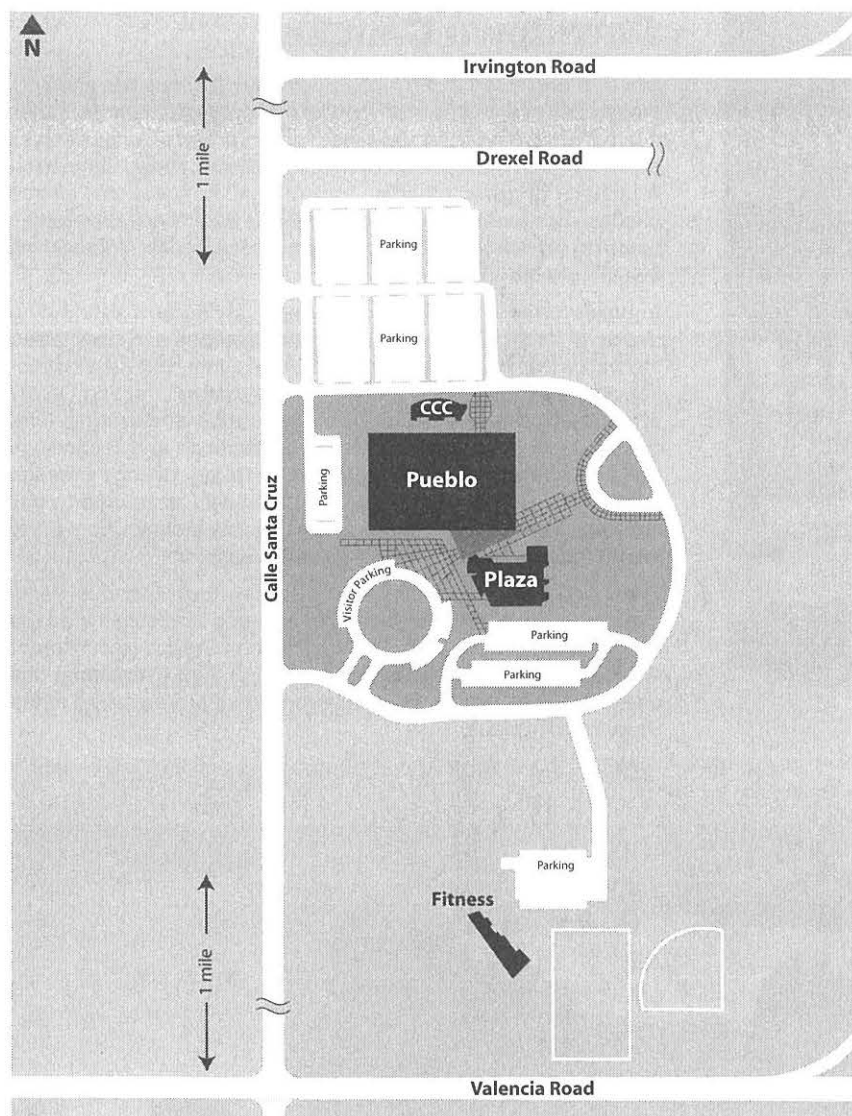

Desert Vista offers a wide range of diverse courses and programs, including university transfer, developmental, general education, and occupational. A variety of courses are offered in mathematics, the sciences (biology, chemistry, astronomy, and physics), languages (Spanish and English as a Second Language), and a rich cultural arts curriculum, including mariachi studies and mural arts. Among the signature programs provided by the campus is the Aviation Technology program located on the grounds of Tucson International Airport at the Aviation Technology Center. This program provides training in aviation mechanics and structural repair and is one of only a few programs of its kind nationwide. Signature programs also include Culinary Arts, Child Development Associate, and Early Childhood Education.

Services that support student success include a comprehensive Learning Center which provides tutoring and workshops designed to help students reach their educational goals, and the Child Development Center which offers child care for children of PCC students, employees, and the community at large. The campus also has a vibrant day and evening Student Activities program and just recently added a Cyber Café in a central location where students can easily access websites and check e-mail in a relaxed environment. In addition, the 5,000 square foot Desert Vista library serves students, faculty, college employees and the community. Together with the Computer Commons, the Assessment and Testing Center, and the Adult Education Resource Lab, the Library provides a welcoming atmosphere with versatile student space.

The campus also provides bilingual services and a full range of student support services through a convenient One Stop Center.

Several other programs and services also make the campus unique. Vision High School, a charter school that mainstreams dually enrolled high school students into the community college environment, is housed at the campus. In addition, in partnership with Tucson Unified School District, Aztec Middle College, an alternative high school, was added to the campus in 2006. Space is also provided for Talent Search and Upward Bound, two federally funded TRIO programs. Talent Search works with middle and high school students to encourage and support their successful transition into post-secondary education. Upward Bound works with high school students to provide higher education opportunities and tracks the students during their first two years of college. Also at the campus is the Tohono O'odham Scholarship Office which provides on-site counseling and advising to students pursuing higher education. One of the largest entities at the campus is the Center for Training and Development (CTD) which offers many noncredit and credit workforce development programs. The CTD also cooperates with community-based organizations, agencies, and employers to provide individualized year-round, open-entry/open-exit job training certificate programs for employment.

The campus also houses a recreation and fitness complex which opened in the fall of 2004. Built in partnership with the City of Tucson Parks and Recreation Department, the complex contains a fitness facility which provides space for activity classes such as kick-boxing, aerobics, and yoga as well as strength training. The center also has state-of-the-art equipment and instructors certified as personal trainers. To complete the complex, soccer and softball fields were also added for campus and community use as part of the partnership.

Downtown Campus

Since its beginning in 1974, the Downtown Campus has offered a variety of opportunities for students to enhance their personal, academic, and professional lives. The Downtown Campus serves more than 10,000 students during the fall and spring semesters. A balance of developmental, transfer, and occupational course offerings has created an enrollment that is both heavily involved in university transfer (41%) and immersed in occupational programming leading directly to work (30%).

In order to meet the different learning styles and scheduling needs of its students, the Downtown Campus has developed innovative instruction, including supervised, individualized instruction using the latest technology. The Alternative Learning Center offers self-paced learning in mathematics and writing. The Biology Learning Center, located in the Science and Technology building, offers self-paced learning for many biology courses taught at the College. In addition, the Computer Commons provides technical assistance to students and assists faculty who wish to incorporate computer learning into the classroom.

Every occupational discipline at the Downtown Campus works closely with local community advisory groups to ensure the quality and relevancy of its curriculum. This continuous assessment process, coupled with capable and dedicated instructors, has created unique and exceptional educational programming at the Downtown Campus.

East Campus

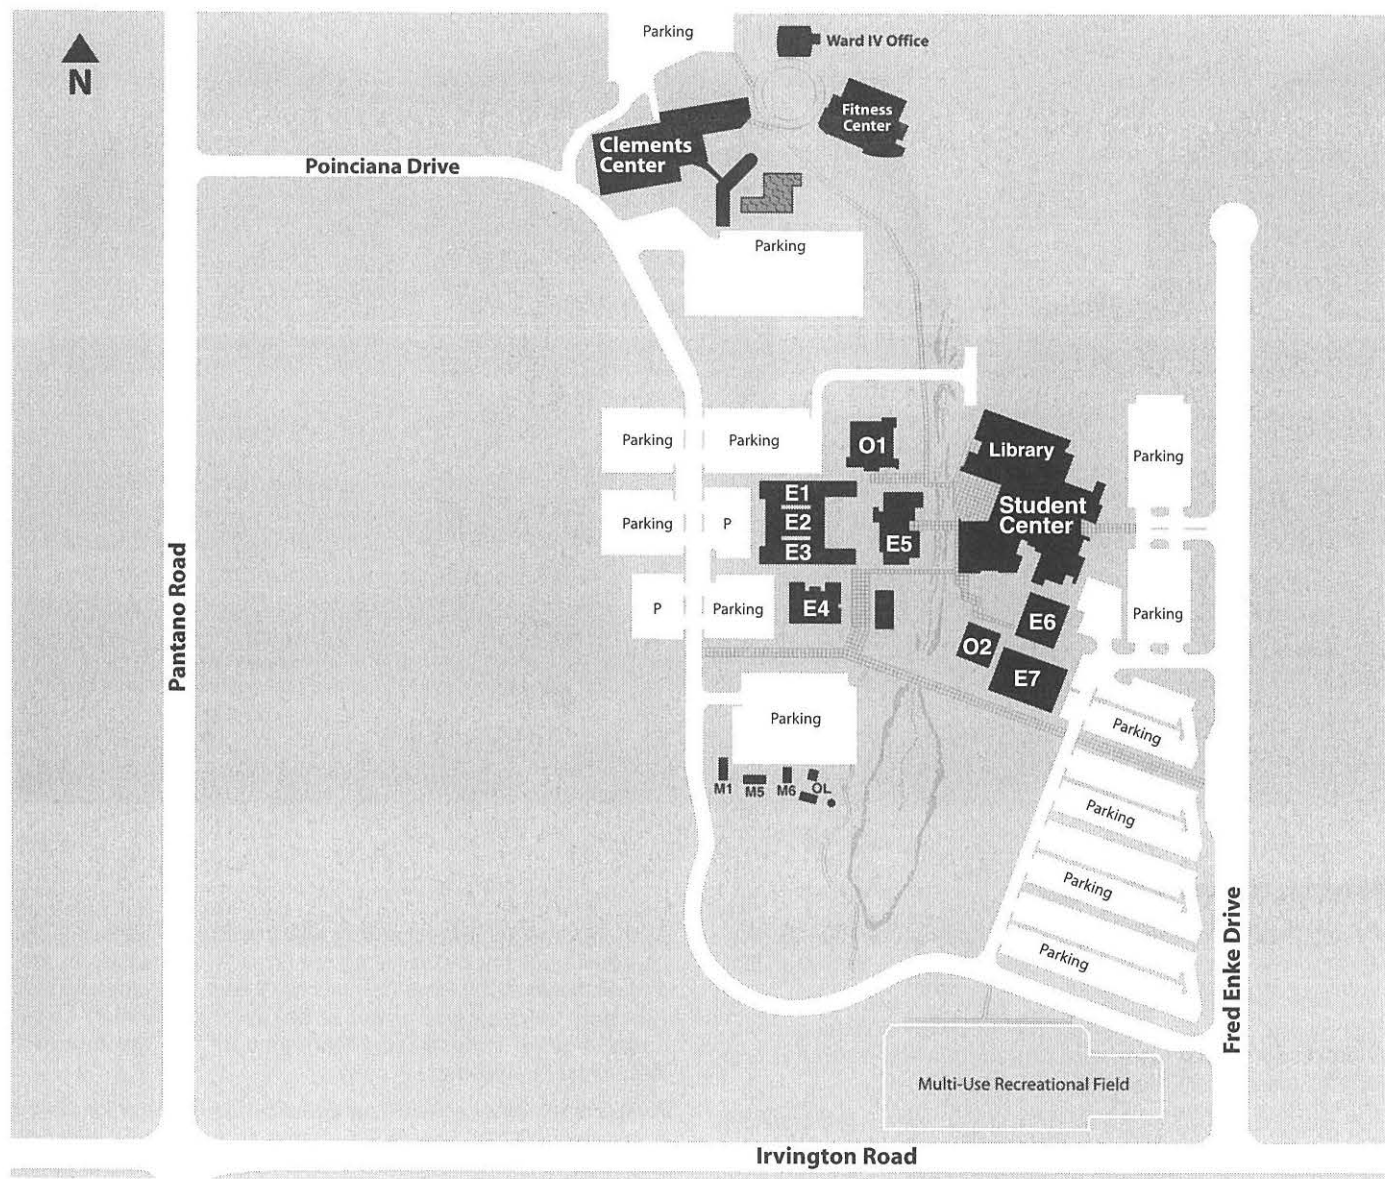

In 1981, Pima Community College expanded its educational facilities with the construction of the East Campus. Four subsequent expansions have now given the residents of Tucson's east side a comprehensive and convenient full-service campus that offers general education, university transfer, and developmental coursework, as well as selected occupational programming.

The campus enrolls almost 6,000 students a year. The newly renovated Library/Student Center supports a dynamic Student Activities Office that ensures East Campus students a variety of opportunities to enhance their personal success. Student Government is strong and student clubs are powerful and energetic.

In addition to a full array of academic and transfer programming, the campus provides vocational training in the areas of Emergency Medical Technology, Pharmacy Technology, Veterinary Technology, Travel, and Administration of Justice. The access and availability of offerings is enhanced by the addition of two educational centers managed by the East Campus—the Northeast and the Southeast.

Sitting on almost 58 acres in the Pantano and Irvington Road area, the campus is adjacent to the Fred Enke Golf Course, Lincoln Regional Park, the Atturbury/Lyman Bird and Animal Sanctuary, and the City of Tucson's Clements Recreational Center. Surrounded by natural Sonoran vegetation, the East Campus maintains a relaxed, comfortable atmosphere, with buildings clustered around several small patios and shaded courtyards.

Northwest Campus

The Northwest Campus brings a full spectrum of educational, recreational and cultural programs and services to families in the northwest region of Pima County.

Shared use of facilities is a cornerstone in this education park, comprising Pima Community College and its partners: the NPYMCA and Pima County Parks and Recreation.

PCC students may take a full range of fitness, wellness and dance classes at the YMCA. Pima County Natural Resources, Parks and Recreation occupies a significant part of the education park, establishing ballparks, other recreation facilities, and education programs.

Pima Community College's partners enable the Northwest Campus to provide comprehensive educational programs and services. University transfer, professional, technical and developmental programs – as well as general interest courses – are offered in this beautiful park.

The heart of the campus is a one-stop center for student services and a library/computer commons. Facilities also include classrooms; labs for biology, chemistry, astronomy, physics, geology and geography; and state-of-the-art technology classrooms. A beautiful promenade and outdoor amphitheater provide opportunities for students, faculty, staff and community visitors to gather in relaxed settings.

Outstanding courses are offered in accounting, information technology; business; psychology; social sciences; languages and communication; nutrition and food science; arts and humanities; and sciences and mathematics.

The entire four-year Hotel Restaurant Management (HRM) Program, in partnership with Northern Arizona University, is located

at the Northwest Campus and includes courses of interest to the hospitality industry and student internships in local hotels, resorts, and restaurants. The Pima Community College program offers an Associate of Arts degree as well as two direct-employment certificates, one for Hotel/Resort Management and the other for Restaurant Management.

A new direct-employment Therapeutic Massage certificate for licensure and A.A.S. degree is available, as well as the A.A.S. certificate for Clinical Research Coordinator and a certificate for Direct Home Care Professional. In addition, the Northwest Campus continues to develop new programs and certificates to meet educational needs.

West Campus

The West Campus enrolls more than 11,000 students each semester. West Campus staff includes 156 faculty, 125 staff and approximately 400 adjunct faculty. The campus is organized around five instructional divisions that offer a wide variety of degree and certificate programs. The West Campus is known for its full range of Health Related Professional programs, comprehensive programs in the natural and physical sciences, an Archaeology Center, a state-of-the-art Digital Arts program, outstanding programs in the visual and performing arts, and the PCC Center for the Arts. The West Campus also serves as home to the College's International Student Services Program and NJCAA athletic programs.

West Campus students have multiple opportunities to participate in co-curricular activities that include student government, clubs, intercollegiate athletics, and voluntary service.

Designed to blend with the surrounding desert, the campus features inner courtyards and several hiking trails on the grounds.

Admissions, Registration and Records

Admission to the College

Pima Community College (PCC) has an open-door policy that encourages all individuals to further their educational interests. No person can be denied admission to the College on the basis of sex, race, creed, color, national origin, age, or disability. PCC is open to individuals who meet the following definition for either Regular or Special admissions status. Admission to specific degree (or certificate) programs is not guaranteed. Preference in admission to PCC for all programs may be given to Pima County residents.

Please note that special programs of the College have special admissions. For admissions information to these programs, please contact the offices identified:

Workforce and Business Development Community Campus	206-6569
Center for Training and Development (CTD) Desert Vista Campus	206-5700
Pima Community College Adult Basic Education (PCCAE) Community Campus	206-6500
Truck Driver Training 6680 S. Country Club Rd.	206-2744

Eligibility for Admission

In accordance with A.R.S. 15-1801 through 15-1807, Pima Community College will admit students if they fall within one of the following categories provided that the established College criteria, guidelines and procedures have been met:

1. a graduate of an accredited high school
2. a recipient of a GED certificate of high school equivalency
3. a transfer student from an accredited college
4. a non-high school graduate who is 18 years of age or older who can benefit from instruction
5. a non-high school graduate between the ages of 16 and 18 who has officially withdrawn from high school who can benefit from instruction
6. a student currently attending high school, age 16 and over, seeking dual enrollment at PCC, accompanied by written approval from the student's principal and parents or legal guardian
7. a student currently enrolled in high school, seeking dual enrollment with PCC, who achieves the specified COMPASS or ASSET scores as per College Dual Enrollment Guidelines, or who presents a composite score of 93 or more on the Preliminary Scholastic Aptitude Test (PSAT), or a passing score on the relevant portions of the Arizona Instrument to Measure Standards Test (AIMS), the Scholastic Aptitude Test (SAT) with a composite score of 930 or more on the verbal and math portion or will have completed the ACT (American College Test) with a composite score of 22. The SAT and ACE are available at four-year colleges, universities or authorized testing centers for a fee. ASSET and COMPASS tests are free at any assessment center on Pima Community College campuses.
8. a student under the age of 16 without a diploma or GED, seeking dual enrollment at PCC, who has achieved a specified score(s) on the COMPASS or ASSET as per approved College policy or on the SAT, ACT, a passing score on the Preliminary Scholastic Aptitude Test (PSAT), or a passing score on the relevant portions of the Arizona Instrument to Measure Standards Test (AIMS), may enroll in up to eight (8) credit hours and with parental/legal guardian approval and the successful completion of the special underage admissions process at the campus the student wishes to attend.
9. an international student enrolled for 12 credit hours or more, or a border commuter student enrolled in 6 credit hours or more who has completed an academic program equivalent to an American secondary school and has a score of 450 or better

on the Test of English as a Foreign Language (TOEFL), or whose native language is English

10. International students must demonstrate English proficiency using a college approved instrument if they plan to enroll in courses other than English as a Second Language or courses offered bilingually
11. a returning student, **who has not attended PCC within the last three years**, will be required to **re-apply** for admission at any campus or center location prior to new enrollment

Students will be admitted either as full-time (12 credit hours or more) or part-time (less than 12 credit hours) in one of four categories:

1. **Regular:** A student who is a high school graduate, GED recipient, or who has met the Ability to Benefit criteria and is working toward the completion of a certificate, degree credit, or clock hour courses and/or programs.
2. **Special:** A student enrolled in courses that do not lead to the completion of a certificate or degree, or a student who is not a high school graduate and/or not beyond the age of compulsory education or not a GED recipient, or who has not met the Ability to Benefit criteria and is enrolling in credit or clock hour courses and/or programs.
3. **International:** A student who is applying for full-time admission as an F-1 student, or who is attending as an active F-1 student at another institution and has satisfied all accompanying criteria.
4. **Foreign:** A student who is applying for part-time admission and is in the US on an active visa status, other than F-1.

Admission of Underage Students

Guidelines:

No student under the age of sixteen will be denied admission to the College because of age, lack of high school diploma or high school certificate of equivalency, grade in school, lack of permission of school officials, or lack of concurrent enrollment in a public or private school, provided the general parameters have been met to assess student preparedness. Admission to the College does not guarantee admission to a specific degree program or to all courses offered by the College.

The campus Dean of Student Development is responsible for the consistent and uniform implementation of this regulation and related Standard Practice Guides (SPGs). The Dean of Student Development or designee is responsible for meeting with the underage student and parents or legal guardian to explain college-wide policies, code of conduct and procedures of special admission of underage students.

Note:

Students between the ages of 16 and 18 will not be required to complete the special underage admission process, but they are required to demonstrate competency on the Pima Community College assessment and placement tests. In accordance with ARS 15-1805.01, students between the ages of 16 and 18 may be denied admission if the College determines that enrollment at Pima Community College is not in the best interest of the student.

General Parameters:

1. The College will supplement the education being provided to the underage student by the secondary school system or alternate provider with no more than eight semester hour credits. Underage students being homeschooled may enroll for more than eight semester credit hours with special permission. However, enrollment at PCC is not intended to supplant homeschooling.
2. Students under the age of sixteen without a high school diploma or GED must have completed the SAT (Scholastic Aptitude Test) with a composite score of 930 or more on the verbal and math portions, or the ACT (American College Test) with a composite score of 22 or higher, or a composite score of 93 or more on the Preliminary Scholastic Aptitude Test (PSAT), or a passing score on the relevant portions of the Arizona Instrument to

Measure Standards Test (AIMS), or have achieved a specified score on COMPASS or ASSET as per approved College policy.

3. For students under the age of sixteen, still in school, the parents or legal guardian must provide a signature granting their permission and permission from the secondary school for supplemental instruction by the College.
4. Students under the age of sixteen must submit copies of all high school academic, attendance, and discipline records for review.
5. The parent(s) or guardian(s) of a student under the age of sixteen who has been in alternative schooling must provide a copy of the state credential or certification for the alternative school, a signature by the certificate holder, and an educational plan indicating the activities the College is asked to supplement.
6. Underage students (under sixteen) and their parent(s)/legal guardian(s) are required to participate in an intake interview at the campus they hope to attend. This special admissions process includes an evaluation of student preparedness, the completion and submission of all required forms and records and an explanation of College policies and procedures. Continued enrollment for underage students granted permission to enroll will be dependent on an evaluation conducted with the student and parent/legal guardian of the satisfactory academic progress and compliance with the Pima Community College Student Code of Conduct.
7. The records of material required for entrance will be kept by the Dean of Student Development and the District Office of Admissions and Records.

The College has the right to deny admission to underage students who fail to meet these guidelines and who have been suspended or otherwise officially excluded from secondary schools for disciplinary reasons. Approval or denial for admission and subsequent registration(s) into courses will be made by the Dean of Student Development.

Admission of International Students

International students wishing to study as a full-time F-1 student must complete the following procedures in order to be considered for admission to Pima Community College:

1. Submit a completed International Student Application for Admission.
2. Pay a \$25 application fee (payable to Pima Community College).
3. Submit one official copy of:
 - a. High school transcript (or completion of an academic program equal to an American secondary school), indicating graduation date.
 - b. Transcripts of all work done at previous educational institutions translated into English and notarized.
4. Submit official proof of English proficiency as indicated by the Test of English as a Foreign Language (TOEFL) score (minimum 450 on the paper/pencil exam, or 133 on the computer-based version or 45-46 on the Intermediate based test). This requirement may be waived if a student's native language is English.
5. Submit a certified Affidavit of Financial Support showing the ability to cover expenses for the current academic year.

Once accepted, all international students must comply with the appropriate immigration standards and regulations.

Persons on other non-immigrant visas may be allowed to enroll in part-time course work in accordance with immigration policy.

Border Commuter Students

In compliance with Immigration and Naturalization Services (INS) regulations, border crossers pursuing a formal course of study at Pima Community College must apply as International Students, be accepted to the College and obtain an F-1 visa. Students may study full or part-time.

Admission for all international students is through the International Student Services office located on the West Campus. For further information, call (520) 206-6732 or visit our Web site at: www.pima.edu.

Student Residency Requirements

For tuition purposes, students must indicate their residency status when applying for admission. All questions about legal residency must be determined by the appropriate admissions office before registration and payment of fees for any semester or session. It is the student's responsibility to apply for admission and to register under the correct residency status (domicile determination). Domicile is determined as of the first day of the session in which a student is enrolling. The following guidelines to determine residency status are taken from the Arizona Revised Statutes Sections 15-1801 through 15-1807. For questions about these guidelines, or for help determining residency status, please contact any campus admissions office.

State law now requires that a person who is not a citizen or legal resident of the United States or who is without lawful immigration status is not entitled to classification as an in-state student pursuant to A.R.S. Section 15-1802 or entitled to classification as a county resident pursuant to A.R.S. Section 15-1802.01. According to state law, a person who is not a citizen of the United States, who is without lawful immigration status, and who is enrolled in any community college under the jurisdiction of an Arizona community college district is not entitled to tuition waivers, fee waivers, grants, scholarship assistance, financial aid, tuition assistance or any type of financial assistance that is subsidized or paid in whole or in part with state monies.

In-State Student Status (Section 15-1802)

1. Except as otherwise provided in this article no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes.
2. A person is not entitled to classification as an in-state student until the person is domiciled in this state for one year, except that a person whose domicile is in this state is entitled to classification as an in-state student if the person meets one of the following requirements:
 - a. The person's parent's domicile is in this state and the parent is entitled to claim the person as an exemption for state and federal tax purposes.
 - b. The person is an employee of an employer which transferred the person to this state for employment purposes or the person is the spouse of such employee.
 - c. The person is an employee of a school district in this state and is under contract to teach on a full-time basis, or is employed as a full-time noncertified classroom aide at a school within that school district. For purposes of this paragraph, the person is eligible for classification as an in-state student only for courses necessary to complete the requirements for certification by the state board of education to teach in a school district in this state. No member of the person's family is eligible for classification as an in-state student if the person is eligible for classification as an in-state student pursuant to this paragraph.
 - d. The person's spouse has established domicile in this state for at least one year and has demonstrated intent and financial independence and is entitled to claim the student as an exemption for state and federal tax purposes or the person's spouse was temporarily out-of-state for educational purposes, but maintained a domicile in this state. If the person is a non-citizen, the person must be in an eligible visa status pursuant to federal law to classify as an in-state student for tuition purposes.

3. The domicile of an unemancipated person is that of such person's parent.
4. Any unemancipated person who remains in this state when such person's parent, who had been domiciled in this state, removes from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, as long as such person maintains continuous attendance.
5. A person who is a member of the armed forces of the United States and who is stationed in this state pursuant to military orders or who is the spouse or a dependent child as defined in section 43-1001 of a person who is a member of the armed forces of the United States and who is stationed in this state pursuant to military orders is entitled to classification as an in-state student. A spouse or a dependent child does not lose in-state student classification under this subsection if the spouse or dependent child qualifies for in-state tuition classification at the time the spouse or dependent child is accepted for admission to a community college under the jurisdiction of a community college district governing board or a university under the jurisdiction of the Arizona board of regents. The student, while in continuous attendance toward the degree for which currently enrolled, does not lose in-state student classification.
6. A person who is a member of the armed forces of the United States or the spouse or a dependent as defined in section 43-1001 of a member of the armed forces of the United States is entitled to classification as an in-state student if the member of the armed forces has claimed this state as the person's state of legal residence for at least twelve consecutive months before the member of the armed forces, spouse or dependent enrolls in a university under the jurisdiction of the Arizona board of regents or a community college under the jurisdiction of a community college district governing board. For purposes of this subsection, the requirement that a person be domiciled in this state for one year before enrollment to qualify for in-state student classification does not apply.
7. A person who is honorably discharged from the armed forces of the United States shall be granted immediate classification as an in-state student on honorable discharge from the armed forces and, while in continuous attendance toward the degree for which currently enrolled, does not lose in-state student classification if the person has met all of the following requirements:
 - a. Declared Arizona as the person's legal residence with the person's branch of service at least one year prior to discharge from the armed forces.
 - b. Demonstrated objective evidence of intent to be a resident of Arizona which, for the purposes of this section, includes at least one of the following:
 1. An Arizona driver license.
 2. Arizona motor vehicle registration.
 3. Employment history in Arizona.
 4. Arizona voter registration.
 5. Transfer of major banking services to Arizona.
 6. Change of permanent address on all pertinent records.
 7. Other materials of whatever kind or source relevant to domicile or residency status.
 - c. Filed an Arizona income tax return with the department of revenue during the previous tax year.
8. A person who is a member of an Indian tribe recognized by the United States department of the interior whose reservation land lies in this state and extends into another state and who is a resident of the reservation is entitled to classification as an in-state student.

Assignment of Student Identification Number and Use of Social Security Number

Pima Community College assigns all new students a student identification number. PCC does not use Social Security numbers for student identification numbers.

Pima Community College requests the Social Security numbers of all students who are U.S. citizens, Resident Aliens, or non-citizens (who have been issued a Social Security number) on the Application for Admission to match current and future records, ensuring that students receive full credit for all academic work. All local, state and federal student financial aid applications, and forms for College employment require student Social Security numbers.

Note: You must provide your Social Security number in order to receive an IRS form 1098-T Tuition Statement (for educational tax credit purposes).

Before the First Semester

New Student Requirements for Assessment, Advising, and Orientation

Assessments

The College offers basic skills assessments in reading, writing and mathematics. Assessments are free of charge. Advisors and counselors will use the results to help students choose appropriate courses. Students must be admitted to the College and show a photo ID before testing.

In addition to these basic skills assessments, the College also offers assessments for students taking English as a Second Language (ESL) and placement tests for specific disciplines.

Requirements

Prior to registering, the following students must take the three basic skills assessments in reading, writing and mathematics:

- New students (first-time attending college); or
- Any student currently enrolled in high school; or
- Any student under the age of 16; or
- Any student registering in a General Education course for the first time; or
- Any student registering for the first time in a reading, writing or mathematics course

To register in General Education courses, all students must meet one of the following reading requirements:

- Test higher than REA091 on PCC assessments; or
- Complete REA091 with a grade of "C" or higher; or
- Be concurrently enrolled in REA091 during the first semester of General Education courses; or
- Be concurrently enrolled in REA081 and **one** General Education course

Students registering for English as a Second Language classes must first take the ESL placement test.

Times

Appointments are not necessary, but please allow three hours to complete all assessments.

Special Accommodations

Special accommodations for qualified disabled students, such as extended time, large print, writing assistants, and interpreters, are available through the Disabled Student Resources offices. For more information, please refer to the Disabled Student Resources section.

Preparation

To prepare for the basic skills assessments in reading, writing and mathematics, a sample test is available for a small charge at any campus bookstore, for review at any campus library, or on the Web site at: www.pima.edu

Other Testing Services

For students without a high school diploma, PCC offers the GED (General Education Development) test. This test is available at the West Campus Assessment Center and at Pima Community College Adult Education Centers (PCCAE). Additionally, the institutional TOEFL (Test of English as a Second Language) is available at the West Campus Assessment Center.

Advising

Advisors and counselors are available throughout the year to help students decide on an educational goal and to prepare an educational plan to meet that goal.

Requirements

Prior to registering, the following students **must** be advised by a College advisor or counselor:

- New students (first-time attending college); or
- New students completing a degree or certificate; or
- Any student currently enrolled in high school; or
- Any student under the age of 16; or
- Any student registering in a General Education course for the first time; or
- Any student registering for the first time in a reading, writing or mathematics course

Advising Resources for Students

All students are urged to make use of the College Catalog, Schedule of Classes, and the Student Handbook when selecting courses or developing an educational plan. These publications are available at all Advising and Counseling Centers or at www.pima.edu. Catalogs may be purchased for a small fee at any campus bookstore or by calling (520) 206-4500.

Exceptions to Assessment, Orientation and Advising Requirements

Students who **do not** need to take assessments are:

- Students who have earned a degree or certificate; or
- Students who can document competencies in reading, writing or mathematics through prior assessment or college-level coursework; or
- Students enrolled only in non-credit, contract or special interest courses

Note: Previous assessment scores, or college-level coursework must be provided to an advisor or counselor prior to registration.

Students who **do not** need to participate in advising and orientation are:

- Students who have earned a degree or certificate; or
- Part-time students dually enrolled in another institution of higher education; or
- Part-time students enrolling in personal development, special interest, business/industry contract or customized courses; or
- Part-time students who are non-degree seeking

Orientation

Orientation is designed to help students succeed in college. Orientation covers necessary information about programs, services, university transfer, study skills, and registration. Each campus provides an orientation schedule for the upcoming semester. Orientations are offered at a variety of times, dates, and formats. Call any Advising and Counseling Center for more information.

Requirement

Prior to registering, any student new to higher education **must** complete an orientation. Meet with an advisor or counselor to see which of the following options is appropriate for you:

- Orientation and Registration Workshops; or
- Credit courses offered prior to or during each semester; or
- Online Orientation tutorial; or
- Orientation video

How to Schedule an Orientation

Complete an Application for Admission, take the assessments, and call or visit an Advising and Counseling Center to schedule an orientation.

Declaring a Program of Study

Students must declare a program of study (major) when applying for admission and make sure that it is listed correctly on their records. Advisors and counselors are available at all campus locations to help choose the right program of study. The program of study can affect financial aid or veterans benefits. Students may change or update their program of study at any campus admissions office.

Transfer of Credits into PCC

Students who have taken classes at another college or university may transfer the credits to Pima Community College. The College may accept class credit (with a grade of C, its equal, or better) from colleges and schools accredited by any of the following regional accreditation commissions:

- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges, Inc.
- North Central Association of Colleges and Schools
- Northwest Association of Schools, Colleges and Universities
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

To transfer credits to Pima Community College, the student must:

- Request an official transcript from the institution(s) previously attended to be sent directly to the District Admissions Office at 4905B E. Broadway, Suite 220, Tucson, AZ 85709-1120. The student will be notified when the transcript has been received.
- Submit a written request for evaluation of the credits at any campus location. Students must be admitted to the College in order to request evaluation of transfer credits.
- Requests for transcript evaluation should be submitted during the first semester of enrollment.

Military Servicemembers Opportunity College

Pima Community College has been named as an institutional member of Servicemembers Opportunity Colleges (SOC). The SOC is a group of over 400 college and universities that willingly provide postsecondary (after high school) education to members of the military throughout the world. As a member of the SOC, the College recognizes the unique nature of the military lifestyle. Pima Community College is committed to making it easier to transfer relevant course credits and has flexible requirements when deciding residency for members of the military. For information about the Department of Veterans Affairs (DVA) educational assistance, please see the Financial Assistance section.

Credit by Examination

Pima Community College realizes that when students enter the College, they may have already gained the knowledge and/or mastered the content of certain courses. Therefore, students have the opportunity to earn college credit by assessment of prior learning. Students receive credit by passing examinations.

Please note that a student cannot receive credit by examination for a course that is lower than the one in which s/he is currently

enrolled or for one in which s/he has already received credit. Credit by examination may or may not transfer to other colleges or universities. In addition, credit by examination does not fulfill the requirement of completing 15 credits at PCC. It also cannot be used in qualifying a student for veterans benefits. Students cannot receive financial assistance for credit by examination.

Credit by examination shall include:

1. Advanced Placement (AP) and International Baccalaureate (IB) Programs.
2. College-Level Examination Program (CLEP)
3. Special examination for credit

Advanced Placement (AP) and International Baccalaureate (IB) Programs

Pima Community College accepts Advanced Placement (AP) and International Baccalaureate Diploma (IB) credits. Taking Advanced Placement or International Baccalaureate courses in high school can accelerate a student's college career. At PCC, students can earn up to 30 credits towards a degree simply by taking examinations at the end of AP or IB classes. Credits earned based on exam performance may be counted toward a certificate or degree, including General Education requirements. See the following AP and IB credit tables. Contact a Pima Community College advisor to confirm course credit towards specific programs.

Advanced Placement classes are offered in select high schools. Exams are administered through the College Board each May. Some students take AP exams after taking honors or accelerated courses in their schools. For more information about the AP program visit the College Board Web site (www.collegeboard.com).

The International Baccalaureate Diploma Program is also offered in select high schools. This rigorous 2-year course of pre-university studies leads to exams that can be used to qualify for college credit. Pima Community College accepts certain higher-level IB exams for credit, see the following IB table. For more information about the IB Program visit the main Web site IB Diploma Programme (www.ibo.org/ibo).

AP and/or IB credit is re-evaluated upon transfer to another institution. For students planning to transfer AP and/or IB credit, please consult the catalog of the institution to which you plan to transfer for how the institution accepts AP and/or IB credit. An effort has been made to match Pima Community College's AP and IB scores with the University of Arizona's AP and IB scores.

AP and IB credit may fulfill Arizona General Education (AGEC) credit and/or Occupational General Education credit if the AP and IB score results in credit given in a course in the general education list. For example, a score of 4 or 5 on the American History Advanced Placement Exam results in credits for HIS 141 and 142 which fulfills AGEC and Occupational General Education requirements.

Passing scores for subjects credited through the AP and IB Exams are recorded as a "P" grade and will not be stated in terms of a specific course grade. No record is made of failing scores.

Please refer to the following table for the required scores for General Education application or Course Credit awarded. These

Exam Title	Exam Score	PCC General Education Requirement	PCC Course Equivalency	PCC Credit
------------	------------	-----------------------------------	------------------------	------------

scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

International Baccalaureate Diploma Programme (IB)

Pima Community College accepts International Baccalaureate (IB) credit. The International Baccalaureate Diploma Programme is offered in select high schools. This rigorous 2-year course of pre-college studies leads to exams which can be used to qualify for college credit. IB credit is considered credit by examination. Credits earned based on exam performance may be counted toward major or minor fields of study, or General Education requirements. See the IB table below and contact an academic advisor to confirm course credit towards specific programs.

College-Level Examination Program (CLEP)

The College-level Examination Program is a means by which students can obtain college credits without having to enroll formally in the courses. Pima Community College accepts CLEP for college credit, providing satisfactory scores are attained. Students must pay a registration service fee and an examination fee for each test. CLEP examinations are offered at the University of Arizona Testing Office (520-621-7589). PCC's Northwest Campus (520-206-2200) and the Davis-Monthan Air Force Base Education Center (520-206-4866) also offer CLEP examinations. Contact these offices to obtain information on the specific examinations offered.

CLEP credit is re-evaluated upon transfer to another institution. Students planning to transfer CLEP credit should consult the catalog of the institution to which they plan to transfer as to how the institution accepts CLEP credit. An effort has been made to match Pima Community College's CLEP scores with the University of Arizona's CLEP scores.

CLEP credit may fulfill Arizona General Education (AGEC) credit and/or Occupational General Education credit if the CLEP score results in credit given in a course in the General Education list. For example, a score of 50 on the Western Civilization II: 1648 to Present test results in HIS 102 credit that will fulfill AGEC and Occupational General Education requirements.

Passing scores for subjects credited through the CLEP are recorded with a "P" grade and will not be stated in terms of a specific course grade. No record is made of failing scores.

Please refer to the following table for the required scores for General Education application or Course Credit awarded. These scores are reviewed annually by the College Curriculum Office and by the respective College Discipline Area Committees.

CLEP

Western Civilization II: 1648 to the Present	50	Fulfills 3 credits of Social and Behavioral Science General Education requirements OR 3 credits of Humanities and Fine Arts General Education requirements	HIS 102	3

Special Examination for Credit – Proficiency Exam

A proficiency exam allows the student to take an examination for credit in a course where a student believes he/she has gained the same knowledge through some other experience (e.g., native language speaker or job experience). Proficiency exams are offered under limited circumstances at the instructor's discretion. Contact the instructor for permission to take a proficiency exam before registering for the course. A student must register and pay for the course before completing the exam. The instructor usually will require the successful completion of the course's final exam, which may have a written and/or oral component. Proficiency exams are not offered for fourth semester language classes.

DANTES CLEP and DSST

DANTES (Defense Activity for Non-Traditional Education Support) offers two forms of standardized assessment: DANTES CLEP and DANTES DSST (DANTES Subject Standardized Tests). DANTES CLEP is the same as CLEP and, utilizing the CLEP scores and equivalencies identified in the CLEP section of this catalog, may be applied to any certificate or degree. DANTES DSSTs are subject-matter examinations in college and technical subjects. At this time, the College does not accept DANTES DSST examinations as equivalent to College courses.

Enrolling in Classes

Each semester the College publishes a *Schedule of Classes* that has a list of classes offered, with the dates, times, and locations of each course section. The schedule also provides instructions on when and how to register, information on financial aid, advising, student resources, and important dates and deadlines for the upcoming semester or sessions.

There are three ways to register for classes after students have been admitted, assessed and advised:

- MyPima online registration
- Automated touch-tone telephone registration system (MAX 2000)
- Walk-in registration at all campus and district admissions offices

Students can audit most credit class with the instructor's permission. Auditing a class means that you enroll, pay for, attend and do work for the class but do not receive credit or a grade. Audit registration must be conducted in person at any campus or district admissions office between the first day of class and the drop/refund date of the class. After registering for an audit course any and all changes to the student's schedule must be made in person.

Student enrollment is not official for any academic term until all tuition and fees are paid.

Returning students, **who have not attended PCC within the last three years**, will be required to **re-apply** for admission at any campus or center location prior to new enrollment.

For more information:

- See the PCC Website at www.pima.edu
- See the *Schedule of Classes*
- Contact any campus admissions office or the general information line (206-4500)

Maximum Credit Hours Per Semester

Students can enroll in a maximum of 18 credit hours in the fall and spring semesters and 12 credit hours in the summer sessions. These credit limits include resident work; registration with the University of Arizona; and extension, correspondence, or high school classes taken at the same time. Enrollment beyond these limits requires approval. For more information, please contact any campus advising and counseling center.

Course Prerequisites

Students must meet course prerequisites as stated in this catalog, or demonstrate to the instructor their ability to take the class. If the student does not have the proper prerequisite(s) for the class, the instructor can withdraw the student from that class after notification.

Important Student Information

Student Rights and Responsibilities

All PCC students are considered to be responsible individuals – and are accountable for their own behavior. The College expects all students to obey local, state and federal laws, and to follow the College's Standards of Conduct. Those standards, as well as the student complaint process, are explained online under Student Rights and Responsibilities at www.pima.edu/studentserv/studentrights/.

If You Have a Problem . . .

Students with general complaints should see either the campus Dean of Instruction or the campus Dean of Student Development for guidance in resolving problems. *Student Rights and Responsibilities* regarding procedures for appealing grades or code of conduct penalties can be found online at www.pima.edu/studentserv/studentrights/.

Religious Observances

Pima Community College accommodates the religious observances and practices of students unless it will result in undue hardship to College programs. Arrangements should be made with the instructor at least two weeks in advance.

Family Educational Rights and Privacy Act (FERPA)

Students are informed each year of the Family Educational Rights and Privacy Act of 1974. The act was designed to protect the privacy of educational records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data. Students have the right to file complaints with the Family Educational Rights and Privacy Act Office about alleged failures by the College to follow the rules of the act.

For more information about the Family Educational Rights and Privacy Act, please contact any campus admissions and records office.

Information Covered under the Act

Student information is divided into two categories, public and student directory (unpublished), which can be disclosed by the College for any purpose at its discretion.

Public and student directory information may include the student's name, address, telephone number, date of birth, program of study, course status (freshman, sophomore, full-time, part-time), participation in college activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors, awards received, and previous schools attended by the student.

Currently enrolled students can instruct the College not to disclose public or directory information for any purpose under the Family Educational Rights and Privacy Act of 1974. A form to request withholding is published in the fall, spring, and summer editions of the *Schedule of Classes*. The withholding form must be sent to the Admissions and Records Office before the drop/add deadline for each semester. Pima Community College assumes that any student who does not request the withholding of public or directory information gives consent for disclosure.

Third Party Transactions

Students who wish to have a parent, spouse or friend or other third party complete any transactions, such as registration, which affect their educational record must provide the third party with: a.) the student's photo ID, and b.) a statement describing the transaction and granting the third party permission from the student. The student must sign and date the statement.

Academic Reporting

Throughout the United States, colleges and universities monitor the progress students make in achieving their academic goals. PCC is pleased to provide information regarding our institution's graduation/completion and transfer rates, in compliance with the Higher Education Act of 1965, as amended. Student success information, including information about student athletes, is available online at www.pima.edu, or call 206-4500 for a brochure.

Academic Policies: Grades, Academic Progress and Student Classification

Grading Policies

Grades at Pima Community College are recorded at the end of each session according to the following system:

- A – Superior = 4 grade points per credit hour
- B – Above Average = 3 grade points per credit hour
- C – Average = 2 grade points per credit hour
- D – Below Average = 1 grade point per credit hour
- F – Failure = 0 grade point per credit hour
- P – Pass = C or better without grade differentiation ordinarily indicated by the College grading system. A 'D' grade may be given at the student's request and the instructor's option.
- I – Incomplete: A record of Incomplete as a grade will be made at the student's request and the instructor's option. A student receiving a grade of 'I' will be provided with a standard form specifying the work necessary for completion of the course. After the student completes the work, or after the 'I' deadline set by the instructor, the instructor submits a Change of Grade form to the Admissions Office. If no Change of Grade form is submitted within a year, the 'I' will be automatically changed to 'F.'
- IP – Work in progress in open entry/open exit course. A record of IP (in progress) as a grade will be made when a student is making satisfactory progress in a course that crosses sections in start and end dates. At the specified end date of the course, the student will be assigned a grade of 'A,' 'B,' 'C,' 'D,' 'F,' 'I,' 'P,' or 'W.'
- W – Withdrawal: This grade may be requested by the student only during the first two-thirds of any session. This grade may also be given at the direction of the instructor on or before the final grading date for the class.
- X – An X placed next to the grade indicates the grade was earned through the successful completion of a proficiency test.
- AU – Audit: To audit a class means to enroll in and to attend a class without working for or expecting to receive credit. The symbol for audit, AU, appears on the class enrollment list by the student's name. Students auditing a class must register by the end of the official refund period and must receive the written permission of the instructor. Courses audited after fall 2003 will not appear on your transcript.

Official Withdrawal Guidelines

Students can request a grade of W (official withdrawal) only during the first two-thirds of the class based on the beginning and ending dates as listed in the Schedule of Classes. For open entry/open exit classes, the two-thirds deadline is based on the days between the date of the student's registration and the last day of the semester or session. For classes of two or less days, the instructor must approve the W grade on or before the first two-thirds of a class to students who have stopped attending the class before that deadline.

Grade Point Average (GPA) Calculation

The GPA is figured by multiplying the number of credit hours for each class by the number of points for the grade given and dividing the sum of the points by the total number of credit hours of A, B, C, D, and F grades. The GPA is based only on work completed at Pima Community College. A complete record of all credit courses attempted at the College is kept for each student.

Grade Reports

Grade mailers are no longer sent to a student's home address. Use MyPima, PCC's web-based information system, or MAX 2000, the telephone registration system, to access your grades.

Appeal of Grades

There is an appeal process for grade challenges. Please refer to the Student Rights and Responsibilities section of the *Student Handbook* that is available at any campus advising and counseling center, library, Dean of Student Development or Dean of Instruction office.

Course Repeat Grades

The higher of two grades earned for the same class will be used to figure the GPA. Both courses will appear on the student's transcript.

Standards of Academic Progress

The following applies to students in the following groups:

- Students new to Pima Community College in the fall semester of 2008
- Students that have been re-admitted for the fall semester and have completed a new application
- Continuing students that have not been in attendance for three traditional semesters
- ALL students receiving Veteran's Affairs benefits or Federal Financial Aid

Good Academic Standing

Students at Pima Community College who have completed 20 semester credit hours with a cumulative grade point average of at least 2.0 will be considered in Good Academic Standing. Good Academic Standing also requires students who have attempted 36 semester credit hours must have a completion rate of 67% including withdrawals and incompletes. (e.g. for 36 attempted hours, 24 must be completed with a passing grade). Students who have not completed 20 semester credits and have a cumulative grade point average of less than 2.0 are *strongly encouraged* to seek out advising and counseling assistance.

Academic Probation

If a student fails to meet the standards established for good academic standing, they will be placed on Academic Probation, indicating a serious institutional concern about the student's academic progress. A student on academic probation will:

- a. Be notified via U.S. Mail and College email that they are being placed on Academic Probation.
- b. Be required to complete an Academic Success Workshop at a campus. **Until completion of the Workshop, registration**

will be blocked. After successful completion of the workshop, a student will be allowed to register for future semesters.

- c. Have their academic progress monitored each semester, until the student returns to Good Academic Standing.

Academic Restriction

For students who have completed 40 semester hours with a cumulative GPA of less than 2.0 or after 56 attempted semester hours with a completion rate of less than 67%, will be placed on Academic Restriction. A student on Academic Restriction will be:

- a. Notified via U.S. Mail and College email that they are being placed on Academic Restricted status.
- b. **Registration will be blocked at this time.** Students will be required to meet with a counselor to complete additional requirements prior to future registration.
- c. Restricted to enrolling in no more than 12 hours in the next semester (without prior approval).

Academic Disqualification

Students on Academic Restriction, who obtain a GPA of at least 2.0 and complete more than 67% of their courses for the next semester, will be allowed to continue. Students on Academic Restriction who cannot maintain good academic standing will be academically disqualified.

Students who are academically disqualified will be dismissed and will not be permitted to enroll in the next traditional semester. After the next traditional semester, students may appeal for re-instatement. Students allowed to re-enter will be placed on Academic Restricted status until the student regains good academic standing.

Appeal of Academic Disqualification

Students who have been academically disqualified must follow the College appeal procedures for reinstatement. Students who feel that unusual conditions contributed to their unsatisfactory academic progress can request immediate reinstatement. For more information on appeal procedures, please refer to the Student Rights and Responsibilities on the College website (www.pima.edu/studenterv/studentrights/).

Academic Reinstatement

Students who have been academically disqualified can appeal by following the appeal procedures for reinstatement. For more information on appeal procedures, refer to the Student Rights and Responsibilities on the College website (www.pima.edu/studenterv/studentrights/). After reinstatement, the student will be placed on academic alert status.

Academic Renewal

Past academic performance may not, for a variety of reasons, be reflective of a student's subsequent demonstrated ability. Currently enrolled students who meet the criteria can have up to three consecutive terms of coursework ignored in computing their academic standing, grade-point average, and eligibility for degree or certificate completion. Academic Renewal may be given only once and will apply to the entire term, not just one class. Since the student's complete record (before and after Academic Renewal) remains on the transcript, other institutions may consider all classes when a student transfers or applies to a professional or graduate-level program.

For more information, please see any campus Advising and Counseling Center.

Financial Aid and Academic Status

Students receiving financial aid should be aware that there are additional and separate policies and requirements. Information is available in the Financial Aid Offices at each campus and from counselors and advisors.

College Rights in Maintaining Academic Standards

The College reserves the right to designate students as being on Academic Probation or Restricted status based on additional criteria. Academic Probation, Restriction, and Disqualification procedures may be modified by the College for students who are fully enrolled in virtual or distance education courses and who reside outside the Tucson metropolitan area.

Student Classification and Standing

Pima Community College students will be classified using the following criteria:

Full-Time Student

Students enrolled for 12 or more credit hours for the fall or spring semester, 6 or more credit hours for a ten-week summer session, or 4 or more credit hours for a five-week summer session will be classified as full-time students.

Note: For financial aid or veterans benefits purposes, summer session students must enroll for a total of 12 hours in one or any combination of the established summer sessions to be considered full-time students.

Part-Time Student

Students enrolled for 1 to 11 credit hours during the fall or spring semester, 5 or fewer credit hours for a ten-week summer session, or 3 or fewer credit hours for a five-week summer session will be classified as part-time students.

Freshman

Students who have earned fewer than 28 semester hours of credit will be considered freshmen.

Sophomore

Students who have earned 28 or more semester hours of credit will be considered sophomores.

Costs and Payments

Tuition and Fees

The following information reflects the College's tuition, fee, and refund policies for the Fall 2008, Spring 2009 and Summer 2009 (all sessions) terms. The tuition you pay is determined by whether or not you are an in-state resident or a non-resident. For further residency information, please review the residency requirements or see an advisor. **Tuition, fees, and refunds are subject to change without notice. Please refer to a current *Schedule of Classes* for the most up to date information.**

Tuition for Credit Classes:

Credit Hours	In-State Residents (all Terms)	Non-Residents (Fall/Spring)	Non-Residents (Summer)
1	\$ 49.50	\$ 84.00	\$ 161.00
2	99.00	168.00	322.00
3	148.50	252.00	483.00
4	198.00	336.00	644.00
5	247.50	420.00	805.00
6	297.00	504.00	966.00
7	346.50	1,743.00	1,127.00
8	396.00	1,992.00	1,288.00
9	445.50	2,241.00	1,449.00
10	495.00	2,490.00	1,610.00
11	544.50	2,739.00	1,771.00
12	594.00	2,988.00	1,932.00
13	643.50	3,237.00	2,093.00
14	693.00	3,486.00	2,254.00
15	742.50	3,735.00	2,415.00
16	792.00	3,984.00	2,576.00
17	841.50	4,233.00	2,737.00
18	891.00	4,482.00	2,898.00
19	940.50	4,731.00	3,059.00
20	990.00	4,980.00	3,220.00
21	1,039.50	5,229.00	3,381.00
22	1,089.00	5,478.00	3,542.00
23	1,138.50	5,727.00	3,703.00
24	1,188.00	5,976.00	3,864.00
25	1,237.50	6,225.00	4,025.00
26	1,287.00	6,474.00	4,186.00
27	1,336.50	6,723.00	4,347.00
28	1,386.00	6,972.00	4,508.00
29	1,435.50	7,221.00	4,669.00
30	1,485.00	7,470.00	4,830.00

Tuition (per class) – Audit Classes (non-refundable):

Credit Hours	In-State Residents (all Terms)	Non-Residents (All Terms)
No credit	\$49.50	\$49.50

Current Fees (rates subject to change)

Student Services Fee (per credit)	\$2.00
Technology Fee (per credit)	\$2.00

Processing Fees

Semester Processing Fee	\$10.00
Out-of-Country Application Fee	\$25.00
Transcripts (per copy)	\$3.00
Transcripts (next business day)	\$10.00
Transcript FedEx Fee	\$9.00
Degree/Certificate Application (per term)	\$15.00
Career Interest Test	Not to exceed \$20.00
GED Test	\$90.00
GED Test (repeat of each section)	\$15.00
ID Card	\$2.00
Deferred Tuition Payment Plan Processing Fee (non-refundable)	\$15.00
International Student Insurance Fee* (F-1 Students)	\$438.00
International Student Insurance Fee – Spouse (Optional)	\$1446.00
International Student Insurance Fee – Child (Optional)	\$438.00
Health insurance for International Students and their dependents is coordinated through the International Student Services Office (520-206-6732).	

* International Students are required to have health insurance. The International Student Insurance Fee provides coverage for a six-month period. They may use their own insurance from their home country if it will cover their medical expenses within the U.S.

Effective August 1, 2008, International Students have the option to elect to purchase health insurance for their spouse and/or children in six-month increments.

Financial Holds (encumbrances)

If you owe an outstanding debt to the College you will not be allowed to register, or receive any other services, until your debt is paid in full. You can pay your debt at any campus cashier's office during normal working hours. If your debt has been placed with a collection agency you will have to deal directly with the agency to pay off your debt. If you have any questions about your debt, please contact the Student Accounts Office at (520) 206-4574.

For an immediate release of your financial hold you will need to pay your debt, in person, with cash, money order or your credit card. You cannot pay over the phone.

Your debt may include the following (rates subject to change):

Past-Due Tuition	Amount of tuition due
Past-Due Book Loan	Amount of loan
Collection Agency Fees	Not to exceed 50% of balance owed
Late Fee	\$25.00 - \$100.00 5% of balance: min. \$25, max. \$100 (per occurrence)
Non-sufficient Funds (NSF) Payment Fee	\$25.00 (per occurrence)
Excessive Loss or Breakage	Replacement cost
Lost Library Books	Replacement cost plus \$10.00 processing fee
Parking and Traffic Fines	\$10.00 - \$25.00 (per applicable regulation)

Tuition and Fees Payment Methods

Tuition and fees must be paid in full by the published payment deadlines. The payment deadlines for each academic term can be found in the *Schedule of Classes*, on our Web site at <http://www.pima.edu>, and at any campus cashier's, admissions or financial aid office. Failure to pay your tuition and fees by the official payment deadline may result in a late fee (\$25 - \$100).

Important Notice: By registering for classes you are accepting financial responsibility for all related tuition and fees. You must drop any unwanted classes, by the official drop deadline, or you will be responsible for payment of all related tuition and fees associated with those classes. **Note:** Pima Community College reserves the right to drop unpaid registrations at any time.

Tuition and Fees may be paid via:

- Credit Card - Visa, MasterCard, American Express, Discover
- Check - personal, traveler's or cashier's
- Money order
- Cash (please do not mail)

Payment Options

Pima Community College offers a variety of payment options. Payments can be made online, by phone (automated system), in person, or by mail.

Paying Online

A secure payment can be made online using your credit card or checking account. Log on to the Pima Community College Web site, www.pima.edu and click on "MyPima" to access your account.

Paying by Phone (automated system)

A secure credit card payment can be made using our automated phone system, MAX 2000, at 520-206-4880.

Please Note: Pima Community College employees will not take your credit card payment over the phone.

Paying in Person

Payments can be made in person at any campus cashier's office. Please call the College information line, (520) 206-4500, for hours of operation. A picture ID is required for check payments.

Paying by Mail

Mail your payment directly to the Pima Community College Student Accounts Office. The College accepts personal checks, money orders, cashier's checks and traveler's checks by mail. Do not mail cash. To mail a payment, please follow these simple steps:

1. Make your check or money order payable to Pima Community College.
2. Include your student identification number and the College's semester code (**200910 for Fall 2008**) on the check/ money order. This will ensure timely processing of your payment.
3. Be sure to mail your payment early enough for it to be received by the payment deadline.
4. **Mail your payment to the following address:**
Pima Community College
Student Accounts Office
4905 E. Broadway Blvd.
Tucson, AZ 85709-1225

Additional Notes on Payments

- The College will not accept checks printed without a name or address; second-party, out-of-country, or postdated checks; or partial payments.
- College employees will write student identification numbers on checks when students fail to add them.
- Returned check payments are subject to a \$25.00 penalty.
- Returned checks may be forwarded to a collection agency and/or the Pima County Attorney's Office for collection.

Attention: It is the policy of Pima Community College to electronically convert and process paper checks received via mail using the Automated Clearing House (ACH) Network, under the rules governed by the National Automated Clearing House Association (NACHA) and the Federal Reserve Bank.

Payment with Financial Award

Your tuition and fees will be authorized for payment through financial aid if you meet **both** of the following requirements:

1. You have received confirmation of a financial aid award
2. The award is large enough to cover your entire tuition and fees

If you have any questions regarding the status of your financial award, you may contact any campus financial aid office or call the Financial Aid Hotline at 206-4950.

Student Refund Policy for Credit Courses

Regular Refund Policy

Students who officially drop one or more classes by the regular refund schedule may be eligible for a refund. The drop must result in a decrease to the total tuition assessment as determined by the number of credit hours for which the student is registered. Refer to the "Tuition and Fees" section of the *Schedule of Classes* to determine if the drop will decrease the tuition assessment.

Students who drop all classes within the official refund period are eligible for a 100% refund of paid tuition and fees. Outstanding charges owed to the College may be deducted from the refund amount.

If a class (or classes) must be canceled by the College, students will receive a 100% refund of paid tuition and fees for the class(es) being canceled. Tuition paid by financial assistance may be returned to the awarding fund.

Refund checks are processed by the Student Accounts Office beginning the week of "Drop/Add." See the *Schedule of Classes* for exact dates. Early refunds must be requested through the Student Accounts Office at (520) 206-4574.

Note: Withdrawing from a class will not create a refund or reduce your amount owed.

Regular Refund Schedule

Course Length (Enrollment Period)	Refund Deadline
Regular 16 weeks	within 13 calendar days after start of the semester
7 or more weeks.....	within 7 calendar days from the first class meeting or the start date of the term. See instructor for information.
4 or more weeks.....	within 4 calendar days from the first class meeting
2 or less than 4 weeks	by the day of the first class meeting
less than 2 weeks	prior to the day of first class meeting
Noncredit/Study tours	Special conditions, see <i>Student Refund Policy for Noncredit Activities and Study Tours</i> on page 37
Audit classes.....	no refunds

Note: Refer to the *Schedule of Classes* for the program starting dates. Refunds will not be issued for audit classes or classes withdrawn after the official refund deadlines.

Special Notes on Refunds

- Refunds are generally processed via check. If you paid by credit card, your refund will be credited back to the same card.
- Any outstanding debts owed to the College may be deducted from your refund.
- If the College cancels a class, you will be refunded all applicable tuition and fees.
- If you receive federal financial assistance, your refund will be paid directly back to the sponsoring program as required under federal guidelines. Please see "Return of Federal Financial Aid Funds" for more details.

Special Refunds Policy

Students who **totally withdraw** from the College due to an unforeseen circumstance may request a special provision refund at the admissions office on the campus where they are taking classes. The request must be made in writing and must be made during the semester that the withdrawal occurred. Only tuition will be refunded and the amount of the refund will be pro-rated based on the schedule. The campus president (or designee) may approve a refund for extenuating circumstances not specifically included in the following provisions.

1. Serious illness or injury. A written doctor's statement verifying that an illness or injury prevented the student from completing classes must be provided.
2. Death of a close family member. The College defines close family members as your spouse, children, parents, grandparents, siblings, grandchildren, or in-laws. Official documentation (such as a death certificate) must be provided in order to receive a refund.
3. Military Temporary Duty (TDY) Assignments. The assignment must be involuntary and unforeseen as of the official deadline for dropping the classes in question. A copy of the official orders requiring the TDY must be provided with the request.

Note: The College reserves the right to refuse any special provision request.

You must make your special provisions refund request before the end of the academic term that you withdrew from. Requests for refunds made after the academic term has concluded will not be granted.

Special Provisions Refund Schedule (pro-rated)

Refer to the Schedule of Classes for specific dates

<u>Elapsed Portion of Class(es)</u>	<u>Refund (paid tuition)</u>
30%	75%
45%	50%
60%	25%
Greater than 60%	No refund

Return of Federal Financial Aid Funds (Title IV Funds)*

A financial aid recipient who totally withdraws from the College is required to return a percentage of the financial aid funds according to federal regulations.

Students "earn" Federal Title IV funds in direct proportion to the length of time the student remains enrolled.

The College must perform the following steps in the return of funds process:

1. Determine the percentage of the period that the student completed ($\text{Days attended} \div \text{Days in period} = \text{Percentage completed}$).
2. Apply this same percentage to the total awarded Title IV aid for which the student established eligibility before withdrawing ($\text{Total aid disbursable} \times \text{Percentage completed} = \text{Earned aid}$).
3. Subtract earned aid from disbursed aid. This is the earned aid. ($\text{Earned aid} - \text{Disbursed aid} = \text{Unearned aid}$.)
4. Distribute responsibility for returning unearned aid by the College and the student.
The College's share is determined first by taking the lesser of:
 - The total amount of earned aid; or
 - An amount equal to the student's tuition and fee charges multiplied by the percentage of aid unearned.

This comparison ensures that the College will not return more aid than it could have kept to cover tuition and fee charges and that the student will not be required to return aid he or she could not have received as a cash disbursement.

The student's share of the amount to be returned is the difference between the total that has to be returned and the College's share.

5. Allocate unearned aid back to the Title IV programs, including Unsubsidized Stafford Loan, Subsidized Stafford Loan, Federal Perkins Loan, PLUS Loan, Federal Pell Grant, FSEOG, LEAP (SSIG).

The College's share is fully allocated before any of the student's share.

- The College returns unearned aid in the order shown up to the full amount disbursed from one program before moving on to the next.
- Once the College's share has been distributed back to the programs, then the student's share is allocated in its entirety.

Withdrawals

The withdrawal date used will depend on whether the student officially withdraws, or if the student drops out without notifying the College. Please refer to the withdrawal process outlined in the current *Schedule of Classes*.

- If a student officially notified the College of his or her intent to withdraw, the withdrawal date used is the date on which the student began the official withdrawal process.
- If a student withdraws without notifying the College, the withdrawal date used is the midpoint (50%) of the payment or enrollment period.

- If a student is enrolled in a program where attendance is required, the withdrawal date used is the student's last day of academic attendance.
- If a student withdraws before classes begin for the applicable semester, the student must repay all financial aid monies issued.
- If a student withdraws from the College, all future financial aid awards for the academic year and summer session(s) will be canceled immediately.

*Note: This refund policy is based on U.S. Department of Education regulations subject to change if federal regulations change.

Student Refund Policy for Noncredit Activities and Study Tours

Community Campus handles the refund requests for special interest, noncredit activities, and study tours. Refund requests must be received seven (7) calendar days prior to the start of the activity. See below for penalties and refunds when ending (termination of) your registration in study tours and other trips. If the College cancels an activity, students will receive full refunds.

Every effort is made to contact students who have enrolled before the start date if an activity has to be canceled. For more information, contact the Community Campus at (520) 206-6422 or (520) 206-6466.

Cancellation Policies for Study Tours

One-Day Trips: Requests to end registrations must be received seven (7) days prior to the tour date.

Multi-Day Trips: 100% of the fee will be refunded when your cancellation request is received 60 calendar days or more prior to the tour start date.

75% of the fee will be refunded when your cancellation request is received 46-59 days prior to the tour start date.

50% of the fee will be refunded when your cancellation request is received 31-45 days prior to the tour start date.

No refunds will be issued when your cancellation request is received within 30 calendar days of the tour start date.

Note: When "*Special cancellation policy applies*" is cited in a tour description, cancellation requests will be assessed on an individual tour basis. These cancellation penalties may exceed the percentages listed above.

For more information, please call (520) 206-3952 for further details.

Financial Assistance

Financial Aid/Scholarships

General Information

To provide all members of the community access to Pima Community College and to help them pay for the cost of their education, the financial aid office offers a full range of student financial aid. The money for the financial assistance comes from federal and state programs as well as private donors. Funds are awarded to students based on financial need, academic achievement, and program of study. The first step to applying for financial aid is to complete the Free Application for Federal Student Aid (FAFSA). Certain scholarships may require a separate application.

The Free Application for Federal Student Aid (FAFSA) is available online at: www.fafsa.ed.gov.

In order to receive first consideration for the limited financial assistance funds that are available for the award year, students are encouraged to complete the FAFSA prior to the priority deadline of April 2, 2008.

However, if the priority date is missed, students may still apply at any time of the year.

All students should apply. Students who do not demonstrate financial need may qualify for scholarships or other programs.

For more information, see the *Funding Education Beyond High School: The Guide to Federal Student Aid 2006-2007*, or call the Financial Aid Information Line at (520) 206-4950.

Federal and State Financial Aid Programs

Federal Pell Grants

The Federal Pell Grant Program provides financial assistance for students who have not earned a bachelor's or professional degree. The federal government establishes who is qualified. The Grant awards to students on income, living situation and enrollment status. The Federal Pell Grant, unlike a loan, does not have to be repaid.

Federal Stafford

The Federal Stafford Loan Program offers "subsidized" and "unsubsidized" loans. Loans may be made through a bank or credit union that participates in the Federal Family Educational Loan Program. A Federal subsidized Stafford Loan is awarded on the basis of financial need. If a student qualifies for a subsidized Stafford loan, the federal government pays the interest on the loan until the student enters into repayment. On the other hand, an unsubsidized Federal Stafford loan is not awarded on the basis of need. If a student qualifies for an unsubsidized Federal Stafford loan, the student pays the interest from the date the loan is given until the loan is repaid in full. A student enters into repayment of the loan or loans beginning six (6) months after they graduate, leave school, or drop below half-time enrollment.

Federal Plus Loan Program

The Federal Plus Loan program is for parents who have students living with them as dependents. The loans are made through a bank or credit union that participates in the Federal Family Educational Loan Program. This loan program enables parents with good credit histories to borrow funds to pay for the education expenses of each child who is a dependent and an undergraduate student enrolled at least half-time. Parents cannot receive more than the cost of education, with the amount of any other financial aid received also deducted. The interest rate is variable, but it will never exceed (9) percent. The interest rate for Plus Loans is adjusted each year on July 1.

Payment of principal and interest begins within 60 days after the last issuance of loan money to the parents. In addition, interest begins to accrue (be charged) from the date the first loan payment is given.

Campus-Based Programs

The federal government has three programs through which funds are given out from the College. Pima Community College participates in these campus-based programs: the Federal Supplemental Educational Opportunity Grant, the Federal Work Study, and the Federal Perkins Loan. Every year the government gives the College a certain amount of funds to award. Financial need is the qualification upon which these programs are based. Funds will be awarded to the neediest students first. Since the funds given to the College are limited, students are encouraged to apply as early as possible to meet the **College's priority date of April 2.**

Federal Supplemental Educational Opportunity Grants (FSEOG)

A Federal Supplemental Educational Opportunity Grant (FSEOG) is for undergraduate students with exceptional financial need. In awarding FSEOG, the College gives priority to students who receive Federal Pell Grants. An FSEOG does not have to be paid back.

Federal Work-Study

The Federal-Work Study Program provides jobs for students with financial need. Students may work up to 19.5 hours per week in a job that is either on-campus or off-campus. The program encourages community service work and work related to students' courses of study.

Federal Perkins Loans

A Federal Perkins Loan is a low-interest (5 percent) loan. The amount of the loan is based on exceptional financial need. These loans must be repaid. Students have to start repaying the loan nine (9) months after they are no longer enrolled in school. The starting date to repay the loan can be delayed when in certain circumstances such as: performing community service, unemployment, or economic hardship.

Leveraging Educational Assistance Partnership (LEAP)

The Leveraging Educational Assistance Partnership (LEAP) grant program, formerly known as the Arizona State Student Incentive Grant Program (SSIG), makes grants available to students with financial need. The College determines the amount of each award based on individual need and enrollment status.

Institutional Student Aid (Temporary Employment)

A number of campus jobs are available throughout the College. These positions are not based on financial need, and the students are selected by the employing department. Students are able to work an average of 19.5 hours per week. For application and placement information, contact any campus Job Placement office.

Short-Term Tuition Loans

Short-term tuition loans are available for Arizona residents and qualified veterans. These tuition loans allow students to defer payment of some or all of their tuition up to 60 days from the start of the academic term. For more information on short-term tuition loans please visit our website: www.pima.edu or stop by any campus Cashier Office.

PCC Foundation Scholarships

Every year, the Pima Community College Foundation awards hundreds of scholarships that have been donated by generous private donors to Pima students. Scholarships may be awarded on the basis of merit, financial need or a combination of both, as well as other criteria.

Many scholarships are general in nature, while others target specific program areas such as Healthcare or Occupational programs.

The PCC Foundation Scholarship application is available on the Foundation's web site, www.pima.edu/foundation.

Students are not required to complete the Free Application for Federal Student Aid (FAFSA) to be eligible for Foundation scholarships. However, students must be enrolled at Pima before their scholarships will be awarded.

Applications are reviewed by the PCC Foundation Scholarship Committee composed of representatives from each Pima campus, the Office of Financial Aid and the Foundation.

PCC Scholarships

Pima Community College helps student achieve their dreams through scholarships and grants.

Chancellor's Recognition Scholarship

The Chancellor's Recognition Scholarship is awarded to well-rounded graduating Pima County high school students who have shown academic competency and made contributions in several aspects of academic and civic life.

PCC Student Grants Program

The PCC Student Grants Program provides full or partial tuition and fees, and/or a textbook stipend to qualified, selected applicants.

Raytheon Scholars Program

The Raytheon Scholars program accepts up to 10 students per year and offers a number of benefits to successful students.

More information and applications for PCC scholarships may be found at: www.pima.edu/scholarships.

Department of Veterans Affairs (DVA) Educational Assistance

Pima Community College is an approved institution for Department of Veterans Affairs (DVA) educational benefits. Veterans, survivors, and dependents, eligible for DVA benefits under Title 38 of the U.S. Code (Chapters 30, 32, and 35), and reservists (Arizona National Guard) under Title 10, Chapter 1606, must be certified through the District Veterans Office (DVO). Students are encouraged to complete the required DVA procedures as early as possible through any campus veterans office. Students must meet PCC's admissions requirements and comply with the College's Academic Standards of Progress (see the Admission, Registration, Records section of this catalog for a complete description) to maintain your status.

Enrollment Certification and Limitations

Upon submission of a VA Certification worksheet and necessary documentation, eligible persons and continuing veterans will be certified each semester for courses that fall within their DVA approved program. Please allow 30 days for electronic DVA processing. This initial DVA processing may take up to 60 days to complete.

Benefits

Veterans receive educational assistance based on their enrollment certification status for a certified period (e.g., full-time, three-quarter-time, half-time). In a "traditional" semester (16 or 17 weeks in length), this measure is determined by the following:

- Full-time: 12 or more semester credits
- Three-quarter-time: 9 - 11 semester credits
- Half-time: 6 - 8 semester credits

Less than half-time periods are eligible for reimbursement of tuition and college fees paid by the student. Veterans on less than half-time periods are entitled to a request for "Lump Sum Payment."

Veterans at the half-time status or higher will receive a monthly benefit check. The rate of that check will vary by student status and "chapter" of eligibility. Up-to-date pay charts are available in the campus admissions offices or online at www.gibill.va.gov

Enrollment in accelerated (nonstandard semester) terms (e.g., Davis-Monthan Air Force Base courses) will have an effect on the monthly rate received. Status is determined by the number of semester credits taken in a certified period (number of weeks). Combination of traditional and nonstandard courses will cause a variance in your status; therefore, there will be changes in the amount of the checks.

DVA will not allow for the certification of open entry/open exit courses until a final grade (course completion) is received and posted to the students' record. Combination of open entry/open exit courses with other traditional or nonstandard courses has a direct impact on your monthly entitlement and rates.

Degree Plans

Students applying for DVA educational benefits can only be certified for courses they are enrolled in that are within their objective—program of study (or major). Eligible students should select a program of study (approved by the DVA) prior to registration for classes. Veterans are provided Degree Plans to indicate the course(s), in accordance with the applicable PCC catalog, that fit within their program. A Degree Plan is normally provided upon initial enrollment for benefits or when a program change occurs.

All degree programs are approved for a specific number of credit hours. Eligible students will not be certified or paid by the DVA for courses above and beyond the approved length. The DVA will pay only for required courses in approved programs. This same rule applies to certificate and vocational certificate programs which may be measured in clock hours rather than semester credits.

A program change may occur when a veteran changes institutions (place of training) and there is a material loss of 12 credits or more that are not transferrable to the new institution. The DVA approves and monitors the number of program changes over the period of eligibility to ensure progress in reported goals.

Academic Standards

DVA educational benefits will not be paid for courses unless they are used in computing graduation requirements for the selected objective. Students receiving the grade of General or Official Withdrawal in any of these courses will have to reimburse the DVA retroactive to the start of the semester, unless there are mitigating circumstances approved by the DVA. In some cases the interval pay may also be adjusted as a result of the withdrawal.

All veterans should maintain a 2.0 grade point average (GPA) for continuous certification. Veterans not making satisfactory progress or who do not maintain academic status (see "Academic Standards of Progress" in the Admissions, Registration, Records, and Graduation section) will not be certified (benefits will be suspended) until the cause for the academic disqualification has been corrected and

the program of study being pursued is suited to the person's aptitudes, interests, and abilities.

Transfer of Previously Earned Credit

DVA requires that all students receiving educational benefits have their "prior military and/or college experience" evaluated for credit toward the objective at Pima Community College. Students must have all official transcripts and a DD Form 214 (Military) sent to PCC for evaluation. Upon receipt, the College will evaluate the document(s) to determine what credit can be accepted at Pima. This information must then be forwarded to the DVA prior to the second semester of attendance. Failure to have this process completed during the first semester of attendance could result in overpayment and/or delay of benefits.

Veterans Services

A student who is a veteran, or a survivor or dependent of a veteran, may be eligible for veterans educational benefits. For more information on eligibility and on how to apply, students should contact any campus admissions office.

Additional Benefits

Students who are eligible for DVA educational benefits and have completed the enrollment certification process, may also apply for Tutorial and/or DVA Work-Study. These programs are available in addition to the educational benefits. For more information concerning eligibility for these programs and the process to obtain this assistance contact any campus veterans office.

Pima Community College Foundation

The Pima Community College Foundation was incorporated as a not-for-profit organization in 1977 by Pima County business leaders to assist Pima Community College in its efforts to expand educational opportunities and services in the community. Today, the PCC Foundation provides a means for citizens to actively support the future growth and development of their community college.

The mission of the PCC Foundation is to develop resources to provide learning opportunities at the College. Areas of support include student scholarships, equipment and supplies, program development, and special needs of the College.

The PCC Foundation also oversees the Pima Community College Alumni Association, dedicated to maintaining relationships with former students. The Association provides a continuation of the services and resources that are available to students, as well as opportunities for social events and fundraising projects. To learn more, visit the web site at www.pima.edu/alumni.

Gifts to the Foundation are tax deductible, and the Foundation will assist prospective donors in making donations, bequests, and in the planning of trust and will arrangements for the college. For more information or assistance, please contact the Pima Community College Foundation office at (520)206-4646, visit the web site, www.pima.edu/foundation or email foundation@pima.edu.

Student Services and Student Life

Student Services

Admissions/Registration

The admissions staff welcomes all who are interested in pursuing their education. Students must be admitted to the College before taking assessments, participating in an orientation, or registering for classes. Admissions and registration services are available year-round on all campuses and at each learning center. Information is provided on applying for admission, registration, student records, residency, veterans services, transcript evaluations, and graduation. For more information, see the Admissions, Registration, and Records section of this catalog, or visit our Web site at <http://www.pima.edu>.

Advising/Counseling

Advisors and counselors are available year-round to help students choose courses and make decisions that best meet their educational needs. Both walk-in service and appointments are available. All students should meet with an advisor, counselor, or faculty member at least once each semester to discuss proper course selection. All new students should read the **"Before The First Semester"** section of this catalog (under Admissions) to review required procedures which are crucial to student success.

Counseling services can help students in a variety of ways. Counselors are ready to help students decide on college majors and careers that match their interests, abilities, and personalities. Counselors help students develop strategies for college success. They also offer support with stress management and personal issues and help students identify appropriate community agencies for assistance.

Assessments

Reading, writing, and mathematics assessments for placement in courses appropriate to a student's skill level are available at all campuses and learning centers. (For assessment requirements, please refer to "New Student Requirements for Assessment, Advising, and Orientation" in the Admissions section of this catalog.) Some locations offer other testing services, including those for the General Education Development test (GED), English as a Second Language (ESL), and placement tests for specific disciplines.

Arrangements for disabled students (such as extended time, large print, writing assistants, and interpreters) are available through Disabled Student Resources. For more information, refer to the Disabled Student Resources information in this section.

Bookstores

Similar classes held on different campuses may have different textbook requirements. Students should be sure they are purchasing the books for the location of their classes. The bookstore staff is available to assist students in selecting appropriate textbooks based on instructor and course reference number. For textbook information and ordering, visit the bookstore Web site at <http://www.pima.bkstr.com>.

Cafeterias

Cafeteria services are provided at all campuses except Community Campus. All locations have vending machines and some informal seating areas.

Department of Public Safety (Campus Police)

The PCC Department of Public Safety provides law enforcement, security and public service throughout the College District 24-hours a day, 7-days a week. The DPS mission is to provide a safe

and secure environment for its students, staff, faculty and visitors. Each main campus has a police office that maintains lost and found and basic First Aid services. Escorts to and from a vehicle are available upon request.

DPS provides an annual crime statistics and Clery Crime Act Report that includes statistics for the previous three years concerning reported crimes that occurred on campus and in certain off-campus buildings owned or controlled by the Pima County Community College District.

The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, registered sex offenders, and other matters. You can obtain a copy of this report by contacting (520) 206-4500. The report can also be found online at <http://www.pima.edu/dps>. Updates and important safety and security issues are published in the student newspaper *Aztec Press*, the weekly online employee newsletter *@PimaNews*, and through the College's Internet home page, <http://www.pima.edu>.

The College's Parking and Traffic Regulation is also available online at http://www.pima.edu/dps/parking_reg.pdf.

For emergencies and to report crimes or suspicious activity call 911 or 206-2700. For non-emergencies or escort requests call 206-2700.

Career Services

Career counseling is available at each campus. Counselors can assist students in deciding on a college major and on a career that matches their interests, skills, and personality. For a counseling appointment, students may call any of the campus counseling and advising centers.

Some campuses also have Career Centers. The Career Centers offer sources of information to help students discover their personal interests and strengths and explore career choices, including the skills required, salary ranges, and future outlook for jobs. The centers also provide free assistance with resume writing, interview techniques and job search strategies.

Cashier

Students can pay their tuition and fees at any campus cashier's office. Accepted forms of payments include cash, check, money order, and credit cards. Financial aid recipients need to confirm payment with the campus financial aid office. Short-term tuition loans are available for Arizona residents and qualified veterans. These tuition loans allow students to defer payment of some, or all, of their tuition up to 60 days from the start of the academic term. For more information on short-term tuition loans please visit our Website: www.pima.edu, or stop by any campus cashier office.

Childcare

Child Development Centers are located at Desert Vista Campus, Downtown Campus, and West Campus. Quality, convenient childcare is provided for toddlers and pre-school children. Students interested in this service should visit one of the centers and complete a registration form. This service is provided for a fee on a space available basis.

Disabled Student Resources

Pima County Community College District complies with the Americans with Disabilities Act (ADA) of 1990 and section 504 of the rehabilitation act of 1973 as amended, as well as other applicable federal and state laws and regulations that prohibit discrimination on the basis of disability. No qualified person will, solely by

reason of disability, be denied access to, participation in, or the benefits of any program, activity, or service offered by the College.

Disabled Students Resources (DSR) assists students through the development of academic adjustment service plans that authorize specific adjustments. The DSR department also refers students with disabilities to other College departments and community agencies that can enhance and support their educational experience. When appropriate, services provided by DSR may include academic and career advising, priority registration, note-taking assistance, sign language interpreting, text captioning, auxiliary aids and services, specialized equipment, taped texts, testing accommodations, and mobility assistance.

Student requests for accommodation due to disability are processed through DSR offices. DSR specialists will provide intake assistance, determine eligibility based on appropriate documentation, and monitor and adjust student accommodations with the cooperation of students. Students with disabilities may contact any DSR office listed below to begin a request for accommodation or to continue a service plan each semester.

The College offers special assistive technologies available in labs, libraries, and classrooms that assist students in succeeding in courses and completing degrees. These technologies may increase the speed of learning, or provide a basis for accommodation in future employment after completion of academic programs. Contact a DSR specialist at any campus for more information.

The actual provision of academic adjustments is a College-wide responsibility, and may require the assistance of instructors or other employees. DSR serves as a resource to College personnel, and welcomes inquiries and requests for technical assistance.

Financial Aid

There are many ways for students to pay for education under various grant, loan and scholarship programs. Although the federal government provides the largest amount of aid, a student may qualify for funds from Pima Community College and from private donors. Contact a financial aid specialist at one of the campus financial aid offices to get started by reviewing eligibility criteria, deadlines, and application processes. For more information, please see the Financial Aid/Scholarships section of this catalog (pg. 42), or visit our Web site at <http://www.pima.edu>.

Insurance

Accident and sickness medical expense insurance may be purchased by students. Forms and information are available at each campus student services area.

International Student Services

The International Students Services Office (ISSO), located at West Campus, was established to recruit international students and help them reach their educational goals. For more information, call the ISSO at (520) 206-6732.

Job Information

Job information is available to students who are currently enrolled or have taken a class at Pima Community College. Most campuses maintain a list of part-time and full-time job opportunities available throughout the College and some off-campus sites.

Library Services

Pima Community College provides library services at all campuses except Community Campus. Library resources include books, journals, audio/video tapes, compact discs, microforms, online databases, and the World Wide Web.

All libraries have staff available to answer reference questions and assist students in using library and Internet resources. Campus librarians offer library research skills classes, individualized help sessions, workshops and library orientation presentations. In addition to these services, there are orientation videos available for check out. Students should ask any library staff member for more information.

Resources are listed in an online catalog called PIMALINK, which can be accessed via the World Wide Web at <http://www.library.pima.edu>. PIMALINK lists most materials owned by college libraries. It also provides links to the University of Arizona library and the Tucson-Pima Public library. PIMALINK contains a number of databases of full text and/or abstract journal articles, plus encyclopedias, and many other electronic resources.

PIMALINK can be accessed from any on-campus library or computer center PC. Students can also connect to PIMALINK from their home or office through a PC that is connected to an Internet service provider. Some databases are available to dial-in users who have a student ID card with a bar code. Ask a librarian for information on how to gain access to all PIMALINK resources from off-campus.

Full access to the Pima Community College library collection is available from any campus library. Items that are not available on one campus can be delivered to another campus. All libraries also provide an interlibrary loan service that will borrow and deliver materials available from other institutions. All the libraries provide study and lounge areas.

Orientation

All new students attending college for the first time are required to complete a New Student Orientation. Before doing so, students must turn in a completed admissions application and take the reading, writing, and math assessments. To make a reservation for orientation, students should contact an advising and counseling center.

Parking and Bus Service

Free parking is provided at all Pima Community College campuses. However, students are responsible for reading and understanding the College's parking and traffic regulations. For complete information on parking and traffic regulations, see the Pima County Community College District Parking & Traffic Regulations for Motor Vehicles, Bicycles and Other Non-Pedestrian Devices, available at all campus libraries and at any campus Dean of Student Development office. For information regarding how to obtain disabled parking permits, contact a DSR specialist on any campus.

To organize a car pool, call RideShare (884-7433) for more information. For students interested in riding the public bus, SunTran provides bus service to all campuses. Copies of current bus schedules are available in the Student Life area of each campus, or by calling SunTran at 792-9222 for schedule information.

In accordance with A.R.S. 15-1444C, all vehicles allowed to park in any Pima Community College parking lot must comply with the emissions standard as stated in A.R.S. 49-542. Out-of-county or out-of-state students are required to sign an affidavit, when they register, that states their vehicle meets the Arizona emission standards. If a vehicle is not on record as complying, it is subject to being towed at the owner's expense.

Specialized Programs

Pima Community College has designed special programs to assist individuals who are reentering the workforce, international students, veterans and students with disabilities. These programs may help qualified students in getting financial aid or benefits, career information, counseling, advising, and tutoring. Some campuses offer specific activities for certain populations. Contact any campus Dean of Student Development office for more information.

Student Identification Cards

A student identification card provides access to PCC libraries, bookstores, assessment/testing centers, athletic facilities, and computer labs. Students may add value to their ID card to pay for printing in College libraries and labs. Students may use their PCC ID to receive discounts on many events in town. ID Cards can be obtained by paying the fee at the cashier's office and taking the receipt to the student ID area. Cards must be validated each term.

Transcripts

Unofficial transcripts may be obtained at any campus admissions office, advising/counseling area, or One Stop/Express Services area. Official Transcripts may be requested through any campus, learning center, or on our Web site at <http://www.pima.edu>. They may also be requested by mail. Please allow seven working days for processing of official transcripts.

Tutoring

Free tutoring is available in a variety of subjects for students who need help in their studies. Contact any campus learning center for additional information.

Student Life

Pima Community College offers a rewarding environment for its students. There are opportunities to get together to share common interests, celebrate diverse cultures, enjoy various cultural events, and much more. In addition, there are avenues available to develop and demonstrate leadership qualities and to be a voice within the College. Specific information on student government, student clubs and organizations, and cultural events can be obtained by consulting the offices of Student Life or the Dean of Student Development on any campus.

Clubs and Organizations

For those students with similar interests, the College has a variety of clubs and organizations. For information on all clubs, contact either the campus Student Life office or any campus Dean of Student Development office.

Leadership and Student Government

Students have a voice in College functions through recognized campus student government associations, the Board of Governors, and appropriate student groups and committees. Student government representatives also sit on various task forces and committees that make recommendations to the administration. Although the student representatives on the Board of Governors cannot cast a vote with the official members, they can voice an opinion on agenda items.

Students are urged to volunteer for College task forces and committees. For information on these activities, consult the office of Student Life or Dean of Student Development office on any campus.

Performing Arts

PCC provides experience in the performing arts at its comprehensive Center for the Arts, headquartered at the West Campus. It houses the 420-seat Proscenium Theater, a studio theater, a recital hall, stage shops, classroom space, an art gallery, and an outdoor amphitheater. In addition, PCC's Theater Department is known for its contemporary, multicultural focus. The department presents student performances and Live Arts events at the Center for the Arts throughout the year. Discounted rates to performances are available to students with a valid PCC Student ID. For more information, call the Center for the Arts at 206-6988; for information on performance tickets, call the CFA box office at 206-6986.

Phi Theta Kappa

The College offers membership in Phi Theta Kappa (PTK), an international honors society. The members of this society have prestige of membership, leadership opportunities, availability of honor society scholarships, involvement in community projects, and acquaintance with other honor society members.

For additional information, contact any campus Dean of Student Development office.

Publications

Students interested in writing, editing, and reporting, can work on one of Pima's two student publications. *Aztec Press*, located at the West Campus, is a weekly newspaper that provides students an opportunity to learn about journalism. For more information about serving on the newspaper staff in any position, please contact either the Arts and Communications Division office or *Aztec Press* at 206-6800. Pima also has a literary magazine. Students interested in this form of publishing may enroll in WRT 162-Literary Magazine Workshop held at the Downtown Campus. The workshop annually publishes *Cababi*. The *Cababi* contains literary pieces, including those from Downtown Campus students, faculty, and staff. The magazine also sponsors an annual art contest for its cover and center pages.

Sports – Intercollegiate Athletics

Pima Community College is a member of the Arizona Community College Athletic Association, National Junior College Athletic Association, and the NJCAA Region #1. The sports organization governing the College's participation sets the rules of who can play (eligibility requirements). The basic requirements are that the athletes be full-time enrolled students, be making progress in their studies (satisfactory academic progress), and that each person has received a medical clearance to participate. Pima competes in a variety of sports, including baseball (men), basketball (men and women), cross-country (men and women), football (men), golf (men and women), soccer (men and women), softball (women), tennis (men and women), track (men and women), and volleyball (women).

Student Housing

Pima Community College does not own or operate student housing, either on campus or in the community. However, students can receive information about community agencies and organizations that provide housing by contacting any campus Dean of Student Development office.

Drug Free Schools and Communities Act Information

Pima Community College is committed to the Drug Free Schools and Communities Act Amendments of 1989 (Public Law 101-226, 20 U.S.C. §1145g).

Standards of Conduct

The unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees is prohibited. The following misconduct is subject to disciplinary action, including exclusion, suspension, or expulsion:

1. Violating or failing to comply with published rules and regulations of conduct of the College which prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on College property or as part of any of its activities;

OR

2. Being under the influence of, using, selling, possessing, or distributing any illicit drugs or alcohol on College property or as part of any of its activities. This prohibition includes, but is not necessarily limited to, marijuana, any narcotic drug, hallucinogen, stimulant, depressant, amphetamine, barbiturate, abusable glue, aerosol paint, or other chemical substances. Over-the-counter drugs are excluded from consideration unless improperly used.

Legal Sanctions

Local, state, and federal laws prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol. Conviction for violating these laws can lead to imprisonment, fine, probation, and/or assigned community service. Students convicted of a drug and/or alcohol-related offense may be ineligible to receive federally funded or subsidized grants, loans, scholarships, or employment. Pima County Community College District will fully subscribe to and cooperate with the local, state, and federal authorities in the enforcement of all laws regarding the unlawful possession, use, or distribution of illicit drugs and alcohol.

Health Risks

There are definite health risks associated with the use of alcohol and illegal substances. Students who experiment with drugs, alcohol, and illegal substances, or use them recreationally, may develop a pattern of use that leads to abuse and addiction. Use of alcohol and illegal substances is a major factor in accidents and injuries, and among persons between the ages of 18 and 24, it is responsible for more deaths than all other causes combined.

Support Resources

College officials assist students with appropriate referrals and information concerning drug and alcohol education, counseling, treatment, or rehabilitation or re-entry programs that may be available in the community. Contact Advising and Counseling on any campus for information.

Educational Options

Introduction

To meet the diverse needs of students, Pima Community College offers a variety of ways for students to reach their educational goals. Students can choose from traditional, alternative-style, or accelerated classes. These classes cover many subject areas and fulfill degree and certificate requirements. Students can take classes to transfer into a four-year institution, prepare for job training, or continue their education in an area of special interest.

These classes are provided during the day, evenings, and weekends. Evening classes begin at 4:30 p.m. or later and are highlighted in the *Schedule of Classes*. Classes are offered at all PCC campuses and learning centers, as well as more than 100 off-campus sites, including Davis-Monthan Air Force Base, public schools, and neighborhood centers in Pima County.

Traditional-Style Classes

PCC offers traditional-style classes in which students are required to attend lecture and/or lab on specified days and times. Regular classes run for 16 weeks during fall and spring semesters.

Alternative-Style Classes

PCC also offers alternative-style classes that provide students with different teaching methods or within different time frames. These classes are designed to fit students' learning styles and scheduling needs and include:

- **Express Format** – Students attend class one night a week, year round, and earn an associate's degree in two years.
- **Honors Content** – This course may be taken for Honors credit, with additional work expected of the student beyond regular course requirements.
- **Internet/Web** – Classes taught through the World Wide Web.
- **OpenEntry/Open Exit** – Students enroll at any time during the semester and complete required work at their own pace within the semester or by arrangement with the instructor.
- **Self-Paced** – Students work off-campus at their own pace, with study materials prepared by College faculty. Students must meet with faculty for the initial class at the time and room defined in the *Schedule of Classes*.
- **Self-Paced on Campus** – Students work on-campus each week at their own pace, in the room defined in the *Schedule of Classes*, with faculty guidance. Students must meet with faculty in the room defined during the first week of classes.
- **Television and the Web** – Students receive instruction via cable television and turn in their work via the Internet.
- **Traditional Classroom** – Students attend lecture and/or lab on specified days and times on- or off-campus with a teacher presenting material to the students.
- **Web and Classroom** – Students receive instruction in the classroom and through the World Wide Web with reduced time in the classroom.
- **Web Self-Paced** – Students work via the World Wide Web at their own pace with materials provided by College faculty through the World Wide Web.

See the *Schedule of Classes* for more information about these options.

Honors Program

The Honors Program features an enhanced curriculum where students can expand their intellectual capabilities, develop creativity and practice leadership skills. The primary goals of the Honors Program are to encourage leadership and community service opportunities and facilitate entry into Honors Programs at four-year colleges. The Honors Program features one-on-one guidance in seeking scholarships and awards, small class sizes, and a strong support network among students, faculty, and staff.

To graduate from Pima Community College with an Honors designation, students must complete a minimum of 15 credit hours of honors courses in at least three general education areas, with an overall GPA of 3.5. The Honors 101 Colloquium (3 credits) counts toward this 15-credit minimum.

Admission Criteria

New students qualify by meeting one of these criteria:

1. ACT score of 29 or a combined SAT score of 1290
2. High School GPA of at least 3.5 and at least one of the following:
 - a. membership in high school honor society
 - b. advanced placement credit
 - c. placement into Writing 101 and Reading 112

Continuing and transfer students qualify by meeting at least one of these criteria:

1. 3.5 GPA and placement into or enrollment in Writing 101 and Reading 112
2. 12 credits or more and a 3.5 GPA in college courses numbered 100 and above.

Admission Process

Applications for the Honors Program are available at any campus. They are also available on the Honors Program Website: <http://www.pima.edu/honors/>, where additional information about the Honors Program is available. For information about other honors societies, see Phi Theta Kappa.

Earning a Degree or Certificate

Degree, Certificate, and Graduation Requirements

Pima Community College offers certificates and degrees in a variety of areas. Each certificate and degree has specified program requirements for graduation. See certificate and degree displays for specific program requirements. The certificates and degrees are displayed alphabetically beginning on page 67 with Accounting.

Each program display lists the required coursework and credits. A degree may be awarded with fewer than the number of credits shown in the program display as long as the student has completed the required coursework and a minimum of 60 credit hours numbered 100 or higher.

Guaranteed Workforce/ Occupational Curriculum

Pima Community College believes in its faculty and staff, and in the quality of the instruction and technical skill competencies it provides to students. Therefore, Pima Community College's workforce/occupational program graduates are guaranteed technical skill competencies.

If a graduate of a credit certificate program, Associate in Applied Science degree, or clock hour program is not able to demonstrate entry-level skills expected by his or her first employer after graduation within the first six months of employment, the employer may request remediation of the specified skill deficiency at no cost to the employer or the employee. Pima staff, along with the employer, will identify the specific skill deficiency to be remedied and will develop an individualized training plan to be completed at the earliest possible timeframe amicable to the employer, the graduate and Pima Community College.

Earning a Degree or Certificate

Earning a certificate or degree requires fulfilling all requirements defined below.

Students are responsible for determining the presence or absence of any barriers to professional licensure or certification outside of College awarded completion documents. If students have concerns about any non-educational barriers to professional licensure or certification, they are advised to seek academic advising to explore that possibility before beginning their course of study.

Program Prerequisites

Prerequisites may be required before beginning some programs. Prerequisites are in place to make sure students have the skills and knowledge needed to be successful in the program. These courses may add a semester or more to the time needed to complete the certificate or degree. See an advisor or counselor for more information.

Program Requirements

General Education Courses

General Education courses enhance the student's education and are required for graduation for all degrees and for certificates of 30 or more credits.

Core/Major Courses

Core/major courses provide in-depth knowledge and/or skills in the student's chosen field of study. Core/major courses are required and are listed by program in the certificates and degrees section of the catalog.

Support/Elective Courses

Support/elective courses expand the knowledge and skills beyond the core/major requirements and are usually in subject areas different than the core/major courses.

Graduation Requirements

In order to graduate from Pima Community College, a student must:

1. Apply for graduation within one year of completion of degree requirements. Students failing to do so must apply for an exception through the Office of the Registrar at the District Office and must complete a graduation application by the dates specified in this Catalog's academic calendar. Failure to complete the application by that date will result in a delay in processing until the following semester.
2. Complete the General Education requirements appropriate to the certificate or degree.
3. Complete the program core, support, and prerequisite requirements for the appropriate certificate or degree.
 - a. Complete a minimum of 60 credit hours of course work at the 100 level or higher for an associate degree. At least 15 credit hours of the program requirements must be earned at PCC.
 - b. Complete the college credit hours as defined in the certificate display within this catalog to earn a certificate. For certificates of 6 or more credit hours, at least 6 credit hours of the program requirements must be earned at PCC. For certificates of less than 6 credits, all credits must be earned from PCC.
4. Complete the reading requirement, if specified for the appropriate certificate or degree.
5. Have a minimum overall 2.0 grade point average (GPA) on a 4.0 grade point scale.
6. Complete courses given the following rules regarding grades:
 - a. A "C" grade is required for general education and core courses.
 - b. "D" or "F" grades do not fulfill graduation requirements for any transfer degree (Associate of Arts, Associate of Science and the Associate of Business Administration) or AGECE.
 - c. A grade of "P" cannot be used for Arizona General Education Curriculum (AGECE) or any transfer degree (Associate of Arts, Associate of Science and the Associate of Business Administration).
 - d. A "D" grade can fulfill the requirement for support courses only in certificates, the Associate of Applied Arts, and the Associate of Applied Sciences.
7. Complete the learning outcomes assessment as part of the official graduation process if earning an associate degree.

Graduation with Honors

Students who are graduating with a degree and who have completed 30 credit hours at Pima Community College may be granted honors designation if they meet certain grade point averages:

- 3.500 to 3.749 grade point average =
Graduation with Honors
- 3.750 to 3.899 grade point average =
Graduation with High Honors
- 3.900 to 4.000 grade point average =
Graduation with Highest Honors

These designations will be shown on diplomas and listed on the student's official transcripts.

Student's Catalog of Record (Catalog Under Which A Student Graduates)

Students maintaining continuous enrollment at any public Arizona community college or university may graduate according to the requirements of the catalog in effect at the time of initial enrollment or according to the requirements of any catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment whether attending a public community college and/or public university in the State of Arizona.

The rules for maintaining continuous enrollment are:

1. A semester in which a student earns course credit will be counted toward continuous enrollment.
2. Noncredit courses, audited courses, failed courses, or courses from which the student withdraws do not count toward continuous enrollment.
3. Failure to enroll in three consecutive regular (fall or spring) semesters breaks continuous enrollment for a student. Enrollment in the intervening summer terms may be used to maintain continuous enrollment status.

If continuous enrollment is not maintained, the student must meet the requirements for graduation of the catalog in effect at the time they re-enroll or any subsequent catalog of continuous enrollment. Students enrolling or re-enrolled during a summer term must follow the following annual catalog or any subsequent catalog of continuous enrollment.

Time Limit for Coursework

In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant. Coursework that is more than eight years old is applicable to completion of certificate and degree requirements at the discretion of the student's major department. Departments may accept such coursework, reject it, or request that the student revalidate its substance. The eight-year limit on coursework applies except when program accreditation agencies limit the life of coursework to less than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs, when completing earlier requirements is no longer possible or educationally sound. **There is no time limit for General Education Courses.**

General Education Information

The Value of General Education

General Education helps students to gain an understanding and appreciation of themselves; their history and culture; the history and culture of humanity; the principles and impact of mathematics, science and technology; and the principles of effective communication.

The process of general education is designed to develop the following thinking skills: comparing, interpreting, summarizing, suggesting and testing hypotheses, imagining and creating, criticizing and evaluating, designing projects and investigations, gathering and organizing data, reasoning, problem solving, and decision making.

General Education Requirements by Certificate or Degree

The following list shows the minimum General Education credits needed for each type of degree program or certificate offered at Pima Community College. When considering which type of program is best for you, please note that if you intend to transfer to a university to complete a Bachelor of Arts (BA) or Bachelor of Science (BS), the Associate of Arts (AA), Associate of Business Administration (ABUS), and the Associate of Science (AS) are the degrees designed for that purpose. The Associate of General Studies, Associate of Applied Arts (AAA), and the Associate of Applied Science (AAS) degrees require different General Education courses.

Transfer Degrees

General Education Credits Needed

Associate of Arts (AA)	.35
Associate of Business Administration (ABUS)	.35
Associate of Science (AS)	.35

Not Intended for Transfer

General Education Credits Needed

Occupational Certificates:

Occupational Certificates of 30 or more credits	.6
Occupational Certificates below 30 credits	.0

Occupational Degrees:

Associate of Applied Arts (AAA)	.19-21
Associate of Applied Science (AAS)	.19-21

Associate of General Studies: .19-21

Reading Requirement – Prerequisite for General Education

In order to enroll in General Education courses, the student must meet one of the following reading requirements.

- Test higher than REA 091 on PCC assessment
- Complete REA 091 with a "C" grade or higher
- Be concurrently enrolled in REA 091

Students whose assessment score places them in REA 081 can concurrently enroll in REA 081 and **one** general education course.

General Education Requirements for Occupational Programs and the Associate of General Studies

This section covers the General Education requirements for the following certificates and degrees:

- Certificate for Direct Employment
- Associate of Applied Arts Degree (AAA)
- Associate of Applied Science Degree (AAS)
- Associate of General Studies Degree (AGS)

A general education course that is listed in more than one general education category may be applied to only **one** general education category. Some certificate and degree programs may require specific general education courses. These courses are listed in the degree display as shown in the "Educational Programs" section of this catalog.

General Education Requirements for Certificates for Direct Employment

(30 Credit Hours or more)

Courses may not be used to complete more than one category. Some programs require specific courses for general education. See program displays.

Requirements	Credit Hours
Communication Requirement3
Analysis and Critical Thinking Requirement3
The mathematics competency requirement must be met.	
Total General Education Credit Hours6

Communication Requirement (3 credits)

Choose 3 credit hours from the following list:

- OAP 151
- JRN 101
- SPE 102
- SPE 120
- WRT 101 (or WRT 107)*
- WRT 154

Analysis and Critical Thinking Requirement (3 credits)

Complete 3 credit hours from the categories listed below:

(Note: The mathematics competency requirement must be met.)

Mathematics Competency Requirement (0-3 credits)

The mathematics competency requirement can be met by:

1. Assessment – A score of 32 or above on the COMPASS Algebra test or ASSET Elementary Algebra test. See an advisor or counselor for verification of your assessment score.
- OR
2. Course work – If the competency is **not** met by assessment, a minimum of 1 credit hour of course work from the Mathematics Category at the 100 level or higher is required.

Note: Students who meet the Mathematics Competency Requirement by assessment or by completing Mathematics Category course work with fewer than 6 credits are still required to complete a total of 6 credits from the Analysis and Critical Thinking Requirement.

Mathematics Category

BUS 151 (if taken after Spring 2008)

GTM 105

TEC 113

Any mathematics (MAT) course at the 100 level or higher

*Suggested for students who may transfer

Science Category

MAC 275

PHY 101

Any course from the AGEC Biological/Physical Science List*

Critical Thinking Category

PHI 120

REA 112

STU 103 or STU 200

TEC 101

General Education Requirements for AAA, AAS and AGS Degrees:

Courses may not be used to complete more than one category. Some programs require specific courses for general education. See program displays.

Requirements	Credit Hours
Communication Requirement6
Analysis and Critical Thinking Requirement6
The Mathematics Competency Requirement must be met.	
Humanities; Social Science; Leadership and Ethics Requirement6
Computer and Information Literacy Requirement1-3
Total General Education Credits Required	19-21

Special Requirement

One of the courses must meet either Cultural Diversity or Global Awareness criteria (C or G designation from the Arizona General Education Curriculum (AGEC) lists or a course from the Leadership and Ethics Category). The AGEC lists are found in the General Education Requirements for Transfer Programs following this section.

General Education Course Lists for AAA, AAS and AGS Degrees

Communication Requirement (6 credits)

Choose one of the following pairs:

- OAP 151 and OAP 251
- JRN 101 and SPE 120
- SPE 102 and WRT 154
- SPE 120 and WRT 154
- WRT 101 (or 107) and SPE 120
- WRT 101 (or 107) and WRT 102 (or 108)*

Analysis and Critical Thinking Requirement (6 credits)

Complete 6 credit hours from the categories listed below.

(Note: The Mathematics Competency Requirement must be met).

At least one course must be completed from the Science or Critical Thinking Categories.

Mathematics Competency Requirement (0-3 credits)

The mathematics competency requirement can be met by:

1. Assessment-- A score of 32 or above on the COMPASS Algebra test or ASSET Elementary Algebra test. See an advisor or counselor for verification of your assessment score.
- OR
2. Course work -- If the competency is **not** met by assessment, a minimum of 1 credit hour of course work from the Mathematics Category at the 100 level or higher is required.

Note: Students who meet the Mathematics Competency Requirement by assessment or by completing Mathematics Category course work with fewer than 3 credits are still required to complete a total of 6 credits from the Analysis and Critical Thinking Requirement.

Mathematics Category

Any mathematics (MAT) course at the 100 level or higher
GTM 105
TEC 113

Science Category

Any course from the AGEC Biological/Physical Science List*
MAC 275
PHY 101

Critical Thinking Category

PHI 120
REA 112
STU 103* or 200
TEC 101

Humanities; Social Science; Leadership and Ethics Requirement (6 credits)

Courses must be completed from at least two of the following categories. *Students transferring to a university should choose courses from the AGEC lists.*

Courses may not be used to complete more than one of the categories listed below.

Humanities and Fine Arts Category

Any course from the AGEC Art list
Any course from the AGEC Humanities list or LIT 174
Any course from the AGEC Other Requirements Options:
(c) Second Language list
One of the following conversational language courses:
FRE 106, 107; SPA 106, 107, 121, 122, 206; THO 106, 107.

Social and Behavioral Science Category

Any course from the AGEC Social and Behavioral Sciences list
Any course from the AGEC Other Requirement Options: (d)
International and Multicultural Studies list

Leadership and Ethics Category

Any course in this category meets the Cultural Diversity or Global Awareness requirement: BIO 250; BUS 148; STU 230

Computer and Information Literacy Requirement (1-3 credits)

Completion of certain degree programs automatically fulfills this requirement. See your program display. Otherwise choose a course from the list below:

AJS 165* ; CAD 101; CIS 100; CSA 100, 101; FSC 189

* No longer offered but will fulfill requirement.

General Education Requirements for Transfer Programs

This section covers the General Education requirements for the following degrees:

- Associate of Arts Degree (AA)
- Associate of Business Administration Degree (ABUS)
- Associate of Science Degree (AS)

Arizona General Education Curriculum (AGEC)

The AGEC is a block of 35 or more credits that, when completed, can be transferred to another Arizona public community college or university to meet all lower-division General Education requirements for bachelor's degrees at Arizona's public universities (Arizona State University, Northern Arizona University, and the University of Arizona). The AGEC may also meet other universities' General Education program requirements. See an advisor or counselor for more information.

There are three forms of the AGEC: the AGEC-A for Associate of Arts degrees, the AGEC-B for the Associate of Business Administration degrees, and the AGEC-S for the Associate of Science degrees.

AGEC-A:

The AGEC-A may be applied to liberal arts university degree programs. See the Liberal Arts Associate of Arts Degree for Transfer in this catalog for more information on choice of major and see an advisor or counselor to establish a degree plan using a university transfer guide.

AGEC-B:

The AGEC-B may be applied to universities' business administration and public administration degree programs. See the Associate Degree in Business Administration (ABUS) for more information on this major and see an advisor or counselor to establish a degree plan and to be sure of the AGEC pathway. Also, an AGEC-B fulfills the requirements for an AGEC-A.

AGEC-S:

The AGEC-S may be applied to universities' science degree programs. See the Associate of Science Degree for Transfer in this catalog and see an advisor to establish a degree plan and to be sure of the AGEC pathway. Also, an AGEC-S fulfills the requirements for an AGEC-A or AGEC-B.

If the AGEC is not completed before a student transfers to another community college or university:

- The student cannot complete an AA, ABUS, or AS degree.
- The student may be required to take additional general education courses at the college or university.
- The credits will be evaluated individually by the college or university using the *Course Equivalency Guide* and accepted depending on the degree requirements

AGEC Categorical Requirements

AGEC-A, AGEC-B, and AGEC-S have the same categories and total number of credits, but differ in the number of credits required for each category, and the Mathematics, Biological & Physical Sciences, and/or Other Requirements courses required. The same course may not be used to complete more than one category.

Students who complete an AGEC-A and then change their major and wish to apply the AGEC-A toward a degree program requiring the AGEC-B or AGEC-S, must complete the mathematics or science courses defined within that new degree program. However, the other general education categorical requirements of the degree are fulfilled by the AGEC-A.

AGEC-A Categorical Requirements	Min Credit Hours
English Composition	6
The combination of WRT 101 and 102 or WRT 107 and 108.	
Humanities and Fine Arts	6-9
At least one course from the Art list and one course from the Humanities/Historical Perspectives list.	
Biological & Physical Sciences	8
Any two courses and their labs from the Biological & Physical Sciences list.	
Mathematics	3
MAT 142, MAT 144, MAT 151, or any MAT course above 151.	
Social & Behavioral Sciences	6-9
Complete courses from at least two different prefixes in this category.	
Other Requirements	0-6
Total AGEC-A General Education Credits Required:	35

AGEC-B Categorical Requirements **Min Credit Hours**

See the Associate Degree in Business Administration (ABUS) for more information.

English Composition	6
The combination of WRT 101 and 102 or WRT 107 and 108.	
Humanities and Fine Arts	6
One course from the Art list and one course from the Humanities/Historical Perspectives list.	
Biological & Physical Sciences	8
Any two courses and their labs from the Biological & Physical Sciences list.	
Mathematics	3
MAT 174 or MAT 212.	
Social & Behavioral Sciences	6
Choose concentration 1 or 2:	
1. Business Administration Concentration: ECN 201 or 202 and one additional non-ECN course from the Social & Behavioral Sciences list.	
2. Public Administration Concentration: POS 202 and either ECN 201 or 202.	
Other Requirements	6
CIS 100 and either MAT 172 or MAT 173.	
Total AGECE-B General Education Credits Required:	35

AGEC-S Categorical Requirements **Min Credit Hours**

English Composition	6
The combination of WRT 101 and 102 or WRT 107 and 108.	
Humanities and Fine Arts	6
One course from the Art list and one course from the Humanities/Historical Perspectives list.	
Biological & Physical Sciences	8
The combination of CHM 151&152 and their labs or PHY 210&216 and their labs.	
Mathematics	3
MAT 220 or above.	
Social & Behavioral Sciences	6
Complete courses from two different prefixes in this category.	
Other Requirements	6
MAT courses above 220 and/or Science courses from the Biological and Physical Sciences list.	
Total AGECE-S General Education Credits Required:	35

AGEC Special Requirements

Students are required to take courses that meet each of the following:

- Intensive writing and critical inquiry (I)
- Cultural diversity highlighting ethnic, race, and/or gender awareness (C)
- Global diversity (G)

AGEC special requirements can be completed in one, two or three courses. Look for the AGECE special requirement code (I, C, and G) in the course lists below. To avoid exceeding the 35 credits required for the AGECE; the student should choose some courses that satisfy both the AGECE special requirements and the category requirements. For example, ANT 112 fulfills a category requirement of Humanities and Fine Arts and three AGECE special requirements: Intensive Writing and Critical Inquiry (I), Cultural Diversity (C), and Global Awareness (G). See an advisor or counselor for help in selecting courses.

AGEC Special Requirement Legend

- I** Satisfies Intensive Writing Special Requirement
C Satisfies Cultural Diversity Special Requirement
G Satisfies Global Awareness Special Requirement

AGEC Categorical Requirement:**English Composition (6 credits)**

Complete two courses, either the combination of WRT 101 and 102 or WRT 107 and 108.

Course Number	Course Title	Credit Hours	AGEC Special Requirement
WRT 101	Writing I	3	
WRT 102	Writing II	3	
WRT 107	Writing I for Non-Native Speakers of English	3	
WRT 108	Writing II for Non-Native Speakers of English	3	
ZTR WR	AGECE Writing Equivalent	3	
ZTR WRI	AGECE Writing Equivalent	3	I
ZTR WRC	AGECE Writing Equivalent	3	C
ZTR WRG	AGECE Writing Equivalent	3	G
ZTR WRIC	AGECE Writing Equivalent	3	I,C
ZTR WRIG	AGECE Writing Equivalent	3	I,G
ZTR WRCG	AGECE Writing Equivalent	3	C,G
ZTR WRICG	AGECE Writing Equivalent	3	I,C,G

AGEC Categorical Requirement:**Humanities and Fine Arts (6-9 credits)**

Complete at least one course from the Art list and at least one course from the Humanities list. Refer to the degree program to see if six or nine credits are needed from this category.

Art List:

Course Number	Course Title	Credit Hours	AGEC Special Requirement
ART 100	Basic Design	3	
ART 105	Exploring Art and Visual Studies	3	G
ART 106	History of Painting, Materials and Techniques (was ART 201)	3	
ART 110	Drawing I	3	
ART 115	Color and Composition	3	
ART 120	Sculptural Design	3	
ART 201*	Survey of Painting, Materials, and Techniques (now ART 106)	3

ZTR BPICG	AGEC Science Equivalent	3	I,C,G

† ANT/ ENV 104 and 105 must both be taken in order to transfer.

* No longer offered, but will fulfill requirement.

AGEC Categorical Requirement:**Mathematics (3 credits)**

Complete three credits. The AGECA requires MAT 142 or above. The AGECS requires MAT 212 or above. The AGECS requires MAT 220 or above. See the degree display for the selection of the appropriate course.

Course Number	Course Title	Credit Hours	AGEC Special Requirement
BUS 205	Statistical Methods in Economics and Business	3	
MAT 142	Topics in College Mathematics	3	
MAT 144*	College Algebra with Data Analysis	4	
MAT 151	College Algebra	4	
MAT 167	Introductory Statistics	3	

MAT 172	Finite Mathematics	3	
MAT 173*	Mathematics for Business I	3	
MAT 174*	Mathematics for Business II	3	
MAT 182	Trigonometry	3	
MAT 187	Precalculus	5	
MAT 212	Topics in Calculus	3	
MAT 220	Calculus I	5	
MAT 227	Discrete Mathematics in Computer Science	4	
MAT 231	Calculus II	4	
MAT 241	Calculus III	4	
MAT 252	Introduction to Linear Algebra	3	
MAT 262	Differential Equations	3	
ZTR MA	AGEC Math Equivalent	3	
ZTR MAI	AGEC Math Equivalent	3	I
ZTR MAC	AGEC Math Equivalent	3	C
ZTR MAG	AGEC Math Equivalent	3	G
ZTR MAIC	AGEC Math Equivalent	3	I,C
ZTR MAIG	AGEC Math Equivalent	3	I,G
ZTR MACG	AGEC Math Equivalent	3	C,G
ZTR MAICG	AGEC Math Equivalent	3	I,C,G

* Course has a business emphasis

AGEC Categorical Requirement:

Social and Behavioral Sciences (6-9 credits)

Complete courses in at least two subject areas (at least two course prefixes). Refer to the degree plan to see if six or nine credits are needed from this category.

Course Number	Course Title	Credit Hours	AGEC Special Requirement
AIS 101	Intro. to American Indian Studies I	3	
AJS 225	Criminology	3

ZTR SBICG	AGEC Social and Behavioral Sciences Equivalent	3	I,C,G

* No longer offered, but will fulfill requirement.

*** UAI 101, 102, 103, and 104 are PCC course equivalencies of UA INDV 101, 102, 103, and 104. Note: INDV courses (up to two courses for six credits) may fulfill Social and Behavioral Sciences requirements. It is assumed the two INDV courses are of two different prefixes. INDV courses do not fulfill I, C, or G requirements.

AGEC Categorical Requirement:**Other Requirement Options (0-6 credits)**

Refer to the degree display to see how many credits are needed from this category.

a) Oral Communication

Course Number	Course Title	Credit Hours	AGEC Special Requirement
SPE 102	Intro to Speech Communication	3	C
SPE 110	Public Speaking	3	C
SPE 120	Business/Professional Comm.	3	C,G
SPE 130	Small Group Discussion	3	
SPE 136	Oral Interpretation of Literature	3	
ZTR SP	AGEC Speech Equivalent	3	
ZTR SPI	AGEC Speech Equivalent	3	I
ZTR SPC	AGEC Speech Equivalent	3	C
ZTR SPG	AGEC Speech Equivalent	3	G
ZTR SPIC	AGEC Speech Equivalent	3	I,C
ZTR SPIG	AGEC Speech Equivalent	3	I,G
ZTR SPCG	AGEC Speech Equivalent	3	C,G
ZTR SPICG	AGEC Speech Equivalent	3	I,C,G

b) Computer Science, Critical Thinking, Logic, Mathematics or Science:

Course Number	Course Title	Credit Hours	AGEC Special Requirement
ANT 102	Introduction to Cultural Anthropology and Linguistics	3	G
BUS 148	Ethics in the Workplace	3	
CIS 100	Introduction to Computers	3	
CIS 140*	FORTTRAN Programming	3	
CIS 160*	Cobol Programming	3	
FSN 154	Nutrition	3	
GLG 110	Geological Disasters and Environmental Geology	3	
MAT	Any Mathematics course numbered 142,144 or 151 and above		
PHI 120	Introduction to Logic	3	
PHI 123	Philosophical Foundations of Science		3
PHY 230	Introduction to Modern Physics	3	
POS 100	Introduction to Politics	3	
Science	Any Science course listed under Biological and Physical Sciences		
SSE 154	Nutrition	3	
ZTR CS	AGEC Computer Science Equivalent	3	
ZTR CSI	AGEC Computer Science Equivalent	3	I
ZTR CSC	AGEC Computer Science Equivalent	3	C
ZTR CSG	AGEC Computer Science Equivalent	3	G
ZTR CSIC	AGEC Computer Science Equivalent	3	I,C
ZTR CSIG	AGEC Computer Science Equivalent	3	I,G
ZTR CSCG	AGEC Computer Science Equivalent	3	C,G

ZTR LO	AGEC Logic Equivalent	3	
ZTR LOI	AGEC Logic Equivalent	3	I
ZTR LOC	AGEC Logic Equivalent	3	C
ZTR LOG	AGEC Logic Equivalent	3	G
ZTR LOIC	AGEC Logic Equivalent	3	I,C
ZTR LOIG	AGEC Logic Equivalent	3	I,G
ZTR LOCG	AGEC Logic Equivalent	3	C,G
ZTR LOICG	AGEC Logic Equivalent	3	I,C,G

* No longer offered, but will fulfill requirement.

c) Second Language:

Course Number	Course Title	Credit Hours	AGEC Special Requirement
APC 101	Apache Language I	4	
APC 102	Apache Language II	4	
ARB 101	Elementary Modern Standard Arabic I	5	
ARB 102	Elementary Modern Standard Arabic II	5	
CHI 101	Elementary Chinese (Mandarin) I	5	
CHI 102	Elementary Chinese (Mandarin) II	5	
CHI 201	Intermediate Chinese (Mandarin) I	5	G
CHI 202	Intermediate Chinese (Mandarin) II	5	G
FRE 101	Elementary French I	4	
FRE 102	Elementary French II	4	
FRE 201	Intermediate French I	4	G
FRE 202	Intermediate French II	4	G
GER 101	Elementary German I	4	
GER 102	Elementary German II	4	
GER 201	Intermediate German I	4	G
GER 202	Intermediate German II	4	G
GRK 101	Elementary Modern Greek I	4	
GRK 102	Elementary Modern Greek II	4	
GRK 201	Intermediate Modern Greek I	4	G
GRK 202	Intermediate Modern Greek II	4	G
HEB 101	Elementary Modern Hebrew I	4	
HEB 102	Elementary Modern Hebrew II	4	
HEB 201	Intermediate Modern Hebrew I	4	G
HEB 202	Intermediate Modern Hebrew II	4	G
ITA 101	Elementary Italian I	4	
ITA 102	Elementary Italian II	4	
ITA 201	Intermediate Italian I	4	G
ITA 202	Intermediate Italian II	4	G
JPN 101	Elementary Japanese	5	
JPN 102	Elementary Japanese II	5	
JPN 201	Intermediate Japanese I	5	G
JPN 202	Intermediate Japanese II	5	G
LAT 101	Elementary Latin I	4	
LAT 102	Elementary Latin II	4	
LAT 201	Intermediate Latin I	4	
LAT 202	Intermediate Latin II	4	
POR 101	Elementary Portuguese I	4	
POR 102	Elementary Portuguese II	4	
POR 201	Intermediate Portuguese I	4	G
POR 202	Intermediate Portuguese II	4	G
RUS 101	Elementary Russian I	4	
RUS 102	Elementary Russian II	4	
RUS 201	Intermediate Russian I	4	G
RUS 202	Intermediate Russian II	4	G
SLG 101	American Sign Language I	4	
SLG 102	American Sign Language II	4	
SLG 201	American Sign Language III	4	
SLG 202	American Sign Language IV	4	
SPA 101	Elementary Spanish I	4	
SPA 102	Elementary Spanish II	4	
SPA 103	Beginning Spanish for Spanish Speakers	4	G
SPA 104*	Spanish for Spanish Speakers II	4	G
SPA 201	Intermediate Spanish I	4	G

SPA 202	Intermediate Spanish II	4	G
SPA 203	Writing and Oral Skills for Spanish Speakers	4	G
SPA 253	Intermediate Spanish for Spanish Speakers	4	G
SPA 254	Intermediate Grammar and Writing for Spanish Speakers	4	G
THO 101	Elementary Tohono O'odham I	4	G
THO 102	Elementary Tohono O'odham II	4	G
YAQ 101	Elementary Yaqui I	4	G
YAQ 102	Elementary Yaqui II	4	G

* No longer offered, but will fulfill requirement.

Educational Programs, Degrees and Certificates

Degrees and Certificates

The current educational programs are listed below with the name of the degree or certificate, the award type, and the program code. The program code is the identifier students use to declare their program of study. If a student is uncertain about which code to use or for information on programs without program codes, please see an advisor or counselor.

There is an additional column entitled Lead Campus in the Occupational Program list. The lead campus is the only campus to offer all courses required for the certificate or degree. Other campuses may offer introductory course(s) for the certificate or degree. Check the *Schedule of Classes* for the courses offered on each campus or see an advisor or counselor.

Although the Transfer Programs do not have a lead campus, transfer program's core/major courses and some general education courses may not be offered on every campus. Check the *Schedule of Classes* or see an advisor or counselor.

The definitions of the abbreviations in the Award column are:

AA Associate of Arts

An Associate of Arts is a credit degree of 60-64 credits for transfer to a college or university into majors related to arts, humanities, social and behavioral science, and education. The AA includes an Arizona General Education Curriculum (AGEC)-A. See General Education Requirements for Transfer Program section for more information on AGECE.

ABUS Associate of Business Administration

An Associate of Business Administration is a credit degree of 60-64 credits for transfer to a college or university into a business or business-related major. The ABUS includes an Arizona General Education Curriculum (AGEC)-B. See the General Education Requirements for Transfer Programs section for more information on AGECE.

AS Associate of Science

An Associate of Science is a credit degree of 60-64 credits for transfer to a college or university into a science or science-related major. The AS includes an Arizona General Education Curriculum (AGEC)-S. See the General Education Requirements for Transfer Programs section for more information on AGECE.

AAA Associate of Applied Arts

An Associate of Applied Arts is a credit degree of 60-72 credits for direct employment into jobs requiring some art-related skills and competencies.

AAS Associate of Applied Science

An Associate of Applied Science is a credit degree of 60-72 credits for direct employment into jobs requiring skills and competencies in the technologies, business, government and public service, and health-related professions.

AFA Associate of Fine Arts

An Associate of Fine Arts is a credit degree of 60-64 credits for transfer to a college or university into majors related to fine arts. The AFA includes an Arizona General Education Curriculum AGECE-A. See General Education Requirements for Transfer Program section for more information on AGECE.

AGS Associate of General Studies

An Associate of General Studies is a credit degree of 60-72 credits designed by the student. If planning to seek employment or to transfer, the student should develop a plan of study with an advisor or counselor.

CERT Certificate

A Certificate is a credit certificate in a specific field of study of less than 60 credits for direct employment into a job or for transfer to a college or university.

CERA Post-Degree Certificate

A Post-Degree Certificate is a credit certificate in a specific field of study of less than 60 credits for direct employment into a job. An Associate's Degree or a Bachelor's Degree (depending on the program) is required before beginning a Post-Degree Certificate. See program display for specific requirements.

CTD Certificate of Completion

A Certificate of Completion is a non-credit certificate in a specific field of study for direct employment into a job. The program is a clock-hour program rather than a credit program, only offered at the Center for Training and Development located at the Desert Vista Campus.

Credit Degrees and Certificates

There are three lists of credit certificates and degrees:

- General Studies Programs (AGS)
- Occupational Programs (CERT, CERA, AAA, and AAS)
- Transfer Programs (CERT, AA, ABUS, and AS)

Campus legend:

- CC = Community Campus
- DVC = Desert Vista Campus
- DC = Downtown Campus
- EC = East Campus
- NW = Northwest Campus
- WC = West Campus

Accounting

Learn the skills and knowledge needed for bookkeeping and accounting careers. Students interested in becoming a certified public accountant should refer to the Business Administration transfer program.

Accounting — Certificate for Direct Employment

Understand business practices and learn specific accounting skills. Complete this program by taking classes exclusively on weekdays, exclusively on evenings/weekends, or in a combination of day, evening and weekend classes.

What can I do with this certificate?

Career Options: Entry-level bookkeeping and accounting positions

Academic Options: Continue your studies by taking classes toward an Accounting Associate of Applied Science degree, the Fraud Examination certificate, or explore business transfer options.

Locations: Downtown Campus

Department/Contact Information:

GLG 102IN Introduction to Geology II: Historical Geology (F-Sp)

or BIO 109IN Natural History of the Southwest (F-Sp) **

Archaeology Electives in consultation with an Anthropology faculty advisor

or Language courses numbered 201 and 202, third and fourth semester level 6-8

NOTE: ASU, NAU and UA require fourth semester level language proficiency for a B.A. in Anthropology

Subtotal 10-12

Total credits as displayed 62-65§

† Core or support course(s) fulfill this requirement.

¥ AGECE requires 35 credits. This subtotal shows the AGECE credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

** For the Archaeology Concentration, GLG 102 IN and either GLG 102IN or BIO 109IN meet the Biological and Physical Sciences AGECE requirement.

§ This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Archaeology

Field Archaeology Certificate for Direct Employment

Dig into the past by studying archaeological fieldwork. Courses are designed for those seeking professional skills, those working toward an Anthropology degree with an archaeology emphasis, as well as for those with a general interest in archaeology. This program emphasizes the preservation and conservation of resources and applied skills in archaeology, particularly related to the pre-history of southern Arizona. Complete this program in a combination of day, evening and weekend classes.

What can I do with this certificate?

Career Options: Seek employment in entry-level archaeology positions.

Academic Options:

Students planning to transfer to a four-year archeology degree program should pursue an Anthropology AA degree simultaneously with this certificate.

Locations: West Campus

Department/Contact Information:

Division Dean: 206-6996

Lead Faculty: 206-6022 or 206-6905

Program Identification Code: **CRTFLDARCHEO**

Course Number	Course Title	Credit Hours

Arizona General Education Curriculum

Arizona General Education Curriculum (AGEC) — Certificate for Transfer

Complete lower-division general education requirements for transfer to UA, NAU, ASU or the University of Phoenix. Complete this program exclusively on weekdays, exclusively on evenings/weekends, or in a combination of daytime, evening and weekend classes.

It is strongly recommended that students complete the Associate of Arts, Associate of Business Administration, or Associate of Science degrees in addition to the AGEC before transferring. The AGEC without a degree is not eligible for financial aid.

What can I do with this certificate?

Academic Options: Continue your studies by taking additional transfer coursework to complete an Associate or Arts, Associate of Business, or Associate of Science degree, then transfer to a college or university.

Locations: All campuses

Department/Contact Information:

Division Dean: 206-6809 (Desert Vista);
206-7046 (Downtown);
206-7661 (East);
206-2294 (Northwest);
206-6996 (West);
206-6476 (Community)

Required Courses

35 credits are required for this certificate.

Arizona General Education Curriculum (AGEC) Requirements - A grade of C or better is required in all courses for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 57.

English Composition	6
Humanities and Fine Arts	6-9
Biological and Physical Sciences	8
Mathematics	3
Social and Behavioral Sciences	6-9
Other Requirement Options	0-6
Special Requirements	
The I, C, and G requirements should be fulfilled by completing appropriate courses in the above categories.	
Total credits	35

Arts

Gain knowledge and experience working in a variety of media.

Associate Degrees:

- Applied Arts
- Associate of Arts: Visual Arts Concentration
- Associate of Arts: Dance Concentration
- Associate of Arts: Music Concentration
- Associate of Arts: Theater Concentration

Applied Arts

Applied Arts — Associate of Applied Arts Degree for Direct Employment

Gain experience working in a variety of art media or focus on a single area of interest. Learn art history or principles of effective art education. Students interested in digital and film arts should pursue a degree or certificate in that subject area. Complete this program exclusively on weekdays, or in a combination of day, evening and weekend classes.

Students interested in transferring to a university should complete an Associate of Fine Arts degree, concentrating in visual arts, dance, music or theater.

What can I do with this degree?

Career Options: Work as an artist, artist assistant or entry-level art instructor.

Academic Options: Transfer to a Bachelor's of Applied Science degree program at Arizona State University.

Locations: West Campus

Department/Contact Information:

Division Dean: 206-6690

Lead Faculty: 206-6883

Program Identification Code: AAAAPPLDARTS

General Education Requirements - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 56.

Communication Requirement	6
Analysis and Critical Thinking Requirement	6
Humanities and Social Science Requirement	†
ART 130 and 131 fulfill this requirement.

Associate of Arts

Associate of Arts in Liberal Arts Degree for Transfer

Prepare to transfer by completing your general education requirements for a wide variety of university majors. Engage in creative pursuits such as writing, art, history or languages. Students interested in law school should complete this degree before transferring to a university. Complete this program by taking classes exclusively on weekdays, exclusively on evenings/weekends, or in a combination of day, evening and weekend classes. This program may also be completed online.

Concentrations are available for Psychology, and emphases in Creative Writing and Speech Communication. Specialized AA degrees are available in: Administration of Justice, American Indian Studies, Anthropology, Elementary Education, Hotel and Restaurant Management, Interior Design, Political Science, Social Services, Sociology, and Translation and Interpretation Studies.

Students, especially those transferring to the University of Arizona, are encouraged to enroll in STU 210, Transfer Strategies, to plan for the transfer process and success at the university.

Students who wish to transfer to an Arizona university and pursue a major in any of the following areas, should complete the Pima Associate of Arts in Liberal Arts degree for transfer (refer to university transfer guides for core or elective courses and language requirements).

- Asian Studies
- Biology (for ASU and NAU; for the UA complete the Associate of Science)
- Communication
- Creative Writing
- Education: Secondary or Special Education/Rehabilitation
- English
- Environmental Science
- Exercise Science
- History
- Journalism
- Languages
- Mathematics
- Pre-Agriculture
- Pre-Law
- Psychology
- Women's Studies

What can I do with this degree?

Academic Options: Transfer to a university and major in subjects other than science, business or technology. Additional information on transferring to a university is available online (<http://www.pima.edu/transfer/transferringfrompima.shtml>) or from any advisor or counselor.

Locations: All campuses

ALA

Arizona General Education Curriculum Requirements (AGEC-A) - A grade of C or better is required in all courses for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 57.

English Composition	6
Humanities and Fine Arts	6-9
Biological and Physical Sciences	8
Mathematics	3
Social and Behavioral Sciences	6-9
Other Requirement Options	0-6
AGEC Special Requirements	
The I, C, and G requirements should be fulfilled by completing appropriate courses in the above categories.	

Subtotal 35

Required Core - A grade of C or better is required for graduation.

Select 25-29 transferable credits from transfer guides, second language courses, or any transferable courses.	25-29
Second Language Requirement	(0-16)
The second language requirement is dependent upon your major. It is not a requirement for this degree. Most university bachelor of arts degrees require a language courses numbered 202, fourth-semester level. (Bilingual or international students should consult an advisor or counselor concerning exceptions to this requirement.)	

Subtotal 25-29

Total credits as displayed 60-64§

§ This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Associate of Science

Associate of Science Degree for Transfer

Complete lower-division general education requirements for transferring to a university to pursue a major in the life sciences, physical sciences, or computer science. Students interested in preparing for professional degrees in dentistry, medicine or veterinary science should complete this degree. Complete this program by taking classes exclusively on weekdays, exclusively on evenings/ weekends, or in any combination.

Specialized degrees are available in: Engineering (AGS) and Manufacturing Technology (AS). Pre-Pharmacy students should complete the Associate of Arts degree.

Students who wish to transfer to an Arizona university and pursue a major in any of the following areas, should complete the Pima Associate of Science degree for transfer (refer to university transfer guides for core or elective courses and language requirements).

- Astronomy
- Biochemistry
- Biology (for UA; for ASU and NAU you can complete the Associate of Arts)
- Chemistry
- Computer Science
- Geography
- Microbiology
- Molecular/Cellular Biology
- Physics
- Pre-Dentistry
- Pre-Medicine
- Pre-Veterinary Science
- Zoology

What can I do with this degree?

Academic Options: Transfer to a university in a life or physical sciences program, or computer science program.

Locations: All campuses

Department/Contact Information:

Division Deans: 206-6809 (Desert Vista)

¥ AGEC requires 35 credits. This subtotal shows the AGE C credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

§ This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Astronomy

Learn more about our vast universe and its fascinating contents —planets, stars, comets, galaxies, black holes and more—by taking astronomy courses. Classes include lecture, activities labs, and outside observation projects.

Astronomy courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree as ASU, NAU or UA should meet with an astronomy faculty member or advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in astronomy?

Career options: after completing a bachelor's degree, seek employment as a science teacher, museum/planetarium staff member, or science writer.

Academic options: continue studies toward a bachelor of science in astronomy, planetary sciences, or education.

Locations: All campuses

Automotive Technology

Begin a career as an auto mechanic, or expand your skills and attain higher-level positions. Classes are hands-on and self-paced. The program is accredited by the National Automotive Technician Education Foundation (NATEF)/Automotive Service Excellence (ASE).

Automotive Mechanics — Certificate for Direct Employment

From engine diagnosis and repair to electrical fundamentals, steering and alignment, and brakes, cover the basics of auto mechanics. Complete this program exclusively on weekdays, exclusively on evenings/weekends, or in a combination of day, evening and weekend classes.

What can I do with this certificate?

Career Options: Entry-level auto mechanic or technician.

Academic Options: Continue your studies by taking additional courses toward the Automotive Technology AAS degree.

Locations: Downtown Campus

Department/Contact Information:

Division Dean: 206-7134

Auto Lab: 206-7190

Aviation Technology

Gain skills and knowledge of Airframe and Powerplant, Structural Repair, or Avionics Technology.

Aviation Technology — Associate of Applied Science for Direct Employment

Gain skills and knowledge of Airframe and Powerplant, Structural Repair, or Avionics. Complete this program exclusively on weekdays, or in a combination of day, evening and weekend classes.

What can I do with this degree?

Career Options: Work in the aircraft industry as a mechanic.

Academic Options:

The Airframe and Powerplant courses are taught per Federal Aviation Regulations Part 147 for FAA Aviation Maintenance Technician training to allow a student to be qualified for Airframe and Powerplant certification. Aviation Structural Repair has been offered as specialty training and does not fall under FAA Part 147 guidelines. Instead it is an industry directed curriculum preparing students to perform heavy structural repairs that exceed the requirements of Part 147 Airframe and Powerplant training.

Locations: Desert Vista Campus

Biology

Study the science of living systems by taking biology courses that focus on microbiology, plant science, human anatomy and physiology, marine biology, biotechnology and more. Students learn through lecture and hands-on lab experiences.

Biology courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU, or UA should meet with biology faculty to plan their course of study using the appropriate transfer guide.

What can I do with my studies in biology?

Career options: work as a technician in laboratories, manufacturing firms, or government.

Academic options: continue studies toward a bachelor of science in biology, microbiology, agriculture, plant or animal science and more.

Locations: All campuses

International Business Studies

International Business Management — Certificate for Transfer

Learn international business and management skills while working with students from other countries. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day and evening classes.

Before enrolling in this program you must meet special requirements:

Non-English speakers must earn a score of 450 points of TOEFL in order to be admitted to the program and 500 points in order to graduate. A TOEFL score of 450 satisfies the prerequisite for OAP 151.

What can I do with this certificate?

Career Options: Entry-level business assignments working with a diverse workforce, either domestically or abroad.

Academic Options: This certificate has bi-national recognition and is conferred by Pima Community College and the Instituto Tecnológico de Sonora (ITSON) of Mexico. ITSON students completing the certificate may transfer to ITSON and complete the Licenciatura en Administración degree (Bachelor of Science in Management). Pima students enrolled in this certificate should consider taking Spanish-immersion programs offered through ITSON.

Locations: Varies by semester

Chemistry

Study the composition, properties and interactions of substances by taking chemistry courses that focus on general, consumer, forensic or organic chemistry. Students learn through lecture and hands-on lab experiences.

Chemistry courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with chemistry faculty to plan their course of study using the appropriate transfer guide.

What can I do with my studies in chemistry?

Career options: work as a technician in laboratories, chemical manufacturing, government, and technical service firms

Academic options: continue studies towards a bachelor of science in chemistry, chemical engineering, engineering, education, pharmacy or other health-care fields

Clinical Research Trial Coordinator

Clinical Research Trial Coordinator — Certificate for Direct Employment

Prepare yourself to become a certified clinical trial coordinator. Develop knowledge and skills to coordinate and manage clinical research trials involving human subjects. Course work addresses site and coordination management, regulatory compliance, trial protocol, research ethics, research trial pharmacology, and documentation and sensitivity to participant diversity. This program is designed for post-baccalaureate students and professionals working in related fields, but is open to students with no previous higher education wanting to enter the career with a basic certificate. Complete this program exclusively on evenings and weekends.

Before enrolling in this program you must meet certain requirements:

Complete the following courses with a grade of "C" or better:

- BIO 160 (may be taken concurrently with CTC 101)
- CSA 100
- MAT 092 or 106
- WRT 101

What can I do with this certificate?

Career Options: Clinical Trial Coordinators find employment in hospitals and medical centers, universities, physicians' offices, private research groups, and biotech companies.

Academic Options: Continue your studies and earn an associate's degree.

Locations: Northwest Campus

Computer Information Systems

Prepare for a career as a programmer, network administrator, systems administrator or database administrator, or upgrade existing skills and improve job performance.

Computer Programmer Specialist — Certificate for Direct Employment

Take the fast track to becoming a computer programmer with this accelerated program, or enhance existing skills. Choose from concentrations in C programming, Visual Basic programming or web programming. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of daytime, evening and online classes.

Before enrolling in this program, you must fulfill certain requirements:

- For **C programming**, complete CIS 129, 131 and 250.
- For **Visual Basic programming**, complete CIS 129. Completion of CSA 101 is also recommended.
- For **web programming**, complete CIS 100 and 119.

What can I do with this certificate?

Career Options: Become a C or Visual Basic programmer, or a web site designer, developer or administrator.

Academic Options: Continue your studies by taking courses toward a Computer Programmer/Analyst or Associate of Science degree.

Locations: East Campus, West Campus

Department/Contact Information:

Division Dean: 206-6996 (West Campus);
206-7672 (East Campus)

Program Identification Code: **CRTCMPPRGSP**

Course Number	Course Title	Credit Hours
---------------	--------------	--------------

Required Core Courses -

A grade of C or better is required for graduation.

Choose one of the following concentrations:

Department chair or faculty advisor approval is recommended in the selection of the program concentration.

Programming in C

CIS 265*	The C Programming Language (F-Sp).....	4
CIS 269*	Data Structures (Sp).....	5
CIS 278*	C++ and Object-Oriented Programming (Sp).....	5
CIS 279*	Java Programming (F).....	5

Total credits as displayed 19

Programming in Visual Basic

CIS 141*	Introduction to VB.NET (F-Sp).....	4
CIS 162*	Database Design and Development (F-Sp).....	4
CIS 241*	Advanced Visual Basic.NET Programming (Sp)....	4
CIS Department Elective (for this concentration only).....		3-5

Complete any CIS course 129 or higher including prerequisite courses.

Total credits as displayed 15-17

Programming for the Web

BUS 125	eCommerce (F-Sp-S).....	3
CIS 121*	Web Publishing (F-Sp-S).....	3
CIS 265*	The C Programming Language (F-Sp).....	4
CIS 266*	CGI Programming with PERL (n/o).....	3
CIS 273*	Advanced Web Development (n/o).....	4
CIS 279*	Java Programming (Sp).....	5
DAR 112	Graphic Design I (F-Sp-S).....	4

Total credits as displayed 26

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

Computer Programmer/Analyst — Associate of Applied Science Degree for Direct Employment

Learn to design and develop software programs and applications. Courses focus on problem solving and structured programming concepts. Students interested in transferring to a 4-year university should read Transfer Options (see below) before beginning this degree. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of daytime, evening and online classes.

Before enrolling in this program, you must complete CIS 129.

What can I do with this degree?

Career Options: Become a programmer or programmer/analyst.

Academic Options: Transfer to NAU's computer science program.

Locations: East Campus,
West Campus

Department/Contact Information:

Division Dean: 206-7672 (East Campus);
206-6996 (West Campus)

Program Identification Code: **AASCMPPRGANL**

Transfer Options:

Students interested in pursuing a Bachelor's Degree in computer related fields have several options. If you are interested in transferring to:

- the UA Computer Science program, complete an Associate of Science degree. Refer to the UA Transfer Guide for Computer Science.
- the NAU-Tucson Computer Information Systems degree program, complete the PCC Computer Programmer/Analyst Associate of Applied Science degree. The NAU program can be completed entirely in Tucson.

- the UA Eller College of Business Administration Management Information Systems degree program, complete Pima's Associate of Business Administration Degree.
- the ASU College of Business Computer Information Systems degree program, complete Pima's Associate of Business Administration Degree.

General Education Requirements -

A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 56.

Communication Requirement †
WRT 101 and WRT 102 fulfill this requirement.

Analysis and Critical Thinking Requirement †
MAT 172 and a lab science course fulfill this requirement.

Humanities and Social Science Requirement 3
ECN 201 fulfills 3 credits of the Social Science category. Complete a course from the Humanities/Fine Arts or Leadership/Ethics category that meets the cultural diversity (C) or the global awareness (G) requirement.

Computer and Information Literacy Requirement †
Core courses fulfill this requirement.

Special Requirement
Fulfill the C or G requirement by completing an appropriate course in the above categories.

Creative Writing

Creative Writing — Emphasis for Transfer

A student planning on obtaining a degree with a major in Creative Writing and transferring to ASU, NAU or UA should take the following courses while completing the Associate of Arts degree. Students should meet with Writing/English faculty to plan their course of study using the appropriate transfer guide.

Use Program Identification Code for Liberal Arts:
AOALIBRALART

Complete the following Creative Writing courses:

WRT 205*	Introduction to Poetry Writing (3 credits) (<i>F-Sp-S</i>)
WRT 206*	Short Story Writing (3 credits) (<i>F-Sp-S</i>)
WRT 207*	Sophomore Composition: Creative Nonfiction (3 credits) (<i>Sp</i>)
WRT 215*	Advanced Poetry Writing (3 credits) (<i>F-Sp</i>)
WRT 216*	Advanced Fiction Writing (3 credits) (<i>F-Sp</i>)
WRT 217*	Advanced Composition: Creative Nonfiction (3 credits) (<i>Sp</i>)

In addition, the following courses are available as electives for this major:

WRT 226*	Special Projects in Fiction (3 credits) (<i>F-Sp</i>)
WRT 285	Pima Writers' Workshop (2 credits) (<i>S</i>)
DAR 224*	Advanced Screenwriting (3 credits) (<i>Sp</i>)

Complete the Associate of Arts Degree for Transfer in Liberal Arts:

Use the AA Degree for Transfer in Liberal Arts display in this catalog as a guide. Specifically:

Complete the Arizona General Education Curriculum (AGEC-A)

See a Writing/English faculty advisor to complete a program of study form using the Transfer Guide for ASU, NAU or UA. Students transferring to other institutions should consult the specific requirements of the institution to which they plan to attend.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

Culinary Arts

Set your culinary career in motion and prepare to work in hotels, restaurants and resorts.

Culinary Arts — Certificate for Direct Employment

Courses focus on cold foods, hot foods, baking, nutrition, safety and sanitation, and general restaurant operations. Complete the program exclusively on weekdays.

Before you can enroll, you must interview with a Culinary Arts faculty member.

What can I do with this certificate?

Career Options: Gain entry-level employment as a cook, menu planner, dining room manager or other culinary positions.

Academic Options: Continue your studies by completing the Associate of Applied Science degree.

Crime Scene Management

See **Forensics and Crime Scene Management**.

Dental Studies

Complete programs to work in direct patient care as a dental hygienist or assistant, or prepare for a career in a dental laboratory.

- Dental Assisting Education
- Dental Hygiene
- Dental Laboratory Technologies

Dental Hygiene

Dental Hygiene — Associate of Applied Science Degree for Direct Employment

Learn dental hygiene and dental health education. This program is accredited by the American Dental Association Commission on Dental Accreditation. Complete this program in a combination of day, evening and weekend classes.

Before enrolling in this program, you must meet certain requirements:

This degree requires a special program application. Students may request a program application, (available at http://www.pima.edu/mhtml/hrp_request_application/index.shtml) when all prerequisites are complete.

Student must have completed the following basic requirements before they may begin the application process.

- Reading assessment score of 90 or completion of REA 112.
- Math assessment score at MAT 151 or higher, or completion of MAT 122.
- Completion of CHM 140, BIO 201IN, BIO 202IN, and BIO 205 with a combined average grade of B or better within the last eight years.
- Completion of CSA 101

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The dental experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB
6. Maintain health insurance

Health related professions students are advised that state/national license exams or certification applications may include a personal history section in which prospective applicants must report and may have to provide a detailed

explanation of legal situations. Examples of situations which may prohibit licensure or certification include, but are not limited to: felony or misdemeanor convictions, substance abuse, conviction of an offense involving immoral behavior, or being guilty of acts which deceive, defraud or harm the public in any way.

Fingerprinting may be part of many state and federal licensing and certification processes. If there is any question about eligibility for licensure or certification, it is the responsibility of the applicant to contact the state and/or federal agency responsible for licensure or certification.

Students who opt to leave the dental hygiene program at the end of the first semester, or at the end of the first year, may re-enter the second or third semester without need for further course work, if they re-enter within one (1) year, as based on space availability. Re-enrollment into the Dental Hygiene Program will be determined on the student's overall record, clinical space availability, proper student/instructor clinic ration, and student proficiency in basic skill competency testing.

What can I do with this degree?

Career Options: Take national and regional exams in preparation for state licensure, then work in general or specialty dental offices, hospitals, schools and public health agencies.

Academic Options: Continue your studies at Northern Arizona University for a B.S. in Dental Hygiene.

Digital and Film Arts — Associate of Arts Degree for Transfer

A student planning on obtaining a Digital and Film Arts degree should follow the Associate of Arts Degree for Transfer in Liberal Arts.

The program is designed to prepare students to transfer to a four-year college or university program in audio, film, and/or video. Good writing skills and creative background in art, design, computers, and photography are helpful in this degree option.

Verification of transfer courses should be established with the transfer university or college or a Pima Community College counselor or faculty advisor. For additional information on Associate of Arts Degree for Transfer in Liberal Arts and Associate of Science Degree transferability to regional universities, please refer to the chart in the front of this section.

Program Identification Code: **AOALIBRALART**

Digital Game and Simulation

Digital Game and Simulation — Associate of Applied Science Degree for Direct Employment

Prepare for a career in digital games and simulations. Complete this program by taking classes exclusively on evenings/weekends, or in any combination of weekday and evening classes.

What can I do with this degree?

Career Options: Become a game play tester; game designer or programmer; or an artist, character builder, or modeler working with digital games and simulations.

Academic Options: While intended to prepare students for direct employment in the digital game/simulation industry, some courses will transfer to a 4-year university.

Education

From infancy through high school, from classroom basics to advanced certification, gain the skills to educate tomorrow's leaders.

- Early Childhood Education
- Teacher Education
- Educational Technology

Removed for Δ's and FAid not yet approved

Early Childhood Education and Child Development Associate

The Early Childhood Education and Child Development Associate Programs are currently under revision to better meet the wide variety of educational needs for students in this profession. We have active programs that can help students to meet the national CDA credential, National Association for the Education of Young Children (NAEYC) professional development standards, as well as transfer programs, including:

- Certificates for Direct Employment
- Associate of Applied Science Degree for Direct Employment
- Associate of Arts for Transfer
- Post-Degree Certificate for the Early Childhood, Birth – Age 8 Endorsement

Please contact the Center for Early Childhood Studies at Desert Vista Campus (520) 206-5245 for more information about existing and revised programs. The revised program requirements will be displayed online as soon as possible, and may be posted already. <http://www.pima.edu/program/early-childhood/index.shtml>

K-12 Education

Prepare to become an elementary or secondary school teacher.

Students who plan to teach in elementary school should pursue the Elementary Education Associate of Arts degree; those who wish to teach secondary school should pursue an Associate of Arts. All students will need to complete an education degree at a 4-year college or university before becoming a teacher.

Students who have already earned a bachelor's degree in any discipline can immediately start working toward teacher certification and advanced endorsements.

Elementary Education — Associate of Arts for Transfer

Complete the first two years of an elementary education degree with a concentration in Early Childhood or Elementary Education and transfer to a four-year degree program. Complete this program in a combination of daytime, evening and weekend and online classes.

What can I do with this degree?

Career Options: Elementary school instructional aide.

Academic Options: Transfer to a four-year elementary education degree program. Students interested in secondary education, rehabilitation or special education should pursue the general Associate of Arts degree.

Locations: Classes can be taken at multiple campuses.

** Certain students are required to take EDU 290A, 290B, 290C and 290D instead of EDU 290. See a program advisor.

f This course includes a Practicum. Upon registration, contact teachereducation@pima.edu or 520.206.6566 to arrange a practicum assignment.

Cost and Curriculum Note: The fees for EDS 254, 255, 256, 257, 258A & B, 259, 260, and 261 are \$20.00 per credit hour in addition to present EDU fees.

Structured English Immersion (SEI) — Post-Degree Certificate

Prepare for Arizona's Structured English Immersion (SEI) endorsement with field-intensive, standards-based courses. Classes emphasize technology, diversity and current SEI theory. Complete this program exclusively online.

Before you can enroll, you must earn a bachelor's degree in education or a subject discipline.

What can I do with this certificate?

Career Options: SEI classroom teacher, resource teacher, or other SEI specialist.

Academic Options: Continue your education with post-graduate work in education or a subject discipline, or pursue other specialized endorsements offered by Pima.

Locations: Community Campus

Department/Contact Information:

Division Dean: 206-6578

Lead Faculty: 206-6527

Educational Technology

Learn to use technology effectively in the classroom and meet continuing education requirements for teachers. Courses support the goals of the International Society for Technology in Education (ISTE) and the National Educational Technology Standards (NETS).

Basic Educational Technology — Certificate

Master the basics of technologies that enhance and support learning. Become familiar with productivity, school, and classroom management software. Use web-based applications for teaching and learning. Complete this program exclusively online.

What can I do with this certificate?

Career Options: Courses lead to the Associate of Arts in Elementary Education and can be used by K-12 teachers to meet No Child Left Behind (NCLB) Act requirements. Meets professional development requirements for state certification.

Academic Options: Continue your studies by pursuing the Advanced Educational Technology certificate.

Locations: Community Campus

Emergency Medical Technology

Basic Emergency Medical Technology — Certificate for Direct Employment

Learn pre-hospital emergency medical care, including physical assessment, medical techniques and ambulance operations. This program is approved by the Arizona Department of Health Services, Bureau of Emergency Medical Services towards certification as an EMT-B in the State of Arizona. Complete this program exclusively on weekdays, or exclusively on evenings/weekends.

Advanced emergency medical technology certificates and paramedic programs are offered as Workforce Response Programs (found at the back of this catalog and also online at <http://www.pima.edu/business/training-dev/>).

Before enrolling in this program you must meet certain admission requirements:

- Be 18 years old when class starts.
- Have cardio-pulmonary resuscitation (CPR) certification at the Healthcare Provider level with at least 1 year left in the certification period.
- Have the ability to lift 125 pounds alone and 250 pounds with a partner.
- Must provide proof of personal medical insurance. Student health insurance is available through Pima.
- Score at least 80 on the College Reading Assessment test.
- Meet with an East Campus advisor to complete a pre-enrollment worksheet.

Provide immunization records for:

- MMR Measles, Mumps, Rubella
- TD Tetanus, Diphtheria (within the last seven years)
- TB Tuberculosis screening indicating negative activity (given no more than six months prior to the beginning of the program)
- Hepatitis B vaccination series (HBV is encouraged but is not required)

An EMT Program Application form is available online as a MS Word Document (available at http://www.pima.edu/program/emt/documents/EMT_Letter_071505.doc)

Certification testing requires an additional fee to the National Registry of Emergency Medical Technicians (NREMT). Students with felony and some misdemeanor convictions may not be eligible for certification—contact the Arizona Department of Health Services for additional information about eligibility.

What can I do with this certificate?

Career Options: Take required Arizona and National Registry of Emergency Medical Technicians exams that qualify you to work as an emergency medical technician.

Academic Options: Once you receive EMT-B certification and work as an emergency medical technician, you can take classes to improve your skills with advanced certificates and degrees (see below).

General Studies

General Studies — Associate of General Studies Degree

This degree allows students to uniquely design an associate's degree in collaboration with a faculty member, advisor or counselor. Courses may be chosen from a variety of subject areas. Students should meet with an advisor or counselor before beginning this degree. Engineering students who plan to transfer to a university should follow courses outlined in the engineering concentration. Complete this program exclusively on weekdays, exclusively on evenings/weekends, or in a combination of daytime, evening and weekend classes.

What can I do with this degree?

Career Options: Design courses to fit careers of your choice.

Academic Options: Continue taking classes toward a transfer degree.

Locations: All campuses

Pima Community College Catalog 2008/2009

Geology

Study the earth – its processes, materials, history and effect on humans and life – by taking courses in geology that focus on physical geology, historical geology, geological processes, oceanography and more. Students learn through a combination of lecture, hands-on lab experiences, and field trips.

Geology courses are offered as part of the requirements of the Associate of Science degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with chemistry faculty to plan their course of study using the appropriate transfer guide.

What can I do with my studies in geology?

Career options: work as a technician in laboratories, with geophysical surveying firms, in the petroleum industry, with government, and technical service firms.

Academic options: continue studies towards a bachelor of science in geology, geosciences, geological engineering, engineering, or education.

Location: West Campus

Department / Contact Information:

Division Dean: 206-6763

Health Information Technology

Health Information Technology - Associate of Applied Science

Prepare for a career as a medical billing and coding specialist or other HIT professional. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day, evening and weekend classes.

Students who wish to specialize in medical front office support or medical transcription should pursue those options in the Office and Administrative Professions AAS degree.

Before enrolling in this program, you must complete OAP 111A and/or have a keyboarding proficiency at 35 + wpm.

What can I do with this degree?

Career Options: Find entry-level employment as a medical coder, medical billing and insurance claims specialist, or physician or hospital coder.

Academic Options: Continue your studies by working toward a degree in a business or health related field.

Locations: Downtown Campus

**History**

Study the origins and development of society by taking courses that focus on the history of regions, countries and peoples from pre-historic times to the present.

History courses are offered as part of the requirements of the Associate of Arts degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with a history faculty member or advisor to plan their course of study using the appropriate transfer guide.

What can I do with my studies in history?

Career options: after completing a bachelor's degree, seek employment in a variety of fields including teaching, law or government

Academic options: continue studies toward a bachelor of arts in history or education.

Locations: All Campuses

Histotechnology

Learn skills and get practical work experience in preparing tissue for testing, examination and diagnosis.

These programs are accredited by the National Accrediting Agency for Clinical Laboratory Sciences (available at: www.pima.edu/program/histotechnology/accreditation.shtml).

Histotechnician — Post-Degree Certificate for Direct Employment

Learn techniques and theory of histotechnology for immediate employment and licensure. Gain co-op work experience in both a research & development and a clinical laboratory. This certificate program is designed for individuals who already have a degree. This program is based on requirements by the National Accrediting Agency for Clinical Laboratory Sciences. Complete this program in a combination of day and evening classes.

Before enrolling in this program, you must meet certain requirements:

Associate's or Bachelor's degree

CHM 130 or higher

MAT 122 or higher

BIO 156 with a grade of C or better, or a comparable score on the assessment test

CSA 101 or computer proficiency exam

What can I do with this degree?

Career Options: Take the American Society of Clinical Pathologists licensure exams. Assist pathologists and dermatologists in hospitals and private practice, or work in industrial or academic research & development.

Academic Options: While this degree is not designed for transfer to a 4-year university, some of the courses are transferable.

Interior Design Associate of Arts Degree for Transfer

Program includes all of the courses needed to transfer to a four-year degree program in interior design. Complete this program exclusively on weekdays, exclusively on evenings/weekends, or in a combination of day, evening and weekend classes.

What can I do with this degree?

Career Options: While intended to be a transfer degree, completing this program would qualify you for some entry-level positions in interior design.

Academic Options: Transfer to a four-year degree program.
Transfer Options:

Transfer to:

- Northern Arizona University's Interior Design program. This program leads to a Bachelor of Science in Interior Design.
- Other Arizona universities in liberal arts.

Locations: Downtown Campus

Interpreter Training

Arizona General Education Curriculum Requirements (AGEC-A)

- A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 57.

English Composition	6
Humanities and Fine Arts	†
ART 110, 130 and IDE 213 fulfill this requirement.	
Biological and Physical Sciences	8
Mathematics	3
Social and Behavioral Sciences	†
PSY 101, SOC 101 and ECN 200 fulfill this requirement.	
Other Requirements	0
Special Requirements	
ART 130 and SOC 101 fulfill the I, C and G requirements.	
Subtotal	17¥

Course Number	Course Title	Credit Hours
---------------	--------------	--------------

Required Core Courses -

A grade of C or better is required for graduation.

IDE 100	Introduction to Interior Design (F-Sp-S)	3
IDE 111	Fundamentals of Interior Design (F-Sp-S)	3
IDE 122	Visual Communications I (Sp)	3
IDE 155	Space Planning I (F-Sp)	3
IDE 158*	Computer Aided Drafting Fundamentals for Interior Design (F-Sp)	4
IDE 160	Fabrics for Interiors (F-Sp)	3
IDE 212	History of Interior Architecture and Furniture Egyptian Period - 1900 (F-Sp)	3
IDE 213	History of Interior Architecture and Furniture from 1900 to the Present (Sp)	3
IDE 222*	Visual Communications II (Sp)	3
IDE 255	Space Planning II (Sp)	3
Subtotal		31

Required Support Courses

ART 110*	Drawing I (F-Sp-S)	3
ART 130	Art and Culture: Prehistoric Through Gothic (F-Sp-S)	3
ECN 200*	Basic Economic Principles (F-Sp-S)	3
PSY 101	Introduction to Psychology (F-Sp-S)	4
SOC 101	Introduction to Sociology (F-Sp-S)	3
Subtotal		16
Total credits as displayed		64§

† Core or support course(s) fulfill this requirement.

¥ AGECE requires 35 credits. This subtotal shows the AGECE credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

§ This degree may be completed with less than the credits displayed as long as the course requirements are fulfilled with a minimum of 60 credits.

Interpreter Training Program — Associate of Applied Arts Degree for Direct Employment

Learn to interpret for the deaf. This program includes lecture, laboratory skills and field experience courses. It teaches the skills needed to take the National Certification Exams. Complete this program by taking classes exclusively during on weekdays, or in a combination of day, evening and weekend classes.

Before enrolling in this program, you must meet special enrollment requirements:

- Complete or be concurrently enrolled in WRT 102, SLG 202, and REA 075
- Demonstrate reading competency at REA 112 level or higher
- Meet with a department faculty member

What can I do with this degree?

Career Options: Become an interpreter for the deaf in a variety of community and educational settings. This degree is also helpful for those pursuing related career fields in assisting the deaf.

Academic Options: While this program is not designed for transfer to a four-year university, some of the courses in the program are transferable.

Locations: West Campus

Journalism

Learn to report, photograph or edit stories about news and events for the print, broadcast or electronic media.

Journalism courses are offered as part of the requirements of the Associate of Arts degree, or may be taken as required or elective courses to complete other degrees. Students interested in pursuing a degree at ASU, NAU or UA should meet with journalism faculty to plan their course of study using the appropriate transfer guide.

What can I do with my studies in journalism?

Academic options: continue studies towards a bachelor of arts in journalism, English or a humanities discipline.

Career options: seek entry-level employment working in newspaper, broadcasting or publishing firms

Location: West Campus

Department / Contact Information:
Division Dean: 206-6690

Law Enforcement

Law Enforcement Academy — Certificate for Direct Employment

Learn the skills needed to begin a career in law enforcement while preparing for the licensure examination. Completion of the program exceeds the minimum P.O.S.T. requirements for entry-level employment as an Arizona peace officer. Students can complete this program exclusively on evenings/weekends.

Before enrolling in this program you must meet certain requirements:

- High school diploma or GED.
- At least 21 years of age upon completion of the academy.
- No felony convictions.
- U.S. Citizen.
- Must possess a valid driver's license.
- Physical requirement test.
- Written evaluation.
- Psychological evaluation.
- Oral Board review.
- Background investigation.
- Medical evaluation.
- Polygraph exam.
- Other requirements that are specific to Arizona Peace Officer Standards and Training Board (AZ P.O.S.T.).

What can I do with this certificate?

Career Options: After passing the licensure examination seek entry-level employment as an Arizona police officer.

Academic Options: Continue your studies by working toward to the Associate of Applied Science for Direct Employment in Law Enforcement.

Locations: Community Campus

Leadership

Leadership–Post-Degree Certificate

Enhance your leadership skills in government or the business world. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day and evening classes.

Before enrolling in this program you must have earned an associate or bachelor's degree.

What can I do with this certificate?

Career Options: Apply your enhanced leadership skills to increase your opportunities for promotion and success at work.

Academic Options: While this certificate is not designed for transfer to a 4-year university, program courses transfer to many universities. It can also be used as a bridge between an associate's degree and NAU's 90/30 B.A. or B.S. in Interdisciplinary Studies with an emphasis in Humanities or Public Management.

Manufacturing Technology — Associate of Science Degree for Transfer

Prepare to transfer to a university program in an engineering field with an emphasis on manufacturing. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day and evening classes.

What can I do with this degree?

Career Options: Earn your bachelor's degree in manufacturing or in engineering.

Academic Options: Transfer to a university to pursue a degree in engineering with emphasis in manufacturing. All three Arizona universities have engineering majors appropriate to this curriculum.

Locations: Downtown Campus

Department/Contact Information:

Division Dean: 206-7134

Lead Faculty: 206-7132

Arizona General Education Curriculum Requirements (AGEC-S) - A grade of C or better is required for graduation.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general course.

Course lists for each General Education category listed below can be found starting on page 57.

English Composition †
WRT 101 and 102 fulfill this requirement.

Humanities and Fine Arts 6

Biological and Physical Sciences †
PHY 210/210LB/IN and 216/216LB/IN fulfill this requirement.

Mathematics †
MAT 220 fulfills this requirement.

Social and Behavioral Sciences 3
ECN 200 fulfills 3 credits of this requirement. Complete a non-ECN course from this category.

Other Requirement Options †
MAT 231 and 241 fulfill this requirement

AGEC Special Requirements

The I, C, and G requirement should be fulfilled by courses in the above categories.

Subtotal **9¥**

Course Number	Course Title	Credit Hours
---------------	--------------	--------------

Required Core Courses -

A grade of C or better is required for graduation.

MAC 110*	Manual Machine Shop (F-Sp-S)	4
MAC 125*	Mechanical Inspection (F-Sp)	4
MAC 150*	Computer Numerical Control (CNC) Mill Programming I (F-Sp)	4

Machine Tool Elective 4

Complete 4 credit hours at the 100 level or higher from the following list with the approval of the department chair or faculty advisor: MAC 155, 160, or 257

Subtotal **16**

Mathematics

Associate of Arts Degree for Transfer in Liberal Arts

A student planning to pursue a bachelor's degree in mathematics should follow the **Associate of Arts in Liberal Arts degree**. A student seeking a degree must take the math, writing, and reading assessment exams. The student should then meet with a mathematics faculty advisor to plan courses. The student should also contact an advisor or counselor from their chosen school for verification of transfer courses.

Information: All students enrolling in their first mathematics course with the College and all new, full-time students are required to take the mathematics assessment tests. Completion of prerequisite courses within the last 3 years with a grade of C or better or a satisfactory score on the assessment test is required for all math courses.

Program Identification Code: **AOALIBRALART**

Medical Assistant

Medical Assistant — Certificate for Direct Employment

Master the skills needed to work in a medical office while preparing to take exams for licensure. Students can specialize in medical coding and billing, in patient care, or can become qualified to work in both areas. Complete this program exclusively on weekdays, exclusively on evenings/weekends, or in a combination of daytime, evening, and weekend classes.

Before enrolling in this program, students must take Accuplacer exam and must meet the following scores:

- Reading: 41
- Math: 40
- Spelling: 46

Required Support Courses –

A grade of C or better is required for graduation.

CAD 172*	Geometric Dimensioning and Tolerancing (F-Sp) . . .	3
ECN 200*	Basic Economic Principles (F-Sp-S)	3
MAT 220*	Calculus I (F-Sp-S)	5

Contact the department at 206-5100 for course offerings.

Medical Laboratory Technician

Medical Laboratory Technician — Associate of Applied Science Degree for Direct Employment

Prepare for a career in medical laboratory technology through classroom study and supervised clinical experience. Learn about blood, analysis of body fluids, bacteriology, parasitology, clinical chemistry and other aspects of medical laboratory technology. Complete this program in a combination of day, evening and weekend classes.

Before enrolling in this program you must meet certain requirements.

- BIO 205IN
- MAT 122 or higher
- BIO 156 with a grade of C or better, or a comparable score on the assessment test
- CHM 080 or 130, or placement into CHM 151

Essential Functions

To successfully participate in the PCC MLT program and become employable in a medical facility, the student should be able to perform essential functions expected of the working professional. Some examples of these essential functions are:

Vision: Should possess visual acuity, color, shade and depth perception to accurately perform and interpret laboratory tests. Must be able to read computer screens, specimen/reagent labels, and warning signs.

Communication: Should possess the ability to clearly and accurately communicate with patients and health care professionals, and to accurately follow verbal and written instructions.

Physical Activity: Should be able to stand and/or sit for prolonged periods and move freely and safely through the laboratory. Should be able to grasp, sit, squat, stoop, bend, reach, push, pull, and lift and carry up to 25 pounds.

Manual Dexterity: Should possess sufficient hand-eye coordination to efficiently, accurately and safely operate laboratory equipment, such as pipettes, inoculating loops, precision instrumentation, and perform phlebotomy procedures.

What can I do with this degree?

Career Options: Work in the clinical laboratory of a hospital, clinic, reference laboratory, blood bank, coroner's office or in biomedical research.

Academic Options: While this degree is not designed for transfer to a 4-year university, the courses can apply toward the first two-years of study for a Bachelor's of Applied Science in Medical Technology.

Nursing

Gain skills in patient care for employment as a registered nurse or licensed practical nurse.

Associate Degree Nursing — Associate of Applied Science Degree for Direct Employment

Get comprehensive education and practical experience in nursing, and prepare to become licensed as a registered nurse. Students who choose to leave the program before completing the degree may qualify for other certificates. Students may complete this program in a combination of daytime, evening and weekend classes. This program has approval from the Arizona State Board of Nursing, and is accredited by the National League of Nursing Accrediting Commission, 61 Broadway – 33rd Floor, New York City, NY 10006, (800) 669-1656 ext. 153. Students should be aware that federal and state law requires documentation that the applicant for nursing licensure is a US citizen, national, or a person described in specific categories, to be eligible for licensure in Arizona.

Before enrolling in this program you must meet certain requirements:

This degree program requires a special program application. Students may request a program application when all prerequisites are complete.

Students must have completed the following basic requirements before they may begin the application process.

- Compass reading assessment score of 90 or higher, or completion of REA 112.
- Math assessment score at MAT 151 or higher, or completion of MAT 122.
- Completion of CHM 130/130LB/130IN with at least a C or better or Chemistry assessment score of 18 or higher.
- Completion of BIO 201IN and BIO 202IN with a combined average grade of B or better within the last eight years. Note: The average may be met with a grade of C in one course and a grade of A in the other.

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Vari-cella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program

Licensed Practical Nurses, including graduates from Pima's Center for Training and Development, are eligible to apply for entry into the second year of the Associate Degree Nursing (ADN) Program by completing the prerequisites listed above. If accepted, the student must successfully complete a five credit transition course (NRS 188/188LB) and meet all acceptance requirements for admission into the third semester of the Associate Degree Nursing (ADN) Program.

Students currently enrolled in accredited out-of-state ADN Nursing Programs may apply to transfer into the second or third semester of the nursing program. Interested students should contact the Nursing department. Admission is dependent on evaluation of general education, program prerequisites, and nursing education course work as well as seat availability.

Program Re-entry

Eligible students who opt to leave the nursing program at any time may re-enter without need for further course work, if they re-enter within one (1) year as based on space availability. Students who have left the program for more than one year, for any reason, will need to re-apply to the program and re-take any previously taken NRS and HCA courses.

What can I do with this degree?

Career Options: Take the National Council Licensure Examination to become a registered nurse.

Academic Options: Pursue a bachelor's degree in nursing at a university.

Locations: West Campus

Paralegal

Prepare for entry-level paralegal or legal assistant positions with these programs approved by the American Bar Association. Students interested in become a legal secretary should pursue an Office and Administrative Professions associate's degree.

Paralegal — Associate of Applied Science Degree for Direct Employment

Learn to investigate and organize the facts of a legal case, do research to identify appropriate laws, or draft legal documents and help prepare a legal case for trial. Paralegals work directly under the supervision of an attorney (in Arizona this supervision is from a member of the State Bar of Arizona) and may not provide legal services directly to the public. Paralegals are qualified through education, training or work experience, and perform legal work delegated by an attorney. This program includes a paralegal internship. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day, evening and weekend classes.

Before enrolling in this program, you must earn a high school diploma or pass an equivalency exam.

What can I do with this degree?

Career Options: Seek a position as a paralegal in a variety of agencies including private law firms, corporate legal departments, government offices, banks and publishing companies.

Academic Options: Transfer to Northern Arizona University's Public Agency Service degree.

Locations: Downtown Campus

Public Safety and Emergency Services Institute

The purpose of the Public Safety and Emergency Services Institute is to provide training and educational opportunities and resources to several career areas including Administration of Justice, Law Enforcement, Emergency Medical Technician, Fire Science and Public Safety Communications. We offer convenient, flexible and immediately useful programs to professionals who seek advancement in their careers as well as courses for the general public. In addition, the Law Enforcement Associate of Applied Science Degree is designed to transfer to NAU's Bachelor of Applied Science Degree in Justice Systems and Policy Planning, and the Fire Science Associate of Applied Science Degree to ASU's Bachelor of Applied Science Degree in Fire Service Management. Both of these programs are offered in Tucson.

Educational opportunities at the Institute reflect contemporary issues, current techniques and technology used in public safety and emergency services. Our programs and services focus on the safety and well being of Southern Arizona and the greater community.

The training and education we offer can give your employees new and improved skills, insight and understanding, and opportunities to learn how to meet a changing agency's environment. We also provide all the academic support services they need: academic advising, computer labs, and information resources.

When your commissioned and non-commissioned employees enroll in courses which are a part of the Institute, your agency gains professionals who have a greater range of skills, and who have the education to meet the expanding role of your agency. The Institute provides a source for management education and leadership development plus targeted opportunities for professional development.

Our partnerships with public safety agencies are based on mutual respect, mutual trust and mutual benefit. We work together to make effective use of the talent, facilities and resources possessed by each partner.

See the following programs in this main program section of the catalog: Administration of Justice, Law Enforcement Academy, Fire Science, and the following programs in the Workforce Response Programs at the back of this catalog: Corrections, Law Enforcement, and Juvenile Corrections. Also see courses in Community Development (CDE).

Radiologic Technology

Become a technologist in the field of diagnostic medical imaging.

Radiologic Technology — Associate of Applied Science Degree for Direct Employment

Learn diagnostic medical imaging, including how to operate equipment. Complete this program exclusively on weekdays, or in a combination of day, evening and weekend classes.

Before enrolling in this program, you must complete certain requirements:

This degree program requires a special program application. Students may request a program application when all prerequisites are complete.

Students must have completed the following basic requirements before they may begin the application process.

- Reading assessment score greater than 90, or completion of REA 112.
- Math assessment at the level of MAT 151 or higher, or complete MAT 122 with at least a C grade.
- Completion of BIO 201IN and BIO 202IN with a combined average of B or better within the last eight years. Note: The average may be met with a grade of C in one course and a grade of A in the other.
- Completion of OAP 162. (Note: It is highly recommended that students complete this course in a traditional classroom setting.)
- Complete the Radiologic Technology application.

To participate in the clinical portion of the program, students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The radiologic technology experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program

What can I do with this degree?

Career Options: Take the medical radiography exam by the American Registry of Radiologic Technologists and qualify to work in hospitals, clinics and doctors' offices.

Academic Options: Continue taking courses to earn a Magnetic Resonance Imaging (MRI) Post-degree Certificate.

Locations: West Campus

Radiologic Technology — Magnetic Resonance Imaging- Certificate for Direct Employment

This advanced specialty program trains registered technologists in the use of MRI equipment. Complete this program by taking classes exclusively on evenings/weekends, or in a combination of day and evening classes.

Before enrolling in this program, you must complete the Radiologic Technology AAS program or an equivalent program.

What can I do with this certificate?

Career Options: Enhance your radiologic technician skills and find employment working with MRI equipment in hospitals, clinics and other service providers. Take the exam to become certified in MRI by the American Registry of Radiologic Technologists.

Academic Options: Take additional professional development courses in this field.

Locations: West Campus

Respiratory Therapist Program

Respiratory Care — Associate of Applied Science Degree for Direct Employment

Develop skills through classroom and clinical experience to become a respiratory therapist. This program is approved by the Council on Accreditation of Allied Health Programs. Complete exclusively on weekdays or in a combination of day, evening and weekend classes.

Before enrolling in this program, you must complete certain requirements. This program requires a special program application. Students may request a program application when all pre-requisites are complete.

- Reading assessment test score of 90 or completion of REA 112
- Math assessment at the level of MAT 151 or higher or complete MAT 122 with at least a grade of C
- WRT 101 with a grade of C or better
- BIO 160IN with a grade of C or better
- CHM 130/130LB/130IN with a grade of C or better, or Chemistry assessment score of 19 or higher
- Completion of the Respiratory Therapy application

Once these requirements are complete:

Request an application to the Respiratory Care - AAS program.

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The respiratory care experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program

What can I do with this degree?

Career Options: Apply to take the exam given by the National Board of Respiratory Care to become a certified respiratory therapist. This degree also qualifies graduates to take the registered respiratory therapist exam. Become licensed in Arizona. Work in hospitals, special-care facilities and other settings taking care of cardiopulmonary patients.

Academic Options: While this degree is not intended for transfer to a 4-year university, many of the courses are transferable.

Reading Requirement - Please refer to the Reading Requirement in the General Education section before enrolling in a general education course.

Course lists for each General Education category listed below can be found starting on page 57.

English Composition	6
Humanities and Fine Arts	6
Biological and Physical Sciences	8
Mathematics	3
Social and Behavioral Sciences	3
SOC 101 and 201 or 204 fulfill 6 credits of this requirement. Complete a non-SOC course from this category.	

Other Requirements†
SOC 120 fulfills this requirement.

Special Requirements

SOC 120 fulfills the C and G requirements. The I requirement should be fulfilled by selecting appropriate courses in the above categories (SOC 203 fulfills the I requirement).

Subtotal 26¥

Course Number	Course Title	Credit Hours
---------------	--------------	--------------

Required Core Courses - A grade of C or better is required for graduation.

SOC 101	Introduction to Sociology (F-Sp-S)	3
SOC 120*	Current Social Problems (F-Sp)	3
SOC 127	Marriage and the Family (F-Sp-S)	3
SOC 201	Race, Ethnicity, Minority Groups and Social Justice (F-Sp-S)	3
SOC 204	Gender Identities, Interactions & Relations (F-Sp-S)	3
Subtotal		15

Sociology Electives 3

Select three credits from the following courses:

SOC 110	Introduction to Cities and Global Society (F)	3
SOC 130	Social World of Drugs (n/o)	3
SOC 166*	Social Gerontology (n/o)	3
SOC 203	Sociology of Utopia (Sp)	3
SOC 215	Human Sexuality (F-Sp-S)	3
SOC 273	Sociology of Sport (n/o)	3
SOC 280	Sociology of Education (n/o)	3
SOC 289*	Topics in Community Involvement (n/o)	1-6
SOC 296*	Individual Studies in Sociology (n/o)	1-6
Subtotal		3

Required Support Courses

Second Language Requirement 16
 Completion of a language course numbered 202, fourth semester level. (Bilingual or international students should consult an advisor or counselor concerning exceptions to this requirement.) If a student satisfies the language requirement in fewer than 16 credits, additional credit hours of transferable electives must be completed to meet the minimum Associate degree requirement of 60 credit hours.

Subtotal **16**

Total credits as displayed **60**

† Core or support course(s) fulfill this requirement.

¥ The AGEC requires 35 credits. This subtotal shows the AGEC credits not fulfilled by core, support, or second language courses.

* This course has a prerequisite, co-requisite, or recommendation. See course description section.

Spanish

A student planning on obtaining a degree with an option in Spanish should follow the **Associate of Arts Degree for Transfer in Liberal Arts**.

See an advisor or counselor and complete a program of study form using the Transfer Guide.

Program Identification Code: **AOALIBRALART**

Speech Communication

Speech Communication — Emphasis for Transfer

The Speech Communication area offers courses which help prepare students for careers requiring extensive interaction with the public: advertising, business, counseling, education, healthcare, international relations, law, politics, public relations, sales, social services, technology, and theology. This course of study develops and improves skills in public address, interpersonal communication, and group communication for social and career settings. Through the **Associate of Arts Degree for Transfer in Liberal Arts** students can transfer to a four year institution.

Use Program Identification Code: **AOALIBRALART**

A student planning to obtain a bachelor's degree with a major in Speech Communication at ASU, NAU or UA should complete the following Speech Communication courses:

SPE 102 Introduction to Speech Communication (F-Sp-S)

SPE 110 Public Speaking (F-Sp-S)

SPE 120 Business and Professional Communication (F-Sp-S)

SPE 124 Argumentation (n/o)

Complete the Associate of Arts Degree for Transfer in Liberal Arts:

Use the AA Degree for Transfer in Liberal Arts display in this catalog as a guide. Specifically:

Complete the Arizona General Education Curriculum (AGEC-A)

Complete two of the following three courses. ANT 102, JRN 102, PSY 250 to complete the Social and Behavioral Science General Education requirement

Complete the Second Language Requirement: Completion of a Language course numbered 202, or completion of SPA 202 or SLG 202

See an advisor/counselor to complete a program of study form using the Transfer Guide for ASU, NAU or UA. Students transferring to other institutions should consult the specific requirements of the institution to which they plan to attend.

Technical Writing and Communication

Technical Writing and Communication — Post-degree Certificate for Direct Employment

Master the essential skills needed for a career in technical writing and communication. Technical writers communicate ideas clearly and concisely in manuals, reports, journal articles, web pages and other forms of print and electronic communication. Complete this program by taking a combination of day, evening and weekend classes.

Before enrolling in this program you must fulfill certain requirements:

An associate's degree or bachelor's degree in a related field from an accredited institution.

Successfully completed WRT 101 - Writing I and WRT 102 - Writing II or equivalent course work that will transfer.

Have successfully completed CIS 100 - Introduction to Computers or CSA 101 - Computer Fundamentals or have comparable knowledge and skills in computer applications.

What can I do with this certificate?

Career Options: Obtain employment or further your career as a technical writer in business or industry, or begin a career as a freelance writer.

Academic Options: Continue your studies by taking additional related coursework in writing and/or web development.

Locations: Downtown Campus and West Campus

Department/Contact Information:

Division Dean - Downtown: 206-7045

Division Dean - West: 206-6690

Program Identification Code: **CRDTWC**

Course Number	Course Title	Credit Hours

Required Core Courses -

A grade of C or better is required for graduation.

DAR 103	Introduction to Digital Arts (F-Sp-S)	3
DAR 120	Applied Computer Graphics (F-Sp-S)	4
WRT 140	Writing and Editing Technical Communications (F-Sp-S)	3
WRT 254	Advanced Professional Communication (F-Sp)	3

Technical Elective - Complete one course from the following: . . . 3-4

CSA 120	Word Processing: Word (F-Sp-S)
CSA 165	Dreamweaver for Microsoft Windows I (F)
CIS 121	Web Publishing (F-Sp)
DAR 256	Web Design: Dreamweaver (F-Sp-S)

Total credits as displayed 16-17

Technology

Prepare for careers in high-tech industries with courses in electronics, optics, automated systems, and computer information systems.

Technology — Certificate for Direct Employment

Get an overview of the areas of technology, including optics, electronics and computers. Complete this program exclusively on weekdays, or in a combination of day, evening and weekend classes.

What can I do with this certificate?

Career Options: Entry-level employment in electronic, automated, information and optical systems.

Academic Options: All required core courses apply toward Associate of Applied Science degrees in Automated Systems Technology, Electronics Systems Technology or Information Technology Specialist.

Locations: West Campus

Department/Contact Information:

Division Dean: 206-6763

Program Identification Code: **CRTTECHNOLGY**

Therapeutic Massage

Therapeutic Massage — Certificate for Direct Employment

Learn techniques to alleviate chronic pain, reduce stress, strengthen the immune system, and promote healing through therapeutic massage. Program includes clinical practice in a professional atmosphere and prepares students for the national therapeutic massage and bodywork exam and state licensure. Complete this 1,000 hour plus program exclusively on weekdays or a combination of day, evening and weekend classes.

Before enrolling in this program, you must meet certain requirements.

- Be at least eighteen years old
- Have a high school diploma or GED
- Attend a Therapeutic Massage Program orientation session
- Complete advising session with Therapeutic Massage faculty
- Submit application form by due date
- Complete requirements specific to massage therapy: drug screening, fingerprinting, current immunizations, TB test, health declaration, and CPR training

Complete with "C" or better the following courses prior to entry into Massage Therapy Practice classes: BIO 160, PSY 101, TMA 101, TMA 120, WED 110, WED 111

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students must be able to lift, carry, set up and take down massage tables and chairs. The clinical experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting clients' wellness. Students must be able to demonstrate rational and appropriate behavior in day-to-day situations and under stressful conditions. Students will be required to receive massage which results in increased local and systemic circulation, increased venous return, relaxed muscles and overall relaxation. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB.
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program.

What can I do with this certificate?

Career Options: Work as a massage therapist in a variety of wellness, medical and corporate facilities, on cruise ships or as a private practitioner.

Academic Options: Continue your studies and earn an associate's degree in therapeutic massage.

Locations: Northwest Campus

Therapeutic Massage — Associate of Applied Science Degree for Direct Employment

Learn techniques to alleviate chronic pain, reduce stress, strengthen the immune system, and promote healing through therapeutic massage while earning as Associate Degree. Program includes clinical practice in a professional atmosphere and prepares students for the national therapeutic massage and bodywork exam and state licensure. Complete this 1,000 hour plus program exclusively on weekdays, or in a combination of day, evening and weekend classes.

Before enrolling in this program, you must meet certain requirements.

- Be at least eighteen years old
- Must have a high school diploma or GED
- Attend a Therapeutic Massage Program orientation session
- Complete advising session with Therapeutic Massage faculty
- Submit application form by due date
- Complete requirements specific to massage therapy: drug screening, fingerprinting, current immunizations, TB test, health declaration, and CPR training

Complete with "C" or better the following courses prior to entry into Massage Therapy Practice classes: BIO 160, PSY 101, TMA 101, TMA 120, WED 110, WED 111

To participate in the clinical portion of the program, the students must:

1. Obtain an Arizona DPS Fingerprint Clearance Card.
2. Pass a urine toxicology screening exam.
3. Be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students must be able to lift, carry, set up and take down massage tables and chairs. The clinical experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting clients' wellness. Students must be able to demonstrate rational and appropriate behavior in day-to-day situations and under stressful conditions. Students will be required to receive massage which results in increased local and systemic circulation, increased venous return, relaxed muscles and overall relaxation. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.
4. Present proof of immunization or immunity for MMR/Varicella/Hep-B.
5. Show proof of negative TB skin test or negative chest x-ray for TB.
6. Maintain health insurance and a CPR card at the Health Care Provider Level throughout the program.

What can I do with this degree?

Career Options: Work as a massage therapist in a variety of wellness, medical and corporate facilities.

Academic Options: While this degree is not intended to transfer to a 4-year university, some of the courses are transferable.

Locations: Northwest Campus

Department/Contact Information: Division Dean: 206-2264
Lead Faculty: 206-2263

General Education Requirements –

Translation and Interpretation

Translation Studies — Certificate for Direct Employment

Improve your skills in Spanish-English and English-Spanish written translation in the health care, legal, literary and business fields. Courses include both hands-on and theoretical classes, as well as internship opportunities. Complete this program by taking classes on evenings/weekends.

Before enrolling in this program (TRS 102 or higher) you must meet certain requirements:

- WRT 102 or 108;
- SPA 253 and 254 or pass a proficiency test;
- Demonstrate 50 percent competency translating a document without aid.

What can I do with this certificate?

Career options: translate written documents between English and Spanish

Academic Options: Continue your studies by completing the Associate of Applied Science degree.

Translation and Interpretation Studies—Associate of Applied Science Degree for Direct Employment

This program is designed to prepare students for entry level employment in translation or interpretation. The Associate of Applied Science degree has course work to develop skills specific to the translation of written documents and the interpretation of oral passages from a source language into a target language. Through a combination of theory and practice, students will gain experience in translating or interpreting in specialty areas such as health care, legal, literary, and business. Complete this program by taking classes exclusively on evenings/weekends or in a combination of day, evening and weekend classes.

Before enrolling in this program (TRS 102 or higher) you must meet certain requirements:

- WRT 102 or 108;
- SPA 253 and 254 or pass a proficiency test;
- Demonstrate 50 percent competency translating a document without aid and interpreting an oral presentation.

What can I do with this certificate?

Career options: Translate written documents and/or interpret oral passages from a source language into a target language between English and Spanish

Academic Options: While this degree is not intended to transfer to a 4-year university, some of the courses may be transferable to an appropriate bachelor's degree.

Locations: Downtown Campus

Veterinary Technician — Associate of Applied Science Degree

Learn to provide veterinary care to animals, including nutrition, nursing, anesthesiology, radiography and clinical laboratory procedures. Gain practical experience in clinic settings. This program is accredited by the American Veterinary Medical Association. Complete this program exclusively on weekdays.

Before enrolling in this program, you must meet certain requirements:

- High school diploma or GED.
- Score at the level of REA 112 in the reading assessment or complete REA 091 with at least a C grade.
- Complete MAT 122, BIO 100IN, CHM 130 and CSA 100 with at least a C grade.
- Have proof of personal medical insurance. Student health insurance is available through Pima.
- Have proof of immunizations: pre-exposure rabies vaccination series and tetanus toxoid.
- Complete program admissions procedures.
- Be able to meet physical requirements of lifting at least forty pound animals; restraining dogs, cats, exotic animals, horses, cows, birds, etc.; standing for long periods of time; bending and lifting; having manual dexterity to assist in surgery and have ability to communicate with veterinarians and clients. This is a physically demanding occupational field.

What can I do with this degree?

Career Options: Work as a certified veterinary technician for veterinarians, biological research workers, scientists and business or organizations that provide care for animals. After completion of the program, students apply to take state and national board exams for certification.

Academic Options: While this program is not designed for transfer to a 4-year university, program courses are transferable to some universities.

Educational Courses

Course Numbering System and Prerequisites

Courses numbered from 001-099 are those unique to the community college, are considered developmental in nature, are not anticipated to be transferable, and do not satisfy degree requirements.

Courses numbered 100-199 are considered to be on the freshman level. Courses numbered 200-299 are considered to be on the sophomore level.

Sample course listing:

ACC	101	Financial Accounting	/3 cr. hrs.	/3 periods (3 lec.)
course prefix	course number	course title	semester hours of credit	hours of lecture and/or lab per week

A student registering for a course must meet the prerequisites or otherwise satisfy the instructor of his or her preparation to take the course. After notification, an instructor may withdraw a student who does not have the proper prerequisites for the class as stated in the catalog. Prerequisites may be waived by the instructor.

Consult the semester *Schedule of Classes* for specific offerings each semester.

Topics Courses

Courses designated with the numbers **098, 198, 298** are courses created by a Pima Community College faculty member to offer a specific subject not found in the regular courses of the college catalog.

Students should be aware that these courses are NOT designed for transfer to a university, nor does Pima Community College articulate them with any university to seek transfer status.

Accounting

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ACC 100 Practical Accounting Procedures

3 cr. hrs. 3 periods (3 lec.)

Introduction to accounting systems for small businesses. Includes an introduction to accounting, accounting equation, procedures for controlling cash, payroll accounting, special journals, computer accounting, and ethical issues in the business process.

Offered: Fall, Spring, Summer.

ACC 101 Financial Accounting

3 cr. hrs. 3 periods (3 lec.)

Introduction to accounting as a service activity, analytical discipline, and information system. Includes financial statements and the accounting profession, recording accounting and transactional data, merchandising operations, internal control and ethical issues, asset reporting, reporting and analyzing liabilities and stockholder's equity, statements of cash flow, and performance measurement.

Information: Students planning to transfer to the Eller Business College should take ACC 101 the semester prior to their application semester.

Offered: Fall, Spring, Summer.

ACC 102 Managerial Accounting

3 cr. hrs. 3 periods (3 lec.)

Accounting information for managers. Includes managerial accounting environment, systems design, cost behavior analysis and use, profit planning, standard costs, and decision making.

Prerequisite(s): ACC 101.

Recommendation: Completion of MAT 092 or higher before enrolling in this course.

Offered: Fall, Spring, Summer.

ACC 150 Payroll Accounting

3 cr. hrs. 3 periods (3 lec.)

Current practices in payroll accounting and tax reporting. Includes payroll and personnel records, computing and paying wages and salaries, analyzing and journalizing payroll transactions, and computerized payroll systems and payroll projects.

Prerequisite(s): ACC 100 or 101.

Offered: Fall, Spring.

ACC 160 Basic Tax Preparation

3 cr. hrs. 3 periods (3 lec.)

Basic skills in tax preparation. Includes volunteer assistance techniques and procedures; taxable revenues, expenses, and appropriate line items on various forms; completion and discussion of tax returns with clients; additional federal tax issues and forms on individual tax returns; and training in current tax preparation software.

Prerequisite(s): ACC 101.

Information: Students must pass an Internal Revenue Service (IRS) volunteer tax preparer certification exam and perform a minimum of 18 service learning hours at a community VITA site to successfully complete this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ACC 173 Government and Not-For-Profit Accounting

3 cr. hrs. 3 periods (3 lec.)

Accounting practices used in governmental units, and not-for profit organizations. Includes basic characteristics of fund accounting, functions of governmental accounting, budgetary process, basic fund accounting system, financial reporting objectives, and government-wide financial statements.

Prerequisite(s): ACC 101.

Offered: Spring

ACC 190 Internship in Accounting

3 cr. hrs. 15 periods (15 lab)

Supervised internship in an accounting workplace. Includes experiences supervised by a professional in the field.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ACC 200 Computerized Accounting I

4 cr. hrs. 4 periods (4 lec.)

Fundamental accounting applications using commercial applications software. Includes the computer operating system, commercial accounting program modules, accounting projects, electronic spreadsheet as the accounting tool, and accounting information on the Internet.

Prerequisite(s): ACC 100 or 101.

Offered: Fall, Spring, Summer.

ACC 201 Intermediate Accounting I

3 cr. hrs. 3 periods (3 lec.)

Comprehensive coverage of financial accounting topics. Includes environment of accounting, accounting information system, present value applications to accounting problems, cash control, receivables and investments, inventory valuation methods, tangible fixed assets, current and long-term liabilities, and intangible assets.

Prerequisite(s): ACC 102.

Offered: Fall.

ACC 202 Intermediate Accounting II

3 cr. hrs. 3 periods (3 lec.)

Continuation of ACC 201. Includes stockholder's equity, long and short term liabilities, income taxes, pension plans, leases, and accounting changes, statement of cash flow, and full disclosure in financial reporting. Also includes continual integration of theory and practice in the accounting treatment of investments.

Prerequisite(s): ACC 201.

Offered: Spring.

ACC 203 Cost Accounting

3 cr. hrs. 3 periods (3 lec.)

Analysis of cost data for management planning, coordination, and control. Includes cost accounting fundamentals, costing systems, tools for planning and control, and cost information for decision making.

Prerequisite(s): ACC 102.

Offered: Fall.

ACC 204 Individual Tax Accounting

4 cr. hrs. 4 periods (4 lec.)

Principles of accounting for taxes on individuals. Includes federal tax laws for individuals, gross income, deductions and losses, special tax computations, property transactions, and income tax preparation and related forms.

Prerequisite(s): ACC 100 or 101.

Offered: Fall, Spring.

ACC 210 Computerized Accounting II

4 cr. hrs. 4 periods (4 lec.)

Continuation of ACC 200 using advanced accounting applications and commercial applications software. Includes working with an accounting practice set, advanced accounting spreadsheets, and accounting software research on the Internet.

Prerequisite(s): ACC 200.

Offered: Fall, Spring, Summer.

ACC 215 QuickBooks Computer Accounting

2 cr. hrs. 2 periods (2 lec.)

Use of current QuickBooks software to set up and maintain accounting records for a small business. Includes accounts receivable, accounts payable, inventory, and payroll features.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

ACC 220 Peachtree Computer Accounting

2 cr. hrs. 2 periods (2 lec.)

Use of current Peachtree software to set up and maintain accounting records for a small business. Includes accounts receivable, accounts payable, inventory, and payroll features.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ACC 250 Certified Bookkeeper Review

3 cr. hrs. 3 periods (3 lec.)

Preparation for the American Institute of Professional Bookkeepers (AIPB) Certified Bookkeeper examination and review of accounting theory and practical bookkeeping skills. Includes the certified bookkeeper program; accruals, deferrals, and the adjusted trial balance; correction of accounting errors and the bank reconciliation; payroll; depreciation; inventory; and internal controls and fraud prevention.

Prerequisite(s): ACC 100 or 101.

Offered: May not be offered this year, check class schedule.

ACC 255 Business Admissions Exam Review

1 cr. hrs. 1 periods (1 lec.)

Review of basic accounting systems including the accounting cycle, identification of events that characterize economic activity, and the collection and communication of financial activity. Reexamines recording and analyzing accounting data; financial reports; internal control of assets; and the measurement and reporting of liabilities and owner's equity. Also includes principles of business, finite math, basic probability, summation, compound interest, random variables and random sampling.

Prerequisite(s): ACC 101 and MAT 173.

Recommendation: Students have a "B" or better in prerequisites due to rigorous program entrance requirements. ACC 102 and MAT 174 should be taken in the semester before you sit for the Eller School of Business Entrance Exam.

Information: Prerequisites or consent of instructor is required before enrolling in this course. May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring.

ACC 260 Principles of Fraud Examination

3 cr. hrs. 3 periods (3 lec.)

Overview of the field of fraud examination and examination methodology and detailed examination of the most prevalent fraud schemes. Includes categories of occupational fraud and abuse, asset misappropriation, corruption schemes, accounting principles and fraud examination strategies, fraudulent financial statement schemes, and interviewing witnesses. Also includes preparation to sit for the Certified Fraud Examination.

Prerequisite(s): ACC 101.

Offered: Fall, Spring.

ACC 265 Issues in Financial Crime Within Business

1 cr. hrs. 1 periods (1 lec.)

An introduction to investigation procedures to determine financial crimes within businesses. Includes an overview of financial crimes, conducting internal investigations, examining information to detect possible fraud, interviewing skills, computer techniques, managing evidence of fraud, coordination with law enforcement agencies, and preventing fraud.

Offered: Fall.

ACC 266 Issues in Financial Crime for Law Enforcement

1 cr. hrs. 1 periods (1 lec.)

An introduction to investigation procedures to determine financial crimes for law enforcement agencies. Includes review of financial crimes, conducting investigations to determine financial criminal activity, consumer fraud, computer techniques and digital evidence, preservation of evidence, and presentation of financial evidence in court.

Offered: May not be offered this year, check class schedule.

Administration of Justice

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

AJS 101 Introduction to Administration of Justice Systems

3 cr. hrs. 3 periods (3 lec.)

History and philosophy of administration of justice in America. Includes identifying the various subsystems, role expectations, and their interrelationships, theories of crime, punishment and rehabilitation, ethics, education and training for professionalism in the system, and career opportunities related to local criminal justice agencies.

Offered: Fall, Spring, Summer.

AJS 109 Criminal Law

3 cr. hrs. 3 periods (3 lec.)

Historical development and philosophy of law and constitutional provisions. Includes definitions, classifications of crime and their application to the system of administration of justice, legal research, study of case law, methodology, and concepts of law as a social force.

Offered: Fall, Spring, Summer.

AJS 115 Criminal Procedures

3 cr. hrs. 3 periods (3 lec.)

Overview of the system used in the United States to administer criminal cases. Includes implications for civil rights, the police process, the prosecuting attorney, the defense attorney, courts, grand jury, trial jury, coroner-medical examiner, judicial process, and the trial, and its aftermath.

Offered: Fall, Spring, Summer.

AJS 123 Corrections as a Process

3 cr. hrs. 3 periods (3 lec.)

Overview of corrections as a process and its appropriate place in the criminal justice system. Includes the study of inmate characteristics, prison culture, correctional history and philosophies. Also includes community corrections, supervision and career opportunities in corrections.

Recommendation: Completion of AJS 101 before enrolling in this course.

Offered: Fall, Spring, Summer.

AJS 124 Ethics and the Administration of Justice

3 cr. hrs. 3 periods (3 lec.)

Exploration of ethical issues and the justice system. Includes elements of moral and ethical behavior, principles of justice, and theories of moral development.

Also includes ethics of the police, courts, corrections, and modern issues in the administration of justice.

Offered: Fall, Spring.

AJS 150 Defensive Tactics for Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Force tactics as applied to law enforcement. Includes the use of verbal and physical skills to accomplish control with a minimum potential of injury to the officer or subject. Also includes handcuffing, impact weapons, and handgun retention.

Offered: Fall, Spring.

AJS 160 Introduction to Youth Services

3 cr. hrs. 3 periods (3 lec.)

Introduction to the field of youth services as offered through voluntary youth organizations, social service and child welfare agencies, juvenile detention and correctional agencies and community health care agencies. Includes the normal development needs of children and adolescents, the special needs of dependent, delinquent, challenged and special needs youth, roles of youth workers, and the need to focus on prevention through strengthening families and communities. Also includes a survey of local youth serving agencies.

Information: Same as SSE 160.

Offered: May not be offered this year, check class schedule.

AJS 170 Death Investigation

3 cr. hrs. 3 periods (3 lec.)

Procedures and techniques of investigating sudden and unexpected, suspicious and violent deaths within the framework of a modern law enforcement and medical examiner system.

Information: Completion of AJS 101 or consent of instructor is required before enrolling in this course.

Offered: Spring.

AJS 201 Rules of Evidence

3 cr. hrs. 3 periods (3 lec.)

The origin, development, philosophy and constitutional basis of evidence. Includes constitutional and procedural considerations affecting arrest and search and seizure. Also includes degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights, and case studies.

Offered: Fall, Spring, Summer.

AJS 204 Criminal Investigation and Report Preparation

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of modern criminal investigation. Includes procedures and skills in search and investigation, conduct at the crime scene, collection and preservation of evidence, developing sources of information, preparation of cases for court prosecution, and report-writing requirements for administration and court use.

Information: AJS 109 or concurrent enrollment or consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

AJS 210 Police Community and Human Relations

3 cr. hrs. 3 periods (3 lec.)

Survey of the police officer's role in attaining and maintaining public support. Includes recognition and understanding of community problems, community action programs, methods of coping with crisis situations, ethnic and minority cultures, various environments, crime prevention, and police operations in relation to these cultures and environments.

Offered: Fall, Spring.

AJS 212 Juvenile Justice Procedures

3 cr. hrs. 3 periods (3 lec.)

The course will examine the causes, responses and prevailing legal and social practices concerning delinquency in America. Includes issues pertaining to the family, schools, gang membership, drug use and youth victimization. Also includes the juvenile justice system including the history and philosophy of the juvenile court, court decision-making, sentencing practices, diversion, institutionalization, community supervision and how it interfaces with the administration of justice.

Recommendation: Completion of AJS 101 before enrolling in this course.

Offered: Fall, Spring.

AJS 225 Criminology

3 cr. hrs. 3 periods (3 lec.)

Survey of the nature, extent and control of crime and delinquency. Includes comparison of theoretical and practical approaches to causation, prevention, punishment and treatment, and current problems.

Offered: May not be offered this year, check class schedule.

AJS 246 Race and Ethnicity Issues in the Administration of Justice
3 cr. hrs. 3 periods (3 lec.)

The course examines the impact of cultural diversity on law enforcement to include a discussion of cultural awareness, bias, prejudice, training, recruitment and cross cultural communication. Police challenges in engaging with specific racial/ethnic groups are examined, to include Asian/Pacific Americans, African-Americans, Latino/Hispanic Americans, Arab Americans, Native Americans and others. Homeland security concerns, racial profiling and hate crimes are also addressed.

Offered: Fall, Spring.

AJS 256 Justice System Administration

3 cr. hrs. 3 periods (3 lec.)

Examination of crime, punishment, and correctional practices. Includes current issues affecting the economy, politics, social stability, prison and community corrections, and minorities.

Offered: May not be offered this year, check class schedule.

AJS 260 Police Leadership

3 cr. hrs. 3 periods (3 lec.)

A practical examination of the unique and important role the first line leader plays in police systems. Includes the difference between management and leadership; good leadership characteristics; important competencies; and constructive and positive relationship building with subordinates, superiors and the community. Also includes analysis of decision making and problem solving methods, and specific instruction to enable the student to successfully fulfill the role of front line police leader.

Information: Consent of instructor required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

AJS 280 Terrorism in the 21st Century

3 cr. hrs. 3 periods (3 lec.)

Exploration into the definition, history, cause, and goals of terrorism. Includes identification of terrorists and their motivations and examination of tactics used by terrorists in pursuit of their goals. Also includes methods used to combat terrorism including intelligence collection, security measures, diplomacy, legal and political responses.

Offered: Fall, Spring.

AJS 290 Administration of Justice Field Experience

3 cr. hrs. 15- periods (15 lab)

Participation in community administration of justice agencies. Includes experience in the practical application of classroom instruction. Also includes biweekly seminars to discuss theory and practice pertinent to the agency experience.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of six credit hours.

Offered: Fall, Spring.

American Indian Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

AIS 101 Introduction to American Indian Studies I

3 cr. hrs. 3 periods (3 lec.)

Examination of the diversity of American Indian tribes. Includes origins and traditions, Native American cultures and geographic subsistence, women's roles and responsibilities, spirituality and world views, and values and value systems. Also includes early education, socialization, and importance of extended family, history of tribal sovereignty and governance, health and curing, and encounters and reactions with early Europeans.

Offered: Fall, Spring.

AIS 102 Introduction to American Indian Studies II

3 cr. hrs. 3 periods (3 lec.)

Continuation of AIS 101. Includes traditional tribal governments, history of Indian-White relations and impact on tribal governments, American Indian status in White society, issues of tribal sovereignty and self-governance, and today's issues and topics.

Prerequisite(s): AIS 101.

Offered: May not be offered this year, check class schedule.

Anthropology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ANT 101 Human Origins and Prehistory

3 cr. hrs. 3 periods (3 lec.)

Survey of physical anthropology and archaeology. Includes anthropology and its subfields, the development of evolutionary theory, modern human variation, primates, paleoanthropology and archaeology, and the emergence of the human species from its origins.

Information: Same as ARC 101.

Offered: Fall, Spring.

ANT 102 Introduction to Cultural Anthropology and Linguistics

3 cr. hrs. 3 periods (3 lec.)

Survey of human societal structure. Includes sub-fields of anthropology, sub-disciplines and topics, historical origins, influences, key figures, theory and methods. Also includes an introduction to the comparative study of cultures.

Offered: Fall, Spring, Summer.

ANT 105 Humanity and the Environment

3 cr. hrs. 3 periods (3 lec.)

Technical, sociocultural, and political information on environmental science and technology for non-ENV majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the green house effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.

Corequisite(s): ANT 105LB

Information: Same as ENV 105.

Offered: Fall, Spring.

ANT 105LB Humanity and the Environment Discovery Laboratory

1 cr. hrs. 3 periods (3 lab)

Laboratory exercise and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy- carrying capacity models, and waste by-product and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in relationships to the environment.

Corequisite(s): ANT 105

Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ANT 105. Same as ENV 105LB.

Offered: Fall, Spring.

ANT 110 Buried Cities and Lost Tribes

3 cr. hrs. 3 periods (3 lec.)

Exploration of the human past. Includes anthropology and its subfields, basics of archaeology, modern humans, origins of domestication, development of social complexity, ranked societies, and states around the world, and archaeology in the modern world.

Information: Same as ARC 110.

Offered: Fall, Spring.

ANT 112 Exploring Non-Western Cultures

3 cr. hrs. 3 periods (3 lec.)

Anthropological survey of non-Western subsistence cultures. Includes development of the discipline of anthropology, research methods, non-Western subsistence cultures, central topics in cultural anthropology, and post-colonial and non-Western cultures in a global context. Also includes writing emphasis.

Offered: Fall, Spring, Summer.

ANT 127 History & Culture of the Mexican-American in the Southwest

3 cr. hrs. 3 periods (3 lec.)

Historical survey of the Mexican(a)/Chicano(a) peoples from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States. Includes Chicano(a) historiography, movements north under Spain and Mexico, nineteenth century to 1880; repression and resistance, making of the Chicano(a) worker to WWII, and toward the 21st century: struggles continue. Also includes the totality of Chicano(a) life since the Treaty of Guadalupe Hidalgo and challenges into the 21st century.

Information: Same as HIS 127.

Offered: Fall, Spring.

ANT 129 Culture and Personality

3 cr. hrs. 3 periods (3 lec.)

Survey of topics in psychological anthropology. Includes history of development of psychological anthropology, affective and cognitive approaches in psychological anthropology, key figures, influences, methods and models, limitations and criticisms of culture and personality studies, and examine sub-topics in

culture and personality studies. Also includes a selection of ethnographic material from the United States and abroad and consideration of the influences of gender, ethnicity, class and other social variables on personality issues within cultures. Offered: Spring.

ANT 135 Pre-Columbian Art

3 cr. hrs. 3 periods (3 lec.)

Anthropological and art historical survey of the indigenous cultures of the Americas from the earliest times to the period of the Spanish conquest. Includes non-Western art and Western gaze, humanity in the Americas, art and architecture of the Pre-Columbian Andes, art and architecture of Pre-Columbian Mesoamerica, and North American indigenous art and architecture.

Information: Same as ART/HIS 135.

Offered: May not be offered this year, check class schedule.

ANT 136 Masks

3 cr. hrs. 3 periods (3 lec.)

Anthropological and art historical study of masks and masquerade as an element of human culture. Includes masks and society, masks and ritual, masks and storytelling, and masks and gender. Also includes conceptual examination of global examples, and practical projects in mask construction.

Information: Same as ART 136.

Offered: May not be offered this year, check class schedule.

ANT 148 History of Indians of North America

3 cr. hrs. 3 periods (3 lec.)

History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Native American origins, early economic and social development, Europeans, eras in Native American history, modern leadership, and research studies.

Information: Same as HIS 148

Offered: Fall, Spring.

ANT 150 African-American History and Peoples

3 cr. hrs. 3 periods (3 lec.)

African-American history from the colonial period to the present. Includes identity, double consciousness, culture and arts, and political protest.

Information: Same as HIS 150.

Offered: May not be offered this year, check class schedule.

ANT 180 Artifact Identification: Tucson Basin

2 cr. hrs. 2 periods (2 lec.)

Introduction to the recognition, identification, and classification of the various types of artifacts recovered from local archaeological sites. Includes an overview of prehistoric ceramics in the Tucson Basin, chipped stone technology, ground stone tool identification, and miscellaneous artifacts. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ARC 180.

Offered: May not be offered this year, check class schedule.

ANT 202 Sex, Gender, and Culture

3 cr. hrs. 3 periods (3 lec.)

Anthropological examination of gender identity, roles, relations, and variation. Includes theories and methods of the anthropology of sex and gender, historical origins and development of the sub-discipline, and sex, gender and sexuality in cross-cultural, ethnographic perspective. Also includes selected case studies and cross-cultural frameworks for analysis.

Offered: Fall, Spring.

ANT 203 Ethnic Groups and Culture

3 cr. hrs. 3 periods (3 lec.)

Anthropological survey of ethnicity and culture. Includes introduction to ethnicity studies, ethnic group formation and maintenance, larger social and cultural context, ethnicity and other social variables, cultural context, change and globalization, and selected case studies.

Offered: May not be offered this year, check class schedule.

ANT 204IN Human Evolution: Ape Men, Cave Women and Missing Links

4 cr. hrs. 5 periods (3 lec., 2 lab)

Study of human evolution and variation. Includes fossil evidence, environmental and cultural change, primate anatomy and behavior, human genetics, human biology and biocultural interactions. Also includes the use of museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ARC 204IN.

Offered: Spring.

ANT 205 Introduction to Southwestern Prehistory

3 cr. hrs. 3 periods (3 lec.)

Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes anthropology and its subfields, basics of archaeology, the Southwest, Paleo-Indians, Archaic people, Hohokam, Mogol-

on, Anasazi, and other Southwestern cultures, and late prehistoric and historic cultural change.

Information: Same as ARC 205.

Offered: Fall, Spring.

ANT 206 Contemporary Native Americans of the Southwest

3 cr. hrs. 3 periods (3 lec.)

Survey of Native American cultures with emphasis on peoples of the Southwestern United States and Northern Mexico. Includes overview of Native groups in the Southwestern United States and northern Mexico, environmental zones and modes of production, cultural and linguistic diversity, cultural configurations, Pan- Native American issues, and frameworks for understanding Native American culture and experience.

Offered: Fall, Spring.

ANT 210 Cultural Anthropology

3 cr. hrs. 3 periods (3 lec.)

Exploration of the study of culture. Includes scientific and humanistic legacies of cultural anthropology, effects of paradigms on research focus and findings, survey of models for analysis, ethnographic studies, and evaluation of models and styles in anthropology.

Prerequisite(s): ANT 102.

Offered: Spring.

ANT 215 The Nature of Language

3 cr. hrs. 3 periods (3 lec.)

Introduction to anthropological linguistics. Includes the history of linguistics, descriptive linguistics, sociolinguistics, language and culture, and language and biology. Also includes language acquisition, language and education, and the history of language and writing.

Offered: Fall.

ANT 225 Principles of Archaeology

3 cr. hrs. 4 periods (2.5 lec., 1.5 lab)

Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology, method and techniques of archaeological excavation, surveying and mapping, dating, sampling and statistical methods, archaeological analysis, and a synthesis of archaeological data. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 101.

Information: Completion of ANT/ARC 101 or consent of instructor is required before enrolling in this course. Same as ARC 225.

Offered: Fall.

ANT 250 Archaeology Laboratory

4 cr. hrs. 6 periods (3 lec., 3 lab)

Laboratory experience in the curating, processing and analysis of artifacts recovered from archaeological sites. Includes human osteology, zooarchaeology, lithic analysis, prehistoric ceramics, shells, historic artifacts, and usage of the Archaeology Centre.

Information: Same as ARC 250. ANT/ARC 101, ARC 180, or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ANT 261 Biological Anthropology

3 cr. hrs. 5 periods (2 lec., 3 lab)

Interaction of human biology and culture. Includes biological anthropology as natural and social sciences, human genetics, microevolution, macroevolution, human variability, the human phenotype, health, disease, and epidemiology, demography of human populations, and population biology and genetics. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 101.

Information: Prerequisite(s) may be waived with consent of instructor. Same as ARC 200.

Offered: May not be offered this year, check class schedule.

ANT 265 Mapping Concepts

1 cr. hrs. 1 periods (1 lec.)

Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.

Information: Same as ARC/GEO 265.

Offered: May not be offered this year, check class schedule.

ANT 267 Introduction to Geographic Information Systems

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications,

and implementation.

Prerequisite(s): ANT/ARC/GEO 265 or concurrent enrollment.

Information: Basic computer skills are required before enrolling in this course. Same as ARC/GEO/GIS 267.

Offered: May not be offered this year, check class schedule.

ANT 275 Archaeological Excavation I

4 cr. hrs. 8 periods (2 lec., 6 lab)

Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Information: Same as ARC 275.

Offered: May not be offered this year, check class schedule.

ANT 276 Archaeological Surveying I

4 cr. hrs. 8 periods (2 lec., 6 lab)

Techniques and methods for recognizing, locating and recording archaeological sites. Includes exploration methods, issues of cultural resource management, instrument skills, map use, and remote sensing applications. Also includes natural resources associated with archaeological sites, application of field techniques, and documentation.

Prerequisite(s): ANT/ARC 180 or concurrent enrollment.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ARC 276.

Offered: May not be offered this year, check class schedule.

ANT 277 Archaeological Excavation II

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of ANT/ARC 275. Includes advanced excavation techniques, field crew supervision, and selected field projects. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 275, and GLG 101.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ARC 277.

Offered: May not be offered this year, check class schedule.

ANT 278 Archaeological Surveying II

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of ANT/ARC 276. Includes goals and objectives of archaeological exploration, archival investigation, planning field projects, and computer resources.

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 276, and GLG 101.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ARC 278.

Offered: May not be offered this year, check class schedule.

ANT 281 Global Positioning Systems

2 cr. hrs. 2 periods (2 lec.)

Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS operation, field data, and software packages and programs. Also includes using museum collections, equipment, resources, and facilities of the Archeological Centre.

Information: Same as ARC/GIS 281.

Offered: May not be offered this year, check class schedule.

ANT 284 Computer Cartography and CAD

3 cr. hrs. 5 periods (2 lec., 3 lab)

Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.

Prerequisite(s): ANT/ARC 265 or concurrent enrollment, and CSA 101.

Information: Same as ARC/GEO 284.

Offered: May not be offered this year, check class schedule.

ANT 286 Electronic and Digital Field Mapping

4 cr. hrs. 8 periods (2 lec., 6 lab)

Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.

Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.

Recommendation: Consult instructor for alternative Prerequisite(s).

Information: Same as ARC/GIS 286.

Offered: May not be offered this year, check class schedule.

ANT 295 Field Projects

3 cr. hrs. 9 periods (9 lab)

Participation in a field project in one of the subfields of anthropology.

Information: Same as ARC 295. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ANT 296 Independent Studies in ANT/ARC

.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)

Students independently continue their studies in anthropology under the supervision of a faculty member.

Information: May be taken three times for a maximum of nine credit hours.

Same as ARC 296. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Arabic

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ARB 101 Elementary Modern Standard Arabic I

5 cr. hrs. 5 periods (5 lec.)

Introduction to modern standard Arabic language. Includes an overview of the modern standard Arabic language, speaking, listening, reading, writing, grammar, interpersonal transactions and cultural contexts.

Offered: Fall.

ARB 102 Elementary Modern Standard Arabic II

5 cr. hrs. 5 periods (5 lec.)

Continuation of ARB 101. Includes additional uses of Modern Standard Arabic alphabet, Arabic sound system, grammatical structures, interpersonal transactions and protocols, and cultural contexts.

Prerequisite(s): ARB 101.

Offered: Spring.

ARB 106 Beginning Conversation

4 cr. hrs. 4 periods (4 lec.)

Introduction to conversation Arabic. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and cultural perspectives. Also includes speaking and listening skills with primary emphasis on oral communication.

Offered: Summer.

Archaeology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ARC 060 Artifacts and Sites of Tucson

.5 cr. hrs. .5 periods (.5 lec.)

Overview of the artifacts and archaeological sites of the Tucson Basin. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Information: Field trip is part of the course.

Offered: Spring.

ARC 061 Tucson Prehistory

.5 cr. hrs. .5 periods (.5 lec.)

Overview of the prehistoric cultures of the Tucson Basin. Includes museum collections, equipment, resources and facilities of the Archaeology Centre.

Offered: Spring.

ARC 062 Stone Tool Making

.5 cr. hrs. .5 periods (.5 lec.)

Introduction to the production of chipped stone tools. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Offered: Spring.

ARC 063 Prehistoric Pottery Making

.5 cr. hrs. .5 periods (.5 lec.)

Introduction to the making of pottery employing techniques used by the prehistoric inhabitants of the Tucson Basin. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Offered: May not be offered this year, check class schedule.

ARC 075 Field Archaeology

4 cr. hrs. 8 periods (2 lec., 6 lab)

Participation in archaeological field activities. Includes a non-technical approach with an emphasis on local field work. Also includes using museum col-

lections, equipment, resources and facilities of the Archaeology Centre.
Offered: May not be offered this year, check class schedule.

ARC 093 Archaeology Workshop

.5-3 cr. hrs. .5-3 periods (.5-3 lec.)

Workshop with an emphasis on field and lab techniques. Includes using museum collections, equipment, resources and facilities of the Archaeology Centre.
Offered: May not be offered this year, check class schedule.

ARC 101 Human Origins and Prehistory

3 cr. hrs. 3 periods (3 lec.)

Survey of physical anthropology and archaeology. Includes anthropology and its subfields, the development of evolutionary theory, modern human variation, primates, paleoanthropology and archaeology, and the emergence of the human species from its origins.

Information: Same as ANT 101.

Offered: Fall, Spring.

ARC 110 Buried Cities and Lost Tribes

3 cr. hrs. 3 periods (3 lec.)

Exploration of the human past. Includes anthropology and its subfields, basics of archaeology, modern humans, origins of domestication, development of social complexity, ranked societies, and states around the world, and archaeology in the modern world.

Information: Same as ANT 110.

Offered: Fall, Spring.

ARC 180 Artifact Identification: Tucson

2 cr. hrs. 2 periods (2 lec.)

Artifact Identification: Tucson Basin Introduction to the recognition, identification, and classification of the various types of artifacts recovered from local archaeological sites. Includes an overview of prehistoric ceramics in the Tucson Basin, chipped stone technology, ground stone tool identification, and miscellaneous artifacts. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ANT 180.

Offered: Spring.

ARC 204IN Human Evolution: Ape Men, Cave Women and Missing Links

4 cr. hrs. 5 periods (3 lec., 2 lab)

Study of human evolution and variation. Includes fossil evidence, environmental and cultural change, primate anatomy and behavior, human genetics, human biology and biocultural interactions. Also includes the use of museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ANT 204IN.

Offered: Spring.

ARC 205 Introduction to Southwestern Prehistory

3 cr. hrs. 3 periods (3 lec.)

Study of the prehistory of the American Southwest from its earliest inhabitants to European contact. Includes anthropology and its subfields, basics of archaeology, the Southwest, Paleo-Indians, Archaic people, Hohokam, Mogol- lon, Anasazi, and other Southwestern cultures, and late prehistoric and historic cultural change.

Information: Same as ANT 205.

Offered: Fall, Spring.

ARC 225 Principles of Archaeology

3 cr. hrs. 4 periods (2.5 lec., 1.5 lab)

Survey of the concepts and methods which archaeologists use to reconstruct human prehistory. Includes a history of archaeology, method and techniques of archaeological excavation, surveying and mapping, dating, sampling and statistical methods, archaeological analysis, and a synthesis of archaeological data. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Prerequisite(s): ARC/ANT 101.

Information: Completion of ARC/ANT 101 or consent of instructor is required before enrolling in this course. Same as ANT 225.

Offered: Fall.

ARC 250 Archaeology Laboratory

4 cr. hrs. 6 periods (3 lec., 3 lab)

Laboratory experience in the curating, processing and analysis of artifacts recovered from archaeological sites. Includes human osteology, zooarchaeology, lithic analysis, prehistoric ceramics, shells, historic artifacts, and usage of the Archaeology Centre.

Prerequisite(s): ANT/ARC 101, ARC 180.

Information: Prerequisites may be waived with consent of instructor. Same as ANT 250.

Offered: May not be offered this year, check class schedule.

ARC 261 Biological Anthropology

3 cr. hrs. 5 periods (2 lec., 3 lab)

Interaction of human biology and culture. Includes biological anthropology as natural and social sciences, human genetics, microevolution, macroevolution, human variability, the human phenotype, health, disease, epidemiology, demography of human populations, population biology and genetics. Includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 101.

Information: Completion of ANT/ARC 101 or consent of instructor is required before enrolling in this course. Same as ANT 261.

Offered: May not be offered this year, check class schedule.

ARC 265 Mapping Concepts

1 cr. hrs. 1 periods (1 lec.)

Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.

Information: Same as ANT/GEO 265.

Offered: Fall.

ARC 267 Introduction to Geographic Information Systems

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.

Prerequisite(s): ANT/ARC/GEO 265 or concurrent enrollment.

Recommendation: Basic computer skills before enrolling in this course.

Information: Same as ANT/GEO 267.

Offered: May not be offered this year, check class schedule.

ARC 270 Archaeological Materials

1 cr. hrs. 1 periods (1 lec.)

The handling, processing and curation of the materials acquired during field work as well as the information derived from them. Includes using museum collections, equipment, resources and facilities of the Archaeological Centre.

Corequisite(s): ANT/ARC 275 or 276.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

ARC 275 Archaeological Excavation I

4 cr. hrs. 8 periods (2 lec., 6 lab)

Introduction to the techniques of archaeological mapping, excavation and recording. Includes field experience in southern Arizona. Includes using museum collections, equipment, resources and facilities of the Archaeological Centre.

Information: Same as ANT 275.

Offered: Fall.

ARC 276 Archaeological Surveying I

4 cr. hrs. 8 periods (2 lec., 6 lab)

Techniques and methods for recognizing, locating and recording archaeological sites. Includes exploration methods, issues of cultural resource management, instrument skills, map use, and remote sensing application. Also includes natural resources associated with archaeological sites, application of field techniques, and documentation.

Prerequisite(s): ANT/ARC 180 or concurrent enrollment.

Recommendation: Consult instructor for alternative prerequisites.

Information: Same as ANT 276.

Offered: Spring.

ARC 277 Archaeological Excavation II

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of ARC/ANT 275. Includes advanced excavation techniques, field crew supervision, and selected field projects. Also includes using museum collections, equipment, resources and facilities of the Archaeology Centre.

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 275 and GLG 101.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ARC 277.

Offered: Fall.

ARC 278 Archaeological Surveying II

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of ARC/ANT 276. Includes goals and objectives of archaeological exploration, archival investigation, planning field projects.

Prerequisite(s): ANT/ARC 205 and ANT/ARC 265 or concurrent enrollment, ANT/ARC 276, and GLG 101.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Information: Same as ANT 278.
Offered: Spring.

ARC 281 Global Positioning Systems

2 cr. hrs. 2 periods (2 lec.)

Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS operation, field data, and software packages and programs. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ANT/GIS 281.

Offered: Fall.

ARC 284 Computer Cartography and CAD

3 cr. hrs. 5 periods (2 lec., 3 lab)

Cartographic techniques and hardware for computer generation of maps. Includes an introduction, methods and techniques, and application projects.

Prerequisite(s): ARC/ANT 265 or concurrent enrollment, and CSA 101.

Information: Same as ANT/GEO 284.

Offered: Spring.

ARC 286 Electronic and Digital Field Mapping

4 cr. hrs. 8 periods (2 lec., 6 lab)

Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.

Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.

Recommendation: Consult instructor for alternative Prerequisite(s).

Information: Same as ANT/GIS 286.

Offered: May not be offered this year, check class schedule.

ARC 295 Field Projects

3 cr. hrs. 9 periods (9 lab)

Participation in a field project in one of the subfields of anthropology.

Information: Same as ANT 295. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ARC 296 Independent Studies in ANT/ARC

.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)

Students independently continue their studies in anthropology under the supervision of a faculty member.

Information: Consent of instructor is required before enrolling in this course. May be taken 3 times for a maximum of nine credit hours. Same as ANT 296.

Offered: May not be offered this year, check class schedule.

Art

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ART 100 Basic Design

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the elements and principles of visual design. Includes line, shape, space, value, texture, volume and color. Also includes skill development in organizing these elements and applying the visual principles of harmony, variety, balance, tension, rhythm, proportion, repetition, and contrast.

Offered: Fall, Spring, Summer.

ART 105 Exploring Art and Visual Studies

3 cr. hrs. 3 periods (3 lec.)

Exploration of art and visual image within the context of culture. Includes selective perception, formal analysis, materials and techniques, art in a historical framework, visual culture and studies, meaning and value in art and visual culture, and high and low culture art. Also includes contemporary issues; traditional and contemporary themes in art; museums, galleries, and public spaces; and process, form, and content in making art.

Offered: Fall, Spring, Summer.

ART 106 History of Painting Materials and Techniques

3 cr. hrs. 5 periods (2 lec., 3 lab)

Technical investigation of prominent painting methods from Ancient Greece to the present. Includes encaustic technique, tempera technique, glaze technique, alla prima technique, and watercolor technique. Also includes preparation of grounds, media, and underpainting.

Offered: Spring.

ART 108 Mexican/Chicano Mural Painting

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to and application of the principles of Mexican mural painting. Includes historical and contemporary events that influenced the birth and de-

velopment of mural art, prominent muralists in Europe, Mexico and the United States that influenced and define the Chicano mural movement, Chicano mural painting in the United States, research and development for student mural project, and creating a portable mural.

Offered: Fall, Spring.

ART 110 Drawing I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to drawing. Includes use of graphic media: pencil, charcoal, and ink on paper. Also includes elements of design as applied to representational drawing.

Prerequisite(s): ART 100.

Information: Prerequisites may be waived with consent of instructor.

Offered: Fall, Spring, Summer.

ART 115 Color and Composition

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to recognizing color principles and relationships and analyzing and duplicating colors. Includes creating the illusion of dimension, transparency, and luminosity in original design. Also includes the use of a variety of materials.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Fall, Spring.

ART 120 Sculptural Design

3 cr. hrs. 5 periods (2 lec., 3 lab)

The study of volume and spatial relationships through modeling, casting, carving, and construction using three-dimensional concepts and media. Includes visual literacy and critical analysis, art elements explored through creative problems, range of media, approaches to three-dimensional design, verbalization of visual perceptions, basic sculptural design lab procedures, and content.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Fall, Spring, Summer.

ART 121 Figure Sculpture

3 cr. hrs. 6 periods (3 lec., 3 lab)

Beginning modeling techniques using clay and other media, while working from the live model. Includes visual literacy and critical analysis, range of media, approaches to figurative sculpture, technical understanding in working from live models, content, and safety.

Recommendation: Completion of ART 120 before enrolling in this course.

Information: There may be additional supply costs in addition to course fees.

Offered: May not be offered this year, check class schedule.

ART 123 Lost Wax Sculpture Casting

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introduction to metal casting of sculpture with emphasis on the ceramic shell method of mold making. Includes wax working, spewing, mold making, casting in bronze and aluminum, and finishing metal castings.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ART 128 Digital Photography I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to digital photography as an art form with an emphasis on fundamental techniques of the digital camera and the digital darkroom. Includes digital cameras with manual functions, digital darkroom, digital printing, studio lighting, image composition, portfolio development, and critical analysis. Also includes the use of state-of-the-art professional quality computers and image processing software, professional digital cameras and printers, and a lighting studio with professional lighting equipment.

Recommendation: Completion of DAR 051 or experience in computer skills before enrolling in this course.

Information: Same as DAR 128. Students are strongly recommended to own or have access to a digital camera with manual exposure control and access to a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply costs in addition to course fees.

Offered: Fall, Spring, Summer.

ART 130 Art and Culture: Prehistoric through Gothic

3 cr. hrs. 3 periods (3 lec.)

Slide and lecture discussions of western civilization's major contributions to the development of sculpture, painting, and architecture. Includes a survey from prehistoric through Gothic art.

Offered: Fall, Spring, Summer.

ART 131 Art and Culture: Late Gothic through Modern Periods

3 cr. hrs. 3 periods (3 lec.)

Continuation of ART 130. Includes western civilization's major contribution to the development of sculpture, painting, and architecture from the renaissance into the twentieth century.
Offered: Fall, Spring, Summer.

ART 133 Art in America

3 cr. hrs. 3 periods (3 lec.)

Introductory survey of American art from the colonial period to the present. Includes emphasis on American painting, sculpture, decorative arts, and architecture as well as European influences. Also includes folk art, crafts, art of under-represented Americans, and issues surrounding cultural production.
Offered: May not be offered this year, check class schedule.

ART 135 Pre-Columbian Art

3 cr. hrs. 3 periods (3 lec.)

Anthropological and art historical survey of the indigenous cultures of the Americas from the earliest times to the period of the Spanish conquest. Includes non-Western art and Western gaze, humanity in the Americas, art and architecture of the Pre-Columbian Andes, art and architecture of Pre-Columbian Mesoamerica, and North American indigenous art and architecture.
Information: Same as ANT/HIS 135.

Offered: May not be offered this year, check class schedule.

ART 136 Masks

3 cr. hrs. 3 periods (3 lec.)

Anthropological and art historical study of masks and masquerade as an element of human culture. Includes masks and society, masks and ritual, masks and storytelling, and masks and gender. Also includes conceptual examination of global examples, and practical projects in mask construction.
Information: Same as ANT 136.

Offered: May not be offered this year, check class schedule.

ART 140 Photography I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to black and white photography as an art form with an emphasis of fundamental technique of the camera and darkroom. Includes film development, printing, beginning portfolio development and historical content.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Fall, Spring, Summer.

ART 141 Photography II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Principles and processes of intermediate black and white photography. Includes use of various types of camera formats, development of film, creating a series, individual darkroom space, advanced darkroom techniques, portfolio production, exhibition presentation, copy slide production, and verbalization of visual perceptions.

Prerequisite(s): ART 140.

Information: Student is required to submit a portfolio for review.

Offered: Fall, Spring.

ART 143 Commercial Photography

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to principles and practices of photography as a business. Includes materials, equipment, facilities, and technologies. Also includes both traditional and digital methods.

Prerequisite(s): ART 141.

Offered: Spring.

ART 147 Alternative Processes in Photography

3 cr. hrs. 5 periods (2 lec., 3 lab)

Designed for the advanced photographer/digital image maker interested in expanding knowledge of alternative photographic processes. Includes bridging 19th century with 21st century processes via digital technologies and mid-1800 printing methods.

Recommendation: Completion of ART 100 and advanced darkroom and computer experience before enrolling in this course.

Offered: Fall, Spring.

ART 160 Ceramics I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to ceramics. Includes wheel and hand-built forms and basic glazing techniques.

Recommendation: Completion of ART 100 before enrolling in this course or concurrent enrollment.

Offered: Fall, Spring, Summer.

ART 170 Metalwork I: Jewelry

3 cr. hrs. 5 periods (2 lec., 3 lab)

Exploration of the basic techniques and design approaches used in the fabrication of jewelry and other metalwork. Includes construction, casting, forming, surface embellishment, and other techniques.

Prerequisite(s): ART 100.

Offered: Fall, Spring, Summer.

ART 175 Ferrous Metalwork: Blacksmithing, Tool Making/Knife Making

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the materials, design, techniques, safety habits, and methods used in ferrous metalwork. Includes basic tools and processes in blacksmithing; layout, design, and techniques; metals lab procedures, and metallurgical theory and metalworking practice; skills and concepts for tool making; tool design; existing literature; and lab procedures in tool making. Also includes procedures for knife making, cutting tools, design and layout, steps in blade making, knife handle forming, and forging methods.

Recommendation: Completion of ART 100 is recommended before enrolling in this course.

Information: ART 175A, 175B, and 175C together constitute ART 175.

Offered: Fall, Spring.

ART 175A Ferrous Metalwork: Blacksmithing

1 cr. hrs. 1.67 periods (.67 lec., 1 lab)

Introduction to the materials, design, techniques, safety habits, and methods used in blacksmithing. Includes basic tools and processes, layout and design of projects, basic techniques, metals lab procedures, and metallurgical theory and metalworking practice.

Recommendation: Completion of ART 100 is recommended before enrolling in this course.

Information: ART 175A, 175B, and 175C together constitute ART 175.

Offered: May not be offered this year, check class schedule.

ART 175C Ferrous Metalwork: Knife Making

1 cr. hrs. 1.67 periods (.67 lec., 1 lab)

Introduction to the materials, design, techniques, safety habits, and methods used in knife making. Includes metals lab procedures; metallurgical theory and metalworking practice, design, and layout; steps in blade making; knife handle forming; and forging methods.

Recommendation: Completion of ART 100 is recommended before enrolling in this course.

Information: ART 175A, 175B, and 175C together constitute ART 175.

Offered: May not be offered this year, check class schedule.

ART 180 Weaving I: Four-Harness Loom

3 cr. hrs. 5 periods (2 lec., 3 lab)

Weaving on a four-harness loom. Includes projects involving color, texture, pattern, and the use of tabby, twill, tubular, textural, and tapestry weaves in the creation of clothing and fiber art.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Fall.

ART 181 Mixed Media Fibers

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to fiber as an art medium. Includes fiber processes such as basketry, crochet, macrame, plaiting, surface design, and mixed media.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Spring.

ART 203 Survey of Contemporary Studio Art

3 cr. hrs. 3 periods (3 lec.)

Introduction to the history, theory, and issues of contemporary studio arts practices. Includes stylistic movements, presentations and demonstrations by faculty addressing current issues and techniques, marketing and funding, visual culture, introduction to postmodernist art theory, and shifting display modalities.

Recommendation: Completion of WRT 100 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ART 210 Drawing II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 110. Includes further development of imaginative and technical skills in the use of space and graphic design. Also includes the development of a portfolio of finished drawings.

Prerequisite(s): ART 110.

Offered: Fall, Spring.

ART 212 Printmaking I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to basic aesthetics and techniques of printmaking. Includes intaglio etching, relief printing, and monotypes.

Prerequisite(s): ART 100.

Information: Prerequisites may be waived with consent of instructor.

Offered: Fall, Spring.

ART 213 Life Drawing

3 cr. hrs. 5 periods (2 lec., 3 lab)

Drawing the human figure using the two-dimension concept as a graphic vehicle of expression. Includes opportunities to work in various media.

Prerequisite(s): ART 100.

Recommendation: Completion of ART 110 before enrolling in this course.

Offered: Fall, Spring.

ART 214 Printmaking II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 212. Includes advanced problems in aesthetics and techniques of intaglio etching, relief printing, and monotypes. Also includes an introduction to alternative, non-traditional approaches.

Prerequisite(s): ART 212.

Offered: Spring.

ART 215 Painting I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Studio course in beginning oil painting. Includes still-life object painting, landscape and figure studies. Also includes palette-mixing technique and stretcher bar building.

Prerequisite(s): ART 110.

Recommendation: Completion of ART 115 before enrolling in this course.

Offered: Fall, Spring.

ART 216 Screenprinting I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to screenprinting using water base and inks. Includes screen construction, the use of cut film, photo emulsion, stencil making techniques, printing techniques, and one-color and multi-color process work.

Prerequisite(s): ART 100.

Information: Prerequisites may be waived with consent of instructor.

Offered: Fall, Spring.

ART 217 Painting II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 215. Includes advanced principles and practice of painting techniques. Also includes mixed media, the art market, and contemporary painting methods.

Prerequisite(s): ART 115, and 215.

Offered: Fall, Spring.

ART 218 Screenprinting II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 216. Advanced work in blockout, cut film, photo emulsion, photo film, and experimental stencil-making techniques.

Prerequisite(s): ART 216.

Information: Students may select areas of interest for concentration and refinement of skills.

Offered: Fall, Spring.

ART 219 Printmaking III

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 214. Includes non-traditional approaches to printmaking such as monotypes, planographic, or mixed media processes. Also involves advanced problems in traditional intaglio etching.

Prerequisite(s): ART 214.

Offered: May not be offered this year, check class schedule.

ART 220 Sculpture

3 cr. hrs. 6 periods (3 lec., 3 lab)

Exploration of methods, materials, and content used in sculpture. Includes art elements, art principles, media and technique, sculpture lab procedures, content issues, projects, and visual literacy and critical analysis.

Information: ART 120 or consent of instructor is required before enrolling in this course.

Offered: Spring.

ART 230 History of Photography

3 cr. hrs. 3 periods (3 lec.)

Introduction to the history of photography from 1839 to contemporary schools. Includes development of the technical aspects of photography, styles, move-

ments and its relationship to artistic and cultural heritage.

Offered: Spring.

ART 232 Digital Photography II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of ART/DAR 128. Includes intermediate digital cameras with manual functions, intermediate digital darkroom and digital output, quality of light, intermediate image composition, multiple images, intermediate portfolio development, and critical analysis. Also includes the intermediate use of state-of-the-art professional quality computers and image processing software, professional digital cameras, printers, and a lighting studio with professional lighting equipment.

Prerequisite(s): ART/DAR 128.

Recommendation: Completion of DAR 221 before enrolling in this course.

Information: Same as DAR 232. Students must own or have access to a digital camera with manual exposure control and a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply costs in addition to course fees. The prerequisite may be waived for basic skills in digital photography. See a ART/DAR digital photography instructor for prerequisite information.

Offered: Fall, Spring.

ART 233 Digital Photography III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of ART/DAR 232. Includes digital capture and image acquisition, advanced digital darkroom and digital output, advanced image composition, advanced multiple images integration, advanced portfolio development, and advanced critical analysis. Also includes the advanced use of state-of-the-art professional quality computers and image processing software, professional digital cameras, scanners, printers, and projectors.

Prerequisite(s): ART/DAR 232 and DAR 221.

Information: Same as DAR 233. Students must own or have access to a digital camera with manual exposure control and a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply costs in addition to course fees. The prerequisite(s) may be waived for basic skills in digital photography. See the ART/DAR instructor for prerequisite information.

Offered: May not be offered this year, check class schedule.

ART 250 Gallery and Museum Practices

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to practices and procedures of galleries and museums. Includes management of student gallery spaces on campus. Also includes community involvement with local business.

Recommendation: Completion of ART 100 before enrolling in this course.

Offered: Fall, Spring.

ART 260 Ceramics II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 160. Includes further development of wheel thrown and hand-built forms, glaze composition, and application techniques.

Prerequisite(s): ART 160.

Offered: Fall, Spring, Summer.

ART 261 Ceramics III

3 cr. hrs. 5 periods (2 lec., 3 lab)

Advanced study for students who demonstrate mastery of ceramics skills and principles taught in ART 160 and 260. Includes clay composition, glaze calculation, and advanced design problems.

Prerequisite(s): ART 260.

Offered: Fall, Spring, Summer.

ART 262 Ceramics IV

3 cr. hrs. 5 periods (2 lec., 3 lab)

Advanced study for students who wish to design ceramic projects that would fit into an architectural setting. Includes the exploration of creative processes and the use of different approaches, materials, and technology to achieve design goals.

Prerequisite(s): ART 261.

Offered: Fall, Spring, Summer.

ART 265 Furnace Glassblowing I

4 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the elements, tools, and basic principles of furnace glassblowing. Includes the discipline of working hot glass associated with the Venetian style, or off hand glassblowing. Also includes molten glass manipulated

with long blow pipes, rods, and other specialized tools, basic skill development in the manipulation of hot glass, procedures and precautions with a focus on artistic development and design.

Prerequisite(s): ART 100.

Information: This course requires a special fee. Please contact the Art Department at the West Campus for further information.

Offered: Fall, Spring.

ART 266 Furnace Glassblowing II

4 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 265. Includes further information on the elements, tools and principles of furnace glassblowing, continued skill development in the manipulation of hot glass, procedures and precautions, with an emphasis on artistic development and design. Also includes skill development and organization of steps, design elements, and procedures.

Prerequisite(s): ART 265.

Information: This course requires a special fee. Please contact the Art Department at the West Campus for further information.

Offered: Fall, Spring.

ART 270 Metalwork II: Jewelry

3 cr. hrs. 5 periods (2 lec., 3 lab)

Jewelry design and production techniques. Includes casting, construction, cold forging, and stone setting in precious and non-precious metals.

Prerequisite(s): ART 170.

Offered: Spring.

ART 271 Metalwork II: Smithing and Casting

3 cr. hrs. 5 periods (2 lec., 3 lab)

Design and production of aesthetic and functional objects. Includes hot and cold forging, raising, forming, and casting using various metals such as copper, silver, bronze, steel, iron, and aluminum.

Prerequisite(s): ART 170.

Offered: May not be offered this year, check class schedule.

ART 280 Weaving II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of ART 180. Includes advanced study for students experienced on multi-harness looms. Students may select areas for in-depth exploration.

Prerequisite(s): ART 180.

Recommendation: Completion of ART 100 is recommended before enrolling in this course.

Information: May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29611 Independent Study in ART: Art History

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in art history. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

ART 29612 Independent Study in ART: Ceramics

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in ceramics. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29613 Independent Study in ART: Metals

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in metals. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29614 Independent Study in ART: Painting, Drawing, and Design

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in painting, drawing, and design. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29615 Independent Study in ART: Photography

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in photography. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May

be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29616 Independent Study in ART: Printmaking

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in printmaking. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29617 Independent Study in ART: Sculpture

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in sculpture. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29618 Independent Study in ART: Fibers

1-3 cr. hrs. 1.5-5 periods (.5-2 lec., 1-3 lab)

Advanced projects in fibers. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

ART 29619 Independent Study in ART: Glass

1-4 cr. hrs. 1.5-9 periods (.5-3 lec., 1-6 lab)

Advanced projects in glass. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of sixteen credit hours.

Offered: Fall, Spring.

Art For Personal Development

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

APD 050 Photography

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introduction to film and digital photography for the hobbyist/enthusiast. Includes history of still photography, introduction to the camera: digital or film, principles of exposure, manipulating light, and darkroom orientation.

Information: Students will supply their own camera and necessary materials. There are no additional course fees.

Offered: Fall, Spring.

APD 062 Acrylic and Oil Painting I

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introduction to oil and acrylic painting. Includes painting preparation, composing and building paintings, and developing a personal vision.

Offered: Fall, Spring, Summer.

APD 063 Acrylic and Oil Painting II

2 cr. hrs. 4 periods (1 lec., 3 lab)

Intermediate painting for further development of the techniques. Includes review of painting preparation, intermediate composing and building paintings, and intermediate development of a personal vision.

Recommendation: Completion of APD 062 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

APD 064 Acrylic and Oil Painting III

2 cr. hrs. 4 periods (1 lec., 3 lab)

Advanced painting for technique, color knowledge, and content sources. Includes review of painting preparation, advanced level of composing and building paintings, and advanced development of a personal voice and vision.

Recommendation: Completion of APD 063 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

APD 065 Watercolor I

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introduction to watercolor painting for personal use. Includes watercolor materials, properties of watercolor pigments, and watercolor application methods.

Offered: Fall, Spring, Summer.

APD 066 Watercolor II

2 cr. hrs. 4 periods (1 lec., 3 lab)

Continuation of APD 065. Includes use of photographs and drawings, watercolor styles, watercolor applications, and beginning experimentation.

Offered: Fall, Spring.

APD 067 Watercolor III

2 cr. hrs. 4 periods (1 lec., 3 lab)

Continuation of APD 066. Includes intermediate watercolor applications and intermediate experimentation.

Offered: Fall, Spring.

APD 068 Watercolor IV

2 cr. hrs. 4 periods (1 lec., 3 lab)

Watercolor IV Continuation of APD 067. Includes advanced watercolor applications and advanced experimentation.

Offered: Fall, Spring.

APD 069 Abstract Painting

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introduction to abstract painting. Includes painting preparation, composing and building paintings, and developing a personal vision. A series of painting projects will lead students through the process of loosening the hold on realism and discovering new ways to evoke feeling through art.

Offered: May not be offered this year, check class schedule.

APD 073 Mariachi Music III

2 cr. hrs. 4 periods (1 lec., 3 lab)

Includes practicing and performing as a group and as solos, styles inherent to mariachi music, the role of each musical instrument to produce a total sound, and stage performance techniques for a mariachi performing group.

Prerequisite(s): APD 072.

Offered: Fall, Spring.

APD 078 Mariachi Music V

2 cr. hrs. 4 periods (1 lec., 3 lab)

Includes music theory, rhythms and patterns, rhythmic applications, advanced tonality application techniques, performance and gesturing techniques, execution of songs, microphone techniques, and duets, trios, and ensemble singing.

Offered: Fall, Spring.

Asian Pacific Americans

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

APA 200 Contemporary Issues in Asian American Society

3 cr. hrs. 3 periods (3 lec.)

Introduction to the history and experiences of Asian Americans and Pacific Islanders within the United States. Includes demographic classification for Asian Pacific Americans (APA), history of Asians in America, contemporary APA issues within the United States, and comparison of APA experiences to other minority groups in the United States.

Offered: May not be offered this year, check class schedule.

Astronomy

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

AST 050 The Sky

1 cr. hrs. 3 periods (3 lab)

Introduction to the terminology, technology, and concepts related to the sky. Includes the celestial sphere, observation, and advances in amateur astronomy.

Offered: May not be offered this year, check class schedule.

AST 101 Solar System

3 cr. hrs. 3 periods (3 lec.)

Introduction to the science of the nature and origin of the solar system: the sun and its family of planets, along with comets and asteroids. Includes the history of astronomy and special topics regarding the space program. Also includes scientific thinking as an application of critical and quantitative thinking and science in contrast to pseudoscience.

Corequisite(s): AST 101LB

Offered: Fall, Spring, Summer.

AST 101IN Solar System

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the science of the nature and origin of the solar system: the sun and its family of planets, along with comets and asteroids. Includes the history of astronomy and special topics regarding the space program. Also includes scientific thinking as an application of critical and quantitative thinking, and science in contrast to pseudoscience. Also includes in-class measurement and mathematical exercises, outside observation projects, independent studies, and self-initiated trips to local astronomy facilities.

*Information: IN is the integrated version of the course with the lecture and lab**taught simultaneously.*

Offered: Fall, Spring, Summer.

AST 101LB Solar System Laboratory

1 cr. hrs. 3 periods (3 lab)

Laboratory for AST 101. Includes in-class measurement and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities. Emphasizes hands-on group and individual experiences and mathematical reasoning to enrich understanding of AST 101 lecture material.

Corequisite(s): AST 101

Offered: Fall, Spring, Summer.

AST 102 Stars, Galaxies, Universe

3 cr. hrs. 3 periods (3 lec.)

Introduction to the universe beyond the solar system. Includes the nature of light, how astronomers and telescopes work, and the possibilities of alien life in the universe. Also includes the lifetime of stars, exotic objects such as quasars, pulsars and black holes, and the origin, nature and future of the universe. Also includes scientific thinking as an application of critical and quantitative thinking and science in contrast to pseudoscience.

Corequisite(s): AST 102LB

Offered: May not be offered this year, check class schedule.

AST 102IN Stars, Galaxies, Universe

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the universe beyond the solar system. Includes the nature of light, how astronomers and telescopes work, and the possibilities of alien life in the universe. Also includes the lifetime of stars, exotic objects such as quasars, pulsars and black holes and the origin, nature and future of the universe. Also includes scientific thinking as an application of critical and quantitative thinking and science in contrast to pseudoscience. Also includes in-class measurement and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

AST 102LB Stars, Galaxies, Universe Laboratory

1 cr. hrs. 3 periods (3 lab)

Laboratory for AST 102. Includes in-class measurement and mathematical exercises, outside observation projects, independent studies, and self-initiated field trips to local astronomy facilities. Emphasizes "hands-on" group and individual experiences and mathematical reasoning to enrich understanding of AST 102 lecture material.

Corequisite(s): AST 102

Offered: Spring.

AST 105 Life in the Universe

3 cr. hrs. 3 periods (3 lec.)

Multidisciplinary science, sometimes called astrobiology, focusing on the formation of the universe, the solar system, and life. Includes Earth's location in space and time, nature of life, light and the spectrum, origin of the universe, galaxies and stars, origin of the solar system, planetary atmospheres, origin and evolution of life on Earth, life on other solar system planets, and intelligent life around other stars. Also includes in-class laboratory exercises, group telescopic observation projects, and personal observation projects.

Corequisite(s): AST 105LB

Offered: May not be offered this year, check class schedule.

AST 105IN Life in the Universe

4 cr. hrs. 6 periods (3 lec., 3 lab)

Multidisciplinary science, sometimes called astrobiology, focusing on the formation of the universe, the solar system, and life. Includes Earth's location in space and time, nature of life, light and the spectrum, origin of the universe, galaxies and stars, origin of the solar system, planetary atmospheres, origin and evolution of life on Earth, life on other solar system planets, and intelligent life around other stars. Also includes in-class laboratory exercises, group telescopic observation projects, and personal observation projects.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

AST 105LB Life in the Universe Laboratory

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of AST 105.

Corequisite(s): AST 105

Offered: May not be offered this year, check class schedule.

AST 296LB Independent Study in Astronomy

1-4 cr. hrs. 3-12 periods (3-12 lab)

Experience in astronomical research, projects, or topical studies. Specific content to be determined by student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

Automotive Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

AUT 100 Small Engine Troubleshooting and Repair

3 cr. hrs. 5 periods (1 lec., 4 lab)

Small Engine Troubleshooting and Repair Principles and procedures for overhauling, troubleshooting and repairing small engines. Include safety and hazardous materials handling, engine types and identification, engine operation and maintenance, disassembly and inspection, engine reconditioning and assembly, fuel and ignition system assembly, mechanical operation and testing, multicylinder engines, and overhead valve (OHV) engines.

Offered: Fall, Spring, Summer.

AUT 101 Automotive Maintenance

3 cr. hrs. 5 periods (1 lec., 4 lab)

Automotive Maintenance Techniques of routine vehicle maintenance. Includes safety and hazardous materials handling, customer vehicle identification and handling, new vehicle pre-delivery inspection and preparation, safety inspection, lubrication technician tasks, light line technician tasks, and fluid flushing.

Offered: Fall, Spring, Summer.

AUT 105 Light Line Maintenance

3 cr. hrs. 5 periods (1 lec., 4 lab)

Principles and procedures for light line service. Includes safety, transmission and driveline systems, air conditioning/heating systems, electrical systems, suspension/steering systems, engine performance, and tools and equipment.

Offered: Fall, Spring, Summer.

AUT 120 Engine Diagnosis and Repair

3 cr. hrs. 7 periods (1 lec., 6 lab)

Techniques for light line engine service. Includes personal and environmental safety, general engine diagnosis, lubrication system diagnosis and repair, cooling system diagnosis and repair, cylinder head diagnosis and repair, and engine block diagnosis and repair.

Offered: Fall, Spring, Summer.

AUT 122 Engine Remove and Install

3 cr. hrs. 7 periods (1 lec., 6 lab)

Techniques for heavy-line engine exchange. Includes personal and environmental safety, front wheel drive engine removal and installation, and rear wheel drive engine removal and installation.

Offered: Fall, Spring, Summer.

AUT 124 Automotive Diesel Engine Tune-Up

3 cr. hrs. 7 periods (1 lec., 6 lab)

Maintenance of automotive diesel engines. Includes tune-up, assembly and calibration of fuel injectors, and diagnosis and repair of glow plug electronic control systems.

Offered: Fall, Spring, Summer.

AUT 126 Engine Performance and Driveability Troubleshooting

3 cr. hrs. 7 periods (1 lec., 6 lab)

Diagnosis and repair of On-board Diagnostics Generation One (OBDI) and Two (OBDII) systems. Includes personal and environmental safety, general engine, computerized engine controls, ignition system, fuel, air induction, and exhaust systems, emissions control systems, and engine related service.

Offered: Fall, Spring, Summer.

AUT 128 Automotive Electrical Fundamentals and Applications

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures of electrical diagnosis and repair. Includes electrical fundamentals and test equipment, electrical system, battery, starting system, charging system, lighting systems, instrumentation, horn and wiper/washer, integrated circuits, and computerized control systems.

Offered: Fall, Spring, Summer.

AUT 129 Automotive Electrical Accessories

3 cr. hrs. 7 periods (1 lec., 6 lab)

Electrical circuit diagnosis, repair, and replacement. Includes electrical fundamentals and test equipment, accessory diagnosis and repair, tilt steering column repair, and electrical connectors and terminal replacement.

Offered: Fall, Spring, Summer.

AUT 132 Automotive Drivetrain Removal and Replacement

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures for automotive driveline component exchange. Includes personal and environmental safety, general drivetrain diagnosis, and diagnosis and repair of the clutch, automatic and manual transmissions and transaxle, drive axle and differential, and four-wheel drive components.

Offered: Fall, Spring, Summer.

AUT 133 Automatic Transmission/Transaxle Service and Rebuilding

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures for front- and rear-wheel drive automatic transmission overhaul. Includes personal and environmental safety, automatic transmission diagnosis and service, and transmission in-vehicle and off-vehicle repair.

Offered: Fall, Spring, Summer.

AUT 136 Automotive Manual Transmission and Driveline Service

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures for automotive driveline component overhaul. Includes personal and environmental safety, general drivetrain diagnosis, and diagnosis and repair of manual transmission and transaxle, drive shaft and half-shaft, universal and constant-velocity (CV) joint, drive axle and differential, limited slip differential, and four-wheel drive.

Offered: Fall, Spring, Summer.

AUT 138 Automotive Suspension Systems

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures for automotive suspension system service. Includes safety, adjustment and repair of front and rear suspension systems, and related suspension component service.

Offered: Fall, Spring, Summer.

AUT 139 Automotive Steering and Alignment Systems

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and procedures for automotive steering and alignment systems service. Includes safety, manual and power steering systems, wheel alignment diagnosis, adjustment, and repair, and wheel and tire diagnosis and repair.

Offered: Fall, Spring, Summer.

AUT 140 Automotive Brakes Diagnosis and Repair

3 cr. hrs. 7 periods (1 lec., 6 lab)

Diagnosis and repair of automotive hydraulic brake systems. Includes personal and environmental safety, hydraulic system diagnosis and repair, drum and disc brake diagnosis and repair, power assist units diagnosis and repair, wheel bearings, park brake, and brake electrical diagnosis and repair, and anti-lock brake systems (ABS) components and operation.

Offered: Fall, Spring, Summer.

AUT 142 Automotive Heating, Ventilation, and Air Conditioning

3 cr. hrs. 7 periods (1 lec., 6 lab)

Diagnosis and repair of automotive heating, ventilation, and air conditioning (HVAC) systems. Includes personal and environmental safety, HVAC systems components, air conditioning (AC) diagnosis and repair, refrigeration system component diagnosis and repair, heating and engine cooling systems diagnosis and repair, operating systems and controls diagnosis and repair, and refrigerant recovery, recycling, and handling.

Offered: Fall, Spring, Summer.

AUT 170 Structural Analysis and Repair

4 cr. hrs. 6 periods (2 lec., 4 lab)

Structural collision repair of automotive vehicles. Includes frame inspection and repair, Unibody inspection, measurement and repair, fixed glass, and metal welding and cutting.

Offered: Fall.

AUT 171 Non-Structural Analysis and Repair

4 cr. hrs. 6 periods (2 lec., 4 lab)

Non-structural collision repair of automotive vehicles. Includes preparation, outer body panel repairs, replacements and adjustments, metal finishing and body filling, moveable glass and hardware, metal welding and cutting, and plastics and adhesives.

Offered: Fall.

AUT 172 Introduction to Mechanical and Electrical Systems

4 cr. hrs. 6 periods (2 lec., 4 lab)

Mechanical and electrical collision repair of automotive vehicles. Includes suspension and steering, electrical, brakes, heating and air conditioning, cooling systems, drive train, fuel, intake and exhaust systems, and restraint system.

Offered: Fall.

AUT 173 Painting and Refinishing

4 cr. hrs. 6 periods (2 lec., 4 lab)

Collision repair preparation, mixing, and applying paint. Includes safety precautions, surface preparation, spray gun and related equipment operation, paint mixing, matching and applying, paint defects—causes and cures, and final detail.

Offered: Fall.

AUT 185 Automotive Shop Skills Application

.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)

Light line diagnosis and repair of daily use vehicles. Includes preparing repair orders, complaint procedures, researching service data, vehicle service and repair tasks, and shop maintenance. Also includes the industry standard of complaint, cause, and correction.

Information: Completion of an AUT prefix course in the same specialty area and approval of automotive department chair or instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

AUT 190 Automotive Internship

1-3 cr. hrs. 5-15 periods (5-15 lab)

Volunteer internship field work experience at an approved work site. Includes safety and hazardous materials handling, vehicle inspection, work and parts orders, thread and fastener repair, engine mechanical systems, engine performance, transmission and driveline systems, brake systems, heating, ventilating, and air conditioning (HVAC) systems, electrical systems, and suspension and steering systems.

Prerequisite(s): AUT 100, 101, 105, 140, 142 and satisfactory completion of the proficiency exam with a minimum score of 80% on the written exam and 90% on the practical exam, and a 3.5 Grade Point Average (GPA) in AUT coursework.

Information: Enrollment and placement contingent upon completion of prerequisite courses, earned Grade Point Average, and satisfactory score on automotive proficiency exam. Designed for students in their third and fourth semester of course work in the automotive program.

Offered: May not be offered this year, check class schedule.

AUT 199 Introduction to Co-op: Automotive Technology

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education for description.

Corequisite(s): AUT 199WK

Information: May be taken two times for a maximum of two credit hours.

Offered: May not be offered this year, check class schedule.

AUT 199WK Co-op Work: Automotive Technology

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education for description.

Corequisite(s): AUT 199

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

AUT 297S1 Automotive Seminar:

1 cr. hrs. 1 periods (1 lec.)

Automotive job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

AUT 299 Introduction to Co-op: Automotive Technology

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for second-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): AUT 299WK

Information: May be taken two times for a maximum of two credit hours.

Offered: May not be offered this year, check class schedule.

AUT 299WK Co-op Work: Automotive Technology

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): AUT 299

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

Aviation Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

AVM 101 Structural Repair I

4 cr. hrs. 8 periods (2 lec., 6 lab)

Structural repair of fuselage, wings and empennage groups. Includes safety, hand and machine cutting, and measuring tools. Also includes layout methods and structural repair processes.

Recommendation: Completion of mathematics assessment above MAT 082 before enrolling in this course.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall.

AVM 102 Structural Repair II

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of AVM 101. Includes safety, bend allowance, layout, fasteners, machine usage, patching techniques and structural repair techniques.

Prerequisite(s): AVM 101.

Offered: Spring.

AVM 105 Aircraft Sheetmetal Repair

5 cr. hrs. 8 periods (2 lec., 6 lab)

Principles and procedures for fuselage, wing, and empennage sheetmetal repair. Includes safety, hand tools, layout methods, materials, fasteners, repair techniques, parts fabrication, and corrosion prevention and control.

Offered: Fall, Spring.

AVM 110 Aircraft Blueprint Reading

3 cr. hrs. 3 periods (3 lec.)

Theory and application of aircraft blueprint reading. Includes types of aircraft drawings, measuring tools, drawing and lay-out equipment, types of views, projections, reference lines, drawing format, title block, manufacturing codes, symbology for fasteners, hardware, and materials. Also includes production of aircraft drawing, sketches, usage of aircraft schematics, graphs, charts, detail, assembly and exploded diagrams.

Offered: Fall.

AVM 114 Regulatory Requirements

3 cr. hrs. 3 periods (3 lec.)

Federal Aviation Administration (FAA) regulatory requirements. Includes certification of aircraft and components, FAA regulations for aircraft maintenance, FAA publications, manufacturing standards, inspection requirements, maintenance, mechanic certification, maintenance publications and forms, and aircraft logs.

Offered: Fall.

AVM 130 Aircraft Composite Repair

5 cr. hrs. 8 periods (2 lec., 6 lab)

Construction and repair processes using advanced composite materials. Includes reinforcing fibers, matrix and core materials, manufacturing of components, composite safety, curing wet layup and prepreg repairs, tools and equipment, and inspection and damage assessment.

Information: Consent of instructor is required before enrolling in this course.

Offered: Spring.

AVM 150 Structural Repair III

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of AVM 102. Includes repair publications, materials handling, cable fabrication, machining processes, protective coatings, hand forming and structural repair processes.

Prerequisite(s): AVM 102.

Offered: Fall.

AVM 151 Structural Repair IV

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of AVM 150. Includes tube and hose fabrication, locking fasteners, damage classifications and structural repair processes.

Prerequisite(s): AVM 150.

Offered: Spring.

AVM 165 Aircraft Hardware and Fasteners

3 cr. hrs. 3 periods (3 lec.)

Aircraft structural repair hardware and fasteners. Includes specifications and standards, types, control linkages, tubing, hose and packings.

Offered: Fall.

AVM 202 Aviation Safety

3 cr. hrs. 5 periods (1 lec., 4 lab)

Introduction to aviation safety procedures. Includes personal safety issues, human factors, accident avoidance, facility fire protection, hazardous materials safety and handling procedures, ramp procedures for movement, and se-

curing and servicing of aircraft and ramp support equipment. Also includes Forklift and scissors lift training.
Offered: Fall, Spring.

AVM 203 Structural Repair V

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation AVM 151. Includes jiggling, shoring and alignment, corrosion and heat treatment and structural repair processes.

Prerequisite(s): AVM 151 and 160.

Offered: Spring.

AVM 204 Structural Repair VI

4 cr. hrs. 8 periods (2 lec., 6 lab)

Continuation of AVM 203. Includes sealants and sealant applications, heat treatment, plastics and plastic repairs and structural repair processes.

Prerequisite(s): AVM 203.

Offered: Spring

AVM 205 Motion Dynamics

3 cr. hrs. 5 periods (1 lec., 4 lab)

Principles of hydraulic power. Includes basic physics, basic mechanics, heat and fluid dynamics, fabrication and installation of fluid lines and fittings, laws of motion, basic aerodynamics, and aircraft nomenclature.

Offered: Fall.

AVM 206 Materials and Processes

3 cr. hrs. 5 periods (1 lec., 4 lab)

Introduction to non-metallic and metallic structural materials for comparison of their structural properties. Includes structural materials, metal processing, heat treatment, heat treatment of alloys or limited use metals, non-destructive testing/inspection, corrosion, corrosion types and factors, corrosion-prone areas, corrosion control: steel, aluminum, and limited use metals, processes and materials for corrosion control, aircraft cleaning, and aircraft cleaning agents.

Offered: Fall.

AVM 207 Weight and Balance

3 cr. hrs. 5 periods (1 lec., 4 lab)

Preparing aircraft for weight and balance. Includes referencing service and maintenance manuals, type certificate data sheets, terms, standard weight and balance practices, weighing an aircraft, principles of calculating center of gravity, correction of out of balance conditions, addition and subtraction of equipment, equipment list, flight manual updates, control surface balancing, identification and selection of standards hardware, installation and assembly of specialty hardware, and precision measuring equipment.

Offered: Fall.

AVM 208 Basic Electricity

5 cr. hrs. 8 periods (2 lec., 6 lab)

Introduction to basic aircraft electricity. Includes study of the structure of matter, electron theory, current/ electron flow, direct current, alternating current, Ohm's Law, Kirchoff's laws, circuit elements, electrical calculation and measurements, interpreting schematics and other wiring diagrams, battery theory and maintenance, aircraft electrical systems, and introduction to communication and navigation radio systems.

Prerequisite(s): GTM 105.

Offered: Fall.

AVM 209 Intermediate Electricity

5 cr. hrs. 8 periods (2 lec., 6 lab)

Intermediate electricity includes the study of aircraft airframe electrical components as well as airframe and powerplant electrical systems. Includes electric motors, generators and generator controls, alternators, inverters and related controls, power distribution systems, design and maintenance of aircraft electrical systems, digital electronics, analog electronics, communication and navigation systems, communications, weather warning systems, and electric instruments and autoflight systems.

Prerequisite(s): AVM 208.

Offered: Spring.

AVM 210 Advanced Composite Aircraft Repair I

4 cr. hrs. 4 periods (4 lec.)

Theory and application of composite materials utilized in aircraft construction. Includes material types, handling and storage, manufacturing techniques, design criteria, safety, tool and equipment usage, damage and repair assessment, repair techniques, fastening systems, and documentation. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core structures.

Prerequisite(s): AVM 101, 105, or 110 and 115 or concurrent enrollment.

Corequisite(s): AVM 210LB

Offered: Summer.

AVM 210LB Advanced Composite Aircraft Repair I Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of AVM 210.

Corequisite(s): AVM 210

Offered: Summer.

AVM 211 Alternate Structure

5 cr. hrs. 8 periods (2 lec., 6 lab)

Aircraft structural fabrication using wood, tube steel and fabric processes and techniques. Includes structural types, wood and welded tube steel fabrication methods, welding of typical metals used in aircraft construction, fabric covering processes, inspection and maintenance typical repair procedures, and aircraft finishings.

Offered: Fall, Summer.

AVM 218 Airframe Rigging and Landing Gear System

3 cr. hrs. 5 periods (1 lec., 4 lab)

Identification, assembly, alignment, balancing and rigging of aircraft rigging and landing gear systems. Includes aircraft nomenclature, characteristics of flight, flight control system, airframe assembly, rigging, structural alignments, control surface balancing, landing gear, shock struts, landing gear retraction, wheel alignment and steering, brake system servicing, brake assemblies, wheels, tires, warning systems, and anti-skid system.

Offered: Fall, Summer.

AVM 219 Airframe Inspections

3 cr. hrs. 5 periods (1 lec., 4 lab)

Conformity Inspections of airframes. Includes inspections of incoming spare parts and stock items, airframe and equipment conformity inspections, airframe and systems airworthiness and conformity inspections, conformity inspections of installed equipment, annual and 100-hour inspections of small aircraft, including research of all pertinent inspection documents, service or maintenance manuals, type certificate data sheets, airworthiness directives, service bulletins and additional instructions for continued airworthiness, inspection procedures for large aircraft work orders, non-routine job cards used by local aviation maintenance companies.

Offered: Summer.

AVM 222 Advanced Electrical System Airframe

5 cr. hrs. 8 periods (2 lec., 6 lab)

Theory and application of aircraft electrical power systems. Includes airframe systems and components, electronic flight instrument, auto pilots, serves and approach coupling systems, communication and navigation systems, antenna systems, fuel management, fluid quantity, pressure systems, AC, DC power generation and distribution, cabin temperature, pressurization, control systems, hydraulic power, landing gear safety sensor, auto brake and anti-skid systems, flight control, load and feel limiting and lighting systems.

Prerequisite(s): AVM 209.

Offered: May not be offered this year, check class schedule.

AVM 223 Hydraulic and Pneumatic Power

3 cr. hrs. 5 periods (1 lec., 4 lab)

Hydraulic and pneumatic system components. Includes system operating principles, fluids, pressures, hydraulic powered flight controls, landing gear, braking and accessory power systems, pneumatically powered or assisted accessories, and system and component inspection servicing and repairs.

Offered: Spring, Summer.

AVM 224 Atmospheric Controls

3 cr. hrs. 5 periods (1 lec., 4 lab)

Atmospheric controls and its elements that are of concern to flight. Includes ice and rain detection and control systems, types of operations and maintenance, physiological requirements for flight crews and passengers and the human support systems, oxygen systems, cabin pressurization system and their operations, and safety and maintenance requirements.

Offered: Fall, Spring.

AVM 225 Fire, Ice, Rain, and Fuel Systems

3 cr. hrs. 5 periods (1 lec., 4 lab)

Theory and application of fire, ice, rain and fuel systems. Includes fire detection terms, extinguishing and protection systems, smoke detection, fire warning, fire extinguishing system components used, how systems function, inspection testing and maintenance, ice and rain protection terms, formation and conditions for icing of aircraft, ice and rain detection, protection systems components, functions, inspection and maintenance, fuel system terms, safety system requirements, fuel tank types and construction, indicating, fueling, and defueling inspection and maintenance.

Offered: Fall, Spring.

AVM 226 Engine Electrical

3 cr. hrs. 5 periods (1 lec., 4 lab)

Inspection, repair, and modification of engine electrical systems. Includes magneto(s) (components, tooling, wiring, and drives), ignition switches, ignition harness, ignition booster system, spark plugs, engine ignition analyzers, turbine engine (ignition transformers and igniter plugs), engine electrical controls (switches, fuses and circuit breaker, circuits, wiring, installation, and engine bulkhead), and technical data manuals and catalogs.

Offered: Fall.

AVM 227 Engine Air Flow Systems

3 cr. hrs. 5 periods (1 lec., 4 lab)

Fundamentals of engine air flow systems. Includes reciprocating engine induction systems, alternate induction air systems, induction systems maintenance, superchargers, turbochargers, turbo compound systems, reciprocating engine exhaust systems, exhaust subsystems, exhaust system maintenance, reciprocating engine cooling, turbine engine induction systems, turbine engine cooling, turbine engine exhaust systems, turbine engine exhaust systems maintenance, and turbine engine airflow subsystems.

Offered: Fall.

AVM 228 Aircraft Propellers

3 cr. hrs. 5 periods (1 lec., 4 lab)

Basics of aircraft propellers. Includes propeller nomenclature, types, construction, theory, installations, and maintenance, constant speed systems, feathering systems, reversing systems, icing systems, synchronizing systems, and unducted fans.

Prerequisite(s): AVM 231.

Offered: Fall.

AVM 229 Engine Support Systems

5 cr. hrs. 8 periods (2 lec., 6 lab)

Theory and application of support systems for gas turbine engines. Includes fire protection, fire detection systems, fire extinguishing agents, fire protection systems, fire detection system maintenance, turbine engine pneumatic systems, pneumatic starting systems, thrust reversers, auxiliary power units, turbine engine removal, turbine engine installation, and engine storage and transport.

Prerequisite(s): AVM 226, 231, and 234.

Offered: Spring.

AVM 231 Engine Principles, Monitoring and Inspection

5 cr. hrs. 8 periods (2 lec., 6 lab)

Principles, monitoring, and inspection of engines. Includes theory and construction of powerplants, requirements, types of engines, reciprocating engine design and construction, radial engine design and construction, reciprocating engine operating principles, engine power and efficiencies, turbine engine construction, turbine engine sub-assemblies, turbo prop engines, turbine engine operation principles, engine instrumentation, instrument principles of operation, maintenance of instruments and systems, and engine inspection..

Offered: Fall.

AVM 232 Reciprocating Engine Overhaul

5 cr. hrs. 8 periods (2 lec., 6 lab)

Basic aircraft reciprocating engine overhaul. Includes engine components, wrist pins, connection rods, crankshafts, case, cam shafts, lifters, valves, push rods/tubes, rocker assemblies, accessories, lubrication, overhaul options, overhaul credentials, overhaul procedures, reassembly after overhaul, engine installations, engine break-in, and test cell procedures.

Offered: Fall.

AVM 233 Turbine Engines

5 cr. hrs. 8 periods (2 lec., 6 lab)

Basic gas turbine engine and turbo propeller component makeup and repair. Includes inspection, servicing, and repairs performed on engine components: compressor, diffuser, combustion, accessory drive, and lubricating system. Also includes a reassembly overhaul.

Offered: Fall.

AVM 234 Engine Fuel Metering and Operation

5 cr. hrs. 8 periods (2 lec., 6 lab)

Fundamentals of aircraft fuel systems. Includes fuel metering theory and requirements, aviation fuels, float type carburetion, float carburetor maintenance and installation; pressure carburetor maintenance and installation; fuel injection systems, Bendix fuel injection and maintenance, TCM fuel injection and maintenance, fuel metering system components and maintenance, turbine engine fuel systems maintenance, components, and jet fuel controls; and reciprocating, turbine, and turbo propeller engine operations.

Prerequisite(s): AVM 226, 228, and 231.

Offered: Spring.

AVM 260 Advanced Composite Aircraft Repair II

1 cr. hrs. 1 periods (1 lec.)

Theory and application of composite and bonded metal structures utilized in aircraft construction. Includes repair methods selection, source documents, repair methods and design criteria, bonded metal repairs, tank and non-tank processing, priming, and environmental considerations. Also includes a heavy emphasis on repair performance utilizing the Structural Repair Manuals for composite monolithic and sandwich core, and bonded metal structures.

Prerequisite(s): AVM 210/LB.

Corequisite(s): AVM 260LB

Offered: Spring.

AVM 260LB Advanced Composite Aircraft Repair II Lab

3 cr. hrs. 9 periods (9 lab)

This is the Lab portion of AVM 260.

Corequisite(s): AVM 260

Offered: Spring.

Avionics Technician Training

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ATT 101 Avionics Familiarization

3 cr. hrs. 3 periods (3 lec.)

Overview of the evolution of modern avionics. Includes the role and responsibilities of the Avionics Technician. Includes the classification and requirements of airports, airspace and atmospheric environments, and types of avionics equipment used today; instrument, crew cabin layouts and user modes. Also includes advisory circulars and regulations pertaining to operation and management.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 102 Aircraft Electrical Systems

3 cr. hrs. 3 periods (3 lec.)

An overview of aircraft electrical systems, AC and DC power generation and distribution for small general aviation (GA), corporate, and commercial airline transport aircraft. Includes electrical schematics, manuals, and diagrams. Also includes aircraft system power requirements for avionics, fuel and flight management, cabin atmospheric control, landing gear and flight controls, load, fuel, safety, warning systems, cabin lighting, and entertainment systems.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 103 Basics of Avionics Installation

3 cr. hrs. 4 periods (2 lec., 2 lab)

Concepts, techniques, and skills to install electronic and avionics equipment and panel layout standards. Includes avionics support structures installations, fabrication, modification of fabrication, and instrument panels. Includes electrical equipment bays, instrument mounting, handling precautions for sensitive devices, equipment cooling, typical wiring diagrams, installation drawings, conductor and coaxial types, cutting, sizing, termination, marking, bundling, anchoring techniques and practices. Also includes circuit protection devices, terminal installation, connectors and typical shop tooling, pitot-static system, turn and bank, artificial horizon, basic flight instrumentation, installation and troubleshooting.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 104 Operating Systems I, Communication and Navigation

3 cr. hrs. 4 periods (2 lec., 2 lab)

Topical discussion on typical communication and navigation systems, schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features. Includes standard wiring practices of single and multiple flight instrumentation sources, location reporting equipment, as well as essential standard avionic basic flight devices.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Summer.

ATT 105 NCATT-AET Exam Preparation

3 cr. hrs. 3 periods (3 lec.)

Preparation for the National Center for Aircraft Technician Training-Aircraft Electronics Technician (NCATT-AET) examination. Includes general electrical theories and principals. Includes all the essential subject matter required to take the NCATT-AET test. Also includes safety, terminology phraseology, standard operating systems, standard practices, electrical theories, and common hand

tooling selection.
Offered: Fall, Spring, Summer.

ATT 106 FCC Exam Preparation (PG)

3 cr. hrs. 3 periods (3 lec.)

Preparation for the Federal Communications Commission (FCC) license examination. Includes general electrical theories, principals, safety, hazards, regulations, and terminology. Also includes additional exposure to outmoded systems and materials will be reviewed to compliment the test questions.

Offered: Fall, Spring, Summer.

ATT 200 Communication and Navigation Installation

5 cr. hrs. 7 periods (3 lec., 4 lab)

Installation of typical communication and navigation systems, schematic usage, special tooling and equipment, switching, circuit protection, and instrument panel modification and installation features. Includes standard wiring and installation practices of single and multiple flight instrumentation sources, location reporting equipment, and essential standard avionic basic flight devices.

Prerequisite(s): ATT 103, 104.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Summer.

ATT 201 Operating Systems II, GPS Navigation and Auto Pilot

3 cr. hrs. 3 periods (3 lec.)

Principles of operation and usage by flight crews demonstrated with flight simulators. Includes installation planning for electrical system requirements, typical mounting, wiring methods, connectors and antenna installation. Also includes pre- and post-installation verification of system integration, functional testing; troubleshooting on Global Positioning Systems (GPS) and Auto Pilot System

Prerequisite(s): ATT 104, and 200.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Fall.

ATT 202 GPS Navigation and Auto Pilot Installation

5 cr. hrs. 7 periods (3 lec., 4 lab)

Principles of operation and usage by flight crews (flight simulator). Includes installation planning for electrical system requirements, typical mounting, wiring methods, connectors and antenna installation. Includes pre- and post-installation verification of system integration, functional testing, troubleshooting on Global Positioning Systems (GPS) and Auto Pilot Systems. Also includes an introduction to the installation of engine indicating instruments and their relationship to the instrument console.

Prerequisite(s): ATT 104, and 201.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Fall.

ATT 203 Avionics Test Equipment

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of the evolution of the modern avionics? systems, test equipment, operation of and training for test equipment. Includes functional testing of pitot static, transponder and altitude reporting units, Very High Frequency Omnidirectional Range (VOR), Global Positioning System (GPS), and compass navigation devices installed in aircraft or functioning mockups. Also includes special tooling and test apparatuses, the handling of aircraft, safety to personnel and equipment undergoing testing.

Prerequisite(s): ATT 104, and 200.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Fall.

ATT 204 Glass Cockpit Installer

5 cr. hrs. 7 periods (3 lec., 4 lab)

Installation of glass cockpit systems. Includes panel installation, functional checks, troubleshooting, installation and handling practices for Multifunction Display Units (MFD), Primary Flight Displays (PFD), and Engine Indicating and Crew Alerting Systems (EICAS). Also includes glass cockpit upgrade training, to include the removal of older ?steam? gauges and various other indication instruments and replace them with modern glass cockpit indicating systems.

Prerequisite(s): ATT 103, and 200.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Summer.

ATT 205 Operating Systems III, Infrared and Weather Radar

3 cr. hrs. 3 periods (3 lec.)

Principles of operation and usage by flight crews (demonstrated through a flight simulator). Includes installation planning, electrical system requirements, typical mounting, wiring methods, connectors and antenna installation. Includes system integration, functional testing of Enhanced Vision Systems (EVS), Weather (Wx) Radar, and radio altimeter systems. Also includes the coverage of the operation, installation, troubleshooting and safety training of EVS systems.

Prerequisite(s): ATT 101, and 102.

Information: Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 206 Infrared and Weather Radar Installation

5 cr. hrs. 7 periods (3 lec., 4 lab)

Installation of typical Weather Radar, Radio Altimeter Systems and Enhanced Vision Systems. Includes schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features for modification for installation. Includes standard wiring and installation practices of stand alone and integrated avionic devices and multifunctional display equipment. Also includes a mandatory requirement that all installed equipment be functional tested after installation of equipment.

Prerequisite(s): ATT 103, and 205.

Information: Includes an emphasis on one-on-one system operation, testing, and troubleshooting techniques, from technicians that are trained on the aircraft systems. Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 207 Operating Systems IV, Special Navigation Equipment

3 cr. hrs. 3 periods (3 lec.)

Operation and installation for Ground Proximity Warning Systems (GPWS), Terrain Awareness and Warning Systems (TAWS), and Traffic and Collision Avoidance Systems (TCAS). Includes schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features for modification and installation. Also includes standard wiring and installation practices of stand alone and integrated avionic devices and multifunctional display equipment.

Prerequisite(s): ATT 101, and 102.

Information: Includes an emphasis on one-on-one system operation, testing, and troubleshooting techniques from technicians that are trained on aircraft systems. Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 208 Special Navigation Equipment Installation

5 cr. hrs. 7 periods (3 lec., 4 lab)

Installation of typical Ground Proximity Warning systems (GPWS), Terrain Awareness and Warning Systems (TAWS) and Traffic and Collision Avoidance Systems (TCAS). Includes schematic usage, special tooling and equipment, switching, circuit protection, instrument panel features for modification and installation. Includes standard wiring and installation practices of stand alone and integrated avionic devices and multifunctional display equipment with function check and test after installation. Also includes instrument equipment technician familiarization training in flight simulators.

Prerequisite(s): ATT 101, and 102. *Information:* Includes an emphasis on one-on-one system operation, testing, and troubleshooting techniques from technicians that are trained on aircraft systems. Additional self-paced independent course study materials are required for non-certified Airframe and Powerplant students.

Offered: Spring.

ATT 209 NCATT - AET Additional Ratings Exam Preparation

3 cr. hrs. 3 periods (3 lec.)

Preparation for the National Center for Aircraft Technician Training-Aircraft Electronics Technician (NCATT-AET) examination additional ratings including advanced weather equipment, Enhanced Synthetic Vision (EVS). Includes general obstacles to taking the additional ratings for the NCATT-AET navigation (Nav) and communication (Com) ratings.

Prerequisite(s): ATT 105.

Information: Current Natina; Center for Aircraft Technician Training - Aircraft Electronics Technician (NCATT-AET) certification is required prior to enrolling in this course.

Offered: Fall, Spring.

Biology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

BIO 100IN Biology Concepts

4 cr. hrs. 6 periods (3 lec., 3 lab)

Basic principles and concepts of biology. Includes methods of scientific inquiry, cell structure and chemistry, metabolism, reproduction, genetics, molecular biology evolution, and ecology and current issues in biology.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 104IN Animal Sexual Behavior

4 cr. hrs. 6 periods (3 lec., 3 lab)

Exploration of animal mating patterns via behavioral research. Includes animal behavior, evolutionary concepts, genetics of behavior, maximizing reproduction, and student research projects.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 105IN Environmental Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Fundamentals of ecology and their relevance to human impact on natural ecosystems. Includes ecosystem structure and function, population dynamics, and human impacts on air, water, land, and biodiversity.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 108IN Plants, People and Society

4 cr. hrs. 6 periods (3 lec., 3 lab)

Past, present and future roles of plants in our lives. Includes basic principles of botany, modern, historical and regional perspectives on human use of plants, and present and future practices in plant cultivation.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 109IN Natural History of the Southwest

4 cr. hrs. 6 periods (3 lec., 3 lab)

Study of the common plants and animals of the Southwest. Includes their identification, adaptation, behavior and ecology. Also includes physical geography and geological principles of the region.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 110 Techniques and Mathematics for the Laboratory

2 cr. hrs. 2 periods (2 lec.)

Introduction to the use of proper techniques and mathematical calculations in a laboratory setting. Includes safety, laboratory mathematics, and ancillary equipment and instruments.

Prerequisite(s): MAT 092 or required score on assessment test, and CHM 080 or 130 or placement into CHM 151.

Information: Prerequisites may be waived with consent of instructor.

Offered: Fall, Spring.

BIO 115IN Wildlife of North America

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the mammals, birds, fish, reptiles, amphibians, and selected invertebrates of North America. Includes habitats, wildlife interrelationships, population dynamics, and discussion of national, state, and private wildlife agencies. Also includes a laboratory emphasis on native Arizona species.

Information: IN is the integrated version of the course with lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 121IN Current Issues in Human Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Exploration of current topics in human biology. Includes genetics, human biology diversity, reproduction, development and aging. Also includes current topics in human health and human impacts on the environment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Spring.

BIO 127IN Human Nutrition and Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Same as FSN 127IN.

Offered: Fall, Spring, Summer.

BIO 135 Genetics, Biotechnology and Human Affairs

4 cr. hrs. 6 periods (3 lec., 3 lab)

An introduction to human genetics and biotechnology including career exploration, history and application of recombinant DNA technology, the human genome project, and laboratory safe practices. Includes introduction to biotechnology, fundamentals of cell biology and genetics, applications of biotechnology, bioethics, careers in biotechnology, and laboratory techniques.

Recommendation: Completion of high school Chemistry and high school Biology before enrolling in this course.

Offered: Fall, Spring, Summer.

BIO 156IN Intro Biology Allied Health

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introductory Biology for Allied Health Introduction to biology for the health professions. Includes principles of science, scientific measurement and laboratory techniques, chemistry of life, cell anatomy and physiology, cellular reproduction, patterns of inheritances and human tissues.

Recommendation: Completion of CHM 130 before enrolling in this course.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 160IN Introduction to Human Anatomy and Physiology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Structure and dynamics of the human body. Includes foundations such as chemical, cellular and tissue levels of organization. Also includes major structures and functions of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 181IN General Biology I: (Majors)

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles of structure and function of living things at the molecular, cellular and organismic levels of organization. Includes introduction to the scientific process, scientific measurements and laboratory techniques, chemistry of cells, organization of cells, metabolism, patterns of cell division, patterns of inheritance, nucleic acids, and biotechnology.

Prerequisite(s): CHM 151, placement into MAT 122 on Mathematics assessment test, REA 091 or required score on Reading assessment test.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Prerequisites may be waived with consent of instructor. See a Biology instructor for prerequisite information.

Offered: Fall, Spring, Summer.

BIO 182IN General Biology II: (Majors)

4 cr. hrs. 6 periods (3 lec., 3 lab)

Additional principles of living things at the levels of organism, population, community, and ecosystem. Includes evolution of life, classification of organisms, survival strategies, interactions between organisms and with their environment, ecosystem structure, and human impacts upon the biosphere.

Recommendation: Completion of BIO 181 before enrolling in this course.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 183IN Marine Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Survey of marine environments and their biotic communities. Includes scientific measurements and laboratory techniques, principles of marine science, life in the marine environment, structure and function of marine ecosystems, and humans and the sea. Also includes an emphasis on the natural history of marine organisms.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

BIO 184IN Plant Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Study of principles and processes in plant biology with emphasis on vascular plants. Includes plant structure, plant physiology and development, genetics, and evolution, and ecology.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Spring.

BIO 187IN Introduction to Biological Research

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the methods of research in biology. Includes scientific laboratory procedures, experimental design, scientific writing, bioethics, and current research in working laboratories.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: May not be offered this year, check class schedule.

BIO 201IN Human Anatomy and Physiology I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Structure and function of the body. Includes levels of organization, homeostasis and disease, anatomical terms, integumentary system, skeletal system and articulations, muscular and nervous systems, and special senses.

Prerequisite(s): BIO 156IN with a C or better or completion of a 200 level (or higher) Human Anatomy and Physiology course with a C or better or required score on Biology assessment test.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 202IN Human Anatomy and Physiology II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of BIO 201IN. Includes the structure and function of the endocrine cardiovascular, lymphatic/immune, respiratory, digestive, urinary, and reproductive systems.

Prerequisite(s): BIO 201IN with a C or better.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 203 Anatomy and Physiology Review for Health Related Professions

1 cr. hrs. 1 periods (1 lec.)

Review of human body systems which includes clinical application of human anatomy and physiology. Includes the integumentary, skeletal, muscular, nervous, endocrine, circulatory, immune, respiratory, digestive, urinary/renal, and reproductive systems.

Prerequisite(s): BIO 201IN and 202IN with a C or better.

Recommendation: For students who are preparing to take board exams in the health related professions, or those who wish to review anatomy and physiology.

Information: May be taken three times for a maximum of three credit hours.

Offered: Fall, Spring.

BIO 205IN Microbiology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Study of microorganisms and their relationship to health, ecology, and related fields. Includes classification, metabolism, microbial control, and immunity. Also includes an overview of viruses and the pathogenic fungi.

Prerequisite(s): BIO 156IN, 160IN, 181IN or required score on the Biology assessment test.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

BIO 206 Biotechnology Instrumentation I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles and methodologies of recombinant DNA technology. Includes preparation of solutions and growth media in a laboratory setting, and genetic analyses.

Offered: Fall.

BIO 207 Biotechnology Instrumentation II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles and methodologies of protein expression, isolation, identification and purification. Includes immunological and cell culture techniques.

Offered: Spring.

BIO 250 Biomedical Ethics

3 cr. hrs. 3 periods (3 lec.)

Introduction to the nature and scope of decision making in public health, medicine and health care, as it relates to bioethical issues. Includes overview of dilemmas in bioethics, legal, social and ethical issues in human genetics, the beginning of life, and the end of life. Also includes life and death decisions, human organ transplantation, and regulations of human research.

Offered: Fall, Spring.

BIO 289 FACES-Fostering & Achieving Cultural Equity & Sensitivity

3-4 cr. hrs. 7-8 periods (1-2 lec., 6 lab)

Introduction to current health care opportunities and issues affecting health care. Includes guided rotations in a hospital and/or clinic. Also includes a speaker series that focuses on issues of diversity that impact health care in the United States today and opportunities in the health care professions.

Information: This course is offered in collaboration with the Office of Minority Affairs at the University of Arizona.

Offered: Fall, Spring.

BIO 290 Field Biology: Ecological and Environmental Field Experience

1 cr. hrs. 5 periods (5 lab)

Field expeditions in which ecological and environmental principles and concepts are observed and studied. Includes natural organism in the field area, biotic communities and ecosystems, human impacts on ecosystems, and the local government's role.

Information: Consent of instructor is required before enrolling in this course. May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

BIO 295LB Independent Research in Biology

1-4 cr. hrs. 3-12 periods (3-12 lab)

Experience in scientific laboratory or field research. Specific content to be determined by student and instructor.

Information: One semester of biology and consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

BIO 296 Special Projects

1-4 cr. hrs. 3-12 periods (3-12 lab)

Exploration of special interest areas. Content to be determined by student and facilitator/instructor.

Information: One year of biology is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring, Summer.

BIO 299 Introduction to Co-op: Biotechnology

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Includes biotechnology workplace skills, communication, time and energy management, stress and its management, careers, placing yourself on the job market, principles, techniques, and practices in the career field, and problems in the work situation.

Prerequisite(s): BIO 206 and 207 with a grade of B or better.

Corequisite(s): BIO 299WK

Recommendation: Completion of CHM 236 before enrolling in this course. Information: May be taken two times for a maximum of six credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

BIO 299WK Co-op Work in Biotechnology

3 cr. hrs. 15 periods (15 lab)

A supervised cooperative work program for students in the biotechnology industry or academic research. Teacher-coordinators work with students and their supervisors in industry or research. The student develops competency and improved self confidence in the biotechnology workplace. This may be paid or unpaid experience.

Prerequisite(s): BIO 206 and 207 with a grade of B or better.

Corequisite(s): BIO 299

Recommendation: Completion of CHM 236 before enrolling in this course. Information: May be taken two times for a maximum of six credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

Building and Construction Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

BCT 100 Professionalism in Service for BCT

1 cr. hrs. 1 periods (1 lec.)

Procedures in business and customer service. Includes an introduction to professionalism, self-evaluation, service routine, dealing with a dissatisfied customer, and problem situations.

Offered: Fall, Spring, Summer.

BCT 101 Principles of Construction

3 cr. hrs. 3 periods (3 lec.)

Building the human environment. Includes introduction to the construction industry, types of construction, regulations, patterns as a concept, methods, and construction process.

Offered: Fall, Spring.

BCT 102 Building Materials

3 cr. hrs. 3 periods (3 lec.)

Construction standards and specific types of building materials used in commercial, industrial, and private construction projects. Includes construction standards, site work, concrete, masonry, metals, wood and wood products, thermal and moisture protection, doors and windows, finishes, specialties, equipment, furnishings, special construction, conveying systems, mechanical systems, and electrical systems.

Offered: Fall, Spring.

BCT 104 Introduction to Equipment Maintenance

4 cr. hrs. 6 periods (2 lec., 4 lab)

Procedures and concepts for maintaining buildings in a commercial/industrial setting. Includes preventative maintenance requirements, maintenance terminology, industrial tool use, electrical equipment maintenance, electrical feed, bearing applications, sheaves applications, flexible drives and V-belts, centrifugal pump maintenance, vacuum pump maintenance, fire suppressant system maintenance and repair, metal fabrication, steel pipe plumbing, as-built print reading, lubricants, and interior wall frame/ construction.

Prerequisite(s): BCT 111, 112, 113, 114, 115, and 172 or concurrent enrollment.

Offered: Fall, Spring, Summer.

BCT 106 Soldering and Brazing for BCT

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and technologies of joining different types of alloys by braze welding and soldering. Includes safety and health, procedures and design, pre-cleaning and surface preparation, filler metals, fluxes and atmospheres, torch brazing, pipe and tube, copper, and cast iron.

Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.

Offered: Fall, Spring, Summer.

BCT 111 Basic Safety for the Building Trades

1 cr. hrs. 1 periods (1 lec.)

Introduction to federal safety training standards. Includes employer responsibility-employee right to know, personal protective equipment, material handling, hand and power tools, electrical hazards, hazards communication standards, fire safety, scaffolds, fall protection, cranes, and stairways and ladders.

Information: Successful completion of this course qualifies the student for the 10 hour safety training card.

Offered: Fall, Spring, Summer.

BCT 112 Construction Mathematics, Communication and Employability

1 cr. hrs. 1 periods (1 lec.)

Introduction to basic mathematics concepts and employability in the construction industry. Includes whole numbers, measurements, fractions, decimals, conversion process, metric system, construction geometry, reading, writing, listening, and speaking skills, employability in the construction business, critical thinking and computer skills, relationship skills, and workplace issues.

Information: Mathematics assessment test is required before enrolling in this course.

Offered: Fall, Spring, Summer.

BCT 113 Hand and Power Tools

1 cr. hrs. 1 periods (1 lec.)

Selection and safety procedures Includes trades terms, hand tool, and power tool use to specific jobs in the construction industry.

Offered: Fall, Spring, Summer.

BCT 114 Blueprint Reading

1 cr. hrs. 1 periods (1 lec.)

Basic concepts of blueprints. Including terms and symbols, components, measuring tools, line types and symbols, abbreviations, grid lines, plan loca-

tions, and dimensions, production techniques, and blueprint reading parts and locations.

Offered: Fall, Spring, Summer.

BCT 115 Basic Rigging

1 cr. hrs. 1 periods (1 lec.)

Rigging hardware and equipment. Includes safety, rigging equipment, inspection, crane hand signals, estimating an object, common rope knots, types of derricks and cranes, and rigging and moving equipment use.

Offered: Fall, Spring, Summer.

BCT 120 Blueprint Reading for Construction

3 cr. hrs. 3 periods (3 lec.)

Residential and light commercial blueprint reading. Includes blueprint symbols and terminology, construction materials, applications and specifications for commercial buildings, light frame and brick veneer construction, and appropriate mathematics.

Recommendation: Completion of BCT 112 and 114 before enrolling in this course.

Offered: Fall, Spring.

BCT 123 Concrete/Masonry

3 cr. hrs. 5 periods (1 lec., 4 lab)

Basic concepts and materials for concrete construction, finishing, and masonry work. Includes trade terminology, composition and characteristics of concrete, uses of concrete as a building material, effects of craftsmanship on finished concrete, concrete construction process, site operations and work set-up, history of masonry, and modern masonry materials and methods.

Offered: Spring.

BCT 130 EPA Clean Air Act: Section 608

1 cr. hrs. 1 periods (1 lec.)

Freon certification preparation. Includes basics of refrigerant bearing equipment, ozone depletion and the new legislation, technician categories covered on the certification examination, and certification testing.

Prerequisite(s): BCT 127.

Information: Prerequisites may be waived with consent of instructor if the student has HVAC systems competency or field experience.

Offered: Fall, Spring, Summer.

BCT 132 Residential and Industrial HVAC I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to materials and procedures for heating, ventilating, and air conditioning (HVAC). Includes trade mathematics, copper and plastic piping practices, soldering and brazing, ferrous metal piping practices, basic electricity, introduction to cooling and heating, and air distribution systems.

Prerequisite(s): BCT 111, 112, 113, 114, 115.

Offered: Fall, Spring, Summer.

BCT 133 Residential and Industrial HVAC II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to properties of air distribution systems. Includes chimneys, vents, and flues, maintenance skills for the service technician, alternating current, basic electronics, electric heating, and introduction to control circuit troubleshooting.

Prerequisite(s): BCT 132.

Offered: Fall, Spring, Summer.

BCT 134 Residential and Industrial HVAC III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to the principles of heat transfer, humidity, filtering, and energy saving devices used in HVAC systems. Includes accessories and optional equipment, metering devices, compressors, heat pumps, leak detection, evacuation, recovery, and charging.

Prerequisite(s): BCT 133.

Offered: Fall, Spring, Summer.

BCT 135 National Electrical Code Residential Wiring Applications

4 cr. hrs. 6 periods (2 lec., 4 lab)

Electrical wiring and installation conforming to National Electrical Code requirements. Includes grounded systems, requirements for over-current protection of conductors, ampacity criteria, installing over-current protection of conductors, installing services, installing motors and transformers, remote control and signaling circuits, and installing structured wiring in homes and offices.

Prerequisite(s): BCT 172.

Offered: Fall, Spring, Summer.

BCT 136 Sheet Metal I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to metalworking, insulation, layout, and fabrication. Includes introduction to the sheet metal trade, tools of the trade, fasteners, hangers, and supports, installation of air distribution accessories, insulation, introduction to sheet metal layout and processes, sheet metal math, and fabrication parallel line development.

Prerequisite(s): BCT 111, 112, 113, 114 and 115.

Offered: Spring.

BCT 137 Sheet Metal II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 136. Includes trade math, basic piping practices, fabrication, and bend allowances.

Prerequisite(s): BCT 136.

Offered: May not be offered this year, check class schedule.

BCT 138 Sheet Metal III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 137. Includes blueprints and specifications, air properties and distribution, sheet metal duct fabrication standards, soldering, and fiberglass duct.

Prerequisite(s): BCT 137.

Offered: May not be offered this year, check class schedule.

BCT 140 Painting for the Trades I

3 cr. hrs. 3 periods (3 lec.)

Concepts, tools, materials, and procedures for the painting trade. Includes careers in the painting trade, safety, ladders, scaffolds, lifts, and fall protection, surface/substrate materials, protecting adjacent surfaces, basic surface preparation, sealants and repairs/fillers, paints and coatings, and brushing and rolling paints and coatings.

Prerequisite(s): BCT 111, 112, 113, 114, and 115.

Offered: May not be offered this year, check class schedule.

BCT 141 Painting for the Trades II

3 cr. hrs. 3 periods (3 lec.)

Continuation of Painting I. Includes painting failures and remedies, job planning and completion, chemical cleaning and stripping, low-pressure water cleaning, stains, clear finishes, wood finishing, coatings, and spray painting (conventional, airless and high volume low pressure).

Prerequisite(s): BCT 140.

Offered: May not be offered this year, check class schedule.

BCT 142 Painting for the Trades III

3 cr. hrs. 3 periods (3 lec.)

Continuation of Painting II. Includes painting failures and remedies, job supervision, planning, and control, coatings, color and tinting, decorative (faux) finishes, wallcoverings, graphics, texturing, and spraying with special devices.

Prerequisite(s): BCT 141.

Offered: May not be offered this year, check class schedule.

BCT 145 Carpentry I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Theories and concepts for carpentry. Includes orientation to the trade, wood building materials, fasteners and adhesive, hand and power tools, floor systems, wall, ceiling, and roof framing, and windows and exterior doors.

Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.

Offered: Fall, Spring, Summer.

BCT 146 Woodworking I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Concepts and procedures for working with hardwoods. Includes introduction to hardwoods, measuring hardwoods, use of hardwoods, pressure treated wood, hardwood preparation, ripping wood, miter cuts, cross cuts, job site safety, gluing and clamping, veneers, curves and circles, dados and rabbets, and smoothing wood.

Offered: May not be offered this year, check class schedule.

BCT 147 Woodworking II

3 cr. hrs. 5 periods (2 lec., 3 lab)

A continuation of BCT 146. Advanced topics in woodworking. Includes safety practices; designing and planning; measuring and cutting; planning, chiseling, and sanding; butt, biscuit and dowel joints; rabbet joints; dado joints; lap joints; miter joints; mortise-and-tenon joint; veneers; using fasteners, dovetail joints and case casework; and applying stains and clear finishes.

*Prerequisite(s): BCT 146.**Information: Prerequisite(s) may be waived with consent of instructor.*

Offered: May not be offered this year, check class schedule.

BCT 148 Cabinetmaking I

3 cr. hrs. 5 periods (2 lec., 3 lab)

Concepts and procedures for fine woodworking practices. Includes introduction to cabinetmaking, cabinetry styles, human factors, working drawings, lumber and millwork, manufactured panel products, veneers and plastic overlays, hardware, health and safety, measuring and laying out materials, stationary power machines, hand and portable power tools, surfacing and shaping, and building a basic cabinet.

Prerequisite(s): BCT 147.

Offered: Fall.

BCT 149 Cabinetmaking II

3 cr. hrs. 5 periods (2 lec., 3 lab)

Continuation of BCT 148. Includes turning, joint making, abrasives and sanding machines, gluing and clamping, bending and laminating wood, overlaying and inlaying veneer, installing plastic laminates, advanced case construction, doors, drawers, applying finishing materials, kitchen cabinets, industrial production cabinetmaking, and employment in cabinetmaking.

*Prerequisite(s): BCT 148.**Information: Prerequisite may be waived with appropriate carpentry/cabinetmaking skills. See an instructor or department chair for information.*

Offered: Spring.

BCT 150 Plumbing Basics

4 cr. hrs. 6 periods (2 lec., 4 lab)

Theories and concepts for plumbing and pipe fitting. Includes physics for plumbers, plumbing materials, water supplies, drainage, sewage disposal, pipe joint connections, pipe fittings, rough-in, valves and faucets, and fixtures.

Prerequisite(s): BCT 111.

Offered: Fall, Spring, Summer.

BCT 153 Finishing Techniques in Cabinet and Furniture Making

3 cr. hrs. 5 periods (2 lec., 3 lab)

Wood finishing techniques for cabinet and furniture making. Includes safe and effective use of a variety of wood finishes and finishing equipment, reasons for finishing wood, tools for applying finishes, oil finishes, wood stains, pore fillers, introduction to film finishes, shellac, lacquer, varnish, water-based finishes, conversion finishes, choosing a finish, ?finishing? the finish, caring for wood finishes, repairing finishes, finishing different woods, and strippers.

Recommendation: Woodworking and cabinetmaking experience helpful. See a BCT faculty member for assistance.

Offered: May not be offered this year, check class schedule.

BCT 159 Furniture Design and Construction

3 cr. hrs. 5 periods (2 lec., 3 lab)

Wood furniture-making techniques for hobbyists and professionals. Includes basic material; tools and equipment safety and use; basic techniques and joint construction; advanced areas of furniture construction; metal fittings/fasteners and their application; advanced techniques in furniture making; drafting and workshop geometry; furniture designs and construction details; and restoration, repairs, and wood finishing.

Prerequisite(s): BCT 147.

Offered: Spring.

BCT 172 Electrical I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts and procedures for building and construction electrical training. Includes safety, conduit bending, electrical theory, test equipment, National Electric Code, aceways, boxes, and fittings, print reading, and wiring applications.

Prerequisite(s): BCT 111, 112, 113, 114, and 115 or concurrent enrollment.

Offered: Fall, Spring, Summer.

BCT 173 Electrical II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 172. Includes alternating current, motor installation, grounding of structures and equipment, conduit bending, electrical boxes and fittings, and conductor installations.

Prerequisite(s): BCT 172.

Offered: Fall, Spring, Summer.

BCT 174 Electrical III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 173. Includes conductor installation, cable tray, conductor termination and splices, electric service installation, circuit breakers and fuses, contactors and relays, and electrical lighting.

Prerequisite(s): BCT 173.

Offered: Fall, Spring, Summer.

BCT 181 Residential and Industrial Plumbing I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to common types of piping, their proper fitting, fixtures, and distribution systems. Includes introduction to the plumbing trade and drawings, plastic, copper, cast-iron, and carbon steel piping, fixtures and faucets, introduction to drainage, waste, and vent (DWV) systems, and water distribution systems.

Prerequisite(s): BCT 111, 112, 113, 114, and 115.

Offered: Fall, Spring, Summer.

BCT 182 Residential and Industrial Plumbing II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts and practices for plumbing. Includes offsets around obstructions, reading commercial drawings, installing and testing drainage, waste, and vent (DWV) piping system, installing roof, floor and area drains, and servicing various types of valves.

Prerequisite(s): BCT 181.

Offered: Fall, Spring, Summer.

BCT 183 Residential and Industrial Plumbing III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts and installation procedures for water service, fixtures, and appliances. Includes installing and testing water supply piping, fixtures, valves, and faucets, water heaters, fuel gas systems, and servicing of fixtures, valves, and faucets.

Prerequisite(s): BCT 182.

Offered: Fall, Spring, Summer.

BCT 184 National Electrical Code I

3 cr. hrs. 3 periods (3 lec.)

Requirements for the installation of electrical conductors, equipment, raceways, cables, and special occupancies. Includes introduction to the National Electrical Code, wiring and protection, wiring methods and materials, and equipment for general use.

Prerequisite(s): BCT 172.

Information: BCT 184 and 284 together is preparation for taking the National Electrical Code Certification exam.

Offered: Fall, Spring, Summer.

BCT 190 Fieldwork for Construction

1-8 cr. hrs. 5-40 periods (5-40 lab)

Supervised fieldwork experience on a specific construction project at the project site.

Recommendation: Completion of BCT 111, 112, 113, 114, and 115 before enrolling in this course.

Information: May be taken two times for a maximum of sixteen credit hours. BCT course work or field experience will be necessary for success in this course. See a BCT instructor or department chair for more information.

Offered: Fall, Spring, Summer.

BCT 199 Introduction to Co-op: Building & Construction Technologies

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Corequisite(s): BCT 199WK

Offered: Fall, Spring, Summer. May be taken two times for a maximum of two credit hours.

BCT 199WK Co-op Work: Building and Construction Technologies

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): BCT 199

Offered: Fall, Spring, Summer. May be taken two times for a maximum of sixteen credit hours.

BCT 202 Construction Business Management

3 cr. hrs. 3 periods (3 lec.)

Overview of construction business and project management. Includes planning and organizing, risk management, project management, estimating, scheduling, environmental and safety laws, employer obligations, financial management, contract law, and Arizona state requirements for contractors.

Offered: Fall, Spring.

BCT 204 Construction Surveying

3 cr. hrs. 5 periods (2 lec., 3 lab)

Principles and techniques of construction surveying. Includes taping, leveling, transit, contour and topographic mapping, and construction surveying.

Prerequisite(s): GTM 105 or MAT 086 or required score on the Mathematics assessment test.

Recommendation: Completion of BCT 120 before enrolling in this course.

Offered: Spring.

BCT 222 Commercial HVAC Systems

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and components for commercial air conditioning and heating systems. Includes Heating, Ventilation, Air Conditioning (HVAC) system functions, commercial refrigeration systems, chilled water systems, HVAC distribution systems, calculations and formulas, and system troubleshooting, service, and performance.

Prerequisite(s): BCT 128.

Information: Prerequisites may be waived with consent of instructor if the student has HVAC systems competency or field experience.

Offered: May not be offered this year, check class schedule.

BCT 223 Pneumatic HVAC Controls

3 cr. hrs. 4 periods (2 lec., 2 lab)

Pneumatic HVAC Controls Pneumatic controls for HVAC systems. Includes introduction to pneumatics, major component categories, controlled devices, relays, interconnecting piping and tubing, thermostats, calibration, air handling control systems, humidity control, central plant, and types of pneumatic systems.

Prerequisite(s): BCT 128.

Information: Prerequisites may be waived with appropriate field experience. See a BCT faculty advisor or department chair for additional information.

Offered: May not be offered this year, check class schedule.

BCT 231 Residential and Industrial HVAC IV

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 134. Includes planned maintenance, troubleshooting gas heating, electric heating, oil heating, and heat pumps.

Prerequisite(s): BCT 134.

Offered: Fall, Spring, Summer.

BCT 232 Residential and Industrial HVAC V

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 231. Includes troubleshooting accessories and electronic controls, hydronic heating and cooling systems, airside systems, air properties and air system balancing.

Prerequisite(s): BCT 231.

Offered: Fall, Spring, Summer.

BCT 233 Residential and Industrial HVAC VI

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 232. Includes construction drawings and specifications, indoor air quality, energy conservation equipment, and building management systems.

Prerequisite(s): BCT 232.

Offered: Spring, Summer.

BCT 234 Residential and Industrial HVAC VII

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 233. Includes water treatment, system startup and shutdown, heating and cooling system design, and commercial and industrial refrigeration systems.

Prerequisite(s): BCT 233.

Offered: May not be offered this year, check class schedule.

BCT 235 National Electric Code Commercial Wiring Applications

4 cr. hrs. 6 periods (2 lec., 4 lab)

Commercial electrical wiring and installation practices conforming to the National Electric Code. Includes commercial building plans, specifications, and drawings, electrical loads and branch circuits, switches and receptacles, branch circuit installations, motor and appliance circuits, feeders, special systems and circuits, panelboard selection and installation, electric service equipment, lamps and luminaires, emergency and standby power systems, and overcurrent protection.

Prerequisite(s): BCT 135.

Offered: Fall, Spring, Summer.

BCT 236 Residential and Industrial Plumbing IV

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts that apply to plumbing installations. Includes applied math, sizing water supply piping, potable water treatment, and backflow preventers.

Prerequisite(s): BCT 183.

Offered: Fall, Spring, Summer.

BCT 237 Residential and Industrial Plumbing V

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to system requirements and demand calculations. Includes sizing water supply piping, backflow preventers, water pressure booster and recirculation systems, and servicing piping systems, fixtures, and appliances.

Prerequisite(s): BCT 236.

Offered: Fall, Spring, Summer

BCT 238 Residential and Industrial Plumbing VI

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts and practices essential to competitive, successful plumbing businesses. Includes business math for plumbers, drainage, waste and vent (DWV), and storm systems, private water supply and waste disposal systems, locating buried sewer and water lines, and hydronic and solar heating systems.

Prerequisite(s): BCT 237.

Offered: Spring, Summer.

BCT 239 Residential and Industrial Plumbing VII

4 cr. hrs. 6 periods (2 lec., 4 lab)

Concepts and principles on disinfecting, filtering, and softening water supply systems. Includes water supply treatment, swimming pools and hot tubs, compressed air systems, corrosive-resistant waste piping, and plumbing for mobile home and travel trailer parks.

Prerequisite(s): BCT 238.

Offered: May not be offered this year, check class schedule.

BCT 240 Painting for the Trades IV

3 cr. hrs. 3 periods (3 lec.)

Continuation of Painting III. Includes safety, ladders, scaffolds, lifts and fall protection, containment/ventilation, surface preparation, industrial coatings, coating application, equipment, quality, inspections, coating failures and analysis, and specialty materials.

Prerequisite(s): BCT 142.

Offered: Fall.

BCT 241 Painting for the Trades V

3 cr. hrs. 3 periods (3 lec.)

Continuation of Painting IV. Includes industrial coatings, coating application and equipment, quality inspections, coating failures and analysis, and specialty materials.

Prerequisite(s): BCT 240.

Offered: Spring.

BCT 245 Carpentry II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 145. Includes techniques for reading construction drawings and specifications, site layout, measurement, and leveling, concrete materials and concrete reinforcement materials, construction of forms for footings and on-grade slabs, and concrete forms.

Prerequisite(s): BCT 145.

Offered: Spring, Summer.

BCT 246 Carpentry III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 245. Includes types of reinforcing materials, handling and placing concrete, manufactured and job-build forms, plot layout, and light construction equipment.

Prerequisite(s): BCT 245.

Offered: May not be offered this year, check class schedule.

BCT 271 Electrical IV

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 174. Includes distribution equipment, distribution system transformers, electricity in HVAC systems, over current protection, conductor selection and calculations, raceway, box and fitting, and fill requirements.

Prerequisite(s): BCT 174.

Offered: Fall.

BCT 272 Electrical V

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 272. Includes high voltage/terminations/splices, load calculations, electronic theory, specialty lighting, and advanced motor maintenance.

Prerequisite(s): BCT 271.

Offered: Spring.

BCT 273 Electrical VI

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 272. Includes high voltage terminations/splices, load calculations, electric theory, specialty lighting, and advanced motor maintenance.

Prerequisite(s): BCT 272.

Offered: Fall.

BCT 274 Electrical VII

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of BCT 273. Includes advanced controls, signaling systems, specialty transformers, standby and emergency systems, welding machines,

HVAC controls, and heat tracing and freeze protection.

Prerequisite(s): BCT 273.

Offered: Spring.

BCT 280 International Building Code (IBC) I

3 cr. hrs. 3 periods (3 lec.)

Major systems of building construction (other than residential) with structural and nonstructural provisions. Includes administration, use and occupancy classification, types of construction, general building heights and area, fire resistance-rated construction, fire protection systems, and means of egress.

Recommendation: Completion of general residential field experience before enrolling in this course.

Offered: May not be offered this year, check class schedule.

BCT 281 International Building Code (IBC) II

3 cr. hrs. 3 periods (3 lec.)

Continuation of BCT 280. Includes means of egress, accessibility, detailed occupancy requirements, exterior wall coverings, roofs and foundations, special inspections interior finishes, gypsum board and interior environment, elevators, glazing, skylights, and plastics.

Prerequisite(s): BCT 280.

Offered: May not be offered this year, check class schedule.

BCT 282 International Mechanical Code (IMC)

3 cr. hrs. 3 periods (3 lec.)

Major components of mechanical air system in building construction. Includes administration, definitions, general regulations, ventilation, exhaust systems, duct systems, combustion air, chimney and vents, appliances and fireplaces, boilers and water heaters, refrigeration gas, hydronic piping, fuel oil piping and storage, and solar systems.

Recommendation: Completion of general mechanical field experience before enrolling in this course.

Offered: May not be offered this year, check class schedule.

BCT 283 International Plumbing Code (IPC)

3 cr. hrs. 3 periods (3 lec.)

Major plumbing systems of building construction. Includes administration, definitions, general regulations, fixtures, faucets and fixture fittings, water heaters, water supply and distribution, sanitary drainage, indirect/special waste, vents, traps, interceptors and separators, storm drainage, and special piping and storage systems.

Recommendation: Completion of general plumbing field experience before enrolling in this course.

Offered: May not be offered this year, check class schedule.

BCT 284 National Electrical Code II

3 cr. hrs. 3 periods (3 lec.)

Continuation of BCT 184. Includes introduction to the National Electrical Code, special occupancies, special equipment, special conditions, and communication systems.

Prerequisite(s): BCT 184.

Information: BCT 184 and BCT 284 together is preparation for taking the National Electrical Code certification exam. Recommendation: None

Offered: Fall, Spring, Summer.

BCT 286 International Residential Code (IRC) I

3 cr. hrs. 3 periods (3 lec.)

Requirements of the major systems of residential building construction (other than commercial). Includes administration, definitions, building planning, foundations, floors, wall construction, wall covering, roof-ceiling construction, roof assemblies, chimneys and fireplaces.

Recommendation: Completion of general construction field experience before enrolling in this course.

Offered: Fall.

BCT 287 International Residential Code (IRC) II

3 cr. hrs. 3 periods (3 lec.)

Continuation of BCT 286. Includes energy efficiency, mechanical systems, plumbing systems, electrical systems, and referenced standards.

Prerequisite(s): BCT 286.

Offered: Spring.

BCT 296 Independent Study in Building and Construction Technologies

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent study or special projects. Content to be determined by agreement between student and instructor.

Information: BCT course work of field experience will be necessary for success in this course. See a BCT instructor or department chair for more information.

Offered: Fall, Spring, Summer.

BCT 297 Building and Construction Technologies Seminar

.25-4 cr. hrs. .25-4 periods (.25-4 lec.)

Building and Construction Technologies job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

BCT 299 Introduction to Co-op: Building and Construction Tech

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for second-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): BCT 299WK

Information: May be taken two times for a maximum of two credit hours.

Offered: Fall, Spring, Summer.

BCT 299WK Co-op Work: Building and Construction Technologies

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): BCT 299

Offered: Fall, Spring, Summer. May be taken two times for a maximum of sixteen credit hours.

Business

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

BUS 100 Introduction to Business

3 cr. hrs. 3 periods (3 lec.)

Introduction to Business Principles of business operations in the private enterprise system. Includes contemporary business and its environment, structure of American business, management principles of the organization, people, and production, marketing management, information systems and accounting, and financing the enterprise.

Offered: Fall, Spring, Summer.

BUS 125 eCommerce

3 cr. hrs. 3 periods (3 lec.)

Conducting business on the Internet. Includes electronic-commerce terminology, locating information, business applications, legal issues and security, and web site components and connectivity. Also includes marketing on the Internet, career opportunities, future developments, and building and operating a successful e-commerce store.

Offered: Fall, Spring, Summer.

BUS 148 Ethics in the Workplace

3 cr. hrs. 3 periods (3 lec.)

Ethical principles in decision making applied to the business and industry workplace. Includes ethical issues in decision making, ethical frameworks for decisions, personal values and ethical priorities, ethics in business and industry, ethical standards in the workplace, ethical choices, application of ethical principles, social and cultural values applied to decisions, and workplace culture.

Offered: Fall, Spring, Summer.

BUS 151 Mathematics of Business

3 cr. hrs. 3 periods (3 lec.)

Applying mathematical procedures, using algebraic techniques, critical thinking, and problem-solving methods for practical utility in the business environment. Includes math review; bank records; payroll; trade and cash discounts; markup and markdown; simple and compound interest; present and future value; annuities and sinking funds; consumer credit; depreciation; inventory, overhead, and turnover; financial statements; insurance; taxes; and stocks and bonds.

Prerequisite(s): MAT 086 or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

BUS 205 Statistical Methods in Economics and Business

3 cr. hrs. 3 periods (3 lec.)

Introduction to statistical concepts and methods of business. Includes statistics, data, and statistical thinking, methods for describing sets of data, probability, discrete random variables, continuous random variables, sampling distributions, estimation with confidence intervals, tests of hypothesis, inferences based on two samples, correlation and regression, methods for quality improvement, time series, design of experiments and analysis of variance, non-parametric statistics, and categorical analysis.

Prerequisite(s): MAT 172 or 173.

Offered: Fall, Spring, Summer.

BUS 210 International Business

3 cr. hrs. 3 periods (3 lec.)

Introduction to international business, focusing on the importance of cultural, economic, legal, political, sociological, and strategic complexities that emerge when business activities transcend international borders. Includes the terminology of international business and the basic do's and don'ts within the various foreign business societies.

Recommendation: Completion of BUS 100 before enrolling in this course.

Offered: Fall, Spring.

BUS 220 Legal Environment of Business

3 cr. hrs. 3 periods (3 lec.)

Legal, ethical, and international environment of business. Includes an introduction to law, ethics and corporate responsibility, judicial system and litigation, alternative dispute resolution, administrative agencies, crimes and torts, contract law, product liability, international business law, agency law, and legal forms of business enterprises.

Offered: Fall, Spring, Summer.

BUS 250 Entrepreneurship

3 cr. hrs. 3 periods (3 lec.)

Introduction to implementing creative ideas for organizations. Includes types of entrepreneurship, entrepreneurial mind, Timmons model of the entrepreneurial process, resource requirements, financing entrepreneurial ventures, and the business plan.

Prerequisite(s): BUS 100.

Offered: Spring, Summer.

BUS 299 Introduction to Co-op: Business

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience. Emphasis on attitude adjustment.

Corequisite(s): BUS 299WK

Information: May be taken two times for a maximum of two credit hours.

Offered: May not be offered this year, check class schedule.

BUS 299WK Co-op Work: Business

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): BUS 299

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

Chemistry

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CHM 080 Preparation for General Chemistry

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of chemistry. Includes nomenclature, atomic structure, bonding, chemical equations, moles, stoichiometry, the periodic table, conversions, problem-solving techniques and study skills.

Prerequisite(s): MAT 092.

Information: Designed to prepare students for CHM 151.

Offered: Fall, Spring, Summer.

CHM 121 Chemistry and Society I

3 cr. hrs. 3 periods (3 lec.)

Basic chemistry and its relationship to everyday experiences. Includes classification and structure of matter, basic principles of chemical reaction and their environmental and societal impact.

Corequisite(s): CHM 121LB

Information: Designed for non-science majors, education majors, and the general public.

Offered: Fall.

CHM 121IN Chemistry and Society I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Basic chemistry and its relationship to everyday experiences. Includes classification and structure of matter, basic principles of chemical reaction and their environmental and societal impact.

Information: Designed for non-science majors, education majors, and the general public. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Spring.

CHM 121LB Laboratory for Chemistry and Society I

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 121.

Corequisite(s): CHM 121

Offered: Fall.

CHM 122 Chemistry and Society II

3 cr. hrs. 3 periods (3 lec.)

Continuation of CHM 121. Includes organic chemistry as it relates to consumer products and pollution of our environment. Also includes biochemistry and physiochemistry and their relationship to medicines, drugs, health and food products.

Prerequisite(s): CHM 121.Corequisite(s): CHM 122LB

Offered: May not be offered this year, check class schedule.

CHM 122IN Chemistry and Society II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CHM 121. Includes organic chemistry as it relates to consumer products and pollution of our environment. Also includes biochemistry and physiochemistry and their relationship to medicines, drugs, health and food products.

Prerequisite(s): CHM 121.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: May not be offered this year, check class schedule.

CHM 122LB Laboratory for Chemistry and Society II

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 122.

Corequisite(s): CHM 122

Offered: May not be offered this year, check class schedule.

CHM 123IN Chemistry and Art

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the relationship between the physical sciences and the visual arts. Includes an overview of art and science, material science applied to art and archaeology, color and art, painting, sculpture, photography, and the dimensions of the relationship between art and science.

Information: This is an integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall.

CHM 125 Consumer Chemistry

3 cr. hrs. 3 periods (3 lec.)

An overview of the chemistry of everyday products and processes for the non-science major and no previous chemistry background is required. Includes the chemistry of toothpaste, deodorants, cosmetics, soaps and detergents, foods, fabrics, toys, paints, plastics and other products commonly found in the kitchen, laundry, bathroom, bedroom, and workshop.

Corequisite(s): CHM 125LB

Offered: Spring.

CHM 125IN Consumer Chemistry

4 cr. hrs. 6 periods (3 lec., 3 lab)

An overview of the chemistry of everyday products and processes for the non-science major. Includes the chemistry of toothpaste, deodorants, cosmetics, soaps and detergents, food, toys, paints, plastics and other products commonly found in the kitchen, laundry, bathroom, bedroom, and workshop. Also includes the process of science and the scientific method.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. No previous chemistry experience is required.

Offered: Spring.

CHM 125LB Consumer Chemistry

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 125.

Corequisite(s): CHM 125

Offered: Spring.

CHM 128 Forensic Chemistry

3 cr. hrs. 3 periods (3 lec.)

Practice, evolution, and trends in the use of chemistry and physical science in forensic studies. Includes the study of scientific criminology, scientific methods, applications of chemistry in DNA, crime scene evidence analysis, ballistics and terrorism. Also includes the discussion of implications and effects of these applications on the law, courts, and society.

Corequisite(s): CHM 128LB

Recommendation: Consent of instructor is recommended before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CHM 128IN Forensic Chemistry

4 cr. hrs. 6 periods (3 lec., 3 lab)

Practice, evolution, and trends in the use of chemistry and physical science in forensic studies. Includes the study of scientific criminology, scientific methods, applications of chemistry in DNA, crime scene evidence analysis, ballistics and terrorism. Also includes the discussion of implications effects of these applications on the law, courts, and society.

Information: Consent of instructor is required before enrolling in this course. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

CHM 128LB Forensic Chemistry Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 128.

Corequisite(s): CHM 128

Offered: May not be offered this year, check class schedule.

CHM 130 Fundamental Chemistry

4 cr. hrs. 4 periods (4 lec.)

Inorganic chemistry as a basis for the study of some life processes. Includes the classification, structure and general chemical behavior of inorganic matter.

Prerequisite(s): MAT 092 with a grade of C or better, or required score on the mathematics assessment test.

Corequisite(s): CHM 130LB*Information: Adapted to the needs of students in allied health programs.*

Offered: Fall, Spring, Summer.

CHM 130IN Fundamental Chemistry

5 cr. hrs. 7 periods (4 lec., 3 lab)

Inorganic Chemistry as a basis for the study of some life processes. Includes the classification, structure and general chemical behavior of inorganic matter.

Prerequisite(s): MAT 092 with a grade of C or better, or required score on mathematics assessment test.

Information: Adapted to the needs of students in allied health programs. IN is the integrated version of the course and lab taught simultaneously.

Offered: Fall, Spring, Summer.

CHM 130LB Fundamental Chemistry Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 130.

Corequisite(s): CHM 130

Offered: Fall, Spring, Summer.

CHM 140 Fundamental Organic and Biochemistry

4 cr. hrs. 4 periods (4 lec.)

Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure and general chemical behavior of organic and biochemical systems.

Prerequisite(s): CHM 130 with a grade of C or better.Corequisite(s): CHM 140LB

Information: Prerequisites may be waived with high school chemistry within the last three years, or consent of instructor. Adapted to the needs of students in nursing and other health professions.

Offered: Summer.

CHM 140IN Fundamental Organic and Biochemistry

5 cr. hrs. 7 periods (4 lec., 3 lab)

Continuation of CHM 130. Organic chemistry as the basis for the study of some important life processes. Includes the classification, structure and general chemical behavior of organic and biochemical systems.

Prerequisite(s): CHM 130 lecture and lab with a grade of C or better.

Information: Prerequisite may be waived with high school chemistry within the last three years or consent of instructor. Adapted to the needs of students in nursing and other health professions. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

CHM 140LB Fundamental Organic and Biochemistry Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 140.

Corequisite(s): CHM 140

Offered: Fall, Spring, Summer.

CHM 151 General Chemistry I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.

Prerequisite(s): Has both a Math and a Chemistry prerequisite. Minimum Math prerequisite: MAT 122 with a grade of C or better. Chemistry prerequisite: completion of CHM 080 or CHM 130 with grade of C or better; or placement into CHM 151 on the Chemistry assessment test.
Corequisite(s): CHM 151LB
 Offered: Fall, Spring, Summer.

CHM 151IN General Chemistry I

5 cr. hrs. 7 periods (4 lec., 3 lab)

Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.

Prerequisite(s): CHM 080 or 130 with a grade of C or better, OR placement into CHM 151 on the Chemistry assessment test, and MAT 122 with a grade of C or better.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
 Offered: Fall, Spring, Summer.

CHM 151LB General Chemistry I Lab

1 cr. hrs. 3 periods (3 lab)

Introduction to the foundations of chemistry for upper-level sciences and engineering. Includes atomic structure, chemical bonding, reaction stoichiometry, behavior of gases, and reactions in solutions. Also includes an introduction to thermochemistry.

Prerequisite(s): Has both a Math and a Chemistry prerequisite. Minimum math prerequisite: completion of MAT 122 with C or better. Chemistry prerequisite: completion of CHM 080 or CHM 130 with grade of C or better; or placement into CHM 151 on the Chemistry assessment test.
Corequisite(s): CHM 151
 Offered: Fall, Spring, Summer.

CHM 152 General Chemistry II

4 cr. hrs. 4 periods (4 lec.)

Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.

Prerequisite(s): Has both a math and chemistry prerequisite. Math prerequisite: MAT 151 with a C or better. Chemistry prerequisite: CHM 151 with a grade of C or better.
Corequisite(s): CHM 152LB
 Offered: Fall, Spring, Summer.

CHM 152IN General Chemistry II

5 cr. hrs. 7 periods (4 lec., 3 lab)

Continuation of CHM 151. Includes emphasis on certain chemical concepts such as chemical kinetics, equilibrium, acids and bases, thermodynamics, and electrochemistry.

Prerequisite(s): Has both a math and chemistry prerequisite. Math prerequisite: Must have a completed MAT 151 with a C or better. Chemistry prerequisite: Must have completed CHM 151 with a grade of C or better.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
 Offered: Fall, Spring, Summer.

CHM 152LB General Chemistry II Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of CHM 152.

Corequisite(s): CHM 152
 Offered: Fall, Spring, Summer.

CHM 195 Introduction to Research in Chemistry

4 cr. hrs. 4 periods (4 lec.)

Introduction to the methods of research in chemistry. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.

Information: Consent of instructor is required before enrolling in this course.
 Offered: Fall, Spring.

CHM 196LB Independent Studies in Chemistry

1-4 cr. hrs. 3-12 periods (3-12 lab)

Laboratory projects varying with students' interests and reasons for enrolling.
 Offered: Fall, Spring, Summer.

CHM 235 General Organic Chemistry I

4 cr. hrs. 4 periods (4 lec.)

Fundamentals of organic chemistry. Includes classification, occurrence, synthesis, analysis, stereochemistry and reaction mechanisms of important classes of organic compounds, namely alkanes, cycloalkanes, alkenes, alkynes and alkyl halides.

Prerequisite(s): CHM 152 with a grade of C or better.

Corequisite(s): CHM 235LB

Offered: Fall, Spring, Summer.

CHM 235IN General Organic Chemistry I

5 cr. hrs. 7 periods (4 lec., 3 lab)

Fundamentals of organic chemistry. Includes classification, occurrence, synthesis, analysis, stereochemistry and reaction mechanisms of important classes of organic compounds, namely alkanes, cycloalkanes, alkenes, alkynes, and alkyl halides. Also includes application of the organic chemistry concepts addressed using a wide range of laboratory apparatus and procedures. Integrates laboratory safety skills and computer software applications related to chemistry.

Prerequisite(s): Completion of CHM 152 with a grade of C or better.
Information: IN class is an integrated presentation of CHM 235 & CHM 235LB.
 Offered: Fall, Spring.

CHM 235LB General Organic Chemistry I Lab

1 cr. hrs. 3 periods (3 lab)

Application of the organic chemistry concepts addressed in CHM 235, i.e. classification, occurrence, synthesis, analysis, stereochemistry and reaction to mechanisms of organic compounds, using a wide range of laboratory apparatus and procedures. Integrates laboratory safety skills and computer software related to chemistry.

Prerequisite(s): Completion of CHM 152 with a grade of C or better.
Corequisite(s): CHM 235
 Offered: Fall.

CHM 236 General Organic Chemistry II

4 cr. hrs. 4 periods (4 lec.)

Continuation of CHM 235 focusing on remaining classes of organic compounds, including alkynes, alcohols, ethers and epoxides, aldehydes, ketones, acids, acid derivatives, aromatics and nitrogen containing compounds. Includes an emphasis on synthesis and use of chemical and instrumental methods as means of identification and an introduction to biomolecules and/or polymers.

Prerequisite(s): Completion of CHM 235 with a grade of C or better.
Corequisite(s): CHM 236LB
 Offered: Fall, Spring.

CHM 236IN General Organic Chemistry II

5 cr. hrs. 7 periods (4 lec., 3 lab)

Continuation of CHM 235, focusing on the remaining classes of organic compounds, specifically dienes, alcohols, ethers and epoxides, aldehydes, ketones, acids, acid derivatives, aromatics, and nitrogen containing compounds and an introduction to biomolecules and/or polymers. Includes an emphasis on synthesis and use of chemical and instrumental methods as means of identification while in a laboratory setting using a wide range of laboratory apparatus and procedures. Integrates laboratory safety skills and computer software applications related to chemistry.

Prerequisite(s): Completion of CHM 235 with a grade of C or better.
Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.
 Offered: Fall, Spring, Summer.

CHM 236LB General Organic Chemistry II Lab

1 cr. hrs. 3 periods (3 lab)

Continuation of CHM 235LB, focusing on the remaining classes of organic compounds addressed in CHM 236, specifically dienes, alcohols, ethers and epoxides, aldehydes, ketones, acids and acid derivatives, aromatics and nitrogen containing compounds in a laboratory setting using a wide range of laboratory apparatus and procedures. Integrates laboratory safety skills and computer software applications related to chemistry.

Prerequisite(s): Completion of CHM 235 with a grade of C or better.
Corequisite(s): CHM 236
 Offered: Fall, Spring.

CHM 290 Chemistry Internship

1-4 cr. hrs. 1-4 periods (1-4 lec.)

Internship and work experience in a science field or laboratory. Setting, achieving, and evaluating goals for hands-on learning experiences in sciences. Development of skills and knowledge needed to work in a science field or laboratory.

Information: Consent of Internship instructor is required before enrolling in this course.
 Offered: Fall, Spring, Summer.

CHM 295LB Independent Research in Chemistry

1-4 cr. hrs. 3-12 periods (3-12 lab)

Experience in scientific laboratory research. Specific content to be determined by student and instructor.

Information: One semester of chemistry and consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: Fall, Spring.

Child Development Associate

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CDA 102 The Child's Total Learning Environment

1 cr. hrs. 1 periods (1 lec.)

Analysis of the total learning environment for children. Includes establishing a learning environment, value in a child-oriented learning environment, indoor environment, learning centers, appropriate play materials, teacher responsibility of learning environment, outdoor space, changing the environment, and the community as a learning environment.

Offered: Spring.

CDA 103 Curriculum Planning and Schedule Development

1 cr. hrs. 1 periods (1 lec.)

Strategies for the creation of lesson plans and schedules for use in the classroom. Includes preparation of group and individualized lesson plans and schedules based on children's abilities, planning as a cooperative effort, foundations of events and activities, balancing variety in the classroom, individual center's philosophy in the planning process, flexibility in planning, and assessment and evaluation.

Offered: Fall, Spring, Summer.

CDA 104 Ensuring a Safe Environment for Children

1 cr. hrs. 1 periods (1 lec.)

Exploration of the issues of creating a safe environment for children. Includes planning for children's safety by providing them with the skills and information regarding safety rules and concerns. Also includes planning for reduction of accidents by center personnel and designation of areas of responsibility.

Offered: Fall, Spring, Summer.

CDA 112 Guidance Principles for Encouraging Self-Discipline

1 cr. hrs. 1 periods (1 lec.)

Development of guidelines for using positive discipline techniques in the classroom. Includes role modeling, social development and appropriate actions, program influences on children's behaviors and relationships, rules and limits, and difference between discipline and punishment.

Offered: Spring.

CDA 114 Collecting, Organizing and Using Teaching Aids

1 cr. hrs. 1 periods (1 lec.)

Survey of teaching aids used in the classroom. Includes individual children's portfolios, activity card file collection, picture and poster file, media resources, reference materials and professional literature, human and community resources file, and bulletin board files.

Offered: Fall.

CDA 115 Supervision & Administration of Early Childhood Programs

3 cr. hrs. 3 periods (3 lec.)

Analysis of elements for planning, implementing, maintaining, and evaluating early childhood education programs. Includes regulations, health and safety issues, and staff selection, development, and supervision. Also includes management of facilities, budget, equipment, supplies, and arranging environment.

*Prerequisite(s): MAT 082, REA 112, and WRT 100.**Information: Same as ECE 115.*

Offered: Fall.

CDA 119 Providing a Healthy Environment for Children

1 cr. hrs. 1 periods (1 lec.)

Examination of wellness to benefit the early childhood classroom setting. Includes importance of healthy children, how diseases are spread, handwashing, sanitation and cleaning practices, illness in the child care setting, health records, hygiene and dental care, health education, parents role, and prevention of child abuse.

Offered: Fall, Spring, Summer.

CDA 121 Techniques for Observing Children

1 cr. hrs. 1 periods (1 lec.)

Development of techniques for observing, recording and interpreting behavior in children. Includes purpose of observation, observation and collecting in-

formation, observation and assessment techniques, interpreting observations, individual documentation, observation based curriculum planning, behavioral and developmental milestones, and sharing observations and assessments professionally.

Offered: Fall, Spring, Summer.

CDA 126 Literature for Preschool Children

1 cr. hrs. 1 periods (1 lec.)

Survey of materials and techniques for the selection and evaluation of children's literature. Includes the importance of literature for children, children's library area, general categories of books, importance of pictures or illustrations, respect for books, storytelling, reading aloud to children, and creating a story with children.

Offered: Spring.

CDA 129 Organize Space, Materials and Equipment for Infants/Toddlers

1 cr. hrs. 1 periods (1 lec.)

Exploration of how to effectively organize classroom space, materials and equipment for infants and toddlers. Includes licensing requirements, space planning, outdoor space, developmentally appropriate materials, basic equipment and furniture, and sharing information and resources with parents.

Offered: Fall.

CDA 138 Building Parent and Classroom Connections

3 cr. hrs. 3 periods (3 lec.)

Analysis of the specific attitudes, philosophies and practical techniques in building relationships with families for teachers. Includes families today, overview of family involvement, benefits of and barriers to teacher-family partnerships, at the beginning with parents and children, informal communications with families, parent-teacher conferences, home visits, families in the classroom, community involvement, working with families from diverse backgrounds and families in particular circumstances, resolving troublesome attitudes and behaviors, and parent-involvement programs that work.

Offered: Fall, Spring, Summer.

CDA 141 Fostering Communication and Language

1 cr. hrs. 1 periods (1 lec.)

Examination of the techniques for fostering communication skills and language development. Includes defining communication skills, predictable stages of developing communication skills, language observation and assessment, communication with others, receptive communication skills, and receptive and expressive communication skills.

Offered: Spring.

CDA 142 Beginning Mathematical Concepts

1 cr. hrs. 1 periods (1 lec.)

Analysis of general principles of mathematical concept acquisition. Includes competencies in mathematics such as classification, seriation, numbers, spatial relations, and temporal relations.

Offered: Fall.

CDA 143 Science and Discovery

1 cr. hrs. 1 periods (1 lec.)

Theories, methods, and techniques for teaching science and discovery. Includes the learning, the process of discovery, initiating and integrating science experiences, creating a science area, finding natural science settings, and planning science experiences.

Offered: Fall.

CDA 151 Nutrition

1 cr. hrs. 1 periods (1 lec.)

Examination of basic nutrition. Includes nutrition needs of young children; social, psychological, cultural and religious connections to food; mealtime experiences; plans for nutritional experiences and programs.

Offered: Fall, Spring, Summer.

CDA 152 Enhancing Questioning and Problem Solving Abilities

1 cr. hrs. 1 periods (1 lec.)

Analysis of techniques for the development of question and problem solving abilities. Includes facts about problem solving, the steps involved, and factors to be considered. Also includes developing problem solving activities using individual and group settings.

Offered: Fall.

CDA 155 Understanding How Children Learn

1 cr. hrs. 1 periods (1 lec.)

Exploration of the natural skills of children. Includes introduction of various theorists, ways children learn, conceptual learning, and the role of the teacher.

Offered: Spring.

CDA 161 Principles of Social Competence

1 cr. hrs. 1 periods (1 lec.)

Analysis of self-concept in children. Includes self-concept/self-image, primary factors, uniqueness of each child, environment, accepting and expressing feelings appropriately, observation, expressing emotions, activities for expression of feelings, and exploration of feelings.

Offered: Spring.

F, Sp, S

CDA 170 Ages & Stages of Young Children: Prenatal through Toddler

2 cr. hrs. 2 periods (2 lec.)

Examination of the developmental stages pre-birth through toddlerhood. Includes general principles and theories of development, biological and environmental factors, conception to birth, infant developmental, toddler developmental milestones, issues in infant care, and toddler care issues.

Offered: Fall, Spring, Summer.

CDA 173 Ages and Stages of Young Children: The Preschool Years

1 cr. hrs. 1 periods (1 lec.)

Examination of the developmental stages of preschool children ages 18 months to 5 years. Includes general principles and theories of development, physical characteristics, pattern of motor skill development, cognitive development, socio-emotional development, early childhood programs, and developmental concerns and challenges.

Offered: Fall, Spring, Summer.

CDA 201 Music and Creative Movement

1 cr. hrs. 1 periods (1 lec.)

Exploration of music and movement. Includes how to develop self-confidence and skills in music and movement. Also includes developing skills in singing with children, selecting appropriate music, using rhythm activities, encouraging creative movement, and using music with activities.

Offered: Fall, Spring, Summer.

CDA 202 Dramatic Play

1 cr. hrs. 1 periods (1 lec.)

Strategies for using dramatic play for learning. Includes meaning of dramatic play, values of dramatic play, unlimited play, dramatic play in the learning environment, teacher's role, and observation and assessment.

Offered: Fall, Spring, Summer.

CDA 203 Creative Media

1 cr. hrs. 1 periods (1 lec.)

Survey of principles, materials, and techniques used in developing creative media. Includes definition and values of creativity, creative development, creative media area, guidance in the creative media area, creative process and the product, creative media activities and experiences, creative experiences, and ongoing assessment.

Offered: Fall, Spring, Summer.

CDA 211 Small and Large Muscle Development

2 cr. hrs. 2 periods (2 lec.)

Examination of small and large muscle development and its relationship to cognitive learning. Includes overview of small/large muscle development, specific sequence, orderly process, practice, characteristics of the large and small muscle, activities and environment to promote muscle development, supervision and guidance, and observation and assessment. Also includes a variety of spontaneous and planned activities.

Offered: Fall, Spring, Summer.

CDA 222 Elements of Children's Culture

1 cr. hrs. 1 periods (1 lec.)

Examination of the ways culture affects children's learning. Includes an overview of multiculturalism, cross-cultural competence, gender role identity, diverse abilities and special needs, responsive learning environment, and family and community involvement.

Offered: Spring.

F, Sp, S

CDA 224 Learning Theories and Cognitive Development Applications

2 cr. hrs. 2 periods (2 lec.)

Analysis of how babies grow and learn. Includes developmental milestones, egocentrism, cognitive development milestones, development of memory, concept formation and problem solving skills, basic concepts of infancy and toddlerhood, and sharing resource with parents.

Offered: Fall.

CDA 225 Language Development of Infants and Toddlers

1 cr. hrs. 1 periods (1 lec.)

Examination of how language develops in infants and toddlers. Includes development of communication and language skills, language milestones, stimulating language development through developmentally appropriate activities, and developmental progress of individual children.

Offered: Spring.

CDA 227 Sensorimotor Learning and Physical Development

3 cr. hrs. 3 periods (3 lec.)

Examination of sensorimotor learning in infancy and toddlerhood. Includes sensorimotor and physical development theories, awareness of reflexes, general physical development, cognitive development, self help skills, and toilet training. Also includes ways to share information with parents.

Offered: Fall.

CDA 228 Principles of Social Competence of Infants and Toddlers

1 cr. hrs. 1 periods (1 lec.)

Analysis of the development of trust and autonomy in infants and toddlers. Includes factors influencing the development of self-concept, individualized routine care, developmentally appropriate environmental design, individual differences, and partnership with parents.

Offered: Fall.

CDA 229 Child Development Associate Assessment Preparation

3 cr. hrs. 3 periods (3 lec.)

Strategies for completion of the CDA Assessment. Includes documentation requirements, resource file, direct assessment application form, and verification visit requirements.

Offered: Fall, Spring, Summer.

CDA 235 Guidance and Discipline of Infants and Toddlers

1 cr. hrs. 1 periods (1 lec.)

Examination of effective ways to guide and discipline infants and toddlers. Includes discipline versus punishment, appropriate discipline and guidance, specific guidance techniques, provide an appropriate environment for exploration, and communicating with parents.

Offered: Fall.

CDA 256 Math for School Age Children

1 cr. hrs. 1 periods (1 lec.)

Analysis of appropriate math concepts and activities for school age children. Includes the links between intellectual development and mathematical concepts learning. Also includes developing math concepts, teaching problem-solving, and exploring the strands of mathematics.

Offered: Fall.

CDA 257 Record Keeping for the Family Child Care Provider

1 cr. hrs. 1 periods (1 lec.)

Strategies for the development of a record keeping system to use in child care. Includes operating a small business, and organizing records. Also includes income tax forms, special tax liabilities and responsibilities, and important records to retain.

Offered: Summer.

CDA 258 Family Child Care as a Small Business

1 cr. hrs. 1 periods (1 lec.)

Examination of the aspects of family child care as a small business. Includes the role of the family child care provider, licensing and certification, insurance requirements, development of a business plan, and agreements between parents and providers.

Offered: Summer.

CDA 259 Balancing Work and Family in a Family Child Care Setting

1 cr. hrs. 1 periods (1 lec.)

Strategies for reaching a balance between work and family in the child care setting. Includes establishing an appropriate setting, planning the daily schedule, setting boundaries, keeping a balance in your own life, and communicating with parents. Also includes your role as a liaison between family, child, and parent.

Offered: Summer.

CDA 271 Professionalism in Childcare

1 cr. hrs. 1 periods (1 lec.)

Analysis of the history and ethics of early childhood professionals. Includes defining professionalism; examining the past, present and future; exploring professional values and ethics; continuing professional growth/education; and becoming an advocate for children and their families.

Offered: Fall, Spring, Summer.

CDA 273 Ages and Stages: The Middle Childhood Years

1 cr. hrs. 1 periods (1 lec.)

Examination of the stages of growth, motor development, during the middle childhood years (ages 6 to 12). Includes physical growth, motor development, logical thinking and language skills, and social and emotional growth. Also includes examining developmental concerns and challenges.

Offered: Fall, Spring, Summer.

CDA 274 Emerging Literacy

1 cr. hrs. 1 periods (1 lec.)

Analysis of the developmentally appropriate practices in the teaching of literacy. Includes creating the environment for young readers, working with young writers, developing a functional literacy environment, and the teacher's role in literacy.

Offered: Spring.

CDA 275 Transitions

1 cr. hrs. 1 periods (1 lec.)

Examination of the nature of transitions in the classroom. Includes introduction to transitions, selection of transitional activities, and transitions as part of the curriculum.

Offered: Spring.

Chinese

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CHI 101 Elementary Chinese (Mandarin) I

5 cr. hrs. 5 periods (5 lec.)

Introduction to the Mandarin Chinese language. Includes basic phonetic system of the Chinese language, basic Chinese grammar structures, reading simple texts, basic Chinese writing and Chinese culture. Also includes a foundation in listening, speaking, reading, writing, and cultural awareness.

Offered: Fall, Spring, Summer.

CHI 102 Elementary Chinese (Mandarin) II

5 cr. hrs. 5 periods (5 lec.)

Continuation of CHI 101. Includes additional phonetic system of Chinese language, additional selection of grammar structures, additional reading Chinese, additional writing Chinese, and additional Chinese culture. Also includes an additional level of listening, speaking, reading, writing, and cultural awareness.

Prerequisite(s): CHI 101.

Offered: Spring, Summer.

CHI 201 Intermediate Chinese I

5 cr. hrs. 5 periods (5 lec.)

Continuation of CHI 102. Includes intermediate selection of grammar structures, oral and aural transactions, political, economic, and social vocabulary in readings and writings, intermediate literary works, and norms, values, and beliefs.

Prerequisite(s): CHI 102.

Offered: Fall.

CHI 202 Intermediate Chinese II

5 cr. hrs. 5 periods (5 lec.)

Continuation of CHI 201. Includes additional intermediate selection of grammar structures, intermediate oral, aural, and written transactions, response to complex topics, additional norms, values, and beliefs, and Chinese history and cultural aspects.

Prerequisite(s): CHI 201.

Offered: Spring.

Clinical Trial Coordinator

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CTC 101 Foundations of Clinical Research

3 cr. hrs. 3 periods (3 lec.)

A comprehensive introduction to the clinical research process. Includes history and evolution of clinical research, phases of clinical trials, protection of human subjects, clinical research team personnel and their roles, and responsibilities of clinical research organizations. Also includes medical terms, commonly used clinical research-related terminology and standard pharmaceutical/pharmacological terms.

Prerequisite(s): BIO 160IN; CSA 100; MAT 092 or 106 or 122; WRT 101.

Information: Introductory class for program core. Completion of or concurrent enrollment in BIO 160IN required. Math prerequisite determined by CTC program of study.

Offered: Fall, Spring, Summer.

CTC 201 Clinical Research Regulatory Compliance

3 cr. hrs. 3 periods (3 lec.)

Course introduces student to the FDA regulatory process and regulatory requirements for clinical research. Topics include an overview of the role and function of the FDA, the drug development process, preparation and maintenance of an IND, regulatory documentation, safety reporting, and Good Clin-

ical Practices (GCPs).

Prerequisite(s): CTC 101.

Offered: Fall, Spring.

CTC 215 Population Diversity and Sensitivity for Clinical Research

2 cr. hrs. 2 periods (2 lec.)

Course presents an overview of diversity issues as related to clinical research in view of communication and interaction with study subjects. Content addresses race, ethnicity, gender, stereotyping and bias; ethnocentrism; social/economic class; and cultural values, norms and beliefs with the intent to develop sensitivity to and communication with diverse clinical study populations.

Offered: Fall, Summer.

CTC 220 Ethics for Clinical Research

2 cr. hrs. 2 periods (2 lec.)

Course introduces student to the historical evolution of research ethics and pertinent moral theory and ethical analysis applied to clinical research trials.

Information: Concurrent registration with CTC 101.

Offered: Fall, Spring.

CTC 230 Introduction to Clinical Research Study Protocol

3 cr. hrs. 3 periods (3 lec.)

Introduction to the scientific development of research protocols and related regulatory requirements. Includes differentiations between research design types, rules for writing protocols, and ethical considerations relative to research protocols.

Prerequisite(s): CTC 101.*Recommendation: Concurrent enrollment in CTC 201.*

Offered: Spring.

CTC 240 Pharmacology for Clinical Trials

3 cr. hrs. 3 periods (3 lec.)

Course introduces the process of drug development from the bench through the developmental process to approval. Focus will be on what constitutes a drug, how a drug can act on the body (pharmacodynamics), and how the body can act on a drug (pharmacokinetics). Includes factors that influence drug dosing, adverse drug effects and drug-drug interactions, and how to find and interpret drug-related information from the primary literature.

Prerequisite(s): CTC 101.

Offered: Spring.

CTC 250 Clinical Research Site Coordination & Management

3 cr. hrs. 3 periods (3 lec.)

Course introduces the student to elements involved in implementing and managing a clinical trial from the perspective of the research site staff/team. Topics include the identification and evaluation of sites and investigators, on-site budget management, and the coordination of subject participation.

Prerequisite(s): CTC 101, 201, 230 and 240.

Offered: Spring.

CTC 270 Research Management for Sponsors and CROs

4 cr. hrs. 4 periods (4 lec.)

Introduction to the elements involved in implementing, monitoring and managing a clinical study from the perspective of the Sponsor or Contract Research Organization (CSO). Includes overall project planning, development of study goals, preparation of budget and contracts, implementation of monitoring visits, and effective management of research sites.

Prerequisite(s): CTC 250.

Offered: May not be offered this year, check class schedule.

CTC 290 Clinical Research Trial Coordinator Internship

6-8 cr. hrs. 30-40 periods (30-40 lab)

Course provides supervised work experience in a clinical research setting. Emphasis is on the observation and enhancement of professional and management skills; team communication and interaction; and the application of research principles, procedures, protocols, and regulations in the workplace. Students will rotate through a variety of research sites.

Prerequisite(s): Students must have completed program course work - CTC 101, 210, 215, 220, 230, 240, 250.

Offered: Fall, Spring, Summer.

Computer Aided Design/Drafting

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CAD 101 Computer Aided Drafting I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Two-dimensional computer aided and traditional drafting concepts and techniques. Includes computer aided drafting procedures and methods, electronic file management, hard copy production, freehand sketching and visualization, industry standards, scale and dimensioning, and final project.

Information: For individuals with no computer and/or drafting experience.

Offered: Fall, Spring, Summer.

CAD 104 Integrated Circuit Layout Fundamentals

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles and concepts of integrated circuit layout using Cadence design software. Includes basic electronics, fundamentals of integrated circuits, circuit design, circuit floorplanning, electronic file management, schematic diagram, and physical layout overview.

Corequisite(s): CAD 114

Recommendation: CAD 114 and TEC 100.

Offered: Fall, Spring.

CAD 114 Electronic Manufacturing Processes

2 cr. hrs. 2 periods (2 lec.)

Principles and concepts of integrated circuit manufacturing processes. Includes integrated circuit device physics, semiconductor fabrication, failure mechanisms, resistors, capacitors, diodes, and metal-oxide semiconductor (MOS) transistors.

Offered: Fall.

CAD 116 Electronic Print Reading

2 cr. hrs. 2 periods (2 lec.)

Principles and concepts of electronic print reading. Includes print and manufacturing terms, print fundamentals and standards, schematic and inter-connection diagram drawings, cable assembly drawings, print analysis, and change paper procedures.

Offered: May not be offered this year, check class schedule.

CAD 117 Print Reading and Sketching for Manufacturing

4 cr. hrs. 5 periods (3 lec., 2 lab)

Principles and concepts of print reading and technical freehand sketching. Includes common print and manufacturing terms, print fundamentals and standards, freehand sketching applications, and print analysis.

Offered: Fall, Spring.

CAD 151 Computer Aided Drafting II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of Computer Aided Drafting I. Includes block attributes, external references, adaptive scaling, 3-D modeling applications, shading and rendering of 3-D models, layer usage, hard copy techniques and procedures, utilization, and intermediate file management procedures.

Prerequisite(s): CAD 101.

Offered: Fall, Spring, Summer.

CAD 152 Mechanical Computer Aided Drafting and Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Basic concepts, techniques, and applications for mechanical drafting. Includes mechanical design fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, three dimensional (3D) solid modeling techniques, and hard copy techniques and procedures.

Prerequisite(s): CAD 101.

Recommendation: Completion of CAD 151, 172 before enrolling in this course.

Offered: Fall, Spring, Summer.

CAD 153 Electro-Mechanical Computer Aided Drafting and Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Basic concepts, techniques, and applications for electronic drafting. Includes electronic drafting fundamentals and standards, electronic component and schematic applications, electronics theory, Computer Aided Drafting (CAD) techniques, and file management and hard copy techniques and procedures.

Prerequisite(s): CAD 101.

Offered: Fall, Spring.

CAD 154 Integrated Circuit Layout Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles and concepts of mixed signal integrated circuit layout using Cadence design software. Includes design process, circuit floorplanning, analog layout design, digital layout design, ESD (electro-static discharge) design

and padding layout, device matching, DRC (design rule check) verification techniques, and LVS (layout versus schematic) verification techniques.

Prerequisite(s): CAD 104.

Offered: Fall, Spring.

CAD 155 Residential CAD and Design

4 cr. hrs. 6 periods (3 lec., 3 lab)

Residential Computer Aided Drafting and Design Beginning level Computer Aided Drafting (CAD) of single family detached dwellings. Includes residential CAD skills, site, foundation, floor and roof framing, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, and working drawing coordination.

Prerequisite(s): CAD 101.

Corequisite(s): CAD 151

Offered: Fall, Spring, Summer.

CAD 159 Landscape Computer Aided Drafting and Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Computer Aided Drafting (CAD) application specific to landscape design professions. Includes review of CAD skills, block functions, Internet applications, three-dimensional design, presentation drawings, building systems, working drawings, and working drawings coordination.

Prerequisite(s): CAD 101.

Offered: May not be offered this year, check class schedule.

CAD 172 Geometric Dimensioning and Tolerancing

3 cr. hrs. 3 periods (3 lec.)

Establishing controls on sizes and allowances of mechanical parts. Includes definitions and rules, form tolerances, datums, orientation controls, location controls, runout, and profile.

Prerequisite(s): CAD 117 or 152.

Corequisite(s): CAD 152

Information: Prerequisites may be waived if equivalent mechanical drawing experience is documented. See CAD instructor or advisor/counselor.

Offered: Fall, Spring.

CAD 185 Three-Dimensional Residential Drafting and Design

4 cr. hrs. 6 periods (3 lec., 3 lab)

Beginning level Computer Aided Drafting (CAD) three-dimensional (3-D) residential concepts, techniques, and problems. Includes 3-D wire frame, surface, and solid modeling applications, shading and rendering of 3-D models and hard copy techniques and procedures.

Prerequisite(s): CAD 101.

Information: Prerequisites may be waived if CAD drafting experience is documented. See a CAD instructor or advisor.

Offered: Fall, Spring.

CAD 196 Independent Study in Computer Aided Drafting: 100 Level

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent work at the 100 level on a special project not included in regular courses. The student is required to obtain a sponsoring CAD instructor and establish objectives, a procedural method, and a method of evaluation.

Prerequisite(s): CAD 101.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credits.

Offered: Fall, Spring.

CAD 199 Introduction to Co-op: Computer Aided Drafting

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Corequisite(s): CAD 199WK

Information: May be taken two times for a maximum of two credit hours.

Offered: May not be offered this year, check class schedule.

CAD 199WK Co-op Work: Computer Aided Drafting

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): CAD 199

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

CAD 202 Mechanical Computer Aided Drafting and Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 152. Includes review of mechanical design fundamentals and standards, advanced Computer Aided Drafting (CAD) applications, advanced three dimensional (3D) solid modeling techniques and hard copy techniques and procedures.

Prerequisite(s): CAD 152.

Recommendation: Completion of CAD 172 before enrolling in this course or concurrent enrollment.

Offered: May not be offered this year, check class schedule.

CAD 203 Electro-Mechanical Computer Aided Drafting and Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 153. Includes standards for packaging, fastener library, 3-D sheet-metal enclosures, production drawing sheets, materials and fastening systems for enclosures, and hard copy techniques and procedures. Also includes sheet-metal modeling in AutoCAD 3-D and Inventor.

Prerequisite(s): CAD 153.*Corequisite(s):* CAD 151

Offered: Fall.

CAD 204 Integrated Circuit Layout Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 154. Includes intermediate design process, intermediate circuit floorplanning, intermediate analog layout design, intermediate digital layout design, intermediate ESD (electro-static discharge) design and padding layout, intermediate device matching, intermediate DRC (design rule check) verification techniques, and intermediate LVS (layout versus schematic) verification techniques.

Prerequisite(s): CAD 154.

Offered: Fall, Spring.

CAD 206 Commercial Computer Aided Drafting and Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Computer Aided Drafting (CAD) of a commercial building at the intermediate level. Includes intermediate commercial CAD skills, site, foundation, floor, roof framing, reflected ceiling, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, working drawing coordination, special construction applications, and drawing coordination, special construction applications, and 3D modeling.

Prerequisite(s): CAD 151, 155.

Offered: Fall, Spring.

CAD 207 Civil Computer Aided Drafting and Design I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Computer Aided Drafting (CAD) specific to sites for construction of buildings, roads, and utilities at the intermediate level. Includes intermediate civil drafting technology, intermediate surveying, intermediate location and direction, intermediate mapping, intermediate legal descriptions and plot plans, intermediate contour lines, intermediate profiles, intermediate road layout, intermediate earthwork, intermediate Geographic Information Systems (GIS).

Prerequisite(s): CAD 151, 155.

Offered: Fall, Spring.

CAD 209 Landscape Computer Aided Drafting and Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 159 at the intermediate level. Includes intermediate level design CAD skills, block functions for landscape, Internet applications for landscape, three-dimensional design for landscape, presentation drawings for landscape, landscape systems, working drawings for landscape, and working drawing coordination for landscape.

Prerequisite(s): CAD 159.

Offered: May not be offered this year, check class schedule.

CAD 222 Mechanical Computer Aided Drafting and Design II: Inventor

4 cr. hrs. 6 periods (3 lec., 3 lab)

Software Beginning level parametric modeling mechanical concepts, techniques, and problems using Inventor software. Includes parametric modeling, working drawings, assemblies, animation, and plotting techniques.

Prerequisite(s): CAD 151, 152, and 172.

Information: Solid modeling experience is required before enrolling in this course.

Offered: Fall, Spring.

CAD 232 Mechanical Computer Aided Drafting and Design IV

4 cr. hrs. 6 periods (3 lec., 3 lab)

Inventor Software Continuation of CAD 222 at the advanced level. Includes sheet metal parts, assemblies, working drawings, and plotting techniques.

Prerequisite(s): CAD 222

Offered: May not be offered this year, check class schedule.

CAD 252 Mechanical Computer Aided Drafting & Design III: ProE Software

4 cr. hrs. 6 periods (3 lec., 3 lab)

Beginning level parametric modeling mechanical concepts, techniques, and problems using ProE software. Includes geometric dimensioning and tolerancing fundamentals and standards, parametric modeling techniques, geometric dimensioning and tolerancing applications, and hard copy techniques and procedures.

Prerequisite(s): CAD 151, 152, and 172.

Information: Solid modeling experience is required before enrolling in this course.

Offered: Fall, Spring.

CAD 253 Electro-Mechanical Computer Aided Drafting and Design III

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 203. Includes concepts, techniques, and applications for electro-mechanical design and product development. Also includes electro-mechanical design fundamentals and standards, advanced electronic symbol library, design applications, mechanical assembly techniques, and hard copy techniques and procedures.

Prerequisite(s): CAD 203.

Offered: May not be offered this year, check class schedule.

CAD 254 Integrated Circuit Layout Design III

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 204. Includes advanced design process, advanced circuit floorplanning, advanced analog layout design, advanced digital layout design, advanced ESD (electro-static discharge) design and padding layout, advanced device matching, advanced DRC (design rule check) verification techniques, and advanced LVS (layout versus schematic) verification techniques.

Prerequisite(s): CAD 204.

Offered: Fall, Spring.

CAD 256 Commercial Computer Aided Drafting and Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 206 at the advanced level. Includes advanced level CADD skills, advanced level commercial project programming, advanced level site, foundation, floor, roof framing, mechanical, plumbing, and electrical plans, building and wall sections, building elevations, working drawing coordination, special construction applications, model energy code, and 3D modeling.

Prerequisite(s): CAD 206.

Offered: Fall, Spring.

CAD 257 Civil Computer Aided Drafting and Design II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 207 at the advanced level. Includes advanced civil drafting technology, advanced surveying, advanced location and direction, advanced mapping, advanced legal descriptions and plot plans, advanced contour lines, advanced profiles, advanced road layout, advanced earthwork, and advanced Geographic Information Systems (GIS).

Prerequisite(s): CAD 207.

Offered: Spring.

CAD 259 Landscape Computer Aided Drafting and Design III

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 209 at the advanced level. Includes advanced level design CADD skills, block functions for landscape, Internet applications for landscape, three-dimensional design for landscape, presentation drawings for landscape, landscape systems, working drawings for landscape, and working drawing coordination for landscape.

Prerequisite(s): CAD 209.

Offered: May not be offered this year, check class schedule.

CAD 280 Computer Aided Drafting and Design Portfolio

1 cr. hrs. 1 periods (1 lec.)

Identification of portfolio content. Includes project parameters, portfolio presentation, portfolio development, and critique.

Prerequisite(s): CAD 202, or 203, or 204, or 205, or 206 or 207.

Offered: Spring, Summer.

CAD 282 Mechanical CADD IV: ProE Software

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of CAD 252. Includes advanced level parametric modeling applications, shading and rendering of parametric models, constructing mechanical assemblies, and hard copy techniques and procedures.

Prerequisite(s): CAD 252.

Offered: May not be offered this year, check class schedule.

CAD 296 Independent Study in Computer Aided Drafting: 200 Level

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent work at the 200 level on a special project not included in regular courses. The student is required to obtain a sponsoring CAD instructor, and establish objectives, a procedural method, and a method of evaluation.

Prerequisite(s): CAD 101.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credits.

Offered: Spring, Summer.

CAD 299 Introduction to Co-op: Computer Aided Drafting

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for second-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): CAD 299WK*Information:* May be taken two times for a maximum of two credit hours.

Offered: Spring, Summer.

CAD 299WK Co-op Work: Computer Aided Drafting

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): CAD 299

Offered: Spring, Summer.

Computer Information Systems

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CIS 100 Introduction to Computers

3 cr. hrs. 3 periods (3 lec.)

Introduction to computer information systems. Includes overview and concepts of computer components, operating systems, software applications, database, e-commerce, multi-media, security, application of information technology networking, privacy, globalization, and ethics. Also includes use, history, structure and research techniques on the Internet.

Offered: Fall, Spring, Summer.

CIS 101 Survey of Information Technology Careers

1 cr. hrs. 1 periods (1 lec.)

Overview to the concepts and opportunities of information technology careers. Includes information technology in the organizational structure, information technology careers, and job market opportunities in the information technology industry.

Offered: May not be offered this year, check class schedule.

CIS 103 Microsoft Windows XP Professional Administration

4 cr. hrs. 4 periods (4 lec.)

Knowledge and skills necessary to perform day-to-day administration tasks in a Microsoft Windows XP based network. Includes Windows Network Administration, Windows Operating System, user and group accounts, network resource security, print server administration, resource and event audits, and resource monitoring.

Information: Preparation for Microsoft certification examination.

Offered: Fall, Spring, Summer.

CIS 119 Network Essentials

3 cr. hrs. 3 periods (3 lec.)

Comprehensive introduction to computer networks and data communications. Includes computer networks and services, transmission media and connections, network models, popular protocol suites, other network issues, and network operating systems.

Recommendation: Completion of CIS 103 before enrolling in this course.

Offered: Fall, spring, Summer.

CIS 121 Web Publishing

3 cr. hrs. 3 periods (3 lec.)

Introduction to Web site design using the Hypertext Markup Language (HTML) to author pages containing titles, images, lists, image maps, tables, frames, and Cascading Style Sheets. Includes World Wide Web history and development, web servers and Hypertext Transport Protocol (HTTP), web browsers, HTML standards, document design, HTML lists, designing tables and using frames on a web page, and graphics. May include client-side and/or server-side scripting.

Prerequisite(s): CIS 100.*Recommendation:* Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring, Summer.

CIS 129 Programming and Problem Solving I

5 cr. hrs. 5 periods (5 lec.)

Introduction to personal and business computer systems. Includes components of a computer system, the Internet, networks, advantages and disadvantages or programming languages, traditional languages, native code and GUI object orientated languages, source code versus executable code, and data structures and data representation. Also includes language statements, expressions components, control structures, problem solving techniques, program test data, debugging, and termination, and solving simple problems

and creating programs using QBASIC.

Prerequisite(s): MAT 122 or concurrent enrollment.

Offered: Fall, Spring.

CIS 131 Programming and Problem Solving II

5 cr. hrs. 5 periods (5 lec.)

Continuation of CIS 129. Includes developing software using multi-dimensional arrays with structured elements, file handling of both text and binary typed texts, sorting and searching models. Also includes requirements for planning, good coding practices, documentation, and applications to both numerical and business oriented problems.

Prerequisite(s): CIS 129.*Information:* Programming assignments will use the C++ language.

Offered: Fall, Spring.

CIS 132 Introduction to Computer Forensics

4 cr. hrs. 4 periods (4 lec.)

Introduction to computer forensics which focuses on methods of detection and prevention of computer crime. Includes multidisciplinary nature of computer forensics, professional opportunities, computer investigations, operating systems introduction, the investigator's office and laboratory, forensic tools, and digital evidence controls. Also includes processing crime and incident scenes, data acquisition, computing forensic analysis, e-mail investigations, recovering image files, investigative report writing, and expert witness testimony.

Recommendation: Basic knowledge of computers and how to download and install software is recommended before enrolling in this course.**CIS 133 Fundamentals of Personal Computer Security**

3 cr. hrs. 3 periods (3 lec.)

Introduction to Personal Computer (PC) security and how to protect from outside threats. Includes an overview of cyber crime and security issues, networks and the Internet, assessing a personal computer system, denial of service attacks, malware, basics of securing a PC system, and data encryption. Also includes Internet fraud and security, examples of espionage in cyberspace, cyber detective work, and computer security hardware and software.

Recommendation: Completion of CIS 100 and familiarity with the Internet are recommended before enrolling in this course.**CIS 134 Fundamentals of Wireless Local Area Networks (LANs)**

3 cr. hrs. 3 periods (3 lec.)

Introduction to designing, building, maintaining, and troubleshooting wireless local area networks (LANs). Includes wireless networking, how wireless works, deploying a wireless LAN, conducting a site survey, security and vulnerabilities, implementing and managing a wireless LAN, network settings, and personal and metropolitan wide area networks.

Recommendation: Completion of CIS 100 and familiarity with the Internet and computer networks are recommended before enrolling in this course.**CIS 136 Microcomputer Components**

3 cr. hrs. 3 periods (3 lec.)

An overview of the primary components of common microcomputer systems. Includes systems components, systems upgrades, printer selection, installation and maintenance, disk drive selection, additional input/output devices, selecting and configuring a system, and other microcomputer topics.

Offered: Fall, Spring.

CIS 137 Introduction to the UNIX Operating System

3 cr. hrs. 3 periods (3 lec.)

Principles, tools and history of the UNIX and Linux operating systems. Includes utilities, file structure, text editors, tools, documentation, networking. Also includes bash or sh shell use and script programming.

Recommendation: Completion of CIS 100 before enrolling in this course.

Offered: Fall, Spring.

CIS 141 Introduction to VB.NET

4 cr. hrs. 4 periods (4 lec.)

Introduction to the Visual Basic.NET programming language. Includes Microsoft .NET, .NET framework, common language runtime, getting started with Visual Basic.NET (VB.NET), and object-oriented programming. Also includes user interface programming, VB.NET and the .NET framework, and using ADO.NET in VB.NET

Prerequisite(s): CIS 129.

Offered: Fall, Spring.

CIS 142 Introduction to C#

4 cr. hrs. 4 periods (4 lec.)

Introduction to Microsoft's .NET Programming Language C#. Includes introduction and simple compilation and execution of programs from the Visual Studio IDE, data types and declarations, using methods, creating classes and objects, selection and repetition, and creating and using arrays. Also includes inheritance, exception handling, GUI objects and controls from the Visual Studio IDE, and handling events.

Recommendation: Completion of CIS 100 or prior programming experience before enrolling in this course.

Offered: Spring.

CIS 150 Game Programming I

4 cr. hrs. 4 periods (4 lec.)

Basic concepts of game programming using managed DirectX and C#. Includes getting started with Direct 3D, Direct 3D devices, rendering, meshes, and creating a game.

Prerequisite(s): CIS 142 or corequisite.

Corequisite(s): CIS 142 Course CIS 142.

Offered: Fall.

CIS 151 Game Programming II

3 cr. hrs. 3 periods (3 lec.)

Continuation of CIS 150. Intermediate concepts of game programming using managed DirectX and C#. Includes graphic concepts, High Level Shader, sound, and user input.

Prerequisite(s): CIS 150.

Offered: Spring.

CIS 162 Database Design and Development

4 cr. hrs. 4 periods (4 lec.)

Introduction to database concepts and terminology. Includes file systems and databases, the relational database model, entity relationship modeling, normalization, database design, distributed database management systems, and other systems.

Prerequisite(s): CSA 170.

Corequisite(s): CIS 182

Offered: Spring.

CIS 170 CISCO I: Networking Fundamentals

5 cr. hrs. 5 periods (5 lec.)

Introduction to the fundamentals of networking. Includes network concepts, the Open Systems Interconnection (OSI) model, binary numbering system, network architecture, Local Area Network (LAN) design and installation, and Cisco troubleshooting procedures. Also includes preparation for Cisco certification examination.

Prerequisite(s): CIS 136.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 171 CISCO II: Networking Router Technologies

5 cr. hrs. 5 periods (5 lec.)

Introduction to the fundamentals of networking router technologies. Includes networking concepts, Open Systems Interconnection (OSI) model, Local Area Network (LAN) technologies, routing protocols, router configuration files, and Cisco troubleshooting procedures. Also includes preparation for the Cisco certification exam.

Prerequisite(s): CIS 170.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 172 CISCO III: Advanced Routing and Switching

5 cr. hrs. 5 periods (5 lec.)

Development of skills to configure advanced routing protocols. Includes Local Area Network (LAN) switching, Virtual LAN (VLAN), LAN design, routing protocols, access lists, and Novell Internetwork Packet Exchange (IPX) protocol. Also includes preparation for the Cisco certification exam.

Prerequisite(s): CIS 171.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 173 CISCO IV: Project Based Learning

5 cr. hrs. 5 periods (5 lec.)

Design and configuration of advanced Wide Area Network (WAN) projects using Cisco IOS command set. Includes WAN design, Point-to-Point Protocol (PPP), integrated Services Digital Network (ISDN), and frame relay. Also includes preparation for Cisco certification examination.

Prerequisite(s): CIS 172.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 174 Introduction to Oracle Database

3 cr. hrs. 3 periods (3 lec.)

Introduction to the Oracle relational database management system. Includes creating and modifying database tables, using queries, introduction to Procedure Language/Structured Query Language (PL/SQL), and creating forms, reports, and an integrated database application.

Corequisite(s): CIS 162

Offered: May not be offered this year, check class schedule.

CIS 180 Introduction to SQL and PL/SQL

4 cr. hrs. 4 periods (4 lec.)

Extensive introduction to data-server technology covering concepts of both relational and objects relational databases and SQL and PL/SQL programming language. Includes creation and maintenance of database objects, storage, retrieval, and manipulation of data. Also includes creating PL/SQL blocks of application code that can be shared by multiple forms, reports, data management applications.

Prerequisite(s): CIS 106 and 129.

Recommendation: Experience using a GUI interface before enrolling in this course. Consult instructor for alternative prerequisites.

Offered: May not be offered this year, check class schedule.

CIS 181 Introduction to Oracle Designer

4 cr. hrs. 4 periods (4 lec.)

Task-based essential skills for using Oracle Designer to develop application systems. Includes recording business requirements, refining the data and application design, and generating database, objects and simple Oracle Developer and WebServer applications, and a single, small-scale Oracle Designer project. Also includes the flow of information through the Repository, and the default behavior of the Oracle Designer toolset.

Prerequisite(s): CIS 106.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CIS 182 Introduction to ANSI SQL

3 cr. hrs. 3 periods (3 lec.)

Introduction to the American National Standard Institute (ANSI) Structured Query Language (SQL). Includes relational databases, SQL basic and nomenclature, simple queries, search conditions and sorting, single table query processing and unions, simple and multi-table joints, summary queries using columns, group queries, and subqueries and query expressions. Also includes adding, deleting, and modifying data from the database, referential integrity and constraints, creating databases, creating, removing and modifying tables, and defining constraints.

Prerequisite(s): CIS 162 or concurrent enrollment.

Corequisite(s):

Offered: Spring.

CIS 183 Introduction to Extensible Markup Language (XML)

3 cr. hrs. 3 periods (3 lec.)

Introduction to Extensible Markup Language (XML) which provides a format for describing data and enables the separation of presentation from data. Includes creating an XML document, binding XML data, document type definition, namespace and schemas, formatting with Cascading Style Sheets, and introduction to Extensible Stylesheet Language Transformation (XSLT).

Recommendation: Coursework or experience with Hypertext Markup Language (HTML) is strongly recommended before enrolling in this course.

Offered: Spring.

CIS 184 Introduction to SQL Server

3 cr. hrs. 3 periods (3 lec.)

Introduction to Microsoft Structured Query Language (SQL) Server relational database management system. Includes fundamentals of SQL server architecture, relational database components, administration tools, and communication, server, and logical database components.

Corequisite(s): CIS 162

Offered: May not be offered this year, check class schedule.

CIS 187 Data Processing Projects I

1-3 cr. hrs. 3-9 periods (3-9 lab)

Provides practical work experience with academic study. Includes problem solving, job site interpersonal relations, and directed independent studies of computer-related topics. Also includes lab exercises involving operating system tasks, word processing, spreadsheet, electronic mail, and the Internet.

Recommendation: Completion of four courses in the Computer Science program before enrolling in this course.

Offered: Fall, Spring, Summer.

CIS 199 Introduction to Co-op: Computer Information Systems

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Corequisite(s): CIS 199WK

Offered: Fall, Spring.

CIS 199WK Co-op Work: Computer Information Systems

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Corequisite(s): CIS 199

Offered: Fall, Spring.

CIS 210 Protecting Your PC and Network: Counter Measures to Network

4 cr. hrs. 4 periods (4 lec.)

Introduction to networking vulnerabilities within various protocols and operating systems. Includes overview of cyber crime and security issues, networks and the Internet, assessing and securing a personal computer (PC) system, denial of service attacks, malware, and data encryption. Also includes Internet fraud and security, espionage in cyberspace, cyber detective work, and computer security hardware and software.

Recommendation: Completion of CIS 119 or 170 or some experience with personal computer networking is recommended before enrolling in this course.

CIS 220 Novell NetWare Networking and Administration

4 cr. hrs. 4 periods (4 lec.)

Administration of microcomputer networks using Novell NetWare. Includes networking fundamentals, computer networking protocols, NetWare server installation and configuration, maintenance, operation and administration.

Prerequisite(s): CIS 119.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 221 Microsoft Windows Server

4 cr. hrs. 4 periods (4 lec.)

Knowledge and skills necessary to install, configure, customize, optimize networks, integrate, and troubleshoot Windows server. Includes overview of Windows networking, managing Windows server, Windows components, and Internetworking and Intranetworking. Also includes active directory services, advanced file systems, Windows security, booting Windows, and Windows application servers.

Prerequisite(s): CIS 103.Information: Preparation for Microsoft certification examination.

Offered: Fall, Spring.

CIS 222 Implementing Windows Network Infrastructure

4 cr. hrs. 4 periods (4 lec.)

Knowledge and skills to install, configure, maintain, and support a Microsoft Windows network infrastructure. Includes Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), Windows Internet Name Service (WINS), traffic security, remote access, network router, remote installation, connectivity with other operating systems, and Web server.

Prerequisite(s): CIS 221.Information: Preparation for Microsoft certification examination.

Offered: Fall.

CIS 223 Implementing Windows Directory Services

4 cr. hrs. 4 periods (4 lec.)

Knowledge and skills to install, configure, and administer Microsoft Windows Active Directory directory services. Includes active directory structure, Active Directory directory services, Domain Name System (DNS), group policy implementation, user accounts, software development, group policy security, and administration of active directory objects.

Prerequisite(s): CIS 221.

Offered: Spring.

CIS 224 Designing Windows Network Security

4 cr. hrs. 4 periods (4 lec.)

Knowledge and skills to analyze business requirements and processes to design a security solution for a Microsoft Windows network. Includes technical requirements, security requirements, security solution on a Windows network, security solution for access between networks, and security for communication channels.

Prerequisite(s): CIS 223.Information: Preparation for Microsoft certification examination.

Offered: Fall.

CIS 225 Linux (UNIX) System and Network Administration

4 cr. hrs. 4 periods (4 lec.)

Operations and network administration of the Linux (UNIX) system. Includes

background review, basic Linux installation installing software packages, network file services configuration, Apache web server, and file transfer protocol (FTP).

Prerequisite(s): CIS 137.

Offered: Fall, Spring.

CIS 226 Advanced Linux Networking

4 cr. hrs. 4 periods (4 lec.)

Advanced concepts in Linux and UNIX networking. Includes NFS, LDAP, firewalls, security and user administration.

Prerequisite(s): CIS 225.

Offered: Spring.

CIS 228 Fundamentals of Network Security

4 cr. hrs. 4 periods (4 lec.)

Introduction and general overview of security measures for computer networks. Includes authentication methods and techniques, attacks and malicious code, remote access concepts, e-mail and web security, directory and file transfer services, and wireless protocols and security. Also includes hardware devices, topologies and security, methods of intrusion detection, establishing security baselines, introduction to cryptography, disaster recovery policies and procedures, and forensics, risk management, and auditing measures.

Recommendation: Completion of CIS 119 before enrolling in this course.

Information: This course prepares students to take the CompTIA Security + Exam.

Offered: May not be offered this year, check class schedule.

CIS 235 Advanced Topics in Linux/Unix Security

4 cr. hrs. 4 periods (4 lec.)

Overview for intermediate users of Linux and Linux administrators focusing on security issues. Includes background review, discovering network vulnerabilities, vulnerability mitigation, management awareness, intrusion detection, data gathering, and WiFi.

Recommendation: Completion of CIS 225 is recommended before enrolling in this course.

CIS 241 Advanced Visual Basic.NET Programming

4 cr. hrs. 4 periods (4 lec.)

Advanced course in Visual Basic.NET programming with special emphasis on the new NET Framework and how it is used to create distributed applications. Includes review of VB.NET basics, basic Web programming, server-side Web programming with VB.NET, accessing data with VB.NET, and introduction and advanced VB.NET applications.

Prerequisite(s): CIS 141.

Offered: Spring.

CIS 250 Introduction to Assembly Language

3 cr. hrs. 3 periods (3 lec.)

Beginning 80x86 assembly language programming. Includes various number systems, machine organization and different addressing methods. Also includes array processing, indexing, sorting, stack parameter passing, internal and external procedures, string functions, data packing, logical and bit-level operations, DOS and BIOS interrupts, macros and file I/O.

Prerequisite(s): CIS 131.

Recommendation: Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall, Spring.

CIS 252 SQL Server Programming with Transact SQL

4 cr. hrs. 4 periods (4 lec.)

A complete introduction to Transact Structured Query Language (SQL). Includes SQL server overview, programming SQL server, creating and managing databases, creating data types and tables, implementing data integrity and planning, creating and maintaining indexes. Also includes implementing views, stored procedures, user-defined functions and triggers, programming across multiple servers, optimizing query performance, analyzing queries, and managing transactions and locks.

Corequisite(s): CIS 254

Recommendation: Understanding of programming basics such as variables, data types and procedural programming before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CIS 254 SQL Server Administration

4 cr. hrs. 4 periods (4 lec.)

Installation and configuration of the Microsoft SQL Server database management system. Includes skills to administer and troubleshoot the system.

Prerequisite(s): CIS 162.

Offered: May not be offered this year, check class schedule.

CIS 255 Database Administration with Oracle

4 cr. hrs. 4 periods (4 lec.)

Implementation and administration of an Oracle database management system. Includes Oracle architecture overview, database administrator tools, creating and Oracle instance, data dictionary views and control files, redo log files and diagnostic files, and storage concepts and settings. Also includes table management, index management, data integrity constraints, users and resource control, and database roles.

Prerequisite(s): CIS 162 and 174.

Offered: May not be offered this year, check class schedule.

CIS 265 The C Programming Language

4 cr. hrs. 4 periods (4 lec.)

Principles and syntax of ANSI Standard C and many of the common library functions. Includes writing C programs in portable code to facilitate systems programming concepts.

Prerequisite(s): CIS 250 or concurrent enrollment.Corequisite(s)

Offered: Fall, Spring.

CIS 266 CGI Programming with PERL

3 cr. hrs. 3 periods (3 lec.)

Development of CGI scripts using Perl. Includes producing efficient and effective scripts. Also includes creating interactive Web pages using forms, post processing, CGI graphics, and persistent cookies.

Prerequisite(s): CIS 121 and 265.

Offered: May not be offered this year, check class schedule.

CIS 269 Data Structures

5 cr. hrs. 5 periods (5 lec.)

Advanced topics in computer science and programming in C. Includes software design and development, testing and validation, and the algorithmic process. Also includes dynamic allocation, advanced sort and search algorithms, recursion, stacks, queues, linked lists, trees, hash tables, and graphs.

Prerequisite(s): CIS 265.

Offered: Spring.

CIS 273 Advanced Web Development

4 cr. hrs. 4 periods (4 lec.)

Advanced web development including design and implementation of database web application. Includes use of HTML, scripting languages such as VBScript, JavaScript or CGI Perl, client and server scripting, active server pages, Java Applets, Active X components, database usage, debugging and deployment of a web application. Also includes discussion of various database types.

Prerequisite(s): CIS 121.

Offered: May not be offered this year, check class schedule.

CIS 274 PHP and MySQL Web Development

4 cr. hrs. 4 periods (4 lec.)

Introduction to PHP programming language and MySQL database system and their application to building entry-level Web applications. Includes writing PHP programs for processing, storing and retrieving data for WEB application as well as examples of code that can be used in real-world interactive WEB applications systems.

Recommendation: Completion of CIS 121 and 131 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CIS 278 C++ and Object-Oriented Programming

5 cr. hrs. 5 periods (5 lec.)

Concepts and implementation of object-oriented programming and design using C++. Includes the language syntax of C++, applications using C++ objects to solve information systems problems, and class libraries created for reuse and inheritance.

Prerequisite(s): CIS 265.Information: Completion of CIS 265 or consent of instructor is required before enrolling in this course.

Offered: Spring.

CIS 279 Java Programming

5 cr. hrs. 5 periods (5 lec.)

Introduction to the Java programming language. Includes review of fundamentals, objects, classes, and methods, creating, resizing, and moving frames, extending classes and overriding methods, text output and input, handling events, scrollbars and colors, and mouse events. Also includes working with fonts, menus, checkboxes, lists, choices, and other components, sending data, creating and using Applets, simultaneous multi-processing, and creating and importing packages.

Prerequisite(s): CIS 265.

Offered: Fall, Spring.

CIS 280 Systems Analysis and Design: Concepts and Tools

4 cr. hrs. 4 periods (4 lec.)

Concepts of systems analysis and design for all phases of the systems development life cycle. Includes problem identification, project initiation and planning, analysis, logical design, physical design, implementation and testing, and operations and maintenance. Also includes specific tools used by systems analysts, introduction and use of CASE (computer-aided software engineering) tools, and project management software.

Prerequisite(s): CIS 131 or 162.

Offered: Fall, Spring.

CIS 281 Systems Analysis and Design: Applications

3 cr. hrs. 3 periods (3 lec.)

Concepts and tools of systems analysis applied to specific projects. Includes performing a project from problem initiation through to implementation using CASE tools, project management software, and appropriate software development tools.

Prerequisite(s): CIS 280.

Offered: Fall, Spring.

CIS 282 Database Programming with Visual Basic

4 cr. hrs. 4 periods (4 lec.)

Programming OLE DB data compliant data sources such as SQL Server and Oracle using Visual Basic and the Active-X Data object (ADO.NET). Includes getting started, creating connections, data commands and the DataReader, the DataAdapter, transaction processing in ADO.NET, and the DataSet. Also includes the DataView, editing and updating data, using ADO.NET in Windows forms and Web forms, and using the XML designer.

Prerequisite(s): CIS 162.

Offered: May not be offered this year, check class schedule.

CIS 285 Oracle Programming with PL/SQL

4 cr. hrs. 4 periods (4 lec.)

Introduction to Oracle programming with Procedure Language/ Structured Query Language (PL/SQL). Includes data handling, processing, procedures, functions, unit dependencies, triggers, dynamic SQL and object technology, and performance tuning. Error management and exception handling are also presented.

Prerequisite(s): CIS 162, 174, and 182.Corequisite(s): CIS 255

Offered: May not be offered this year, check class schedule.

CIS 286 Advanced Java Topics

5 cr. hrs. 5 periods (5 lec.)

Advanced topics in the Java programming language. Includes professional Java programming concepts, networking, interface with other programming languages, packaging programs and data into files, thread creation and execution, and specialized topics.

Prerequisite(s): CIS 279.Information: Prerequisite maybe waived with equivalent knowledge of Java.

Offered: May not be offered this year, check class schedule.

CIS 287 Data Processing Projects II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Analysis and solution of a computer problem related to business. Includes choice of a computer language, structured programming techniques, setting priorities, and development and testing of procedures. Also includes methods of documentation, enhancement projection, and making a formal presentation.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

CIS 299 Introduction to Co-op: Computer Information Systems

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Corequisite(s): CIS 299WK

Offered: Fall, Spring, Summer.

CIS 299WK Co-op Work: Comp Info Systems

1-8 cr. hrs. 5-40 periods (5-40 lab)

Co-op Work: Computer Information Systems See Cooperative Education section for description.

Corequisite(s): CIS 299

Offered: Fall, Spring, Summer.

Computer Software Applications

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CSA 089 Beginning Computer Skills

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Beginning approach to operating a computer. Includes basic computer skills, computer terminology, Windows use, handling files, and word processing (Word Pad).

Offered: Fall, Spring.

CSA 100 Computer Literacy

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Overview of computer applications and functions. Includes historical significance of the computer, components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes computer networks for communication and information.

Recommendation: Completion of CSA 089 or basic computer and keyboard skills, completion of REA 091 or satisfactory score on the reading assessment test before enrolling in this course.

Information: CSA 100 meets occupational general education computer and information literacy requirements and is a one credit version of CSA 101.

Offered: Fall, Spring, Summer.

CSA 101 Computer Fundamentals

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of computer applications and functions. Includes historical significance of the computer, components of a computer system, spreadsheet, database, and word processing use within a workplace. Also includes advanced office software, office networking, and computer networks for communication and information.

Recommendation: Completion of CSA 089 or basic computer and keyboard skills, completion of REA 091 or satisfactory score on the reading assessment test before enrolling in this course.

Information: CSA 101 meets occupational general education computer and information literacy requirements and is a three credit version of CSA 100.

Offered: Fall, Spring, Summer.

CSA 107 Microcomputer Software/Hardware Topics

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of microcomputer operating procedures. Includes software, hardware, and communication networks.

Recommendation: Completion of CSA 101 and 182 before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 108 Software Skills Update

3 cr. hrs. 4 periods (2 lec., 2 lab)

Techniques and procedures using current equipment and software. Includes file creation, data manipulation, calculations, editing, and printing.

Information: May be taken up to a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

CSA 110 Spreadsheets: Microsoft Excel

3 cr. hrs. 4 periods (2 lec., 2 lab)

Fundamentals of spreadsheet applications using Microsoft Excel. Includes spreadsheet concepts, formulas and functions, formatting worksheets and cells, working with charts and graphics, Excel Lists, managing multiple worksheets and workbooks, collaborating on a workbook and Web page, developing an Excel application, data tables and Scenario management, using Solver, importing data, and advanced functions and filtering.

Recommendation: Completion of MAT 086 or required score on the Mathematics assessment test, completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 110A Spreadsheets: Microsoft Excel Module A

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Spreadsheets applications using Microsoft Excel at the beginning level. Includes spreadsheet concepts, formulas and functions, formatting worksheets and cells, and working with charts and graphics.

Recommendation: Completion of MAT 086 or required score on the Mathematics assessment test, completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

Offered: Fall, Spring, Summer.

CSA 110B Spreadsheets: Microsoft Excel Module B

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Spreadsheets applications using Microsoft Excel at the intermediate level. In-

cludes Excel Lists, managing multiple worksheets and workbooks, collaborating on a workbook and Web page, and developing an Excel application.

Prerequisite(s): CSA 110A.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

Offered: Fall, Spring, Summer.

CSA 110C Spreadsheets: Microsoft Excel Module C

1 cr. hrs. 1.32 periods (.66 lec., .66 lab)

Spreadsheet applications using Microsoft Excel at the advanced level. Includes data tables and Scenario management, using Solver, importing data, and advanced functions and filtering.

Prerequisite(s): CSA 110B.

Information: CSA 110A, 110B, and 110C together constitute CSA 110.

Offered: Fall, Spring, Summer.

CSA 120 Word Processing: Word

3 cr. hrs. 4 periods (2 lec., 2 lab)

Word processing concepts using Microsoft Word. Includes creating and editing documents, and using character and paragraph formatting, tables, styles, templates, and macros, merge, multiple-columnar formats, internet basics, creating and using advanced styles, templates, and forms, working with graphics in documents, working with large documents, determining document layout, and sharing documents.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test, completion of OAP 111A or keyboarding by touching at 30 wpm before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 120A Word Processing: Word Module A

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Microsoft Word at an introductory level. Includes getting started with Word for Windows, editing a document, enhancing text, formatting a document, and multipage documents.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test, completion of OAP 111A or keyboarding by touching at 30 wpm before enrolling in this course.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

Offered: Fall, Spring, Summer.

CSA 120B Word Processing: Word Module B

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Microsoft Word at an intermediate level. Includes file management, advanced page setup, tables, Auto Text, merging, and templates and wizards.

Prerequisite(s): CSA 120A.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

Offered: Fall, Spring, Summer.

CSA 120C Word Processing: Word Module C

1 cr. hrs. 1.32 periods (.66 lec., .66 lab)

Microsoft Word at an advanced level. Includes macros, templates, styles, table of content, graphics, and customizing Word.

Prerequisite(s): CSA 120B.

Information: CSA 120A, 120B, and 120C together constitute CSA 120.

Offered: Fall, Spring, Summer.

CSA 130 PowerPoint

3 cr. hrs. 4 periods (2 lec., 2 lab)

Fundamentals of Microsoft PowerPoint presentation software. Includes introduction to PowerPoint, beginning a presentation, templates and wizards, color scheme, drawing tools, clip art, presentation in outline view, toolbars, organization charts, graphs, advanced text and graphics, templates and the slide master, slide shows, output and presentation options, animation, video, sound, creating action buttons, connecting to the Internet, and running a slide show.

Recommendation: CSA 089 or basic computer skills, completion of REA 091 or satisfactory score on the reading assessment.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

Offered: Fall, Spring, Summer.

CSA 130A PowerPoint: Module A

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Fundamentals of Microsoft PowerPoint presentation software at the beginning level. Includes introduction to PowerPoint, beginning presentation, templates and wizards, color scheme, and drawing tools. Recommendations: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

Offered: Fall, Spring, Summer.

CSA 130B PowerPoint: Module B

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Fundamentals of Microsoft PowerPoint presentation software at the intermediate level. Includes clipart, presentation in outline view, toolbars, and organization charts.

Prerequisite(s): CSA 130A.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

Offered: Fall, Spring, Summer.

CSA 130C PowerPoint: Module C

1 cr. hrs. 1.32 periods (.66 lec., .66 lab)

Fundamentals of Microsoft PowerPoint at the advanced level. Includes graphics, advanced text and graphics, templates and the slide master, slide shows, output and presentation options, animated, video, sound, creating action buttons, connecting to the Internet, and running a slide show.

Prerequisite(s): CSA 130B.

Information: CSA 130A, 130B, and 130C together constitute CSA 130.

Offered: Fall, Spring, Summer.

CSA 141 Integrated Office Suite

4 cr. hrs. 5 periods (3 lec., 2 lab)

Practical applications and concepts using integrated Microsoft Office Software. Includes concepts, functions and features of Word, Excel, Access, PowerPoint, and integrated case studies.

Prerequisite(s): CSA 101.

Offered: Fall, Spring, Summer.

CSA 145 Microsoft Project Software

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to the use of Microsoft Project software. Includes getting around in Project, Project schedule, communicating with Project, assigning resources and costs, tracking and closing, sharing Project and Excel, and advanced features.

Prerequisite(s): CSA 101.

Offered: May not be offered this year, check class schedule.

CSA 152 Internet Browser: Microsoft Explorer

2 cr. hrs. 3 periods (1 lec., 2 lab)

Fundamentals of Microsoft Internet Explorer. Includes introduction to the Internet and the World Wide Web, browsing the Web, customizing the browser, printing and saving Web pages, searching the Web, information resources on the Web, communication and file transferring using the Internet, security features, enhancing Internet Explorer, and ethics and intellectual properties.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 152A Internet Browser: Microsoft Explorer Module A

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Fundamentals of Microsoft Internet Explorer at the beginning levels. Includes introduction to the Internet and the World Wide Web, browsing the Web, customizing the browser, printing and saving Web pages, and searching the Web.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Information: CSA 152A and 152B together constitute CSA 152.

Offered: Fall, Spring, Summer.

CSA 152B Internet Browser: Microsoft Explorer Module B

1 cr. hrs. 1.5- periods (.5 lec., 1 lab)

Fundamentals of Microsoft Internet Explorer at the intermediate level. Includes locating information resources on the Web, communication and file transferring using the Internet, security features, and enhancing Internet Explorer.

Prerequisite(s): CSA 152A.

Information: CSA 152A and 152B together constitute CSA 152.

Offered: Fall, Spring, Summer.

CSA 155 Microsoft FrontPage

3 cr. hrs. 4 periods (2 lec., 2 lab)

Web site concepts and design using Microsoft Front Page. Includes web site development, graphics and hyperlinks, lists, anchors, and web site views, shared borders and themes, tables and frames, web site publishing, and web server utilization.

Prerequisite(s): CSA 101.

Recommendation: Completion of CSA 152 or skills using the Internet and the World Wide Web before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CSA 165 Dreamweaver for Microsoft Windows I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Web site concepts in a Microsoft Windows environment using Dreamweaver. Includes commands and features, integrated file browser, text image file formats, hyperlinks, local web pages, web site functionality, page layout, tables, Dreamweaver help, get and put features, and cascading style sheets.

Recommendation: Completion of CSA 101 before enrolling in this course.

Information: Advanced computer application skill is required before enrolling in this course.

Offered: Fall.

CSA 166 Dreamweaver for Microsoft Windows II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Advanced concepts of the Macromedia Dreamweaver Web development application. Includes rollovers and navigation bars, libraries, head elements and keyboard shortcuts, stylesheets, frames, layers, history panel, browser targeting and code tools, forms, Macromedia integration, and connections to dynamic data.

Prerequisite(s): CSA 165.

Recommendation: Completion of CSA 101 before enrolling in this course.

Information: Advanced computer application skill is required before enrolling in this course.

Offered: Fall.

CSA 167 Fireworks for Microsoft Windows

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to Fireworks for Microsoft Windows. Includes the Fireworks environment, creating vector graphics transforming vector images and effects, bitmap images, using text, libraries, optimizing graphics for the Web, hotspot links, slicing and rollovers, vector paths, image effects, advanced rollovers and slicing, symbols, instances, and animation, history panel, and Macromedia integration.

Prerequisite(s): CSA 165.

Recommendation: Completion of CSA 101 before enrolling in this course.

Information: Advanced computer skill is required before enrolling in this course.

Offered: Fall.

CSA 168 Flash for Microsoft Windows

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to Flash as a Web development tool. Includes the Flash environment, vector vs. bitmap graphics, creating and manipulating objects, history panel, working with text, multiple layers in a movie, creating animation, Flash movie publishing, symbols and instances, organizing large projects interactivity in Flash, libraries, working with sound, using ActionScript, testing and publishing a Flash movie, and Macromedia integration.

Prerequisite(s): CSA 165.

Recommendation: Completion of CSA 101 before enrolling in this course.

Information: Advanced computer application skill is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CSA 170 Database: Access

3 cr. hrs. 4 periods (2 lec., 2 lab)

Techniques for using Microsoft Access. Includes an overview of Microsoft Access, creating tables, working with tables, creating and using select queries, creating and using forms, creating and using reports, creating a report that contains totals, principles of table design and relationships, table design techniques, designing select queries, customizing form designs, working with data access pages, customizing reports, parameter and action queries, query joins and crosstab queries, using advanced form techniques, creating basic macros to automate forms, using macros to provide user interaction and automate tasks, using advanced report techniques, and Access, and the Internet.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 170A Database: Access Module A

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Microsoft Access at the beginning level. Includes an overview of Access, creating tables, working with tables, creating and using select queries, creating and using forms, creating and using reports, and creating a report that contains totals.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

Offered: Fall, Spring, Summer.

CSA 170B Database: Access Module B

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Microsoft Access at the intermediate level. Includes techniques to enhance database designs using the principles of normalization and table relationships. Also includes principles of table design, principles of table relationships, table design techniques, designing select queries, customizing form designs, working with data access pages, and customizing reports.

Prerequisite(s): CSA 170A.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

Offered: Fall, Spring, Summer.

CSA 170C Database: Access Module C

1 cr. hrs. 1.32 periods (.66 lec., .66 lab)

Microsoft Access at the advanced level. Includes advanced techniques for using complex queries, creating more efficient forms and reports, and automating forms. Also includes parameter and action queries, query joins and crosstab queries, using advanced form techniques, creating basic macros to automate forms, using macros to provide user interaction and automate tasks, using advanced report techniques, and Access and the Internet.

Prerequisite(s): CSA 170B.

Information: CSA 170A, 170B, and 170C together constitute CSA 170.

Offered: Fall, Spring, Summer.

CSA 182 Microsoft Windows: Current Version

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of the Microsoft Windows operating system. Includes introduction to Windows, active desktop, multitasking, Windows help features, Windows Explorer, file management, Windows accessories, exchanging data between programs, print management, control panel, customizing Windows, and networking with Windows.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 182A Microsoft Windows: Current Version Module A

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Overview of the Microsoft Windows operating system. Includes introduction to Windows, active desktop, multitasking, and Windows help features.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Offered: Fall, Spring, Summer.

CSA 182B Microsoft Windows: Current Version Module B

1 cr. hrs. 1.34 periods (.67 lec., .67 lab)

Continuation of CSA 182A. Includes Windows Explorer, file management, Windows accessories, and exchanging data between programs.

Prerequisite(s): CSA 182A.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

Offered: Fall, Spring, Summer.

CSA 182C Microsoft Windows: Current Version Module C

1 cr. hrs. 1.32 periods (.66 lec., .66 lab)

Continuation of CSA 182B. Includes print management, control panel, customizing Windows, and networking with Windows.

Prerequisite(s): CSA 182B.

Information: CSA 182A, 182B, and 182C together constitute CSA 182.

Offered: Fall, Spring, Summer.

CSA 207 Microsoft Publisher

3 cr. hrs. 4 periods (2 lec., 2 lab)

Desktop publishing for administrative support personnel. Includes a variety of desktop publishing software, terms and concepts, text, graphics, page format, other features, and basic design.

Prerequisite(s): CSA 120 or 120A and 120B.

Offered: Fall, Spring, Summer.

CSA 210 Microsoft Excel Specialist Certification Preparation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Basic and intermediate functions and features of Microsoft Excel. Includes cells and cell content, data analysis, formula calculations, graphics, workgroup collaborations, format and print worksheets, and managing and modifying workbooks. Also includes preparation for the Microsoft Office Specialist (MOS) Excel Certification.

Recommendation: Completion of CSA 089 or basic computer skills, completion of REA 091 or required score on the Reading assessment test before enrolling in this course.

Information: If the student has computer literacy equal to CSA 100, instructor permission may be obtained.

Offered: Fall, Spring, Summer.

CSA 211 Integrating Microsoft Excel Projects

3 cr. hrs. 4 periods (2 lec., 2 lab)

Problem solving and decision making with Microsoft Excel. Includes problem solving using fundamental Excel skills and tools and statistical analysis tools, determining effective data display with charts, applying logic in decision making, retrieving data for computation, analysis, and reference, evaluating the financial impact of loans and investments, sharing business data using the Web, exchanging data across platforms and programs, and using XML with Microsoft Excel and Access.

Prerequisite(s): CSA 210.

Information: Prerequisite maybe waived with Excel experience. See a CSA faculty or advisor or counselor. Specialist certification.

Offered: May not be offered this year, check class schedule.

CSA 220 Microsoft Word Specialist Certification Preparation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Beginning and intermediate functions and features of Microsoft Word. Includes creating content, organizing content, formatting content, document collaboration, and formatting and managing documents. Also includes preparation for the Microsoft Office Specialist (MOS) Word certification.

Prerequisite(s): CSA 100.

Information: Prerequisite maybe waived with computer literacy equal to CSA 100.

Offered: May not be offered this year, check class schedule.

CSA 221 Integrating Microsoft Word Projects

3 cr. hrs. 4 periods (2 lec., 2 lab)

Production of integrated business communications using Microsoft Word. Includes conducting business research on the Web, managing communications with Microsoft Word, creating an online form, delivering presentations with PowerPoint, developing macros, integrating business communications in Word, integrating data between programs, and converting documents for Web posting.

Prerequisite(s): CSA 120 or 220.

Information: Prerequisite(s) maybe waived with MOS Word Specialist certification.

Offered: May not be offered this year, check class schedule.

CSA 230 Microsoft PowerPoint Specialist Certification Preparation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Basic and intermediate functions and features of Microsoft PowerPoint. Includes creating new presentations, text-based content, inserting content, formatting content and slides, working with masters, presentation collaborations, managing and delivering presentations, and saving, publishing, and printing presentations. Also includes preparation for the Microsoft Office Specialist (MOS) PowerPoint certification.

Prerequisite(s): CSA 130.

Information: Prerequisite maybe waived with computer literacy equal to CSA 130.

Offered: May not be offered this year, check class schedule.

CSA 241 Advanced Integrated Office Projects

4 cr. hrs. 5 periods (3 lec., 2 lab)

Problem solving and decision making with Microsoft Office. Include file management, conducting business research, managing communications using Microsoft Word and delivering presentations using Microsoft PowerPoint. Problem solving and decision making with spreadsheets using Microsoft Excel, solving business problems with databases using Microsoft Access and integrating business applications.

Prerequisite(s): CSA 141.

Offered: Fall, Spring.

CSA 265 Advanced Microsoft Access

3 cr. hrs. 4 periods (2 lec., 2 lab)

Advanced database concepts, to include how to import and retrieve data, creation of complex queries and using the SQL view; creation of complex forms, reports, and user interface; use of the VBA interface, connecting to the Web, and security within a Microsoft Access database.

Prerequisite(s): CSA 170.

Information: Advanced computer application skills necessary.

Offered: May not be offered this year, check class schedule.

CSA 266 Dreamweaver for Microsoft Windows III

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to advanced concepts of the Macromedia Dreamweaver for Databases. Includes database design review, recordsets, retrieving data, making data and images dynamic, live data, HTML, updating forms, templates, security, and multiple-page applications.

Prerequisite(s): CSA 166.

Recommendation: Completion of CSA 101 and 170 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

CSA 267 Advanced Flash for Microsoft Windows

3 cr. hrs. 4 periods (2 lec., 2 lab)

Advanced Flash techniques as a web development tool. Includes advanced sound techniques, graphics, embedding video into Flash, interacting with movie clips, building interactions within timelines, integrating Flash content with web pages, using the ActionScript interface, using the Flash player and projector, sharing and loading assets, importing and exporting data, and managing and troubleshooting Flash movies.

Prerequisite(s): CSA 101, 165, 168.

Offered: May not be offered this year, check class schedule.

CSA 268 Microsoft Access Database Design

3 cr. hrs. 4 periods (2 lec., 2 lab)

Database concepts and development relating to Microsoft Access. Includes database design, data models, relational database model, Entity Relationship (ER) model, database normalization, using queries in Access, and database performance tuning. *Prerequisite(s):* CSA 170.

Offered: May not be offered this year, check class schedule.

CSA 270 Microsoft Access Specialist Projects

3 cr. hrs. 4 periods (2 lec., 2 lab)

Production of database using Microsoft Access with design process. Includes planning and designing the database, database table, data for effective decision making, data collection, effective reports, automating database processes, enhancing user interactions using Visual Basic for applications, and integrating the database with a website.

Prerequisite(s): CSA 170.

Offered: May not be offered this year, check class schedule.

Cooperative Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CED 199 Introduction to Co-Op: Liberal Arts

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Includes communication skills, time and energy management, stress and its management, careers: information and its uses, job market, principles, theories, and practices in the career field, and problems in the work situation.

Corequisite(s): CED 199WK*Information: May be taken two times for a maximum of two credit hours.*

Offered: May not be offered this year, check class schedule.

CED 199WK Co-op Work: Liberal Arts

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): CED 199*Information: May be taken two times for a maximum of sixteen credit hours.*

Offered: May not be offered this year, check class schedule.

Credit Union

See Finance

Crime Scene Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CSM 100 Intro to Photographic Equipment & Procedures for Crime Scene Investigations

1 cr. hrs. 1 periods (1 lec.)

Focuses on developing skills in photographing a crime scene and processing black and white films and paper. Includes tools and equipment, taking basic crime scene photographs, and chemical processes used in processing crime scene photographs.

Offered: Fall, Spring.

CSM 101 Criminalistics

2 cr. hrs. 2 periods (2 lec.)

Focuses on awareness and identification of both physical and biological evidence associated with crime scenes, with an emphasis on scientific analysis. Includes discussion on fingerprints, ballistics, DNA and blood evidence, hair and fibers, tool marks, bite marks, glass fragments, handwriting analysis,

the scientific technology behind the investigative process, safety issues, and the future of criminalistics.

Offered: Fall, Spring, Summer.

CSM 102 Crime Scene Photography

1 cr. hrs. 1 periods (1 lec.)

Focuses on the specific skills needed to photograph various types of crime scene situations. Includes 1:1 photography, trace evidence, proper use of photographic equipment for crime scene investigations, and photographing post mortem injuries.

Prerequisite(s): CSM 100.

Offered: Fall, Spring.

CSM 103 Latent Processing

1 cr. hrs. 1 periods (1 lec.)

Focuses on the techniques involved in developing latent fingerprints. Includes physical characteristics, types of fingerprints, principles of fingerprinting, fingerprint collection, fingerprint surfaces, and the photography of latent prints.

Offered: Fall, Spring, Summer.

CSM 104 Fingerprint Identification

3 cr. hrs. 3 periods (3 lec.)

Provides in-depth study and analysis of fingerprints and their comparative value. Includes fingerprinting history, basic pattern types, identification standards and protocols, fingerprint pattern interpretations, and classification systems.

Offered: Fall, Spring.

CSM 105 Blood Pattern Documentation

.5 cr. hrs. .5 periods (.5 lec.)

Focuses on awareness of evidentiary value associated with bloodstain interpretation and the importance of proper photographic documentation. Includes discussion on stain and flow patterns, surface considerations, photographing blood patterns, health hazards, and blood detection presumptive tests.

Offered: Fall, Spring.

CSM 106 Ballistics

.5 cr. hrs. .5 periods (.5 lec.)

Focuses on firearms, safety and basic evidence collection in crime scene management. Includes firearms and ammunition recognition and identification, ammunition components and homemade bombs. Also includes the scientific technology involved in comparative analysis.

Offered: Fall, Spring, Summer.

CSM 107 Courtroom Testimony and Report Writing

.5 cr. hrs. .5 periods (.5 lec.)

Focuses on general court practices expected of a crime scene investigator. Includes extensive use of mock/moot trial methods to prepare students for court cases. Also includes developing complete and accurate case reports, tools used by defense attorneys, cross examination, and pre-trial interviews.

Information: This course emphasizes writing skills.

Offered: Fall, Spring, Summer.

Culinary Arts

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

CUL 101 Principles of Restaurant Operations

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of operating and managing small and large restaurants. Includes concept development, menu development, budgeting and controlling costs, financing and leasing, legal and tax matters, defining jobs and organizing the restaurant, staffing the restaurant, employment training and development, equipment in the kitchen, restaurant marketing, marketing plan, sales and promotion, food purchasing, and customer relations.

Offered: Fall, Spring, Summer.

CUL 110 Food Service Nutrition

2 cr. hrs. 2 periods (2 lec.)

Basic nutrition concepts with an emphasis on the nutritional concerns of restaurants and other types of food service operations. Includes health and nutrition, evaluation and use of popular and commercial nutrition information, carbohydrates, lipids, proteins, vitamins, minerals, water, energy metabolism/balance, and nutrition principles and the life cycle.

Offered: Fall, Spring, Summer.

CUL 115 Food Service Sanitation and Safety

3 cr. hrs. 3 periods (3 lec.)

Theory and practice of food service safety and sanitation. Includes creating a safe food service environment, food-borne illnesses, Hazard Analysis Critical

Control Points, sanitation in the purchasing, receiving and storage of food, sanitation in the preparation and service of food, maintaining sanitary facilities and equipment, safety and accident prevention, and legal requirements for food service safety and sanitation. Reviews legal elements of food service sanitation based on requirements and recommendations of Pima County Health Department. Offered: Fall, Spring.

CUL 120 Stewarding

2 cr. hrs. 2 periods (2 lec.)

Introduction to stewarding as kitchen support service. Includes cleaning and sanitizing a kitchen, functions of a steward, receiving, food rotation, and ordering systems.

Corequisite(s)

Offered: May not be offered this year, check class schedule.

CUL 126 Applied Mathematics for Food

1 cr. hrs. 1 periods (1 lec.)

Fundamentals of cost controls. Includes an introduction to profit and loss, balance sheet and net worth statements, measurement and conversions, recipe conversions, unit and recipe costing, yield tests, inventory and food cost percentages, controlling food costs, and menu pricing.

Offered: Fall, Spring, Summer.

CUL 130 Hot Foods I

3 cr. hrs. 3 periods (3 lec.)

Introduction to all facets of hot foods. Includes classical stocks, sauces, soups, liaisons: roux and starches, cooking techniques, preparation of vegetables, and butchering.

Corequisite(s): CUL 150, CUL 160

Offered: Fall, Spring.

CUL 140 Culinary Principles

3 cr. hrs. 3 periods (3 lec.)

Introduction to the background of culinary work. Includes professionalism, job responsibilities, tools and equipment, knives and knife skills, stocks, sauces, principles of cooking, food service vocabulary, then menu, food tasting, herbs and spices, chocolate, and vegetables.

Offered: Fall, Spring.

CUL 150 Garde Manger I

3 cr. hrs. 3 periods (3 lec.)

Introduction to the fundamentals of Garde Manger. Includes care of equipment, dressings: emulsified/non-emulsified, knife skills, basic sandwiches, herbs and spices, salad greens, and commercial cooking techniques.

Corequisite(s): CUL 130, CUL 160

Offered: Fall, Spring.

CUL 160 Bakery and Pastry Production I

3 cr. hrs. 3 periods (3 lec.)

Theory and practice of operating a bakery or pastry shop in a hotel or restaurant kitchen. Includes planning, ordering and scheduling for bakeshop production, safety and sanitation, bakery and pastry vocabulary, ingredients, yeast breads, quick breads, cream and custards, dough, cakes, filling, and frostings, cookies and brownies, and elementary plating, decorating and garnishing techniques.

Corequisite(s): CUL 130, CUL 150

Offered: Fall, Spring.

CUL 161 Cake Decorating and Candy Making

3 cr. hrs. 4 periods (2 lec., 2 lab)

Basic principles and methods of cake decorating and candy making. Includes history of cakes, selection of ingredients, cooking procedures, cake assembly, and presentation. Also includes techniques for creating wedding cakes and holiday delectables.

Offered: Fall, Spring, Summer.

CUL 170 Dining Room Operations

2 cr. hrs. 2 periods (2 lec.)

Theory and practice of operating a casual dining room preparation and guest service, proper etiquette for service and clearing, wine and beverage sales and service, salesmanship, and serving the public.

Corequisite(s)

Offered: Fall, Spring, Summer.

CUL 180 Food in History

3 cr. hrs. 3 periods (3 lec.)

History of foodstuffs, the story of cuisine, and the social history of eating. Includes collecting, gathering and hunting foodstuffs, stock-breeding and farming, sacramental foods, the economy of food markets, the era of merchants, Columbus, Cortez and the new world food discoveries, and professional food preparation.

Offered: Fall, Spring.

CUL 185 Catering Operations I

2 cr. hrs. 2 periods (2 lec.)

Theory and practice of planning and executing catering functions. Includes booking and planning, banquet room set-up and staffing, banquet service, guest payment and follow up, and specialized functions.

Offered: Fall, Spring, Summer.

CUL 199 Introduction to Co-op: Culinary Arts

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Offered: Fall, Spring, Summer.

CUL 199WK Co-op Work: Culinary Arts

1-3 cr. hrs. 5-15 periods (5-15 lab)

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Information: May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring, Summer.

CUL 210 Menu Planning

2 cr. hrs. 2 periods (2 lec.)

Principles and techniques of menu planning and restaurant design for food service operations. Includes designing a facility, designing a kitchen, determining equipment needs, developing a cost effective menu, ambiance and food, and inventory control procedures.

Offered: Fall, Spring, Summer.

CUL 230 Hot Foods II

3 cr. hrs. 3 periods (3 lec.)

Hot food preparation and service in a contemporary kitchen. Includes contemporary sauce making, vegetables, grains, and starches, natural liaisons, cooking techniques, food plating, and sanitation procedures and techniques.

Corequisite(s): CUL 250, CUL 260

Offered: Fall, Spring, Summer.

CUL 250 Garde Manger II

3 cr. hrs. 3 periods (3 lec.)

Refinement of skills required in Garde Manger Department. Includes charcuterie, cold buffets, salad greens, salad dressings, garnish, hygiene and sanitation.

Prerequisite(s): CUL 150.

Corequisite(s): CUL 230, CUL 260

Offered: Fall, Spring, Summer.

CUL 260 Bakery and Pastry Production II

3 cr. hrs. 3 periods (3 lec.)

Advanced theory and practice of operating a bakery of pastry shop in a hotel or restaurant kitchen. Includes planning, ordering, and scheduling for bakeshop production, safety and sanitation, bakery and pastry vocabulary, advanced yeast breads, classic French pastries, ice cream and frozen desserts, assembling pastries, pastry garnishes, and complex plated desserts.

Prerequisite(s): CUL 160.

Corequisite(s): CUL 230, CUL 250

Offered: Fall, Spring, Summer.

CUL 261 Advanced Cake Decorating and Candy Making

3 cr. hrs. 4 periods (2 lec., 2 lab)

Advanced principles and methods of cake decorating and candy making. Includes flower design, gum paste, airbrush, photo transfer, fondant, and chocolate artistry. Also includes advanced techniques for creating cakes for wedding and special occasions.

Prerequisite(s): CUL 161.

Offered: Fall, Spring, Summer.

CUL 270 Dining Room Operations II

2 cr. hrs. 2 periods (2 lec.)

Theory and practice of operating a formal dining room. Includes dining room preparation and guest service, proper etiquette for service and clearing, wine and beverage sales and service, salesmanship, customer relations, banquets and buffets, tableside food preparation, and maitre d'hotel responsibilities.

Prerequisite(s): CUL 170.

Corequisite(s)

Offered: May not be offered this year, check class schedule.

Dance

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DNC 107 Dance Conditioning

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to the concepts of dance as a strengthening, stretching, and cardiovascular activity and the awareness of alignment techniques through specific movement experiences and images. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring, Summer.

DNC 116 Dance Improvisation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Exploration of spontaneous dance movement based on selected criteria or structures. Includes principles of improvisation, spatial awareness, basic elements of movement, vocabulary, creative decision making, and introduction of choreographic devices.

Information: Completion of two or more of the following courses or consent of instructor before enrolling in this course: DNC 150, 166 or 219. May be taken four times for a maximum of eight credit hours.

Offered: Summer.

DNC 130 Tap Dance I

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to tap dancing. Includes class protocol, warm-up, standing and center floor work, locomotor work, elements and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 131 Tap Dance II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 130. Includes tap dance technique at an intermediate level, class protocol, warm-up, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 130.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 132 Tap Dance III

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 131. Includes tap dance technique at an advanced level, class protocol, warm-up, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 131.

Information: May be taken four times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

DNC 150 Ballet I

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to the theory and practice of ballet at the beginning level. Includes terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 151 Ballet II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 150. Includes ballet techniques at the intermediate level, terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 150.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 152 Ballet III

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 151. Includes ballet technique at the advanced level, ballet terminology, barre, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 151.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Spring.

DNC 166 Modern Dance I

2 cr. hrs. 3 periods (1 lec., 2 lab)

Development of basic skills for dance. Includes modern dance technique at a beginning level, class protocol, warm-up, floor work, standing and center

floor work, locomotor work, elements, and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 167 Modern Dance II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 166. Includes development of intermediate skills for modern dance, class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 166.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 168 Modern Dance III

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 167. Includes development of advanced skills for modern dance, class protocol, warm-up, floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 167.

Information: May be taken four times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

DNC 170 Danza Folkloricos Mexicanos

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to the folklorico dance of Mexico. Includes class protocol, warm-up, Mexican folk dance, the Zapateado technique, basic regional dance of Mexico, dance steps of different regions of Mexico, and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 180 Choreography

2 cr. hrs. 2 periods (2 lec.)

The study of basic dance composition and construction of a phrase, structure, and form. Includes exploring the basic elements of dance, building a movement phrase, choreographic elements, constructing a dance, and analyzing the effectiveness of choreography.

Prerequisite(s): DNC 116.

Information: Prerequisites may be waived with consent of instructor. May be taken four times for a maximum of eight credit hours.

Offered: Summer.

DNC 200 Dance Appreciation and History

3 cr. hrs. 3 periods (3 lec.)

Introduction to the art of dance from its beginning as a religious form to its current place on Broadway and television. Includes concepts in dance appreciation, themes and purposes of dance, analyzing dance works, styles of dance, roles of and major historical periods of world dance, and movement sessions.

Offered: Summer.

DNC 215 Teaching Methods of Dance I

3 cr. hrs. 3 periods (3 lec.)

Instruction on how to teach dance to those from preschool age through 8th grade. Includes elements of dance, developmental stages, classroom management, lesson structure, use of creative movement in the school curriculum, and delivery of lesson plans. Also includes incorporating federal and Arizona standards for dance education academic curriculum for this age group.

Information: Completion of two of the following courses is required before enrolling in this class: DNC 150, 151, 152, 166, 167, 168, 219, 220, 221.

Offered: Fall.

DNC 216 Teaching Methods for Dance II

3 cr. hrs. 3 periods (3 lec.)

Continuation of DNC 215. Instruction on how to teach dance to those from 9th grade through seniors. Includes elements of dance, developmental stages, classroom management, lesson structure, use of creative movement in the school curriculum delivery of lesson plans, working with special populations, and transfer of knowledge to other dance forms.

Prerequisite(s): DNC 215.

Offered: Spring.

DNC 219 Jazz Dance I

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction and development of movement skills necessary to prepare the body as an instrument of expression in jazz dance styles. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 220 Jazz Dance II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 219. Progressive development of alignment for intermediate level jazz dance. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 219.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall, Spring.

DNC 221 Jazz Dance III

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of DNC 220. Progressive development of alignment for advanced level jazz dance. Includes class protocol, warm-up, floor work, standing and center floor work, locomotor work, elements, and developing the craft.

Prerequisite(s): DNC 220.

Information: May be taken four times for a maximum of eight credit hours.

Offered: Fall.

DNC 230 Rhythms for Dance

2 cr. hrs. 2 periods (2 lec.)

Exploration of the elements of music and music structures and their relationship to dance. Includes musical composition forms, rhythmic dance accompaniment, musical instruments, musical scores, and creation of dance accompaniment.

Prerequisite(s): DNC 150, 166, or 219.

Offered: Spring.

DNC 269 Dance Production and Performance

2 cr. hrs. 4 periods (4 lab)

Practical experience in all aspects of taking a dance piece from basic choreography and creating a professional performance. Includes rehearsal/performance process, responsibilities of a performer and a choreographer, performance skills, choreographic review, costuming, make-up, sets, props, publicity, and analysis of the concert.

Prerequisite(s): DNC 150 or 166 or 219.

Information: May be taken four times for a maximum of eight credit hours. Consent of instructor is required before enrolling in this class.

Offered: Fall, Spring.

DNC 280 Business for Dance Careers

3 cr. hrs. 3 periods (3 lec.)

Introduction to the various careers available in dance and the appropriate business skills. Includes careers in dance, grant and proposal writing, agency interface, business skills, publicity, and creating a dance business on paper.

Offered: Summer.

DNC 285 Technology for Dance

2 cr. hrs. 2 periods (2 lec.)

Survey of the expanding field of technology as it pertains to the study and performance of dance. Includes overview of technology in dance, dance technologist roles and responsibilities, application of technology, dance computer programs, videotaping and documenting dance, and creating a dance performance art piece.

Offered: Summer.

DNC 296 Independent Studies in Dance

1-3 cr. hrs. 2-6 periods (2-6 lab)

Composition and/or in-depth independent study in an area of the student's choice with approval by the supervising instructor.

Information: May be taken four times for a maximum of twelve credit hours. Consent of instructor is required before enrolling in this class.

Offered: May not be offered this year, check class schedule.

Dental Assisting Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DAE 159 Introduction to Health Care for Dental Assisting

2 cr. hrs. 2 periods (2 lec.)

Basic skills essential to working successfully with patients and co-workers in dental offices and clinics as a member of the dental health team. Includes study skills and psychology, vital signs, communication in the dental environment, job entry skills, and research and oral speech projects.

Corequisite(s): DAE 160, DAE 161, DAE 162, DAE 162LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 160 Orientation to Dental Care

1 cr. hrs. 1 periods (1 lec.)

Overview of the field of dental care. Includes the profession of dentistry, areas of service, and ethics and jurisprudence.

Corequisite(s): DAE 159, DAE 161, DAE 162, DAE 162LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 161 Biomedical Dental Science

3 cr. hrs. 3 periods (3 lec.)

The biosciences as they relate to the oral cavity. Includes anatomy, physiology, histology, microbiology, infection control, oral pathology, and nutrition as each affects total dental health.

Corequisite(s): DAE 159, DAE 160, DAE 162, DAE 162LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 162 Dental Assisting I

2 cr. hrs. 2 periods (2 lec.)

Principles and techniques of dental assisting. Includes tooth morphology, hand and rotary instruments, and chairside procedures.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 162LB Dental Assisting I Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DAE 162.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Offered: Fall.

DAE 163 Oral Radiography

2 cr. hrs. 2 periods (2 lec.)

Introduction to dental roentgenography as a diagnostic aid. Includes radiation protection, dental film, film processing, identification of anatomical landmarks for mounting and interpretation, exposure techniques, and principles of supplementary film.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 163LC Oral Radiography Clinical Lab

1 cr. hrs. 3 periods (3 lab)

This is the Clinical Lab portion of DAE 163.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Offered: Fall.

DAE 164 Dental Materials

2 cr. hrs. 2 periods (2 lec.)

Chemical and physical properties of dental materials used in dental practice. Includes introduction to dental materials; preventive sealants and restorative materials; dental cements; impression materials; gypsum products; miscellaneous dental materials; and gold, non-precious alloys, and casting of metals.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 164LB Dental Materials Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DAE 164.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

DAE 165 Pre-Clinical Procedures

1 cr. hrs. 1 periods (1 lec.)

Techniques and procedures of chairside dental assisting. Includes dental equipment and room design, chairside dental assisting and team approach, procedures applied in clinical treatment, and cardiopulmonary resuscitation (CPR) for the professional rescuer.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

AE 165LB Pre-Clinical Procedures Lab

1 cr. hrs. 4 periods (4 lab)

This is the Lab portion of DAE 165.

Corequisite(s): DAE 159, DAE 160, DAE 161, DAE 162

Offered: Fall.

DAE 166 Dental Assisting II

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of dental assisting. Includes pharmacology and emergency medical/dental care.

Prerequisite(s): DAE 159, 160, 161, 162/162LB, 163/163LC, 164/164LB, 165/165LB.Corequisite(s): DAE 167, DAE 190LC*Information: Consent of program coordinator is required before enrolling in this course.*

Offered: Spring.

DAE 167 Dental Assisting III

3 cr. hrs. 3 periods (3 lec.)

Includes Principles and techniques of dental practice management and oral health education as applied to dental assisting.

Prerequisite(s): DAE 159, and 165.Corequisite(s): DAE 166, DAE 190LC

Offered: Spring.

DAE 190LC Clinical Procedures

6 cr. hrs. 24 periods (24 lab)

Application of acquired skills in a clinical environment. Includes direct supervision of the dentist and instructor.

Prerequisite(s): DAE 161, 162, 163, 164, and 165.Corequisite(s): DAE 166, DAE 167

Offered: Spring.

Dental Hygiene

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DHE 101 Pre-Clinical Dental Hygiene

2 cr. hrs. 2 periods (2 lec.)

Introduction to the procedures used in the practice of dental hygiene at the beginning level. Includes professionalism and ethics, infection control, body mechanics/ergonomics, evaluation of patient medical and dental history, assessment data, and instrumentation. Removal of soft deposits, fluorides, clinical procedures, and diversity of patient populations. Also includes a laboratory involving practicing dental hygiene procedures on student partners.

Corequisite(s): DHE 101LC*Information: This is a selective admissions program course. Special permission is required.*

Offered: Fall.

DHE 101LC Pre-Clinical Dental Hygiene

2 cr. hrs. 8 periods (8 lab)

This is the Clinical Lab portion of DHE 101.

Corequisite(s): DHE 101

Offered: Fall.

DHE 104 Dental and Oral Morphology

1 cr. hrs. 1 periods (1 lec.)

Form and function of primary and permanent dentition. Includes oral cavity proper, form, function and physiology, identification, terminology, deciduous dentition morphology occlusion, tooth anomalies, and root morphology.

Corequisite(s): DHE 104LB

Offered: Fall.

DHE 104LB Dental and Oral Morphology Lab

2 cr. hrs. 2 periods (2 lab)

This is the Lab portion of DHE 104.

Corequisite(s): DHE 104

Offered: Fall.

DHE 107 Oral Embryology and Histology

2 cr. hrs. 2 periods (2 lec.)

The development and histology of teeth related to the intra and extra oral tissues of the head as they relate to the practice of dental hygiene. Includes terminology and formation of primary embryonic layers, histology, tooth development, enamel, dentin, and pulp. Also includes cementum, periodontal ligament, bone and alveolar process, and mucous membranes and salivary glands.

Information: This is a selective admissions program course. Special permission is required before enrolling in this course.

Offered: Fall.

DHE 116 Oral Radiography

2 cr. hrs. 2 periods (2 lec.)

Principles of dental radiography as a diagnostic aid. Includes radiation production, biology, clinic experience in exposing, processing, mounting, and interpreting radiographs on mannequins and patients using a variety of radiographic techniques.

Corequisite(s): DHE 116LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Fall.

DHE 116LC Oral Radiography

1 cr. hrs. 3 periods (3 lab)

This is the Clinical Lab portion of DHE 116.

Corequisite(s): DHE 116

Offered: Fall.

DHE 119 Periodontology

1 cr. hrs. 1 periods (1 lec.)

Survey of periodontology comprised of the etiology, diagnosis and prognosis of periodontal disease. Includes an introduction and historical background, preventative dentistry modalities, radiographic interpretation of periodontal disease, and treatment planning for the dental hygienist.

Information: This is a selective admissions program course. Special permission is required before enrolling in this course.

Offered: Spring.

DHE 120 Oral Pathology

2 cr. hrs. 2 periods (2 lec.)

Oral Pathology is the study of human disease as found within all of the tissues represented in the area of the oral cavity. Includes basic sciences, clinical presentations, disease manifestations, diagnostic methods and treatment modalities of pathology of the oral region.

Information: This is a selective admissions course. Special permission is required before enrolling in this course.

Offered: Spring.

DHE 121 Preventive Dentistry and Nutrition

3 cr. hrs. 3 periods (3 lec.)

Introduction to dental disease and the promotion of dental health. Includes oral hygiene instruction, antimicrobials, fluorides, nutrition, and diet and their role in dental disease and health.

Information: This is a selective admissions program course. Special permission is required before enrolling in this course.

Offered: Fall.

DHE 122 Pharmacology

3 cr. hrs. 3 periods (3 lec.)

Introduction to the theory of pharmacology as it relates to dentistry. Includes identification of drugs which affect, or are affected by, dental treatment.

Information: This is a selective admissions program course. Special permission is required before enrolling in this course.

Offered: Spring.

DHE 190 Clinical Dental Hygiene I

2 cr. hrs. 2 periods (2 lec.)

Application of dental hygiene skills with a variety of clinical patients with dental hygiene care plans at the beginning level. Includes professionalism and ethics, infection control, body mechanics, evaluation of patient medical and dental history, assessment data, instrumentation, and removal of soft deposits. Also includes fluorides, clinical procedures, diverse patient populations, medical emergency procedures, and laboratory procedures.

Corequisite(s): DHE 190LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Spring.

DHE 190LC Clinical Dental Hygiene I Lab

2 cr. hrs. 6 periods (6 lab)

This is the Clinical Lab portion of DHE 190.

Corequisite(s): DHE 190

Offered: Spring.

DHE 191 Clinical Dental Hygiene II

1 cr. hrs. 1 periods (1 lec.)

hygiene skills on a variety of patients with care plans at the advanced level. Includes lectures on patients with special needs. Also includes rotations to off campus clinical sites.

Corequisite(s): DHE 191LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Spring, Summer.

DHE 191LC Clinical Dental Hygiene II Lab

2 cr. hrs. 6 periods (6 lab)

This is the Clinical Lab portion of DHE 191.

Corequisite(s):DHE 191

Offered: Spring, Summer.

DHE 196 Independent Studies in Dental Hygiene

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent clinical applications, reading, projects, or lab activities for continuing student development in dental hygiene under faculty guidance.

Information: May be taken two times for a maximum of eight credit hours. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DHE 204 Dental Materials

2 cr. hrs. 2 periods (2 lec.)

Chemical and physical properties of dental materials used in dental practice. Includes materials used in preventive, restorative, and prosthetic procedures.

Corequisite(s):DHE 204LB*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Spring.

DHE 204LB Dental Materials Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DHE 204.

Corequisite(s):DHE 204

Offered: Spring.

DHE 208 Pain and Anxiety Control for Dental Hygiene

1 cr. hrs. 1 periods (1 lec.)

Application of local anesthetics, nitrous oxide and oxygen sedation. Includes introduction to pain and anxiety control, pharmacology, neurophysiology, and local anesthetic agents, nitrous oxide and oxygen analgesia, health history and complications, treatment, laboratory practice on student partners, emergency procedures, and head and neck anatomy.

Information: Students must have successfully completed the first year of the Dental Hygiene program and DHE 122 before enrolling in this course. This is a selective admissions program course. Special permission is required.

Offered: Fall.

DHE 208LC Pain and Anxiety Control Dental Hygiene Lab

1 cr. hrs. 3 periods (3 lab)

This is the lab portion of DHE 208.

Corequisite(s):DHE 208*Information: Students must have successfully completed the first year of the Dental Hygiene program and DHE 122 before enrolling in this course. This is a selective admissions program course. Special permission is required.*

Offered: Fall.

DHE 209 Computers and Practice Management

1 cr. hrs. 1 periods (1 lec.)

Introduction to basic computer skills and applications used in dentistry. Includes computers and their functions, Microsoft software applications, dental office management software applications, the business of dentistry, and dental hygiene career opportunities.

Corequisite(s):DHE 209LB*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Fall.

DHE 209LB Computers and Practice Management Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DHE 209.

Corequisite(s):DHE 209

Offered: Fall.

DHE 213 Advanced Periodontal Services

1 cr. hrs. 1 periods (1 lec.)

Application of Dental Hygiene skills on advanced periodontal patients. Includes periodontal exam and initial phase, treatment plan, periodontal classifications, plaque control, scaling and root planning indications and limitations, sonic and ultrasonic therapy in periodontal services, implant maintenance, occlusal evaluation and adjustment, and reevaluation of treatment and maintenance. Also includes periodontal healing, antimicrobials, antibiotics, and surgical and nonsurgical procedures.

Corequisite(s):DHE 213LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Spring.

DHE 213LC Advanced Periodontal Services Lab

1 cr. hrs. 3 periods (3 lab)

This is the lab portion of DHE 213.

Corequisite(s):DHE 213*Information: This is a selective admissions course. Special permission is required before enrolling in this course.*

Offered: Spring.

DHE 216 Community and Dental Health Education

3 cr. hrs. 3 periods (3 lec.)

Overview of public dental health education. Includes critiquing dental literature, community dental health planning, basic biostatistics, and epidemiology and research in the dental community. Also includes dental needs and demands, dental care delivery and prevention in the United States.

Information: This is a selective program course. Special permission is required before enrolling in this course.

Offered: Spring.

DHE 290 Clinical Dental Hygiene III

2 cr. hrs. 2 periods (2 lec.)

Application of dental hygiene skills with a variety of clinical patients with dental hygiene care plans at the intermediate level.

Corequisite(s):DHE 290LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Fall.

DHE 290LC Clinical Dental Hygiene III Lab

4 cr. hrs. 12 periods (12 lab)

This is the Clinical Lab portion of DHE 290.

Corequisite(s):DHE 290

Offered: Fall.

DHE 291 Clinical Dental Hygiene IV

1 cr. hrs. 1 periods (1 lec.)

Application of dental hygiene skills with a variety of clinical patients with dental hygiene care plans at the advanced level.

Corequisite(s):DHE 291LC*Information: This is a selective admissions program course. Special permission is required before enrolling in this course.*

Offered: Spring.

DHE 291LC Clinical Dental Hygiene IV

3 cr. hrs. 9 periods (9 lab)

This is the Clinical Lab portion of DHE 291.

Corequisite(s):DHE 291

Offered: Spring.

DHE 296 Advanced Independent Study: Dental Hygiene

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students independently continue their development in Dental Hygiene under the guidance of a faculty member.

Information: May be taken two times for a maximum of eight credit hours. Departmental approval is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Dental Lab Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DLT 101 Dental Morphology

2 cr. hrs. 2 periods (2 lec.)

Introduction to human dental morphology through lectures, readings, and sculpting exercises. Includes the dental health care team, anatomical landmarks and terminology, tooth development and landmarks, tooth sculpting, articulators and model mounting, occlusion, and care of laboratory instruments.

Corequisite(s):DLT 101LB*Information: Consent of program director is required before enrolling in this course.*

Offered: Fall.

DLT 101LB Dental Morphology Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DLT 101.

Corequisite(s):DLT 101

Offered: Fall.

DLT 102 Non-Metallic Dental Materials

3 cr. hrs. 3 periods (3 lec.)

Principles of chemistry and physics, identification, selection, and manipulation of non-metallic dental materials. Includes an introduction to dental mate-

rials, management of materials, impression material, gypsum materials, dental waxes, refractory materials, and acrylic resin.

Prerequisite(s): DLT 101 or concurrent enrollment.

Information: Consent of program director is required before enrolling in this course.
Offered: Fall.

DLT 103 Complete Dentures

1 cr. hrs. 1 periods (1 lec.)

Examination of the relationship between upper and lower dentures as interpreted on a functional articulator. Includes evaluation of preliminary impressions and fabrication of models, custom impression trays, evaluation of final impression and master model, baseplate fabrication, occlusion rims, articulation and mounting of working models, and prosthetic tooth selection. Also includes setting artificial denture teeth, processing the trial denture, finishing complete dentures, and immediate denture with surgical template.

Prerequisite(s): DLT 101 or concurrent enrollment.

Corequisite(s): DLT 103LB

Information: Consent of program director is required before enrolling in this course.
Offered: Fall.

DLT 103LB Complete Dentures Lab

3 cr. hrs. 9 periods (9 lab)

This is the Lab portion of DLT 103.

Corequisite(s): DLT 103

Offered: Fall.

DLT 104 Dental Occlusion

2 cr. hrs. 2 periods (2 lec.)

Introduction to the principles of techniques used in the dental laboratory. Includes how to trace and label all aspects of the maxillary and mandibular teeth, control of inlay wax application, restoring occlusal surfaces and clinical crowns to ideal occlusion, functional occlusion on articulated casts, and philosophies of different wax added systems.

Prerequisite(s): DLT 101.

Corequisite(s): DLT 104LB

Information: Consent of program director is required before enrolling in this course.
Offered: Spring.

DLT 104LB Dental Occlusion Lab

2 cr. hrs. 6 periods (6 lab)

This is the Lab portion of DLT 104.

Corequisite(s): DLT 104

Offered: Spring.

DLT 105 Partial Denture Construction

1 cr. hrs. 1 periods (1 lec.)

Construction of removable partial dentures (RPDs). Includes survey of preliminary and master casts, framework design, block out procedures, model duplication, preparation of refractory casts, RPD framework wax up, metal casting and finishing, and set-up of prosthetic teeth. Also includes processing and finishing of acrylic denture base material, repairs and relines, and soldering of dental alloys.

Prerequisite(s): DLT 101 or concurrent enrollment.

Corequisite(s): DLT 105LB

Information: Consent of program director is required before enrolling in this course.
Offered: Spring.

DLT 105LB Partial Denture Construction Lab

3 cr. hrs. 9 periods (9 lab)

This is the Lab portion of DLT 105.

Corequisite(s): DLT 105

Offered: Spring.

DLT 106 Orthodontics and Maxillofacial Construction

2 cr. hrs. 2 periods (2 lec.)

Construction and theory of simple orthodontic and maxillofacial appliances. Includes evaluation of preliminary impressions and fabrication of orthodontic study models, model trimming and evaluation, classification of occlusion and malocclusion types, tooth numbering systems and identification, wrought wire fabrication, and application of wire bending skills. Also includes fabrication of removable tooth retaining and moving appliances, fixed space maintaining appliances, and fabrication of a prosthetic nose.

Prerequisite(s): DLT 101 or concurrent enrollment.

Corequisite(s): DLT 106LB

Information: Consent of program director is required before enrolling in this course.

Offered: Spring.

DLT 106LB Orthodontics and Maxillofacial Construction Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DLT 106.

Corequisite(s): DLT 106

Offered: Spring.

DLT 108 Laboratory Management

3 cr. hrs. 3 periods (3 lec.)

Examination of the principles of dental laboratory management. Includes blood born pathogens, infection control guidelines and procedures, Occupational Safety and Health Administration (OSHA) regulations for dental laboratories, post exposure plan, legal and ethical aspects of the industry, history of dentistry, National Association of Dental Laboratories, and establishing a dental laboratory.

Prerequisite(s): DLT 101 or concurrent enrollment.

Information: Consent of program director is required before enrolling in this course.

Offered: Spring.

DLT 201 Dental Laboratory I

2 cr. hrs. 2 periods (2 lec.)

Introduction to the principles and techniques used in the dental laboratory. Includes fabrication and articulation of removable die models, functional occlusion in wax crown and bridge patterns and in crown and bridge metal castings, spruing, investing, and casting crown and bridge patterns, and repairs and soldering.

Prerequisite(s): DLT 101.

Corequisite(s): DLT 201LB

Information: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 201LB Dental Laboratory I Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DLT 201.

Corequisite(s): DLT 201

Offered: May not be offered this year, check class schedule.

DLT 202 Dental Metallurgy

3 cr. hrs. 3 periods (3 lec.)

Examination of metals currently used by the dental technician. Includes introduction to dental alloys, physical and chemical properties of dental alloys, weights, measures, and calculations, alloy processing, equipment calibration, metal treatment and torch techniques, electro-polisher and electrolyte solution operation and safety procedures, and metal sensitivities and allergies.

Prerequisite(s): DLT 101.

Information: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 203 Fixed Bridgework

1 cr. hrs. 1 periods (1 lec.)

Construction of fixed single tooth restorations and bridgework. Includes prescriptions and work authorizations, fixed restoration design and preparation requirements, waxing, seating, finishing, and evaluation of fixed single tooth restorations and bridgework castings.

Prerequisite(s): DLT 101 or concurrent enrollment.

Corequisite(s): DLT 203LB

Information: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 203LB Fixed Bridgework Lab

3 cr. hrs. 9 periods (9 lab)

This is the Lab portion of DLT 203.

Corequisite(s): DLT 203

Offered: May not be offered this year, check class schedule.

DLT 204 Dental Laboratory II

2 cr. hrs. 2 periods (2 lec.)

Continuation of DLT 201. Principles and techniques used in the dental laboratory. Includes physics of light, color theory, edodontically treated teeth, reduction copings, attachments, application of dental attachments, swing lock retention for removable partial dentures, and semi-precision attachment in a bridge.

Prerequisite(s): DLT 101, 104, 108, 201, 202, and 203.

Corequisite(s): DLT 204LB

Information: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 204LB Dental Laboratory II Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of DLT 204.

Corequisite(s): DLT 204

Offered: May not be offered this year, check class schedule.

DLT 206 Dental Ceramics

2 cr. hrs. 2 periods (2 lec.)

Introduction to porcelain fused to metal techniques. Includes prescriptions and work authorizations, porcelain fused to metal restoration designs and preparation requirements, design, wax-up, and finishing of porcelain fused to metal substructure, metal conditioning, building ceramic restorations, porcelain furnace operation, contouring fired porcelain, and finishing.

Prerequisite(s): DLT 101, 104, 108, 202 and 203.Corequisite(s): DLT 206LBInformation: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 206LB Dental Ceramics Lab

2 cr. hrs. 6 periods (6 lab)

This is the Lab portion of DLT 206.

Corequisite(s): DLT 206

Offered: May not be offered this year, check class schedule.

DLT 207 Advanced Dental Laboratory Technology

3 cr. hrs. 3 periods (3 lec.)

Application of dental laboratory techniques. Includes complete dentures, partial dentures, crown and bridge work, dental ceramics, orthodontics, and maxillofacial appliances.

Prerequisite(s): DLT 101, 104, 108, 202, and 203.Corequisite(s): DLT 207LBInformation: Consent of program director is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DLT 207LB Advanced Dental Laboratory Technology Lab

3 cr. hrs. 6 periods (6 lab)

This is the Lab portion of DLT 207.

Corequisite(s): DLT 207

Offered: May not be offered this year, check class schedule.

Design

See Interior Design

Digital Arts

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DAR 051 Basic Macintosh for Computer Graphics

1 cr. hrs. 2 periods (2 lab)

Introduction to the Macintosh computer environment. Includes operating system, techniques, document files, hardware, and document storage.

Offered: Fall, Spring.

DAR 100 Fundamentals of Rendering

4 cr. hrs. 5 periods (3 lec., 2 lab)

Basic principles and methods of drawing as applied to digital and graphic design. Includes perspective, light sources, form, and textures.

Offered: Fall, Spring, Summer.

DAR 101 Color Rendering and Theory

4 cr. hrs. 5 periods (3 lec., 2 lab)

Basic color theory and rendering principles as applied to digital and graphic design. Includes the proportion, form, contrast, and texture in the drawing of wood, food, paper, glass, metallic, landscape, and cloth items.

Recommendation: Completion of DAR 100 before enrolling in this course.

Offered: Fall, Spring, Summer.

DAR 103 Introduction to Digital Arts

3 cr. hrs. 3 periods (3 lec.)

Theory, history, and practice of digital image manipulation. Includes digitally based technologies, analog to digital conversion, data compression, data security, synchronization of digital materials, standards and intellectual property, civil liberties in the digital age, and digital image sound distribution and exhibition.

Offered: Fall, Spring, Summer.

DAR 110 Digital Hub: Desktop Music, Movies, and Photos

4 cr. hrs. 5 periods (3 lec., 2 lab)

Exploration of the digital multimedia hub environment. Includes hardware, software, project planning, development, production, and saving, storing, and publishing digital hub projects.

Recommendation: Completion of DAR 051 or computer literacy skills before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 111 Typography

4 cr. hrs. 5 periods (3 lec., 2 lab)

Letter forms and use in visual communications. Includes type rendering, letter spacing, type and headline groupings, type relationships, type images, and type applications.

Prerequisite(s): DAR 103.

Offered: Fall, Spring, Summer.

DAR 112 Graphic Design I

4 cr. hrs. 5 periods (3 lec., 2 lab)

Basic principles of color and design as applied to the graphics industry. Includes creating focal points, unity, texture, space relationships, color control, color harmonies, and psychology of color.

Offered: Fall, Spring, Summer.

DAR 115 Digital Video Editing

4 cr. hrs. 5 periods (3 lec., 2 lab)

Introduction to non-linear editing on the computer. historical development, digital video and audio formats, techniques & theory of editing, aspect ratios, organization of the edit, desktop environment, importing digital elements project organization, video and audio files, non-linear editing skills, applying transitions, designing titles, applying filters, digital and time line effects, importing graphics, mixing audio and video elements, synchronize sound with video, and exporting digital video projects. Includes historical development, digital video and audio formats, techniques and theory of editing, aspect ratios, organization of the edit, desktop environment, importing digital elements, project organization, video and audio files, non-linear editing skills, applying transitions, designing titles, applying filters, digital and time line effects, importing graphics, mixing audio and video elements, synchronize sound with video, and exporting digital video projects.

Offered: Fall, Spring.

DAR 120 Applied Computer Graphics

4 cr. hrs. 5 periods (3 lec., 2 lab)

Introduction to current computer graphics software. Includes current software, desktop publishing documents, postscript illustration documents, painting or photo editing documents, file creation using computer software applications, computer graphics hardware, and professional environment.

Offered: Fall, Spring, Summer.

DAR 122 Desktop Graphics: Adobe Illustrator

4 cr. hrs. 5 periods (3 lec., 2 lab)

Computer generated graphics and illustrations. Includes current Adobe Illustrator software, computer graphics hardware, documents, and professional environment.

Prerequisite(s): DAR 051, 120.

Offered: Fall, Spring, Summer.

DAR 124 Writing for Film and Television

3 cr. hrs. 3 periods (3 lec.)

Examining dramatic writing in visual mediums and creating the story for the screen. Includes visual storytelling, story structure, working screen writers, writing scenes, finishing stories, writing for television, and directors and cinematographers.

Prerequisite(s): DAR 103.Information: Concurrent enrollment may be approved with instructor or department chair recommendation.

Offered: Fall, Spring, Summer.

DAR 125 Beginning Video Production

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and techniques of video production. Includes history of digital video, digital video camera and computer equipment, digital camera lenses, exposure, light, color, temperature, composition, portfolio preparation, and career options. Also includes practical experience as part of a production team.

Prerequisite(s): DAR 115 and 124.

Offered: Fall, Spring.

DAR 127 Sound Production for Radio

3 cr. hrs. 4 periods (2 lec., 2 lab)

Methods and techniques of the operation of radio broadcasting equipment. Includes the tools for sound production for radio, the console, turntables and compact disc (CD) players, tape recording and playback units, microphones

and sound, techniques, applications, drama and dramatic elements, and commercial production. Also includes radio production news and public affairs programs; remote, sports, and advanced production; computer applications in radio; and production in modern format.

Prerequisite(s): DAR 103, 124.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring.

DAR 128 Digital Photography I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to digital photography as an art form with an emphasis on fundamental techniques of the digital camera and the digital darkroom. Includes digital cameras with manual functions, digital darkroom, digital printing, studio lighting, image composition, portfolio development, and critical analysis. Also includes the use of state-of-the-art professional quality computers and image processing software, professional digital cameras and printers, and a lighting studio with professional lighting equipment.

Recommendation: Completion of DAR 051 or experience in computer skills before enrolling in this course.

Information: Same as ART 128. Students are strongly recommended to own or have access to a digital camera with manual exposure control and access to a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply costs in addition to course fees.

Offered: Fall, Spring, Summer.

DAR 140 Digital Arts Illustration Studio: Illustration Technique & Media

4 cr. hrs. 5 periods (3 lec., 2 lab)

Basic principles, techniques and media applied to digital and traditional illustration styles, subject matter used in print illustration. Includes subject, media, technique, composition, and professional environment.

Prerequisite(s): DAR 101.

Offered: Fall, Spring, Summer.

DAR 145 Digital Arts Illustration Studio: Character Development for Animation & Print

4 cr. hrs. 5 periods (3 lec., 2 lab)

Principles and techniques applied to character development used for animation, products and print material. Includes drawing in a loose manner, designing characters, materials, techniques and construction, various applications, and professional environment.

Prerequisite(s): DAR 140.

Offered: Fall, Spring.

DAR 173 History of American Cinema

3 cr. hrs. 3 periods (3 lec.)

American cinematic film making as an art form, economic force, and system of representation and communication. Includes history of American cinema, development of the significant films and directors, film studios, and image, cinema genres, history of narrative film and film sounds, alternative American films, analysis and criticism, and American cinema team.

Offered: Fall, Spring, Summer.

DAR 174 Business of Audio

3 cr. hrs. 4 periods (2 lec., 2 lab)

Economic, legal, and financial aspects of the music and recording industry. Includes recording artist contracts; foreign record deals; copyright in sound recordings; independent record producers; record clubs and premiums; labor agreements; music videos; record covers, label, and liner notes; and agents and managers. Also includes licensing of recordings for motion pictures; counterfeiting, piracy, and bootlegging; trade practice regulation; copyright in the United States; songwriter contracts; copyright infringement; and music and the movies.

Prerequisite(s): DAR 103, 124.

Offered: Fall, Spring.

DAR 175 Cinematography

3 cr. hrs. 4 periods (2 lec., 2 lab)

Basic techniques of motion picture production. Includes operation and application of all basic film tools, equipment, and techniques used in cinema production. Also includes practical experience as part of the production team, pre-production, light and image, analysis of film technique, and post-production.

Prerequisite(s): DAR 124 or concurrent enrollment.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring, Summer.

DAR 176 Film Animation

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to film animation techniques. Includes the history of art animation, procedures in animated films, tools of animation, producing drawings, movements, realistic touches, technical information, and exaggerated action. Also includes the animal kingdom, dialogue, animated effects, and new technologies.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring, Summer.

DAR 177 Location Sound for Film and Video

4 cr. hrs. 5 periods (3 lec., 2 lab)

Theory and practice of sound recording on location for feature films, documentaries, video productions, and multimedia. Includes technical planning and sound design, miking speech, single camera applications, wireless microphones, combinations of microphones, stereo mixing on location, music in film and television, taping off the telephone, and tape presentation. Also includes electronic new gathering and field production, motion picture sound recording, digital audio tape versus analog recording devices, and techniques and aesthetic considerations.

Prerequisite(s): DAR 103, 124.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring, Summer.

DAR 196 Digital Arts Independent Projects: Media Projects

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students independently continue their development in media communications with the help of a faculty member.

Information: May be taken three times for a maximum of twelve credit hours.

Completion of six credit hours of DAR courses and consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

DAR 199 Introduction to Co-op: Digital Arts

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Prerequisite(s): DAR 112, 210, 211.

Corequisite(s): DAR 199WK

Offered: Fall, Spring.

DAR 199WK Co-op Work: Digital Arts

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Prerequisite(s): DAR 112, 120, 211.

Corequisite(s): DAR 199

Offered: Fall, Spring.

DAR 205 Lighting for Film and Video

4 cr. hrs. 6 periods (2 lec., 4 lab)

Creative lighting techniques, practices, and use of equipment. Includes the visible spectrum, film and exposure, using electricity, video and the electronic medium, controlling color temperature, light quality, and measuring light intensity. Also includes manipulating light, light concepts in practice, and light in the studio and on location.

Prerequisite(s): DAR 124, 125 or 175.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring, Summer.

DAR 210 Digital Arts Design Studio: Advertising Design

4 cr. hrs. 5 periods (3 lec., 2 lab)

Principles and techniques as applied to advertising design. Includes ad design, billboard design, logo design, poster design, brochure design, package design, and other mediums.

Prerequisite(s): DAR 112.

Offered: Fall, Spring, Summer.

DAR 211 Digital Arts Design Studio: Product Design

4 cr. hrs. 5 periods (3 lec., 2 lab)

Principles and techniques applied to product design. Includes package design, card design, textile design, CD design, DVD design, game design, display design, and sign design.

Prerequisite(s): DAR 112.

Offered: Fall, Spring, Summer.

DAR 212 Digital Arts Design Studio: Package Design

4 cr. hrs. 5 periods (3 lec., 2 lab)

Procedures and techniques for creating wrapper and container comprehensives. Includes layout, packaging, construction techniques, mock-ups, and the professional environment.

Prerequisite(s): DAR 112.

Offered: Fall, Spring, Summer.

DAR 214 Digital Arts Business & Portfolio

2 cr. hrs. 3 periods (1 lec., 2 lab)

Digital Arts Business and Portfolio Business techniques for the digital arts industry. Includes designer/client relationship, fee structures for designer services, documenting time, portfolio development, and advertising and promotion.

Prerequisite(s): DAR 103.

Information: Same as GAM 214.

Offered: Fall, Spring, Summer.

DAR 215 Advanced Cinematography

4 cr. hrs. 6 periods (2 lec., 4 lab)

Tools, techniques, and procedures involved in professional film production. Includes pre-planning a 16mm motion picture production, script breakdown, pre-production and post-production, budgeting, distribution, promotion, and developing a prospectus.

Prerequisite(s): DAR 175.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall, Spring, Summer.

DAR 217 Post Production for Film

4 cr. hrs. 5 periods (3 lec., 2 lab)

Introduction to film post production video and audio techniques and aesthetics of film editing. Includes history of the art of film editing, preparing for the edit, tools of the editor, cutting techniques, and preparing for sound. Also includes sound, dialogue, looping, and music editing; the mix; and the answer print.

Prerequisite(s): DAR 215.

Offered: Fall, Spring.

DAR 218 Introduction to Film Music

3 cr. hrs. 3 periods (3 lec.)

Fundamental techniques applied to film music in motion pictures, television, video, and the new media. Includes the history of film music, the director and the producer, editing, the script, role models and temp tracks, spotting the film, budgets and schedules, developing the concept, timings and the cue sheet, composing, and recording. Also includes dubbing the final mix, electronic and contemporary scoring, scoring for different styles and genres, use of song in film, specialized themes, and the business of film scoring.

Prerequisite(s): DAR 103, 124.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Fall, Spring.

DAR 220 Desktop Publishing for Digital Arts: QuarkXpress

4 cr. hrs. 5 periods (3 lec., 2 lab)

Design and creation of publication on a personal computer system. Includes current QuarkXpress software, documents, hardware, and professional environment.

Prerequisite(s): DAR 051 or 120.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Fall, Spring.

DAR 221 Photo Image Editing: Adobe PhotoShop

4 cr. hrs. 5 periods (3 lec., 2 lab)

Computer retouching and manipulation of photos and illustrations. Includes current Adobe PhotoShop software, edit and retouch, hardware and professional environment.

Prerequisite(s): DAR 051 or 120.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Fall, Spring, Summer.

DAR 222 Advanced Photo Image Editing: Adobe Photoshop

4 cr. hrs. 5 periods (3 lec., 2 lab)

Continuation of DAR 221. Includes advanced techniques using current Adobe Photoshop software, hardware, documents, and professional environment.

Prerequisite(s): DAR 221.

Offered: Fall, Spring.

DAR 223 Digital Drawing and Painting

4 cr. hrs. 5 periods (3 lec., 2 lab)

Design and illustration on a personal computer system using current paint software. Includes color, drawing and painting tools, editing and text tools, brush customizing, special effects, and applications.

Prerequisite(s): DAR 101.

Offered: Spring.

DAR 224 Advanced Screenwriting

3 cr. hrs. 3 periods (3 lec.)

In-depth examination of writing in visual mediums. Includes history of screen writing, development of the screenplay, genre, development of the pitch and story premise, character development, screenplay formats, and drafting a screenplay and premises.

Prerequisite(s): DAR 103, 124.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Spring.

DAR 225 Advanced Video Production

4 cr. hrs. 6 periods (2 lec., 4 lab)

Production of a variety of television programs. Includes professional digital video production, digital formats and scripting, production plan, utilization of digital camera and lighting equipment in remote and on-location sites, post production, linear and non-linear editing equipment and approaches, editing and the visual storyline, and building a portfolio.

Prerequisite(s): DAR 125.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Spring.

DAR 226 Desktop Publishing for Digital Arts: Adobe InDesign

4 cr. hrs. 5 periods (3 lec., 2 lab)

Design and creation of publications on a personal computer system. Includes current Adobe InDesign software documents, computer graphics hardware, and professional environment.

Prerequisite(s): DAR 051 or 120.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Fall, Spring.

DAR 228 Advanced Desktop Graphics: Adobe Illustrator

4 cr. hrs. 5 periods (3 lec., 2 lab)

Advanced computer generated vector graphics and illustrations. Includes current Adobe Illustrator software, computer graphics hardware, design, vector graphic documents, and professional environment.

Prerequisite(s): DAR 122.

Offered: Spring.

DAR 230 Production Techniques for Print

4 cr. hrs. 5 periods (3 lec., 2 lab)

Preparation of artwork for printing. Includes crop marks, typesetting to specifications, typesetting to match a layout line breaks/spelling, spot colors, duotones, bleeds/reversed type, two sided documents, dummy documents, line art/photos, output, newspaper and magazine ads, logo specifications, paper stock, outline photos, CMYK process colors, multiple page booklets, trapping, and professional work environment.

Prerequisite(s): DAR 121, 220 or 226, and 221 or concurrent enrollment.

Offered: Fall, Spring.

DAR 232 Digital Photography II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of DAR/ART 128. Includes intermediate digital cameras with manual functions, intermediate digital darkroom and digital output, quality of light, intermediate image composition, multiple images, intermediate portfolio development, and critical analysis. Also includes the intermediate use of state-of-the-art professional quality computers and image processing software, professional digital cameras, printers, and a lighting studio with professional lighting equipment.

Prerequisite(s): DAR/ART 128.

Recommendation: Completion of DAR 221 before enrolling in this course. *Information:* Same as ART 232. Students must own or have access to a digital camera with manual exposure control and a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply information: There may be additional supply costs in addition to course fees. The *Prerequisite(s)* may be waived for basic skills in digital photography. See a DAR/ART digital photography instructor for prerequisite information.

Offered: May not be offered this year, check class schedule.

DAR 233 Digital Photography III

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of DAR/ART 232. Includes digital capture and image acquisition, advanced digital darkroom and digital output, advanced image composition, advanced multiple images integration, advanced portfolio development, and advanced critical analysis. Also includes the advanced use of state-of-the-art professional quality computers and image processing software, professional digital cameras, scanners, printers, and projectors.

Prerequisite(s): DAR 221 and DAR/ART 232.

Information: Same as ART 233. Students must own or have access to a digital camera with manual exposure control and a computer with image processing software. Cameras and professional quality computers and software will be provided during the course. Professional quality cameras, printers, lighting equipment and studio will be provided for specific assignments. There may be additional supply costs in addition to course fees. The *Prerequisite(s)* may be waived for basic skills in digital photography. See the ART/DAR instructor for prerequisite information.

Offered: May not be offered this year, check class schedule.

DAR 235 Advanced Design and Production Applications

4 cr. hrs. 5 periods (3 lec., 2 lab)

Design principles and production techniques as applied to the graphics industry. Includes complex designs with focal points, unity, texture, space relationships, color harmonies, psychology of color, bleed preparation, multiple page documents, paper stock, die cuts in complex designs, and special finishes.

Prerequisite(s): DAR 112 and 230.

Offered: Fall, Spring.

DAR 236 Advanced Desktop Publishing

4 cr. hrs. 5 periods (3 lec., 2 lab)

Advanced design and creation of publications using current QuarkXpress and InDesign software. Includes advanced applications in preferences, complex documents, advanced layers, libraries, advanced typography, automating/synchronizing text, advanced style sheet applications, books, tables, WEB and interactive features, and Portable Document Format (PDF).

Prerequisite(s): DAR 220 and 226.

Offered: May not be offered this year, check class schedule.

DAR 240 Digital Arts Illustration Studio: Book Illustration

4 cr. hrs. 5 periods (3 lec., 2 lab)

Principles and techniques applied to various book, graphic novel and comic magazine illustration. Includes advanced subjects, media, techniques, various applications, and professional environment.

Prerequisite(s): DAR 101.

Offered: Fall, Spring, Summer.

DAR 250 Computer 2D Animation: Adobe After Effects

4 cr. hrs. 5 periods (3 lec., 2 lab)

Two dimensional animation on the computer. Includes storyboards, techniques and terms, logo animation, character animation, metamorphic animation, and production techniques.

Prerequisite(s): DAR 221 or 223.

Information: Prerequisite(s) may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Fall, Spring.

DAR 251 Computer 3D Animation: Maya

4 cr. hrs. 5 periods (3 lec., 2 lab)

Beginning modeling, rendering, and animation on the computer using Maya, may include other current industry software. Includes menus, image creation, color, printing, precision model making, object creation and design, and compatibility.

Prerequisite(s): DAR 250.

Offered: Fall, Spring.

DAR 252 Dig Multimedia Design I: Flash

4 cr. hrs. 5 periods (3 lec., 2 lab)

Digital Multimedia Design I: Flash Basics of multimedia design using Adobe Flash. Includes using current multimedia authoring software, graphics, text, animation, sound, authoring, and publishing methods.

Prerequisite(s): DAR 051 or 120.

Information: Experience in computer graphics may be substituted for some prerequisites. See a Digital Arts faculty member for information.

Offered: Fall, Spring.

DAR 254 Digital Multimedia Design II: Advanced Flash

4 cr. hrs. 5 periods (3 lec., 2 lab)

Advanced techniques in Adobe Flash and other multimedia software. Includes multimedia formans and components, creation process, production process, interactivity, Flash components and data binding, business and legal con-

siderations, and marketing and distribution. Also includes embedding sound, graphics, and video into Flash; building interactions within timelines and ActionScripts; and integrating Flash content with web pages.

Prerequisite(s): DAR 252.

Offered: Spring.

DAR 255 Television Commercial Design

4 cr. hrs. 5 periods (3 lec., 2 lab)

Designing television commercials. Includes a basic overview of videography, production procedures, conceptualizing, storyboarding, budgeting, casting, videotaping, editing, music, special effects, and legal considerations.

Prerequisite(s): DAR 225.

Information: Prerequisites may be waived with experience in computer graphics. See a Digital Arts faculty member for information.

Offered: Spring.

DAR 256 Web Design: Dreamweaver

4 cr. hrs. 5 periods (3 lec., 2 lab)

Design and production of web pages using Adobe Dreamweaver. Includes introduction to the World Wide Web, Dreamweaver software, Hypertext Markup Language (HTML), home pages, links, uploading, multimedia, Cascading Style Sheets (CSS), and Web Site management.

Prerequisite(s): DAR 122, 221.

Offered: Fall, Spring, Summer.

DAR 257 Advanced Web Design

4 cr. hrs. 5 periods (3 lec., 2 lab)

Advanced design and production of web pages and sites. Includes planning and management, user interfaces, design, web site design with various multimedia elements, careers in World Wide Web, and interactive integration of forms and databases. Also includes advanced features of Adobe Dreamweaver and integration with Adobe Illustrator, Photoshop, Fireworks, and Flash.

Prerequisite(s): DAR 221, 256.

Offered: Fall, Spring.

DAR 258 Advanced Computer 3D Animation: Maya

4 cr. hrs. 5 periods (3 lec., 2 lab)

Advanced modeling, rendering, and animation utilizing high-end character 3D software. Includes a review of 3D basics, advanced modeling, animation, and surfacing techniques, advanced lighting and camera effects, and kinematics and contortions.

Prerequisite(s): DAR 251.

Offered: Spring.

DAR 261 Adobe Illustrator Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Computer generated text and graphics for illustration. Includes Macintosh environment, scanning, illustration software, and techniques and procedures.

Information: Basic Macintosh skill required before enrolling in this course.

Offered: Spring.

DAR 262 QuarkXpress Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Computer generated text and graphics for publication. Includes Desktop environment, QuarkXpress software, and creating and printing a document.

Information: Basic Macintosh skill required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 263 Adobe Photoshop Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Digital photograph manipulation in Adobe Photoshop. Includes digital photographs, placing photographs, tools and palette, color manipulation, and output.

Information: Basic Macintosh skill required before enrolling in this course.

Offered: Spring.

DAR 264 Adobe Seminar

1 cr. hrs. 1 periods (1 lec.)

Computer generated graphics and text for illustration. Includes the Adobe environment, scanning an image, illustration software, creating a document, printing an illustration, and professional environment.

Information: Basic computer skill required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 265 Beginning Web Design Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Design and production of graphics for the World Wide Web. Includes introduction to the World Wide Web, hardware, software, Extensible Hypertext Markup Language (XHTML), home pages, links, and uploading.

Information: Basic Macintosh and computer graphics experience required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 266 Interactive Design Seminar

1 cr. hrs. 1 periods (1 lec.)

Design of interactive computer presentations for training, selling, information, and entertaining. Includes creating original art, presentations, interactivity, and importing and outputting.

Information: Basic computer skill required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 268 Adobe After Effects Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Composite of animations, photos, and videos into presentations. Includes keyframe animation, composing files for production, special effects, and outputting to video and computer formats.

Information: Basic Macintosh skill required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 269 Advanced Web Design Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Continuation of DAR 265. Includes user interface, review of Extensible Hypertext Markup Language (XHTML), Dynamic XHTML, and Extensible Markup Language (XML) for graphics and web design.

Prerequisite(s): DAR 265.

Information: Web design experience required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 270 Adobe Photoshop Tips MAC

1 cr. hrs. 1 periods (1 lec.)

Computer retouching and manipulation of photos and illustrations. Includes current Adobe Photoshop software, effects, hardware, and professional environment.

Information: Experience with Adobe Photoshop required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 271 DeskTop Prepress Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Integration of QuarkXpress, Illustrator, and PhotoShop in preparing computer generated art for outputting to film and print. Includes trapping, color, file formats outputting, and prepress considerations.

Prerequisite(s): DAR 122 or 261, 220 or 262, 221 or 263.

Information: Experience using QuarkXpress, Illustrator, and PhotoShop is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 272 Advanced Adobe Photoshop Seminar on the Macintosh

1 cr. hrs. 1 periods (1 lec.)

Computer generated graphics and illustration. Includes current Adobe Photoshop software, computer graphics hardware, and documents.

Prerequisite(s): DAR 221 or 263.

Information: Experience with Adobe Photoshop is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

DAR 275 Basic Audio Production

4 cr. hrs. 6 periods (2 lec., 4 lab)

Fundamental tools, techniques, and procedures for multi-track recording. Includes elements of sound, sound studios, consoles, digital recorders, microphone application, and technical planning and sound design. Also includes on location versus studio recording, mixing and re-recording, and editing.

Prerequisite(s): DAR 124.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Fall.

DAR 276 Advanced Audio Production

4 cr. hrs. 6 periods (2 lec., 4 lab)

Production of audio for film, television, radio, and the recording industry. Includes the theoretical foundation of sound, field production recording, techniques involved in audio for video tape and film, and mixing boards and outboard devices. Also includes digital techniques and workstations, systems using both digital and analog devices, and current thought on recording techniques.

Prerequisite(s): DAR 275.

Information: This course will require additional expenses for supplies in addition to course and lab fees.

Offered: Spring.

DAR 277 Film/Video Production Financing

3 cr. hrs. 3 periods (3 lec.)

Strategies to secure production financing for independent film/video projects. Includes fundable projects; research; proposal formats; granting, funding, and special program sources; and developing the project narrative. Also includes

budgeting, distribution, promotion, and developing a complete prospectus for funding a media project.

Prerequisite(s): DAR 124.

Offered: Spring.

DAR 285 Documentary Television and Film Production

4 cr. hrs. 6 periods (2 lec., 4 lab)

Fundamentals of nonfiction film/video production. Includes history of documentary production, European vs. American documentary makers, operating the camera, film and video techniques, television themes, production of a television documentary, and location problems.

Prerequisite(s): DAR 103.

Information: This course will require additional expenses for supplies in addition to course.

Offered: Fall.

DAR 288 Digital Arts Capstone

4 cr. hrs. 5 periods (3 lec., 2 lab)

Production of digital media presentations with a focus on extended, in-depth study of the digital art design process. Develop professional quality creative projects, utilizing a wide range of digital tools and techniques. Includes production of digital arts projects, current digital art tools and processes, professional design relationships, developing supplemental portfolio presentations, and publishing, presenting, and distributing digital art projects.

Recommendation: Completion of Digital Arts Associate degree or B.A. or A.A. or equivalent portfolio before enrolling in this course.

Offered: Fall.

DAR 290E2 Digital Video and Film Arts Internship

3 cr. hrs. 15 periods (15 lab)

Work environment in digital video and film arts. Includes interpersonal communication, professional development, employment strategies, and field experience.

Prerequisite(s): DAR 103, 124, 125, and 175.

Information: Consent of the video and film arts instructor and 12 credit hours of DAR course work is required to be placed in an internship position.

Offered: Fall, Spring.

DAR 290E3 Internship in Digital Arts/Graphics

3 cr. hrs. 15 periods (15 lab)

Work environment in digital arts/graphics field. Includes interpersonal communication, professional development, employment strategies, and field experience.

Prerequisite(s): DAR 101, 111, and 112.

Information: Consent of the digital arts/graphics instructor or department chair and 12 credit hours of DAR coursework is required to be placed in an internship position.

Offered: Fall, Spring, Summer.

DAR 296 Digital Arts Independent Projects

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures, and a method of evaluation.

Information: May be taken four times for a maximum of sixteen credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

DAR 296I1 Digital Arts Independent Projects: Design

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.

Information: May be taken four times for a maximum of sixteen credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

DAR 296I2 Digital Arts Independent Projects: Illustration

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.

Information: May be taken four times for a maximum of sixteen credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

DAR 296I3 Digital Arts Independent Projects: Desktop Publishing

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures, and a method of evaluation.

Information: May be taken four times for a maximum of sixteen credit hours. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring, Summer.

DAR 29614 Digital Arts Independent Projects: Interactive Design

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures, and a method of evaluation.

*Information: May be taken four times for a maximum of sixteen credit hours.**Consent of instructor is required before enrolling in this course.*

Offered: Fall, Spring, Summer.

DAR 29618 Digital Art Independent Proj: Adv Digital Video/Audio/Film

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students independently continue their development in digital video, audio, and film media with the help of a faculty member.

*Information: May be taken three times for a maximum of twelve credit hours.**Completion of twelve credit hours of DAR courses, DAR 196, and consent of instructor are required before enrolling in this course.*

Offered: Fall, Spring, Summer.

DAR 297 Digital Arts Seminar:

.25-4 cr. hrs. .25-4 periods (.25-4 lec.)

Communication graphics job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

Information: May be taken three times for a maximum of twelve credit hours.

Offered: Fall, Spring, Summer.

DAR 299 Introduction to Co-op: Digital Arts

1 cr. hrs. 1 periods (1 lec.)

See cooperative education section for description.

*Prerequisite(s): DAR 199.**Corequisite(s): DAR 299WK*

Offered: Fall, Spring, Summer.

DAR 299WK Co-op Work: Digital Arts

1-8 cr. hrs. 5-40 periods (5-40 lab)

See cooperative education section for description.

*Prerequisite(s): DAR 199WK.**Corequisite(s): DAR 299*

Offered: Fall, Spring, Summer.

Direct Care Professional

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

DCP 101 Direct Care Professional: Principles of Care Giving

2.25 cr. hrs. 2.25 periods (2.25 lec.)

Addresses principles and application of care giving and personal care in the various home and community based settings. Includes examination of legal and ethical issues, communication, activities, nutrition and food preparation, housekeeping, infection control, safety, and time and stress management for the Direct Care Professional (DCP).

Offered: Fall, Spring, Summer.

DCP 102 Direct Care Professional: Aging/Physical Disabilities

2 cr. hrs. 2 periods (2 lec.)

Presents principles and applications of provision of care in the home environment for older adults and persons with disabilities. Addresses overview of services and continuum of care; aspects of independent living; and roles and responsibilities of Direct Care Professionals (DCPs). Also includes legal and ethical issues, vulnerable adult abuse, reporting requirements, care plans, biological aspects of aging, physical disabilities and chronic conditions, psychological and cognitive conditions and implications for DCPs. An overview of dementia-specific care is incorporated.

Prerequisite(s): DCP 101.

Offered: Fall, Spring, Summer.

DCP 103 Direct Care Professional: Alzheimer's/Forms of Dementia

2 cr. hrs. 2 periods (2 lec.)

Presents principles and applications of provision of care in the home environment for persons with Alzheimer and related forms of dementia. Addresses an overview of services and continuum of care; aspects of independent living; and roles and responsibilities of Direct Care Professionals (DCPs). Also includes legal and ethical issues, vulnerable adult abuse, reporting requirements, and care plans. Emphasis on aspects of Alzheimer's as related to physical disabilities and chronic conditions, psychological and cognitive conditions and implications for DCPs.

Prerequisite(s): DCP 101.

Offered: Fall.

DCP 104 Direct Care Professional: Developmental Disabilities

2 cr. hrs. 2 periods (2 lec.)

Addresses a foundational knowledge for the provision and application of quality care for people with developmental disabilities by Direct Care Professionals (DCPs) or family caregivers. Includes the examination and application of philosophical, social, medical, physical, legal, and ethical issues faced by people with disabilities.

Prerequisite(s): DCP 101.

Offered: Fall.

Early Childhood Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ECE 107 Human Development and Relations

3 cr. hrs. 3 periods (3 lec.)

Analysis of the elements which affect growth and development throughout the life span. Includes theories and issues, prenatal development and birth, infancy and early childhood, middle childhood, adolescence, young adulthood, late adulthood, death, and communities and human development.

Prerequisite(s): REA 112 or concurrent enrollment.

Offered: Fall, Spring, Summer.

ECE 108 Literature/Social Studies for Children

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Survey of principles, materials, and techniques for the selection and evaluation of children's literature and social studies materials. Includes incorporating an appreciation of other cultures, and planning and implementing developmentally appropriate activities.

Offered: Spring, Summer.

ECE 110 Communication and Language: Early Literacy for Children

3 cr. hrs. 3 periods (3 lec.)

Study of oral and written language acquisition and emergent literacy. Includes principles, methods, and current teaching techniques. Also includes an examination of cultural diversity, instructional material, assessments, and computer technology.

Prerequisite(s): ECE 117.

Offered: Spring.

ECE 112 Music and Art for Children

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Survey of principles, materials, techniques, and resources for teaching music/art to children. Includes planning, implementing, and evaluating developmentally appropriate activities. Also includes a compilation of resource materials.

Offered: Fall.

ECE 114 Effective Parenthood

3 cr. hrs. 3 periods (3 lec.)

Identification and discussion of determinants of positive child rearing practices. Includes physical, cognitive, personality, and moral development. Also includes parenting skills and positive guidance techniques for conflict resolution and effective interpersonal relationships.

Prerequisite(s): ECE 117.

Offered: Spring.

ECE 115 Supervision and Administration of Early Childhood Programs

3 cr. hrs. 3 periods (3 lec.)

Analysis of elements for planning, implementing, maintaining, and evaluating early childhood education programs. Includes regulations, health and safety issues, and staff selection, development, and supervision. Also includes management of facilities, budget, equipment, supplies, and arranging environment.

*Prerequisite(s): ECE 117, MAT 082, REA 112, and WRT 100.**Information: Same as CDA 115.*

Offered: Fall, Spring.

ECE 117 Child Growth and Development

3 cr. hrs. 3 periods (3 lec.)

Analysis of concepts and issues in growth and development of children. Includes prenatal factors, the birth process, and determinants of physical, cognitive, social, cultural, emotional, and moral development through adolescence.

Prerequisite(s): REA 112 or concurrent enrollment, and WRT 100.

Offered: Fall, Spring, Summer.

ECE 124 Math and Science for Children

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Theories, methods, and techniques for teaching math and science. Includes selection, development, and presentation of instructional materials with an integrated curriculum approach. Also includes computer applications.

Prerequisite(s): MAT 082.

Offered: Spring.

ECE 125 Nutrition, Health, and Safety for the Young Child

3 cr. hrs. 5 periods (2 lec., 3 lab)

In-depth study of the health, safety and nutritional needs of children. Includes feeding and growth, feeding and health practices, planning and serving food to children, food safety: principles to practice, menus, environmental concerns, nutrition and health education, social aspects of nutrition and wellness, nutrition and health activities for children, preventing accidents, wellness issues in the center, and nutrition, health and safety programs in the community.

Prerequisite(s): ECE 117.

Offered: Fall.

ECE 127 Computers in Primary and Early Childhood Education

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Integrating computers into primary and early childhood educational classrooms. Includes the effect of computers on young children's development, selecting software using evaluation systems, evaluating software with developmental scales, introducing children to computers, teaching strategies to integrate computers into the curriculum, utilizing computers to promote an anti-bias curriculum, selecting anti-bias software, communicating with parents, connecting with the community, and networking across the globe.

Prerequisite(s): ECE 117.

Offered: Fall.

ECE 129 Infant and Toddler Education

3 cr. hrs. 3 periods (3 lec.)

Examination of effective teaching and guidance practices during infant and toddler years. Includes principles of sensory motor awareness, memory permanence, cognitive development, concept formation and problem solving. Students observe, investigate, plan, and demonstrate developmentally appropriate curriculum and guidance practices.

Prerequisite(s): ECE 117.

Offered: Spring.

ECE 130 School-Age Child Care and Program Development

3 cr. hrs. 3 periods (3 lec.)

Examination of child care programs for school-age children, including before- and after-school care, full day and recreational programs. Encompasses activities, leadership program planning, discipline, safety, problem solving, ethics, standards, cultural awareness, special needs, partnership, resources, supervising staff, and marketing. Also includes a supervised field experience project.

Prerequisite(s): ECE 117.

Offered: Fall, Spring.

ECE 190 Internship in Early Childhood Education (Birth - Preschool)

4 cr. hrs. 16 periods (1 lec., 15 lab)

Internship designed to provide practical experience to students interested in Early Care and Education. Includes professional documentation of work in early education settings, promoting positive classroom relationships and self-discipline in children, using principles of learning and teaching, organizing space, materials, time, and children's groups, and appropriate practices in early childhood settings.

Recommendation: Consent of instructor required before enrolling in this course.

Offered: Fall, Spring.

ECE 200 Foundations of Early Childhood Education

3 cr. hrs. 3 periods (3 lec.)

Survey of the historical and philosophical foundations of Early Childhood Education. Includes influential people in the history in early childhood education, current issues that impact the field particularly the role of private and public entities in the creation and funding of early childhood education, and review of all the local, state and national policies that impact young children.

Prerequisite(s): ECE 117, REA 112 or concurrent enrollment, and WRT 100.

Offered: Fall, Spring.

ECE 211 Inclusion of Young Children with Special Needs

3 cr. hrs. 3 periods (3 lec.)

Overview of the exceptional learner (birth to age 8), one who differs from the average or the norm. Includes historical perspectives in exceptional children, identification and referral, areas of exceptionality, and family, community, and state impact. Also includes field experience.

Prerequisite(s): ECE 117, REA 112 or concurrent enrollment, and WRT 100.

Information: This course replaces ECE 111. Either ECE 111 or ECE 211 will meet the graduation requirement.

Offered: Fall, Summer.

ECE 226 Teaching Techniques and Behavior Management

3 cr. hrs. 3 periods (3 lec.)

Introduction to theory and application of early childhood classroom planning, guidance techniques and classroom management. Includes observation techniques, understanding and guiding behavior, skills-streaming in early childhood, parents as partners in education, creating environments, evaluating for effectiveness, planning for play, physical and motor development, cognitive and language, social, emotional, and creative growth, and issues and trends in early childhood education. Also includes a 22-hour practicum.

Prerequisite(s): ECE 117, REA 112 or concurrent enrollment, and WRT 100.

Offered: Fall, Spring.

ECE 228 The Young Child: Family, Culture, and Community

3 cr. hrs. 3 periods (3 lec.)

Examination and acquisition of competencies required by child care personnel in educating and caring for infants, toddlers, and preschoolers in early childhood programs. Includes observing and recording age-appropriate activities, discipline, problem-solving, health and safety, guiding language and action, special needs, cultural awareness, and essential curricula. Also includes a supervised field project.

Information: This course replaces ECE 128. Either ECE 128 or ECE 228 will meet the graduation requirement.

Offered: Fall, Spring.

ECE 240 Assessment of Young Children

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Assessment techniques associated with the evaluation of young children. Includes historical foundations and contemporary issues, standards in early education field, observation skills and techniques, and assessment.

Prerequisite(s): REA 112.

Offered: Spring.

ECE 242 Games and Activities for Children

3 cr. hrs. 3 periods (3 lec.)

Examination of effective teaching and guidance practices with children in games and sports activities. Includes an introduction to children and physical activity developing and planning a physical activity program, effective classroom management, teaching styles and methods (basics), legal liability and proper care of students, specific types of games and activities, evaluating the appropriateness of games, participation in various games and activities, variety of spontaneous and planned activities, environment, observation, practice teaching and guidance, fine motor activities, and special needs.

Offered: Summer.

ECE 290 Advanced Level Internship in Early Childhood Education

4 cr. hrs. 16 periods (1 lec., 15 lab)

Internship designed for students completing second year of Early Childhood Education program. Includes enhancing professional documentation, promoting positive classroom relationships and self-discipline in children, principles of successful learning and teaching, designing an effective thematic unit plan, developing and implementing group projects, and appropriate practices in early childhood settings.

Recommendation: Consent of instructor before enrolling in this course.

Offered: Fall, Spring.

ECE 291 Internship for Students Experienced in Early Childhood Ed

4 cr. hrs. 16 periods (1 lec., 15 lab)

Internship experience designed to support students currently working in an educational setting, in increasing their professional knowledge by observing, doing, inquiring, and reflecting on teaching and learning. Includes developing a personal view of teaching, education history and philosophy, current trends in education, legal and ethical issues in education, status of contemporary children, exploring classroom learning theory, establishing a successful classroom environment, teaching and lesson planning, teacher as educational leader, and collaborating with families, businesses, and the community.

Prerequisite(s): ECE 117.Recommendation: Consent of instructor before enrolling in this course.

Offered: Fall, Spring.

ECE 296 Independent Studies in Early Childhood Education

3 cr. hrs. 3 periods (3 lec.)

Student independently continue their development in Early Childhood Education under the guidance of a faculty member.

Prerequisite(s): ECE 117.*Information: May be taken two times for a maximum of six credit hours.*

Offered: May not be offered this year, check class schedule.

Economics

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ECN 200 Basic Economic Principles

3 cr. hrs. 3 periods (3 lec.)

Economic theory as applied to individual decision-making units (microeconomics) and as applied to the operation of the economy as a whole (macroeconomics). Includes economic decision making, economic systems, supply and demand model, price determination, elasticity, household income, business ownership, profit maximization, production functions and costs, competition and market structures. Also includes goals and problems of the macroeconomy, foundations of the macroeconomy, fiscal policy and budgets, money, the role of financial institutions and the Federal Reserve, money creation, and monetary theory and policy.

Prerequisite(s): MAT 092.

Information: Not open to students who have taken or are taking ECN 201 and/or ECN 202.

Offered: Fall, Spring, Summer.

ECN 201 Microeconomic Principles

3 cr. hrs. 3 periods (3 lec.)

Economic theory as applied to individual decision-making units. Includes economic decision making, economic systems, consumer demand, producer supply, price determination, elasticity, cost-benefit analysis, and utility and profit maximization. Also includes production functions and costs, competition and market structures, government in the market economy, labor markets, and income distribution.

Prerequisite(s): MAT 092.

Offered: Fall, Spring, Summer.

ECN 202 Macroeconomic Principles

3 cr. hrs. 3 periods (3 lec.)

Economic theory as applied to the operation of the economy as a whole. Includes economic decision making, economic systems, supply and demand model, goals and problems of the macroeconomy, foundations of the macroeconomy, fiscal policy and budgets, money, the role of financial institutions and the Federal Reserve. Also includes money creation, monetary theory and policy, and the assessment of goals, tools and policies of macroeconomics, and international trade.

Prerequisite(s): MAT 092.

Offered: Fall, Spring, Summer.

Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

EDU 100 Principles of Bilingual Education

3 cr. hrs. 3 periods (3 lec.)

Examination of basic principles of bilingual education. Includes philosophy, history, rationale, legislation and models.

Offered: May not be offered this year, check class schedule.

EDU 101 Introduction to Bilingual Elementary Education

3 cr. hrs. 3 periods (3 lec.)

Introduction to prospective teachers, to the personal, social, institutional, and instructional issues relevant to teaching in general and bilingual education in particular. Includes engagement in pre-professional activities including autobiographical reflections, reading, discussing, and responding to relevant professional literature, observing in a bilingual education classroom, and reflecting on class presentations and interviews of parents, teachers, administrators, resource personnel, and students.

Offered: May not be offered this year, check class schedule.

EDU 103 Teaching Students with ADD/ADHD

1 cr. hrs. 1 periods (1 lec.)

Strategies for working with children with attention difficulties. Includes overview Attention Deficit Disorder (ADD) and Attention Deficit Hyperactivity Disorder (ADHD), diagnostic procedures, most common treatments, laws pertaining to servicing ADD/ADHD, strategies for the classroom, and overview of resources and organizations.

Information: May be taken for Professional Development purposes.

Offered: May not be offered this year, check class schedule.

EDU 106 Structured English Immersion Introduction

1 cr. hrs. 1 periods (1 lec.)

Introduction to Structured English Immersion (SEI) methods and evaluation for pre-service or in-service teachers and administrators. Includes an overview

of English Language Learning (ELL) and Sheltered Instruction. Also includes curriculum adaptation, student assessment, development of SEI lesson plans, and legal, historical, and educational reasons for Structured English Immersion.

Information: Meets the Arizona Department of Education requirement for provisional SEI endorsement.

Offered: May not be offered this year, check class schedule.

EDU 107 Conducting Readers' and Writers' Workshop in K-8 Classroom

1 cr. hrs. 1 periods (1 lec.)

Overview and strategies for conducting effective readers' and writers' workshops and conferences. Includes readers' and writers' workshop management strategies, design and implementation of effective mini-lesson, conferencing, and sharing session.

Information: May be taken for Professional Development purposes.

Offered: Spring.

EDU 108 Music, Art, and Drama for School-Age Child Care

3 cr. hrs. 3 periods (3 lec.)

Examination of principles, techniques, and resources for creating age-appropriate projects and activities in music, art and drama. Includes theory in fine arts, age-appropriate activities, exploring music and movement, exploring different cultures through art and crafts, drama productions, developing social skills, and parent and family involvement.

Information: Consent of instructor is required before enrolling in this course.

Offered: Summer.

EDU 109 Language, Arts, Science, and Math for School-Age Child Care

3 cr. hrs. 3 periods (3 lec.)

Synthesis of principles for development of age-appropriate multidisciplinary activities. Includes introduction to using multidisciplinary activities, multidisciplinary activities in programs for children ages five to eight years and ages nine to thirteen years, resources, social skills, and age-appropriate service learning. Also includes the evaluation of commercially produced programs and software.

Information: Consent of instructor is required before enrolling in this course.

Offered: Summer.

EDU 111 Comprehension Strategies for Struggling Adolescent Readers

1 cr. hrs. 1 periods (1 lec.)

Overview of the issues facing the struggling adolescent reader. Includes strategies and tools for supporting reading skills and comprehension development. Also includes profile and key issues faced by struggling readers, using systems used by competent readers, key reading strategies, and development of literacy comprehension.

Information: May be taken for Professional Development purposes.

Offered: May not be offered this year, check class schedule.

EDU 116 All Sorts of Leaves: Teaching Science K-6

1 cr. hrs. 1 periods (1 lec.)

Overview and concepts relating to science and natural curiosity. Includes the hands on and minds on philosophy of science instruction. Includes the merits of group work in lessons that are developed with the teacher as coordinator and facilitator, and the students as explorers. Includes the incorporation of cross curriculum activities such as descriptive writing and field sketches that makes science a holistic discipline. Also includes the use of multiple disciplines to provide opportunities for assessments.

Information: May be taken for Professional Development purposes.

Offered: May not be offered this year, check class schedule.

EDU 119A Southern AZ Center Against Sexual Assault Training 8th-12th Grade

1 cr. hrs. 1 periods (1 lec.)

Overview and strategies for violence prevention education in the 8th-12 grades. Includes the analysis of social, gender, cultural and societal norms regarding sexual violence, dynamics, and laws and statutes regarding sexual violence in the United States and Arizona. Also includes best practices in sexual assault prevention curriculum, analysis of gender norms and violence, exploration and analysis of healthy versus destructive relationships, and analysis and application of media and gender messages. Southern Arizona Center Against Sexual Assault Training, 8th-12th Grades

Information: May be taken for professional development purposes. This course is designed to train 8th - 12th grade teachers in the delivery of Southern Arizona Center for Sexual Assault's prevention curriculum.

Offered: May not be offered this year, check class schedule.

EDU 129 How to Write Competitive Grant Proposals

1 cr. hrs. 1 periods (1 lec.)

Strategies to develop effective, competitive grant proposals. Includes identifying and qualifying funding sources, interpreting and utilizing the funding

agency's solicitations, developing the proposal format, and writing the proposal narrative.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 130 Legal Issues in Education

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Introduction to legal issues in an educational environment for students, teachers, and staff. Includes Affirmative Action (AA), Equal Employment Opportunity (EEO), Americans with Disabilities Act (ADA), and sexual harassment, legal concepts, the rights of students, staff, and teachers, identifying and defining situations, forms of discrimination, techniques to prevent discrimination and sexual harassment, strategies to increase awareness, confidentiality and Right-to-Know, and internal and external processes.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 134 Survival Strategies for the Substitute Teacher

1 cr. hrs. 1 periods (1 lec.)

Techniques to prepare substitute teachers for the tasks they face in elementary, middle school and high school classrooms. Includes classroom management, interpreting and implementing lesson plans, and district procedures and policies.

Information: May be taken for Professional Development purposes.
Offered: Spring.

EDU 138 Stress Management for Teachers

1 cr. hrs. 1 periods (1 lec.)

Overview of teacher stress, its causes, its effects, and interventions. Contents include: theories of stress, recognizing personal stress, stress and brain functioning, work related sources of stress, and a variety of stress management techniques.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 161 The Arizona Community College: A Learning Institution

3 cr. hrs. 3 periods (3 lec.)

Introduction to the community college system. Includes history, mission, governance, organization, finance, curriculum, and current challenges. Also includes student characteristics, support services, faculty characteristics, roles, responsibilities and evaluation, and an introduction to teaching, earning and assessment in the community college.

Information: Meets Pima Community College teaching requirement.
Offered: May not be offered this year, check class schedule.

EDU 161C Teaching and Learning in the Community College

1 cr. hrs. 1 periods (1 lec.)

An introduction to teaching, learning, and assessment of students and student learning outcomes as currently practiced in community colleges.

Information: May meet Pima Community College teaching requirement under certain circumstances.
Offered: May not be offered this year, check class schedule.

EDU 173 Teaching and Learning Styles

.25-1 cr. hrs. .25-1 periods (.25-1 lec.)

Introduction to the ways teachers present and learners process learning or instructional materials. Includes overview and perspective of learning styles, major theories, applications to instruction, assessment of individual teaching and learning styles.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 177 Motivating Students

.25-1 cr. hrs. .25-1 periods (.25-1 lec.)

Motivating students to learn. Includes theoretical background, motivating factors and strategies, intrinsic and extrinsic theories, classroom factors, behaviors associated with high motivation, affective factors in classroom climate, and practical suggestions for motivating students.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 200 Introduction to Education

3 cr. hrs. 3 periods (3 lec.)

Provides students with an initial perspective of Education. Topics include: purposes of schooling and schools; effective schools; diversity and its effects on schools, teachers, and students; social problems affecting schools; comparative education; curriculum issues and controversies; and technology's impact on schools and schooling. Also, philosophical, legal, and financial issues facing today's schools; history of American education; and current trends in education reform.

Information: This class requires 30 hours of classroom experiential involvement in local schools. May be taken for Professional Development purposes.
Offered: Fall, Spring, Summer.

EDU 201 Diversity in Education

3 cr. hrs. 3 periods (3 lec.)

Examination of diversity: age, class, gender, race disabilities, sexual orientation, and culture effect on the K-12 classroom. Exploration of diversity on education; demographic changes and effects on education; diversity and multicultural philosophies and perspectives and approaches for helping students communicative. Also, analysis of prejudice, single-group studies, multicultural education, human relations and capital. Explores children's school achievement in light of learning and teaching styles and reconstructionist approach to classroom diversity and curriculum planning.

Information: May be taken for Professional Development purposes.
Offered: Fall, Spring.

EDU 202 Introduction to the Exceptional Learner

3 cr. hrs. 3 periods (3 lec.)

Special education foundation topics including current educational practices and related educational theories: Instructional, classroom management and assessment. Cultural consideration within K-12 special education; student transitioning within the school and between school and the community. Also, role and function of the special education teacher preparing for instruction, lesson plans, assessment, instruction, technology, and compliance.

Information: May be taken for Professional Development purposes.
Offered: Fall, Spring

EDU 206 Relationships in Classroom Settings

3 cr. hrs. 3 periods (3 lec.)

Introduction to basic classroom management principles including the management of curriculum, instruction, physical environment, psychosocial factors, student motivation and special groups. Also includes is a focus on disruptive behavior, family involvement, communication, stress management, and appropriate record keeping.

Information: May be taken for Professional Development purposes.
Offered: Fall, Spring.

EDU 210 Visual Aids and Games for Effective Instruction

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Creating and using visual aids and games for effective instruction for K-12 teachers. Includes philosophy of teaching using games and creative arts, education plans in selected subject areas, manufactured materials and games that enhance teaching, methods of instruction with games and visual, and program management.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 211 Meeting the Needs of Gifted Students

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Introduction to the methods and strategies required when teaching and working with gifted students. Includes all aspects of identification, and classroom placement, acceleration, independent study, problem-solving, and participation in academic competitions.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 223 Motivate Writing in the Classroom

1 cr. hrs. 1 periods (1 lec.)

Activities to motivate writing for the K-12 classroom. Includes overview, pre-writes and fast writes, games to motivate students, general activities using the newspaper, celebrating the completed project, teacher-to-teacher networking activities, and feedback and resources available.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 236 Positive Classroom Management

1 cr. hrs. 1 periods (1 lec.)

Techniques to implementing a positive classroom environment. Includes philosophy, management theories, models of management, and the process to develop a positive style.

Information: May be taken for Professional Development purposes.
Offered: May not be offered this year, check class schedule.

EDU 240 Adolescent Development

3 cr. hrs. 3 periods (3 lec.)

Examination of early to young adult adolescent development; investigation of developmental theories and methods; and comprehensive analysis of problems encountered by today's youth. Topic focus includes the physical, cognitive, moral and personality development; familial and peer relations, dating and sexuality, psychosocial problems: teen suicide, delinquency, and substance abuse. Also, includes ethnic and cultural considerations in addition to educational and vocational issues.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Middle School Endorsement and Coaching Certificate requirements in conjunction with other

coursework. May be taken for Professional Development purposes.
Offered: Fall.

EDU 241 Middle School Curriculum and Instruction

3 cr. hrs. 3 periods (3 lec.)

Concepts, skills and research techniques for middle school teachers. Examination of constructivism, research, curriculum development and instruction, unit planning, assessment and evaluation, materials selection, teaching strategies, diversity, motivation and classroom management.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Middle School Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Fall.

EDU 242 Middle School Practicum

3 cr. hrs. 3 periods (3 lec.)

Strategies and tools for middle school teaching; subject matter instruction methods; adolescent development and learning; diversity of learners and instruction; creating a positive learning environment; instruction planning and implementation; assessment; professionalism; and personal reflection.

Information: This course requires a 30-hour middle school practicum placement and 15 hours of workshop/lecture. Meets Middle School Endorsement requirements in conjunction with other coursework. Education department approval is required before enrolling in this course. May be taken for Professional Development purposes.

Offered: Spring.

EDU 243 ESL Practicum

3 cr. hrs. 3 periods (3 lec.)

Concepts, techniques, and on-site experience working with English Language Learners (ELL). Requires observations of ELL's in a variety of settings, evaluation of English as a techniques and actual experience in developing lessons and Second Language (ESL) and Sheltered English Instruction, teaching techniques and actual experience in developing lessons and teaching ELL.

Information: Education department approval is required before enrolling in this course. This class requires a 30-hour ESL K-12 practicum and 15 hours of workshop and lecture. Meets ESL Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Fall.

EDU 244 Teaching Reading and Writing to ESL Students

3 cr. hrs. 3 periods (3 lec.)

Introduction to teaching reading and writing in English as a Second Language (ESL) setting. Includes teaching techniques, learning strategies and activities, the six traits of writing, including reading and writing across the curriculum.

Information: Education department approval is required before enrolling in this course. This course requires a 10-hour practicum. Meets ESL Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 245 Linguistics

3 cr. hrs. 3 periods (3 lec.)

Introduction to the nature, structure, and acquisition of language. Includes basic concepts of phonetics, phonology, morphology, syntax, semantics, psycholinguistics, language variation, and theories of first and second language acquisition.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets ESL Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 246 Assessment of ESL Students

3 cr. hrs. 3 periods (3 lec.)

Introduction to the assessment of ESL students: knowledge of assessment, purposes of assessment, identification, placement, and exit standards for students, linking assessment to instruction, and creating classroom assessments.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets ESL Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Fall.

EDU 247 Family and Community Involvement in ESL Student Instruction

3 cr. hrs. 3 periods (3 lec.)

Introduction to parental, school and community involvement in the instruction of ESL students. Also, includes research on the value of family/school connections, an overview of effective programs, analysis of practices and re-

sources available and information on how develop a plan of action for a school.
Information: Education department approval is required before enrolling in this course. This course requires a 10-hour practicum. Meets ESL Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Fall.

EDU 252 Reading Diagnosis, Decoding, Remediation and Practicum

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of diagnosis, decoding, and remediation of reading problems. Includes instruction techniques on administering, analyzing, and interpreting informal procedures and using the results to plan a program of remediation.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Fall.

EDU 254 Literacy Development in the Primary Grades/Practicum

3 cr. hrs. 3 periods (3 lec.)

Philosophy, information and strategies for literacy development in the primary classrooms. Topics include: literacy and language development theories; observation and assessment; family literacy; strategies for teaching and motivation and management.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 255 Content Area Reading Middle and Secondary Schools/Practicum

3 cr. hrs. 3 periods (3 lec.)

Information and strategies in content area literacy and its fundamental role in instruction across the curriculum. Topics include: overview of content area literacy; active learning in the reading and writing process; comprehension, vocabulary, and study skill strategies; the role of literature in the content areas; writing as a tool for content area comprehension; assessment strategies and technology.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 256 Literacy Development in the Middle School/Practicum

3 cr. hrs. 3 periods (3 lec.)

Research and information strategies related to teaching reading and language arts at the middle school level. Topics include: reading research; reading strategies; work with and supporting struggling readers; motivation; readers' workshop; assessment; age-appropriate materials selection; and development and implementation of strategic reading groups.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 257 Special Topics: Children's Literature and Literacy/Practicum

3 cr. hrs. 3 periods (3 lec.)

Strategies for using children's literature to support literacy development. Topics include: literature selection criteria, genre, response strategies, literature assessment, elements and styles of literature and poetry, ethnic and gender issues in children's literature, thematic unit building, response assessment, using children's literature to teach writing, and benefits of literature and response in the classroom.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: Spring.

EDU 260 Developing Reading, Instruction, Assessment, and Remediation

3 cr. hrs. 3 periods (3 lec.)

Concepts, techniques and skills to teach struggling readers. Includes the components of reading. Includes the application of concepts to conduct assessments, instructional and remedial activities for struggling readers. Includes how to participate in the Individualized Education Program (IEP) process to help develop long-range individualized instructional plans and create short-range

goals and objectives considering an individual student's abilities, needs and learning environment.

Information: Same as EDS 260. Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 15-hour practicum.
Offered: Spring.

EDU 262 Assistive Technology for Individuals with Disabilities

3 cr. hrs. 3 periods (3 lec.)

Study of assistive technology devices, products and applications techniques. Includes overview of assistive technology, special adaptive needs, basic computer skills, assessment practices and ethical consideration. Assistive equipment, positioning and seating technology, programming processor controlled augmentative communication devices, accessibility of environment, using software applications, adapting activities to available equipment, adapting computers to specific needs, using the internet as a resources guide, evaluating equipment, and developing/adapting low-and-mid-tech devices to meet specific needs.

Information: Same as SSE 262.

Offered: May not be offered this year, check class schedule.

EDU 268 Issues in Education

1 cr. hrs. 1 periods (1 lec.)

Special topics in education with an emphasis on current issues. Includes issues and concepts relating to the National Board for Professional Teaching, standards, and future teaching practices. Also includes student learning, personal motivation, lesson plan development, behavior and ethics, and professional portfolio.

Information: Admission to the Post-Degree Teacher Certification Program or Education Department approval is required before enrolling in this course.

Offered: Fall, Spring, Summer.

EDU 269 Balanced Approach to Literacy/Practicum

3 cr. hrs. 3 periods (3 lec.)

Introduction to literacy development for pre-service teachers for pre-kindergarten through middle school children. Includes pre-kindergarten through third grade teachers; learning environments, assessment, selection and use of text, strategies and high quality classroom instruction. Includes fourth through eighth grade teachers independent reading, guided reading, and classroom instruction.

Information: Education department approval is required before enrolling in this course. This class requires a 10-hour practicum. Meets Reading Endorsement requirements in conjunction with other coursework. May be taken for Professional Development purposes.

Offered: May not be offered this year, check class schedule.

EDU 270 Educational Technology and Curriculum Integration

3 cr. hrs. 3 periods (3 lec.)

Introduction to topics and issues in educational technology. Includes electronic communications, basic productivity applications, computer system basics, multimedia and educational courseware and technology integration into the curriculum. Also includes planning for and evaluating educational technology, security, ethics and other issues in technology, and emerging technologies in education.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio.

Offered: Fall, Spring, Summer.

EDU 271 Introduction to Teaching

3 cr. hrs. 3 periods (3 lec.)

Introduction to teaching for the prospective teacher focusing on the major models of teaching, the purposes served and the curricular methods employed with each model. Includes social modes of teaching and learning, information processing models, personal models, behavioral models, synthesizing and applying models of teaching, lessons and assessments using various models, teaching as a profession, and methods for increasing instructional effectiveness.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio.

Offered: Fall, Spring, Summer.

EDU 272 Educational Psychology

3 cr. hrs. 3 periods (3 lec.)

Introduction to the basic principles of educational psychology relating to the areas of physical, psychological, moral, social and cognitive development. Includes personal and social development, cognitive processes in the classroom, behaviorism, constructivism, learning theorists, and assessment.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio.

Offered: Fall, Spring, Summer.

EDU 273 Introduction to Special Education

3 cr. hrs. 3 periods (3 lec.)

Introduction to a variety of instructional, classroom management and assessment strategies pertinent to teaching in a special education program. Includes role and function of the special education teacher, preparing for instruction, constructing lesson plans, assessment, instruction, classroom management, instructional media learning tools, and special education compliance.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course requires a 10-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring, Summer.

EDU 274 Structured English Immersion Foundations

3 cr. hrs. 3 periods (3 lec.)

Overview of Structured English Immersion (SEI) Foundations. Includes concepts designed to meet state standards for teachers of English Language Learners (ELLs). Also includes instruction in SEI strategies, teaching with Arizona English Language Learner (ELL) Proficiency Standards and monitoring ELL student progress using a variety of assessment tools.

Prerequisite(s): Admission to the Advanced Certificate Program in Teacher Education or Department Approval.

Information: This course requires a 10-hour practicum. Meets ESL Endorsement and SEI Endorsement requirements in conjunction with other coursework. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring, Summer.

EDU 275 Classroom Management

3 cr. hrs. 3 periods (3 lec.)

Introduction to assisting students to master the knowledge and skills necessary to create and maintain a positive classroom environment. Includes overview of classroom management, students' basic needs, creating positive interpersonal relationships, creating positive peer relationships, working with parents and student motivation and learning. Also includes developing standards for classroom behavior, responding to violations of rules and procedures, using problem solving techniques, developing individual behavior plans, and school-wide student management programs.

Information: Admission to the Post-Degree Teacher Certification Program or Education Department is required before enrolling in this course. This course requires a 10-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring, Summer.

EDU 276 Foundation of Reading Instruction

3 cr. hrs. 3 periods (3 lec.)

Literacy instruction at the elementary school level. Topics include: literacy development theory; literacy development at the preschool, early childhood and intermediate grade level; instruction techniques for all facets of literacy development; comprehension strategies including bilingual learners and special population. Focus is on organizing classroom and curriculum to enhance literacy development and techniques and assessment as tools for instruction and working with parents to enhanced students achievement.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This class requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall.

EDU 277 Phonics Instruction in a Balanced Literacy Setting/Practicum

3 cr. hrs. 3 periods (3 lec.)

Overview and exploration to phonemic awareness, phonics instruction and related research findings. Includes quality literacy programming, understanding language and words, word study, learning about letters and words, and thinking comprehensively.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This class requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring.

EDU 278 Elementary Science Methods and Curriculum Development

3 cr. hrs. 3 periods (3 lec.)

Overview of the content and instructional methods of teaching science in grades kindergarten through eighth. Includes the academic content of teaching science, the instructional methods of teaching science, practical application, and observation and evaluation.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring.

EDU 279 Elementary Math Methods and Curriculum Development

3 cr. hrs. 3 periods (3 lec.)

Introduction to the content and methods of curriculum development in elementary math for the elementary and middle school teacher. Includes standards, resources, teaching math concepts, cooperative learning, topics, teaching aids, activity lessons, integrating mathematics lessons with other disciplines, and presenting a lesson.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Spring.

EDU 280 Social Studies Methods and Curriculum Development

3 cr. hrs. 3 periods (3 lec.)

Overview of the content and methodology of teaching social studies in kindergarten through eighth grade. Includes the social studies academic content, methods of teaching social studies instruction, and evaluation.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: May not be offered this year, check class schedule.

EDU 281 Structured English Immersion Methods

3 cr. hrs. 3 periods (3 lec.)

Introduction to Structured English Immersion (SEI) methods designed to meet state standards for pre-service and in-service teachers of English Language Learners (ELL). Includes an examination of ELL proficiency standards, assessment of ELLs, SEI foundations and strategies, using disaggregated data to differentiate instruction and parental involvement. Also includes a practicum and TaskStream portfolio.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course includes a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. Meets ESL Endorsement requirements in conjunction with other coursework.

Offered: Fall, Spring.

EDU 285 Secondary Teaching Methods

3 cr. hrs. 3 periods (3 lec.)

Introduction to variety of instructional, classroom management and assessment strategies pertinent to teaching in the secondary schools. Includes the role and function of the teacher in a secondary classroom setting, preparing for instruction, constructing lesson plans, assessment, instruction, classroom management, instructional media learning tools, and special needs students.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. This course requires a 15-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall, Spring.

EDU 286 Structured English Immersion Methods for Certified Teachers

3 cr. hrs. 3 periods (3 lec.)

Introduction to Structured English Immersion (SEI) methods designed to meet state standards for pre-service and in-service teachers of English Language Learners (ELL). Includes an examination of ELL proficiency standards, assessment of ELLs, SEI foundations and strategies, using disaggregated data to differentiate instruction and parental involvement.

Information: This course is designed for currently practicing K-12 teachers and administrators. Meets ESL Endorsement and SEI Endorsement requirements in conjunction with other coursework. Also meets Arizona Department of Education course requirements.

Offered: May not be offered this year, check class schedule.

EDU 287 Structured English Immersion Foundations for Certified Teachers

3 cr. hrs. 3 periods (3 lec.)

Overview of Structured English Immersion (SEI) Foundations. Includes concepts designed to meet state standards for teachers of English Language Learners (ELLs). Also includes instruction in SEI strategies, teaching with Arizona English Language Learner (ELL) Proficiency Standards and monitoring ELL student progress using a variety of assessment tools.

Prerequisite(s): Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course. Information: This course is designed for currently practicing K-12 teachers and administrators. Meets ESL Endorsement and SEI Endorsement requirements in conjunction with other coursework. Also meets Arizona Department of Education course requirements.

Offered: Fall.

EDU 290 Internship

8-9 cr. hrs. 40-50 periods (40-50 lab)

Overview of the student teaching experience in a nine week internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.

Information: Admission to the Post-Degree Teacher Certification Program or Education department is required before enrolling in this course.

Offered: Fall, Spring.

EDU 290A Internship I

2 cr. hrs. 10 periods (10 lab)

Overview of the student testing experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval before enrolling in this course. EDU 290A, 290B, 290C and 290D together constitute EDU 290.

Offered: Fall, Spring.

EDU 290B Internship II

2 cr. hrs. 10 periods (10 lab)

Continuation of EDU 290A, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration. EDU 290A, 290B, 290C and 290D together constitute EDU 290.

Offered: Fall, Spring.

EDU 290C Internship III

2 cr. hrs. 10 periods (10 lab)

Continuation of EDU 290B, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration. EDU 290A, 290B, 290C and 290D together constitute EDU 290.

Offered: Fall, Spring.

EDU 290D Internship IV

2-3 cr. hrs. 10-15 periods (10-15 lab)

Continuation of EDU 290C, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio completion, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education department approval prior to registration. EDU 290A, 290B, 290C, and 290D together constitute EDU 290.

Offered: Fall, Spring.

Education – Special Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

EDS 250 Issues in Special Education

1 cr. hrs. 1 periods (1 lec.)

Overview of issues presented in public schools when special education services are provided to students with disabilities. Includes perspectives which challenge and support the delivery of services and examination of their consequences.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Summer.

EDS 251 Legal Issues in Special Education

1 cr. hrs. 1 periods (1 lec.)

An introduction to legal issues in special education. Includes the history of special education law, Section 504 of the Rehabilitation Act, Americans with Disabilities Act, and the purpose, principles and amendments to the Individuals with Disabilities Education Act (IDEA) and its re-authorizations, application of free and appropriate public education to students with disabilities, least restrictive environment mandates. Also includes disciplinary procedures, transition plans, and key themes in legal regulations regarding the disabled.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Summer.

EDS 252 Understanding Individuals with Disabilities Education Act

1 cr. hrs. 1 periods (1 lec.)

Overview and examination of the Individuals with Disabilities Education Act, 2004, which mandates students with disabilities be provided a free, appropriate public education. Includes an emphasis on the process of eligibility. Also includes the delivery of services to school age children.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Summer.

EDS 253 Development and Implementation of IEPs

1 cr. hrs. 1 periods (1 lec.)

Overview and examination of an Individualized Education Program (IEP) required components. Includes how IEPs are developed for and utilized in the classroom. The roles and responsibilities of required members of IEP team will be reviewed and analyzed in relation to students, family members, and teachers. Includes an emphasis on the cycle of creating, reviewing and revising an IEP to reflect the needs of students.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Summer

EDS 254 Classroom Management for Special Education

2 cr. hrs. 2 periods (2 lec.)

Overview of skills, methods and strategies for behavior management. Includes a foundation on how to recognize, evaluate, and respond to classroom situations. Also includes how to develop classroom management skills with educators, parents and students, as well as develop a behavior management plan for special needs students.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 10-hour special education practicum.

Offered: Fall.

EDS 255 Assistive Technology for Special Education Teachers

3 cr. hrs. 3 periods (3 lec.)

An overview of the assistive technology devices and services that can assist a person with a disability to overcome the functional limitations of the disability. Includes the continuum of assistive technology devices, instructional designs for learning, curriculum adaptation and integration strategies, and assessment and evaluation protocols. Also includes how to make better choices about technology and individual needs.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Fall.

EDS 256 Survey of Special Education

3 cr. hrs. 3 periods (3 lec.)

Overview of special education foundations and issues. Includes special education issues: mental retardation, learning disabilities, Attention Deficit Hyperactivity Disorder (ADHD), emotional and behavioral disorders, gifted and talented, speech and language disorders, hearing and visual impairments, autism, and physical, health, and traumatic brain injuries. Also includes special education history, legislation, family effects, diversity, and educational con-

siderations.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 10-hour special education practicum.

Offered: Spring.

EDS 257 Diagnosis Assessment of Students w Mild-Moderat Disabilities

3 cr. hrs. 3 periods (3 lec.)

Concepts, skills, and techniques to diagnose and assess students with learning and mild-moderate disabilities. Includes how to develop screening, pre-referral, eligibility, and placement for individuals with exceptional learning needs skills. Includes an emphasis on informal assessment for instruction and on the introduction of formal assessment for special education eligibility. Also includes synthesizing, developing and writing a comprehensive report.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 15-hour special education practicum.

Offered: Fall.

EDS 258A Foundations of Instruction Cross Categorical

2 cr. hrs. 2 periods (2 lec.)

Foundations of instruction for designated disabilities, to include: mild to moderate mental retardation, learning disability, emotional disabilities, and physical and other health impairments. Includes assessment, instruction, and instructional design; establishment and maintenance of case records; use of assessment data to design goals and objectives; development of Individualized Education Plans (IEPs); communication and consultation with teachers, families, students, administrators, and agencies; directing and monitoring activities of Paraprofessionals, aids, volunteers, and peer tutors; and modify curriculum and instruction to accommodate student needs.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. This course requires a 10-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Spring.

EDS 258B Foundations of Instruction Learning Disabilities

2 cr. hrs. 2 periods (2 lec.)

Foundations of instruction for students with learning disabilities. Includes assessment, instruction, and instructional design; establishment and maintenance of case records; use of assessment data to design goals and objectives; development of Individualized Education Plans (IEPs); communication and consultation with teachers, families, students, administrators, and agencies; directing and monitoring activities of Paraprofessionals, aids, volunteers, and peer tutors; and modify curriculum and instruction to accommodate student needs.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. This course requires a 10-hour practicum. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply.

Offered: Spring.

EDS 259 Teaching Methods Cross-Categorical

3 cr. hrs. 3 periods (3 lec.)

Overview of how to educate special needs students while meeting their needs academically and socially. Includes methods of teaching students in the Special Education classroom, general education classroom; methods of collaboration with general education teachers and parents; and setting up your classroom for classroom management success. Also includes how to construct and carry out an effective lesson plan and develop an IEP.

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 15-hour special education practicum.

Offered: Fall.

EDS 260 Developing Reading, Instruction, Assessment, and Remediation

3 cr. hrs. 3 periods (3 lec.)

Concepts, techniques and skills to teach struggling readers. Includes the components of reading. Includes the application of concepts to conduct assessments, instructional and remedial activities for struggling readers. Includes how to participate in the Individualized Education Program (IEP) process to help develop long-range individualized instructional plans and create short-range goals and objectives considering an individual student's abilities, needs and learning environment.

Information: Same as EDU 260. Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic

portfolio. Additional fees apply. This class requires a 15-hour special education practicum.

Offered: Spring.

EDS 261 Teaching Methods Learning Disabilities

3 cr. hrs. 3 periods (3 lec.)

Foundations in the field of learning disabilities (LD) and related disabilities. Includes the characteristics of learners, team collaboration, and current legislation. Includes assessments for diagnosis, placement, and instruction. Also includes specific remedial techniques for teaching reading, writing, and mathematics to students with LD and Attention Deficit Hyperactivity Disorder (ADHD).

Information: Admission to the Post-Degree Teacher Certification Program or Education department permission is required before enrolling in this course. Requires a paid subscription to TaskStream electronic portfolio. Additional fees apply. This class requires a 15-hour special education practicum.

Offered: Fall.

EDS 263 Special Education: Cross Category AEPA Prep

1 cr. hrs. 1 periods (1 lec.)

Overview, concepts, and techniques to prepare for the Arizona Educator's Proficiency Assessment (AEPA) test in the area of Special Education-Cross Category specialty. Includes the types and characteristics of a variety of disabilities, assessing special needs students and developing Individual Educational Plans (IEPs), promoting student development and learning, and working collaboratively in a learning community.

Offered: Summer.

EDS 264 Special Education: Learning Disabilities AEPA Prep

1 cr. hrs. 1 periods (1 lec.)

Overview, concepts, and techniques to prepare for the Arizona Educator's Proficiency Assessment (AEPA) test in the area of Special Education-Learning Disabilities specialty. Includes the following topics: types and characteristics of a variety of learning disabilities; assessing special needs students and developing Individual Educational Plans (IEPs); promoting student development and learning; and working collaboratively in a learning community.

Offered: May not be offered this year, check class schedule.

EDS 290 Internship

8 cr. hrs. 8 periods (8 lab)

Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post-Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. EDS 290A, 290B, 290C, and 290D together constitute EDS 290.

Offered: Fall, Spring.

EDS 290A Internship I

2 cr. hrs. 2 periods (2 lab)

Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post-Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. EDS 290A, 290B, 290C, and 290D together constitute EDS 290.

Offered: Fall, Spring.

EDS 290B Internship III

2 cr. hrs. 2 periods (2 lab)

Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. EDS 290A, 290B, 290C, and 290D together constitute EDS 290.

Offered: Spring.

EDS 290C Internship III

2 cr. hrs. 2 periods (2 lab)

Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. EDS 290A, 290B, 290C, and 290D together constitute EDS 290.

Offered: May not be offered this year, check class schedule.

EDS 290D Internship IV

2 cr. hrs. 2 periods (2 lab)

Overview of the student teaching experience, Teacher Preparation Program (TPP) Internship. Includes initial discussion, observation, assessing the learning environments, evaluating educational resources, long and short-term planning, mid-term evaluation, curriculum development and implementation and accommodation to individual needs. Also includes assessments, parent and community collaboration, portfolio, teamwork, and professional development and evaluation.

Information: This course requires admission to the Post Degree Teacher Certification Program and TPP Internship and Education Department approval prior to registration. EDS 290A, 290B, 290C, and 290D together constitute EDS 290.

Offered: May not be offered this year, check class schedule.

Educational Technology Training

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ETT 101 Introduction to Educational Technology

3 cr. hrs. 3 periods (3 lec.)

An introduction to educational technology exploring the current and emerging technologies available to teachers. Includes theoretical foundations of educational technology, technology enhanced instruction, digital technologies for the classroom, and an overview of productivity, school and classroom management software.

Offered: Fall, Spring.

ETT 103 Introduction to the Internet in Education

3 cr. hrs. 3 periods (3 lec.)

Basic use of the internet for education. Includes network and telecommunication systems, web-based applications for teaching and learning, and audio-visual technologies. Also includes an introduction to distance education and issues in implementing internet technologies in schools.

Offered: May not be offered this year, check class schedule.

ETT 110 WebCT Course Development and Delivery

3 cr. hrs. 3 periods (3 lec.)

Overview, concepts, and techniques for online course preparation, delivery, and management using WebCT. Includes advanced web and Internet use, online course development, educational web site development, and use of WebCT, an online course development and management system.

Information: ETT 101, 102, and 103 OR equivalent computer knowledge and experience are required. Must be a Pima Community College (PCC) faculty (full-time or adjunct) or staff (full-time or part-time) or prospective faculty to register for this class. Frequent and reliable access to the Internet and Web is required.

Offered: May not be offered this year, check class schedule.

Electrical Utilities Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

EUT 101 Introduction to Electrical Utilities

3 cr. hrs. 3 periods (3 lec.)

Overview of the electrical utility field. Includes electricity generation, generating station, generation, transmission, and distribution, power policies and procedures, radio procedures, electrical utility disciplines, human resources, and system protection.

Offered: Fall.

EUT 102 Electrical Distribution Math

3 cr. hrs. 3 periods (3 lec.)

Basic math operations related to electrical distribution. Includes the review of basic math, solving and converting, basic algebra, and Ohm's Law.
Offered: Fall.

EUT 104 Overhead and Underground Systems, Hardware, and Equipment

4 cr. hrs. 5 periods (3 lec., 2 lab)

Procedures for working in the overhead and underground distribution components. Includes pole hardware, overhead conductors, porcelain and polymer equipment, overhead transformers, underground equipment installation, electrical utility disciplines, and safety.
Offered: Spring.

EUT 106 Measuring Electricity

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of the theories and devices used to measure electricity. Includes electric utility metering terminology, Blondel's theorem, kilowatt-hour meter operating principles, single-phase and network meters, wiring connections for mounting devices, voltmeter, voltage indicator, and ammeter usage, and Direct Current (DC), and Alternating Current (AC), circuits.
Offered: Spring.

Emergency Medical Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

EMT 100 Basic Emergency Medical Technology

9 cr. hrs. 11 periods (8 lec., 3 lab)

Techniques of pre-hospital emergency medical care for the emergency medical technician. Includes symptoms of illnesses, injuries, medical emergencies, appropriate medical techniques and ambulance operations.

Information: Students must be 18 years of age when class begins. Students must have CPR certification at the Healthcare Provider or Professional Rescuer Level. Students must receive a minimum score of 80 on the College Reading Assessment test. Students must be able to lift 125lbs alone and 250lbs with a partner. Students must show proof of personal medical insurance. Students must meet with an advisor or EMT staff/faculty to complete a pre-enrollment worksheet prior to enrollment.

Offered: Fall, Spring, Summer.

EMT 110 First Responder

3 cr. hrs. 3 periods (3 lec.)

Techniques in pre-hospital emergency care appropriate to the First Responder Scope of Practice. Includes identifying signs and symptoms associated with illness and traumatic injuries. Also includes intervention used in managing patient and transfer of patient to higher level medical authority.

Offered: May not be offered this year, check class schedule.

EMT 140 Pre-Hospital Trauma Life Support

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Concepts and techniques for evaluating assessment findings to formulate a field impression and implementation of a field treatment plan for a trauma patient. Includes systemic approach to patient assessment and management, airway and ventilation management, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.

Offered: Contact department at 206-6569.

EMT 141 Pre-Hospital Trauma Life Support Refresher

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Concepts and scenario-based techniques for evaluating assessment findings to formulate a field impression and implementation of a field treatment plan for a trauma patient. Includes a systemic approach to patient assessment and management, airway and ventilation management, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.
Information: Includes teaching and evaluation stations as a review and update for those students who have taken PHTLS.

Offered: May not be offered this year, check class schedule.

EMT 158 Transition Training for EMT

1.5 cr. hrs. 2.5 periods (1 lec., 1.5 lab)

Review of current techniques in pre-hospital emergency care for the basic emergency medical technician. Includes signs and symptoms of illness, injuries, medical emergencies, appropriate medical techniques, and ambulance operations.

Information: EMT-B State of Arizona current certification is required before enrolling in this course. May be taken six times for a maximum of nine credit hours.

Offered: Contact department at 206-6569.

EMT 158A Transition Training for EMT - A

.75 cr. hrs. 1.25 periods (.5 lec., .75 lab)

Review of current techniques in pre-hospital emergency care for the basic emergency medical technician. Includes roles and responsibilities of the EMT, airway assessment and management techniques, evaluation of injuries and medical emergencies.

Information: EMT-B State of Arizona current certification is required before enrolling in this course. May be taken six times for a maximum of 4.5 credit hours.

Offered: May not be offered this year, check class schedule

EMT 158B Transition Training for EMT - B

.75 cr. hrs. 1.25 periods (.5 lec., .75 lab)

Review of current techniques in pre-hospital emergency care for the basic emergency medical technician. Includes intravenous therapy, blood glucose monitoring, principles of extrication, ambulance operations and triage.

Information: EMT-B State of Arizona current certification is required before enrolling in this course. May be taken six times for a maximum of 4.5 credit hours.

Offered: May not be offered this year, check class schedule.

EMT 159 Cardiopulmonary Resuscitation: Healthcare Provider

.5 cr. hrs. .75 periods (.25 lec., .5 lab)

Introduction to the techniques required to provide cardiopulmonary resuscitation at the Healthcare Provider Level. Includes introduction to body systems and disease states which lead to cardiac and respiratory arrest. Also includes the assessment and intervention for the airway, respiration and central circulation.

Information: Course meets American Heart Association guidelines for the Healthcare Provider level. May be taken six times for a maximum of three credit hours.

Offered: Contact department at 206-6569.

EMT 170 ALS Operations

1 cr. hrs. 1 periods (1 lec.)

Introduction to skills necessary to assess, extricate, and care for victims of crash incidents. Includes exposure to scene management skills to include size-up, disentanglement, victim stabilization for single and multi-victim situations, hazardous materials incidents, integration of local emergency medical services (EMS) for patient assessment and management, and standard operating procedures to selected victim scenarios.

Information: Acceptance into the ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 172 IV Access for EMT-Basic

1.25 cr. hrs. 1.5 periods (1 lec., .5 lab)

Provides a review of the anatomy of the circulatory system. Includes peripheral intravenous cannulation techniques, fluid resuscitation, obtaining venous blood samples for laboratory analysis, infection control techniques for the safety of self and victim, and complications of intravenous cannulation.

Information: EMT-B State of Arizona current certification is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EMT 180 EMT Review - Theory and Practice

6 cr. hrs. 8 periods (4 lec., 4 lab)

Comprehensive review of the knowledge and skills required by certified emergency services professionals. Includes basic preparation, airway, patient assessment, medical emergencies, trauma, special populations, and operations. Also includes a variety of enrichment activities.

Information: Should be taken in conjunction with EMT 100.

Offered: May not be offered this year, check class schedule.

EMT 180A EMT Review - Theory and Practice Module A

3 cr. hrs. 4 periods (2 lec., 2 lab)

certified emergency services professionals. Includes basic preparation, airway, patient assessment, and medical emergencies, trauma, special populations, and operations. Also includes a variety of enrichment activities.

Information: Should be taken in conjunction with EMT 100.

Offered: Spring, Summer.

EMT 180B EMT Review - Theory and Practice Module B

3 cr. hrs. 4 periods (2 lec., 2 lab)

This course provides a comprehensive review of the knowledge and skills required by certified emergency services professionals. Includes trauma, special populations, and operations. Also includes a variety of enrichment activities.

Information: Should be taken in conjunction with EMT 100.

Offered: Fall, Spring.

EMT 205 ALS Pharmacology and Medication Administration

3 cr. hrs. 3.25 periods (2.75 lec., .5 lab)

Elements of pharmacological agents and their administration. Includes basic pharmacological background and actions of drugs, regulations, human body

systems, and pharmacokinetics. Also includes medications for patient in an emergency setting, and pharmacological mathematics.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 214 ALS Advanced Special Considerations

2.5 cr. hrs. 3 periods (2 lec., 1 lab)

Advanced life support skills approach to emergency care of the emotionally disturbed. Includes emotional aspects, approach to the patient, and psychiatric emergencies. Also includes techniques of management and demonstration of skills within a simulated hospital environment.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 217 I-EMT National Registry Preparatory Course

2 cr. hrs. 3.5 periods (.5 lec., 3 lab)

Review and preparation in standards of intermediate emergency care at the state and national levels. Includes developing testing skills and questions related to assignment, analysis, intervention or evaluation. Also includes each component of the Intermediate Emergency Medical Technician National Standard Testing Guidelines.

Information: Acceptance into an I-EMT program is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EMT 218 Paramedic National Registry Preparation

3.5 cr. hrs. 6 periods (1 lec., 5 lab)

Review and preparation in standards of paramedic emergency care at the state and national levels. Includes developing testing skills and questions related to assessment, analysis, intervention or evaluation. Also includes each component of the Emergency Medical Technician Paramedic National Standard Curriculum.

Information: Acceptance into a paramedic program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 219 ALS Foundations

1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)

Introduction to the Advanced Life Support (ALS) career field. Includes roles and responsibilities, Emergency Medical Services (EMS) components, well being, illness and injury prevention, ethics, medical and legal considerations.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 221 ALS Airway and Ventilation

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Techniques for establishing and/or maintaining a patent airway. Also includes anatomy and physiology, age specific techniques and procedures, introduction to respiratory pharmacology and respiratory drug profiling.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 222 ALS Patient Assessment and Assessment Based Management

1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)

Skills to take a proper history and perform an advanced physical assessment on an emergency patient, and communicate the findings to the patient and others. Includes the physical exam, integrative and on going exams, communications and documentation. Also includes the implementation of a management plan for patients with common complaints and injuries, dispatch scenarios, scene size-up and forming impressions.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 223 ALS Trauma Emergencies and Systems

2 cr. hrs. 2.25 periods (1.75 lec., .5 lab)

Techniques to formulate a field impression and implement the treatment plan for the trauma or shock patient. Includes shock, burn injuries, and isolated and multi-systems trauma.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 224 ALS Medical Emergencies

4 cr. hrs. 5 periods (3 lec., 2 lab)

Introduction to the utilization of assessment findings to formulate a field impression and implement the treatment plan for the medical patient. Includes

respiratory, cardiovascular, neurological, endocrine, allergic, toxic, abdominal and urologic, environmental, behavioral and gynecological emergencies.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 225 ALS Special Medical Considerations

2 cr. hrs. 2.25 periods (1.75 lec., .5 lab)

Introduction to special medical consideration concepts. Includes utilizing assessment findings to formulate a field impression and implement the treatment plan for obstetric, neonatal, pediatric, geriatric, and chronic-care patients.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 227LC ALS Practicum: Clinical Lab

3 cr. hrs. 9 periods (9 lab)

Techniques for performing and documenting in accordance with established guidelines, orders, and protocols, and act within the scope of practice of the ALS Professional and under medical supervision. Includes critical care, emergency department, labor and delivery, pediatrics, and specialty units.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 228LC ALS Practicum: Vehicular Lab

3 cr. hrs. 9 periods (9 lab)

ALS vehicular lab concepts. Includes techniques for performing and documenting in accordance with established guidelines, orders, and protocols, and act within the scope of practice of the ALS Professional and under medical supervision during a vehicular lab.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 230 Basic ECG Interpretation

1.5 cr. hrs. 1.75 periods (1.25 lec., .5 lab)

Introduction to all levels of emergency care providers with basic electrocardiographic (ECG) rhythm analysis. Includes interpretation and related care in a clinical and pre-hospital setting.

Information: Required content for the identification and treatment of cardiac emergencies.

Offered: Contact department at 206-6569.

EMT 231 EMT-Intermediate Transition

4 cr. hrs. 5.5 periods (2.5 lec., 3 lab)

This course provides an Arizona certified I-EMT with additional training necessary to make the I-EMT's skills equivalent to the skills of an I-EMT who has completed the 2001 Arizona I-EMT curriculum. The 2001 Arizona I-EMT curriculum is based on the NHTSA/DOT's 1999 I-EMT curriculum.

Information: Current I-EMT State of Arizona certification is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

EMT 242 ALS Advanced Foundations

2 cr. hrs. 2.5 periods (1.5 lec., 1 lab)

Foundations of skills and principles in preparing to be a paramedic. Includes medical terminology, the human body structure, and pathophysiology.

Prerequisite(s): EMT 220.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 244 ALS Advanced Medical Emergencies

2.5 cr. hrs. 3 periods (2 lec., 1 lab)

Continuation of EMT 224. Advanced life support techniques using pre-hospital approaches to the recognition and intervention of medical emergencies related to toxicology, infectious disease, and hematology. Includes poisoning, drug overdose, and transmission of infectious diseases.

Prerequisite(s): EMT 224.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 247LC ALS Advanced Practicum: Clinical Lab

3 cr. hrs. 9 periods (9 lab)

Continuation of EMT 227LC. In-hospital clinical procedures for the ALS professional. Includes placement in the clinical (hospital) setting for supervised skills application with real patients.

Prerequisite(s): EMT 227LC.

Information: Acceptance into an ALS training program is required before en-

rolling in this course.

Offered: Contact department at 206-6569.

EMT 248LC ALS Advanced Practicum: Vehicular Lab

3 cr. hrs. 9 periods (9 lab)

Continuation of EMT 228LC. Pre-hospital emergency medical procedures for the ALS professional. Includes skills appropriate to the ALS scope of practice in the pre-hospital setting according to established protocols.

Prerequisite(s): EMT 228LC.

Information: Acceptance into an ALS training program is required before enrolling in this course.

Offered: Contact department at 206-6569.

EMT 250 Advanced Cardiac Care

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Introduction to the integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, cardiovascular pathologies and management, and adjunctive diagnostics.

Offered: Contact department at 206-6569.

EMT 251 Advanced Cardiac Care Refresher

.75 cr. hrs. 1 periods (.5 lec., .5 lab)

Review of the integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, cardiovascular pathologies and management, and adjunctive diagnostics.

Offered: May not be offered this year, check class schedule.

EMT 252 Pediatric Advanced Life Support

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Techniques for emergency services for children. Integrates physiological, psychological, and social changes throughout human growth and development. Includes information on pediatric assessment, airway management and respiratory emergencies, cardiovascular emergencies. Also includes information on neonatal emergencies, children with special healthcare needs, and Sudden Infant Death Syndrome (SIDS).

Offered: Contact department at 206-6569.

EMT 253 Pediatric Advanced Life Support Refresher

.75 cr. hrs. 1 periods (.5 lec., .5 lab)

Overview of techniques for emergency services for children. Integrated physiological, psychological, and social changes throughout human growth and development. Includes information on pediatric assessment, airway management and respiratory emergencies, cardiovascular emergencies. Also includes information on neonatal emergencies, children with special healthcare needs, and Sudden Infant Death Syndrome (SIDS).

Offered: May not be offered this year, check class schedule.

EMT 254 Advanced ECG Interpretation

3 cr. hrs. 3.5 periods (2.5 lec., 1 lab)

Integration of pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan for the patient with cardiovascular disease/injury based on 3-lead and 12-lead cardiac monitoring and interpretation. Also includes information on cardiovascular anatomy and physiology, electrocardiographic monitoring, and adjunctive diagnostics.

Prerequisite(s): EMT 230.

Offered: Contact department at 206-6569.

EMT 255 Instructional Strategies

2 cr. hrs. 2.5 periods (1.5 lec., 1 lab)

Introduction for organization and preparation of curriculum materials for presentation. Includes instructor roles and responsibilities, legal issues, the adult learner, creating an effective learning environment, and instructional strategies and methods.

Offered: May not be offered this year, check class schedule.

EMT 256 Basic Trauma Life Support

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Techniques for evaluating assessment findings to formulate a field impression and implementation of the treatment plan. Includes systemic approach to patient assessment and management, airway and ventilation, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.

Offered: May not be offered this year, check class schedule.

EMT 257 Basic Trauma Life Support Refresher

.75 cr. hrs. 1 periods (.5 lec., .5 lab)

Overview of techniques for evaluating assessment findings to formulate a field impression and implementation of the treatment plan. Includes systemic approach to patient assessment and management, airway and ventilation, shock, soft tissue and burn injuries, isolated and multi-systems trauma, and various types of trauma patients.

Offered: May not be offered this year, check class schedule.

EMT 258 Pediatric Education for Pre-Hospital Professionals

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Foundations of skills and principles in dealing with pediatric patients in a pre-hospital setting. Includes information on the integration of the physiological, psychological, and social changes throughout human growth and development with assessment and communication strategies for patients of all ages.

Offered: Contact department at 206-6569.

EMT 259 Pediatric Education for Pre-hospital Professionals Refresher

.75 cr. hrs. 1 periods (.5 lec., .5 lab)

Overview of the foundations of skills and principles in dealing with pediatric patients in a pre-hospital setting. Includes information on the integration of the physiological, psychological, and social changes throughout human growth and development with assessment and communication strategies for patients of all ages.

Offered: May not be offered this year, check class schedule.

EMT 260 Advanced Life Support Refresher

3 cr. hrs. 3.5 periods (2.5 lec., 1 lab)

Introduction of skills to enhance knowledge regarding roles and responsibilities of an emergency medical technician and utilize the assessment findings to formulate a field impression and implement the treatment plan for airway, ventilation, and oxygen therapy, trauma and shock management, medical emergencies, special patient care, and special scene operations.

Offered: May not be offered this year, check class schedule.

EMT 261 National Registry of Emergency Medical Technician Evaluator

1.5 cr. hrs. 2 periods (1 lec., 1 lab)

Techniques used to prepare for and implement the evaluation criteria for all basic and advanced level pre-hospital emergency medical technology skills involving candidates testing for National Registry of Emergency Medical Technician (EMT) Certification. Also includes information on ethics and professionalism, evaluator and participant criteria, roles and responsibilities, candidate stress and station preparation and implementation.

Offered: Contact department at 206-6569.

EMT 263 Tox-Medic

1.5 cr. hrs. 1.5 periods (1.5 lec.)

Provides paramedics with the training required which authorizes them to perform a medical treatment or administer a drug when responding to a hazardous materials incident.

Offered: Contact department at 206-6569.

EMT 264 Tox-Medic Refresher

.5 cr. hrs. .5 periods (.5 lec.)

Provides paramedics with continuing training in identification, assessment, and treatment of victims exposed to hazardous materials.

Prerequisite(s): EMT 263.

Offered: May not be offered this year, check class schedule.

EMT 295 ALS Independent Research

3 cr. hrs. 3 periods (3 lec.)

Independent research in advanced pre-hospital care.

Information: To be arranged by instructor.

Offered: Contact department at 206-6569.

Engineering

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ENG 102IN Problem-Solving and Engineering Design

3 cr. hrs. 5 periods (2 lec., 3 lab)

Design, effective team participation, and career preparation in engineering. Includes the different engineering fields and careers, basic skills associated with engineering problem solving and communication, the design process, participation in hands-on design projects, and ethics and professional responsibility.

Prerequisite(s): MAT 151 and 182 or 187.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

ENG 110IN Solid State Chemistry

4 cr. hrs. 6 periods (3 lec., 3 lab)

Fundamental principles of the chemistry of condensed states of matter including metals, polymers, molecular solids and ceramics.

Prerequisite(s): CHM 151 and MAT 220 or concurrent enrollment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 120IN Engineering Graphics

3 cr. hrs. 7 periods (1 lec., 6 lab)

Principles and techniques of engineering graphics. Includes orthographic drawing methods, pictorial drawings, descriptive geometry, and computer aided design.

Prerequisite(s): MAT 108.

Information: Prerequisite may be waived with high school geometry. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 130IN Elementary Surveying

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the subject of surveying as it pertains to the field of civil engineering. Includes measurement of distances, leveling, profiling and grade calculations, measurement of angles, remote elevations, and traverse closure. Also includes topographic surveys, public land surveying, and land ownership.

Prerequisite(s): MAT 151 and 182 or 187.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 170IN Problem-Solving Using Computers

3 cr. hrs. 5 periods (2 lec., 3 lab)

Design of problem-solving algorithms. Includes structure of C programs, data types, operations, and basics of C, selection, repetition, arrays, functions, data files, addresses and pointers, character strings, and engineering applications.

Prerequisite(s): MAT 151 and 182 or 187.

Information: IN is the integrated version of the course with lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 175IN Computer Programming for Engineering Applications

3 cr. hrs. 5 periods (2 lec., 3 lab)

Programming in C with emphasis on numerical applications in engineering. Includes structure of C programs, data types, operations, and basics of C, selection, repetition, arrays, functions, and data files.

Prerequisite(s): MAT 151 and 182 or 187.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 210 Engineering Mechanics: Statics

3 cr. hrs. 3 periods (3 lec.)

Engineering analysis of static mechanical systems. Includes vector algebra, equilibrium of particles and rigid bodies, forces, moments, couples, equivalent force systems, analysis of simple structures (trusses, beams, frames, cables, machines), friction, first and second moments of area (moment of inertia).

Prerequisite(s): PHY 210, MAT 231.

Offered: Fall, Spring.

ENG 218 Fluid Mechanics

3 cr. hrs. 3 periods (3 lec.)

Introduction and fundamental concepts of fluid dynamics and fluid statics. Includes basic equations for a control volume, fluids in motion, inviscid flow, dimensional analysis, flow in pipes and ducts, and boundary layers.

Prerequisite(s): ENG 210, and MAT 241.

Offered: Spring.

ENG 220 Engineering Mechanics: Dynamics

3 cr. hrs. 3 periods (3 lec.)

Study of the motion of bodies under the action of forces. Includes introduction to dynamics, kinematics of particles and rigid body, kinetics of particles and rigid body, and vibration.

Prerequisite(s): ENG 210, MAT 241.

Offered: Fall, Spring.

ENG 230 Mechanics of Materials

3 cr. hrs. 3 periods (3 lec.)

Introduction to the analysis and design of the mechanical properties of ma-

terials. Includes the concept of stress and strain, axially loaded members, torsion, stresses and strains in beams, analysis of stress and strain, deflections of beams, and columns.

Prerequisite(s): ENG 210.

Offered: Fall, Spring.

ENG 232 Thermodynamics

3 cr. hrs. 3 periods (3 lec.)

Basic laws and examples of engineering applications of macroscopic thermodynamics. Includes an introduction to concepts and definitions, energy and the first law of thermodynamics, evaluating properties, control volume energy analysis, the second law of thermodynamics, using entropy, vapor power systems, gas power systems, and refrigeration and heat pump systems.

Prerequisites: MAT 241, PHY 216

Offered: Spring.

ENG 250 Numerical Analysis for Engineers

3 cr. hrs. 3 periods (3 lec.)

Applications of numerical methods and computer programming techniques for the creation of mathematical models of engineering systems. Includes roots of equations, linear simultaneous equations, numerical integration, ordinary differential equations, interpolation and curve fitting.

Prerequisite(s): ENG 170 or 275, and MAT 231.

Offered: Fall, Spring.

ENG 260 Electrical Engineering

3 cr. hrs. 3 periods (3 lec.)

Introductory survey of the electrical engineering discipline with emphasis on electrical power applications. Includes electrical quantities, components, meters, capacitors, inductors, and transients. Also includes DC resistive network analysis, magnetic circuits, transformers, motors, and generators.

Prerequisite(s): MAT 231 and PHY 216.

Offered: Fall, Spring.

ENG 274IN Digital Logic

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the theory and design of digital logic circuits. Includes number systems, coding of information, Boolean algebra, combinational logic circuit design, sequential circuit design, and register transfer system design.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

ENG 282IN Basic Electric Circuits

5 cr. hrs. 7 periods (4 lec., 3 lab)

Circuit variables, circuit elements, and simple resistive circuits. Includes techniques of circuit analysis, operational amplifiers, inductors and capacitors, mutual inductance, response of RLC circuits, sinusoidal steady-state analysis, and transformers.

Prerequisite(s): ENG 102.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

English as a Second Language

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ESL 050 English for Beginners

6 cr. hrs. 6 periods (6 lec.)

Introduction to the basics of English as a second language through an integrated skills approach: reading, writing, listening, and speaking. Includes letters of the alphabet, basic pronunciation rules, day-to-day communication, foundational grammar, writing conventions, and study skills.

Recommendation: For students with no previous knowledge of English.

Offered: Fall, Spring, Summer.

ESL 060 English for Speakers of Other Languages I

6 cr. hrs. 6 periods (6 lec.)

Basic-level, integrated-skills course for non-native speakers of English with some, but limited, English ability. Includes practice in listening, speaking, pronunciation, vocabulary building, grammar, reading, writing, and learning strategies. Emphasizes the development of English proficiency and exposure to American culture through meaningful communication.

Prerequisite(s): ESL 050 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring, Summer.

ESL 061 Conversation I

3 cr. hrs. 3 periods (3 lec.)

Basic conversation skills for situations and tasks relevant to daily life, social interactions, and personal interests, functions of spoken English. Also includes levels of formality and nonverbal language.

Prerequisite(s): ESL 050 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 063 English on the Job I

3 cr. hrs. 3 periods (3 lec.)

Basic job-related English for non-native speakers of English with some, but limited English ability. Includes language skills needed for entry-level job search, starting a new job, following safety rules, and understanding American culture in the workplace.

Prerequisite(s): ESL 050 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall.

ESL 064 Introduction to American Culture

3 cr. hrs. 3 periods (3 lec.)

Basic-level integrated skills course on American culture for ESL students. Includes development of basic English through exploration of topics on American culture and the nature of cultural adjustment.

Prerequisite(s): Required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall.

ESL 070 English for Speakers of Other Languages II

6 cr. hrs. 6 periods (6 lec.)

Intermediate-level, integrated skills for non-native speakers of English with an emphasis on improving English proficiency and understanding of American culture. Includes continued practice in listening, speaking, pronunciation, vocabulary building, grammar, reading, writing, and learning strategies. Also includes using computer technology for word processing and using college and community resources.

Prerequisite(s): ESL 060 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring, Summer.

ESL 071 Conversation II

3 cr. hrs. 3 periods (3 lec.)

Intermediate-level conversation class. Includes instruction in idiomatic expressions and vocabulary building, nonverbal communication, and language functions. Emphasis on speaking about topics relevant to life in the U.S. and American culture.

Prerequisite(s): ESL 060 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 072 Pronunciation II

3 cr. hrs. 3 periods (3 lec.)

Pronunciation for non-native English speakers at the intermediate level. Includes introduction to pronunciation improvement, articulation of segmentals, and suprasegmentals. Emphasis on achieving increased overall intelligibility through improved production of English intonation, stress, rhythm, vowels, and consonants.

Prerequisite(s): ESL 060 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 073 English on the Job II

3 cr. hrs. 3 periods (3 lec.)

General workplace communication skills for intermediate ESL students. Includes job search skills, communication with supervisors and co-workers, discussion of intercultural issues, employee rights and responsibilities, and problem-solving strategies. Develops English language skills through integrated practice of both spoken and written English.

Prerequisite(s): ESL 060 or 063 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 074 American English and Culture Through Film

3 cr. hrs. 3 periods (3 lec.)

Intermediate-level study of American English and culture through film. Includes exploration of American cultural values and icons. Also includes an emphasis on the development of listening comprehension skills, speaking, and writing.

Prerequisite(s): ESL 070 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Spring.

ESL 075 Computer Technology to Develop English Skills

3 cr. hrs. 3 periods (3 lec.)

Instruction and practice using computer technology to enhance English skill development. Includes computer operation and applications, oral and written English communication skills, and application of technological skills to enhance personal English development. Also includes utilizing ESL software, ESL websites and the World Wide Web.

Prerequisite(s): ESL 060 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 080 English for Speakers of Other Languages III

6 cr. hrs. 6 periods (6 lec.)

Upper-intermediate-level, integrated-skills course for students with emphasis on improving English proficiency and understanding of American culture. Includes continued practice in listening, speaking, pronunciation, vocabulary building, grammar, reading, writing, and learning strategies. Also includes orientation to college resources.

Prerequisite(s): ESL 070 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring, Summer.

ESL 081 Conversation III

3 cr. hrs. 3 periods (3 lec.)

Advanced-level conversational skills for increased fluency and comprehension. Includes conversational conventions, vocabulary, critical thinking skills, language functions, and non-verbal communication.

Prerequisite(s): ESL 070 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 082 Pronunciation III

3 cr. hrs. 3 periods (3 lec.)

Pronunciation for non-native English speakers at the advanced level. Includes review of articulation of consonants and vowels, strategies for continued pronunciation improvement, stress patterns, intonation and voice quality, phrasing and linking, and articulation of segmentals. Emphasis is on achieving increased overall intelligibility through improved production of English stress, rhythm, intonation, phrasing, and voice quality features in communicative contexts.

Prerequisite(s): ESL 070 or higher with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 083 Idioms in American English

3 cr. hrs. 3 periods (3 lec.)

Study of idioms commonly used in American English at the high-intermediate to advanced levels. Includes comprehension and appropriate use of idioms in oral and written contexts. Also includes identification of cultural values and connotations associated with idioms and the development of increased fluency in spoken English.

Prerequisite(s): ESL 070.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

ESL 084 Exploring American Film

3 cr. hrs. 3 periods (3 lec.)

Advanced English language skills development through exploration of topics on American film. Includes analysis and discussion of genres and artistic elements of popular American films. Also includes and emphasis on development of listening comprehension skills, speaking, writing, and critical thinking skills.

Prerequisite(s): ESL 080 or higher with a C or better or concurrent enrollment or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Spring.

ESL 085 Academic English I

6 cr. hrs. 6 periods (6 lec.)

High-intermediate-level, integrated academic skills for non-native speakers of English. Includes four content-based unit including texts and discourse on academic topics, high- intermediate grammatical structures, writing about topics relevant to academic course work, word processing, using the internet, and goal setting.

Prerequisite(s): ESL 080 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring, Summer.

ESL 087 Comprehensive TOEFL Preparation

3 cr. hrs. 3 periods (3 lec.)

Comprehensive Test of English as a Foreign Language (TOEFL) test preparation for ESL/EFL students. Includes introduction to the TOEFL and the test-taking strategies, skill review with intensive practice for all four test components: grammar, listening and speaking, Test of Written English (TWE), reading, and vocabulary, and the TOEFL guidelines and procedures.

Prerequisite(s): ESL 085 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring, Summer.

ESL 087A Grammar and TOEFL Preparation

1 cr. hrs. 1 periods (1 lec.)

Comprehensive Test of English as a Foreign Language (TOEFL) test preparation for ESL/EFL students. Includes introduction to the TOEFL and the test-taking strategies, skill review of grammar and Test of Written English (TWE), and the TOEFL guidelines and procedures.

Prerequisite(s): ESL 085 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

ESL 087B Listening Skills and TOEFL Preparation

1 cr. hrs. 1 periods (1 lec.)

Comprehensive Test of English as a Foreign Language (TOEFL) test preparation for ESL/EFL students. Includes introduction to the TOEFL and the test-taking strategies, skill review of listening and speaking, and the TOEFL guidelines and procedures.

Prerequisite(s): ESL 085 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

ESL 087C Reading Review and TOEFL Preparation

1 cr. hrs. 1 periods (1 lec.)

Comprehensive Test of English as a Foreign Language (TOEFL) test preparation for ESL/EFL students. Includes introduction to the TOEFL and the test-taking strategies, skill review of reading and vocabulary, and the TOEFL guidelines and procedures.

Prerequisite(s): ESL 085 with a C or better or required score on ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: May not be offered this year, check class schedule.

ESL 088 Academic English II

6 cr. hrs. 6 periods (6 lec.)

Advanced-level, integrated academic skills for non-native speakers of English. Includes four content-based units including text and discourse on academic topics, advanced grammatical structures, reading academic texts, writing about academic topics, using word processing and the internet, and goal setting.

Prerequisite(s): ESL 085 with a C or better or required score on the ESL assessment test.

Information: Prerequisites may be waived with consent of instructor. See an ESL instructor for details.

Offered: Fall, Spring.

ESL 103 Total English Experience for International Students

1-12 cr. hrs. 1-12 periods (1-12 lec.)

Concepts, techniques, and skills to immerse international students in a total English experience. Intensive approach to the English experience for academic, professional or personal purposes. Includes integrated skills, experiential learning and flexible content to develop communicative competence in reading, writing, listening, speaking and cultural areas. Also includes a specific theme, professional or academic, that will form the basis for contextualized vocabulary and course emphasis.

Prerequisite(s): Required minimum score of 300 on the TOEFL.

Offered: Spring.

Environmental Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ENV 105 Humanity and the Environment

3 cr. hrs. 3 periods (3 lec.)

Technical, sociocultural, and political information on environmental science and technology for non-ENV majors. Includes ecosystems, population impacts, hydrological systems, air pollution, and environmental toxins. Also includes current topics such as the green house effect, acid rain, drinking water contamination, toxic waste spills, governmental regulation and enforcement, and future environmental trends.

Corequisite(s): ENV 105LB

Information: Same as ANT 105.

Offered: May not be offered this year, check class schedule.

ENV 105LB Humanity and the Environment Discovery Laboratory

1 cr. hrs. 3 periods (3 lab)

Laboratory exercise and field trip experiences as applied to the relationship between humanity and the environment. Includes examining ecology and biodiversity, healthy-carrying capacity models, and waste by-products and their sources. Also includes designing pollution prevention and sustainable campus/town models, developing increased environmental ethics in our society, and anthropological relationships to the environment.

Corequisite(s): ENV 105

Information: This laboratory course satisfies the fourth credit hour of the Biological and Physical Science general education transfer credit if taken along with ENV 105. Same as ANT 105LB.

Offered: May not be offered this year, check class schedule.

ENV 196 Independent Study in Environmental Technology

1-3 cr. hrs. .75-8.25 periods (.25-2.75 lec., .5-5.5 lab)

Independent study in Environmental Technology. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ENV 251 OSHA 40: Hazardous Materials - Health and Safety

2.5 cr. hrs. 3 periods (2 lec., 1 lab)

Protection of personnel in contact with hazardous materials. Includes basic toxicology, personal protection and safety, hazard identification systems, recognition and identification of hazardous materials, hazard classes and their properties, site emergencies, spill control and clean up. Meets OSHA requirements for business, industry, and government hazardous materials handlers.

Recommendation: Completion of ENV 100 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ENV 296 Advanced Independent Study in Environmental Technology

1-3 cr. hrs. .75-8.25 periods (.25-2.75 lec., .5-5.5 lab)

Independent study in Environmental Technology. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ENV 299 Introduction to Co-op: Environmental Technology

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience.

Corequisite(s): ENV 299WK

Information: Emphasis on attitude adjustment. May be taken two times for a

maximum of two credit hours. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

ENV 299WK Co-op Work: Environmental Technology

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): ENV 299

Information: May be taken two times for a maximum of sixteen credit hours.

Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Equine Science

EQS 101 Equine Anatomy and Physiology

3 cr. hrs. 5 periods (2 lec., 3 lab)

Basic instruction in the structure and function of the horse. Includes an introduction to the scientific method as it relates to the horse, anatomy and physiology of the equine species, and basics of conformation analysis.

Information: Prepares student for further science and equitation studies in equine science.

Offered: Fall.

EQS 102 Equine Judging

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the proper selection and judging of horse conformation and performance. Includes concepts of anatomy, condition, and way of going. Standards of equine judging will be emphasized.

Information: May be taken four times for a maximum of twelve credit hours.

Offered: Spring.

EQS 200 Equine Animal Science I

3 cr. hrs. 3 periods (3 lec.)

Basic instruction in equine animal science. Includes equine conformation disorders, basic equine nutrition and disorders of nutrition, parasitology, infectious diseases, and injury induced lameness.

Offered: Fall, Spring.

EQS 201 Equine Animal Science II

3 cr. hrs. 3 periods (3 lec.)

Advanced topics in equine animal science. Includes the anatomy and physiology of the equine nervous, endocrine and reproductive system, reproductive physiology of the mare and the stallion, breeding management practices, foaling and the neonatal period, foal management, advanced techniques in equine reproduction, business management for the mare owner and the stallion service manager.

Prerequisite(s): EQS 200.

Offered: May not be offered this year, check class schedule.

EQS 203 Horse Care and Management

4 cr. hrs. 6 periods (3 lec., 3 lab)

The care and management of the horse as a domestic companion animal. Includes basic veterinary requirements, feeds and feeding, stabling, and preventive health care.

Offered: Spring.

Experiential Education

EED 110 Prior Learning Assessment

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Explore credit options through the development of an individual's portfolio. Includes how to collect and present materials which identify, describe, and validate professional training and experiential learning which can be evaluated for college-level credit equivalency. Students in this course must be willing to spend considerable time in the preparation of the portfolio which can be submitted to a portfolio evaluator.

Information: A maximum of nine credits may be earned for the EMT-Basic program; students must register for two credits. A maximum of 36 credits may be earned for the Fire Science, Law Enforcement, Corrections, Juvenile Corrections, Public Safety Communications and Intermediate EMT programs; students must register for three credits. A maximum of 50 credits may be earned for the EMT Paramedic program; students must register for six credits. A maximum of 9 credits may be earned by students who have earned credit previously in this course; students must register for one credit.

Offered: May not be offered this year, check class schedule.

Exploratory

EXP 100 Survey of Legal Related Careers

4 cr. hrs. 4 periods (4 lec.)

Introduction to legal related careers. Includes legal assistant (paralegal), administrative support, court support services, and administration of justice.

Offered: May not be offered this year, check class schedule.

Fashion Design & Clothing

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FDC 111 Clothing Construction I: Beginning

3 cr. hrs. 5 periods (2 lec., 3 lab)

Fundamental principles of clothing construction. Includes selection of fabric and style and all techniques required for construction of clothing for men, women and/or children using commercial patterns.

Information: Proficiency test may be taken for level placement.

Offered: Fall, Spring.

FDC 112 Alteration and Pattern Fitting

3 cr. hrs. 5 periods (2 lec., 3 lab)

Methods of altering commercial patterns and principles of fitting garments. Includes fitting a basic commercial pattern, making a muslin, creating fit, and evaluation of standards.

Offered: Spring.

FDC 121 Flat Pattern Making

3 cr. hrs. 3 periods (3 lec.)

Introduction to the flat pattern method of pattern making. Includes principles of pattern manipulation, practical applications, and evaluating the applications to a selected design project.

Offered: Fall.

FDC 122 History of Clothing

3 cr. hrs. 3 periods (3 lec.)

Introduction to clothing and personal decoration as a reflection of the wearer's culture, time and place. Includes definition of essential characteristics in the western world, evolution of clothing, geographical and chronological grouping, and areas of analysis of the clothing notebook.

Offered: Spring.

FDC 123 Introduction to Pattern-Making Using Computer Software

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to pattern-making for apparel production using computer software. Includes computer pattern making, making a basic tee shirt, constructing a basic sleeve, grading a completed pattern, and making a pattern-cutting layout.

Offered: Spring.

FDC 126 Textiles

3 cr. hrs. 5 periods (2 lec., 3 lab)

Technology and science, art and design, and global industry of textiles. Includes emphasis on performance of textile products in apparel, furnishings, industry, geotextiles, transportation and space exploration. Also includes the components of textile products: fibers, yarns, fabric construction, coloration and finishes, current and developing technology, and environmental effects.

Offered: Spring.

FDC 131 Clothing Selection

3 cr. hrs. 3 periods (3 lec.)

Introduction to the function of wardrobe in contemporary life. Includes the clothing and wearer, current theories on wardrobe, art applied to wardrobe and the individual, and the core working wardrobe.

Offered: Fall.

FDC 132 Society, Culture, and Dress and the Individual

3 cr. hrs. 3 periods (3 lec.)

Human behavior in relationship to clothing, body image, and self-concept. Includes behavior and dress, clothing as messenger, the ritual of dress, clothing for masses, and life stages and clothing and image needs.

Offered: May not be offered this year, check class schedule.

FDC 141 Introduction to Fashion Design

3 cr. hrs. 3 periods (3 lec.)

Survey of the business of apparel manufacturing and fashion design. Includes history of the industry, careers in fashion, designing the garment, influences on design, and organization of a clothing line.

Offered: Fall, Spring.

FDC 142 Restyling and Alterations

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to techniques for recycling and increasing the life and function of garments. Includes measurement, making, and fitting, techniques for stitching in alteration and fitting, restyling, repair, and conservation of fabric and garments.

Offered: Fall.

FDC 144 Fashion Drawing

3 cr. hrs. 5 periods (2 lec., 3 lab)

Technical drawing of a garment on the fashion figure. Includes working on original designs and presenting them in a portfolio. Also includes fabrics and how to render them as well as a basic knowledge of garment construction.

Recommendation: Completion of ART 110 or 213 before enrolling in this course.

Offered: Fall, Spring.

FDC 196 Independent Studies in Fashion Design and Clothing

1-3 cr. hrs. 1.25-6 periods (1-3 lec., .25-3 lab)

Independent projects for continuing individual development in fashion design and clothing under the guidance of a faculty member. Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

FDC 211 Clothing Construction II: Advanced

3 cr. hrs. 5 periods (2 lec., 3 lab)

Advanced techniques in construction of clothing. Includes principles applied to special fabrics, fabric selection for specialty garments, and evaluation.

Prerequisite(s): FDC 111 or required score on assessment test.

Offered: Fall, Spring.

FDC 212 Clothing Construction III: Tailoring

3 cr. hrs. 5 periods (2 lec., 3 lab)

Traditional and speed-tailoring methods utilizing advanced techniques and materials. Includes pattern alterations, buttonholes, welt pockets, shaping the interfacing, inner structure, and complete garment evaluation.

Prerequisite(s): FDC 112, 211.

Information: Prerequisite(s) may be waived with consent of instructor.

Offered: Fall.

FDC 241 Introduction to the Draping Method of Garment Design

3 cr. hrs. 5 periods (2 lec., 3 lab)

Application of design principles using the draping method of fashion design to create an original garment. Includes review of essential design principles, fabrics, applying fabrics to the dress form, and practical applications.

Prerequisite(s): FDC 111, 141, and 211.

Offered: Spring.

Finance

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FIN 100 Basic Principles of Organizational Finance

1 cr. hrs. 1 periods (1 lec.)

Introduction to the fundamental principles of finance in profit-making, governmental, and not-for-profit organizations. Includes financial statements, common ratios, budgeting systems, cash forecasting, time value of money, investment decision, and break-even analysis.

Offered: Fall, Spring.

FIN 111 Personal Investment Portfolios

3 cr. hrs. 3 periods (3 lec.)

Examination of various investment vehicles and portfolios. Includes role and scope of investments, economic analysis, equity securities, bond and fixed-income investments, mutual funds, annuities, other investment options, and portfolio management.

Offered: May not be offered this year, check class schedule.

FIN 120 Financial Strategies: Rich Dad Poor Dad

3 cr. hrs. 3 periods (3 lec.)

Principles, processes and tools that represent a new paradigm for financial literacy based on the book Rich Dad Poor Dad *. Includes wealth vocabulary, need for financial literacy, rich don't work for money, teaching financial literacy, cashflow quadrant, power of corporations, rich invent money, work to learn—don't work for money.

FIN 131 Principles of Credit Unions

3 cr. hrs. 3 periods (3 lec.)

Introduction to credit union organizations. Includes concept and operating prin-

ciples, historical development, structure, legal basis and regulation, membership demographics and services, leadership, credit union system in the United States, insurance and bonding by Credit Union National Association (CUNA), and current challenges.

Offered: May not be offered this year, check class schedule.

FIN 136 Personal and Family Finance for Retirement

1 cr. hrs. 1 periods (1 lec.)

Overview of investments and family financial management for retirement. Includes strategies to preserve and accumulate wealth, protection of assets against the death of a family member, real estate, and strategies to minimize tax effects on bequests.

Offered: May not be offered this year, check class schedule.

FIN 190 Internship in Finance

1-3 cr. hrs. 5-15 periods (5-15 lab)

Supervised internship in a financial workplace. Includes experiences supervised by a professional in the field.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

FIN 217 Analyzing Financial Data

1 cr. hrs. 1 periods (1 lec.)

Overview of financial data analysis. Includes income statement analysis and interpretation, retained earnings statement, balance sheets, statement of changes in financial position, sources of data, key financial ratios, and analysis procedures.

Prerequisite(s): ACC 101.

Offered: Fall, Spring.

FIN 231 Credit Union Operations

3 cr. hrs. 3 periods (3 lec.)

Principles of credit union organization, department functions, and compliance to consumer regulations. Includes member services, credit granting, collections, marketing, financial counseling, and credit union laws and regulations.

Offered: May not be offered this year, check class schedule.

FIN 239 Credit Union Financial Management

3 cr. hrs. 3 periods (3 lec.)

Credit union accounting and financial management. Includes basic accounting principles, accounting cycle, subsidiary and control general ledgers, financial statements, accruing and calculating member dividends, reserve accounts, internal controls, financial statement analysis, preparing and managing financial budgets, cash flow budgeting, interest earning assets (loans and investments), cost of funds, risk management, financial trends, and audits.

Recommendation: Completion of ACC 101 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Fire Science

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FSC 102 Communicating in Spanish for the Workplace

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Basic Spanish for easier communications with the Spanish speaking public. Includes conversational Spanish, work-related Spanish words, phrases, and idioms, and a survey of the cultures where the Spanish language is spoken.

Offered: May not be offered this year, check class schedule.

FSC 104 Fire Science Careers

1-2 cr. hrs. 1-2 periods (1-2 lec.)

Introduction to careers in fire science. Includes the role of the fire fighter, careers in fire fighting, extrication, and fire chemistry. Also includes Air Pak, protective clothing, and the integration of fire sciences with Emergency Medical Services and law enforcement careers.

Offered: May not be offered this year, check class schedule.

FSC 130 Strength and Fitness for the Fire Service

2.5-3 cr. hrs. 2.5-3 periods (2.5-3 lec.)

Overview of fitness as it pertains to prospective firefighters. Includes endurance training, flexibility training, strength conditioning and use of equipment in Fire Incident Readiness Evaluation.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

FSC 149 Fire Operations I

4 cr. hrs. 5 periods (3 lec., 2 lab)

Specialized classroom and practical experience in the techniques of fire-fighting. Includes the chemistry of fire, use of water and other agents, fire-fighting equipment and its uses, firefighting practices and safety.

Information: Completion of FSC 149 and 150 will help prepare the student for successful completion of State of Arizona Firefighter I practical evaluation.
Offered: Fall, Spring.

FSC 150 Fire Operations II

4 cr. hrs. 5 periods (3 lec., 2 lab)

Specialized classroom and practical experience in the practices and techniques of fire fighting. Includes principles of community fire defense, methods of entry, rescue, tools, apparatus, equipment, salvage, hydraulics, and fire extinguishment.

Information: FSC 149 is required before enrolling in this course.

Offered: Fall, Spring.

FSC 151 Introduction to Fire Science

3 cr. hrs. 3 periods (3 lec.)

Historical and scientific background on the fire protection field. Includes the development and future of the field in America; governmental, industrial and private fire protection organizations and agencies; and employment and promotional opportunities.

Offered: Fall, Spring.

FSC 152 Fundamentals of Fire Prevention

3 cr. hrs. 3 periods (3 lec.)

Introduction to the principles of fire prevention. Includes authority, responsibility and organization of fire prevention, inspection procedures and reports, fire hazard recognition, building construction, and occupancy classifications. Also includes site access and means of egress, water-based fire protection and water supply systems, portable extinguishers, special agent, extinguishing systems, and fire detection and alarm systems, plans review, hazardous materials and flammable and combustible liquids, and storage, handling, and use of other hazardous materials.

Offered: Spring.

FSC 153 Hazardous Materials

1-2 cr. hrs. 1-2 periods (1-2 lec.)

Basic chemical concepts and their applications to the field of fire science. Includes classes and properties of hazardous materials; recognition and identification of materials; management of materials in transit, in use, and in storage; and management of hazardous materials incidents.

Information: Equivalent to State of Arizona's First Responder, 40-hour course.

Offered: Fall, Spring.

FSC 154 Advanced Fire Prevention

3 cr. hrs. 3 periods (3 lec.)

Introduction to high risk and industrial fire prevention. Includes code interpretation and application, research, implementing policy, testifying in legal proceedings, and creating forms and job aids. Also includes conducting field inspections and plans review, and building and fire code applications to simulated situations.

Prerequisite(s): FSC 152.

Information: Completion of this course will allow the student to test for Arizona State Certification as Inspector II.

Offered: Contact department at 206-6569.

FSC 160 Wildland Firefighting

3 cr. hrs. 3 periods (3 lec.)

Basic wildland firefighting. Includes locating and reporting the fire, incident operations and management, suppression equipment, fire behavior, size-up, methods of suppression, and safety.

Information: This course meets State Fire Marshal and Arizona Department of Forestry Guidelines for Wildland Firefighting Training.

Offered: Fall, Spring.

FSC 162 Hydraulics and Fire Suppression

3 cr. hrs. 3 periods (3 lec.)

Principles of hydraulics as applied to fire suppression. Includes physical laws affecting the movement of water through pipes, hydrants, pumps, hoses, etc.; functions and limitations of mechanical equipment to overcome these restrictions; effect of friction loss; head and pressure; water system; fire flow requirements; and organization for fire suppression.

Prerequisite(s): MAT 092.

Recommendation: Completion of PHY 101 before enrolling in this course.

Offered: Spring.

FSC 163 Fire Apparatus and Equipment

3 cr. hrs. 3 periods (3 lec.)

Overview, concepts, and techniques to use fire equipment. Includes automotive apparatus (pumpers, aerial ladders, lift platforms, hose wagons, transports and utility vehicles), water towers, heavy auxiliary mechanical equipment and appliances, generators, compressors, rescue and forcible entry tools and cutting torches.

Prerequisite(s): FSC 149.

Offered: Spring.

FSC 164 Fire Protection Systems

3 cr. hrs. 3 periods (3 lec.)

Principles of fire protection systems. Includes portable and fixed fire extinguishing equipment, automatic sprinkler and deluge systems, rate of temperature rise and smoke detecting devices and alarm systems.

Prerequisite(s): FSC 162.

Offered: Contact department at 206-6569.

FSC 165 Building Construction for Fire Protection

3 cr. hrs. 3 periods (3 lec.)

Principles of building design as related to fire protection. Includes fire travel, relation of fire load to propagation of flame, non-conforming structures and application of building codes.

Offered: Fall.

FSC 166 Fire Suppression, Strategy and Tactics

3 cr. hrs. 3 periods (3 lec.)

Principles of planning fire suppression attacks. Includes planning an attack to fit the problem and revising the plan of attack to meet changing situations.

Prerequisites: FSC 149 and 150

Information: None

Offered: Spring.

FSC 167 Rescue Practices for the Fire Service

2.5-3 cr. hrs. 2.5-3 periods (2.5-3 lec.)

Introduction to skills necessary to assess, extricate, and care for victims in emergency situations. Includes an overview of fire service-based rescue, rescue operations and incident management, and civilian versus firefighter rescue. Also includes why firefighters become victims and an overview of technical rescues.

Offered: Fall, Spring.

FSC 168 Special Hazard Tactical Problems

3 cr. hrs. 3 periods (3 lec.)

Concepts and techniques designed for the experienced firefighter on successfully mitigating incidents that involve hazards that are not commonly experienced such as hazardous materials under fire conditions. Other examples may include a train derailment and biological attack. Also includes real-life incidents in order to learn from prior experiences, as well as practice with potential scenarios created from the surrounding area.

Information: Designed for experienced firefighters.

Offered: May not be offered this year, check class schedule.

FSC 170 Fire Service Leadership

3 cr. hrs. 3 periods (3 lec.)

Practical training for fire service leadership and supervision. Includes decision-making, problem solving, running a meeting, managing multiple roles, creativity, power, and ethics. Also includes situational leadership, delegation, coaching, and discipline.

Information: This course meets National Fire Academy (NFA) requirements for Leadership I, II, and III. FSC 170A, 170B, and 170C together constitute FSC 170.

Offered: May not be offered this year, check class schedule.

FSC 170A Fire Science Leadership I

1 cr. hrs. 1 periods (1 lec.)

Practical training for fire service leadership and supervision. Includes decision-making, problem solving, and running a meeting.

Information: This course meets National Fire Academy (NFA) requirements for Leadership I. FSC 170A, FSC 170B and FSC 170C together constitute FSC 170.

Offered: May not be offered this year, check class schedule.

FSC 170B Fire Science Leadership II

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 170A. Includes practical training for fire service leadership and supervision. Also includes managing multiple roles, creativity, power, and ethics.

Information: This course meets National Fire Academy (NFA) requirements for Leadership II. FSC 170A, FSC 170B, and FSC 170C together constitute FSC 170.

Offered: May not be offered this year, check class schedule.

FSC 170C Fire Science Leadership III

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 170B. Includes practical training for fire service leadership and supervision. Also includes situational leadership, delegation, coaching, and discipline.

Information: This course meets National Fire Academy (NFA) requirements for Leadership III. FSC 170A, FSC 170B, and FSC 170C together constitute FSC 170.

Offered: May not be offered this year, check class schedule.

FSC 173 Records and Reports

.25-1 cr. hrs. .25-1 periods (.25-1 lec.)

Introduction to the elements and qualities of good report writing and comprehensive documentation. Includes form, style, and methodologies for writing various reports, techniques for developing an accurate narrative, and proper and improper conclusions. Also includes effective and correct use of grammar and the mechanics of writing.

Offered: Fall, Spring.

FSC 175 Intro to Fire Investigation: Origin and Recognition of Arson

3 cr. hrs. 3 periods (3 lec.)

Basic principles of arson investigation. Includes an introduction to fire investigation, laws, fire causes, determining point of origin, evidence, fire setters, case investigation and preparation, and courtroom demeanor and testimony.

Offered: Fall.

FSC 180 Driver Training for Fire Service

3 cr. hrs. 3 periods (3 lec.)

Techniques for driving and handling fire vehicles. Includes safe operating procedures, defensive driving, apparatus inspection, training in emergency maneuvers, and the key components of the driving system.

Information: Consent of instructor is required before enrolling in this course.

Offered: Contact department at 206-6569.

FSC 181 Firefighter Rescue

1 cr. hrs. 1 periods (1 lec.)

Designed to give the firefighter the skills necessary to remove themselves and fellow firefighters from dangerous situations. Includes the skills necessary to perform effectively as a Rapid Intervention Crew (RIC) team with the goal of locating and removing injured or trapped firefighters.

Offered: May not be offered this year, check class schedule.

FSC 185 Advanced Fire Investigation: Arson

3 cr. hrs. 3 periods (3 lec.)

Training in fire investigation. Includes private sector agencies and fire science and governmental agencies at state and local level, with or without police powers, who have direct responsibility for fire investigations.

Offered: May not be offered this year, check class schedule.

FSC 189 Current Issues in Fire Science

2 cr. hrs. 2 periods (2 lec.)

Study of current issues in the fire service. Includes developing and writing an independent, applied research project, utilizing various computer applications for formatting and design, and use of the Internet and library resources.

Offered: Fall.

FSC 260 Fire and Emergency Services Instructor I

2 cr. hrs. 2 periods (2 lec.)

Theoretical and practical training in developing and instructing fire and emergency services training programs. Includes an exploration of safety and legal issues, adult learning psychology, developing, planning and presenting effective instruction, evaluating student learning, teaching diverse learners, and use of instructional media.

Information: Consent of instructor is required before enrolling in this course. Meets the requirements for the Arizona State Fire Marshal Instructor I certification and NFPA 1041.

Offered: May not be offered this year, check class schedule.

FSC 261 Fire and Emergency Services Instructor II

2 cr. hrs. 2 periods (2 lec.)

Continuation of FSC 260. Theoretical and practical training in developing, instructing and managing fire and emergency services training programs. Also includes an exploration of the design and development of training programs, performing needs and task analyses, development and utilization of lesson plans, the recruitment, selection and evaluation of instructors, and training manager's responsibilities relating to budget and resource management.

Information: FSC 260 or consent of instructor is required before enrolling in this course. Meets the requirements for the Arizona State Fire Marshal Instructor II certification and NFPA 1041.

Offered: May not be offered this year, check class schedule.

FSC 270 Leadership I for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Concepts, techniques, and application of effective executive leadership. Includes leadership styles and characteristics, the effective executive, and leaders with vision, influence and motivation. Also includes being a change facilitator in a traditional organization, and the future of leadership.

Offered: Contact department at 206-6569.

FSC 271 Leadership II for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 270. Includes organizational structure, roles and responsibilities, and organizational values. Also includes organizational vision, fiscal management and priorities, innovative organizations, executive leadership, and deployment of self.

Offered: Contact department at 206-6569.

FSC 272 Leadership III for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 271. Includes communication skills, presentation skills, verbal and writing skills at an executive level. Also includes interpersonal skills, labor relations, conflict management, ethical/unethical persuasion, and the media.

Offered: Contact department at 206-6569.

FSC 273 Leadership IV for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 272. Includes the local fire department in relation to its city government, local policy development, and understanding how the local educational system works. Also includes legal aspects of the city and department procedures, networking and community relations, relations with local and state fire service providers, and understanding the national and international fire service providers.

Offered: May not be offered this year, check class schedule.

FSC 274 Leadership V for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 273. Includes reasoning, thinking patterns, problem identification, and problem solving strategies. Also includes problem solving styles, decision-making models and approaches, personal decision making, and evaluation.

Offered: May not be offered this year, check class schedule.

FSC 275 Leadership VI for Fire Service Executives

1 cr. hrs. 1 periods (1 lec.)

Continuation of FSC 274. Includes master planning, facilities, and human resource planning. Also includes financial planning, strategic planning, implementation planning, and leadership skills in planning for the future.

Offered: May not be offered this year, check class schedule.

FSC 280 Fire Chief Preparation

4 cr. hrs. 4 periods (4 lec.)

Preparation for professional fire personnel to become chief officers. Includes incident command, communication, and disaster management.

Offered: May not be offered this year, check class schedule.

Fitness And Recreation

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FAR 050 Senior Fitness and Conditioning

1 cr. hrs. 2 periods (2 lab)

Fitness and conditioning for mature individuals. Includes introduction to general fitness, cardiovascular training, flexibility, strength training, fitness profile, and individual programming.

Offered: Fall, Spring.

FAR 101 Running for Fitness

1 cr. hrs. 2 periods (2 lab)

Techniques and practice oriented to the beginning and intermediate runner for designing a running program. Includes learning how to train for a 5K, 10K, half marathon or marathon.

Recommendation: Heart rate monitor and approved by personal health care provider before enrolling in this course.

Offered: Fall, Spring, Summer.

FAR 102 Beginning Bicycling

1 cr. hrs. 2 periods (2 lab)

An introduction to road biking and mountain biking. Includes bike preparation, safety and rider's rules, and nutrition and cardiovascular training.

Information: May be taken six times for a maximum of six credit hours. Each student must have a bicycle.

Offered: May not be offered this year, check class schedule.

FAR 105 Boot Camp

1 cr. hrs. 2 periods (2 lab)

Cardiovascular conditioning and resistance training. Includes programmatic considerations and cardiovascular and muscular endurance activities.

Information: Intended for individuals with at least 6-8 weeks of fitness training just prior to the class start date; however, students will be pushed to improve

their individual conditioning. Activities will be rotated to vary intensity and isolated muscular work through drills, calisthenics and using a variety of exercise equipment.

Offered: Fall, Spring, Summer.

FAR 107 Pilates: Mat Exercise

1 cr. hrs. 2 periods (2 lab)

A total-body conditioning course to build core strength with emphasis on synthesizing breath control, abdominal support, and pelvic/spinal alignment. Includes principles of exercise, and types of exercises.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

FAR 108 Circuit Training

1 cr. hrs. 2 periods (2 lab)

Cardiovascular conditioning and resistance training using a variety of exercise equipment. Includes warm-up, cool-down, cardiovascular activities and exercises using body weight, physio-balls, medicine balls, and exercise tubing.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring.

FAR 109 Walking for Fitness

1 cr. hrs. 2 periods (2 lab)

Individually paced walking using effective biomechanics and techniques as associated with recreation fast-walking. Includes cardiovascular workouts within a target zone to promote positive health, fitness and confidence.

Information: May be taken three times for a maximum of three credit hours.

Offered: Fall.

FAR 114 Flag Football

1 cr. hrs. 2 periods (2 lab)

Introduction to flag football. Includes rules and safety, offense, defense, special teams, and game play.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FAR 115 Kickboxing

1 cr. hrs. 2 periods (2 lab)

Introduction to kickboxing. Includes basic skills, upper body techniques, lower body techniques, and cues.

Information: May be taken eight times for a maximum of eight credit hours.

Offered: Fall, Spring, Summer.

FAR 120 Self Defense for Women

1.5 cr. hrs. 3 periods (3 lab)

Introduction to the mental attitudes and physical skills needed to defend oneself against an attack. Includes knowing your surroundings, basic safety location techniques, and defensive physical skills.

Information: May be taken four times for a maximum of six credit hours.

Offered: Fall, Spring.

FAR 125 Beginning Fencing

1 cr. hrs. 2 periods (2 lab)

Introduction to fencing for the beginner and novice. Includes fencing techniques and skills, and psychological and learning principles in the analysis of fencing skill acquisition and performance.

Offered: May not be offered this year, check class schedule.

FAR 126 Beginning Aikido

1 cr. hrs. 2 periods (2 lab)

Introduction to the basic of Aikido. Includes dojo etiquette and philosophy of Aikido, stretching and warm-up exercises, rolling and basic stances, attacks and their proper use, blending, and techniques for disarming attackers.

Information: May be taken six times for a maximum of six credit hours.

Offered: Fall.

FAR 130 Beginning Tae Kwon Do

1 cr. hrs. 2 periods (2 lab)

Introduction to the basics of Tae Kwon Do. Includes stretching techniques, warm up exercises, self-defense techniques, and kicking techniques. Also includes skills sufficient to pass the yellow belt test.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

FAR 131 Intermediate Tae Kwon Do

1.5 cr. hrs. 3 periods (3 lab)

Continuation of FAR 130. Includes basic kicks, unarmed defense form, and defense techniques against an opponent.

Information: May be taken four times for a maximum of six credit hours. Recommendations: Students should have completed FAR 130 or have earned a yellow belt before enrolling in this course.

Offered: Fall, Spring, Summer.

FAR 132 Advanced Tae Kwon Do

1.5 cr. hrs. 3 periods (3 lab)

Continuation of FAR 131. Includes practice of unarmed defense, kicks, punches, blocks, strikes, and free-fighting techniques. Also includes basic tournament structure and competition.

Information: Students must complete FAR 131 or obtain consent of the instructor in order to enroll in this course. May be taken four times for a maximum of six credit hours.

Offered: Summer.

FAR 136 Beginning Kung Fu

1 cr. hrs. 2 periods (2 lab)

Introduction to the basics of Kung Fu. Includes techniques in kicking and punching, and basic Shaolin forms. Also includes developing body language in areas such as discipline, endurance and attitude.

Offered: May not be offered this year, check class schedule.

FAR 153 Swim Fit

1 cr. hrs. 2 periods (2 lab)

Cardiovascular conditioning through lap swimming for the fitness enthusiast. Includes basic stroke review. Also includes techniques of endurance swimming and determination of cardiovascular fitness level.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring.

FAR 154 Water Aerobics

1 cr. hrs. 2 periods (2 lab)

Cardiovascular, strengthening, and flexibility exercise in the pool for swimmers at all levels. Includes review of safety water techniques, and upper and lower body movement in water. Also includes coordination of movement to music, and cardiovascular fitness level determination using heart rate measurements.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FAR 155 Swimming: Stroke Development

1 cr. hrs. 2 periods (2 lab)

Swimming lessons for both the novice and advanced swimmer in the development and/or refinement of a wide variety of strokes. Includes orientation to the aquatic environment, rhythmic breathing, water and deep water entry, and treading water. Also includes front and back crawl, backstroke, breaststroke, sidestroke, butterfly, underwater swimming, turns, and diving.

Offered: Fall, Spring.

FAR 160 Lifeguarding

1 cr. hrs. 2 periods (2 lab)

Introduction to the profession of life guarding. Includes life saving strokes, rescues, surveillance, and safety prevention.

Prerequisite(s): Enrollment in American Red Cross Basic First Aid and CPR for the professional rescuer or concurrent enrollment is required before enrolling in this course.

Information: Prior or concurrent enrollment in American Red Cross Basic First Aid and CPR for the professional rescuer is required to before enrolling in this course. May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FAR 161 Beginning T'ai-chi Chuan

1 cr. hrs. 2 periods (2 lab)

Basic techniques of Yang style T'ai-chi-Chuan, a form of martial arts. Includes an introduction to and principles of T'ai-chi; T'ai-chi for a healthier life style and self defense; and Yang Style Short Form.

Information: This course is not intended for Fitness and Sports Science Majors.

Offered: Fall, Spring.

FAR 170 Basic Scuba

1 cr. hrs. 2 periods (2 lab)

Introduction to the open water swimming environment. Includes SCUBA diving equipment, physics, environmental biology of the ocean, and human physiology. Upon successful completion of the course, students are qualified for diving in open water and may choose to complete National Association of Scuba Educators (NASE) certification.

Information: Consent of instructor is required before enrolling in this course. Students are required to complete a 200 yard fitness swim test and a 10 minute minimum survival float.

Offered: May not be offered this year, check class schedule.

FAR 180 Beginning West Coast Swing

1 cr. hrs. 2 periods (2 lab)

Introduction to West Coast Swing. Includes an overview of West Coast Swing, dance techniques, and beginning level moves.

Offered: May not be offered this year, check class schedule.

FAR 181 Intermediate West Coast Swing

1.5 cr. hrs. 3 periods (3 lab)

Continuation of the fundamentals of West Coast Swing. Includes intermediate techniques and skill development in dance moves.

Offered: May not be offered this year, check class schedule.

FAR 183 Beginning Country Western Dance

1 cr. hrs. 2 periods (2 lab)

Introduction to country western dance for the beginner. Includes basic steps, turns, techniques and skill development.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FAR 184 Intermediate Country Western Dance

1.5 cr. hrs. 3 periods (3 lab)

Country western dance at the intermediate level. Includes dance patterns, styles, and performance transformation.

Information: May be taken four times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FAR 185 Advanced Country Western Dance

1.5 cr. hrs. 3 periods (3 lab)

Country western dance at the advanced level. Includes dance patterns, dance execution, and performance techniques.

Information: May be taken four times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FAR 186 Ballroom/Latin Dance

1 cr. hrs. 2 periods (2 lab)

Introduction to ballroom and Latin dancing. Includes basic steps, turns and varied techniques of traditional and modern dances such as the foxtrot, waltz, swing, tango, cha cha, rumba, and mambo. Also includes skill development in posture, balance, control, flexibility, endurance and coordination.

Offered: Fall, Spring.

FAR 187 Beginning Salsa Dance

1 cr. hrs. 2 periods (2 lab)

Introduction to salsa dancing and the basic steps to help you feel confident in order to dance socially and in public. Includes history of salsa, dance terminology, key components, survival skills, essential protocols, partnering and specific techniques, developing stamina, strength, and balance, organizing dancing patterns into complete routines, and learning to improvise.

Information: This course is not intended for competitive Salsa dance.

Offered: Fall, Spring.

FAR 188 Intermediate Salsa Dance

1.5 cr. hrs. 3 periods (3 lab)

Continuation of FAR 187. Includes continued skill development in salsa dancing, dance terminology, key components of salsa dance, essential protocols, appropriate partnering techniques, specific techniques, developing stamina, strength, and balance, and developing a personal style.

Information: Completion of FAR 187 or consent of instructor is required before enrolling in this course. This course is intended for social, not competitive, Salsa dance. If competition is the student's goal, proper basics are covered and expectations of judging are discussed.

Offered: Spring.

Fitness and Sport Sciences

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FSS 105 Beginning In-Line Skating

1 cr. hrs. 2 periods (2 lab)

Basics of in-line skating. Includes protective equipment, rules of the road, safety on skates, stretching and cool down, getting comfortable on in-line skates, moving on in-line skates, beginning movements or stride one, beginning braking, beginning turning, edge control, stride two, and practical skating.

Offered: May not be offered this year, check class schedule.

FSS 106 Intermediate In-Line Skating

1.5 cr. hrs. 3 periods (3 lab)

In-line skating for the experienced skater. Includes review of equipment needs and safety rules, fitness preparation, and intermediate level movements related to downhill and uphill skating.

Information: FSS 105 or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

FSS 110 Beginning Golf

1 cr. hrs. 2 periods (2 lab)

Introduction to golf for the beginner. Includes grips, stance, swing, hitting the different clubs, pitch and chip shots, putting, and rules and etiquette of the game.

Information: A range and/or course fee payable to the golf course may be required. May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

FSS 111 Intermediate Golf

1.5 cr. hrs. 3 periods (3 lab)

Development of skills introduced in the beginning class. Includes grip, stance, swing, driving, chipping, rules, and etiquette.

Information: A range and/or course fee payable to the golf course may be required. May be taken four times for a maximum of six credit hours.

Offered: Fall, Spring.

FSS 112 Advanced Golf

1.5 cr. hrs. 3 periods (3 lab)

Advanced skills in golf and development of the mental aspects of the game. Includes techniques for playing hazards, difficult lies, and making special shots.

Information: A range and/or course fee payable to the golf course may be required. May be taken four times for a maximum of six credit hours.

Offered: Summer.

FSS 113 Beginning Racquetball

1 cr. hrs. 2 periods (2 lab)

Introduction to racquetball for the beginner and novice. Includes equipment, safety, game rules, techniques, and skill development. Also includes singles, cut-throat, and doubles play.

Information: May be taken four times for a maximum of four credit hours.

Offered: Spring.

FSS 114 Intermediate Racquetball

1.5 cr. hrs. 3 periods (3 lab)

Intermediate level skill development and play. Includes a review of the beginning level skills. Also includes rules, etiquette, singles and doubles strategies, and tournament play.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 116 Beginning Tennis

1 cr. hrs. 2 periods (2 lab)

Introduction to the basic skills and rules of tennis. Includes forehand, backhand, serve, and volley. Also includes strategy, courtesy, selection of equipment, and general rules for playing singles and doubles.

Information: May be taken four times for a maximum of four credit hours.

Offered: Spring, Summer.

FSS 117 Intermediate Tennis

1.5 cr. hrs. 3 periods (3 lab)

Refinement of tennis skills for the developing player. Includes running forehand drive, running backhand drive, service, volley, drop shot, overheads, strategies, and analysis of opponent's game. Also includes scoring, handling physical and mental stress, avoiding injury, and tournament play.

Information: May be taken four times for a maximum of six credit hours.

Offered: Spring, Summer.

FSS 118 Advanced Tennis

1.5 cr. hrs. 3 periods (3 lab)

Progressive skill development for the advanced tennis player. Includes selection of new equipment, and skills needed for a variety of different types of shots used in the game.

Information: May be taken four times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FSS 119 Track and Field

1.5 cr. hrs. 3 periods (3 lab)

Fundamental techniques of track and field. Includes introduction to protocols and equipment, rules and safety, skill assessment, technique and training for one field event area, officiating and regulations, and demonstration of skills and rules.

Information: May be taken four times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FSS 120 Beginning Soccer

1 cr. hrs. 2 periods (2 lab)

Introduction to soccer for the beginner. Includes passing, receiving and controlling, dribbling and maintaining control, heading, throw-ins, corners, goal kicks, and other special situations. Also includes shooting, defensive techniques, rules of the game, common terminology, and tactics of play.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FSS 121 Advanced Soccer

1.5 cr. hrs. 3 periods (3 lab)

Advanced skills for soccer. Includes passes and control, shooting, dribbling, man to man defense, zone defense, creating space, rules, and physical demands of the game.

Information: May be taken four times for a maximum of six credit hours.

Offered: Spring.

FSS 125 Beginning Basketball

1 cr. hrs. 2 periods (2 lab)

Introduction to the fundamentals of basketball. Includes history of the game, rules, and fundamentals skills.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 126 Intermediate Basketball

1.5 cr. hrs. 3 periods (3 lab)

Development of techniques for students with basic basketball skills. Includes fundamentals of footwork and balance, jumping, rebounding, and guarding. Also includes officiating techniques, and development of basic defenses and offenses used in basketball.

Information: May be taken four times for a maximum of six credit hours.

Offered: Fall, Spring.

FSS 127 Advanced Basketball

1.5 cr. hrs. 3 periods (3 lab)

Advanced skills for basketball. Includes game-like conditions, special plays, and advanced game strategies.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring.

FSS 128 Beginning Baseball

1 cr. hrs. 2 periods (2 lab)

Introduction to the fundamentals and basic skills of baseball. Includes infield, outfield, catching, pitching, and offensive and defensive strategies.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 129 Beginning Softball

1 cr. hrs. 2 periods (2 lab)

Introduction to slow and fast pitch softball. Includes equipment and field, defensive and offensive skills, pitching, strategies, rules and officiating, and defensive strategy.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 130 Advanced Softball

1.5 cr. hrs. 3 periods (3 lab)

Progressive skills development for the advanced softball player. Includes defensive strategies, offensive strategies, mental play strategies, and team concept and competition.

Information: May be taken six times for a maximum of nine credit hours.

Offered: May not be offered this year, check class schedule.

FSS 131 Beginning Volleyball

1 cr. hrs. 2 periods (2 lab)

Introduction to volleyball for the beginning player. Includes basic skills, rules, and team systems and strategies.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall.

FSS 132 Intermediate Volleyball

1.5 cr. hrs. 3 periods (3 lab)

Introduction to volleyball for the player with previous volleyball experience. Includes refinement of basic skills, introduction of advanced skills, and team systems.

Information: May be taken four times for a maximum of six credit hours.

Offered: Spring, Summer.

FSS 133 Advanced Volleyball

1.5 cr. hrs. 3 periods (3 lab)

Volleyball for the skilled and experienced player. Includes refining skills and introducing advanced techniques and team systems.

Information: May be taken four times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FSS 134 Advanced Baseball

1.5 cr. hrs. 3 periods (3 lab)

Introduction to advanced tactics and competition in baseball. Includes advanced instruction in base running, fielding, hitting, and offensive and de-

fensive strategies.

Information: May be taken four times for a maximum of four credit hours. FSS 128 is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

FSS 135 Beginning Wrestling

1 cr. hrs. 2 periods (2 lab)

Introduces the sport of intercollegiate wrestling. Includes fundamentals of combative wrestling.

Recommendation: Consult instructor for skill status requirements before enrolling in this course.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 136 Intermediate Wrestling

1.5 cr. hrs. 3 periods (3 lab)

Continuation of FSS 135. Includes introduction to intermediate skills levels of combative wrestling.

Information: May be taken four times for a maximum of six credit hours. FSS 135 is required before enrolling in this course. Consult instructor for alternative prerequisites before enrolling in this course.

Offered: May not be offered this year, check class schedule.

FSS 137 Advanced Wrestling

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of FSS 136. Includes techniques and skill development for the experienced wrestler, college-level tactics, and advanced strategies under match-like conditions.

Information: May be taken four times for a maximum of eight credit hours. FSS 136 is required before enrolling in this course. Consult instructor for alternative prerequisites before enrolling in this course.

Offered: Fall.

FSS 148 Spinning

1 cr. hrs. 2 periods (2 lab)

Individually paced physical stationary bike riding. Includes introduction to basic spinning techniques, sprinting, rhythm presses, pedal stroke, and fundamental principles.

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

FSS 150 Fitness Activities

1 cr. hrs. 2 periods (2 lab)

Introduction to fitness activities for the beginner. Includes the importance of exercise, proper nutrition, effect of attitudes on health, and the basics of the physiology of exercise. Also includes participation in stretching exercises, walking, jogging, dancing and biking.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 151 Sports Conditioning

1 cr. hrs. 2 periods (2 lab)

Conditioning class for students desiring more intense conditioning for individual and/or team sports. Includes endurance activities, dynamic stretching and warm-up techniques, and sport related fitness drills (agility, balance, coordination, and reaction time).

Information: May be taken four times for a maximum of four credit hours.

Offered: Fall, Spring, Summer.

FSS 152 Independent Fitness Activity

1 cr. hrs. 2 periods (2 lab)

Independent fitness activities designed for students who are actively engaged in a fitness activity, but are unable to meet regularly scheduled physical education classes.

Information: At least one physical education activity class or consent of instructor is required before enrolling in this course. May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FSS 153 Plus-sized Exercise

1 cr. hrs. 2 periods (2 lab)

Beginning aerobic exercise, toning, and stretching for individuals desiring to use exercise for weight control. Includes student determination of appropriate exercise intensity levels and modifications during activities.

Information: May be taken four times for a maximum of four credit hours. This class is intended for those who are 25 or more pounds overweight.

Offered: Fall, Spring.

FSS 155 Athletic-Academic Success

2 cr. hrs. 2 periods (2 lec.)

Survey of successful educational strategies in support of individual aca-

demic plans, career goals and personal decision making. Includes taking the first step, goals and time, creative thinking, memory, note-taking skills, disarm tests, and communicating. Also includes health and nutrition, diversity, and resources.

Information: May be taken three times for a maximum of six credit hours.
Offered: Fall, Spring.

FSS 156 Sport Conditioning Through Plyometrics

1 cr. hrs. 2 periods (2 lab)

Introduction to sport specific conditioning through plyometrics. Includes techniques of stretching, use of plyometrics, plyometric drills, sport specific plyometrics, and designing a program.

Information: May be taken four times for a maximum of four credit hours.
Offered: Fall, Spring.

FSS 174 Yoga

1 cr. hrs. 2 periods (2 lab)

Introduction to stress reduction through Yoga. Involves stretching, basic postures, breathing, and relaxation techniques to improve overall wellness.

Information: May be taken four times for a maximum of four credit hours.
Offered: Fall, Spring, Summer.

FSS 175 Yoga and Meditation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of FSS 174. Includes emphasis on meditation, concentration techniques, and yoga philosophy. Includes complex variations of basic postures, new challenging postures, breathing and relaxation techniques, and exploration of various paths of yoga, styles, hatha yoga, and yoga subtle anatomy to cultivate and focus upon the inner connection among body, breath, mind and spirit.

Information: FSS 174 or consent of instructor is required before enrolling in this course. Student must have no major physical limitations, at least one year of yoga experience or an established daily yoga routine.
Offered: May not be offered this year, check class schedule.

FSS 176 Aerobics

1 cr. hrs. 2 periods (2 lab)

Introduction to cardiovascular and muscular exercises. Includes walking, jogging, stretching, calisthenics, and muscle toning. Also includes cool down and relaxation exercises.

Information: May be taken eight times for a maximum of eight credit hours.
Offered: Fall, Spring, Summer.

FSS 179 Step Aerobics

1 cr. hrs. 2 periods (2 lab)

High intensity, low impact program that involves stepping on and off a platform repeatedly, while simultaneously performing upper body movements. Includes both beginning and advanced students at varying intensity levels.

Offered: Fall, Spring, Summer.

FSS 180 Strategies for Weight Management

1 cr. hrs. 1 periods (1 lec.)

Current research, information, and support to make lifestyle changes to manage weight and improve overall wellness. Includes personal assessment, stages of change, basic nutritional guidelines, exercise/activity guidelines and safety precautions, and developing personal strategies.

Information: May be taken four times for a maximum of four credit hours.
Offered: Fall.

FSS 181 Stretch and Tone

1 cr. hrs. 2 periods (2 lab)

Muscular strength and endurance workout designed to tone and strengthen the entire body. Includes fundamental exercises, increase in repetitions, and increase in resistance.

Information: May be taken six times for a maximum of six credit hours.
Offered: Fall, Spring, Summer.

FSS 185 Beginning Weight Training and Cardiovascular Fitness

1 cr. hrs. 2 periods (2 lab)

Introduction to a balanced fitness training program designed for the beginner. Includes evaluation of personal fitness status and needs, basic fitness techniques, muscle groups and methods of development, weight training role in fitness, cardiovascular training, and development of a personalized routine.

Information: May be taken six times for a maximum of six credit hours.
Offered: Fall, Spring, Summer.

FSS 186 Intermediate Weight Training and Cardiovascular Fitness

2 cr. hrs. 4 periods (4 lab)

Exploration into the range and magnitude of weight and cardiovascular training. Includes orientation, personal fitness assessment, personal training session, health fitness activities, lab participation, and an evaluation of personal fitness.

Information: May be taken six times for a maximum of twelve credit hours.

Offered: Fall, Spring, Summer.

FSS 187 Advanced Weight Training and Cardiovascular Fitness

2 cr. hrs. 4 periods (4 lab)

Intensive weight training and cardiovascular activities for physically qualified individuals. Includes advanced training and development of higher degree skill techniques for the chest, back, shoulders, legs, biceps, triceps, abdominals, and forearms.

Information: May be taken six times for a maximum of twelve credit hours.
Offered: Fall, Spring, Summer.

FSS 188 Strength and Conditioning for Sport

1.5 cr. hrs. 3 periods (3 lab)

Advanced sport specific program of strength and conditioning designed to enhanced athletic performance. Includes focus on development of power, strength, flexibility, agility, balance and dynamic correspondence.

Offered: May not be offered this year, check class schedule.

FSS 199 Introduction to Co-op: Coaching or Physical Education

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education which provides for success in securing and retaining a job related to subject area. Includes communication skills, time and energy management, stress and its management, and careers. Also includes placing yourself on the job market, principles, theories, and practices in the career field, and problems in the work situation.

Corequisite(s): FSS 199WK

Information: May be taken two times for a maximum of two credit hours.
Offered: May not be offered this year, check class schedule.

FSS 199WK Co-op Work: Coaching or Physical Education

1-3 cr. hrs. 5-15 periods (5-15 lab)

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with student and their supervisor.

Corequisite(s): FSS 199

Information: May be taken two times for a maximum of six credit hours.
Offered: May not be offered this year, check class schedule.

FSS 201 Introduction to Exercise Science and Physical Education

3 cr. hrs. 3 periods (3 lec.)

Introduction to the disciplines and professions associated with exercise science and physical education. Includes an overview of historical and philosophical foundations.

Offered: May not be offered this year, check class schedule.

FSS 205 Theory of Coaching Baseball

2 cr. hrs. 2 periods (2 lec.)

Advanced instruction in the theory of coaching advanced baseball techniques and methods. Includes role of the coach, game management, and improving performance.

Offered: Spring.

FSS 208 Professional Activities: Aerobics and Group Fitness

2 cr. hrs. 3 periods (1 lec., 2 lab)

Aerobics skills and teaching methods for the Fitness and Sport Sciences major. Includes introduction to components of aerobic fitness, teaching an aerobic class, choreography basics, and strength training. Also includes group related fitness activities, specific populations and health concerns, and legal and professional responsibilities.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Spring.

FSS 210 Pro-Act Baseball

2 cr. hrs. 3 periods (1 lec., 2 lab)

Professional Activities: Baseball Baseball skills and teaching and coaching methods for the Physical Education Major. Includes mechanics of hitting and pitching, fielding and team defense, baserunning, and game situations.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 213 Professional Activities: Basketball

2 cr. hrs. 3 periods (1 lec., 2 lab)

Basketball skills and teaching methods for the Fitness and Sport Sciences major. Includes passing, shooting, footwork, jumping, ball handling, individual and team offense and defense, and skill progressions and class lesson plans.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 218 Professional Activities: Weight Training

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to the basic resistance training principles. Includes history, anatomy and physiology, biomechanics, weight training principles and concepts, program development and assessment, and programming.

Information: This course is intended for the Fitness or Physical Education majors, or those pursuing a Professional or Coaching certificate. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall.

FSS 223 Professional Activities: Racquetball

2 cr. hrs. 3 periods (1 lec., 2 lab)

Racquetball skills and teaching methods for the Fitness and Sport Sciences major. Includes basic techniques and methods, offensive and defensive play, serve strategy, learning theory, and evaluation methods.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 224 Professional Activities: Self Defense

2 cr. hrs. 3 periods (1 lec., 2 lab)

Self defense for the Fitness and Sport Sciences major. Includes skill to recognize, avoid, and eliminate potentially dangerous situations, defending yourself, reporting attacks and support agencies for victims of attack.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 225 Professional Activities: Soccer

2 cr. hrs. 3 periods (1 lec., 2 lab)

Soccer for the Fitness and Sport Sciences major. Includes developing soccer skills and conditioning, skills and concepts for soccer, peer instruction, four principals of soccer, and age appropriate training.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 227 Professional Activities: Softball

2 cr. hrs. 3 periods (1 lec., 2 lab)

Softball skills and teaching methods for the Fitness and Sport Sciences major. Includes mechanics of hitting and pitching, fielding and team defense, baserunning, and game situations.

Information: To be successful in the course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 230 Professional Activities: Tennis

2 cr. hrs. 3 periods (1 lec., 2 lab)

Principles of teaching and coaching the sport of tennis. Includes skill development, rules, strategies for singles and doubles play, and court etiquette.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 231 Professional Activities: Track and Field

2 cr. hrs. 3 periods (1 lec., 2 lab)

Track and field skills and teaching methods for the Fitness and Sport Sciences major. Includes overview of track and field coaching philosophies, organizing a track and field program, fundamental training principles, biomechanics, strength training and plyometrics, and jumping, running, and throwing events. Also includes team aspects of track and field, meet management and administration, and injury prevention.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 232 Professional Activities: Volleyball

2 cr. hrs. 3 periods (1 lec., 2 lab)

Principles of teaching and coaching the sport of volleyball. Includes skill development, skill progressions, instructional methods, basic rules, and strategies.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 234 Fundamentals of Exercise Science

3 cr. hrs. 3 periods (3 lec.)

Overview of how the various systems of the body interact to help adapt to exercise and movement and topics are specifically designed to provide Physical Education and Fitness majors with the basic understanding of the structure and function of the human anatomy and physiology with an emphasis on direct application to their professional development. Includes the skeletal support system,

muscular system structure, nervous system, metabolism, endocrine system, cardiovascular system, and the respiratory system.

Corequisite(s)

Information: Fitness Professional students are expected to enroll in this course with FSS 276 or FSS 277. Recommendation: Students assessment scores at the level to enroll in REA 112, WRT 101, and MAT 086 or higher are strongly recommended before enrolling in this course.

Offered: Fall, Spring.

FSS 236 Communication and Exercise Adherence

1 cr. hrs. 1 periods (1 lec.)

Communication skills and interviewing techniques for personal trainers. Includes theories of motivation, the transtheoretical model and stages of change, and communication techniques.

Information: This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall.

FSS 238 Introduction to Sports Injury Management

2 cr. hrs. 2 periods (2 lec.)

Introduction to principles and techniques of preventing, treating and rehabilitating sports related injuries. Includes overview of sports injury management, recognition of common sports injuries, and taping/wrapping techniques.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall, Spring, Summer.

FSS 241 Nutrition for Exercise and Sport

3 cr. hrs. 3 periods (3 lec.)

Examination of the relationship between nutrition and the human body. Includes optimal nutrition, energy expenditure, body composition assessment, regulating the body through exercise, and recent research findings.

Prerequisite(s): WRT 100 or 106, and MAT 086 or satisfactory score on the writing and mathematics assessment tests.

Information: This course is intended for the Fitness Professional and Professional Development for coaches. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

This course is intended for the Fitness

Offered: Fall.

FSS 242 Games and Activities for the School-Aged Child

3 cr. hrs. 3 periods (3 lec.)

Basic skills in and knowledge of methods and materials for teaching physical activities, games, and sports to the school-aged (K-8) child. Includes program development and planning, classroom management techniques, legal considerations, activities, and modifications for the special child.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 243 Teaching Physical Activities

3 cr. hrs. 5 periods (2 lec., 3 lab)

Overview of the historical development, the philosophical foundations, and the socio-cultural forces that shape and influence the teaching of physical education. Includes historical perspectives, secular trends and the impact on physical education programs, federal legislation and implications, national standards, and legal issues. Also includes the practical application of previously studied theory and the collection of data for future theoretical interpretation. This course will expose students to observational experiences in the public school setting. It is designed to provide future physical educators with opportunities to observe locomotor skills, work with individuals and small groups of students, evaluate motor skill proficiency and be a positive role model for children.

Prerequisite(s): FSS 279 or concurrent enrollment.

Recommendation: Student assessment score at the level to enroll in WRT 101 or higher is strongly recommended.

Information: This course is intended for physical education majors or current educators interested in continuing education. Students will be expected to comply with security measures in place at the local schools included in the observation during the time of enrollment. This may include fingerprinting and wearing identification badges.

Offered: Fall.

FSS 243A Teaching Physical Activities: Principles

2 cr. hrs. 2 periods (2 lec.)

Overview of the historical development, the philosophical foundation, and the socio-cultural forces that shape and influence the teaching of physical education. Includes historical perspectives, secular trends and the impact on physical education programs, federal legislation and implications, national standards, and legal issues.

Prerequisite(s): FSS 279 or concurrent enrollment.

Recommendation: Student assessment score at the level to enroll in WRT 101 or higher is strongly recommended.

Information: FSS 243A and 243B together constitute FSS 243. This course is intended for physical education majors or current educators interested in continuing education.

Offered: Fall.

FSS 243B Teaching Physical Activities: Observation

1 cr. hrs. 3 periods (3 lab)

The practical application, on an individual basis, of previously studied theory and the collection of data for future theoretical interpretation. This course will expose students to observational experiences in the public school setting. It is designed to provide future physical educators with opportunities to observe locomotor skills, work with individuals and small groups of students, evaluate motor skill proficiency and be a positive role model for children.

Prerequisite(s): FSS 279 or concurrent enrollment.

Recommendation: Student assessment scores at the level to enroll in WRT 101 or higher is strongly recommended before enrolling in this course.

Information: FSS 243A and 243B together constitute FSS 243. This course is intended for physical education majors or current educators interested in continuing education. Students will be expected to comply with security measures in place at the local schools included in the observation during the time of enrollment. This may include fingerprinting and identification badges.

Offered: Fall.

FSS 250 Sport First Aid

3 cr. hrs. 3 periods (3 lec.)

Basic first aid skills in the sport setting designed to help coaches develop an awareness of sport injuries, and administer appropriate first aid. Includes introduction to basic sport first aid, protocols for specific injuries, and standard of care.

Information: A valid CPR certification is required before enrolling in this course. This course will use materials for and lead to certification by the American Sport Education Program (ASEP) and are mandatory for this course. May be taken two times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

FSS 260 Business Practices for the Personal Trainer

1 cr. hrs. 1 periods (1 lec.)

Practices associated with creating and managing a personal training business. Includes how to develop a business plan, marketing services, and legal and professional responsibilities.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106. This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers.

Offered: Spring.

FSS 262 Personal Trainer: Special Populations

1 cr. hrs. 1 periods (1 lec.)

Exercise management for persons with chronic diseases. Includes medical model health appraisal, allied health profession referrals, and chronic disease and disabilities.

Recommendation: It is highly recommended that students who are not currently certified as personal trainers should be in the second or later semester of the certificate program before enrolling in this course.

Information: This course is intended for students in the Fitness Professional Certificate program or for current physical education teachers or healthcare providers for continuing education credit.

Offered: Spring.

FSS 270 Advanced Principles for Athletic Conditioning

1 cr. hrs. 1 periods (1 lec.)

Advanced theory and application of resistance training principles. Includes safety and personal health issues, strength and conditioning principles, testing and evaluation exercise techniques, and program design.

Recommendation: Completion of FSS 218 and 276 before enrolling in this course.

Information: May be taken three times for a maximum of three credit hours. This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Spring.

FSS 271 Sport Psychology

3 cr. hrs. 3 periods (3 lec.)

Development of the basics of sport psychology. Includes psychological perspective, psychology skills for coaches, psychological skills for athletes, and implementing skills training.

Information: This course is intended for the Coaching program and continuing education for fitness professionals, coaches, and physical education teachers. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall, Spring.

FSS 272 Coach Techniques/Practices

3 cr. hrs. 3 periods (3 lec.)

Coaching Techniques and Practices Concepts and strategies for teaching athletes both new skills and fine tuning of existing skills. Includes preparing to teach skills, presenting, developing and maintaining skills, and cognitive processes involved in skills.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall.

FSS 273 Sport Physiology

3 cr. hrs. 3 periods (3 lec.)

Principles of muscular, energy and endurance fitness training for peak performance. Includes focus on individual differences, muscular fitness components, energy systems, performance evaluation and training program development.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Spring.

FSS 276 Personal Trainer: Muscular Strength, Endurance, Flexibility

3 cr. hrs. 4 periods (2 lec., 2 lab)

Assessment and interpretation of results for individualized programs designed for muscular strength, endurance and flexibility. Includes pre-activity screening, assessment, interpretation of results, manipulation of variables in program design, and periodization.

Corequisite(s): FSS 218

Information: This course requires physical activity and is intended for students pursuing the Fitness Professional or Coaching Certificate or the Physical Education major. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106 and reading ability equivalent to the completion of REA 091.

Offered: Fall.

FSS 277 Personal Trainer: Cardiovascular Endurance/Body Composition

3 cr. hrs. 4 periods (2 lec., 2 lab)

Assessment and interpretation of testing results for individualized program design for cardiovascular training, and the skill development of body composition assessment techniques. Includes assessment issues, development of SMART goals, program development, and special considerations.

Information: This course requires physical activity and is intended for students pursuing the Fitness Professional Certificate. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106 and reading ability equivalent to the completion of REA 091.

Offered: Spring.

FSS 278 Fitness Professional Practices

2 cr. hrs. 4 periods (1 lec., 3 lab)

Intended for students preparing to be personal trainers. Includes hands-on experience working with student-clients enrolled in other FSS courses by helping develop appropriate exercise goals, providing motivation, giving supplemental nutritional information, and demonstrating exercise techniques.

Prerequisite(s): FSS 276 and 277 or concurrent enrollment.

Offered: May not be offered this year, check class schedule.

FSS 279 Motor Development

2 cr. hrs. 2 periods (2 lec.)

Examination of development changes in motor patterns for children and adults. Includes introduction to motor development, prenatal development concerns, growth and maturation, infant reflexes and stereotypes, voluntary movements in infancy, perceptual-motor development, movement and changing sense of vision, cognitive and motor development and fine motor development. Also includes effects of early stimulation, social and motor development, psychological changes, motor assessment, and planning and conducting a motor development program.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: Fall.

FSS 280 Lifestyle and Weight Management Consultant

1 cr. hrs. 1 periods (1 lec.)

Emphasis on evaluating fad diets, educating clients on proven techniques for weight loss (diet and exercise), and supporting clients with specific activities

at various stages of change. Includes the trans-theoretical model, basic nutritional guidelines, exercise/activity guidelines and safety precautions, and developing personal strategies.

*Information: This course is intended for the Fitness Professional program and continuing education for fitness professionals, coaches, and physical education teachers. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106. **Recommendation:** It is highly recommended that students have successfully completed or are concurrently enrolled in FSS 236 and a Nutrition course.*

Offered: Fall

FSS 281 Personal Trainer Exam Preparation

1 cr. hrs. 1 periods (1 lec.)

Summation of the curriculum presented in the Fitness Professional Certificate program. Includes exam content areas, study strategies, and test taking strategies to prepare for a nationally recognized certificate examination for personal trainers.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106. Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

FSS 284 Conditioning and Training the Adolescent Athlete

2 cr. hrs. 2 periods (2 lec.)

Theory and application of conditioning and training for adolescents. Includes components of strength and conditioning, practical application, programming, and periodization.

Information: This course is intended for the Coaching Certificate program and continuing education for fitness professionals, coaches, and physical education teachers. To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106. This course will use materials for and lead to certification by the American Sport Education Program (ASEP) and are mandatory for the course.

Offered: May not be offered this year, check class schedule.

FSS 285 Principles of Athletic Coaching

3 cr. hrs. 3 periods (3 lec.)

Introduction to the principles of athletic coaching. Includes principles of behavior, teaching, physical training, and management.

Information: To be successful in this course the student should have basic writing skills equivalent to the completion of WRT 100 or 106. This course will use materials for and lead to certification by the American Sport Education Program (ASEP) and are mandatory for the course.

Offered: May not be offered this year, check class schedule.

FSS 286 Sports Officiating

2 cr. hrs. 2 periods (2 lec.)

Familiarization with and application of the rules of various sports from the standpoint of an official. Includes introduction to the art of officiating, discussion of interpretation of rules for each sport, officiating duties, and guest officials and coaches from each sport. Also includes actual experience through service in the college's intramural program and other agencies.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 289 Sports Administration

2 cr. hrs. 2 periods (2 lec.)

Introduction to the theory, concepts, and practices for effective sports program administration. Includes planning for better coaching, organizing varied elements, funding, organizing competition, developing personal leadership skills, designing controls for sports programs, and making effective decisions.

Information: To be successful in this course, the student should have basic writing skills equivalent to the completion of WRT 100 or 106.

Offered: May not be offered this year, check class schedule.

FSS 296 Independent Study in Fitness and Sport Sciences

3 cr. hrs. 3 periods (3 lec.)

Students independently continue their academic development in health, physical education, recreation, coaching, dance or fitness, with the help of faculty member.

Information: May be taken two times for a maximum of six credit hours. Consent of instructor is required before enrolling in this course. This course does not transfer to the three state universities.

Offered: Fall, Spring.

FSS 299 Introduction to Co-op: Fitness Professional

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education which provides for success in securing and retaining a training job related to subject area. Includes communication skills, time and energy management, stress and its management, and careers. Also includes placing yourself on the job market, principles, theories, and practices in the career field, and problems in the work situation.

Corequisite(s): FSS 299WK

Information: May be taken two times for a maximum of two credit hours. This course is intended for the Fitness Professional program and may be taken in the 2nd semester or completion of FSS 276 or 277 before enrolling in this course.

Offered: Fall, Spring.

FSS 299WK Co-op Work: Fitness Professional

2 cr. hrs. 10 periods (10 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors.

Corequisite(s): FSS 299

Information: May be taken two times for a maximum of four credit hours.

Offered: Fall, Spring.

Food Science & Nutrition

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FSN 127IN Human Nutrition and Biology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Principles of nutrition presented in the context of human biology. Includes chemistry, digestion, absorption, and metabolism of nutrients. Also includes biological and nutritional perspectives on various health issues such as cardiovascular disease, hypertension, cancer, diabetes, and osteoporosis.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Same as BIO 127IN.

Offered: Fall, Spring, Summer.

FSN 154 Nutrition

3 cr. hrs. 3 periods (3 lec.)

Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.

Information: Same as SSE 154.

Offered: Fall, Spring, Summer.

FSN 241 Principles of Human Nutrition

3 cr. hrs. 3 periods (3 lec.)

Concepts and scientific principles of human nutrition. Includes health promotion and concepts for conveying accurate nutrition information in a professional setting. Addresses therapeutic nutrition principles for treatment of common health conditions. Includes exploration of food sources of nutrients, basic metabolism of nutrients in the human body, relationship between diet and other lifestyle factors, use of supplements, current recommendations for intake or assessment of nutritional status.

Information: One year high school chemistry with a C or better, or CHM 130LB, or BIO 100IN, or 156IN, or 181IN, or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Foundations for Personal Change

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FPC 101 Work and Learning in America

1 cr. hrs. 1 periods (1 lec.)

Development of career and learning objectives. Includes learning and the world of work, careers in the 21st century, and skill development in context. Also includes a focus on the common requirements of all jobs, the skills basic to employment success, and the formal and informal learning necessary for career advancement.

Offered: May not be offered this year, check class schedule.

FPC 102 Reading for Information

1 cr. hrs. 1 periods (1 lec.)

Development of reading skills appropriate to career objectives. Includes reading and the world of work, skills of workplace reading, and skill development in context. Also includes a focus on interpreting the printed work in a workplace context.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

FPC 103 Applied Mathematics

1 cr. hrs. 1 periods (1 lec.)

Development of mathematical skills appropriate to career objectives. Includes mathematics and the world of work, problem solving strategies, and skill development in context. Also includes a focus on basic calculations in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 104 Writing at Work

1 cr. hrs. 1 periods (1 lec.)

Development of writing skills appropriate to career objectives. Includes writing and the world of work, community through the written word, and skill development in context. Also includes a focus on practical writing in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 105 Applied Technology

1 cr. hrs. 1 periods (1 lec.)

Development of technology skills appropriate to career objectives. Includes technology and the world of work, understanding technological principles, and skill development in context. Also includes a focus on basic principles of technology in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 106 Observation at Work

1 cr. hrs. 1 periods (1 lec.)

Development of observation skills appropriate to career objectives. Includes observation, problem solving, and the world of work, strategies for observing and interpreting, and skill development in context. Also includes a focus on observing processes and behaviors at work to solve problems and make decisions.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 107 Teamwork

1 cr. hrs. 1 periods (1 lec.)

Development of teamwork proficiency appropriate to career objectives. Includes teamwork on the job, essentials for teamwork success, and skill development in context. Also includes a focus on task and relationship skills in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 108 Locating Information

1 cr. hrs. 1 periods (1 lec.)

Development of skills in locating information from graphical displays appropriate to career objectives. Includes locating information in the world of work, data and types of data displays, and skill development in context. Also includes a focus on basic data formats in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 109 Listening

1 cr. hrs. 1 periods (1 lec.)

Development of listening skills appropriate to career objectives. Includes listening and the world of work, hearing, listening, and interpreting, and skill development in context. Also includes a focus on literal comprehension, interpretation, and critical listening in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 110 Speaking English on the Job

1 cr. hrs. 1 periods (1 lec.)

Development of spoken English skills appropriate to career objectives. Includes spoken English and the world of work, key issues in spoken English, and skill development in context. Also includes a focus on basic grammar, diction, and vocabulary in a workplace context.

Information: May be taken four times for a maximum of four credit hours.
Offered: May not be offered this year, check class schedule.

FPC 150 Problem Solving in the Workplace

3 cr. hrs. 3 periods (3 lec.)

Techniques for analyzing and solving problems associated with providing services and producing goods. Includes contexts for analysis, business and industry challenges and problems, techniques to define specific problems, techniques of analysis, and problem solving protocols and strategies.

Offered: May not be offered this year, check class schedule.

French

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

FRE 050 Social and Cultural French: Food Traditions and Dining

2 cr. hrs. 2 periods (2 lec.)

Introduction to the French language presented in the context of food traditions and dining. Includes food in the culture of France, language of groceries and ingredients, and conversation for dining.

Offered: Fall.

FRE 051 Social and Cultural French: Travel

2 cr. hrs. 2 periods (2 lec.)

Introduction to the French language presented in the context of travel, from planning a trip to returning home. Includes geography and traveling in France, words and phrases related to transportation, conversation for hotels, restaurants, and tourist services, and languages of health and hygiene.

Offered: May not be offered this year, check class schedule.

FRE 052 Social and Cultural French: Cinema

2 cr. hrs. 2 periods (2 lec.)

Viewing and discussing French films from early experimentation to the present. Includes cultural values through cinema in France, major directors within cinema periods, and major films expressing modernism and contemporary French cinema.

Information: No prior knowledge of French is required, since sub-titles are provided.

Offered: Spring.

FRE 055 Language Study and Travel in Spain, Italy, and France

2 cr. hrs. 2 periods (2 lec.)

Introduction to French, Italian, and Spanish language presented in the context of travel through these three countries. Includes travel in Spain, Italy, and France, lodging, money, and transportation terminology, culinary traditions, restaurants and markets, and travel destinations.

Information: Prior language knowledge is not required. Same as ITA/SPA 055.
Offered: Spring.

FRE 101 Elementary French I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the French language. Includes developing proficiency in listening, speaking, reading, and writing. Also includes French cultural traditions.

Offered: Fall, Spring, Summer.

FRE 102 Elementary French II

4 cr. hrs. 4 periods (4 lec.)

Continuation of FRE 101. Includes increased proficiency in listening, speaking, reading, and writing. Also includes French cultural traditions.

Prerequisite(s): FRE 101.

Offered: Fall, Spring, Summer.

FRE 106 Beginning Conversation

3 cr. hrs. 3 periods (3 lec.)

Introduction to conversational French. Includes basic oral and written forms, simple grammatical structures to oral and written communication, simple interpersonal communicative interaction, various interpersonal transactions, and cultural perspectives. Also includes reading, writing, speaking, and listening skills with emphasis on oral communication.

Offered: Fall.

FRE 107 Intermediate Conversation

3 cr. hrs. 3 periods (3 lec.)

Continuation of FRE 106. Includes intermediate oral and written communication, complex grammatical structures, intermediate interpersonal communicative interaction through conversations, discuss, question, negotiate, narrate, and summarize concepts in the oral and written forms, and intermediate cultural perspectives. Also includes reading, writing, speaking, and listening skills with emphasis on oral communication.

Prerequisite(s): FRE 106.

Offered: Spring.

FRE 201 Intermediate French I

4 cr. hrs. 4 periods (4 lec.)

Continuation of FRE 102. Includes an intensive review of grammar, in addition to reading selected authors and writing short compositions. Also includes extensive practice in speaking French.

Prerequisite(s): FRE 102.

Information: Prerequisites may be waived with two years of high school French. This course will be conducted primarily in French.

Offered: Fall, Spring.

FRE 202 Intermediate French II

4 cr. hrs. 4 periods (4 lec.)

Continuation of FRE 201. Includes an emphasis on efficient and contemporary language usage.

Prerequisite(s): FRE 201.*Information:* This course will be conducted primarily in French.

Offered: Fall, Spring.

FRE 296 Independent Study in French

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent study in French literature, grammar, or special projects under the supervision of an instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

Game Design

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GAM 101 Game Design I

4 cr. hrs. 4 periods (4 lec.)

Textual analysis of game play. Includes history of games, defining play, use of rules, impact of games on culture, psychological impact of games, and working in the game industry.

Offered: Fall, Spring.

GAM 102 Game Design II

4 cr. hrs. 5 periods (3 lec., 2 lab)

Continuation of GAM 101. Includes the role of the game designer, structure of the game, formal and dramatic elements of the game, game play fun, and storyboard development.

Prerequisite(s): GAM 101.

Offered: Fall, Spring.

GAM 120 Introduction to Game Programming

2-4 cr. hrs. 2-4 periods (2-4 lec.)

Introduction to game engine programming. Includes torque game builder 2D game engine, TorqueScript language features, input interaction, object oriented TorqueScript features, image maps, and particle engine.

Prerequisite(s): GAM 101 and concurrent enrollment in MAT 145 or higher.*Corequisite(s):* MAT 145 Course MAT 145.

Offered: Spring.

GAM 201 Game Design III

4 cr. hrs. 5 periods (3 lec., 2 lab)

Continuation of GAM 102. Includes conceptualizing a game; prototyping; playtesting; functionality, completeness, and balance, controls and interface; design team; and storyboarding.

Prerequisite(s): GAM 102 and MAT 145 or higher.

Offered: May not be offered this year, check class schedule.

GAM 214 Digital Arts Business and Portfolio

2 cr. hrs. 3 periods (1 lec., 2 lab)

Business techniques for the digital arts industry. Includes designer/client relationship, fee structures for designer services, documenting time, portfolio development, and advertising and promotion.

Prerequisite(s): DAR 103.*Information:* Same as DAR 214.

Offered: Fall, Spring, Summer.

General Technical Writing

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GTW 101 Writing for Trades and Technical Occupations

3 cr. hrs. 3 periods (3 lec.)

Applied technical reading and writing components necessary for trade and industrial occupations. Includes review of grammar; spelling and sentence building basics; reading trade and technical texts critically; and practical application of writing including writing for clarity, accuracy and professionalism as they relate to job functions, occupational requirements and effective communications across trades.

Prerequisite(s): WRT 070 or 075 with a C or better, or required score on the writing assessment test for WRT 100.

Offered: Fall, Spring.

General Technologies Math

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GTM 105 Applied Technical Mathematics

3 cr. hrs. 3 periods (3 lec.)

Applied geometry and trigonometry operations. Includes review of basic math operations, review of pre-algebra, elements of geometry, plane trigonometry, and practical applications.

Prerequisite(s): MAT 086 or required score on mathematics assessment test.

Offered: Fall, Spring.

Geography

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GEO 093 Geography Workshop

.5-3 cr. hrs. 1-6 periods (.25-1.5 lec., .75-4.5 lab)

Workshop with an emphasis on geographic and lab techniques using GIS and Remote Sensing material and software.

Offered: May not be offered this year, check class schedule.

GEO 101 Physical Geography: Weather and Climate

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the physical elements. Includes weather, climate, vegetation, and soils. Also includes their importance to humans, their interrelationships, resulting patterns, and effects.

Offered: Fall, Spring, Summer.

GEO 102 Physical Geography: Land Forms and Oceans

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the surface of the earth and the forces of nature that shape it. Includes the study of volcanoes, earthquakes, glaciers, rivers, oceans, and the interrelation of these forces with humans.

Offered: Fall, Spring, Summer.

GEO 103 Cultural Geography

3 cr. hrs. 3 periods (3 lec.)

Examination of the human world from a geographic perspective. Includes geography as a discipline, culture and human geography, the changing Earth, descriptive fundamentals of population geography, migration, and geography of language and religion. Also includes rural traditions and livelihoods, urban geography, economic changes and industrialization, and political and medical geography.

Offered: Fall, Spring, Summer.

GEO 104 World Regional Geography

3 cr. hrs. 3 periods (3 lec.)

Geographic concepts and information organized by conventional regions and nations. Includes human social and natural environments in both historical and contemporary contexts. Also includes political, economic, population, and physical geographic topics appropriate for elementary and secondary education.

Offered: Fall, Spring, Summer.

GEO 233 Geography of Latin America

3 cr. hrs. 3 periods (3 lec.)

An overview of the various social science perspectives that may be employed in the study of Latin America. Includes definitions and perceptions of Latin America, landforms and natural regions, weather and climate, Iberian heritage, conquest, colonialism, and independence, political systems, and race and ethnicity before and after 1492. Also includes arts and popular culture, religion, agriculture, mining, manufacturing and tourism, settlement patterns, urbanization, migration, and development and health.

Offered: Spring.

GEO 250 Introduction to Medical Geography

3 cr. hrs. 3 periods (3 lec.)

Introduction to the spatial aspects of health and disease. Includes disease mapping, etiology, statistical associations, health care inequities, and spatial distribution of health care facilities.

Offered: Spring.

GEO 265 Mapping Concepts

1 cr. hrs. 1 periods (1 lec.)

Introduction to the practical use of maps. Includes map basics and attributes, scales and measurements, direction, geographic coordinate systems, relief and contours, and aerial photography.

Information: Same as ANT/ARC 265.

Offered: Fall.

GEO 267 Introduction to Geographic Information Systems

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the technology of geographic information systems. Includes the evolution of technology, system components, database concepts, applications, and implementation.

Recommendation: Completion of GEO 265 and basic computer skills before enrolling in this course.

Information: Same as ANT/ARC 267.

Offered: Fall.

GEO 284 Computer Cartography and CAD

3 cr. hrs. 5 periods (2 lec., 3 lab)

Cartographic techniques and hardware for computer generation of maps. Includes and introduction, methods and techniques, and applications projects.

Recommendation: Completion of ANT/ARC 265 or concurrent enrollment and CSA 101 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

GEO 296 Independent Studies in GEO

.5-6 cr. hrs. 1-12 periods (.25-3 lec., .75-9 lab)

Students independently continue their studies in Geography under the supervision of a faculty member.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

Geology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GLG 101IN Introductory Geology I: Physical Geology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the physical aspects of the Earth's crust. Includes scientific measurements, maps, and the scientific method; hands-on identification and assessment of rocks and minerals; and introduction to geology, earth composition, surface processes, subsurface processes, investigative tools, geologic structures, geologic resources, and earth history. Also includes a field trip to observe and interpret geologic processes in a natural setting.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring, Summer.

GLG 102IN Introductory Geology II: Historical Geology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the physical, chemical, and biological history of the Earth, including hands-on identification and classification of major fossil groups according to their phyla, ages, and ecosystems. Includes scientific measurements, maps, scientific method, history of historical geology (Uniformitarianism, Catastrophism); identification and interpretation of rocks and sedimentary textures, environments, and structures; geologic time, the evolution of life, planetary evolution, plate tectonics, evolution of the Earth's surface (including the physical environments, resources, and life of the Precambrian, Paleozoic, Mesozoic, and Cenozoic); and human evolution and human impacts. Also includes a fieldtrip to observe rocks and structures and interpret geologic history and fossils in a natural outdoor setting.

Recommendation: Completion of GLG 101IN or the equivalent before enrolling in this course.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

GLG 110IN Geological Disasters and Environmental Geology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Survey of geologic processes with respect to the interactions between humans and the Earth. Includes identifying geologic hazards, understanding the challenges of predicting and preventing natural disasters, and mitigating and preventing pollution; the relationship of natural resources to population distribution, resource usage and impacts, and waste management and pollution prevention; and the hydrologic cycle, plate tectonics, volcanoes, earthquakes, and catastrophic events, such as floods, fires, landslides, earthquakes, and volcanic action. Also includes water quality, resource availability, toxic and radioactive waste disposal problems and proposed solutions, global climate change, sea level rise, greenhouse gases, and extreme weather. Also includes a field trip to investigate local geologic hazards.

Prerequisite(s): GLG 101 and 101LB, or GLG 101IN.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. May be admitted by instructor with equivalent of GLG 101IN.

Offered: Spring.

GLG 140IN Introduction to Oceanography

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the study of oceans. Includes scientific measurements, lab techniques, and the scientific method, introduction to oceanography, geological, chemical, physical and biological oceanography, and the human presence in the ocean.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall.

GLG 221IN Structural Geology

4 cr. hrs. 8 periods (2 lec., 6 lab)

Study of structures from formation and deformation of rocks, of the forces causing such deformations, and the resulting geographic features. Includes field mapping techniques.

Prerequisite(s): GLG 101 and 101LB, or GLG 101IN.

Recommendation: Trigonometry is recommended before enrolling in this course.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Spring.

GLG 236 Geologic Resources

3 cr. hrs. 3 periods (3 lec.)

Survey of geologic resources, with emphasis on fossil fuels, metals, nuclear energy, and water resources. Includes an overview of geologic resources, distinctions between renewable vs. non-renewable resources, reserves, metals, non-metallic commodities, energy resources, environmental and economic concerns, geopolitical and global economic effects, and the future of geologic resources.

Recommendation: Completion of GLG 101 before enrolling in this course.

Offered: Spring.

GLG 240 Geology of Selected Regions

2-3 cr. hrs. 2-3 periods (2-3 lec.)

Geologic survey of a specific region. Includes the stratigraphy, structure, historical geology and most important geologic processes operating today. Also includes aspects of resource use by human occupants.

Prerequisite(s): GLG 101.

Recommendation: Completion of GLG 102 before enrolling in this course.

Information: May be taken four times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

GLG 240TB Geology of Selected Regions: Tucson Basin

2-3 cr. hrs. 2-3 periods (2-3 lec.)

Geologic survey of a specific region. Includes the stratigraphy, structure, historical geology and most important geological processes operating today. Also includes aspects of resource use by human occupants.

Prerequisite(s): GLG 101.

Recommendation: Completion of GLG 102 before enrolling in this course.

Information: May be taken four times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

GLG 244IN Geological Field Excursions

1-3 cr. hrs. .5-12 periods (.25-3 lec., .25-9 lab)

Field excursions providing encounters with geologic features and processes in a given geographic area. Includes focus on observing, recording and analyzing materials and processes of the selected region. May also include human-related developments associated with the geological environment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Consent of instructor is required before enrolling in this course. May likely involve overnight camping and possibly moderately strenuous hikes. May be taken four times for a maximum of twelve credits.

Offered: May not be offered this year, check class schedule.

GLG 280IN Geology of Arizona

3 cr. hrs. 5 periods (2 lec., 3 lab)

Stratigraphy, structure, and geologic history of Arizona and adjacent areas. Includes emphasis on discovery of the stories behind today's often spectacular Arizona scenery.

Prerequisite(s): GLG 101 and 102.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. Lab consists of multi-day field excursions.

Offered: May not be offered this year, check class schedule.

GLG 296 Independent Studies in Geology

.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)

Students independently continue their studies in Geology under the supervision of a faculty member.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring.

Geospatial Information Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GIS 267 Introduction to Geographic Information Systems

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the technology of geographic information systems. Includes the evolution of the technology, system components, database concepts, applications and implementation.

Prerequisite(s): ANT/ARC/GEO 265 or concurrent enrollment.

Information: Basic computer skills are required before enrolling in this course. Same as ANT/ARC/GEO 267.

Offered: Spring

GIS 281 Global Positioning Systems

2 cr. hrs. 2 periods (2 lec.)

Introduction to the use of Global Positioning Systems (GPS) receivers in a field setting for non-technical applications. Includes GPS operation, field data, and software packages and programs. Also includes using museum collections, equipment, resources, and facilities of the Archaeology Centre.

Information: Same as ANT/ARC 281.

Offered: Fall.

GIS 286 Electronic and Digital Field Mapping

4 cr. hrs. 8 periods (2 lec., 6 lab)

Overview of the creation of electronic and digital maps in a field setting. Includes introduction, instrument operation, field data, producing maps, and computer applications.

Prerequisite(s): ANT/ARC 265 and ANT/ARC/GIS 281.

Recommendation: Consult instructor for alternative *Prerequisite(s)*.

Information: Same as ANT/ARC 286.

Offered: Spring.

German

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GER 050 Social and Cultural German: Food Traditions and Dining

2 cr. hrs. 2 periods (2 lec.)

Introduction to the German language presented in the context of food traditions and dining. Includes food in the culture of Germany, language of groceries and ingredients, and conversation for dining. Also includes cultural contexts of food, reading recipes, and special ingredients.

Information: Does not include cooking techniques.

Offered: May not be offered this year, check class schedule.

GER 051 Social and Cultural German: Travel

2 cr. hrs. 2 periods (2 lec.)

Introduction to the German language presented in the context of travel, from planning a trip to returning home. Includes travel in Germany, words, phrases, and beginning conversation related to transportation, conversation for hotels, restaurants, and tourist services, and language of health and hygiene. Also includes terms and place names.

Offered: May not be offered this year, check class schedule.

GER 101 Elementary German I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the German language in developing proficiency in listening, speaking, reading, and writing. Includes nouns and pronouns pronunciation, communication, basic grammar, and introduction to German culture.

Offered: Fall, Spring.

GER 102 Elementary German II

4 cr. hrs. 4 periods (4 lec.)

Continuation of GER 101. Includes increased proficiency in listening, speaking, reading, and writing the German language. Also includes pronunciation, communication, intermediate grammar, and German cultural traditions.

Information: Completion of GER 101 or one year of high school German is required before enrolling in this course.

Offered: Fall, Spring.

GER 201 Intermediate German I

4 cr. hrs. 4 periods (4 lec.)

Continuation of GER 102. Includes an intensive review of grammar, pronunciation, communication, advanced grammar, readings of selected authors, and German culture.

Information: Completion of GER 102 or two years of high school German is required before enrolling in this course.

Offered: Fall, Spring.

GER 202 Intermediate German II

4 cr. hrs. 4 periods (4 lec.)

Continuation of GER 201. Includes pronunciation, communication, advanced grammar, and German culture.

Prerequisite(s): GER 201.

Offered: Fall, Spring.

GER 296 Independent Study in German

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent study in German literature, or special projects under the supervision of an instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

Greek

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

GRK 101 Elementary Modern Greek I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the modern Greek language. Includes basic Greek alphabet system, basic Greek grammar structures, composing Greek, formulating answers in Greek, and Greek culture. Also includes a foundation in listening, speaking, reading, writing, and cultural awareness.

Offered: Fall.

GRK 102 Elementary Modern Greek II

4 cr. hrs. 4 periods (4 lec.)

Continuation of GRK 101. Includes additional Greek grammar and structure, additional topics in Greek, additional composing in Greek, and additional Greek culture. Also includes an additional level of listening, speaking, reading, writing, and cultural awareness.

Prerequisite(s): GRK 101.

Offered: Spring.

Health Care

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HCA 102 Drug Calculations

1 cr. hrs. 1 periods (1 lec.)

Computation of medication dosage. Includes basic mathematics review, calculation of medications ordered in the metric system, the apothecary system, the household system, and in units and milliequivalents. Also includes reading medication labels, and calculation of injectable medication dosages.

Corequisite(s): HCA 155, NRS 104

Offered: Fall, Spring.

HCA 103 Orientation to Pharmacology

3 cr. hrs. 3 periods (3 lec.)

An overview of pharmacology for allied health professionals. Includes the chemical, generic, trade names and use for drugs. Includes pharmacological principles of drugs, routes of drug administration, and Federal and Arizona regulations. Also includes drug measurement, administration, and prescription.

Offered: May not be offered this year, check class schedule.

HCA 119 Orientation to Human Anatomy and Physiology

2 cr. hrs. 2 periods (2 lec.)

Orientation to basic anatomy and physiology appropriate for the health care setting. Includes the application of medical terminology for the health care environment.

Offered: May not be offered this year, check class schedule.

HCA 154 Introduction to Health Care Delivery

3 cr. hrs. 3 periods (3 lec.)

Overview of current health care professions including career and labor market information. Includes health care delivery systems, third-party payers, and facility ownership. Includes organization structure, patients' rights and quality care, health care and life values, workers' rights and responsibilities. Includes healthful living practices to include nutrition, stress management and exercise. Includes OSHA standard precautions and facility safety. Also includes a focus on communication and intercultural communication strategies to promote teamwork.

Offered: Fall, Spring.

HCA 155 Introduction to Pharmacology

3 cr. hrs. 3 periods (3 lec.)

Introduction to Pharmacology Application of the nursing process to actions, uses and effects of medications and intended for nursing students. Includes introduction to the study of pharmacology, the nursing process and fundamentals of medication therapy, pharmacokinetics and pharmacodynamics, and applying the nursing process for clients receiving various medications.

Corequisite(s): HCA 102, NRS 104

Offered: Fall, Spring.

Health Continuing Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HCE 200 Surgical Technologist Refresher

3 cr. hrs. 3 periods (3 lec.)

Preparation for the national Certified Surgical Technologist Exam. Includes anatomy and physiology, microbiology and wound healing, pharmacology, computer skills, electricity, robotics, surgical procedures, and perioperative patient care.

Information: Prior to enrolling in this course, students must be current or previously certified surgical technologists or uncertified graduates of a surgical technology program accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) or Accrediting Bureau of Health Education Schools (ABHES).

Offered: May not be offered this year, check class schedule.

HCE 250 Intravenous Medication Therapy

3 cr. hrs. 3 periods (3 lec.)

Techniques for licensed personnel to administer IV therapy with selected pre-mixed medications and solutions. Includes principles of IV therapy, fluid balance in the body, local and systemic complications, therapy and patient care, medication delivery equipment, therapy monitoring and documentation, and skills demonstration.

Recommendation: Licensed Practical Nurse or consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

HCE 251 Initiating Intravenous Therapy

1 cr. hrs. 1 periods (1 lec.)

Theory and practice needed for the current LPN to start, maintain, and discontinue intravenous (IV) therapy (peripheral venipuncture) under the supervision of a registered nurse. Includes anatomy and physiology, sites for venipuncture, fluid replacement therapy, infusion equipment, intravenous solutions, flowrate of IV infusion, starting an IV infusion, nursing management of IV therapy, skills demonstration and practice, and clinical practice and certification.

Recommendation: Licensed Practical Nurse or consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Health Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HED 136 Introduction to Health Sciences

3 cr. hrs. 3 periods (3 lec.)

Contemporary health-related issues for all dimensions of the individual. Includes understanding health for ourselves and others, a lifetime of wellness, responsible sexuality, and avoiding harmful habits.

Corequisite(s):

Offered: May not be offered this year, check class schedule.

HED 140 First Aid and Cardiopulmonary Resuscitation

1 cr. hrs. 1 periods (1 lec.)

Theory and practice for treatment of infants, children, and adults. Includes standard first aid and cardiopulmonary resuscitation (CPR).

Offered: Fall, Spring, Summer.

HED 140A First Aid

.5 cr. hrs. .5 periods (.5 lec.)

Standard first aid for the immediate care for victims of injuries or sudden illness. Includes recognizing emergencies deciding to act, preparing for emergencies, injuries, cuts, scrapes, bruises, and burns. Also includes sudden illness, poisoning, battling the elements, and the young and elderly.

Information: HED 140A and 140B together constitute HED 140.

Offered: May not be offered this year, check class schedule.

HED 140B Cardiopulmonary Resuscitation (CPR)

.5 cr. hrs. .5 periods (.5 lec.)

Emergency first aid for respiratory failure and cardiac arrest. Includes recognizing an emergency, understanding the human body, and care for life threatening emergencies.

Information: HED 140A and 140B together constitute HED 140.

Offered: May not be offered this year, check class schedule.

Health Information Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HIT 100 Introduction to Health Information Management

2 cr. hrs. 2 periods (2 lec.)

Overview of organization and analysis of the medical health record. Includes introduction to health information management; accreditation; licensure and regulatory agencies; medical health record; ancillary services; health record systems: ambulatory, rehabilitation, long-term, and hospice care; healthcare forms, design, and control; nomenclature and classification systems; indexes, registers, and databases; healthcare statistics; reimbursement; computer systems in healthcare; legal aspects of the medical record; information security; and quality control management.

Offered: Fall, Spring.

HIT 101 ICD-9 Coding I

3 cr. hrs. 3 periods (3 lec.)

Overview of the International Classification of Diseases- 9th Edition (ICD-9) coding classification system. Includes terminology, principles and components of the ICD-9 coding system, codes for diseases and conditions, information from health records, and coding for highest specificity.

Prerequisite(s): HIT 110 and OAP 162.

Recommendation: Completion of HIT 100 and OAP 262, 263 is recommended before enrolling in the course.

Information: Experience in the medical field may be substituted for the prerequisite and recommendations. See a full-time OAP faculty member for details.

Offered: Fall, Spring.

HIT 102 CPT Coding

3 cr. hrs. 3 periods (3 lec.)

Study and application of Current Procedural Terminology (CPT) and Health Care Procedural Coding System (HCPCS) coding. Includes coding systems, reimbursement, coding guidelines and standards, evaluation and management, and surgical, radiology, pathology, and laboratory and medicine procedures.

Prerequisite(s): HIT 101, 110 and OAP 162.

Recommendation: Completion of HIT 111 and OAP 262, 263 is recommended before enrolling in this course.

Information: Experience in the medical field may be substituted for the prerequisite and recommendations. See a full-time OAP faculty member for details.

Offered: Fall, Spring.

HIT 110 Medical Billing and Insurance I

3 cr. hrs. 3 periods (3 lec.)

Overview and principles of the basics of health insurance and medical billing. Includes principles of health insurance and medical billing, health insurance contracts, claims process, insurance terminology, abbreviations, and symbols, diagnostic and procedural coding (with emphasis on medical terminology, anatomy and physiology), client eligibility and reimbursement processes, health care statistics, and supervision and management.

Prerequisite(s): OAP 162.

Offered: Fall, Spring.

HIT 111 Medical Billing and Insurance II

3 cr. hrs. 3 periods (3 lec.)

Continuation of HIT 110. Includes managed care systems, eligibility for managed care systems, Medicare requirements, Medicaid programs or Arizona Health Care Cost Containment System (AHCCCS), TRICARE and CHAMPA, workers' compensation, disability insurance, procedural and diagnostic coding, billing software, and hospital billing.

Prerequisite(s): HIT 110.

Offered: Fall, Spring.

HIT 120 Pharmacology for Health Information Technology

2 cr. hrs. 2 periods (2 lec.)

Basic terminology and spelling of commonly used drugs. Includes drug names, reference books, classification of drugs, and abbreviations and symbols.

Offered: Fall, Spring.

HIT 201 ICD-9 Coding II

3 cr. hrs. 3 periods (3 lec.)

Advanced use of references, source documents, and computer software for diagnostic coding in health care settings for outpatient and inpatient hospital coding. Includes interpretation of ICD-9 codes relative to inpatient and outpatient hospital reimbursement, analysis of inpatient and outpatient hospital source documents in a variety of settings to determine proper coding, prospective payment systems, auditing and analysis of patient charts, application of inpatient and outpatient diagnostic codes in the integumentary system, musculoskeletal system, respiratory system, cardiovascular system, digestive system, urinary, female, and male reproductive systems, endocrine and nervous systems, and for interventional radiology services, development of compliance program for enforcement of regulatory and governmental rules, application of confidentiality and privacy policies and procedures, abstracting data, and computer applications.

Prerequisite(s): HIT 102.

Offered: Fall, Spring.

HIT 202 Hospital Procedural Coding

3 cr. hrs. 3 periods (3 lec.)

Focus on outpatient and inpatient procedural coding. Includes Current Procedural Terminology (CPT), ICD-9 Volume 3, and Health Care Procedural Codes (HPCS) guidelines update, modifier applications, evaluation and management services, code for procedures, integumentary system, musculoskeletal system, respiratory system, cardiovascular system, digestive system, urinary/male reproductive system, female reproductive system, endocrine/nervous systems, ocular and auditory systems, interventional radiology, prospective payment systems, abstracting data, current reimbursement issues, and computer applications.

Prerequisite(s): HIT 102.

Offered: Fall, Spring.

HIT 210 Medical Quality Assurance and Supervision

3 cr. hrs. 3 periods (3 lec.)

Principles and practices of healthcare management and personnel supervision. Includes health information management, required management skills, management planning, policies and procedures, human resources supervisory role, job analysis, interviews, evaluations, behavior, and motivation, meetings, orientations, and training, HIPPA regulations, productivity measurement and performance standards, organization models, technologies in health care, accreditation and licensure, ergonomics, and planning for a professional career in health information management.

Prerequisite(s): HIT 100, 110, 111.

Offered: Fall, Spring.

HIT 211 Medicolegal Aspects in Health Information Management

3 cr. hrs. 3 periods (3 lec.)

Introduction to regulatory requirements in health care and application of general principles of law in health information management and legal proceedings. Includes American legal system, court systems and legal procedures, principles of liability, patient record requirements, access to health information, patient rights and confidentiality, judicial process of health information, specialized patient records, risk management and quality management, HIV information, computerized patient records, health care fraud and abuse, and ethics.

Prerequisite(s): HIT 100, 110, 111.

Offered: Fall.

HIT 290 Health Information Technology Internship

4 cr. hrs. 16 periods (1 lec., 15 lab)

Volunteer Health Information Technology field experience at an approved work site. Includes communications, positive work attitudes, ethics, progress review, health information systems, professional development, employment strategies, and final evaluation within a classroom seminar setting.

Prerequisite(s): OAP 263, HIT 111 or 202.

Information: Designed for students in their final semester of course work in the Health Information Technology option.

Offered: Spring.

Hebrew

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HEB 101 Elementary Modern Hebrew I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Elementary Modern Hebrew language. Includes basic Hebrew alphabet system, basic Hebrew grammar structures, writing and oral proficiency, listening and reading comprehension, and Israeli/Jewish culture.

Offered: May not be offered this year, check class schedule.

HEB 102 Elementary Modern Hebrew II

4 cr. hrs. 4 periods (4 lec.)

Continuation of HEB 101. Includes additional Hebrew grammar and structure, additional writing and oral proficiency, listening and reading comprehension, and additional Israeli/Jewish culture.

Prerequisite(s): HEB 101.

Offered: May not be offered this year, check class schedule.

HEB 201 Intermediate Modern Hebrew I

4 cr. hrs. 4 periods (4 lec.)

Continuation of HEB 102. Includes intermediate grammar and structures, intermediate writing and oral proficiency, intermediate listening and reading comprehension, and intermediate Israeli/Jewish culture.

Prerequisite(s): HEB 102.

Offered: May not be offered this year, check class schedule.

HEB 202 Intermediate Modern Hebrew II

4 cr. hrs. 4 periods (4 lec.)

Continuation of HEB 201. Includes additional intermediate Hebrew grammar and sentence structures, additional intermediate writing and oral proficiency, additional intermediate listening and reading comprehension, and additional intermediate Israeli/Jewish culture.

Prerequisite(s): HEB 201.

Offered: May not be offered this year, check class schedule.

History

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HIS 101 Introduction to Western Civilization I

3 cr. hrs. 3 periods (3 lec.)

Pre-history to the Wars of Religion, a period extending from 10,000 BCE to 1648 CE. Includes transition from pre-historic to the historic period, Greco-Roman world, Early, Central, and Late Middle Ages, and Renaissance and Reformation.

Offered: Fall, Spring, Summer.

HIS 102 Introduction to Western Civilization II

3 cr. hrs. 3 periods (3 lec.)

History of the origins and development of the modern Western world. Includes Wars of Religion, the Enlightenment, the Eighteenth century, the Nineteenth century, and the Twentieth century.

Offered: Fall, Spring, Summer.

HIS 105 Introduction to Chicano Studies

3 cr. hrs. 3 periods (3 lec.)

Chicano(a) life in historical context since 1848. Includes defining Chicanismo ethos, Chicano(a) formations of gender, race, ethnicity, sexuality and class, and human rights.

Offered: Fall, Spring.

HIS 110 Introduction to Community and Oral History

3 cr. hrs. 3 periods (3 lec.)

Exploration of history and its sub-fields to enable and promote the preparation of professional history products. Includes exploring community, nature of information, varieties of history, historiography, oral history, written record, writing history, libraries and archives, museums, computer access and sources, visual record, and historic preservation. Also includes the exploration of career opportunities.

Offered: May not be offered this year, check class schedule.

HIS 113 Chinese Civilization

3 cr. hrs. 3 periods (3 lec.)

Introductory survey of the civilization of China from its origins to the present. Formative Period (prehistory - 221 B.C.), unification and expansion (221 B.C. - 221 A.D.) period of disunity (222-588), flowering of Chinese culture (589-1279), impact of the Mongols on Chinese civilization (1280-1368), Ming Dynasty peace and prosperity (1368-1644), Qing Dynasty - The Manchu Conquest (1644-1911), Republican China (1912-1949), and People's Republic of

China (1949-).
Offered: Fall, Spring.

HIS 114 Japanese Civilization
3 cr. hrs. 3 periods (3 lec.)

Introductory survey of the civilization of Japan from its origins to the present. Includes Formative Period (prehistory-250 A.D.), influence of Chinese civilization on Japan (300-794), emergence of uniquely Japanese cultural forms and Heian Period (794-1185), Shogun -establishment of military government and Kamakura Period (1185-1336), civil war and the reunification of Japan and Ashikaga Period (1336-1573), Tokugawa Period (1600-1867), Meiji Period (1868-1912), Taisho Period (1912-1925), Showa Period (1926-1989), and Heisei Period (1990-).
Offered: Fall, Spring.

HIS 115 Civilization of India
3 cr. hrs. 3 periods (3 lec.)

Religious, cultural and historical traditions of India from ancient times to the present. Includes origins of Indian civilization, heterodox challenge and Hindu response, coming of Islam and the new social vision, eclipse of Islam and the rise of Europe, Indian polity in transition, and nationhood and the modern world.
Offered: May not be offered this year, check class schedule.

HIS 122 Tohono O'odham History and Culture
3 cr. hrs. 3 periods (3 lec.)

Survey of Tohono O'odham culture, historical development, and modern issues. Includes development of culture and world view, sources of Tohono O'odham history, role in economic and social development of Northwestern Mexico and Southwestern United States, and contemporary Tohono O'odham issues.
Offered: May not be offered this year, check class schedule.

HIS 124 History and Culture of the Yaqui People
3 cr. hrs. 3 periods (3 lec.)

Survey of the cultural heritage of the Yaqui people and the history of their struggles to protect Yaqui land and customs. Includes Yaqui origins, pre-Columbian Yaqui society, oral traditions and world view, early Spanish contacts, Catholic influences, economic development, rebellions, resistance and leadership, and policies regarding Native Americans. Also includes deportation, genocide, the Mexican Revolution, relocation and adaptation strategies, twenty-first century Yaquis, and research studies.
Offered: May not be offered this year, check class schedule.

HIS 127 History and Culture of the Mexican-American in the Southwest
3 cr. hrs. 3 periods (3 lec.)

Historical survey of the Mexican (a) / Chicano (a) peoples from their indigenous origins in Meso-America and the Gran Chichimeca to the present in the United States. Includes chicano (a) historiography, movements north under Spain and Mexico, nineteenth century to 1880: repression and resistance, making of the Chicano (a) worker to WWII, and toward the 21st century: struggles continue. Also includes the totality of Chicano (a) life since the Treaty of Guadalupe Hidalgo and challenges into the 21st century.
Information: Same as ANT 127.
Offered: Fall, Spring.

HIS 135 Pre-Columbian Art
3 cr. hrs. 3 periods (3 lec.)

Anthropological and art historical survey of the indigenous cultures of the Americas from the earliest times to the period of the Spanish conquest. Includes non-Western art and Western gaze, humanity in the Americas, art and architecture of Pre-Columbian Andes, art and architecture of Pre-Columbian Mesoamerica, and North American indigenous art and architecture.
Information: Same as ANT/ART 135.
Offered: May not be offered this year, check class schedule.

HIS 141 History of the United States I
3 cr. hrs. 3 periods (3 lec.)

Survey of the major developments in American history from the Columbian voyages to the Era of Reconstruction. Includes Colonial America, the Formative Years - 1776-1815, the Early National Period - 1815-1850, and the coming of the Civil War and its aftermath. Also includes the social, intellectual, and political aspects of early American life.
Offered: Fall, Spring, Summer.

HIS 142 History of the United States II
3 cr. hrs. 3 periods (3 lec.)

Survey of the major developments in American history from Era of Reconstruction to the present. Includes the era of Reconstruction, the emergence of modern America, the Early 20th Century, and America as a world power. Also includes the social, intellectual, and political aspects of contemporary American life.
Offered: Fall, Spring, Summer.

HIS 147 History of Arizona
3 cr. hrs. 3 periods (3 lec.)

Survey of the major developments in the history of Arizona. Includes the Pre-Columbian period through the Spanish era, the Mexican Republic, the years as a U.S. territory, and the time since statehood to the present. Also includes the contributions of the various peoples who have formed the unique cultural and ethnic fabric of this area.
Offered: Fall, Spring, Summer.

HIS 148 History of Indians of North America
3 cr. hrs. 3 periods (3 lec.)

History of the cultural development of Native Americans of North America and the interrelations of cultures. Includes Native American origins, early economic and social development, Europeans, eras in Native American history, modern leadership, and research studies.
Information: Same as ANT 148.
Offered: Fall, Spring.

HIS 150 African-American History and People
3 cr. hrs. 3 periods (3 lec.)

African-American history from the colonial period to the present. Includes identity, double consciousness, culture and arts, and political protest.
Information: Same as ANT 150.
Offered: May not be offered this year, check class schedule.

HIS 160 Latin America Before Independence
3 cr. hrs. 3 periods (3 lec.)

Survey of the history and people of Latin America from indigenous origins to independence. Includes theory and geography, indigenous Latin America, European background, colonial economy and society, and resistance and movements for independence in Latin America.
Recommendation: Placement on PCC assessment tests above REA 091 and into WRT 101.
Information: Course meets the AGECE Special Requirements of "I" (Intensive Writing), "G" (Global Awareness) and "C" (Cultural Diversity). Students will have writing assignments that require college level skills, and writing quality will be graded.
Offered: Fall, Spring.

HIS 161 Modern Latin America
3 cr. hrs. 3 periods (3 lec.)

Survey of the history and people of Latin America from Independence to the present. Includes Post-Colonial consolidation, early Twentieth Century, United States - Latin America relations, guerrilla movements and reaction and Latin America today.
Recommendation: HIS 160, and placement on PCC assessment exams above REA 091 and into WRT 101.
Information: Course meets the AGECE Special Requirements of "I" (Intensive Writing), "G" (Global Awareness), and "C" (Cultural Diversity). Students will have writing assignments that require college level skills, and writing quality will be graded.
Offered: Fall, Spring.

HIS 165 History of Mexico I
3 cr. hrs. 3 periods (3 lec.)

Survey of Mesoamerican civilizations through Spanish conquest and colonization. Includes historiographical theories and Mesoamerica, Spanish invasions and conquest, colonial New Spain, and late colonial period and independence and legacies of Mesoamerica and colonialism.
Offered: May not be offered this year, check class schedule.

HIS 166 History of Mexico II
3 cr. hrs. 3 periods (3 lec.)

Survey from early nation-building to the present. Includes historiographical theories, chronologies, vocabulary and geographies, and the conflicts of Nation Building, El Porfiriato, the revolution, and institutionalized revolution.
Offered: Spring.

HIS 170 History and People of Africa
3 cr. hrs. 3 periods (3 lec.)

Survey of the political and cultural history of Africa from pre-historic settlements to the modern era. Includes earliest people of Africa, internal development of African societies, impact of Islam, emerging world economy, age of European expansion, war and post war period, anti-colonial movements, and the Third World.
Offered: May not be offered this year, check class schedule.

HIS 180 Women in Western History
3 cr. hrs. 3 periods (3 lec.)

Survey of women's history in the Western World from Antiquity to the Modern Age. Includes Ancient Near Eastern civilizations, women of the Classical World, medieval women, reformation and revolution in early modern and pro-

gressive eras, women and war in the Western World, and postwar social developments and movements.

Offered: May not be offered this year, check class schedule.

HIS 244 Western America

3 cr. hrs. 3 periods (3 lec.)

Survey of the patterns of American expansion and settlement in the Western United States. Includes mythology and terminology surrounding the West, factors that made the West, political power and warfare, cultural and gender contributions to the West, and historiographers of the American West.

Offered: May not be offered this year, check class schedule.

HIS 253 History of Women in the United States: Early America

3 cr. hrs. 3 periods (3 lec.)

Survey of American women's history from Colonization to the turn of the century. Includes history and politics of the region and country, women of the new republic, transformation of a nation, nineteenth century social and economic development of women, and civil ware, reconstruction, progressivism, and suffrage.

Offered: May not be offered this year, check class schedule.

HIS 254 History of Women in the United States: The 20th Century

3 cr. hrs. 3 periods (3 lec.)

Survey of American women's history from 1900 to the present. Includes early 20th century gender, race/ethnicity, class formation, women and war, civil rights, feminist, and other social movements, and feminism's change since the 1970's.

Offered: Spring.

HIS 274 The Holocaust

3 cr. hrs. 3 periods (3 lec.)

Causes and legacies of the Nazi assault on humanity. Includes the history of hate in Europe, historical antecedents and preconditions, Third Reich and creation of the racial state, from isolation to the "Final Solution", aftermath (1945-) and the Holocaust and relevant events.

Offered: Fall, Spring, Summer.

HIS 277 History of the Middle East: From the Rise of Islam to 1453

3 cr. hrs. 3 periods (3 lec.)

Survey of the history, religion, and culture of Muslim societies. Includes the Middle East in the Sixth Century CE, Muhammad and Qur'an, Islam and the Islamic State, Fatamids, Seljuks, and the Crusades, Mongols, Mamlue Egypt, and the Ottoman Turks.

Offered: Fall, Spring.

HIS 278 History of the Middle East: From 1453 to the Present Age

3 cr. hrs. 3 periods (3 lec.)

Survey of the history, religion and culture of the Islamic world from the fifteenth century through the modern period. Includes the Ottoman Empire, Safavid Empire, European imperialism and the early modern Middle East, world wars and the Middle East, and the modern Middle East.

Offered: Fall, Spring.

HIS 280 History of the World Wars

3 cr. hrs. 3 periods (3 lec.)

Survey of the two world wars of the twentieth century. Includes prelude to war, outbreak of the great war, war of two fronts, inter-war years, World War II, and post war world. Also includes changes created in society, government, and international relations as a result of the two wars.

Offered: Fall, Spring.

HIS 281 Vietnam, Soviet Confrontations, and the Cold War

3 cr. hrs. 3 periods (3 lec.)

Causes and effects of US-Soviet confrontations from WW II to 1994. Includes origins of the Cold War from WW II, initial Soviet probes, challenges in the Far East, probes and rhetoric, Soviet globalism, Vietnam, period of detente, end of detente, new challenge to Soviet Expansionism, and new vision and new world order.

Information: This is a follow-up course to HIS 280 History of the World Wars, however HIS 280 is not a prerequisite. This course will require a college level reading ability.

Offered: Fall, Spring.

HIS 284 Modern Israel and Arab/Israeli Relations

3 cr. hrs. 3 periods (3 lec.)

Introduction to the modern State of Israel, Arab/Israeli relations, and the United States involvement in the Middle East, from the rise of Zionism in 19th century Europe to the present. Includes origins of modern Israel and Arab/Israeli relationships up to 1917, Palestine mandate, Zionist state-building, and Jewish/Arab relations up to 1948, State of Israel relations with Arab States, search for security, and U.S.'s role between 1948-1967, Arab/Israeli/Palestinian relations, quest for peace, and US.'s role between 1967-1984, Palestinian/Arab/Israeli relations and U.S.'s involvement in global and regional events

from 1984 to the present.

Offered: Fall, Spring.

HIS 296 Independent Studies in History

1-4 cr. hrs. .5-16 periods (.25-4 lec., .25-12 lab)

Independent study in history. Includes topic identification, research plan, data gathering, and presentation of findings.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

Histotechnology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HTP 100 Histotechniques I

5 cr. hrs. 7 periods (3 lec., 4 lab)

Introduction to the fundamental techniques of histology. Includes fixation, processing, instrumentation, safety, and routine staining.

Prerequisite(s): HTP 210.

Offered: Spring.

HTP 199 Introduction to Co-op: Histotechnology Research/Development

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience.

Prerequisite(s): HTP 200.

Corequisite(s): HTP 199WK

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall.

HTP 199WK Co-op Work: Histotechnology Research/Development

4 cr. hrs. 20 periods (20 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors in a research setting.

Prerequisite(s): HTP 200.

Corequisite(s): HTP 199

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall.

HTP 200 Histotechniques II

5 cr. hrs. 7 periods (3 lec., 4 lab)

Continuation of HTP 100. Introduction to the fundamental techniques of histology. Includes connective and muscle tissue, nerves, microorganisms, pigments, minerals, and cytoplasmic granules, and carbohydrates and amyloid.

Offered: Summer.

HTP 201 Histotechniques III

4 cr. hrs. 4 periods (4 lec.)

Continuation of HTP 200. Survey of special Histotechniques. Includes microwave technology for histology, immunohistochemistry, enzyme histochemistry, electron microscopy, in-situ hybridization, and immunofluorescent.

Prerequisite(s): HTP 199, 199WK, 200.

Offered: Spring

HTP 202 Histotechniques IV

3 cr. hrs. 3 periods (3 lec.)

Continuation of HTP 201. Preparation for the ASCP (American Society for Clinical Pathologists) Certification. Includes the ASCP organization and testing, safety in the Histology lab, fixation, processing, microtomy, nuclear and cytoplasmic staining, and special staining.

Prerequisite(s): HTP 201, and 299WK or concurrent enrollment.

Offered: Spring.

HTP 210 Histology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the microscopy of human cells and tissues. Includes histology, cytoplasm, nucleus, extracellular matrix, epithelia, connective tissues, muscle, and systems of the human body. Also includes regeneration, and molecular mechanisms of cellular identity.

Prerequisite(s): BIO 156IN or required score on assessment test, CHM 130 or higher, and MAT 122 or higher.

Information: Computer proficiency is expected of students in the Histotechnology program.

Offered: Fall.

HTP 299 Introduction to Co-op: Histotechnology Clinical

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Preparation of job-related objectives, individual progress and advancement on the job, labor relations, role of management, and evaluation of student work experience.

Prerequisite(s): HTP 199, 199WK, 200.

Corequisite(s): HTP 299WK

Information: Consent of instructor is required before enrolling in this course.

Offered: Spring.

HTP 299WK Co-op Work: Histotechnology Clinical

4 cr. hrs. 20 periods (20 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors in a clinical setting.

Corequisite(s): HTP 299

Information: May be taken two times for a maximum of eight credit hours. At least one cooperative education experience must take place in a clinical setting. Prerequisite(s): HTP 199, 199WK, 200. Consent of instructor is required before enrolling in this course.

Offered: Spring.

Honors Program

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HON 101 Honors Colloquium

3 cr. hrs. 3 periods (3 lec.)

Dynamic, interdisciplinary course introducing honors students to the adventure of scholarly research, writing, and conversation. Includes defining and debating contemporary social issues in relation to history, science, politics, economics, technology, psychology, and the arts. Also includes encouraging students to develop their creativity; enhance their practices of critical reflection, argumentation, and collaboration; and explore their understandings of cultural diversity in local and global contexts.

Information: Admission to the Honors program is required before enrolling in this course.

Offered: Fall, Spring.

HON 210 College Honors Advisory Council

1 cr. hrs. 1 periods (1 lec.)

Student representative to the College Honors Advisory Council (CHAC). Includes CHAC meetings, reports, special Honors Program events, and end of semester report. Also includes local campus activities.

Information: May be taken three times for a maximum of three credit hours.

Offered: Fall, Spring.

HON 244 Honors Field Excursions

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Field excursion to provide direct experience of foreign cultures and people and of academic development events through travel and study. Includes a range of visits to foreign or domestic cultural and educational sites, local field excursions, or attendance at conferences and meetings.

Recommendation: Consult instructor for prerequisites specific to planned excursion.

Information: May require foreign or domestic travel expenses. May be taken four times for a maximum of twelve credits hours.

Offered: May not be offered this year, check class schedule.

HON 296 Honors Independent Study Project

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Exploration of special interest areas for Honors students. Content to be determined jointly by student and faculty mentor.

Prerequisite(s): HON 101.

Information: May be taken three times for a maximum of three credit hours.

Offered: Fall, Spring.

Hotel & Restaurant Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HRM 100 Introduction to the Hospitality Industry

3 cr. hrs. 3 periods (3 lec.)

Overview of the hospitality, travel, and tourism industry. Includes hospitality careers, foodservice, restaurant organization, hotels and hotel organization, meeting industry, management and leadership, human resources, marketing and selling, marketing communications, management companies, franchising, and ethics in hospitality management.

Offered: Fall, Spring.

HRM 101 Front Office Procedures

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures for front office operations in hotels and resorts. Includes classification of hotels, hotel organization, front office operations, reservations, registration, front office accounting, check out and settlement, night audit, planning and evaluating operations, revenue management, and managing human resources.

Offered: Fall, Spring.

HRM 104 Hotel Food and Beverage Management

3 cr. hrs. 3 periods (3 lec.)

Hotel food and beverage operations and management. Includes volume food management history, management structures and functions, personnel management, facilities, tools, and equipment, purchasing and storage, beverage management and service, controlling costs/quality assurance, food preparation techniques, sanitation, liability issues, menus and recipes, and food products.

Offered: Fall.

HRM 110 Food Service Systems Management

3 cr. hrs. 3 periods (3 lec.)

Introductory course identifying and describing the various interrelated components of systematic foodservice management. Students will be introduced to cost management theory, system control, and financial management.

Offered: Fall, Spring.

HRM 111 Commercial Food

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to all facets of hot foods in a commercial kitchen including the application of the principles, procedures, and the techniques involved in small or large quantity food preparation and production.

Prerequisite(s): HRM 110.

Offered: Fall, Spring.

HRM 120 Meetings and Convention Management

3 cr. hrs. 3 periods (3 lec.)

Principles for the professional meeting manager. Includes site selection, conventions and visitors bureaus, the art of negotiation, confirmation letters, contracts, and lease agreements, program planning, budgeting and financial management, liability and convention/meeting insurance, housing, working with meeting facilities, food and beverage arrangements, transportation, audio-visual equipment, and exhibitions.

Offered: Summer.

HRM 150 Executive Housekeeping

3 cr. hrs. 3 periods (3 lec.)

Foundations and applications of housekeeping operations. Includes housekeeping techniques, organizational planning and laundry operations, and procedures and guidelines for security and safety.

Offered: Fall, Spring.

HRM 199 Introduction to Co-op: Hospitality

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Corequisite(s): HRM 199WK

Offered: Fall, Spring.

HRM 199WK Co-op Work: Hospitality

1-8 cr. hrs. 5-40 periods (5-40 lab)

See cooperative Education section for description.

Corequisite(s): HRM 199

Offered: Fall, Spring.

HRM 235 Hospitality Law

3 cr. hrs. 3 periods (3 lec.)

Examination of legal aspects of hospitality management. Includes basic legal principles governing hospitality operation, hotel-guest relationship, hotel's duties to guest and others, laws relating to restaurants, foodservice, and bars, and laws relating to hotel employees and general hotel operations.

Prerequisite(s): HRM 100.

Offered: Fall.

HRM 245 Hospitality Human Resource Management

3 cr. hrs. 3 periods (3 lec.)

Examination of personnel issues. Includes recruitment, selection, orientation, training, wage and benefit, legal issues, and employee appraisal.

Prerequisite(s): HRM 100.

Offered: Spring.

HRM 299 Introduction to Co-op: Hotel and Restaurant Management

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Prerequisite(s): A minimum of 12 credit hours of Hospitality prefix courses or one year of related industry work experience is required before enrolling in this course.

Corequisite(s): HRM 299WK

Offered: Fall, Spring.

HRM 299WK Co-op Work: Hotel & Restaurant Management

1-3 cr. hrs. 5-15 periods (5-15 lab)

See Cooperative Education section for description.

Prerequisite(s): A minimum of 12 credit hours of Hospitality prefix courses or one year of related industry work experience is required before enrolling in this course.

Corequisite(s): HRM 299

Offered: Fall, Spring.

Human Resources Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HRS 101 Introduction to Human Resources Management

3 cr. hrs. 3 periods (3 lec.)

Practical applications for success in personnel management. Includes human resources management in perspective, meeting requirements, the challenge, function/environment, recruitment, compensation, incentive plans, training and development, and labor relations.

Offered: Fall, Spring, Summer.

HRS 102 Human Resource Law

3 cr. hrs. 3 periods (3 lec.)

Legal issues associated with human resources management. Includes hiring, personnel practices, wages and hours, taxes employee benefits, family and medical leave, health and safety, illegal discrimination, workers with disabilities, and termination. May also include independent contractors, unions, and lawyers and legal research.

Offered: Fall, Spring, Summer.

HRS 103 Benefits and Compensation

3 cr. hrs. 3 periods (3 lec.)

Study of benefits and compensation management. Includes strategic compensation planning, components of the wage mix, job evaluation systems, the compensation structure, governmental regulation of compensation, significant compensation issues, employee benefits programs, employee benefits required by law, discretionary major employee benefits, employee services, reasons and requirements for incentive plans, setting performance measures, administering incentive plans, incentive for non-management employees, incentive for management employees, incentives for executive employees, and gain-sharing incentive plans.

Offered: Fall, Spring, Summer.

HRS 104 Job Requirements, Recruitment, and Personnel Selection

3 cr. hrs. 3 periods (3 lec.)

Concepts, techniques, and regulation that apply to job requirements, recruitment, and personnel selection. Includes relationships of job requirements and HRS functions, job analysis, job design, relationships of job requirements and HRS functions, job analysis, job design, matching people and jobs, sources of information about job candidates, employment tests, the employment interview, and reaching a selection decision.

Offered: Fall, Spring.

HRS 105 Training and Development

3 cr. hrs. 3 periods (3 lec.)

Introduction to training, career development, and appraising and improving performance. Includes the scope of training, conducting the needs assessment, designing the training program, implementing the training program, evaluating the training program, special topics in training and development, elements of career development programs, career development and management succession, career development for a diverse workforce, personal career development, performance appraisal programs, developing an effective appraisal program, performance appraisal methods, and appraisal interview.

Offered: Fall, Spring.

HRS 106 Labor Relations

3 cr. hrs. 3 periods (3 lec.)

Exploration of issues in the area of labor relations. Includes employee rights, disciplinary policies and procedures, appealing disciplinary actions, organizational ethics in employee relations, government regulation of labor relations, the labor relations process, structures, functions, and leadership of labor unions, labor relations in the public sector, contemporary challenges to labor organizations, the bargaining process, trends in collective bargaining, the labor agreement, and administration of the labor agreement.

Offered: Fall, Spring.

Humanities

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

HUM 131 Mythology

3 cr. hrs. 3 periods (3 lec.)

Myths, legends, and folktales of the Greeks and Romans. Includes basic concepts of myths, myths of the Greeks and Romans, major Greek divinities and their Roman counterparts, stories about the major divinities, artistic representation of myths, effects of ancient myths on western literary movement, similarities and differences between major mythic systems, and anthropological and psychological approaches to mythic systems. Also includes a humanistic approach to the study of Greek and Roman sacred narratives, stories derived from oral traditions, and cultural events, which invite symbolic analysis.

Offered: Fall, Spring, Summer.

HUM 196 Independent Studies in Humanities

3 cr. hrs. 3 periods (3 lec.)

Reading and research determined between the student and the instructor.

Offered: Fall, Spring, Summer.

HUM 251 Western Humanities I

3 cr. hrs. 3 periods (3 lec.)

Introduction to major cultures from Summer through the early Roman Christian era. Includes general history of ideas, art, architecture, religion, philosophy, drama, music, and literature from ancient Near Eastern civilizations, and Greek, Roman, and Early Roman Christian civilizations. Also includes readings such as the Epic of Gilgamesh, Homer, Sophocles, Aristophanes, Plato, Aristotle, Virgil's Aeneid, Hebrew and the Christian Scriptures, and St. Augustine.

Offered: Fall, Spring, Summer.

HUM 252 Western Humanities II

3 cr. hrs. 3 periods (3 lec.)

Introduction to major western cultures from the early Medieval through AD 1600. Includes general history of ideas, art, architecture, religion, philosophy, drama, music, and literature from early and late Medieval periods, Renaissance-Reformation, and Counter-Reformation. Also includes readings such as heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, Shakespeare, and Cervantes.

Offered: Fall, Spring.

HUM 253 Western Humanities III

3 cr. hrs. 3 periods (3 lec.)

Introduction to the culture of the modern western world from AD 1600 to the present. Includes general history of ideas, art, architecture, religion, philosophy, drama, music and literature from Enlightenment-Baroque, Romantic, Pre-Modern, and Contemporary periods. Also includes readings such as Voltaire, Rousseau, Goethe, Romantic, pre-modern and contemporary literature, poetry, and drama.

Offered: Fall, Spring, Summer.

HUM 260 Intercultural Perspectives

3 cr. hrs. 3 periods (3 lec.)

Literary and artistic works of American Indians and Asian, Black, and Hispanic Americans, both men and women. Includes traditional and modern works and contributions to American civilization.

Offered: Fall, Spring, Summer.

HUM 270 Meditation

3 cr. hrs. 3 periods (3 lec.)

Theoretical principles and selected traditions of meditation self-awareness. Includes principles and techniques of meditation, meditation traditions, literature of meditation, meditation arts, and psychology and physiology of meditation.
Information: Same as PSY 270.

Offered: May not be offered this year, check class schedule.

Interior Design

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

IDE 100 Introduction to Interior Design

3 cr. hrs. 3 periods (3 lec.)

Foundations of the major aspects of Interior Design. Includes introduction to interior design, principles and elements, materials, furnishings, and other components, process of interior design, and vocabulary.

Offered: Fall, Spring, Summer.

IDE 111 Fundamentals of Interior Design

3 cr. hrs. 4 periods (2 lec., 2 lab)

Fundamentals and theories of interior design. Includes elements and principles of interior design, design practices, two dimensional (2D) and three dimensional (3D) compositions, and portfolio projects.

Recommendation: Completion of IDE 100 before enrolling in this course or concurrent enrollment.

Offered: Fall, Spring, Summer.

IDE 122 Visual Communications I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Interior design visualization techniques and processes. Includes drawing, sketching, skills and mechanics in drafting, and drawing tools and materials.

Offered: Fall, Spring, Summer.

IDE 152 Color and Lighting Theory

3 cr. hrs. 3 periods (3 lec.)

Design concepts for interior design color and lighting. Includes vision, perception, color and lighting theories, color schemes, design concepts, techniques and applications, and psychological implications.

Prerequisite(s): IDE 111.

Offered: Spring.

IDE 155 Space Planning I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Theory and methods of information gathering for design projects. Includes programming and planning, research and observation, diagramming methods, skills in drafting, and human behavior.

Prerequisite(s): IDE 122.

Offered: Fall, Spring.

IDE 158 Computer Aided Drafting Fundamentals for Interior Design

4 cr. hrs. 6 periods (3 lec., 3 lab)

Two-dimensional computer-aided drafting concepts and techniques for Interior Design. Includes drafting methods and procedures, file management, hard copy production, industry standards, use of scale, blocks and symbol libraries, and portfolio development.

Prerequisite(s): IDE 122.

Recommendation: IDE 111.

Offered: Fall, Spring, Summer.

IDE 160 Fabrics for Interiors

3 cr. hrs. 4 periods (2 lec., 2 lab)

Analysis, evaluation, and application of fabrics. Includes history of fabrics, fiber content, fabric construction, fabric finishes and techniques, and fabric trends.

Prerequisite(s): IDE 111.

Offered: Fall, Spring.

IDE 196 Independent Study in Interior Design

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent readings or special projects. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

IDE 212 History of Interior Arch & Furniture: Egyptian Period -1900

3 cr. hrs. 3 periods (3 lec.)

Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes the Classics, Middle Ages, Renaissance, and Early American.

Offered: Fall, Spring.

IDE 213 History of Interior Architecture & Furniture from 1900 to the Present

3 cr. hrs. 3 periods (3 lec.)

Survey of historical architecture, interior treatments, furnishings, and decorative arts. Includes cultural aspects and characteristics of early Twentieth Century, Modernism Period, Revolution and the Avant-Garde, Contemporary designs, and issues and trends.

Offered: Spring.

IDE 220 Interior Methods and Materials

3 cr. hrs. 3 periods (3 lec.)

Elements and applications of interior products. Includes specifications for finishes and materials, estimating techniques for interiors, product materials for interiors, environmental concerns, and design solutions.

Prerequisite(s): IDE 100.

Offered: Fall.

IDE 222 Visual Communications II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of IDE 122. Includes advanced techniques in black and white and color, measured drawings, fundamental design in visual communications, and rendering for interior design.

Prerequisite(s): IDE 122.

Recommendation: Completion of CAD 158 before enrolling in this course.

Offered: Spring.

IDE 230 Interior Design Business and Professional Practices

3 cr. hrs. 3 periods (3 lec.)

Professional business principles and practices for the interior designer. Includes business action plan, business structure, professional services, design firm model, business principles, contractual relationships, and business correspondence.

Prerequisite(s): IDE 111.

Recommendation: Assessment in Mathematics at the MAT 086 level or higher before enrolling in this course.

Offered: Spring.

IDE 255 Space Planning II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of IDE 155. Includes programming and planning review, advanced research and observation, advanced diagramming methods illustrating design concepts, advanced drafting including commercial interiors, measurement of human psychological and sociological factors, and presentations.

Prerequisite(s): IDE 122, 155.

Recommendation: Completion of CAD 158 before enrolling in this course.

Offered: Spring.

IDE 256 Human and Environmental Design

3 cr. hrs. 3 periods (3 lec.)

Theories of human factors and environmental issues relating to interior design. Includes design problems, built environment, health, safety and welfare, materials, finishes, fabrications, and human factors.

Prerequisite(s): IDE 155.

Offered: Fall.

IDE 280 Interior Design Portfolio Development

1 cr. hrs. 1 periods (1 lec.)

Identification of portfolio content. Includes project parameters, procedures and methods, portfolio content, and critique.

Recommendation: Completion of IDE 255 before enrolling in this course or concurrent enrollment.

Offered: Spring.

International Business Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

IBS 120 Cultural Environment of International Business

3 cr. hrs. 3 periods (3 lec.)

Examination of the cultural values of the foreign country in comparison to those of the United States. Includes social and religious customs, roles of men and women, attitudes toward time, humor, drugs and alcohol, and patterns of communication. Also includes political, educational and legal structures, health care values, attitudes toward shopping and conducting business, business structure, ethics and values.

Offered: May not be offered this year, check class schedule.

IBS 121 Elementary Spanish for Business I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish with a primary focus on language used in a variety of business situations. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

Information: Same as SPA 121.

Offered: May not be offered this year, check class schedule.

IBS 122 Elementary Spanish for Business II

4 cr. hrs. 4 periods (4 lec.)

Continuation of IBS 121. Includes increasingly complex oral and written forms, grammatical structures, and language used in a variety of business situations. Also includes interpersonal business transactions and geographical and cultural awareness.

Prerequisite(s): IBS 121.

Information: Same as SPA 122.

Offered: May not be offered this year, check class schedule.

IBS 135 The International Career

1 cr. hrs. 1 periods (1 lec.)

International complexities of the work force within American businesses. Includes the international environment and the global labor market, global changes and understanding the requirements of the international work force, and strategies for obtaining an international job.

Offered: May not be offered this year, check class schedule.

IBS 140 Basic Techniques of International Trade

3 cr. hrs. 3 periods (3 lec.)

Principles and overview of international trade. Includes the international business plan, basic terms, political and legal factors of export trade, U.S. and foreign government regulations, preparation of export documentation and freight forwarding procedures. Also includes export banking, foreign trade zones in international trade, export trading companies, communicating with foreign firms, and exporting to specific geographic areas.

Offered: May not be offered this year, check class schedule.

IBS 162 Controversial Global Issues

1 cr. hrs. 1 periods (1 lec.)

This course explores the changing nature of the international arena and looks at controversial world issues as they relate to the international business context. Includes population growth, quality of life and consumption, the market economy, and global resources and the environment. Also includes technology, information and innovation, the globalization of culture, and doing business in the third world.

Offered: May not be offered this year, check class schedule.

IBS 170 Doing Business with Mexico

1 cr. hrs. 1 periods (1 lec.)

Explores the complexities in the relationship between the United States and Mexico. Offers a general perspective on Mexico's historical background, economic development, and business culture. Includes current conditions, categories of business, trade, maquiladoras, the bureaucracy, general culture characteristics, and communication.

Offered: May not be offered this year, check class schedule.

IBS 280 International Field Projects

2-6 cr. hrs. 4-16 periods (1 lec., 3-15 lab)

Field excursions, lectures, interviews and communication within international settings. Includes close interaction with public and private sector representatives, cultural visits, and foreign language exposure. Also includes emphasis on development of economic, cultural and human relationships with foreign communities.

Recommendation: Consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

IBS 290 International Business Experience

1-5 cr. hrs. 3-7 periods (1-4 lec., 2-3 lab)

Supervised international business experience for students from another country. Instructor-coordinators work with students and their supervisors.

Information: Variable credit is available by special arrangements.

Offered: May not be offered this year, check class schedule.

Interpreter Training

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ITP 105 Beginning Fingerspelling and Numbers

2 cr. hrs. 2 periods (2 lec.)

Enhancement of receptive and expressive sign language skills, methodology, theory, and application. Includes manual alphabet, numbers, basic monetary

designations, basic mathematical functions, states, major cities, and calendar designations. Also includes common acronyms, lexicalized fingerspelled words, and basic address information.

Prerequisite(s): SLG 102 and REA 075.

Information: Additional lab hours are required outside of regularly scheduled class.

Offered: Fall, Spring.

ITP 200 Introduction to the Deaf Community

4 cr. hrs. 4 periods (4 lec.)

Exploration of the history of American Sign Language (ASL), the deaf community, and the experience of deaf individuals. Includes deafness, deaf communities, education, organizations of the deaf, communication modes, legislation, technological changes, cultural values, and norms affecting the deaf community.

Prerequisite(s): SLG 202 and WRT 102.

Offered: Fall, Spring.

ITP 203 Linguistics of American Sign Language

3 cr. hrs. 3 periods (3 lec.)

Introduction to the linguistic structure of American Sign Language (ASL). Includes history, language requirements, communication systems, assimilation/symmetry, ASL and English comparisons, time/tense indicators, semantics, morphology, syntax, phonology, modulation/inflection and classifiers/SASes. Also includes conjunctions, reality principle, conversational regulators, ASL research topics, gloss/transcription, and current issues, and linguistic research paper.

Prerequisite(s): SLG 202 and WRT 102.

Information: Student is required to write a linguistic research paper.

Offered: Fall.

ITP 205 Advanced Fingerspelling and Numbers

2 cr. hrs. 2 periods (2 lec.)

Advanced receptive and expressive fingerspelling and number skills. Includes lexicalized fingerspelling, related theories/methodologies, numbers, advanced monetary designations, advanced mathematical functions, acronyms for deaf related organizations and services, common abbreviations, commonly fingerspelled words, major cities, and proper nouns.

Prerequisite(s): ITP 105 and SLG 101.

Information: Additional lab hours are required outside of regularly scheduled class.

Offered: Fall, Spring.

ITP 210 Introduction to Interpreting

4 cr. hrs. 4 periods (4 lec.)

Introduction to the field and role of a sign language interpreter. Includes defining the client(s), sign language systems and situational assessments, comparative linguistic features of American Sign Language (ASL) and English, history of spoken and sign language interpreters, certification of sign language interpreters, and prerequisite knowledge and skills. Also includes the profession of an interpreter, interpreter role and ethics, process of interpreting, settings, and assignment related topics.

Prerequisite(s): SLG 202 and WRT 102.

Offered: Fall.

ITP 215 Classifiers and ASL Literature

4 cr. hrs. 4 periods (4 lec.)

This course is a continuation of the major grammatical features of American Sign Language (ASL) to develop communicative and interactive competencies in the culture and language of the deaf. Includes a focus on ASL literature by introducing students to ASL storytelling and poetic techniques, film analysis, story analysis, and its techniques. Also includes ASL narratives, classifiers and size and shape specifiers (SSASes), and perspectives.

Prerequisite(s): SLG 202 and WRT 102.

Information: This course is taught in ASL and utilizes receptive skills through ASL literature and poetic videotapes. Students are expected to experiment with ASL storytelling and the use of classifier techniques. Additional hours may be required outside of the regularly scheduled class.

Offered: Fall.

ITP 220 Interpreting I

4 cr. hrs. 4 periods (4 lec.)

Practical experience in consecutive and simultaneous interpreting with increasingly complex and diverse materials. Includes applying the process of interpreting, discourse styles, assignment consideration, physical considerations, application of the Code of Ethics, and special populations and language considerations.

Prerequisite(s): ITP 210 and WRT 102.

Information: Additional lab hours are required outside of regularly scheduled class.

Offered: Spring.

ITP 250 Interpreting II

4 cr. hrs. 4 periods (4 lec.)

Continuation of ITP 220. Continued development of expressive and receptive interpreting skills in educational and community situations. Includes practical considerations, interpreter's role, certification, communication systems, multiple roles, and code of ethics. Also includes interpreting, transliterating, idiomatic interpreting, sign invention, team interpreting, giving and receiving feedback, current issues, and environmental dynamics.

*Prerequisite(s): ITP 220.**Information: Additional lab hours may be required outside of class.*

Offered: Fall.

ITP 268 Etymology

3 cr. hrs. 3 periods (3 lec.)

Designed to improve and increase English vocabulary and conceptual ASL correlates for the sign language interpreter. Includes word origins, common word families, contextual vocabulary building, and English idioms.

Prerequisite(s): REA 075 and SLG 202.

Offered: Spring.

ITP 270 Beginning Sign to Voice

4 cr. hrs. 4 periods (4 lec.)

Interpreting basic sign language structures into the spoken word. Includes voicing considerations, linguistic/syntax, American Sign Language (ASL)/English comparisons, pre- and post-situational assessment, giving/receiving feedback, and professional issues.

*Prerequisite(s): ITP 210 and SLG 202.**Information: Additional lab hours outside of class are required.*

Offered: Spring.

ITP 280 Advanced Sign to Voice

4 cr. hrs. 4 periods (4 lec.)

Interpreting complex sign language structures into the spoken word. Includes voicing considerations, team interpreting, registers, word/phrase selection, current issues, and environmental dynamics.

*Prerequisite(s): ITP 270.**Information: Additional lab hours are required outside of regularly scheduled class.*

Offered: Fall.

ITP 285 Educational Interpreting/Translating

4 cr. hrs. 4 periods (4 lec.)

Interpreting in educational settings. Includes transliterating, professional readiness, settings and expectations, and legal and ethical issues.

*Prerequisite(s): ITP 250 or 280.**Information: Additional hours may be required outside of regularly scheduled class.*

Offered: Spring.

ITP 289 Special Topics in Interpreting

2 cr. hrs. 2 periods (2 lec.)

Continued development of interpreting and transliterating skills and receptive and expressive skills refinement in consecutive and simultaneous interpreting situations. Includes specialized settings, support systems, situational and language assessment, facilitating the communication process, and preparation for national certification exams.

Prerequisite(s): ITP 250 and 280.

Offered: Spring.

ITP 290 Interpreter Training Field Experience

2 cr. hrs. 6 periods (1 lec., 5 lab)

Supervised interpreting opportunities in community settings. Includes selection criteria, completion of written assignments, problem solving, site orientation, student performance evaluations, observation of professional interpreters, code of ethics in practice, professional job expectations, and current issues.

Prerequisite(s): ITP 250.

Offered: Spring.

Italian

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

ITA 050 Social and Cultural Italian: Food Traditions and Dining

2 cr. hrs. 2 periods (2 lec.)

Introduction to the Italian language presented in the context of food traditions and dining. Includes food in the culture of Italy, language of groceries and ingredients, and conversation for dining.

Offered: May not be offered this year, check class schedule.

ITA 051 Social and Cultural Italian: Travel

2 cr. hrs. 2 periods (2 lec.)

Introduction to the Italian language presented in the context of travel, from planning a trip to returning home. Includes geography and traveling in Italy, words and phrases related to transportation, conversation for hotel, restaurants, and tourists services, and language of health and hygiene.

Offered: Fall.

ITA 052 Social and Cultural Italian: Cinema

2 cr. hrs. 2 periods (2 lec.)

Viewing and discussing Italian films from the postwar period to the present. Includes cinema in postwar Italy, major directors in the period of "Neo-realism", major actors of the period, and ironic and comic cinema. Also includes the cultural values expressed through film.

Information: No prior knowledge of Italian is required, since sub-titles are provided.

Offered: May not be offered this year, check class schedule.

ITA 055 Language Study and Travel in Spain, Italy, and France

2 cr. hrs. 2 periods (2 lec.)

Introduction to French, Italian, and Spanish language presented in the context of travel through these three countries. Includes travel in Spain, Italy, and France, lodging, money, and transportation terminology, culinary traditions, restaurants and markets, and travel destinations.

Information: Prior language knowledge is not required. Same as FRE/SPA 055.

Offered: Spring.

ITA 101 Elementary Italian I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the Italian language. Includes foundations of Italian language, basic Italian grammar, structures and tenses, basic compositions in Italian, formulating answers in Italian, and Italian culture.

Offered: Fall, Spring.

ITA 102 Elementary Italian II

4 cr. hrs. 4 periods (4 lec.)

Continuation of ITA 101. Includes additional Italian grammar and structure, transactions and topics in Italian, Italian compositions, manipulating meaning from readings, and interpreting meaning from listening.

Prerequisite(s): ITA 101.

Offered: Spring.

ITA 201 Intermediate Italian I

4 cr. hrs. 4 periods (4 lec.)

Continuation of ITA 102. Includes intermediate Italian grammar structures, response to unanticipated questions, political, economic, and social vocabulary in readings and writings, intermediate literary interpretation, complex essays in Italian, intermediate level of Italian culture, and extracting meaning from listening.

Prerequisite(s): ITA 102.

Offered: Fall.

ITA 202 Intermediate Italian II

4 cr. hrs. 4 periods (4 lec.)

Continuation of ITA 201. Includes additional intermediate Italian grammar and sentence structures, communication and cultural topics, responses to complex written form, listening practice, Italian performance, and additional examination of Italian culture.

Prerequisite(s): ITA 201.

Offered: Spring.

Japanese

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

JPN 085 Introductory Japanese

4 cr. hrs. 4 periods (4 lec.)

Elementary Japanese conversation. Includes an overview of the Japanese language, writing and pronunciation, and useful daily expressions. Also includes expressions in daily life and Japanese culture and communication.

Offered: Fall, Spring, Summer.

JPN 101 Elementary Japanese I

5 cr. hrs. 5 periods (5 lec.)

Introduction to the Japanese language. Includes an overview of the Japanese language, speaking and listening, grammar, personal transactions, and the cultural context within which Japanese conversation takes place. Also includes writing and reading of Hiragana, Katakana, and 75 new Kanji characters.

Offered: Fall.

JPN 102 Elementary Japanese II

5 cr. hrs. 5 periods (5 lec.)

Continuation of JPN 101. Includes oral and written forms, grammatical structures, and interpersonal transactions. Also includes the cultural component of communication competency.

Prerequisite(s): JPN 101.

Offered: Spring.

JPN 108 Japanese Anime

3 cr. hrs. 3 periods (3 lec.)

Historical and modern anime will be examined as indicators of cultural/economic changes in Japanese/Western contact. In addition, Japanese culture reflected in popular art form will be analyzed with an emphasis on delineating ways in which this analysis can be used to facilitate communication between Japan and the West.

Information: This course is taught in English.

Offered: May not be offered this year, check class schedule.

JPN 109 Japanese Anime and Fantastic Literature

3 cr. hrs. 3 periods (3 lec.)

Historical and modern Japanese fantastic literature will be examined as indicators of cultural and economic changes brought about by Japanese and Western contact. Includes Japanese anime and the analysis of specific areas of Japanese anime and the analysis of specific areas of Japanese culture to facilitate understanding between Japan and the West.

Information: This course is taught in English.

Offered: May not be offered this year, check class schedule.

JPN 201 Intermediate Japanese I

5 cr. hrs. 5 periods (5 lec.)

Continuation of Japanese 102. Includes speaking and listening, grammar, personal transactions, and the cultural context to which Japanese conversations take place. Also includes reading and writing Hiragana, Katakana, and 250 Kanji characters.

Prerequisite(s): JPN 102.

Offered: Fall.

JPN 202 Intermediate Japanese II

5 cr. hrs. 5 periods (5 lec.)

Continuation of Japanese 201. Includes speaking and listening, grammar, personal transactions, and using more complex sentence structure in a cultural context within which Japanese conversations take place. Also includes Hiragana, Katakana, and 365 Kanji characters.

Prerequisite(s): JPN 201.

Offered: Spring.

Journalism

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

JRN 101 Introduction to Reporting and Media Writing

3 cr. hrs. 3 periods (3 lec.)

Introducing to news reporting. Includes journalism as a career, the journalist and the organization of the newsroom, defining news, news style, elements of a news story, fundamentals of writing news, and news gathering and reporting. Also includes organizing and writing the story, revision of stories, and ethics, libel and medial law.

Prerequisite(s): WRT 100 or required score on the writing assessment test.

Offered: Fall, Spring.

JRN 102 Survey of Media Communications

3 cr. hrs. 3 periods (3 lec.)

Survey of theory, nature, function, and impact of today's mass media. Includes a review and evaluation of important journalists' work and of various media and auxiliary industries, such as book and magazine publishing, newspapers, radio, television, film, recordings, advertising and public relations. Also includes an overview of related career options.

Offered: Fall, Spring.

JRN 110 Introduction to Public Relations

3 cr. hrs. 3 periods (3 lec.)

Introduction to public relations. includes principles, practices, theory, ethics and law, and techniques for defining and dealing with internal and external public. Also includes writing, message dissemination, development of media networks, and media relations, organizing special events and news conferences, research for planning and evaluation, and group projects to develop and evaluate a public relations plan.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 180 Newspaper Business Procedures

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to principles and business procedures of newspapers in general and of the weekly student newspaper. Includes marketing and advertising sales, circulation, record keeping and simple accounting for print and online editions. Also includes extensive use of computers, scanners and software to invoice ads, post payments and deposits, write commission reports, and design advertisements.

Offered: May not be offered this year, check class schedule.

JRN 185 Newspaper Publishing

3 cr. hrs. 9 periods (9 lab)

Publication of the college's weekly student newspaper and online edition of the newspaper. Includes news judgment, news gathering, news and editorial writing, editing and headline writing, photography, page design and computer pagination, advertising, and other publication activities. Also includes newsroom management and ethical and legal considerations.

*Prerequisite(s): JRN 101.**Information: May be taken three times for a maximum of nine credit hours.*

Offered: Fall, Spring.

JRN 186 Writing for the Web

3 cr. hrs. 3 periods (3 lec.)

Introduction to basic concepts and techniques for writing on the World Wide Web. Includes introduction to Web technology, basic journalistic techniques useful for Web writing, Hypertext Markup Language (HTML) for Web editing software, linear forms, nonlinear forms, clicking and scrolling effect on writing, process for writing and writing online, tips for writing online, citations, communication law in the electronic age, and journalism ethics in the new media.

Prerequisite(s): WRT 100 or required score on writing assessment test.

Offered: May not be offered this year, check class schedule.

JRN 187 Introduction to Electronic Publishing in Journalism/Media

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to electronic (on-line) publishing with applications to new media. Includes work with computers, desktop publishing, imaging, and internet software, HTML formatting, and designing Web pages/sites to create camera ready publications and maintain a Web site. Also includes methods to navigate and do research on the Internet and the World Wide Web, concepts, principles and ethics of publishing on the Internet, responsibilities of an electronic journalist, disinformation and privacy issues.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 188 DeskTop Publishing for Journalism

3 cr. hrs. 4 periods (2 lec., 2 lab)

Desktop publishing for media communications. Includes basic principles of page layout using text and graphics applied to journalistic and electronic media. Also includes designing and editing tabloid newspapers, brochures, newsletters, scoreboards, slide presentations, and transparencies.

Offered: May not be offered this year, check class schedule.

JRN 189 Newspaper Graphics

2 cr. hrs. 3 periods (1 lec., 2 lab)

Application of principles and techniques of newspaper layout, design elements, typography, line art, illustrations, editorial graphics and photographs in journalism and to the weekly student newspaper. Includes extensive use of computers, scanners and desktop publishing software and applications to on-line editions.

Offered: May not be offered this year, check class schedule.

JRN 196 Journalism Independent Projects: Journalism/Media Publishing

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students independently continue their development in journalism with the help of a faculty member.

Information: Six credit hours of JRN classes and consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: Fall, Spring.

JRN 199 Introduction to Co-op: Journalism

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

*Prerequisite(s): JRN 186, 187, and 188.**Corequisite(s): JRN 199WK*

Offered: Fall, Spring, Summer.

JRN 199WK Co-op Work: Journalism

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Prerequisite(s): JRN 186, 187, and 188.Corequisite(s): JRN 199

Offered: Fall, Spring, Summer.

JRN 230 Advanced Reporting

3 cr. hrs. 3 periods (3 lec.)

Advanced news gathering and news writing for reporting complex stories. Includes development of varied leads, review and practice in most types of basic news assignment, and focus on in-depth stories expanding what constitutes news. Also includes alternate methods of news gathering, such as computer assisted and Internet research, observation and interviewing techniques, and document searches.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 235 Writing/Reporting for Broadcast Journalism

3 cr. hrs. 3 periods (3 lec.)

Introduction to broadcast news writing and reporting for television and radio. Includes introduction to broadcast news, formats and readability, shifting from print to broadcast writing, broadcast copy, news gathering and reporting, reporting assignments and coverage, writing for radio newscast, writing for television newscast, television short packages, live shots and long packages, and ethics and the law.

Prerequisite(s): JRN 101.Recommendation: Completion of JRN 102 before enrolling in this course or concurrent enrollment.

Offered: May not be offered this year, check class schedule.

JRN 240 Editing, Layout, and Design

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and techniques of publication editing, layout, and design. Includes newsroom and other settings, copy and electronic editing, proofreading, headline writing, electronic page layout, typography and design, copyflow, and problems and responsibilities of editors. Also involves the extensive use of computers in the editing process.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 260 Magazine and Feature Writing

3 cr. hrs. 3 periods (3 lec.)

Writing magazine and newspaper feature articles for publication. Includes the requirement to research, write and attempt to market an article or series of features.

Prerequisite(s): JRN 101.

Offered: Spring.

JRN 270 Media Advertising and Public Relations

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and techniques of media advertising and public relations. Includes planning, sales and production. Also includes working in groups to produce a national and local advertising campaign and a public relations campaign.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 280 Photojournalism

3 cr. hrs. 5 periods (2 lec., 3 lab)

Practical applications of photographic skills to communicate nonfiction stories and document life. Includes basic camera operations and use of lenses, film stocks, filters, flash, and scanners, computers and digital imaging software. Also includes ethical and legal considerations, analysis of photographs, cropping and sizing, layout of photo essays, and writing cutlines and captions.

Prerequisite(s): JRN 101.

Offered: May not be offered this year, check class schedule.

JRN 281 Applied Photojournalism

2 cr. hrs. 3 periods (1 lec., 2 lab)

Application of photojournalistic concepts and techniques to complete assignments for the weekly student newspaper. Includes creating visual images for spot and general news, features, portraits, sports and photo essays, writing cutlines and captions, and designing the layout of photo stories. Also includes use of film scanners, computers, and digital imaging software to size, crop and adjust images.

Recommendation: Completion of JRN 280 or equivalent experience before enrolling in this course.Information: Access to a 35MM still film camera is required. Digital, still, and video cameras will be available.

Offered: May not be offered this year, check class schedule.

JRN 285 Advanced Newspaper Publishing

3 cr. hrs. 9 periods (9 lab)

Advanced work on the college's weekly student newspaper and online editing of the newspaper. Includes advanced reporting, copy editing, page design, computer pagination, photo editing, newsroom management, and legal and ethical considerations.

Prerequisite(s): JRN 185.Information: May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring.

JRN 287 Advanced Electronic Publishing in Journalism/Media

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of JRN 187. Includes self evaluation of online knowledge and skills, advanced publishing technologies, advanced software for print/web, additional theory of electronic publishing, additional tours of local multimedia publishing operations, and capstone application: publication project in print, broadcast, and on the Internet

Prerequisite(s): JRN 187.

Offered: May not be offered this year, check class schedule.

JRN 296 Journalism Independent Projects: Advanced Journalism/Media Publishing

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students independently continue their development in journalism with the help of a faculty member.

Prerequisite(s): JRN 196.Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

JRN 299 Introduction to Co-op: Journalism

1 cr. hrs. 1 periods (1 lec.)

See Cooperative Education section for description.

Prerequisite(s): JRN 199.Corequisite(s): JRN 299WKInformation: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of three credit hours.

Offered: May not be offered this year, check class schedule.

JRN 299WK Co-op Work: Journalism

1-8 cr. hrs. 5-40 periods (5-40 lab)

See Cooperative Education section for description.

Prerequisite(s): JRN 199WK.Corequisite(s): JRN 299Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twenty-four credit hours.

Offered: May not be offered this year, check class schedule.

Korean

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

KOR 101 Elementary Korean I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Korean. Includes basic oral and written Korean language forms, basic Korean grammatical structures, reading simple text, and Korean cultures and traditions.

Offered: Fall.

KOR 102 Elementary Korean II

4 cr. hrs. 4 periods (4 lec.)

Continuation of KOR 101. Includes additional phonetics in the Korean language, additional grammatical structures, reading additional simple text, and additional Korean culture and traditions.

Prerequisite(s): KOR 101.

Offered: Spring.

Landscape Technician

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

LTP 119 Plants for Landscape Design I

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of plant usage and identification. Includes environment, landscape design, planting and plant care, plant taxonomy, usage, and selection.

Offered: Spring.

LTP 129 Landscape Design I

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of landscape design. Includes site investigation, project requirements, preliminary design, design principles, and a final project. Offered: Fall.

LTP 139 Irrigation Design I

3 cr. hrs. 3 periods (3 lec.)

Design of turf, ornamental, and water conserving irrigation systems. Includes introduction to irrigation, system components and applications, environmental factors and issues, site information and client needs, basic irrigation drafting, and system layout and equipment selection.

Information: Intended for students and professionals interested in irrigation systems.

Offered: May not be offered this year, check class schedule.

LTP 169 Plants for Landscape Design II

3 cr. hrs. 3 periods (3 lec.)

Continuation of LTP 119. Includes a review of plant usage principles and techniques, advanced plant identification materials, advanced material taxonomy, and advanced planting design.

Prerequisite(s): LTP 119

Offered: May not be offered this year, check class schedule.

LTP 179 Landscape Design II

3 cr. hrs. 3 periods (3 lec.)

Continuation of LTP 129. Includes a review of principles and techniques, advanced project requirements and design principles, analysis of existing landscape installations, application of concepts from existing landscape installations, and an advanced final project.

Prerequisite(s): LTP 129

Offered: Spring.

LTP 189 Irrigation Design II

3 cr. hrs. 3 periods (3 lec.)

Design of large-scale irrigation systems, such as apartment complexes, parks and roadway projects, using both conventional sprinkler and drip systems. Includes introduction to large scale systems, large scale system components and equipment selection, large scale irrigation factors and issues and site survey and analysis, system layout and hydraulic principles, and large scale irrigation plan preparation.

Prerequisite(s): LTP 139.

Offered: May not be offered this year, check class schedule.

LTP 196 Independent Studies in Landscape Design

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent studies and projects in landscape design and technology. Content to be determined by conference between student and instructor.

Information: May be taken three times for a maximum of twelve credit hours. Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Latin

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

LAT 101 Elementary Latin I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the Latin language through reading and composition. Includes present tense, nominative and accusative cases, and 1st and 2nd declensions, ablative and vocative cases, present infinitives, 3rd declension, commands and questions, genitive and dative cases, adverbs, and relative pronoun, demonstrative, personal and reflexive pronouns, and imperfect and perfect tenses, pluperfect tense and 4th and 5th declensions, and topics in ancient Roman history and culture.

Offered: Fall, Spring.

LAT 102 Elementary Latin II

4 cr. hrs. 4 periods (4 lec.)

Continuation of LAT 101. Includes comparison of adjectives and irregular superlatives, present participle, future and future perfect tenses, and relative clauses, passive voice and perfect passive participle, subjunctive mood, clauses of purpose, and indirect commands, deponent verbs, ablative absolute, and future participle, and topics in ancient Roman history and culture.

Prerequisite(s): LAT 101.

Offered: Spring.

LAT 201 Intermediate Latin I

4 cr. hrs. 4 periods (4 lec.)

Continuation of LAT 102. Includes indirect questions and indirect statements, consecutive clauses, conditional clauses and main clauses with the subjunctive, cum and dum clauses, clauses of fearing, impersonal verbs, and gerunds, gerundive and relative clauses with the subjunctive, and topics in ancient Roman history and culture.

Prerequisite(s): LAT 102.

Offered: May not be offered this year, check class schedule.

LAT 202 Intermediate Latin II

4 cr. hrs. 4 periods (4 lec.)

Continuation of LAT 201. Includes selected speeches and letters of Cicero, selected passages from Caesar's Commentaries on the Gallic War, selected poems by Catullus, selected passages from Virgil's Aeneid, selected passages from Livy's History of Rome, and selected passages from the works of Ovid.

Prerequisite(s): LAT 201.

Offered: May not be offered this year, check class schedule.

Law Enforcement*

*Not open to the public. See other Educational Programs chapter for more information.

LEN 100 Careers in Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Survey of careers and career paths in law enforcement. Includes exploration of the broad scope of job functions and opportunities in various law enforcement agencies. Also includes awareness of the selection criteria, life style, and necessary personal choices for a career in this field.

Offered: May not be offered this year, check class schedule.

LEN 102 Communicating in Spanish in the Workplace

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Basic Spanish for easier communication with the Spanish speaking public. Includes conversational Spanish, work-related Spanish words, phrases, and idioms, and a survey of the cultures where the Spanish language is spoken.

Offered: May not be offered this year, check class schedule.

LEN 105 Ethics and Leadership in Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Principles of ethical behavior for law enforcement professionals. Includes establishing a leadership role within the community. Also includes the Law Enforcement Code of Ethics, and Canons of Police Ethics as a basis to establish trust and protect a positive image of law enforcement.

Offered: May not be offered this year, check class schedule.

LEN 110 Multicultural Issues in Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Exploration of the value of diversity in a law enforcement environment. Includes the standards and norms of different groups and individuals and how they impact the attitudes and behaviors. Also includes the need to adapt interactions without compromising established societal norms.

Offered: May not be offered this year, check class schedule.

LEN 115 Interpersonal Relations in Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Exploration of the interactions of law enforcement professionals with peers and the public. Includes the unique roles and expectations which occur when entering a law enforcement career. Also includes specific methods and techniques used in situational interactions.

Offered: May not be offered this year, check class schedule.

LEN 120 Introduction to Law Enforcement

1 cr. hrs. 1 periods (1 lec.)

Overview of the components of the criminal justice system, their functions, responsibilities and interrelationships. Includes a historical perspective, and outline of regulatory agency functions, responsibilities, jurisdictional limitations, techniques of management and supervision, problem solving strategies, and the relationship between employee and supervisor. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 125 Law and Legal Matters I

3 cr. hrs. 3 periods (3 lec.)

Examination of the basic concepts, phrases and definitions needed to study criminal law. Includes an analysis of constitutional requirements, statutes and

case law on search and seizure, the conditions under which an officer or citizen may make an arrest, an officer's duties and responsibilities prior to and during the arrest, and the rules of evidence. Also includes summonses and subpoenas, civil processes, and the functions of the various courts, agencies, and laws relating to juveniles.

Prerequisite(s): LEN 120.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 126 Law and Legal Matters II

3 cr. hrs. 3 periods (3 lec.)

Continuation of LEN 125. Includes the proper techniques for giving effective police testimony, outline of the United States Constitution, Arizona Revised Statutes (ARS) Title 13, and a review of common civil and criminal liability facing law enforcement agencies and officers.

Prerequisite(s): LEN 125.

Offered: May not be offered this year, check class schedule.

LEN 130 Patrol Procedures

3 cr. hrs. 3 periods (3 lec.)

Study of the types, purposes and techniques of police patrol. Includes citizen protection, crime prevention, emergency and non-emergency situations, safely conducting a high risk vehicle stop, domestic disputes and managing crisis situations, mental illness and criminal behavior, crimes in progress, indicators of alcohol intoxication, and symptoms of medical conditions. Also includes use of police radio, hazardous materials, disasters, hate motivated acts, fires, and civil disputes.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 135 Traffic Enforcement and Investigation

3 cr. hrs. 3 periods (3 lec.)

Introduction to the attitude and techniques essential in dealing effectively with traffic violators. Includes the effects of alcohol and drugs on drivers and techniques for obtaining evidence for successful prosecution, the legal basis of the Uniform Traffic Citation, specific techniques for stopping and approaching suspects in vehicles, traffic collision investigation, and proper methods for taking and recording evidence at the collision scene. Also includes techniques for directing and controlling vehicular and pedestrian movements by means of hand signals, and applicable sections of the ARS relating to law enforcement authority.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 140 Criminal Investigation

4 cr. hrs. 4 periods (4 lec.)

Principles common to all types of investigation. Includes conducting a proper search, sketching the crime scene, recording and preserving notes, packing and marking evidence for identification, synthesizing information into a final report, the functions of a crime laboratory, proper interviewing and questioning techniques, and methods of fingerprinting. Also includes investigating the more common sex crimes, procedures for investigating cases involving death, organized criminal activities, techniques used in the investigation of assault, burglary, robbery, auto theft, child abuse, missing persons, and narcotics and dangerous drug violations.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 145 Community and Police Relations

2 cr. hrs. 2 periods (2 lec.)

Benefits and methods of developing positive police-community relations and recognizing cultural differences within the community. Includes the emotional and behavioral indicators of crime victims, personal communication, crime prevention functions of the patrol officer and various crime prevention programs.

Information: Admission to the Law Enforcement Academy or consent of instructor is required.

Offered: May not be offered this year, check class schedule.

LEN 154 Federal Law Enforcement Operations for Border Patrol

4 cr. hrs. 4 periods (4 lec.)

Training in investigative and operational processes and procedures in Federal Law Enforcement Operations for Border Patrol Officers. Includes an overview of border patrol investigations and operations, specialized techniques, and field operations.

Information: Consent of the U.S. Border Patrol Training Sector is required.

Offered: May not be offered this year, check class schedule.

LEN 155 Immigration and Nationality Law for Border Patrol

3 cr. hrs. 3 periods (3 lec.)

Survey of legal issues to immigration and nationality law for Border Patrol officers. Includes nationality law, immigration law, liability issues, and civil rights issues. Also includes basic issues related to constitutional law, statutory authority, and criminal law.

Information: Consent of the U.S. Border Patrol Training Sector is required.

Offered: May not be offered this year, check class schedule.

LEN 159 Firearms and Unusual Weapons

1 cr. hrs. 1 periods (1 lec.)

Overview of firearms and unusual weapons for border patrol officers. Includes mechanical and safety features of service firearms and unusual weapons. Also includes portrayals of how various street weapons are used and carried; officer survival techniques involving edged weapons; and officer patrol preparation for surviving an armed encounter.

Offered: May not be offered this year, check class schedule.

LEN 160 Life Management Skills for Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Overview of laws enforcement as a hazardous and stressful occupation. Includes methods of dealing with everyday problems of life at home and at work. Also includes the administration of self-assessment and techniques to help attainment of a desirable lifestyle.

Offered: May not be offered this year, check class schedule.

LEN 163 Research and Planning

3 cr. hrs. 3 periods (3 lec.)

Introduction to research methods and planning concepts. Includes problem solving steps, research design, information gathering techniques, and oral and written reports.

Offered: May not be offered this year, check class schedule.

LEN 180 Introduction to Private Security

3 cr. hrs. 3 periods (3 lec.)

Introduction to private security profession. Includes law enforcement services, responsibilities and workplace skills, legal matters, patrol procedures, search and seizure, crime scene management, and crime prevention techniques.

Offered: May not be offered this year, check class schedule.

LEN 181 Loss Prevention and Plain Clothes Security

3 cr. hrs. 3 periods (3 lec.)

Introduction to the problems of internal and external theft. Includes shoplifting, employee theft, workplace safety, laws of arrest, disease exposure, and incident documentation. Also includes personal safety measures, electronic surveillance, and the court process.

Offered: May not be offered this year, check class schedule.

LEN 250 Basic Follow-up Investigations

3 cr. hrs. 3 periods (3 lec.)

Survey of basic Follow-up investigative resources and techniques utilized by detectives in law enforcement. Includes evidence collection, role of the County Attorney, laws regarding search and seizure, laws concerning statements and confessions, obtaining a search warrant, media interviews, and safety equipment. Also includes crime scene management and interrogation techniques.

Offered: May not be offered this year, check class schedule.

LEN 251 Internal Investigations

3 cr. hrs. 3 periods (3 lec.)

Basic investigative techniques necessary to successfully identify, investigate, and document employee conduct and/or behavior, both administratively and criminally. Includes formulating an investigative plan, managing the investigation, identifying and collecting evidence, and documenting the investigation.

Offered: May not be offered this year, check class schedule.

LEN 260 Financial Analysis in Criminal Justice

4 cr. hrs. 4 periods (4 lec.)

Techniques of financial analysis for criminal justice applications. Includes sources of financial information, analysis of financial documents, and preparation of schedules to provide evidence of financial crimes.

Offered: May not be offered this year, check class schedule.

LEN 270 Principles of Law Enforcement Supervision

3 cr. hrs. 3 periods (3 lec.)

Basic skills and concepts of law enforcement supervision. Includes leadership, reports, performance communication, staff skills, police liability, community problem solving, and customer service.

Offered: May not be offered this year, check class schedule.

LEN 271 Skills for Community-Oriented Policing

4 cr. hrs. 4 periods (4 lec.)

Provides the basis for effective interactions between law enforcement officers and the community members. Includes an introduction to the community policing philosophy, conflict resolution, personal accountability, preparing for change, and interpersonal skills. Also includes fundamentals of crime prevention. Offered: May not be offered this year, check class schedule.

LEN 274 Supervision of Community-Oriented Policing

3 cr. hrs. 3 periods (3 lec.)

Examination of the skills needed to supervise a basic community-oriented policing program. Includes various perspectives of community-oriented policing, team building, empowerment, time management, public speaking, and situational leadership. Also includes the appropriate organizational structure, community assessment, and strategic planning. Offered: May not be offered this year, check class schedule.

LEN 280 General Instructor

3 cr. hrs. 3 periods (3 lec.)

Arizona Police Officer Standards and Training General Instructor certification. Includes demonstration and written requirements. Offered: May not be offered this year, check class schedule.

LEN 281 Field Training Officer

2 cr. hrs. 2 periods (2 lec.)

Roles and duties of the training officer in law enforcement. Includes an overview of the law enforcement training program, its history, structure, and function. Offered: May not be offered this year, check class schedule.

LEN 282 Incident Command Instructor

1 cr. hrs. 1 periods (1 lec.)

Incident Command System (ICS) training for instructors. Includes leadership, management responsibilities, incident objectives and demobilization and post incident analysis. Also includes the function of operations, logistics, planning, and finance. Offered: May not be offered this year, check class schedule.

LEN 290 Law Enforcement Field Experience

3 cr. hrs. 15 periods (15 lab)

Supervised placement in community-oriented policing. Includes development, implementation, and evaluation of a project in the community.

Prerequisite(s): LEN 274, 275.

Offered: May not be offered this year, check class schedule.

Law Enforcement Academy

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

LEA 101 Law Enforcement Academy Phase I

15 cr. hrs. 15 periods (15 lec.)

Basic concepts, techniques, and applications in law enforcement. Includes an introduction to law enforcement, ethics and leadership, law and legal matters, multicultural issues, and community and police relations. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board (Az POST).

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 102 LEA Introduction to Law Enforcement

1 cr. hrs. 1 periods (1 lec.)

Overview of the components of the criminal justice system, their functions, responsibilities and interrelationships. Includes a historical perspective, an outline of regulatory agency functions, responsibilities, jurisdictional limitations, techniques of management and supervision, problem solving strategies, and the relationship between employee and supervisor. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board (Az POST).

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 103 LEA Ethics and Leadership

3 cr. hrs. 3 periods (3 lec.)

Principles of ethical behavior for law enforcement professionals. Includes establishing a leadership role within the community. Also includes the Law En-

forcement Code of Ethics, and the Canons of Police Ethics as a basis to establish trust and protect a positive image of law enforcement.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 104 LEA Law and Legal Matters I

3 cr. hrs. 3 periods (3 lec.)

Examination of the basic concepts, phrases and definitions needed to study criminal law. Includes an analysis of constitutional requirements, statutes and case law on search and seizure, the conditions under which an officer or citizen may make an arrest, an officer's duties and responsibilities prior to and during the arrest, and the rules of evidence. Also includes summonses and subpoenas, civil processes, and the functions of the various courts, agencies, and laws relating to juveniles.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 105 LEA Multicultural Issues

3 cr. hrs. 3 periods (3 lec.)

Exploration of the value of diversity in a law enforcement environment. Includes the standards and norms of different groups and individuals and how they impact the attitudes and behaviors. Also includes the need to adapt interactions without compromising established societal norms.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 106 LEA Community and Police Relations

2 cr. hrs. 2 periods (2 lec.)

Benefits and methods of developing positive police-community relations and recognizing cultural differences within the community. Includes the emotional and behavioral indicators of crime victims, personal communication, crime prevention functions of the patrol officer and various crime prevention programs.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 107 LEA Interpersonal Relations in Law Enforcement

3 cr. hrs. 3 periods (3 lec.)

Exploration of the interactions of law enforcement professionals with peers and the public. Includes the unique roles and expectations which occur when entering a law enforcement career. Also includes specific methods and techniques used in a situational interactions.

Information: Admission to the Law Enforcement Program or permission of the Law Enforcement Department is required before enrolling in this course. LEA 102, 103, 104, 105, 106, and 107 together constitute LEA 101.

Offered: Contact department at 206-6569.

LEA 200 Law Enforcement Academy (LEA) Phase II

16 cr. hrs. 16 periods (16 lec.)

Continuation of LEA 101. Includes the law and legal matters, patrol procedures, traffic enforcement and investigation, criminal investigation, and records and reports. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board (Az POST).

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 201 LEA Law and Legal Matters II

3 cr. hrs. 3 periods (3 lec.)

Continuation of LEA 104. Includes the proper techniques for giving effective police testimony, outline of the United States Constitution, Arizona Revised Statutes (ARS) Title 13, and a review of common civil and criminal liability facing law enforcement agencies and officers.

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 202 LEA Patrol Procedures

3 cr. hrs. 3 periods (3 lec.)

Study of the types, purposes and techniques of police patrol. Includes citizen protection, crime prevention, emergency and non-emergency situations, safely conducting a high risk vehicle stop, domestic disputes and managing crisis situations, mental illness and criminal behavior, crimes in progress, indicators of alcohol intoxication, and symptoms of medical conditions. Also includes use of police radio, hazardous materials, disasters, hate motivated acts, fires, and civil disputes.

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 203 LEA Traffic Enforcement and Investigation

3 cr. hrs. 3 periods (3 lec.)

Introduction to the attitude and techniques essential in dealing effectively with traffic violators. Includes the effects of alcohol and drugs on drivers and techniques for obtaining evidence for successful prosecution, the legal basis of the Uniform Traffic Citation, specific techniques for stopping and approaching suspects in vehicles, traffic collision investigation, and proper methods for taking and recording evidence at the collision scene. Also includes techniques for directing and controlling vehicular and pedestrian movements by means of hand signals, and applicable sections of the Arizona Revised Statutes relating to law enforcement authority.

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 204 LEA Criminal Investigation

3 cr. hrs. 3 periods (3 lec.)

Principles common to all types of investigation. Includes conducting a proper search, sketching the crime scene, recording and preserving notes, packaging and marking evidence for identification, synthesizing information into a final report, the functions of a crime laboratory, proper interviewing and questioning techniques, and methods of fingerprinting. Also includes investigating the more common sex crimes, procedures for investigating cases involving death, organized criminal activities, techniques used in the investigation of assault, burglary, robbery, auto theft, child abuse, missing persons, and narcotics and dangerous drug violations.

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 205 LEA Records and Reports

3 cr. hrs. 3 periods (3 lec.)

Introduction to the characteristics of good reports and field notes and obtaining and using investigative information from police records systems. Includes form, style, and procedures for writing various reports, techniques for developing an accurate narrative, and proper and improper conclusions. Also includes modern technology in police data processing and information available through the use of local state and national records.

Prerequisite(s): LEA 101, or LEA 102, 103, 104, 105, 106, and 107.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 201, 202, 203, 204, and 205 together constitute LEA 200.

Offered: Contact department at 206-6569.

LEA 220 Law Enforcement Academy (LEA) Phase III

16 cr. hrs. 16 periods (16 lec.)

Continuation of LEA 101 and LEA 200. Concepts, techniques, and applications to develop law enforcement proficiency skills. Includes emergency medical care, legal implications, weapons, and firearms strategies, tactics, and use; the development and demonstration of each participant's mental and physical condition; and techniques for maintaining physical control of disruptive, combative, or potentially dangerous subjects, such as restraint holds and other defensive tactics. Includes defensive driving techniques, methods, and applications. Also includes the liabilities and responsibilities associated with the use of force and factors in use of force situations. Also includes standards required of law enforcement personnel and the functions and responsibilities of the Arizona Peace Officer Standards and Training Board (AZ POST).

Prerequisite(s): LEA 200, or LEA 201, 202, 203, 204, and 205.

Information: Admission to the Law Enforcement Academy or consent of Law Enforcement Coordinator is required before enrolling in this course. The student must achieve a minimum qualification score and demonstrate proficiency

in the use and deployment of all weapons to successfully complete this course. Students must score in the fair range for all measures to complete this course. LEA 221, 222, 223, and 224 together constitute LEA 220.

Offered: Contact department at 206-6569.

LEA 221 LEA Police Proficiency Skills I

4 cr. hrs. 4 periods (4 lec.)

Methods of first aid and stress management. Includes providing emergency medical care to victims, legal and civil issues, and proper procedures for handling various traumas. Also includes the manifestations and techniques of managing personal job-related stress.

Prerequisite(s): LEA 200, or LEA 201, 202, 203, 204, and 205.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. Students must score in the fair range for all measures to complete this course. LEA 221, 222, 223, and 224 together constitute LEA 220.

Offered: Contact department at 206-6569.

LEA 222 LEA Police Proficiency Skills II

4 cr. hrs. 4 periods (4 lec.)

Continuation of LEA 221. Weapons and firearm safety, use, and less lethal options. Also includes the mechanical, safety features, servicing, and deployment of weapons and tactics.

Prerequisite(s): LEA 221.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. The student must achieve a minimum qualification score and demonstrate proficiency in the use and deployment of all weapons to successfully complete this course. LEA 221, 222, 223, and 224 together constitute LEA 220.

Offered: Contact department at 206-6569.

LEA 223 LEA Police Proficiency Skills III

4 cr. hrs. 4 periods (4 lec.)

Continuation of LEA 222. Includes the development and demonstration of each participant's mental and physical condition through structured exercise and classroom education. Also includes various techniques for maintaining physical control of disruptive, combative, or potentially dangerous subjects, including restraint holds and other defensive tactics.

Prerequisite(s): LEA 222.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. LEA 221, 222, 223, and 224 together constitute LEA 220.

Offered: Contact department at 206-6569.

LEA 224 LEA Police Proficiency Skills IV

4 cr. hrs. 4 periods (4 lec.)

Continuation of LEA 223. Includes basic defensive driving techniques, hazardous road conditions, dynamics of a moving vehicle, the driving task, pursuit and high speed response procedures, high speed vehicle control, and methods to successfully stop fleeing vehicles. Also includes the liabilities and responsibilities associated with the use of force and factors in use of force situations.

Prerequisite(s): LEA 223.

Information: Admission to the Law Enforcement Academy or consent of the Law Enforcement Coordinator is required before enrolling in this course. Students must score in the fair range for all measures to complete this course. LEA 221, 222, 223, and 224 together constitute LEA 220.

Offered: Contact department at 206-6569.

Literature

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

LIT 124 Introduction to Writers of the Southwest

3 cr. hrs. 3 periods (3 lec.)

Introduction to multicultural short stories, poetry, and creative non-fiction of contemporary Southwestern writers. Includes introduction to Mexican-American writers of the Southwest, American Indian writers of the Southwest, Anglo and other writers of the Southwest, and an introduction to written works.

Information: Students do not need to have a writing prerequisite.

Offered: Fall.

LIT 174 Introduction to Native American Writings

3 cr. hrs. 3 periods (3 lec.)

Study of Native American texts, including autobiographical writings, short stories, and nonfiction. Includes introduction to historical and cultural contexts, themes and issues addressed by Native American authors, Native American narratives, and reports and presentations.

Offered: May not be offered this year, check class schedule.

LIT 224 Southwestern Literature

3 cr. hrs. 3 periods (3 lec.)

Multicultural short stories, novels, poetry, and creative non-fiction of contemporary Southwestern writers. Includes Mexican-American writers of the Southwest, American Indian writers of the Southwest, Anglo and other writers of the Southwest, and written works. Also includes comparisons of social, political, and environmental themes in different cultures.

Prerequisite(s): WRT 102 or 108.

Offered: Fall

LIT 231 Introduction to Shakespeare

3 cr. hrs. 3 periods (3 lec.)

Investigation of a number of Shakespeare's major works. Includes sonnets, comedies, histories, and tragedies. Also includes history, social and cultural conditions, literary background, staging, and writing.

Prerequisite(s): WRT 102 or 108.

Offered: Fall, Spring.

LIT 237 Women's Literature

3 cr. hrs. 3 periods (3 lec.)

Study of literature written by women. Includes literary forms, historical, multicultural, and global context, literary criticism, and intertextualities.

Prerequisite(s): WRT 102 or 108.

Offered: May not be offered this year, check class schedule.

LIT 240 American Literature of Opposition

3 cr. hrs. 3 periods (3 lec.)

Protest and anti-establishment literature of the nineteenth and twentieth centuries in a variety of genres and media. Includes oppositional works from across the political and cultural spectrums. Also includes essay writing, and critical thinking. May include contemporary Internet and alternative media.

Prerequisite(s): WRT 102 or 108.

Offered: Fall.

LIT 260 Major British Writers

3 cr. hrs. 3 periods (3 lec.)

Representative selection of works by major authors. Includes a range of periods and types of literature.

Prerequisite(s): WRT 102 or 108.

Offered: May not be offered this year, check class schedule.

LIT 261 Modern Literature

3 cr. hrs. 3 periods (3 lec.)

Critical analysis of literature of the modern period and from a variety of nations and cultures. Includes analyzing literary texts for meaning and form, understanding the contexts of literature, and writing about literature. Also includes selections from various literary genres, which may include fiction, drama, and poetry, as well as other literary forms.

Prerequisite(s): WRT 102 or 108.

Offered: Fall, Spring, Summer.

LIT 262 American Poets

3 cr. hrs. 3 periods (3 lec.)

Study of the voices and visions of American poets. Includes American poetic visions, distinct styles and voices of poets, and writing assignments.

Prerequisite(s): WRT 102 or 108.

Offered: Fall, Spring.

LIT 265 Major American Authors

3 cr. hrs. 3 periods (3 lec.)

Survey of selected works by major American authors from the colonial period to the present. Includes extensive writing and reading and emphasizes relating works to their social and historical contexts. Also includes analysis of literary texts of various genres, such as poetry, drama and fiction, for meaning and form.

Prerequisite(s): WRT 102 or 108.

Offered: Fall, Spring, Summer.

LIT 266 World Drama

3 cr. hrs. 3 periods (3 lec.)

Major dramatic works. Includes literary forms, historical context, psychological and moral implications of the literature, and cultural significance of plays.

Prerequisite(s): WRT 102 or 108.

Offered: May not be offered this year, check class schedule.

LIT 267 World Literature: Narrative

3 cr. hrs. 3 periods (3 lec.)

Multicultural readings of great narrative works of western literary tradition. Includes an introduction to narrative literature and works from major periods, such as ancient, classical, renaissance, and romantic, up to and including

present. Also includes comparisons of form and theme to works from diverse cultural traditions, and an emphasis on verbal and written analysis of cultural and historical significance.

Prerequisite(s): WRT 102 or 108.

Offered: May not be offered this year, check class schedule.

LIT 274 Native American Literature

3 cr. hrs. 3 periods (3 lec.)

A survey of Native American oral stories, autobiographical writings, fiction, poetry, and nonfiction. Includes historical and cultural contexts, major themes and issues in contemporary Native American literature, literary forms and techniques, and critical essays.

Prerequisite(s): WRT 102 or 108.

Offered: Fall.

LIT 289 Literature and Film

3 cr. hrs. 3 periods (3 lec.)

Criticism of film's dramatic forms, elements and genres. Includes development of film as an art form, comparative approaches to literature and film, performed drama, critical analysis and film production personnel.

Prerequisite(s): WRT 102 or 108.

Offered: Fall, Spring.

Machine Tool Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MAC 100 Introduction to Machine Tool

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures for basic machine tool operations. Includes careers in manufacturing, machine tool history, safety, materials, manufacturing process planning, measurement, layout tools and procedures, principles of metal cutting, bench and hand tools, power saws, drill presses, and abrasive machine.

Offered: Fall, Spring.

MAC 110 Manual Machine Shop

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to basic machine shop practices. Includes safety, lathes, vertical milling machines, and grinding machines.

Prerequisite(s): MAC 100.

Information: Prerequisite maybe waived with a score of 80% or better on the Machine Tool assessment test. See a machine tool instructor or advisor for prerequisite information.

Offered: Fall, Spring, Summer.

MAC 120 Machine Shop II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of MAC 110. Includes a more in depth application of safety, lathes, milling machines, and grinding machines.

Prerequisite(s): MAC 110 or equivalent with department advisor approval.

Offered: Summer.

MAC 125 Mechanical Inspection

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and applications of dimensional measurement. Includes line graduated measuring instruments, fixed gages, gauge blocks, comparative measurements, optical comparators and projectors, angle measurement, straightness, flatness, and perpendicularity measurement, and coordinated measuring machines.

Prerequisite(s): GTM 105, and MAC 110.

Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.

Offered: Fall, Spring.

MAC 130 Jig and Fixture Design

3 cr. hrs. 3 periods (3 lec.)

Design and application of tools, jigs, and fixtures for basic metal working. Includes basic types and functions of jigs and fixtures, design economics, design and construction of jigs and fixtures, and specialized workholding tooling.

Prerequisite(s): MAC 110.

Information: Prerequisite maybe waived with industry experience. See a machine tool faculty instructor for prerequisite information.

Offered: Fall, Spring.

MAC 140 Introduction to Electrical Discharge Machining

4 cr. hrs. 6 periods (2 lec., 4 lab)

Application of electrical discharge machining (EDM) in industry today. Includes overview of EDM, EDM machines and processes, spark generation and dielectric fluids, electrodes, and surface finishes.

Prerequisite(s): MAC 110.

Information: Prerequisite maybe waived with Industry experience. See a machine tool instructor for prerequisite information.

Offered: Fall.

MAC 150 Computer Numerical Control (CNC) Mill Programming I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Operations and procedures for automated machining systems. Includes Numerical Control (NC) and Computer Numerical Control (CNC) machining system, positioning and coordinate systems used in NC/CNC programming, part programming, diagnosis and correction of programming errors, and programming procedures.

Prerequisite(s): GTM 105 and MAC 110.

Recommendation: Completion of CAD 101 before enrolling in this course.

Information: Industry experience may be substituted for prerequisite requirements. See a machine tool instructor for prerequisite information.

Offered: Fall, Spring.

MAC 155 Computer Numerical Control (CNC) Mill Programming II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of MAC 150. Includes review of Computer Numerical Control (CNC), mill programming, diagnosis and correction of programming errors, advanced programming techniques use in production and prototype machining, introduction to lathe programming, and introduction to sub-programming.

Prerequisite(s): MAC 150.

Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.

Offered: Fall, Spring.

MAC 160 Computer Numerical Control (CNC) Lathe Programming

4 cr. hrs. 6 periods (2 lec., 4 lab)

Operations and procedures for Computer Numerical Control (CNC) Lathe. Includes review of CNC concepts and programming, diagnosis and correction of programming errors, advanced programming for CNC Lathes, and introduction to Computer Aided Manufacturing (CAM) programs.

Prerequisite(s): GTM 105 and MAC 150.

Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.

Offered: Summer.

MAC 199 Introduction to Co-op: Machine Tool Technology

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): MAC 199WK

Information: May be taken two times for a maximum of two credit hours.

Offered: May not be offered this year, check class schedule.

MAC 199WK Co-op Work: Machine Tool Technology

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): MAC 199

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

MAC 245 Wire Electrical Discharge Machining and Programming I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Operations and procedures for EDM machining system. Includes wire EDM overview, EDM operating processes, EDM machine functions, EDM manual part programming, and EDM machining operations.

Prerequisite(s): MAC 140.

Offered: Spring.

MAC 257 Computer Aided Machining (CAM) I

4 cr. hrs. 6 periods (2 lec., 4 lab)

Computer Aided Machining (CAM) I Programming automated machine tools using Computer Aided Manufacturing (Mastercam) software. Includes review of Computer Numerical Control (CNC) and Computer Aided Drafting (CAD), introduction to a CAM environment, creating geometry, operating manager, and code generation.

Prerequisite(s): MAC 155.

Information: Prerequisite maybe waived with industry experience. See a machine tool instructor for prerequisite information.

Offered: Fall, Spring.

MAC 258 Computer Aided Machining (CAM) II

4 cr. hrs. 6 periods (2 lec., 4 lab)

Continuation of MAC 257. Includes profile surface, 3D surfaces, editing surfaces and preparing geometry for wire part.

Prerequisite(s): MAC 257.

Offered: Fall, Spring.

MAC 259 Computer Aided Machining (CAM) III: Solid Modeling

4 cr. hrs. 7 periods (1 lec., 6 lab)

Continuation of CAD 258. Includes profile surfaces of tool path, solid model features in three-dimension (3-D), and editing solid model surfaces.

Prerequisite(s): MAC 258.

Offered: Summer.

MAC 275 Applied Metallurgy

4 cr. hrs. 6 periods (2 lec., 4 lab)

Application of metallurgical concepts, procedures, and testing. Includes materials, alloy classification systems, industrial and manufacturing concepts, properties and testing, and industrial and manufacturing processes and applications.

Offered: Fall.

MAC 296 Machine Tool Independent Projects

1-4 cr. hrs. 3-12 periods (3-12 lab)

Self-directed laboratory projects. Includes establishing objectives, procedures and a method of evaluation.

Information: May be taken sixteen times for a maximum of sixteen credit hours. Consent of instructor must be obtained before enrolling in this course.

Offered: Fall, Spring.

Magnetic Resonance Imaging

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MRI 210 Introduction to Magnetic Resonance Imaging

1 cr. hrs. 1 periods (1 lec.)

Overview of magnetic resonance imaging, program policies and student responsibilities. Includes fundamental principles of MRI, equipment and terminology, the role of the technologist in maintaining patient safety and comfort, and personal safety of coworkers. Also includes MRI contrast agents and venipuncture, and a brief introduction to imaging parameters and the clinical applications of MRI.

Corequisite(s): MRI 212, MRI 214, MRI 216LC

Information: Completion of Radiologic Technology program and consent of instructor required before enrolling in this course.

Offered: Fall.

MRI 212 Physical Principles of Magnetic Resonance Imaging

1 cr. hrs. 1 periods (1 lec.)

Comprehensive overview of magnetic resonance imaging. Includes instrumentation, magnetism, nuclear magnetic resonance signal production, tissue characteristics, spatial localization, pulse sequencing, and imaging parameters and options. Also includes special applications, safety, and quality assurance.

Corequisite(s): MRI 210, MRI 214, MRI 216LC

Offered: Fall.

MRI 214 Sectional Anatomy Human Body

1 cr. hrs. 1 periods (1 lec.)

Three dimensional anatomy presented in transverse, sagittal and coronal planes of specified regions of the human body as viewed from magnetic resonance imagery. Includes structure identification of the bones, muscles, vascular system, organs and soft tissue components.

Corequisite(s): MRI 210, MRI 212, MRI 216LC

Offered: Fall.

MRI 216LC MRI Clinical Education I

4 cr. hrs. 16 periods (16 lab)

Application of general magnetic resonance imaging (MRI) procedures in a clinical education center under supervision of an American Registry of Radiologic Technologies (ARRT) registered MRI technologist. Includes MRI procedures, safe utilization of the MRI environment, patient care, clerical responsibilities, human relations skills with patients and staff, image processing and handling, and MR image evaluation.

Corequisite(s): MRI 210, MRI 212, MRI 214

Offered: Fall.

MRI 220 Imaging Procedures

1 cr. hrs. 1 periods (1 lec.)

Imaging techniques related to the central nervous system, neck, thorax, musculoskeletal system, and abdominopelvic regions. Includes specific clinical applications, available coils and their use, scan sequence considerations, spe-

cific protocol choices, and positioning criteria. Also includes anatomical structures, the plane best demonstrating anatomy, and signal characteristics of normal and abnormal structures.

Prerequisite(s): MRI 216.

Corequisite(s): MRI 222, MRI 224, MRI 226LC

Offered: Spring.

MRI 222 MRI Pathology Detection

1 cr. hrs. 1 periods (1 lec.)

Common pathologies identified by magnetic resonance imaging and their appearance with various imaging protocols. Includes all commonly imaged body systems and areas. Also includes case studies and images of pathologies.

Prerequisite(s): MRI 216.

Corequisite(s): MRI 220, MRI 224, MRI 226LC

Offered: Spring.

MRI 224 ARRT Exam Preparation and MRI Physics Review

1 cr. hrs. 1 periods (1 lec.)

Review of knowledge and skills needed to perform the tasks typically required of technologists practicing in the clinical field of magnetic resonance imaging. Includes special emphasis on elements required to pass the American Registry of Radiologic Technologists examination, including patient care and safety, imaging procedures, data acquisition, and physical principles of image formation.

Prerequisite(s): MRI 216.

Corequisite(s): MRI 220, MRI 222, MRI 226LC

Offered: Spring.

MRI 226LC MRI Clinical Education II

4 cr. hrs. 16 periods (16 lab)

Continuation of MRI 216LC. Application of general magnetic resonance imaging procedures in a clinical education center under the supervision of an American Registry of Radiologic Technologist (ARRT) registered MRI technologist. Includes further development of MRI procedures, safe utilization of the MRI environment, patient care, clerical responsibilities, human relations skills with patients and staff, image processing and handling, and MR image evaluation.

Prerequisite(s): MRI 216LC.

Corequisite(s): MRI 220, MRI 222, MRI 224

Offered: Spring.

Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MGT 110 Human Relations in Business and Industry

3 cr. hrs. 3 periods (3 lec.)

Examination of the most basic forms of human relations as it relates to business and industry. Includes the roles of the employees, supervisors, and management, management concepts and functions, communication, managing change and stress, human motivation, building relationships, and supervising groups. Also includes leadership and management styles, selection, orientation, training, and appraisal, discipline, complaints, grievances, and working with the union, and security, safety, and health at work.

Offered: Fall, Spring, Summer.

MGT 122 Supervision

3 cr. hrs. 3 periods (3 lec.)

Theories and concepts of supervision. Includes the role of the supervisor, management concepts and functions, communication, managing change and stress, human motivation, building relationships, supervision of groups, leadership and management styles, selection, orientation, training, appraisal, and discipline. Also includes complaints, grievances, working with the union, security, safety, and health at work.

Information: This course consists of study and application. The student will first review all of the major concepts in supervision. The student will then utilize all of the major concepts presented to examine and evaluate a series of case studies. At the end of the course, a final and cumulative case study will be evaluated.

Recommendation: It is recommended that students complete MGT 110 before enrolling in this course.

Offered: Fall, Spring, Summer.

MGT 124 Small Business Management

3 cr. hrs. 3 periods (3 lec.)

Analysis of the practical problems of organizing, managing and starting a small business. Includes introduction and overview, selecting employees, forms of ownership, managing the business, business plan, pricing, managing cash flow, creating sales forecast, income statements, breakeven analysis, source

of funds, international operations, contract, risk, and international opportunities. Offered: Fall, Spring.

MGT 130 Improving Customer Service Quality

3 cr. hrs. 3 periods (3 lec.)

Exploration of customer service quality in a variety of product and service areas. Includes customer/supplier interactions, quality indicators, costs of service quality, guidelines for quality service improvement, pitfalls or danger signs, service quality benchmarking process, variation, introductory tools for service quality improvement, and quality training.

Recommendation: Completion of MAT 092 before enrolling in this course.

Offered: Spring.

MGT 230 Dynamics of Leadership

3 cr. hrs. 3 periods (3 lec.)

Supervised practical training in leadership. Includes history, philosophy, and vision of leadership, aspects of leadership, power of positive vision, goal setting, decision making, life planning, identifying a personal philosophy, team building, delegating, ethics in leadership, servant leadership, initiating change, managing conflict, and designing and completing leadership projects.

Information: Same as STU 230.

Offered: Fall.

MGT 230A Dynamics of Leadership: Philosophy and Vision

.5 cr. hrs. .5 periods (.5 lec.)

Introduction to leadership. Includes history of leadership, aspects of leadership, and power of positive vision.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230A.

Offered: May not be offered this year, check class schedule.

MGT 230B Decision Making and Goal Setting

.5 cr. hrs. .5 periods (.5 lec.)

Achieving positive ends. Includes goal setting, decision making, life planning, and identifying a personal philosophy.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230B.

Offered: May not be offered this year, check class schedule.

MGT 230C Team Building and Empowering

.5 cr. hrs. .5 periods (.5 lec.)

Positive group dynamics. Includes team building and delegating.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230C.

Offered: May not be offered this year, check class schedule.

MGT 230D Ethics in Leadership

.5 cr. hrs. .5 periods (.5 lec.)

Development of ethical behavior. Includes ethics in leadership and servant leadership.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230D.

Offered: May not be offered this year, check class schedule.

MGT 230E Conflict and Change

.5 cr. hrs. .5 periods (.5 lec.)

Elements of the change process. Includes initiating change and managing conflict.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230E.

Offered: May not be offered this year, check class schedule.

MGT 230F Developing Viable Leadership Project

.5 cr. hrs. .5 periods (.5 lec.)

Effective leadership skills. Includes designing and completing leadership projects.

Information: MGT 230A, 230B, 230C, 230D, 230E, and 230F together constitute MGT 230. Same as STU 230F.

Offered: May not be offered this year, check class schedule.

MGT 270 Computer Applications for Managers

3 cr. hrs. 3 periods (3 lec.)

Development of management skills in computer applications for business. Includes state of computing technology, electronic commerce and the economy, international issues, work and the virtual workplace, project management, and presentations

Recommendation: Completion of CSA 101 or proficiency with Microsoft Office software before enrolling in this course.

Offered: Fall, Spring, Summer.

MGT 276 Human Resources

3 cr. hrs. 3 periods (3 lec.)

Practical aspects of personnel management and support. Includes roles and concepts, acquiring human resources, administering the personnel program, developing employee potential, maintaining the workforce, and future outlook for personnel management.

Recommendation: Completion of BUS 100 before enrolling in this course.

Offered: Fall, Spring.

MGT 280 Business Organization and Management

3 cr. hrs. 3 periods (3 lec.)

Overview of the functions performed and issues faced by managers in business. Includes managers and management, the managerial environment, planning and decision support systems, project management, managerial control, and leadership. Also includes motivation and performance, control, and creating and sustaining high performance teams.

Recommendation: Completion of BUS 100 and any other MGT course before enrolling in this course.

Offered: Fall, Spring, Summer.

MGT 283 Organizational Planning for the New Economy

3 cr. hrs. 3 periods (3 lec.)

Techniques of planning in light of contemporary economic factors. Includes issues of the new economy, strategic planning and thinking, planning models, and using a case study in planning for a government agency, business, or non-profit organization.

Offered: Fall.

MGT 284 Health Care Management

3 cr. hrs. 3 periods (3 lec.)

An overview of health care management to prepare supervisors and middle managers. Includes health care regulations, finance and related business issues, communication among the health care team members, supervision of staff, and planning and evaluating patient care management systems.

Recommendation: Completion of HCA 154 before enrolling in this course for students with no experience in the Health Care field.

Offered: May not be offered this year, check class schedule.

MGT 285 Leading a Non-Profit Organization

3 cr. hrs. 3 periods (3 lec.)

Overview of the issues and tasks related to leading a non-profit organization. Includes types of non-profit organizations establishing, planning, and evaluating non-profit organizations, functions of board of directors, and managing volunteer workers from the community.

Offered: Spring.

MGT 286 Funding and Finance in a Non-Profit Organization

3 cr. hrs. 3 periods (3 lec.)

Financial issues related to leadership and management of a non-profit organization. Includes fund raising and other revenue sources, financial management, accounting practices, and tax codes regarding potential donors.

Offered: Spring.

MGT 287 Strategic Community Alliances of Non-Profit Organizations

3 cr. hrs. 3 periods (3 lec.)

Survey of the types of relationships non-profit organizations have with their communities. Includes community profiles, social change in multiple communities, marketing non-profit organizations, effective communication with constituencies, and collaborating with other organizations.

Offered: May not be offered this year, check class schedule.

MGT 289 Capstone Project in Leadership

2 cr. hrs. 2 periods (2 lec.)

Developing and reporting on a project to integrate leadership concepts and actions. Includes a review of leadership concepts, proposal development, project implementation, and reporting on the activities and outcomes of a leadership project.

Prerequisite(s): MGT/STU 230

Offered: Spring.

Marketing

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MKT 100 Customer Service Skills

3 cr. hrs. 3 periods (3 lec.)

Overview of the behavior exhibited by successful customer service professionals featuring simulated business settings. Includes conventional behaviors of the workplace, professional communication in the customer service setting, grooming and clothing for a business setting, telephone and e?mail service, effective answers to sales questions, punctuality and the work ethic, professionalism in the workplace, basic qualitative activities, behavior with co-workers, customer service challenges, exceptional customer service, and career advancement strategies in customer service.

Offered: Spring.

MKT 111 Principles of Marketing

3 cr. hrs. 3 periods (3 lec.)

Introduction to marketing principles and strategies. Includes developing a preliminary marketing plan, product strategy, pricing strategy, distribution of products/services, promotional strategies, relating the classification of consumer goods with the elements of the marketing mix, and the global marketplace.

Offered: Fall, Spring, Summer.

MKT 113 Salesmanship

3 cr. hrs. 3 periods (3 lec.)

Basic principles and techniques of selling and their practical application. Includes selling as a profession, preparation for relationship selling, the selling process, and planning and managing a sales territory.

Offered: May not be offered this year, check class schedule.

MKT 125 Advertising

3 cr. hrs. 3 periods (3 lec.)

Advertising principles and concepts as applied in a business setting. Includes advertising perspectives, developing marketing and advertising strategies, creating advertisements and commercials, and advertising media mix.

Offered: Fall.

MKT 139 Retailing

3 cr. hrs. 3 periods (3 lec.)

Business activities of selling goods and services to final customers. Includes overview of the industry of retailing, environmental framework, consumer demographics and behavior, retail outlet characteristics, the retailing mix, retail information and control systems, the changing nature of retailing, and retailing careers.

Offered: Fall, Spring.

MKT 140 Principles of Apparel Merchandising

3 cr. hrs. 3 periods (3 lec.)

A comprehensive overview of how the fashion business works. Includes textiles, production, global sourcing and branding, fashion consumer: overview, methods of research and distribution markets, fashion retailing, careers in apparel merchandising, and interviews with fashion executives.

Offered: Fall, Spring.

MKT 150 Physical Distribution Management

3 cr. hrs. 3 periods (3 lec.)

Overview of physical distribution management to achieve the most effective flow of products. Includes the role of logistics in the economy and organization, developing customer service standards, logistics information systems, inventory, managing the flow of materials, transportation, warehousing, and purchasing. Also includes global logistics, effective logistics, international distribution strategies, supply chain management, and implementation of logistics strategy.

Information: Same as PIM 150.

Offered: May not be offered this year, check class schedule.

MKT 160 Marketing for Nonprofit Organizations

3 cr. hrs. 3 periods (3 lec.)

Application of marketing principles and practices to nonprofit organizations. Includes marketing terminology and strategic planning concepts. Also includes student design of an integrated marketing plan for a nonprofit organization.

Offered: May not be offered this year, check class schedule.

MKT 196 Independent Study in Marketing and Business

.5-3 cr. hrs. 1.5-9 periods (1.5-9 lab)

Student independently continue their studies in Marketing and Business under the supervision of a faculty member.

Information: Consent of instructor is required before enrolling in this course. May

be taken three times for a maximum of nine credit hours.
Offered: Spring.

MKT 240 Apparel Merchandising Techniques

3 cr. hrs. 3 periods (3 lec.)

Survey of analytical skills for clothing and product knowledge. Includes evaluation of merchandise in apparel sales, planning for a product line, impact of design and business goals in fashion apparel, and creating product line: design and production review.

Prerequisite(s): MKT 140.

Information: Students who have experience in fashion retailing may have the prerequisite waived. See instructor for information.

Offered: May not be offered this year, check class schedule.

Mathematics

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MAT 082 Basic Mathematics

3 cr. hrs. 3 periods (3 lec.)

Fundamentals and applications of arithmetic. Includes operations on whole numbers, fractions, decimal numbers, ratio and proportion, percent, and measurement.

Information: MAT 082A, 082B, and 082C together constitute MAT 082.

Offered: Fall, Spring, Summer.

MAT 082A Basic Mathematics: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of MAT 082.

Offered: Fall, Spring, Summer.

MAT 082B Basics Mathematics: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of MAT 082.

Prerequisite(s): Within the last three years: MAT 082A with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 082C Basic Mathematics: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of MAT 082.

Prerequisite(s): Within the last three years: MAT 082B with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 086 Prealgebra

3 cr. hrs. 3 periods (3 lec.)

Transition from arithmetic to algebra. Includes signed numbers, commutative, associative, and distributive laws, order of operations, algebraic expressions, polynomials, fractions, and linear equations. Also includes percents, ratio and proportion, graphing, perimeter, area, volume, and optional topics.

Prerequisite(s): Within the last three years: MAT 082 with a C or better or required score on the Mathematics assessment test.

Information: MAT 086A, 086B, and 086C together constitute MAT 086. Access to a scanner required for Math class taken online.

Offered: Fall, Spring, Summer.

MAT 086A Prealgebra: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of MAT 086.

Prerequisite(s): Within the last three years: MAT 082 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 086B Prealgebra: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of MAT 086.

Prerequisite(s): Within the last three years: MAT 086A with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 086C Prealgebra: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of MAT 086.

Prerequisite(s): Within the last three years: MAT 086B with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 092 Elementary Algebra

3 cr. hrs. 3 periods (3 lec.)

Introduction to basic algebra. Includes translating written statements into algebraic expressions, linear equations, linear inequalities, graphing, integer exponents, and polynomials. Also includes factoring, simple rational expressions, square roots, quadratic equations, and optional topics.

Prerequisite(s): Within the last three years: MAT 086 with a C or better or required score on the Mathematics assessment test.

Information: Access to a scanner required for Math classes taken online. MAT 092A, 092B, and 092C together constitute MAT 092.

Offered: Fall, Spring, Summer.

MAT 092A Elementary Algebra: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of MAT 092.

Prerequisite(s): Within the last three years: MAT 082 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 092B Elementary Algebra: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of MAT 092.

Prerequisite(s): Within the last three years: MAT 092A with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 092C Elementary Algebra: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of MAT 092.

Prerequisite(s): Within the last three years: MAT 092B with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 093 Elementary Algebra Supplemental

1 cr. hrs. 1 periods (1 lec.)

Supplementary to and in conjunction with MAT 092, this course will emphasize problem solving, with further study of graphing, equations, applications, and other commonly mis- understood topics.

Prerequisite(s): Within the last three years: MAT 086 with a C or better or required score on the Mathematics assessment test.

Corequisite(s): MAT 092

Offered: May not be offered this year, check class schedule.

MAT 106 Elementary Data Analysis with Spreadsheets

2 cr. hrs. 2 periods (2 lec.)

Introduction to statistics. Includes the collection and presentation of data, statistical measures, algebra topics, Excel topics, and data analysis topics.

Prerequisite(s): Within the last three years: MAT 086 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 106A Elementary Data Analysis with Spreadsheets: Module A

1 cr. hrs. 1 periods (1 lec.)

Introduction to statistics. Includes the collection and presentation of data and statistical measures.

Prerequisite(s): Within the last three years: MAT 086 with a C or better, or require score on the Mathematics assessment test.

Information: MAT 106A and 106B together constitute MAT 106.

Offered: Fall, Spring, Summer.

MAT 106B Elementary Data Analysis with Spreadsheets: Module B

1 cr. hrs. 1 periods (1 lec.)

Continuation of MAT 106A. Includes algebra topics, Excel topics, and data analysis topics.

Prerequisite(s): Within the last three years: MAT 106A with a C or better or concurrent enrollment.

Information: MAT 106A and MAT 106B together constitute MAT 106.

Offered: May not be offered this year, check class schedule.

MAT 108 Practical Geometry and Trigonometry

2 cr. hrs. 2 periods (2 lec.)

Fundamentals of geometry and trigonometry with applications. Includes basic geometric properties, properties of triangles, Pythagorean Theorem and special triangles, polygons, circles, volumes, radian measure, trigonometric functions, and oblique triangles.

Prerequisite(s): Within the last three years: MAT 086 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 108A Practical Geometry and Trigonometry: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-half of MAT 108.

*Prerequisite(s): Within the last three years: MAT 082 with a C or better or required score on the Mathematics assessment test.**Information: MAT 108A and 108B together constitute MAT 108.*

Offered: Fall, Spring, Summer.

MAT 108B Practical Geometry and Trigonometry: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-half of MAT 108.

*Prerequisite(s): Within the last three years: MAT 108A with a C or better or concurrent enrollment.**Information: MAT 108A and 108B together constitute MAT 108.*

Offered: Fall, Spring, Summer.

MAT 122 Intermediate Algebra

3 cr. hrs. 3 periods (3 lec.)

Basic algebraic functions. Includes lines in the plane, systems of linear equations, inequalities, polynomials, rational expressions and equations, radical expressions and equations. Also includes quadratic equations, literal equations, exponents, and logarithms, functions, and optional topics.

*Prerequisite(s): Within the last three years: C or better in MAT 092 or satisfactory score on the mathematics assessment exam.**Information: MAT 122A, 122B, and 122C together constitute MAT 122. Access to a scanner required for Math classes taken online. Not a university level course.*

Offered: Fall, Spring, Summer.

MAT 122A Intermediate Algebra: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of MAT 122.

*Prerequisite(s): Within the last three years: MAT 092 with a C or better or required score on the Mathematics assessment test.**Information: MAT 122A, 122B, and 122C together constitute MAT 122. Not a university level course.*

Offered: Fall, Spring, Summer.

MAT 122B Intermediate Algebra: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of MAT 122.

*Prerequisite(s): Within the last three years: MAT 122A with a C or better or concurrent enrollment.**Information: MAT 122A, 122B, and 122C together constitute MAT 122. Not a university level course.*

Offered: Fall, Spring, Summer.

MAT 122C Intermediate Algebra: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of MAT 122.

*Prerequisite(s): Within the last three years: MAT 122B with a C or better or concurrent enrollment.**Information: MAT 122A, 122B, and 122C together constitute MAT 122. Not a university level course.*

Offered: Fall, Spring, Summer.

MAT 142 Topics in College Mathematics

3 cr. hrs. 3 periods (3 lec.)

Survey of mathematical topics and applications. Includes application of mathematics to the social services, management science, growth, and probability and statistics.

*Prerequisite(s): Within the last three years: MAT 122 with a C or better or required score on the Mathematics assessment test.**Information: Access to a scanner required for Math classes taken online.*

Offered: Fall, Spring, Summer.

MAT 144 College Algebra with Data Analysis

4 cr. hrs. 4 periods (4 lec.)

College Algebra with an emphasis on data analysis. Includes functions, systems of equations, exponents and logarithms, power functions, polynomial functions, rates of change, descriptive statistics, regression, summation notation, spreadsheet software, and reports and projects.

*Prerequisite(s): Within the last three years: MAT 122 with a C or better or required score on the Mathematics assessment test.**Information: Spreadsheet skills or concurrent enrollment in CSA 210 will be helpful.*

Offered: Fall, Spring, Summer.

MAT 145 Mathematics for Game Design

4 cr. hrs. 4 periods (4 lec.)

Survey of mathematical topics and applications as applied to game design. Includes 2D and 3D geometry, geometric symmetry, trigonometry, vectors, logic, probability, statistics, and problem solving.

*Prerequisite(s): MAT 122 and concurrent enrollment in GAM 120.**Corequisite(s): GAM 120*

Offered: May not be offered this year, check class schedule.

MAT 146 Mathematics for Elementary Teachers I

3 cr. hrs. 3 periods (3 lec.)

An overview of mathematical concepts, principles and applications specifically for elementary teachers. Includes real number properties and patterns, arithmetic operations and algorithms in subsets of real numbers, alternative numbers systems, set theory, and algebraic reasoning and problem solving. Also includes the technology to teach mathematics.

*Prerequisite(s): Within the last three years: MAT 142 or higher with a C or better.**Information: Access to a scanner required for Math classes taken online.*

Offered: Fall, Spring, Summer.

MAT 147 Mathematics for Elementary Teachers II

3 cr. hrs. 3 periods (3 lec.)

Continuation of MAT 146. Includes measurement, basic geometry, probability, and statistics. Also includes the technology to teach mathematics.

*Prerequisite(s): Within the last three years: MAT 146 with a C or better.**Information: Access to a scanner required for Math classes taken online.*

Offered: Fall, Spring, Summer.

MAT 151 College Algebra

4 cr. hrs. 4 periods (4 lec.)

Introduction to college-level algebra. Includes functions, polynomial and rational functions, exponential and logarithmic functions, linear 2×2 and higher systems, graphing, sequences and series, and calculator use.*Prerequisite(s): Within the last three years: MAT 122 with a C or better, or required score on the Mathematics assessment test.**Information: Students taking two or three of the following courses in any combination will receive a maximum of 7 credits toward graduation: MAT 151, 182 and 187. A graphing calculator is required. See your instructor for details. Access to a scanner required for Math classes taken online.*

Offered: Fall, Spring, Summer.

MAT 151A College Algebra: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-fourth of MAT 151.

*Prerequisite(s): Within the last three years: MAT 122 with a C or better or required score on the Mathematics assessment test.**Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151. A graphing calculator is required. See your instructor for details.*

Offered: Fall, Spring, Summer.

MAT 151B College Algebra: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-fourth of MAT 151.

*Prerequisite(s): Within the last three years: MAT 151A with a C or better or concurrent enrollment.**Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151. A graphing calculator is required. See your instructor for details.*

Offered: Fall, Spring, Summer.

MAT 151C College Algebra: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-fourth of MAT 151.

*Prerequisite(s): Within the last three years: MAT 151A with a C or better or concurrent enrollment.**Information: MAT 151A, 151B, 151C, and 151D together constitute MAT 151. A graphing calculator is required. See your instructor for details.*

Offered: Fall, Spring, Summer.

MAT 151D College Algebra: Module D

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the fourth one-fourth of MAT 151.

*Prerequisite(s): Within the last three years: MAT 151C with a C or better or concurrent enrollment.**Information: MAT 151A, 151B, 151C, and 151D constitute MAT 151. A graphing calculator is required. See your instructor for details.*

Offered: Fall, Spring, Summer.

MAT 167 Introductory Statistics

3 cr. hrs. 3 periods (3 lec.)

Introduction to statistics. Includes sampling, data display, measures of central tendency, variability, and position; random variables, probability, probability distributions; confidence intervals, hypothesis testing, and regression.

Prerequisite(s): Within the last three years: MAT 144 or 151 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 172 Finite Mathematics

3 cr. hrs. 3 periods (3 lec.)

Mathematics for students majoring in business. Includes set theory, partitions, permutations, combinations, probability, Bernoulli trials, Markov chains and the simplex method of linear programming.

Prerequisite(s): Within the last three years: C or better in MAT 144 or 151 or required score on the mathematics assessment test.

Offered: Fall, Spring.

MAT 173 Mathematics for Business I

3 cr. hrs. 3 periods (3 lec.)

Introduction to business finite mathematics. Includes basic probability, summation, conditional probability and independence, Bayes' Theorem, compound interest, random variables, random sampling, and computer skills.

Prerequisite(s): Within the last three years: MAT 144 or 151 with a C or better or required score on the Mathematics assessment test, and CSA 210.

Information: MOS Excel Specialist certification may be substituted for CSA 210. See a mathematics faculty member for information.

Offered: Fall, Spring, Summer.

MAT 174 Mathematics for Business II

3 cr. hrs. 3 periods (3 lec.)

Continuation of MAT 173. Includes distributions, normal distributions, basic statistics, integration, common business functions, differentiation, and computer skills.

Prerequisite(s): Within the last three years: MAT 173 with a C or better.

Offered: Fall, Spring, Summer.

MAT 182 Trigonometry

3 cr. hrs. 3 periods (3 lec.)

Introduction to trigonometric functions. Includes graphs, identities, angle measure, vectors, polar coordinates, and conic sections.

Prerequisite(s): Within the last three years: MAT 151 with a C or better or required score on the Mathematics assessment test.

Information: Students taking two or three of the following courses in any combination will receive a maximum of 7 credits toward graduation: MAT 151, 182 and 187. MAT 182A, 182B, and 182C together constitute MAT 182. Access to a scanner required for Math classes taken online.

Offered: Fall, Spring, Summer.

MAT 182A Trigonometry: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of MAT 182.

Prerequisite(s): Within the last three years: MAT 151 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 182B Trigonometry: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of MAT 182.

Prerequisite(s): Within the last three years: MAT 182A with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 182C Trigonometry: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third-one third of MAT 182.

Prerequisite(s): Within the last three years: MAT 182B with a C or better or concurrent enrollment.

Offered: Fall, Spring, Summer.

MAT 187 Precalculus

5 cr. hrs. 5 periods (5 lec.)

College-level algebra and trigonometry. Includes equations, algebraic functions, inequalities, systems, conic sections, sequences and series, trigonometric functions, polar form, and partial fractions. Also includes intensive preparation for analytic geometry and calculus.

Prerequisite(s): Within the last three years: MAT 122 with a C or better or required score on the Mathematics assessment test.

Information: Students taking two or three of the following courses in any combination will receive a maximum of 7 credits toward graduation: MAT 151, 182 and 187.

Offered: Fall, Spring, Summer.

MAT 212 Topics in Calculus

3 cr. hrs. 3 periods (3 lec.)

Calculus for students majoring in business. Includes limits, continuity, differentiation and integration of algebraic functions.

Prerequisite(s): Within the last three years: MAT 144 or 151 with a C or better or required score on the Mathematics assessment test.

Offered: Fall, Spring, Summer.

MAT 220 Calculus I

5 cr. hrs. 5 periods (5 lec.)

Introduction to analytical geometry and calculus. Includes limits and continuity, derivatives, applications of the derivative, and integration.

Prerequisite(s): Within the last three years: MAT 151 and 182 or MAT 187 with a C or better or required score on the Mathematics assessment exam.

Information: Access to a scanner required for Math classes taken online.

Offered: Fall, Spring, Summer.

MAT 227 Discrete Mathematics in Computer Science

4 cr. hrs. 4 periods (4 lec.)

Mathematical concepts applicable to computer science. Includes logic, set theory, counting techniques, proof techniques, relations and functions, binary relations, big-oh notation, mathematical induction, and recursion.

Prerequisite(s): Within the last three years: MAT 220 or higher with a C or better.

Recommendation: Completion of CIS 129 or programming experience is recommended prior to enrolling in this course. MAT 220 or higher.

Offered: Fall.

MAT 231 Calculus II

4 cr. hrs. 4 periods (4 lec.)

Continuation of MAT 220. Includes techniques and applications of integration, numerical integration, improper integrals, separable integrals, separable differential equations, sequences, infinite series, and other related topics.

Prerequisite(s): Within the last three years: MAT 220 with a C or better.

Offered: Fall, Spring, Summer.

MAT 241 Calculus III

4 cr. hrs. 4 periods (4 lec.)

Continuation of MAT 231. Includes conic sections, polar coordinates, solid geometry, two and three dimensional vectors, moments, partial derivatives and multiple integration.

Prerequisite(s): Within the last three years: MAT 231 with a C or better.

Offered: Fall, Spring, Summer.

MAT 252 Introduction to Linear Algebra

3 cr. hrs. 3 periods (3 lec.)

Introduction to vector spaces and linear transformations. Includes systems of linear equations, vector spaces, inner product spaces, matrices, linear transformations, and technology.

Prerequisite(s): Within the last three years: MAT 241 or MAT 241 with a C or better.

Offered: Fall, Spring.

MAT 262 Differential Equations

3 cr. hrs. 3 periods (3 lec.)

Introduction to differential equations. Includes first order differential equations, higher order differential equations, systems of differential equations, Laplace transforms, approximating methods, and technology. Also includes applications.

Prerequisite(s): Within the last three years: MAT 231 with a C or better.

Offered: Fall, Spring, Summer.

MAT 295 Independent Research in Mathematics

1-4 cr. hrs. 3-12 periods (3-12 lab)

Experience in mathematical research. Specific content to be determined by student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: Fall, Spring.

MAT 296 Independent Studies in Mathematics

1-4 cr. hrs. 1-4 periods (1-4 lec.)

Independent studies and projects in mathematics. Content to be determined by conference between student and instructor.

Information: Consent of a sponsoring instructor must be obtained before registering in this class.

Offered: Fall, Spring.

Medical Assistant

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MDA 120 Medical Assistant Profession

2 cr. hrs. 2 periods (2 lec.)

Overview of current health care professions including career and labor market information, delivery systems, third party payers, and facility ownership. Includes health organization structure, patient rights and quality care, and life values. Includes values, ethics, behaviors in the workplace, worker rights and responsibilities, and OSHA. Includes nutrition, stress management, safety requirements, and daily living activities. Also includes basic communication skills, teamwork facilitation, development of personal communication skills and intercultural communication strategies.

Offered: Contact department at 206-5100.

MDA 121 Medical Assistant Professional Skills

2 cr. hrs. 2 periods (2 lec.)

Medical assistant college success tools, skills, and community resources, personal, academic, time management, self-esteem, stress management techniques, gender awareness, assertiveness training, critical thinking skills, job development, and portfolio development. Also includes theory and practice of computer keyboarding.

Offered: Contact department at 206-5100.

MDA 122 Medical Assistant Clinical Care

2 cr. hrs. 3 periods (1 lec., 2 lab)

Multi-skilled approach to patient care. Includes legal and ethical responsibility, asepsis, dressing changes, electrocardiograms, phlebotomy, specimen collection and handling, urinalysis, whole blood hematology, glucose monitoring, cholesterol and coagulation testing. Includes compliance with Occupational Health and Safety Administration (OSHA) and the Clinical Laboratory Improvement Amendments (CLIA) regulations. Also includes principles of medication administration with an emphasis on oral and parenteral routes of drug administration.

Offered: Contact department at 206-5100.

MDA 123 Medical Assistant Clinical Procedures

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and procedures for the medical assistant. Includes methods of assisting clinicians with physical examinations, procedures, treatments, and minor surgical procedures in the medical office. Also includes collection of vital signs, height and weight, patient data, and appropriate documentation.

Offered: Contact department at 206-5100.

MDA 124 Medical Terminology for Health Care Workers

2 cr. hrs. 2 periods (2 lec.)

Medical terminology used in health care, with special care populations and in special services. Includes body systems approach to terms related to structures, functions, diseases, procedures, and diagnostic tests. Includes building and analyzing terms using word parts. Also includes medical abbreviations and symbols and term spelling.

Offered: Contact department at 206-5100.

MDA 125 Orientation to ICD-9 Coding

3 cr. hrs. 4 periods (2 lec., 2 lab)

Orientation to the International Classification of Diseases - 9th Edition (ICD-9) coding classification system. Includes terminology, principles and components of the ICD-9 coding system, codes for diseases and conditions, information from health records, and coding for highest specificity.

Recommendation: MDA 121 and 124, and minimum 25 words per minute word processing skills.

Offered: Contact department at 206-5100.

MDA 126 Medical Billing and Insurance for Medical Assistants

3 cr. hrs. 4 periods (2 lec., 2 lab)

Application of insurance, coding and billing. Includes legal and ethical issues, federal, state and private insurance claims, procedural and diagnostic coding, and banking and accounting principles.

Recommendation: Minimum 25 words per minute word processing skills.

Offered: Contact department at 206-5100.

MDA 127 Medical Administrative Procedures

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and procedures for front office administrative skills. Includes methods of telephone management, correspondence and mail processing, appointment scheduling, medical records management and data collection. Also includes an overview of medical assistant as an office manager.

Offered: Contact department at 206-5100.

MDA 190A Medical Assistant Front Office Externship

1 cr. hrs. 5 periods (5 lab)

Practicum in administrative medical assisting. Application of administrative duties, procedures, and knowledge derived from medical assisting courses.

Prerequisite(s): MDA 125, 126, 127.

Offered: Contact department at 206-5100.

MDA 190B Medical Assistant Back Office Externship

1 cr. hrs. 5 periods (5 lab)

Practicum in clinical medical assisting. Application of clinical skills, procedures, and knowledge derived from medical assisting courses.

Prerequisite(s): HCA 102, 103 and MDA 122, 123.

Information: Permission of the program director is required to enroll in this course.

Offered: Contact department at 206-5100.

Medical Laboratory Technician

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MLT 199 Introduction to Co-op: Medical Laboratory Technician

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Includes laboratory workplace skills, communication skills, time and energy management, managing stress, career information, placing yourself on the job market, principles, theories, and practices in the career field, and problems in the work situation.

Prerequisite(s): MLT 200, 211, 231, 251, 260.

Corequisite(s): MLT 199WK, MLT 221

Information: Consent of instructor is required before enrolling in this course.

Offered: Spring, Summer.

MLT 199WK Co-op Work: Medical Laboratory Technician

4.5 cr. hrs. 22.5 periods (22.5 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors in a hospital or clinic laboratory. The student develops competency and improved self confidence in the laboratory workplace.

Prerequisite(s): MLT 200, 211, 231, 251, 260.

Corequisite(s): MLT 199, MLT 221

Information: Consent of instructor is required before enrolling in this course.

Offered: Spring, Summer.

MLT 200 Urinalysis/Body Fluids

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the fundamental techniques in urinalysis and body fluids. Includes urine collection, physical and chemical examination of urine, microscopic examination of urine, and body fluids.

Prerequisite(s): BIO 156IN or placement exam into BIO 201IN, BIO 205IN, CHM 080 or placement exam into CHM 151/151LB/151IN, MAT 122.

Corequisite(s): BIO 201IN, CHM 151IN, MAT 151

Offered: Fall.

MLT 211 Hematology

4 cr. hrs. 6 periods (3 lec., 3 lab)

The study of human blood cells (red cells, white cells, and platelets), looking at structure, formation and the diseases associated with these cells. Includes types of blood cells, test, normal white cells in peripheral blood, blood cell maturation, normal and abnormal white and red blood cells, disease states, hemoglobins, facets of hemostasis, coagulation mechanism and abnormalities, and the fibrinolytic systems.

Prerequisite(s): BIO 201IN, CHM 151IN, MAT 151.

Corequisite(s): BIO 202IN, CHM 152IN

Offered: Fall.

MLT 221 Clinical Chemistry

4 cr. hrs. 6 periods (3 lec., 3 lab)

Fundamentals of chemistry in a clinical setting. Includes chemical substances, instruments, laboratory procedures, blood and urine chemistry abnormalities, and laboratory instrument computers and information systems.

Prerequisite(s): BIO 202IN, 205IN, CHM 152/152LB/152IN, MAT 151, MLT 200, 211, 231, 251, 260.

Offered: Fall.

MLT 231 Immunohematology/Immunology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to basic immunology related to methods utilized in the clinical laboratory. Includes blood collection, blood components, immunology and complement, principles of serological testing in immunohematology, genetics, ABO, H, and Rh blood group systems, pretransfusion compatibility testing,

other blood group systems, and antiglobulin testing. Also includes identification of unexpected antibodies, neonatal and obstetrical transfusion practice, adverse effects of blood transfusion, positive DAT and immune hemolysis, quality assurance, and transplantation.

Prerequisite(s): BIO 202IN, 205IN, CHM 152IN, MAT 151, MLT 200, 211.

Corequisite(s): MLT 251, MLT 260

Offered: Fall.

MLT 251 Clinical Microbiology

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to the structure, identification, and control of bacteria. Includes categories/classification of bacteria, ecology and spread of bacteria, pathogenesis of bacterial infection, clinical bacteriology methodology, various organisms, clinically significant anaerobic bacteria, and methods in antimicrobial testing.

Prerequisite(s): BIO 202IN, 205IN, CHM 152IN, MAT 151, MLT 200, 211.

Corequisite(s): MLT 231, MLT 260

Information: The emphasis in this course is on bacteria of medical importance with respect to their cultivation, isolation, and pathogenicity. Through laboratory experience, the student develops techniques of specimen collection and processing, culture, staining, biochemical testing, and antibiotic susceptibility testing.

Offered: Fall.

MLT 260 Parasitology

3 cr. hrs. 5 periods (2 lec., 3 lab)

Introduction to the basics of parasite and host relationships and their effects. Includes specimen collection, techniques for stool examination, special techniques, use of other specimens, procedures for detecting blood and tissue parasites, diagnosis of parasitic infections, clinically important parasites, and quality assurance. Also includes introduction to immunology and serological testing for autoimmune and infectious diseases.

Prerequisite(s): BIO 202IN, 205IN, CHM 152IN, MAT 151, MLT 200, 211.

Corequisite(s): MLT 231, MLT 251

Offered: Fall.

MLT 299 Introduction to Co-op: Medical Laboratory Technician

1 cr. hrs. 1 periods (1 lec.)

Principles of job success. Includes laboratory workplace skills, communication skills, time and energy management, managing stress, career information, placing yourself on the job market, principles, theories, and practices in the career field, and problems in the work situation.

Corequisite(s): MLT 299WK

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Summer.

MLT 299WK Co-op Work: Medical Laboratory Technician

4.5 cr. hrs. 22.5 periods (22.5 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors in a hospital or clinic laboratory. The student develops competency and improved self confidence in the laboratory workplace.

Corequisite(s): MLT 299

Information: Consent of instructor is required before enrolling in this course.

Offered: Fall, Summer.

Mexican-American Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MAS 201 La Chicana

3 cr. hrs. 3 periods (3 lec.)

Interdisciplinary analysis of Chicanas/Mexicanas status in the United States. Includes interdisciplinary analysis of Chicanas/Mexicanas in the U.S., Chicana/Mexicana interdisciplinary scholarship and Social Justice Movements, and Chicana/Mexicana feminism in the Southwest, Chicana/Mexicana community empowerment, and Chicanas/Mexicanas on the U.S.-Mexico border.

Information: Same as WST 201.

Offered: Fall.

MAS 265 Survey of Mexican-American Studies

3 cr. hrs. 3 periods (3 lec.)

Interdisciplinary analysis of current issues salient to the Chicana/o population in the United States. Includes analysis of Chicanas/os in the the U.S., Chicana/o and Mexican interdisciplinary scholarship and social justice movements, and Chicanas/os and Mexican migration to the U.S.

Offered: Fall.

Music

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MUS 052 Introduction to Ear Training

2 cr. hrs. 2 periods (2 lec.)

Ear training for individuals with little or no musical background. Includes identification of keys on a piano keyboard and notes on the musical staff, visual and aural recognition of intervals, and dictation and performance of simple rhythmic patterns. Also includes sight singing of simple melodies, identifying major and minor key signatures and scales, singing of major and minor scales, and intervals. Also includes aural identification of individual pitches within major scales, and listening to short melodic figures and playing them back on keyboards.

Recommendation: Students considering music as a major are encouraged to take MUS 052 and 102 concurrently.

Offered: Fall, Spring.

MUS 055 Introduction to Piano I

2 cr. hrs. 2 periods (2 lec.)

Basic principles and techniques of piano playing in a group situation. Includes study of major/minor scales and key signatures, chords, repertoire pieces, technique and finger strength, and good learning and practice methods. Also includes transposition of simple compositions, sight reading, and harmonizations of melodies.

Offered: Fall, Spring.

MUS 056 Introduction to Piano II

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 055. Expansion and refinement of piano playing techniques. Includes major and minor scales, chords, repertoire pieces, technique, learning and practice methods, transposition, sight reading, and harmonizations.

Information: Designed for non-music majors.

Offered: Spring.

MUS 100 Guitar I

2 cr. hrs. 2 periods (2 lec.)

Development of the principles of guitar playing with emphasis on a variety of styles and guitar repertoire. Includes parts of the guitar, music symbols, tuning, playing position, right and left hand techniques, notes on the first through third strings, notes on the fourth string, thumb technique, chord strumming, and right-hand arpeggio patterns. Also includes notes on the fifth and sixth strings, sharps and flats, twelve (12) bar blues, right hand chord technique, and open position chords.

Offered: Fall, Spring.

MUS 101 Guitar II

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 100 with more detailed development of guitar skills. Includes basic musicianship, sight-reading, repertoire development, ensemble playing and improvisation.

Prerequisite(s): MUS 100.

Information: Prerequisites may be waived with consent of instructor.

Offered: Fall, Spring.

MUS 102 Music Fundamentals

3 cr. hrs. 3 periods (3 lec.)

Introduction to fundamentals of music designed to develop basic literacy in music. Includes definitions, notation, rhythm and meter, intervals, scales and transposition, key signatures, and triads. Also includes specific size of intervals, chords and harmony, simple forms, and analyzing music.

Recommendation: Students considering music as a major are encouraged to take MUS 052 and MUS 102 concurrently.

Offered: Fall, Spring.

MUS 103 Music Theory Review

1 cr. hrs. 1 periods (1 lec.)

Intensive review of music fundamentals. Includes clefs and basic pitch notation, scales, key signatures, intervals, and triads.

Information: May be taken three times for a maximum of three credit hours.

Offered: Fall, Spring.

MUS 108 Pima Jazz Band

2 cr. hrs. 3 periods (1 lec., 2 lab)

Rehearsal and performance of many styles of music in the jazz idiom. Includes progressive development of musical skills through interpretation of literature.

Information: Students chosen by audition. May be taken ten times for a maximum of twenty credit hours.

Offered: Fall, Spring.

MUS 111 Exploring Music through Piano

3 cr. hrs. 3 periods (3 lec.)

Keyboard application skills and music fundamentals. Includes keyboard orientation, tonality, piano proficiency, musical structure, musical texture, and style. Offered: Fall, Spring.

MUS 116 Pima Community College Orchestra

2 cr. hrs. 3 periods (1 lec., 2 lab)

Progressive development of musical skills through interpretation of orchestra literature. Includes participation in regular rehearsals and performances.

Information: Students chosen by audition. May be taken ten times for a maximum of twenty credit hours.

Offered: Fall, Spring.

MUS 118 Mariachi Music I

2 cr. hrs. 3 periods (1 lec., 2 lab)

Progressive development of musical skills through interpretation of mariachi literature. Includes participation in regular rehearsals and performances.

Information: May not be offered this year, check class schedule.

MUS 119 Mariachi Music II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of MUS 118. Includes participation in regular rehearsals and performances.

Prerequisite(s): MUS 118.

Information: May not be offered this year, check class schedule.

MUS 120 Concert Band

3 cr. hrs. 5 periods (2 lec., 3 lab)

Progressive development of musical skills through interpretation of literature. Includes participation in regular rehearsals and performances.

Information: Students chosen by audition. May be taken ten times for a maximum of thirty credit hours.

Offered: Fall, Spring.

MUS 125 Structure of Music I

3 cr. hrs. 3 periods (3 lec.)

Review of music fundamentals. Includes form and analysis, nonharmonic tones and harmonic analysis, simple keyboard-style harmony, figured bass, chord functions, voicing chords voice leading, part-writing and seventh chords. Also includes cadences, chords in second inversion, harmonic progression, modulation by common chord, secondary dominants and chorale harmonizations.

Information: Required for all other music structure courses. Students who are music majors take MUS 125 and 127 concurrently. Music majors must also concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Fall, Spring.

MUS 126 Structure of Music II

3 cr. hrs. 3 periods (3 lec.)

Continuation of MUS 125. Includes chromatic harmony and melody, secondary dominants and modulation, seventh and ninth chords, large forms and genres, neopolitan and augmented sixth chords, and enharmonic relations. Also includes chromatic mediant and modulation, harmonic sequence, borrowed chords, and technical vocabulary.

Prerequisite(s): MUS 125.

Corequisite(s): MUS 129

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Spring, Summer.

MUS 127 Aural Perception I

2 cr. hrs. 2 periods (2 lec.)

Development of aural techniques. Includes rhythmic dictation, intervallic recognition, sight singing, rhythmic performance, and clapping and counting rhythms.

Information: Required for all other music aural perception courses. Students who are music majors take MUS 125 and 127 concurrently. Music majors must also concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Fall, Spring.

MUS 129 Aural Perception II

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 127. Includes aural approaches to chromatic harmony, melody, and associated structures, and advanced applications for rhythmic dictation, intervallic recognition, and general listening techniques.

Prerequisite(s): MUS 127.

Corequisite(s): MUS 126

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Spring, Summer.

MUS 130 Chorale (SATB)

3 cr. hrs. 5 periods (2 lec., 3 lab)

Selected group of mixed voices for interpretation of a wide variety of styles of music in concerts throughout the academic year. Includes progressive development of musical skills through interpretation of literature.

Information: Students chosen by audition. May be taken ten times for a maximum of thirty credit hours.

Offered: Fall, Spring.

MUS 131 College Singers (SATB)

3 cr. hrs. 5 periods (2 lec., 3 lab)

Small chorale ensemble. Includes repertoire and performance throughout the academic year with the best literature from all styles and periods. Also includes progressive development of musical skills through interpretation of literature.

Information: Students chosen by audition. May be taken ten times for a maximum of thirty credit hours.

Offered: Fall, Spring.

MUS 136 Voice Class I

2 cr. hrs. 2 periods (2 lec.)

Practical training in basic skills and singing without specialization. Includes breathing, diction, tone, and rhythm.

Offered: Fall, Spring.

MUS 137 Voice Class II

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 136. Includes practical training in basic skills and singing without specialization. Also includes breathing, diction and interpretation of song literature.

Prerequisite(s): MUS 136.

Offered: Spring.

MUS 141 Piano Class I

2 cr. hrs. 2 periods (2 lec.)

Beginning instruction employing group and individual techniques in an electronic lab situation. Includes scales, chords, repertoire, technique, practice habits, transposition of single-line melodies, and sight-reading.

Offered: Fall, Spring.

MUS 142 Piano Class II

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 141. Incorporates intermediate piano instruction of group and individual practice in an electronic lab. Includes scales, chords, harmonization of major and minor melodies with different accompaniment patterns, and transposition of short major and minor pieces. Also includes repertoire, continued technique and practice habits, and sight-reading.

Prerequisite(s): MUS 141.

Offered: Fall, Spring, Summer.

MUS 143 Piano Class III

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 142. Incorporates intermediate piano instruction utilizing group and individual practice in an electronic lab. Includes scales, chords, arpeggios, harmonizations of major and minor pieces, transpositions of pieces, repertoire pieces, technique and practice habits, sight-reading, and score-reading.

Prerequisite(s): MUS 142.

Offered: Fall.

MUS 144 Piano Class IV

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 143. Incorporates advanced piano instruction utilizing group and individual practice in an electronic lab. Includes scales, arpeggios, learning methods, technique building exercises, memory method, and advanced methods of practicing.

Prerequisite(s): MUS 143.

Offered: Spring.

MUS 148 Musical Theater Workshop

2 cr. hrs. 3 periods (1 lec., 2 lab)

Movement and singing to enhance projection and communication capabilities. Includes auditioning techniques, live accompaniment, and exploring the musical theater as a way to communicate.

Information: May be taken four times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

MUS 149 Opera Workshop

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to the techniques of opera. Includes stage movement, character development, and acting. Also includes arias, duets, ensembles, and auditioning techniques.

Information: May be taken four times for a maximum of eight credit hours. Student chosen by audition.

Offered: Fall, Spring.

MUS 151 Exploring Music

3 cr. hrs. 3 periods (3 lec.)

Introduction to various musical styles with emphasis on listening and application of the basic elements of music (melody, rhythm, harmony, form and timbre) to each style.

Offered: Fall, Spring, Summer.

MUS 154 Jazz Improvisation

2 cr. hrs. 2 periods (2 lec.)

Study of jazz improvisation on various instruments. Includes rhythmic, melodic, and harmonic aspects of jazz styles. Also includes an emphasis on progressive development of musical skills through interpretation of literature.

Information: Students chosen by audition. May be taken ten times for a maximum of twenty credit hours.

Offered: Fall, Spring.

MUS 155 Introduction to Electronic Music I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to producing music with Musical Instrument Digital Interface (MIDI) configurations. Includes computers, printers, synthesizers and other compatible MIDI configurations.

Recommendation: Ability to read music before enrolling in this course.

Offered: Spring, Summer.

MUS 156 Introduction to Electronic Music II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of MUS 155. Includes song data entry from computer synthesizer keyboards, editor/library, and percussion writing.

Prerequisite(s): MUS 155.

Offered: Summer.

MUS 157 Music Industry I: Marketing, Merchandising and the Law

3 cr. hrs. 3 periods (3 lec.)

Operation, scope, and career opportunities in the music business. Includes music in the marketplace, professional songwriting and music composition, music copyright and publishing, business affairs in the music industry, and application of information.

Offered: Fall.

MUS 158 Music Industry II: Music in Recording and Mass Media

3 cr. hrs. 3 periods (3 lec.)

Operation, scope, and career opportunities in the music business. Includes focus on the record industry, environmental music, uses of music in radio, telecommunications and film, and career options.

Offered: Spring.

MUS 160 Popular Music in America

3 cr. hrs. 3 periods (3 lec.)

Study of the history of popular music culture in America beginning with the foundations of music in colonial America through current trends in today's society. Includes ragtime, blues, jazz, country, Broadway musical, folk, and rock.

Offered: Fall, Spring, Summer.

MUS 201 History and Literature of Music I

3 cr. hrs. 3 periods (3 lec.)

Music history and literature from the ancient Greeks through the Baroque. Includes emphasis on specific works and composers as representative of the evolution of Western music.

Prerequisite(s): MUS 125 or concurrent enrollment.

Offered: May not be offered this year, check class schedule.

MUS 202 History and Literature of Music II

3 cr. hrs. 3 periods (3 lec.)

Music history and literature from Bach to the present. Includes emphasis on specific works and composers as representative of the evolution of Western music.

Prerequisite(s): MUS 125 or concurrent enrollment.

Offered: Spring.

MUS 203 Popular Music Styles

3 cr. hrs. 3 periods (3 lec.)

Introduction to the fundamentals of popular music styles. Includes formal el-

ements of a popular song, chords and progressions, rhythm and arrangement styles, song forms, lead sheets, and connections of lyrics and vocals. Also includes instrumental sections, historical roots, standard rhythmic writing, and scoring.

Prerequisite(s): MUS 102 or 125 or consent of instructor.

Offered: May not be offered this year, check class schedule.

MUS 223 Structure of Music III

3 cr. hrs. 3 periods (3 lec.)

Continuation of MUS 126. Includes the nature of polyphony, writing simple melodic lines, basic contrapuntal technique, first species, fugue, theme and variations, binary form, rounded binary form, rondo, sonata forms, and concerto form.

Prerequisite(s): MUS 126.

Corequisite(s): MUS 224

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Fall.

MUS 224 Aural Perception III

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 129. Includes scales, intervallic recognition, melodic dictation of melodies, chord type identification, rhythmic dictation and performing notated rhythms, syncopated rhythms, and sight singing melodies. Also includes motives and motivic development, themes and thematic development, and conducting while performing various rhythms and melodies.

Prerequisite(s): MUS 129.

Corequisite(s): MUS 223

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Fall.

MUS 226 Structure of Music IV

3 cr. hrs. 3 periods (3 lec.)

Continuation of MUS 223. Includes extended chromaticism, aspects of form, influence of musical nationalism, compositional techniques and technical vocabulary, and late romantic and early 20th century tonal music.

Prerequisite(s): MUS 223.

Corequisite(s): MUS 228

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time music faculty member for additional information.

Offered: Spring.

MUS 228 Aural Perception IV

2 cr. hrs. 2 periods (2 lec.)

Continuation of MUS 224. Includes scales and modes, intervallic recognition, melodic dictation, chord type identification, chord progressions, modulation types rhythmic dictation, and syncopated rhythms, cross-rhythms, hemiola, and asymmetrical meter. Also includes sight singing melodies, motives and motivic development, themes and thematic development, and conducting while performing various rhythms and melodies.

Prerequisite(s): MUS 224.

Corequisite(s): MUS 226

Information: Music majors must concurrently enroll in the appropriate level of studio instruction course. Consult a full time faculty member for additional information.

Offered: Spring.

MUS 257 Music Recording and Production

3 cr. hrs. 3 periods (3 lec.)

Introduction to the recording and production of music. Includes the elements of sound, the mixing board, hard drive recorder, microphone types and applications, recording strategies and room use, lab software for editing, mixing and re-recording, and creating a final project.

Offered: Fall, Spring.

MUS 296 Independent Studies in Music

1-3 cr. hrs. 3-9 periods (1-3 lec., 2-6 lab)

Composition and/or in-depth study in an area of the student's choice with approval by the supervising instructor.

Information: May be taken four times for a maximum of four credit hours.

Offered: May not be offered this year, check class schedule.

Music Studio Instruction

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MUP 061 Studio Instruction: Brass (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 062 Studio Instruction: Guitar (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills to be stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 063 Studio Instruction: Percussion (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 064 Studio Instruction: Piano (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 065 Studio Instruction: Strings (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 066 Studio Instruction: Voice (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 067 Studio Instruction: Woodwinds (Non Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Course of study jointly determined by the instructor and student. Development of performance skills is stressed.

Information: May be taken four times for a maximum of eight credit hours.
Offered: Fall, Spring.

MUP 161 Studio Instruction: Brass I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 162 Studio Instruction: Guitar I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 163 Studio Instruction: Percussion I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 164 Studio Instruction: Piano I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.

Offered: Fall, Spring.

MUP 165 Studio Instruction: Strings I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 166 Studio Instruction: Voice I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 167 Studio Instruction: Woodwinds I (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 168 Studio Instruction I: (Major)

2 cr. hrs. 4 periods (4 lab)

Weekly studio instruction. Includes participation in student recitals and jury exams.

Corequisite(s): MUS 125, MUS 127

Information: Students chosen by audition.
Offered: Fall, Spring.

MUP 171 Studio Instruction: Brass II (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 161. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

Prerequisite(s): MUP 161.

Corequisite(s): MUS 126, MUS 129

Offered: Fall, Spring.

MUP 172 Studio Instruction: Guitar II (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 162. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

Prerequisite(s): MUP 162.

Corequisite(s): MUS 126, MUS 129

Offered: Fall, Spring.

MUP 173 Studio Instruction: Percussion II (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 163. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

Prerequisite(s): MUP 163.

Corequisite(s): MUS 126, MUS 129

Offered: Fall, Spring.

MUP 174 Studio Instruction: Piano II (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 164. Private weekly instrumental lessons. Includes further development of performance skills and participation in recitals and jury exams.

Prerequisite(s): MUP 164.

Corequisite(s): MUS 126, MUS 129

Offered: Fall, Spring.

MUP 175 Studio Instruction: Strings II (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 165. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

Prerequisite(s): MUP 165.

Corequisite(s): MUS 126, MUS 129

Offered: Fall, Spring.

MUP 278 Studio Instruction IV: (Major)

2 cr. hrs. 4 periods (4 lab)

Continuation of MUP 268. Private weekly instrumental lessons. Includes further development of performance skills and participation in student recitals and jury exams.

Prerequisite(s): MUP 268.Corequisite(s): MUS 226, MUS 228

Offered: Fall, Spring.

Nursing

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

NRS 104 Nursing Process I

4 cr. hrs. 4 periods (4 lec.)

Nursing 104 introduces the student to the application of the nursing process and to the concepts of client, health, environment and nurse with emphasis on caring for the adult and older adult client. This course introduces the student to behaviors that serve as the basis of effective nursing practice: (1) a safe practitioner, (2) an effective communicator, (3) a manager/teacher, (4) a culturally competent/caring healthcare provider, and (5) professional and ethical issues of being a nurse. The student applies nursing theory in the college laboratory and the clinical setting while caring for adults and older adults in acute-care, long term care and community environments.

Corequisite(s): HCA 102, HCA 155, NRS 104LC, NRS 104LS

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing department before enrolling in this course.

Offered: Fall, Spring.

NRS 104LC Nursing Process I Clinical Lab

3 cr. hrs. 9 periods (9 lab)

This is the Clinical Lab portion of NRS 104.

Corequisite(s): HCA 102, HCA 155, NRS 104, NRS 104LS

Offered: Fall, Spring.

NRS 104LS Nursing Process I Skills Lab

1 cr. hrs. 3 periods (3 lab)

This is the Skills Lab portion of NRS 104.

Corequisite(s): HCA 102, HCA 155, NRS 104, NRS 104LC

Offered: Fall, Spring.

NRS 105 Nursing Process II

4 cr. hrs. 4 periods (4 lec.)

Continuation of NRS 104. Application of the nursing process and expansion on the concepts of client, health, environment and nurse, with emphasis on caring for adult clients with common health alterations. Expansion of behaviors that are the basis of effective nursing practice: (1) safe practitioner, (2) effective communicator, (3) manager/teacher, (4) a culturally competent/caring healthcare provider, and (5) professional and ethical issues of being a nurse. Includes additional application of theory in the college laboratory and the clinical setting in acute care environments.

Prerequisite(s): NRS 104, 104LC, and 104LS.Corequisite(s): BIO 205, NRS 105LC, NRS 105LS ECE 107 or 117.

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing department before enrolling in this course.

Offered: Fall, Spring.

NRS 105LC Nursing Process II Clinical Lab

4 cr. hrs. 12 periods (12 lab)

This is the Clinical Lab portion of NRS 105.

Corequisite(s): BIO 205, NRS 105, NRS 105LS ECE 107 or 117.

Offered: Fall, Spring.

NRS 105LS Nursing Process II Skills Lab

1 cr. hrs. 3 periods (3 lab)

This is the Skills Lab portion of NRS 105.

Corequisite(s): BIO 205, NRS 105, NRS 105LC ECE 107 or 117.

Offered: Fall, Spring.

NRS 180 Transition to Practical Nursing

2 cr. hrs. 2 periods (2 lec.)

NRS 180 has been developed to provide the theoretical and clinical preparation to qualify the student to apply for licensure by the Arizona State Board of Nursing as a Practical Nurse (LPN). Includes application of the nursing process to provide basic care to families in the maternity cycle, health of children, and psychosocial health. Also includes additional clinical laboratory application of selected nursing skills and knowledge to the developing family and child. Also includes the role of the LPN in relation to the nursing process.

Prerequisite(s): BIO 205, ECE 107 or 117, HCA 102, 155, NRS 104,

concurrent enrollment or completion of NRS 105, WRT 101.

Corequisite(s): NRS 180LC

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.

Offered: Spring.

NRS 180LC Transition to Practical Nursing Lab

.5 cr. hrs. 1.5 periods (1.5 lab)

This is the clinical lab portion of NRS 180.

Prerequisite(s): BIO 205, ECE 107 or ECE 117, HCA 102, HCA 155, NRS 104, concurrent enrollment or completion of NRS 105, WRT 101.Corequisite(s): NRS 180

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.

Offered: Spring.

NRS 188 Transition to Associate Degree Nursing

4 cr. hrs. 4 periods (4 lec.)

Nonclinical course facilitating transition of the Licensed Practical Nurse (LPN) into the Pima Community College Associate Degree Nursing program. Includes role transition through the application of the nursing process and orients the student to the philosophy and major concepts and program outcomes of the ADN program, and focus on adult clients experiencing selected health alterations. Also includes the role of computers in society and in the healthcare environment.

Corequisite(s): NRS 188LS

Information: In order to enroll in this course, you must hold a current, valid Practical Nurse (LPN) license in Arizona. You must also meet all admission criteria for the Associate Degree Nursing program, complete the required support courses for the first and second semester of the ADN program, and obtain consent of the Nursing Department before enrolling in this course.

Offered: Fall, Spring.

NRS 188LS Transition to Associate Degree Nursing Skills Lab

1 cr. hrs. 3 periods (3 lab)

This is the Skills Lab portion of NRS 188.

Corequisite(s): NRS 188

Offered: Fall, Spring.

NRS 196 Independent Study in Nursing

1-9 cr. hrs. 1-9 periods (1-9 lec.)

Independent readings or special projects. Content to be determined by conference between student and instructor.

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.

Offered: Fall, Spring.

NRS 201 Nursing Process III

5 cr. hrs. 5 periods (5 lec.)

Continuation of NRS 105 or NRS 188. Application of the nursing process and expansion on the concepts of nurse, health, client and environment, with an emphasis on family, child and clients with mental health disorders. Includes content related to the roles of safe practitioner, effective communicator, manager/teacher and culturally competent/caring healthcare provider. Additionally professional and ethical issues related to provision of nursing care are included. There is a focus on family's birth experience as well as complex health alterations related to the developing family, child and clients with mental health disorders. Also includes additional clinical and laboratory application of selected nursing skills and knowledge to the developing family, child and clients with mental health disorders.

Prerequisite(s): NRS 105 or 188 and all first year corequisites.Corequisite(s): NRS 201LC, PSY 101, WRT 102

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing department before enrolling in this course.

Offered: Fall, Spring, Summer.

NRS 201LC Nursing Process III Clinical Lab

4 cr. hrs. 12 periods (12 lab)

This is the Clinical Lab portion of NRS 201.

Corequisite(s): NRS 201, PSY 101, WRT 102

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing Department before enrolling in this course.

Offered: Fall, Spring, Summer.

NRS 202 Nursing Process IV

3 cr. hrs. 3 periods (3 lec.)

Continuation of NRS 201. Application and synthesis of the nursing process with expansion of the concepts of client, health, environment and nurse. Continues to develop performance behaviors that will serve as the basis of effective nursing practice: (1) safe practitioner, (2) effective communicator, (3) manager/teacher, (4) culturally competent/caring health care provider, (5) profes-

sional and ethical practitioner. Applies nursing theory in the clinical setting while caring for adults with complex health alterations.

Prerequisite(s): NRS 104, 105, 188, and 201.

Corequisite(s): NRS 202CA, NRS 202CB, NRS 203

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing department before enrolling in this course. Involves student completion of a five-week preceptorship in an assigned healthcare setting.

Offered: Fall, Spring.

NRS 202CA Nursing Process IV - Clinical Lab - A

3.5 cr. hrs. 10.5 periods (10.5 lab)

This is the Clinical Lab Part A portion of NRS 202.

Corequisite(s): NRS 202, NRS 202CB, NRS 203 FSN 127 or 154.

Offered: Fall, Spring.

NRS 202CB Nursing Process IV - Clinical Lab - B

2.5 cr. hrs. 7.5 periods (7.5 lab)

This is the Clinical Lab Part B portion of NRS 202.

Corequisite(s): NRS 202, NRS 202CA, NRS 203 FSN 127 or 154.

Offered: Fall, Spring.

NRS 202LC Nursing Process IV ADN Clinic

0 cr. hrs. 18 periods (18 lab)

Clinical lab for NRS 202.

Corequisite(s): NRS 202

Offered: Fall, Spring.

NRS 203 Trends and Issues in Nursing

1 cr. hrs. 1 periods (1 lec.)

Exploration of the role of the nurse as a safe practitioner with legal and ethical responsibilities. Includes current issues and trends in nursing and health care delivery and the role of the nurse as a member of the profession.

Prerequisite(s): NRS 201.

Corequisite(s): NRS 202, NRS 202CA, NRS 202CB

Information: Students must be admitted to the PCC Nursing program and obtain consent of the Nursing department before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Nursing Assistant

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

NRA 101 Nursing Assistant

4 cr. hrs. 2 periods (2 lec.)

Basic client care nursing skills. Includes theory base for direct client care and fundamental and advanced psychomotor skills at the nursing assistant level.

Corequisite(s): NRA 101LC, NRA 101LS

Information: Students must obtain consent from the Nursing Department before enrolling in this course.

Offered: Fall, Spring.

NRA 101LC Nursing Assistant Clinical

0 cr. hrs. 3 periods (3 lab)

Clinical Lab for NRA 101.

Corequisite(s): NRA 101, NRA 101LS

Offered: Fall, Spring.

NRA 101LS Nursing Assistant Skills

0 cr. hrs. 3 periods (3 lab)

Skills Lab for NRA 101.

Corequisite(s): NRA 101, NRA 101LC

Offered: Fall, Spring.

NRA 102 Patient Care Technician

2 cr. hrs. 1 periods (1 lec.)

Multi-skilled approach to patient care. Includes legal and ethical responsibility, asepsis, dressing changes, catheterization, electrocardiograms, phlebotomy, tube feeding and communication skills.

Corequisite(s): NRA 102LC, NRA 102LS

Information: Students must obtain consent of the Nursing Department before enrolling in this course. You must be a Certified Nursing Assistant or have successfully completed NRA 101 with the last two years to enroll in this course.

Offered: Fall, Spring.

NRA 102LC Patient Care Tech Clinical

0 cr. hrs. 3 periods (3 lab)

Clinical Lab for NRA 102.

Corequisite(s): NRA 102, NRA 102LS

Offered: Fall, Spring.

NRA 102LS Patient Care Tech Skills

0 cr. hrs. 3 periods (3 lab)

Skills lab for NRA 102.

Corequisite(s): NRA 102, NRA 102LC

Offered: Fall, Spring.

Office and Administrative Professions

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

OAP 050 Fundamentals of Business English

1 cr. hrs. 1 periods (1 lec.)

English basics in business. Includes parts of speech, sentence patterns, and punctuation. Also includes emphasis on business-related material.

Offered: May not be offered this year, check class schedule.

OAP 100 Data Entry Beginning Keystroke Development

2 cr. hrs. 4 periods (4 lab)

Numeric key pad training for beginning level speed and accuracy. Includes ten key pad, alpha-numeric pre-timed and self-timed exercises, and dexterity drills.

Prerequisite(s): OAP 111A.

Recommendation: Keyboarding proficiency at 25-30 WPM recommended before enrolling in this course.

Offered: Fall, Spring, Summer.

OAP 111 Computer Keyboarding and Document Production

3 cr. hrs. 5 periods (2 lec., 3 lab)

Theory and practice of computer keyboarding. Includes speed and accuracy techniques, language arts skills, correspondence, employment documents, and word processing commands.

Offered: Fall, Spring, Summer.

OAP 111A Computer Keyboarding and Document Production: Keyboard

1 cr. hrs. 1.7 periods (.7 lec., 1 lab)

Techniques and functions for computer keyboarding skills. Includes keyboarding, speed and accuracy, language arts, and word processing commands.

Information: OAP 111A, 111B, and 111C together constitute OAP 111.

Offered: Fall, Spring, Summer.

OAP 111B Computer Keyboarding and Document Production: Formatting Documents

1 cr. hrs. 1.7 periods (.7 lec., 1 lab)

Continuation of OAP 111A. Includes speed and accuracy, language arts, correspondence, and word processing commands.

Prerequisite(s): OAP 111A.

Information: OAP 111A, 111B, and 111C together constitute OAP 111. Prerequisite may be waived with equivalent proficiency. See an OAP instructor for information.

Offered: Fall, Spring, Summer.

OAP 111C Computer Keyboarding and Document Production: Applications

1 cr. hrs. 1.6 periods (.6 lec., 1 lab)

Continuation of OAP 111B. Includes speed and accuracy, correspondence, employment documents, language arts, and word processing command.

Prerequisite(s): OAP 111B.

Information: OAP 111A, 111B, and 111C together constitute OAP 111.

Offered: Fall, Spring, Summer.

OAP 114 Computer Keyboarding: Skill Building

3 cr. hrs. 6 periods (6 lab)

Development of computer keyboarding. Includes skill assessment, skill building development, data input accuracy, increasing keyboarding accuracy and skill building software.

Recommendation: Completion of OAP 111A or equivalent proficiency on computer keyboard before enrolling in this course.

Offered: Fall, Spring, Summer.

OAP 123 Professional Development for Administrative Support

3 cr. hrs. 6 periods (6 lab)

Procedures and skills for securing a job. Includes resume development, interview techniques, application forms, application letter, research requirements, customer service skills, job shadowing, and sexual harassment.

Recommendation: Completion of OAP 111 or equivalent proficiency on computer keyboard before enrolling in this course.

Offered: Fall, Spring.

OAP 132 Records Management: Filing Systems

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures of filing systems. Includes rules for indexing, coding, and filing, cross references, filing systems, advantages and disadvantages of each filing system, file maintenance and management, and simulations.

Offered: Fall, Spring.

OAP 133 Records Management: Development of a Program

3 cr. hrs. 3 periods (3 lec.)

Principles of file management from creation to final disposition. Includes records information management program development, technology in records information management, related records information management functions, and inactive records information management.

Offered: Fall, Spring.

OAP 141 Legal Terms

3 cr. hrs. 3 periods (3 lec.)

Language used in a legal setting. Includes general terminology, court system, and specialized areas of law.

Offered: Fall, Spring.

OAP 142 Legal Procedures I

3 cr. hrs. 3 periods (3 lec.)

General law office procedures. Includes legal support staff, career development, legal ethics, written communication, calendaring, court system, preparation of legal documents, family law, contract law, and employment law.

Prerequisite(s): OAP 114.

Offered: Fall, Spring.

OAP 143 Legal Procedures II

4 cr. hrs. 4 periods (4 lec.)

Continuation of OAP 142. Includes legal support staff, court systems, civil litigation and torts, and criminal litigation procedures.

Prerequisite(s): OAP 142.

Information: Prerequisite may be waived depending on work experience. See an OAP instructor for prerequisite information.

Offered: Fall, Spring.

OAP 151 Business English

3 cr. hrs. 3 periods (3 lec.)

English fundamentals essential for modern business communication. Includes reference skills, parts of speech, basic sentence terms, verbals, types of sentences, punctuation and grammar usage.

Recommendation: Completion of OAP 050 or assessment at the WRT 100 level before enrolling in this course.

Offered: Fall, Spring.

OAP 161 Medical Office Procedures

3 cr. hrs. 4 periods (2 lec., 2 lab)

Services and procedures used in a medical office. Includes qualities of the office worker, healthcare industry, communications and human relations, telephone techniques, financial reports, word processing, administrative support and medical billing, filing, mail processing, content of medical health record and documentation, insurance and claims, and employment in a medical office/facility and the interview.

Prerequisite(s): OAP 111, 162.

Offered: Fall, Spring.

OAP 162 Medical Terms I

3 cr. hrs. 3 periods (3 lec.)

Terminology used in the medical field. Includes word parts and forms, terms pertaining to the body as a whole, terminology beyond basic word analysis, prefixes, digestive system, pathology of the digestive system, laboratory tests - digestive system, clinical procedures - digestive system, urinary system, female reproductive system, male reproductive system, nervous system, cardiovascular system, and reference materials.

Offered: Fall, Spring.

OAP 162A Medical Terms I: Module A

1 cr. hrs. 1 periods (1 lec.)

Terminology used in the medical field. Includes word parts and forms, terms pertaining to the body as a whole, terminology beyond basic word analysis, and reference materials.

Information: OAP 162A, 162B, 162C together constitute OAP 162.

Offered: Fall.

OAP 162B Medical Terms I: Module B

1 cr. hrs. 1 periods (1 lec.)

Continuation of OAP 162A. Includes prefixes, digestive system, pathology of the digestive system, laboratory tests - digestive system, clinical procedures - digestive system, urinary system, and reference materials.

Prerequisite(s): OAP 162A.*Information: OAP 162A, 162B, 162C together constitute OAP 162.*

Offered: Fall.

OAP 162C Medical Terms I: Module C

1 cr. hrs. 1 periods (1 lec.)

Continuation of OAP 162B. Includes anatomy and terminology of the female reproductive system, male reproductive system, nervous system, cardiovascular system, and reference materials.

Prerequisite(s): OAP 162B.*Information: OAP 162A, 162B, 162C together constitute OAP 162.*

Offered: Fall.

OAP 164 Medical Transcription I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Terms and format for transcribing medical reports. Includes ethics and legal responsibility, preparation of medical reports, transcription of medical records, rules and medical terminology.

Prerequisite(s): OAP 162.

Recommendation: Experience in the medical field and word processing experience highly recommended before enrolling in this course.

Offered: Fall, Spring.

OAP 171 Office Procedures

4 cr. hrs. 5 periods (3 lec., 2 lab)

Functions and procedures used in a wide range of office activities. Includes business operations, visitors and clients, office functions, document production, communication skills, office duties and tasks travel arrangements, meetings and conferences, office equipment, and professional attitudes and image, Internet exploration, and job evaluation.

Prerequisite(s): OAP 111.

Offered: Fall, Spring.

OAP 199 Introduction to Co-op: Office and Administrative Professions

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for first-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): OAP 199WK*Information: May be taken two times for a maximum of two credit hours.*

Offered: Fall, Spring.

OAP 199WK Co-op Work: Office and Administrative Professions

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in a related occupation area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): OAP 199*Information: May be taken two times for a maximum of sixteen credit hours.*

Offered: Fall, Spring.

OAP 224 Machine Transcription

3 cr. hrs. 4 periods (2 lec., 2 lab)

Skills and techniques of transcribing dictated materials. Includes transcription equipment, transcription techniques, language arts development, mailable documents, and career opportunity awareness.

Prerequisite(s): OAP 111 and 151.

Information: Keyboarding speed of 35 WPM and ability to format letters, memos, and reports before enrolling in this course.

Offered: Fall, Spring.

OAP 242 Legal Procedures III

4 cr. hrs. 4 periods (4 lec.)

Continuation of OAP 143. Includes business organizations, real estate, estate planning, wills and trusts, probate and protective proceedings.

Prerequisite(s): OAP 143.

Information: Prerequisite may be waived depending on work experience. See an OAP instructor for prerequisite information.

Offered: Fall, Spring.

OAP 251 Business Communications

3 cr. hrs. 3 periods (3 lec.)

Principles of effective writing and listening skills. Includes language development, verbal and nonverbal communications, customer relations, and writing and editing correspondence.

Prerequisite(s): OAP 151.

Information: Prerequisite may be waived depending on work experience. See an OAP instructor for prerequisite information.
Offered: Fall, Spring.

OAP 262 Medical Terms II

3 cr. hrs. 3 periods (3 lec.)

Continuation of OAP 162. Includes anatomy and terminology of the respiratory system, blood system, lymphatic and immune system, musculoskeletal system, skin, sense organs: eyes and ears, endocrine system, cancer (oncology) medicine, radiology and nuclear medicine, pharmacology, psychiatry, language of medicine, and reference materials - advanced.

Prerequisite(s): OAP 162.

Offered: Fall, Spring.

OAP 262A Medical Terms II: Module A

1 cr. hrs. 1 periods (1 lec.)

Continuation of OAP 162. Includes anatomy and terminology of the respiratory system, blood system, lymphatic and immune system, musculoskeletal system, and reference materials - advanced.

Prerequisite(s): OAP 162.

Information: OAP 262A, 262B, 262C together constitute OAP 262.

Offered: Spring.

OAP 262B Medical Terms II: Module B

1 cr. hrs. 1 periods (1 lec.)

Continuation of OAP 262A. Includes skin, sense organs: eyes and ears, endocrine system, cancer (oncology) medicine, and reference materials - advanced.

Prerequisite(s): OAP 262A.

Information: OAP 262A, 262B, 262C together constitute OAP 262.

Offered: Spring.

OAP 262C Medical Terms II: Module C

1 cr. hrs. 1 periods (1 lec.)

Continuation of OAP 262B. Includes radiology and nuclear medicine, pharmacology, psychiatry, language of medicine, and reference materials - advanced.

Prerequisite(s): OAP 262B.

Information: OAP 262A, 262B, 262C, together constitute OAP 262.

Offered: Spring.

OAP 263 Medical Terminology for Disease Pathology

3 cr. hrs. 3 periods (3 lec.)

Examination of disease processes and their effects on the systems of the human body. Includes introduction to diseases, anatomy and physiology, inflammation and immunity, infectious diseases, neoplasms, hereditary diseases, nutritional diseases, and diseases of the organs and body system.

Prerequisite(s): OAP 262.

Offered: Fall, Spring.

OAP 264 Medical Transcription II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of OAP 164. Includes punctuation, capitalization, numbers, figures, abbreviations, business letter transcription, proofreading, spelling, word division and reference books.

Prerequisite(s): OAP 164, and 262.

Recommendation: Keyboarding at 50 WPM is recommended before enrolling in this course.

Offered: Fall, Spring.

OAP 266 Medical Transcription III

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of OAP 264. Includes advanced training in punctuation, capitalization, rules, medical correspondence, proofreading, prefixes and suffixes, transcription, and medical terms.

Prerequisite(s): OAP 264.

Recommendation: Keyboarding at 60 WPM is recommended before enrolling in this course.

Offered: Fall, Spring.

OAP 299 Introduction to Co-op: Office and Administrative Professions

1 cr. hrs. 1 periods (1 lec.)

Introduction to Cooperative Education for second-year students (instruction which provides for success in securing and retaining a training job related to subject area). Social and psychological reasons for working, methods of securing employment, preparation of career and job-related objectives and evaluation of student work experience.

Corequisite(s): OAP 299WK

Information: May be taken two times for a maximum of two credit hours.

Offered: Fall, Spring.

OAP 299WK Co-op Work: Office and Administrative Professions

1-8 cr. hrs. 5-40 periods (5-40 lab)

A supervised cooperative work program for students in an occupation related area. Teacher-coordinators work with students and their supervisors. Variable credit is available by special arrangement.

Corequisite(s): OAP 299

Information: May be taken two times for a maximum of sixteen credit hours.

Offered: Fall, Spring.

Optical Science

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

OPS 201 Geometrical and Instrumental Optics I

3 cr. hrs. 3 periods (3 lec.)

Basic principles of light, refraction, reflection, properties of optical glass, prisms, paraxial optics, pupils and stops, visual and other basic instruments, aberrations, measurements, and testing.

Prerequisite(s): ENG 110IN, MAT 220, and PHY 210/210LB.

Corequisite(s): OPS 201LB

Offered: Fall.

OPS 201LB Geometrical and Instrumental Optics I Laboratory

1 cr. hrs. 4 periods (4 lab)

Cleaning optics, measuring refractive indices, reflection, deviating prisms, scanners, ideal imaging, thin lenses, thick lenses, Gaussian reduction, and throughput.

Corequisite(s): OPS 201

Offered: Fall.

OPS 202 Geometrical and Instrumental Optics II

3 cr. hrs. 3 periods (3 lec.)

Optical instruments, field and relay lenses, telescopes, microscopes, optical materials, achromatization, illumination, cameras, and projectors.

Prerequisite(s): OPS 201/201LB.

Corequisite(s): OPS 202LB

Offered: Spring.

OPS 202LB Geometrical and Instrumental Optics II Laboratory

1 cr. hrs. 4 periods (4 lab)

Measuring refractive indices, dispersing and deviating prisms, thin lenses, thick lenses, aberration evaluation, Keplerian and Galileo telescopes, and compound microscopes.

Corequisite(s): OPS 202

Offered: Spring.

Paralegal

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PAR 101 Introduction to Paralegal Careers

3 cr. hrs. 3 periods (3 lec.)

Role, responsibilities and ethical standards of the paralegal. Includes paralegal employment and regulation, ethical rules of the legal profession, law office administration and systems, communication, introduction to legal research and legal analysis, state and federal judicial systems, and overview of litigation and specialty areas of law.

Offered: Fall, Spring.

PAR 102 Civil Litigation Procedures I

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures for commencement of civil litigation. Includes rules of civil procedure, subject matter jurisdiction, venue, statutes of limitations, parties, pleading format, preparation of complaint and answer, counterclaims, crossclaims, and third party practice. Also includes the causes of action, remedies, and potential defenses in contract and tort law.

Prerequisite(s): PAR 101 or concurrent enrollment, and REA 112, or a reading assessment score of 90 or higher on the college reading assessment.

Offered: Fall, Spring.

PAR 103 Legal Research

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of legal research. Includes categories of research materials, citing legal material, finding and using secondary authority, finding tools. Shepard's Citators, case law, constitutions, statutes and administrative law, analyzing research problems, and preparing research reports.

Prerequisite(s): PAR 101 and WRT 102.

Information: Prerequisite may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor. Offered: Fall, Spring.

PAR 104 Paralegal Ethics

3 cr. hrs. 3 periods (3 lec.)

Rules and principles of professional responsibility in the legal field. Includes sources of the rules of legal ethics, ethical guidelines and attorney supervision of paralegals, unauthorized practice of law, confidentiality, conflicts of interest, advertising and solicitation, attorney's fees and fiduciary duties, competence, malpractice, ethical conduct issues in litigation, and professional integrity issues.

Prerequisite(s): PAR 103 or concurrent enrollment.

Information: Prerequisite may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor. Offered: Fall, Spring.

PAR 106 Civil and Criminal Evidence

3 cr. hrs. 3 periods (3 lec.)

Paralegal's role in the analysis and application of the rules of evidence. Includes relevancy and its limits, privileges, use, impeachment, and exclusion of witness, opinion and expert testimony, hearsay, authentication, and contents of writings, recordings, and photographs.

Prerequisite(s): PAR 103 or concurrent enrollment.

Information: Prerequisite may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor. Offered: Fall, Spring.

PAR 202 Civil Litigation Procedures II

3 cr. hrs. 3 periods (3 lec.)

Continuation of PAR 102. Includes discovery/disclosure procedures in Federal Court and in Arizona Superior Court, file organization and document control, pre-trial motions, gathering and organizing evidence, preparation of witnesses, alternative dispute resolutions, trial, post-trial and appellate procedures.

Prerequisite(s): PAR 102.

Offered: Fall, Spring.

PAR 203 Tort Law Procedures

3 cr. hrs. 3 periods (3 lec.)

Concepts and procedures used in tort law cases. Includes tort litigation procedures and tort case law in the areas of negligence, professional negligence, strict liability, product liability, liability issues, and insurance coverage. Also includes interviewing and investigation techniques for the paralegal in tort cases.

Prerequisite(s): PAR 101 and 102.

Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor. Offered: Fall.

PAR 204 Wills, Trusts, and Estates

3 cr. hrs. 3 periods (3 lec.)

Preparation to assist a lawyer in estate planning. Includes an introduction to wills, trusts, and estates, intestate succession, guardianship, will related documents, will drafting and executing, estate administration, probate related legal action, trusts and administration, and fiduciary duties.

Prerequisite(s): PAR 101.

Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor. Offered: Fall.

PAR 206 Criminal Law and Procedures I

3 cr. hrs. 3 periods (3 lec.)

Criminal law and trial processes from arrest through pre-trial procedures. Includes rules of criminal procedure, initial criminal law process, pretrial investigation and discovery, criminal and constitutional law cases, criminal statutes, and pretrial motion practice.

Prerequisite(s): PAR 101.

Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor. Offered: Fall.

PAR 207 Criminal Law and Procedures II

3 cr. hrs. 3 periods (3 lec.)

Continuation of PAR 206. Includes rules of criminal procedure, trial rights of defendants, trial procedure, case preparation for trial, direct and cross examination, evidentiary objections, and motions for the close of evidence.

Prerequisite(s): PAR 106 or concurrent enrollment, and PAR 206.

Offered: Spring.

PAR 208 Domestic Relations and Family Law

3 cr. hrs. 3 periods (3 lec.)

Law and procedures related to family relationships and domestic matters. Includes basic principles of family law, marital contracts, legal issues in family law affecting children, initiating a divorce proceeding, contested proceedings, and assisting at a dissolution trial.

Prerequisite(s): PAR 101.

Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor. Offered: Spring.

PAR 209 Bankruptcy Procedures

3 cr. hrs. 3 periods (3 lec.)

Application of legal procedures in bankruptcy. Includes jurisdiction, cast of characters and their roles in bankruptcy, client interview, evaluation of options, advising client, and drafting Chapter 7 liquidation, Chapter 13 adjustment of debts of individuals, Chapter 12 adjustment of debts of family farmer, Chapter 11 reorganization, and the paralegals' role.

Prerequisite(s): PAR 101.

Information: Prerequisite may be waived if employed in a legal-related field; see a PAR advisor or course instructor. Offered: Fall.

PAR 210 Administrative Law

4 cr. hrs. 4 periods (4 lec.)

Concepts and procedures of administrative law for paralegals. Includes an overview of laws and regulations in employment, immigration, social security, and environmental law. Also includes practical applications in employment, immigration, social security, and environmental law.

Prerequisite(s): PAR 101 and 103.

Information: Prerequisite(s) may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: May not be offered this year, check class schedule.

PAR 210A Administrative Law: Employment

1 cr. hrs. 1 periods (1 lec.)

Concepts and procedures of employment law for paralegals. Includes an overview of employment law and regulations, and practical applications in employment law.

Prerequisite(s): PAR 101 and 103.

Information: PAR 210A, 210B, 210C, and 210D together constitute PAR 210. Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: May not be offered this year, check class schedule.

PAR 210B Administrative Law: Immigration

1 cr. hrs. 1 periods (1 lec.)

Concepts and procedures of immigration law for paralegals. Includes an overview of immigration law and regulations, and practical applications in immigration law.

Prerequisite(s): PAR 101 and 103.

Information: PAR 210A, 210B, 210C and 210D together constitute PAR 210. Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: Summer.

PAR 210C Administrative Law: Social Security

1 cr. hrs. 1 periods (1 lec.)

Concepts and procedures of social security law for paralegals. Includes an overview of social security law and regulations, and practical applications in social security law.

Prerequisite(s): PAR 101 and 103.

Information: PAR 210A, 210B, 210C, and 210D together constitute PAR 210. Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: Summer.

PAR 210D Administrative Law: Environmental

1 cr. hrs. 1 periods (1 lec.)

Concepts and procedures of environmental law. Includes an overview of environmental laws and regulations, and practical applications in environmental law.

Prerequisite(s): PAR 101 and 103.

Information: PAR 210A, 210B, 210C and 210D together constitute PAR 210. Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: May not be offered this year, check class schedule.

PAR 211 Legal Writing

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of legal writing. Includes writing style, editing and proofreading, legal analysis, legal brief types, and applications of legal writing for memoranda, litigation documents, and correspondence.

Prerequisite(s): PAR 103, 202 and WRT 102.

Offered: Fall, Spring.

PAR 212 Law Office Computerization

3 cr. hrs. 3 periods (3 lec.)

Application of computer software in a legal field. Includes computer hardware and software, word processing applications, database management systems, spreadsheet software, law office management, automated litigation support, telecommunications, and specialized legal software for the preparation of legal documents and document organization.

Prerequisite(s): CSA 101 and PAR 101.

Information: Prerequisites may be waived if employed in a legal-related field; see a PAR advisor or course instructor.

Offered: Spring.

PAR 213 Computer Assisted Legal Research

3 cr. hrs. 3 periods (3 lec.)

Computer assisted research systems. Includes historical development, full-text system; Westlaw, search techniques, and display elements, databases, special services, and Internet searching.

Prerequisite(s): PAR 103.

Information: Prerequisites may be waived with equivalent research experience; see a PAR advisor or course instructor.

Offered: Fall, Spring.

PAR 215 Corporate Law Procedures

3 cr. hrs. 3 periods (3 lec.)

Procedures and document drafting for the formation of business entities. Includes introduction to agency law, non-corporate entities, business corporations, corporation changes, forms of corporations, financing a public or private corporation, changes in corporate structure, and the role of the paralegal in corporate law.

Prerequisite(s): PAR 101.

Information: Prerequisite(s) may be waived if employed in a legal-related field, or if pursuing a post-degree certificate; see a PAR advisor or course instructor.

Offered: Spring.

PAR 217 Real Estate Legal Procedures

3 cr. hrs. 3 periods (3 lec.)

Legal procedures and requirements in real estate transactions and litigation. Includes real estate principles and legal concepts, recording and constructive notice, and real property taxes. Also includes an analysis of real estate contracts/purchase agreements, escrows and closings, deeds, co-ownership, legal descriptions, leases, encumbrances, liens, and foreclosures.

Prerequisite(s): PAR 101.

Information: Employment in a legal-related field or an Arizona Real Estate license may be substituted for PAR 101; see a PAR advisor or course instructor. The Arizona Department of Real Estate will accept this course as satisfying 15 continuing education hours in the following categories (3 agency, 3 contract law, 3 fair housing, 3 real estate legal issues, and 3 general real estate).

Offered: Fall, Spring.

PAR 290 Paralegal Internship

4 cr. hrs. 16 periods (1 lec., 15 lab)

Volunteer paralegal field experience at an approved work site. Includes communications, positive work attitudes, ethics, progress review, law office systems, professional development, employment strategies, and final evaluation within a classroom seminar setting.

Prerequisite(s): PAR 104, 202 and WRT 102.

Information: Enrollment and placement contingent upon earned grade point average in PAR courses. Designed for students in their final semester of course work in the Paralegal Program. Six credit hours of PAR specialty electives from the following list must be taken - PAR 203, 204, 206, 207, 208, 209, 210, 212, 215, or 217. A minimum of 45 credit hours if completing the AAS Degree, or 27 credit hours in completing the certificate are required. Application and acceptance required.

Offered: Fall, Spring.

Pharmacy Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PHT 170 Introduction to Pharmacy Technology

2 cr. hrs. 2 periods (2 lec.)

Overview of the role of pharmacy support personnel. Includes allied health professions, history and structure of pharmacy, ethics, legal aspects of pharmacy, pharmaceutical care delivery systems and drug distribution systems. Also includes medical terminology emphasizing common medical roots, prefixes and suffixes, pharmaceutical abbreviations and introduction to the concept of quality assurance and its procedures.

Offered: Fall, Spring, Summer.

PHT 171IN Pharmaceutical Calculations

4 cr. hrs. 6 periods (3 lec., 3 lab)

Mathematical computations needed in the practice of pharmacy technology. Includes fundamentals of mathematical calculations, units and measures for the calculation of drug dosages, and interpretation of the prescription or medication order. Also includes calculation of drug dosages, reducing and enlarging formulas, percentage preparations, dilution and concentration, isotonic solutions and electrolyte solutions.

Prerequisite(s): MAT 092; PHT 170 or concurrent enrollment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHT 172 Drug Therapy I

4 cr. hrs. 4 periods (4 lec.)

Overview of the relationship between the central nervous system (CNS), the autonomic nervous system (ANS) and pharmaceutical therapy. Includes anatomy and physiology of the CNS, neurotransmission and disorders of the CNS, therapeutic applications of drugs affecting the CNS, and characteristics of drugs of the CNS. Also includes anatomy and physiology of the ANS, drug action on ANS neurotransmission, disorders treated with autonomic drugs, and types and characteristics of autonomic drugs.

Prerequisite(s): PHT 170 or concurrent enrollment.

Offered: Fall, Spring.

PHT 174 Pharmacy Operations

2 cr. hrs. 2 periods (2 lec.)

Technical aspects of drug distribution in both inpatient and outpatient settings. Includes basic pharmacy references, equipment and materials, non-sterile dosage forms, and inventory control. Also includes large and small scale compounding, packaging, and quality control.

Prerequisite(s): PHT 170 and 171 or concurrent enrollment.

Corequisite(s): PHT 174LB

Offered: Fall, Spring, Summer

PHT 174IN Pharmacy Operations

3 cr. hrs. 5 periods (2 lec., 3 lab)

An integrated course combining lecture and laboratory exercise in practical, technical, and legal aspects of drug management; distribution (dispensing); and storage in outpatient (retail), inpatient (hospital), and nursing home settings. Includes pharmacy equipment and devices, materials, non-sterile dosage forms, and inventory control. Also includes small or large scale compounding, packaging and quality control; practical aspects of recordkeeping, and insurance issues relevant to the daily pharmacy operations.

Prerequisite(s): PHT 171 or concurrent enrollment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHT 174LB Pharmacy Operations Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHT 174.

Corequisite(s): PHT 174

Offered: Fall, Spring, Summer.

PHT 178IN Computer Application for Pharmacy

3 cr. hrs. 5 periods (2 lec., 3 lab)

Basic concepts of computer operation. Includes the Internet, computer hardware and software, and professional pharmacy applications in retail and hospital pharmacy.

Prerequisite(s): PHT 170 or concurrent enrollment.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHT 180 Sterile Products

3 cr. hrs. 3 periods (3 lec.)

Application of aseptic techniques and use of the laminar flow hood in the preparation of sterile products. Includes history of sterile products and parenteral therapy, characteristics of sterile products, principles of fluid and electrolyte therapy, antiseptics, chemotherapy, TPN's and sterilization and sterile products calculations. Also includes introduction to IV labels and profile systems, aseptic techniques, total parenteral nutrition, incompatibilities, quality control, and specialized sterile products.

Prerequisite(s): PHT 171 or concurrent enrollment.

Corequisite(s): PHT 180LB

Offered: Fall, Spring.

PHT 180LB Sterile Products Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHT 180.

Corequisite(s): PHT 180

Offered: Fall, Spring.

PHT 181 Interprofessional Relations in Pharmacy

3 cr. hrs. 3 periods (3 lec.)

Overview of effective communications skills needed by the pharmacy technician to use interpersonally and between the pharmacist, the patient, and other health care professionals. Includes human relations development, personality inventory, and elements in communication in areas of non-verbal, interpersonal, barriers, listening, empathy and interviewing. Also includes building better patient understanding in special situations such as death and dying, ethnicity, conflict resolution, and ethical patient care.

Prerequisite(s): PHT 170 or concurrent enrollment.

Offered: Spring.

PHT 182 Drug Therapy II

4 cr. hrs. 4 periods (4 lec.)

The relationship between anatomy and physiology, disease states, and pharmaceutical therapy. Includes origins, dosage forms, indications, actions, routes of administration and side effects of both prescription and non-prescription drugs used in diseases of the cardiovascular, circulatory, renal, endocrine, respiratory, digestive, reproductive, and integumentary systems.

Prerequisite(s): PHT 170 or concurrent enrollment.

Offered: Fall, Spring.

PHT 187 Pharmacy Law and Ethics

3 cr. hrs. 3 periods (3 lec.)

Practical guide to pharmacy law and ethics for the pharmacy technician. Includes state and federal law, roles of the pharmacist and the pharmacy technician, and ethical practices for patients.

Offered: Fall, Spring.

PHT 190LB Pharmacy Technician Internship

4 cr. hrs. 16 periods (16 lab)

On-site training in outpatient and inpatient pharmacy services under direct supervision of designated pharmacist.

Information: Completion of the core curriculum for the PHT certificate required before enrolling in this course.

Offered: Spring, Summer.

PHT 197 Clinical Seminar

2 cr. hrs. 2 periods (2 lec.)

Topics and discussions of importance to the pharmacy technician. Includes employment search preparation, research reports, and technical papers. Also includes a review of the Arizona Pharmacy Association Pharmacy Technician Certification Exam.

Corequisite(s): PHT 190LB

Offered: Fall, Spring, Summer.

Philosophy

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PHI 101 Introduction to Philosophy

3 cr. hrs. 3 periods (3 lec.)

Survey of Western Philosophy. Includes primary source readings in western philosophic areas: logic, epistemology, ethics, social/political philosophy, philosophy of religion, metaphysics, philosophy of science, and aesthetics.

Offered: Fall, Spring, Summer.

PHI 120 Introduction to Logic

3 cr. hrs. 3 periods (3 lec.)

Introduction to the main types of logical reasoning. Includes the nature of language, deductive logic, and inductive logic.

Offered: Fall, Spring, Summer.

PHI 122 God, Mind, and Matter

3 cr. hrs. 3 periods (3 lec.)

Introduction to the metaphysics and epistemology of the cognitive and material domains of Western philosophy. Includes philosophic method, distinctions, ancient philosophical ideas about God, mind, and matter, medieval ideas, modern philosophers' ideas, and contemporary philosophical discussions.

Offered: Fall, Spring.

PHI 123 Philosophical Foundations of Science

3 cr. hrs. 3 periods (3 lec.)

Introduction to Western philosophical foundations of science. Includes philosophical and scientific methods, classical, medieval, modern and contemporary science and mathematics, and philosophical problems raised by discovery and change.

Offered: May not be offered this year, check class schedule.

PHI 130 Introductory Studies in Ethics and Social Philosophy

3 cr. hrs. 3 periods (3 lec.)

Introduction to the study of the principles of morality and standards of conduct from a western philosophical perspective. Includes philosophical method, foundations of moral philosophy, ethical-value judgments and human nature, theories of social morality and justice, and emotions and faith.

Offered: Fall, Spring, Summer.

PHI 140 Philosophy of Religion

3 cr. hrs. 3 periods (3 lec.)

Introduction to Western philosophical methods as applied to religion. Includes philosophical method, nature and meaning of religion and God, classical arguments, faith and reason, theodicy, mysticism, and the impact of religion on ethics, psychology, and law.

Information: This is not a world religions class. Same as REL 140.

Offered: Fall, Spring, Summer.

Physics

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PHY 101 Technical Physics I

2 cr. hrs. 2 periods (2 lec.)

Concepts of physics related to technician occupations. Includes state of matter, forces in water and other liquids, forces in air and other gases, forces in work and machines, concepts of motion, heat energy, psychometrics, electrical principles, and electromagnetic spectrum.

Prerequisite(s): MAT 086.

Corequisite(s): PHY 101LB

Offered: Fall.

PHY 101LB Technical Physics I Lab

1 cr. hrs. 2 periods (2 lab)

This is the Lab portion of PHY 101.

Corequisite(s): PHY 101

Offered: Fall.

PHY 121 Introductory Physics I

4 cr. hrs. 4 periods (4 lec.)

Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes mechanics and heat.

Corequisite(s): PHY 121LB

Information: High School algebra is required before enrolling in this course.

Offered: Fall, Spring, Summer.

PHY 121IN Introductory Physics I

5 cr. hrs. 7 periods (4 lec., 3 lab)

Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes mechanics and heat.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously. High School algebra is required before enrolling in this course.

Offered: Fall, Spring, Summer.

PHY 121LB Introductory Physics I Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHY 121.

Corequisite(s): PHY 121

Offered: Fall, Spring, Summer.

PHY 122 Introductory Physics II

4 cr. hrs. 4 periods (4 lec.)

Continuation of PHY 121. Includes waves, electricity, magnetism, optics, relativity, and modern physics.

Prerequisite(s): PHY 121.

Corequisite(s): PHY 122LB

Offered: Fall, Spring.

PHY 122IN Introductory Physics II

5 cr. hrs. 7 periods (4 lec., 3 lab)

Continuation of PHY 121. Includes waves, electricity waves, electricity, magnetism, optics, relativity, and modern physics.

Prerequisite(s): PHY 121.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHY 122LB Introductory Physics II Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHY 122.

Corequisite(s): PHY 122

Offered: Fall, Spring.

PHY 195 Introduction to Research in Physics

4 cr. hrs. 4 periods (4 lec.)

Introduction to the methods of research in physics. Includes scientific laboratory procedures, experimental design, scientific writing, scientific ethics, and current research in working laboratories.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PHY 196 Independent Studies in Physics

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent studies and projects in physics and allied science fields. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring.

PHY 210 Introductory Mechanics

4 cr. hrs. 4 periods (4 lec.)

Calculus-based introduction to mechanics for physics, engineering, and mathematics majors. Includes kinematics, dynamics, and conservation of energy, linear, and angular momentum.

Prerequisite(s): MAT 220.

Corequisite(s): PHY 210LB

Information: High school physics is required before enrolling in this course.

Offered: Fall, Spring, Summer.

PHY 210IN Introductory Mechanics

5 cr. hrs. 7 periods (4 lec., 3 lab)

Calculus-based introduction to mechanics for physics, engineering, and mathematics majors. Includes kinematics, dynamics, and conservation of energy, linear, and angular momentum.

Prerequisite(s): MAT 220.

Information: High school physics is required before enrolling in this course. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHY 210LB Introductory Mechanics Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHY 210.

Corequisite(s): PHY 210

Offered: Fall, Spring, Summer.

PHY 216 Introductory Electricity and Magnetism

4 cr. hrs. 4 periods (4 lec.)

Calculus-based introduction to electricity and magnetism for physics, mathematics, and engineering majors. Includes electric and magnetic field theory, Gauss's Law, potential theory, capacitance, circuit theory, Ampere's Law, Faraday's Law, and Maxwell's equations.

Prerequisite(s): PHY 210 and MAT 231.

Corequisite(s): PHY 216LB

Offered: Fall, Spring, Summer.

PHY 216IN Introductory Electricity and Magnetism

5 cr. hrs. 7 periods (4 lec., 3 lab)

Calculus-based introduction to electricity and magnetism for physics, mathematics, and engineering majors. Includes electric and magnetic field theory,

Gauss's Law, potential theory, capacitance, circuit theory, Ampere's Law, Faraday's Law, and Maxwell's equations.

Prerequisite(s): PHY 210 and MAT 231.

Information: IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall, Spring.

PHY 216LB Introductory Electricity and Magnetism Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHY 216.

Corequisite(s): PHY 216

Offered: Fall, Spring, Summer.

PHY 221 Introduction to Waves and Heat

3 cr. hrs. 3 periods (3 lec.)

Calculus-based introduction to waves and heat for physics, mathematics, and engineering majors. Includes fluid statics and dynamics, heat and thermodynamics, simple harmonic motion, wave theory, physical and geometric optics.

Prerequisite(s): PHY 210 and MAT 231.

Corequisite(s): PHY 221LB

Offered: Fall, Spring, Summer.

PHY 221LB Introduction to Waves and Heat Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of PHY 221.

Corequisite(s): PHY 221

Offered: Fall, Spring, Summer.

PHY 230 Introduction to Modern Physics

3 cr. hrs. 3 periods (3 lec.)

Calculus-based introduction to modern physics from the theory of relativity to the origins of quantum mechanics. Includes the classical and special theory of relativity, relativistic kinematics, relativistic dynamics, the quantization of energy, particles and waves, the atom and early quantum theory, the Schrodinger wave equation, and nuclear, and particle physics.

Prerequisite(s): PHY 210 and 216, or PHY 221 and MAT 231.

Offered: Fall.

PHY 295LB Independent Research in Physics

1-4 cr. hrs. 3-12 periods (3-12 lab)

Experience in scientific laboratory research. Specific content to be determined by student and instructor.

Information: One semester of physics and consent of instructor is required before enrolling in this course. May be taken three times for a maximum of twelve credit hours.

Offered: May not be offered this year, check class schedule.

Political Science

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

POS 100 Introduction to Politics

3 cr. hrs. 3 periods (3 lec.)

Issues, principles, and trends in political science. Includes politics and political science, political philosophy and ideology, comparative politics, American national and state and local government, and international relations.

Offered: Fall, Spring, Summer.

POS 196 Independent Study in Political Science

2-4 cr. hrs. 2-4 periods (2-4 lec.)

Independent readings or special projects in political science. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring.

POS 201 American National Government and Politics

3 cr. hrs. 3 periods (3 lec.)

Basic concepts and substance of American politics. Includes methods of political analysis, cultural environment of American politics, impact of class, gender, and immigration, Constitution, civil liberties, and civil rights, and public opinion and fundamental values. Also includes political institutions, institutions of government, economic and social policy-making, and American foreign policy and interdependence.

Information: The combination of both POS 201 and 231 satisfies the requirement for teacher certification, as does POS 210.

Offered: Fall, Spring, Summer.

POS 202 Introduction to International Relations

3 cr. hrs. 3 periods (3 lec.)

Examination of contemporary international relations. Includes approaches to the study of international relations, international systems, actors in the international systems, foreign policies, and major forms of interactions.

Offered: Fall, Spring, Summer.

POS 203 Introduction to Political Ideas

3 cr. hrs. 3 periods (3 lec.)

Introductory survey of western political philosophy. Includes political philosophy as a discipline, and introduction to the ideas of key political thinkers from ancient through medieval, early modern, late modern, and contemporary periods.

Offered: May not be offered this year, check class schedule.

POS 204 Introduction to Comparative Politics

3 cr. hrs. 3 periods (3 lec.)

Basic concepts and substance of comparing political systems. Includes methods of comparative political analysis, politics the socio-cultural environment, public authority, and political power, individuals, cultural diversity, and state, political institutions, governmental institutions, and political change.

Offered: Fall, Spring.

POS 210 National and State Constitutions

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures of national and state constitutions. Includes major principles of American and Arizona Constitutionalism, historical and legal environments of the United States and Arizona constitutions, structures, powers, and responsibilities of United States government, structures of Arizona government, civil liberties and civil rights in the United States, and constitutional change.

Information: POS 210 satisfies the requirement for teacher certification as does the combination of both POS 201 and 231.

Offered: Fall, Spring, Summer.

POS 214 Arizona Constitution

1 cr. hrs. 1 periods (1 lec.)

Fundamental principles of the Arizona Constitution of 1910. Includes importance of state constitutions, legislative branch and direct democracy, Arizona plural executive, judicial branch, and local governments in Arizona.

Information: This course fulfills the Arizona teacher certification requirement for state constitutions.

Offered: Fall, Spring, Summer.

POS 231 American State and Local Governments and Politics

3 cr. hrs. 3 periods (3 lec.)

Basic concepts and substance of American state and local politics and government. Includes methods of political analysis, federalism/intergovernmental relations, cultural environment of state and local politics, impact of class, gender, age and occupation, public opinion and fundamental values. Also includes interest articulation and aggregation, institutions and processes of state and local governments, tribal governments, and state and local policy-making.

Information: The combination of both POS 201 and 231 satisfies the requirements for teacher certification, as does POS 210.

Offered: Fall, Spring.

POS 240 Understanding Terrorism

3 cr. hrs. 3 periods (3 lec.)

Analysis of terrorism as an international phenomenon. Includes terrorism definitions and perspective, classifications of terrorism, cultural and geographical issues, responses by governments to terrorism, terrorism's future impact on the international and domestic scene, and current government reports on terrorism.

Offered: Fall, Spring.

POS 290 Political Science Internship

3 cr. hrs. 15 periods (15 lab)

Supervised internship in a local governmental office. Includes placement with elected officials or candidates for public office, governmental agencies, and city, county or state departments. Also includes substantive assignments involving development and application of analytical, research and writing skills.

Prerequisite(s): WRT 101.

Information: Completion of six credit hours of Political Science are required before enrolling in this course. May be taken three times for a maximum of nine credit hours.

Offered: May not be offered this year, check class schedule.

Portuguese

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

POR 053 Social and Cultural Portuguese: Music

2 cr. hrs. 2 periods (2 lec.)

Listening and discussing Brazilian songs from the earlier decades to the present. Includes origins of Brazilian music, Brazilian rhythms, instruments, and major composers. Also includes contributions brought by the Portuguese, the Africans, and the indigenous population of Brazil.

Information: Prior knowledge of Portuguese is welcome, but not required.

Offered: May not be offered this year, check class schedule.

POR 101 Elementary Portuguese I

4 cr. hrs. 4 periods (4 lec.)

Basic linguistic skills of the Portuguese language. Includes article, gender, numerals, present indicative, irregular plurals, idiomatic expression, commands, the preterite, and cultural traditions. Also includes proficiency in speaking, reading, writing, and understanding Portuguese.

Offered: Fall.

POR 102 Elementary Portuguese II

4 cr. hrs. 4 periods (4 lec.)

Continuation of POR 101. Includes preterite indicative, imperfect indicative, simple past tenses of indicative, pronominal verbs, present participle in progressive constructions, subjunctive, and the use of the present, descriptive adjective, present perfect indicative, conditional verbs, present subjunctive, and cultural traditions. Also includes increased proficiency in listening, speaking, reading, and writing Portuguese.

Prerequisite(s): POR 101.

Offered: Spring.

POR 201 Intermediate Portuguese I

4 cr. hrs. 4 periods (4 lec.)

Continuation of POR 102. Includes selection of grammar structures, literary, political, and social vocabulary, selection of literary works by period, and cultural and stylistic differences.

Prerequisite(s): POR 102.

Offered: Fall.

POR 202 Intermediate Portuguese II

4 cr. hrs. 4 periods (4 lec.)

Continuation of POR 201. Includes additional selection of grammar structures, additional literary, political, and social readings, additional selection of literacy works by period, and additional cultural and stylistic differences.

Prerequisite(s): POR 201.

Offered: May not be offered this year, check class schedule.

Production Inventory Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PIM 150 Physical Distribution Management

3 cr. hrs. 3 periods (3 lec.)

In-depth study of the logistical function. Includes customer service standards, inventory control concepts, transportation methods, order processing systems, warehousing location analysis, industrial packaging, and materials handling.

Information: Same as MKT 150.

Offered: May not be offered this year, check class schedule.

PIM 210 Production Control

3 cr. hrs. 3 periods (3 lec.)

Principles of production activity control and capacity management. Includes scheduling and controlling the shop floor, capacity requirements planning, resource requirements planning and closed loop Material Requirements Planning (MRP).

Information: Candidates for APICS Production Activity Control certification examination will find this course valuable.

Offered: May not be offered this year, check class schedule.

Professional Flight Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PFT 101 Stage One: Ground School

4 cr. hrs. 4 periods (4 lec.)

Knowledge and procedures for the Federal Aviation Administration (FAA) private pilot ground school certificate. Includes aerodynamics, instruments and systems, weight and balance, cross-country planning, Airman's Informational Manual (AIM), Notices to Airmen (NOTAMS), aircraft/facility directory, radio navigation, weather, safe and efficient operation of airplanes, and final examination. Offered: Fall, Spring.

PFT 122 Stage Two: Meteorology

1 cr. hrs. 1 periods (1 lec.)

Continuation of PFT 101. Includes an in-depth study of weather elements, weather hazards, aviation weather reports, and forecasts.

Recommendation: Consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PFT 130 Stage Three: Commercial Ground School

5 cr. hrs. 5 periods (5 lec.)

Preparatory course for Federal Aviation Administration (FAA) Commercial Pilot Certification. Includes the information required to pass the FAA written test for the Commercial Pilot Certificate.

Recommendation: Consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PFT 204 Stage Four: Commercial Pilot (Instrument) Ground School

4 cr. hrs. 4 periods (4 lec.)

Knowledge and procedures for the Federal Aviation Administration (FAA) instrument pilot certificate. Includes government publications, radio aids, air traffic control procedures, Federal Aviation Regulations (FAR), cross country operations and procedures, weather theory, aviation weather data, flight instruments and systems, altitude instrument flight, flight physiology, and final examination.

Prerequisite(s): PFT 101.

Recommendation: Consent of instructor before enrolling in this course.

Offered: Fall, Spring.

PFT 230 Flight Instructor: Fundamentals of Instruction

3 cr. hrs. 3 periods (3 lec.)

Study of the basic principles of teaching and learning as it applies to the requirements to obtain the Federal Aviation Administration's (FAA) Flight Instructor rating. Includes the fundamentals of conveying aeronautical knowledge and skills to beginning and advanced learners in preparation for FAA examinations.

Prerequisite(s): PFT 130 and 204.

Recommendation: Consent of instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PFT 231 Flight Instructor: Airplane Ground School

5 cr. hrs. 5 periods (5 lec.)

Theory and procedures associated with the ground school requirements to attain Federal Aviation Administration Flight Instructor certification. Includes aerodynamic principles, engine limitations, pilotage, communications, and federal regulations.

Recommendation: Possession of an Airplane Flight Instructor certificate and instrument rating before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PFT 250 Flight Instructor: Instrument Airplane Ground School

3 cr. hrs. 3 periods (3 lec.)

Theory and procedures associated with the ground school requirements to attain Federal Aviation Administration Flight Instructor - Instrument Airplane certification. Includes the items required by the FAA to obtain an Instrument Flight Rating addition to a Flight Instructor Certificate and a requirement to teach all areas required by the FAA to obtain an Instrument Flight Instructor Airplane Rating addition to a Flight Instructor Certificate.

Recommendation: Possession of an Airplane Flight Instructor certificate and instrument rating is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Psychology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PSY 100 Psychology I

6 cr. hrs. 6 periods (6 lec.)

Information: PSY 100A and 100B together constitute PSY 100.

Offered: Fall.

PSY 100A Psychology I

3 cr. hrs. 3 periods (3 lec.)

Survey of psychology. Includes historical perspectives, theoretical systems and methodology, development, intelligence, thinking and language, personality, psychopathology, psychotherapy, and social psychology.

Information: The content of PSY 100A and 100B together constitute the content of PSY 101.

Offered: May not be offered this year, check class schedule.

PSY 100B Psychology II

3 cr. hrs. 3 periods (3 lec.)

Survey of psychology. Includes historical perspectives, theoretical systems and methodology, structure and functions of the nervous and endocrine systems, perception, learning, memory, motivation and emotion, and stress and health.

Information: The content of PSY 100A and 100B together constitute the content of PSY 101.

Offered: May not be offered this year, check class schedule.

PSY 101 Introduction to Psychology

4 cr. hrs. 4 periods (4 lec.)

Survey of psychology including history, perspectives, and methods; structure and functions of the nervous and endocrine systems; development; perception; learning; memory; intelligence, thinking and language; motivation and emotion; personality; psychopathology; psychotherapy; stress and health; and social cognition and behavior.

Information: Content is a combination of elements of PSY 100A and 100B.

Offered: Fall, Spring, Summer.

PSY 132 Psychology and Culture

3 cr. hrs. 3 periods (3 lec.)

Human diversity in behavior and culture using examples from a variety of contexts and nations. Includes cross-cultural approach, understanding culture, culture, self and personality, cross-cultural research methods, enculturation, socialization, and development, cultural influences on organization and the world of work, culture and intergroup relations, culture and social behavior, culture and basic psychological processes, culture and gender, culture and health, diversity of human emotion, culture and language, culture and communication, and cultural diversity.

Recommendation: Completion of PSY 100A or 101 before enrolling in this class.

Offered: Fall.

PSY 200 Industrial, Organizational, and Business Psychology

3 cr. hrs. 3 periods (3 lec.)

Introduction to the application of psychological theory and practice to the work place. Includes applying psychology, employment laws and policies, training and development, leadership, organizational structures, consumer behavior, ethics, stress and its effects on work, and designing effective work environments.

Recommendation: Completion of PSY 100A or 101 before enrolling in this class.

Offered: May not be offered this year, check class schedule.

PSY 210 Introduction to Biopsychology

3 cr. hrs. 3 periods (3 lec.)

Survey of the basic principles of the nervous system function. Includes research methods, theoretical perspectives, anatomy and functions of the nervous system, and brain function and behavior. Also includes such topics as the biological basis of sleep and rhythms, stress and health, aggression and violence, and mental disorders.

Prerequisite(s): PSY 100B or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in the class.

Offered: May not be offered this year, check class schedule.

PSY 214 Abnormal Psychology

3 cr. hrs. 3 periods (3 lec.)

Overview of the paradigms, diagnosis, disorders, and treatment approaches in the field of abnormal psychology. Includes: history, models, anxiety and mood disorders, mind and body disorders, psychosis and cognitive functioning disorders, and life span disorders.

Recommendation: Completion of PSY 100A or 101 or consent of instructor before enrolling in this course.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: Fall, Spring, Summer.

PSY 215 Human Sexuality

3 cr. hrs. 3 periods (3 lec.)

Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, socio-

logical, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.

Recommendation: Completion of PSY 100A or 100B or PSY 101 or SOC 101 before enrolling in this class.

Information: Same as SOC 215.

Offered: Fall, Spring, Summer.

PSY 216 Psychology of Gender

3 cr. hrs. 3 periods (3 lec.)

Biological and social explanations of gender development and behaviors. Includes research methods used to study gender, biological sexual differentiation, differential socialization and gender stereotyping, gender differences, limitations of traditional gender roles, cross-cultural gender issues, and changing gender roles.

Recommendation: Completion of PSY 100A or 100B or PSY 101 before enrolling in this class.

Offered: Fall, Spring, Summer.

PSY 218 Health Psychology

3 cr. hrs. 3 periods (3 lec.)

Overview of health psychology in relationship to cultural diversity in the United States, and awareness of the universal aspect of humanity. Includes mind-body relationships, behavior risk factors, and psychosocial aspects of specific disorders. Also includes health psychology, social, economic, and political dimensions of relationships between and among ethnic and gender groups.

Recommendation: Completion of PSY 100A or 100B or PSY 101 before enrolling in this course.

Offered: Summer.

PSY 220 The Psychology of Death and Loss

3 cr. hrs. 3 periods (3 lec.)

Adjustment to death and loss. Includes thinking about death, meaning of death, death system, dying, hospice, and end-of-life issues. Also includes suicide, violent death, euthanasia, bereavement, funeral process, near death experiences, and death education and counseling.

Recommendation: Completion of PSY 100A or 100B or 101 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PSY 224 Investigating Paranormal Psychology

3 cr. hrs. 3 periods (3 lec.)

Survey of experiments and case studies in paranormal phenomena. Includes extrasensory perception, psychokinesis, and reports of near-death experiences. Also includes research methodologies and potential applications.

Recommendation: Completion of PSY 100A or 101 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

PSY 230 Psychological Measurements and Statistics

3 cr. hrs. 3 periods (3 lec.)

Measurement, quantitative description and statistical inference as applied to psychological variables. Includes scientific research and statistics, descriptive statistics, inferential statistics, correlation and linear regression, and non-parametric tests.

Prerequisite(s): PSY 100A or 101, and MAT 122 or equivalent.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in the class.

Offered: Fall, Spring.

PSY 240 Developmental Psychology

3 cr. hrs. 3 periods (3 lec.)

Human development from conception through adulthood. Includes physical, cognitive, emotional and social development and potentials at various ages. Also includes research methods used in developmental psychology.

Prerequisite(s): PSY 100A and 100B, or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: Fall, Spring.

PSY 250 Introduction to Social Psychology

3 cr. hrs. 3 periods (3 lec.)

Introduction to major theories and research findings of social psychology. Includes research focus and methods, social influence on individual behavior, effects of culture and gender on social behavior, self-perception and attitudes, and social perceptions and international relations.

Prerequisite(s): PSY 100A or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: Fall, Spring.

PSY 254 Psychology of Love and Compassion

3 cr. hrs. 3 periods (3 lec.)

Introduction to theory and research on the psychology of love and caring. Includes applications to mental, physical and spiritual health. Also includes gender behaviors and expectations in loving relationships.

Recommendation: Completion of PSY 100A or 100B or PSY 101.

Offered: May not be offered this year, check class schedule.

PSY 265 Normal Personality

3 cr. hrs. 3 periods (3 lec.)

Psychological functioning and coping behaviors for normal personality development. Includes personal learning and growth, stages of personality development, role development, work and leisure, wellness, and managing stress. Also includes love, sexuality, relationships, loneliness and solitude, death and loss, and meaning and values.

Prerequisite(s): PSY 100A or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: Fall, Spring.

PSY 270 Meditation

3 cr. hrs. 3 periods (3 lec.)

Theoretical principles and selected traditions of meditation self-awareness. Includes principles and techniques of meditation, meditation traditions, literature of meditation, meditation arts, and psychology and physiology of meditation.

Information: Same as HUM 270.

Offered: Fall, Spring, Summer.

PSY 271 Sport Psychology

3 cr. hrs. 3 periods (3 lec.)

Examination of psychological factors that influence sport performance and coaching behaviors and the psychological effects that sport and exercise involvement have on the participant. Includes an introduction to sport psychology and sport history, psychological principles of behavioral development and control, social psychological dimensions of sport and exercise, personality assessment, the study of special athletic populations, coaching roles and behavior, and exercise psychology.

Prerequisite(s): PSY 100A or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: May not be offered this year, check class schedule.

PSY 289 Psychology Research Methods

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to scientific methodologies used in psychological research. Includes experience in using a range of psychological research methods for students.

Prerequisite(s): PSY 100A and 100B, or PSY 101; and completion of PSY 230 with a grade of C or better.

Recommendation: Designed for students planning to major or minor in psychology.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class.

Offered: Fall, Spring.

PSY 290 Social Psychology Practicum

1-6 cr. hrs. 5-30 periods (5-30 lab)

Familiarization with specific areas of social psychology. Includes pertinent research, directed observation, and personal participation in relevant experimental or natural settings.

Prerequisite(s): PSY 100A or 101.

Information: Consult instructor for alternative prerequisites.

Offered: May not be offered this year, check class schedule.

PSY 296 Individual Studies in Psychology

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Exploration of special interest areas. Content to be determined by student and facilitator-instructor.

Prerequisite(s): PSY 100A or 101.

Information: Prerequisite(s) may be waived with consent of instructor before enrolling in this class. May be taken for 1 to 6 credit hours.

Offered: May not be offered this year, check class schedule.

Public Administration

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

PAD 105 Introduction to Public Administration

3 cr. hrs. 3 periods (3 lec.)

Basic concepts and substance of American public administration. Includes a definition of public administration, paradigms of public administration, public organizations in the United States, public management techniques, implementation and evaluation, and ethics and public administration.
Offered: Fall, Spring.

PAD 221 Health, Human Services, and Public Management

3 cr. hrs. 3 periods (3 lec.)

Survey of significant issues in health care, aging, social security, public planning and decision-making. Includes American health services, American human services, public management in America, policy-making and implementation, data use and interpretation in public management, and practical cases in health and human services.
Offered: May not be offered this year, check class schedule.

Radiologic Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

RAD 170 Medical Imaging Fundamentals

2 cr. hrs. 2 periods (2 lec.)

Principles of radiographic imaging. Includes orientation, production of diagnostic radiation, image formation, ethics and professionalism, patient care and management, and radiographic positioning of the abdomen and chest.

Corequisite(s): RAD 170LB

Information: Admission to program is required before enrolling in this course. See an advisor.

Offered: Summer.

RAD 170LB Medical Imaging Fundamentals Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab for RAD 170.

Corequisite(s): RAD 170

Offered: Summer.

RAD 171 Radiographic Positioning I

3 cr. hrs. 3 periods (3 lec.)

Overview of radiographic procedures. Includes standard terms general and positioning considerations for routine and special radiographic procedures. Also includes radiographic positions of the abdomen, chest, upper extremities, shoulder girdle, and lower extremities.

Prerequisite(s): RAD 170.

Corequisite(s): RAD 171LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

RAD 171LB Radiographic Positioning I Lab

1.5 cr. hrs. 4.5 periods (4.5 lab)

This is the Lab for RAD 171.

Corequisite(s): RAD 171

Offered: Fall.

RAD 172 Medical Imaging Technology I

3 cr. hrs. 3 periods (3 lec.)

Introduction to radiographic image production and evaluation. Includes radiographic imaging orientation, exposure, protection, image quality, and film processing. Also includes formulating exposure techniques, quality assurance, and sensitometry.

Prerequisite(s): RAD 170.

Corequisite(s): RAD 172LB

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

RAD 172LB Medical Imaging Technology I Lab

.5 cr. hrs. 1.5 periods (1.5 lab)

This is the Lab for RAD 172.

Corequisite(s): RAD 172

Offered: Fall.

RAD 173LC Clinical Education I

6 cr. hrs. 24 periods (24 lab)

Application of general radiographic procedures in a clinical education center under the supervision of a certified radiographer. Includes hospital and department orientation, radiographic equipment, supplies, exam protocols, routine radiographic examinations, emergency, and portable equipment.

Prerequisite(s): RAD 170.

Information: Consent of program coordinator is required before enrolling in this course.

Offered: Fall.

RAD 174 Radiographic Positioning II

3 cr. hrs. 3 periods (3 lec.)

Continuation of RAD 171. Basic radiographic positioning and procedures. Includes pelvis, hips, SI joints, bony thorax, and vertebral column. Also includes pediatric radiography, trauma/surgical mobile radiography, and related osseous system pathology.

Prerequisite(s): RAD 171, 172 and 173.

Corequisite(s): RAD 174LB

Offered: Spring.

RAD 174LB Radiographic Position II Lab

1.5 cr. hrs. 4.5 periods (4.5 lab)

This is the Lab for RAD 174.

Corequisite(s): RAD 174

Offered: Spring.

RAD 175 Medical Imaging Technology II

3 cr. hrs. 3 periods (3 lec.)

Continuation of RAD 172. Principles of x-ray production. Includes tomography, matter and the atom, ionizing radiation, basic electricity, and magnetism and electromagnetism. Also includes voltage and current, x-ray generators, diagnostic radiographic systems, and x-ray tubes.

Prerequisite(s): RAD 170, 171, 172 and 173.

Corequisite(s): RAD 175LB

Offered: Spring.

RAD 175LB Medical Imaging Technology II Lab

.5 cr. hrs. 1.5 periods (1.5 lab)

This is the Lab for RAD 175.

Corequisite(s): RAD 175

Offered: Spring.

RAD 176LC Clinical Education II

6 cr. hrs. 24 periods (24 lab)

Continuation of RAD 173. Application of general radiographic procedures in a Clinical Education Center under the supervision of a certified radiographer. Includes routine and fluoroscopic equipment and procedures, contrast media policies and protocols, I.V. administration, routine and special examinations, and surgical and portable procedures.

Offered: Spring.

RAD 177LC Clinical Education III

6 cr. hrs. 24 periods (24 lab)

Continuation of RAD 176LC. Includes routine and special radiographic procedures, mobile radiography, fluoroscopy and surgery, and emergency department procedures.

Prerequisite(s): RAD 170, 171, 172, 173, 174, 175, 176.

Information: This course is a continuation of the clinical practicum intended to teach and reinforce radiography skills and provide the student with the opportunity to observe and perform radiographic positions incorporating critical analysis, integration, synthesis and evaluation of concepts and theories. Under the supervision of a certified radiographer, competency-based assignments, concepts of team practice, and professional development shall be discussed, examined, and evaluated.

Offered: Summer.

RAD 181 Radiographic Positioning III

3 cr. hrs. 3 periods (3 lec.)

Continuation of RAD 174. Includes radiographic positioning and fluoroscopic procedures of the urinary system, pharmacodynamics of radiopaque contrast media, intravenous drug administration technique (venipuncture), the digestive system, and the biliary system.

Prerequisite(s): RAD 174 and 177.

Corequisite(s): RAD 181LC

Offered: Fall.

RAD 181LB Radiographic Positioning III Lab

1.5 cr. hrs. 4.5 periods (4.5 lab)

This is the Lab for RAD 181.

Corequisite(s): RAD 181

Offered: Fall.

RAD 182 Medical Imaging Technology III

3 cr. hrs. 3 periods (3 lec.)

Specialized and advanced medical imaging systems. Includes Nuclear Medicine technology, Ultrasound technology, radiation therapy, image intensification, mobile radiography special, and digital medical imaging. Also includes computed tomographic scanning, Magnetic Resonance Imaging, and digital imaging.

Prerequisite(s): RAD 170, 172, 173, 175, 176 and 177.Corequisite(s): RAD 182LC

Offered: Fall.

RAD 182LB Medical Imaging Technology III Lab

.5 cr. hrs. 1.5 periods (1.5 lab)

Continuation of RAD 175. Specialized procedures and advanced medical imaging systems. Includes tomography, image intensification, mobile radiography, special imaging procedures, radiation therapy, and other imaging modalities.

Prerequisite(s): RAD 175, 176 and 177.Corequisite(s): RAD 182

Offered: Fall.

RAD 183LC Clinical Education IV

4 cr. hrs. 16 periods (16 lab)

Continuation of RAD 177LC. Includes diagnostic and fluoroscopic equipment and procedures, contrast media policies and protocols, I.V. administration, routine and special examinations, and surgical and portable procedures.

Prerequisite(s): RAD 177LC.Corequisite(s): RAD 181, RAD 182

Information: This course is a continuation of the clinical practicum intended to teach and reinforce radiography skills and provide the student with the opportunity to observe and perform radiographic positions incorporating critical analysis, integration, synthesis, and evaluation of concepts and theories. Under the supervision of a certified radiographer, competency-based assignments, concepts of team practice, and professional development shall be discussed, examined, and evaluated.

Offered: Fall.

RAD 184 Radiographic Positioning IV

3 cr. hrs. 3 periods (3 lec.)

Continuation of RAD 181. Includes patient care and management, aseptic technique/infection control, medical emergencies, routine and special positioning of the skull, and radiation biology.

Prerequisite(s): RAD 181, 182 and 183LB.Corequisite(s): RAD 185, RAD 186LC

Offered: Spring.

RAD 184LB Radiographic Positioning IV Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of RAD 184.

Corequisite(s): RAD 184

Offered: Spring.

RAD 185 Clinical Seminar

1 cr. hrs. 1 periods (1 lec.)

This is a capstone course. Includes radiographic procedures, image production and evaluation, patient care and education, equipment operation and quality control, and radiation protection.

Prerequisite(s): RAD 181, 182, 183LBCorequisite(s): RAD 184, RAD 186LC

Offered: Spring.

RAD 186LC Clinical Education V

6 cr. hrs. 24 periods (24 lab)

Continuation of RAD 183. Application of general radiographic procedures in a Clinical Education Center under the supervision of a certified radiographer. Includes tomographic procedures, advanced medical imaging procedures, optional imaging suite rotations, and routine and special positions of the skull.

Prerequisite(s): RAD 181, 182, 183LC.Corequisite(s): RAD 184, RAD 185

Offered: Spring.

RAD 210 Sectional Anatomy of the Head and Neck

1 cr. hrs. 1 periods (1 lec.)

Three dimensional anatomy presented in sagittal, transverse, and coronal planes of the head and neck. Includes structure identification and anatomic relationships of the bones, organs, muscles, nerves, and cavities.

Information: American Registry of Radiologic Technologists certification or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

RAD 211 Sectional Anatomy of the Abdomen

1 cr. hrs. 1 periods (1 lec.)

Three dimensional anatomy presented in sagittal, transverse, and coronal planes of the abdomen. Includes structure identification and anatomic relationships of the bones, organs, muscles, nerves, and cavities.

Information: American Registry of Radiologic Technologists certification or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

RAD 212 Sectional Anatomy of the Thorax

1 cr. hrs. 1 periods (1 lec.)

Three-dimensional anatomy presented in sagittal, and transverse sections of the thorax. Includes structure identification and anatomic relationships of the bones, organs, and cavities.

Information: American Registry of Radiologic Technologists certification or consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

RAD 213 Sectional Anatomy of the Vertebral Column and Spinal Cord

1 cr. hrs. 1 periods (1 lec.)

Three dimensional anatomy presented in transverse, sagittal, and coronal planes of the vertebral column and spinal cord. Includes structure identification and anatomic relationships of the vertebrae and spinal cord including discs, ligaments, muscles and nerves.

Information: Requires American Registry of Radiologic Technologists certification or permission of instructor.

Offered: May not be offered this year, check class schedule.

RAD 214 Sectional Anatomy Pathology

1 cr. hrs. 1 periods (1 lec.)

Discussion of pathophysiology and the radiographic signs of various diseases as seen on CT and MR case studies of the human body. Includes pathologic considerations for the head/neck, thorax, abdomen, pelvis, spine, and joints.

Offered: May not be offered this year, check class schedule.

Reading

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

REA 068 Techniques of Vocabulary

2 cr. hrs. 2 periods (2 lec.)

Introduction to basic strategies for vocabulary development. Includes use of context clues, word parts, the dictionary, word cards, imaging techniques and vocabulary resources.

Information: May be taken two times for a maximum of four credit hours.

Offered: Fall, Spring.

REA 071 Reading Fundamentals

4 cr. hrs. 4 periods (4 lec.)

Development of fundamental reading strategies. Includes extensive development of word analysis, vocabulary, information literacy, and reading strategies necessary to assure comprehension at the literal and interpretive levels.

Information: Designed for persons who need an intensive review of the basic reading strategies.

Offered: Fall, Spring.

REA 075 Spelling

2 cr. hrs. 2 periods (2 lec.)

Development of strategies for improving spelling. Includes basics of the English spelling system and spelling rules.

Offered: Spring.

REA 081 Reading Improvement I

4 cr. hrs. 4 periods (4 lec.)

Improvement of basic reading strategies. Includes development of word analysis, vocabulary, information literacy, and reading strategies necessary to assure successful comprehension at the literal level and interpretive levels.

Prerequisite(s): REA 071 with a C or better or required score on Reading assessment test.

Information: Designed for persons who need to improve strategies in order to increase their success in college. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring, Summer.

REA 091 Reading Improvement II

4 cr. hrs. 4 periods (4 lec.)

Development of reading strategies. Includes vocabulary comprehension, study strategies, metacognition, information literacy, and community of readers.

Prerequisite(s): REA 081 with a C or better required score on the Reading assessment test.

Information: May be taken two times for a maximum of eight credit hours.
Offered: Fall, Spring, Summer.

REA 112 Critical Reading

4 cr. hrs. 4 periods (4 lec.)

Development of college reading strategies. Includes comprehension strategies at the college level, critical reading and thinking, information literacy, vocabulary development, and advanced study strategies.

Prerequisite(s): Has both a Reading and Writing prerequisite. Reading: REA 091 with a C or better or or required score on Reading assessment test.

Writing: WRT 070 with a C or better or placement into WRT 100 or higher.

Information: Student may be admitted with instructor recommendation.

Offered: Fall, Spring, Summer.

REA 125 Speed Reading

2 cr. hrs. 2 periods (2 lec.)

Improvement of reading rate. Includes reading and study habits, visual perception, rate and flexibility, and comprehension.

Prerequisite(s): REA 112 or required score on the Reading assessment test.

Offered: May not be offered this year, check class schedule.

Real Estate

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

RLS 083 Environmental Issues for Realtors

2 cr. hrs. 2 periods (2 lec.)

Technical and legal issues concerning the sale of commercial, industrial, and residential properties that may involve "environmental damage." Includes detailed Environmental Phase I Site Assessments.

Information: Not for ENV majors. Same as ENV 083.

Offered: May not be offered this year, check class schedule.

RLS 101 Principles of Real Estate I/License Preparation

3 cr. hrs. 3 periods (3 lec.)

Principles of real estate and the associated rules and regulations. Includes real estate profession and ethics, property characteristics, listing agreements, ownership of real property, legal descriptions, property development, property insurance, property valuation and the appraisal process, contracts and contract law, financing, real estate math, acquisition and transfer of title, and licensing.

Corequisite(s)

Information: The Arizona Department of Real Estate accepts this course as satisfying 45 hours of the required 90 hours of pre-licensing educational requirements for salesperson. RLS 101 and 102 together constitute RLS 105.

Offered: Fall, Spring.

RLS 102 Principles of Real Estate II/ License Preparation

3 cr. hrs. 3 periods (3 lec.)

Continuation of RLS 101. Includes continuation of contracts, principles of agency, estates in real property, government restrictions on property, liens, easements, and other encumbrances, property management, activities of Arizona licensees, escrow and settlement procedures, real estate math, Arizona Residential Landlord and Tenant Act, and Arizona real estate law.

Recommendation: It is highly recommended to take RLS 101 before enrolling in this course.

Information: The Arizona Department of Real Estate accepts this course as satisfying 45 hours of the required 90 hours of pre-licensing educational requirements for salespersons. RLS 101 and 102 together constitute RLS 105.

Offered: Fall, Spring.

RLS 105 Principles of Real Estate/License Preparation

6 cr. hrs. 6 periods (6 lec.)

Principles of real estate and the associated rules and regulations. Includes real estate profession and ethics, property characteristics, listing agreements, ownership of real property, legal descriptions, property development, property insurance, property valuation and the appraisal process, contracts and contract law, financing, real estate math, acquisition and transfer of title, licensing, continuation of contracts, principles of agency, estates in real property, government restrictions on property, liens, easements, and other encumbrances, property management, activities of Arizona licensees, escrow and settlement procedures, Arizona Residential Landlord and Tenant Act, and Arizona real estate law.

Information: RLS 101 and 102 together constitute RLS 105. The Arizona Department of Real Estate accepts this course as satisfying the required 90 hours of pre-licensing educational requirements for salespersons.

Offered: Summer.

RLS 106 Contract Writing

1 cr. hrs. 1 periods (1 lec.)

Overview of recent developments in the real estate profession. Includes contract writing, computing, and ethical practices.

Information: This course is intended for people interested in the real estate field and is designed to meet the six hours of contract writing required by the Arizona Department of Real Estate for new salespersons.

Offered: Fall, Spring.

RLS 155 Real Estate License Exam Review

1 cr. hrs. 1 periods (1 lec.)

Review of the State of Arizona Real Estate Department licensing exam material. Includes real estate profession and ethics, property characteristics, ownership of property, legal descriptions, contracts and contract law, estates in real property and transfer of title, property development, property insurance, appraisal, financing, real estate math, agency, government and real estate, water law, liens, easements, and encumbrances, property management, escrow and settlement, Arizona Residential Landlord and Tenant Act, licensing, and Arizona real estate law.

Prerequisite(s): RLS 101 and 102, or 105.

Information: In order to enroll in this course, students must have complete the prerequisites and received a prelicensure education certificate to prepare for the state exam for real estate sales licensing.

Offered: Fall, Summer.

RLS 202 Real Estate Appraisals

3 cr. hrs. 3 periods (3 lec.)

Basic principles and practical application of real estate appraisals. Includes real property, markets, fee simple and partial interests, data, neighborhoods and districts, building, highest and best use, cost approach, sales comparison approach, income capitalization approach, and appraisal report.

Offered: May not be offered this year, check class schedule.

RLS 205 Real Estate Finance

3 cr. hrs. 3 periods (3 lec.)

Overview of real estate finance from the viewpoint of the home mortgage loan officer. Includes factors affecting the mortgage market, sources of mortgage funds and lending criteria, secondary mortgage market, Federal Housing Administration, Veterans Administration, other government programs, types of mortgages available, legal instruments and procedures, mathematical calculations, loan processing and closing, default and disclosure, other financing, real estate taxation, and careers in real estate finance.

Offered: Spring.

RLS 252 Advanced Appraisal Techniques

3 cr. hrs. 3 periods (3 lec.)

Analysis of data on income-producing properties. Includes rationale for income capitalization approach, income expectancy, relationship of income and value, analysis of market evidence, direct and yield capitalization, mathematics of finance, mortgage and equity contributions, mortgage-equity capitalization, discounted cash flow analysis, and critique of the internal rate of return.

Information: RLS 202 or consent of instructor is required before enrolling.

Offered: May not be offered this year, check class schedule.

RLS 296 Real Estate Investing Tools

3 cr. hrs. 3 periods (3 lec.)

Overview of real estate investing from the viewpoint of a small Arizona investor. Includes real estate features and vocabulary, long term wealth and cash flow, types of real estate, real estate mechanics, tools for finding great deals, and goal planning and modeling.

Recommendation: Basic proficiency in using the Internet and Excel.

Offered: May not be offered this year, check class schedule.

Religion

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

REL 119 Judaism, Christianity, and Islam

3 cr. hrs. 3 periods (3 lec.)

Introduction to the three major western religions. Includes nature of religious belief, development of Judaism, teaching of Judaism, festivals and rituals of Judaism, development of Christianity, teaching of Christianity, Christian festivals and rituals, development of Islam, teachings of Islam, Islamic festivals and rituals, and common heritage, emphasis, and variations of Judaism, Christianity, and Islam.

Offered: Fall, Spring.

REL 130 Asian Religions

3 cr. hrs. 3 periods (3 lec.)

Religions of India and the Far East. Includes Hinduism, Buddhism, and East Asian religions.

Offered: Fall, Spring, Summer.

REL 140 Philosophy of Religion

3 cr. hrs. 3 periods (3 lec.)

Introduction to Western philosophical methods as applied to religion. Includes philosophical method, nature and meaning of religion and God, classical arguments, faith and reason, theodicy, mysticism, and the impact of religion on ethics, psychology, and law.

Information: This is not a world religions class. Same as PHI 140.

Offered: Fall, Spring, Summer.

REL 200 Religion in Popular Culture

3 cr. hrs. 3 periods (3 lec.)

Exploration of the relationship between religion and contemporary society. Includes representation of religion in popular culture, function of religion as popular culture, and conflicts between religion and popular culture. Also includes a focus on popular media (movies, television, music, news, advertising, and recreation).

Offered: Fall, Spring, Summer.

REL 220 Old Testament

3 cr. hrs. 3 periods (3 lec.)

Major books of the Old Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.

Offered: Fall, Spring.

REL 221 New Testament

3 cr. hrs. 3 periods (3 lec.)

Major books of the New Testament. Includes literary forms, historical context, moral implications of the literature, and religious significance.

Offered: Fall, Spring.

REL 233 Early Christianity

3 cr. hrs. 3 periods (3 lec.)

History and selected writings of the first three hundred years of Christianity. Includes the world of early Christianity, writings of major Church Fathers, early Christian literature, and Christianity in the early Fourth Century.

Offered: May not be offered this year, check class schedule.

REL 234 Islam

3 cr. hrs. 3 periods (3 lec.)

History and literature of Islam. Includes basic themes of the Qur'an, life of the Prophet Mohammed, basic tenets and practices of Islam, origin and development of Sufism, and historical and political development of Islam from Muhammad to the present.

Offered: Fall, Spring, Summer.

REL 250 Religion and Culture in the Southwest

3 cr. hrs. 3 periods (3 lec.)

Introduction to the relationship and various forms of religion and culture in the Southwest. Includes native traditions, European influences, Southwestern Catholicism, other religious influences in the Southwestern United States, and contemporary religious traditions in the Southwest.

Offered: May not be offered this year, check class schedule.

REL 273 Judaism

3 cr. hrs. 3 periods (3 lec.)

Introduction to the Jewish religion. Includes the central themes of Judaism, Days of Awe, Shabbat, Pesach, Shavuot, Lots, Hanukkah, cycle of Jewish life, and rituals, myths, and communities.

Offered: May not be offered this year, check class schedule.

REL 275 Native American Worldviews

3 cr. hrs. 3 periods (3 lec.)

Native American religions surveying concepts of reality, morality, ethics, and the environment. Includes concept of worldview, traditional Native American religious systems, Native American religions in a changing world, and future of Native American religious thought.

Offered: May not be offered this year, check class schedule.

Offered: Fall.

MLA 101 Foundation of the Air Force II

2 cr. hrs. 2 periods (2 lec.)

First Year General Military Concepts Survey of the doctrine, mission, and organization of the United States Air Force (USAF); U.S. strategic offensive and defensive forces; United States (U.S.), general purpose and aerospace support forces.

Information: United States Air Force Reserve Officers Training Corps (AFROTC) Cadets must attend a Leadership Lab. Course offered in cooperation with the University of Arizona.

Offered: Spring.

MLA 200 Airpower History I

2 cr. hrs. 2 periods (2 lec.)

Second Year General Military Concepts Survey of the development of aviation from the advent of the air age to the present, with emphasis on military aviation and its relationship with political and economic aspects of historical world situations.

Information: United States Air Force Reserve Officer Training Corps (AFROTC) Cadets must attend a Leadership lab. Course offered in cooperation with the University of Arizona.

Offered: Fall.

MLA 201 Airpower History II

2 cr. hrs. 2 periods (2 lec.)

Second Year General Military Course Survey of the development of aviation from the advent of the air age to the present, with emphasis on military aviation and its relationship with political and economic aspects of historical world situations.

Information: United States Air Force Officers Training Corps (AFROTC) Cadets must attend a Leadership Lab. Course offered in cooperation with the University of Arizona.

Offered: Spring.

Reserve Officers Training Corps — ROTC – Army

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MLS 100 Introduction to Military Skills I

3 cr. hrs. 3 periods (3 lec.)

Organization of the Army. Principles and techniques of applied leadership, customs, traditions and military courtesy; basic marksmanship; first aid; land navigation; small-unit tactics; desert survival; and self-defense.

Information: Field trip to Ft. Huachuca, Az. Course offered in cooperation with the University of Arizona.

Offered: May not be offered this year, check class schedule.

MLS 101 Introduction to Military Skills II

3 cr. hrs. 3 periods (3 lec.)

Organization of the Army; principles and techniques of applied leadership; customs, traditions and military courtesy; basic marksmanship; first aid; land navigation; small-unit tactics; desert survival; and self defense.

Information: Required field trip to Ft. Huachuca.

Offered: May not be offered this year, check class schedule.

MLS 200 Army Leadership Dynamics I

3 cr. hrs. 3 periods (3 lec.)

Development of leadership training for the individual in small unit levels, introduction into military tactical planning skills, practical experiences in writing and briefing military operation orders and land navigation.

Information: Required field trip to Ft. Huachuca, Arizona.

Offered: May not be offered this year, check class schedule.

MLS 201 Army Leadership Dynamics II

3 cr. hrs. 3 periods (3 lec.)

Development of leadership training for the individual in small unit levels. Introduction into military tactical planning skills, practical experiences in writing and briefing military operation orders and land navigation.

Information: Required field trip to Ft. Huachuca, AZ.

Offered: May not be offered this year, check class schedule.

MLS 296 Independent Study in Military Science

3 cr. hrs. 3 periods (2 lec., 1 lab)

Advanced level study in leadership, values and ethics, personal development, officership, tactics and techniques, and effective writing. Includes topics that contribute to the development of professional and proficient cadets and officers.

Recommendation: See an instructor before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Reserve Officers Training Corps — ROTC – Air Force

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

MLA 100 Foundations of Air Force I

2 cr. hrs. 2 periods (2 lec.)

First Year General Military Course (GMC). Survey of the doctrine, mission, and organization of the United States Air Force (USAF); strategic offensive and defensive forces; United States (U.S.) general purpose and aerospace support forces.

Information: United States Air Force Officers Training Corps (AFROTC) Cadets must attend a Leadership Lab. Course offered in cooperation with the University of Arizona.

Reserve Officers Training Corps — ROTC – Navy

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

NSP 100 Naval Laboratory I

1 cr. hrs. 2 periods (2 lab)

Various topics such as drill and ceremonies, physical fitness, cruise preparation, sail training, safety awareness, personal finances, and applied exercises in naval ship systems, navigation, naval operations, naval administration, and military justice.

Information: Acceptance into the Navy ROTC program at the University of Arizona is required before enrolling in this course.

Offered: Fall, Spring.

NSP 101 Introduction to Naval Science

3 cr. hrs. 3 periods (3 lec.)

Introduction to naval profession and to concepts of seapower, with emphasis on mission, organization, and warfare components of the Navy and Marine Corps, Naval courtesy and customs, military justice, shipboard damage control and safety.

Information: Course offered in cooperation with the University of Arizona.

Offered: Fall.

NSP 102 Naval Ship Systems I

3 cr. hrs. 3 periods (3 lec.)

Ship characteristics and types including ship design, hydrodynamic forces, stability compartmentation, propulsion, electrical and auxiliary systems, interior communications, ship control and damage control; basic concepts of the theory and design of steam, gas turbine, nuclear propulsion.

Information: Course offered in cooperation with the University of Arizona.

Offered: May not be offered this year, check class schedule.

NSP 103 Naval Laboratory I (Marine Option)

2 cr. hrs. 3 periods (1 lec., 2 lab)

Overview of drill and physical readiness requirements for Marines. Includes topics, such as drill and ceremonies, physical fitness, Officer Candidate School (OCS) preparation, Land Navigation training, safety awareness, general military subjects, and applied field exercises in Marine Corps small unit tactics.

Information: Acceptance into the Navy ROTC program (Marine Option) at the University of Arizona is required before enrolling in this course or permission of instructor. May be taken 11 times for a maximum of 22 credits.

Offered: Spring.

NSP 200 Naval Laboratory II

2 cr. hrs. 3 periods (1 lec., 2 lab)

Various topics such as drill and ceremonies, physical fitness, cruise preparation, sail training, safety awareness, personal finances, and applied exercises in naval ship system, navigation, naval operations, naval administration, and military justice.

Information: Offered in cooperation with the University of Arizona.

Offered: May not be offered this year, check class schedule.

NSP 201 Naval Ship Systems II: Weapons

3 cr. hrs. 3 periods (3 lec.)

Theory and employment of weapons systems, the processes of detection, evaluation, threat analysis, selection, delivery and guidance. Physical aspects of radar and underwater sound.

Information: Course offered in cooperation with the University of Arizona.

Offered: May not be offered this year, check class schedule.

NSP 202 Sea Power and Maritime Affairs

3 cr. hrs. 3 periods (3 lec.)

United States Naval history from the American Revolution to the present. Discussion of the theories of Mahan, political issues of merchant marine commerce, and a comparison of U.S. and Soviet naval strategies; terrorist aggressor force.

Information: Course offered in cooperation with the University of Arizona.

Offered: Spring.

NSP 205 Leadership and Management

3 cr. hrs. 3 periods (3 lec.)

Organizational behavior and management in the context of the naval organization. A survey of management functions of planning, organizing, and controlling; and introduction to individual and group behavior in organizations; motivation and leadership.

Information: Course offered in cooperation with the University of Arizona.

Offered: May not be offered this year, check class schedule.

Respiratory Therapy

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

RTH 110 Introduction to Respiratory Care

4 cr. hrs. 4 periods (4 lec.)

Overview of respiratory care. Includes respiratory care and the health care system, computer applications, terms, symbols, and units of measure, patient safety, communication, and record keeping, principles of infection control, ethical and legal implications of practice, and basic life support.

Corequisite(s): RTH 112, RTH 121, RTH 121LB, RTH 246

Information: See a faculty advisor prior to enrollment. This course is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 112 Respiratory Physiology

4 cr. hrs. 4 periods (4 lec.)

Study of the cardiopulmonary system and associated structures. Includes the anatomy of the respiratory system, ventilation and diffusion of pulmonary gases, the circulatory system, oxygen and carbon dioxide transport, control of ventilation, and renal failure and its effects on the cardiopulmonary system.

Prerequisite(s): BIO 160.

Corequisite(s): RTH 110, RTH 121, RTH 121LB, RTH 246

Information: This class is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 121 Basic Therapeutics

4 cr. hrs. 4 periods (4 lec.)

Basic respiratory care therapeutics, equipment function, clinical indications and contraindications. Includes medical gas therapy, oxygen delivery devices, humidity and aerosol therapy, hyperinflation therapy, chest physical therapy, and basic airway management.

Corequisite(s): RTH 110, RTH 112, RTH 121LB, RTH 246

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 121LB Basic Therapeutics Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of RTH 121.

Corequisite(s): RTH 110, RTH 112, RTH 121, RTH 246

Offered: Fall.

RTH 123 Basic Assessment and Monitoring

3 cr. hrs. 3 periods (3 lec.)

Study of patient assessment and monitoring of the cardiopulmonary impaired patient. Includes bedside respiratory assessment, clinical laboratory studies assessment, oxygenation and ventilation, pulmonary function measurements, clinical application of chest radiography, and basic interpretation of electrocardiogram tracing.

Prerequisite(s): RTH 110, 112, 121, and 246.

Corequisite(s): RTH 123LB, RTH 124, RTH 125LC, RTH 162

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 123LB Basic Assessment and Monitoring Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of RTH 123.

Corequisite(s): RTH 123, RTH 124, RTH 125LC, RTH 162

Offered: Spring.

RTH 124 Pharmacology for Respiratory Care

3 cr. hrs. 3 periods (3 lec.)

Principles of pharmacology and drug receptor theory as it relates to patients with cardiopulmonary disease. Includes general principles of pharmacology, drug dose calculations, central and peripheral nervous system, bronchodilators, drugs used to control airway mucus and edema, and drugs used in the management of ventilator patients and patients with cardiorespiratory disorders.

Prerequisite(s): RTH 110, 112, 121, and 246.

Corequisite(s): RTH 123, RTH 123LB, RTH 125LC, RTH 162

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 125LC Clinical Procedures I

1 cr. hrs. 4 periods (4 lab)

Clinical application of all prerequisite and concurrent respiratory care course work. Includes hospital/clinical site orientations, review of hospital respiratory

department administration, departmental policies, procedures, reporting system, and medical record data entry, utilization of the medical record to retrieve information, therapist observation, medical gas therapy, and patient assessment and monitoring. Also includes aerosol therapy administration, hyperinflation therapy, evaluation of the effectiveness of therapy, and patient care plans.

Prerequisite(s): RTH 110, 112, 121 and 246.

Corequisite(s): RTH 123, RTH 123LB, RTH 124, RTH 162

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 135LC Clinical Procedures II

4 cr. hrs. 16 periods (16 lab)

Continuation of RTH 125. Includes infection control procedures, medical asepsis, equipment disinfection, and processing, aerosol and humidity therapy, medical gas therapy, IPPB therapy, incentive spirometry, and chest physiotherapy. Also includes airway management and care, basic cardiopulmonary resuscitation, arterial blood gases, and case study presentation.

Prerequisite(s): RTH 123, 124, 125LC and 162.

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Summer.

RTH 162 Principles of Mechanical Ventilation

3 cr. hrs. 3 periods (3 lec.)

Introduction to the concepts of mechanical ventilation for the adult patient. Includes establishing the need for mechanical ventilation, non-invasive versus invasive mechanical ventilation, the physiologic basis of ventilatory support, physical principles of positive pressure ventilation, physical assessment of the critically ill patient, and respiratory monitoring in the intensive care unit.

Prerequisite(s): RTH 110, 112, 121/121LB, 246.

Corequisite(s): RTH 123, RTH 123LB, RTH 124, RTH 125LC

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 241 Critical Care Therapeutics

2 cr. hrs. 2 periods (2 lec.)

Study of critical care principles and procedures in the adult patient. Includes airway management, selected adult mechanical ventilators and troubleshooting, care of the mechanically ventilated patient, and home mechanical ventilation.

Prerequisite(s): RTH 135.

Corequisite(s): RTH 241LB, RTH 243, RTH 243LB, RTH 245LC

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 241LB Critical Care Therapeutics Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of RTH 241.

Corequisite(s): RTH 241, RTH 243, RTH 243LB, RTH 245LC

Offered: Fall.

RTH 243 Advanced Assessment and Monitoring

2 cr. hrs. 2 periods (2 lec.)

Study of the assessment of the critical respiratory patient. Includes cardiac output assessment, invasive hemodynamic monitoring, assessment of sleep-related breathing disorders, nutritional assessment and the respiratory system, advanced cardiac arrhythmia interpretation, and bronchoscopy.

Prerequisite(s): RTH 135, 162.

Corequisite(s): RTH 241, RTH 241LB, RTH 243LB, RTH 245LC

Information: This course is only open to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 243LB Advanced Assessment and Monitoring Lab

1 cr. hrs. 3 periods (3 lab)

This is the lab portion of RTH 243.

Corequisite(s): RTH 241, RTH 241LB, RTH 243, RTH 245LC

Offered: Fall.

RTH 245LC Clinical Procedures III

4 cr. hrs. 16 periods (16 lab)

Continuation of RTH 135. Includes clinical assessment of the critical care patient, advanced airway management, advanced respiratory assessment monitoring, adult mechanical ventilation, care decisions in mechanically ventilated adult patients. Also includes hemodynamic assessment of the critically ill patient, observation in various respiratory care delivery environments, interaction with medical director, and case study presentation.

Prerequisite(s): RTH 135.

Corequisite(s): RTH 241, RTH 241LB, RTH 243, RTH 243LB

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 246 Cardiorespiratory Disorders I

3 cr. hrs. 3 periods (3 lec.)

Study of commonly encountered respiratory disorders in the adult patient. Includes infectious pulmonary diseases, obstructive pulmonary disease, traumatic injuries of the lungs and chest, pulmonary vascular diseases and disorders of the pleura and chest wall, and various important cardiopulmonary topics.

Corequisite(s): RTH 110, RTH 112, RTH 121, RTH 121LB

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Fall.

RTH 251 Specialty Therapeutics

4 cr. hrs. 4 periods (4 lec.)

Study of respiratory therapies used in specialized environments. Includes development and care of the fetus, care of the neonatal and pediatric patient, management of ventilation and oxygenation in the neonatal and pediatric patient, transport, home care, and care of the parents, advanced cardiac life support (ACLS), pulmonary rehabilitation, and advanced cardiorespiratory care therapies.

Prerequisite(s): RTH 241, 243 and 245.

Corequisite(s): RTH 251LB, RTH 255LC, RTH 256, RTH 257LB

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 251LB Specialty Therapeutics Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of RTH 251.

Corequisite(s): RTH 251, RTH 255LC, RTH 256, RTH 257LB

Offered: Spring.

RTH 255LC Clinical Procedures IV

4 cr. hrs. 16 periods (16 lab)

Continuation of RTH 245. Includes clinical assessment, advanced airway management and advanced respiratory assessment monitoring of the neonatal/pediatric patient, mechanical ventilation and care decisions for the adult and neonatal/pediatric patient, observation and participation in various respiratory care delivery environments, and case study presentation preparation.

Prerequisite(s): RTH 241, 243 and 245.

Corequisite(s): RTH 251, RTH 256, RTH 257LB

Offered: Spring.

RTH 256 Cardiorespiratory Disorders II

3 cr. hrs. 3 periods (3 lec.)

Continuation of RTH 246. Includes neuromuscular disorders affecting ventilation, neoplastic diseases of the lung and environmental lung diseases. Also includes assessment of the developing fetus and the neonate, cardiovascular disorders and congenital anomalies of the newborn, cardiopulmonary disorders of the newborn, and pediatric cardiopulmonary disorders.

Prerequisite(s): RTH 241, 243, 245, 246.

Corequisite(s): RTH 251, RTH 251LB, RTH 255LC, RTH 257LB

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

RTH 257LB Clinical Applications and Professional Development

1 cr. hrs. 4 periods (4 lab)

Completion of clinical application projects. Includes preparation of resumes, review for and completion of computerized self-assessment exams for credentialing, and interaction with licensure and national credentialing organizations. Also includes participation in a respiratory related service learning project and professional development through shared reporting.

Prerequisite(s): RTH 241, 243 and 245.

Corequisite(s): RTH 251, RTH 251LB, RTH 255LC, RTH 256

Information: This course is open only to those students who have been admitted to the RTH program.

Offered: Spring.

Restaurant, Culinary and Food Management

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

RCF 115 Meat Cutting for the Food Service Industry

2 cr. hrs. 2 periods (2 lec.)

Butchering of meat for quantity food preparation. Includes history, purchasing guidelines, government regulations, cuts and usage for pork, lamb/veal, and beef.

Offered: May not be offered this year, check class schedule.

Russian

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

RUS 101 Elementary Russian I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the Russian language. Includes Cyrillic alphabet, greetings, gender, readings, communications, and activities.

Offered: Fall.

RUS 102 Elementary Russian II

4 cr. hrs. 4 periods (4 lec.)

Continuation of RUS 101. Includes grammar and vocabulary, housing and furniture, family and professions, shopping, money and measurements, and biographies of people.

Prerequisite(s): RUS 101.

Offered: Spring.

RUS 201 Intermediate Russian I

4 cr. hrs. 4 periods (4 lec.)

Continuation of RUS 102. Includes grammar review, plural case endings, prepositional/accusative cases, weather and climate, and reflexive verbs.

Prerequisite(s): RUS 102.

Information: Prerequisites may be waived with two years of high school Russian.

Offered: Fall.

RUS 202 Intermediate Russian II

4 cr. hrs. 4 periods (4 lec.)

Continuation of RUS 201. Includes grammar review, sports terms, health care terms, postal system, traveling in Russia, and etiquette.

Prerequisite(s): RUS 201.

Offered: Spring.

RUS 205 Popular Russian Authors - 1700's to the Present

3 cr. hrs. 3 periods (3 lec.)

Overview of Russian literature, history, and culture. Includes sentimentalism, romanticism, intermediate period writer, Acemism—the age of the poets, Stalin's purges, and contemporary prose.

Recommendation: Completion of WRT 101 before enrolling in this course.

Information: Course taught in English.

Offered: May not be offered this year, check class schedule.

Safety*

* Not open to the public. See Other Educational Programs chapter for more information.

SAF 103 School Preparedness

1 cr. hrs. 1 periods (1 lec.)

Basic concepts of preparedness using the Metropolitan Emergency Response Systems within the school environment. Includes an overview of terrorism, risk assessment, communications, and preparedness.

Prerequisite(s): Consent of instructor.

Offered: May not be offered this year, check class schedule.

SAF 105 Community Preparedness

.25 cr. hrs. .25 periods (.25 lec.)

Basic concepts of preparedness using the Metropolitan Emergency Response Systems within the community environment. Includes threat assessment, immunization plans, self-treatment, and community organizations.

Prerequisite(s): Consent of instructor.

Offered: May not be offered this year, check class schedule.

SAF 107 Industry Preparedness

1 cr. hrs. 1 periods (1 lec.)

Basic concepts of preparedness using the Metropolitan Emergency Response Systems within the business and industry environment. Includes motivations, risk assessment, threat assessment, unsecured areas, and communications.

Prerequisite(s): Consent of instructor.

Offered: May not be offered this year, check class schedule.

SAF 109 Basic Emergency Response Using a Defibrillator

.25 cr. hrs. .25 periods (.25 lec.)

Principles and techniques of basic emergency cardiac care for community citizens. Includes techniques involved in utilizing an Automated External Defibrillator (AED), as well as airway care and cardiopulmonary resuscitation (CPR).

Information: The course is designed to train laypersons and other interested individuals. Course meets American Heart Association guidelines for Heart-saver AED and CPR certification.

Offered: May not be offered this year, check class schedule.

SAF 200 Safety Supervisor

2 cr. hrs. 2 periods (2 lec.)

Theoretical and practical training in the use of regulatory standards and other safety reference materials needed to comply with Federal, State and City health and safety regulations and policies. Includes an exploration of safety and health hazards in the work environment, conducting work site inspections, researching various health and safety standards, developing a risk management plan. Also includes an overview of a supervisor's legal and ethical responsibilities to the community in regard to safety and health matters.

Information: Consent if agency partner is required prior to registration.

Offered: May not be offered this year, check class schedule.

SAF 202 Emergency Response to Terrorism - Basic Concepts

.5-1 cr. hrs. .5-1 periods (.5-1 lec.)

Overview of the special needs of responders to incidents which may have been caused by terrorist actions. Includes recognizing terrorism, time/distance/shielding concepts, self-protection, scene control, tactics, and an overview of incident command.

Offered: May not be offered this year, check class schedule.

SAF 230 Mass Decontamination

.5 cr. hrs. .5 periods (.5 lec.)

Introduction to the forms of decontamination (DECON). Includes types of decontaminates, contamination avoidance, control zones, and detection devices.

Prerequisite(s): Consent of instructor. Offered May not be offered this year, check class schedule.

SAF 240 Explosive Devices

.5 cr. hrs. .5 periods (.5 lec.)

Overview of explosives and incendiary weapons during a terrorist incident. Includes detection, injuries, triage, incendiary devices, and chemical agents.

Prerequisite(s): Consent of instructor.

Offered: May not be offered this year, check class schedule.

SAF 250 Medical Response to Weapons of Mass Destruction

.25 cr. hrs. .25 periods (.25 lec.)

Advanced information on the medical response to a Weapons of Mass Destruction (WMD) event. Includes basic concepts of emergency response to terrorism, an overview of Metropolitan Emergency Response System (MERS), Mass Decontamination, and START Triage (Simple Triage and Rapid Treatment).

Prerequisite(s): Consent of instructor. Offered May not be offered this year, check class schedule.

SAF 251 Infection Control

.25 cr. hrs. .25 periods (.25 lec.)

Introduction to the skills necessary to the practice of infection control after a natural disaster of Weapons of Mass Destruction incident. Includes basic microbiology, immunology, immunization, treatment, and investigation.

Prerequisite(s): Consent of instructor.

Offered: May not be offered this year, check class schedule.

Safety Education for Lift Truck

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SED 110 Sit-Down Lift Truck Operations

2.5 cr. hrs. 5 periods (1 lec., 4 lab)

Principles and procedures for sit-down lift truck operations. Includes pre-operational safety check, starting, driving, and safety techniques.

Information: A current Arizona driver license is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Science for Teachers

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SCT 280 Process of Science for Elementary Educators I

3 cr. hrs. 3 periods (3 lec.)

Interdisciplinary, hands-on, inquiry-based science for elementary educators. Includes the nature of science, integrating science in the elementary school classroom, technology and society, matter and energy, the universe, structure of life and organism in their environment.

Prerequisite(s): BIO 105, MAT 142, and one of the following- AST 101/101LB or 101IN, 102/102LB or 102IN, GLG 102IN, CHM 121/121LB or 121IN, 130/130LB or 130IN, 151/151LB or 151IN, GEO 101, 102, PHY 115/115LB, 121/121LB, or 121IN.

Information: Designed for elementary education majors. Does not meet the AGEC requirements for science.

Offered: Fall.

SCT 281 Process of Science for Elementary Educators II

3 cr. hrs. 3 periods (3 lec.)

Continuation of SCT 280. Includes integrating additional science in the elementary school classroom, human health, human society, applying science and technology, patterns and relationships, historical perspectives, and critical thinking processes.

Prerequisite(s): SCT 280.

Information: Designed for elementary education majors. Does not meet AGEC requirements for science.

Offered: Spring.

Sign Language

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SLG 050 Conversational Sign Language I

3 cr. hrs. 3 periods (3 lec.)

Introduction to conversational sign language skills. Includes basic sign vocabulary, d/Deaf culture, and an overview of communications systems.

Offered: Fall, Spring.

SLG 055 Conversational Sign Language II

3 cr. hrs. 3 periods (3 lec.)

Continuation of SLG 050. Includes intermediate sign vocabulary, d/Deaf culture, and a focus on developing intermediate skills in sign language.

Information: Completion of SLG 050 or consent of instructor is required before enrolling in this course.

Offered: Fall, Spring.

SLG 101 American Sign Language I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to American Sign Language (ASL). Includes parameters, syntax, sentence types, facial expression and body language, pronominalization, nouns and verbs, modals, sign space, time line and time modulations, classifiers/SASSes, pluralizations, and deaf culture. Also includes how people hear, fingerspelling numbers, lexicalized fingerspelling, conceptual accuracy, sign modulation, conversational regulators, basic compounds and contractions, and existence of regional dialects/signs and language variations.

Information: Students will be required to perform an additional 10 lab hours outside of the regular classroom schedule. This lab experience is designed to 1) provide a "signing only" environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; and 3) provide students with real life exposure to the Deaf community. This class is conducted primarily without voice.

Offered: Fall, Spring, Summer.

SLG 102 American Sign Language II

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of SLG 101. Includes parameters, syntax, sentence types, facial expression and body language, sign space, pronominalization, nouns/verbs, time line, classifiers/SASSes, pluralizations, deaf culture, and fingerspelling numbers. Also includes conceptual accuracy, modulations, sight line, lexicalized fingerspelling, contractions, direct address, conjunctions, model stories, history of sign, language variations, sign continuum, and how people hear.

Prerequisite(s): SLG 101 with a grade of C or better.

Information: Students will be required to perform ten additional lab hours outside of regular classroom schedule. The lab experience is designed to 1) provide a "signing only" environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. This class is conducted primarily without voice.

Offered: Fall, Spring, Summer.

SLG 201 American Sign Language III

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of SLG 102. Includes sentence order, modulation, sign space usage, conceptual accuracy, sign vocabulary, and deaf culture and history.

Prerequisite(s): SLG 102 with a grade of C or better.

Information: Students will be required to perform an additional ten lab hours outside of regular classroom schedule. The lab experience is designed to 1) provide a "signing only" environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. This class is conducted primarily without voice.

Offered: Fall, Spring, Summer.

SLG 202 American Sign Language IV

4 cr. hrs. 6 periods (3 lec., 3 lab)

Continuation of SLG 201. Includes use of sign space, conceptual accuracy, directionality, mimetic description, dialects, number series, American Sign Language (ASL) expansions, English words with no direct ASL translation, English passive voice to ASL active voice, and the field of interpreting.

Prerequisite(s): SLG 201 with a grade of C or better.

Information: Students will be required to perform an additional ten lab hours outside of regular classroom schedule. The lab experience is designed to 1) provide a "signing only" environment for students to practice classroom skills with Deaf tutors; 2) expose students to communication in a Deaf environment; 3) provide students with real life exposure to the Deaf community. This class is taught primarily without voice.

Offered: Fall, Spring.

Social Services

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SSE 101 Paraprofessional Counseling

2 cr. hrs. 2 periods (2 lec.)

Introduction to the role of a paraprofessional on a counseling team. Includes paraprofessional role expectations and limitations. Also includes modes of work available to the paraprofessional, ethical obligation, and responsibilities in working with clients under professional supervision.

Offered: May not be offered this year, check class schedule.

SSE 105 Introduction to Human Relations

2 cr. hrs. 2 periods (2 lec.)

Introduction to the field of paraprofessional counseling including exposure to basic counseling skills. Includes paraprofessional role, impact of personal values, legal and ethical issues, and group processes.

Offered: May not be offered this year, check class schedule.

SSE 106 Communication Skills in Counseling I

3 cr. hrs. 3 periods (3 lec.)

Concepts and foundation communication skills important in developing, establishing, and maintaining effective helping relationships. Emphasis on rapport building, effective listening skills, appropriate feedback and the helping process.

Recommendation: Completion of SSE 105 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

SSE 110 Introduction to Social Welfare

3 cr. hrs. 3 periods (3 lec.)

Introduction to the social welfare system. Includes approaches to service delivery, community resources, bureaucratic structures, welfare myths and realities, special populations, and cultural awareness. Also includes local community agencies and resources, welfare policies and case histories.

Offered: Fall, Spring Summer.

SSE 111 Group Work

3 cr. hrs. 3 periods (3 lec.)

Examination of group dynamics. Includes communication patterns, leadership, decision-making, conflict resolution, problem solving, and personal growth within groups. Also includes application of concepts through observation, group exercise, and case studies.

Offered: Fall, Spring.

SSE 121 Study of Substance Abuse

3 cr. hrs. 3 periods (3 lec.)

Introduction to the history of drug abuse, including alcohol, in the United States. Includes classification of drugs, historical review of drug laws, prohibition, theories of addiction, treatment, strategies, cultural perspectives and treatment interventions. Also includes special populations, education, and available resources to addicts, alcoholics and their families.

Offered: Fall.

SSE 123 Substance Abuse Prevention

3 cr. hrs. 3 periods (3 lec.)

Comprehensive review of approaches to substance abuse prevention. Includes principles, systems-oriented and client-oriented prevention strategies, programs, and funding, controversial prevention issues, special populations, research, and program evaluation.

Offered: Spring.

SSE 140 Domestic Violence: Causes and Cures

3 cr. hrs. 3 periods (3 lec.)

Overview of historical and contemporary causes of domestic violence. Includes laws and law enforcement, society, populations victimized, and diagnosis and treatment techniques. Also includes community resources, treatment centers, and support groups, cultural awareness, special populations at risk, and theories explaining the prevalence of domestic violence.

Offered: Summer.

SSE 146 Child Abuse Intervention and Protection

3 cr. hrs. 3 periods (3 lec.)

Overview of the scope and nature of child abuse and neglect. Includes the definitions, dynamics, symptoms, risks, and effects of the various forms of child maltreatment and emphasizes prevention and utilization of community resources. Also includes the process of intervention by society, the roles of various professionals in the investigation, adjudication, treatment, and case management of child abuse cases.

Offered: Fall, Spring.

SSE 154 Nutrition

3 cr. hrs. 3 periods (3 lec.)

Examination of nutrients and their use by the body for growth and development. Includes maintenance of health through proper diet.

Information: Same as FSN 154.

Offered: Fall, Spring, Summer.

SSE 160 Introduction to Youth Services

3 cr. hrs. 3 periods (3 lec.)

Introduction to the field of youth services as offered through youth voluntary organizations, social service and child welfare agencies, juvenile detention and correctional agencies and community health care agencies. Includes the normal development needs of children and adolescents, the special needs of dependent, delinquent, challenged and special needs youth, roles of youth workers, and the need to focus on prevention through strengthening families and communities. Also includes a survey of local youth serving agencies.

Information: Same as AJS 160.

Offered: Fall.

SSE 170 Community Health Advisor

3 cr. hrs. 3 periods (3 lec.)

Preparation of Community Health Advisors for outreach health prevention, advocacy, education, and referral services within prescribed neighborhoods. Includes national and local history of community health work programs, overview of the health services system, communication and relationship building skills, coping with stress, personal health, building self esteem, and dealing with feelings, presentation skills, and using support materials. Also includes interacting with other agencies within the community, managing home visits, dealing with challenging situations, professional issues, and empowering and mobilizing for action.

Offered: Fall.

SSE 202 Casework Methods I

3 cr. hrs. 3 periods (3 lec.)

Theory and practice of casework within the context of the Southwest. Includes case management, interviewing, case history and review, treatment planning, and development of helping relationships. Also includes major helping theories and strategies and case samples from varied settings, and provides a theoretical foundation and skills base for social work interventions with individuals, small groups and larger systems.

Offered: Fall.

SSE 204 Counseling in a Multicultural Setting

3 cr. hrs. 3 periods (3 lec.)

Concepts, techniques and skills in values, perceptions, attitudes, and behaviors emphasizing intercultural communication patterns. Includes techniques for establishing rapport and interaction methodologies in a multicultural context. Also includes competencies, strategies, and treatment modalities necessary for the paraprofessional working successfully with multicultural clients.

Recommendation: Completion of SSE 106 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

SSE 205 Case Report Writing

1 cr. hrs. 1 periods (1 lec.)

Concepts, techniques, and skills necessary to create and maintain case report records. Includes terminology, technical forms, and observation techniques.

Recommendation: Completion of SSE 106 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

SSE 206 Child and Family Advocacy

3 cr. hrs. 3 periods (3 lec.)

Overview and advocacy concepts in relation to multiple systems affecting children and their families. Includes identification of appropriate systems, community resources, wrap around theory and navigation skills in a variety of children's systems to facilitate family support and needs.

Recommendation: Completion of SSE 205 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

SSE 210 Community Organization and Development

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of organizing to effect change. Includes role of the professional organizer, nature of institutions, causes of change or failure to change, and strategies for effective change.

Prerequisite(s): SSE 110.

Offered: Fall.

SSE 211 Group Technique Applications

3 cr. hrs. 3 periods (3 lec.)

Application of advanced concepts in group dynamics. Includes skill development through in-class experiential learning and group facilitation. Also includes community-group case studies, ethical standards, and multicultural issues.

Prerequisite(s): SSE 111.

Offered: Fall, Spring.

SSE 212 Casework Methods II

3 cr. hrs. 3 periods (3 lec.)

Advanced techniques in interviewing, recording, client evaluation, strategies for intervention, and focus on diverse and special populations. Includes the human service agency, social work practice, case management in human services, and linking clients with community resources.

Prerequisite(s): SSE 202.

Offered: Fall, Spring.

SSE 220 Treatment of the Substance Abuser

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of treating the substance abuser. Includes treatment modalities, helping, treatment plans, case studies, withdrawal, and value clarification. Also includes role playing in treatment situations, causes of substance abuse, and integration of substance abuse treatment and case management skills.

*Prerequisite(s): SSE 121.**Recommendation: Completion of SSE 123 before enrolling in this course.*

Offered: Spring.

SSE 222 Political and Legal Aspects of Drug Use

3 cr. hrs. 3 periods (3 lec.)

Overview of drug abuse and the law. Includes historical and legal overview, major drug legislation and court decisions, attitudes toward drug use and the connection between drugs, crime and gangs, implications of decriminalization or legalization of illicit drugs, and narcotics. Also includes nature, uses, legal status, social and economic aspects of the major psychoactive drugs, international drug trafficking and its affect on U.S. policy and programs, law enforcement, and case studies.

*Prerequisite(s): SSE 121.**Recommendation: Completion of SSE 123 before enrolling in this course.*

Offered: Fall.

SSE 242 Crisis Intervention, Theory and Techniques

3 cr. hrs. 3 periods (3 lec.)

Principles and practice of crisis intervention. Includes theories of crisis intervention and prevention, dynamics of a crisis situation, families and individuals in crisis, self-awareness, communication, and relationship building, and responding to anxiety-provoking situations. Also includes techniques of crisis intervention, role playing in various crisis situations, grief and grief resolution techniques, and community resources and referral methods.

Prerequisite(s): SSE 202.*Information: Prerequisite maybe waived with consent of instructor.*

Offered: Summer.

SSE 260 Youth Services: Policy, Practice and Prevention

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques of working with youth. Includes an examination of national, state and local policies which impact youth services, effective prevention strategies and how to implement them within the community, and practice skills necessary for working in a variety of youth service settings.

Prerequisite(s): SSE 160.

Offered: Spring.

SSE 261 Introduction to Rehabilitation Services

3 cr. hrs. 3 periods (3 lec.)

Introduction to disability and rehabilitation services. Includes issues faced by persons experiencing disability, the rehabilitation delivery system, vocational rehabilitation outcomes, interpersonal communication skills, consumer involvement and self management, and ethics and professionalism. Also includes issues on environmental barriers and solutions.

Information: Same as EDU 261.

Offered: May not be offered this year, check class schedule.

SSE 262 Assistive Technology for Individuals with Disabilities

3 cr. hrs. 3 periods (3 lec.)

Study of assistive technology devices, products, and applications techniques. Includes assistive technology to assist individuals with disabilities, special adaptive needs, basic computer skills related to assistive technology, assessment practices and ethical considerations, assistive equipment, positioning and seating technology, programming processor controlled augmentative communication devices, improving accessibility of environment computer software applications, adapting activities to available equipment and supplies, adapting assistive and alternative keyboards to specific needs, programming scanning keyboards and single switch control of the computer, using the internet, using voice recognition software, evaluating equipment, and developing/adapting low-and mid-tech devices to meet specific needs.

Information: Same as EDU 262.

Offered: May not be offered this year, check class schedule.

SSE 289 Topics in Community Involvement

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Direct, constructive student involvement in community problems. Includes social change and community service, action planning, change strategies, mobilizing personal power, team membership, causes of community problems, evaluation procedures, formal and informal community resources, geographic and functional communities, and roles of change agents and community service agents.

Information: Students employed or working as volunteers with agencies or groups may get credit for those activities under this course. Same as SSE 289. May be taken two times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

SSE 290 Field Experience Youth Services

4 cr. hrs. 16 periods (1 lec., 15 lab)

Supervised placement in community youth serving agencies. Includes classroom seminars which discuss pertinent theory and issues raised through the field experience.

Prerequisite(s): SSE 160, 202. *Recommended: Consult instructor for alternative prerequisites.*

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring.

SSE 292 Social Services Field Experience

4 cr. hrs. 16 periods (1 lec., 15 lab)

Supervised placement in community social services agencies. Includes classroom seminars which discuss pertinent theory and issues raised through the field experience.

Prerequisite(s): SSE 202.*Recommendation: Consult instructor for alternative prerequisites.*

Information: May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring.

SSE 293 Community Health and Development Field Experience

4-6 cr. hrs. 16-26 periods (1 lec., 15-25 lab)

Community health and development skills practiced and evaluated in community-based health, human service, education and community agencies and settings. Includes supervised placement in an appropriate social service agency or organization, supervisory services and site visits, orientation to community agencies and organizations, field experience evaluation, and classroom seminars.

Prerequisite(s): SSE 170.

Information: Students complete 240-400 clock hours of direct service at a community health and development organization during the semester.

Offered: Spring.

SSE 294 Disability Rehabilitation Services Field Experience

3 cr. hrs. 15 periods (15 lab)

Skills practice in working with persons with disabilities in a supervised setting. Includes direct services to people with disabilities, identifying personal job-related interests, different job roles, conferences with consumer, family, and agencies, communication and problem-solving skills, group processes, applying theories to rehabilitation/disability settings, and developing job skills.

Prerequisite(s): EDU 270.

Offered: May not be offered this year, check class schedule.

SSE 296 Independent Study in Social Services

1-3 cr. hrs. 3-9 periods (3-9 lab)

Advanced projects, research and learning in the social services. Content to be determined by conference between student and instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken three times for a maximum of nine credit hours.

Offered: May not be offered this year, check class schedule.

Sociology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SOC 101 Introduction to Sociology

3 cr. hrs. 3 periods (3 lec.)

Introduction to the basic concepts of sociology and sociological analysis. Includes identity, folkways, norms, mores, groups, status, role, gender, socialization, social structure, culture and ethnicity. Also includes deviance, social control, bureaucracy, social change, social class, collective behavior, social movements, social stratification, inequality, institutions, social organization, and globalization within and across contemporary societies and cultures.

Offered: Fall, Spring, Summer.

SOC 110 Introduction to Cities and Global Society

3 cr. hrs. 3 periods (3 lec.)

Introduction to the study of the urban environment. Includes exploring the city, city form and city culture, urban diversity, and the urban dilemma and possible solutions. Also includes a special emphasis on understanding cities on the global as well as community level.

Offered: Fall.

SOC 120 Current Social Problems

3 cr. hrs. 3 periods (3 lec.)

Analysis of the causes, effects, and solutions to current social problems. Includes the causes, effects, and the complexity of solutions to current social problems in behavioral variance, inequality, social institutions, and global issues.

Recommendation: Completion of SOC 101 before enrolling in this course.

Offered: Fall, Spring.

SOC 127 Marriage and the Family

3 cr. hrs. 3 periods (3 lec.)

Introduction to the social functions of marriage and the family. Includes structures of marriages and families, relationships, marriage, and transformation of marriage.

Offered: Fall, Spring, Summer.

SOC 130 Social World of Drugs

3 cr. hrs. 3 periods (3 lec.)

Introduction to the social use and abuse of drugs in the United States. Includes evolution of drug use, pharmacology, social and medical aspects of drugs, the business of drugs, sociological explanations of drug use and abuse, and social issues, policy, and politics.

Recommendation: Completion of SOC 101 before enrolling in this course.

Offered: May not be offered this year, check class schedule.

SOC 166 Social Gerontology

3 cr. hrs. 3 periods (3 lec.)

Introduction to the bio-cultural and holistic study of aging, dying, and death. Includes the bio-social process of aging, factors in longevity and the social meaning of death.

Offered: May not be offered this year, check class schedule.

SOC 201 Race, Ethnicity, Minority Groups and Social Justice

3 cr. hrs. 3 periods (3 lec.)

Social processes involved in the construction of difference: race, ethnicity, minority groups, nationality, and social justice. Includes social construction of difference, social justice and democracy, whiteness as an ideology of power: ethnic and minority group relations in the United States, techniques of dominance, exploitation, and ethnic and minority relations, ethnic, national, gender, and sexual relations in comparative perspective, and social justice and the future of inequality systems.

Offered: Fall, Spring, Summer.

SOC 203 Sociology of Utopia

3 cr. hrs. 3 periods (3 lec.)

Exploration of the idea of utopia and its influence on human societies throughout global history. Includes utopia and social structure, utopias before Christianity, Christian and humanist utopianism, utopian revivals and dystopias, and utopian thinking and social institutions.

Offered: Spring.

SOC 204 Gender Identities, Interactions and Relations

3 cr. hrs. 3 periods (3 lec.)

Examination of the social structures and processes related to gender in society. Includes sex versus gender, theoretical perspectives, politics past and present, gender and the family, love and marriage, and masculinity. Also includes gender in the workplace, in the media, religion, and medicine, and global perspectives.

Offered: Fall, Spring, Summer.

SOC 215 Human Sexuality

3 cr. hrs. 3 periods (3 lec.)

Examination of human sexual experience throughout the life cycle, viewed from sociological and psychological perspectives. Includes psychological, sociological, and cultural legacy of sexuality, biological foundations of sexuality, varieties of sexual behaviors, sexuality and the life cycle, sexual problems, and social issues.

Recommendation: Completion of PSY 100A or 100B or PSY 101 or SOC 101 before enrolling in this class.

Information: Same as PSY 215.

Offered: Fall, Spring, Summer.

SOC 273 Sociology of Sport

3 cr. hrs. 3 periods (3 lec.)

Analysis of the impact of sport on society. Includes the relationship of sport to societal institutions: the economy, politics, education, family, religion, and the interrelationships between sport and the concepts of race, gender, and stratification. Also includes the examination of contemporary issues in sport including the economics of sport, ethics, gender equity, and the relationships between players, coaches, and fans.

Offered: May not be offered this year, check class schedule.

SOC 280 Sociology of Education

3 cr. hrs. 3 periods (3 lec.)

Analysis of the role and purpose of education in society. Includes overview of the education system, social theories of education, cultural theories of educational, policy and school reform, and education for individual and societal change.

Offered: May not be offered this year, check class schedule.

SOC 289 Advanced Topics in Community Involvement

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Direct, constructive student involvement in community problems. Includes social change and community service, action planning, change strategies, mobilizing personal power, team membership, causes of community problems, evaluation procedures, formal and informal community resources, geographic and functional communities, and roles of change agents and community service agents.

Information: Students employed or working as volunteers with agencies or groups may get credit for those activities described in this course. Same as SSE 289. May be taken two times for a maximum of 6 credits.

Offered: May not be offered this year, check class schedule.

SOC 296 Individual Studies in Sociology

1-6 cr. hrs. 1-6 periods (1-6 lec.)

Exploration of special interest areas. Includes sociological question(s), methodological research design, implementation of viable research, data analysis us-

ing sociological theories, and presentation of findings.

Information: Activities determined by conference between student and instructor related to content of this course. May be taken two times for a maximum of six credit hours.

Offered: May not be offered this year, check class schedule.

Spanish

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SPA 050 Social and Cultural Spanish: Food Traditions and Dining

2 cr. hrs. 2 periods (2 lec.)

Introduction to the Spanish language presented in the context of food traditions and dining. Includes food in the culture of Spanish speaking countries, language of groceries and ingredients, and conversation for dining.

Offered: May not be offered this year, check class schedule.

SPA 051 Social and Cultural Spanish: Travel

2 cr. hrs. 2 periods (2 lec.)

Introduction to the Spanish language presented in the context of travel, from planning a trip to returning home. Includes travel in Spanish speaking countries, words and phrases related to transportation, conversation for hotels, restaurants, and tourist services, and language of health and hygiene.

Offered: Fall.

SPA 053 Social and Cultural Spanish: Music

2 cr. hrs. 2 periods (2 lec.)

Listening and discussing contemporary Spanish and Latin American songs from the earlier decades to the present. Includes rhythms, instruments, and composers.

Offered: May not be offered this year, check class schedule.

SPA 055 Language Study and Travel in Spain, Italy, and France

2 cr. hrs. 2 periods (2 lec.)

Introduction to French, Italian, and Spanish language presented in the context of travel through these three countries. Includes travel in Spain, Italy, and France, lodging, money, and transportation terminology, culinary traditions, restaurants and markets, and travel destinations.

Information: Prior language knowledge is not required. Same as FRE/ITA 055.

Offered: Spring.

SPA 056 Social & Cultural Spanish: Dance, Pre-Columbian to Colonial

2 cr. hrs. 2 periods (2 lec.)

Introduction of Pre-Columbian to Colonial dances of Latin America presented in historical context. Includes mythology of dance, historical background of dance, and music and instruments. Also includes cultural contexts of movements and dances.

Offered: May not be offered this year, check class schedule.

SPA 057 Social & Cultural Spanish: Dance from Post-Colonial to Contemp

2 cr. hrs. 2 periods (2 lec.)

Introduction of Post-Colonial to Contemporary dances of Latin America presented in historical context. Includes historical backgrounds of dance, and dances of North, Central, and South America. Also includes cultural contexts of movements and dances.

Offered: May not be offered this year, check class schedule.

SPA 085 Introductory Spanish

4 cr. hrs. 4 periods (4 lec.)

Beginning Spanish for students with no previous formal study of the language. Includes correct pronunciation, basic grammar and conversation, and common communications such as informal greetings and numbers.

Information: This course is not for transfer, but helps prepare students for success in transferable courses.

Offered: Fall, Spring.

SPA 101 Elementary Spanish I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.

Offered: Fall, Spring, Summer.

SPA 101A Elementary Spanish I - Module A

1 cr. hrs. 1 periods (1 lec.)

SPA 101A constitutes approximately the first one-fourth of SPA 101.

Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.

Offered: May not be offered this year, check class schedule.

SPA 101B Elementary Spanish I - Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-fourth of SPA 101.

*Prerequisite(s): SPA 101A.**Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.*

Offered: May not be offered this year, check class schedule.

SPA 101C Elementary Spanish I - Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-fourth of SPA 101.

*Prerequisite(s): SPA 101B.**Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.*

Offered: May not be offered this year, check class schedule.

SPA 101D Elementary Spanish I - Module D

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the fourth one-fourth of SPA 101.

*Prerequisite(s): SPA 101C.**Information: SPA 101A, 101B, 102C, 101D together constitute SPA 101.*

Offered: May not be offered this year, check class schedule.

SPA 101FB Elementary Spanish for Finance and Business

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in a business and finance context.

Information: Same as SPA 101. Emphasis on financial and business-related vocabulary.

Offered: Spring.

SPA 101HC Elementary Spanish for Healthcare

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in a healthcare context.

Information: Same as SPA 101. Emphasis on healthcare-related vocabulary.

Offered: Fall, Spring.

SPA 101LE Elementary Spanish for Law Enforcement

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in a law enforcement context.

Information: Same as SPA 101. Emphasis on law enforcement-related vocabulary.

Offered: Fall.

SPA 101SP Elementary Spanish for School Personnel

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Also includes vocabulary in an educational context.

Information: Same as SPA 101. Emphasis on educational-related vocabulary.

Offered: May not be offered this year, check class schedule.

SPA 102 Elementary Spanish II

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 101. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication.

*Prerequisite(s): SPA 101.**Information: Prerequisites may be waived with one year high school Spanish. See an instructor, advisor, or counselor.*

Offered: Fall, Spring, Summer.

SPA 102A Elementary Spanish II - Module A

1 cr. hrs. 1 periods (1 lec.)

SPA 102A constitutes approximately the first one-fourth of SPA 102.

*Prerequisite(s): SPA 101.**Information: SPA 102A, 102B, 102C, and 102D together constitute SPA 102.*

Offered: May not be offered this year, check class schedule.

SPA 102B Elementary Spanish II - Module B

1 cr. hrs. 1 periods (1 lec.)

SPA 102B constitutes approximately the second one-fourth of SPA 102.

*Prerequisite(s): SPA 102A.**Information: SPA 102A, 102B, 102C and 102D together constitute SPA 102.*

Offered: May not be offered this year, check class schedule.

SPA 102C Elementary Spanish II - Module C

1 cr. hrs. 1 periods (1 lec.)

SPA 102C constitutes approximately the third one-fourth of SPA 102.

*Prerequisite(s): SPA 102B.**Information: SPA 102A, 102B, 102C and 102D together constitute SPA 102.*

Offered: May not be offered this year, check class schedule.

SPA 102D Elementary Spanish II - Module D

1 cr. hrs. 1 periods (1 lec.)

SPA 102D constitutes approximately the fourth one-fourth of SPA 102.

*Prerequisite(s): SPA 102C.**Information: SPA 102A, 102B, 102C, and 102D together constitute SPA 102.*

Offered: May not be offered this year, check class schedule.

SPA 102FB Elementary Spanish II for Finance and Business

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 101FB. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication and vocabulary in a business and finance context.

*Prerequisite(s): SPA 101.**Information: Same as SPA 102. Emphasis on financial and business-related vocabulary.*

Offered: May not be offered this year, check class schedule.

SPA 102HC Elementary Spanish II for Healthcare

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 101HC. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication and vocabulary in a healthcare context.

*Prerequisite(s): SPA 101.**Information: Same as SPA 102. Emphasis on healthcare-related vocabulary.*

Offered: Fall, Spring.

SPA 102LE Elementary Spanish II for Law Enforcement

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 101LE. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication and vocabulary in a law enforcement context.

*Prerequisite(s): SPA 101.**Information: Same as SPA 102. Emphasis on law enforcement-related vocabulary.*

Offered: Fall, Spring.

SPA 102SP Elementary Spanish II for School Personnel

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 101SP. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication and vocabulary in an education context.

*Prerequisite(s): SPA 101.**Information: Same as SPA 102. Emphasis on educational-related vocabulary.*

Offered: May not be offered this year, check class schedule.

SPA 103 Beginning Spanish for Spanish Speakers

4 cr. hrs. 4 periods (4 lec.)

Spanish for individuals of bilingual background. Includes basic oral and written forms for bilingual individuals, grammatical structures, cultural and stylistic elements, interpersonal transactions, and geographical and cultural awareness. Also includes an awareness of diversity of Spanish-speaking cultures.

Prerequisite(s): Ability to speak Spanish.

Offered: Fall, Spring.

SPA 106 Beginning Conversation

3 cr. hrs. 3 periods (3 lec.)

Introduction to conversational Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and cultural perspectives. Also includes reading, writing, speaking, and listening skills with primary emphasis on oral communication.

Offered: Fall.

SPA 107 Intermediate Conversation

3 cr. hrs. 3 periods (3 lec.)

Continuation of SPA 106. Includes oral and written communication, additional grammatical structures, additional interpersonal transactions, and ad-

ditional cultural perspectives. Also includes additional reading, writing, speaking, and listening skills with primary emphasis on oral communication.

Prerequisite(s): SPA 106.
Offered: Spring.

SPA 120 Spanish for Medical Personnel

3 cr. hrs. 3 periods (3 lec.)

Conversational practice in a medical context. Designed to develop speaking and listening techniques essential for basic medical situations, stressing expressions of courtesy and medical terminology.

Offered: May not be offered this year, check class schedule.

SPA 121 Elementary Spanish for Business I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish with a primary focus on language used in a variety of business situations. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

Information: Same as IBS 121.

Offered: May not be offered this year, check class schedule.

SPA 122 Elementary Spanish for Business II

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 121. Includes increasingly complex oral and written forms, grammatical structures, and language used in a variety of business situations. Also includes interpersonal business transactions and geographical and cultural awareness.

Prerequisite(s): Same as SPA 121.

Information: Same as IBS 122.

Offered: May not be offered this year, check class schedule.

SPA 126 Elementary Spanish for School Personnel I

4 cr. hrs. 4 periods (4 lec.)

Introduction to Spanish with a primary focus on language used in a variety of school and academic situations. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness.

Offered: Summer.

SPA 127 Elementary Spanish for School Personnel II

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 126. Includes increasingly complex oral and written forms, grammatical structures, and language used in a variety of school and academic situations.

Prerequisite(s): SPA 126.

Offered: May not be offered this year, check class schedule.

SPA 128 Elementary Spanish for Law Enforcement I

4 cr. hrs. 4 periods (4 lec.)

Introductory Spanish for law enforcement professionals. Includes oral language as the primary focus applied to a variety of routine protocols and emergency situations. Also includes some written forms, grammatical structures, interpersonal transactions, and cultural awareness.

Offered: May not be offered this year, check class schedule.

SPA 129 Elementary Spanish for Law Enforcement II

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 128. Includes oral language as the primary focus applied to a variety of routine protocols and emergency situations. Also includes some written forms, grammatical structure, interpersonal transactions, and cultural awareness.

Recommendation: Completion of SPA 128 is recommended before enrolling in this class.

Offered: May not be offered this year, check class schedule.

SPA 201 Intermediate Spanish I

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 102. Includes reading a variety of materials, discussing these readings, and writing compositions while reviewing grammatical structures. Also includes listening comprehension and Hispanic cultural components where Spanish is spoken.

Prerequisite(s): SPA 102.

Offered: Fall, Spring, Summer.

SPA 202 Intermediate Spanish II

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 201. Includes reading selections from original, authentic writings, conversation and discussions on a more advanced level, writing compositions using grammatically correct structure, and development of creative writing skills in Spanish. Also includes listening and comprehending lengthy spoken discourse, and a broader study of cultural differences within the Hispanic world.

Prerequisite(s): SPA 201.

Offered: Fall, Spring, Summer.

SPA 203 Writing and Oral Skills for Spanish Speakers

4 cr. hrs. 4 periods (4 lec.)

Continuation of SPA 103. Includes further development of oral and written forms for bilingual individuals, additional grammatical structures, cultural and stylistic elements, interpersonal transactions, and geographical and cultural differences. Also includes a continued awareness of the diversity of Spanish.

Prerequisite(s): SPA 103.

Information: Prerequisites may be waived with ability to speak Spanish.

Offered: Fall, Spring.

SPA 206 Advanced Conversation

4 cr. hrs. 4 periods (4 lec.)

Development of oral communicative techniques and critical thinking skills. Includes communicative skills, complex vocabulary utilization, grammatical structures, and cultural awareness.

Prerequisite(s): SPA 107.

Offered: Fall.

SPA 207 Latin America on Film

4 cr. hrs. 4 periods (4 lec.)

Viewing and discussing Spanish language on films from regions such as Cuba, Caribbean, Central and South America, and Mexico. Includes communicative skills, complex vocabulary utilization, grammatical structures, cultural awareness, and Latin American cinema. Also includes the development of communicative techniques and critical thinking skills through film.

Prerequisite(s): SPA 202 or 206.

Offered: Spring.

SPA 230 Introduction to Literature in Spanish

4 cr. hrs. 4 periods (4 lec.)

Survey of literature written in Spanish. Includes genres of Spanish literature, literary periods of Spain and Latin America, major Spanish literary works, advanced essay composition on Spanish literary works, interpreting Spanish literary works, and oral presentations on Spanish literary works and authors.

Prerequisite(s): SPA 202.

Information: Prerequisites may be waived with consent of instructor.

Offered: Spring.

SPA 240 Grammar and Composition

3 cr. hrs. 3 periods (3 lec.)

Development of advanced grammar and writing communicative skills. Includes grammar structures, factual, expository, and argumentative writing.

Prerequisite(s): SPA 251 or 253, or TRS 102.

Offered: Fall.

SPA 250 Spanish Phonetics

3 cr. hrs. 3 periods (3 lec.)

Introduction to the sound system of the Spanish language. Includes terminology, classification of sounds, characteristics of sounds, phonological elements, and dialectal variation.

Prerequisite(s): SPA 202 or 253.

Offered: Fall.

SPA 251 Intermediate Spanish III

3 cr. hrs. 3 periods (3 lec.)

Tools for thinking critically and analytically in Spanish. Includes writing proficiency, reading proficiency, and control of language through lexical and grammatical precision.

Prerequisite(s): SPA 202.

Offered: Fall, Spring.

SPA 253 Intermediate Spanish for Spanish Speakers

4 cr. hrs. 4 periods (4 lec.)

Intensive writing and speaking in Spanish for individuals of bilingual background. Includes intermediate oral communication, complex reading communication, intermediate written communication, and themes in popular and traditional cultures.

Prerequisite(s): SPA 203.

Information: Prerequisites may be waived with ability to speak, read, and write Spanish.

Offered: Fall, Spring.

SPA 254 Intermediate Grammar and Writing for Spanish Speakers

3 cr. hrs. 3 periods (3 lec.)

Intensive grammar and writing for Spanish speaker within a dynamic cultural context. Includes complex intermediate oral communication, intermediate grammar and writing communication, exploration of diversity of culture and

customs, and themes in literature.

Prerequisite(s): SPA 253.

Offered: Fall, Spring.

SPA 296 Independent Study in Spanish

1-4 cr. hrs. 1-4 periods (1-4 lec.)

Independent Spanish readings or other projects under the supervision of an instructor.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of eight credit hours.

Offered: Fall, Spring.

SPA 297S3 Spanish Language Seminar: Spanish for Bilingual Speakers

3 cr. hrs. 3 periods (3 lec.)

Communicative approach to refining Spanish language skills. Includes oral and written forms, grammatical structures, interpersonal transactions, and cultural perspectives. Also includes a focus on development of reading, writing, speaking, and listening skills using "realia" from contemporary literature, current events, television, music, and culture.

Information: Consent of instructor is required before enrolling in this course
Offered: May not be offered this year, check class schedule.

SPA 297S4 Spanish for Technical and Commercial Purposes

4 cr. hrs. 4 periods (4 lec.)

Speaking, listening and writing techniques essential for basic business and legal usage. Includes technical vocabulary and cultural concepts related to international communications and commerce. Also includes focus on individual professional and occupational needs with particular emphasis on legal concerns.

Prerequisite(s): SPA 202.

Offered: May not be offered this year, check class schedule.

Speech Communication

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

SPE 102 Introduction to Speech Communication

3 cr. hrs. 3 periods (3 lec.)

Introduction to the function, basic concepts, and skills of oral communication in interpersonal and public address situations. Includes listening, communication styles, communication barriers, and methods to help eliminate barriers.
Offered: Fall, Spring, Summer.

SPE 110 Public Speaking

3 cr. hrs. 3 periods (3 lec.)

Study and training in public speaking with emphasis on audience adaptation. Includes developing skills in the areas of research, logic, analysis, organization, and delivery in a multicultural society.
Offered: Fall, Spring, Summer.

SPE 120 Business and Professional Communication

3 cr. hrs. 3 periods (3 lec.)

Study and training in organizational communication within a multicultural/global environment. Includes informative and persuasive speaking, interviewing, listening, and group problem-solving and decision-making.
Offered: Fall, Spring, Summer.

SPE 124 Argumentation

3 cr. hrs. 3 periods (3 lec.)

Principles and practice of argumentation. Includes basic forms of analysis, evidence, proof, reasoning, and refutation.
Offered: May not be offered this year, check class schedule.

SPE 130 Small Group Discussion

3 cr. hrs. 3 periods (3 lec.)

Study and training in group process. Includes the nature and functions of groups, norms of group participation and interaction, and group leadership. Includes a special focus on communication in group decision-making.
Offered: May not be offered this year, check class schedule.

SPE 136 Oral Interpretation of Literature

3 cr. hrs. 3 periods (3 lec.)

Study and training in the oral presentation of literature. Includes literary conventions, analysis techniques, role of the interpreter, use of voice and body, characterization, and oral interpretation modes. Also includes a special focus on analyzing and experiencing literature as human discourse.
Offered: May not be offered this year, check class schedule.

SPE 249 Special Studies in Speech Communication

1-4 cr. hrs. 1-4 periods (1-4 lec.)

Under individual guidance of an instructor, student researches an aspect of communication not available through regular course offerings.

Information: Six credit hours in speech communication is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Student Success

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

STU 100 College Study Skills

1 cr. hrs. 1 periods (1 lec.)

Skills and techniques required for being an efficient student. Includes study techniques, memory and concentration, college resources, goal setting, time management, attentive listening, organization of lecture/text material, note taking systems, test taking strategies, and test anxiety.

Offered: Fall, Spring, Summer.

STU 100A How to Study

.25 cr. hrs. .25 periods (.25 lec.)

Applications and concepts of successful study. Includes study techniques, memory and concentration, and available college resources.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.
Offered: Fall, Spring.

STU 100B Time Management

.25 cr. hrs. .25 periods (.25 lec.)

Factors affecting individual use of time. Includes goal setting and time management.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.
Offered: Fall, Spring.

STU 100C Note Taking Tips

.25 cr. hrs. .25 periods (.25 lec.)

Factors affecting the note taking process. Includes attentive listening, organization of lecture/text material, and note taking systems.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.
Offered: Fall, Spring.

STU 100D Testing Tips

.25 cr. hrs. .25 periods (.25 lec.)

Explaining strategies and causes of a successful testing experience. Includes test taking strategies and test anxiety.

Information: STU 100A, 100B, 100C, and 100D together constitute STU 100.
Offered: Fall, Spring.

STU 102 Personal Finance in College Decision Making

1 cr. hrs. 1 periods (1 lec.)

Basic elements of personal and family finances. Includes managing personal finances, funding resources and financial obligations, strategies for success, setting a career direction and taking control of the future, and transition from college into the mainstream.

Offered: May not be offered this year, check class schedule.

STU 102A Managing Personal Finances

.25 cr. hrs. .25 periods (.25 lec.)

Skills necessary for the development of a financial plan. Includes budget development and the implications of borrowing and using credit.

Information: STU 102A, 102B, 102C and 102D together constitute STU 102.
Offered: May not be offered this year, check class schedule.

STU 102B Meeting Financial Obligations

.25 cr. hrs. .25 periods (.25 lec.)

Identification of personal resources. Includes funding resources and financial obligations.

Information: STU 102A, 102B, 102C, and 102D together constitute STU 102.
Offered: May not be offered this year, check class schedule.

STU 102C Strategies for Taking Control of Your Future

.25 cr. hrs. .25 periods (.25 lec.)

Development of an educational plan based on career expectations. Includes strategies for success, setting a career direction, and taking control of the future.

Information: STU 102A, 102B, 102C, and 102D together constitute STU 102.
Offered: May not be offered this year, check class schedule.

STU 102D Transition from College to the Mainstream

.25 cr. hrs. .25 periods (.25 lec.)

Techniques for transitioning from college to employment. Includes living within financial means and loan repayment obligations.

Information: STU 102A, 102B, 102C, and 102D together constitute STU 102.

Offered: May not be offered this year, check class schedule.

STU 105 Math Success Skills

1 cr. hrs. 1 periods (1 lec.)

Math study and test-taking skills and overcoming math anxiety. Includes effective math study skills, reading a math text, problem solving, current research on math anxiety, and overcoming math anxiety.

Offered: Fall, Spring.

STU 107 University Transfer Preparation

1 cr. hrs. 1 periods (1 lec.)

Obtain knowledge and develop a plan to prepare for a successful transition to a university. Includes degree/major selection, introduction to transfer resources, development of personal transfer plan, and general transition planning.

Prerequisite(s): REA 081.

Recommendation: Completion of REA 091 and WRT 100 before enrolling in this course or concurrent enrollment. Students should take this course before completing 30 college credits.

Offered: Fall, Spring.

STU 108 Building Community through Service

1 cr. hrs. 1 periods (1 lec.)

Identification and implementation of real-world experiences that will contribute to career and life goals. Includes social responsibility and civic engagement, meaningful vision, action planning, plan implementation, and reflective presentation.

Information: Includes community service hours as part of the course.

Offered: May not be offered this year, check class schedule.

STU 109 Making Career Choices

2 cr. hrs. 2 periods (2 lec.)

Development of skills and knowledge necessary to make career choices. Includes values clarification, skill identification, interest and personality assessments, career research strategies, introduction to a plan of action, review of self-assessment inventories, adult career development, identifying action steps for career goal achievement, decision making, and developing an educational and a career plan.

Offered: Fall, Spring.

STU 109A Making Career Choices: Interests and Values

1 cr. hrs. 1 periods (1 lec.)

Development of skills and knowledge necessary to make career choices. Includes values clarification, skill identification, interest and personality assessments, career research strategies, introduction to a plan of action, and review of self-assessment inventories.

Information: STU 109A and 109B together constitute STU 109.

Offered: Fall, Spring, Summer.

STU 109B Career Choices: Goal Development

1 cr. hrs. 1 periods (1 lec.)

Making Career Choices: Goal Development Resources for goal development. Includes adult career development, identifying action steps for career goal achievement, decision making, and developing an educational and a career plan.

Information: STU 109A and 109B together constitute STU 109.

Offered: Fall, Spring.

STU 110 Academic and Confidence Skills Building

2 cr. hrs. 2 periods (2 lec.)

Exploration and assessment of student's current self-esteem level for student success. Includes definition, early self-esteem theorists, components of self-esteem development, global and area specific self-esteem, personal assessment, influence of significant others, life script, personality preferences, cultural influences, communication skills, irrational beliefs, cognitive behavioral change strategies as applied to college and life, risk taking, and goal development for student success.

Offered: Fall, Spring.

STU 121 PROGRESS! Life Skills Management

3 cr. hrs. 3 periods (3 lec.)

Techniques for developing academic, personal, and professional skills of the single parent, homemaker, and reentry student. Includes college success tools, skills, and community resources, personal, academic, and financial aid goals, time management, self-esteem, stress management techniques, career exploration, gender awareness, assertiveness training, critical thinking skills, job development, and portfolio development.

Information: Must be accepted into the PROGRESS! program. See an advisor or counselor for more information.

Offered: Fall, Spring.

STU 130 Stress Management for Wellness

3 cr. hrs. 3 periods (3 lec.)

Principles and techniques for stress management and wellness in daily life. Includes the environmental, physical, and psychological factors and impact of stress on daily life, identification of wellness concepts in the areas of nutrition, physical fitness, addictions, codependency, stress management, emotions, life values, and a healthy life style.

Offered: Fall, Spring.

STU 150 Becoming a Master Student

3 cr. hrs. 3 periods (3 lec.)

Enhance academic and personal skills to maximize learning and success at the college level. Includes critical thinking skills, learning styles, college and/or career goals, study skills and personal styles. Also includes examination of human diversity, values, perspectives, as they relate to student's success.

Recommendation: Completion of REA 091 and WRT 100 before enrolling in this course or concurrent enrollment.

Offered: Fall, Spring.

STU 200 Becoming a Critical Thinker

3 cr. hrs. 3 periods (3 lec.)

Development and application of thinking strategies. Includes understanding the fundamentals, application of thinking skills to everyday issues, perceiving, believing and knowing, critical questioning, reporting, inferring and judging, argumentation, language and thought, creative thinking, and critical thinking strategies.

Recommendation: Completion of REA 091 before enrolling in this course or concurrent enrollment.

Offered: Fall, Spring.

STU 210 Transfer Strategies

2 cr. hrs. 2 periods (2 lec.)

Transitioning to a college or university. Includes planning for successful transferring, community college/university resources, and transition procedures, and transfer portfolio. Also includes policies and applications activities for transferring to a university or college of choice.

Recommendation: Prior completion of STU 107, 109, or 109A is strongly recommended. Consult a counselor or advisor for more information.

Offered: Fall, Spring.

STU 230 Dynamics of Leadership

3 cr. hrs. 3 periods (3 lec.)

Supervised practical training in leadership. Includes history, philosophy and vision of leadership, aspects of leadership, power of positive vision, goal setting, decision making, life planning, identifying a personal philosophy, team building, delegating, ethics in leadership, servant leadership, initiating change, managing conflict, and designing and completing leadership projects.

Information: Same as MGT 230.

Offered: Fall, Spring.

STU 230A Dynamics of Leadership: Philosophy and Vision

.5 cr. hrs. .5 periods (.5 lec.)

Introduction to leadership. Includes history of leadership, aspects of leadership, and power of positive vision.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230A.

Offered: May not be offered this year, check class schedule.

STU 230B Dynamics of Leadership: Decision Making and Goal Setting

.5 cr. hrs. .5 periods (.5 lec.)

Achieving positive ends. Includes goal setting, decision making, life planning, and identifying a personal philosophy.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230B.

Offered: May not be offered this year, check class schedule.

STU 230C Dynamics of Leadership: Team Building and Empowering

.5 cr. hrs. .5 periods (.5 lec.)

Positive groups dynamics. Includes team building and delegating.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230C.

Offered: May not be offered this year, check class schedule.

STU 230D Dynamics of Leadership: Ethics in Leadership

.5 cr. hrs. .5 periods (.5 lec.)

Development of ethical behavior. Includes ethics in leadership and servant leadership.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230D.

Offered: May not be offered this year, check class schedule.

STU 230E Dynamics of Leadership: Conflict and Change

.5 cr. hrs. .5 periods (.5 lec.)

Elements of the change process. Includes initiating change and managing conflict.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230E.

Offered: May not be offered this year, check class schedule.

STU 230F Dynamics of Leadership: Developing Viable Projects

.5 cr. hrs. .5 periods (.5 lec.)

Effective leadership skills. Includes designing and completing leadership projects.

Information: STU 230A, 230B, 230C, 230D, 230E, and 230F together constitute STU 230. Same as MGT 230F.

Offered: May not be offered this year, check class schedule.

STU 240 Exploring Leadership through Community Engagement

3 cr. hrs. 3 periods (3 lec.)

Leadership experience through supervised service learning and community involvement. Includes personal leadership attributes, relational and service models of leadership, personal vision, community leadership models, leadership awareness, community dynamics, community activities, evaluation, and portfolio development. Also includes participation in a community and/or college service learning project.

Recommendation: Successful completion of REA 091 and STU 230, or other meaningful leadership experiences.

Information: Consent of the instructor or advisor is required before registering for this course. Intended for University of Arizona transfer. This course fulfills some of the requirements for the Pima Leadership Institute. See the course instructor for additional information. STU 240A, 240B, and 240C together constitute STU 240.

Offered: May not be offered this year, check class schedule.

STU 240A Exp Ldrshp through Community Engagement: Personal Engagement

1 cr. hrs. 1 periods (1 lec.)

Leadership experience through supervised service learning and community involvement. Includes personal leadership attributes, personal vision, and leadership awareness. Also includes community activities, evaluation, and portfolio development.

Recommendation: Successful completion of REA 091 and STU 230, or other meaningful leadership experiences.

Information: Consent of the instructor or advisor is required before registering for this course. This course fulfills some of the requirements for the Pima Leadership Institute. See the course instructor for additional information. STU 240A, 240B, and 240C together constitute STU 240.

Offered: May not be offered this year, check class schedule.

STU 240B Exploring Leadership through Community Engagement: Social Change

1 cr. hrs. 1 periods (1 lec.)

Leadership experience through supervised service learning and community involvement. Includes relational and service models of leadership, community leadership models, community dynamics, and community activities. Also includes participation in a community and/or college service learning project.

Recommendation: Successful completion of REA 091 and STU 230, or other meaningful leadership experiences.

Information: Consent of the instructor or advisor is required before registering for this course. This course fulfills some of the requirements for the Pima Leadership Institute. See the course instructor for additional information. STU 240A, 240B, and 240C together constitute STU 240.

Offered: Spring.

STU 240C Exploring Leadership through Community Engagement: Global Leadership

1 cr. hrs. 1 periods (1 lec.)

Leadership experience through supervised service learning and community involvement. Includes personal leadership attributes, leadership awareness, community dynamics, community activities, and evaluation. Also includes participation in a community and/or college service learning project.

Recommendation: Successful completion of REA 091 and STU 230, or other meaningful leadership experiences.

Information: Consent of the instructor or advisor is required before registering for this course. This course fulfills some of the requirements for the Pima Leadership Institute. See the course instructor for additional information. STU 240A, 240B, and 240C together constitute STU 240.

Offered: May not be offered this year, check class schedule.

Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

TEC 100 Introduction to Electronics Technology

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of the principles and techniques of basic electrical concepts. Includes fundamentals of electricity, current, voltage, resistance, ohm's law, electrical measurements, meters, power, DC circuits, magnetism, inductance, capacitance, alternating current, transformers, and AC circuits. Also includes the language of electronics and the mathematical foundation and relationships relative to the electronics industry.

Offered: Fall, Spring.

TEC 101 Physics for Technology

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of applied physics for technology. Includes matter, motion, forces, work and energy, fluids, temperature and heat, wave motion, electricity, direct current electricity, magnetism, alternating current, electronic devices, and light.

Prerequisite(s): MAT 122 or TEC 111.

Corequisite(s)

Offered: Fall, Spring.

TEC 101A Physics for Technology - A

2 cr. hrs. 4 periods (1 lec., 3 lab)

Introductory experimentation and study of applied mechanical, fluid, electrical, and thermal systems. Includes the physical constructs of force, work, rate, and resistance.

Offered: May not be offered this year, check class schedule.

TEC 101B Physics for Technology - B

2 cr. hrs. 4 periods (1 lec., 3 lab)

Continuation of TEC 101A. Includes experimentation and study of applied mechanical, fluid, electrical, and thermal systems within the physical constructs of energy, power, and force transformation.

Prerequisite(s): TEC 101A or consent of instructor.

Offered: May not be offered this year, check class schedule.

TEC 102 Principles of Electronic and Optical Devices

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of the principles and techniques of basic electronic and optical devices. Includes semiconductor transistors, field effect transistors, thyristors, integrated circuits, optoelectronic devices, power supplies, amplifier applications, oscillators, waveshaping circuits, basic logic gates, and sequential logic circuits.

Prerequisite(s): TEC 100.

Offered: Spring.

TEC 103 Light and Optical Systems

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to light and optical systems used in photolithographic processes and equipment in semiconductor manufacturing. Including principles, terminology, and components used in basic optical systems.

Prerequisite(s): TEC 113.

Offered: Spring.

TEC 104 Introduction to Robotics

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles of mechanical systems, electronics, and programming as applied to the design, build, and mobilization of remote control and autonomous robots. Includes hardware familiarization, building a robot, programming, implementing the hardware, basic gears, specialized gears and racks, implementing specialized hardware, interfacing the hardware, programming the RCX, programming commands, preparing for competition, designing new ideas, preparing the program, and creating a challenging design. Also includes, testing, and competing with Roverbot and Inventorbot.

Offered: Fall, Spring.

TEC 105 Electronic Assembly Tools

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduces hand tools and measuring devices used in electronics and electro-mechanical assemblies. Includes basic and special assembly tools, fastener installation and removal tools, precision measuring tools, fabrication tools, and torque and optical measuring instruments. Also includes an emphasis on required safety procedures and practices and the use of selected tools, measuring devices and procedures.

Offered: Fall.

TEC 111 Applied Math I

2 cr. hrs. 2 periods (2 lec.)

Introduction to numerical operations in measurement and systems of units. Includes geometric figures, waveshapes, scale drawings, collection of data, display of data, and data calculations. Also includes basic algebraic and numeric expressions, scientific notation, and instruction on using the handheld calculator.

Offered: Fall, Spring.

TEC 111A Applied Math I: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of TEC 111.

Information: TEC 111A, 111B, and 111C together constitute TEC 111.

Offered: May not be offered this year, check class schedule.

TEC 111B Applied Math I: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of TEC 111.

*Prerequisite(s): TEC 111A.**Information: TEC 111A, 111B, and 111C together constitute TEC 111.*

Offered: May not be offered this year, check class schedule.

TEC 111C Applied Math I: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of TEC 111.

*Prerequisite(s): TEC 111B.**Information: TEC 111A, 111C, and 111C together constitute TEC 111.*

Offered: May not be offered this year, check class schedule.

TEC 112 Applied Math II

2 cr. hrs. 2 periods (2 lec.)

Continuation of TEC 111. Includes graphing, linear equations, functional notation, quadratic equations, and solving systems of linear equations. Also includes many examples and exercises pertaining to electrical, magnetic, fluidic, thermal, and mechanical systems; and layout and analysis of resistor, diode and transistor circuits using a circuit simulation program.

Prerequisite(s): TEC 111.

Offered: Fall, Spring.

TEC 112A Applied Math II: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of TEC 112.

*Prerequisite(s): MAT 092 or required score on the mathematics assessment test or TEC 111.**Information: TEC 112A, 112B, and 112C together constitute TEC 112.*

Offered: May not be offered this year, check class schedule.

TEC 112B Applied Math II: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of TEC 112.

*Prerequisite(s): TEC 112A.**Information: TEC 112A, 112B, and 112C together constitute TEC 112.*

Offered: May not be offered this year, check class schedule.

TEC 112C Applied Math II: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of TEC 112.

*Prerequisite(s): TEC 112B.**Information: TEC 112A, 112B, and 112C together constitute TEC 112.*

Offered: May not be offered this year, check class schedule.

TEC 113 Problem Solving for Electronics and Optics

3 cr. hrs. 3 periods (3 lec.)

Problem solving for electronics and optics. Includes basic trigonometry and complex numbers used in AC circuit theory, logarithmic and exponential functions, basic mathematical formulae pertaining to fundamental understanding of optics, basic optics math such as Snell's law, Malus' law, Brewster's law, critical angle calculations, total internal reflection, and numerical aperture.

Prerequisite(s): MAT 122 or TEC 112 or required score on the mathematics assessment test.

Offered: Fall.

TEC 114 Mathematics for Optics

2 cr. hrs. 2 periods (2 lec.)

Basic mathematical formulae used in fundamental optics. Includes coordinate systems, measurement systems, geometry, trigonometry, statistical data analysis, and examples in optics.

Prerequisite(s): TEC 113.

Offered: Spring.

TEC 116 Optical Shop Protocol and Inspection Standards

2 cr. hrs. 3 periods (1 lec., 2 lab)

Procedures and safety requirements of the optical industry. Includes terminology used in the field of optics; safety in the optics laboratory; vacuum systems, cryogenics, and gas handling; clean room terminology and equipment; solvents; and cleaning procedures and materials. Also includes identification of optical components, inspection aids, and reading specifications and data sheets.

Offered: Fall.

TEC 117 Optical Assembly Techniques

3 cr. hrs. 4 periods (2 lec., 2 lab)

Fundamental procedures used during the assembly of optical equipment. Includes vibration isolation, epoxy and curing, mounting optics, alignment aids, assembly and disassembly techniques, fasteners, and materials. Also includes thermal considerations, vibration mounting of components, baffles, hermetic sealing, and metal finishing.

Recommendation: Completion of TEC 116 before enrolling in this course.

Offered: Fall.

TEC 121 Basic Electric and Magnetic Properties

3 cr. hrs. 3 periods (3 lec.)

Introduction to alternating current (AC), direct current (DC), and magnetic circuit theory. Includes basic electricity, electrical and hand tool safety, representation of units, basic direct current and circuits, power and energy, input and output impedance, the oscilloscope and functions generator, alternating current, and transients. Also includes basic overview of magnetic considerations, inductors and capacitors in AC circuits, unregulated power supplies, schematic and block diagrams, and compilation of units and conversion factors.

*Prerequisite(s): TEC 112 or MAT 122.**Corequisite(s): TEC 121LB*

Offered: Fall.

TEC 121A Basic Electric and Magnetic Properties: Module A

2 cr. hrs. 3 periods (1.5 lec., 1.5 lab)

Constitutes approximately the first one-half of TEC 121.

*Prerequisite(s): TEC 112 or MAT 122.**Information: TEC 121A and 121B together constitute TEC 121.*

Offered: May not be offered this year, check class schedule.

TEC 121B Basic Electric and Magnetic Properties: Module B

2 cr. hrs. 3 periods (1.5 lec., 1.5 lab)

Constitutes approximately the second one-half of TEC 121.

*Prerequisite(s): TEC 121A.**Information: TEC 121A and 121B together constitute TEC 121.*

Offered: May not be offered this year, check class schedule.

TEC 121LB Basic Electric and Magnetic Properties Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 121.

Corequisite(s): TEC 121

Offered: Fall.

TEC 122 Applied Semiconductor Devices

3 cr. hrs. 3 periods (3 lec.)

Basic semiconductor theory and applications. Includes measurement, component selection, effects of the environment on components, component protection, and applications. Also includes diodes, transistors, integrated circuits with operational amplifiers, and regulated power supplies.

*Prerequisite(s): TEC 113, 121.**Corequisite(s): TEC 122LB*

Offered: Spring.

TEC 122LB Applied Semiconductor Devices Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 122.

*Prerequisite(s): TEC 113, 121.**Corequisite(s): TEC 122*

Offered: Spring.

TEC 123 Digital Circuits and Computers

3 cr. hrs. 3 periods (3 lec.)

Introduction to the theory, operation, and application of digital components used in combinational and sequential logic. Includes number systems, boolean algebra, gates and invertors, digital measurements and test equipment, memory, error detection, convertors, programmable logic arrays, microprocessor basics, and technical information.

Corequisite(s): TEC 123LB

Offered: Fall.

TEC 123LB Digital Circuits and Computers Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 123.

Corequisite(s): TEC 123

Offered: Fall.

TEC 124 Modern Electronic Communications

4 cr. hrs. 6 periods (3 lec., 3 lab)

Introduction to electronic communication circuits and methodologies in transmitters and receivers. Includes history and trends in communications technology, the electromagnetic spectrum, resonant and antiresonant circuits, coupling, lumped filters, behavior of devices amplifiers, receiver and transmitter fundamentals, signal sources, and safety and regulations.

Prerequisite(s): TEC 113, 121 and 125.Recommendation: Concurrent enrollment in TEC 122.

Offered: Spring.

TEC 125 AC Networks with Phasors

3 cr. hrs. 3 periods (3 lec.)

Applications of trigonometry and the algebra of complex numbers to AC circuits safety, troubleshooting, analysis, measurement, and design. Includes phasors, transfer functions, three phase power, filters, concepts of Fourier analysis, impedance matching, RLC circuits, waveshaping, and transmission lines at high AC frequencies.

Prerequisite(s): TEC 113 and 121.Corequisite(s): TEC 125LB

Offered: Spring.

TEC 125LB AC Networks with Phasors Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 125.

Corequisite(s): TEC 125

Offered: Spring.

TEC 126 Electronics Construction and Assembly

3 cr. hrs. 4 periods (2 lec., 2 lab)

Basic skills working on electronic equipment. Includes soldering and de-soldering, drawing schematic diagrams, printed circuit board (PCB) construction, wire wrapping, wiring and cabling construction and chassis construction.

Prerequisite(s): TEC 121.

Offered: Fall.

TEC 127 Printed Circuit Board Solder Assembly

3 cr. hrs. 5 periods (1 lec., 4 lab)

Procedures and skills required for soldering assembly of printed circuit boards. Includes tool description and use; tinning wire; solder, relay hooks and pierced, turret and bifurcated terminals; connector pin; components; and electrostatic discharge. Also includes component preparation; introduction to printed circuit boards; installing and soldering resistors; capacitors, lead integrated circuits, and transistors; and evaluation.

Offered: Spring.

TEC 128 Electronic Measurements

2 cr. hrs. 2 periods (2 lec.)

Techniques to perform measurements on passive and active component circuits. Includes measurement standards, types of meters, parameters of passive and active devices, harmonic and inter-modulation distortion, radio frequency modulation, operation and measurements of the oscilloscope, and the distortion analyzer.

Prerequisite(s): TEC 122 and 125.Corequisite(s): TEC 128LB

Offered: Spring.

TEC 128LB Electronic Measurements Lab

1 cr. hrs. 2 periods (2 lab)

This is the Lab portion of TEC 128.

Corequisite(s): TEC 128

Offered: Spring.

TEC 130 Computer Assembly and Testing

3 cr. hrs. 3 periods (3 lec.)

Computer system assembly, set-up, and start-up. Includes building a personal computer, installing the circuit boards, power supply, and disk drives. Also includes system testing and troubleshooting, configuring for different operating systems, tools and equipment safety, use of diagnostic and support software, peripheral connections, and component replacement.

Corequisite(s): TEC 130LB

Offered: Fall.

TEC 130LB Computer Assembly and Testing Lab

1 cr. hrs. 2 periods (2 lab)

This is the Lab portion of TEC 130.

Corequisite(s): TEC 130

Offered: Fall.

TEC 132 Computer Systems Servicing

3 cr. hrs. 3 periods (3 lec.)

Advanced computers servicing and peripherals installation. Includes an introduction to computer servicing, laser and ink-jet printers, troubleshooting of printers, safety and troubleshooting of monitors, floppy disk drives, hard disk drives/optical drives, operating systems, application programs, and network basics.

Prerequisite(s): TEC 130.Corequisite(s): TEC 132LB

Offered: Spring.

TEC 132LB Computer Systems Servicing Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 132.

Corequisite(s): TEC 132

Offered: Spring.

TEC 140 Geometric Optics

2 cr. hrs. 2 periods (2 lec.)

Exploration of how light moves through an optical system. Includes reflection, refraction, systems considerations, measurement of paraxial parameters, application of geometric optics, software for geometric design.

Prerequisite(s): TEC 113.*Information: This course taken in addition to TEC 141 provides a basis for all 200 level courses in optics.*

Offered: Spring.

TEC 141 Wave Optics

3 cr. hrs. 3 periods (3 lec.)

Exploration of the wavelike nature of light and how light interacts with matter. Includes the dual nature of light, the mathematics of wave motion, polarization, interference effects, diffraction, coherence, and Fourier optics.

Prerequisite(s): TEC 140.Corequisite(s): TEC 286*Information: This course taken in addition to TEC 140 provides a basis for all 200 level courses in optics.*

Offered: Fall.

TEC 151 Information Transfer in Technology

2 cr. hrs. 2 periods (2 lec.)

Information transfer in metrology, data collection, data description, and analysis. Includes the representation of systems and processes, an introduction to components, symbols, and diagrams. Also includes the description of equipment and parts, the use of technical information sources, methods of troubleshooting, technical note-taking and technical telephone/computer communications.

Offered: Fall.

TEC 160 Microcomputers and Programming Techniques

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to microcomputer operation. Includes terminology, reading and understanding specifications, system start up, disk operations, programming simple electronic problems. Also includes an introduction to assembly language and number systems.

Prerequisite(s): MAT 092 or TEC 111.*Information: Prerequisite maybe waived with consent of instructor.*

Offered: Fall.

TEC 170 Foundations of Improvement Technology

3 cr. hrs. 3 periods (3 lec.)

Statistical thinking, systems thinking, psychology, and theory of knowledge for the continuous improvement of processes in technician training and work. Includes team dynamics, introductory control charting, and basic design of experiments concepts. Also includes techniques for teams to identify and prioritize improvement opportunities, represent and analyze important processes, and identify feasible routes to achieve improvement and excellence in technical training and work.

Offered: Spring.

TEC 171 Statistical Process Control and Experimentation

3 cr. hrs. 3 periods (3 lec.)

Basic statistical control and experimentation for technicians. Includes process representations, data, data collection, organizational tools, basic data descriptions, probability distributions and their properties, basic control charts, process capability, experimental designs, and software.

Prerequisite(s): TEC 113.

Offered: Spring.

TEC 182 Fundamentals of Semiconductor Manufacturing Chemistry & Safety

3 cr. hrs. 3 periods (3 lec.)

Fundamentals of chemistry with emphasis on chemical safety in the semiconductor manufacturing workplace. Includes chemical principles, calculations, terminology, uses of chemicals, types of hazards, safeguards, regulations, and basic first aid.

Offered: Fall.

TEC 221 Linear Devices

3 cr. hrs. 5 periods (2 lec., 3 lab)

Linear devices in electronic systems. Includes operational amplifiers, measurement, specification, selection, troubleshooting, and theory of linear devices. Also includes power requirements and the means to obtain necessary power.

Prerequisite(s): TEC 122 and 125.

Offered: Fall.

TEC 222 Electromechanical Devices and Systems

3 cr. hrs. 3 periods (3 lec.)

Prime movers encompassing DC motors, AC motors, synchros, stepper motors, and fluid motors. Includes control systems and the utilization of electronic devices in electromechanical control. Also includes mechanical components of electromechanical systems, electronic components used in motor control systems, sensors, transducers, relays, and solenoids.

Prerequisite(s): TEC 122, 125 and 221.*Corequisite(s):* TEC 222LB

Offered: Spring.

TEC 222LB Electromechanical Devices and Systems Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 222.

Corequisite(s): TEC 222

Offered: Spring.

TEC 225 Fluid Devices and Automated Systems

2 cr. hrs. 2 periods (2 lec.)

Application and control of fluid devices using programmable logic devices. Includes microprocessors, software, ladder logic and diagrams, programmable logic controllers (PLCs), and variety of input/output devices used in the automated manufacturing and test environments. Also includes safety and basic physical principles or laws governing the operation of pneumatic and hydraulic devices.

Prerequisite(s): TEC 101, 123 and 222.*Corequisite(s):* TEC 225LB

Offered: Spring.

TEC 225LB Fluid Devices and Automated Systems Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 225.

Corequisite(s): TEC 225

Offered: Spring.

TEC 226 Integrated System in Semiconductor Manufacturing

4 cr. hrs. 6 periods (3 lec., 3 lab)

Integration of chemical, computer, electronic, electromechanical, fluidic, and optical components to duplicate or simulate systems in the semiconductor manufacturing workplace. Includes process analysis, technical communications, metrology and data collection, statistics, troubleshooting and team problem solving, safety, statistical process control and experimental design, system assembly, reliability, test, and cleanroom procedures.

Prerequisite(s): TEC 221, 222, 225, 272, and 274.

Offered: Fall.

TEC 227 Communication and Information Transmission Systems

3 cr. hrs. 3 periods (3 lec.)

Introduction to electronic communications and information transmission. Includes cable, RF point to point, laser, fiber, satellite, transponder, and cellular telephone systems, and computer systems protocols.

Prerequisite(s): TEC 122, 123, 124 and 125.*Corequisite(s):* TEC 227LB

Offered: Fall.

TEC 227LB Communication & Information Transmission Systems Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 227.

Corequisite(s): TEC 227

Offered: Fall.

TEC 228 RF and Microwave Devices

3 cr. hrs. 3 periods (3 lec.)

Properties, applications, measurements, and specifications of electronic communications components and systems at RF and microwave frequencies. Includes an overview, RF components, cellular phone devices, satellite devices, measurements, and code of federal regulations.

Prerequisite(s): TEC 122, 124, 125 and 221.*Corequisite(s):* TEC 228LB

Offered: Spring.

TEC 228LB RF and Microwave Devices Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 228.

Corequisite(s): TEC 228

Offered: Spring.

TEC 229 Integrated Systems in Telecommunications

4 cr. hrs. 6 periods (3 lec., 3 lab)

Overview of communications. Includes types of systems, importance of specifications, installation, tests, measurements, installation maintenance, repair, systems documentation, and common emergencies.

Prerequisite(s): TEC 228.

Offered: Fall.

TEC 230 Peer-To-Peer Networking and Network Cabling Fundamentals

3 cr. hrs. 3 periods (3 lec.)

Introduction to basic networking concepts and cabling standards. Includes the OSI model of networking, types of networking, multi-user vs. single-user programs, network security, type of connections, and type of cabling.

Prerequisite(s): TEC 132.*Corequisite(s):* TEC 230LB*Information: Prerequisite maybe waived with consent of instructor.*

Offered: Spring.

TEC 230LB Peer-To-Peer Networking and Network Cabling Fundamentals Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 230.

Corequisite(s): TEC 230

Offered: Spring.

TEC 232 Dedicated Server Networks

3 cr. hrs. 3 periods (3 lec.)

Dedicated file server networking technology using industry standard network operating systems. Primary NOS includes NetWare server installation, configuration, maintenance, and operation. Also includes installation of network interface card, user accounts, directories, backups, permissions, printer servers, printer queues, printer definitions, printer configurations, and remote printing.

Prerequisite(s): TEC 230.*Corequisite(s):* TEC 232LB

Offered: Fall.

TEC 232LB Dedicated Server Networks Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 232.

Corequisite(s): TEC 232

Offered: Fall.

TEC 234 Microcomputer Repair

2 cr. hrs. 2 periods (2 lec.)

Repair and replacement of microcomputer components. Includes microprocessors and system architecture. Also includes tools, test equipment, handshaking, and troubleshooting.

Prerequisite(s): TEC 122, 123, 124, 125, 132.*Corequisite(s):* TEC 234LB

Offered: Spring.

TEC 234LB Microcomputer Repair Lab

2 cr. hrs. 4 periods (4 lab)

This is the Lab portion of TEC 234.

Corequisite(s): TEC 234

Offered: Spring.

TEC 235 Interconnecting Network Devices

3 cr. hrs. 4 periods (2 lec., 2 lab)

Focus on installation and usage of switches and routers connected in Local-Area Networks (LANs) and Wide-Area Networks (WANs) at small to medium network sites. Includes introduction to networks, cabling, Cisco IOS, interconnecting catalyst switches, interconnecting Cisco routers, and extending the network WANs.

Prerequisite(s): TEC 132.

Offered: Fall.

TEC 236 Underpinnings of the Internet

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to the Internet, web servers, and its related services. Includes development of the Internet, connecting to the Internet, File Transfer Protocol (FTP) and Telnet, electronic mail-the basic Internet tool, hypertext and the World Wide Web, creating web documents in HTML, and web servers.

Prerequisite(s): TEC 130.

Offered: Spring.

TEC 237 Contemporary Client/Server Computing

2 cr. hrs. 2 periods (2 lec.)

Introduction to client/server computing. Includes history and overview of client/server computing, client/server building blocks, clients, servers, and operating systems, users, groups, profiles, and policies, server resources, sequential query language database servers, and client/ server groupware.

Prerequisite(s): TEC 232 and 235.Corequisite(s): TEC 237LB

Offered: Spring.

TEC 237LB Contemporary Client/Server Computing Lab

1 cr. hrs. 2 periods (2 lab)

This is the Lab portion of TEC 237.

Corequisite(s): TEC 237

Offered: Spring.

TEC 239 UNIX/Linux Support and Service

4 cr. hrs. 6 periods (2 lec., 4 lab)

Introduction to UNIX/Linux maintenance, operation, connectivity, and administrative functions with main emphasis on hardware and troubleshooting techniques. Also includes security, commands, and file systems.

Prerequisite(s): TEC 230.

Offered: Fall.

TEC 250 Digital Devices

3 cr. hrs. 3 periods (3 lec.)

Digital integrated circuits, primarily TTL. Includes power requirements, propagation delay, input and output electrical characteristics, counters, latches, multiplexors, decoders, flip-flops and other digital devices. Also includes digital circuit troubleshooting.

Prerequisite(s): TEC 122, 123.Corequisite(s): TEC 250LB

Offered: Fall.

TEC 250LB Digital Devices Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 250.

Corequisite(s): TEC 250

Offered: Fall.

TEC 251 Analog Circuits

3 cr. hrs. 3 periods (3 lec.)

Advanced analog circuits used in current digital systems. Includes logic and number system review, methods of representing, logical functions, combinatorial logic families, power supply requirements, input characteristics, outputs, and voltages.

Prerequisite(s): TEC 221.Corequisite(s): TEC 251LB

Offered: Spring.

TEC 251LB Analog Circuits Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 251.

Corequisite(s): TEC 251

Offered: Spring.

TEC 255 Microprocessor I

3 cr. hrs. 3 periods (3 lec.)

Introduction to microprocessor operation. Includes microprocessor basics, addressing modes, introduction to programming, architecture and instruction set, stack operations, double accumulator and subroutine instructions, and input/output (I/O) and interrupt operations.

Prerequisite(s): TEC 123.Corequisite(s): TEC 255LB

Offered: Spring.

TEC 255LB Microprocessor I Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 255.

Corequisite(s): TEC 255

Offered: Spring.

TEC 256 Microprocessor II

3 cr. hrs. 3 periods (3 lec.)

In-depth study of microprocessor interfacing applications. Includes programmable interface devices, serial data communications, memory, programmable timers, A/D and D/A converter interfacing, control devices/circuits, and troubleshooting.

Prerequisite(s): TEC 255.Corequisite(s): TEC 256LB

Offered: Fall.

TEC 256LB Microprocessor II Lab

1 cr. hrs. 3 periods (3 lab)

This is the Lab portion of TEC 256.

Corequisite(s): TEC 256

Offered: Fall.

TEC 272 Semiconductor Manufacturing Processes I

3 cr. hrs. 3 periods (3 lec.)

Study of semiconductor manufacturing. Includes crystal growth, wafer preparation, wafer fabrication, oxidation, diffusion and ion implantation with attention to affiliated processes, equipment, materials, key concepts, measurements, safety, contamination control, tests, and terminology.

Prerequisite(s): TEC 103 and 171.

Offered: Fall.

TEC 273 Semiconductor Manufacturing Process II

3 cr. hrs. 3 periods (3 lec.)

Continuation of TEC 272. Includes photolithography (photomasking and etching), deposition, packaging, wafer test, evaluation, and process yields with attention to affiliated processes, equipment, materials, key concepts, measurements, safety, contamination control, tests, and terminology.

Prerequisite(s): TEC 272.

Offered: Spring.

TEC 274 Vacuum Systems and Power RF

2 cr. hrs. 2 periods (2 lec.)

Basic gas laws, theory, definitions, and applications of power RF in manufacturing industries. Includes the atmosphere, vacuums, pressure, gas flow, removal of gases, phases/states of matter, heat transfer in vacuum, vacuum gauges, rough and vacuum pumps, leak detection, components and materials, and vacuum lab procedures. Also includes heating effects of RF, vacuum tube principles, plasmas, RF generator and etch systems, power supply considerations, measurements and calibrations, and safety.

Prerequisite(s): TEC 122 and 125.Corequisite(s): TEC 274LB

Offered: Spring.

TEC 274LB Vacuum Systems and Power RF Lab

1 cr. hrs. 2 periods (2 lab)

This is the Lab portion of TEC 274.

Corequisite(s): TEC 274

Offered: Spring.

TEC 284 Calibration of Optical Systems

3 cr. hrs. 5 periods (1 lec., 4 lab)

Applications of specialized equipment and analytical procedures for performance evaluation and calibration of optical systems in the optics industry. Includes radiometric entities and figures of merit used to describe system performance, NIST traceability for radiation standards and associated hardware. Also includes use of point sources, Jones sources, extended area sources, and collimated sources related to use in calibration, measurement of noise and statistical methods of noise cancellation to improve signal to noise ratios.

Prerequisite(s): TEC 141.

Offered: Fall.

TEC 286 Fiber Optics Installation and Testing

3 cr. hrs. 4 periods (2 lec., 2 lab)

Installation and use of optical fibers and related equipment in the optical industry. Includes optics theory, fiber types, cable assembly and installation, testing of cables, special equipment, and survey of applications.

Prerequisite(s): TEC 141 or concurrent enrollment.

Offered: Spring.

TEC 287 Laser Fundamentals

3 cr. hrs. 4 periods (2 lec., 2 lab)

Fundamentals of lasers and how they are built and used in industry. Includes laser safety, properties of laser light, introduction to quantum mechanics, cavity design, effects of extra cavity feedback and stability, laser types and applications, cooling, and assembly and testing techniques.

Prerequisite(s): TEC 141.

Offered: Spring.

TEC 288 Optical Testing

4 cr. hrs. 6 periods (2 lec., 4 lab)

Common techniques and equipment for testing of optical systems and components. Includes optical testing theory, measurement of paraxial parameters, interferometers, non-interferometric tests, and surface profiling.

Prerequisite(s): TEC 141.

Offered: Spring.

TEC 290 Technology Education Field Experience

1-6 cr. hrs. 5-30 periods (5-30 lab)

Participation in a high technology placement to provide experience in the practical application of classroom instruction. Includes practical experience, observation of business practices, job skills preparation, and an emphasis on work-place behaviors.

Information: Consent of instructor is required before enrolling in this course. May be taken two times for a maximum of six credit hours.

Offered: Fall, Spring.

Theater

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

THE 104 Voice and Movement for the Actor

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and practice of voice and movement skills for the actor. Includes phonetics, physical isolation and awareness exercises, development and practice of stage dialects, and physicalization of character.

Information: May be taken five times for a maximum of fifteen credit hours.

Offered: Fall, Spring.

THE 105 Theater Appreciation

3 cr. hrs. 3 periods (3 lec.)

Survey and the nature and history of theater. Includes the occupation of theater, theater production and practitioners, historical perspectives, modes of genre, dramatic structure and theatrical space and time, and performance.

Prerequisite(s): WRT 100, 101 or 102.

Information: Student are expected to attend and critique three theatrical performances. Students may also be required to participate in PCC theatre productions for additional credit.

Offered: Fall, Spring, Summer.

THE 109 Introduction to Chicano Theatre Arts

2 cr. hrs. 3 periods (1 lec., 2 lab)

Survey of the use of Chicano theatre as a tool for social change in the United States from the 1960's to the present. Includes introduction to acting and performance techniques, analysis and readings from significant Chicano theatre pieces, and examination of Chicano theatre elements such as play structure, dramatic forms, techniques and styles.

Recommendation: Knowledge of the Spanish language before enrolling in this course.

Offered: May not be offered this year, check class schedule.

THE 110 Movement/Dance for Actors

2 cr. hrs. 3 periods (1 lec., 2 lab)

Physical dynamics of actor training. Includes relaxation and warm-up techniques, vocabulary for movement, use of movement in developing acting skills, and improvisation for scenes and text analysis. Also includes execution of basic dance and movement, as well as the history of dance and movement for musical theater, and exercises.

Offered: Spring.

THE 111 Stagecraft

3 cr. hrs. 3 periods (3 lec.)

Principles and the practical application to the operation and techniques of various types of stages and stage scenery. Includes theater organization, geography, shop safety, tools and hardware applications, historic overview, construction design, three-dimensional scenery, and properties research. Also includes acquisition, maintenance, costume design, stage rigging systems, paint, materials handling, measuring, construction, assembly, finishing, rigging, and painting techniques.

Corequisite(s): THE 113

Offered: Fall.

THE 113 Stagecraft Crew

1 cr. hrs. 3 periods (3 lab)

Preparing, organizing, setting up, running and shifting of theatrical sets, properties and costumes for approved theatrical productions.

Corequisite(s): THE 111

Offered: Fall.

THE 115 Make-Up

1 cr. hrs. 2 periods (2 lab)

Principles and practice of straight and character make-up under various conditions. Includes special effects, clown make-up and principles of mask-making.

Offered: May not be offered this year, check class schedule.

THE 118 Basic Theater Graphics

3 cr. hrs. 3 periods (3 lec.)

Principles and practice of graphic skills necessary in the planning of theatrical productions. Includes drafting and mechanical drawing, perspective drawing, and watercolor painting techniques.

Offered: Spring.

THE 125 Theater Production

2 cr. hrs. 6 periods (6 lab)

The practical application of exploratory learning within an ensemble setting. Includes the relating of ideas and possibilities to practical methods, skills and structure of Theatrical Production.

Information: May be taken four times for a maximum of eight credit hours. Consent of instructor required before enrolling in this course.

Offered: Fall, Spring.

THE 135 Stage Combat

2 cr. hrs. 4 periods (1 lec., 3 lab)

A basic study in the execution of staged violence for practical use in the theater productions. Includes unarmed fighting and armed combat.

Offered: May not be offered this year, check class schedule.

THE 140 History of Theater to the 18th Century

3 cr. hrs. 3 periods (3 lec.)

Survey of theater, drama and audiences from its origins to the late 18th century. Includes changes in theaters, stages and theatrical conventions, and representative plays from each period.

Offered: Fall.

THE 141 History of Theater Since the 18th Century

3 cr. hrs. 3 periods (3 lec.)

Survey of theater, drama and audiences from the 18th century to the present. Includes changes in theaters, stages and theatrical conventions, and representative plays from each period.

Offered: Fall.

THE 149 Introduction to Acting I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to performance techniques and the development of physical skills for effective performance. Includes techniques of acting and characterization.

Offered: Fall, Spring.

THE 151 Introduction to Acting II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of THE 149. Includes methods of developing and projecting a character's physical scope, emotional inner life, and the employment of subtext (unspoken thoughts) in performances. Also includes techniques for character and script analysis.

Prerequisite(s): THE 103 or concurrent enrollment and THE 149.

Offered: Fall, Spring.

THE 210 Screen Acting

2 cr. hrs. 3 periods (1 lec., 2 lab)

Introduction to film and television acting techniques. Includes special technical aspects of acting before a camera, performance preparation, and conduct of performance.

Offered: Fall, Spring.

THE 215 Stage Directing

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to the basic principles of stage directing. Includes historical overview, script analysis, directorial script notation and concepts for specific plays, research analysis, casting and production practices, choosing production support material, presentation of short theatrical productions, final analysis, and submitting research notes.

Offered: May not be offered this year, check class schedule.

THE 220 Stage Lighting

3 cr. hrs. 3 periods (3 lec.)

Principles of stage lighting design and practice. Includes historical context, electricity and lamps, fixtures, dimming equipment, control equipment, color media use and handling, design techniques, special effects and set up, and safety procedures. Also includes care, maintenance, proper use of lighting equipment, organization of lighting work, and operation.

Corequisite(s): THE 222

Offered: Fall.

THE 222 Stage Lighting Crew

1 cr. hrs. 3 periods (3 lab)

Organizing, setting up and operating of stage lighting for approved theatrical productions.

Corequisite(s): THE 220

Offered: Fall.

THE 223 Scene Design

3 cr. hrs. 5 periods (2 lec., 3 lab)

Principles of scene design for various types of stage and models of productions. Includes historical context, theater architecture, scenic elements, design process and research, development of working drawings, perspective rendering, color use, period styles in furniture and architecture, and script analysis. Also includes cost estimates, material choices, advanced construction techniques, paint mixing and application techniques, stage furniture overview, and set dressing and finishing.

Corequisite(s)

Offered: Spring.

THE 245 Principles of Dramatic Structure

3 cr. hrs. 3 periods (3 lec.)

Examination of the structural elements of major dramatic forms and styles. Includes role of the dramaturge; examination of major themes; analysis of dramatic forms, styles, and actor-audience relationships; visualizing a text; and character analysis. Also includes analysis of text for language and poetic elements, dramatic criticism, and play production as a collaborative effort.

Offered: Spring.

THE 250 Intermediate Acting I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Intermediate Acting I Theory and practice of creating sustained and logical character portrayals using all types of dramatic literature from various cultures. Includes rehearsal and performances of scenes in representational styles and practice in auditioning techniques.

Prerequisite(s): THE 103 and 111 or concurrent enrollment, and THE 149.

Offered: Fall.

THE 251 Intermediate Acting II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Performance-oriented class focuses on the practice and theory of pre-realistic styles of acting, and focuses on Shakespeare through the use of verse and prose. Includes the performance and analysis of Commedia del Arte, Moliere (Neo-classicism), and Restoration.

Prerequisite(s): THE 104 and 111 or concurrent enrollment, and THE 151 or 250.

Offered: Spring.

THE 296 Independent Studies in Theater

1-4 cr. hrs. 3-12 periods (3-12 lab)

Students work at various assigned tasks in theatrical settings under the guidance of an instructor. Includes the opportunity for the student to design his/her own project with the instructor's approval.

Information: May be taken eight times for a maximum of eight credit hours.

Offered: May not be offered this year, check class schedule.

Therapeutic Massage

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

TMA 101 Introduction to Massage Therapy

3 cr. hrs. 3 periods (3 lec.)

Survey of massage therapy practice including history, overview of bodywork systems, benefits and indications of massage, and legal requirements of practice in Arizona.

Offered: Fall, Spring.

TMA 120 Professionalism and Ethics for Massage Therapists

1 cr. hrs. 1 periods (1 lec.)

Overview of the ethics and professionalism related to an effective, successful touch therapy practice. Includes general ethical principles of practice, professional dress and conduct, boundaries and communication, and ethical business practices.

Offered: Spring.

TMA 122 Business Management for Massage and Bodywork Practitioners

1 cr. hrs. 1 periods (1 lec.)

Business management course designed specifically for massage therapy and bodywork practitioners. Includes business planning and development, financial management, marketing, communications, and ethics specific to the business management of these professional practices.

Information: Can be taken as an elective or for continuing education hours.

Offered: Fall, Spring, Summer.

TMA 201IN Therapeutic Massage Practices I

6 cr. hrs. 9 periods (3 lec., 6 lab)

Principles of professionalism, ethics, and legalities. Includes use of terminology related to massage therapy. Applications, indications, and contraindications of the nine strokes of Swedish massage. Study of the human osseous and muscular structure. Emphasis on normal movement patterns, origins, insertions, and functions of the muscular system.

Prerequisite(s): BIO 160 and TMA 101 with a grade of C or better.

Information: Completion of PSY 101, TMA 120 and WED 110 and 111 with a grade of C or better required before enrolling in this course. Course restricted to students admitted to program. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Fall.

TMA 202IN Therapeutic Massage Practices II

6 cr. hrs. 9 periods (3 lec., 6 lab)

Refined application of the nine strokes of Swedish massage and contraindications to avoid. Application of advanced principles and techniques of trigger point therapy, muscle energy technique, stretching, hydrotherapy protocols, hot and cold applications, reflexology, and corporate massage. Study of the human osseous and muscular structure. Emphasis on normal movement patterns and the origin, insertion, and function of the muscular system.

Prerequisite(s): TMA 201IN with a grade of C or better.

Information: Course restricted to students admitted to program. IN is the integrated version of the course with the lab and lecture taught simultaneously.

Offered: Fall.

TMA 202LC Therapeutic Massage Practice Clinical Lab I

1 cr. hrs. 3 periods (3 lab)

Students practice and perfect the application of fundamental Swedish Massage techniques in a supervised, supportive learning environment in an on-site clinical setting. Course reinforces massage theory and practice learned in TMA 201.

Prerequisite(s): Requires concurrent registration with TMA 202.

Offered: Fall.

TMA 203IN Therapeutic Massage Practices III

6 cr. hrs. 9 periods (3 lec., 6 lab)

Refinement and integration of technical skills, psychosocial competencies, and role identity. Exploration of techniques to assess and facilitate range of motion and functions; purpose, benefits, indications, and contraindications of therapeutic massage for specific neuro-musculoskeletal disorders/injury and special populations. Application of massage techniques with therapist's pre- and post-client evaluations of the client. Adaptation of massage techniques for special populations.

Prerequisite(s): TMA 202IN, 210, and 211 with a grade of C or better.

Information: Course restricted to students admitted to program. IN is the integrated version of the course with the lecture and lab taught simultaneously.

Offered: Spring.

TMA 203LC Therapeutic Massage Practice Clinical Lab II

1 cr. hrs. 3 periods (3 lab)

Students practice and perfect the application of Swedish and Deep Tissue massage techniques in a supervised, supportive learning environment in an onsite clinical setting. Course reinforces massage theory and practice learned in TMA 202.

Prerequisite(s): Requires concurrent registration with TMA 203.
Offered: Spring.

TMA 210 Fundamentals of Kinesiology

3 cr. hrs. 4 periods (2 lec., 2 lab)

The course will provide a survey of the biology of movement including a review of the skeletal and muscular systems, planes of movement and terms of anatomical references; structure and functions of joints; origins, insertions and actions of muscles of the trunk and limbs. Lab portion will include demonstration and analysis of normal and abnormal movement.

Prerequisite(s): BIO 160.
Offered: Spring.

TMA 211 Introduction to Human Systems Pathology

3 cr. hrs. 3 periods (3 lec.)

The course will introduce the student to basic disease processes and common pathologies associated with each of the organ systems.

Prerequisite(s): BIO 160.
Offered: Fall.

TMA 212 Pathology for Massage and Bodywork

1 cr. hrs. 1 periods (1 lab)

Provides an overview of pathology as related to massage therapy and bodywork. Includes cautions, contraindications and adaptive measures as applied to common pathologies of organ systems. Also includes the potential interactions between bodywork and medications.

Prerequisite(s): Current Therapeutic Massage Program students must have completed TMA 211 with a grade of "C" or better.
Information: Can be taken by licensed massage therapists as an enrichment elective or continuing education hours.
Offered: Fall, Summer.

TMA 214 Pregnancy Massage

1 cr. hrs. 1 periods (1 lec.)

Basic information and techniques for performing massage on pregnant clients. Includes information about body changes during pregnancy, benefits and cautions of pregnancy massage, and techniques for common discomforts during pregnancy. Also includes pre-session considerations, setting and supplies for pregnancy massage, and suggestions for documentation.

Prerequisite(s): Must be an active massage student or licensed massage therapist.
Information: Designed as a TMA elective or continuing education for licensed massage therapists.
Offered: Summer.

TMA 240 Therapeutic Massage National Certification Exam Preparation

2 cr. hrs. 2 periods (2 lec.)

Course prepares students for National Certification Exam in Therapeutic Massage and Bodywork. Course includes anatomy, physiology, kinesiology and pathology of body systems; Asian and non-Western bodywork approaches; massage and bodywork assessment, theory and application; and professional standards, ethics, and business and legal practices. Also includes effective study approaches and test taking strategies.

Information: Offered for current massage students or licensed massage therapists or bodyworkers.
Offered: Spring, Summer.

TMA 290LC Therapeutic Massage Clinical

3 cr. hrs. 8 periods (8 lab)

Application and integration of fundamental and advanced massage techniques for various purposes and populations. Includes Swedish, Deep Tissue, Pain and Injury Management, Stretching, Range of Motion, Asian, Energy and Hospital-Based massage therapies.

Prerequisite(s): Completion of TMA 101, 120, 122, 201IN, 202IN, 202LC, 203IN, 203LC, 210, 211, WED 110, and 111 with a grade of "C" or better.
Offered: Spring.

TMA 291 Therapeutic Massage Internship

1 cr. hrs. 5 periods (5 lab)

Advancement and refinement of the knowledge, practice skills and professional abilities necessary for success in a therapeutic massage setting. Includes observing, assisting and participating in various duties and massage practices in an off-site, clinical therapeutic massage setting as appropriate and

specific to the internship site. Also includes observation and application of business and professional skills.

Prerequisite(s): Completion of TMA 101, 120, 122, 201IN, 202IN, 202LC, 203IN, 203LC, 210, 211, and 212, WED 110 and 111 with a grade of "C" or better.

Information: Maybe taken 3 times for a maximum of 3 credits hours.
Offered: Spring.

Tohono O'odham

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

THO 101 Elementary Tohono O'odham I

4 cr. hrs. 4 periods (4 lec.)

Skill development to provide proficiency in basic communication in the Tohono O'odham language. Includes listening, speaking, reading, and writing. Also includes an emphasis on examination of Tohono O'odham cultural traditions.
Offered: May not be offered this year, check class schedule.

THO 102 Elementary Tohono O'odham II

4 cr. hrs. 4 periods (4 lec.)

Continuation of THO 101. Includes increased proficiency in listening, speaking, reading and writing and continued study of Tohono O'odham cultural traditions.

Prerequisite(s): THO 101.
Offered: May not be offered this year, check class schedule.

Translation and Interpretation Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

TRS 100 Survey of Translation and Interpretation Studies

3 cr. hrs. 3 periods (3 lec.)

Professional, sociolinguistic, and cognitive aspects of translation and interpretation. Includes social justice goals and language policy for interpretation and translation, role of translators and interpreters, consecutive interpretation, role of norms in legal translation, conservation of meaning, register, and style, meaning of translation, health care interpretation and translation, and business and technical translation.

Offered: May not be offered this year, check class schedule.

TRS 101 Introduction to Translation

3 cr. hrs. 3 periods (3 lec.)

Principles and procedures for the translation of written materials. Includes an introduction to translation, translation preparation, translation procedures, and specialties, and work of the translator.

Offered: Fall.

TRS 102 Spanish for Translation

4 cr. hrs. 4 periods (4 lec.)

Analysis of the Spanish language from the translator's point of view. Includes the structure of Spanish, cultural and stylistic components, semantics, dialectal differences and interferences, and Lexical obstacles.

Prerequisite(s): SPA 254.
Offered: Fall.

TRS 103 English for Translation

4 cr. hrs. 4 periods (4 lec.)

Analysis of the English language from the translator's point of view. Includes the structure of English, cultural and stylistic components, semantics, standard English mechanics and punctuation, and metaphorical and idiomatic English.

Prerequisite(s): WRT 102.
Offered: Spring.

TRS 120IN Technology for Translation and Interpretation

2 cr. hrs. 3 periods (1 lec., 2 lab)

Survey of the technological equipment that facilitates the work of the translator. Includes computers for transcription/translation, information distribution techniques, file transfer technologies, using the World Wide Web in translation and interpretation, and applied projects.

Prerequisite(s): CSA 101 and TRS 101.
Information: CSA 101 may be waived if computer applications experience is documented. See an instructor. IN is the integrated version of the course with lecture and lab taught simultaneously.
Offered: Spring.

TRS 150 Survey of Translation Specialty Areas

4 cr. hrs. 4 periods (4 lec.)

Introduction to the translation specialty areas of health care, legal, literary, and commercial/business. Includes introduction to specialty areas, types of documents, elements and characteristics of specialty documents, resource development, ethical and legal restrictions, and development of translation subskills.

Prerequisite(s): TRS 102 and 103.

Offered: Spring.

TRS 160 Translation in Specialty Areas

4 cr. hrs. 4 periods (4 lec.)

Principles and procedures for translating specialty area materials. Includes health care, legal, commercial/business, and literary translation exercises.

Prerequisite(s): TRS 120 and 150.

Offered: Summer.

TRS 161 Medical Spanish/English Interpreting

3 cr. hrs. 3 periods (3 lec.)

Interpreting in a medical context. Includes interpreting in a medical setting, pronunciation of Spanish and English names and medical terms, Spanish and English medical terminology, bicultural medical communication, and regional dialects.

Information: This course assumes bilingual fluency in both English and Spanish.

Offered: May not be offered this year, check class schedule.

TRS 202 Interpretation Techniques

3 cr. hrs. 3 periods (3 lec.)

Specific theories and practices in interpreting oral communication from English to Spanish and Spanish to English. Includes theories of interpretation, techniques of interpretation, interpretation strategies, interpretation procedures, and modes of interpretation.

Prerequisite(s): TRS 101, 102, and 103.*Information: Consent of instructor is required before enrolling in this course. See the TRS instructor or department chair for more prerequisite information.*

Offered: May not be offered this year, check class schedule.

TRS 203 Consecutive Interpretation and Sight Translation

4 cr. hrs. 6 periods (3 lec., 3 lab)

Essential modes of interpretation. Includes history and use, theory, interpreting skills development, sight translation skills, consecutive interpretation skills, and interpretation issues.

Prerequisite(s): TRS 102, 103 and 202.*Information: Consent of instructor may be obtained in lieu of prerequisite requirement.*

Offered: May not be offered this year, check class schedule.

TRS 270 Simultaneous Interpretation

4 cr. hrs. 4 periods (4 lec.)

Study and practice of simultaneous interpretation. Includes history and use, theory, interpreting skills development, simultaneous interpretation skills, and issues in simultaneous interpretation.

Prerequisite(s): TRS 202.

Offered: May not be offered this year, check class schedule.

TRS 282 Advanced Project in Translation

4 cr. hrs. 5 periods (3 lec., 2 lab)

Engaging in a specialty area advanced project to produce a translated product. Includes agency/individual sponsor, translation goals, translating written documents, on-site and/or supervised training, and preparation for exit competency evaluation.

Prerequisite(s): TRS 160.

Offered: May not be offered this year, check class schedule.

Travel/Industry Operations

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

TVL 101 Introduction to the Travel Industry

3 cr. hrs. 3 periods (3 lec.)

Major components of travel products and careers. Includes travel industry and hospitality products, distribution of the travel product, and careers in the travel industry.

Offered: Fall, Spring, Summer.

TVL 102 Computerized Reservation Systems

3 cr. hrs. 5 periods (2 lec., 3 lab)

Basic software training. Includes screen management, passenger name record (PNR), Sabre's FOX, PNR modifications, faring/pricing the completed PNR, booking and pricing hotels and rental cars.

Offered: Fall, Spring, Summer.

TVL 103 Geography for the Tourism Professional

3 cr. hrs. 3 periods (3 lec.)

Examination of tourist attractions and applied physical geography of global tourism destinations. Students will choose three of the following geographic areas on which to focus: North America, Mexico, Northern and Central Europe, East Africa, East Asia, France, Southern Europe, Alaska, Hawaii, and Hong Kong. Includes the Travel Institute's Destination Specialist Certification Exam in the geographic areas studied.

Offered: Fall, Spring, Summer.

TVL 109 Survey of Leisure Products

3 cr. hrs. 3 periods (3 lec.)

Leisure travel components. Includes hotels, rental cars, AMTRAK, tours, and cruise accommodations.

Offered: Fall, Spring, Summer.

TVL 121 Tourism Sales and Marketing

3 cr. hrs. 3 periods (3 lec.)

Concepts of selling techniques for the tourism professional. Includes phone and internet selling strategies as well as an introduction to listening skills, sales techniques, client behavior styles, closing the sale, legal aspects of the travel industry for inside, outside and home-base tourism professionals. Also includes concepts of tourism marketing and marketing techniques for the tourism professional, consumer behavior, strategies, and marketing elements.

Offered: Fall, Spring, Summer.

TVL 209 Introduction to Tour Guiding

3 cr. hrs. 4 periods (3 lec., 1 lab)

Specific training for students interested in becoming a tour guide. Includes career opportunities, Destination Management Companies, managing tour groups, public speaking, and pre-tour planning. Also includes briefing tour members, tour guide policies and procedures, airport departure and arrival procedures, dealing with health and medical issues and other tour group problems, and preparing for a job interview.

Offered: Spring.

TVL 211 Tour Direction and Tour Group Management

3 cr. hrs. 3 periods (3 lec.)

Introduction to the basic principles of guiding tours. Includes principles of tour group handling, tour group planning, tour guide basics, tour guide narration, tour guide procedures and challenges, and public speaking for the tour guide.

Offered: Fall, Spring, Summer.

TVL 296 Independent Study in Travel/Tourism

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Independent studies projects or special interest areas in travel/tourism. Content to be determined jointly between student and instructor.

Information: May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring, Summer.

Truck Driver Training

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

TDT 101 Introduction to Trucking and First Aid

3 cr. hrs. 3 periods (3 lec.)

Overview and introduction to the operation of a tractor-trailer and basic first aid. Includes an overview of the history of trucking, control systems, vehicle systems, coupling and uncoupling, CPR and first aid, over the road management, and the process to follow in the job search.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 102 Driver Challenges and Air Brake System

3 cr. hrs. 3 periods (3 lec.)

Operation of the tractor-trailer and the practices required to meet financial obligations. Includes visual search and communications, basic control, speed and space management, pre-trip inspection, extreme driving, emergency maneuvers, air brakes, preventative maintenance, shifting, backing, accident procedures, money, management, and special rigs and refrigerated trailers.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 103 Introduction to Hours of Service & Department of Transport Regulations

3 cr. hrs. 3 periods (3 lec.)

Handling responsibilities that do not involve operating a vehicle. Includes hours of service requirements, trip planning, and team logs.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 104 Hazardous Materials/Department of Transportation Regulations

3 cr. hrs. 3 periods (3 lec.)

Laws governing the transportation industry. Includes night operations, hazardous materials, Department of Transportation rules and regulations, and environment.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 105 Defensive Driving and Cargo Handling

3 cr. hrs. 3 periods (3 lec.)

Procedures for handling potentially dangerous situations and for handling of cargo. Includes visual search, hazard perception, satellite communication, electronic engines, driver safety, and cargo handling and documentation.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 106 Pre-Trip and Backing Skills

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Vehicle inspection and backing a tractor-trailer. Includes pre-trip inspection, backing, straight line, 45 degrees dock/offset, parallel park, serpentine, and visual search.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 107 Basic Control

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Building of skills required to maneuver a tractor-trailer. Includes engine start, instrument scan, proper gear start, steering position, mirror checks, rpm/range control, up shift progressive, down shift, double clutch, smooth braking, set parking brake, right hand turn, and left hand turn.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 108 Proficiency Development

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Introduction to safe driving techniques. Includes skip and shift recovery, visual and traffic checks, speed management, lane control and change, merge and exit freeway, space management, and use of signals and horn.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 109 Extreme Driving Conditions

1 cr. hrs. 1.5 periods (.5 lec., 1 lab)

Advanced techniques of control and safe driving. Includes uphill start and roll back, up and down hill upshift, up and down hill downshift, adverse condition, curve and passing control and hazard.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 110 Introduction to Externship

1 cr. hrs. 1 periods (1 lec.)

Overview and introduction to the operation of the company that will administer the externship of the trainee truck driver. Includes history of the company, company policies, and procedures for dispatch, payroll, insurance, requirements for logging, trip reporting, and paperwork.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 112 Preparation for the Commercial Driver License Exam

5 cr. hrs. 5 periods (5 lec.)

Information to prepare trainees to pass the Commercial Driver License exam and a Class A permit. Includes air brakes, pre-trip inspection, combination vehicle, and hazardous materials. Also includes information to manage speed effectively and respond to various road and weather conditions.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 113 Operation of a Tractor-Trailer

2 cr. hrs. 2 periods (2 lec.)

Techniques for the safe and efficient operation of a tractor-trailer. Includes coupling and uncoupling, backing, hazard perception, cargo handling, rules and regulations, hours of service, and trip planning and hours of service.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 114 Inspect, Operate, and Safe Driving a Tractor-Trailer

5 cr. hrs. 6 periods (4 lec., 2 lab)

Basic skills to inspect and operate a tractor-trailer safely. Includes pre-trip inspection, backing, basic control, visual search, progressive shifting, and communication. Includes safe driving techniques while developing driving proficiency. Also includes space management, extreme driving, speed management, and hazard perception.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 115 Safe Driving Techniques

1 cr. hrs. 3 periods (3 lab)

Safe driving techniques while developing driving proficiency. Includes space management, extreme driving, speed management, and hazard perception.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 116 Straight Truck and Bus Driver

3 cr. hrs. 3 periods (3 lec.)

Information to prepare the trainees to pass the Commercial Driver License (CDL) exam and obtain a class "B" permit. Includes CDL preparation, driving conditions, pre-trip inspection, air brakes, hazardous materials, and city map reading, hours of service, backing, cargo handling, and transporting passengers.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 117 Straight Truck and Bus Driver: Road and Range

1 cr. hrs. 3 periods (3 lab)

Techniques for the inspection and safe operation of a straight truck or bus. Includes pre-trip inspection, backing, basic control of left and right turns, progressive shifting, proficiency development, space and speed management, visual search and communication, extreme driving, and hazard perception.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 118 Basic Vehicle Operations and Commercial Driver's License Requirements

5 cr. hrs. 5 periods (5 lec.)

Basic methods of safety operating a combination vehicle. Includes the operation of the air brake system and uncoupling a tractor and trailer, cargo handling including hazardous materials, the proper method of conducting a pre-trip inspection, completion of braking maneuvers, and trip planning. Familiarization of the USDOT regulations including hours of service and Commercial Driver's Licensing requirements. Also includes method of managing life as professional driver, managing speed effectively and responding to road and weather conditions.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 119 Basic Driving Maneuvers

3 cr. hrs. 3 periods (3 lec.)

Demonstration and skill development of basic maneuvers of driving a combination vehicle. Includes driving proficiency development including control, backing, visual search, shifting, turning, space and speed management, and hazard perception. Successful completion of this class should prepare trainee for CDL license skill examination.

Prerequisite(s): TDT 118.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 120 Truck Driver Training Refresher

3 cr. hrs. 3 periods (3 lec.)

Overview of Truck Driver skill requirements. Includes a refresher of all range and road skills with instruction and demonstration: pre-trip and backing skills, basic control, proficiency development, and extreme driving conditions.

Information: Valid Commercial Driver's License and Department of Transportation physical and drug screen are required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 121 Hazard Awareness & Collision Avoidance for CDL Drivers

1 cr. hrs. 1 periods (1 lec.)

Basic skills in hazard awareness and collision avoidance for current Commercial Driver's License (CDL) drivers. Includes defensive driving, speed management, night driving, extreme driving conditions, hazard awareness, emergency maneuver, dangerous cargo, and skid control.

Information: A current Commercial Driver's License (CDL) is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 190 Truck Driver Training Externship

3 cr. hrs. 15 periods (15 lab)

Measured development of the entry-level driver and the employing company's achievement in promoting the new driver from trainee to solo operations. Includes objectives and guidelines to establish uniform progress, methodology, and the measurement of the essential skills necessary to all drivers.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 190A Truck Driver Training Externship A

1 cr. hrs. 5 periods (5 lab)

Overview of truck driver training in an externship format. Includes primary training goals and an assessment of initial qualifications.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 190B Truck Driver Training Externship B

1 cr. hrs. 5 periods (5 lab)

Overview of truck driver training in an externship format. Includes training the new driver, training materials, documentation of where to train, variety of driving experiences and conditions, vehicles and other equipment documentation, and duration of training. Also includes progressive advancement in skills and knowledge, specific training exercises, and periodic evaluation and remedial training for problem areas.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

TDT 190C Truck Driver Training Externship C

1 cr. hrs. 5 periods (5 lab)

Overview of truck driver training in an externship format. Includes initial competencies, control systems, instruments, inspections, and basic vehicle control.

Information: Admission to the Truck Driver Training Program is required before enrolling in this course.

Offered: Contact department at 206-2744.

Veterinary Science

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

VSC 101 Introduction to Veterinary Science I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Basic instruction in the comparative anatomy and physiology of mammals. Includes basic cell biology, tissue types and functions. Also includes major body systems and their roles in veterinary science.

Offered: May not be offered this year, check class schedule.

VSC 102 Introduction to Veterinary Science II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of VSC 101. Includes basic instruction in nutrition, diseases, surgery, and their roles in veterinary science. Also includes discussion of decision making in veterinary science.

Prerequisite(s): VSC 101.

Offered: May not be offered this year, check class schedule.

Veterinary Technology

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

VET 100 Introduction to Veterinary Technology

3 cr. hrs. 3 periods (3 lec.)

Introduction into the role of the veterinary technician careers and career paths, legal applications, ethical responsibilities, professional attitudes, medical terminology, and occupational safety issues. Also includes breed identification of domestic animals, behavioral characteristics of animals, human-animal bonding, and dealing with pet loss.

Corequisite(s): VET 110, VET 130, VET 225

Information: Admission to the Veterinary Technology program is required before enrolling in this course.

Offered: Fall.

VET 101 Companion Animals: Dogs and Cats

2 cr. hrs. 2 periods (2 lec.)

Overview of companion animal (dog & cat) ownership and care. Topics will cover all aspects of dog and cat ownership and care from selecting the right breed to grooming and training. Includes basic nutrition and medical care. Also includes an overview of the changing needs of an aging pet.

Offered: May not be offered this year, check class schedule.

VET 102 Companion Animals: Birds

3 cr. hrs. 4 periods (2 lec., 2 lab)

Overview of bird ownership and care. Topics will cover all aspects of bird ownership and care from selecting the right bird to housing and husbandry. Includes basic anatomy and physiology. Also includes diseases, illnesses, and injuries common to pet birds.

Offered: May not be offered this year, check class schedule.

VET 105 Practical Wildlife Rehabilitation

3 cr. hrs. 3 periods (3 lec.)

Introduction to the practical handling and rehabilitation of a variety of wild species with a state and nationally licensed wildlife rehabilitator. Includes skills, education and sponsored experience with several domestic species. Also includes the handling of some advanced species that will require a demonstration of competency.

Information: This is not a restricted course and is open to any student interested in wildlife. This course would be beneficial to Veterinary Technology, Wildlife Management or other biological science related majors. Additional immunizations may be required before enrolling in this course.

Offered: Spring.

VET 106 Basic Skills for Veterinary Practice Assistant

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to the basic skills needed to assist veterinary professionals in the quality care of animals. Includes animal restraint, nursing, vaccinations and other basic assisting skills.

Corequisite(s): VET 107, VET 108

Information: Consult with program faculty before enrolling in this course.
Offered: Fall, Spring.

VET 107 Advanced Skills for Veterinary Practice Assistants

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of skills for assisting veterinary professionals in the quality care of animals. Includes pharmacy, surgical, laboratory and imaging skills.

Corequisite(s): VET 106, VET 108

Information: Consult with program faculty before enrolling in this course.
Offered: Fall, Spring.

VET 108 Introduction to Veterinary Facility Practices

6 cr. hrs. 6 periods (6 lec.)

Introduction into the role of the veterinary practice assistant in the veterinary medicine profession. Includes careers and career paths, legal applications, ethical responsibilities, professional attitudes, medical terminology, and occupational safety issues. Also includes standard office procedures with an emphasis in client relations and education and computer skills, breed identification of domestic animals, behavioral characteristics of animals, human-animal bonding, and dealing with pet loss.

Corequisite(s): VET 106, VET 107

Information: Consult with program faculty before enrolling in this course.
Offered: Fall, Spring.

VET 110 Veterinary Nursing Procedures I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to veterinary nursing techniques. Includes physical examination, history taking, injections, preventative health care, basic nutrition and animal restraint. Also includes husbandry techniques, kennel management and sanitation of kennel facilities for dogs and cats.

Corequisite(s): VET 100, VET 130, VET 225

Information: Admission to the Veterinary Technology program is required before enrolling in this course.
Offered: Fall.

VET 111 Veterinary Nursing Procedures II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of VET 110 with an emphasis on venipuncture, catheterization, fluid therapy and basic dental care procedures. Includes complete physical examinations, wound management, CPR and first aid.

Prerequisite(s): VET 100, 110, 130 and 225.

Corequisite(s): VET 120, VET 131, VET 150

Offered: Spring.

VET 120 Clinical Pathology I

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to clinical pathology. Includes pathology terminology, basic laboratory procedures and specimen collection and preservation. Also includes basic use and care of microscopes.

Prerequisite(s): VET 100, 110, 130 and 225.

Corequisite(s): VET 111, VET 131, VET 150

Offered: Spring.

VET 121 Clinical Pathology II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of VET 120. Includes review of laboratory procedures, urinalysis, and cytologic evaluations. Also includes pathogens, parasites, and hematologic evaluations.

Prerequisite(s): VET 111, 120, 131 and 150.

Corequisite(s): VET 200, VET 211

Offered: Fall.

VET 130 Animal Anatomy and Physiology I

4 cr. hrs. 6 periods (3 lec., 3 lab)

Anatomy and Physiology of domestic animals. Includes the study of body systems such as skeletal, muscular, integumentary, special sense organs, circulatory and digestive. Also includes principles of disease.

Corequisite(s): VET 100, VET 110, VET 225

Information: Admission to Veterinary Technology program is required before enrolling in this course.
Offered: Fall.

VET 131 Animal Anatomy and Physiology II

3 cr. hrs. 4 periods (2 lec., 2 lab)

Continuation of VET 130. Includes the study of the nervous, respiratory, reproductive systems and teeth. Also includes endocrine and urinary systems and principles of disease.

Prerequisite(s): VET 100, 110, 130 and 225.

Corequisite(s): VET 111, VET 120, VET 150

Offered: Spring.

VET 150 Pharmacology

3 cr. hrs. 4 periods (2 lec., 2 lab)

Introduction to regulations of biologics and pharmaceuticals. Includes classification, dosage calculations, labeling, logging and packaging of drugs.

Prerequisite(s): VET 100, 110, 130 and 225.

Corequisite(s): VET 111, VET 120, VET 131

Offered: Spring.

VET 191 Veterinary Technician Clinical Experience I

3 cr. hrs. 12 periods (12 lab)

Supervised five-week clinical experience, which will be conducted at local veterinary hospitals, clinics, laboratory and zoo or research facilities.

Information: Completion of first year Veterinary Technology courses is required before enrolling in this course.

Offered: Summer.

VET 196 Independent Study in Veterinary Technology

1-3 cr. hrs. 1-3 periods (1-3 lec.)

Independent study course offering students an inroad to focus on a particular Veterinary Medical subject or subjects, to study that subject, and to hone manual skills while working in an independent format. Content of study and its manner of execution must be developed through mutual agreement between the student and the instructor PRIOR to enrollment in the course.

Information: Consent of instructor is required before enrolling in this class.

Offered: Fall, Spring.

VET 200 Anesthetic and Surgical Nursing

3 cr. hrs. 4 periods (2 lec., 2 lab)

Techniques and procedures involving surgery and anesthesia. Includes preparation and identification of instruments and equipment, routine surgical procedures and handling of instruments and supplies during surgery. Also includes anesthesia induction and monitoring, post surgical care, clean up and surgical record keeping.

Prerequisite(s): VET 111, 120, 131 and 150.

Corequisite(s): VET 121, VET 211

Offered: Fall.

VET 205 Radiology and Imaging Techniques

3 cr. hrs. 4 periods (2 lec., 2 lab)

Principles and techniques of radiographic imaging. Includes the production of X-rays, radiographic equipment, safety measurement, and radiographic quality. Also includes diagnostic radiographs, positioning of patients, darkroom techniques and X-ray processing.

Prerequisite(s): VET 121, 200 and 211.

Corequisite(s): VET 210, VET 220

Offered: Spring.

VET 210 Veterinary Nursing Procedures III

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of VET 111. Includes both small and large animal topics, restraint procedures, nursing care and behavior of large animals, preventive medicine, nutrition, and large animal medical and surgical procedures. Also includes mentoring techniques, teamwork, communications, and health problem assessment involving kennel management.

Prerequisite(s): VET 111, 120, 131 and 150.

Corequisite(s): VET 205, VET 220

Offered: Spring.

VET 211 Veterinary Nursing Procedures IV

2 cr. hrs. 3 periods (1 lec., 2 lab)

Continuation of kennel responsibilities with an introduction to avian, exotic and laboratory animal care. Includes the care and management of laboratory animals, nursing procedures, preventative health care and restraint.

Prerequisite(s): VET 111, 120, 131, 150.

Corequisite(s): VET 121, VET 200

Offered: Fall.

VET 220 Clinical Pathology III

3 cr. hrs. 4 periods (2 lec., 2 lab)

Summation of laboratory skills and techniques needed of the Veterinary Technician. Includes blood chemistry, bacteriologic and microbiologic procedures and necropsy.

Prerequisite(s): VET 121, 200 and 211.

Corequisite(s): VET 205, VET 210

Offered: Spring.

VET 225 Veterinary Hospital Procedures

3 cr. hrs. 3 periods (3 lec.)

Standard office procedures with an emphasis in client relations, education and computer skills. Ethics in veterinary medicine, state and federal regulations governing veterinarian practices and all aspects of clinical patient care will be covered.

Corequisite(s): VET 100, VET 110, VET 130

Information: Admission to the Veterinary Technology program is required before enrolling in this course.

Offered: Fall.

VET 230 VTNE and AZ State Veterinary Medical Examining Board Review

3 cr. hrs. 3 periods (3 lec.)

Preparation for a Veterinary Assistant or non-certified Technician to sit for the national and state Veterinary Technician Board Exams. Includes a review of the Arizona Revised Statutes and Administrative Rules pertaining to Veterinary medicine and content review of all pertinent medical subjects. Also includes test taking skills, test anxiety techniques and practice board exams.

Offered: Fall, Spring.

VET 291 Veterinary Technician Clinical Experience

3 cr. hrs. 12 periods (12 lab)

Supervised five-week clinical experience, which will be conducted at local veterinary hospitals, clinics, laboratory, and zoo or research facilities.

Information: Completion of all VET Courses is required before enrolling.

Offered: Spring.

Welding

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

WLD 110 Basic Arc and Oxyacetylene Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Procedures and techniques in arc and oxyacetylene welding. Includes health, safety, and environmental practices, welding terminology, arc and oxyacetylene welding equipment, proper welding procedures for arc and oxyacetylene, arc and oxyacetylene steel welding, welding machines and polarities, filler metal identification, and welding positions, and oxyacetylene cutting.

Offered: Fall, Spring, Summer.

WLD 115 Blueprint Reading/Estimating

4 cr. hrs. 4 periods (4 lec.)

Principles and procedures for interpreting structural blueprints and determining materials and labor costs. Includes fundamentals of blueprint reading, welding print format and types of fabrication blueprints, welding symbols and sizes, structural shapes and symbols, blueprint interpretation, introduction to estimating, bonds and insurance, materials specifications, labor, structural steel systems, and steel fabrication checklist.

Prerequisite(s): MAT 082 or required score on math assessment test.

Offered: Fall, Spring.

WLD 119 Pattern Layout for Pipe and Structural Welding

4 cr. hrs. 5 periods (3 lec., 2 lab)

Layout techniques for pipe and structural welding. Includes introduction to pipe layout, drawing equipment, basic mathematics concepts, practical geometry, parallel line development, radial line development, triangulation line development, special problems, structural member connections, angle to angle, channel to channel, pipe to pipe, and sheet metal layout.

Prerequisite(s): MAT 082 or required score on math assessment test.

Offered: Fall, Spring.

WLD 120 Welding for Metal Sculpture

4 cr. hrs. 6 periods (2 lec., 4 lab)

Basic welding techniques and processes used in metal sculpture design and fabrication. Includes oxyacetylene safety practice, oxyacetylene equipment handling, oxyacetylene welding procedures, assembly of portable equipment, oxyacetylene cutting and design, oxyacetylene bronze build-up, arc welding safety practices, arc welding procedures, basic joint design, currents and polarities, arc welding machines and electrodes, and arc designing for sculpture.

Offered: Fall, Spring.

WLD 150 Oxyacetylene Welding

3 cr. hrs. 4 periods (2 lec., 2 lab)

Set up, procedures, and operation of oxyacetylene welding equipment. Includes safety, mild steel welding procedures, oxyacetylene welding equipment and terminology, welding joints, flame cutting, braze welding procedures, expansion and contraction, cast iron, and principles of silver soldering.

Offered: May not be offered this year, check class schedule.

WLD 160 Arc Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and techniques of joining metals with an electric arc as the source. Includes arc welding uses, safety, techniques, flame cutting, joint design, welding costs, electric currents and power sources, carbon arc cutting, filler metal selection, hardfacing, and metal identification.

Prerequisite(s): WLD 110.

Information: Prerequisite may be waived with appropriate work experience or course work. See a welding instructor or advisor for prerequisite information.

Offered: Fall, Spring, Summer.

WLD 161 SMAW Plate Certification Welding

2 cr. hrs. 4 periods (1 lec., 3 lab)

Advanced procedures in test plate welding certification using the American Welding Society Code D1.1. Includes test codes, weld test coupon evaluation, preparation of test plates, V-groove test plate welding, and evaluation of proper welding procedures.

Prerequisite(s): WLD 160.

Information: Prerequisite maybe waived with welding industry experience.

Offered: May not be offered this year, check class schedule.

WLD 250 Pipe and Structural Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and techniques of pipe and structural welding. Includes introduction to performance testing, types of pipe, methods and preparation of pipe joints and miter joints, methods of joining pipe and miter joints, preparation of structural members, and methods of welding structural members.

Prerequisite(s): WLD 119 or 160.

Information: Prerequisites may be waived with appropriate work experience.

See a welding instructor or advisor for prerequisite information.

Offered: Fall, Spring. Offered: Spring.

WLD 261 Gas Metal Arc Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Procedures and techniques in Gas Metal Arc Welding (GMAW) and Flux Core Arc Welding (FCAW) processes. Includes health, safety, and environmental practices, welding terminology, GMAW and FCAW processes and equipment, equipment operation and welding techniques, power source and wire feed types and controls, welding currents and polarities, welding wires in GMAW and FCAW processes, shielding gases, and mild steel and aluminum welding.

Recommendation: WLD 110.

Information: Prerequisite maybe waived with welding industry experience.

Offered: Fall, Spring, Summer.

WLD 262 Gas Tungsten Arc Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Procedures and techniques in the Gas Tungsten Arc Welding (GTAW) process. Includes health, safety, and environmental practices, welding terminology, GTAW process and equipment, equipment operation and techniques, power source types and controls, welding currents and polarities, tungsten electrodes, shielding gases, mild steel welding, aluminum welding, stainless steel welding, and GTAW certification.

Recommendation: WLD 110 or welding industry experience.

Information: Prerequisite maybe waived with welding industry experience.

Offered: Fall, Spring.

WLD 263 Layout and Fabrication Welding

4 cr. hrs. 6 periods (2 lec., 4 lab)

Principles and techniques of steel layout and fabrication welding. Includes measurement, print reading review, layout tools, layout techniques, hand-held power tool safety and use, large power tool safety and use, drawing interpretation, and welding projects.

Prerequisite(s): WLD 115, 261, GTM 105 or math assessment at MAT 092 or higher.

Recommendation: WLD 160.

Information: Prerequisites may be waived for appropriate work experience. See a welding instructor or advisor for prerequisite information.

Offered: Fall, Spring.

WLD 297 Welding Seminar

.25-4 cr. hrs. .25-4 periods (.25-4 lec.)

Welding job-related training. Includes presentations and development of skills in a given area and topics of timely or limited interest.

Information: Consent of instructor is required before enrolling in this course.

Offered: May not be offered this year, check class schedule.

Wellness Education

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

WED 110 Introduction to Complementary & Alternative Medicine

3 cr. hrs. 3 periods (3 lec.)

Definition of health; exploration of mind-body-spirit connection in health; various therapeutic modalities; identification of strengths and limitations of alternative therapies. Also includes development of ability to critically review written material in the alternative therapy area.

Offered: Fall, Spring.

WED 111 Self Care for Personal Wellness

2 cr. hrs. 2 periods (2 lec.)

Emphasis on mind-body methods for personal wellness through integration of physical, emotional, social, and spiritual dimensions of being. Development of a personal practice to achieve and sustain a balanced program to support personal health and well being.

Offered: Spring.

WED 120 Introduction to Energy Healing and Reiki

1 cr. hrs. 1 periods (1 lec.)

An overview of energy modalities, how energy works, how energy can be manifested and used for healing, and the personal responsibilities and ethical considerations for a practitioner of healing. Includes an introductory concentration on Reiki as a concept of health and wellness, and the essence, history and levels of Reiki.

Information: Applicable as an elective course for the Therapeutic Massage program and as continuing education hours for health and wellness professionals.

Offered: Fall, Spring, Summer.

WED 121 Reiki I

1 cr. hrs. 1 periods (1 lec.)

Instruction and coaching in the Usui Method of Reiki, Level I. Includes review of concepts presented in WED 120 and a focus on assessing energy, color healing, the chakras and hand positions used in Reiki. Also includes Reiki attunement, Reiki I sharing and Reiki I certification.

Prerequisite(s): WED 120.

Information: Applicable as an elective course for the Therapeutic Massage program and as continuing education hours for health and wellness professionals.

Offered: Fall, Spring.

WED 122 Reiki II

1 cr. hrs. 1 periods (1 lec.)

Review of the Usui Method of Reiki, Level I and instruction and coaching in the concepts and techniques of Usui Method of Reiki, Level II: color healing, chakra balancing, distance healing and healing symbols in Reiki practice. Includes Reiki II attunement and certification.

Prerequisite(s): WED 120, 121 or a Reiki I certificate from a qualified Reiki Master.

Information: Applicable as an elective course for the Therapeutic Massage program and as continuing education hours for health and wellness professionals.

Offered: Spring, Summer.

WED 131 Body Mechanics for Health Care Providers

1 cr. hrs. 1 periods (1 lec.)

Understanding and practice of techniques to prevent and correct injuries associated with the physical demands and stresses related to health care in residential, outpatient and home facilities, and massage and body work. Includes posture, body mechanics, and self-care strategies to prevent injuries.

Recommendation: Recommended for wellness and continuing education for health care workers and as additional elective study for current therapeutic massage students.

Offered: Fall, Summer.

WED 132 Stress Management for Health Care Providers

1 cr. hrs. 1 periods (1 lec.)

Introduces basic stress management techniques to prevent and manage stress. Includes development of awareness of personal stressors, identification of signs and effects of physical and emotional stress, techniques to prevent stress, and coping techniques to relieve physical and mental/emotional stress. Also includes practical application of stress management methods.

Recommendation: Recommended for wellness and continuing education for health care workers and as additional elective study for current therapeutic massage students.

Offered: Spring, Summer.

Women's Studies

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

WST 100 Introduction to Feminist Studies

3 cr. hrs. 3 periods (3 lec.)

Interdisciplinary survey and analysis of women's issues in structured inequalities and globalization. Includes feminist studies: study of gender, culture, and society; theoretical approaches to gender; learning gender socialization; contemporary feminist issues: socialization, work, and family; body and health issues; gender issues and intimacy; gender and the economy; gender, politics, government, and the military; gender, education, creativity, and language; and gender and spirituality.

Offered: Fall, Spring.

WST 201 La Chicana

3 cr. hrs. 3 periods (3 lec.)

Interdisciplinary analysis of Chicanas/Mexicanas status in the United States. Includes interdisciplinary analysis of Chicanas/Mexicanas in the U.S., Chicana/Mexicana interdisciplinary scholarship and Social Justice Movements, and Chicana/Mexicana feminism in the Southwest, Chicana/Mexicana community empowerment, and Chicanas/Mexicanas on the U.S.-Mexico border.

Information: Same as 201.

Offered: Fall.

WST 280 Feminist Research Methods

3 cr. hrs. 3 periods (3 lec.)

Introduces research methods applied in contemporary feminist research. Includes introduction to feminist research, research methods, methodologies, and epistemology, feminist construction of knowledge, feminist research as Theory in Action, qualitative research methods/cross-cultural approaches, feminist research issues of power, academic visibility, empowerment, ethics, social justice and agency, and implications of feminist research.

Offered: Fall.

Writing

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

WRT 070 Developmental Writing

3 cr. hrs. 3 periods (3 lec.)

Development of fundamental writing skills. Includes sentence development and structure, writing processes, and written works.

Prerequisite(s): Required score on Writing assessment test.

Information: WRT 070A, 070B, and 070C together constitute WRT 070. Equivalent to WRT 075.

Offered: Fall, Spring, Summer.

WRT 070A Developmental Writing: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of WRT 070.

Prerequisite(s): Required score on Writing assessment test.

Information: WRT 070A, 070B, and 070C together constitute WRT 070. A student may concurrently enroll in WRT 070A, 070B, and 070C. Equivalent to WRT 075A.

Offered: Fall, Spring, Summer.

WRT 070B Developmental Writing: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of WRT 070.

Prerequisite(s): WRT 070A with a C or better, or concurrent enrollment.

Information: WRT 070A, 070B, and 070C together constitute WRT 070. A student may concurrently enroll in WRT 070A, 070B, and 070C. Equivalent to WRT 075B.

Offered: Fall, Spring, Summer.

WRT 070C Developmental Writing: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of WRT 070.

Prerequisite(s): WRT 070B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 070A and 070B.

Information: WRT 070A, 070B, and 070C together constitute WRT 070. A student may concurrently enroll in WRT 070A, 070B, and 070C. Equivalent to WRT 075C.

Offered: Fall, Spring, Summer.

WRT 072 Sentence Patterns

1 cr. hrs. 1 periods (1 lec.)

Review of various types of sentence structures. Includes variety of sentences, common grammar and sentence errors, punctuation, and short papers. Offered: Fall, Spring, Summer.

WRT 073 Punctuation

1 cr. hrs. 1 periods (1 lec.)

Review of punctuation mechanics. Includes rules of punctuation, punctuation mark usage, and written assignments. Offered: Fall, Spring, Summer.

WRT 075 Writing for Non-Native Speakers of English

3 cr. hrs. 3 periods (3 lec.)

Development of fundamental writing skills for non-native speakers of English. Includes sentence development and structure, writing processes, and written works.

Prerequisite(s): Required score on the Writing assessment test.

Recommendation: Completion of ESL 085 or 088 before enrolling in this course.

Information: WRT 075A, 075B, and 075C together constitute WRT 075. Equivalent to WRT 070.

Offered: May not be offered this year, check class schedule.

WRT 075A Developmental Writing for Non-Native Speakers of English: Module A

1 cr. hrs. 1 periods (1 lec.)

Module A constitutes approximately the first one-third of WRT 075.

Prerequisite(s): Required score on Writing assessment test.

Recommendation: Completion of ESL 085 or 088 before enrolling in this course.

Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070A.

Offered: Fall, Spring, Summer.

WRT 075B Developmental Writing for Non-Native Speakers of English: Module B

1 cr. hrs. 1 periods (1 lec.)

Module B constitutes approximately the second one-third of WRT 075.

Prerequisite(s): WRT 075A with a C or better, or concurrent enrollment.

Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070B.

Offered: Fall, Spring, Summer.

WRT 075C Developmental Writing for Non-Native Speakers of English: Module C

1 cr. hrs. 1 periods (1 lec.)

Module C constitutes approximately the third one-third of WRT 075.

Prerequisite(s): WRT 075B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 070A and 070B.

Information: WRT 075A, 075B, and 075C together constitute WRT 075. A student may concurrently enroll in WRT 075A, 075B, and 075C. Equivalent to WRT 070C.

Offered: Fall, Spring, Summer.

WRT 100 Writing Fundamentals

3 cr. hrs. 3 periods (3 lec.)

Review of sentence structure, mechanics and usage. Includes review of sentence patterns, designing and writing effective paragraphs, and developing short essays.

Prerequisite(s): WRT 070 or 075 with a C or better or required score on the Writing assessment test.

Information: WRT 100A, 100B, and 100C together constitute WRT 100. Equivalent to WRT 106.

Offered: Fall, Spring, Summer.

WRT 100A Writing Fundamentals: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of WRT 100.

Prerequisite(s): WRT 070 or 075 with a C or better, or required score on Writing assessment test.

Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106A.

Offered: Fall, Spring, Summer.

WRT 100B Writing Fundamentals: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of WRT 100.

Prerequisite(s): WRT 100A with a C or better, or concurrent enrollment.

Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106B.

Offered: Fall, Spring, Summer.

WRT 100C Writing Fundamentals: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of WRT 100.

Prerequisite(s): WRT 100B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 100A and 100B.

Information: WRT 100A, 100B, and 100C together constitute WRT 100. A student may concurrently enroll in WRT 100A, 100B, and 100C. Equivalent to WRT 106C.

Offered: Fall, Spring, Summer.

WRT 101 Writing I

3 cr. hrs. 3 periods (3 lec.)

Principles and practices of writing. Includes writing college-level essays, review of basic writing skills, and written works. Also includes narrative/descriptive, expository, and persuasive writing.

Prerequisite(s): WRT 100 or 106 with a C or better, or required score on Writing assessment test.

Information: WRT 101A, 101B, and 101C together constitute WRT 101. Equivalent to WRT 107.

Offered: Fall, Spring, Summer.

WRT 101A Writing I - Module A

1 cr. hrs. 1 periods (1 lec.)

Module A constitutes approximately the first one-third of WRT 101.

Prerequisite(s): WRT 100 or 106 with a C or better, or required score on Writing assessment test.

Information: WRT 101A, 101B, and 101C together constitute WRT 101. A student may concurrently enroll in WRT 101A, and 101B, and 101C. Equivalent to WRT 107A.

Offered: Fall, Spring, Summer.

WRT 101B Writing I - Module B

1 cr. hrs. 1 periods (1 lec.)

Module B constitutes approximately the second one-third of WRT 101.

Prerequisite(s): WRT 101A with a C or better, or concurrent enrollment.

Information: WRT 101A, 101B, and 101C together constitute WRT 101. A student may concurrently enroll in WRT 101A, 101B, and 101C. Equivalent to WRT 107B.

Offered: Fall, Spring, Summer.

WRT 101C Writing I - Module C

1 cr. hrs. 1 periods (1 lec.)

Module C constitutes approximately the third one-third of WRT 101.

Prerequisite(s): WRT 101B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 101A and 101B.

Information: WRT 101A, 101B, and 101C together constitute WRT 101. A student may concurrently enroll in WRT 101A, 101B, and 101C. Equivalent to WRT 107C.

Offered: Fall, Spring, Summer.

WRT 101HC Writing I: Honors

3 cr. hrs. 3 periods (3 lec.)

Principles and practices of writing. Includes writing college-level essays, review of basic writing skills, written works, and advanced research and critical thinking skills. Also includes narrative/descriptive, expository, and persuasive writing as well as additional Honors level content.

Prerequisite(s): Honors assessment score is required.

Information: Qualification for Honors program and consent of instructor or advisor/counselor is required before enrolling in this course.

Offered: Fall, Spring.

WRT 102 Writing II

3 cr. hrs. 3 periods (3 lec.)

Continuation of WRT 101. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing research skills, and written works. Also includes writing a research paper.

Prerequisite(s): WRT 101 or 107 with a C or better.

Offered: Fall, Spring, Summer.

WRT 102HC Writing II: Honors

3 cr. hrs. 3 periods (3 lec.)

Continuation of WRT 101 or WRT 101HC. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing advanced research and critical thinking skills, and written works. Also includes writing a research paper as well as additional Honors level content.

Prerequisite(s): WRT 101 or WRT 101HC with a C or better.

Information: Qualification for Honors program and consent of instructor or advisor/counselor is required before enrolling in this course.

Offered: Fall, Spring.

WRT 106 Writing Fundamentals for Non-Native Speakers of English

3 cr. hrs. 3 periods (3 lec.)

Review of sentence structure, mechanics and usage appropriate for non-native speakers of English. Includes review of sentence patterns, designing and writing effective paragraphs, and developing short essays.

Prerequisite(s): WRT 070 or 075 with a C or better, or required score on Writing assessment test.

Information: WRT 106A, 106B, and 106C together constitute WRT 106. Equivalent to WRT 100.

Offered: Fall, Spring, Summer.

WRT 106A Writing Fundamentals for Non-Native Speakers of English: Module A

1 cr. hrs. 1 periods (1 lec.)

Module A constitutes approximately the first one-third of WRT 106.

Prerequisite(s): WRT 070 or 075 with a C or better, or required score on Writing assessment test.

Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100A.

Offered: Fall, Spring, Summer.

WRT 106B Writing Fundamentals for Non-Native Speakers of English: Module B

1 cr. hrs. 1 periods (1 lec.)

Module B constitutes approximately the second one-third of WRT 106.

Prerequisite(s): WRT 106A with a C or better, or concurrent enrollment.

Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100B.

Offered: Fall, Spring, Summer.

WRT 106C Writing Fundamentals for Non-Native Speakers of English: Module C

1 cr. hrs. 1 periods (1 lec.)

Module C constitutes approximately the third one-third of WRT 106.

Prerequisite(s): WRT 106B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 106A and 106B.

Information: WRT 106A, 106B, and 106C together constitute WRT 106. A student may concurrently enroll in WRT 106A, 106B, and 106C. Equivalent to WRT 100C.

Offered: Fall, Spring, Summer.

WRT 107 Writing I for Non-Native Speakers of English

3 cr. hrs. 3 periods (3 lec.)

Principles and practices of writing appropriate for non-native speakers of English. Includes writing college level essays, review of basic writing skills, and written works. Also includes narrative/descriptive, expository, and persuasive writing.

Prerequisite(s): WRT 100 or 106 with a C or better, or required score on the Writing assessment test.

Information: WRT 107A, 107B, and 107C together constitute WRT 107. Equivalent to WRT 101.

Offered: Fall, Spring, Summer.

WRT 107A Writing I for Non-Native Speakers of English: Module A

1 cr. hrs. 1 periods (1 lec.)

Module A constitutes approximately the first one-third of WRT 107.

Prerequisite(s): WRT 100 or 106 with a C or better, or required score on Writing assessment test.

Information: WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 101A.

Offered: Fall, Spring, Summer.

WRT 107B Writing I for Non-Native Speakers of English: Module B

1 cr. hrs. 1 periods (1 lec.)

Module B constitutes approximately the second one-third of WRT 107.

Prerequisite(s): WRT 107A with a C or better, or concurrent enrollment.

Information: WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 101B.

Offered: Fall, Spring, Summer.

WRT 107C Writing I for Non-Native Speakers of English: Module C

1 cr. hrs. 1 periods (1 lec.)

Module C constitutes approximately the third one-third of WRT 107.

Prerequisite(s): WRT 107B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 107A and 107B.

Information: WRT 107A, 107B, and 107C together constitute WRT 107. A student may concurrently enroll in WRT 107A, 107B, and 107C. Equivalent to WRT 101C.

Offered: Fall, Spring, Summer.

WRT 108 Writing II for Non-Native Speakers of English

3 cr. hrs. 3 periods (3 lec.)

Continuation of WRT 107 appropriate for non-native speakers of English. Includes writing analytical or critical papers, analysis and discussion of various types of literature, developing research skills and written works. Also includes writing a research paper.

Prerequisite(s): WRT 101 or 107 with a C or better or required score on Writing assessment test.

Information: Equivalent to WRT 102.

Offered: Fall, Spring, Summer.

WRT 125 Beginning Poetry Writing

3 cr. hrs. 3 periods (3 lec.)

Poetry for beginners. Includes beginning techniques of poetry writing and their effects, beginning evaluation and critical response to poems, and beginning original writing.

Information: Not for transfer. May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring, Summer.

WRT 126 Basics of Short Story Writing

3 cr. hrs. 3 periods (3 lec.)

Writing and reviewing short stories. Includes types and styles of short fiction, survey of American short stories, aesthetics toward creative short story writing, and writing a short story.

Information: May be taken three times for a maximum of nine credit hours.

Offered: Fall, Spring, Summer.

WRT 140 Writing and Editing Technical Communications

3 cr. hrs. 3 periods (3 lec.)

Introduction to basic concepts and techniques for writing and editing technical documents. Includes sentence structure and style; common grammar, usage, and punctuation rules; paragraph structure; common style-level problems; advanced writing-style concepts; editing in document development, publication, and use; editing technical reports; and writing a technical document.

Prerequisite(s): WRT 101 or 107 with a grade of C or better.

Offered: Fall, Spring.

WRT 154 Career Communications

3 cr. hrs. 3 periods (3 lec.)

Job related writing skills. Includes writing for audiences and situations, completing job related forms, writing resumes, and using standard written English. May include other written communications as appropriate to occupational areas.

Prerequisite(s): WRT 100 or 106, or 101 or 107 with a C or better or required score on Writing assessment test.

Information: WRT 154A, 154B, and 154C together constitute WRT 154.

Offered: Fall, Spring.

WRT 154A Career Communication: Job Related Writing Principles & Skills

1 cr. hrs. 1 periods (1 lec.)

Module A constitutes approximately the first one-third of WRT 154.

Prerequisite(s): WRT 100 or 106, or 101 or 107 with a C or better or required score on Writing assessment test.

Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C.

Offered: Fall, Spring, Summer.

WRT 154B Career Communications: Basic Job Related Correspondence

1 cr. hrs. 1 periods (1 lec.)

Module B constitutes approximately the second one-third of WRT 154.

Prerequisite(s): WRT 154A with a C or better, or concurrent enrollment.

Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C.

Offered: Fall, Spring, Summer.

WRT 154C Career Communications: Basic Job Related Reports

1 cr. hrs. 1 periods (1 lec.)

Module C constitutes approximately the third one-third of WRT 154.

Prerequisite(s): WRT 154B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 154A and 154B.

Information: WRT 154A, 154B, and 154C together constitute WRT 154. A student may concurrently enroll in WRT 154A, 154B, and 154C.

Offered: Fall, Spring, Summer.

WRT 162 Literary Magazine Workshop

3 cr. hrs. 3 periods (3 lec.)

Creative magazine publication. Includes review of college literary magazines, critical review, magazine design and editing, magazine production techniques, and printing and distribution.

Information: May be taken two times for a maximum of six credit hours.

Offered: Spring.

WRT 196 Independent Studies in Writing

1-4 cr. hrs. 3-12 periods (3-12 lab)

Independent projects in writing to be arranged with the instructor.

Information: May be taken four times for a maximum of sixteen credit hours.

Offered: May not be offered this year, check class schedule.

WRT 205 Introduction to Poetry Writing

3 cr. hrs. 3 periods (3 lec.)

Writing contemporary poetry. Includes techniques of poetry writing and their effects, evaluation and critical response to poems, and original writing.

Prerequisite(s): WRT 102 or 108 with a C or better.

Offered: Fall, Spring, Summer.

WRT 206 Short Story Writing

3 cr. hrs. 3 periods (3 lec.)

Short fiction writing. Includes techniques of fiction writing and their effects, critical responses to fiction, and original writing.

Prerequisite(s): WRT 102 or 108 with a C or better.

Offered: Fall, Spring, Summer.

WRT 207 Sophomore Composition: Creative Nonfiction

3 cr. hrs. 3 periods (3 lec.)

Creative nonfiction writing. Includes techniques of nonfiction writing and their effects, original writing, and critical responses to nonfiction.

Prerequisite(s): WRT 102 with a C or better.

Information: Consent of instructor is required to enroll in this course.

Offered: Spring.

WRT 215 Advanced Poetry Writing

3 cr. hrs. 3 periods (3 lec.)

Advanced poetry writing workshop. Includes continued focus on techniques of writing, evaluation and critical responses to poetry, and original writing. Also includes more intensive study of contemporary poets and poetry.

Prerequisite(s): WRT 125 or 205 with a C or better.

Information: Consent of instructor is required to enroll in this course.

Offered: Fall, Spring.

WRT 216 Advanced Fiction Writing

3 cr. hrs. 3 periods (3 lec.)

Advanced techniques of fiction writing. Includes advanced techniques of fiction writing, original writing, and critical response to fiction. Also includes preparing manuscripts for publication.

Prerequisite(s): WRT 206 with a C or better.

Information: Consent of instructor is required to enroll in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

WRT 217 Advanced Composition: Creative Nonfiction

3 cr. hrs. 3 periods (3 lec.)

Advanced techniques of creative nonfiction writing. Includes original writing, critical responses to nonfiction, and marketing techniques.

Prerequisite(s): WRT 207 with a C or better.

Information: Consent of instructor is required to enroll in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Spring.

WRT 226 Special Projects in Fiction

3 cr. hrs. 3 periods (3 lec.)

Advanced fiction writing for book-length projects. Includes techniques for book-length fiction writing, original writing and/or revision process, critical responses to fiction, and marketing and publishing of fiction books.

Prerequisite(s): WRT 216 with a C or better.

Information: Consent of instructor is required to enroll in this course. May be taken four times for a maximum of twelve credit hours.

Offered: Fall, Spring.

WRT 254 Advanced Professional Communications

3 cr. hrs. 3 periods (3 lec.)

Techniques of writing for scientific, technical and other professional occupations. Includes writing long and short reports, researching and writing about a topic, oral presentations, and use of appropriate style.

Prerequisite(s): WRT 102 or 108 with a C or better.

Information: WRT 254A, 254B, and 254C together constitute WRT 254.

Offered: Fall, Spring.

WRT 254A Advanced Professional Communications: Module A

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the first one-third of WRT 254.

Prerequisite(s): WRT 102 or 108 with a C or better.

Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.

Offered: Fall, Spring, Summer.

WRT 254B Advanced Professional Communications: Module B

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the second one-third of WRT 254.

Prerequisite(s): WRT 254A with a C or better, or concurrent enrollment.

Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.

Offered: Fall, Spring, Summer.

WRT 254C Advanced Professional Communications: Module C

1 cr. hrs. 1 periods (1 lec.)

Constitutes approximately the third one-third of WRT 254.

Prerequisite(s): WRT 254B with a C or better, or concurrent enrollment; or concurrent enrollment in WRT 254A and 254B.

Information: WRT 254A, 254B, and 254C together constitute WRT 254. A student may concurrently enroll in WRT 254A, 254B, and 254C.

Offered: Fall, Spring, Summer.

WRT 281 Beginning Workshop in Tutoring Composition

1 cr. hrs. 3 periods (3 lab)

Introductory workshop in tutoring composition. Includes tutee characteristics and tutoring techniques for development of writing strategies.

Prerequisite(s): WRT 101 and 102 with a grade of C or better.

Offered: May not be offered this year, check class schedule.

WRT 282 Intermediate Workshop in Tutoring Composition

1 cr. hrs. 3 periods (3 lab)

Continuation of WRT 281. Includes assisting tutees with research methods, assisting tutees with disabilities, and assisting tutees whose first language is not English.

Prerequisite(s): WRT 281 with a C or better.

Offered: May not be offered this year, check class schedule.

WRT 285 Pima Writers' Workshop

2 cr. hrs. 2 periods (2 lec.)

Writing of fiction, nonfiction, poetry, stories for children, and screenplays. Includes techniques of writing, publishing trends and approaches, and criteria for evaluating writing. Also includes the opportunity for participants to have their writing critiqued and presentations by professional authors, editors, and agents.

Offered: Summer.

Yaqui

For courses numbered 098, 198, 298, see "Topic Courses" on page 198

YAQ 101 Elementary Yaqui I

4 cr. hrs. 4 periods (4 lec.)

Introduction to the Yaqui language. Includes instruction in the grammar and writing system of the language and is intended to help the student acquire skills in speaking, reading, and writing Yaqui. Also includes an overview of Yaqui traditional culture as a background for the use of the language.
Offered: May not be offered this year, check class schedule.

YAQ 102 Elementary Yaqui II

4 cr. hrs. 4 periods (4 lec.)

Continuation of YAQ 101. Includes development of skills in speaking, understanding, reading, and writing the language. Also includes study of the Yaqui traditional culture as a background for language use.

Prerequisite(s): YAQ 101.

Offered: May not be offered this year, check class schedule.

Emergency Medical Technology

These programs may be open to the general public. Please contact the Public Safety and Emergency Services Institute at Community Campus for more information — (520) 206-6350.

These programs are approved by the Arizona Department of Health Services, Bureau of Emergency Medical Services. Upon successful completion of the program, the graduate is eligible to take the required State and National Registry of Emergency Medical Technicians examinations. Current Arizona Department of Health Services regulations allow program graduates to take the Arizona EMT-P examination and/or the National Registry of Emergency Medical Technicians examination. Certification to work as an emergency medical technician rests entirely with the Arizona Department of Health Services, Bureau of Emergency Medical Services. Requirements for entrance into the EMS-P program (see narrative) may also be found in Arizona Administrative Code, Title 9, Chapter 25, Article 408 (A) (B) (C) (D).

Acceptance into the program:

- Completion of college admission requirements.
- Completion of acceptance criteria as established by the Arizona Department of Health Services and Pima Community College.
- Completion of the following prerequisites:

BIO 160IN	Introduction to Human Anatomy and Physiology	4 Credits
OAP 162	Medical Terms I	3 Credits
- Students must hold current certification as an EMT-B, I-EMT or EMT-P.
- Program size is limited to 24 students by State of Arizona regulation.

Environmental Technology

Environmental Technology — Hazardous Materials Technician — Certificate for Direct Employment

This certificate provides preparation for Hazardous Materials Technician Certification and employment opportunities in the field of Hazardous Material Technology and provides the foundation for workforce development of emergency response skills.

Acceptance into the program:

- Completion of college admission requirements.
- Completion of a minimum of 32 hours of hazardous materials training at the Operations Level.
- Completion of two years emergency response experience.
- Proof of ability to supply Structural Fire Protective Clothing (Turnouts) and air packs for all drills.
- Proof of medical evaluation and approval to wear respiratory protection.

This program is not open to the general public. Please contact the Public Safety and Emergency Services Institute at Community Campus for more information — (520) 206-6350.

Course Number	Course Title	Credit Hours
---------------	--------------	--------------

Required Core Courses - A grade of C or better is required for graduation.

All of the core courses require acceptance into the Advanced Paramedic Program.

Basic Remediation Technology Certificate

This certificate provides basic knowledge for the entry-level technician for field-oriented employment in environmental monitoring, site remediation and reclamation, pollution monitoring, resource reclamation, environmental auditing or environmental impact assessing. Typical employers include private industry, engineering consultants, environmental consultants and government agencies charged with regulating and monitoring the environment.

This certificate meets the needs of business, industry, and government agencies. It can be customized for apprenticeship, workforce development, and special clientele in need of a custom credential. The intent of the certificate is to provide students an environmental body of knowledge and skill that is coherent and provides opportunities for career advancement.

This program is not open to the general public. Please contact the Arizona State Environmental Technology Training Center (ASETT) for more information — (520) 206-6363.

Insurance

This program is open only to qualifying individuals. Please contact Workforce Development at the Community Campus for more information — (520) 206-6569.

This program is approved by:

- Independent Insurance Agents And Brokers Association of Arizona
- The Society Of Certified Insurance Service Representatives
- The National Alliance For Insurance Education And Research

Students who complete the program will be issued a certificate for direct employment by Pima Community College. Upon successful completion of the program the graduate is eligible to take the required State Licensure exams.

Acceptance into the program:

- Completion of college admission requirements.
- Completion of acceptance criteria as established by the Independent Insurance Agents and Brokers of Arizona and Pima Community College.
- The Insurance Service Excellence Certificate for Direct Employment is fully endorsed by the Independent Insurance Agents and Brokers of Arizona. This certificate also provides the core foundation coursework for the Associate of Applied Science in Business and Industry Technology.

This comprehensive program is designed to prepare current and future insurance employees for the challenges found in a competitive insurance environment. Primary emphasis is to provide the students with the essential business skills needed to develop a professional career in insurance. This program is also intended to help students develop a clear sense of the scope of the requirements for customer service representative success.

The Associate of Applied Science Business and Industry Technology with coursework in Insurance Service Excellence incorporates insurance and business knowledge, communications, Information Technology skills, and it is structured to lead students to competence in other areas. The Associate of Applied Science Business and Industry Technology is designed as a two-year foundation leading to pursuit of a Bachelor of Applied Science.

Apprentice-Related Instruction

Pima Community College works jointly with local and state apprenticeship groups to offer related instruction in a number of apprenticeship programs. Before students may enroll for apprentice-related instruction, they must be registered with the U.S. Department of Labor's Bureau of Apprenticeship and Training, and the organization operating a specific training program. Apprentice-related instruction at Pima Community College is offered in these areas and provides foundation courses towards the associate of applied science degree.

Agency	Phone Number	Course Prefix
Sheet Metal Workers Local Union 359 Sheet Metal	(602) 273-1388 or (602) 920-2834	SMA
National Tooling and Machining Association (NTMA) Contact Division Dean of Industrial and Technical Education at PCC Machinist	(520) 206-7134 MAC	
Arizona Builders Alliance (ABA) Electrical, Carpentry, Building and Construction	(520) 881-7930	BCT
Pascua Yaqui Training and Development Electrical	(520) 879-5844	ELT

Degree Program:

Those working to gain the Business and Industry Technology Associate of Applied Science degree (trade and industrial technology option) must meet the minimum degree requirement of 64 credit hours. Students must complete 46 credit hours of apprentice-related instruction, and/or college technical courses as well as satisfy the college reading requirement. The college technical courses must be approved by the department chair.

Center for Training (CTD) and Development Programs

Pima Community College's Center for Training and Development (CTD) provides high quality training leading to immediate jobs or to job advancement in many in-demand fields. Since 1963, CTD has trained more than 40,000 individuals who wanted to gain new employment, improve their skills in their current jobs or move up the career ladder in their fields. Students learn entry-level skills or upgrade existing knowledge through training classes that provide classroom instruction, hands-on lab learning, and internships and externships. CTD boasts a 90% completion rate and an 85% job placement rate.

The Center's non-traditional training options allow students to attend in an open-entry/open-exit enrollment year-round up to 30 hours a week during days, evenings or weekends. Each student receives a certificate at the conclusion of their training. CTD offers programs for credit, non-credit, clock-hour, and continuing education units (CEUs). Noncredit and CEU options are available in many areas; for a current list, contact CTD. Credit program information is found under the credit programming section of the catalog.

CTD clock-hour certificate programs are found below. Additional clock-hour programming may be available; please contact the Center for Training and Development for most current programming information. Clock-hour offerings provide students with a method for accessing immediate employment skills related to specific occupational areas. They require student attendance as well as completion of competencies related to the career field. Clock-hour programming is offered in a variety of methods depending on the career path; it provides intensive instruction in the career field, contains integrated academic and life success skills, and provides comprehensive student support services.

Clock-hour programs have various admissions requirements depending on the programming area. Accuplacer testing is required for most certificates. Please contact the Center for Training and Development for details on specific admissions requirements for each program area.

Selected Policies, Governance and Faculty

Selected Board Policies

The following policies address the College's compliance with a variety of federal anti-discrimination laws and also give details on where complaints should be filed. The College makes every effort to resolve the complaints of persons who feel that their rights have been infringed upon or that they have been discriminated against.

Affirmative Action/Equal Opportunity

Pima County Community College District reaffirms its commitment to affirmative action and equal employment opportunity for all qualified persons without regard to race, color, national origin, religion, sex, sexual orientation, disability, age, or on the basis of membership as set forth in USERRA, or on any other basis which is proscribed by law.

It is the policy of Pima County Community College District that equal employment opportunity can only be achieved through demonstrated leadership and aggressive implementation of a viable affirmative action program. Therefore, the Pima County Community College District Affirmative Action and Equal Employment Opportunity Policy sets forth responsibilities for administrators, supervisors, faculty, staff, and all other members of the College. This policy shall be administered without regard to race, color, national origin, religion, sex, sexual orientation, disability, age, or on the basis of membership as set forth in USERRA, or on any other basis which is proscribed by law, except where gender, religion, national origin, or age is a bona fide occupational requirement.

Pima County Community College District will assure full participation of all persons contracting or providing services to the College.

The Board of Governors of Pima County Community College District has affirmed that the College is an equal educational/ employment opportunity institution. College discrimination policies apply to all students and to all educational programs, services, activities, and facilities, as well as to all employees and all terms and conditions of employment.

To inquire about filing a discrimination complaint, or for general information related to discrimination or Title IX issues, the College's discrimination/sexual harassment complaint procedure, or the rights and protections afforded by the ADA, contact Terry Flores, Affirmative Action Officer, at the Pima Community College District Office, 4905C East Broadway Blvd., Tucson, AZ, 85709-1310, (520) 206-4539. Confidentiality will be practiced on a need-to-know basis.

Harassment (Including Sexual Harassment) Policy Statement

Pima Community College District is committed to promoting and maintaining a productive work and educational environment free of discrimination and harassment. In keeping with this commitment, Pima County Community College District will not tolerate verbal or physical conduct by an employee or student that harasses, disrupts, or interferes with another's work performance or education or that creates an intimidating, offensive or hostile work or educational environment.

Employees and students are expected to maintain a productive work and educational environment that is free from harassing or disruptive activity. No form of unlawful harassment will be tolerated, including unlawful harassment for the following reasons: race, national origin, religion, disability, pregnancy, age, military status or sex. Special attention should be paid to the prohibition of sexual harassment, which includes harassment by members of the same or opposite sex.

Each administrator, faculty member and supervisor has a responsibility to keep the workplace free of any form of unlawful harassment, and in particular, sexual harassment. No supervisor is

to threaten or insinuate, either explicitly or implicitly, that an employee's refusal or willingness to submit to sexual advances will affect the employee's terms or conditions of employment.

Similarly, each administrator and faculty member has a responsibility to keep the campus and classroom free of any form of unlawful harassment, and in particular, sexual harassment. No faculty member or administrator is to threaten or insinuate, either explicitly or implicitly, that a student's refusal or willingness to submit to sexual advances will affect the student's status, including grades.

Other unlawful discrimination, including sexual harassment, whether committed by administrators, faculty, supervisors, non-supervisory employees, students or non-employees, is also prohibited. Such conduct includes, but is not limited to:

- A. Unwanted physical contact or conduct of any kind, including sexual flirtations, touching, advances or propositions;
- B. Verbal harassment of a sexual nature, such as lewd comments, sexual jokes or references, and offensive personal references;
- C. Jokes of a sexual nature;
- D. Demeaning, insulting, intimidating or sexually suggestive comments about an individual's dress or body;
- E. The display in the workplace of demeaning, insulting, intimidating or sexually suggestive objects or pictures, including nude photographs;
- F. Demeaning, insulting, intimidating or sexually suggestive written, recorded, or electronically transmitted messages.

Any of the above conduct, or other offensive conduct, directed at individuals because of their race, national origin, religion, disability, pregnancy, age or military status is also prohibited.

Matters with a sexual connotation or sexual content which occur in legitimate educational curricula or endeavors do not violate this policy unless used excessively or improperly. Although it is not possible to list every act or matter described which can violate this policy, examples include but are not limited to the following:

- A. Repeated focus on topics of a sexual nature;
- B. Use of profanity outside of the subject matter being taught;
- C. Use of vulgarities;
- D. Humiliating, embarrassing or otherwise harassing any individual or group of individuals.

Any member of the College community, especially administrators and supervisors, who believes that the actions or words of any other member of the College community constitute unlawful harassment has a responsibility to report the complaint as soon as possible. Issues of unlawful harassment covered by EEO laws should be directed to the Affirmative Action office. All other forms of harassment should be directed to the Human Resources Employee Relations office.

All complaints of harassment will be investigated in as prompt, impartial and confidential a manner as possible under the ADA and Equal Opportunity/Discrimination Complaint Procedure or under the appropriate College personnel or student handbooks. All members of the College community are required to cooperate in any investigation. Both the charging party and the respondent will be given the opportunity to present their side of the incident.

Any employee or student who is found to have violated this harassment policy will be subject to appropriate disciplinary action, depending on the circumstances, up to and including termination for employees or expulsion for students.

Disciplinary action will be taken against any individual who files a false discrimination or harassment complaint and against any individual who provides false testimony during investigations.

Employees are required, as a condition of employment, to cooperate with the College's investigation of harassment complaints.

Retaliation against any member of the College community for filing an internal or external complaint or participating in an investigation is strictly prohibited and will be grounds for disciplinary action up to and including termination for employees or expulsion for students.

The College administration is authorized to establish regulations and procedures to effect this policy.

Americans with Disabilities Act

It is the policy of Pima County Community College District to comply with the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973 as amended, as well as other applicable federal and state laws and regulations that prohibit discrimination on the basis of disability. No qualified person will, because of disability, be denied access to, participation in, or the benefits of any program, activity, or service offered by the College.

The College will make every effort to (1) ensure that qualified individuals with a disability are provided a reasonable accommodation, and (2) promote respect for the dignity and equal treatment of individuals with disabilities.

Equal Educational Opportunity Policy

The Board of Governors affirms that the Pima County Community College District is an equal educational opportunity institution. In support of this commitment, the Board of Governors authorizes and directs the Chancellor to implement regulations and procedures to facilitate opportunity for equal access to, retention in, and completion of College educational programs.

Leticia Menchaca, Dean of Student Development
A.A. Pima Community College; B.S., M.Ed. University of Phoenix

Simone Gers, Acting Division of Instruction—Occupational Programs
B.A., M.A. University of Houston-Clear Lake

Elizabeth E. Wheeler, Division Dean of Instruction
B.A., M.A. University of Texas-El Paso

Downtown Campus

Dr. Johnson Bia, Campus President
B.S., M.S. University of Arizona; Ph.D. Iowa State University

Dr. Harry Muir, Dean of Instruction
B.S., M.S. University of Kansas; Ph.D. Kansas State University

Dr. Anne M. Vosberg, Acting Dean of Student Development
B.A. Smith College; M.Ed. University of Arizona; Ed.D. Northern Arizona University

Terry T. Forster, Division Dean of Instruction—Industrial and Technical Education
A.A., A.A.S. Pima Community College

Laurel Kracen, Acting Division Dean of Student Support Services
B.A. University of Illinois; M.Ed. University of Georgia

Dr. John J. Merren, Division Dean of Instruction—Business and Liberal Arts

B.S., B.A., M.A. Lamar University; M.Ed., Ph.D. University of Arizona

Dr. Daniel Wright, Division Dean of Instruction—Science and Communication Arts

B.A. West Virginia University; M.B.A. Pace University; M.S., Ph.D. University of Maryland

East Campus

Charlotte A. Fugett, Campus President
B.S. Longwood College; M.B.A. University of Richmond

Dr. Mary Ann Martinez Sanchez, Dean of Instruction
B.A. Duke University; M.A., Ph.D. University of Notre Dame

Juan Soto, Acting Dean of Student Development
B.A. University of Arizona; M.Ed. Northern Arizona University

Ricardo Castro-Salazar, Division Dean of Instruction—General Education, Social Sciences and Developmental Education
B.S.B.A. Instituto Tecnológico de Sonora; M.A. University of Arizona, M.A. University of Amsterdam; M.Ed. Universidad La Salle—Mexico City

Dr. Ann Christensen, Division Dean of Student Support Services
B.Sc., M.Sc. Concordia University; Ph.D. Queen's University at Kingston

Thomas Tomasky, Division Dean of Instruction—Business, Language, Sciences and Health Related Technology
B.S. Millersville University; M.V.E. Northern Arizona University

Northwest Campus

Dr. Sylvia M. Lee, Campus President
A.A.S. Pima Community College; B.A., M.Ed. University of Arizona; Ph.D. Arizona State University

David Padgett, Dean of Instruction
B.S., M.B.A. Mississippi State University

Dr. Lorraine Morales, Dean of Student Development
B.S. Western New Mexico University; M.A. University of Arizona; Ed.D. Northern Arizona University

Patricia Houston, Acting Division Dean of Instruction—Humanities, Social and Behavioral Sciences
A.B. Syracuse University; M.A. Universidad de las Americas

Ted A. Roush, Division Dean of Instruction—Science, Mathematics and Professions
B.S. United States Air Force Academy; M.S. Boston University

West Campus

Dr. Louis Albert, Campus President
B.S. Loyola College of Maryland; M.S. University of Maryland; Doctor of Humane Letters Cuttington University College; Ph.D. University of Maryland

Victoria H. Cook, Dean of Instruction
B.A., M.A. University of Arizona

Nancee J. Sorenson, Dean of Student Development
B.S., M.S. Indiana State University

Mary E. Elasowich, Division Dean of Student Support Services
B.A. University of Massachusetts; B.S.N. University of Phoenix; M.A. Assumption College

Dr. Mary Kay Gilliland, Division Dean of Instruction—Science, Mathematics, Engineering, and Technology
B.A. Bryn Mawr College; Ph.D. University of California San Diego

Dr. Mary Beth Ginter, Division Dean of Instruction—Business, Computers, Languages, and Social Sciences
B.S. Oakland University; M.A. Eastern Michigan University; Ph.D. University of Arizona

Marty Mayhew, Division Dean of Instruction—Nursing
B.S. University of Nevada-Las Vegas; M.S. University of Southern California; M.S. University of Colorado

Dr. Darla Lammers, Acting Division Dean of Instruction—Communications, Humanities, and Visual and Performing Arts
B.A.Ed., J.D. University of Arizona

John E. Gillis, Acting Division Dean of Instruction—Health Related Professions, and Fitness and Sport Sciences
B.S. Minnesota State University; M.A. University of Minnesota

Emeritus Status

The Board of Governors confers Emeritus status on distinguished individuals, retired from the College, to signify honor and respect for outstanding accomplishments and contributions to the College over many years. This distinction is a tribute to the special relationship that will extend well into the future as the College periodically calls upon the services of these highly regarded colleagues for the benefit of the College community. Faculty and administrators receiving such an award exemplify the characteristics of ideal community college educators who, through their professional careers at Pima Community College, have contributed significantly to disciplines or services, professional organizations, their campuses, the Central Office, the College district, and the Pima community.

James E. Gibson, Ed.D., Provost Emeritus 1991
Edward M. Duperret, M.Ed., Faculty Emeritus 1992
Leland H. Scott, Ph.D., Faculty Emeritus 1992
Henry "Hank" Oyama, M.Ed., Vice President Emeritus 1992
Robert Longoni, M.A., Faculty Emeritus 1993
Jamie Trainer, M.S., Faculty Emerita 1993
Constance Howard, M.S., Dean Emerita 1993
Johnas F. Hockaday, Ph.D., Chancellor Emeritus 1995
Max Jules Gottschalk, B.A., Faculty Emeritus 1999
Robert D. Jensen, Ed.D., Chancellor Emeritus 2003
Angela Zerdavis, Ed.D., President and Faculty Emerita 2004
Miquel A. Palacios, Ph.D., President Emeritus 2004
Philip J. Silvers, Ph.D., Assistant Vice Chancellor Emeritus 2004
Arthur Alberding, Ph.D., Faculty Emeritus 2005

Distinguished Staff Status

The Board of Governors confers Distinguished status on retired College staff to signify honor and respect for outstanding accomplishments and contributions to the College over many years. Staff members receiving such an award exemplify the characteristics of the ideal community college. Through their professional careers at Pima Community College, these distinguished individuals have contributed significantly to their areas of service, professional organizations, their campuses, the Central Office, the College district, and the community.

Emily McMillin, 1996
Harold Thompson, 1996

Pima Community College Faculty

Alice L. Adamson, Mathematics (1992)
B.S. Maryville College; M.S. California State University-Hayward

Darla J. Aguilar, Mathematics (1999)
B.S. Eastern Montana College; M.A. University of Arizona

Cecilia Lou Alter, Counselor (2007)
B.A. Southwest Texas State University; M.S. University of Rhode Island

Ceanne Alvine, Nursing (2008)
B.S. University of Iowa; M.B.A. Arizona State University

Carmen Amavizca, Writing (1999)
B.A., M.Ed., University of Arizona

Brooke Anderson, Writing (2007)
B.A., M.A. California State University-Sacramento

Emilia Andujo, Dental Hygiene Education (1991)
A.A. Rio Hondo Community College; A.S. Cerritos Community College;
B.S. California State University-Long Beach; M.S. California State University-Los Angeles

Theresa M. Riel, Mathematics (1996)

B.A., M.A. University of Arizona

Jodi Richardson-Delgado, Counselor (2007)

B.M. Arizona State University; M.Ed. Northern Arizona State University

Vincent J. Riggs, Spanish (1988)

A.B. University of Northern Colorado; M.A. University of Arizona

Donald R. Roberts Sr., Business (1982)

B.A. University of Nebraska; M.S. George Washington University

Irma Jean Rodriguez, Administrative Support Careers (1982)

B.S.Ed., M.Ed. University of Arizona

Stephen W. Romaniello,**Communication Graphics (1990)**

B.F.A. University of Arizona

Susan R. Rondeau, Counselor (1990)

A.A. Pima Community College; B.F.A., M.Ed. University of Arizona

Linda Rousos, English as a Second Language (1996)

A.B., A.M. University of Illinois

Linda Saavedra, Medical Laboratory Technician (2007)

B.A. University of Colorado; M.A. University of Arizona

Medhi Sadatmousavi, Mathematics (1988)

B.S., M.S. University of Arizona

Tommy M. Salazar, Machine Tool/Metallurgy (1999)

Certifications: Geometric Tolerance and Dimensioning, Compact II Numerical Control (Mill), Compact II Numerical Control (Lathe), Carbonyl Cutting Technology and High Efficiency Machining, Computer Numerical Control Programming, Bravo Draft Training, GEN/GSM Training, Smart-Cam 3-D.

Dr. Steven J. Salmoni, Writing (2005)

B.A. Amherst College; M.A., Ph.D. State University of New York-Stony Brook

Dr. Susan San Jule, Writing (2002)

A.A.S. Shoreline Community College; B.A. University of Washington; M.A., Ph.D. University of Arizona

Lloyd J. Sandmann, Computer Software Applications (2000)

B.A. California State University-Long Beach; M.S. University of Phoenix

Yvonne M. Sandoval, Mathematics (1992)

B.S. University of Southern Colorado; M.A. University of Arizona

Julia Santo, Nursing (1991)

B.A. University of Massachusetts; B.S. University of North Carolina; M.S. University of Arizona

Erich C. Saphir, Political Science (1997)

B.A. University of Delaware; M.A. Fordham University

Dr. Ann L. Schlumberger, Writing (1992)

B.A. University of Texas; M.A., Ph.D. University of Arizona

Dr. Nancy Schmidt, Biology (2003)

A.B. Colgate University; M.S. University of Arizona; Ph.D. University of South Florida

Duke G. Schoonmaker, Biology (1992)

B.S. Northern Arizona University

William Scurrah, Writing (1996)

B.A. Augsburg College; M.A., M.F.A. University of Arizona

Abbie S. Segura, Counselor (2000)

B.S.W., M.S.W. New Mexico State University

Dr. Thomas Selegue, Chemistry (2002)

B.S. Bowling Green State University; Ph.D. University of Illinois

Dr. Alexander V. Shayevich, Engineering (2005)

M.S. Azerbaijan Institute of Oil and Chemistry; Ph.D. Moscow Institute of Oil and Gas

Dr. Mary Shelor, Reading (1997)

A.A. Missouri Western College; B.A. State University College of New York; M.A., Ed.D. University of Arizona

Mary F. Sibayan, Mathematics (1997)

B.A., M.S. University of Arizona; M.S.W. Arizona State University

DeLisa Y. Siddall, Counselor (2005)

B.A. John Jay College of Criminal Justice; M.A. Chapman University

Ann Simmons-Myers, Art (1990)

B.A. Ohio State University; M.F.A. University of Arizona

Dr. Robert B. Simpson, Biology (2005)

B.S. University of Illinois; M.B.A. University of California; M.A., Ph.D. Harvard University

John Skapura, Computer Information Systems (2000)

Industry Certifications: Microsoft Certified Systems Engineer; Microsoft Certified Professional + Internet; Cisco Certified Network Associate; Cisco Certified Academy Instructor; Certified Novell Administrator; A+ Certification

Edward D. Smith, Mathematics (2000)

B.S. Central State University; M.S. Ohio University

Rosalia Solorzano, Sociology (1997)

M.A. University of Texas-EI Paso; M.A. Webster University

Carlos D. Sotomayor, Counselor (2000)

A.G.S. Pima Community College; B.A. University of Arizona; M.A.Ed. University of Phoenix

Remedios R. Sotto, Counselor (1999)

B.A. University of California-Davis; M.S. University of Arizona; M.S. San Diego State University

Virginia Soulon, Accounting (2003)

A.A., B.A., M.B.A. New Mexico State University

Raymond E. Sparks, Business and Marketing (1975)

B.S., M.S.Ed. Northwestern State University

Dr. Thomas M. Speer, Writing (1992)

B.A. California State University-Fresno; M.A. San Francisco State University; Ph.D. University of Arizona

Michael Stack, Art (2002)

B.F.A. University of Pennsylvania; M.F.A. State University of New York

Clarence H. Stanley, Mathematics (1999)

B.S.Ed., M.A. University of Arizona

Robin Steinberg, Mathematics (1992)

B.A. State University of New York-Buffalo; M.A. University of Arizona

Dr. David V. Stephen, Anthropology (1975)

A.A. Long Beach City College; A.B. California State University-Long Beach; M.A., Ph.D. University of Arizona

David Stephenson, Automotive Technology (2003)

A.A.S. Pima Community College

Daniel David Stogsdill, Aviation Technology (1991)

A.A.S. Pima Community College

Mary Stout, Librarian (1999)

B.A. California State University; M.L.S. University of California; M.A. University of Arizona

Dr. Pamela Sulger, Counselor (2007)

A.A. Foothill College-Los Altos, California; B.A., M.A. San Jose State University; Ph.D. California Coast University

Dottie K. Sutherland, Hospitality, Travel and Tourism (1995)

B.A. Georgia State University; M.B.A. University of Arizona

Kristine Swank, Librarian (2001)

B.A. Dana College; M.L.S. University of Arizona; M.I.M. Thunderbird American Graduate School of International Management

Louis Taber, Computer Information Systems (1985)

B.S.E.E. University of Arizona; M.S. San Jose State University

Michael R. Talbot, Geography (1998)

B.S. Michigan State University; M.A. West Michigan University

Karen K. Tam, Dental Hygiene (2005)

A.A.S. Phoenix College; B.A. University of Missouri-Columbia; M.S. University of Missouri-Kansas City

Julie C. Tarr, Mathematics (1999)

B.S. Northern Kentucky University; M.A. Miami University; M.S. Louisiana State University

Hirotsune Tashima, Art (1999)

B.F.A. Osaka University of Arts; M.F.A. Alfred University

Agustin A. Taylor, Spanish (1987)

B.A. University of Southern Illinois; M.A. Universidad de Guadalajara

Leslie F. Taylor, German (1993)

B.A., M.A., M.A. University of Arizona

Barbara E. Thompson, Nursing (2006)

A.N.D. The University of the State of New York; B.A. University of Minnesota-Twin Cities; M.S.N. University of Phoenix; J.D. William Mitchell College of Law

Dr. Renee F. Tossell, Radiologic Technology (1991)

B.S., M.A. Northern Arizona University; Ph.D. University of Arizona; A.R.R.T. Registered Radiologic Technologist; A.R.R.T. Registered Mammographer; A.R.R.T. Registered Cardiovascular Interventional

C. Ann Touseley, Writing (1992)

B.S. Northwestern University; M.A. University of Arizona

Patricia C. Townsend, Mathematics (2005)

B.S. Bemidji State University; M.A. University of Arizona

Ninfa Trejo, Librarian (2002)

B.S. The Union Institute and University; M.L.S. San Jose State University

Pamela B. Truitt, Dental Assisting (1989)

A.A. Pima Community College; A.A. Phoenix College; B.S.Ed., M.Ed. Northern Arizona University

Michael S. Tveten, Biology (1992)

A.A. Lee College; B.S., M.S. Texas A. & M. University

Laura E. Valdivia, Spanish (1999)

B.A.Ed., M.A. University of Arizona

Laura Van Etten, Writing (2007)

B.A., M.A. University of Montana

Dr. Tineke Van Zandt, Anthropology and Archaeology (2000)

A.B. Bryn Mawr College; M.A. University of Texas; Ph.D. University of Michigan
